Inside Progressive Radio  
(by George Meier, Editor of Walrus)

Established Progressive Airplay  
(In Order)

- Bonnie Raitt
- 
- Dave Mason
- Fleetwood Mac
- Little Feat
- Supertramp
- 
- Van Morrison
- Foreigner
- Dickey Betts
- Emerson, Lake & Palmer
- 10cc

Notes: The plateaus indicate degrees of airplay. Bonnie Raitt has solidified her position by improving dramatically in the South. Now the Midwest remains alone in denying her its first position. The Midwest is a point of interest also because, while denying Bonnie Raitt, it brings both Foreigner and Emerson, Lake and Palmer into the top 10. On the whole, a new wave of albums inherits the chart and pressure for the top position goes on and on.

New Progressive Airplay  
(In Order)

- Steve Miller Band
- Cat Stevens
- Heart

Notes: It's a short list because the artists who follow, like Outlaws and Beatles, Live, are too far below the top 3 to be grouped with them. This exemplifies a current trend in narrowing playlists. Those several new things get tested; only a few new albums each week get power play.

Miscellaneous Information

Imports: The single import of great importance is the Beatles album Live From Hamburg, Germany in 1962. It doubles the number two record.

Singles: Persistently the Graham Parker EP maintains its dominance as newer singles whirl around it. Ronnie Spector, Crosby, Stills & Nash, and Frampton are also very strong.

The following new tracks have taken a position in this order:

Program Notes

I've been impressed lately by the large and growing number of programmers who are doing call out research. Only a couple of years ago, hardly anyone had ever heard of it. Now it seems to be the accepted way of supplementing retail sales and phone request data. The system has grown so fast that there is still apparently no standard methodology. There are, however, a few practices that programmers in general do apply. Such as:

"We don't identify the call as coming from a radio station".

"We limit our calls to five minutes each. After that time the listener's attention span declines."

"We put about 20 seconds of each record on the cassette that we play for the people we call. We always try to select the part of the record with the strongest hook".

"Most people express negative reaction to unfamiliar material".

"It's much easier to get the co-operation of people under 35; in the older demographics there's much more resistance".

"We use many college students who volunteer to help us on the phones."

"We follow up our call outs by mailing out printed record lists, which are rated and returned to us. It gives a special phone number that they can call to hear the records if they don't recognize the titles."

"Music tastes shown by the passive audience we call are generally slower than those of the active listeners who phone us their requests."

"Call outs are indispensable in re-evaluating the old hits".

And so it goes. Looking at those quotes again, I realize that some of them probably don't reflect general practices but represent just one programmer. But no matter.

There's some criticism of the validity of call out research. It's pointed out that listening to music on the phone is not a normal listening environment. True enough. But the programmer is not trying to audition a record - he is playing a small part of it only as a reminder, so that the listener can recall how he reacted when he was in a normal environment.

Like all forms of research in which a selected sample is used to project the total picture, discrepancies are bound to occur. The important thing is that radio is taking the initiative in finding a replacement for the disappearing retail sales data as a music programming guide. By itself call out research may be inadequate in some markets, but as a supplement to other information sources it can prove extremely valuable. In the years to come some of today's research methods may seem primitive, but for radio today they provide the many experiments and tests that are necessary for future refinements.

Gavin's Gab

It seems that some station in San Diego planned to program a weekend of old hits. Not unusual, but they managed to get a local newspaper columnist to write it up. That isn't extraordinary, either, but by some strange mischance, the column, when it appeared in the paper, carried the wrong call letters: KFMB/FM, who had not been planning an oldies weekend. So, PD Bobby Rich said, "Well, if we're getting all that free publicity, let's have an oldies weekend". And they did.

This year's 9th Annual Raft Race, sponsored by WQXI-Atlanta was the biggest ever. Imagine 60,000 people on rafts in the river, with over 200,000 observers lined along the river banks. We're told that Newsweek mag covered the story and will carry it in their next issue.

WTSN-Dover presented its own version of a Memorial Day Weekend: They programmed the top 100 hits for each of the five years 1972-1976 (inclusive) and played those 500 records to an "incredible response".

Now that KOIN-Portland has changed call letters to KYTE, they have a new rock format and a new air staff: Don Wright, J.J. Jeffries, (WKY), Pat Clark (KOFM), Joe Michaels (KJR), Ron Leonard (KCBQ), Preston Thompson (KBCQ), and Karen Knight (KPAM). Weekends: Tom Brooks & operations manager Mike Davis.

New lineup for WFOX-Gainesville, Ga.: PD Sam Davis, Doug Williams, Steve McGarrett, Susan (?), Milestone (?). Weekends: Dave Welchel, John Kelly.

Music calls to Bob Sherman, KUGN-Eugene: Mon.-Fri., after 1PM.

KCOK-Tulare/Visalia (Calif.) programs comedy LP cuts during daytime hours - one cut per hour. They'd appreciate service on comedy albums.

WDXR-Paducah tells us that they recently ran a kissing contest. Don't know how they chose the winner, but it sounds like fun.

Album of the Week  
(reviewed by Ron Fell)

"American Stars and Bars"-Neil Young (Reprise) Four producers and 2 1/2 years later, Neil Young surfaces with some enchanting music. The front cover aptly describes some of the chaos to be heard inside but his writing is sharp and sensitive. His mixture of acoustic and electrified instrumentation will satisfy the Young loyalists. HOLD BACK THE TEARS (with Linda Ronstadt) is beautifully written and we're sure to hear a lot of it in the months to come. This will probably also be the case with STAR OF BETHLEHEM (with Emmylou Harris) SADDLE UP THE PALOMINO and a tumultuous LIKE A HURRICANE.

Also recommended from the following LP's:

Bill Gavin's Personal Picks

- - - I especially like:

WAY DOWN-Elvis Presley (RCA) Elvis recaptures much of the vitality and vocal charm that dominated the record scene two decades ago. Arrangement makes effective use of background voices, one of whom is a deep, rich bass who could sing in anybody's barber shop quartet any time.

IF YOU SEE ME GETTING SMALLER I'M LEAVING-Jimmy Webb (Atlantic) Intriguing, imaginative lyric in an appropriate setting. Jimmy Webb is still one of today's most creative musical talents. It's good to have him back. (P.S. The album is fine, too.)

EVERY MAN MUST HAVE A DREAM-Liverpool Express (Atco) A quality production that rates consideration by A-C programmers as well as top 40.

HIGHER & HIGHER-Jesse Colin Young (Warner Bros.) Arrangement is a musical hat trick - as in hockey - a score in every period. Singer contributes a rousing performance.

Gary Taylor's Personal Picks

DON'T WORRY BABY-B.J. Thomas (MCA) Usually when someone does a Beach Boys song it doesn't come off. Not true in this case as B.J. re-surfaces with one of the finest of summer songs. SWEET ALIBIS-Carole Bayer Sager (Elektra) A unique record. The masterful vocal presence, the sadness of the lyric - whoever she is she has a new fan sitting here.

Also Possible

IT TOOK A LONG TIME-Bob Crewe (Elektra) LITTLE DARLIN'-Dave Edmunds (Swan Song)  
MIND EXCURSION-Peter Andreoli (20th) THE FINAL THING-Steve Bender (London)  
OLD SCHOOLYARD-Cat Stevens (A&M) HERE COMES SUMMER-Wildfire (Casablanca)  
ONLY A DREAM AWAY-James Darren (Private St.) WOULDNT'T MATTER WHERE YOU ARE-Minnie Riperton (Epic)

Regional Meetings

We'll hold two meetings this month: June 11-12 in Milwaukee at the River Hilton Hotel, and June 25-26 in Denver at the Mariott Hotel. Same registration procedure: \$25 for radio people only - includes lunch and cocktails. Record folks invited for cocktails - \$10 each. Same type of unstructured programs - no speakers or panels, no formal agenda. Three sessions, three different moderators.

In Milwaukee, we'll be joined by my old friend, Gary Stevens, formerly an air personality and now general manager of KDWB-Mpls./St. Paul. Gary will moderate our Saturday afternoon session, and Jonathan Little will be our Sunday moderator. Jim Brown, PD of WOKY, will welcome visitors to Milwaukee, and Jack Lee, manager of WEMP, will be our first moderator. Also on hand will be Prof. Larry Lichty of the University of Wisconsin (in Madison) who will bring along six of his students in a class he is teaching on Radio Programming. Back in the 50's Larry was a disc jockey on KRIO-Indio and voiced our old "Lucky Lager Dance Time" show. Another welcome guest in Milwaukee will be Jim Loupas, formerly chief engineer at WCFL and now a top notch radio consultant.

I'm happy to announce that another old personal friend, Ken Palmer, will be on hand for our Denver meeting. He was formerly the owner-manager of KIMN in the days when that station truly dominated the Denver market. Our three Denver moderators will be Alan Haig, PD of KRSP-Salt Lake City, Hal Moore, PD of KHOW-Denver, and Hal Widsten, PD of KLZ-Denver.

We remind our readers - again - that managers, engineers, sales persons, newsmen - all are welcome to attend our regional meetings. Since most of our radio readers are in the program departments, we urge you to pass the word along to the others. Much of our discussions at past meetings have dealt with relationships between programming and the various other departments, while very little time has been devoted to the programming of music.

After Denver we'll skip July and August, convening again Sept. 10 & 11 in Portland, Oregon, at the Sheraton Hotel. That will be followed on Oct. 1-2 by our Louisville meeting, to be held at the Galt House. Mark your calendars!

Gavin's Gab

It is no longer news that Paul Drew is setting up an independent operation to be known as Paul Drew Enterprises. He is leaving his VP spot with RKO Radio, effective July 1, but will continue working with the chain in an advisory capacity. He will then be in a position to consult other radio clients.

I've known Paul for almost nineteen years. He was at WGST-Atlanta at the time he became one of our charter correspondents, having come South from Detroit. While there he got to know Phil Yarbrough,, later to gain fame as Bill Drake. Paul later moved to WQXI, where he worked for several years with Kent Burkhardt.

His career took him to CKLW-Detroit and then to WIBG-Philadelphia, where the unexpected sale of the station - to Buckley - gave him a chance to turn his attention to the West. He served as PD at KFRC and later at KHJ before taking over the programming VP chores for RKO Radio.

I know of no one more totally dedicated to radio than Paul Drew. He has "rolled with the punches" and has surmounted each adversity with a still greater accomplishment. Perhaps sometimes he has asked more from his people than they were able or willing to give, but only because his own standard has always been 100% of himself for his job. We wish him well in his new venture.

John Sebastian has a full time job available for somebody to be weekend air talent and do music research. No calls, please. Tape and resume to KDWB-St. Paul, Box 7630, Zip 55119.

The King Broadcasting Group has contracted with Avco Broadcasting to purchase KYA (AM & FM)-San Francisco and WRTH (FM)-Wood River, Ill. (St. Louis area). Pending FCC approval, of course.

At Bryan College Station, Texas, PD Don Davis will be taking over the music chores at ~~WVAB~~, placing Jon Kelly. Jon will remain on the air, but goes back to A&M University for classes.

Tom Bergeron will leave WHAV-Haverhill, Mass., early in July, so that he can apprentice to mimest Tony Montenaro in So. Paris, Maine.

WDAO-Dayton will present a June 15 concert in the city's Convention Center. It's all for the benefit of the Drew Health Center. Three local acts will appear, and the producers would welcome the appearance of outside recording artists. Contact Turk Logan, 513-224-1137.

Tom "Smokey" Rivers has been promoted to PD of KRKE-Albuquerque. He replaces Bill Burkett, who moves on to the PD spot at WKY-Oklahoma City.

Dave Conway has resigned his music director/air talent position at KCRS-Midland to go into business for himself. PD Dick Baze will look after the music for the time being.

Ed Shane sends us a quote from Kiplinger's "Changing Times" which notes that the four occupations showing the most frequent career changes are garage and gas station workers, bill collectors, computer operators and broadcast announcers. Ed queries: "Does this mean broadcasting is in bad shape because we cannot hold our performers? Or does it mean we're lucky that those who can't take the heat get out of the kitchen?"

Another Shane - Doug Shane, of WVOV-Huntsville - was one of five radio types who set out last week to break the Guinness World Record for Roller Coaster riding - 72 hours. So they went to the Petticoat Junction in Panama City, famous for the world's fastest roller coaster. They claimed an average speed of 70 mph - said something went wrong with the control equipment - but set a new record of 74 hours.

Steve Davis, PD of WBTR-Carrollton, now doing the music. Steve Johnson now becomes production director.

KLWN-Lawrence, Kansas, is currently running a contest whose prize is a vacation trip to anywhere in the world.

WBOW-Terre Haute, Ind., celebrating 50 years on the air. They'd like to record phone greetings from former employees. Ask for Barry Kent, 812-232-5034.

Tim Brando reports that the outdoor concert on Memorial Day in Shreveport, put on by KROK, drew 5,500 people. They're planning another for July 4.

Revised lineup at KHJ-Los Angeles: Charlie Tuna, John Leader, Bobby Ocean, M.G. Kelly, Mason Dixon, Shana and Sally Adams. Weekends Big Bob Anthony.

John Sebastian announces a revised air staff at KDWB-St.Paul/Mpls.: Dave Thompson, Bob Lange, Chuck Britton, True Don Blue, Smokin' Joe, Tim Kelly and Dave Cooper.

Lineup at KIRL-St. Louis is now PD Bill Gamble (14ZYQ), John Charleson (WJAR) and Bobby Knight (WCVS). Weekends Chris O'Brien and Larry Desmane.

to Nick Bazoo, WKKY-Pascagoula, Mon.,Tues., Wed. 10AM to 2PM. Phone: 601-762-1821.

Albums of the Week  
(reviewed by Ron Fell)

"I'm In You"-Peter Frampton (A&M) When your fifth album becomes the biggest selling and one of the most played "live" albums in record history and you still have the prime of your life ahead of you, the anticipation and creative pressure surrounding your sixth album could scramble your brain. Frampton seems to overcome these obstacles with very sophisticated and self assured performances. A "Motown" set of I'M A ROADRUNNER and SIGNED SEALED AND DELIVERED along with the hit single I'M IN YOU and ST. THOMAS make for a very good "studio" effort by Peter Frampton.

"David Dundas"-David Dundas (Chrysalis) Dundas started as a jingle singer for an advertising agency in England, his most famous being a little ditty for Brutus Jeans called JEANS ON. Using the studio to produce a "commercial" album, he's pitching a set of pleasant and programmable cuts. NEW YORK DOLL, ANOTHER FUNNY HONEYMOON, HOLD ON and DAISY STAR are a little less "novelty" in nature than JEANS ON and wear well through repeated listenings.

"Clover"-Clover (Mercury) These guys have been plugging along in various dives and other small clubs around here for a number of years now, but it wasn't until they went to Monmouth, Wales, that they found the pot at the end of the rainbow. Their strength is in their vocals, as is apparent on cuts like: LOVE LOVE, STREETS OF LONDON, I LIE AWAKE and THE STORM. Well done.

"Blowin' Away"-Joan Baez (Portrait) If Laugh-In were still awarding its Fickle Fingers Of Fate, the picture of Joan on the cover would be a prime candidate. She's much too attractive these days to be costumed so nonsensically. But since we shouldn't judge a book or singer by the cover, lets move on to the music. The inclusion of SAILING, the Rod Stewart classic written by Gavin Sutherland and MANY A MILE TO FREEDOM, from the Traffic catalogue are two of the strongest cuts. Joan's own A HEART FELT LINE OR TWO and the resurrection of CRY ME A RIVER add to the album's goodness.

Also recommended from the following LP's:

- "Life Line"-Roy Ayers Ubiquity (Polydor) CINCINNATI GROWL/RUNNING AWAY
- "Sing Me A Rainbow"-Stewart Harris (Mercury) SING ME A RAINBOW/ANOTHER CUP OF WINE/A MELODY LIKE U

Bill Gavin's Personal Picks

- - - I especially like:

SWEET SUMMER MUSIC-Attitudes (Dark Horse) First released last July, I picked it then and I still like the sound of the crisp vocal harmonies and the sparkling instrumental backing.  
I GO CRAZY-Paul Davis (Bang) Quality side features an imaginative arrangement backing a convincing performance by the singer.

Gary Taylor's Personal Picks

TAKE YOU BACK-Valentine (United Artists) The a cappella side from the "Rocky" soundtrack is pulling requests at WDBQ-Dubuque, and KJOY-Stockton. The other side is a full-blown exciting arrangement. If music sounds this good on the street corners of Philadelphia, I'm moving east.

Also Possible

I'M DREAMING-Jennifer Warnes (Arista)	I BELIEVE IN LOVE-Kenny Loggins (Columbia)
IT'S A CRAZY WORLD-Mac McAnally (Ariola)	SOMETHING ABOUT YOU-LeBlanc & Carr (Big Tree)
FEELS SO MUCH BETTER-Patti Leatherwood (Epic)	THE SONGS SOUND DIFFERENT TO ME NOW-Lightheart(Janus)
WE'RE HERE FOR A GOOD TIME-Trooper (MCA)	EVERY MOMENT-Highway 101 (MCA)
RUNNING BACK TO ME-Rubv (PBR)	SWEET SUMMERTIME-Q (Epic)
LOVE IS ON THE AIR-Larry Henley (Epic)	MY SENSITIVE, PASSIONATE MAN-Melba Moore (Buddah)

Inside Progressive Radio

(by George Meier, Editor of Walrus)

The Musical Horizon

One hundred plus new albums, all relating in some way to progressive music, clutter the scene. Of course, in that number you would expect to find a share of really significant LP's. Some are especially noticeable because of who's involved. Both Heart and Steve Miller come off of potent albums. Heart has released a more finished recording, but one which may not have the magical tunes found on their first effort. Steve Miller, on the other hand, generates an organically whole statement. It's musical and moves so easily.

The contrast between the feel of the Alice Cooper and the Bob Marley & The Wailers albums could not be more opposite. Where Alice seems encased in a musical context, Marley seems liberated. Cooper has started a new life in his last few albums, trying to make it more on music than pizzazz. On this LP a new pizzazz starts to clutter the music and push it out. Whereas the Wailers seem to have settled down, forgetting the politics and the run for the roses, to make music.

And then there were the assorted live albums. If you'll remember last year, you'll note that live albums now count. Both Bette Midler and Barry Manilow document their rising demographics. For Bette, success is vexing; for Barry, it is seventh heaven, cloud nine, the real McCoy and all the rest.

Yet another contrast exists between a casual, even wasted, Bee Gees live set and a Moody Blues album of some importance. First, The Moodies are still a very powerful group among the progressive legends while others fade; and second, there are five new tunes on the album. Look for big things.

Finally, the just plain basic rock and roll purity of the Rubinoos' album is enough to make you smile. If it feels good, it is good.

Inside Progressive Radio  
(By George Meier, Editor of Walrus)

Established Progressive Airplay

(In Order)

- Steve Miller
- Little Feat
- Cat Stevens-----
- Fleetwood Mac
- Bonnie Raitt
- Dave Mason
- Supertramp
- 10cc
- Heart
- Van Morrison

Notes: The top 3 LP's are well seated in positions of airplay dominance. Regional variations are what keep the list dynamic. For example, Supertramp is very strong in the N.E. and Midwest while they do only okay elsewhere. Van Morrison is top 5 in the N.E. and much less utilized in other regions. Also, hanging on to a tenth position we find Poco in N.E., Dickey Betts in the South and Emerson, Lake & Palmer in the Midwest.

New Progressive Airplay

(In Order)

- Dan Fogelberg
- Gregg Allman-----
- Bob Marley & The Wailers
- Moody Blues

Notes: There are four plateaus among the new LP's; broad acceptance, good acceptance, fair acceptance, and no acceptance--the last two aren't listed. The fifth position, though substantially back, in the N.E., South and Midwest was Roy Buchanan. The Midwest replaces the Wailers with the Outlaws in its top 4. Oddly, the Outlaws didn't do well in the South, their home base. That will most likely correct itself next time around. Other regionals have Mink DeVille doing well in the N.E. and UFO strong in the West.....where else?

Miscellaneous Information

Imports: The Beatles, Live in Hamburg, has taken a position of dominance in the import world. All others don't even half it in interest.

Singles: Singles interest is likewise intense on only two artists. Crosby/Stills/Nash and Peter Frampton are getting response the likes of which we have never seen.

The following tracks will attract much airplay for their albums:

- |                                                                    |                                                                                        |

Gavin's Gab

New angle on planned parenthood (sort of) - "Shotgun" Ken Shepherd, PD of KROK-Shreveport, rushed his wife, Pam, to the hospital Saturday (12th) and waited there for the new arrival. Becoming restless - and lonesome - in the father's waiting room, he got on the phone around midnight and called in all his jocks for a staff meeting at 1AM - right there in the hospital. They showed up promptly and kept Ken company until 4AM. It helped Ken through the 18 hours of labor, at the end of which he greeted his new son, 6lbs. 4 oz.

Maybe the above is why KROK will observe Father's Day by having all the wives take their husbands' places on the air Sunday. Bachelors on the staff are taking applications from ladies who'd like to be wives for a day. Sacks of mail coming in, bringing a wide variety of interesting qualifications.

Merv Pilgrim, PD of WFLI-Chattanooga, announces that his new FM affiliate will take to the air the latter part of July, with an album rock/top 40 format. Need record service. Mail records to WZBQ, 4207 Highwood Drive, Chattanooga, Tenn. 37415. Merv will act as a consultant for the FM operation - can be reached at 615-821-3555.

KWK-St. Louis, which has been off the air for several years, is now cleared for renewed broadcasting under the ownership of Doubleday Broadcasting. No target date has yet been announced for the re-launching, but entirely new facilities will have to be constructed.

Gary Stevens, senior vice president and general mgr. of KDWB (AM/FM), Mpls.-St. Paul, has been named to the 22 member Minnesota Press Council. The body acts as an official board of review for citizen complaints against news coverage by the print or electronic media.

KELP-El Paso, a Walton station, is being sold to Clear Channel Communications, pending FCC approval.

Ed Alexander reports from KTKT-Tucson that because of high summer temperatures in the Southwest, loosely packed singles and albums sent through the mail often arrive badly warped. "Please pack tightly", pleads Ed.

At KJRB-Spokane, Tommy Hutyler will be promoted to music director, effective June 27. He replaces Michael Christian, who is leaving to pursue other interests. Tommy can accept music calls on Mondays only, between 3 & 5PM..

New air lineup at WEAQ-Eau Claire: Dave Winston (formerly "Steve Point" at WSPT-Stevens Point), Peter Murphy, Jim Crisp, Scott Victor Christenson (PD & mus.dir.), Sean McCartney (formerly Bill Williams at KWEB-Rochester), J.J. Austin. Weekends: Chris Wayne.

Q107-Muscle Shoals is revving up power from 25kw to 100kw.

Music calls: to Bill Cox, WZOO-Asheboro, 10AM to 2PM, M., W., Th., F.

: to John Williams, KREM-Spokane, Mon. & Tues., 1 to 3PM.

New FM'er will soon hit the air in Tucson. They'll need record service - contemporary LP's and singles, plus all the old hits from all sources. Address record mailings to Gary Hamilton, PD, KRQQ Radio, P.O. Box 50367, Tucson, Ariz. 85703.

Country Club

Jobs: KNKS-Hanford, Calif., looking for PD who can handle air shift and program both KNKS (country) and FM affiliate, KKYS (Album rock). Contact Gary Brown, Mgr. 209-582-0361

KBMY-Billings needs a morning drive DJ. Contact Operations Director, Dean Braughton, 406-259-4586. Tapes & resumes to P.O. Box 20316, Billings, Mont. 59104.

KMTY-Clovis, New Mexico, wants a staff announcer - male or female - first phone preferred, but not essential. Contact Charlie Russell, 505-762-3707. Tapes & resumes to P.O. Box 1890, Zip 88101.

WJTO-Bath, Maine, has opening for air talent. Tape and resume to Steve Morgan, Box 329, Zip 04530. Or phone: 207-443-5542.

KATR-Eugene needs a good salesperson.

Available: Jim Maloy, formerly PD of K-99 - Tampa can be reached at 601-363-2667. He's highly recommended as air talent - also can handle music, production and/or promotion.

Service: WOHS/FM-Shelby needs a copy of the Lynn Anderson single, also the Freddy Weller.

KGAY-Salem wants the Jimmy Buffett LP, "Changes In Attitudes".

WNAX-Yankton requests reservice on current singles from MCA, GRT, Capitol, Polydor, and Mercury.

Albums of the Week  
(reviewed by Ron Fell)

"Superman"-Barbra Streisand (Columbia) An album of more musical highpoints than the triple platinum "Star Is Born" Soundtrack, but unfortunately for Lady Barbra and her record company there's no movie. There is a connection, however, with two songs written for, but not included in, the movie. SUPERMAN, CABIN FEVER, and MY HEART BELONGS TO ME should be big phone items with radio stations as should Kim Carnes' LOVE COMES FROM UNEXPECTED PLACES and DON'T BELIEVE WHAT YOU READ.

"My Own Way To Rock"-Burton Cummings (Portrait) This proves his first solo album wasn't a fluke. A solid set of direct, olympic vocals delivered with confidence. His current single, TIMELESS LOVE, the title track MY OWN WAY TO ROCK, CHARLEMAGNE, and A SONG FOR HIM are "gold medal" performances and NEVER HAD A LADY BEFORE and GOTTA FIND ANOTHER WAY get the "silver".

"Monkey Island"-Geils (Atlantic) Finally they get to produce themselves after nine albums. First thing they did was change the name from J.Geils Band to just plain Geils. They saved much of their villanous streetrock sound for cuts like SOMEBODY and they hang tough for MONKEY ISLAND. Then they throw in some motor city juke joint jive on SO GOOD, YOU'RE THE ONLY ONE, and I DO, setting a world record for chanting DO DO over and over hundreds of times in 3 minutes.

Also recommended from the following LP's:

- "My Lucky"-Fool's Gold (Columbia) SWEET COUNTRY AIR/FLY AWAY/GYPSY BREW
- "Addrisi Bros."-Addrisi Bros. (Buddah) NEVER MY LOVE/MONKEY SEE, MONKEY DO/EMERGENCY
- "A+"-Stephen Sinclair (U.A.) BACK DOWN/FINGERTIP AWAY/MEANT TO BE
- "Step On It"-The New Marketts (Calliope) SOUL COAXING/OUT OF LIMITS/PINADA
- "To Lefty From Willie"-Willie Nelson (Columbia) MOM & DAD'S WALTZ/ALWAYS LATE/SHE'S GONE GONE/RAILROAD LADY
- "The Deep"-Soundtrack-John Barry/Donna Summer (Casablanca) THEME (by John Barry) DOWN DEEP INSIDE (by Donna Summer)
- "Star Wars"-Soundtrack (20th) MAIN THEME/CANTINA BAND
- "Finger Paintings"-Earl Klugh (Blue Note) CABO FRIO/DANCE WITH ME
- "Johnny's Dance Band"-Johnny's Dance Band (Windsong) GUILTY/THE BEST DAYS ARE HERE
- "Lovin' In The Valley Of The Moon"-Norton Buffalo (Capitol) LOVIN'.../NOBODY WANTS ME/HANGIN' TREE
- "New York New York"-Soundtrack (U.A.) ONCE IN A WHILE (L.Minnelli)/NEW YORK NEW YORK (L.Minnelli)/BLUE MOON (DeNiro & M.K.Place)

Bill Gavin's Personal Picks

- - - I especially like:

- SUNFLOWER-Glen Campbell (Capitol) Plays from the LP have produced localized storms of phone response. Composer made it very easy on the guitar player, with only three chord changes in the entire piece.
- DOWN THE HALL-Four Seasons (W.B.) Offers an imaginative variety of harmonic colors as a background for Mr. Gaudio's solos. Group's high pitched harmonizing is, as always, a delight.
- WE JUST DISAGREE-Dave Mason (Columbia) Second single release from the fine album, "Let It Flow". The vocal trio performs with precision and style. Deserves consideration at the top 40 and A-C levels.

Gary Taylor's Personal Pick

NEVER BEEN TO THE ISLANDS-Amazing Rhythm Aces (ABC) The lead vocal presents his stylized technique with finesse and feeling. A hit - perhaps, certainly it is enjoyable listening.

Regional Radio Meetings

Those who have not pre-registered for our Denver meeting next weekend - 6/25-26, may do so at the door. Same registration fee - \$25, which includes Saturday lunch and Saturday evening cocktails and hors d'oeuvres. Three or more from the same radio station may register for \$20 each. Record friends may register for cocktails for a \$10 fee.

Our registration table at the Marriott Hotel will open Saturday morning at 8:30. Complimentary coffee available. First session starts at 9 o'clock, kicked off by greetings from one of Denver's radio pioneers, Ken Palmer. Moderator will be Alan Hague, PD of KRSP-Salt Lake City. Our afternoon session moderator will be Hal Moore, popular Denver radio personality and PD of KHOW.

Sunday session starts at 10AM, with Hal Widsten, PD of KLZ, as moderator. We'll wind up and head for home at 1PM.

We urge the attendance of managers, sales persons and chief engineers. There's a lot of inter-departmental things to talk about.

Our Milwaukee regional meeting was excellent. I can't recall a previous meeting where all three moderators were roundly applauded as they concluded their sessions. Take your bows, Jack Lee (WEMP-Mgr.), Gary Stevens (KDWB-V.P. & Mgr.), Jonathan Little (WISM-Asst. PD and M.D.). Probably the highlight discussion centered around radio's problem of increasing audience fragmentation in the face of constantly increasing costs. As Gary Stevens said, "We're having to charge more and more for less and less." We also took a look at public broadcasting and the dangers of public radio's encroachment on the advertising dollar.

Gourmet note: Next time you're in Milwaukee, be sure to eat dinner - or lunch - at the Karl Ratsch Restaurant, and make your dinner reservations a couple of days in advance. And you'd hardly expect to find great sea food in a spot so far from the sea, but the Anchorage at the Hilton can hold its own with any restaurant on the coast. (I must have put on four or five pounds!)

Inside Progressive Radio  
(by George Meier, Editor of Walrus)

Musical Overview

Progressive radio isn't always very progressive. It never really was, although for some years it created that illusion. The unfortunate aspect of that reality is that the two LP's which stood out above the 68 odd LP's we auditioned will get relatively little airtime. One album is by a rejuvenated, old, creative wellspring, Ornette Coleman and the other is by a rejuvenating, new creative wellspring Osamu Kitajima.

Coleman hasn't been heard from in some time. He returns blowing his caustic horn, having absorbed the sounds and intensities of contemporary music. It's a striking blend.

Osamu returns with the East-West fusion which highlighted last year's music adventure. It promises to do the same this year. His ability to make Japanese instruments palatable to a Western ear, albeit a progressive ear, is extra-ordinary. Complex and innovative rhythm arrangements consume listener interest.

On the more mainstream side, we heard the creditable Dan Fogelberg LP. Though we have a particular - some feel it to be a peculiar - aversion to the sweetening, the album is one of substance. Some fine songwriting comes through the overproduction.

Finally, the rock and roll album which seemed to jump out of the grooves was issued by Mother's Finest. Blasting like a funky Led Zeppelin, this band has had an identity problem on a radio level. Apparently black people aren't supposed to be able to play this style of rock music. They eloquently snuffed that notion on their first LP; here they did it musically.

A devastating fire struck the studios of WMC (AM/FM/TV) Wednesday at 1:40 AM. It apparently started in the TV news room on the first floor. They had tapes going at the transmitter within ten minutes and were back on the air live about 7 AM. Fire spread so fast that the all night man on AM radio, in the second floor studio, had to make his escape via a fireman's ladder. Major damage was to the TV newsroom and studios. Radio control room and record library were badly smoke stained but otherwise intact as far as is known for the radio stations but damage to the TV operation is extensive.

As promised, Bob Mitchell took listener votes on the new Willie Nelson LP, "Tribute To Lefty". Winning LP cut was MOM AND DAD WALTZ.

Albums of the Week  
(reviewed by Ron Fell)

"CSN"-Crosby, Stills & Nash (Atlantic) It really is good to have these guys back in the configuration that brought them their early commercial success. The 12 cuts with nearly 44 minutes of music capture the essence of what was, and is now again, a supergroup. SHADOW CAPTAIN, SEE THE CHANGES, FAIR GAME, JUST A SONG BEFORE I GO, CATHEDRAL and the brilliant DARK STAR give a full sail/three sheets to the wind performance.

"JT"-James Taylor (Columbia) Good to have "Sweet Baby James" back. HANDY MAN was just a teaser but its big jumps in airplay the past couple of weeks foretell the sure success of the whole album. Side two might well be his best single side of vinyl yet. Taylor is one of the few acoustic balladeers who can captivate even progressive radio programmers without overwhelming productions or provocative lyrics.

"One Of The Boys"-Roger Daltrey (MCA) In the rock opera "Tommy", Roger usually played the title role. At one point, Tommy, a schizophrenic teenager, looks in the mirror, smashes it and immediately becomes a "sensation". In real life Daltrey has gone to the mirror on this, his 3rd solo album, and goes thru the same shattering exercise. Andy Pratt's AVENGING ANNIE and Steve Gibbons' ONE OF THE BOYS are gritty, while LEON, THE PRISONER, and PARADE soften the overall album just enough.

"Making A Good Thing Better"-Olivia Newton-John (MCA) A nicely balanced album with its share of romance and rejection, sung in her exquisite vocal style. Her current single, MAKING A GOOD THING BETTER and another cut, SAD SONGS, contain just enough thrust to meet the demands of pop programmers. The countrified I THINK I'LL SAY GOODBYE and whisperous SLOW DANCING and SO EASY TO BEGIN make this good thing better.

Bill Gavin's Personal Picks

- - - I especially like:

TURNING TO YOU-Charlie (Janus) Makes skillful use of overdubbed vocal harmonies. Repetitive lyric falls far short of the quality of the singing, which will have to carry this entry as far as it is going to get.

Gary Taylor is not making any picks this week.

MAGIC LADY-Lavender Hill Mob (U.A.)	DON'T BET YOUR LOVE-Masterplan (A&M)

SECOND THOUGHTS-Frankie Valli (Private Stock)	PLEASE TELL HIM THAT I SAID HELLO-Marie Osmond (Polydor)

Gavin's Gab

Recent staff changes at WCOL-Columbus point up a powerful new trend in radio programming. Bryan McIntyre, formerly operations director of both the AM & FM stations, has been named vice president in charge of music research. He has three full time assistants and a budget. His new department will explore the various research techniques being employed in other cities and will develop its own methodology to fit the needs of the community.

When the top 40 format smashed into the broadcast spectrum twenty-five years ago, radio embraced its first form of "research". Call the stores - find out what's selling - list the forty best sellers - ear-pick a bunch of new releases - build super audience shares - raise the rate card - make lots of profits. Today, dwindling singles sales compound programmers' difficulties in sampling public tastes. More and more broadcasters are seeking solutions in a variety of new, and more sophisticated, forms of audience research. WCOL's assignment of a four person department to work exclusively in the area of finding out what music the people like - and don't like - indicates the seriousness with which management regards the need.

Even though the ugly practice of payola has practically disappeared from top 40 radio, apparently it is not quite dead. I had a report recently of money that was offered - and refused - to play a certain record. Another report discloses a new kind of graft. The promoter tells the music director to hold out some album from the next few contests offering LP's as prizes, then turn 'em over to him (promoter) to sell, with cash proceeds coming back to the music director. Are there other similar situations? I'd like to find out. Correspondents are invited to let me know of other instances of unethical promotional conduct that have come to their attention. These are pimples on the face of our business that should be - and can be - eradicated. Working together, perhaps we can shine the light into some dark corners and frighten away the rats. It has been my observation that the record business generally is conducted by people who are honest and straightforward. The few sordid exceptions tend to discredit all. You might have the nicest suit in town, but a small gravy stain on the lapel makes the whole suit seem unwearable.

Warner Brothers Records wants everyone to know that the title of the Jesse Colin Young single is being changed from "Higher & Higher" to "Here We Go Again". Former title is the same as the current hit by Rita Coolidge, although they're different songs. Nick Bazoo tells us that WKKY-Pascagoula has remodeled a Trailways Continental bus into a complete motor home. It's now the "\$30,000 Magic Bus". Inside it now are 9 merchandise prizes plus cash, that brings total value to \$1,000. First listener to correctly identify the prizes wins prizes - but not the bus. Clues are given on the radio and are also at sponsors' stores. Bill Early has resigned from WMYR-Ft. Myers and is entering the textile business. New ownership of KSAQ-San Antonio has changed the call letters to KZZY, to be known as KZ-100. Format is top 40; new PD is Ron Dennington. Jock lineup: Pat Riley (CHUM), Ron Knight, "Keev" Christy, Dave Bradley, Mike "Motherbear" Kelly, Capt. Diablo. Ann Lindsey is news director. Bill Ford and Lester B. Hanson at KUGN would like to get in touch with jocks who have been on-air for 20 years or more. Please drop a note to KUGN, Box 590, Eugene, Oregon 97401. They'll contact you later by phone. Lotsa changes. Charles Warner replaces Perry Bascom as G.M. at WNBC. Bob Pittman replaces Mel Phillips at WNBC. Burton Sherwood and Bill Hennes, G.M. & P.D. respectively at WIBG-Philadelphia, departed those posts and stepped into the two vacancies at WMAQ left by Warner and Pittman. Music calls: to A.J. Roberts, KDON-Salinas, Mon.-Fri., noon to 2PM. : to Rick St. Clair, KYJC-Medford, Mon.-Thurs., 10:30AM to 2PM.
