Seeking Next Talent Wave? PDs Say, 'Grow Your Own Jocks'

by Marc Schiffman
with Jeff Silberman

The saying "good help is hard to find" can ring especially true when it comes to acquiring quality air talent these days. Automation and virtual radio have made programmers fearful that there's no longer a small-market training ground for the next generation of major-market talent.

Furthermore, the opportunities for recruiting quality air talent from other stations are becoming scarcer. "That's more true now than at any time that I can remember," declares KZQZ (Z95.7) San Francisco PD

Mark Adams. "Most of the quality talent at other stations are far less willing to move, because they're really being taken care of at their station or radio group."

Now, programmers in all formats, who listed the "talent puddle" as their top concern in a 1998 year-end Airplay Monitor survey, have altered their sights to the talent already in their halls. Instead of raiding small markets or seeking celebrity talent, they're strengthening in-house mentoring and internship programs and taking the time to develop raw talent as soon as it walks in the door.

This Week, Join Us For A Wild Ride To The Cutting Edge Of Sensibilities

Following several highly publicized crashes of chartered gambling buses between New York and Atlantic City, N.J., modern WPLY (Y100) Philadelphia is challenging listeners to "the Ultimate Gamble"—surviving a bus ride with the station's morning show and "the grim reaper in the driver's seat" to Atlantic City.

Jacor icon and album WXTB (98 Rock) Tampa morning host **Bubba the Love Sponge** has once again gotten his host station a FCC fine. This time, management will owe \$7,000 for a May 28 broadcast the FCC deemed indecent. This comes on the heels of a \$23,000 fine last October, after Bubba joked about having sex with cows.

Former WQHT (Hot 97) New York morning co-host **Maija DiGiorgio** has filed a harassment complaint against the station, stemming from an incident with morning man **Ed Lover** at a comedy club where the two DJs were performing. According to the New York Daily News, Lover responded to a heckler's claim that DiGiorgio had been responsible for getting her predecessor, **Doctor Dre**, fired with a sexual innuendo about DiGiorgio. The co-host says she was "humiliated," then fired a few days later, after she made an issue of it. Emmis VP **Judy Ellis** contends that DiGiorgio quit. **Neil Johnston**, attorney for the former co-host, says the EEOC will hear the case.

The Chicago Sun-Times reports that, despite the station's claims to the contrary, the city did not declare Robert Murphy Day in honor of R&B oldies WXXY/WYYX Chicago morning man **Murphy's** return to the market. WXXY GM **Rich Marston** called it a "horrible mistake."

BUSINESS: LITTLE ROCK, LOTTA FLUX

There was lots of action in Citadel's Little Rock, Ark., cluster, home of AC KVLO, adult top 40 KURB, and modern AC KLAL, over the holidays. Market VP/GM **Cal Arnold** exits. Director of sales **Gordon Heiges** heads to cross-town rhythmic top 40/modern rock combo KHTE/KDRE as director of radio operations. And director of programming **Randy Bush** joins Boch Broadcasting's four Cape Cod, Mass., stations, including AC WCOD and adult top 40 WYST, as VP/GM. **Neal Gladner** is now interim GM. Meanwhile, former Jones Radio Network president **Eric Hauenstein** is named GM of Citadel's six-station cluster in Salt Lake City, including AC KBEE (B98.7).

Longtime GSM **Scott Elberg** is upped to VP/GM of rhythmic top 40 WKTU New York, replacing **John Fullam**, now senior VP of regional operations for parent Chancellor.

At Greater Media's Philadelphia stations—including album WMMR, modern adult WXXM, and classic rock WMGK, senior VP/GM **Dennis Begley** exits, replaced by the combo's VP/director of sales and market vet, **Rick Feinblatt**.

Cindy Weiner-Schloss, GM of CBS' KMXB/KMZQ Las Vegas, rejoins former ARS boss **Steve Dodge** as West Coast VP of sales for American Tower Systems. No replacement has been named.

Capstar will spin five stations it wanted to buy in Wichita, Kan., to win Justice Department approval of its \$190 million purchase of Triathlon Broadcasting. Capstar will keep album KRZZ, top 40 KKRZ, country KZSN, and AC KRBB. On the block are oldies KEYN, jazz KWSJ, sports KQAM, N/T KFH, and N/T KNSS.

MediaAmerica folds its syndicated "Hit List" countdown, hosted by **WHTZ** (Z100) New York morning hosts **Elvis Duran** and **Elliot Segal**. With the pending LMA-to-buy of hot AC WKLI (K100) Albany, N.Y., and its sister stations to a now rebuilding Telemedia (which had sold most of its previous outlets to Citadel), **Bill Hunt** remains at the station in a sales capacity but will be replaced as GM. OM **Paul Bendat** will ultimately exit to start a computer business.

PROGRAMMING: LAWSON & ORDER

AC KIMN Denver APD/MD **Jim Lawson** returns to modern adult sister KALC (Alice 106) as PD, replacing **Gregg Cassidy**. Lawson had been MD of KALC before transferring to KIMN.

After a stint in Spanish-language radio, **Bob Lewis** returns to rhythmic top 40 as PD of KISV (Kiss 94.1) Bakersfield, Calif., replacing **Mark Feather**, now PD of KGGI Riverside, Calif.

Soft AC WWRM Tampa, Fla., PD **Paul Ciliano** is upped to OM of Cox's Tampa stations.

WPST Trenton, N.J., PD **Dave McKay** adds duties for an all-sports sister station at 1680 in the extended AM band, set for launch this spring.

Tom Cooke becomes AC WMLI Madison, Wis., PD. He was MD at KDAT Cedar Rapids, Iowa. It's the first full-time PD for WMLI.

WNTQ (93Q) Syracuse, N.Y., P/T **Dave Ashton**, also PD of classic rock WIII Ithaca, N.Y., is the new PD at Capstar's classic rock/oldies combo WEFX/WKQL Stamford, Conn., replacing **Ralph Tortora**. WNTQ PD **Tom Mitchell** has upped to 20 hours a week for a new P/T.

FORMATS

Lexington, Ky., gets a new modern adult outlet, as religious WJMM moves to another frequency, replaced by WCDA (CD106.3) under PD **Tim Michaelson**, former MD/p.m. driver of top 40 WSTO Evansville, Ind. WCDA, sister of soft AC WGKS, needs service. Call 606-233-1515.

The already minuscule number of remaining AM top 40s decreases this week, as KRPM Seattle drops its simulcast of KBKS for classic country, according to The M Street Journal. KRPM was once heritage top 40 AM KING but had been through numerous changes since. Meanwhile, one of the longest-running top 40 AMs, KSTN Stockton, Calif., segues to R&B oldies under longtime PD **John Hampton**.

WMPS (Mix 96) Memphis drops its short-lived modern rock oldies format, returning to R&B oldies, mixed with casino info targeting nearby Tunica, Miss.

Former modern AC KOZN (the Zone) Kansas City, which flipped to AC last week, adopts new calls, KZSR (Star 102). In addition, KMXV (Mix 93) PD **Jon Zellner**, who now oversees Star, promotes MD **Dylan** to APD.

PEOPLE: ROCKY ROLLS ON

Adult top 40 WPLJ p.m. driver **Rocky Allen** will move to mornings on N/T sister WABC Jan. 25. That leaves PD **Scott Shannon** looking for a high-profile jock, but one who will fit a more music-driven afternoon show than Allen's.

WQEN (103.7, the Q) Birmingham, Ala., morning men **Rick and Bubba** jump to rival AC WYSF (Soft Rock 94.5) for mornings, sending that station's PD, **Jeff Tyson**, to afternoons.

WFLY (Fly 92) Albany, N.Y., MD **Ron "Sugarbear" Williams** segues to new R&B sister Jamz 96.3 (soon to change its WPTR calls) as APD/MD, effective Jan. 25. **Mike Morgan**, OM of both stations, notes that he'll probably recruit someone in-house to assume Sugarbear's old duties.

KFMB-FM (Star 100.7) San Diego MD **Greg Simms** follows the Northern Star to KYSR (Star 98.7) L.A. for middays, replacing **Larry Morgan**.

KIIS-FM L.A. jock **Gary Spears'** 1-4 p.m. show is now being rebroadcast from 1 to 4 a.m.

WHTZ (Z100) New York promotion manager **Mat Weig** segues to the assistant promotion director post at KBIG/KLAC L.A.

KNKI (Memories 96.7) Dallas, one of several recent converts to a gold-based super-soft AC format along the lines of WGAY Washington, D.C. (WPLM Boston has also returned to the format, after a long jazz run), taps **Laurie Bandemir** from adult top 40 rival KDMX (Mix 102.9) for middays and album KTXQ (Q102)'s **Bob Eliot** for afternoons, according to The Dallas Morning News. The station also flips calls to KMEQ.

Fashion Tip: Long-Sleeve Shirts

KHKS (Kiss 106.1) Dallas night personality **Domino** gets thousands of 'N Sync fans all hot and bothered for the group's imminent autograph session. Which only goes to show how some meet-and-greets can be the pits.

The SPIN BY THEDA SANDIFORD-WALLER

Party Sobering Up For '1999'

IS THE PARTY OVER? Last issue, **Prince's** "1999" (Warner Bros.) mustered enough spins on New Year's Day to land on the mainstream top 40, rhythmic top 40, adult top 40, and modern adult charts. Not surprisingly, with the holiday over, spins of "1999" are down 70%. According to the national all-format airplay info used to compile Billboard's Hot 100 chart, "1999" received 962 spins for a total of 11.7 million audience impressions last week.

TIEBREAKERS: Ties between titles are usually broken by awarding top billing to the song with more stations spinning it. Such is the case with the tie between **TLC's** "Silly Ho" (LaFace/Arista) and 'N Sync's "God Must Have Spent) A Little More Time On You" (RCA). The tides, Nos. 11 and 12, respectively, on the rhythmic top 40 chart, each have 932 spins, but TLC has six more stations than 'N Sync, so "Silly Ho" lands at No. 11.

In the rare event when two titles share the same number of spins and stations, there is a second tiebreaker, as seen this issue on the crossover chart, where the higher ranking was awarded to the title that gained the most points from the previous issue. Both **Brandy's** "Have You Ever?" (Atlantic) and **Dru Hill's** "These Are The Times" (University/Island) are tied with 2,340 spins and 59 stations, but the former gained 309 spins, compared with a 284-spin increase by the latter. That's why "Have You Ever" is No. 2 and "These Are The Times" is No. 3 this issue.

FOR THE RECORD: Effective this issue, KHYS Houston is dropped from the mainstream top 40 panel. There are now 107 mainstream top 40 stations. In addition, KOZN Kansas City moves from the adult top 40 and modern adult panels to the AC chart as KZSR.

MUSICAL CHAIRS: Epic's **Dale Connone** announces several additions to his promotion team. A&M's **Ken Lucek** joins for national pop promotion based in the West Coast. **Todd Glassman's** previously announced promotion to East Coast national is now official. **Dawn Fox**, who has been supervising crossover promotion for both Epic and 550 Music, will now concentrate on Epic's artists. Motown's New York regional, **Marni Helpren**, joins Epic in the same capacity. Joining in two newly created regional slots are **Brett Greenberg** in the Carolinas and **Hutch Work** in Denver. Greenberg was a marketing rep in Sony's Atlanta branch; Work was the department assistant in Los Angeles. Epic's promotion staff now employs five nationals and 13 regionals.

H.O.L.A.'s VP of promotion, **Joey Carvello**, joins buddy **Johnny Coppola** at Priority, based in New York, to handle national promotion responsibilities. **Sean Lynch** remains with Priority until the end of the month, when he will announce his new plans... Columbia picks up Restless' **Tanya Kalayjian** for Northwest promotion chores based in San Francisco... Arista's **Rich Westover** is upped from pop promotion assistant to national promotion coordinator.

It was originally thought Def Jam would head to the newly formed Universal/Motown/Polydor label group, but according to sources, Def Jam will remain a part of the Island/Mercury combine.

ARTIST MONITOR: Billboard Bulletin reports that **Toni Braxton** has resolved her differences with her label, LaFace Records, and is recording a new album for the label, LaFace co-owner **L.A. Reid** told BMG convention attendees during a Jan. 9 product presentation in San Diego. A LaFace spokeswoman says a May release is planned for the set.

Adult top 40 WMHX (Mix 103.9) Louisville, Ky., taps **Chris Logan** for the previously jockless midday shift. Logan worked at rival WLRS when it was AC Mix 102.

Adult top 40 WFAT Kalamazoo, Mich., adds **Tony Travatto** in nights from WCFX Mount Pleasant, Mich., replacing **Ace Armstrong**, now P/T.

WMXB (B103.7) Richmond, Va., night host **Mike Klein** segues to WNVZ (Z104) Norfolk,

Va., for late nights.

New WHHY (Y102) Montgomery, Ala., PD **Beau Richards** has started filling his air-talent dance card, bringing in WIVK Knoxville, Tenn., morning man **John Garret** for wakeups and **Brett Michaels** for nights.

KQAR (Q100) Little Rock, Ark., morning man **Rob Tanner** exits and is replaced by **Kevin Clay** from mornings at country sister KDDK.

MONITOR PROFILE

As Industry Consolidates, McClusky Does Too, With Eyebrow-Raising Cumulus Deal

As radio's major groups appoint group PDs to oversee a growing number of stations, some independent promotion firms are tweaking the way they do business to secure access to the groups' decision makers, something that became clear late last year when Jeff McClusky & Associates announced an exclusivity deal with fast-growing Cumulus Media.

Coming on the heels of smaller deals by JMA and Citadel Broadcasting, Capstar's Gulfstar, and Clear Channel, the Cumulus deal caused a stir in the industry for several reasons. It gave McClusky a presence in both country and R&B radio, formats where label execs have resisted the exclusivity-pact concept, especially with outside indies. Then there are the particulars of the deal, which include having McClusky work the format consultants at Cumulus' Stratford Research arm, not individual PDs, something that struck a nerve with some promo execs who have long feared any sort of centralized music decisions by the new mega-groups.

McClusky started his firm 18 years ago, specializing in top 40 stations, then branching into

value than some guy hawking records over the phone. So we created promotion funds to give stations access to concert flyaways and things that can help their ratings.

"Obviously, we've tweaked [our operations] tremendously since then. We hired Tom Barsanti, who really understands the needs of broadcasters. We started a real broadcast promotion department, where we'd be responsible for getting plane and concert tickets and booking the hotels. We have to super-serve radio."

McClusky says he's cognizant of the industry buzz generated by the Cumulus deal, the first one where he's specifically not dealing with the PDs of individual stations. "The main thing that raised eyebrows was where we supposedly asked Cumulus PDs not to talk to the industry about music," he says. "This goes back to Cumulus' music system, which involves conference calls between PDs and the people with the final say, the group's consultants. We also have weekly meetings with the consultants; they are Cumulus' point people when it comes to music... In every [business relationship], we want to deal with the decision makers, and with Cumulus, that happens to be their consultants."

Asked if that raises the specter of group adds and thus music homogenization, McClusky says, "That's something you have to ask the broadcasters. At Cumulus, there's still a lot of individual adds at the various markets. It obviously serves their best interest to have PDs in Toledo, Ohio, and Amarillo, Texas, speak up and say, 'We need to play his record,' and the consultant needs to respond to that. I don't believe the consultants have a dictatorial relationship with their PDs."

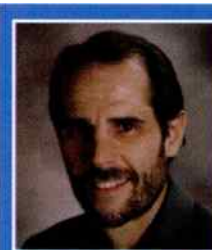

McClusky's Cumulus deal also touches on another sensitive area, the presence of outside independent promoters in both R&B and country. A proposed deal between a pop indie and Radio One's R&B reporters dissolved shortly after its announcement in fall 1996. And last year, Bill Hard's Hi-Impact Marketing announced a deal with several Atlantic Star country stations. Under pressure from the country community, some of those stations quickly renounced the deal.

McClusky, himself, had started a Nashville branch in the early '90s. "I hired Eddie Mascolo and Bobby Young, and it took them a year to build a solid operation there," he says. "However, they left after being offered twice the money to start River North Records. I couldn't find suitable replacements, so I shut it down."

"Now we're back, working in conjunction with an established country independent, [Young-Olsen & Associates, co-helmed, ironically, by Young]. It's only a matter of time before we hire our own staff as well. Believe me, we're already getting calls from country stations."

McClusky is using the same M.O. as he launches his R&B division. Expect to hear of a tie-in with an R&B-based music company within weeks. Soon thereafter, he'll recruit an in-house promotion staff, including the hiring of someone, he says, with label senior VP of urban promotion-level experience. Although McClusky admits that he'll likely still meet some resistance in those formats, to succeed [in the new group deals] "we have to not only be involved in all formats, but in new media, concert touring, and every level of artist development."

As both radio and the music biz consolidate, McClusky wouldn't be surprised if other indies do the same. "I'd definitely be interested [in acquiring another independent] as long as it's compatible with our company," he admits. "We want to open an office in New York. Would we be interested in merging with a New York-based indie, management company, or music-related firm? Absolutely. There are some great companies out there, and we'd love to be involved with them." **JEFF SILBERMAN**

Seeking Next Talent Wave? PDs Say, 'Grow Some Jocks Of Your Own'

Continued from page 1

"The whole idea is to not find radio 'professionals' but kids with the desire and drive and who are willing to be taught." WPOW (Power 96) Miami PD Kid Curry states. "It's like you're picking them right out of life."

Case in point: APD Tony the Tiger, who sporadically fills in for Curry in middays. His only experience before this gig was as a mixer in a local club, which was where Curry first spotted him. "He looked like the quintessential jock," Curry notes. "He hadn't shaved in weeks, smoked way too much, and always wore these Zuba pants. I put him on the air, and he jumped right to the top in three months. Jerry Clifton and Bill Tanner came to the station, saw him work, and said, 'He looks like he belongs here.'"

"One important thing to look for is a can-do attitude," Adams says. "Another is the inherent quality of being a good person, with intelligence, drive, passion, and a willingness to learn until they're properly focused."

More recently, Curry promoted another fresh face, DJ Laz, from morning sidekick to afternoons. "He, too, looked and sounded like he belonged in this business," he says. "He was very raw when we first put him on the morning show, but he slowly got better. He learned about the format. Now he understands how to use the clock, where to put the calls, and how to cut the crap and not say a bunch of B.S. That's where I come in. I really home in on their entertainment skills until they know how to deliver what I call 'controlled craziness.'"

FEW ARE BORN GREAT

"Talent does not just magically appear," adds top 40 WGTZ (Z93)/classic rock WING Dayton, Ohio, OM Michael Luczak. "Talent is nurtured and developed. Eric Clapton didn't just wake up one day and start playing 'Tears In Heaven.' Rehearsal is a fundamental part of any show-business production. Radio guys forget this."

Luczak says PDs "must look to those 'newbies' in the building and those begging to get a job in radio to recognize, train, encourage, and rehearse new talent. Insist that the new promotion interns who really want to be on the air go into the studio for a few days a week for a couple months and really practice, then meet with the PDs for critiques along the way."

At KQAR (Q100) Little Rock, Ark., PD Gary Robinson recently promoted Shawn Michaels from P/T to nights. "He was filling in afternoons when I got here, and when I filled that position, he stayed focused and excelled both in other fill shifts and in a lot of other areas," Robinson says. "It became a no-brainer to put him in nights."

To be sure, the training didn't end with the appointment. "We're still developing him," Robinson says. "There were some obvious things he had to polish, but he has done a tremendous job, and the numbers are beginning to reflect that."

Saga VP of programming Steve Goldstein says that his company's policy of training its talent is helping to attract new employees. "We will take the time to teach and train. That's one of the things that distinguishes us" from broadcasters hoping for "instant soup" solutions, he says.

Curry notes, "Nobody teaches kids these days the way I was taught. When I started, I had to take a third-class [FCC license] test that had theory and physics problems. Today, kids are walking into the studio without a clue. They wouldn't know an aircheck unless it hit them in the face. I remember airchecking Robert Kelly in my house, and we were working so hard together that we didn't realize that my kitchen was on fire."

USING WHAT YOU HAVE

The increasing tendency to look inside doesn't just apply to first-jobbers but to the mid-level staffers already in place. To that end, consultant Tom Barnes believes, "programmers must resolve to aircheck their talent twice as much this year as last. Talent often gets very little feedback other than 'keep it tight' and 'I don't get it.' We have to do better." He urges PDs to "spend more time articulating the vision for your station to your staff. The clearer the vision, the better the break."

Luczak predicts that if each PD picks one person on staff already and mentors him or her, "in a reasonable amount of time you will have developed talent right in your building."

He adds that programmers can best work with what's already on the air by ensuring a fertile work environment. "Very few corporate programmers or consultants ever suggest that the talent stretch out, entertain, or say something more than reinforcing the 'branding of our product identity, selling the listening benefits, blah blah blah,'" he says. "Let the existing talent on the air take some risks. Encourage creativity. Compliment the efforts to be unique. Even if a new talent is copying another, so what? You mean to tell me nobody in this business ever stole an idea or sound?"

Curry is another big supporter of letting young talent push the envelope. "I want them to occasionally go over the line so I can reel them in," he says. "One jock had a couple of former Playboy bunnies in the studio one day, and a woman called and asked if he was working for Playboy. He said he was one of their official photographers. So she came to the studio, all dressed—or undressed—to do a Playboy shoot. I had to go in there and tell him, 'You can't misrepresent yourself like that'—although it was a great bit. The point is, you have to be able to find a way for them to play games where they can learn and have fun."

He also cites another form of education for the up-and-comers: history. "Especially for this market, which debuted the first FM top 40 in 1972," Curry says. "The new kids have no respect for what it took for us to get here. I teach them about these things. Being older than most of the 30-something PDs, I think it's important to instill our history and build respect for our format. If we don't teach them that top 40 is a damn good format, they'll never get it."

MEANWHILE, BACK AT CORPORATE

Ironically, despite contributing digital automation and bottom-line pressures to the equation, the new mega-groups could also become an integral tool in the development of new talent. At Clear Channel, programmers "keep in touch with each other as far as the air-talent pool," Robinson says. "We have a monthly conference call, and if someone mentions an opening at his or her station, others suggest people both inside and outside of the group. That networking has helped me and others in finding and developing new talent."

Corporate-level talent development is something that "could happen in the future" at Bonneville, according to Adams. "In our last corporate meeting in Seattle, we discussed that very topic, but we don't have a system in place to do it," he says. "As it is, I currently network with programmers like [WWZZ (Z104) Washington, D.C., PD] Dale O'Brien, and we talk about [re-assigning and/or developing] in-house talent."

Barnes says, "Every big broadcaster should have a corporate position for talent development... someone in the corporate office who knows every good air talent and agent in the country. They should also help PDs aircheck and manage the creative personality better."

McVay Media's Greg Gillispie goes a step further, advocating that the bigger companies take on the responsibility of training and educating their talent themselves. He points to a friend in the computer business who is dispatched to Atlanta several times a year for updated training. "The companies are large enough now that they can institute that" for not just air talent but also management and sales, Gillispie says. "A lot of it really boils down to how interested in developing new talent are broadcasters today. We certainly can't run with what we've got forever."

Luczak believes that if groups would take some pressure off today's multi-tasking PD, "they might have time to work with their talent." He'd also like corporate to "improve the pay scale. Most entry-level positions today are in the same pay league as fast-food restaurants. Reward the talent that is doing a good job for you financially," he says. "Maybe the word will get around that radio can be fun and pay OK."

Modern AC Should Broaden. And Tighten.

In a recent interview with Rock Airplay Monitor, Jacobs Media consultant Dave Beasing characterized the format that he had helped pioneer as finding itself at a crossroads. Citing Will Smith in particular, Beasing says that rhythmic music has broken through with "the primarily white audience that listens to modern AC," forcing PDs in that format to wonder how much rhythmic product they should be dealing with.

Smith isn't playing at modern AC yet, but some rhythmic acts such as All Saints have shown up in recent months on some stations that began with a more narrow focus. In doing so, they've extended a debate that began at almost the moment that modern AC became an identifiable format: Should modern AC accommodate Savage Garden, Celine Dion, Aerosmith, etc. or confine itself to artists with a modern rock image or at least a format-neutral one?

The question is resurfacing now because modern adult, like many other formats that were meant merely to own one demo, was, initially, able to post stronger-than-expected 12-plus numbers by filling several market holes at once, including a mainstream top 40 position that has now been plugged in most markets, with noticeable effects, in many cases, on modern adult's 12-plus numbers.

Because there were so many markets where the modern adult outlet was doubling as a mainstream top 40, it changed the nature of the format. Originally targeting an audience who'd outgrown the modern rock format with a healthy dose of '80s gold, modern adult stations found themselves with listeners who had no real interest in "Come On Eileen" and ended up, instead, leaning far more current, making them even more invested in a franchise that may be harder to defend as top 40's final market holes fill in.

Modern adult's proponents have always insisted that the shape of the format should vary from market to market, depending on the opportunity. And so does the solution. The only constant is that in most places, it won't be feasible long term for one station to control both the "modern rockers who grew up" and top 40 franchises. Long term, there aren't going to be many 7-share modern AC outlets. But modern AC wasn't necessarily designed to be a 7-share 12-plus format (unlike mainstream top 40, which many people simply didn't believe could be a 7-share format again when the modern adult format came into being three years ago).

In those markets where the modern AC outlet was once a conventional adult top 40 or where there's still a top 40 opportunity left, most modern AC stations probably have the opportunity to broaden. Some probably shouldn't have gone as narrow as they did anyway. While the appetite for adult modern clearly existed, the scenarios where three different players in a market narrowed themselves down to try to protect the modern adult position should prob-

ably have never happened. In other words, if it's top 40 partisans who are powering the station, not only do they want some rhythmic music, but they probably always did in the first place.

But in those markets where the modern AC began from scratch and has always defined itself around modern-image acts, adult moderns should probably focus more narrowly. Chances are those stations not only have less room to branch out without violating listeners' expectations, but also a slimmer chance of owning the mainstream top 40 position. The good news for those stations is that with so many modern rock stations exiting the format in recent months, or, in some cases, leaning harder, a tightly focused adult modern still has some room to maneuver.

Those modern AC stations in markets where that format has some sort of heritage should also reconsider reclaiming the '80s franchise. While demand for '80s titles always waxes and wanes, many '80s hits have been rested long enough to sound fresh again. And those PDs who do use the '80s are still finding previously underutilized titles, meaning that they don't have to rely on "Tainted Love" for the millionth time or play the goofy '80s titles that never had any shelf life.

(Interestingly, some of the stations I'm hearing that make the best use of '80s modern hits aren't modern ACs at all but Jacor's adult top 40 "Mix" stations, particularly WMVX [Mix 106.5] Cleveland and KMSX [Mix 95.7] San Diego, both of which also play a considerable number of non-modern '80s titles, as well as a tight list of currents, many of them modern adult titles. While KMSX is brand new, the success of WMVX, even with a more current rival that leans heavily to the modern adult side, suggests that the appetite for the '80s among listeners who also like today's singer/songwriters hasn't evaporated as much as some PDs believe.)

The good news for modern AC stations is that after a period when some PDs feared that they'd have to expand simply because there was nothing else to play, there's more decent product than there has been in a while. Whatever you might hear elsewhere about the modern rock format getting harder, there's not much in the modern rock top 10 at this writing that wouldn't fit sonically at modern AC, at least in a world where "Never There" is already charted at adult top 40 and "Pretty Fly (For A White Guy)" has modern adult airplay, too.

Those PDs who don't think modern AC is for real have had their knives sharpened for the format from the beginning, which hasn't stopped their stations from trying to control the female singer/songwriter franchise anyway. After some hot ACs have done what's right for them by broadening again, there will still be the listeners who grew up with modern rock in the '80s or were even indoctrinated in the format in the early '90s (itself now the spawning ground of some lost gold). Those listeners deserved a station of their own in 1995, and they still do.

A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records that attain 900 detections for the first time. If two records are tied in number of plays, the record being played on more stations is placed first. Records below the top 20 are removed from the chart after 26 weeks. © 1999, Billboard/BPI Communications.

Records showing an increase in audience over the previous week, regardless of chart movement. Rankings by format (on right side of this page) correspond to 40-position charts printed in this week's Monitor (30 positions for adult contemporary); therefore rankings do not exist for recurrences and records below No. 40 (No. 30 for adult contemporary). Audience computed by cross-referencing exact times of airplay with Arbitron listener data. ©1999, Billboard/BPI Communications.

Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on either chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records that attain 2,000 detections (mainstream) or 600 detections (rhythm) for the first time. If two records are tied in number of plays, the record being played on more stations is placed first. Records below the top 20 are removed from the chart after 26 weeks.
