## Circus Turns Trick for Improvement of Dump

WASHINGTON, May 20.—William (Bill)
Conway, pircus agent, used to say that
the circus was the "Property Improvement Association." That Conway was
right if indicated by scilon of Congress

The Ringling-Barnum show in Washington this year used a new lot at 21st and C streets. Sortheast, adjoining the Anacostiz River. For years this has been a dump and the Park Service has boped and dreamed of making the space available for great public gatherings. The agrection of a stadium for the Army-Shay games, an armory for the National Orard and a municipal suditorium has been planned, but apparently no one was inferested. However, after the circus selected the falls and members of Congress and the cabinet went out to attend the show and aswithe work being cone, also realized the destrability of the location, the Senate appropriations. Committee on Tuesday approved an amendment authorizing \$2,750,000 for the frigition of the armory and \$310,000 to height work on the grounds. The committeey too, approved the erection of a municipal auditorium on the site.

The Department of the Interior is also setting aside the drill groupits adjoining the armory for permanent circus purposes.

# Fair Has Given a Terrific Sock **But Production Figures Are Okeh**

About the same number of shows produced so far as last year—musicals way up and dramas down—total is 104, but future aunouncements will raise that a bit

NEW YORK May 20.—Broadway legt has taken a shelledling for the third successive week at the hands of the World's Pair but all the wine time; the total number of shows compares tavorably anough, all things considered, with the number running at the same time last season, and the cohedule of announcements due to come in before the season officially ends July 21 exceeds anything since the start of the depression. The list is meager enough, but in recent years few if any shows opened this late; last season there was only one. Expectations that the fair would bype stem business were shattered after the opening of the Flushing clambake; but, according to trends at previous fairs, local abow business is true to feel a Bimeficial effect after the first six sycola or so. # Equity Council Mulls Blunkall's \$75 Minimum Plea

NEW YORK, May 20.—A regular council meeting of Actors' Equity Association has been moved up a day to Monday to discuss J. K. Blunkalls resolution to raise the salary minimum from the present 400 to 675 a week. Preliminary round-tip of opinion indicates the proposal has little change of adoption, the it is possible if member may bring it up from the floor at the union's annual meeting May 26. Even then the most the memberahip could do would be to recommend that council take it under consideration again.

the membership could do would be to recommend that council take it under council ration again.

When Blunkail presented his resolution for the first time late in April it was tabled, but council promised he would have an opportunity to speak in its favor at the last meeting before the membership's annual. Since he cannot make the Tuesday meeting, council shifted its schedule to accommodatahim.

Opponents list three arguments which are expected to defeat the proposal at Monday's meeting:

1. The new high would entite an influx of amateurs. No other calling provides so high a salary to persons without previous experience of apprenticeship.

2. It would curtail not only news productions but shorten the runs of todding shows, since an appeal for reduced salaries to the cuts board could do little good; Tuis do not go below the minimum.

3. At this time when legit is 18 per cent

good; Cuts to not go below the minimum.

3. At this time when legit is 16 per cent of its previous self, the increase would increase the majorite of the part of Blunkall, who at li has presidential ambitions. In was defeated two years ago on an independent ticket.

# FTP Ams Present "Life and Death"

NEW YORK, May 20.—Life and Death of another team, which the Pederal Theater Priject opened at the Maxime Elliott Theater Priday evening, is social problem and unfolded in a monotonous sortes of insidents in the life of Jerry Dorgan, Pertunately, it's unpretentious in design and lighting which, it is hoped, signifies a small production cost.

One is immediately impressed the with the youth of the casts? The players give evidence of being nearonmers who, rather than being unemployed professional actors, seem kids getting their first lick on the stage at the expense of the government. Mary Rolle, who leads off as Mary Buckley, Jerry's wife, had the price of tuition at the American Academy of Dramatic Aria two years ago, but is now getting paid by the actors' relief project. This reviewer feels the vast budget necessary to carry these apprentices is unjust, to say the least, to the indigent actors whose relief project is threatened by such goings on.

Purther, they don't add to the merita of the production. This one is no better executed than the average high-school senior play, but shows who have had a hand in it still claim 'credit.' So hare they are: Author, George Sklar, astungs, Howard Bay: contumes. Alexander Jones; music, Alex North and Barl Robinson; choreography. Lily Mehlmann; lighting. dustry's branches.

Vaudevills is in a pretty bad way but not any worse off, everything committees than general theater business is at this time. Straight film houses are suffering from how-office blues, and it would hardly be fair to expect stage shows to have better than the rate at which air. Find air. Public are spinding their money for entertainment at a time when general business could be far worse but could also be considerably better it only the hig industries would throw fear to the winds and gtart the wheels turning to put shotter on their serves.

So vaudeville finds itself today stymied So vaudeville finds itself today stymied again by consistent over which it has no control. Vaudeville is today—more than ever since it began playing second siddle to the newer industries such as radio and films—powerful ship without a runder; without a capable akipped to sail it with if it had a rudder. In short, a still grafig machine unable to function on its own because its grare are appendages connected by belting to the dominant infunction and to the buying power of the masses.

Vaudeville foday is about 75 per cent bonds (if we must be statistical). With the must be statistical). With the must be statistically with cont awing bands it is safe to assume that there would not be enough vaudeville worth commenting about. Unless one argues credibly that if it weight bands that came along to keep vaudeville going it would be something obe. Regardless of whether bands deserve consideration at would be something one consideration at would be in vaudevilled in the preserve or whether they merely represent an inevitable auxiliary factor in vaudevilled perpetuation, the fact remains that with out the traveling bands there is very little class to talk along the mundeville.

THE day has passed—and nobody can tell whether it is transitory or permanent—of the ac-called standard act. They are still booking what is left of the standard furns of course, but no longer are these acts the imminstays of shows. At best they are the finishing but non-essential touches to shows dominated by bands, pepped up by bands and made box office by bands. The undeniable fact is that with very few exceptions the only way an act com make good, can work a fair acasen, is to be tied up with a bands.

Not that there is any real money ingelves, but from the angle of a little
more than satisfact the ordinary, acts
— the arise that used to fill the deuce
and trey spots—are the ones that are
getting the breaks today. They fit nearity into the current pattern of a band
augmented with several opecialities either
of its, own or turns contributed by a
not very prospectus booking office. Not
only are the standard acts smelling the
working of their goose, buts the same
fate is being suffered by the downgrade
film stars and even ballroom teams, still
holding their grip in exfes but fighting
like the dickens to keep above water in
vaudeville. vaudevilla.

vaudeville.

The ballroom dues are being edged out of the vaudeville pleture not only because of the way shows shape up in accordance with requirements of the dominating bands but also because of their own failings. For one, the currently popular form of stage show presentation; backed up by a band, doesn't permit a team to show off to the best advantage. A real ballroom team of the deasted fraction requires a full syclorating stage. With a hand on the stage the best heart an jet can get is "in two," but most of the time "in one and a half" in a tight squeeze. The matter of limited space is not the only deterrors. The other and considerably more important one is that not the only determine. The other and considerably more important one is that or price. With exhibitors plunging on inlaries for names and near-names in the band field, there it little left for anything the Sines it is prescribed that dancing should vary the straight musical form the solution is more often than not arrying as thru amateur jitter-

# Turner Offers Insurance Plan To Legit Unions

NEW YORK, May 20.—Plan whereby consumer co-operatives and co-operative insurance can be adapted to theatrical union use was placed before local crambrations early this week by Paul N. Turner, commet to the America. The letters of notification requested the appointment of delegates to represent each group in conferences to determine means of injutibiling the movement for the benefit of the trade.

of the trade.

Project is a result of agreeal months of research on the part of Turner, who has worked out the defails with the assistance of the American Festivation of Labor. It is heing proposed now, he explained, to hypo unions attractions. Hany of them have been prone to stagensie falling to service members to any great extent. Action such as tala, he maintaints would stave off grippes should high dues, interchangeability problems, etc., besides notting both members and union members returns.

"Minmbership, in a co-operative not only tends to accelerate the payment of dues (only guid-up members are smitted to benefits of the plan), but v., the co-operative adds to the appreciation of the member for the benefits conferred by the distortion. In cases where unions have an effective organization and the members also getting practically everything in the way of wages and conditions that

the business will stand, then is the time when all series of retails and tribes and affections; happen in the union then is the time when of the apt is the considered more or is of recent by local people who come into the business and are forced in Join. A successful co-pressing secures continuous benefits and doesn't be arrived.

Adapting had inaugurating the plan among the entertainment groups. Turner admitted, will be a slow process. Several of the unions communicated with indicated that the appointment of a delegate funtament to independent of the plan, may have to await the installation of new officers following elections and annual meetings. annual meetings.

check-up among ones here disclosed several union insurance plans designed primarily as death benefits. American rederation of Actors requires 81 payment to join and 25 cents contributed at every death, of a member of the plan. This brings militimum benefits to 6200. Local for the TATSE used to carry Union 18551 Ling Insurance, but has now a burial fund to which members contribute \$1,000 in dues, while the local their contributes \$3,500 from the treasury. Final feet alone obth until Tacentity, when contributes 63,500 from the treasury, Plans per alone of the until mornelly, when mortality among older members increased to point of straining the fund. Local 305 of the IATSE has a plan similar to the APA's whereby members are taxed at every death. Other insurance plans have been proposed at IA national conventions, but none have been adopted.

Turnet's proposal is said to be sufficiently different to witness further consideration as possible solution to the problem. Individual locals of the American Federation of Musicians have builts insurables also, Local State being \$1,000.

# Royal, Mason Deny Claim NBC **Due for Drastic Staff Trim**

NEW YORK, May 20.—NBC executives many spiriterous dentials yesterday that the network would continue its meent decisionsel shake-up and do away with the services of a reported 70° or 80 people. In decring the latter report. The President Frank Mason offered to bet the Busheard reporter 13° it wasn't going to happen. Along similar lines, John Royal also said that whenever changes were made they were greatly magnified.

However it is reliably stated that at least one raining executive now with NBC has been given notice and is remaining with the chain until he locates elsewhere. One reason for this is said to be that ABC feels that having highlithis official away from another firm, it doing not want to let him out summarily.

NDS, Artists' Service, which had several deposits last work, is not going to be re-exampled. Royal and, This story and another, that George Engels, NBO vice-president in charge of the Artists' Service,

# **NAB** Warns Against Macfadden Scripts

WASPINGTON, May 20. National Association of Broadcasters princed noweres this week in advelog nomber stations not to accept free programs being offered by Mactadden publications. NAB said "Phil Keenan, enterprising sales manager for Macfadden, again is trying to chisal stome free advertising." Publishing firm is offering six scripts to stations, dealing with Hollywood, radio, tree story gitus, problem clinics and others of the Macfadden lik.

NAB pointed out that all the company wants in exchange for use of the Scripts is a "reasonable credit" at the start and end of the programs. Use of scripts, the trade association said, would cut revenue and violate the NAB code of ethics.

Street & Smith, pulp publishers, were also mid by the NAB to be offering a similar deal, with members advised to turn it down also.

# Dramatic Build-Up Easier in Radio Than for Singers

NEW YORK, May 20.—Advancing the theory that it is much easier to build a dramatic actress for radio than a singer, CBS Artists Buresu is unnecessifating on a build-up for Estharine Stevens. CBs is weeking with Radio Guide, fan mag, on the deal, Guide hopes to pick up Elizulation as a result of the bullyhoo the girl France to get.

of the ballyhoo the girl Braisted to get.

Ultimately CBS hopes to spot the girl in pictures if possible by way of legit. Talent exces profer the opinion that it will require less time and money to get the girl star dramatic billing than it would to effect the same with a singer. Principal reason offered is that there is less competition in building dramatic people than in singers. Second point, is that there is considerably more employment available for an actrees in both radio and pictures than there is for a singer. A number of name girl singers in radio haven't been able to get commercials for a dong time.

## Camden Cops Madura Poll

\*CHICAGO, May 20. — Eddie Camden came out in the lead of the popularity poil conducted at Andura's Danceland here. In the race were some 20 hands which have played the ballycom, and participants included paying customers. Emil Telasco finished second, Emil Filindt and Gray Gordon tied for third, and next seven, in order named, were Mickey Isley, Jimmy shedgen, East Mellen, Hall Moores Byron Dunbag, George Foster and Bob Phillips.

## Newspaper Guild Gets 3G

PHILADERSHIA, May 20.—First public dance sponsored by the Newspaper Guild do Philadelphia and Camden attracted an overflow crowd on \$3,000 at the Town Hall last Sagurday. Prime attraction will make Beauty Beakst conducting the pact of local swingsters. Don Bester alternated. Ducats were priced at \$3, Gross hit \$3,000, difference being made up by sale of 100 boxes at \$2.50.

Zeeman Revives Ky. Kards
PHILADELPHIA, May 20.—Barney Zeeman rearganized his Kentucky Kardinak,
an ork which achieved gueh popularity
five years ago. Rosslind Stewart has
been aigned as vocalist. Zegman, with
Herb Dubrow, made a two-plane team
for some time at the Walton Reat here.

### Competish!

REGINA. Sask., May 20.—Ther had a hot time in the little town of Windeld, Alta., the other night, but it wasn't the kind they were banking on. Reports from there say that they had to cancel a dance because of a shortage of males. Seems they were all out fighting bush free.

- By DANIEL RICHMAN-

Bands Acress the Sea

THE international aspect seeins to be The international aspect species to be permeating everything three days, up to and including the otherwise pression and unexciting dance remote field. From dear old London comes a series of dance music programs originating in the British capital's night spots and shipped over for American consumption via short wave. NBC Blue offers these divertissements from time to time.

these divertiasements from time to time. The latest one to come over starred JACK HARMIS (Loudon Cosino, London) in the customary 30 minutes of dance tempos. Customary, that is, as far as basic-format was concerned, but quite a bit different in external trappings. In the first place, the fullness of the band—it couldn't have numbered less than 20 men—and the elaborately orchestrated tunes must have fallen unfamiliarly on American ears accustomed to a lightness and swingings in their remotes. The music itself was in the style local listeners associate more readily with a Warnow or a Eostelanetz than a late-hour wire.

### British Account

Bur 10 was in the carual, verbosuland But it was in the casual, verboss, and almost hapharard presentation that the most startling differences appeared, instead of the map with which native remotes are generally dispatched, the Herris half hour are burdened with many octentations references to the bund and the maestro and their sollity to dispense the finest music this side of Scho. Further, practically a complete allstory of each song and its composition want with his playing all dressed up in flowery vertiage, and an Etoh-accent. To complicate things still more, announcements came in the middle of numbers, and if the wordshinger did happen to best the band to the planch and deliver them in between tunes the ork got going before he was thru.

Despite all the confusion, however, the

Despite all the confusion, however, the remote managed to be listenable and not only for the reason that distance lends enchantment. Numbers were programed with an eye to variety; and three American hits (one of English ancestry)—Deep Purple; Penny Sorenade, the British cousin, and the oldie, Whispering—upheld Tin Pan Alley honor in the midst of several English swingeroes and ballada.

### Over Hore

Over Mere.

HERB BUTEAU (Meledy Mill, North Riverside, Ill., WITG) offered a setup in he own way guite as unusual as the harms broadcast, and without crossing any oceans. Out of 13 numers aired in a half hour, Buteau incorporated only three currently popular items, which must establish some sort of a record. One rest of this sonaplugacy high muse book in waltree of the Whon I Grow Too Old to Bream, It's sin to Tell of ite and Breamtiful Olife school, two rhythmle whereans (I Know That You Know and Wary Lou) and a couple of unfamiliar stomps. The trio of confunctorary populad a tough time trying to stand out in the face of, such terrific competition from the old guard, and e pocially so since the three were similarly-styled number—Our Love, My Last Goodbye and Lettle Skipper. And a further error in routining judgment placed the three-come almost together. All this was executed for the most paint in a stock, two-chorus arrangement, with the second paintly a rocal.

By CARLO (Harny's Show Place, Olena

Per better programing came from JOE DI CARLO (Happy's Show Place, Gleng date L. I., WHCA), even the it year wasted on pretty hopeless interpretations. An even down numbers included that and slow pope, noveltibe and wring stuff. In the hands of a band capable of making the tumes sound as they were intended to sound it would have been a superior and extremely listenable remote due to the surprisingly shrewd and well-rounded selection of hits and hear-hits?

## Perkins Again at Buckeye

The Mayfair Room of halfe Breeze Hotel, which has also been operating week-ends, spee on another season with a policy of floor shows and an orchestra. Prikins is also managing the Mayfair Boom.

# Music in the Gir The Reviewing Stand

Red Norvo

Red Norvo

(Reviewed at Murray's, Trackahoe, N. Y.)

Lond shiphlated as a royal member in swing's household, Norvo has dropped the Mr; and Mrs. music-mating (professionally, only) and rests on his own elstoris. Whely eschewing the blatant brand of agreemy and acreechy blaining for a more melodic metif, band can play 'em sweet' or hot, swing or soft, with equal facility. And it's right rhythmic tume-slinging that catches the car and inspirer to hoof immediately.

Itia rylophone out front set-up takes in three frumpers, two trembones, four same and four rhythm. While there is little demon stuff in the horn take-offs, each humber affords Norro an opportunity to get in his hammer of these on the woodpile, always excellent. His xylophone gambols favund the melody are not only terrid but plenty tuneful. In a restful and quiet manner, arrangements by Ed Sauter provide plenty of attractive warmth and color to the assembly playing without calling for say dissonent to hality. And in the same setting the caps and heery rhythms are ever sharply defined. Elbrary also includes a generous sprinkling of Mary Lou Williams go-to-town accrings.

Terry Allen blending his bary pipes for the ballade. The master is ever gracious and his infectious rhythms full the night at this fulturban spec with the kind of minist that keeps dancing feet happy.

## Gary Nottingham

(Berieved at Bel Febarin, San Francisco) FORMERLY a trombonist of Joe Senders' Night Hawks and other bands of name caliber, Nottingham is cutting a notch of this own in ork circles. Ork features a "cascading brase" style using a four brase and sour safe and up to handle the up-tunes and a fiddle section, boys doubling, to backbone sweeter sones.

Instrumentation takes in four fax.

## Don Ricardo

(Bartewed at Civic Auditorium, Pasadena, Calif.)

Passered at Civic Amotorium.

Passered at Civic Amotorium.

Marche or Pass in the local limelaght for the past several seasons, Don puts out a solid brand of dancesolis music. A personable leader, Ricardo fronts in a capable manner. Sax section comprises four tenors, creating a mellow effect that is pleasing to the cars. Bandwest three lifetime, with Ricardo taking a whack at the guitar now and then. Two trumpets and a pair of good trombones round out the ork. For added of 1800 Elleen Schaefer plays the harp. Only wall-formerly with George Hamilton.

The band itself produces som good terp stuff ranging from decidedly hat to sweet. Shows its recreatility by going from one extreme type to the others also included in the combination is a sock rumba group that can while out the pulsing Latin rhythms. Owen.

### Bert Lown

(Reviewed at Bowman Room of Hotel Biltmore, New York)

A PTER governi years in the booking end of the business. Lewn is back at the head of his own band, with a course of break-in dates at the 'spot where lowers so he was a band-stand flatter season after season. New outsits season after season. New outsits season after account a wall as jitterbugging kids.

Lown breaks up new and old popp and show tune faves with Liebssylvinism and

wimilar soft and spont items for the dunor trade, leaving the swing for the supper clientell. Breakdown is five brisi, four reed and four 'rhythm, with Stan King (druma). Tom Fellind (guitar), Fietcher Hereford (aax) and Fulton MoroGrath (piano), all members of the original Lown group. Most outstanding solo work comes from Johnny Hacker on asx and dary. Carell Horton, for the vocals, looks good and knows how to sell adverse trombone. Buricularly on the familiar Lown theme. Sye, Spe Riues. Best confines his activities to the stick and to selling the band thru his own ingratisating personality.

### Phil Levant

(Reviewed at Walnut Room, Blamarck Hotel, Chicago)

Hotel, Chicago;

In The bix for 12 years since leaving the chicago's Grane University. Levent has been holding his own in the seminame class with modern trend music. Only secently he changed his style to the sweeting statiety, using a three sax, three brase and three rhythm instrumentation, with himself coming in on the violin, it is melodic, soothing stuff mostly, altho hoys can awing out ably when the occasion demands it.

Band falls somewhat short in the

altho boys can swing out ably when the occasion demands it.

Band falls somewhat short in the vocal department, principally due to the commercial inexperience of his warolers. Two of the east ment, Red Fields and Fred Bmith, tenor the pops and have good volces. Kids should let bose their youthful personalities and work with more confidence. Fatricia Long, girl somestress, is fair as hand pipe strists go, altho voice sounds somewhat hollower the higher notes. Herby Walsh, another hand member, is the vocal comedy exponent, coming in ably on novelities.

Musically, the Levant aggregation is most satisfactory both to dancing feet and listening ears. Flenty of volume, rhythmic all the way, and arrangements are above stock average, Leader makes the handsome appearance and has an attractive jersonality. Library has everything from a slow waltz to the latest swingarco.

Still with the massive are the four

swingarco.
Still with the masstro are the four men who started with him at Crane back in 1926. They include the three rhythm section and subor an who with Fhil combined to make a dance music maintal.

# Hotel Edison Drops Big Bands as Union Hikes Salary Class

NEW YORK, May 20.—Departure of Blue Bairon from Metel Edison on Friday (16) writes finis for big bands at hotels oreen Room. Change in policy was brought about when local musicians union raised the hotel from a B to the A wage scale classification. Only Cordon was set to follow Barron. Instead, room with use smaller combas for depicing with dining. Milt Berth Trie midwes over from Hotel Lincoln, owned by same management, to fill the berth, sharing the musical assignment with the present rumba relief, Cherber Marimba Band.

Union ometals claimed that with the worlds his boom, altho it's still around the nebulous corner, hotel could afford to pay the higher scale; However, rear agen for change is said to be a move on part of Jack Rosenberg, local pracy, to appease faction of membership who resented the continual employment of out-of-town bands at the Edison among other hotel spots buying traveling combos.

Maria Eremes, hotel owner, chims Green Room, with a capacity under 100, could not make money under the upped diamification. B scale calls for 42 per man and A scale jacks the psycheck up to 82, plus 50 per cent above for bader and a 10 per cent oversecration the travaling bends. Her Hotel Lincoln is a class A spot. Miss Kramer pointed to Billy Rose's Diamond Horseshoes at Paramount Hotel, only a few dears removed from the Edison, which-fifth a B scale, and could see no justification for the hibe. She was gilling to sign a Class A binder starting in September, but the union held its ground.

# Soft Warning to Pic Producers To Hire Pit Musicians or Else

NEW YORK, May 20.—Saying "We don't give a damn't about the trouble the movie producers are in," James Fettrillo, member of the AFM exec board and Chicago musicians' union chief, indicated that the Pederation would take definite action at its convention next month to put musicians back to fourth in theater pits.

Petrillo, in town this week for the meeting of the oxec board at the home of Joseph N. Weber, APM pray, reterred to the federal government's probe of the picture industry under the monopole and anti-trust laws as something the producers had broughs on themselves, and added: "If the producers wanted to be respectable they would put musicians back into theaters."

Other Pederation officials indicated the ourrent "esploratory" talks between pic and music excess might very well be the last chance jibe producers will have to take the initiative and employ music

clans. "It would be a shame," one official said, "if it were necessary to the up the entire industry in order to accomplish this end."

Implication here, of course, is that the Pederation might like its studio musicians on the Coast as a wedge to force theater employment.

What Weight had long sought from the producers to the return of at least half of the 22000 musicians who played in theaters before sound films. In previous producer-APM talks Weber explained that it was not his intention to force musicians into every theater in the country, but to attempt to accure jobs in houses whose scating capacities warranted such employment. In the opinion of the APM, there are about 2.5000 musicians through the country.

Pit musicians in the pre-sound erasting the figure dropped to 22,000,000.

# Cowbarns Return to Fold; Line-Up Equals Last Year

26 with Equity bonds, but many others have announced -not so many guest stars set this season-casting hits peak shortly—listing of companies given

NEW YORK, May220.—Most of the favorite cowbarns will reopen this season, press releases indicate, the only noticeable exception being the County Theater at Suffern, N. Y. Name actors are less enappicuous in the cut and guest line-ups this year, most groupe evidently intending to depend on the popularity of Broadway play titles for the drawing card. Peak of casting will be during the next two or three weeks. In the line-up for this summer are the 26 theaters which so far have posted Equity bonds, a list of which can be found in a box on this page. Other theaters announcing summer sessions, but, with no boxes up yet, are as follows:

## Actors Group, New Troupe, Offers Pirandello Drama

NEW YORK, May 20.—The newly formed Actors Group, made up of some of this year's graduates of the American Academy of Dramatic Art. gave two performances of Luigi Pirandello's Six Characters in Search of au Author at the Master Institute Theater on May 13 and 14. The group is sponsored by such notables as Brock Pemberton, Pranchol' Tone Philip Losb, Roman Bohman, Ella Razan and Dr. Saul Collin, secretary to the late Pirandello. The proceeds of the Use performances were to be used to provide a dramatic scholarship.

The Actors Group was unfortunate in the choice of this particular work of Pirandello's for its first public showing. The author was so extremely anxious to give voice to a long phatitudinous dis-

seriation that he completely forgot to write a play or to provide more than three of his 15 characters with something to do and say. The result is far from enjoyable from the standpoints of both the actors and the audience. The piece requires a tremenious amount of the control to the standpoint of the country of the cou directorial imagination and desterity, which it did not receive from Aristide D'Angelo, Mr. D'Angelo loaded the already dill and heavy surpt with the weighty direction of the continential school at its worst.

weighty direction of the continental school at its worst.

What there was to save after its D'Angelé was third was saved by the managed by the use of sheer intelligent almostity to give sympathy to the characterity of the Pather and, by brilliant characterity to give sympathy to the characterity of the Pather and, by brilliant characterity of the Pather and, by brilliant characteristics, light and shade seems to the impossibly dull harangues with which he was added Mr. D'Angelo's conception of light and shade seems to be an alternate shout and a whisper. Mr. Wicke evidently didn't agree, for which we were curremely gratuit. Eith Daniets, too, as the manager, came out from unders the mountain of directions to give a line performance on his own account. He has definite ability, and should be sen by commercial insanguers. Mary McGowan, as the stepdaughter who is the last of the chosen three who have something to fine in the piece, succumbed to capital A art and self-considerate to capital A art and self-considerate posed thru the evening. The other 12 people gat around and tooked bered. We should have said 11 people, since one of the characters, a little girl, who was to have been played by the imagination of the audience? Lillian was found to be three mently played by the imagination of the replace her. Fortunately, har part was a small doe, and after all it gave the audience something to do.

Others in the cast were Jean Hariehildlence something to do

Others in the cast wire Jean Haries wood, Paul Bernard, Bobby D'Angelo (nephew of the director), Rainie Wood-ruff, Marian Munroe (alemaning with Judith Cargill), Paul Taloot, Jane-Benghett, Audrey Lyons, Edward Hurdenstle, Mary Granden and Dilbert Grant.

At present milting the Actors group is not sure of his future plans. We hope they go on; however, since most of these young people have takent and should have a chance to thee it. M. A. B.

Last week it was suggested here that 1938-39 was an actors' rather than a playwrights' spacet, and a glance at the files beings homesthe fruth of the suggestion with all of the discouraging force of a lock in the teeth. Only one play during the season stood out he a contribution het to the Broadway theater of 389-39 but to the theater of all time. It is true that that one was a very great play but it was after all, only one. In addition, there was an outstanding work in the musiful form, and another play of magnificent stature, prefound thought and glorious courage that was manhandled unmarctfully in its English adoptation. It is quite possible, fudging from the acraps of evidence that were presented, that this last ranks in its original as one of the great plays of our generation; but the adaptation obscures this and makes any definitive judgment a line of deal like guessing in the dark.

There were also several works that stood well above this Broadway average but the disconlineing fact remains that the playwrighting product taken new who was at the lowest obo in many years.

and making them mere cogs in a melodramatic machine also, in a way, serves to hold them up to the greatest possible scorn. A passionate indictment is usually discounted by the suspicion of overcoloring but Mr. Hershey, merely by transferring their actual counteilities and insanities to a melodramatic acript, turnst them into villains as sinister and horrifring as Bill Sysgs or Simon Legree. That a mere statement of their policies and affitudes, can do that is perhaps the greatest indictment possible.

But Mr. Herahey has, also created a frankly exciting thut-and-blundening that holds constant interest and offers frequent thrills. It has no finesse of subtlety in its mabe-up, its estuations could be mildly described as trite; but it does possess definite theatrical effect-at least in the hands of the beautiful cast that is acting it out at the Lyceum.

The tale is of the taking over of Austria by the Brown Shirts and of the effect thereof upon an arisfocratic Austrian family. They are in disprace because one of the Princips grandsons has taken his own money out of a state bank or committed some other equally and taken his own money out of a state bank or committed some other equally likes rendous ain against the delty of dictatorability. they lad is carted off to a prison camp, to be freed onlysif his sister marries the high Nari commissioner who was only a person ton her uncle's catute. It sounds a bit like the givene-the-papers or -I'll stear-up-the-shill achool, and it is—but frankly and excitingly and effectively.

who shoots a storm trooper in the process—everyone is on the edge of Mazi annihilation, and grandpa, the Prince, finally turns the sables by a trick that is far too neat to be divulged in a mere summary. The happy ending, incidentially, is another refreshing nevelty in an anti-Nagi play.

in an anti-Negl play.

The last not doesn't entirely maintain the high melodramatic pace of the earlier stanzas, but that is comparatively a minor matter. Mr. Hershey beeps his action going nicely all the way, and only on infrequent occasion stops to deliver a philippic or two. And such thunders are all the more effective because they're few and far detween. Many of the arguments for freedom, incidentally, are amazingly enough delivered by a high church dignitary but it is to be presumed that glement anything seems circe when compared with Nazilan.

The cast is headed by Jessie Royce

with Nazisen.

The cast is headed by Jessie Royce Landis, doing a really magnificent job sa the Princess Ernest Lawford, who gives a rich and suave performance as the old Prince, and Dean Jagger, who creates a splendid characterization in the really tough role of the Mari commissioner—actually serving to make the man slong with his past and his present, human and entirel believable. But the work of the featured players falls to exhaust the excellence of a grand cast. Splendid jobs are also turned in by Edgar Stehli, Edward Flaiding, Damian O'Dynn, George Macready, Alice John and Edward Franz, smang many others.

The Somnes has directed in a work-manlike and effective manner, atthe tild seem that a couple of the bigger spenes might have been judgistanced even more.

If you can still get an honest straight-forward, unsophisticated thrill out of melodrams you'll enjoy The Brown Dangbe. The Razis, without any emo-

Been Here Refers, for example, dissippided an intributing abstract idea and some very excellent atmospheric drams in the first two acts by effering a third, act that wandered off mistily in the regions of amoryingly undramagite (and rether beliny) metaphysics; but given so it was better than, say, Rocket to the Mooki in which only one of the tirre acts was any good. There's were also very definite things wrong with First the Hope Goodbye; but despite them it managed to be a billishing wrong with First the Hope Goodbye; but despite them it managed to be a billishing wrong with First the Hope Philodelphia Story, brilliant and essentially thoughtful as it is, it really nowhere near the Barry comedy spandard; but it was the year? best American high comedy, and so it is included.

As for the more obvious delices, Here Come She Glowns has been discussed himse amough (and more than gnough) to indicate its quality. It is, I fronty believed here among the great plays of our century and, for that master of all time. Matcher-booker Holdidgy was a constantly amusing liberatio, with brites that were often charming, often blungly satircal and always highly intelligent; it combined a huge amount of theatrical effect with a wise, witty and altogether intriguing discussion of democracies, American and kindred subjects—and it was thing only played and assess to provide above the wrade and wash of Broadway, a magnificent, thought were no it toward above the wrade and wash of Broadway, a magnificent, thought were no if toward above the wrade and wash of Broadway, a magnificent, thought were no of the true and the strength of provide and sometimes chillingly effective drama; that shows brilliant future promise for subjects and understanding psychological study of a murderer and sometimes of Christ's family as very ordinary people; it is a human, towards and sometimes chillingly effective drama; that shows brilliant future promise for its authors. The listing of the To beat as the perspictions may have noticed, makes no mention whatever of various fatted calves of really intellectual seviewers, such high promacies of philadephy and art as The Primross Path. The Amigican Wey, My Nearly in the Highlands, Abs Lincoln in Illinots, The Little Porces and Rocket to face Mion. The basic reason for such emission isn't far to seek; It is simply that, with two excaptions, they are extremely bod plays and utterly undistinguished semantics of what is still pertinaciously regarded as a art form.

The two exceptions are The Little Porce and Rocket to the Moon. These two, unlitted most interest choices, are not not send the average standard of Brossings production—but, at the same time, they are not very much above it either, certainly not so far above that they rate inclusion among the season's best. # Maisie and Hazy Laying Off, And They Don't Like It All

Dear Paul:

HAL and I have being teamed for three months how and then we picked up a 10-spot the week at distor's repper Pot brought 200 and then we picked up a 10-spot at the Golden Cruim Baturday night.

Of course, it's not clear profit either. We had to pay the mission to our signif. Joe standard, and then we had to buy orchestrations and power. In fact, we may doing well at all.

Last night we were so depressed that we went to a party thrown by Charlie Gazinks, of the Three Flying Onlinks. Charlie was celebrating his fourth anniversary assulayoff. He used to work steadily when there was a lot of vanderville, but now he can't get any more theater work and can't play outdoor dates because he catches cold too easily. Anyway, Charlie throws a party such year and a lot of us performers celebrate with him.

Charlie got into an awful fight with Bobby Bun, the emsee, who dialma ha has had off four picker and one month consecutively—beating Charlie's record. Charlie dialma Bun is not really looking for bookings and that that eart of a layoff is got agenta every day.

Charlie made the rounds of the agents today and askell thom, if it would be a patural for the first bill.

Therefore the first bill.

DERKOWITZ AND ANTONITA, the dance team, lock us that we don't know white a REAL layer is ret. But, really, Ral that I don't want to break any records laying off. We want to work because when we don't we get out of shape. Hal usually puts on weight and I wony so smoch that I loce weight. If we lay off too much drell get to look like freeks. (Of course, with the circus and carnival season best this may not be abad idea either!)

Well I dropped in to see our sount. Joe, today and met Mac Gordon in his office. Mac is that awful fright who stole my best multiphers last year when I was doing a single;

"Now that I'm doing i double set, Mac, you may have trouble copying my routines." I told her in my best mobbish manner. But she only laughed and said, "How do you like my red for cape, dearte?" I mapped back, "I might may be seen.

Really, I'm not catty, but I don't like performing who steal your routines

P.S.—Hall just come in and says there's a new dance team in frown doing a generational tange. Hall says it will make a perfect number for us. Of course, we want count the number. We will just use the idea and when you see it I'll bet you won't own recognize it! We're so creditive, Hall and I.

## Lookout House, Covington, Kentucky

Interference from these who control the destinies of Kenton County has practically cut this apot out of the local nitery picture the list several months. Mainager Jimmy Briak no lists epiqued by the headaches that have recently befallen him, has had the club on a sweekend policy the last month, but last Tuesday (16) resumed as a full-sweeker with the hopes of landing it back in the groove that made it one of the livellest night had the hereabouts. Brink has recentificen putting in most of his time at his newly acquired batte. The Barn located in downtown Chreimati.

The new show, hastliff thrown together for the occasion, is void of county, but is fairly entertaining seventheress, albeit not on par with the shown presented hing during the Lockout diguse bottom days. Micht and Vicks Collins, refreshing pair of ficefore, crack the ice with a fast ittaming season, and return mean the close of the shown to more dutth a next tap stanza to the Poet and Pethiems Over-ture.

Opinion with the vanishing chip, silks and cane follows with a sweet cig routire, a mentalik trick, cut and restored turbar and a different versions of the ratored parasol. His rabbit vanish and resultant that and bowl production proved a swell getaway

While plans to operate the room thruout the summer are still indefinite, the new show and band that arrived Priday will beep the spot open for at least another month. A batch of fat committees last year prompted the management to remain open for business during the high temperature months, but current crop of bookings is not as promising. J. P. Binns has succeeded Otto Etri recently as pendral manager and there has been some talk that he may see lit to halt Continental activity for July and August.

For the present, entertainment policy remains the same. Small band and short but internative how on tap, a combination admirably suitable here. Dinner hours, as in attach hotel rooms, are the breatest, with a few of the remains light club rounders and work-end calciumtom patronizing the supper shows.

Bob Hannon is fronting a seven-plece band-spand outfits which has been an acceptable obtains band around here for a cupie of years. Hannon, former production singer at the Chez Paret, has a pleasing personality, mellow tener votes and presences a received sense of showmanship that should make him a favorite with Stevens regulars. Orchesting plan sweet music, diamonable and easy on the earn. It is good hotel-groom dansapation and not loo tough an intruder on conversation lovers.

Hannon opens the show with a couple of tunes, Without a Song and a sentimental Irish piece, both upfitting ditties. Dainy Drayson, tap dance artists.

# B'way Grosses Still Down, But Trend Is Upward as M. H., Para, Roxy Do Okeh

NEW YORK Broadway houses, after suffering from the inroads made by the World's Thir, are finally beginning to show general boxformes improvement. Grosses are not yet up to the par they had created before the general shadk, but considering the deathly receipts the presentation houses have been accounting for in the past four weeks, last week's grosses appear to be a turn for the Better.

This better.

Thusic Hall, the not pulling amentional business, managed to apparate the public from \$72,000 with Only Angels Rave Wings and the regular stage layout, including Ray and Ceraldine and Brengle's Colden Horse.

chiding Ray and Ceraldine and Branch's Golden House.

Purmount's haul of tendoo in also good considering the take of the part few waste and the current bill of Union Parties and a flesh layout consisting of Richard Rimberg, Band, the Merry Maco and Johnny Barner.

Rony also had a good take of \$35,000 in the second week of Rose of Washington Square and 2 stage bill including Cardini, Busher Shaver and Olive and Gonge and John Brideson.

Also a haldover, in the third week, was the String, with Confessions of a Merry pay and Fred Waring's Band on the stage, with a take of \$22,000, which was tough enough to squares considering the competition.

Loow's State, which has felt the slack more than any of the other house, was still way down as far as receipts were concerned. With a stage with Really Band and including Canatasilys, Stere trans and Enviso and Tovallo, the grow was a poor \$10,000. Floture was Midwight.

With a two-bour musical of the acress (MGM's Jeanette MacDonald attract Broadmay Serenode), thouse this week cuts down its staggicaine to 50 minutes of which only half are good entendamment. Frankle harbura and a particularly excellest bund speciormance are to be thanked for that.

Opener is George and Jack Dosmonde, literally beredom on wheels, whole act is taken up with twists, turns and sudden stope on one-wheel blkes, old, stuff and unrelieved by any claver or original comedy. Boys attempt the latter, but it's not even a rood try.

Carol Unition and Macco Thomas go thru managetic tap turn that takes in hoofing over low hurdles and on stepped table tope. It's a fair endugh performance, but nothing that hasn't been seen since vaude immensional. Mass Chiltun goes in for a bit of vocalizing and particularly, omission of which wouldn't hurt the act any. Best effort is a fast-kicking routine at the finish, which takes there out je a better hand than that which ness before merits.

In this case Treacher stays in the character he has built up, the unamiting perfectly mannered gentieman's gentleman, and Norton does well with a drunk foll, but their linears unimaginabily terrible. Treacher winds up with the song and dance he did with Shirley Temple in The Little Princess, fortunately, briefs, Whimay doesn's go with lower State audiences. Whitehead says that APA branches, especially in Chicago, Los Angeles and San Francisco, have had trouble with branch offices of the bigger spencies and that this condition will continue until APP agencies activities nationally.

CHICAGO, May 20.—A faithe flared up between the Entertainment Managers' Association, an organized unit of 28 clubdate bookers, and Music Corp. of America and William Morris Agency, which have been refusing to take out an American dideration of Actors license. Angered because of indifference to the organization campaign conducted by the AFA, thus EMA, which works closely with the AFA, instituted that pickets be placed in front of the Morris and MCA buildings to notify talent that the offices are unfair to the union.

It is understood that the EMA pressure was mainly responsible for the pickets. Since the formation of the EMA. MCA and Herris exces have been invited to Join and aithe these have been invited by the EMA, they failed to become members.

EMA members meanwhile have been instructed to notify acts that they will be banned by EMA members if it is learned that they are doing business shift the presented offices.

By WALTER K. SIBLEY-

SAN FRANCISCO, May 20.—Notwith-standing all the troubles and rections of the "guiding lights" of this fine exposi-tion, somehow of other it sees on every day, getting botter and better and mage beautiful, having better and mage weakly, getting things done continually for improvement, giving general gattace-tion to patrons and having all this cur-marker of one of the most successful en-positions over held. But, remember, the GGIE will be the last exposition of 10 months' duration ever held in the good old U. S. A. old U. S. A.

Success of the Chinese Village has a topic of general conversation on the Cayway. Her shownen here has any idea this attraction was topping the Gayway. Fewer of the boys know George Jue, general manager, and still fewer know that the "man behind the gun" (whereappens to be a brilliant woman) is Dolly George Dorn in China, partially educated there and coming to this country with her parameter young enough to be able to take advantage of our educational facilities. Her business ability was so apparent to banking interests of San Francisco ablat she was appointed the Chinatown branch of the Bunk of America, which post she now holds. She conceived the idea he presenting har people's many achievements at the expo. and from Jahr the Chinese Village was born.

Wind covering for scats in the Caral-cade, fast nearing completion, should help the business of that show immensionably. It takes quite a staff to operate the big production of official A. I. Greenwich Village is still closed pending adjustment of financial troubles. Harry Seber has left town hits John Ed Castle is still on the left form hits block on Avenue 8, where Tom Wolfe's Holyland is located, is just about built light with finishing of the Jeatch Scome building make to Holyland. Evilage Froelich, financial of the Hole-in-One golf games in which the Barrett & Hith Co. is interested, is also interested with Red Kearse in the Bathing Beauties ball tame nowth constitution. Many of the boys are interested in the exhibition to be held in Wellington. New Zealand, opening in November and continuing until April, 1940.

S. L. Cronin, former manager of the Barnes circus, who has been frowing around, has returned to the Schiefe. It is still being persistently declared that the expo board of managers doesn't five a hoot for the concessioners, notwithstanding that concessions are carrying the fair, as proved by the income of manager #2.000.000 from this source that the board half mattered officially as the concessioners' Association netted more than \$600, which was very saturated in the saturated in the person unionized, all members of the second unionized, all members of the second unionized, all members of the second unionized union wage.

Southern Pacific Day, Sunday, May 14, was a decided success, more than 30,000 maployers of the company being in astendance. That they were fine spenders was evidenced by the fact that the ballyhod shows stopped bellying, as the ballyhod were much faster. All were supplied with scrip books with sides for most of the attractions at reduced prices. Benefits, excitent clown, who had been handling from of the Cloric show, returned to the South as 24-hour man far the new Purchan & Marco Circais which takes the read shortly. Mel Smith, formers of the division of concessions, has Jaken an executive goot with the formerly of the division of concessions, has Jaken an executive post with the failty Hame, Mude Ranch. Rodeo which opened in the Colliseum on May 12 looks as the it may be a winner. It is a heavily nutted show backed by the expo. Parado of the grounds twice chilly makes an impression showing.

## Suit of Lone Ranger, Inc., Against Powell Postponed

CANTON, O., May 20.—Hearing in the suit filed recently by Lone Ranger, Inc., of Detroit, in Federal Court, Levisburg, Pa., to show cause why Lee Powell, billed as the "Original Lone Ranger" of biblies fame, now appearing as concert feature with Barnett Broa.' Circuia disputing his right to title and directing the court to show cause why he should not be restrained from using the stitle with this circus, has been postponed until June 5. Ray W. Rogers, an executive of the circus has been postponed until June 5. Ray W. Rogers, an executive of the circus hard.

Rogers, while the show was here, made a hunried trip to Lewisburg, where the suit was filed, to discuss with his counsel as to further proceeding of the show's defense. Rogers said that from all indications the litigation will be dropped shortly as the plaintif had refused to peat \$50,000 board at the time the guits was filed.

Meanwhile the circus continues is exploit Payell as the Original Telescape and it taking the same reference in, all of its newspaper advertising. Hopers also revealed that he had conferred with his lithographing firm at Eric. Pa. in regard to some alterations in paper twick would stress in even larger type Powell at the original Lone Ranger.

in paper Swhich would stress in even larger type Powell as the original Loce Ranger.

Regem denied that Powell's personal appearance with the circus was any infringement on Lone-Ranger, Inc. and that Powell was criticled to use such billing a rabe circus was giving him this section. Radio interests want to force the circus and Powell, Rogers said, to destat and with that to establish its property rights in controlling the right to billing.

Powell that been antering the Ting, first time blindfolded as he appeared in the films, and later unmasked and shouting 'Hi To Silver,' the standard theme line of the copyrighted program. Rogers also contends Powell is privileged to do this, as the call was originated years before the radio program started using it by Buck Jones, who now has a suit pending to establish that he was griginator of the call.

Midway concessioners. Who want a strong attraction at that end of the amusement some, and probably the fair itself are speculating as to the potential public power and appeal of the Cavalgade, general feeling being that the future is none too bright. The fact remains that basically the offering le a wildwester, is form of entertainment which was supposed to have been outneed with the possing of the 101 Ranon Show a few years ago. It's mot a rodeo. Whether the new twist of elaborate costuning and pretty girls and clothes can make it a success remains a question. Opening align the audience, composed large-ly of prominent theatrical personalities, a sprinking of cafe society and representatives of the press, treated the offering lightly, but sample to enjoy it. Program definitely lacks comedy, the Gonzales turn being only laugh-proveding start presented. It could use more.

Cavalgade represents a large investment on the part of the fair corporation. Cost of constructions contuming, reheared and general pre-opening preparation is eitle mixed at between 4150,000 wind \$400,000. Which isn't chicken feed in any language. Wardrobe slone cost \$15,000 and weekly operating nut isn't chicken feed in any language.

Over on Plushing Plate there are still squawks in abundance because of unfair treatment and failure on the part. exposition authorities to come thruth their part of the contract. Many the born are extil behind that eight ball with big operating expense and in-sufficient patrounge to drive the wolf away. There are just a lot of promises

any yet unfulfilled by the fair management.

The mindicap of bad weather, drastic union exactions and arbitrary treatment of concessioners has some of them ready to throw in the sponge. These boys over in Little Siberts near the grayeyard are more than two weeks off schedule on preopening promises, which were made to them as an inducement to tay the hurdles. Cold, migher has not belied but has been an additional hindrance. The only balm we have to pour on troubled waters is the fact that we shall have better is the fact that we shall have better to the fact that we shall have to fune and thru July and August.

The early, appening of amusements on the whole is on the wrong side of find indees thus far. It is a gamble at best to open ahead of the season with the odds favoring the weather and leaving the operator to pick up the grumba. in two issues Pio magazine has carried two pages of pictures develoc to roller stating. Such publicity dies much to promote roller stating metionally. Short negotisatory stories also were carried. arating. Such publicity dies much to promote roller skating metionally. Short introductory stories also were carried. That in the Pebruary, 7 edition, however, was not very encouraging. Under a bedding, "Rigure Exating on Hollers," it taid in part, "Roller skating as a complitative sport has never rated and probably never will the prominence in the griphon, mindeed its big brother of the lens. It dides not require the athletic ability, is not as fast nor as colorful and is too closely associated with the children in the price."

We wonder where the writer of this has been and where he became so learned on relieve thating frattern. A little investigation on the part of the editor would have informed him that roller skating, thru the Roller Skating Rink Operators' Association of the United States, is affiliated with every stating organization in the world and has been examing, thru the Roller Skating Rink Operators Association of the United States, is affiliabed with every skating organization in the world and has been invited to participate in international contests. He might also have learned considerable if he had troubled to compare speed records of rollers against those of itse. And, had he attended any of the revues presented by the Detroit Pigure-Shating Club he could have further enlightened himself to the fact that roller skaters do and one editions each and every one of the difficult futures, danged of the that are done by their so-called hig brothers on long and we will add that roller skaters can do many intricate strings on toe rollers that are impossible on the skaters can do many intricate strings on toe rollers had a replaced to believe that letters sent in evidently caused the editor to rollers that are into the story accompanying pictures shown in the Aught 16 teach assign someone to the story accompanying pictures about my right about lase was made and the street. (Yes dir. Editor, we also have some of the tellide and he aikaters in our runles). The article continues "At almost any rink you'll see requires walking, doing the Beebe dip" (whatever that is) "and chicken scratch, have the string of loss akating without ankle straiters." Experts are on hand to teach the nevice. It has the price of lee akating without ankle strain."

Next time a magazine wither to get come real roller-exating pictures it might send a man over to Mincola L. Norway Pine, Minn. Week ended May 20, 1939.

After covering five provinces of Canada and 15 States on an extensive booking campaign where committees are few and far between General Agent Lam Truck-low arrived in Norway Pine to find the town well billed in survence by our competitor. Drawbead Sisters Caffured Carnival. Enough that the had no right to any town that say contemplated playing. Trucklow immediately and out to learn the town's linancial condition and bosed if the burg could sumper two shows, day and date.

Many for the natives thought he was a bet loser when they saw him crawling down the matter on his hands and threes appreciation the lengths of cigar butta. Finding them exceptionally long, he listed the town as one of the most prosperous in the booking field. Carefully wrapping and mailing two mit the

BOCHESTER, N. Y. May 20.—Last
Week we called attention of the industry
to a decision attempting, to draw a
distinction between "games of skill" and
"games of chance." Since then there
has come to our attention, by means of
a current back, review, the availability
of a book; Thereby Participation Loty
forice, by Francis Emmett Williams.
Altho we have had no opportunity to
aramine this publication, the information furnished seems to indicate that
the author has written on a comewhat
marrow phase of the subject, but nevertheless gives his legal/conclusions as fo
legality of various plans in vogue thruout this country.

Altho the review of the book which
has come to our attention is somewhat
critical of the author's reasoning in
arriving at various conclusions set forth
in it, nevertheless it does admit that a
keen analysis of the subject is made, and
we therefore pass this information slong
to that portion of the carnival industry
that may be interested.

We adde with interest that the Senate
of Connecticut recently passed a bill
legalizing games of the billion variety,
which had been previously banned in
the State. The bill has gone to the
Bouse of Representatives, where it is
pusable it may have opposition. The
bill prohibits cash awards and sets a
\$220 maximum on value of merchandise
awards in any one day.

#### Harris Heads New RCA Toy Division

CAMDEN, N. J., May 201—Recently announcing plans for entering the field of instructive tons, RCA Mig. Co. this week appointed Mark Harris, former vice-president in tharge of sales for the Lionel Corp. as toy sales specialist for RCA's By-Products Division. Pirst of the toys to be marketed by RCA are a ministrum Sound Control Studio Kit; designed for staging resilistic home radio programs with an assortment of sound effects similar to those used in regular broadcasts, and an Mentionic Kit, containing white and instructions for building a radio receiver, telegraph code practice set and capacity relay.

Harris was accepted to direct RCA's

capacity relay.

Harris was adjected to direct RCA's sales softwittes in this new field Because of wider expertence in the toy industry. He first became identified with this business in 1911 as salesman for Lionel Corp. He later became sales manager, and in 1925, was made vice-messive in charge of sales. He held this position until 1930, which he maigned to become a manufacturer agent for various toy firms, Later he returned to Lionel to direct sales, activities for its aubsidiary, the later Corp. and later established an accord in England. Since 1936 he has been sales representative for the Samuel Cabriel Co. and the Wolverine Co., toy manufacturers.

Op until flow the firm has maintained officer and showroom at 006 Sixth avenue, while the printing plant was located on 21st street and in-plastic division on 22d areast. In the new handquarters all divisions will be under out roof. Firm's new location has 12,000 square fret of floor space. "Ample enough, we hope." E. S. Lowe says, "to provide for our needs for some years to come." More than \$110,000 is being spend on new machinery.

In the new quarters the firm will continue to market a complete line of bingo supplies along with its line of adult games, including man love etta, poker chips triglibadkpammen attack. In all-ditton the firm will continue to feature in lines of lefther appetalties and plantic novelties.

BY BEN SMITH

There is no limit to the types of locations which may be worked profitably. Spons which ordinarily would not come to mind as prospects. For eard placements may, if ferreted out, develop into steady repeaters. As, for example, the backstage of theaters, Now at first glonoc you wouldn't think that here would be a likely place to turn a deal, yet the boys, in New York are doing it. Cards are left with doormen or property men ands they, seem to have little troubte selling out.

One operator him they, as a result of a placement ne is bus terminal, he finally got bus differs to work for him. Drivers took the cards back to their home town to complete.

Many such locations may be found by operators who have a little ingenuity and are willing to use it.

Babs Creations, Inc., is offering a new perfume item called Yesteryear, which may go well on one of those small deals with a take of less than at. Perfume is contained in a picture-sque bottle in the shape of a lovely Victorian lady. She holds an old-fashioned desegre in her hands, and round her wait in a velocity of the bottle itself is housed in a given dame set on an attractive metal bast. Item should appeal to the woman and their boy friends.

worth-while margin of profit. When the
equipment is paid off this rate is sometimes dropped to 15 cents to increase the
volumes.

Most of the track operators do not carry insurance to protect the rider. Instead, they prefer to handle the matter in one of two ways: (1) by forming a company under the operating name; (2) by using a release contract against the operator from all claims that is completed thru the purchase of a ride tidulible. The actual manner of handling these paned depends entirely on the individual attention and operator.

The procedure in the rental plan is to have the rider full out a cert width absolves the operator from any shifting that might result from an accident and also makes the rider responsible for the welfare of the inachine. To keep track of the logic the machine is out this card a usuality time-etamped or punched when the machine leaves and again when it is checked in.

The Equipment

A big item in the success of secons rum the concessioner's point of view is the ruppedness find mechanical perfection of the machines themselves. Built tion of the machines themselves. Built to withstend the constant punishment of rental use, these machines are reported to require little attention beyond gas, and oil and an occasional disck-tip. What's still more important, the low center of gravity of the machines makes them pricetically self-balancing so that anyone can riductions. As they can go as far as 120 miles on a gallon of gas, operating costs are reduced to a minimum and profits are large enough to enable the concessioner with a good admitted to pay off his equipment in a machine it ins.

While it is impossible to justice how

while it is impossible to judge how many scool concessions are now in operation, manufacturers state that interest among outdoor showmen is reaching an all-time high. These firms predict that concessioners who get on the band wagon now with the best part of this season just shood will really cash in.

## "Pitchmen's Rights as Citizens"

Second Installment to Appear in June 10 Issue of The Billboard

What is the lawful and real nature of Pitchmen's taxation? Do "foot-loose" ifingrant merchants pay taxes?

Can a Pitchman be convicted and sent to jail unless he pays am exorbitant reader rate?

"Who has the priority right on the street, the Mitchman or the automobile?

These and many other questions of paramount importance to all who sell are answered in a series of articles by E. L. Kiehl, who is well known in demonstrating pitch circles thruout the nation.

The first article of the series, entitled "Pitchmen's Rights as Citizens," took one back to the days of the Yankee Peddler, America's first itinerant ambassador of commerces of whom pitchmen and demonstrators today are the echoes. It appeared in The Billboard dated May 13. The second article will appear in the issue of June 10. Other installments will be published periodically.

Read each installment and be able to intelligently discuss your inalienable rights as Citizens!

## Validity of City License Ordinances

By LEO T. PARKER, Attorney at Law

RECENTLY several readers have expressed a desire for a legal opinion on the validity of city license laws with higher court citations included which illustrates the legal distinction between ordinances requiring payment of license fees by (1) pitchmen and others who utilize the streets for the purpose of selling merchandise, and (2) p within the court citations which may prove helpful to their lawyers when detending asists of this nature.

First, it is important to know that the power of municipalities to regulate or prohibit the sale pharticles of merchandles on their streets, sidewalks or other public places is largely dependent upon the powers granted by State law limited by the constitution or natures of the State in which the municipality is situated. However, it is seldom that a court will hold a city ordinance redd on the grounds that it is not broadly or appendically authorized by the State constitution of statistics.

For illustration, in State in Barisdain,

For illustration, in State m. Barfelais, 101 Mc. 512, it was shown that a State inw authorizes municipalities to pass ordinances regulating its streets. A municipality tensested an ordinance prohibiting the carrying on of any trade or business in a gubble street without a written permit to do so from the mayor or other city officer authorized to grant the same.

The validity of this ordinance was contested on the grounds that a State law ordinances regulating its streets does not

imply that a municipality may give an monresident to hawk, vend of peddle ordinance prohibiting use of its atreets goods without license was regarded as by citizens who sell mirrohandige. However, the higher court held the ordinance fore yold.

What is Legal Neisance?

"A person offering for sale articles in this manner is using the streets not for purpose of travel... in going from pings to place Sutage a place of business."

Also, in State vs. Summerfield, 107 N. G. 395, the higher court head that it municipality authorized by State statute to past ordinances in the nature of a police regulation might, by ordinance, prohibit the display and sale of articles on the sidewalks and in the size tax.

#### Specific Regulations

Specific Regulations
Various higher courts have held that a
magneticality projectly authorized to regulative or prohibit sales on its streets orother public places may regulate or prohibit the sale of specific articles and may
prohibit these sales generally, provided
the alabification so made is ressonable.
Generally speaking, the classification
is considered reasonable provided the
ordinance does not without good reason
discriminate between two or more citizens.

For illustration, in Bradehaw, 159 S. W. 259, his higher court held that an ordinance histhibiting the sale on the city streets of merchandles, except that raised on acoparity owned by the seller, was valid and reasonable. The ordinance apparently discriminated beforem property owners and those who owned he property. However, any one desiring to escape discrimination could purchase property and raise on it articles meened to be sold on the city streets. Bustration, in Bradshaw,

#### Cannot License Streets

Another important point of the law is that a city has no legal right to strik any portion of a gibert or sidewalk, or issue a license to another for its use. This is so because city streets hind sidewalks are dedicated to public use for purposes of travel, and therefore municipalities have no power to authoring the use of public streets and sidewalks for mrivate purposes. This does not mean, however, that a city cannot usue valid licenses to pitchmennor others who may desire to use the streets or sidewalks from which to sell their merchandiso. The section for this destinction is that a pitchman has no right nor intentions to The granged for this distinction is that a pitchman has no right nor intentions to erect any permanent structure on a street or sidewalk. In fact, he makes only temporary use of many and different parts of the addwalks and streets. Therefore when a ministipality issues a license to a pitchman it does not rent or lease any portion of its addwalk or street but merely adtherizes the pitchman to sell merchandise while on its addwalk and streets.

Also, see Winter vs. Mays. 170 Ey. 554, in which the higher court held that the city will without power to license that

in which the higher court hold that the city wis without power to hemse the erection of a booth for the sale of merchandse in a public street.

And in Hercler vg. Buck, 180 N. T. S. 563, it was held thit newstands placed on the sidewalk were nuisances as a moster of law, to the erection or maintenance of which the municipality had no authority to consent.

#### What Is Legal Nuisance?

What is Legal Neissace?
It is well known that any person who practices a "ingal\_nuissace" violates the usual law in effect in all localities, and he may be prohibited from continuing his business. On the other hand, it is important to know that a municipality cannot deprive a person of his property or property rights by declaying by ordinates that to be a nuissace which in fact is not a nuissace which in names that to me fact is not a natisance.

For instance, in Prior vs. White, 180 So. 347, is was shown that a city passed an ordinance which prohibited all persons from soliciting sales of merchandise from home owners who had not invited the solicitor to come onto his property; or premium. This ordinance property; or premise. This ordinance further provided that soliciting a property owner who had not requested or invited the solicitor was a legal nulsance and punishable as such.

It is interesting to know that the higher court held this ordinance void and said.

"Ruisance, nocumentum or annoyance admiries anything that works hurt, inconvenience or damage. A private nuisance is anything done to the hurt or annoyance of lands, tenements or here-ditament of another. A common or public nuisance affects the public. There may be home people who seriously object to having solicitors call all their homes for the purpose of methers articles of merchandise, but the evidence indicates that the majority of natives have no such objection. Twice by this rule, the fact soughight be prohibited by the ordinance in manifestic not a public nuisance and therefore may not be punished as a crims or diamesance." as a crime or diameanor.

Also, see Orangeburg vs. Rumer, 181
S. C. 443, where an ordinance was held
unconstitutional for the reasons that
there was positive evidence that the
practice of house-to-house solicitation
was in he wise detrimental to those solicited, and it was considered that it was
not a nuisance, nor shown to require,
for the beneat or protection of the public, only drastic legislation.

#### Leading Citations

Many readers may desire to mad high-ar court cases involving different phases of the law of licenses to pitchmen and solicitors. Therefore, important and leading cases on different and interest-ing points of law are classified, as fol-

For instance, he litate or city may interfere with or tax any person who transacts interstate business. And the court have held that interstate business is transactions—pinancem, persons who live in different States. If, for example, a gereon solicits and accepts "down payments" from purchastrs and the goods are shipped from another Stale, the solicitor cannot be taxed by the State or city in which the orders are solicited. On the other hand, if the collector receives a shipment from another State and then distributes the merchandise to purchastrs in the State in which he does business, into the solicitor is subject to local State and city tax and license laws. This is so because he trainacts the business of selling, collecting payment and distircting the merchandise in the same State.

### The Public Prints (A "Famous Reporter")

THE magazines are at it again. This time it's a 5-cent monthly of a chain subject is distinct the author claims he has been a magazine writer and newspaperman for 50 years or 60. Half a century is a long time for anyone—even a new paperman for time for anyone—even a new paperman for something, but this "famous reporter" just indules in stuff that was ancient years ago. He presents nothing new or startling—nothing that the provincial reade hasm't seen in his favorite famous journal over a period of 25 years.

nothing that the provincial reader hasn's seen in all ravorite farmifournal that has not been distinct up in a much more convincing and enterthining manner. The famous reporter approach is familiar moral idealism and "my-heart-bleeds for-those-who-are-fleeced" sert of thing.

for-those-who-are-fleeced" sort of thing.

If this "famous reporter" is so famous and so well informed we are given to wonder why he would, his he states, take his grandchild to the carnival grounds or the county fair. Suffey a well-intentioned grandfather would not expose his little daring to the victous akin games he writes about. Of course, there is always the possibility that the grandchild is fletitious. And, there is always the probability that he himself was hooked, but conveniently used a child to build up a case against off-color games.

## MUSEMENT MACH

A Department for Operators, Jobbers, Distributors and Manufacturers

EConducted by WALTER W. HURD-Communications to Woods Building, Randolph and Degreen Streets, Chicago.

## MESSAGE

TO FRANKLIN D. ROOSEVELT:

So many issues are pressing upon the minds of the American people that they need clear, unbiased sources of information perhaps more than ever. They want to depend on the press for this information and yet they know the pass is muddling the issues rather than helping the people to understand them.

Perhaps more than any other service you could render to the people during the next four years would be to help save the American ideal of a free press.

These are confusing times pand the American people are confused even about the press. They need your

leadership to organize them for disciplining those who have abused the responsibilities of a free press.

There is a strong feeling that that greatest single danger to the American ideal of a free press is the abuse of that privilege by wealthy publishers.

Strongly intrenched behind constitutional privilege and the power of wealth, these publishers have lost sight of the masses of the people who support the American press so well thru the hidden tax of advirtising.

The American people believe in advertising. They would like to

have as much confidence in the reporting of vital issues by the press as they do in advertising. The American people want it made clear that they are willing to support the press by the hidden tax of advertising. But when they have contributed to support the press in buying advertised goods, they ask in return that the press be fair and impartial on vital issues as a matter of simple honesty.

People of all parties, all races and all faiths contribute to the support of the press. When they buy advertised goods they are compelled to support publishers known to be abusing the privileges of a free press. The people have no choice in the matter. They must refuse to buy advertised goods, or they must contribute to the suppost of irresponsible publishers thru the hidden tax of advertising.

It is because of this fact that the American people want the press to become more responsive to the rights of the people. The people ressize they can vote you and others out of office when you fail to represent them. But they cannot rid themselves of publishers that have no regard for facts. They are compelled to support such publishers thru the hidden tax of advertising from year to year.

The American people fully appreciate the rich variety in contents, the talent and money that makes the American press what it is. But on vital public issues, the people want fair and impartial news and information.

The American people believe the rank and file of workers for the press are capable of giving reliable news

and information on vital questions. The American people want a sharp distinction drawn between those who abuse the privileges of a free press and the great army of conscientious workers in the publishing world.

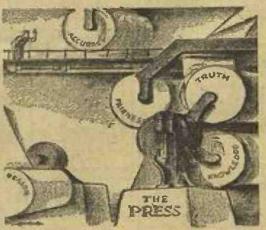

The spirit of the American people is progressive; they have little need for a reactionary puess. The American people must make a mechanized civilization succeed; they find the American press making crucial problems all the more confusing. The American ideal gives a hearing to all parties and considers the rights of minorities; they do not need a partisan

press because people of all parties support the press.

The issues of the time are crucial and difficult, Before people can vote intelligently on these questions, They must have reliable sources of information. They are paying the press to furnish that information but find too many publishers trying to confuse the minda of the people,

The masses of the people are in a mood to severely discipline the press. But they are unorganized and confused, and await leadership.

You can furnish that leadership which will restore the American ideal of a free press. Perhaps more than any other service you can render to the American people would be to help them discipline the press for lack of fairness to the masses. The American people are willing to pay the press, well for its services in the purchase of advertised goods.

An artist illustrates the fundamentals of a free press for The Chicago Daily Times, May 7, 1939.

### With Eyes on the Medical Convention

CHICAGO, May 20.— On machine designers and manufacturers were watching news of mechanical devices emanating from the convention of the American Medical Association meeting in St. Louis this week.

The coin-operated principle has already been japplied to such machines as a "heart best" scale. A pulse-rogistering machine has been in operation in a large department store in Chicago for more than two years and is technice to be very successful. It has more recently been placed in the Gerber game room of the Sherman Hotel lobby. A Chicago chemist has also developed plans for a coin-operated machine which would give a metabolism test upon the deposit of a sime.

So destinate and manufacturers watch the mechanical devices that appear in the modical world. The acceptance of the theory of vibrations by the Academy of Science this year opens up a vest field for the development of mechanical devices to register various health tests and some of them may possibly be coin-operated.

Perhaps it is the heat, or maybe the prevalence of slot machines in the Fiorida news. Anyway The Mismit Haraid in appearing a machine demonstrated at the St. Louis convention headlined the using a machine demonstrated at the St. Louis convention headlined the using "MACHINI-NOT BLOT-DEVISED FOR BEINNING HUMAN HEINGS."

### Mangan Says Ads Today Are Corny; Raises a Rumpus

CHICAGO, May 20.—Indicating that change is the natural law of life—expending in advertising, James Mangan, advertising, manager of the Mills Novelty Co., threw a convention meeting of the Advertising Affiliation into an uproor by changing that, today's advertising is

JAMES T. MANGAN

"corny" and that the result of stagna-tion of new principles of advertising can be laid at the door of advertising agen-

Manuar's text was "Do Tour Sponsor Corny, Advertising 25 Manuar charged that no new advertising techniques had been advanced in years. "Technique," he asserted, "implies a body of knowledge, and no such knowledge exists in the gency field." He decisred; as he has in the past, that he had found only 14 good advertisements in the past, that he had found only 14 good advertisements in the past, will known to The Biliboard readers, Manuaris advertising technique is, will known to The Biliboard readers, Manuarial themes and designs. He is the author of many books on the subject of advertising and also psychological treatises, the latest being The Knock of Salling

Yourself, a startling book which lifestrates the Mangan train of thought.

In his remarks before the group Manigan asserted that advertising should represent the spirit of the era in which it appears. "Youth," he declared, "should be the molif. It is youth which distated the purchase and names the brand, regardless of who signs the check.

"Advertising abould be so thrilling that the whole nation will be awaiting our next message. But," he said, "igencies need young blood, but they seem afraid of infusions of this kind. The agency represents intrafferment,"—the domination of old men. But the smarkly is 21 and always was," he asserted.

He called on advertising patriots to release advertising from its strait-jacket and give design its due. He referred to the new headquarters of S. C. Johnson & Sen, Racine, Wis, pictured in Life, as an example of what design could achieve if the shacking were removed from creative ability.

Mangan was the firight of sharp-shooting agency men for the duration of the convention. Practically every speaker at banquets, molitings and in private groups referred to the Mangan had.

One observation was that Mangan had perceatly done just what he wanted to do—that which he has gloways advocated—that is, to stir them up to the point where there was free discussion—and hold Mangan always seems to enjoy being the center of this type of discussion—even if he is the target of a great deal of personal retailation. In fact, in opening his address before this advertising men, he invited the regulating securities of insult him.

### See Defeat for Candy, Gum Levy

COLUMBIA. S. C. May 20.—Pollowing weeks of heavy campaigning by the cainty stade in this State, supported by the cainty stade in the proposed to fax candy and chewing sum which has been before the legislature, is expected to be defeated.

The proposed tax is 20 per cent on candy up to 15 cents a pound and 10 per cent on all over that price, in addition to 20 per cent on chewing sum sales.

When the attempt was first discibled is rapidly developed into the most severe "danger" spot from the standpoint of the confectionery industry that appeared as any 1939 legislative session.

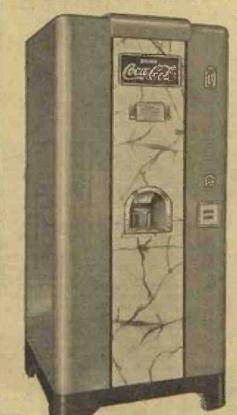

Candy trade forces railed in opposition, with P. D. Mandoral manufacturer of Greenville, as the spearhead of the entire industry in the desire to beat the proposal that threatened to Sales arrives as the notorious candy tax in Kentucky.

South Carolinashad a smaller candy the up to several years ago, when a 10 per cent levy on all candy over 50 cents a pound may repealed.

An Analysis of Current Songs and Recordings From the Standpoint of Their Value to Phonograph Operators

By DANIEL RICHMAN

Tebulation in beself upon radio performances, elect music sales and record, releases of the week. Reports from music publishers as to the polatical importance of certain songs in their catalogs are also considered, as well as information received each week from prominent operators.

### COING STRONG-KEEP THEM IN

Three Little Fishies. Nothing has come along in the past week to suppliant this rany ditty at the top machine item of the moment. It's side making a clean sweep of the other angles which determine a song's popularity-about music sales and air performances, althout, doesn't shine in the latter department the way it does on discovered copies. Kay Ryser holds on to his position as the head of the recomp parade, trailed by Hal Kemps Paul Whiteman's Swing Wing and Guy Lombardo.

Beer Barrel Pelka. There's no noticeable decline in public reaction to this one either, and it will probably be two or three more special before any county and it will probably be two or three more special before any county and the introduction of an andrews fasters' recording on the phono scene has given it added strength in that field. Willie Glahe has had things pretty, much hig ownering with his straight European-negoried polks worden, against the competition of Jolly Jack Robel and the five the Thvern Band with similar discs.

And the Angels Sing. The third of the trio of outstanding popular numbers of the day, and just as arrong generally as its two colleagues mentioned above. There are any number of excellent versions graliable now, but Benny Goodman's duo, which really started the whole thing) remains practically supreme and Exchallenged. Bing Crosby's platter is a money-maker also, and Count Bessell is, understandably enough, doing very well in colored locations.

doing very well in colored locations.

Our Love. This Tchnikowsky adaptation has been more or less income absent in its performance, but lately enough favorable reports on it have bome in to justify its being included here as a strong number. Even if it weren't doing as well currently is it weren to be doing for operators, his hig sheet-music sale wought indicate the necessity of having it in the box. Jimmy Dorsey has a facilitied record.

Surise Segonde. Now at last, some works after its introduction to machine patrons, this tune is beginning to rail copies, a sure sign that it will have to be kept in a while longer. At scene to be all Olen Gray and his Casa Lorsanites here, which is really as it should be, since Olen turned out not only the first but about the finest ventor yet waxed.

### COMING UP BETTER STOCK THEM

Wishing One more week and this will undoubtedly reach the higher breakets above. Some reports on it this week, for that matter, are so favorable that it misses out one this "Going Strong" classification by very little. Olean Miller seems to be getting the oall, not only because of a very attractive disc, but also because this bond is rising rapidly in ope and customers esteem. Russ Morgan's pressing is liked also.

Tests From My Inkwell. Still not a smath number as oven right on edge of being one, into cannot be ignored. It's a fair seller and radio number, and it potentially a good phono typer It's been a long time arriving—it was some weeks and that it first appeared in this corner—and it may never really get there, but either Red Nichols' or Clen Gray's record should be under the needles for what call there may be for it.

The Lagra is Love With You. A swell rhythm tune with an infectious melody and clever lyrics, this stem—from Oene Erupa's forthcoming Paramount picture, Some Like it flot, is quite likely to catch on. The constiting mart isken't produced this tind of number lately, contenting itself with ballads and novelth, and this may be the one to start things off in this very again. Olena Miller, with a particularly appealing platter; Bob Crosby and Chies a allocal time; out a trio of disc to satisfy anybody.

I'm Building a Sailboat of Dream. Abaking the climb to the heights about but protty surely is this "summer," balled, the sailboat angle of which ought go lift it up during the approaching outdoor season. Bob droady knocks out a record to join Chick Bullock's (one of the most favored) and liftic Robertson's.

### OPERATORS' SPECIALS

Living covers files somes which in themselves connect be classified as popular nation-wide hits, but which are, or old guary indication of becoming armodissful phonograph, numbers.

Man. Wayne King's handling of ship oldtimes (remember Pannie Bilee's classic version of it?) is doing a lot to greate the interest in already general-globs its inclusion in the score of 20th Century-Paras Rose of Washington Square. A good item, and one you should have in there.

e of Wathington Square. Por similar reasons, another must fee, the bootes. The movie will be getting around now, and it's available from Brany Goodman or Bob Crosby. Nostaleta coupled with swing is averety good tonic fee ailing phonos.

Wixing the Wire. A phonomenal bit of piano playing from Lionel.

Hampion and an ideal three minutes for all locations and Negro spots in particular. The amazement engandered by Hampton's automitting plantatics (bringing a two-ingered vibraphone technique to the irones in a alightly simbellowable performancy) is almost certain to have them playing it over and over.

Bubbles in the Wine. Here If an item that has been meeting with a lot of quiet address around that Midwith, where the mactro responsible for it do a big favorite. It's Lawrence Welk's them song and one of the first fine he recorded some months ago. It them song and one of the first fine he recorded some months ago. It has matter, that one of the better music publishing houses in New York is releasing it in sheet-music form this week. Add to that Welk's forthcoming summer stay, at Chicago's Edge attr Beach Hotel, which will give him several radio broadcasts weekly in which to popularize his theme further, the number has more than an even chance of catching on in a big way.

(Bouble-meaning records are purposely omitted from this column) 

Orders Pile Up

NEW YORK, May 20. The unique administration of the new Orchestroia automatic music unit most the needs of many exclusive locations so perfectly that distributors are ordering large. that distributors are entering large quantities of Orchestrolas for rush delivery, recognizing a wonderful opportunity to chan up in a vast, now much field," officials of the firm declars.

Calif. Association Reports Progress

Reports Progress

Ban Francisco, May 20.—The Automatic Music Merchandising Association, inc., reports it has members as militard to the association in one week from the northern California section. The meeting held this week was attended by many of the local members as well as a large number of usin-members.

Messra, Smith from Chicago and Kelly of Washington, both right-hand inon of William Green, president of the Active were in San Francisco this week working on the program of the International Association of Electrical Workers, with which the local music association is affiliated. Special difficulty seems to arise over the demands of the Cakland group for a separate union, which at present the Public Coast representative is souther to grant shapp it would call for affiliational expense for offices and staff.

Criticism was made by some operators that money paid for dues was sent out of the State and that such funds should be held for lead purposes. This criticism was answered by referring to a recent in which a local member met with an accident to his car and the insurance money reimbursed to him from headquarters covered all that had been sent in by the local office.

While I am not an operator and I can't may the records do anything for me personally. I thought that it would be interesting to you and your readers to know some of the latest developments in the Philadelphia operating field as I have noted them.

Spreading fast, and garnering much business are the so-called litterbing joints, catering to large crowds each night and serving nothing more potent than ice cream. The idea is that the type has a large floor suitable for litter-busging, an automatic phonograph and an ice cream fountain set-up. Admis-

ACGRESSIVE, DENVER DISTRIBUTING CO. is always "up to something," declares Rock-Ola Mys. Corp. During the week in which Olyde McCoy and his band appeared at the Denver Theater, Denver, a photograph was placed duffide the theater to play McCoy's recordings. Gibson Byadanaw, president of the Denver Distributing Go., declared that there was always a croud around

Prof. Harry L. Crosby, better known to music lovers as Bing.

Ever since Bing began recording high been popular. Like old wine, Bing seems to improve with age. His new tunes, which we have stocked, are going great guns in all locations. Some of these are and the Angels Sing, Sunrise Screnoid, Rost Side of Heaven and the tune to the other side of Heaven and the tune to the other side of this platter. Single-Sing of Sunbeams. I also like his say old Gentleman and Heng Your Heart on a Hickory Limb. The cash customers like best of all at present his recording of Little Sir Echo. This tune is tope now.

But Bing, as good as he is, isn't the only star we cash in on at our locations. Her the No. I lad, but while Shaw and his band is runner-ung of course, in the calored spots, Louis-Jamestrong, Cab Calloray, Chiek Webb and His Pringerald. Count Basie, therefore Inthegrous. On May Linceford size. Duke Ellington. On May

Count Basie, the Four Ink Spots, Jimmy Limestand and Duke Ellington. On May 1st. Pletcher Hunderson, played it, one-nighter to a capacity crowd here and he is the favored by the colored population. Some of the tunes that go overlin these Statem spots are that go overlin these Statem spots are that the Ches. Steme it on My Lan Afair and When the faints Go Murching Tac, Ot course. Hot Tight is also there for the dough. Kay Kyser also plenty popular in most places. His recording of Three Little Fishtin and a number of others is really shape. Bob Crosby, Tommy and Simmy Demany, Dek Todd, the Andrews Sistems. Hal Kemp, Olen Gray, Horaco Heidt, Red Nichols and a few others are also in the money.

the kids jam these piece—and there of the oldaters too. Owners of the places have kept things on a fair scale, keeping the price of refreshments, std. down. Result has been increased apending for refreshments, sto. The owners share from the automatic phonograph paye the sum of the site and the Pentram sales are almost pure profit to the owner, Operator's share on the phonograph, needless to say, with the phono running from carry over to carry morning, is plenty.

One advantage the loc-tream litterating places have over taverent, etc. is that they do not have any dipensive liquer discusse to cover—and they're drawing bigger crowds than taverus ever had:

Befords on the phenographs are defle-nitely swing type. Benny Goodman he an undoubled favorite. Kap Kyser, Bing Crosby sind other devotees of the wild or sweet swing all get plenty of favor. Novety tunes such as Thrue Little Fillities and Little Sir Reho, in their swing arrangements high high in favor.

Sweet part of the set-up is that many come just to see the j-bugs and color oder it plenty of entertainment, not start from their seat for any reason other than to fetch remainment. This results in a rapid turnover of patrons, who are arriving and beauing mattinguist.

Undoubtedly this type of establishment will appreciate outher sections of the country. Take tetter in printers' ink mill of the trends; and Lidefinitely think it a good progressiteation.

### Maryland Operators Call for Co-Operation

Blumenfeld and Rosenberg, officers, visit Philly assn. for constitutional data

BALTIMORE, May 20.—Coin machine operators here have formed the Maryland Operators' chasociation to insure the legitimacy and stability of the industry as well as improve operating conditions in the area.

At a meeting held April 30 at the Southern Hotel heat; elected to office were fryin Blumonfeld, president; Michelas Brous, vice president; Harry Effenberg, percuary, and William J. Moran, treasurer. Up to this time two organizational meetings have been held and 50 operators have been unrolled an members. Many more are expected to join shortly.

According to Irvin Blumenfeld.

According to Irvin Blumenfeld, "Conditions are now ripe for the formation of an association. Operators the pour the city are beginning togrealize the necessity of an organization to protect the best interests of the best interests of the property. We want to protect the city of the second to form We must be prepared to fight any eventuality that may imperil our legitimacy and licensing, and we must combat any attempts to impose destruc-tive and punitive tax measures that may be imposed upon un."

Pointers, From Philly Assa.

Bitmenfeld and Resemberg visited.

Philadelphia recently to confer with ometals of the Amusement Machine chastication of Philadelphia. Prom them were obtained copies of the rules governing the conduct of members, bylaws and constitution. Organizational authoric was also given them. Elumenlaws and constitution. Organizational rutiance was also given them. Elumentellic and Rosenberg volced appreciation for the reception accorded them and for the willnable material they obtained. Blumenfold said that the best features of the Philadelphia group which has been described as one of the strengest associations in the country will be incorporated into the by-laws of the Baltimore group. Baltimore group.

Building New Organization
Blumenfeld declared that they will
also visit other cities with trade associations in order to observe operating
methods. He revealed that there were
two provious attempts to organize the

coin machine men in Baltimore. However, organizational and functional weaknesses finally succeeded in disnipating the group. "However," he sidded, "the present attempt, we are certain, will lead to a permanent group. We are not bediding upon the ruins of the old, but instead we have made now foundations and strong mes too. We foundations and strong ones too. We are in a position to profit by the mis-takes of the old groups and in addition the advice given us by the Philadel-phia group will be beneficial in getting us started on the right track.

"The Maryland Operators" Association will be able to offer its membership great profits. We are certain that once the organization really gets under way, operating conditions will be greatly improved thruout the area. Only by organization can the stability of the industry be mainthined."

### Box Score Peps Daval Ball Team

CHICAGO, May 20.—Daval Mig. Co-baseball team has just won its opening league game in tale city's industrial league from the Match King Corp. The winning source was 10 to 8. According to Al 8. Douglis, president of Deval, the reason simply was, "The boys sure tremendously stimulated by the orders which we have been constantly receiving for the Box Score game on which they are weeking so hard in the factory."

Playing a baseball game during every lunch hour and actually practicing goest chance they could get, they were soppling full of baseball strategy when they went out on the field in their first league

The way they liched the Match King Corp. team bids fair' to put them in the running for the industrial dispute championahip of Chicago. We feel certain that as the boys go out there and bang out thing at real baseball share is no doubt that ope all over the country are banging cut the biggest profits of their careers with the his game Box Scone which things same boys are producing. "Datal's Box Score continues its phenomenal run and is every day becoming more and more a money-maker. Even the new products are all ready for the production line the demand which continues for Box Score actually holds back production while the quantities ordered are shipped." Bis concluded.

Confidence of the process of the country according to information from the pleasant spot of having quite a few types of coin machines going weil in all paris, on the country, according to information from the factory and their distributions.

"Mercury, the new token payout, is proving to be a very good seller in preciding all sections of the country, declared J. O. Bates, firm official. "Our various distributors are reordering them, in significant and that is the best indication that the machines are proving profitable in the hands of operators.

"Ekril Jump has really exceeded our expectations, as we never entertained the idea that a strictly legal game could or would be operated so extensively. Naturally the sale, of this machine is limited to territory where other types of equipment are not in operation.

"Our folumbia Olgarette Bells with out-of-the-way payout feature, artis still proving to be a leading item. Operators have found that they can operate this type of machine where the ordinary bells are not permitted and it has been the means of opening up a lot of territory, conditided Bates.

Said Lee Keily, vice-president of the
firm, "These seems to be no let-up in
this game's popularity. We ask still in
peak production with an added night
force and still we can't make 1930 Conteet fast emough.

"Contact has hit the public's fancy—
it-presents a new and different amusement angle, The player gets a full
nickel's worth of thrilling amusement
every game, and it's a fact that many locustoms have demanded two and even
three of these Contacts in as to satisfy
the increased crowds and enable all their
customars the opportunity to enloy the
new diversion and pastime Contact created.

"Contact came at a period of lag. The public had little taste for amusement games due to the similarity of one game to the other, but Contact being entirely different, revolutionized the amusement gant trend. Operators who have replaced Contact in some of their locations placed Contact in some of their sociations with later game releases tell me that the patrons of the location compelled them to return the Contact. It's the eld rule of success all over a rain, 'Give the public must they want when they want it.' ### Official Warns on Flood of Machines

RALEIGH, N. C. MAR 20.—State revenue commissioner has issued a timely warning that "too many com-operated machines are fooding the State." The warning has been repeated by many newspapers in the section.

According to the revenue department, no licenses under the new state law will be desured until after June 1. Meanwhile detailed preparations are build made to regulate the issue of licenses.

All field deputies of the goodforment will attend a school here on May 20 and 80 for receive full instructions about licenses of coin-operated machines. The commissionist explained that no licenses will be delivered direct to operators. Each application for license must be accompaniedly a full description of the device, its aerial number and where it is to be located.

Revenue department officials will study each application to determine whether the derice involved is legal, and if it is held so the license will be mailed to a revenue department deputy. The deputy will then inspect the machine and if the finds it to be of a legal type will etick the license to the machine with a give intended to prevent removal of the license to enother machine. to emother machine.

The commissioner said that such license will bear the notation that it is not valid for any machine which operate in violation of the law. This notation, he said is designed to prevent installing "new works" inside the case of a machine that being a license.

### Unusual Slot Law Loses in Vote

TALLAHASSEE, Fis., May 20.—The Mapoles Rill to use State-owned slots, machines for revenue to pay old-age pensions and other charities was killed by the Senate on May 18. The bill provided for one diot machine per 100 population—16,500 in the State.

Officers of the Easted Anti-Stot Machine Association, supposedly supported.

Officers of the Morida Anti-Slot Machine Association, supposedly supported by the churches, were present.

Three other bills for legalizing certain typis of alot machines or petty gambling in general have been introduced in Pierida. Some observers say that the political attraction in the Legislature is being maneuvered so that a 3 per centuales tax will be necessary to raise, revenue for the State. Chain stores have also iffen actively concerned in legislation.

MIANI, Fig., May 20.—The Dade County delegation to the State Legislature introduced a fill recently to make that machines and all sampling devices contraband. Officers, would have suitorly to seize machinese anywhere and destroy them.

The Dade County, delegation champions the racing interests, racing having been under fire from many quarters this session.

### Many New Florida License Proposals

License Proposals

MIAMI. The May 20.—Proposals to home games, slot machines or the entire field of sambling have been put before the Florida Legislature and have given editorial writers a field day in commanting upon the many proposals.

One paper, The Miami Heraid, said;
"As a further means to enrich and support amall, counties and to provide for the elderly, as bill that been introduced into the Legislature to license and tax all forms of sambling except sign machines. Just why they should be burred, under the circumstances, is mortageer."

(Italics ours—Ed.)

Another Florida paper, The Tampa Morning Troune, commenting on saill another bill declared that in seeking legalization of alot machines the bill attempts to limit; the far-resishing potentialities of the entire slot machine so far as to define the upper of symbols and exactly what kind of machines could be used and which type could not. "It should be clied to, every member that auch a bill contemplates resisting legalization to one particular type of machine, thereby giving its makers and distributors a monopoly of the business." they machine, thereby giving its makers and distributors a monopoly of the business."

### Chain Stores Lose In Florida Veto

TALLAHASSEE, Fla., May 20.—Covernor Come vetčed a bill designed to deprive the State of at lease \$400,000 in chain-store taxes on May 15.

The governor's action was counted as a victory for independent merchants and school interests.

The bill which would have favored chain stores was railroaded their both houses of the Legislatush recently with smaring speed, indicating the power of the chain stores.

### New Orleans

NEW ORLEANS. May 20.—With maximum temperatures going up well into the 50s, outdoor locations are showing better this week in the New Orleans area. A trip along the Missiappi Gulf Coast and well up into the interior of that Staje and Southeast Louisians reveals that much says equipment is being phisosism of fraction of the stage veals that much approquipment is being pliced on licelish where summer crowds and do to gather for outdoor sport and recreation. Along the Jower bayous of Louisians sotted for fine fishing, operators are centering their attention for this demands of the sport lovers. In this city itself, shining new pile games, claws and coin phonographs are being put out in parts and along the like-front concessions.

Particularly enthusiastic are the re-ports of music operators who find strom weather has been a boon for interesting play. All of the bigger phonograph op-erators of the city are taking advantage of any good location in which to place machines.

The summer season is see, to begin at the new Pontohertrain Beach on June when Manager Harry Batt expects to have a large group of local operator friends out for an inaugural party at mis new million-dollar park. The complete beach will not be ready for another year, with a big swimming pool and nundreds of feet of new sand beach to be built at an addition cost of \$1,250,000 thru WPA appropriation to give New Orleans the grandest pleasure resort "between the two fairs?" A fine big coin maching appriland will be operated at the beach.

A few weeks back Jules Percs Navelty Co. was saked if it could dispose of a surplus stock of phonographs and so a full car lot arrived soon after. Within a couple of days all of the machines were sold and Percs was forced to order a second car. The factory managed to get him a second shipment and this week every phosograph in the lot was sold within 48 hours after their arrival.

Player interest in Gottlieb's rnew Lot-o-Fun isperceoding even the biggest ex-pectations of the New Orleans Novelty Co., area Cottlieb distributor. Louis Beasberg, head of the firm, has ordered out more machines and predicts that if will be the biggest money-maker of the year.

## World Learns of Games And Uses for Amusement, Politics and Publicity

Pintall in screaming heaflines. It fessional operators many a Especially in cities where the games have been operated for years under license regulations and where close cooperation between organized trade asso-clations and officials has helped to has helped to maintain dofinity standards.

Then some tragic incident—or some publicity hound—brings the games into the headlines. And the damage in done.

The past two weeks have found pinball in screaming headlines in such cities as Los Angeles, Detroit, New Youk and Philadelphia.

In all these cases an interesting sidelight is found in how different news-

In Les Appeles, newspapers used pinball in the headlings with the effect of covering up deeper vice and petty crime conditions. Maybe it, was all unintentional—maybe pinhall in the headlines helps to sell papers. But as the story develops it is clear that pinhall is a very minor part of the whole

### Youth Seeks Headlines

In Detroit a group of high school youths seek the headlines and they get it by picketing locations where pinball it by picketing locations where pinball cames are found. If you read the story-thru you will discover the truth of the students. But if you read only the headlines, as most people do, you will think it is the pinball games.

In Detroit it As a case of modern high-school students who want publicity. Students are inding that certain newspapers will disadline pinball games—and so they find novel ways to stage a ninball story. One Detroit

This is a very interesting slidelight on modern youth. They have found the publicated plays a large part in the modern world, and they must devise new atunts in order to get it. Pinball not only serves to help politicians get headines, but it also serves to help students make the beadlines.

But "bad" tocations are decidedly the reason for the Detroit headiness. When you find in the stery that notice allows along arms seized in the locations.

policy slips were seized in the locations, then you have a clear picture of those then you have a clear picture of those locations, near schools in many cases, that violate all the known reles of deconey in relation to youth. Yes, they have pinball games all right, and they also have policy alps. The police know the kired—but the pinball games make the hemiliates.

### Sit-Down Woman

Philadelphia provided the most amus-ing case for pinball in the headlines that has happened in many a day.

A married woman, apparently wasting some publicity, came into a location and "sat" on a pintall game, refusing to be budged until the police removed the game. It waste novel site down strike all fight shall excellent

The "sit-down lady" charged that

The "sit down leagy" charged that been husband had gambled \$7 of his \$10 a-week salary in the game.

It was a good story until cincial investigation finally simmered down to the fact that the man had spent a total of 35 cours. Then there was little sensation in the story.

### Pinball and Murder

One of the most sypical illustrations in the unfairness of movement reporting of crime, however, appeared in the liberal New York Daily Hows, May 15, 1039. In fairness to this liberal paper it should be said that its editorial page consistently presents the reasons for

legalized gambling.

The use of pinball in connection with a murder can be attributed simply to tabloid style and the accepted tabloid theory that headlines must be sensa-

On May 15 the New York paper used the following headline on page 32 "PINBARL GAMBLING LED HIM TO KILL 2, STUDENT CONPESSES."

To kill 2, STUDENT CONFESSES."

This was the story of the tragic murder in Arizona of two salesmen by Robert M. Burgunder Jr., 22-year-old collage student. It seems that in one of his confessions, according to the news report, he stated: "I never had enough guts to stop gambling, to stop playing those danned alot machines, marble boards and poker gamb machines."

Thus the surface facts of a tragic incident are used to place blame on perty devotes that had little to do with the boy's record.

### Reaf Reporting

It so happens that in Phoenix, Aria, where the boy was held, there is a newspaper known as The Arizona Bopublic. It is natural to turn to an Arizona paper to see how the crime was reported. roported

Every newspaper reporter in the country should be required to study the Arizona paper to learn how to report tragic incidents so that society will gain the true facts from reporting such incidents.

The Arisons papes gave the poor fellow's background—and here it was plain that petty gambling devices were not the key to his distorted mind and character. The Arisons paper emphasized two facts which all fellogists and crime experts will quickly recognize as the key to a criminal careour:

Notion are to introduce immediately in Scattle's city conneil, with excellent likelihood of passage at this time. Willard V. Paper, city purchasing agent, will call for bids under Washington, D. C. specifications and would select the meters. Successful bidder will install meters without charge ind remove them if unsatimatory, revenues to be impounded to pay for the accepted meters. Half manual and half automatic, 2,500 machings of each-type are to be tried, with confirmed to go to the linest bidder. Under these new provisions the bill is regarded as a winner in local political circles. The city has viewed parking meters adoption all about this region. Currently the city council of Salem. Ore, despite protest petitions bearing the nature of 250 prominent business men, has just passed in localing meters on that city.

### PASTERN FLASHES

NEW YORK. Hilly 20.—The boys are atill talking about the Ponter party last Saturday. Seemed that most everyone in the biz stopped by to say "hello" in spite of the rain. Wires and flowers from everywhere. Al 6. Douglis, Harry Latine and Walter Harrison, of Daval, were busy al, day pointing ou new features of their games to ope. Lee Kelly, of Exhibit, was on hand and was later seen with Milee Munes and Topy Casparro eating seafood at Linay a and taking in the show at Leon and Eddie's. Husty Hoppe and Mrs. Hoppe reported driving in from Chi in 20 hours. It H. (Izz) Rothstein, of Banner Specialty Co. Philly, surprised the boys with his command of languages. He showed Leo Kelly how his own name and firm name would appear written in three different languages. Izz also represed his flower beds are in Tall bloom in that he expects a bumper vegetable crop this year. Alect Kay, of Ace, and It Orenstein, of Hertules. Nevark, can't to the party together. "We're together again, just like in Florids, so we can watch each other? Kay staied. ... Jack Pitzgibbone was an oatly caller to wish George luck. wish George luck.

AROUND THE TOWN.
The Seminole Indians at the World's Pair are fast becoming known & O Toole Indians to the boys around Bill Rabkin's ran are tast becoming known in O'Tcole indians to the boys around Bull Rabkin's Benny Arcade. Seems the redskins are plain daily about pin games and come over every night after their exhibit shows to play the Bally games until closing times. Max Schaffer, of the tamons Schork & Schaffer sportlands, was seen theiring 10th around coin row looking for more games for his spots.

Al Schlesinger, in from Pough-keepele, looked over the latest games and reports, "We've got a surprise coming soon for everyone."

Bill Alberg cating a fauge banana spile, and Charley Aronson munching on placapple cheese cake while telling about their bow offices. "Some of the new ideas were using," they claim, "will soon become standard practices in the industry."

### AMERICA'S LARUEST A BARBURITO

### We Raised a Big Doubt; Now the Doubt Spreads All Over Florida

It came into being in 1987 when rauch opposition was getting into sotion against the Florida state license law for alot machines and other devices. The anti-slot machine association was supposed to be approposed and supported by the churches of Florida, and at its head was a minister who traveled over the state to speak against slot machines.

From the beginning it seemed a little bit atmage that in a State like Piorida, which enters to so that a tourist trade, which enters to make the sound of the soun

attion.
Restatedly we called attention to the strangeness of the situation and wondered who might be financing such a

But it geemed that our curiosity and questioning of the anti-slot organization would go by without results for a long time. Pinally in the summer of 1908, a reporter for a New York nemapaper called attention to the fact that Thorida, had just had a very successful gambling season—that gi, for big-time gambling.

This was after the anti-slot association had, with the sid of a big-lime gambling lobby, accured the repeal of the slot license law in the fall of 1937. Here was a newspaper calling attention to the inconsistency of a church organization waging such an approxime campaign against perfy gambling and then trawling into a hope for the big gambling season.

So our questioning of the suiti-slot association was about to be picked up by another paper.

Growing Doubt
The pext serious questioning to come

The Piorida Anti-Slot Machine Association is almost unique among State cranizations, but apparently its leading star is beginning to wave.

It came into being in 1937 when much apparently into action against the Florida State license law for anti-slot machines and other devices. The anti-slot machine association was aupposed to be appended and supported by the churches of Florida, and as its head was a minister who traveled over the State to appak against alot machines.

### Nampapers Doubt

Now the question which are originally raised about the anti-slot mathine acceptation for its glaring inconsistency was really beginning to apread. James Hodgen, staff writer for The elitemi Herald, wrote for that newspaper on May 7 the following report of growing doubt of the consistency of the lander of the anti-slot crusade:

Terming its operations a special of chiseling, several newspapers lately have turned on the so-called Fiorida Anti-Slot Machine Association and its cierical sponsor for making of good thing financially out of batting coin machine own-

"Result has been that the Rev. James.
E. Barbee, of Jacksonville, gets much less than the respectful attention he once ommanded in Thilanassee. Lawrantees are inclined to shy away from professional witch burness, especially when, as it seems now, the demand for moral reform is invading many fields of otherwise normal scondenic activity.

The occ-armed bandits still have few open friends in Tallahassees but the law-makers are now prepared to ban all coin machines from the State. That a where the association games to be heading and most of the legislators have reached the conclusion that to follow the Barbee lead inevitably will wind them up behind the eight ball of liberal public opinion.

### Brewers' Ads Seek Public O. K.

CHICAGO, May 20.—Newest hit of in-attrutional copy of the brewer's industry made its appearance in the matter's papers and magazines recently. The advertisements boost "Beer... a bev-erage of moderation."

The current release is put up its an illustrated story form and tells "The Story of Relief From Relief." The copy resids: For a million broad withers: A million jobs made by beer. From Coast to Coast beer has helped in putting men back to work. ... Into a million new jobs in my short years. Beer also cash year buys the produce of 3,000,000 acres of farmland and pays a million dollars and day in taxes.

day in taxes.
"The brewers want to preserve these economic benefits. They want also to protect the public's right to enjoy beer and their own right to make and

market it.

The brewing industry cannot enforce
the laws. But they are co-operating
with public officials to see to it-that the
retailing off beer gives no offense to

anyone."

The advertising is propered and placed by the brewest organization, United Breggers' Industrial Foundation.

### Chain Store Tax Activity Decreases

CHICAGO, May 20-Increasing evidemocros withe legislative power of chain ationes has been reported in chain store murchandising circles. Since the first of the year, it was pointed out to State legislatures have adjourned without taklux, action on proposed anti-chain store legislation. More than 60 such measures wiere introduced in the Legislatures of 3) States during this year's sessions.

since State courts have thrown out chain store or supermarket levies, according to the survey of the trend, while three other States were reported con-sidering repeal of their existing anti-

that here.

It was declared that opposition to chain store taxes reached a definite stars with the decision last year of the chains to "tell their story."

Only a relatively few of us are gifted with the expert knowledge

So, when we buy thom, most of us first solect the jeweler we intend to buy from choose one of HIGH STANDING and KNOWN REPUTE, as our BEST assurance that we may depend on his judgment to protect our investment.

it's a long jump, perhapsy from diamonds to coin-operated machines, but it's wise to buy them the same way. The best way to make sure of full value is, first pick the Distributor of high standing known for the QUALITY of his services and the signess of his dealings.

WE enjoy this reputation.
