## Columbia Top Level Promotions

In a major announcement by Bruce Lundvall, the new President of CBS Records division, Ron Alexenburg has been named Senior Vice President, Epic and Associated Labels. In his new role, Alexenburg will immediately begin to move to expand the activities at Epic and the Associated Labels.

Lundvall also announced the promotion of Jack Craig to Vice President and General Manager, Marketing, CBS Records. In his new position, Craig will have the responsibility to develop overall marketing directions for the product on Columbia, Epic and all other labels distributed by CBS.

These moves were made late last week. R&R learned just before press time this week that Don Dempsey has been appointed Vice President, Marketing, Columbia label. The announcement was made by Jack Craig, the newly named VP and GM. The Columbia promotion department, headed by Stan Monteiro will be working closely with Dempsey.

## July 4th Radio Moment

WRKO/Boston PD J.J. Jordan has suggested that radio do something special at a certain pre-determined time on July 4th. A suggestion was raised that possibly all radio stations across the nation should play "God Bless America" at 3pm. All interested stations should contact Jordan who has volunteered to help coordinate this massive effort through R&R.

## Morning Man Shuffle

KSTP/Minneapolis has filled their desirable morning drive slot with "J. Parker" Antrim. KSTP PD Marc Driscoll noted how happy he was to gain the talents of Parker (who has dropped Antrim with the move). Parker comes from rockers in San Jose and Seattle.

KCBQ/San Diego is now in need of a morning man as Jay Stone exits. Stone noted that the station wanted to go in a different direction in the mornings. Stone can be reached at (714) 562-2060. Mean while, KCBQ PD Gerry Peterson needs "a loon, no time and temps need apply." Contact Peterson at (714) 286-1170.

## Quickies

Linda Ronstadt, Jackson Browne and the Eagles are set to perform a benefit concert in Largo, Maryland for Presidential candidate Jerry Brown. Concert is on May 14th and is expected to raise \$100,000. Concert committee chairmen are Paul Drew, Irv Azoff, Peter Asher and Peter Golden.

Several Capitol Records promotion men have resigned to join Al Coury at RSO Records.

George Harrison announced the appointment of Dennis Morgan as Director of Operations for Dark Horse Records.

During the height of the Cocoa Beach, Florida tourist season, CK101 ran a very successful promotion on the beaches, giving away "CK Jerseys" and "CK Bikinis," an example of which is displayed here on one of the station's "CK Chicks" who handed out the garb. Over 5000 jerseys were given out in just one weekend.

**KFRC SUPERWALK RAISES \$100,000**—Thousands of listeners turned out in support of the Northern California March of Dimes 20 mile walk. Dr. Don Rose, recently recovering from a leg injury, raised \$3000 from his listeners as he walked three miles with a cast from hip to toe on. Since Dr. Don did the deed, our question is why KFRC PD Michael Spears passed out behind him?

Thom O'Hair has resigned his position as Creative Director and afternoon drive jock on KMET/Los Angeles to become West Coast Regional Promotion Director for Capricorn Records. According to Operations Director Sam Bellamy, his shift

will be taken over by Bob Coburn.

Jesse Bullet, has resigned his position as morning man at KGB-AM, San Diego to become Program Director of KDEO in that market. Both stations are AMAOR's.

## Setting The Record Straight

Dear R&R:

A couple of years ago Radio & Records decided to publish an accurate AOR airplay report, something the industry in general, and AOR radio specifically, needed. It worked! Radio & Records has achieved the great degree of success it deserves.

Unfortunately, success does have its drawbacks. Radio & Records' huge success has led to increased pressure to report certain records, whether played or not. It's with great embarrassment we admit that we have given in to such pressure in the past.

Recently came the rude awakening that we were lessening the accuracy of the AOR airplay report, the very thing we had longed for for so long...a straight forward sheet that serves as an important reference tool in helping to effectively program KBPI. And if we were reporting records we were not playing perhaps others were, too.

It's been a pleasure for both of us to have been associated with Radio & Records since the outset, and we most certainly hope to continue, but from this point on we refuse to report any record not receiving substantial airplay on KBPI-FM...and we urge our fellow AOR stations to do the same.

We hope you will accept our apologies, and we hope any other station reporting records not played will also cease. We need Radio & Records for what it is: THE accurate AOR airplay report.

Sincerely,  
Frank Felix  
Program Director  
Jeff Pollack  
Music Co-ordinator  
KBPI FM/Denver

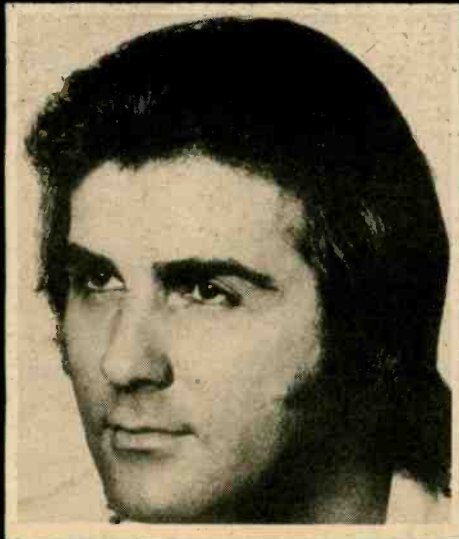

Following a recent editorial by AOR Editor Mike Harrison, we received this letter from KBPI. We feel the matter so important that we are publishing the letter on the front page.

**TONY ORLANDO & "DAWG"**—While in Atlanta for a concert, Tony stopped by the WQXI studios for an hour long on air rap. ### KNUS FIGHTS KLIF APPLICATION FOR SECOND LICENSE

The McLendon Corporation, owners of KNUS/Dallas, recently filed a petition with the FCC against Fairchild Broadcasting, owners of KLIF, on the basis that Fairchild is not qualified to become a licensee of a second broadcast facility, KDTX-FM/Dallas. Fairchild's application for the KDTX license would change the current religious facility to a contemporary format.

KNUS General Manager Bart McLendon told R&R that the petition outlined two different areas in which his company felt Fairchild displayed actions which should be brought up before the Commission. The first involved past programming on KLIF, alleging that ratings had been hyped on the air via contests during rating periods, and off the air via outside advertising scheduled for those time periods. The second part of the petition alleged that KLIF's community ascertainment survey of community needs contained many errors and was misrepresentative. KNUS obtained copies of original ascertainment forms from KLIF, and filed these along with affidavits from some of the surveyed community leaders stating that some of the information on KLIF's forms was incorrect. McLendon noted that in one case, a woman who was interviewed was listed on the ascertainment form as Black, which she is not. Similar errors were also noted on a number of other forms. According to McLendon, the forms also "...included interviews with people who could not in any way be deemed to be community leaders, and in fact were not even residents of the community."

R&R spoke to Fairchild division President Allan Henry, who talked with us about his reply to the FCC

on the petition's charges. Henry stated that KLIF was "not remiss" on hyping charges, and that the station regularly conducts on-going contests throughout the year, not just during rating periods, and that the subject of outside advertising was "no problem." On the subject of the ascertainment forms, Henry said that all 87 original forms were valid, but that there had been some "clerical" errors. KLIF's forms, Henry noted, contained more information than the Commission required on ascertainment, such as race classification and signatures. In addition, KLIF alleges that McLendon Corp. "employed harrassing methods" when contacting the community leaders in order to have them file affidavits, and also says that McLendon altered some of KLIF's documents. Henry also stated that Fairchild believes that there is a "conspiracy" between McLendon Corp. and local weekly newspaper Oak Cliff Tribune, which has run editorials against the proposed format change. In addition to validating their previous ascertainment, KLIF included 193 new community surveys in their reply to the Commission, pointing out that the needs and problems ascertained by the supplemental surveys backed up their original survey.

### GENEROUS OWNER

WAPE/Jacksonville PD John Long had a dream come true last week. WAPE owner Stan Kaplan dropped in the studios during the "Grease-man's" AM drive show, and told him that he wasn't giving away enough money. Kaplan then proceeded to draw out five \$100 bills from his pocket and demanded that Greaseman give them away to callers. Then, during J.J. Jackson's afternoon drive shift, Kaplan repeated the offer, bringing the total giveaway to \$1000 for the day.

### CORRECT DIGITS WIN PRIZES

Over \$3000 in prizes have already been won in WQXI/Atlanta's "Cave Of The Seven Treasures" contest. One seven-digit number was designated as the key to the right path through the mysterious cave to find the prizes. The second phase of the contest offers \$5000 in prizes to listeners who call in their guesses. "Haunting" sounds are heard in the background as the caller enters the

cave, and if their combination guess is wrong, a prehistoric monster ends their cave trip.

WPGC/Washington D.C. has offered over \$10,000 in cash and prizes in their "Great Gold Rush." One digit of the correct combination to the stash is given out on the air each day, the first listener with all digits in the right order wins the prizes.

### A "BIGFOOT" PAYS OFF

WLEE/Richmond listeners with large shoe sizes have the edge in the station's "Bigfoot" contest, tying in with Big Tree Records' Bro Smith single. Callers are awarded the number of LPs that matches their shoe size; a size 12 foot wins a dozen hit albums.

### RADIO REAPS AWARDS

KEWI/Topeka walked away with three awards during various state broadcasting meetings recently. A commercial produced by KEWI personality "Doc" Holiday was selected as best in the state, and the Best In State PSA award went to the station's VP and GM Bob Russell. KEWI's news department won an overall coverage award from the Associated Press.

A few of the 400,000 13Q/Pittsburgh "stick it" promotion bumperstickers distributed by the station are pictured here on one able-bodied listener who won \$50 for showing up at the 13Q studios with nothing on but the stickers. Also shown here is afternoon personality Don Cox who presented the cash to the loyal listener.

Columbia Records held a private party after Neil Diamond's packed house performance at the Grand Ole Opry in Nashville. Diamond celebrated with WLAC VP and PD Dick Kent, WLAC's John Conlee, Columbia promo exec Eddie Esserman, Peggy Wallace, Diamond, CBS VP Nashville Operations Ron Bledsoe, Freddy Weller and local TV personality Oprah Winfrey.

Racing-silk clad WFIL/Philadelphia personalities Bill Corsair (left) and Jim O'Brien (right) stand beside their mounts at the conclusion of "The First Great Personality Handicap" at a local race track. WFIL "Boss Chicks" along with Corsair's wife/producer Janis (center) and track grooms pose with the horses that brought O'Brien and Corsair in first and second, respectively.

Country radio station KRZY, Albuquerque, has just begun a promotion that involves listeners trying to guess the contents of the "Black Box," (pictured above). Eight clues a day are announced on-the-air. Listener calls are taken once an hour. Postcard entries are also accepted. The winner gets whatever is inside. The "Black Box" is located at a local car dealer where entry blanks are also available.

Throngs of KWIZ/Santa Ana listeners attended the live broadcast of the "First Annual Catered Breakfast and Bar Mitzvah" in honor of Bob Shannon's first year anniversary at the station. Morning man Shannon held the festivities in the station parking lot at the bright and early hour of 7:30am. Listeners provided food and drink in return for such high-lights as the Bar Mitzvah of a listener, the showing of a "Navy Hygiene" film, a violinist who played gypsy music (symbolic of the life of a disc jockey) and much more. The climax of the entire event took place when Shannon took out his hostilities by beating on a plastic replica of the station manager. Pictured left to right are: "station manager," Shannon, newsman Ed Nix, and winner of the Ed Nix look-a-like contest.

### NABET Sues NBC

The National Association of Broadcast Employees and Technicians, in the midst of a long strike against the NBC Network, has filed a \$10 million lawsuit against the network, citing libel and NBC's "malicious" suit filed against the union in April. ### EMI, Meggs Suit Dismissed

A \$30 million lawsuit against EMI Ltd, three of its directors, and Capitol Records' Brown Meggs has been dismissed in a Los Angeles U.S. District Court. The suit will continue with Capitol Industries and two other Capitol executives named as defendants.

### Chi-Lites' Members Sentenced

Eugene Record, Marshall Thompson and Robert Lester, members of the Chi-Lites, have been fined \$5000 and placed on one year probation by a Newark Federal Judge on charges of failing to file income tax returns. All three members had pleaded guilty to the charges, which stemmed back to 1972. Both Record and Thompson had testified in the Newark trial which recently resulted in jail sentences for Brunswick Records' executives.

### FTC Accuses Levi-Strauss

Levi Strauss & Co. has been accused of price fixing for their retail clothing by the Federal Trade Commission. The Commission suggests that the company should be stopped from making any suggested retail pricing on their merchandise for a three year period. The Commission recommendation stated that Levi should mail a letter to all retail outlets stating that they can sell Levi products at any price they want, regardless of other agreements with the company, and that the retailers may participate in co-op advertising regardless of advertised prices. The FTC's complaint against Levi said that they violated the Federal Trade Commission Act by outlining specific prices to retailers, and requiring dealers to buy other items in order to supply the company's blue jeans.

### Arbitron Ranks ABC-TV First

The ABC Television Network took prime time honors over their competitors during the "Second Season," according to the Arbitron SuperSweep report, taken during February. The SuperSweep is based on a sample of 101,240 tabulated household diaries collected in 208 ADI TV markets. In the sought after early evening news battle, CBS placed first, NBC second, and ABC third. NBC's "Tonight Show" continues as the leader with late-night viewers with over 5 million homes tuned in per half hour, compared with the CBS Late Movie which had 2.8 million viewers.

### Advertisers Move Away From Media Commission

In figures released by the Association of National Advertisers, a drop of 10% was noted in advertisers using the 15% media commission method of agency compensation. 68% now use the method, while others are moving toward use of negotiated fees, sometimes paying less than 15%. Of those using the fee basis, 15% still use media commissions as a factor, with the remaining 17% using fees only.

### Pay Matches Up With Cost Of Living

The average starting salary of American workers is keeping pace with inflation, with a 4 to 8 percent hike from last year's figures. Cost of living raised 6.1% during the past year.

### FTC Complaint Against Trade Schools

Legal action may be taken against trade schools if they misrepresent job opportunities or salaries available. The Federal Trade Commission has filed a complaints against some trade school operators on those charges, and also said that schools should give refunds if they were of little or no value in obtaining jobs for the graduates.

### NLRB On Union Questioning

It is illegal for companies to question their workers on their union activities, even though the company acknowledges a union as representing the employees. The National Labor Relations Board ruled that a worker's rights are interfered with by such questioning.

### Copyright Laws On Art Reproductions

A U.S. Court Of Appeals has ruled that art reproductions taken from an original must be more than a mere copy in order to be protected by current copyright laws. According to the court, "an original contribution" must be made on the copies in order to have protection.

### More Mail Cost Reductions

In addition to lower rates for bulk-mailing of first class and air mail letters, the U.S. Postal Service has approved changes in the principle giving discounts on some fourth class mail and revised costs for business reply mail. In addition, the Post Office wants to cut down on smaller than regulation size mail, and charge more for oversized first class and airmail letters.

### FTC Opens Files

Previously secret records in the Federal Trade Commission's files are now open to firms that are being questioned by the Commission. Files which are similar to those of the company's case may be inspected. Certain personal and commercial matter will still be withheld from inspection. The FTC hopes to stop subpoenas for records and other orders they have been swamped with for company files.

### Bumper Crop Of Stickers

One company that makes bumperstickers projects a record number to be made during 1976. An estimated 500 million stickers, 10 times the output of 10 years ago is forecast, partially because of the Bicentennial and election year.

## THE FCC [So You Can Understand It]

The Commission has come to a very interesting ruling. Specifically, the Commission has adopted a procedure whereby applicants who pass the written examination for any of the various classes of commercial radio operator licenses (Restricted Third, Third, Second, First) may be issued temporary authorization to operate radio stations for a period of up to 60 days, pending the issuance of the license document itself. The new procedure will become effective June 15, 1976.

As you are well aware, license documents are normally issued within seven to ten days following the examination. However, the Commission has finally come to realize that delays are the rule rather than the exception thus necessitating the interim procedure.

Also, the FCC has assigned a new zip code for CB applicants in order to expedite mailing. The new address is: FCC, Gettysburg, Pennsylvania 17326.

### PROGRAM DUPLICATION RULES AMENDED

The Commission has amended its rules to further limit the amount of programming that may be duplicated by commonly owned AM and FM stations in the same local area. Effective May 1, 1977, if either the AM or FM station is licensed to a community of over 100,000 population, the FM station will not be permitted to devote more than 25% of programming in an average week that duplicates the AM. If either the AM or FM is licensed to a community of over 25,000 but less than 100,000, the FM station will be limited to 50% duplication in the average program week. Of even greater significance is the fact that effective May 1, 1979, the 25% limit on 25,000 to 100,000 population category.

The new limits are substantially more restrictive than the present rule which limited the 50% duplication to cities over 100,000 in population.

Requests for waiver of the rule must be filed on or before November 1, 1976. In earlier publications the Commission had advised that such waiver requests had to be filed on or before July 1, 1976.

Probably the most important aspect of the rule making concerns daytime only stations owned and operated in combination with an FM station. Contrary to rumor, there is no exemption for daytime only stations. The FCC said that the 25% limitations will be applied on May 1, 1977 to all stations in cities over 100,000 whether or not the AM station is daytime only or full-time.

### Radio Shack's CB Contest

With the CB craze now in full swing, the Tandy Corp.'s Radio Shack is running a contest picking up on the trend. \$1000 prizes will go to fifty people who submit the best original songs about CBs. The grand prize winner for the best song will walk off with \$18,000.

### World Records Book Resurgence

The Guinness Book of World Records is seeing a massive renewed interest recently, with the Sterling Publishing Co. having no trouble selling the 240,000 they print each year. Bantam Books has just recently printed 2.4 million copies of the paperback edition. The Guinness book has been in print since 1955, but has never seen such a demand for facts and figures as now. Spinoff books such as the Guinness Book of Olympic Records are also enjoying healthy sales.

### Solar Heat Promotions

A savings bank in Stoughton Massachusetts is promoting prizes that have to do with the sun, in order to bring attention to the fact that they use partial solar heat. Among the prizes offered to customers are a Pontiac Sunbird and tickets to the Boston Red Sox Sunday games. All visitors to the bank receive packets of sunflower seeds.

### McDonald's Breakfast Club

A five week Illinois and Wisconsin ad campaign on radio and TV is kicking off McDonald's Restaurants' new "Breakfast Club." Spots explain that a \$1 membership fee for the club enables customers to get coupons worth \$3.50 on the outlets' breakfast menus. Commercials are voice by former ABC radio show "Breakfast Club" host Don McNeill.

### Wall Street Journal Radio Buys

Spots for the Wall Street Journal are being run by 50 radio stations on a "per-inquiry" basis. Listeners are asked to contact the stations for subscription requests, the stations are then paid by the Journal by the number of subscriptions started. The plan, which has been running since February, has gained what a Journal spokesman said was "several hundred" new subscriptions.

### Soft Drink Competition

The nation's two largest soft drink companies are intensifying their competition. Pepsi Co.'s new Pepsi Light is now being expanded into major cities, along with an advertising campaign for the new low calorie drink. Coca Cola will soon kick off their new ad theme "Coke adds life to..." in major buys, as well as continuing competitive ads for Fresca, comparing it to Pepsi.

### Concord Ads On The Way

Nearly half a million dollars will be spent by Air France in the U.S., to promote the start of the supersonic Concorde flights between Washington and Paris, scheduled to start the end of the month. British Airways is also planning their advertising scheme for their Washington to London flights.

## Direct From Duncan

You might notice some new call letters in our research reports this week in the Country section. I'm happy to announce the addition of some new reporters to R&R Country. After carefully screening the many requests we had to be a reporting station, I feel the following new stations will not only effectively research their market, but will be a helpful source of information for finding new music. A big welcome to the following stations and personnel: WFNC, Fayetteville, North Carolina and Program Director-Music Director MIKE DAVIS; WITL, Lansing, Michigan and PD JIM WALTON; WIXZ, Pittsburgh and PD JOHN J. POISTER; KEED, Eugene, Oregon, and PD DON KENNEDY; KFGO, Fargo North Dakota and PD BILL HOVERSON; WHBF, Rock Island, Illinois and PD DICK STEWART, Music Director JOANNE KAYE HAAS; WTHI, Terre Haute, Indiana and PD RUTH ANN MÔDESITT, Music Director JIM DE MARCO; WCAW, Charleston, West Virginia and PD TOM MILLER; and WVMJ, Biloxi, Mississippi, and PD BOB LIMA and Music Director LANCE CARSON. We will have a few other markets to add next week.

And now the news: RON DENNINGTON is out as Program Director of Plough's WCOP, Boston. If interested in the gig, you might want to touch bases with Plough National PD CRAIG SCOTT, who is based at WJJD, Chicago...Former WMAQ, Chicago, air personality BILL COFFEY has joined the staff of WIL, St. Louis to do morning drive...New afternoon jock at KGA, Spokane, is ED DUNAWAY, formerly with KGHO, Hoquaim, Washington...MIKE MITCHELL from WMQM, Memphis, is now doing afternoon drive on KRMD, Shreveport...JONATHAN FRICKE, who is now at KLAK, Denver, will handle the music chores. Former music director and morning jock CON SCHADER will be moving to the news department...Also from Denver, PD R.T. SIMPSON of KERE has named JIM LOVE as music director...

More than \$4,000 was raised at the recent benefit for the family of the late TOM McCALL. The benefit was put together by BOB FULLER and JIM HUITT of WSLR, Akron...LEE PHILIPS, PD WNYN, Canton, Ohio, reports the First Northeast Ohio Country Music Seminar is scheduled for June in Homeworth, Ohio. Seminar's theme is "Tune-Up For Success" and will feature panels on songwriting, publishing, record promotion and distribution and other related topics.

Jobs Available: WAJR, Morgantown, West Virginia, is in need of a contemporary Country personality to handle afternoon drive. According to Program Director BOB BERRY, the money is above average for a small market. Tapes and resumes to P.O. Box 867, Morgantown, West Virginia 26505...WIXZ, Pittsburgh, needs an experienced morning person. Tapes and resumes to PD JOHN POISTER, P.O. Box 1360, McKeesport, Pa. 15132...KEED, Eugene, Oregon is looking for an airperson for afternoon drive. Call PD DON KENNEDY if you are interested, (503) 344-1457. Former afternoon drive jock PETE ST. JAMES has left to join KWJJ, Portland in the production and news departments...WVMJ, Biloxi, Mississippi, needs someone for air work by June 1. Contact PD BOB LIMA, P.O. Box 4606, Biloxi 39533.

PROMOTIONS: GARY KINES is doing a super job coming up with promotions for his station WSUN, St. Petersburg, Florida. His latest effort is "The World's Largest I.O.U." The station is inviting listeners to come down to sign the 1300 foot banner which reads "I.O.U. Mom—Love WSUN." Another promotion that recently worked well for Kines was his "Twosome Weekend" where they let listeners call-in to win duet albums, pairs of tickets and two dollar bills...WITL, Lansing, Michigan has just started the "Great American Country" contest, which is a Country Music bingo promotion. Good early response...May 23 most of the WDEE, Detroit, staff including Operations Director TOM COLLINS, air talent DEANO DAY and BOB BURCHETT and selected members of the "Big D" sales team will walk 20 miles for the March of Dimes Walk-A-Thon (Well, that's shoe biz)...WIRE, Indianapolis has given away more than \$13,000 in cash and prizes in their "Dial-A-Deal" promotion to more than 150 winners...WPOC, Baltimore gave away rocking chairs for Mother's Day. (Rock on ya!!!)...WONE, Dayton is giving away a new Kawasaki motorcycle to the listener who can guess the mileage put on it during a three week vacation by one of the station's jocks...KJZZ, Phoenix, is having a "Radio-Rodeo." Listeners call in and guess if the rider of that hour's imaginary bucking bronk will stay on or fall off...WMC, Memphis, is having a Song Writing Seminar with one of the finest songwriters in the business, TOM T. HALL. The seminar will be run on-the-air, with listeners invited to call in and ask questions about songwriting.

A final bit of madness: "Did you hear about the plastic surgeon who hung himself?" Well, that's the long and short of it for this week...

Three distinctively different singers, Linda Ronstadt (left), Dolly Parton and Emmylou Harris, teamed up at the Opry House in Nashville April 27th. The occasion was the taping of RCA recording artist Dolly Parton's TV show "Dolly" which premieres this September. The taping marked the first time the trio has appeared together on stage.

Buck Owens, star of "Hee Haw" in Music City this week to complete recording his first Warner Bros. album—scheduled for mid-July release. This is the first time in seven years Buck has recorded in Nashville. Veteran producer Norro Wilson, A&R Director for Warner Bros. is producing the album—chief engineer is Lou Bradley. Pictured above—Norro Wilson, Jack McFadden (Buck's manager) and Buck Owens.

What better place or time to introduce WWOK's new afternoon drive personality, Hal Smith. Hal appears dressed as a car on stage recently at the Dade County Youth Fair. In the accompanying photo, Hal is on stage just before the Bill Anderson show with emcee Ted Cramer, WWOK program director.

**GEORGE JONES**  
 The Battle (Epic)  
 The older he gets the better he sounds. Another strong production album under the direction of BILLY SHERRILL. As "The Battle" continues for airplay, Jones has provided some sure winners. Best cuts are the ballads "Love Coming Down" and "I Can't Get Over What Lovin' You Has Done." The uptempo "I'll Come Back" is very good.

**LARRY BALLARD**  
 Honky Tonk Heaven (Capitol)  
 A debut LP for Capitol proves to be a worthy entry. From honky tonk to blues this new talent handles both with style. Good musical arrangements and the lyrics will hit home. Best material would be the title track, "Booze The Blues Away," the up and truckin' "Silver Eagle" and "Send Her On Home To Me."

New York Country station WHN has recently started using giant posters of various Country artist to help promote new listeners to tune in. Posters have included the more "modern" Country artists such as Linda Ronstadt, Glen Campbell, and Olivia Newton-John. The logo line has been "There's A Whole Lot Of Good In this Country—WHN—1050." Shown with their latest attempt to draw a Spanish speaking audience to the station is WHN music assistant Pam Greene and WHN PD Ed Salamon. The logo line, as you will note, is in Spanish and features ABC/Dot artist Freddy Fender.

On a visit to Philadelphia actor George Hamilton stopped by the studios of WRCP to be on their weekly talk show, "Open Mike." Pictured (left to right) are Hamilton; WRCP Public Affairs Director Mona Matthews and morning air personality Mike Dugan.

**GRT ANNOUNCES NEW SIGNINGS**  
 In the latest of a series of moves towards achieving major status in the record industry, GRT Records has announced several new signings and recent leasing deals.

**George Hamilton IV** and **Gary Buck**, two of RCA Canada's hottest artists, have been signed as part of a special lease arrangement will call for GRT to have long-term exclusive rights to their product in the United States. The signing of the deal was announced jointly by Dick Heard, Vice President of GRT Records, and Barry Haugen, Manager of Country Product with RCA Limited Canada. Both artists have product set for immediate release in this country.

At the same time, GRT has announced the signing of lease deal with Texas-based Mabel Records for a record entitled "Hey Shirley (This Is Squirrely)" which was broken in Dallas by radio station KBOX. The novelty record which deals with the CB radio craze is reported to have sold approximately 10,000 pieces in the Texas area.

Also from Texas, by way of Houston, GRT has picked up a new master by **Johnny Lee**, a very recent chart act with ABC/Dot. Lee's version of the classic "Red Sails In The Sunset" is due out shortly.

Additionally, GRT and Casino Records has announced another key artist signing, that of **Billy Larkin** to Casino. Larkin was formerly with Bryan Records. Also signed to Casino is **Glenn Barber**, formerly with Hickory Records.

# AOR Radio

## Mike Harrison

All too often, radio strategists cannot tell the difference between the ends and the means. They confuse their own perception of the radio station for the listeners'. This is about as accurate a comparison as thinking that a play looks the same to a backstage technician as it does to someone in the sixth row of the orchestra. We, in radio, have a tendency to become preoccupied with methods while our intended listeners are merely concerned with results.

AOR Radio, stemming from a cultural revolution as well as a musical one, has produced a large variety of methods ranging from freeform to intensive research and discipline. Notice that I use the word "methods" as opposed to "results" because in many cases, the results of AOR programming methodology do not always reflect the means that programmers delude themselves into thinking are such an obvious part of their radio stations.

The major problem that AOR program directors have in communicating with their staffs is combating the very human tendency to over-react to criticism and minor change.

Take, for example, a typical situation at freeform AOR's in which much of the direction comes retroactively or as the result of an on the air trend. The program director will tell the jock that he/she is playing too much of a certain act or type of music. The jock, in turn, responds by not playing any of that act or type of music for fear that if the PD happens to tune in the one time its played, it'll seem as if the direction wasn't taken. The same syndrome manifests itself in reverse. If the PD tells the jock that he/she isn't playing enough of a certain element, the next day that may be the only thing you'll hear on the show.

AOR stations that institute "formats" and formulas also run into situations spawned by human nature and the aforementioned cultural roots of behind the scenes AOR Radio operations. Jocks over-react to the implementation of library trims, letter and/or number categories affixed to records, rotations, and predetermined things to say and not to say on the air. Such implementations are looked upon with fear and distrust and indicate that the station is "changing its format" and will no longer be what it was and worse, that personal creative liberties are being revoked.

These are just brief instances that just about all AOR broadcasters can relate to and indicative of the human tendency to over-react.

Programmers should concentrate heavily on dealing with these psychological facets of the organizations with understanding and tact. Directing people who've come up in radio through the multi-chaptered AOR evolution requires more than just telling them what to do and backing it up with authority and rank pressure. It is true of any format that if the air personality feels unfairly restricted or improperly directed, the dissatisfaction can erode the station's on the air magic or, as they sometimes say, "X" factor.

In an effort to walk the line between a totally freeform station geared to theoretically promote individual jock musical and environmental expression and a totally formulated station geared to place the jocks upon a predetermined unwavering track, thus "keeping everybody happy," programmers often come up with a compromise that opens them up to more problems than either of the two extremes can offer.

This happens when the formula is made up of a series of loosely defined categories subject to subjective interpretation such as "uptempo" "familiar" "current hit" "esoteric" etc. and the jock is left and expected to fill in the labels with records of his/her choice.

This system might very well be the biggest programming cop out of them all. Any jock given retroactive criticism for his/her handling of this format has the right to tell the program director, "Hey buddy, what's 'uptempo' 'familiar' 'current hit' and 'esoteric' etc. to you may not be the same to me." Sound familiar?

The ironic thing about all of these problems and misunderstandings is that often times they are totally unnecessary because they deal with means, not ends. We spend so much time and effort dealing with finding the answers to all of these "systems" problems and wallowing in our distorted view of how they will effect the station as it is seen through the ears of the listeners that we lose sight of reality and our common goals, the most important of which is good radio that will hopefully be successful, too.

To the listener, a song is a song is a song, no matter what the unseen category attached to it on the other side of the transmitter or the unknown motive for its being placed upon the turntable. They will either like it or won't like it, format or none. The same applies to what they hear come out of the mouths of jocks. They will either like it or not like it whether it comes off an idiot card or off an idiot's ability to ad lib. In both cases their reactions to what they hear are based on face value only and nothing more.

To those who are hung up on methods and want to know which one is the best, there is no answer. I'd rather have a station run by a bunch of freeform pro's left on their own than a station with the same staff following an out of focus format and formula. On the other

## Suggested Albums

### STEVE MILLER

#### STEVE MILLER Fly Like An Eagle

It's not easy following up an album like "The Joker" but Steve took his time and came up with another credit to his excellent reputation. The formula of success in this case is some good Blues, a touch of space, an oldie, and a whole bunch of American rooted Rock and Roll. Along with "Take The Money And Run" are "Rock N' Me" "Dance, Dance, Dance" "Fly Like An Eagle" "You Send Me" and other Miller triumphs. (Capitol)

### AEROSMITH

#### AEROSMITH ROCKS

Incredible superstardom has crept up on this group and they're right there to greet it with one of the most powerful hard Rock albums to emerge thus far in 1976. This album does not let up from beginning to end. There are strong selections for both AOR and Top 40 Radio to play with for at least the rest of the year. "Nobody's Fault" "Lick And A Promise" and "Rats In The Celler" are good for starters. (Columbia)

### JETHRO TULL

The most programmable Jethro Tull album since "Aqualung." Ian Anderson dominates, romping through a ten cut display of his songwriting and performing talents. Less confusion and more meatmark a return to the tremendously appealing sound of the early albums. "Taxi Grab" "Too Old To Rock N' Roll, Too Young To Die" "The Chequered Flag (Dead Or Alive)" (Chrysalis)

### ATLANTA RHYTHM SECTION

There's nothing shabby about this album, every cut is solid. When all is said and done, this six man, tight knit ensemble might just emerge as the South's leading band. They've mastered all the basics and this time around radiate an abundance of flair. "Police Police" "Oh, What A Feeling" and "Jukin'" "Another Man's Woman" is long but strong. (Polydor)

### BLACKMORES RAINBOW

This is the former Deep Purple's second album in his current incarnation as the leader of a musically astute heavy duty Rock and Roll powerhouse ensemble. He proves once again that he is among the world's foremost lead guitar players. This album is marked by originality and gut level movement. Every cut is strong. "Stargazer" and "A Light In The Black" are lengthy but classic. "Tarot Woman" "Do You Close Your Eyes" (Polydor)

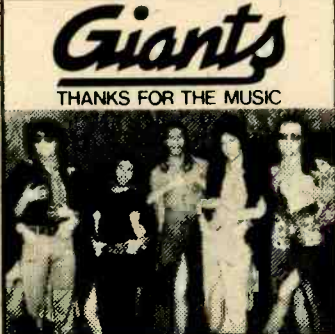

### BILLY JOEL

#### BILLY JOEL TURNSTILES

The clear voice, proficient pianist took an almost Springsteen-like approach to his latest effort and offers us some very good moments. Fine variety of material sparked by a strong back up group of musicians. "Say Goodbye To Hollywood" "New York State Of Mind" and "Miami 2017" stand out. (Columbia)

### GIANTS

It may take more than one listening to get into this album, but you may find the effort well worth it. Certainly not sophisticated, yet confident, aggressive, and uncompromising, there are a lot of easy to program, appealing tunes in this collection of Rockers. "Ladybug Pond" "Get Off My Back (Bitch)" "Unemployed" "Rock Roadie Rock" (Casablanca)

### ERIC ANDERSON

A delicate collection of beautiful songs from one of contemporary music's legendary troubadours. He's on the road back. Tasty instrumentation gives the music a subtle Country and Folk flavor without actually putting it in those categories. "Lost In A Song" "Dreams Of Mexico" "San Diego Serenade" and "Love Will Meet Again" (Arista)

### MAN

This band's been waiting and ready to pop for quite some time now. This could be the album to do it for them. This, their best effort yet, has been receiving favorable reaction at the growing number of AOR stations already on it. A nice combination of simple and esoteric music. "Out Of Your Head" jumps out. (MCA)

### GENTLE GIANT

#### in'terview

They live up to their reputation as one of AOR's more creative musical forces. Their instrumentation is meticulous and the production is striking. Unpredictable arrangements add to the style that has been gathering more and more fans for this seasoned credit to British exports. "Interview" "Design" "Another Show" "I Lost My Head" (Capitol)

hand, a good formula is much more desirable than a bunch of less than responsible freeformers running amuck all over the airwaves. We get so preoccupied with the way we deal with means as opposed to ends that we even label our radio stations by the methods we use to program them as opposed to the actual programming. We'll call one AOR in a market "loose" because the jocks get to play whatever they want and lots of new albums are put into the bin each week. Another AOR in the same market we call "tight" because the jocks follow some sort of predetermined playlist and fewer new albums make their way to the bin each week. Radio and record industry people who deal with these stations then go about their business and their lives actually believing that the so-called loose station plays more records than the tight one. Not always true. I invite you to monitor two such stations in your market for a one or two day period and count up the actual number of different albums or selections that make their way to the

air on each. I can't guarantee the results, but one thing I'm sure of: When give the chance to play anything they want, many jocks will actually play less of a variety than they would if they were following an imposed playlist. If we concentrated more on what our stations sound like and less on over-reacting to the things that we do to get that sound, we probably would all be involved in better radio. The perfect radio station becomes the sterile radio station. Problems are an inherent part of art, culture, and creativity and most of all, anything run by and geared to human beings. Those who concoct and direct radio stations should spend at least half of their efforts helping their staffs understand why they are being asked to do what they are being asked to do. Those who are in a position of executing a concept, no matter what the half-assed label attached to it may be, should make it their business to know upfront what is expected of them. Members of either side who are unable to do that with a minimum of unnecessary misunderstanding do not deserve to be where they are no matter how great their formulas, formats, musical knowledge, voice qualities, reputations, or egos.

## POP/ADULT NOTES

BY MIKE KASABO

For the second week in a row the big story at the Pop/Adult level is Jimmy Dean's "I.O.U." Check New & Active for latest airplay, but let me tell you that it's been a long time since we've seen reaction to a record quite this way. Many callers are so moved by Dean's message that they can hardly contain their emotions while asking where they can purchase the record. Dean Tyler reports that it's the most active record, in terms of phone response, that he's seen in years. Mother's Day 1976 is over, but obviously the message transcends feelings that are a simple one-day tribute.

Todd Taylor, formerly with WMEX, WPGC and most recently with WHBC has left his position as Operations Director with the station to accept the State Director position of an Ohio Financial organization. Todd will remain, for a time, as a consultant to the station. He is also looking for a super mid-day jock. Send tapes and resumes to him at WHBC, 550 Market Avenue South, Canton, Ohio 44702.

Keith Carradine's "I'm Easy" is making a strong come-back (due to his winning the Oscar recently) with many key additions this week. Adds include WBAL, WCCO, KIOI, WIP, WKBC-FM, KIIS.

We note some activity at KRNT on Henry Mancini's "The Jokes On Me" which is from the current flick "W.C. Fields And Me" starring Rod Steiger.

Peter Miller, WEEL-FM, reports sensational phone reaction to a cut on the Michael Franks album. The track "Popsicle Toes" contains a number of double-entendre lines that listeners appear to enjoy. You might want to check it out.

Interesting to note that KMPC registered number two phone calls last week on Donny & Marie Osmond album cut "C'Mon Marianne."

Another album cut continues to show strength at KEX for the third consecutive week...the cut is "Jolene" from the Olivia Newton-John LP.

The new Abba "Mama Mia" which has been a giant success all through Europe went right on some heavy Pop/Adult stations including WBZ and WBAL.

The Boz Scaggs "It's Over" single continues to show up hot at KIOI and has just been added California South, KFMB San Diego.

The Bobby Goldsboro record "A Butterfly For Bucky" shows immediate phone action at many stations including such biggies as WGN and KFI.

In order to promote the Des Moines Science Center's "Rent A Duck" program KRNT air personality Ray McCarty adopted Izack, a full grown mallard duck. Izack appeared on Ray's afternoon drive gig over a two week period and added some great lines...like "quack." The Science Center rented 500 ducks at Easter and will return all of them to the wild after six weeks to increase the duck population.
