## "The Coin Machines Merry-Go-Round"

# GROWING PAINS

*By Bill Gersh*

As the industry enters into the new machine era many growing pains become openly apparent. For example, one territory in the nation is now faced with a bill which will allow only 2,000 machines to operate. Another faces the problem of how its distributors are going to sell to operators who say they will boycott all new merchandise because they still want to continue operating what they already have and do not want to buy new machines for they claim that new equipment will start cutting up their profits.

All sorts of problems suddenly appear on the horizon. There is no doubt, among the intelligent merchandisers in the trade, that all of these will disappear just as rapidly as they appeared, when the new machines come rolling into warehouses in the sort of quantity which can be expected from the manufacturers when material and supplies become available—and labor stops striking.

All these are but the growing pains of an industry on its way to its greatest era.

The old timer realizes that he will have to compete with new and younger men. He will be beset with many new kinds of problems. He will once again have to get down to his offices early and work late. And even get around to visiting his locations to keep them happy and satisfied.

There are many coinmen who have become accustomed to letting their employees continue to cry to locations about no supplies, no materials, no parts, etc., etc. But gradually, the location owners, regardless of union affiliations and associations, know that they will be able to get new and more attractive machines. They also know that they can begin to expect better service. And they are sure that the time has come when they should be earning even more from the new coin-operated equipment.

Growing pains are only a hardship for a short period. These adjust themselves very easily especially when full production gets well under way. The trade realizes that there is nothing like a new machine to stimulate the play on any location. It also realizes that because the cost of the new equipment is higher than pre-war that it must change its present commission basis.

What should be more carefully watched by those coinmen, who believe that no new machines should be allowed in their territories—is the dissatisfaction which this can bring about from the average location owner. Storekeepers are accustomed to extremely fine service from the firms with whom they deal. They know that the automobile firm from whom they purchase their trucks and cars will give them service which will be far above that which they ever formerly received.

Should the operator create a bad taste in the mouths of location owners thruout the country, he will then absolutely encourage direct sales. There are a great many men in this industry today who believe that the trade may eventually see direct selling on a great and efficient scale.

These men argue: 1) Why can't a large organization enter into the field and set up service centers just as good, if not better, than what the average operator can offer? 2) Why can't such firms also rent machines to locations? 3) Why can't they even sell these machines to the locations on a time payment plan so that they can collect for the machines as they come around to service them? 4) And, furthermore, why can't they make an overall service charge to cover whatever servicing will have to be done and do this on a national scale, while including it in the sales agreement they will sign with the location?

There is no doubt anymore that location owners know the value of coin-operated equipment in their places of business. There is also no doubt that the average tavern keeper realizes that he could not conduct a profitable tavern business without a juke box—and perhaps without a cigarette and gum and candy vender—as well as amusement devices. He has been educated to this very fact by the operators. He has been taught the need for coin-operate equipment to bring him extra profits efficiently and speedily—and without any investment of time or money on his part.

## "The Coin Machines Merry-Go-Round"

All this the operator has already taught him. And in so teaching him has encouraged him to also buy direct when he finds that the money he earns from the machines in his store is of sufficient quantity to actually pay for a machine speedily—on his own account. The operator must therefore take into consideration the fact that if a manufacturer does decide to sell direct to location owners the greatest part — the pioneering part — of his sales work has already been accomplished for him by the present operators.

Surely some of the large auto manufacturers could make this a very profitable division of their business. Like Firestone, who along with his tires included all sorts of toys, hardware, dishes, etc. in his stores, so that enterprising men would be encouraged to open such stores—perhaps many an auto manufacturer might be thinking that the large service organizations which his dealers have created to handle his lines would also prove capable of handling coin machine servicing and sales within an efficient radius of that dealer's offices.

Therefore, the modern operator must keep step so that he can protect himself from any such competition. He must purchase the new equipment and keep everyone of his locations pleased and happy with his service. He must make sure that he is protected on these locations with leases, or with location agreements, or with legal contracts, so that he can offset and even forestall the time when some of the larger of the nation's industrialists might decide to try direct selling in this field on an easy-time-payment plan.

Those operators who believe that they are now strong enough in their own territories to keep out the new equipment, on the theory that they "don't want the manufacturers again making us machine poor", had also best remember that there are many other factors at work beside the coin-operated machine manufacturers who have been most carefully studying the coin machine field—and who like the way this industry earns good profits with an average investment. These men should think twice before they decide to retain a machine in one of their locations which will most completely dissatisfy that location.

The days of poor service and inefficient planning are numbered in this coin-operated machine industry. The days when an operator could "just let the guy squawk" are over. He must now plunge into his business like a really modern business man and make his business just as outstanding as the leading auto dealer or radio or department store does in his town. He must be on the job 24 hours per day to make his business a really efficient, modern business so that his locations will believe that they just couldn't get anything better. And that purchasing their own equipment would be a waste of money and time.

Perhaps, too, many coin machine men have had their noses pressed too close to the trees to be able to see the great forest that lies beyond. There is no division of America's musical entertainment industry that today compares in power and attraction to the juke box business. And the juke box industry is as yet only an infant.

It was actually thrown together. It grew in spite of itself. It will become a truly great musical industry when this post-war period gets well under way. And when deliveries of the new machines come thru in the quantity that men now dream about. The new improvements in this field are truly awe inspiring. Some of these are so outstanding that every location owner will be amazed at the ingenuity demonstrated to get him to sell more music and earn greater profit.

The same is true of the merchandising machine field. And in this field there is already an outstanding lesson for coin machine men. This lesson is in the large theatre chains thruout the country who first started with individual operators and who gradually found that they were better off with their own candy counters, for they could then give the public a larger and more complete selection and at the same time earn more profit.

At first they were worried about the dirt the sale of candy would cause. Today there isn't a theatre chain in the nation that doesn't have its own candy counters with its own pretty little girls completely uniformed and selling many thousands of boxes of candies of all kinds.

The merchandise machine man therefore learned that the education which he had given to the chain theatre owner had resulted in these theatres setting up their own sales organizations for the very same products which he had sold them on using.

In the amusement field many other problems enter into consideration for operators. Not only have they many inner problems but they realize that they have the fastest moving division of this business on their hands and that profits can be like quicksilver unless they operate their businesses to the very highest point of super efficiency. This is one division wherein the operator knows the value of new equipment and of constant change of that equipment.

The operator mustn't for a moment believe that he can continue without new machines. If he does he will find interest falling in his equipment and eventually disappearing.

These are the growing pains which the field is now undergoing. They should be tempered by long range planning and thinking, so that those who are in the field will remain in it completely protected and enjoying the greatest possible prosperity.

## "BING" THANKS WURLITZER MUSIC MERCHANTS

NO. TONAWANDA, N. Y. — According to Wurlitzer executives, sometime ago the paths of Bing Crosby and Mike Hammergren, Wurlitzer General Salesmanager, crossed. Bing's mind was on his duties as National Chairman of the Sister Kenny Foundation for Infantile Paralysis. Mike's mind was on Wurlitzer phonographs. Somewhere along in the conversation, something sparked. Why couldn't Wurlitzer's coast-to-coast network of phonographs be used as a vehicle to further the Sister Kenny Drive?

"No reason under the sun why they couldn't," opined Mike, "I know Wurlitzer Music Merchants have hearts as big as all outdoors. They'll cooperate!"

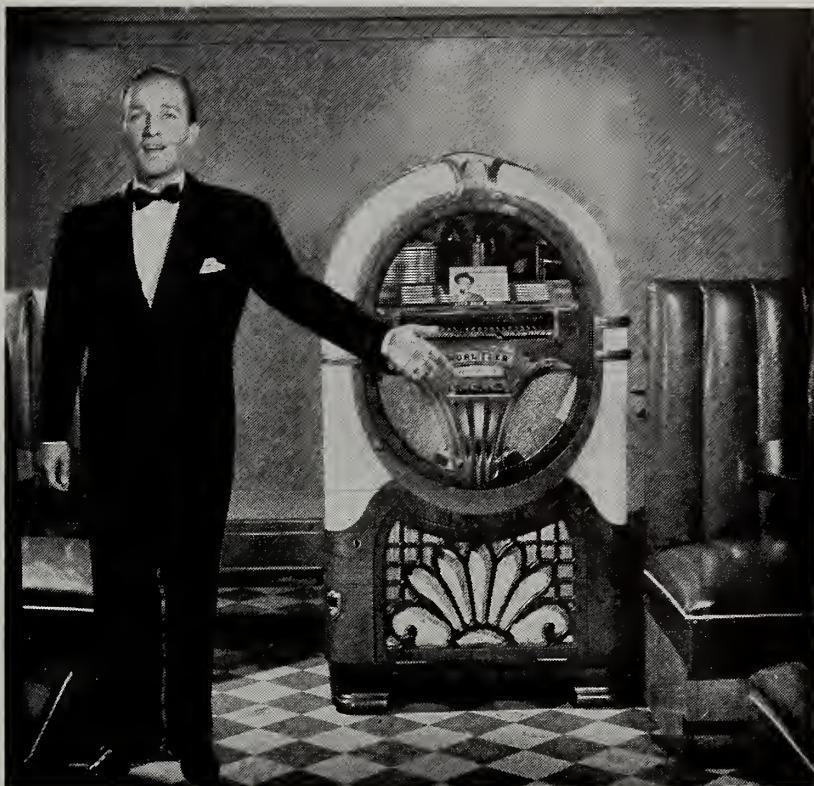

"No time to be lost," exclaimed Bing.

Things began to happen. Wurlitzer appealed to its Music Merchants to put stickers on the record changer window of every Wurlitzer phonograph telling the public that, between November 22nd and December 8th, ten percent of the money that instrument took in would go to the Sister Kenny Fund.

Thousands of Music Merchants hopped to it and the results, while not yet tabulated, will give Bing something to croon about and a lot of polio-stricken youngsters a chance for recovery they might otherwise never have had.

Bing, highly elated with the result of Wurlitzer Music Merchant cooperation, had this to say, "I'd like to individually pat on the back every Wurlitzer Music Merchant who turned a share of his 'take' toward this cause. He may personally never see the kids who benefit from his generosity. I will and I know from what I already have seen, the great good it will do. All I can say to you boys is thanks a million for going my way. Somehow, somewhere you'll get your reward. Good deeds have a way of rewarding their doers."

"Once more, as they did in the Bond Drives during the war, Wurlitzer Music Merchants put their phonographs to work for a great cause and did a great job. It's a tribute to the industry."

## G. M. DICK BECOMES EXEC. VICE-PRES. OF CMAC

CHICAGO — Robert M. Waggener, President of Coin Machine Acceptance Corporation, has just announced the election of George M. Dick to the position of Executive Vice President of Coin Machine Acceptance Corporation. Mr. Dick will henceforth make his headquarters at the main office of CMAC, 134 North LaSalle Street, Chicago, Illinois, and will eventually take up residence in Chicago.

Mr. Dick will remain a Vice President of the parent organization of CMAC, American Business Credit Corporation, 50 Church Street, New York, N. Y. Mr. Dick has been associated with CMAC for several years in the capacity of Vice President and Director. Mr. Waggener advises that CMAC will be considerably strengthened by this move, because Mr. Dick brings with him a wealth of experience in the finance industry, having been in this field for the past 23 years.

In view of the tremendous forward steps the Coin Machine Industry can now take because of the war's end, and the expansion program which CMAC has in mind, Mr. Dick's appointment is opportune and will be of great value in handling the anticipated increase in volume for which CMAC has planned.

## REYNOLDS WANTS NATIONAL TAX COUNCIL

DALLAS, TEX. — Earl E. Reynolds of American Distributing Co., Inc., this city, urges that the industry get together to help immediately create a National Tax Council as has been suggested by *The Cash Box* for some years now.

Reynolds reports, "For sometime now we have been reading your articles regarding the necessity of this industry creating a National Tax Council (or any other name the trade may want to call it) to help combat unfair and excessive taxation which is being imposed on this business with greater emphasis each year.

"We have had much trouble here in Texas withholding a smashing tax bill. We hope that we can continue to do this sort of work. But this is the time to arouse the interest of everyone, not just a few, to help create a National Tax Council so that we will have expert advice and good relations work to halt whatever inequitable taxation may be attempted.

We are all of us worried about 1947 and many of us look with fear on the meetings of tax makers during this coming year, in many states thruout the nation. There isn't any time to waste. Let's get a National Tax Council started.

## AIREON BROADCASTS PHILHARMONIC OVERSEAS

KANSAS CITY, MO. — R. R. (Rudy) Greenbaum, Vice-President and General Salesmanager of Aireon Mfg. Corp., this city, reported that music-minded GI's from this area will be able to hear their favorite symphonies and get a touch of home at the same time. The media will be the shortwaving of the half hour Thursday evening Philharmonic broadcasts to overseas points, sponsored by Aireon Manufacturing Corporation of Kansas City, Kansas.

R. R. (Rudy) Greenbaum

The program will be carried over regular shortwave stations and over the armed forces radio service network stations. The fifteen remaining Thursday evening air programs of the Philharmonic will be rebroadcasted in this manner.

The Aireon show is the only local program reaching hometown boys still stationed in the Pacific and other points. Efrek Kurtz directs the program, which originates on KMBC at 7:00 P.M. Thursdays, and is broadcasted from the Musicians Hall.

## ED. CUSSON HONORED BY U. S. COAST GUARD

Ensign Ed. Cusson

PORTLAND, ORE. — Ed. Cusson who returned from serving with the U. S. Coast Guard for over four years as an Ensign on October 10, 1945, and who is now salesmanager for the Jack R. Moore Company, this city, was greatly honored by the U. S. Coast Guard commanders for the fine work he had done while in the service. These honors are now decorating the walls of the firm's offices here and have attracted much attention and comment as well as many congratulations for Ed.

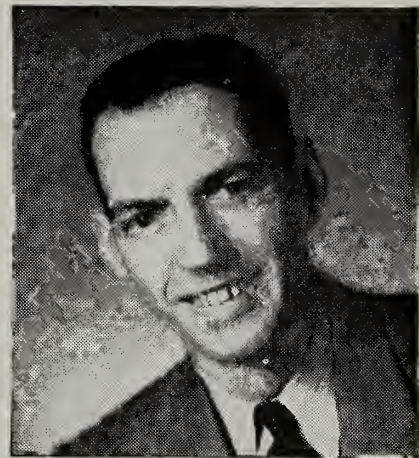

Just a few weeks, Ed's son, Arthur, shipped out to the South Pacific where he will enter into active service. Ed is of the belief that Arthur will bring back even greater honors to the Cusson record than he did. "The kid's got the stuff", both Helen Cusson and Ed have been saying all over the Jack R. Moore Company headquarters to all visitors.

## REBUILT GAMES UPHOLD EARNINGS says DeSELM

CHICAGO, ILL. — C. B. (Billy) DeSelm, Salesmanager of United Manufacturing Co., this city, reports, "Rebuilding games, at this time, is doing the industry a real service. It is upholding the earning power of present equipment and will have a stabilizing effect on used game prices when new equipment is again available."

Billy also believes the post-war period is hampered by many obstacles for the manufacturers and that these have been delaying all out volume production. He says, "In the meantime conversion of old games, old either in years or due to a worn out condition, into equipment that has earning power, eye-appeal and mechanical dependability, is a service that cannot be underrated.

"The conversion of old games enables operators to get the most out of their equipment", he continues. "During the war years, rebuilt games kept the operators in business. Now new rebuilt games are helping to carry the load of keeping the operator going on an even keel until new equipment can replace the old."

Billy DeSelm

## HANK MASER REVAMPING HIS BUILDING

SAN FRANCISCO, CAL. — H. R. (Call me "Hank") Maser of the H. R. Maser Music Company, this city, reports that he is revamping his entire three story building here at this time to accommodate a great building program which the firm have undertaken.

Hank Maser

Maser also announced that he believes interest in a new type slot has been growing with leaps and bounds thruout the country. He feels that the trade wants something just as new in a slot machine as they do in every other type of equipment. To help make this possible Hank is now revamping his entire building here and planning to produce something in the way of a new slot which the trade will find to be the first new innovation in this division of the industry.

As yet no further plans have been released in regard to what this innovation will be but Hank states that he will release the news in the very near future.

## JOE DARWIN IS PACKARD EAST REGIONAL MGR.

NEW YORK — Joe Darwin, one of the best known music men in the country, has just been appointed Eastern Regional Manager for Packard Manufacturing Corp. of Indianapolis, Ind.

Joe Darwin

At the present time he is suffering from a severe cold and has been confined to his home. But, this did not stop Joe from appointing distributors for the Packard Pla-Mor Wall and Bar Box and also for the forthcoming automatic phono of the firm.

Joe reported, "Even tho in bed, have been able to make appointments thruout the New England states and all the way down to Washington, D.C. There are only a few territories open at this time and this is due to the fact that we are considering each one of many noted distributors who have bid for our line of equipment. As soon as I can get out of this sick bed will make complete announcements of who our distributors will be thruout the entire territory I am covering."

Darwin also recalled that he started in the automatic phonograph business with Homer E. Capehart's original firm at Huntington, Ind. back in 1928 on Thanksgiving Day. And now, he reports, exactly 17 years later, also on Thanksgiving Day, he is again back with Senator Homer E. Capehart in the automatic music industry.

Darwin's sales record in the automatic music business is one of the most impressive in the history of the industry. He can show where he sold more phonos than anyone else in this industry for the many years he was connected with Senator Capehart.

From 1933 up until 1942 he remained as Eastern Regional Manager for the Wurlitzer Company, where it is reported he did a very remarkable sales job. He now again enters as Eastern Regional Manager for Senator Homer E. Capehart after a three year lapse while no phonos were being manufactured.

Darwin is very enthusiastic over the automatic phono he reports Packard Manufacturing Corp. will build. He stated, "This will be the greatest automatic phonograph that has ever been produced in this industry."

## BILL HAPPEL CONSTRUCTING NEW L. A. BLDG.

LOS ANGELES, CAL. — Wm. R. (Bill) Happel of Badger Sales Company, this city, is now constructing an entirely new building to house the products which the firm will handle. It is believed that this new building will be one of the most impressive in Southern California. It will contain an elaborate showroom for the products of the leading manufacturers the firm represents in this area. It will also have a large parts department as well as storage space and private offices for conferences with jobbers and operators here. Happel also plans to have a lounge to accommodate the men who meet at his headquarters. Other features of the new building are now being planned by Happel and the firm of builders and architects who are at work on this new building

Wm. R. (Bill) Happel

Happel reported that he plans to give the operators and jobbers thruout the Southern California area a building of which they can be very proud and which will bring great prestige to the coin machine trade in this area. He will also have special showrooms for Rockola's new "Phonograph of Tomorrow" and which will be featured as the "music headquarters" of the firm. There will also be impressive and outstanding showrooms for the J. H. Keeney & Company products which the firm also represent. The plan of special showrooms for the various manufacturers whom the firm will represent is expected to meet with general approval.

## CHARLEY ROSEN IS DISTRIB FOR PACKARD

LOUISVILLE, KY. — Charles Rosen, who manages the offices of the Ohio Specialty Company, this city, reports that his firm have been appointed as distributors for the Packard Manufacturing Corp. of Indianapolis, Ind.

Charles Rosen

Charley is very enthusiastic over this appointment and is notifying the trade that he has Packard Pla-Mor Boxes ready for immediate delivery. He believes that there will be greater sales of the Packard wall and bar boxes during this coming year than ever before. He also claims that Packard has been proven during the war period and that many operators eagerly look forward to getting as many as possible for their music routes.

Charley is also distributor for Genco Manufacturing Co., and is featuring this firm's new Total Roll machine at this time. He also represents D. Gottlieb & Company's new Stage Door Canteen pin game and Chicago Coin's Goalee. He reports that the firm are busy with the products of all these manufacturers.

## OMAHA WANTS WALLOPING COIN TAXES

New Ordinance Wants Juke Distributors to Pay \$500 Per Year Occupational Tax. Amusement Game Distributors \$1,000 Yearly. Juke Operators to Pay \$100 Per Year Per Phono. \$150 Per Game Each Year.

OMAHA, NEBR. — What is probably an indication of what will be forthcoming from other city, county and state legislatures during 1946 is the proposal just passed by the City Council here.

After a meeting of the City Council on Tuesday, November 27, proposals were made for a series of ordinances levying new sales and amusement taxes, as well as new and higher occupational taxes and increasing a great many taxes now in force.

It is expected that an open, public hearing will be held on these new ordinances in the very near future and that all business men will be given the opportunity to argue against this present high tax proposal. This city is intent on raising an additional \$2,500,000 to help pay off its help.

An additional gasoline tax, even a wheel tax on trucks, new and higher taxes on movies, stage shows, floor shows, cigarets, cigars, soft drinks, hotels, bus and truck terminals, natural gas, and it is expected on the Ak-Sar-Ben race track, will also be asked.

Operators of juke boxes will pay \$100.00 per year tax for each machine instead of the present \$5.00 per year. Operators of pinball and other mechanical amusement devices will pay \$150.00 per year per machine instead of the present \$10.00 per year.

Distributors of juke boxes will pay \$500.00 per year occupational tax and distributors of pinball and other mechanical amusement devices will pay \$1,000.00 per year occupational fee.

Coin machine leaders in this city are appealing to the trade everywhere to immediately send in whatever information may be at hand to help them offset this confiscatory taxation.

This once again brings to the fore the great importance of the suggestion which *The Cash Box* has been making to the trade for over three years now that it create a "National Tax Council" where experts would be available to help coinmen and where all former precedents, data, records, etc. would be on hand to present to any authorities when such need arose.

This demand on the part of the city of Omaha is expected to be followed by other and even greater tax bills thruout the nation. Such taxation can definitely hamper the growth of this entire industry.

It is up to coinmen everywhere to come together at this time into a "National Tax Council" (as suggested in this issue by Earl E. Reynolds of Dallas, Texas, who is president of the Texas Coin Machine Operators Assn.) and be prepared to offset such severe taxation demands from an industry which is just in the formative stages.

## WILL BUYING STOCK GET OPS MORE RECORDS?

BOSTON, MASS. — Sidney A. Wolbarst of the New England Exhibit Company, this city, offers a suggestion to all music machine ops which may have some real merit to it.

Wolbarst writes, "Whether or not this thought is practical, I don't know, but would like to receive opinions.

"All music ops know the record problem. I notice that the Decca Company is listed on the New York Stock Exchange. If ops thruout the country would buy 10, 20, 50 or 100 shares each in the company and then, as a group of stockholders, request the executives of the company to recognize and give more consideration to ops, rather than other trade, could results be obtained in at least one company that would be better than the past performances of this firm?

"The company is substantial and does pay dividends, so the stock is no lemon. If satisfactory results were obtained it could also be done with other manufacturers. Of course, group action is essential for results. What do you think?"

## MUSICAL SALES TO OPEN RICHMOND BUILDING

BALTIMORE, MD. — Max B. Lesnick of Musical Sales Co., this city, reports that the firm have at last found a building in Richmond, Va. to house their branch offices. The address will be 415 No. Broad Street. This is a four story building with over 25,000 square feet of space. Musical Sales Company will take possession of this building on January 1st but due to the fact that they are completely remodeling they will not be settled until about January 20 to the 25th.

Lesnick also reports that the firm have hired two ex-service men, Capt. Herbert R. Wilson who will act as salesmanager, working out of the Baltimore office, and Lt. Richard F. Lawrence who will act in the same capacity out of the new Richmond offices.

The firm also reports that they have taken on the distribution of the Pfanstiehl needle for Maryland, Washington, D.C. and Virginia.

## W. B. NOVELTY MOVE TO NEW K. C. QUARTERS

KANSAS CITY, MO. — Wm. (Bill) Betz of W. B. Novelty Company announces the firm have moved to new and larger quarters at 1518 McGee in this city. Bill invites all the trade in this area to call and see these new showrooms and offices. He also advises that the firm's St. Louis, Mo. offices will remain in their present location.

## DOC EATON GIVES A VENISON DINNER

**CHICAGO** — DeWitt (Doc) Eaton, General Salesmanager of Automatic Instrument Co., this city, gave a venison dinner to friends who happened to be in Chicago on Wednesday, November 28.

Among the guests were: James Mangan of Mangan & Eckland; Bill Wolf of California Amusement Co.; Barney Sugerman of Runyon Sales Company; Harry H. Brown and Dave Yaras of American Amusement Company; Bill Gersh of The Cash Box; Paul Bleck, John Swisher and Forest Teeter of AMI.

Doc Eaton was reported to have proved himself the perfect host. "But", he stated, "the only thing I'm sorry about is that I can't say I shot this deer myself. Next time I hope to invite all present to a venison dinner of my own fresh killed deer."

## CALIF. MUSIC OPS ACT TO DEFEAT BUCKLEY BILL

**OAKLAND, CALIF.** — George A. Miller, president and business manager of the California Music Operators Association, this city, advises that his organization is hard at work to help defeat the "Buckley Bill" (H.R. 3190) now in the Patents Committee of the House of Representatives in Washington, D.C. In a letter written to his members, Miller advised them of the following.

"I have just received a letter of a confidential nature from one of the congressmen who is very friendly to our cause, stating that the people who are sponsoring the Buckley Bill are trying to compromise whereby they will receive a license of \$100.00 a year for each and every phonograph in the United States.

"I think that each and every operator knows that the writer and the Association as a whole has been putting forth every effort possible to defeat this very dangerous bill. However, I am quite sure that many of the operators have neglected to either write in or send a telegram stating the reasons that they are opposed to such legislation.

"I have a letter from three of the congressmen in this district who state that they have received very few letters from the operators; in fact not enough to give them anything to hang their hats on. You fellows must realize that for a congressman to oppose a bill there must be a reason more than just the fact that he doesn't like the particular bill.

"I held a membership meeting in Stockton last Monday night and each and every operator sent at least four or five telegrams the following morning. These telegrams actually went out because they were handed to me and I sent them from Western Union myself. Now this is actually what you fellows are going to have to do if you expect to get by without paying the Copyright Owners and Composers some kind of a license.

"There is an article in *The Cash Box* I just received from Johnny Ruggiero giving you the complete picture, and as far back as July 24 they were offering a compromise of \$100.00 a year per phonograph. I might further state that the manufacturers themselves are concerned—especially the jobbers and distributors and they are supporting us for the defeat of this particular bill.

"I have notified each congressman and senator in the State of California of the California Music Operators Association's opposition and will continue to do so, but you fellows must help. Don't blame anyone but yourselves if this license goes through. It is pretty discouraging to work as hard as we have here in the office against such legislation and then find that many of the operators don't take enough interest in their own business to write one or two letters or send a telegram that might be very necessary to their business.

"Now in closing just let me also say that there is a move at the present time to get a special label made on records, stating that these records can be used for commercial uses and especially juke boxes. I just received this information so I am adding it to the letter. You can see where there are many complications arising out of this proposed Buckley Bill, so, fellows, do your part by doing everything that you possibly can to cause the defeat of this legislation."

## ARCADE OWNERS ASSN. NOMINATES OFFICERS

**NEW YORK** — The Arcade Owners Association of America, at its meeting last Thursday evening, November 29th, approved the appointment of Mr. Barnett R. Berkens as its executive secretary. Mr. Berkens gave the meeting some general information regarding future plans that have been formulated that will be of great benefit to all Arcade Owners in the United States.

Nominations for officers of the Association are now being accepted for balloting late in December. Thus far, the following nominations are on file; for President, A. W. BLENDOW; 1st Vice-President, L. FOX; 2nd Vice-President, S. HOLZMAN; 3rd Vice-President, McKIM SMITH; Recording Secretary, A. MEYERS; Corresponding Secretary, M. WEBSTER; Treasurer, B. KATZ; K. WILSON of Chicago, J ASH of Philadelphia and M. WOLF of New Jersey were nominated for the posts of regional directors.

## BILL WOLF OPENS NEW PATH TO MUSIC OPS

LOS ANGELES, CAL. — M. S. (Bill) Wolf of California Amusement Co., this city, reports that his firm is preparing to open an entirely new path to the automatic music ops thruout the state of California as soon as the new equipment of AMI is released for sales.

Bill stated, "We believe that the time has arrived when the music machine operator must have the sort of cooperation which will help him to earn greater profits than ever before in his history. We are therefore developing a finance plan which we believe will prove to be the most outstanding in the country. We have already been in many conferences with fiancial leaders and they advise us that our plan is the best they have ever yet heard of."

Wolf will also have very elaborate showings of the new AMI phonograph as soon as it is received by the firm in their offices here as well as in their new San Francisco building. The initial showings will be held at the Ambassador Hotel in this city and at the Mark Hopkins Hotel in San Francisco. A program is being prepared now which will prove of great interest to the operators in this area.

Al Stern

"But", Bill Wolf reports, "most important to the music operator in California is the fact that we are ready to work with him thru a finance arrangement which we sincerely believe he will praise from the moment he hears all about it."

## KEENEY APPOINTS STERN 3 STATE DISTRI

Bill Wolf

Stern is reported to be already in action on this distributorship and is planning a unique sales and servicing campaign to the operators and jobbers in this three state territory.

He also reports that he will make a personal coverage of the territory to give the coinmen a complete picture of the forthcoming Keeney merchandise so that they will be better able to judge their requirements.

Stern also stated that World Wide Distributors would put everything they have back of making the Kenney line the most outstanding in these three states and that he had many plans to help this become fact.

## OPA HELPS JERSEY OPS BY RECALLING TOKENS

NEWARK, N. J. — OPA District Director Richard J. Tarrant reported that he is attempting to curb the circulation of leftover red ration tokens that have been finding their way into coin machines in this area.

Transportation companies as well as the juke box and vending machine operators are anxiously watching the outcome of an intensive publicity campaign by the OPA to get retailers to return the tokens to their ration banks quickly, Mr. Tarrant's office reported.

Coin machine operators have complained that the tokens have jammed their machines, preventing efficient operation and causing them financial loss. Tarrant's office reported that only one bank in twenty, checked last week in the North Jersey area, received any red tokens from retailers.

"We're swamped with orders", this attractive pair reports, "and only hope that we can start shooting carloads of equipment to our offices the moment that we arrive in Chicago."

# JERSEY OPS MEET TO REORGANIZE MUSIC ASSN.

NEWARK, N. J. — Sol Kesselman, attorney and business manager of the Phonograph Operators Association of New Jersey, called a meeting of all northern New Jersey music operators this past Thursday (December 6) at the Richmond Room of the Essex House Hotel, this city, wherein the organization brought forth the facts that all music coinmen desired to enter into a strong association assisted by the International Brotherhood of Electrical Workers Union (which had been formed in this city on November 13) and into which union some of the leading music operators in the state had already entered.

The leading speaker at this meeting was Sidney H. Levine, counsellor for the New York phono ops association. He made a very stirring and inspired speech. Levine brought forth all the problems with which the music operators would have to cope as volume numbers of machines would enter the market. He also explained that the operators should buy new equipment, give better service, join themselves together to protect their locations and make a working agreement with the union here so that, as he stated, "In unity there would be strength".

Levine was given a rising vote of thanks by the entire body and the ops here agreed that it was his good talk which decided them to immediately enter into a stronger organization.

A motion was made and seconded at the meeting wherein a committee was created, composed of H. Betti, H. Pearl, B. Sugerman, S. Mittelman, Carl Rudy and Sol Kesselman, who would meet with the IBEW and discuss with the union what course would have to be followed by this organization. The committee is to report their findings back to the members this coming week, where another meeting will be held at the Essex House Hotel in this city.

Every phono op who did not belong to the organization

and who was present that evening joined the group. There were many new faces and promises were given by those present that they would bring others along with them to the next meeting.

Some of those present were: Leo Ringler, Newark; M. Turkel, Newark; Carl Rudy, Palisades; Teddy Sutter, Teaneck; Irving Berlin, Newark; A. Michaels, Roselle Park; John Westervelt, Asbury Park; Sidney Mittelman and Phil Mason, Newark; Harry and Sam Wichansky, Elizabeth; Abe Green and Barney Sugerman, Newark; Bernie Goodman, Bayonne; Harry Pearl and Dave Stern, Elizabeth; Harold Lillien, Newark; Ernie Crowder, Newark; and many others.

It is generally believed here that this entire group of men, some of whom carried on for the past four years with very little effort behind the association, want this organization to be numbered among the strongest in the nation. They are only affiliating themselves with the IBEW union on the theory that this union will help them to protect and preserve their locations. The general agreement which they intend to make with the union will be done as an association. Dues are expected to be 25c per machine per month for employees of ops, to the union and 25c per machine per month for the ops to the association treasury.

The Buckley Bill now in the Patents Committee of the House of Representatives in Washington was brought to the floor by counsellor Kesselman who explained its meaning and its threat to the phono trade.

Sidney H. Levine also explained the work done by the New York phono ops association in defeating ASCAP in New York and brought forth that if this organization had not defeated ASCAP that music ops would now be paying from \$100 to \$150 per machine per year to this organization, a possible \$40,000,000.00 per year from the entire trade.

## NEW ORLEANS

Here's reconversion in a really big way: the entire crew over at Louisiana Amusement Co. are returned war veterans, and the painting and remodeling job they did in their display room at 822 Carondelet isn't half bad, believe you me. Just look at this line-up: Bill Christmas, Marine, 2 years in the Pacific; Buddy Crawford, Merchant Marine, 2 years in the Atlantic; Bill Murphy, Air Ground Force, 3 years in England; Manuel Esquivil, Air Force, 3½ years in Italy; Jack Koger, Coast Guard, 3½ years in the North Atlantic; and Jack Gonzales, Marine, 3½ years in the Pacific. You can take it from me that their boss, Melvin Mallory, is sure proud of his boys.

The Flying (overworked) Stork Department: November 5th brought little Junior to the home of the Buddy Crawford's and pop's bearing up well . . . On November 7th, the Manuel Esquivils became 3 when little Jimmy put in his appearance and are Daddy and Mommy proud . . . And, believe it or not, on December 1 the Joseph Villars' home was really brightened by the arrival of Carmel Marie . . . And Happy Birthday to you Chris Nissen, who, to celebrate the event, swung a big party for the gang aboard the steamer, President . . . Where, oh, where, can Henry Fox and Jules Perez be? Their partner, O. C. Marshall reports that, "They're away on very important business". And since everyone is so secretive about it all wonder what the mystery is?

Louisiana Coin Machine Service ready to remodel their 931 Poydras spot and are also planning to put up a big building in another part of the town. This can be put under the head of "real expansion" . . . Mary O'Meara and Paul Van Husen just formed a partnership and took over the G. Shirmer Co. here . . . Who was that great orator standing on the corner of S & C Amusement Co. reciting the Gettysburg address? . . . Ben Shear of Soundies back from a visit to Chicago . . . Ed Ponder, the man who just can't stay put, off again to Pensacola, Fla. . . . Former Sgt. Francis Forrest back at work at Southern Music Sales stockroom after 2 years overseas . . . Ray Augrain, Bob Dupuy, A. B. Chesser and E. B. Stewart off to Chicago to meet with boss Fletcher Blalock and attend the Wurlitzer distribs' meeting at the Bismark Hotel . . . "Smiley" DeBruyne raving about the beautiful letters the family gets from their future dotter-in-law from London, and who, along with their son, they expect home sometime in the Spring of '46 . . . Paul Friend of Jackson, Miss. and C. L. Cowlshaw of Lane Amuse., Mobile, Ala. in town this past week looking for more and still more music.

## SEATTLE

Three weeks of rain seems to be just like a tonic to the ops in this man's town. It brings the boys together all under the distribs' roofs here on coinrow and the hot stove league gets into a real session. Favorite spots, such as George Schnabel's Puget Sound Novelty Co., Bert Beutler's, Jack R. Moore Co. offices, Walter (Solly) Solomon's Western Distributors and Earl Everett and Sam Grossman's Seattle Coin Machine Co., are simply full of guys talking about thisa and thata. They sure do serve as the perfect background for these friendly get-togethers.

Congenial Charley White reports that the fish are biting all over the place, but it seems that Charley just can't find the time to grab himself a fishing pole . . . Art Andrell has just returned from a three week tour of old Mexico—minus his horse blanket. Art claims, "Some peon got away with it" . . . Bob Farrell in town from Anacortes looking for a new Cadillac and at the same time buying more equipment to keep that kind of a car in gas and oil . . . W. C. Stephenson of Nome, Alaska, advises old acquaintances here that he will arrive in town soon and wants to buy plenty of phonos, games, etc., etc. (Poor Steve, wait'll he sees what little stock there really is in town to sell.)

Melvin Skrevseth around town sporting a flashy tie, if we ever saw one, and making the rounds of coinrow . . . Good natured Ken Rader trying to keep his pin games running and his customers happy and working hard at the job . . . Al McKern in from Tacoma seeking parts for his slots and wishing he could get a carload to take home with him . . . Stillman Miller of Cashmere, Wash., seen over at Puget Sound placing an order for 30 more of those Coin-Masters . . . Vic Little of Victoria, B.C., in town and inquiring about new phonos. Like lots of good ops Vic intends to boost his route but heavy with new equipment . . . S. B. Smith of Spokane seen over at the Jack R. Moore Co. looking over Bally's new Victory Derby—and with a gleam in his eyes.

With the local newspapers still on strike and no news to take home nights the boys are spending more time getting to bed earlier than ever . . . And what with rain and still more rain falling around here to dampen spirits—someone ought to get together with the ruling forces and maybe talk them into releasing some of that good whiskey we hear about from Chicago, New York, and other parts of the nation.

## MINNEAPOLIS

Well, the snow is on the ground and the streets are slippery, but this is really Christmas season weather so everybody's happy. And out in the country the snow covered trees and the vast expanse of snowy quiet makes lots of the guys and gals here wish that they were—in California or Miami . . . Ray Foster of Sioux Falls, S.D., in town this past week vacationing with his family and visiting friends in the Twin Cities . . . Gerald Hanson, son of Gil Hanson, who operates around St. Peter, Minn., received his discharge from the armed forces and is now back on the route with his Dad. Gerald spent 3½ years in the service and is tickled pink to be back again. Looks like Happy Days for Gil as Gerald takes the load off his shoulders.

One of those rare things—a New York visitor in town—Bill Gersh of *The Cash Box* and telling us about his trip thruout the Southwest, the Pacific Coast and the Northwest. Plenty interesting and informative and many an idea we got from listening to him . . . Mr. and Mrs. Fritz Eichinger of Minneapolis away on a vacation and the route very well under control of the efficient Eichinger staff . . . Bob Collins of Morris, Minn. in town and a rush, rush visit. Wonder what all the rushing was about? . . . Earl Scholl of Chippewa, Wis. looking fit as a fiddle since his discharge from the Army and working harder than ever, too . . . Gordon Wornson of Mankato, Minn. is reported to be busier than he ever was in the Army—but loves it.

Harold Liberman is reported to be opening one of the newest and the very largest places in this man's town . . . But that doesn't stop Jonas Bessler and Hy Greenstein of Hy-G Amusement for they, too, have cracked the wall down next door to them and are opening a terrific spot. In fact, the boys had to buy the hotel next door to get the store . . . And Ted Bush of Bush Distributing Co. is reported to be seeking a big, new building for himself, for his firm is jammed up with plenty of orders for those parts and machines and expecting their new machines in any minute . . . And Willie Cohen of Silent Sales is also trying to push out the walls a little for he is expecting to be receiving new merchandise in real volume soon . . . So, it looks like Minneapolis is going to be bigger than ever as far as this coinbiz is concerned.

And Solly Rose now heads the new Record Dept. over at Hy-G.

All the guys and the gals in town very, very sorry to hear that Vince McCabe of Redd Distributing Co. was suddenly rushed to the hospital. So far the doctors haven't reported just what the trouble is but everyone here is pulling for Vince and hopes that he'll be out of the hospital in a day or two . . . By the way Bob Bear is now holding down the fort at Redd's taking Vince's place and is reported to be doing a very fine job of it too. And Tom Hammel has taken Vince's place at the meeting in Chicago of the Wurlitzer clan . . . We wonder what made Anita Goodman's husband fly in from Fort Devens, Mass, just to spend the weekend with Anita (who, by the way, is Secretary over at Si Redd's place)? Can it be love? . . . By the way, girls, Gordon Reese is the name of that serviceman for Herm Glaser. Gordon's a veteran in this business. And he's young, too . . . Ralph Pelletier of Silver Creek has just been discharged from the Army. Ralph's wife ran the business while he was away. But now Ralph is back in action and beginning to look around again.

Ed Britt of Lockport in town the other day and this is the first time in many, many moons that Ed didn't bring the two kiddies along with him . . . Jim Voelker's serviceman became a papa this past month. So, not knowing his full name, all we can say is Congrats, Billy . . . Herbie Ross that great big hunk of man had his picture in the papers here. Herb is connected with the Gloden Gloves Tournament in town—the proceeds go for charity . . . We hear that Lew Wolf is really putting in plenty of hours these days and looks to a really great year in '46 . . . With all the storms and snow we've had it's a wonder that some of the boys can maneuver around as fast as they do—even Ben Kulick who seems to be about the speediest of all the men in town these days . . . Wonder where Ernie Petering is these days—we haven't seen him in weeks and weeks?

# C. M. I. BLUE BOOK

The "Coin Machine Industry Blue Book" for new and used coin operated equipment is issued every week. It is a review and digest of all selling prices based upon the market quotations for the week. Copyrighted 1945 by The Cash Box, 381 Fourth Avenue, New York 16, N. Y.

## FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

## METHOD

The C.M.I. Blue Book is to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

## CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
  2. MEANS PRICE WENT DOWN.
  3. MEANS MACHINE JUST ADDED TO LIST.
  4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK
  5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
  6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS
  7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS
- XX** — MEANS NO PRICES QUOTED FOR MANY WEEKS — PRICE SHOWN IS LAST KNOWN QUOTATION.

---

## IMPORTANT

Machines underlined mean these were most active in trading the past week.
