RAVI SHANKAR

ARTIST OF THE YEAR

Each year the editors of Billboard honor an artist who in their opinion has made the most significant contribution to popular music. The decision is not based on chart performance or record sales. It is based on much more lasting values.

THE GREAT STRENGTH of today's popular music is its diversity. Not too long ago, contemporary music reflected primarily a Western middle-class culture, with its roots reaching deeply into the classical European tradition. The latter part of the century has seen the enrichment of popular music through the introduction of the rhythm and blues, country, folk and jazz themes. It has also seen the internationalization of contemporary music, marked by an exchange of artists, songs and ideas. In the main, it has been a phenomenon of the Western world.

But the parochial occidental cast of popular music is changing. And the man who is making it change is a diminutive, 47-year-old Indian sitar player named Ravi Shankar.

Shankar's World Pacific albums do not rise to the top of the charts. But their influence on contemporary music far transcends their commercial appeal.

His list of musical followers includes the Beatles, the Rolling Stones and the Paul Butterfield Blues Band.

The Indian influence is firmly established in the popular music of today.

Shankar's talents are as complex as his music. He is equally at home in the world of the hippie as he is in the world of the classicist. In India, he was a classical soloist, musical director of the All India Radio, founder of the National Orchestra, writer of ballet music, and composer of theme music for films. His film scores have won him awards in the Cannes, Venice and Berlin film festivals.

On the pop scene, Shankar is the personal mentor of George Harrison of the Beatles, who studied the sitar with Shankar in eight weeks of intensive training. It was these eight weeks that changed the complexion of popular music.

Due to the influence of Shankar, the music of the East is no longer strange to the occidental ears. Shankar holds a visiting professorship at the City University of New York, and will appear in concert about 200 times during his American visit.

At this writing it is early to access the full impact of Ravi Shankar on the world of music. But, at the very least, Shankar has demonstrated that popular music belongs to no one society or culture, and that it is not the exclusive province of a trans-Atlantic society. And that is no mean achievement.

TOP U. S. ARTISTS OF 1967

Rankings of top artists in the various categories listed below are based on chart action for the first 10 months of the year. These rankings do not necessarily reflect total sales of their product during the period covered. They do indicate their relative strength during the 43-week period. The compilations in several categories were stopped when they ceased to provide meaningful information. Thus, only nine female artists were listed, because only nine had chart records during the period. Soundtrack and original cast albums do not appear on the album chart.

TONY BENNETT'S performance at the New York ceremonies of the Grammy Awards inspired prolonged applause, led by Woody Herman.

THE MONKEES film segments for their TV series in Chicago after riots in Milwaukee upset their scheduled sessions.

COWBOY SANTA

#150

A Look at Larry Cartell

Larry Cartell, whose first recording was released internationally on the Glenolden label, got his start in show business at the age of three, singing with his father in bars in his native Philadelphia. Larry holds the record for winning song contests. Beginning as a young boy, and through his teens, Larry won every contest he entered; he won one contest for 64 weeks straight.

The 23-year-old recording artist is a talented song writer as well as a singer and also writes the lyrics.

His career as a singer really got under way last spring when he was discovered by Nick Busillo, who also discovered Al Martino as well as other famous entertainers. Under Busillo's guidance, Larry recorded "Cowboy Santa," destined to become an all-time Christmas smash.

Larry was the only artist permitted to take part in the Gimbel Brothers annual Thanksgiving Day parade with his own float. He was seen by 40 million viewers.

He will soon be seen on the "Ed Sullivan," "Tonight," "Joey Bishop," "Merv Griffin" and "Mike Douglas," as well as several other television network shows.

Larry lives in South Philadelphia, spawning ground of such recording greats as Fabian, Frankie Avalon and Eddie Fisher. Larry is already carving a name for himself in the recording industry, and he also plans a career in films and television. If the indications of his first record mean anything, he's off to a great start in films and TV.

LEONARD BERNSTEIN, center, receives the first copy of the 14-LP Columbia package of "The Nine Symphonies of Gustav Mahler" from Clive J. Davis, president of CBS Records. John McClure, a&r director for Columbia Masterworks, looks on. McClure produced the recording sessions, which were conducted by Bernstein. The \$100 list set was the first package of Mahler's completed symphonies.

BOBBIE GENTRY haunted the top of the charts, week after week of 1967, with her "Ode to Billie Joe." Miss Gentry's hit single and album moved hypnotically into the world of music, establishing her as a major talent.

ANDY WILLIAMS, center, and Henry Mancini, right, collaborate with Yukawa, Billboard's Tokyo correspondent, to make a popular trio at a party given in honor of their Japanese tour.

ROGER WILLIAMS, who already has 10 gold records, bears up cheerfully under the burden of five more. Dave Kapp, president of Kapp Records, brought the awards along with him on a trip to the West Coast.

FRANK ZAPPA, leader of Verve Records' Mothers of Invention, seals the signing of a promotion and advertising contract with Bernard Mersky, vice-president of Merson Musical Products.

TALENT NEWSMAKERS OF 1967

GOSPEL GROUP Jake Hess (second from right) and the Imperials sell the gospel sound across the country with their sophisticated, marketable style.

BOBBY VINTON, center, receives a gold record for his album, "Greatest Hits," from Leonard Levy, right, Epic Records vice-president, and Mort Hoffman, the label's director of marketing.

NORA GUTHRIE, daughter of Woody Guthrie, is surrounded by one Lovin' Spoonful, John Sebastian, and Jack Lewis, on the right, who co-produces Miss Guthrie's records. Sebastian is recording the country artist as part of his independent production setup.

LORETTA LYNN, Decca recording artist, is on the receiving end of an award from WRVA-FM's Dave DeWitt. The station award was presented to Miss Lynn during a concert in Richmond, Va.

COUNTRY ARTIST David Houston, left, accepts from Epic Records' Leonard Levy plaques for his albums "Almost Persuaded" and "Loser's Cathedral." The awards were presented on "Dave Houston Day" in Shreveport, La.

ON TOP SINCE 1894 IN CIRCULATION IN REPUTATION IN PENETRATION

No other music-trade publication gives its advertisers the global exposure, strength of editorial backing and proof of circulation claims that Billboard offers.

The nearly 70 years of international respect for Billboard's quality of journalism, scientific methods of research and high standards of business practice provide advertisers with an unmatched setting of prestige for their message.

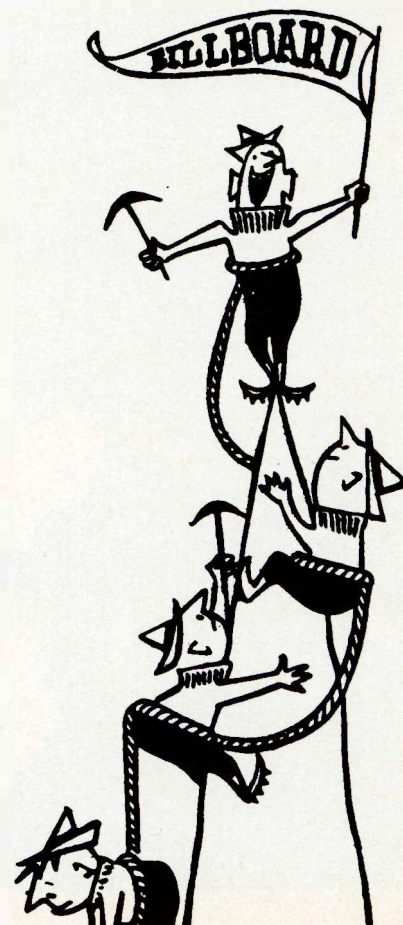

With a world-wide circulation twice that of any other music-trade publication, **only Billboard** offers advertisers incontrovertible proof of circulation figures by opening its files twice every year for audit by the rigid and exacting Audit Bureau of Circulations (ABC).

Their reports detail for every Billboard advertiser just where his message goes throughout the world . . . who receives it . . . and how many receive it.

Basic Information That Every Advertiser Should Not Only Expect—But Demand!

Do You?

the day music stopped

Imagine that all music suddenly has ceased to exist. Composers have stopped creating. Musicians are silent. The phonograph record is gone. People have stopped singing. A universal language has disappeared in the flash of a moment.

All over the world, the blow is shattering. In the United States the economic loss is beyond belief. 5,000 radio stations, deprived of the majority of their programming, are reducing their schedules or going off the air. Television producers are converting every existing program and every commercial with music to straight talk. Many sponsors are simply cancelling. The juke box is extinct. The recording industry has closed down. The music instrument manufacturing business is obsolete. 13,700,000 children who have been studying music no longer have any use for pianos or violins or woodwinds. The country's 1,385 symphony orchestras and 782 opera producing groups have disbanded. Most nightclubs,

theaters, dance halls, concert halls, ballrooms have shuttered their windows. Hundreds of thousands of people who earn their living because of music are now unemployed. The tax loss is incalculable.

A fantasy? Yes, but it makes a point. Music is vitally important in all our lives, in terms of sheer economics as well as of culture.

We are proud that BMI, together with our thousands of affiliated writers and publishers, is one of the many organizations which play a role in supporting and fostering the miracle of music.

If yesterday had been the day music stopped, you wouldn't be hearing about it from us. BMI wouldn't be in business. Nor, possibly, would you.

*All the worlds of music
for all of today's audience.*

total involvement

means more to Bob Crewe and the Crewe Group

of Companies than just being on top. It's not only the hit songs; not only the hit records; not only the Four Seasons and Mitch Ryder; not only motion picture production, and a TV special called "The Bob Crewe Generation," it's getting into the public's heart and staying there.

The Bob Crewe Generation is more than an orchestra; it's what's happening...and you're part of it.

ON TOP SINCE 1894 IN CIRCULATION IN REPUTATION IN PENETRATION

No other music-trade publication gives its advertisers the global exposure, strength of editorial backing and proof of circulation claims that Billboard offers.

The nearly 70 years of international respect for Billboard's quality of journalism, scientific methods of research and high standards of business practice provide advertisers with an unmatched setting of prestige for their message.

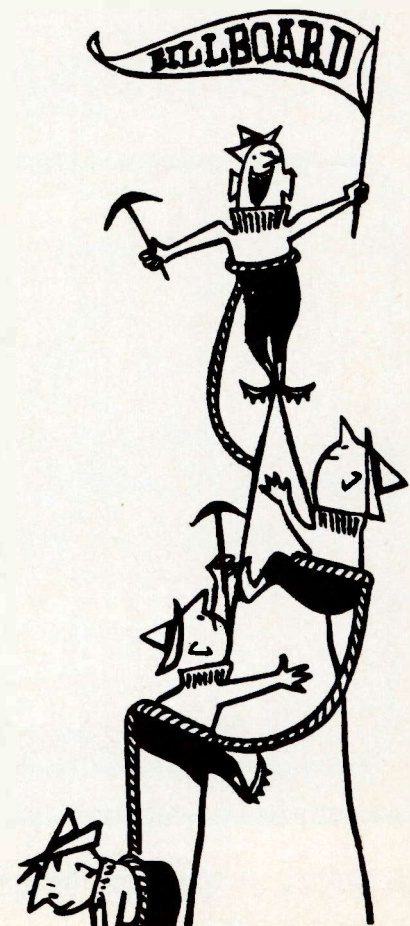

With a world-wide circulation twice that of any other music-trade publication, **only Billboard** offers advertisers incontrovertible proof of circulation figures by opening its files twice every year for audit by the rigid and exacting Audit Bureau of Circulations (ABC).

Their reports detail for every Billboard advertiser just where his message goes throughout the world . . . who receives it . . . and how many receive it.

Basic Information That Every Advertiser Should Not Only Expect—But Demand!
