Editorial

**This Supplement:
Why and What Is It?**

This is the first Quarterly issue of a Record Programming Guide that has been on the drawing boards for many months.

Any new service must have a reason for existence. We believe there is a substantial need for this one.

The Billboard, in its weekly issues, provides up to the minute news about the industry, as well as the most accurate charts showing the true current status of recordings. These must be the main functions of a newsweekly serving as the communications center of the music industry.

However, the editors of The Billboard recognize that juke box operators and disk jockeys have been in need of new and better programming aids to help them make the most effective use of records. While this type of material could not appear in our weekly issues, it has been packaged in this form for compact and convenient presentation each Quarter.

Each feature included in this first issue was conceived, researched and developed to have lasting value. The Quarterly, therefore, is a reference tool, designed for virtually daily use during its lifetime. Its material was specifically planned to retain its programming value for a specific period of time—to be exact, until next September 14. In that issue, The Billboard will publish the Fall Quarterly, the contents of which will supersede the material in this issue.

We will welcome your comments and suggestions about this new Quarterly service in the interests of improving it for you.

(NOTE: Biographical and disk data was secured from the record companies for which these artists record. Omissions or lack of data is the result of inability by the record company to provide information to The Billboard. In the case of artists with lengthy record credits, a representative selection is used to provide a basis for programming).

Today's Top Talent

—Who's Who and What's Hot on Wax

A practical programming guide for deejays and juke box operators, built around the hottest talent on records today: everyone whose recordings appeared on The Hot 100 and/or the Best Selling LP chart, from January thru April, 1959.

HOW TO USE THIS FEATURE

Juke Box Operators, in view of the increasing number of stereo juke boxes, will be especially interested in listings of available stereo singles and EP's in the record data column. Also, operators may profit handsomely when an artist is particularly hot by programming, not only his current big record, but also the same artist's earlier hit or standards. This info, too, is in the record data column.

Disk Jockeys will find that the information in this complete easy-to-use directory can be integrated with nearly every spin. The wealth of chatter in the brief biographical summaries is presented here alphabetically by artist for easy reference. And many fine programming ideas can be developed from the record info data.

Buyers and Bookers of Talent will need no diagrams to tell them how valuable this compilation is, or how to use it. They have continuously requested biographical data as well as for the personal managers and booking offices or leading talent. This feature should answer these requests.

Gentlemen:

I would like to receive free "repertory recordings." Kindly
put my name on your mailing list.

Name _____ Station _____

Address _____

City _____ Zone _____ State _____

NOW... you can be the only disk jockey in your city to have the nation's best Top Record Sheet... and with your picture and your own imprint on each and every edition!

A preliminary test mailing to disk jockeys in just a few markets clinched it. The Billboard's every-other week TODAY'S TOP TUNES, featuring THE HOT 100, and exclusive for one disk jockey in each city (with the deejay's own picture and imprint on it) was an immediate hit. So now the deal is available in every city across the nation—to the first disk jockey in each who closes the order! And it's an exclusive! As long as you maintain your order on a regular, uninterrupted basis, The Billboard's TODAY'S TOP TUNES is your own personal TOP RECORD SHEET—and yours alone in your city!

WHAT'S IT GOT? Just about everything you'd like to get into your Top Record Sheet. Each edition covers the latest list of the most popular records, THE HOT 100... plus Best-Selling Pop LP's... Jazz Albums... Classical Albums... the top C & W Records... and the Best of the Newest Releases. It's handsomely done in 4-page booklet style (about 6½ x 8½ per page), in colored ink on a colored stock... it's a neat, clean, well-printed professional job you and your station will be proud of.

HOW CAN YOU USE IT? In scores of ways, and no matter how you do it, it's great promotion that will increase yours and your station's importance... help you sell your show to more sponsors... give you an exceptionally good tie-in opportunity with local dealers (most all disk jockeys use it in this way).

WHAT'S THE DEAL? It costs less than you think—probably little, if any, more than you're paying now for something that's a lot less attractive... not nearly as complete... and somewhat less accurate a reflection of the public's preferences. Minimum order for the exclusive in your territory is 1,000 copies per issue (every other week). That costs you \$12.50 per issue—after paying \$7.50 only with the first order for preparing your cut and special imprint plate. Then, your picture and imprint appears on all editions without extra cost (less than 1,000 orders will be accepted, but we cannot offer the exclusive arrangement with such orders). A good deal? You bet! But remember—

YOU'VE GOT TO ACT FAST to get the exclusive for yourself and your station in your city! It's strictly first-come-first-served, so be sure to...

PHONE, WIRE, WRITE . . .
or use the coupon TODAY!

I understand that I cannot have an exclusive unless my order is for at least 1000 copies of TODAY'S TOP TUNES every other week.

- I have attached photo to be used, and copy and rough layout showing how this should be arranged in the 4" wide x 1½" deep space available at the top. I understand this will cost \$7.50 additional on my first order only, although my picture and imprint will appear on all subsequent orders.

- Please send me an actual sample of TODAY'S TOP TUNES, featuring THE HOT 100 from The Billboard, so I can get an idea of how it looks.
