INSIDE TOP 40

by Dave Sholin

Communication is the foundation of both the music and the radio industries. Artists communicate through their music, and broadcasters communicate with ideas and entertaining conversation. During the "CHR Music Session" at the R&R convention in Dallas, it was obvious that communication has furthered the understanding between programmers and those in record promotion. John Fagot, Capitol's VP/Promotion, struck a sensitive nerve when he challenged more PDs and MDs to pay more attention to listening to music than to tracking how many adds a particular record got, or if the label considers it a priority.

You should know your market and your audience well enough to trust your instincts in deciding which music best fits your station's sound. Finding the time to listen to music is difficult at best and even tougher in smaller operations where the PD and MD pull air shifts along with their other duties. But it's important to set aside enough hours each week for the music that takes up 85% or more of your precious air time.

Grammy winner **WHITNEY HOUSTON** isn't having any problem taking her fifth single from "Whitney" into the top 15. **HIT FACTOR** soars from 15% to 43% with strong increases at Q96/76 25-20, KOY/FM 25-20, KS104 20-15, KCPW 23-19, KZLS 25-13, WPXR 31-20, KOKZ 25-18, WKTI 27-20, WCIL 28-20, WVAQ 26-20, WMMS 22-17, 92X 28-19, Q104 25-19, ISLE 95 23-16, WKNE 23-18, WHDQ 27-18, KC101 24-18, B104 26-21, KWSD 22-16, KWIN 22-18, KZZK 21-13, KACI 24-18, etc.

Another 25 adds put **ICEHOUSE** well over 200 total reports. Excellent chart growth at KSND Eugene 28-19, WLRW Champaign 27-21, KDWB Minneapolis 23-15, KATD Los Gatos/San Jose 23-20, KCPX Salt Lake City 13-10, KTDR Del Rio 29-21, WXTQ 24-17 etc. Debuts in the top thirty at WIAL #28, KKRQ #23, KLBQ #26, KZLS #20, BAM99 #30, 100KHI #27, etc. Adds include KIIS, FM102, KKQV, WNSL, WZLS, WFTW, WFBG, PRO/FM, KZZO, KEGL, etc.

Reports of "excellent adult response" on **TOTO** from Z104 Madison seem representative of stations around the country. Moves up five or more at Z104 33-26, KKTX 33-27, KJMO 34-25, WZOK 32-26, KZFN 31-24, KQEN 28-21, Q105 24-17, WPFM 27-21, WBXQ 30-24, KCIL 23-18, etc. New on LG73, KWES, WKLQ, Z94, WHIT, etc.

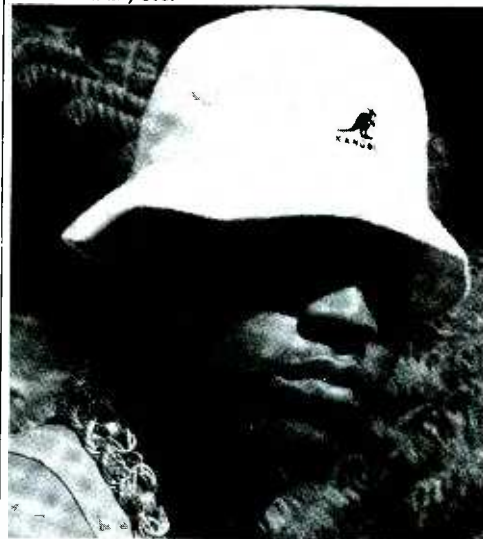

Weekly growth for **SO** has been strong right from the start. Dena Yasner at 95XXX Burlington says requests are especially heavy from females 18-24. Added by Clarence Barnes Z94 Boston, Jeff Tyson and Willie B. HOT 105 Miami, Calvin Hicks WYAV/FM Myrtle Beach, Mike Tinnes WKLQ Grand Rapids, Doug Koehn KNEN Norfolk, Jon Hart KIXS/FM, Gary Bryan and Tom Hutylar KUBE Seattle, Dave Roble KWNZ Reno, Rick Shannon KPXY Pocatello, Steve Rivers and Jack Silver KIIS Los Angeles, etc.

Former **RECORD TO WATCH WHITE LION** didn't waste any time stopping by for a **CHARTBOUND** listing. **HIT FACTOR** is already up to 16% with moves into the top twenty at KZOU Little Rock 25-19, WILI Willimantic 22-18, WPFM Panama City 22-18, KZEV Clear Lake/Mason City 22-20, KZFN Moscow 22-15, etc. 34 adds including WPFM, WGGZ, KGGG, WCIL, WIFC, WQGN, WZZR, WMMY, KGOT, KMGZ, KQLA, WZOK, KIXR, etc.

BRYAN FERRY is racking up some noteworthy chart action in the Mid west.

Moves 17-14 at for Tim Fox and Denise Lauren at WKTJ Milwaukee plus increases at Y94 Fargo/Moorhead 28-22, WLLI Joliet 20-16, WIFC Wausau 22-19, KVRV Vermillion 23-18, etc. Top five at LIVE 105 San Francisco with strong debuts at Q106 #25, KYVA #29, WNKS #30, WJZQ #30, KYVA #29, etc.

A dazzling 34% **HIT FACTOR** for **L.L.COOL J**, who logs number-one listings at KKFR Phoenix and KMGX Fresno. Top ten at KMEL 8-7, Z93 6-5, POWER 96 8-7, KZZP 8-7, POWER 104 6-2, KATD 12-8, KDO4-9, B95 9-7, etc. New on KIIS, 93Q, KSLY, WWHT, KZOU, KAFX, B93/FM, KRRG, AM106, etc.

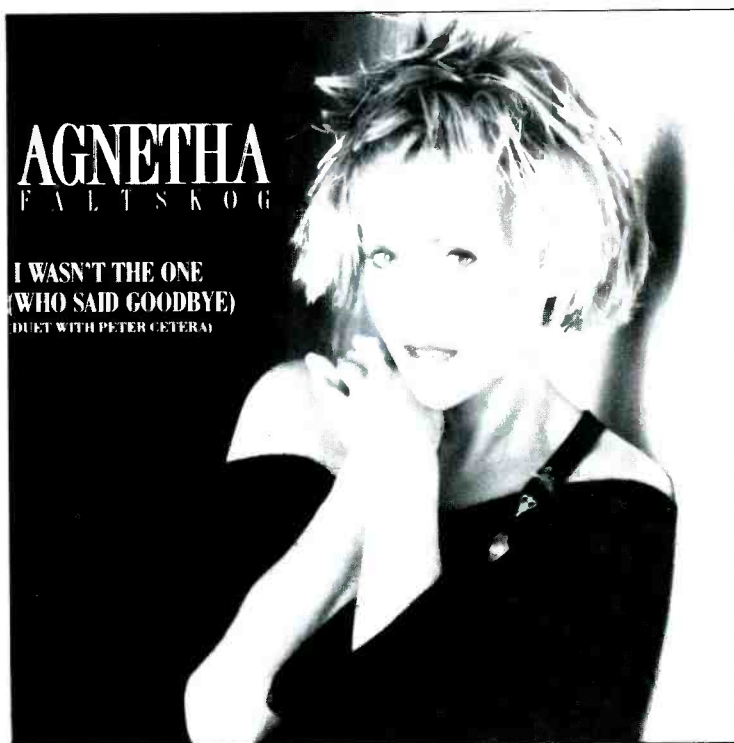

BRENDA RUSSELL finds an early believer in KMEL San Francisco, where she spends her second week in the top ten, going 10-9. Now also doing well in nearby San Jose at KWSS 21-18 and KATD 21-17, in addition to FM102 Sacramento 22-18, KFIV Modesto 26-22 (where MD Ric Sanders placed it in the top 9 at 9 for six nights in a row), KSWB Seaside 26-23, etc. Added at FM104, KGOT, WVAQ, WMME, 100KHI, WCGQ, WNVZ, WJET, 106X, KPHR, KKQV, KVXO, etc.

Last week's **RECORD TO WATCH, THE DEELE**, is proving to be a big winner in a number of markets. Dave Shakes takes it top thirty at WTIC Hartford 36-29, with top ten action at WHYT Detroit 10-7, KSTN Stockton 19-9, KGGI San Bernardino 10-6, FM102 Sacramento 12-9, KMEL San Francisco, 6-3, etc. Other gains at KITY 30-24, KRQ 27-21, KATD 28-18, Z93 28-19, KBEQ debut #25, etc.

40 PANELS IN THREE DAYS

R&R's BIG MEET IN BIG D

The cavernous interior of Loew's Anatole Hotel proved capable of containing even the bulging egos of more than 2,000 radio and record personalities who converged on the revived Radio & Records Convention in Dallas. The three-day event kicked off mid-afternoon on Thursday, Mar. 4th with format panels lasting far into the night. Sandwiched in between was a welcoming cocktail party featuring a surprise solo appearance by Stevie Wonder.

The Gavin contingent, made up of Ron Fell, Dave Sholin, Lisa Smith and Betty Hollars, provided this report:

Friday saw keynote addresses by FCC Chairman Dennis Patrick and former White House Chief of Staff Donald Regan, along with a string of how-to sessions moderated by financial, efficiency and personal potential experts from both within and outside the broadcast industry. Saturday provided more of the same, with an emphasis on marketing and revenue-building. Competing with the 40 or so convention sessions were three days of hospitality suites, cocktail parties and live performances by Grammy-winning Jody Watley to John Cougar Mellencamp.

R&R's Mike Kinoshian hosted the three A/C sessions. The middle one dealt with the New Age phenomenon, with a panel of consultants Frank Cody and John Sebastian, along with R&R alumnus Steve Feinstein, now programming KKSF-San Francisco. The closing session spotlighted music-intensive stations, with input from Bobby Rich of B100, Ron Chapman of KVIL and Chuck Knapp from KS95, as well as Smokey Rivers from Gold-based WMJJ. Label reps on hand included Dino Barbis (Warner Bros.) and Mary Conroy of Atlantic Records. Subjects discussed included the need to delegate authority for

music decisions to a Music Director, the ever-shrinking playlist and the hardship many stations have reporting on Fridays before three-day holidays.

The Country Sessions provided some sparks over the issue of market share. Ted Stecker, OM at WBAP and KSCS, advised programmers to figure out what share of their market is available to Country and then go out and get their portion of it. (i.e., if there's a 10 share for Country and two stations in the format, your goal should be at least a five share.) Randy Michaels, VP/Programming for Jacor Broadcasting, took exception. "Our job is to take all of the market share we can get. It's not good enough just to have a better share than someone else. We want it all. Look at Michael Owens (KNIX-Phoenix). He's got a 20 share, and he's not satisfied!"

The post-cocktail party Country session provided a panel of record label executives voicing their frustrations with radio, although radio was relatively sparsely represented. Bruce Shindler of MTM pleaded for compassion. "I just wish radio would realize when they're listening to our records that they're dealing with people here—our artists—not just 45s." Another polite confrontation took place when researcher Jhan Hiber suggested record companies use focus groups to decide which acts to sign. Radney Foster and Bill Lloyd (Foster & Lloyd), who were in the room at the time, provided a spirited disagreement.

The Top 40 discussions began by addressing the question of promotions. Delegations from WMMS, 93Q-Houston and Q105-Tampa stressed quality, fun, and above all, simplicity. A second session consisted of a critique of the morning show on a pair of fictitious stations, "KCHR" and "WCHR," showing how poor promotions, lack

of originality and overproduction can wreck a station's air sound.

Their whistles wetted by the cocktail party, the Top 40 programmers reunited for a music session and a debate with the labels on back-announcing, call-out research and that old bugaboo, phantom adds. A&M Senior VP Charlie Minor put the question to KZZP's Guy Zapoleon: "What makes you add a record?" Guy: "The sound of the music—you gotta listen." Capitol's John Fagot: "Too many (PDs) want to know 'How

many adds did it get? They've got to start listening to the product."

Urban sessions focused on money (getting it), talent (finding it) and music (playing it). As at the Gavin Seminar, one subject of debate between radio and records folks was whether radio sells records. Capitol's Step Johnson: "Our research shows that print is better in both price and positioning." Atlantic's Sylvia Rhone disagreed: "Black radio DOES sell records!" Stevie Wonder was introduced to make a plea that crossed industry lines: "We are faced with troubled people in our world today—the homeless and the drug abusers. We must unite artists and athletes, and do major benefits with a common goal to save our young people—or we won't have youngsters, and without youngsters, we won't have radio!"

On the subject of finding air talent, the consensus seems to be—look everywhere. KACE's Pam Wells admitted she found an air talent at a skating rink in Memphis. "Natural talent is important," she noted. "This guy was self-motivated, multi-talented and turned out to be great on the air." KKDA's Michael Spears described what he was looking for in his well-

publicized nationwide talent hunt last year: "On the air, you need story-tellers, enthusiastic entertainers—not long-winded or boring."

Just about everyone catering to the needs of music radio had a hospitality suite open to the wee hours, reducing both the attendance and the attention span of those who made it to the noontime keynotes on Friday. Those who persevered were treated to some choice one-liners from Washington insider Regan: "When all the presidential candidates say 'no tax increase,' that's the time to grab your wallet." FCC Chairman Patrick demonstrated that even the GOP can be hip, extolling the virtues of deregulation (and ducking the dodgy issue of payola). "In short," he said, "we're trying to get government off your back so you can worry about the 10,000 Maniacs—not the record, but the other guys in your market!"

Friday sessions on "Stimulating Creative Thinking" and "Instant Research and Analysis" provided audience interaction, while a panel on "Infotainment" yielded this painful truth from MJI Broadcasting President Josh Feigenbaum: "There's been a redefinition of what 'news' is. People are more interested in Michael Jackson's plastic surgery than in what Reagan and Gorbachev did today."

"The Radio Research Created" provided plenty of videos and a six-minute time limit on speakers to maintain the interest of flagging conventioners. Steve Perun provided an eye-opening account of how a weakness can be a selling point. As part of his efforts to revive Miami's Y100, Perun's first move was to go on TV and admit, "We screwed up!" He then gave a toll-free number and asked listeners, "Tell us how to make the station better." The second phase of the TV campaign featured Perun again, saying, "You told us you wanted less talk and more music—and you've got it. We guarantee at least 50 minutes of music every hour."

In another case study, Jim Riggs, President of Emmis Research, showed the four-year evolution of "Sweetmeat," the pig mascot of KSHE-St. Louis, who has kept his shades, but has lost that joint dangling from his mouth.

The same could be said of the conventioners. No '70s-vintage sordid scenes of debauchery. No back-room whispers (or even up-front discussion) of payola. Just a couple of thousand people trying to move up the greasy pole.

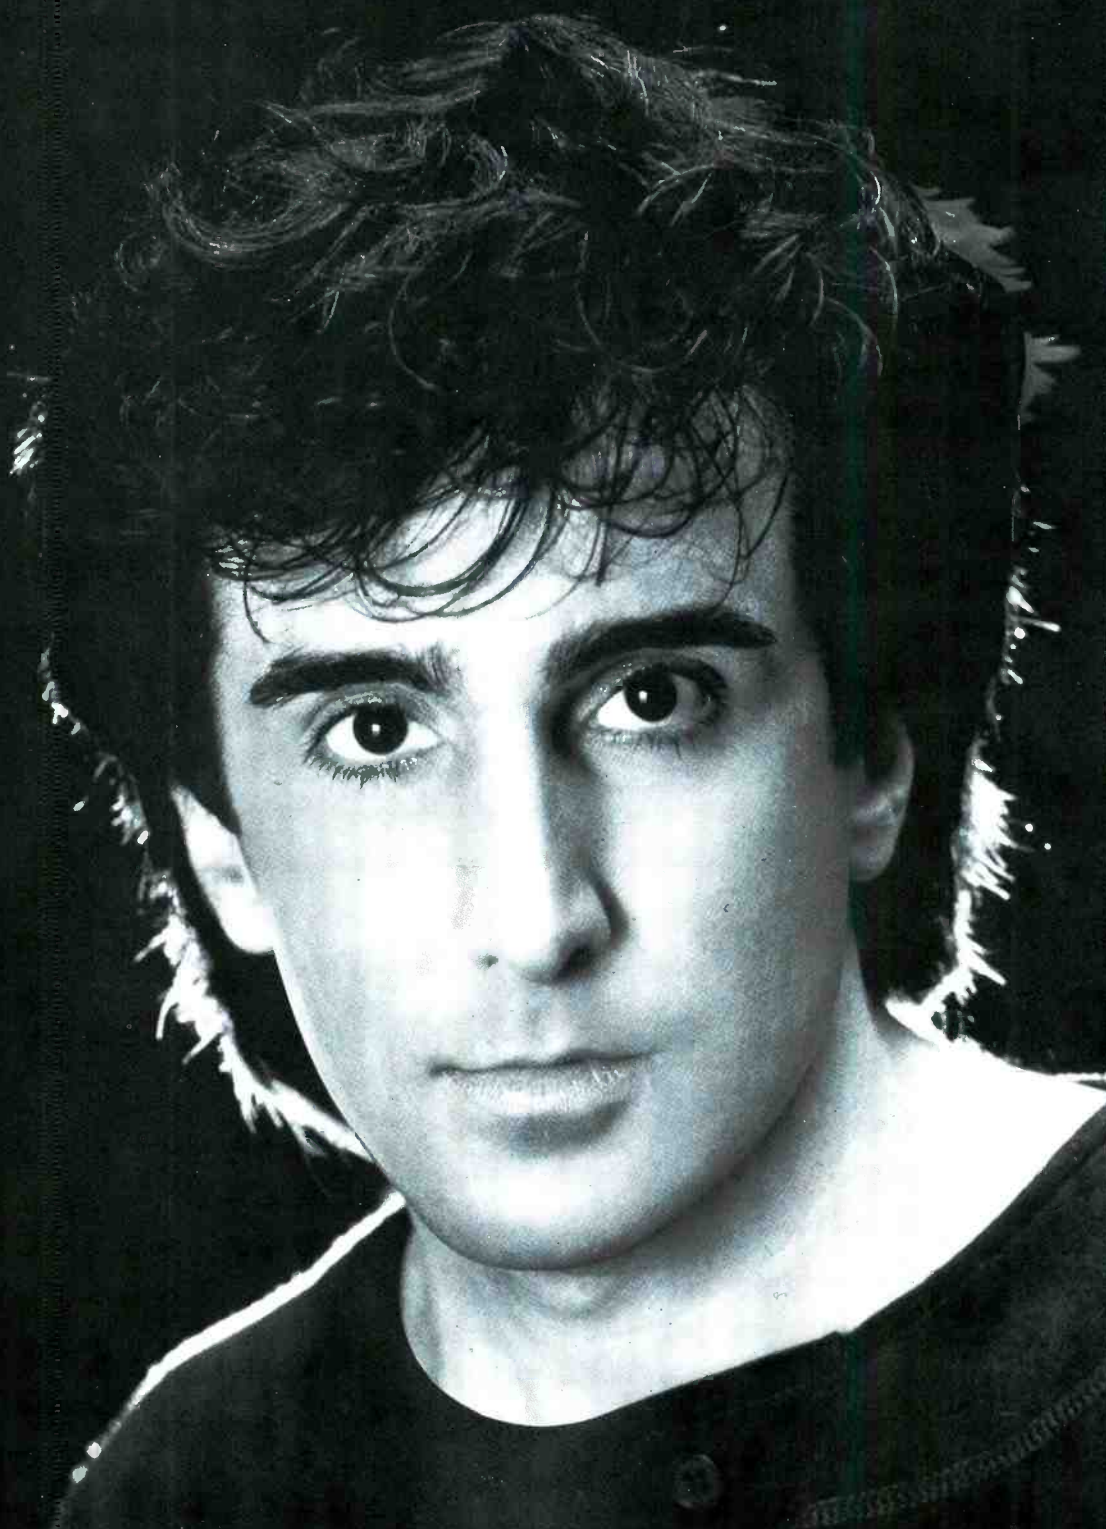

CONDOLENCES...

To Columbia Records' Linda Kirishjian on the death of her father, Vahe, on March 7th.

To all the many friends and colleagues of Chuck Browning, dead of lung cancer at the age of 48. "The Chucker," as he was known, worked at just about every Top 40 station in the Golden Age but is best known for his stint (and stunts) at KFRC. Former colleague Bobby Ocean has this eulogy: "From Boss Radio to The Game Zone, he delivered a strobe-light of personality through the most stringent format. He always gave his listeners the feeling they were his accomplices." And Bob Hamilton said simply, "He was one of the greatest air talents the world has ever known."

NON-GIMMICK ALTERNATIVES TO DRUG TESTING

In my last article, I criticized the use of mandatory drug testing as counter-productive at best. I pointed out several reasons: The results are often inaccurate or irrelevant; testing alienates the great majority of employees who are not drug users; and testing often camouflages a deeper problem, i.e., that managers have grown out of touch with their own employees' motives and problems.

The question then remains: If drug use is a problem that needs to be addressed, what are the alternatives to drug testing? Here are a few suggestions:

1. Invest much more heavily in the recruitment and selection process. Drugs notwithstanding, well-managed firms put a great deal of time and energy into this process. All candidates, regardless of the job applied for, undergo multiple interviews with the people they would work with—colleagues within the department and from other departments and units, people in more senior positions, and subordinates as well. This admittedly lengthy process is correctly seen as a very healthy investment, since it greatly increases the chance that only the right skills and the right fit are going to pass the tests. The odds are also greatly increased that at least one interviewer will flag a comment or symptom that suggests the possibility of drug use on the part of the applicant.

2. The selection process should also involve careful reference checks with the applicants' previous supervisors (not just the personnel department). Any suggestion of a prior history of substance abuse (including alcohol) or poor work habits such as chronic lateness, absenteeism or erratic behavior, should cause you to approach the candidate with heightened skepticism. Note that I do not recommend that such candidates automatically be eliminated. After all, they may have subsequently terminated the substance abuse, or perhaps the poor work habits were only the opinion of an inept or grossly insensitive former boss. Still, the suggestion that all was not well in a prior job should arouse your concern and your willingness to confront the issue squarely. If doubts persist after the interviews, don't hire that candidate.

3. Establish a company policy on drugs and alcohol, applicable equally to managers and non-managers. The policy, obviously, should be "no drugs or alcohol

on the job." But don't send down this policy in an impersonal memo. Talk to the troops. Explain the rationale for such a step, citing competitive pressures and how a substance abuser hurts everyone's livelihood. Also invest in treatment programs that wean people away from substance dependency (again, alcohol as well as drugs). Emphasize that the programs are free for anyone, and that those who partake in them need not fear for their jobs. In fact, indicate that failure to attend to a chronic dependency problem will lead to dismissal. Naturally, this policy should be discussed with all potential hires in interviews and orientation sessions.

4. Hold managers accountable for staying in touch with their people. Managers who are unaware of who has performance problems—for any reason—are not doing their jobs. Those who are in frequent interaction with their people will know who's having problems. Also provide intensive training for all managers—including first-level supervisors—on how to identify performance problems and confront constructively (including, in the case of drugs and alcohol, getting people into treatment programs). The point is not to turn managers into cops. Rather it is to turn managers into coaches. Good coaches are demanding—they insist on high standards, and do whatever they can to help people reach those standards. But this can only happen when managers know their people and stay in touch with them constantly.

The alert reader will already have concluded that my prescriptions are not drug-specific. They are prescriptions for the effective management of people. Lewis Maltby, vice president and general counsel at Drexelbrook Engineering, put the matter into the correct perspective:

"Managing people is never easy. Experienced managers for years have recognized that handling people is the most challenging part of their jobs, and there are no shortcuts. And this, ultimately, is what drug testing is—a seductive gimmick that promises instant relief from the awesome responsibilities of management. The testing itself becomes a drug."

Let's not get hooked on drug testing. There are better alternatives!●

***Talk to the troops.
Explain how a substance
abuser hurts everyone's
livelihood.***

INSIDE A/C

The top three records all improved in rotations, with **Richard Marx** equal with **James Taylor** in HEAVY rotations - 196 each. **Rick Astley** probably "can't get there from here" despite his number one HIT FACTOR (98%).

The amazing, do-no-wrong **Whitney Houston** climbed 32 to 5 in the past two weeks and now shows 209 stations in her first four weeks. Hard to believe any A/C not playing it.

Louis Armstrong's "What A Wonderful World" has exploded. Twenty years in the making, this sentimental favorite with adults is now HIT FACTORED by 82% of its 185 stations.

A similar HIT FACTOR (81%) for **Debbie Gibson** takes her top twenty where she joins **Armstrong** and **Steve Winwood** as newcomers to the top half of the chart.

Twenty percent of **Billy Ocean's** airplay is new this week including KEFM, WGOL/FM, KFYZ, WMT/FM, KFYE, WBLG and KGY.

Gloria Estefan & MSM debut at #33 in just two weeks. The latest single is proving to be the month's hottest new record, as it has accumulated 134 stations in its first two weeks.

Also debuting on the chart is the second single from **Brydge**, "Everyday." It's HIT FACTOR is now over 50% thanks to rotation commitments from WBTH, KDLK, WAHR, KYLT, KTID and WIOW.

Michael Tomlinson's "Highway Rain" joins **Gloria Estefan** as co-CERTIFIED. Adds include KFOR, KKHT, WEBE, KNOX, KBOL and KKOB/FM.

The **Art Garfunkel** single, "So Much In Love," has 81 stations in its first two weeks. The early ears belong to WTMJ, KYJC, KWEB, KHOW, WQHQ, WJON, KQIP, WKYE, WZNY, WBLU and WFMJ.

Last week's RECORD TO WATCH, **Natalie Cole's** "Pink Cadillac," more than doubles its airplay base this week. Among the 29 new stations are WHIZ, KYJC, KCMJ/FM, WEBE/FM and KKOR.

This week's RECORD TO WATCH, "I Wasn't The One (Who Said Goodbye)" by **Agnetha Faltskog** and **Peter Cetera**, is bound to get its legs from A/C radio. Already steppin' out are B100, KFMB, WWMJ, WSKY, KGLO, KHYL, WMT/FM and WAFL.

REVIEWS by Ron Fell & Diane Rufer

DONALD FAGEN

Century's End (Warner Bros.)

Often imitated, never duplicated, Donald's rather crytic approach to a tune is usually his charm and drawing power. This time he's got the next Michael J. Fox film, "Bright Lights, Big City" for support, as this track is featured in the film. Should do well with light jazz and musically intensive A/Cs.

FLEETWOOD MAC FAMILY MAN

FLEETWOOD MAC

Family Man (Warner Bros.)

Seems strange to hear the now-gone Lindsay Buckingham in the lead vocal. Even though Fleetwood Mac is no longer family to Lindsay, this is a relatively straight-forward composition.

PET SHOP BOYS

Always On My Mind (EMI-Manhattan)

One of the years's biggest records in Europe, this exciting version of an often-recorded song (Elvis, Willie Nelson, etc.) sounds like a Stateside smash to us.

FOREIGNER

I Don't Want To Live Without You

(Atlantic)

The band is equally at home as rockers and as balladeers. This time around, they take the slow boat with a gentle breeze at their back. The song is reminiscent of their two biggest previous ballads, "Waiting For A Girl Like You" and "I Want To Know What Love Is." It's a minute shorter than the album version and cannot miss.

BRENDA K. STAR

I Still Believe (MCA)

Her past successes in Urban radio, coupled with this obvious A/C ballad, will eventually lead her to be referred to as a "star." Brenda's youthful voice is enriched by a fully involved production by Eumir Deodato, who popularized Kool & The Gang a decade ago.

NEIL DIAMOND

Cherry, Cherry (Columbia)

This is the third time he has released a version of this song. The original dates back to 1966, followed by a live version in 1973 and now another live version from his "Hot August Night II" album. We shall see...

KATHY MATTEA

a taste of success

by Cyndi Hoelzle

Kathy Mattea's bio is a publicist's dream. Originally from Cross Lanes, West Virginia, Kathy began playing guitar in her early teens, performing in church. After moving to Nashville to be a songwriter, she got her first job as a tour guide at the Country Music Hall Of Fame. She was singing demos for songwriters when her voice caught the interest of the folks at Mercury, who signed her in 1983.

Since then she has made four albums, yielding five top ten singles, has been named "Top New Female Artist" by both Billboard and Cashbox, and been nominated for a Grammy and numerous Country Music Association awards. "Goin' Gone," the first single off her current album, *Untasted Honey*, went straight to #1, and the new single, "Eighteen Wheels And A Dozen Roses" is headed up the same road.

Kathy's records have featured material from songwriters as diverse as Elton John, Rodney Crowell, even the old Count Basie/Jimmy Rushing standard, "Evenin'," each getting a special Mattea interpretation. Her deep, expressive voice is not your usual Country "girl singer" voice, and producer Allen Reynolds lets it take the foreground, supported by a house full of acoustic pickers.

I spoke to Kathy a week before her Valentine's Day marriage to songwriter Jon Vezner. Amid a hectic touring schedule and wedding preparations ("I'm up to my eyeballs in invitations!"), Kathy reflected on the successes of the past year.

Folk and bluegrass were my main influences, but I'm really a Heinz 57.

CH: "Eighteen Wheels" is doing great for you...

KM: We've gotten amazing response on that song. We just shot the video. Charlie, the character from the song, is in it, but instead of being the straight story of the song, it weaves in and out. We run into a lot of truckers on the road. We hang out at truck stops and a lot of our drivers are ex-truck drivers, so we have the CB on. We tried to show how the bus and the truckers interact.

CH: Who were your early musical influences?

KM: I grew up singing lots of different kinds of music. I first got into folk music when I joined a group in my church. I got a guitar, went to Girl Scout Camp and learned all the folk songs. I was also into the choir in school, and so I'd sing classical music. My mom always kept pop radio--Top 40 radio--on at the house, so I'd listen to a lot of that. Then when I got into college, I started playing in a bluegrass band, and started writing music. I was writing real Country stuff. Folk and bluegrass were my main influences, but I'm really a Heinz 57.

CH: You did an original, "Leaving West Virginia," on your last album, but didn't write anything on your new one. Are you working on any songs right now?

KM: I wrote "Leaving West Virginia" when I first moved to Nashville. I moved here to be a songwriter, but I really felt like I had a long way to go, to learn how to do it well and be consistent at it. I also felt I needed to learn a lot about singing, so I've put songwriting on the back burner. I keep a running list of ideas, and dream of getting back into it someday, but things get so scattered when you're on the road that it's real difficult to have a chunk of time to sit down and really work on it.

CH: What are you working on now?

KM: We're starting to look for tunes for the next album. We want to start collecting them early so it can be a more relaxed process. The song selection process does take a long time. Allen Reynolds has done this for years and years, and he told me he went through more songs to make up *Untasted Honey* than he ever had before. It seems like sometimes everyone is making records at once and scooping up all the songs, and sometimes there's a lot of them floating around.

CH: How did your association with Allen start?

KM: I had been signed to Mercury and was working with two producers who I'd known for a long time, and worked with in the studio on demos. But none of us had ever made a record before. We were all trying to be diplomatic and nice, but no one person had the experience to say how things should be done. We were all learning as we went. At the end of that, the label people felt I needed more guidance, and I felt so too. We decided to make a change and started talking to people around town. I'd never met Allen but I was a real fan of his production--he'd worked with Crystal Gayle for ten years, and did Don Williams' first two albums. He is an amazing man. He's real wise, and he knows a lot--not only about music, but life. His value system was real close to mine--the reason he wanted to make records, and what he was trying to do. Basically, we hit it off.

CH: You use a lot of the 'new acoustic' pickers, as well as Nashville session players in the studio. How do you choose your musicians?

KM: We use some of the session guys Allen and I feel good about personally and musically, but we try to mix it up too. We used Pat Alger, Tim O'Brien and a lot of people who weren't mainstream Nashville session people and put them in different mixtures of people to see what happened. That part was really fun--taking people who have never seen each other before, but play the same kind of music.

CH: You had a hit with Tim O'Brien's "Walk The Way The Wind Blows," and do a few more of his songs on the new album. How did you meet Tim?

KM: We had a mutual friend, Pat Flynn, from New Grass Revival. We wound up being on a show here in Nashville, one of those big outdoor weekend things. The bill was Hot Rize, New Grass and us, and Pat introduced us. Tim said "I'm from West Virginia too." The next week Pat gave me Tim's solo album, and I flipped out. I kept it on my stereo for months! The next month I did a radio show called "Mountain Stage" in my home town. It is sort of like "Prairie Home Companion," a humor, story-telling and acoustic music public radio show. Tim was on the show too. So I sat in with him and sang harmony on his stuff, because I knew it all, and he sat in on my stuff, and we became friends. The next thing I knew, a tape came of "Walk The Way The Wind Blows," which he'd written. Turns out his manager and my manager share an office so we flew him in to play a session, and it's just been one thing after another.

CH: The last time I saw Hot Rize, Tim joked that he was able to buy a new car because you'd had a hit with "Walk."

KM: That's the weird thing about this business. It can affect someone's life like that.

CH: Nanci Griffith also thanks you on stage for making her "Love At The Five And Dime" a top five song.

KM: I really like discovering new people. A new writer is like a gem. Now Nanci's making records on a major label, and Tim's getting some bites from the majors. It's really neat to see awareness of those people take off.

CH: How did you start working with Craig Bickhardt?

KM: I met Craig through Wendy Waldman. I'd been a fan of his writing, and I'd gone to hear him sing. He and Allen were working together and I had been real curious about the stuff they were doing--this was before he joined S-K-B--"S.O.B."--is what I call them (*laughs*). He had been working with Allen on some stuff he'd written, and they were talking about getting a record deal with it. Then S-K-B came up and he decided to do that. I told Allen I'd like to

hear the project, and it was another thing I just couldn't take off the tape deck. When "Untasted Honey" came out, I just flipped out. I loved the song. Craig said he never would have thought to pitch it to me. We got him into the studio and wound up using him on a lot of the record.

CH: You been on the Marlboro tour with George Strait for the past couple of months. What's George like to travel with?

KM: Well, George is a pretty shy guy, you know. He's not real controversial. There's no real dirt, but I tell you, watching the women in the audience has been as much fun as watching him. I saw a woman faint one time. You can see them, they're sitting out there and they're waiting for their chance. You just know they're trying to talk themselves into jumping up on stage. In Austin, this one woman went for it. She put both arms around him and they tried to pull her off so she wrapped both of her legs around him. She made it onto the front page of the paper the next day.

CH: I bet George doesn't know how to handle that.

KM: He is sort of oblivious to it. It's funny. He can be real flirty in a subtle way on stage, but it doesn't seem to faze him. He doesn't have a big ego about it. He's a real *normal* guy. You'd never know he was a big star. The first night we played with him, he went into the hotel bar and I didn't even recognize him. I passed him in the hallway.

CH: Are you going back out on that tour soon?

KM: Oh yeah, I'd go any day of the week--I'd change my wedding for that! Marlboro is like the Rolls Royce of tours.

CH: How big is your road band?

KM: I've got five pickers and one backup singer. John Thompson, my singer, has sung on my records, and we've known each other since grade school. I convinced him to move to Nashville with me. I'll use the band in the studio if there's a tune we've been doing in the show that we want to put on an album.

CH: Who are you listening to now?

KM: Lyle Lovett gets played in my house a lot these days. We just bought the new record on CD. I still listen to Craig's stuff a lot. Tim O'Brien sends me demo tapes and I play them like records. I haven't been home very much to listen lately, so I have a stockpile of new albums at home I have to get to.

CH: How does it feel to have your first number one?

KM: Oh, it's incredible! I've been doing this four years, waiting for someone to pick up the phone and tell me that one day. I don't need a number one for my ego, but it's a real nice perk. Between that and getting married, I don't see how things could get better. We have as much work as we want, and the band is happy and we're playing well. I'm still learning. ●

Notes from tube-side on Grammy night:

So we're expected to take Dan Rather seriously as a journalist after watching him give a standing O to Run DMC? Right. Tell it to George Bush.

We noted that Ms. Whitney H., upon accepting her award, thanked God and Clive Davis IN THAT ORDER. We suggest she get her priorities straight before accepting Whitney III next year. PS: We don't wanna say she looked skinny, but on his last diet, Danny Davis lost more than she IS!

So Jody Watley is the best "new" artist of the year...meaning that those days with Art of Noise and Shalamar didn't count. AND we have it on good authority that she also put in stints with The Count Five and Kasnenetz-Katz Singing Orchestral Choir.

The people whose view was blocked by U2's headwear plan to sit behind Men Without Hats in '89.

Thank you, Little Richard. We don't know anyone else who could have rendered Buster Poindexter speechless. It was also good seeing Dion, but nary a Belmont was in the house. Can we have the Belmonts next year? I mean, we've had the Pips—why not the Belmonts?

Mrs. Hollywood thought the funniest part—funnier than Billy Crystal, funnier than Jackie Mason, even funnier than Little Richard, was Vladimir Horowitz being followed by audience shots of Emilio and The Jerks! Mrs. H. pictured the Vlad-man's missus watching the tube in befuddlement. Our favorite juxtaposition was the classical and opera awards followed by rhinestone-jacketed George Strait whining "All My Ex's Live In Texas." If they'd had it on "Twilight Zone," you'd say they were overdoing it. Our favorite camera shot was Quincy Jones during Jackie Mason's black-guys routine. The man's lips were tighter than Whitney's pants.

No one won more than two Grammys this year, which could be a good career omen for those concerned about the Christopher Cross jinx.

Because of Grammy's eligibility restrictions, it seems some of the winners have passed recurrent and gone into Gold rotation. And considering the West Coast tape delay, it's a wonder we're not getting "Saturday Night Fever." We may skip the interminable proceedings next year and read about the whole thing in USA Today. Egg McPaper does a nice job with that sort of thing.

Unless we're invited.

GRAMMYS

&

OTHER GRIPES

HERE'S TO THE WINNERS

A Hollywood Column tip of the Oriole cap to all Gavin Award winners. The glory which accompanies such celebrity has already gotten to a few of you. B100's Gene Knight now takes calls ONLY between 3 and 4 a.m., or just after he and ladyfriend Lorre have closed every bar in San Diego. A&M's Jon Konjayan now only calls WKYE's Jack Michaels on alternate Yom Kippurs, and Island's Bob Catania won't TAKE any calls from KATD's Bob "We're Off To Jamaica 'Cause We Won The Trivia Bowl" Harlow. Fame can get to people. Wait 'til Harlow learns he's going to Jamaica...LONG ISLAND! We know all about it. WE won a Gavin Award once ourself. They were on stone tablets in those days. We're due for another.

POWER SEEKERS

We agree with Johnny Carson that, of the full crop of Presidential candidates, Paul Simon SHOULD have had the best shot. Yet he seems to have descended into the toilet, proving once again that sex appeal isn't everything. Gephardt's eyebrow darkener doesn't seem to be helping him. Pat Robertson's smile is a smile which should be wiped off his face. Dukakis hasn't a prayer because America isn't likely to put a guy in the White House whose name sounds like something a dog does. Gore has lost the

Heavy Metal vote thanks to his lovely wife Tipper. Bush sounds like Rich Little doing Jack Nicholson. Dole is making Nixon look good to us—he's got Tricky's hairline and wears the same purple polyester tie at every appearance. Jack Kemp, like Gerry Ford before him, clearly played too many games without his helmet, and Jackson wakes up the neighborhood AND the dead every time he yells, er, speaks. Hart, meanwhile, is still off in a space capsule listening to Vaughn Meader albums.

We think Bill Bradley should enter the race. With a decent outside jumper and a personal friendship with Walt Frazier, he's the ideal guy to step up to the free throw line of life. We'd nominate him in a New York minute and suggest that he bring in Mary Lou Retton as Secretary of Cuteness.

POSTSCRIPT SWAGGART

What about Jimmy Swaggart for President? He tickles a mean eighty-eight, gives great speech, has enough hair, is related to Mickey Gilley AND Jerry Lee Lewis, has plenty of dinero, cheated on his wife like JFK, sounds down-home like LBJ, yells like Jesse and most important, knows what "luge" means. If he doesn't run, we hope he will bring his communications skills to radio. I mean, this guy could sell a chin enlarger to Scott Shannon. THIS guy could sell Nehru jackets to The Lime Spiders. We have it on fair authority that Tony Davis of KVIC is already negotiating with Jim-Bo for a p.m. drive spot, and WCWQ's Michael Johnson has already met with Swaggart's mouthpiece. If you want to get in on the ground floor, now's the time, bunky. This guy is HOT!

IDENTITY CRISIS

Howie Klein of Sire Records recently sent us a note asking if we were the SAME Tony Richland who writes for the Gavin Report. We'd like to inform him that we are NOT! We're the Tony whose columns have been shredded by Diane Rufer. WE'RE the Tony who bought hundreds of cocktails for all of you at the recent Medium Professionals Seminar. WE'RE the Tony who steals one-liners from Bob Galliani and uses them in real life. Howie, the Tony to whom you refer is the Tony who came in 27th in cross-country luge downhill compulsory Triple Sow Cow Greco-Roman bobsledding. Hope that straightens you out. ★

IT WAS A HAPPY 30TH

The third annual Gavin Seminar for Media Professionals, the modern version of the Radio Programming Conventions which Bill Gavin invented in the 1960s, also marked the thirtieth anniversary of the Gavin Report itself. As in the past, this was a "working meeting" —with sessions planned to accomplish something! Deservedly, it was the best-attended yet, with some 1,200 registrants. Close to half of that total came in the last month, and a significant number just walked in and signed up as it began.

This came as quite a surprise to the Gavin staff and to the staff of the Westin St. Francis Hotel. It is to the credit of both organizations that they were able to produce what seemed to me to be another flawless meeting.

Since this year's attendance not only surpassed last year's, but represented absolute capacity for such events as the Celebrity Cocktail party and Awards Banquet, it appears certain that there will be a limit on registration next year. To the best of my knowledge, this would be unique in the history of such events, and if it does happen, I fearlessly predict that some people will not believe it. They will travel to San Francisco intending to register on arrival, and be turned away. Moral: Budget this year for next year's convention—and register early!

I have a couple of quotes from the Seminar, but I got so engrossed in the "Top 40/Urban Contemporary Faceoff" in which they arose that I find I forgot to write down attribution. As I recall, the first one, and perhaps the other one, too, came from Buzz Bennett, Y95-Dallas:

"I've been thought of as having killed 'personality' on my radio stations, but now I think personality is the most important element on the radio station!" And: "Execution is more important than music."

Both struck me because they are what programming is all about—the package into which we put the radio "product." Many PDs nowadays miss the point. They put the music together the way they want, and figure they've done most of their job. That's certainly important, but the personality of the station is what brings people back. If the music is right and you have no direct competition, you'll still have the audience—til somebody changes format and puts their own music mix on the air. Maybe it isn't any different

from yours, but the novelty alone will lure listeners. Only if you build a clear station identity will listeners be reasonably loyal. And the way to build a station which competitors cannot chip away is to define the station's concept, translate that definition into the various elements of the format, then make sure it is executed properly and consistently by people who express themselves in a concise, yet interesting way.

The same session brought home to me how many PDs these days are aware of their stations' billing. This is constructive, and perhaps a little surprising. Many GMs don't like to have programming people aware of the billing. If it's good, they reason, the PD will just want a raise. And if it's bad, he or she might head for greener pastures.

This is shortsighted thinking. The sales side is there to sell the product which the programming side creates. The PD must have the full confidence of the GM and the sales staff to create a salable product—and to make sure they understand the merit's of what they're trying to sell. And it is foolish for the GM to expect the PD to be concerned about the station's success as a business without having input into what the business success of the station is.

In his workshop on Basic Production Skills, Bobby Ocean made several very important points about radio commercial and promo production. To recap a few of them:

1. Before you start writing the script, reflect on the purpose of the announcement, then write it to get that purpose across.
2. When writing and especially when producing the script, accent the highlights of the copy. In a similar session years ago, Casey Kasem called this "putting handles on words"—using phrasing, timbre, different dynamics, as well as production music and sounds. Make sure the production enhances the message instead of burying it.
3. Your delivery reflects an attitude. What attitude fits this announcement best? Bobby gave the example of "bringing it down" for intimate copy by thinking of the microphone as a woman's ear.
4. Simplify whenever you can to enhance communication.
5. Use your imagination!

Only if you build a clear station identity will listeners be loyal.

6. Don't compromise. Give every announcement your very best shot. Every client deserves it...and who knows which spot will be heard by someone looking for a production talent in your market?

Bobby Ocean is a great teacher. He dwelt on the basics, yet used the very talents he was teaching to enhance his own communication and motivate those attending to use his suggestions.

In classes I've taught, I use the word "attitude" in telling students how to portray their own personalities on the air. As I've pointed out before, radio is uniquely able to evoke an emotional response in the audience. The attitude of the person on the air influences the attitude of the person listening. If you sound happy, they feel happy. If you sound bored, they feel bored and tune away. "Does that mean I have to act?" students ask. "Don't I have to be myself?" The answer to both questions is "yes." Of course you must be yourself. The intimacy with the listener is too great to try to get away with anything else—they can always tell. But you can portray yourself in various emotions. Surprised. Authoritative. Questioning. Angry. Assertive. Intimate. The whole gamut. And in this sense, it is acting—method acting. You are portraying yourself in the attitude the moment calls for. This is how air personalities affect their audience's response to them on the air—and, as Bobby pointed out, to their production as well. ●

THIRTY YEARS OF BOOSTING COUNTRY MUSIC

A TALK WITH JO WALKER-MEADOR

By Lisa Smith

Like the Gavin Report, Nashville's Country Music Association is celebrating its 30th anniversary this year. During those three decades, the organization has devoted its energies to promoting and preserving Country Music wherever it is found. Jo Walker-Meador has played an integral part in the CMA's development into music's most active trade association. Jo was first employed with CMA in 1958 as Office Manager. Shortly thereafter, she became its Executive Director, a position she has retained ever since. Jo has assisted the CMA in establishing many important events and activities, such as the Country Music Hall Of Fame, the annual Awards Show, and Fan Fair (with the Grand Ole Opry). Jo has been recognized for her contributions to the Country Music industry many times. In 1970, Nashville presented her with the city's Metronome Award, given each year to the person who has done the most to further Nashville as an entertainment center. In 1981, she was named Lady Executive of the Year by the Nashville Chapter of the National Women Executives, the SESAC Ambassador of Country Music and received the BMI Commendation of Excellence.

LISA SMITH: What caused the CMA to get started?
JO WALKER-MEADOR: It actually grew out of the Country Music Disc Jockey Association. It had been formed around 1955, but by 1958 they were folding. A number of music industry people were very interested in that organization. They felt there was really a need for an association which would encompass all phases of the business. Some of the people instrumental in getting it formed were Wesley Rose, W.D. Kilpatrick--who at that time was manager of the Grand Ole Opry--Connie B. Gay--who was a broadcaster and an entrepreneur in other areas promoting Country concerts. They got the charter for the CMA in September of '58, and had the organizational meeting during what was then called the Country Music Disc Jockey Convention. They started out with about 250 people. What really prompted its formation was the

onset of rock n roll music. Things were starting to look quite bleak for Country music. A lot of stations switched to Top 40, or if they had segments of Country--block programming--they were starting to drop them.

LS: How did you try to counteract that trend?

JWM: We had some good broadcasters who would go out to markets and teach them how to program and market Country music. Of course, at the same time, we were doing presentations in the major advertising communities--New York, Los Angeles, Chicago, Detroit, Toronto--anywhere there was a major concentration of advertising agencies. We were helping stations primarily, but anybody who dealt with Country music, helping them to get more buys. We don't really do that anymore, but we do other things in that general area because, unfortunately, it's a constant educational process of what Country music is. Young media buyers don't listen to Country music and they have the wrong perception of what Country music is.

LS: Along the way, you went from 250 members to how many, now?

JWM: We have about 7,300 individual members, and about 500 organizational members. After a few years, the number of Country stations just grew on its own, from 81 in 1961 to more than 2,200 today. As the number of stations

grew, the pie became larger all the way around. As there became more Country radio stations, more Country bands were formed. As more Country bands were formed, more people started buying their records and attending their concerts.

LS: What's the relationship between the CMA and the Country Music Hall Of Fame?

JWM: One of the purposes of the Country Music Association was the preservation of Country music, and honoring people who made Country music what it is. We began to elect people to the Hall Of Fame in 1961. Of course, we had no facilities. We had to house the original plaques in the Tennessee State Museum. We began talking and dreaming about a building, and in 1963, the first plans were presented to the board. We began raising funds in '64. We sold two albums, mostly via television. It provided us for the first time with funds so that we didn't have to worry about making ends meet. The industry contributed most of the money to build the Hall Of Fame, and then we had a public fundraising drive here in Nashville. We actually opened to the public April 1, 1967. In the mid-'60s, we formed the Country Music Foundation, a charitable and educational institution, to operate the Hall of Fame, and the museum, the library and media center. We then separated the Foundation and the Association in 1971. The only thing now that CMA has to do with the Hall Of Fame is handle the

election of the people. Everything else is done by the Country Music Foundation.

LS: What are some other accomplishments that the CMA has made over the last thirty years that you're the most proud of?

JWM: We started the award show in 1968, and that grew in popularity. It started to be the place that people in the industry wanted to be. It got so big that we started Fan Fair in 1972 to try to do something special for the fans separate from the industry convention. Of course, Fan Fair has grown from 2,200 people to having to cut off the registration at 25,000. The Country Music Hall Of Fame, Fan Fair, the awards show, the caliber of the awards and the quality of the television show itself I think had a lot of bearing on helping people get Country music on television. Also, we're a great source of information, probably lots more than even our membership realizes. I think those are our major accomplishments. I think we've changed a lot of perceptions, but our work is still cut out for us there.

LS: Do you think that the purpose of the CMA has changed over the years?

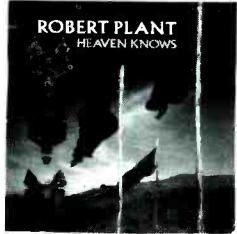

JWM: No, I don't think it has changed. I feel that the different things that we do have changed through the years and have been broadened as the needs and the resources arise. Certainly some of the things that we did in the early days we don't need to do any more. A lot of our main thrust in recent years has been on the international level. We opened an office in London six years ago. We knew it would take three to five years to really have an impact. First of all, we got a Country music chart in the leading music trade magazine--*Music Week*. The record companies support that with ads, and we have gradually gotten more and more Country music coverage in there. They have even done short specials on Country music. In the last two years, we have done a merchandising campaign. All the record companies worked together to support it, both financially and by getting the artists over there to do press. This June, we're also going to do concerts. There will be about ten artists. Ricky Skaggs is involved, and the others are mostly new artists. We hope to expand next into Germany. ■

THE MIGHTY LEMON DROPS

NAKED-TALKING HEADS (FLY/SIRE)

This is a fantastic album by the masters of whatever they put their minds to. **Talking Heads** borrow heavily from French-oriented African and Caribbean Zouk music forms (brilliantly chronicled on **Virgin/Earthwork's Hurricane Zouk** compilation), creating one of this year's most exciting projects. The opening track, "Blind" and the super hot Latinized "Mr. Jones" utilize two radical methods of horn arrangement coupled with innovative guitar work. Like **Paul Simon's** *Graceland*, the music was born before the lyrics, not because of any language barrier, but rather to preserve as much musical freedom as possible. **David Byrne's** lyrics, especially "(Nothing But) Flowers," "Totally Nude" and "The Democratic Circus" are provocative and filled with strains of off-beat humor and observation. All four Heads brought lots to the party this time around. Naked shapes up as their friendliest effort yet.

SMITHEREENS

"ONLY A MEMORY"-SMITHEREENS (ENIGMA/CAPITOL)

Smithereens continue to lead us through an incredible music week. "Only A Memory" puts **Smithereens** to the forefront of their artform--that is, the fine lacerating art of murder by quartet. Wasn't it **Mark Chernoff** of **WNEW FM** who pushed these guys first?

"IT'S SUCH A SMALL WORLD"-RODNEY CROWELL AND ROSANNE CASH (COLUMBIA)

Scott Murray of **KVRE** blew the whistle on this super Rodney and Rosanne duet. Uh-oh...wait a minute. **Rodney** and **Rosanne** are supposed to be country artists. Back to your **Kingdom Come** records, all of you.

"WAITING FOR THE FLOOD"-LOVE & ROCKETS (BIG TIME)

Here's the scoop, **Jacko**. The promotional CD contains "Waiting For The Flood," geared towards following up the Album Radio success of "No New Tales." Meanwhile there's a bonus re-recording of "Mirror People." The "Copyright 1984" is obviously a slip-up. This is all new stuff.

NEW Releases

jo-el

SONNIER

COME ON JOE-JO-EL SONNIER (RCA)

While *Come On Joe* is certainly not **Sonnier's** (pronounced SONE-YEY) debut album (**Sonnier** portrayed the singing biker in the **Bogdanovich** flick, *Mask*), this will be many's introduction to this superb talent. Appreciation is multi-fold. First, check the material--songs by **Dave Alvin**, **Richard Thompson**, **Moon Martin**, **Dennis Walker**, **Randy Newman** and **Troy Seals**. But wait, there's more! **Jo-EI** is partly cajun-influenced, though his delivery is a more modern yet authentic high-tech American treasure. Allegedly the road show is a heart-stopper. If, like me, you were hopelessly addicted to **Steve Earle's** *Exit 0* CD, **Jo-EI's** LP is the perfect narcotic. The "Country" single is "No More One More Time." Also check "Baby Hold On," "Paid The Price," "So Long Goodbye" and the **Cray Band's** bluesy "I've Slipped Her Mind." Kudos to **Cyndi** of our **Gavin Country** department for slipping this one in my listening pile. This one is sure to crack our end-of-the-year Best-of list.

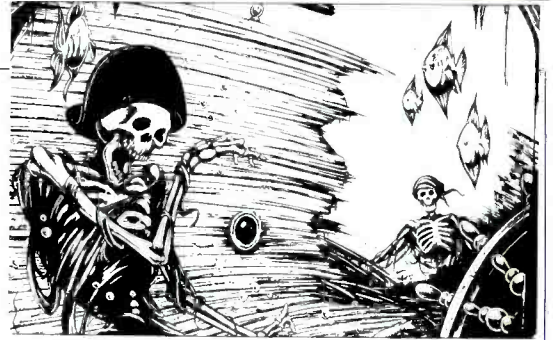

"BROKEN LAND"-THE ADVENTURES (ELEKTRA)

"Broken Land" is a contagious sleeper track that has been attacking us. It's a very intelligent, finely-crafted song. No wonder it showed up among this week's Most Added.

"CENTURY'S END"-DONALD FAGEN (WARNER BROS.)

"Century's End" is **Donald Fagen's** first radio ride since adult demos became all the rage. While **Fagen** prolongs the pain of releasing more new material, this taste of the **Bright Lights**, **Big City** soundtrack should drive adult Album Radio bonkers.

IN THE SPANISH CAVE-THIN WHITE ROPE (FRONTIER)

Enough energetic **Thin White Rope** to hang you and your whole family. Like label mates **EIEIO**, **Thin White Rope** seem to be proud Americans minus the sickening patriotic afterglow. The drummer pops, pushing **TWR's** tunes past the ozone layer. Just the right measures of raunch and good clean playing distinguishes this record amidst a highly competitive week. Trax: "Mr. Limpet," "Ring" and "Elsie Crashed The Party." Crash the party.

Stand and Deliver

"STAND AND DELIVER"-MR. MISTER (RCA)

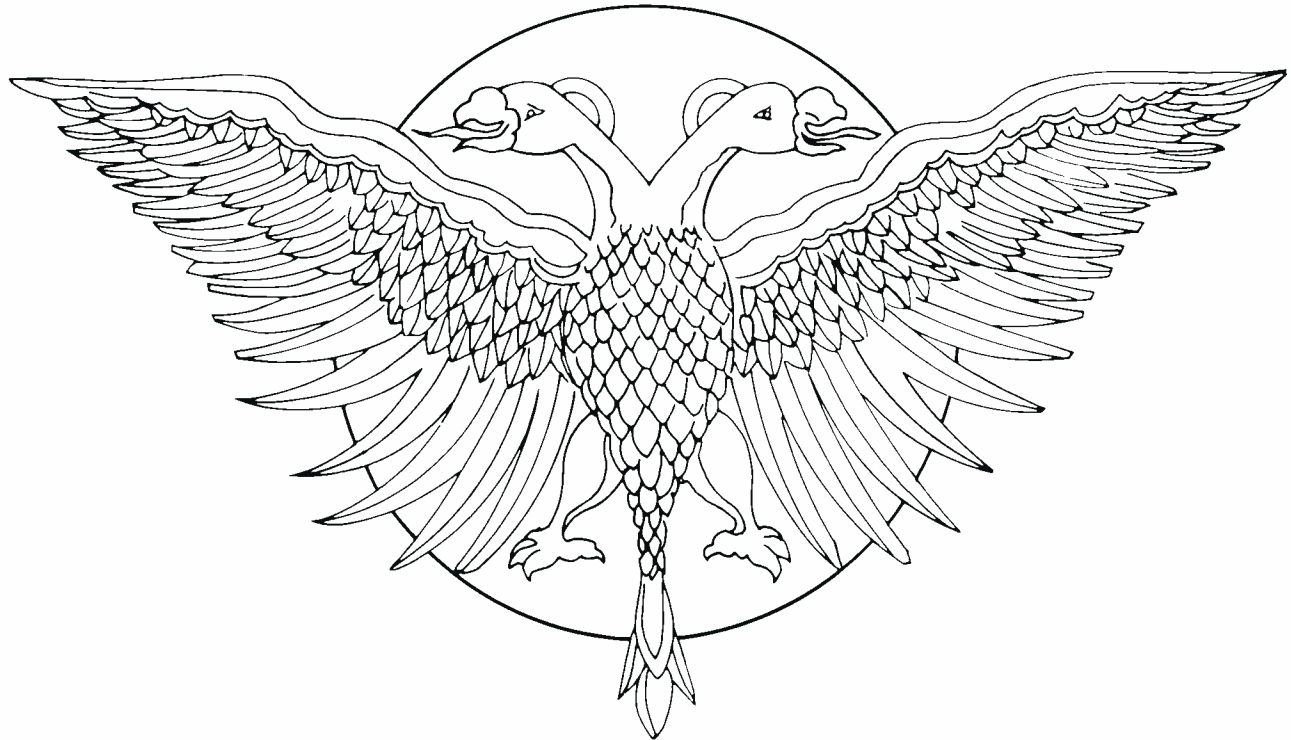

It's a strong song that changes the name of a movie, which is what this **Mr. Mister** track did. I predict this movie, starring **Miami Vice** and **La Bamba**, will crack this tune open, rescuing **Mr. Mister's** overlooked LP.

LITTLE LOVE AFFAIRS-NANCI GRIFFITH (MCA)

One of the pleasures of chatting with **Gavin** stations and assorted music folks is that quite a few of you are of the open-minded persuasion, unafraid of a **Lyle Lovett**, **Steve Earle**, **k.d. Lang** or a bitchin' **Foster** and **Lloyd** disc. If your audience thrives on cool songwriters, give a listen to **Nanci Griffith**. Here's a singer who reveals her influences via her album covers. This time there's a couple of **Larry McMurtry** novels, another book by **Edna O'Brien**, a vintage **Waylon** LP, a **John Stewart** album and an **Everly** CD. **Nanci Griffith** is a marvelous writer and an innocently pure singer. *Little Love Affairs* is a songbook of little love affairs. I'm hooked like a dog. Start with "Anyone Can Be Somebody's Fool." P.S. to **Nanci**. I have the original issue of that **Waylon** LP at home on the shelf. **KZ**

INSIDE ALBUM

AROUND THE HORN. I go along with **Don Moody** at **KYJR-Wenatchee**. **Pat McLaughlin's** "No Problem" is one of the best trax on the McLaughlin debut...**Jeffrey Damon** at **WMVY-Martha's Vineyard** needs MCA service. He listens to it all--from rock n roll to jazz to all kinds. Phone him at 617-693-5000. Address is Box 1148, Vineyard Haven, MA, 02568...**Carol Handley** at **KEZX-Seattle** is having good luck with a few leftfielders--**Ian Matthew's** "Following Every Finger" and **William Orbit's** "Via Caliente"... We heard it first from **WRSI/FM-Greenfield, MA**. The latest import from **Prefab Sprout**, "Cars And Girls" is thumbs-up...According to **Doug Clifton**, **Robbie Robertson's** "Crazy River" is still the most popular song on the **KBCO** list...**KQWB's** Ty "Jacko" **Banks** reports **Godfathers** and **Midnight Oil** still in hot. Hottest Plant track is "Tall Cool One"...**D.A. Collins** has **White Lion** in hot hot hot. Big phones on **Henry Lee Summer**, especially with the ladies...Speaking of **White Lion**, **Atlantic's** **Judy Libow** reports the band should turn gold this week.

HAPPY BIRTHDAY WBCN. **WBCN** turns the big two-zero as of Tuesday, March 15. All through March and April, Boston will be drenched in festivities starting with lunch concerts by **O Positive**, **John Brannen**, **Terence Trent D'Arby**, **Big Dipper** and those **Godfathers**...**WNEW/FM** adds a cool twosome this week--**Robyn Hitchcock** and **Talking Heads**. Is that **Lorraine Caruso** shaking things up again?...**New MD** at **WAAW/FM-Murray, KY**. **Tommy King** debuts as Music Director while **Gary Powley** is PD.

ADIOS AMIGO. **Gregg Steele** reports that as of this week, **KNOX/FM-Grand Forks** will no longer broadcast Album Radio music. They switch to a satellite country system. Thanks **Gregg**, and keep in touch...Another **Happy Birthday** to **WONE-Akron** who celebrated their third with a bash starring **Stevie Ray Vaughan** and the **Fab T-Birds**. 6000 folks were on hand, according to **Mike Michelli**...**Kurt Naumann** at **KTBC-Nacogdoches** swears that they've moved a hundred A.C. Reed albums thanks to dedicated airplay...**Ron O'Brien** is reporting #3 phones on **Toto** at **KATS/FM-Yakima**. On his shift, he got a 39 year old requesting **Henry Lee Summer**.

SKY DANIELS RETAIL REPORT. "Stand inside any record store in the Bay Area and you'll hear **Sinead O'Connor**," says **KFOG's Sky Daniels**. "It's incredible!" **KFOG** adds this week include **Live For Ireland's U2**, **Talking Heads**, **Pat McLaughlin's** "Wrong Number" and "Lynda," **Sting** and, of course, **Sinead O'Connor's** "Mandinka"...The solo

KINK add this week was **Johnny Hates Jazz...Charlie Turner** at **WKXE-White River Junction, VT**, is switching air shifts and music call hours. You can reach him at 802-295-3090 from 11:30-1PM, Monday through Friday, East Coast Time.

ROBERT PALMER'S ADDICTED TO HARD ROCK. Hey, that really was **Robert Palmer** on the line, making a round of calls. He admitted to being surprised at the acceptance of "Sweet Lies," from the movie starring **Treat Williams**. "It's a black

comedy of sorts." His new album is currently in the mixing stage. Entitled **Nova**, "It's a combination of hard rock, strings and vocals and bossa nova. The first single will be entitled "Simply Irresistible," a hard rocker." Of the twenty trax to choose from, a half a dozen were cut twice, once with **Palmer's** band (including guitarist **Eddie Martinez**) **AND** with **Scorpions**. "Selecting which versions to include will be a pain-threshold decision," **Palmer** admitted.●

INSIDE ALTERNATIVE RADIO

by **Peter Standish**

Robyn Hitchcock holds onto #1 for the 7th consecutive week, but shows signs of wear. **The Church** continue to gain airplay and could make a pitch for #1. **Midnight Oil** and **The Godfathers** are still strong with tours about to commence. The **Oil's** tour has been bumped back a month due to an unfortunate accident...check out **Biofeed-back** (on page 28) for the details. **The Woodentops** are sawing through the top ten with a buzz for **Mike Thomas-WMDK**, **Lisa Securo-WUNH**, **Brett Greene-KUNV** and **Doris "Jello" Duwe-WTSR**. **The Mighty Lemon Drops** are right behind the **Woodentops** and squeezing juicy response from **Tim Ziegler-KUSF**, **Rob Maxwell-WPRB** and **Deb Brady-WXXP**. Overshadowed but undaunted, **Big Pig** seems bent on reaching the top ten with the bacon backers **Mike Summers-KJQN** (the new call letters and frequency for the former **KRPN**) and **Margaux Tennenbaum-WUOG** (her last week as MD). **Zodiac Mind Warp** is bending the minds of **Faith Henschell-KCMU** and **Steve "Air" Balcom-WXYC**. **Drivin' N' Cryin'** are on a roll, improving their chart points by 25%. Last week's **Record To Watch**, **Tackhead**, pulls in the highest Certified debut behind **Leigh Lustberg-WNYU** and **Bruce McDonald-WFNX**. The new Fall album "The Frenz Experiment," is also very successful for **Jason Cohen-WNUR** and **James Lien-WTUL**. Also Certified, the **Talking Heads**, were second Most Added and will waste no time soaring to the top ten. Immediate response has been heard by **Helen Urriola-WFIT**. Keep your eyes peeled for an exclusive **Gavin** interview with **David Byrne**. **Morrissey** sits atop **Chart-bound** about to leap next week. This was the most talked-about record of the week, with ravers including **Denis McNamara-WDRE**, **Deb Brady-WXXP** ("Screamer of the Week"), **Kandy Wilkens-WXCI**, **Susan Kennedy-WWVU** ("#1 requested), **Jetson-**

WOXY, **Mike Marrone-WHTG** (burning...#1 requested") and **Lin Brehmer-WXRT** ("our audience would respond to their droplets from the sky"). **The Blue Hippos** are our **Record To Watch** behind a big 30% jump in chart points. **Mark Miller-KABL** has been talking about this band for weeks, and he's not the only one having success with it. **Mark** also notes big response to a large group of local **Twin Cities** bands, **TVBC** and **Playhouse**. In fact, **KABL** has started a feature around it called that "That Local Thang." **Bruce "Suite" Flohr-KCPR** did a **Balancing Act** promotion where they gave away 140 tickets to the show and then broadcast the sold-out show live over the air. In **Buffalo**, **Adam Langley** wants everyone to be aware of two new killer clubs that are essentially "booking the 'BNY playlist,'" the **Jam Club** and the **Pipe Dragon Club**. Enjoy your spring training news..

SPOTLIGHT LP

"Kidney Bingos" - WIRE (Mute/Restless-EP)
How do you follow up "Ahead," one of 1987's best songs? Simple, with one of 1988's best! **Wire** are brilliant at creating a mood. While their river of songs runs emotionally both cool and warm, "Kidney Bingos" is scalding with its striking rhythm and guitar hook. Sure to flood the **Alternative** top ten in the coming weeks. **Chris "Slick" Watts** is the man to contact at (213) 640-3772.

"Reach" - MARTINI RANCH (Sire-12")
The operative word in this band's name is "Ranch," as in the wild west variety. **Martini Ranch** mesh the best of new high-tech pop with a taste of spaghetti western, or **Ennio Morricone** meets **Oingo Boingo**. The hook here is about as subtle as an **Eastwood** magnum force and should fire up dance floors and radio listeners.

INSIDE COUNTRY

THE CORRECT TIME IS...Last week when we told you about our new deadline, we said it would now be at 10 a.m. What we neglected to say was 10 a.m. WEDNESDAY - please feel free to call in before or after 10 on Mondays and Tuesdays. Honest, we weren't trying to make you all get up earlier in the morning. Sorry for any confusion.

AWARD WINNING COUNTRY. The Academy of Country Music's Fran Boyd was kind enough to give us the early word on the ACM winners in the radio division. They are: Disc Jockey Of The Year - Jim Tabor, WMC/Memphis; Station Of The Year - KNIX/Phoenix; Nightclub Of The Year - Crazy Horse Saloon/Santa Ana, CA. Congratulations to all of you.

PROGRAMMERS ARE TALKING ABOUT...P.J. Emmerson at KFAT/FM-Corvallis says one of their top requests is for Los Lobos. They've been getting requests for "One Time, One Night" since they started playing it from th LP. Carl Brown at

KNEW/KSAN-Oakland/San Francisco reports "The Ballad Of Gary Hart" by John Denver received 1,000 calls last Friday through Monday. It's now averaging 100 calls a day. Kevin Stuart at KXKW-Lafayette notes that the title cut from George Strait's new "If You Ain't Lovin', You Ain't Livin'" LP is pulling in as many requests as the single. Clif Desmond at WTRS-Dunnellon says his listeners are going crazy over George Jones' new single. Adds Clif: "This is just one hell of a song." Rick Friday at KICD-Spencer is getting requests for the "Dr. Dr." cut off K.T. Oslin's album. Lee DeCastro at WZYQ-Frederick reports Jo-EI Sonnier's album is so hot they can't keep it in the stores. Lee also told us that he was watching the movie "Mask" (you remember, the one with Cher) a few nights ago and, lo and behold, there was Jo-EI playing a character named Sunshine, a singing biker. You heard it here first.

RECORD TO WATCH. The Becky Hobbs single really took off this week. Among those reporting hot, hot phones are Al Parker at

WGUD- Pascagoula, Steve Small at KKAA-Aberdeen and Ron Scott at WKKN-Rockford. 40 more stations added it this week, including WAAX, WOKD, KGA, KTFX, KWZD, KBRF, WFPR, KOKK, WRBI, etc. Talk to you next week.

REVIEWS

By Lisa Smith & Cyndi Hoelzle

ROSANNE CASH - "If You Ever Change Your Mind" (Columbia) This is the kind of song that Rosanne is so good at -- a variation on the "Why you don't want me?" theme. (it's hard to imagine someone who wouldn't, Rosanne being one of the most desired women in Country music.) She calls it "swamp music." We call it good.

MICHAEL JOHNSON - "I Will Whisper Your Name" (RCA)

Michael's back to playing the balladeer with this Randy Vanwarmer tune. The first cut from his up-coming THAT'S THAT album, it's reminiscent of "Give Me Wings." If there is a standard "Michael Johnson sound" this is it.

DESERT ROSE BAND - "He's Back And I'm Blue" (MCA)

Country veterans Chris Hillman and Herb Pederson have consistently put out great music in their "new" band, and this single is no exception. The harmonies grab you deep down, and the lyrics are classic heartbreak. Many programmers are already hip to this song, and have been playing it as an album cut.

SWEETHEARTS OF THE RODEO - "Satisfy You" (Columbia)

Sweetheart Janis Gill teamed with Don Schlitz to write this very commercial number. For a group that's still relatively new, they sound like seasoned pros.

INSIDE URBAN RADIO

NEW DEADLINE: Wednesday 9AM PST

We have a new number one record: MICHAEL JACKSON jumps from 3-1, with moves made by TERENCE TRENT D'ARBY to number four and TEENA MARIE to number 5. Mikki Spencer, WKIE-Richmond, is getting great phones on D'ARBY from all demos, and Steve Crumbley, WOWI-Norfolk & WPDQ-Jacksonville, says, "That's a killer—number one on phones at both stations!" Certified title goes to MICO WAVE, reported by Tony Scott, WEKS-Atlanta, as getting adult demos, and Mike Smith, KXZZ-Lake Charles, as "...an excellent ballad in the Roger tradition, getting major requests from 18-34 females."

As the week progressed and John and I asked for your record to watch, we could almost write down the "S" before you answered: Everybody's watching SUAVE, SWEAT and SURE! Since we made SURE! two weeks ago's RTW, we can brag that 17 stations added it last week and 18 more added it this week, including WHUR-Washington, WKIE-Richmond, WOWI-Norfolk, WXYV-Washington, WHRK-Memphis, WBLX-Mobile, WEKS-Atlanta, WJTT-Chattanooga,

WJYL-Louisville, WPDQ-Jacksonville, WQQK-Nashville, WRDW-Augusta, WLUM-Milwaukee, WZAK-Cleveland, KKDA-Dallas, KMJQ-Houston, KJLH-Los Angeles, and KKFY-Seattle. Last week's RTW, KOOL MOE DEE, is going wild, wild in more than the West. Joe Bullard, WANM-Tallahassee, says, "It's no secret that it's hot." Ty Bell, WYLD/FM-New Orleans, has teens calling for it, as does Tony Scott, WEKS-Atlanta, and Rickey Lyles, WRAG-Carrollton. It's been added at WUSL, WJDY, WBIL, WEAL, WPEG, WRAG WYNN, WNOV and KJLH. This week's RTW, JEAN CARNE's, written by Aretha and Carolyn Franklin, was produced by Nick Martinelli and added at WJDY-Salisbury, WUSL-Philadelphia, KRNB-Memphis, WEKS-Atlanta, WKXG-Greenwood, WQQK-Nashville, WXVI-Montgomery, CBLS-Minneapolis, and on at WPEG-Charlotte, WPZZ-Indianapolis and KDLZ-Ft. Worth. Mike Love, WUSL/FM-Philly, added it as his record to watch, and Rick Stevens, WCKX-Columbus, says, "It's bad!" Earl Boston, WFXM-Macon, stated that the new PEBBLES, "Mercedes Boy," should be a great follow-up to "Girlfriend."

He expects it to do very well. Alton Palmore, WQIC/FM-Meridian, uttered almost the exact same words, saying it should go top ten. Earl also says the ERIC B AND RAKIM is generating great phones with teens and young adults. Steve Harris, WCIN-Cincinnati, commented on the BRENDA RUSSELL getting requests, a quality record (one of Gavin's favorites) getting good airplay and phones. A.B. Welch, KQXL-Baton Rouge, says the RENAUD single "The Way You Look At Me" is going places. Ciao for now. Betty

DAVE SHOLIN'S PERSONAL PICKS — SINGLES

PET SHOP BOYS - *Always On My Mind* (EMI-Manhattan)

Cheers to whoever came up with the idea to turn this stirring Country ballad into an uptempo dance tune. Willie Nelson and Elvis Presley each made this song a special part of their performances, highlighting its classic lyrics. For those who remember it, and for the new audience that will be hearing it for the first time, this version is certain to stand out of the pack. After hearing it on San Francisco's LIVE 105 for the past month, I can vouch for how great it sounds on the air.

FOREIGNER - *I Don't Want To Live Without You* (Atlantic)

It's ironic that what most people consider a rock 'n' roll band has found its biggest Top 40 success with quiet love ballads. Writer/Producer Mick Jones has created another beauty that deserves to be stamped OBVIOUS for Top 40 and A/C radio.

3 MAN ISLAND - *Jack The Lad* (Chrysalis)

So much of today's dance music sounds alike (geez, I sound like my parents) that it's refreshing to hear a genuinely creative production. Here's an instant attention getter from the first note to the last.

DANNY WILDE - *Time Runs Wild* (Geffen)

Album radio has warmed it up, continuing to give it heavy play. This is the type of record that fills a void currently on Top 40 playlists. Tag it SOS..Sound Of Spring.

FLEETWOOD MAC - *Family Man* (Warner Brothers)

Talk about a story line, here's one that's aimed right at the millions of baby boomers who have finally settled down. Lindsey Buckingham's remarkable skill at writing and recording is evident once again.

BRENDA K. STARR - *I Still Believe* (MCA)

Time to sound the warning alarm on this classy release. Currently number one for Bill Tanner at POWER 96 in Miami it's also top twenty five at POWER 106 Los Angeles and added at KMEL San Francisco. Plenty of Top 40 and A/C potential.

RON FELL'S PERSONAL PICKS — ALBUMS

DAN REED NETWORK - *Dan Reed Network* (Mercury/PolyGram)

This band impressed a lotta people at their showcase performance at this year's Gavin Seminar. They've got their act together live and one listen to this debut on vinyl confirms their ability to rock solid in the studio. This rainbow coalition of five young musicians hooked up with Canadian producer Bruce Fairbairn (Loverboy, etc.) to make a bold rock n roll statement. Fairbairn builds a wall of sound around the charismatic Mr. Reed who alternates between Bon Jovian and Princely attitudes. The album's lead single, RITUAL, is already on more than a third of our Top 40 stations and it wouldn't surprise me if some Urban and Album radio play comes from tracks like GET TO YOU, RESURRECT and HUMAN.
