Adult Contemporary Programming
(Associate Editor, Ron Fell)

Most Active: YOUR SMILING FACE-James Taylor (Columbia) Despite a real log-jam of good music in the Top Ten, James has taken three big steps toward the top moving 11 to 8.

Record to Watch: GETTING READY FOR LOVE-Diana Ross (Motown) Her early strength is coming more from A/C play than from Rock or Black music formats. Adds @ WFTL, KIOI, KMBZ, KSFO, KNBR this week.

Top Thirty

Note: The lines in the top thirty below indicate sharp separations in our research totals. Entries below the lines show considerably less strength than those above - much more of a division than can be represented by two consecutive numbers.

Inside Progressive Radio
(by George Meier, Editor of Walrus)

Established Progressive Airplay:

(In Order)

- Steely Dan-----
- Linda Ronstadt
- Bob Welch-----
- Kansas
- Doobie Brothers
- Billy Joel
- Rolling Stones
- Randy Newman
- Chicago
- Hall & Oates-----
- Townshend/Lane
- Karla Bonoff

Notes: Many of the artists listed in New Progressive Airplay last time have popped into this Established list. Steely Dan soars while Billy Joel and the Stones jump. Randy Newman also moves up and Kansas comes into this list very strongly. Meanwhile, both the C.S. & N. and the Grateful Dead LP's have peaked in airplay and have faded below the cut off point for this list. Regionally, artists rooted in an area show traditional strength; Billy Joel in the Northeast and Kansas in the Midwest. Further, the penchant for the Midwest to hold on to albums longer than other regions shows in a strong Alan Parsons Project. Elsewhere, the album is declining in radio interest.

New Progressive Airplay:

(In Order)

- Joan Armatrading
- Nils Lofgren
- Santana-----
- Charlie Daniels
- Camel
- Eddie Money

Notes: The top three LP's show inordinant power in relation to the others. Regional twists follow standard patterns. Charlie Daniels is strongest in the South while low-keyed Camel does well in the more low-key areas of the West and the South. Eddie Money shows nicely for a new name gaining support mainly in the West where he has built a base.

Singles & Imports:

Singles: Top singles include Paul Simon, Boz Scaggs, Aerosmith, Rod Stewart, Queen and Art Garfunkel.

Imports: The runaway leader is Elvis Costello. By the time the album is released here it will be an oldie. Costello is followed by the live Gong LP and the Sex Pistols' new single.

The following new tracks are filtering in the air with some emphasis:

- | | |
|--|--|
| Randy Newman-SHORT PEOPLE/BALTIMORE/LITTLE CRIMINALS/RIDERS IN THE RAIN | Joan Armatrading-SHOW SOME EMOTION/NEVER IS TOO LATE |
| Kansas-POINT OF KNOW RETURN/DUST IN THE WIND/LIGHTNING'S HAND/PORTRAIT (HE KNEW) | Chuck Mangione-FEELS SO GOOD |
| Phoebe Snow-LOVE MAKES A WOMAN/NEVER LETTING GO/SOMETHING SO RIGHT | Eddie Money-TWO TICKETS TO PARADISE |
| Bill Quateman-SHOW IN THE DARK | Tom Waits-I NEVER TALK TO STRANGERS |

Gavin's Gab

Mike Lucas, P.D. at KRZI-Waco, Texas, reports a catastrophe! On Friday, October 21, their transmitter burned down. They were off the air through Monday, October 24. If not for the prompt delivery of another transmitter by the Collins Company, they would have been off longer than that, Mike says. And what greater indication of KRZI's "chutzpah" than the jingle they returned to the air with: "We're back and hotter than ever." (Thanks to Jam Productions.)

We've heard about some noteworthy promotions this week...

WZOO-Asheboro's "Halloween Fright Machine" made more people smile than run. WZOO jocks rode around town with the local rescue squad giving away candy and albums. They also ran a "Great Steak Giveaway" for four weeks, bestowing steak dinners on four families each week. Speaking of WZOO, they received the State Media Award from the North Carolina Mental Health Association for local service.

Albums of the Week
(reviewed by Ron Fell)

It's not surprising that Rod Stewart's latest "Foot Loose & Fancy Free" (Warner Bros.) and Eric Clapton's "Slowhand" (RSO) will reap bales of airplay in the months to come. Rod's album is more moody, delicate and deliberate, while Clapton stays right in his intoxicating groove. Clapton's LAY DOWN SALLY is pure unadulterated joy.

Once a good "cracker band" Wet Willie has gone through a complete metamorphosis. Their new album, "Manorisms" (Epic) finds a new producer (Gary Lyons), new studio (The Manor in rural England), and new personnel which have altered their sound considerably. Throw out all you've come to expect from Wet Willie and retool for a refreshing change in direction.

In the "Let's Get This In The Stores In Time For Christmas Giving" category, Neil Young's "Decade" and Kiss "Alive II" are most rewarding. Young's tri-vinyl anthology of his somewhat pandemonious and never boring career is important musical history. Kiss "Alive II" is a well recorded live album. It's a safe bet the quality is of a kind live audiences really can't hear, what with the group's penchant for earsplitting amplification. With volume control in one hand and the accompanying pamphlet on Kiss history in the other, the listener "rules".

In one week we've received two of the most important New Wave albums ever released. The Sex Pistol's "Never Mind The Bollocks" (Virgin Records-England) and Elvis Costello's "My Aim Is True" (Columbia). Johnny Rotten's Sex Pistols (only available as an import at this time) contains the four singles which have set England on its musical ear. The Pistols take a Kamakazi approach with their tempestuous and discordant lyric at times barely audible above their brick-solid instrumentation. Costello, an early Springsteen voice trapped in a Buddy Holly body, is more versatile (his first American single "Alison" should even get A-C play). His range from ballad to rock & roll makes for a more complete presentation of what New Wave a.k.a. Old Wave is all about.

Comment

The recent music sweep concept initiated by WABC-New York has motivated several programmers to re-evaluate their thinking in terms of stop sets and music flow. Three weeks ago, Ric Carroll at KEZY-Anaheim, joined WABC and a few other stations in implementing the concept.

Although the practice itself raises some hefty questions at this stage, the steps taken by WABC and the others are innovative and exciting.

To begin with, the music sweep concept belongs to music-oriented FM radio, if we can say it "belongs" to any one thing. Initially, FM stations were able to offer the lengthy sweeps because of minimum spot loads, and music sweeps remain a generally accepted practice among FM's, today.

This Fall, WABC started running 20-minute sets with 3-minute spot clusters; KEZY has expanded the idea. Perhaps only the Fall book can tell us whether a "forced tuneout" exists. If the listener will sit through the commercials knowing another elongated music sweep follows, then there's the success.

The feasibility also depends a great deal on a station's commercial commitment. "Commercial loads have to be kept at nine to ten minutes per hour," asserts Ric Carroll. With any more, "...the law of diminishing returns applies."

That raises questions for the sales department. As far as advertisers and media buyers are concerned, they may balk if their spots are placed fourth or fifth in a set.

But it is premature to make judgements about the ramifications of music sweeps on AM Radio. We can only guess at this stage. It is evident that through all the research-oriented music selection, computerized programming concepts and continued fractionalization, programmers are willing to step out and make changes.

Inside Progressive Radio
(By George Meier, Editor of Walrus)

Album Views

Packaging artists is an old story.

Working convincingly is the shift in Dolly Parton's approach. She moves from the country to the mainstream easily. Though the move is a little toward the pop side, she still makes it. Of course, she's an accomplished writer and she seems to be making the move as an extension of her own direction. She is not being manipulated.

That feeling of manipulation is precisely the feeling gotten from an unsuccessful attempt, in our opinion, to package Joe Farrell. Here is an exceptional jazz player who gets lost in the formula; so lost that without the liner notes you will not be able to tell which instrument is his.

There is also the well-constructed album by Gino Vannelli. Gino is a pop rocker who is very strong in the South. He is a young Tom Jones whose music is deliberately powerful and whose presentation is meticulously choreographed. He is good in spite of the contrivance.

Two delightful albums also showed up. David Bowie is a very rare progressive artist. Most others, even favorites like Tom Waits, Gil Scott-Heron and Santana, repeat their own pattern album after album with only minor changes. For Bowie, change is part of his pattern. Whether he leaves his audience behind or not, he is a giant in the field of pop music.

Carlos Santana is simply the most melodic soul playing a guitar. He is connected to the cosmos.

Finally, the flow of live albums keeps coming. Loggins & Messina, now defunct, emerge with one more Finale and Nils Lofren, whose career builds with each release, gives us a double record from the boards too. Live albums, with Frampton the notable exception, tend to have relatively short lives.

On The Record

Over the years it has been my pleasure - and my continuing education in broadcasting - to talk with PD's and managers about their problems and concerns in programming. Over that time I've developed a high respect for the conscientious program director, along with a sympathetic insight into the complexities of his job.

New break throughs in computerized audience research have added to the requirements of today's program director. However, the basic structure of his job is still the same as ever. Out of the many conversations I've had on this subject, I've distilled a consensus statement of PD guidelines.

1. Before you take the job, have a clear understanding with the boss that, since you have the responsibility, you also must have the full programming authority. Avoid kibitzing managers.
2. Make friends with your chief engineer. Whether it's AM or FM, your station's sound quality is a critical ingredient in holding optimum audience.
3. Get the best production person you can find. If he or she costs a little more, they're worth it.
4. Write up your market analysis of each Arbitron or Pulse, and make copies available to your sales staff. You may be able to point out competitive advantages that they had overlooked.
5. The continuity and high morale of the air staff adds greatly to the station's public image in the community. Stations with a reputation as "swinging doors" find it difficult to attract top level talent. Scrupulous care and discretion in hiring policies can eliminate "drifters" and assure a qualified and compatible staff.
6. Help your jocks devise ways to localize their material. A top rated station's program content should be so full of local names, places and events that it wouldn't work in any other city.
7. Keep an open mind for new ideas. Never assume that something you're doing well couldn't be done better.
8. Be a friend to your air staff. Your appreciation of their good work is just as important as your criticism when they goof. Maybe more so.
9. Even though you're under no obligation to the record companies just because they furnish the records you program, you do have an obligation to treat their promotion people with respect. They are professionals, and they have their jobs to do.
10. Save time for your wife and family. The PD who is married to his job often has an empty bed at home.

Our readers can surely add more guidelines from their own experience. Please do, and we'll continue the subject.

Gavin's Gab

Note: We have made a small adjustment on the front page. Those records that are showing favorable indications in some areas yet do not qualify for "Gaining In Several Markets" will now be shown simply as "Gaining." This indicates they have progressed beyond the Regional category, but are not yet well enough established for "Gaining In Several Markets."

Dan Spears, Operations Manager at KFYE-Fresno, Calif. (Y-94), ran non-stop music for 94 hours, starting at noon last Sunday and ending Thursday morning at 10 AM. According to Dan, the response was amazing. The phones wouldn't stop ringing.

It was "Steve Miller Day" in Madison, Wis., when the group's recent concert appearance drew immense crowds, according to WISM's Jonathan Little. Miller had attended the University of Wisconsin in Madison, so townsfolk there called his visit a "homecoming."

WMET-Chicago is collecting signatures from high school students throughout eight surrounding counties for its "School Spirit" contest. The school with the largest number of signatures per student enrolled wins a custom van, a concert-dance by Foghat and athletic footwear for all the school's varsity sports teams.

Changes within the RKO chain include Christy Wright's move to "Record World" magazine as their director of marketing. Christy, former music coordinator for the chain, will remain in Los Angeles with the magazine's West Coast bureau. KHJ hired a new music analyst--Debbie Avison. And at WRKO-Boston, Richard Woodward was promoted to Music Coordinator.

WRNN-Clare, Michigan, told us they give away trips to exotic places like the Caribbean, not once, but four times a year. Just recently, it was a "Windjammer Cruise" for a week. Pretty impressive giveaways, for a market that size.

Correction: Last week on Page 1, under "Record to Watch" we printed Los Angeles (KVI). Obviously we meant KFI.

Album of the Week
(reviewed by Ron Fell)

"Once Upon A Time"-Donna Summer (Casablanca) So much of the disco music from the past couple of years has been glossy, mono-metric instrumentals supporting lame and repetitive vocals. However, Ms. Summer and producers Giorgio Moroder and Pete Bellotte have brought substance and theatrics to this otherwise mundane musical art form. "Once Upon A Time" is a four-sided thematic set (not unlike Cinderella), which is lyrically cohesive and musically engrossing. While airplay may still suffer from the package's lack of clean breaks between most selections, it's none the less a "State of the Art" presentation. FASTER AND FASTER TO NOWHERE, A MAN LIKE YOU, RUMOUR HAS IT and the narative THEME at the end of the fourth side are all outstanding.

Everything else reviewed this week pales by comparison.

Also recommended from the following LP's:

Profile: Jo Interrante, News Director

A spotlight in the broadcast industry, as well as in other industries these days, seems trained on women who are so exceptional at what they do they defy labels such as "tokenism" or even, "Career Woman." Most of these women have held traditionally male positions and are primarily interested in improving the product.

Jo Interrante, the news director at RKO-owned KFRC-San Francisco, is such a woman. Jo's task, along with her staff of seven, is integrating twelve newscasts a day, eight on weekends, with that key product, music. "News is just as programmable as music," she states.

Her latest news composite explains: "The 610 News and Information-caster is not an ...unfamiliar blabbing body. He or she knows the audience has punched in first for the music...and close behind for the 'friend'...the consistent sound. The product and the package become one...relatably." The "package" consists of the usual elements: hard and soft news, sports, weather, traffic, time. The transition is what's most important.

Sometimes the transition is established with "jock-rap," when an exchange between disc jockey and news person introduces the lead story. In the morning, it's "joke-rap," because it's Dr. Don Rose beginning the day. A concise progression of stories, community affairs and spots always make up the cast.

Jo has complete freedom to institute any ideas she has. If a story relates to music, such as Elvis Presley's death, she incorporates music in the story. Les Garland, P.D., is entirely supportive, she says. "I never remember getting a 'no' on any ideas for this station." She relies heavily on her staff, calling them "generating news people," and encourages them to do just a little bit more than they think they can. Their accomplishment is their reward, as well as hers. KFRC is union, so any work over seven hours a day, five days a week, is overtime. "Unions make you 'extra' creative with your administrative duties," she says.

Jo has been at KFRC for four years and news director for two of those years. She got the job by being there at the right time. Her news director was attending a Radio-TV-News Directors meeting in Dallas when Patty Hearst was captured. Jo knew where tapes of Patty talking to her parents and other background information, were. The story was broken and Jo got the job.

Actualities are critical to any story and she has Bob McCormick, "Man on the Street," Connie Gordon with "Special Assignment," and others who specialize in their top-rated Community Affairs programs, out in the field, talking to people and catching stories wherever they occur. They use phones to call-in but as far as other sources of information and equipment, they have access to RKO news staffs across the country, plus five wire service machines and AP audio. Blond, slender and agile, Jo moves around the newsroom, instructing, asking questions, checking. She's never without an idea but she expects answers from her staff. "I'm big on systems." She'll say out loud as she's writing a story, "We've established the facts...now, how do we make this human?" Someone usually tells her.

Jo's career began in 1969 at Gordon McLendon's KNUS-FM in Dallas. She had graduated from the University of Texas with a degree in English Literature and after realizing she would "never be Zola," she started writing news. About McLendon she says, "I loved him. He was the best...he was an example of innovation." While at KNUS, she worked with Michael Spears, currently P.D. at KHJ-Los Angeles and Ken Dowe, general manager of KTSA-San Antonio, to name a few. Michael, whom she describes as, "driven," had some of the same teachers she did. They used four-legged Gates boards that, "I felt like painting toenails on."

She worked at KVIL, which is almost across the street from KNUS in Dallas, as a music consultant while at KNUS. In 1973, she moved to San Francisco, and except for a brief stint at KNBR, has been at KFRC ever since. The reason for the period at KNBR was, she wanted to see how networks run their news. She had much less freedom there and found network politics a strain.

Her favorite way of relaxing is to travel to another country where there are no phones with her name on them and where little English is spoken. She enjoys "culture shocking," herself. She says she has no aspirations beyond the "nine to five" but admits she wants to "keep on caring." She adds, "One of the most important things I learned at KFRC, is consistency."

Jo Interrante is a news director, a very good one, and she is consistent.

Gavin's Gab

To Our Correspondents: Because of the Thanksgiving holiday, all reporters should file their information before noon, Pacific Time, Wednesday, November 23rd. Reports received after that deadline will not be available for research in any format. Correspondents in the Eastern and Central Time Zones can get through to our office as early as 7:30 AM Pacific Time.

Admirable promotions this week...

In conjunction with the American Cancer Society's "Great American Smoke-out," November 17th, KTAC-Tacoma ran a promotion soliciting calls from smokers in their audience who wanted to quit. The staff at KTAC, along with all the listeners who called--over 1,000--planned on quitting together at midnight, November 16th. KTAC also sent "non-smoking" kits to those who responded and made accommodations at the station for Cancer Society people to provide counseling to listeners having problems quitting.

Several stations have been doing sizeable fundraisers for charities...

KRSP-Salt Lake helped raise \$104,000 through contests supporting the March of Dimes' Haunted House there. Alan Hague estimates 50,000 people passed through the "dark dungeon" to see KRSP's "black box full of prizes."

KRNT-Des Moines reports a "Flip for Sight"--a gymnastic event for the Iowa Society for the Prevention of Blindness. The event involved over 200 youngsters gathering pledges and performing gymnastic stunts in a local mall. KRNT provided promotion for the event as well as a live broadcast with morning man, Ray Dennis. The event was a success, raising over \$7,000.

Gearing up for Christmas...

WMOH-Hamilton, Ohio, has been doing a "Yule Pool" contest for 20 years which now attracts over 100,000 entries, according to Joe London. One hundred prizes are given away on Christmas Eve. Also coming up, their "Fun in the Sun" drawing for a trip to Florida goes over big in January, in the midst of their 20-degree-below weather. (Warm sand and tropical oceans don't sound bad in December.)

Other special events...

Gordon Lightfoot celebrated his 20th year in the industry, as well as his birthday, on November 17th, and since he was born in Orillia, Ontario, CHUM-FM dedicated a whole day to the singer/songwriter. A four-part interview aired throughout the day, and a one-hour special with the artist live highlighted the CHUM Gordon Lightfoot Day.

For three days, KIMN-Denver announced they would give an \$8,000 1978 Buick Regal to the first random phone-caller--on November 14th at exactly 4:18 PM. Lady Stroke, KIMN Prize Person, gave it away. (The station warned the phone company, Mountain Bell, in advance and the anticipated overload was handled smoothly by all concerned.)

Under Bob McLain's direction, WTMA-Charleston ran a three-part bumper sticker and cash giveaway promotion that stimulated 20 percent participation from their target, 18-24s.

WZOO-Asheboro conducts a "Saturday Countdown" between nine and noon every weekend and tries to include interesting notes about some of the newer artists appearing on playlists now. Bill Cox, M.D., requests bio-information from all sources, particularly on newer artists.

Almost at press time, we've heard some great news from Bernie Armstrong at KGU-Honolulu on their "World's First T-Shirt Auction". The proceeds are going toward work with abused children and abusive adults...He writes that "in nine hours of trying to auction off over 670 shirts received," more than \$3,428 has been raised, and donations are still coming in. Former Washington Quarterback Sonny Jurgenson's warmup shirt went for \$50. John Denver, who was in town, came down to the auction, and gave two autographed shirts that went for \$110 total.

For those seeking tasteful, contemporary religious programming, Tom Taylor at WPST-Trenton recommends a weekly show produced in New Jersey by the Come Alive Ministry. Tom tells us it's running on several Philadelphia stations (WCAU-FM for one), is free and features "excellent" Jesus Rock. For more information contact Come Alive Ministry, Inc., Box 86, Medford, N.J. 08055.

Chart Correction: Last week we debuted the England Dan & J.F. Coley single at #17. We erred in our mathematical computation and have moved the record back into "Gaining In Several Markets." This move reflects our error rather than a negative view of the record's popularity. Sorry, we goofed.

Corrections: We listed Larry Bachus, WMPS-Memphis, in our "Available" column last week. Actually, Larry is the News Director there and is looking for a newsman.

Music Calls: Jonathan Walker, new M.D., KPUG-Bellingham, Wash., Noon - 2 PM, Mondays & Tuesdays. Sean McCartney, WEAQ-Eau Claire, weekdays except Tuesday, Noon - 3 PM. Inside Progressive Radio
(By George Meier, Editor of Walrus)

Established Progressive Airplay:

(In Order)

Steely Dan-----
Santana
Linda Ronstadt
Bob Welch
Randy Newman
Kansas
Doobie Brothers
Joan Armatrading
Chicago
Billy Joel
Nils Lofgren

Notes: Steely Dan stands above the rest of this list which tapers off slowly. Only in the South are they bested for the first position in radio play by Santana. The immediate strength of this Santana album is remarkable. It implies that the senior guitarist still connects after all of these years. Notable is the arrival of Joan Armatrading and Nils Lofgren in the emphasis play area. Along with Santana they had gotten excellent initial response. Two albums, Hall & Oates and Karla Bonoff, seem to have peaked. A curious regional note is that Santana does not seem to be doing as well in the West as in other areas, while Joan Armatrading is weakest in the Northeast.

New Progressive Airplay:

(In Order)

Lynyrd Skynyrd-----
Electric Light Orchestra
David Bowie-----
Blue Oyster Cult
Loggins & Messina
Ozark Mountain Daredevils
Sammy Hagar
Starcastle

Notes: Confused by the sad circumstances surrounding the release of the Lynyrd Skynyrd LP, it is hard to tell what the overwhelming, across the regional board response to this LP means. Is it a great record? Or is it a product of the event? Our speculation is that there is a little of both influencing the fate of the LP. Other regional notes are that Blue Oyster is strong everywhere but in the South - their sound is perceived as too metallic there. Further, both Sammy Hagar and Starcastle gain their strength from regional identities - Sammy from the West and Starcastle from the Midwest.

Singles & Imports:

Singles: The singles are lead by Boz Scaggs, Paul Simon, Queen, Rod Stewart, and Aerosmith.

Imports: Elvis Costello again leads the field although the LP has been released domestically.

Album of the Week
(reviewed by Ron Fell)

"All 'N All"-Earth, Wind & Fire (Columbia) The finest in a long line of classic albums by Maurice White and his Kalimba Crusaders. Premium vocal arrangements braced with brilliant brass charts and slick, crisp rhythm tracks have always been an E.W. & F. trademark, but it all comes together here in more accessible terms than on any previous effort. The current single, SERPENTINE FIRE, MAGIC MIND and FANTASY are scintillating, while I'LL WRITE A SONG FOR YOU and LOVE'S HOLIDAY mellow-out enough to add pleasant balance to a heavyweight album.

Also recommended from the following LP's:

- "Down Two Then Left"-Boz Scaggs (Columbia) STILL FALLING FOR YOU/HARD TIMES/A CLUE/WHATCHA GONNA TELL YOUR MAN
- "Annie In Wonderland"-Annie Haslam (Sire/W.B.) ROCKALISE/INSIDE MY LIFE/GOING HOME/NATURE BOY
- "Two The Hard Way"-Allman & Woman (Warner Bros.) MOST ME/CAN YOU POOL/I LOVE MAKING LOVE TO YOU
- "Galaxy"-War (MCA) GALAXY/BABY FACE/HEY SENORITA
- "A Whole New Thing"-Billy Preston (A&M) WHOLE NEW THING/DISCO DANCIN'/YOU GOT ME BUZZIN'
- "Touch & Gone"-Gary Wright (W.B.) TOUCH & GONE/LOST IN MY EMOTIONS/SOMETHING VERY SPECIAL/ THE LOVE IT TAKES
- "Baby Grand"-Baby Grand (Arista) NEVER ENOUGH/CAN'T KEEP IT INSIDE/BRING ME YOUR BROKEN HEART
- "Seconds Out"-Genesis (Atlantic) SQUONK/THE LAMB LIES DOWN ON BROADWAY

Gary Taylor's Personal Picks

LADY LOVE-Lou Rawls (Philadelphia Int'l.) Nicely cut from the same mold as "YOU'LL NEVER FIND ANOTHER LOVE", so you'll probably find initial airplay at the A-C level.

PEG-Steely Dan (ABC) Ron and Kent insisted this be mentioned here. Since the record is already on page one, there is no harm in giving in to their wishes.

THE LONELIEST MAN ON THE MOON-David Castle (Parachute) The opening draws attention to a lyric of loneliness that stands apart from that of the usual single releases we receive.

Also Possible

WHAT'S YOUR NAME-Lynyrd Skynyrd (MCA)	SOLDIER OF FORTUNE-Alan O'Day (Pacific)
MAHNA, MAHNA-The Muppett Show (Arista)	THIS TIME LOVE'S FOR REAL-Stuart Slater (U.A.)
THE HARDEST BLOW-Jess Roden (Island)	(YOU'RE MY) SOUL AND INSPIRATION-Donny & Marie Osmond (Polydor)

On The Record

Commercials have a burnout factor the same as records. The biggest hit becomes tiresome and irritating after repeated hearings. And the best commercial that Chuck Blore ever produced would suffer the same fate after extended and frequent programming.

Smart advertisers usually plan their spot campaigns with a good variety of spots. This enables stations to rotate them and to stagger their schedules so that the same spot is never repeated at the same time on two consecutive days. Of course, there are fixed times that have their advantages, too, such as just prior to a sports event; but in general, flexibility and variety are assets, not only to the advertiser, but also to the station's quarter hour maintenance.

In some smaller markets, it isn't always easy to provide the local advertiser with an assortment of spots. The station's production man (pardon me, ladies - production person) may have produced one on spec that the client liked so well that nobody wanted to change it. Not only that, but production often works under a heavy load, and they may not be as creative as we'd like.

A number of stations today are experimenting with spot clusters so that they can offer more consecutive minutes of uninterrupted music - "sweeps", as they're called. Such a concept is by no means new. Gordon McLendon introduced it to the Bay Area when he took over KABL in the 50's. A three record segue, then the ID and two or three spots. That station's consistently high audience shares certainly demonstrate that spot clusters of that sort have been well tolerated by the listeners. Whether longer stop sets will be equally acceptable remains to be seen.

Some stations pay less attention to average quarter hours than they do to cumes. Such stations might conceivably welcome large tuneouts to commercial clusters so that the tuner outers could tune in again once the music resumed, thus zooming the cume.

On the other hand, some of the cluster/sweep experimenters tell us that they have reduced the commercial spot load considerably, thus enabling them to hold down on the duration of their clusters.

It has been maintained by some - and it probably is true - that FM radio's impressive audience growth can be attributed to more music and fewer commercials. It is also true, however, that the FM signals penetrate office buildings and factories where AM radio cannot go. Now that more employers are finding that music on the job improves the work and the morale of the workers, there's a lot more radio listening on the job than there used to be. (When Irving Waugh took our group on a tour through the Opryland Hotel, now nearing completion, I counted three different transistor radios among the various groups of workers, all tuned to FM.)

In any event, it appears that AM managers are beginning to move toward lighter commercial loads. In spite of a slow but steady erosion of the AM audience and a growing fractionalizing of the total listeners, most AM stations continue to prosper, and even to raise their rate cards. One manager at our Milwaukee meeting last summer said, "Let's face it: We're charging more and more and giving less and less". It stands to reason, however, that major AM stations, with their inflated overheads, face the prospect of uncomfortable belt tightening. It will be hard to support those beautiful bottom lines if both the audience and the commercial time are decreased.

Many AM stations were lulled into over-confidence by a long period of prosperity. Recent trends have scared them into new and untried programming changes. Programmers in the past were inclined to accept commercials as inevitable, inescapable and, of course, necessary. Today, however, the trend is toward viewing commercial spots as just as much a part of program content as the news and music. Taken in this light, commercial content is no longer the exclusive domain of sales and traffic but becomes subject to the needs and requirements of programming. Radio's traditional domination by a drive for profits is being modified by a wider awareness of the needs and tastes of the listeners. And that's good.

Notes From Bill Gavin

Had a great lunch the other day with KFRC's Les Garland, Dave Sholin and Jo Interrante. They surprised me with a beautiful desk set, with a name plate that's engraved "Wishing you a happy 70th and many many more. Presented by the staff at KFRC-610".

When I was in New York last month, I celebrated my birthday with a group of good friends at the Friars Club. There were Rochelle & Ron Alexenburg, Pam and Larry Uttal, Shirley & Dean Tyler, Ruth Meyer, George Wilson, Neil McIntyre, Joe Kolsky, Charlie Scully, Ben Rosner, John Rosica, Scott Muni, Rick Swig and Bob Sherwood. They presented me with a beautiful wrist watch, engraved on the back: "We love you". As a special surprise, Dean Tyler gave me a basketball, personally autographed by every member of the Philadelphia 76'ers. Next day, George Wilson gave me a tour of Manhattan, showing me many places I had never seen before. Being 70 is fun. I recommend it to everybody.

Country Club

Changes: KATY-San Luis Obispo, Ca., has a lineup to compliment their new country format.

Bill Larsen, P.D. (AM Drive), Chuck Bernard (Mid-day), Sindi (Afternoon Drive), Doug Vincent (Evening) and Danny Blue (all night).

KMO-Tacoma has revised their lineup: Russ Riley (6-10 AM), Lee Phillips (to 3 PM), Big Ed Dunaway (to 7 PM), Tom Baker (to 12 mid.), Bill Norton (to 6 AM).

Service: KORA/FM-Bryan, Tx., would like albums from all sources.

KPUB/AM-FM-Pueblo still needs Bluegrass product, old and new.

Russ Riley, KMO-Tacoma, is now doing a Country music column for the local newspaper and would appreciate information on artists.

WXYQ-Stevens Point needs service from MCA, U.A. and Mercury.

KGFX-Pierre, S.D., could use the latest Herb Pederson, Hank Williams Jr. and J.L.Lewis albums.

KKIK-Waco starts a new modern country format December 1st and needs service, including albums and oldies, from all sources.

Music Calls: Mark Thomas, WNRS-Ann Arbor, Tuesday - Thursday, 2 - 5 PM.

Chart Correction: Last week we listed the Mel Street single at #30. It should have been MIDDLE AGE CRAZY-Jerry Lee Lewis. Sorry!

Ron Tatar, WWOK-Miami, gets positive reaction to YOU'RE THERE BETWEEN US-Barbara Fairchild from her album released two years ago.

Bob Mitchell, KCKC-San Bernardino, reports IT STARTED ALL OVER AGAIN from Vern Gosdin's latest album is receiving better acceptance than his current single.

Don Nelson, Vice-President and General Manager of WIRE-Indianapolis, was elected Country Music Association Chairman of the Board.

Gavin's Gab

KRIZ-Phoenix just gave away a month-long trip for two to Vitznau, Switzerland. For over a month, they told listeners the "Z" in KRIZ had departed for an around the world trip and had lost a \$1,000 bill somewhere. People were required to guess the secret location of the bill. The couple now enjoying Switzerland, also got to pocket the \$1,000.

This Thanksgiving, KAKC really did give Tulsa the bird. According to Dr. Don, they gave away Eagle albums.

Album of the Week
(reviewed by Ron Fell)

"Broken Blossom"-Bette Midler (Atlantic) Edith Piaf, Sammy Hagar, Eddy Arnold, Billy Joel, Tom Waits and J.C. Johnson have nothing in common. Until now. Producer Arthur Brooks and Bette have now taken some of their songs and challenged no less than seven arrangers to "Midlerize" them. Side one is particularly courageous and successful with MAKE YOURSELF COMFORTABLE, RED, I NEVER TALK TO STRANGERS ("Looking For Mr. Goodbar?") and STORYBOOK CHILDREN as its highlights.

Inside Progressive Radio

(by George Meier, Editor of Walrus)

The most interesting album of recent weeks is Leonard Cohen's Death Of A Ladies' Man which was produced by Phil Spector. Odds makers would have bet that Spector's indellible production style would have obliterated Cohen's indellible singing style. That did not happen. Somehow this LP accommodates both. All the songs were co-written by the two men, helping the process while adding another impossible image to the puzzle.

Another fine album, for its completeness is the Shakti album. This is John McLaughlin's fusion of Indian and Western musics. It is melodically superior while its execution is downright dazzling. Further, the whole LP holds up.

Two great and pleasant surprises show up. One is an unknown group called The Lamont Cranston Band on, none other than Shadow Records. They are a hot little blues band with a super ear for tunes and a smile in their presentation.

The second LP is a major surprise in the form of a transformed Wet Willie. To now they have been a good, second line Southern rock band. Never could they hope to eclipse The Allman Brothers or Charlie Daniels or Marshall Tucker. Look out. Manorisms, their new LP, is hot. Lead by a song called "Street Corner Serenade" they have placed themselves in contention for high honors by moving out of the limiting Southern rock idiom.

Some other solid efforts include Rod Stewart's album (when he sings a ballad few can touch him) and the first well crafted Electric Light Orchestra album in memory.

Finally, a note about The Runaways. Their music is important insofar as they are one of the few bands which is a part of its own audience. In the sixties the hippy bands were, likewise, a part of the audience as well as the performers. That has all changed as rock musicians have gotten older and richer. The whole business tends to grow away from its audience, until a new wave comes to take it back to the streets. Punk is here.

Gary Taylor's Personal Picks

GOODBYE GIRL-David Gates (Elektra) This formula release is typical of the music currently being heard on radio. It will be interesting to see if it is accepted.
UNTIL NOW-Helen Schneider (Wingsong) My obvious weakness for a ballad with a mature lyric is showing. Regardless, this left field choice is worthy of more than one listen.

Also Possible

LONG, LONG WAY FROM HOME-Foreigner (Atlantic) ROLL ON BROTHER-Group With No Name (Elektra)
STORYBOOK CHILDREN-Bette Midler (Atlantic) ONE TO ONE-Reba McEntire (Mercury)
DON'T CHANGE-Daryl Hall & John Oates (RCA) SAVE ME-Brian Chapman (Capitol)
BRING ME YOUR BROKEN HEART-Baby Grand (Arista) TRIED TO LOVE-Peter Frampton (A&M)
TOUCH AND GONE-Gary Wright (Warner Bros.) WE'RE OFF YOU KNOW-Klaatu (Capitol)
I LOVE YOU-Donna Summer (Casablanca)

Comment

An undercurrent of misunderstanding and fear about radio's research methods and current direction is widespread in the music industry. Granted, research has changed, but the objective is the same as always--attraction of the largest available audience, in one or more specific demographics, by playing the most popular music.
For radio on the one hand, the most popular music is not necessarily the biggest selling single or album, but the music most listeners want to hear. The music industry on the other hand, correlates popularity with sales. Sales indicate purchasers have committed themselves financially to the music but they do not show what the silent majority of radio listeners really want to hear--which is what radio really wants to know. Research enters into play here.
Since the objectives of the two industries are different, misunderstandings develop easily. We can not clear up misunderstandings by criticizing research or rejecting new concepts, however. For example, the industry is over-reacting to call-out research. It is feared because it is misunderstood. The solution, if one really exists, is to understand the different objectives, then work within and improve on the framework that has been established. Besides, we'll have a new term to fear next year, and still another the year after.
We are in an innovative business supposedly bursting with creative people so we should expect new ideas and change regularly--but we should not fear them. After all, changes have been going on in this business since the broadcasting of recorded music began.

Michael Spears Resigns

Tuesday (Nov. 22), Michael Spears, Operations Manager at KHJ, submitted his resignation to Dwight Case, President of RKO Radio. Michael cited health and personal reasons for the move. In this business, the word "resigned" sometimes means an individual is fired. That is not the case here. In our discussion with Tim Sullivan, General Manager of KHJ, he said he was unaware of Michael's intention and that, in his view, Michael has done a very good job. "The October/November book will show, once again, that KHJ holds a position of dominance in the Los Angeles market." He added, "I wish him luck."
In speaking with Michael Tuesday evening he said he planned to spend the Christmas holidays with family and friends in Texas, and travel for a short time. Following that, he will be organizing a small consulting firm catering to a select clientele.
At press time, no one has been named to replace him at KHJ.
