

INTERNATIONAL *Talents* DIRECTORY

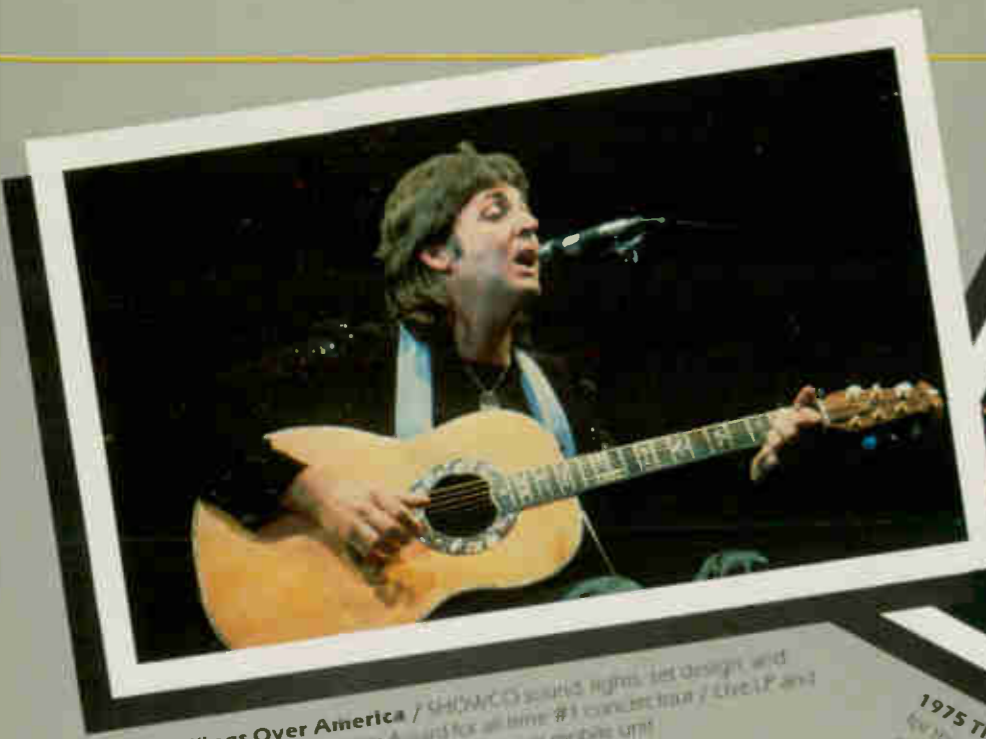

J. Donic Chapman

1979-80
Section Two • September 15, 1979

1979 Bee Gees National Tour / SHOWCO produces sound, lights, lasers, and sets for complete tour / introduces SHOWCO patented 14' rigid 9000 speaker system / Computer coordinated lighting, stage, and floor movements / Creative hexagonal lighting buses with unobstructed sightlines and unimpeded mobility from venue to venue

1976 Wings Over America / SHOWCO sound, lights, set design and lasers noted in Grammy Award for all time #1 concert tour / Live LP and film soundtrack recorded by SHOWCO 24 stack mobile unit

1975 The Who / SHOWCO sound and lighting effects for the tour with the band of John Entwistle / Screen from the concert was used by SHOWCO at the Super Bowl game for the concert film "The Kids Are Alright"

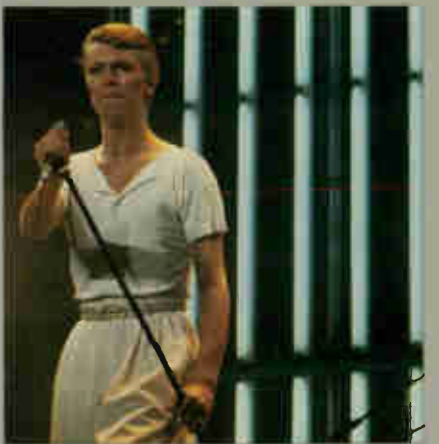

1978 Starship Encounters / SHOWCO produces #1 graying laser space-symphony concert tour / Features computer controlled lasers and revolutionary test frequencies in orchestral mixing and mixing by SHOWCO partner Jack Maxson

1978 The Rolling Stones / SHOWCO creates adaptable stand lighting and sets to play both 2000 seat auditoriums and outdoor stadiums / SHOWCO filmed and recorded this tour produced by Jagger/Rudge which is as yet unsimplified

1978 Jackson Browne / SHOWCO sound, light, and 24 stack mobile recording of his live produced Platinum LP "Running on Empty" engineered by Greg Ladanyi

1976-1978 David Bowie / SHOWCO sound, light and set / Award winning all white light set design by Eric Barrett

1970-1979 Led Zeppelin / SHOWCO powers atmospheric aluminum lighting towers, laser effects, and high-powered lasers in concert as seen in Warner Bros. film "The Song Remains the Same"

SHOWCO MILESTONES 1969-1979

See us with these great artists — The Beach Boys • The Bee Gees • David Bowie • Bad Company • George Benson • Brothers Johnson • The New Barbarians • Jackson Browne • CBS Conventions • Art Garfunkel • Andy Gibb • Peter Gabriel • Genesis • KC and the Sunshine Band • Chaka Khan • The Kinks • Led Zeppelin • Paul McCartney and Wings • Dave Mason • NARM Conventions • Willie Nelson • The O'Jays • The Osmonds • R.E.O. Speedwagon • The Rolling Stones • Linda Ronstadt • Stephen Stills • Phoebe Snow • James Taylor • Thin Lizzy • Toto • Van Halen • Weather Report • The Who

The

NO. 1

world-wide concert production company

- Sound and Lighting
- Special Effects
- Lasers
- 24-Track Mobile Recording
- Set Design and Construction
- Film and Video

You can expect perfection in a SHOWCO production. We set the standards for excellence and efficiency in the concert industry.

DIRECTORY EXPANSION:

Support Services Added For More U.S. Cities

Billboard's International Talent Directory has become an indispensable reference tool not only for people involved daily in the recorded music talent business, but those who occasionally must have a handy, up-to-the-minute guide.

Convenience is a key element in the book's design. In the artists' listing, for example, there is reference to an act's booking agent or contact as well as personal manager. Following the artists' listing are the alphabetized agents/contacts and personal managers. Further convenience is supplied by state-by-state listings of concert promoters, facilities and other various support services (limos, instrument rentals, staging and costumes, lighting, charter services and so on).

Conscious that many touring acts have problems in less popu-

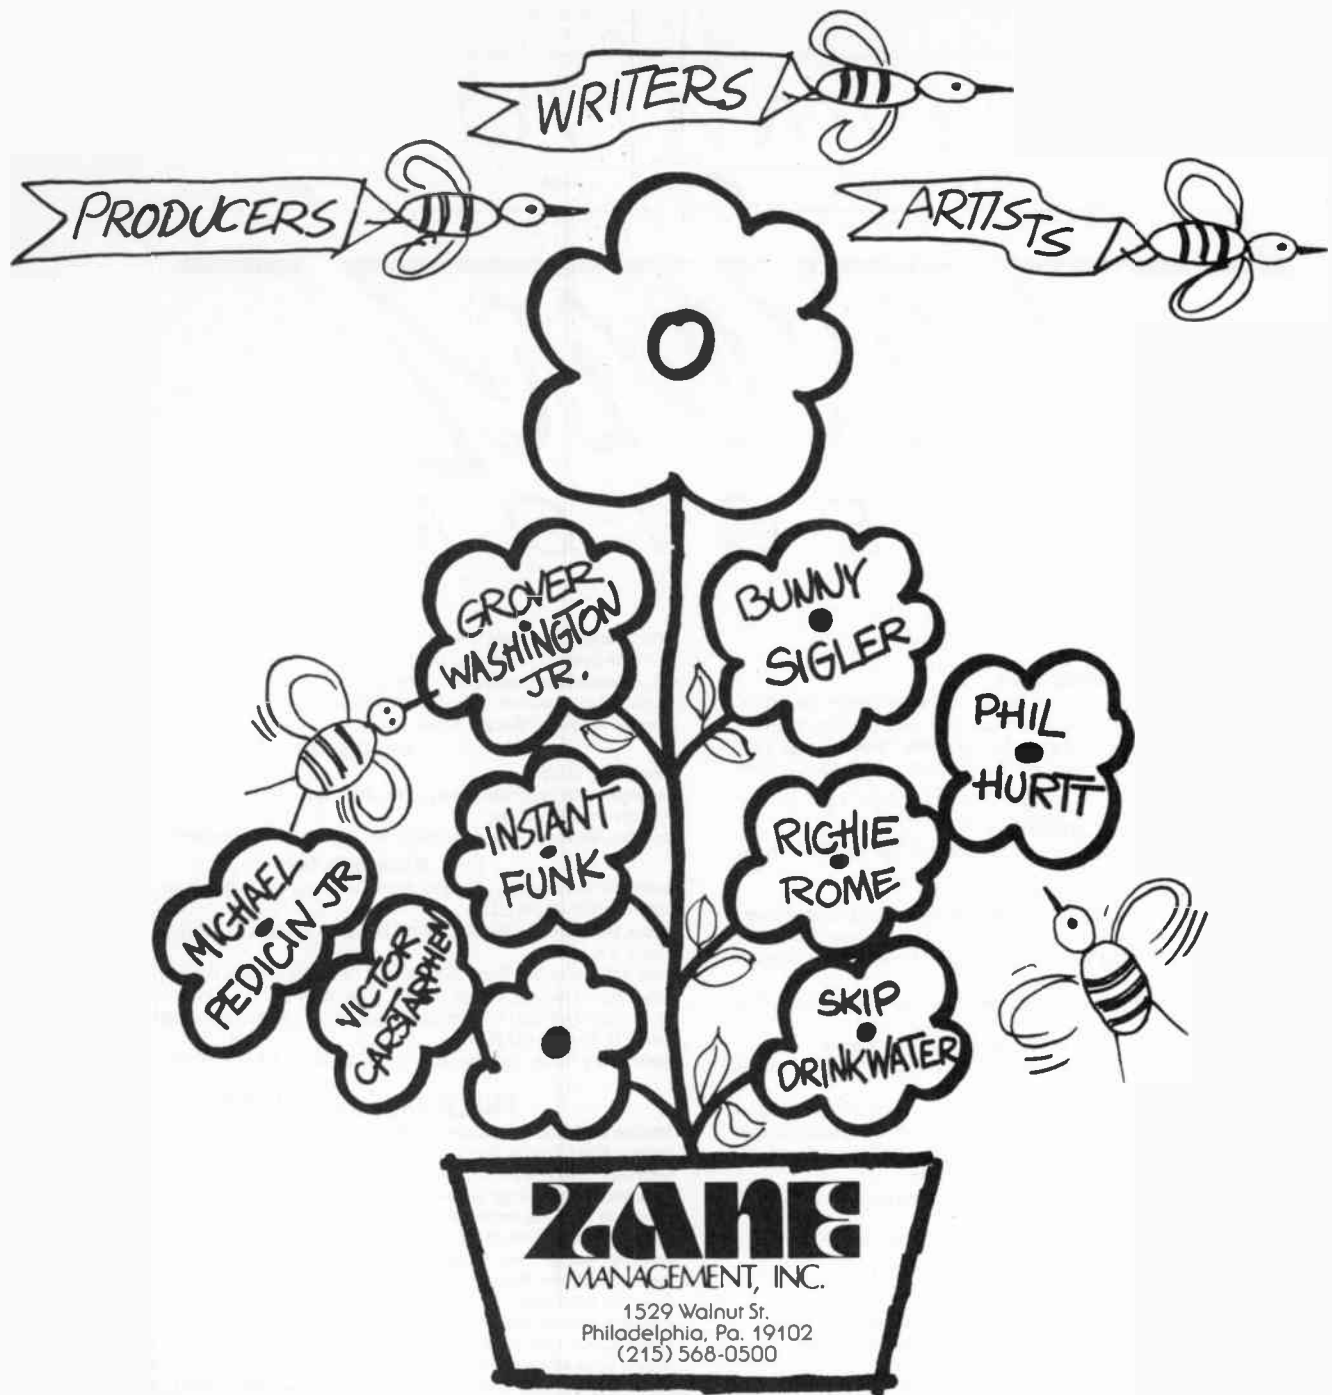

lous regions, expansion of the "other cities" section has been an uppermost consideration. We now include more "full coverage" cities, those that is, with extended support service subsections.

Finally, the directory staff does not take any previous listing for granted. Addresses and telephone numbers of artists' managers and agents are rechecked, not simply rerun from the previous issue. As for listings of support services and restaurants, these come from recommendations from concert promoters and facility managers. Ultimately, thousands of names, addresses, telephone numbers and other pertinent data are meticulously checked so that the directory is as humanly accurate as any can be.

COVER: Illustration by J. Daniel Chapman. Artists pictured are, from left: Top row: Abba's Agnetha Faltskog, Maurice White of Earth, Wind & Fire, Rod Stewart, Bob Dylan and Bun E. Carlos and Tom Petersson of Cheap Trick. Center row: Tanya Tucker, Eric Clapton, Joni Mitchell, Willie Nelson. Bottom row: Bee Gees, George Benson, Donna Summer.

**FIRST L.A. BANK CAN HANDLE
FIVE MORE CLIENTS IN THE
ENTERTAINMENT INDUSTRY.**

You see, we do things a little differently at First Los Angeles Bank. When we handle your account, we really handle it. As far as we're concerned, people in the entertainment industries deserve special attention.

That's why we have a special Entertainment Industries Division. We feel it's the best one around. And it's staffed with creative bankers who under-

stand your special needs.

These experts will take care of all your banking: Discussing the collateral benefits of copyrights, performance royalties, and recording contracts. All handled quickly and easily.

At First Los Angeles, there are bankers who understand the financial needs of professionals in many areas. Not just entertainment. But law, accounting and business management, too. And every client

receives this personal service. So why only five more?

When you give your customers the specialized personal attention we do, five people is a lot. But then, First Los Angeles is a lot of bank.

First Los Angeles Bank
A lot of bank for your money.

fact:
 the PRO MASTER™ sound
 system is not an evolution...
 it's a full-blown

REVOLUTION!

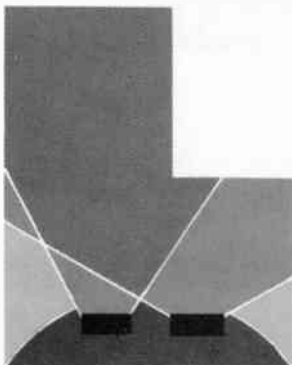

The PRO MASTER modular sound system ushers in a new generation of sound system versatility, reliability, and quality for today's entertainers, musicians, and speakers — for use in settings as diverse as intimate clubs, lounges, large auditoriums, churches, and schools. Its multitude of performance-proven features is the result of sophisticated computer design techniques, advanced materials, and countless hours of personal consultation with performers and sound technicians.

Revolutionary New Console

Finally! The best of *both* worlds. A console so easy to use that it won't overwhelm the beginning group, yet with the advanced features and capabilities required by experienced professional performers — such as pre-fader monitor mixing, effects and/or built-in reverb, with their own tone controls, LED clipping indicators with attenuators on each input, and full patching facilities for every system component. Super power: *twin 200-watt solid-state power amplifiers!* Doubles as a stereo recording console for groups that want to "lay down a few tracks" without paying for studio time, or can be used as an ultra-sophisticated keyboard mixer with power. Unitized ARMO-DUR™ structural foam combination case and chassis makes it more durable than steel. Ultra-light: only 47 pounds.

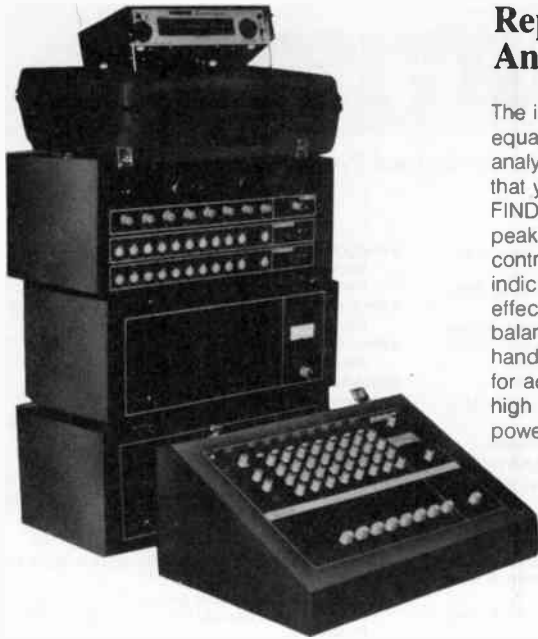

Revolutionary: Variable Dispersion Sound System

Advanced new variable dispersion high-frequency horn system projects your sound — everywhere in the house, giving you a choice of 60° long-throw, or 120° wide-angle dispersion with the twist of a knob. Tailors the sound to the room — even L-shaped rooms.

Revolutionary New Loudspeaker

Every extra ounce — every unnecessary cubic inch — has been computer designed OUT of the PRO MASTER loudspeaker. Modern materials and molding techniques accommodate a high-performance 15-inch woofer and a high-frequency horn and compression driver in a startlingly small, efficient enclosure. Less than 28 inches high, 23 inches wide, 16 inches deep. Weighs an easy-to-handle 58 pounds. Yet, the power handling capacity is a remarkable 150 watts, and the frequency response is 50 to 15 kHz.

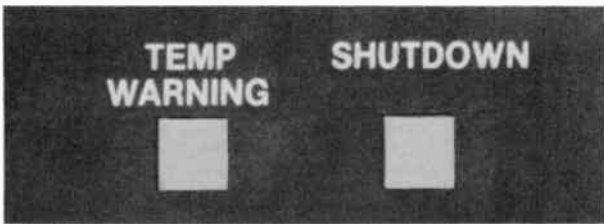

Replaces All This Equipment... And Does More!

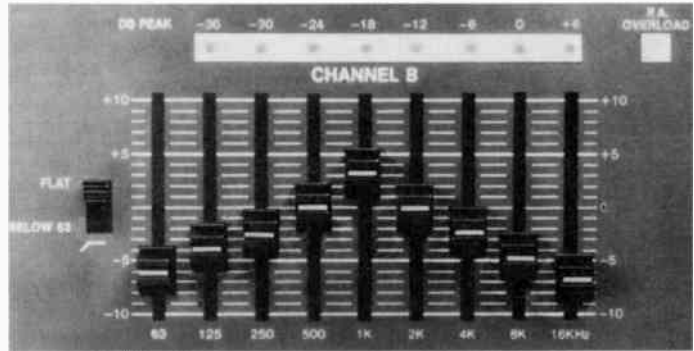

The impressive array at left includes a mixing console, two graphic equalizers, a pair of 200-watt power amps, a monitor mixer and an octave analyzer. The PRO MASTER gives you all these capabilities — plus features that you can't find in any other console, at any price: Unique FEEDBACK FINDER™ circuit, exclusive PATCH BLOCK™ patch panel, wide-range LED peak output and input clipping indicators. Plus pre-fader monitor send controls, LED power amp overload, temperature warning and shutdown indicators, 0 to 30 dB input attenuators, full stereo features, simultaneous effects and reverb on each channel. What's more, you have Hi-Z and Lo-Z balanced transformer-coupled mic inputs on all six mic channels, (can handle 12 mics simultaneously), plus two additional auxiliary input channels for adding synthesizers, tape players, tuners, sub mixers or any other high level output components. And each Lo-Z input features built-in simplex powering for condenser microphones.

Revolutionary: LED Status Indicators

Alerts you to developing trouble *before* it gets serious! You have time to correct the problem before it interrupts the performance. Temperature warning LED warns you if amplifier is overheating. Shutdown LED indicates power amplifier and speaker protection system activation. Only the power amplifiers are shut down until the internal cooling fan lowers the temperature.

LED peak indicators virtually obsolete VU meters. They respond to short transients that wouldn't budge a needle, and cover 42 dB without range switching. PA overload LEDs light at full power and also warn you of distortion-causing problems such as bad speaker cables or too many speakers.

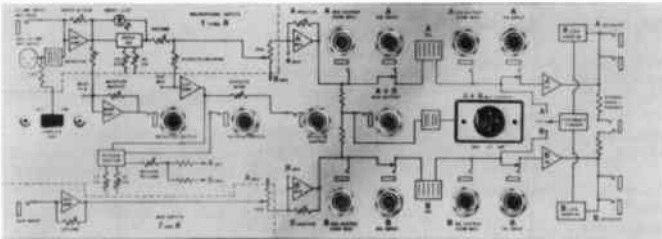

Revolutionary: FEEDBACK FINDER™/ Equalizer

Controls feedback — the number one enemy of a successful performance. FEEDBACK FINDER visually indicates the troublesome frequencies for precise adjustment of the twin 10-band equalizers.

Enables you to equalize for maximum gain on the house and/or monitor system. Nothing else like it!

Revolutionary: PATCH BLOCK™ Patch Panel

The back panel is a unique combination block diagram and patch panel with 12 patching jacks located at appropriate points on the block diagram. For the beginner who is taking his act on the road for the first time, the PRO MASTER works "as is," with no special connections. But with the PATCH BLOCK, the professional can create a wide variety of setups and add auxiliary equipment without makeshift connections. And you can change setups at a moment's notice without confusion. Simplicity and versatility, the PRO MASTER has them both!

Hear the Revolutionary New Sound!

PRO MASTER™ sound system

Shure Brothers Inc., 222 Hartrey Ave., Evanston, IL 60204, In Canada: A.C. Simmonds & Sons Limited
Manufacturers of high fidelity components, microphones, sound systems and related circuitry.

ROAD TOUGH? PROVE IT.

It's six long feet to the floor. What will happen when our great sound hits bottom? How long will it still sound great? We had to find out. So we picked an ATM41 Dynamic and an ATM91 Fixed-Charge Condenser out of stock, tested them, and started in.

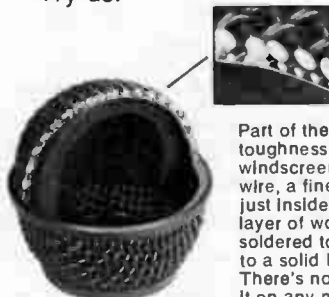

Each was dropped seven times on its side from six feet onto the office floor. Nothing much was happening. So we repeated the series, this time dropping each microphone on its nose. Seven times from six feet. Still no problems. They looked good and sounded good, but we were getting tired.

So we moved to an unyielding slate floor. Here it took three more drops on its side from six feet, and three more on its nose from four feet to finally affect the ATM41. A truly remarkable record!

But what about our ATM91 Fixed-Charge Condenser? It should have given up long before a dynamic. But quite the contrary! The ATM91 withstood four side drops onto slate from six feet, three drops right on the

nose from four feet, and another six drops on the nose from *six* feet and still tested OK for sound! Granted it looked anything but new, but it *still performed*.

Our little test left us arm-weary but convinced that the ATM Series microphones could easily earn their "Road Tough" name in the field. That's the testing which really counts. Try us.

Part of the secret of ATM toughness is this 3-layer windscreen. An outer heavy wire, a finer wire screen just inside, and an inner layer of woven bronze. All soldered to each other and to a solid brass ring. There's nothing else like it on any microphone.

This ATM91 survived 27 drops from as high as 6 feet!

FREE-FLOWING FLEXIBILITY

DENVER'S CURRIGAN HALL is a model of its kind, designed to provide the conveniences of free-flowing flexibility and easy move-in and move-out for your convention or trade show...

Containing over 100,000 square-feet of excellently-lighted, column-free space, Currihan Hall converts efficiently into 600 10 x 10 exhibit booths... Accommodations for sit-down banquets of 9,000 and theater-style seating of 14,000 are at your service... Two massive lobbies make registration services move smoothly... But there is much more: Currihan Hall is the centerpiece of what we term our Denver Convention Complex... Attached to Currihan Hall is

the Auditorium Theatre, seating over 2,100, plus three floors of conference rooms with 100 to 220 capacities that can be expanded for larger meetings... And our 20,000 square-foot Arena holds close to 6,000 fixed seats, with 1,800 more seats that can be quickly added... Adjacent to the Complex is parking space for 1,800 cars... Conveniently located downtown, the Denver Convention Complex is within easy walking distance of 4,000 first class rooms, with another 5,000 rooms within a 15 minute taxi ride. An added bonus: Meeting in exciting Denver opens the gateway for pre- and post-convention trips to the unmatched splendor of Colorado.

"The Best of Both Worlds"

Routing through Florida?

Play Tampa's Curtis Hixon Hall

Curtis Hixon Hall is the most flexible mass-seating facility in Florida. But more importantly, your rent covers more than four walls.

Included in the low rental rate is any set-up, any way you want it. Choose from festival (7600), full or intimate theatre seating arrangements; OR create your own combination.

We also provide Advertising and Group Sales services; free Box Office during normal office hours as far in advance as you want; stage lighting, including follow spots; use of the house sound system, mikes, and stands, a stage built to your specifications—and we'll even put a Baby Grand up there, all for FREE!

*Call for availabilities and information: (813) 223-8511

VERSATILITY...

Aesthetic beauty and highly adaptable design are the corner stones to Lexington Center's Rupp Arena. This unique performing center features a new concept which allows a 5,500 seat facility to expand to 23,000 seats by means of a highly sophisticated lighting and crowd control system. Attention to the needs of every potential user whether concert or circus, convention or sporting event was the prime consideration in the design of one of the largest arenas of its type in the world. Large corridors, color coded levels, ample public facilities and well distributed refreshment areas, provide ease and enjoyment to every attendee.

SOUND SYSTEM - Center hung speaker cluster, which moves on track from center of Arena, with infinite stops in between. System can handle 24 separate microphones at the same time.

DRESSING ROOM - 8 features and 6 choral rooms located adjacent to performing area.

STAGE - As much as 2,880 sq. ft. of performing area, adjustable to 4' and 6' heights.

LOADING - Via indoor docks or direct access to floor.

**RUPP
ARENA**

Contact Bob Goldstein or Will Parry

There's a special place
where people from all over Baltimore
go when they want to get
away from it all.

It's called downtown Baltimore.

Baltimore is a city that's growing, building and changing every day with new hotels, restaurants and attractions. It's all part of Baltimore's dynamic Downtown / Inner Harbor Redevelopment. And Baltimoreans are spending more and more of their leisure time, right where it's all happening. In exciting, Downtown Baltimore.

We're the Baltimore Civic Center. And our multipurpose 13,000 seat facility is right in the center of all the activity.

It's where Baltimoreans spend a lot of time enjoying concerts, professional sports, the circus, ice shows, trade shows and just about anything else you can think of.

The Baltimore Civic Center. It's working in a city of over 2 million people. (A total market of almost 8 million people). And it can work for you. All it takes is a phone call.

Contact Director of Marketing for more information. Call (301) 837-0903.

Baltimore Civic Center.
It's the center of activity in Baltimore.

Planning on playing San Antonio?

We don't have to tell you that San Antonio has a love affair with music: Rock, Jazz, Country/Western, Blues — pick your tempo and you'll find an enthusiastic audience to clap along. Now, just pick your place — the HemisFair Arena or the Joe Freeman Coliseum. And frankly, we believe the Coliseum can offer you more: A new, \$100,000+ Sound System that delivers in a BIG way with crisp, clean reproduction ... a new, 1,000 ton Heating/Air Conditioning System ... a versatile Lighting System that highlights your performance and adds sparkle and color to any center stage event. Still undecided?

Then let us tell you more — tell you, for instance, that at Joe Freeman Coliseum, there are NO interior supports. Consequently, EVERY seat is a GOOD one ... and even the last row of seats is only about 40 feet elevation above the arena floor. Now that's something the HemisFair Arena can't begin to offer, with its interior posts and high-in-the-sky seating arrangement. And if you don't think that makes a BIG difference, just wait 'till they raise the roof with applause when you play the Coliseum! No parking hassles either, with a lot that provides security parking for over 10,000 cars. Playing San Antonio? Don't end up on a sour note — pick Joe Freeman Coliseum for your next engagement. You never sounded better!
