COUNTRY RADIO SEMINAR CELEBRATES 20TH ANNIVERSARY

The Country Radio Seminar celebrated its 20th anniversary with record attendance. Over 1,000 people from all aspects of Country music attended the four day event held March 1-4 at Nashville's Opryland Hotel.

Thursday morning's opening address kicked off with two specially written songs performed by Alabama and Randy Travis. From then on it was non-stop action, with some 28 panels running throughout the weekend. The sessions tackled everything from consultants, promotions, personalities, research, marketing and breaking new artists to station acquisitions and FCC rules.

Along with Country Radio Broadcasters sessions, the Country Music Association (CMA) presented three Music Industry Professional (MIPS) sessions: The Source—Applying The Creative Process, The Demo—A Hit is Born and The Musicians Only—We Know Our Parts. During the demo session Kathy Mattea wowed the packed room with her version of Mike Reid's

demo.

One of the seminar's highlights was Friday's opening address by Buck Owens. As both a station owner and recording artist, Owens delighted the standing room only crowd with his business acumen and trademark wit.

One of the most heated debates was the Saturday morning's trades discussion. After a virtual shouting match between panelist Lon Helton of Radio & Records and Don Langford of EZ Communications, Helton's final statement summed up the panel: "The trades are here to serve you."

The Desert Rose Band, David Slater, The Shooters, Shenandoah, Jeff Chance, Donna Meade, The Burch Sisters and Skip Ewing performed at Saturday night's New Faces Show, which closed out a great seminar.

Tapes of all the sessions are available through Beaverwood Studios. Call 615-824-2820 for more information.

SEBASTIAN WAVES GOODBYE

Six months and a great ARB later, John Sebastian has decided to leave KTWV-Los Angeles to pursue management and ownership possibilities.

"I can't mention any specifics," said Sebastian. "It's something I need to do because I've been a long time at this same level." Sebastian did indicate that he has been talking to some bankers and investors. "It's an exciting, scary and intriguing proposition. It's time for me to take the next step."

Although his stay at KTWV was short, Sebastian oversaw the station's transition to live disc jockeys, and was instrumental in bringing the station's rating up to #1 in men 25-54 and 25-49 and #3 in Adults 25-54.

Tony Martell has been named to the newly created position Senior Vice President and General Manager, CBS Associated Labels. Martell has been with the company for 12 years, and is responsible for signing many acts including Ozzy Osbourne, Joan Jett, and The Fabulous Thunderbirds. Martell's impressive background began in 1958 when he began as a salesman at

Columbia Records. Since then he has worked at MCA, Famous Music and ABC Records.

CLAY HEADS NORTH TO KYNO

John Clay is about to bid a fond farewell to Q-106 in San Diego and head North to assume the PD slot at KYNO-Fresno.

"It's extremely tough to leave here," said Clay, "I've learned more from Garry Wall in this last year and a half than in my 10 years in this business." In setting his sights forward Clay commented, "It's the right job at the right time. It's time to take what I've learned on the road."

Clay's previous experience includes programming KWES-Odessa/Midland, KHTZ Reno and KGGI-Riverside/San Bernardino. "I'm excited to be going to work for Brown Broadcasting," he said closing.

COWBOY JUNKIES - Sweet Jane (RCA)
In the age when many productions are "enhanced" by using the many studio toys available, the stark naked styling of this entry is a standout. This hypnotic version of an old Lou Reed song was recorded over a year ago in a church in Toronto, Canada with only one mike. Sweet indeed!

INSIDE TOP 40 by Dave Sholin

Those who attended the Warner Bros. breakfast at the recent Gavin Seminar heard the "world premiere," for programmers anyway, of MADONNA! This week she earns the distinction of having the most added record in Gavin history as her 271 adds puts her way out in front of USA For Africa and anything by Michael Jackson. A number of stations taped the Pepsi commercial, which featured only two minutes of the song, and created their own versions to play until the actual record arrived. Victor Lisle MD at WBEC/FM Pittsfield, MA reports that calls were non-stop right after the commercial aired and he adds it at #17. Also added with a number at WSPK #26, KZXQ #18, WQIC #23, Y108 #20, WNVZ #16, KRNO #26, Q107 #26, WZYQ #29, KSTN #30, KDON #28, WFMF #29, etc.

A lot has happened since we first mentioned DONNY OSMOND's "Soldier Of Love" on this page a week ago. Reaction continues to be totally positive and his album has been picked up in the U.S. by Capitol. Copies are being rushed to radio and product will hit the stores in two to three weeks. I'm told that tapes are available if you need one right away. Contact your local Capitol rep. It's the number one request item at KZZP Phoenix where it debuts at #22 and jumps ten places 27-17 at WNCI Columbus. Clarke Ingram adds it and places it in his top ten request file after only four days of play at KRQ Tuscon. New on WJZQ Kenosha, Y108 Denver, X100 San Francisco, KITY San Antonio and KKQV Wichita Falls. This is looking like THE comeback of 1989.

A surge of chart activity for MILLI VANILLI give them their first top ten entry. Good growth with a HIT FACTOR leap of 70% to 83%. Plenty of super moves, including Tony Waitekus at WCIL Carbondale who takes it 22-11 and Brian Kelly at Z95 propelling it 29-17. Other gains into the top twenty include KIQQ 22-13, KKBG 27-17, KSIF 22-13, POWER 105 23-15, KZEV 27-17, B97 25-17, Q105 25-19, G105 25-19, KMOK 23-18 and Q107 23-19.

Phone action on FINE YOUNG CANNIBALS continues to go crazy. Number one album sales for Gary Cummings at KZFN

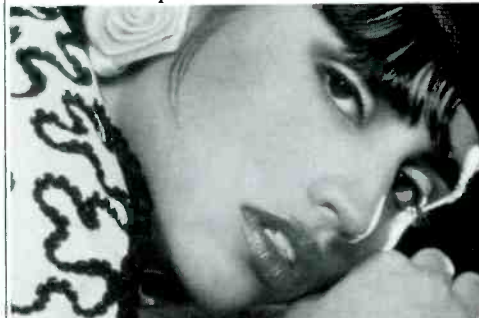

Moscow, ID where he moves it 16-9. Also goes top ten at 93Q Houston 12-5, Z95 Chicago 13-6 ("big, big, big") WBNQ Bloomington 12-6, KQID 12-4, OK95 13-9, KUBE 13-9 and KSTN 14-10. Added at KYNO, WIOQ, CFTR, B94, B97, WNKO, WLXR, WPXR, WIAL, WBIZ, etc.

Over 200 stations now playing 38 SPECIAL who debut at #16 on WKSQ Ellsworth/Bangor, ME and #19 at WKDD Akron/Canton, OH. HIT FACTOR goes from 13% to 22% as this former TOP TIP gets added at KDWB, WGGZ, KBIU, WAGQ, EAGLE106, WAVA, FM104, KZZP, KTTY, KWSS, CKXY, WCIL, KROC, WHHY, etc.

DEON ESTUS already claims top fifteen status at Y95 Dallas heading up 16-14, KOY Phoenix 16-13, KZLS Billings 13-10, Y106 Orlando 16-14, WJLK/K94 Asbury Park 21-12, B94 Pittsburgh 17-15 and KPLZ Seattle 16-12. Top thirty debuts on FM102 #25, Q96 San Antonio #29, KDVV Topeka #30, KBEQ Kansas City #23, Y94 Fargo/Moorhead #29, Z95.5 Detroit #27 and WLNZ Lansing #23.

Two weeks in the MOST ADDED column get CHER & PETER CETERA off to a super start. Max Volume at WMME Augusta, ME moves it 27-22 and says "this song features two of today's most powerful artists on one record." Also gaining at Y97 27-18, KZFN 40-30 ("instant phone response, jumping from 22-12 in requests with a wide demo spread"), KRNO 28-25, 94Q 29-26, 102QQ 27-24 and B94 28-25.

Retail action on LIVING COLOUR can only be described as "out of control!" They love it in The Lone Star state where KEGE Dallas takes it 17-11 and Y95 debuts at #21. Hollywood Haze, Asst. PD at KNIN/FM in Wichita Falls, reports a 40-15 move and number one phones for the past week. Other big chart activity at WPFM debut #11, KOZE debut #25, KXXR 19-13, KLBQ debut #20, etc. Added at Q105 Tampa, WMJQ Buffalo, Z104 Madison, Y108 Denver, KUBE Seattle, KLYV Dubuque, Z103 Tallahassee, etc.

According to Lloyd Maxwell, MD at WYAV Myrtle Beach, SC, SA-FIRE is one of his best testing records with 18-35 females and climbs 28-22. Twenty-five percent of the stations playing it list it top twenty. Big jumps at KIIS/FM 27-21, KOY 9-5, KZZP 10-6, Y108 16-6, KC101 24-17, WRGI 22-17, HOT97 28-23, KZOU 37-29, KEZY 30-24 and B95 27-23.

KXXR Kansas City, MO charts LITA

FORD's duet with OZZY OSBOURNE at number one for the fourth straight week. On the move at K106 Beaumont 17-11, KNIN/FM 12-5 ("heavy phones after many weeks of play") KIXS debut #24, KBAU 24-15, WZMX 16-13 and WJMX 31-25. New on G98, WKLQ, KCIL, WPXR, KBQ, KWES, KFTZ, KROY, Z100 Portland, etc.

Early believers on CHRIS REA help it grow to a 16% HIT FACTOR. Hefty moves at WKOR 23-17, KMON 18-11 and Y97 debut #19. Adds include KSND, FM104, WAGQ, WQLK, KHOK, KNIN, KZZU, WJLQ, KLYK, WJZQ and WJLQ.

KISS108 Boston adds STEVIE B's "I Wanna Be The One," a record which claims a spot in the top twenty at more than half of the stations reporting it. Hottest on the West Coast with strong chart action at B95 18-8, X100 15-10, KMEL 10-7, HOT 97.7 10-8, KWSS 13-8, KKXX 23-15, Q106 debut #23, KIIS/FM debut #25, FM102 16-13, POWER 106 24-20, KMGX 22-19 and KYNO 15-10. Also top ten at WFMF Baton Rouge, POWER 96 Miami, HOT97 New York and WTIC/FM Hartford.

Seventeen adds for BETTE MIDLER, last week's RECORD TO WATCH. Debuts #24 at KHOK Hoisington/Great Bend, KS where PD Darrell Bieker says it's been top ten on the phones two weeks in-a-row and, due to the response, he's removed the daypart restrictions. Hot at K104 23-18, WJET 18-15 and 94Q Atlanta 18-14. Adds at KISN KZOU, KMCD, KKSS, KUBE, KISS108, WTIC/FM, WZZR, WHTK, 102QQ, etc.

Twenty-two adds on JIMMY HARNEN with SYNCH including WMMY Melbourne, FL where MD Shay St. Claire informs me that Jimmy is the only original band member with "the others going their separate ways a year and a half ago." Other adds at Z95.5, WYHT, KJJG, WKQD, KZZU, KREO, KXXR, WIFC, WDEK and WZYQ. Top ten at WDFX Detroit, KDWB Minneapolis, WZZR Port St. Lucie, WNVZ Norfolk, WKTJ Milwaukee.

New stations include WJDY-Salisbury, WGSW-Greenwood, WLWZ-Greenville, WQMG-Greensboro, WGCI/FM-Chicago, KYNO-Fresno, and KNON-Dallas, where Patrice Carey says, "I agree—they've got to make it to the top of the charts!"

Our Record To Watch, ANNE G., got rave reviews from Tony Wright, WJIZ - Albany, who says, "Hot track from a hot lady from Memphis, Tennessee." It's the record to watch for Roy Sampson, WXYV/FM-Baltimore/Washington, and new adds this week stack up from WOWI, KYEA, KFXZ, WANM, WFKX, WHYZ, WJIZ, WPDQ, WWDM, WGCI, and WPZZ. Our Top Tip, BLUE MAGIC, is another "left-fielder" only because it seems that the first-timers are making a lot of our headlines these days. Nine new adds for their first effort, "Romeo & Juliet", from WOWI, WXYV/FM, WABD, WPDQ, WWDM, WYLD/FM, WPZZ, WTLC, and WTLZ. Frank Barrow, KRIZ-Seattle, likes CHARLIE SINGLETON, saying, "This is the greatest Cameo-esque record he's had in a long time."

E.U. gets ink this week because Darrel Eason, KWTD-Little Rock, says "Our teens love it, and its doing well in clubs." Andy Henderson, WQKI - St. Matthews, wants us to watch MICA, saying "It did well overseas, and it should do equally as well here." Ciao for now, Betty

NEW RELEASES by Betty Hollars and John Martinucci

CHANNEL 2 - Keep It Simple
(Wing/PolyGram)

The second release for this brother and sister act. Trish and Carl keep it simple, but everything is possible when Tommy and Denny of 2-Tuff man the board.

LA RUE - I Want Your Love
(King Jay/RCA)

This is the debut single for this group. It's so new that we only know Jay King had his hand in it, along with production help by Donnie Woodruff and Leo Hall. Take it for a spin.

MADONNA - Like A Prayer
(Sire/Warner Bros.)

Besides the Pepsi commercial, MTV, Rolling Stone and the ink in this section, we believe Madonna's prayers have been answered. Check out the CD with the 7" dance edit by Shep Pettibone—a must for our format.

BREAKING A CONVERSATION WITH RULES & GUITARIST VERNON REID SMASHING By Kent Zimmerman PRECONCEPTIONS

Living

Leave it to the general public to step in and settle an argument. This time it's the question of who is racially qualified to play what kind of music on which set of airwaves. Demographically, it should be a matter of making the right choices, checking your charts, stats and focus group results. Al B. Sure!, you go over to Urban Contemporary. Midnight Oil, you start over there with Album Radio. Debbie Gibson, Top Forty wants you. That easy? Some wish.

The retail success of a folk singer like Tracy Chapman, a rocker like Robert Cray and a metal act like Living Colour seems to have blown and blurred the borderlines, causing creative confusion when it comes down to just who plays what. Does the general public really want their music pre-categorized and neatly stacked?

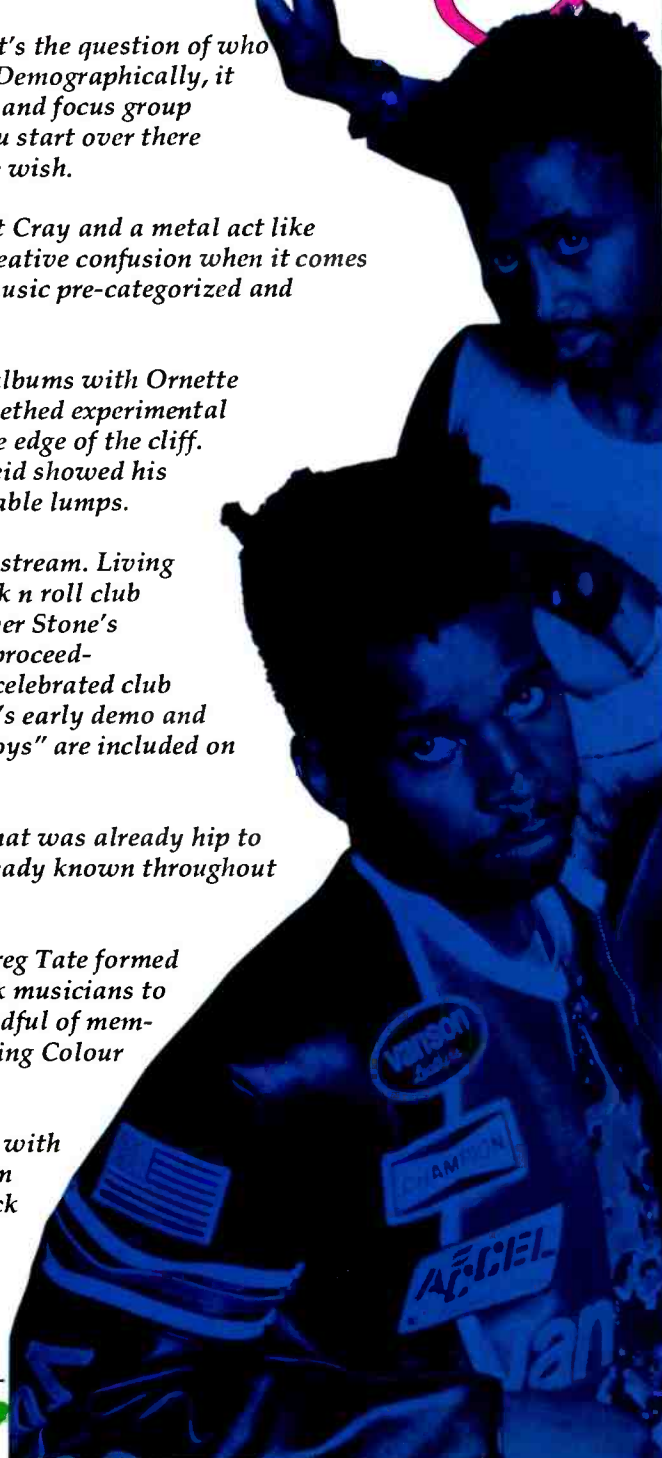

Before being neatly categorized as a black metal guitarist, Reid spent six albums with Ornette Coleman's drummer, Ronald Shannon Jackson, whose Decoding Society seethed experimental freedom, taking Coleman's so-called "harmolodic" concepts straight to the edge of the cliff. It was with Jackson and the raw avant garde funk outfit, Defunkt, that Reid showed his stuff as a prolific improviser, fusing Jazz and rock concepts into indescribable lumps.

Of all directions, the next Reid took was straight into the rock n roll mainstream. Living Colour's first revolutionary shots were fired on the cruel Northeastern rock n roll club circuit. Reid, along with actor/singer Corey Glover (who appeared in Oliver Stone's movie, Platoon), bassist Muzz Skillings and drummer William Calhoun, proceeded to forge a reputation as colorblind rockmeisters, gaining the respect of celebrated club goers like Mick Jagger and Jeff Beck. It was Jagger who produced the band's early demo and two songs from those sessions, "Which Way To America" and "Glamor Boys" are included on Living Colour's debut album, Vivid.

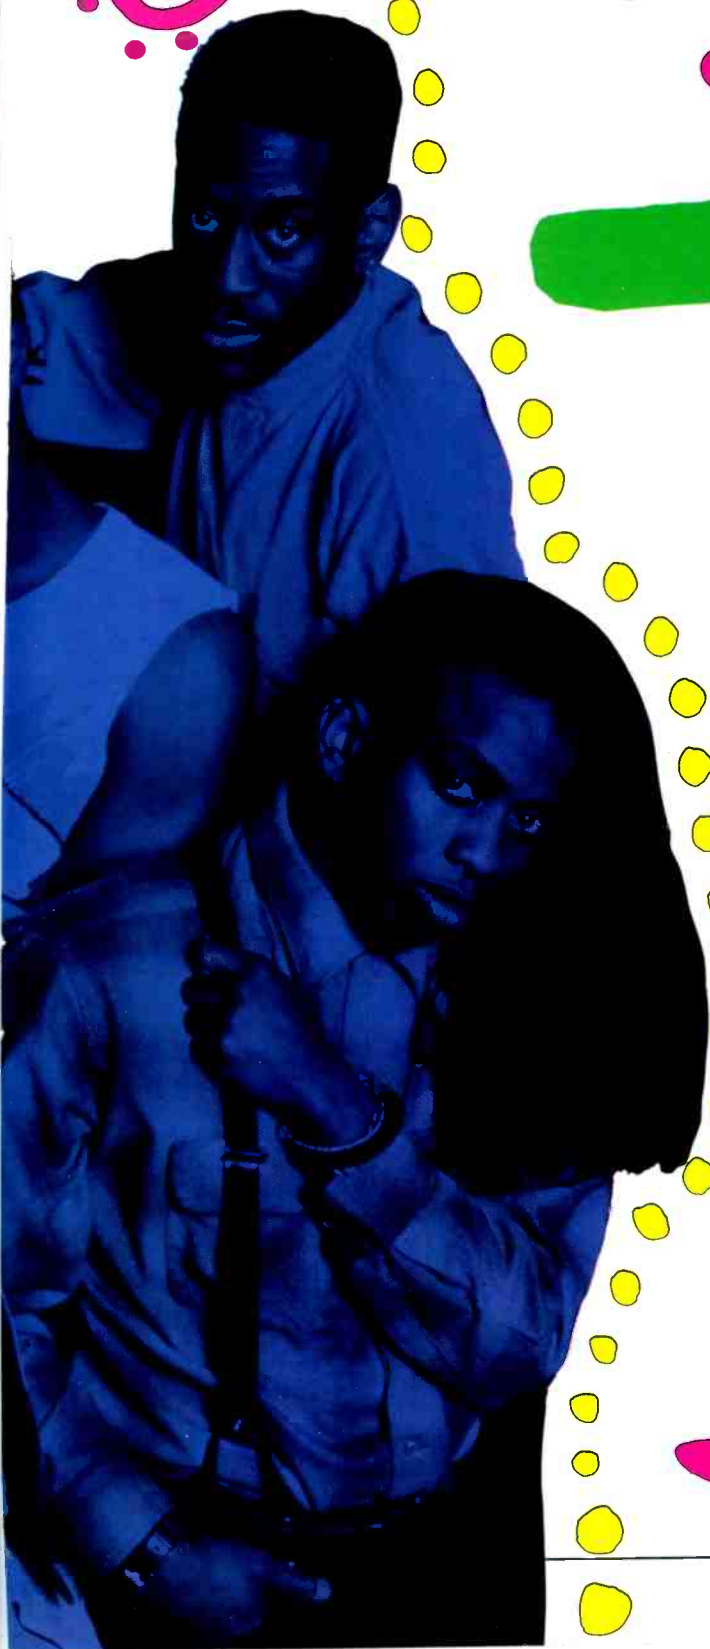

Living Colour's album was released in April of 1988 to a small audience that was already hip to what was brewing—a new black alliance of hard rock. The group was already known throughout Northeastern rock circles as a blazing band of hard rockers and thrashers.

On the heels of the Living Colour assault Reid and Village Voice writer Greg Tate formed "The Black Rock Coalition." Their manifesto recognizes the rights of black musicians to appreciate rock n roll as an important piece of black culture. With its' handful of members, this coalition was the political and musical cornerstone that got Living Colour through a lot of tough times.

I found Vernon Reid to have the persona of a seasoned musician combined with the encyclopedic background of a record collector and the naive enthusiasm of a true fan. Yet what fascinated me more than Living Colour being a black rock n roll band was how an avant garde Jazz musician came to play the rock n roll that has become most requested on MTV and Album Radio—two American institutions frequently attacked for racism. We spoke recently, not long after the band played in the Bay Area and attended the Gavin Seminar.

Living Colour

KZ: I noticed you and the band hanging out at the Gavin Seminar. Did you meet a lot of interesting people?

VR: Yes. I ran into some people from around the country. It was good to see a lot of artists. I met (Jazz drummer) Tony Williams. I asked him if he was going to record any more records like the Lifetime records he cut with John McLaughlin. He said he would be cutting some electric music. I got a chance to talk to Tommy Conwell. He's a GREAT guitar player. I also met Joe Satriani. To see him again after all the success he's had was really good. Live, he is incredible—he plays so well!

KZ: Any particular musicians who inspired you as a guitarist?

VR: Carlos Santana is the best known. Another person that inspired me was Ronald Shannon Jackson. Shannon came out of Ornette Coleman's band, playing a type of music known as harmonic. He was an individual composer and a unique person. He brought out the uniqueness in his players. He suggested that I play as if I don't know how to play guitar. He was into honing everyone's music intuitive sense so that while we were playing these open structures, we'd have a sense of having a musical place to go as opposed to not doing anything constructive. I've always had that rock edge to my playing. It came from playing with John Zorn and being part of Defunkt. When I got into jazz improvisation, I was thrown into this cauldron. I couldn't stay in just a rock or blues mode. I had to be able to break out.

KZ: Are you surprised that Living Colour was able to rise above the first couple of months of inactivity, and go the distance of being certified gold and beyond?

VR: It all starts with belief. Belief is the linchpin that holds it all together. If you believe that you're going to be successful, then you've got a better than even chance that you will be. Our success has to do with the timing as well. I think we're beneficiaries of Robert Cray's and, believe it or not, Anita Baker's as well as Tracy Chapman's. I be-

lieve we're beneficiaries of a band like Fishbone being in the game. On another level, to talk about the black thing, you have to see where the black artists are successful outside of the black mainstream.

KZ: Couldn't it be argued that white people are more into black music than black people are into white music?

VR: Part of that is the perception of what so-called white music really is. When you say white music to me, you're probably talking about rock n roll. But what is rock n roll? To me, it's popular music based on a black art form. How did rock get its form? You can go back to Sly Stone, Jimi Hendrix—two very recent people from a music history standpoint. To me, these are people who have affected the look of a band like Poison. Take the flamboyance of Little Richard and notice how he affected David Bowie or Elton John. You come from Oakland and San Francisco, so it's not hard to believe the idea of rock n roll being a multi-racial thing. You had bands like Tower Of Power, Santana or Sly Stone. It's all music coming from bands expressing themselves as individuals, not as a genre or category. Take Lyle Lovett. He played this great tune at the Grammy awards that was like a Kansas City swing shuffle. I think Lyle Lovett is very urbane and jazzy.

KZ: So maybe while radio is thinking format, the leading creative forces like Prince, Lyle Lovett, Enya or Miles Davis are essentially rebelling against the concept of format and succeeding. I wonder if Tracy Chapman or Robert Cray think about format when they compose their music.

VR: They're just doing what they do. In our case, Living Colour is four people doing what they like to do. We don't have to reconcile the fact that we love this type of music. For a while it seemed like rock n roll didn't want to have anything to do with black people.

KZ: What era are you referring to?

VR: The mid to late seventies. But the thing that we held onto was the thought that this

INSIDE ALBUM by Kent Zimmerman

COWBOY JUNKIES

AREN'T LONESOME ANYMORE: A SUCCESS STORY

by Kent Zimmerman

Four short months ago—actually it was the fourth of November last year—we received our first station report on an unknown Toronto band's second album. The Cowboy Junkies had just signed on the services of RCA/BMG, their first major label association. The album cost a mere \$250 to record. Besides containing close to an hour of dark and moody songs, what pulled in the early proponents were obscure covers like Waylon's "Dreaming My Dreams," Hank's "I'm So Lonesome I Could Cry" and an inside-out retooling of Lou Reed's "Sweet Jane." That version of "Sweet Jane" remains, in many ways, a measure of the Junkies' true success. Besides impressing Reed (believe me, no small feat), here was a band playing one of the most-covered songs in rock n roll AND redefining the mood of the song. RCA's Jim McKeon recalls his very first Junkie encounter.

"My first impressions came from seeing them live in Toronto with Bob Buziak and

Alan Grundblatt, deciding whether the company should sign the band. We went to this great club filled with sofas and easy chairs. I remember first being hypnotized, then riveted. In appreciating this band, it helps not to be over-analytical, otherwise you miss the power of their music.

"The initial base came from a combination of Alternative radio and press acceptance. After Alternative radio came to the party, MTV committed themselves with strong exposure. Now mainstream Album

Radio is coming in chunks—eight or ten stations a week."

Among those adding Cowboy Junkies this past week is Ted Utz of WNEW/FM.

Having just seen the Junkies live, I can attest that their stage approach is every bit as faithful to the concept as cutting the record digitally in a Toronto church. By expanding the band to include a steel guitarist and accordian player, the textures are a cross between early Band and Joy Division. Singer Margo Timmins emulates the band's low-

key, low-tech approach as the stage is dimly candle-lit. Overall the effect is like McKeon cites, hypnotizing.

After assembling the Alternative radio and print media support, RCA then issued a special collector's item, repackaging the entire CD with a collection of press quotes from some of the most prestigious newspapers from all over the world.

"We wanted to assemble the reviews and give them back to radio," recalls RCA's John Sigler. "It was an effort to convince mainstream Album Radio that what we had was something real. This started as a very special project. I feel both Bob Buziak and Rick Dobbis had a good, clear vision of this band from the very start."

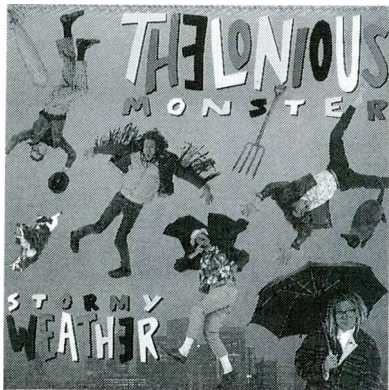

Currently on tour, the Cowboy Junkies will continue to fatten up their press dossier as each American city falls like a domino. With *The Trinity Sessions* past the 330,000 mark, the Junkies are a proud reminder that open-minded radio is still the best path.

"The only thing that scared people was the music's sparseness and low-key manner," added McKeon, "Yet that, ironically, became the band's greatest appeal as far as their adult audience is concerned."

Talk about turning a negative into a positive.

INSIDE ALTERNATIVE RADIO by Peter Standish

XTC turned up the heat and overcame three potent records to take the Alternative crown this week. Robyn Hitchcock, Guadalcanal Diary and Thelonicus Monster are raging up the chart and should challenge the Top 5. Last week's Record To Watch, De La Soul, sprung onto the chart as our highest debut. The Indigo Girls are this week's RTW and are lighting up the phones for Glen Boothe-WXYC, Mike Thomas-WMDK, Phil Manning-WOXY ("Taking off"), Kim Saade-WRAS and Ashley Diggins-KOTR. The Dirty Dozen Brass Band just missed making Chartbound, but they are already a mystic wonder for Josh Rosenthal-WCDB, Gil Creel-WTUL, Charlie Turner-WKXE and Lin Brehmer-WXRT. The DDBB album has the potential to crossover to both commercial and college stations. Doug Kelly-KFJC and Chris Crowley-WUSB were raving about the new NWA release. Doug sez it's a "powerful rap record that makes the hair on the back of your neck stand up," and Chris adds it's "great rap even though we can only air three songs due to the profanities." Farewell to one of the week's most entertaining calls, Doris Duwe-WTSR who steps down as Music Director. We hope to see your return in some capacity in the near future! Please note that WDRÉ-Long Island will be doing their music on Mondays and taking calls on Wednesdays thru Fridays.

NEW RELEASES

Stranger Than Fiction - KEITH LE BLANC (Enigma)

This is the follow-up to LeBlanc's 1986 release, Major Malfunction. There's a funk/jazz feel to "But Whitey," "Count This" and "Whatever." The Tackhead sound is everywhere, especially on "Taxcider," where Doug Wimbish and Skip McDonald lend a hand. For some interesting cut-ups check out "Here's Looking At You" and "Comedy Of Errors." Adrian Sherwood helps with the engineering — oh yeah! ROBERT BARONE

Fun & Games - THE CONNELLS (TVT)

The Connells took the Alternative format by storm with their sophomore album Boylan

Heights, (an Alternative Top 5 record). Now they're back displaying an inner confidence and a less aggressive stance on Fun & Games best tracks, "Something To Say," "Hey Wow" and "Uninspired." There are also some stand-out rowdy cuts including the title track, "Upside Down" and "Sat Nite (USA)." The album is produced by Gary Smith (Throwing Muses and The Pixies). PETER STANDISH

Mamou - MAMOU (Jungle)

Mamou take Cajun music on a wild rock n roller coaster ride that leaves the listener half terrified in ecstasy. I can't recall ever hearing anything quite like this and I love it. The key cuts are "Jolie Blonde," "Bayou Teche," "Un Homme De Pitie," "Hurricane" and "Tit Galop Pour Mamou." Call Jungle Records at (512) 443-7444 or Mark Pucci (404) 873-4796. PS

was music that black people built, so it's our right to play this kind of music. No one can tell us not to! Ronald Shannon Jackson gave us a determination that told us that no one can stop us from playing this type of music. We let the music come first.

KZ: Where did you first find the concept of "Cult Of Personality"?

VR: Nikita Khrushchev coined that term when he denounced Stalin. Basically the Stalin era was the darkest era of communism. There were the pogroms and dissidents were being put into mental institutions. The KGB kept Stalin in power and when he finally died there was a dreadful silence. The new premier (Khrushchev) was the first to say that Stalin directed a cult of personality around himself. It's almost like John Lydon's idea of Public Image Limited. His concept is that there's his life and then there is this separate public image that has a life of its own. I guess it's almost representative of people's expectations. I think a cult of personality works much the same way. John F. Kennedy was John Fitzgerald Kennedy, son of Joe Kennedy. But he's much more than that. He symbolizes the best and brightest ideals of the American century. He was young, vibrant, full of ideas and stood up to the Cuban Missile Crisis. He was the bold new frontier—the accelerated space program. He represents a "cult of personality."

KZ: So how does Living Colour avoid the cult of personality impeding on some of the serious messages you have to talk about—messages about racism, landlords and civil rights.

VR: You have to keep a balance. You have to be grounded in reality.

KZ: That's tough to do when it comes to being a successful rock n roller.

VR: It's not tough for me! Sure people say, "You're great." But, musically speaking, greatness for me is John Coltrane, Eric Dolphy, Wayne Shorter or Ornette Coleman. They represent true greatness. So when somebody tells me I'm great, I don't know what scale they're putting it

on. I'm still learning and trying to get it together. Plus songwriting is something that concerns me much more than money or fame. To have clear creative output is important. That's why I admire someone like Peter Gabriel. He came out of Genesis just as that band was becoming something big. But he had his own vision. And to think that now he's a mainstay in the Amnesty International Show! Then think about the fact that he was singing about Biko in 1977 or 1978, just after Steve Biko was murdered in South Africa. His commitment has been there for a long time. As far as success the number one thing is that you have to not need it. You can't crave stardom. The real danger is when you can't survive if your name's not in the papers. It is a kick and a rush, but it's something you have to be careful and mindful of.

KZ: Today it seems that even if a band goes gold, they're still in the process of kicking down walls and frontiers.

VR: The moment we were presented with a gold record was very emotional. Knowing where we came from, the disappointments, the rejection and the hanging on, all that came back. In fact, just having the record come out represented a scale of success to us. Epic hung with us even during the lean times when radio stations were dropping off. Radio stations like WBCN, WDRE, or WNEW really kept us alive.

KZ: It will be interesting to see where Living Colour is two or three albums down the line.

VR: That's what I'm interested in seeing! People call us the Black Zeppelin. And while Zeppelin is a band we really like, there were things about them that weren't cool at all. Ripping off Willie Dixon is not cool at all. The Hammer Of The Gods mentality was not cool at all. But a lot of their music was really great. As for us, we'll see. Listening to Prince's first album, it's hard to imagine Dirty Mind. Hearing Dirty Mind, it's hard to imagine 1999 or Sign O' The Times. What we're looking forward to is looking at ourselves three albums down the line and

seeing how it all fit in—what changed and what stayed the same and what got better.

KZ: Do you think that people confuse loud music with powerful music?

VR: They tend to confuse power with wattage. But there seems to be a new trend in rock Top Forty. It seems to be changing. Stations are making headway playing Guns N' Roses and Def Leppard. To me, Def Leppard is really pop music. There's an aspect of pop in our music because we grew up with television and radio, but we're not pop stars doing this so we can grab the brass ring. We're doing this to express ourselves. And if there are some benefits and we're able to make our living playing music, then we're happy. You always have to be careful about what you wish for because you just might get it. Plus it would be a drag if Living Colour's success was isolated. What we'd like to see happen is a change of mind about rock music being white music for white people only.

KZ: Or that black music is just for black people and black radio.

VR: People say that I've been very critical of black pop records. And there may be things about black pop music that I personally don't see, but if you listen to Bobby Brown, that's undeniably a very good record. Vanessa Williams' is undeniably a well-produced and well-sung record. The thing is, should the definition of black music be limited only to those kinds of records? Rap is a fascinating

thing. It's like its own complete world of music. I find that if you listen to rap music, house music and club music, the ideas in terms of mixing are completely avant garde. Mixing two or three different songs with three different keys conforms to Ornette Coleman's harmolodic ideas. When they clash, those different keys and interlocking rhythms constitute harmolodic ideas. That's what harmolodic thinking is all about—a lot of different keys held together by one beat. I think, for a songwriter, music is there to serve the image of what subject is on his or her mind, whatever form that may take. You need to be able to cross harmonic or rhythmic boundaries. Miles Davis really changed the way. All those bands like Mahavishnu, Miles Davis and Weather Report seeped down into popular music. Think about the influence a band like Weather Report has on popular music—the sounds of their synthesizer parts have been adopted by a lot of musicians. When I hear a song like "1999" by Prince, I hear Joe Zawinul. It's like the concept of threads. One thread weaves into another thread which weaves into another thread which becomes something new. It's important that there's an open door. That's the lesson of the great musician. It's not so much, "Do it the way I do it." It's more like, "Do it the way YOU do it." That's the true message of the great musicians who have changed the way things now sound. ●

PERSONAL PICKS

SINGLES by Dave Sholin

MADONNA - *Like A Prayer*
(Sire/Warner Bros.)

By the time this song reaches its gospel-like crescendo you're definitely touched by what is almost a religious experience. No surprise that it's the most added record in Gavin Report history.

BOY GEORGE - *Don't Take My Mind On A Trip*
(Virgin)

One of music's instant sensations in the early 80's hip hops his way back into our hearts. John Martinucci, our URBAN CONTEMPORARY Associate Editor, has been "promoting" me on it for the past few weeks and he happily informs me it takes a big eleven point jump on the UC chart.

EDIE BRICKELL & THE NEW BOHEMIANS - *Circle*
(Geffen)

Top 40, A/C and Album Radio listeners welcomed Edie's fresh vocal approach which highlights the lyrics of her unique songs that much more. Here's another melody that glides along just like she does on this song's video.

COWBOY JUNKIES - *Sweet Jane*
(RCA)

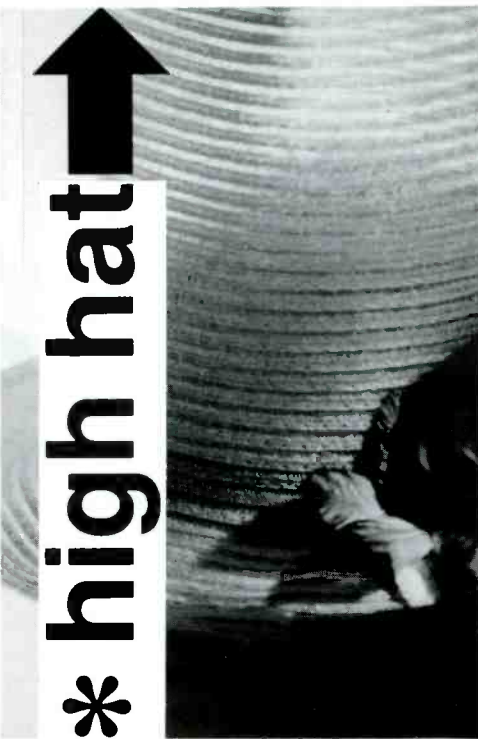

In the age when many productions are "enhanced" by using the many studio toys available, the stark naked styling of this entry is a standout. This hypnotic version of an old Lou Reed song was recorded over a year ago in a church in Toronto, Canada with only one mike. Sweet indeed!

SURFACE - *Closer Than Friends*
(Columbia)

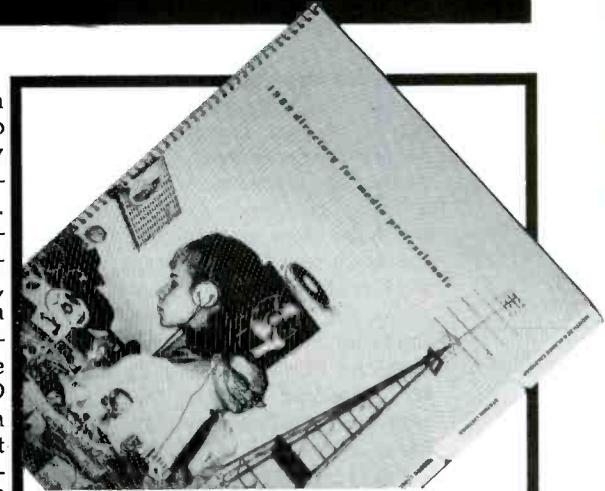

These guys proved their prowess with a ballad on the hit "Happy" back in 1987. They've topped themselves on this super sexy entry which is top three on our URBAN chart. KMEL's Keith Naftaly predicts it'll "be as big as The Deele's 'Two Occasions.'" Of course, in Annette Lai's opinion, it already is.

ALBUMS by Ron Fell

BOY GEORGE - *High Hat*
(Virgin)

A little hip and a lot of hop lift BG from an emotionally troubling funk to a creative solo high. He's able to mix sobering morality with an affirmative declaration of independence from chemical and spiritual cul de sacs. He mixes metaphors into a lyrical pool creating exotic, sometimes transcendental precepts. Despite the madness in his method, Boy retains his gospel optimism through relatively bright/danceable instrumental arrangements and his certified vocal soul. The LP's lead single, DON'T TAKE MY MIND ON A TRIP is already a handsome chart item in Urban radio at #27. Bookending the LP, at track number ten, is probably the most approachable item in the set, SOMETHING STRANGE CALLED LOVE. Its Gaye groove (as in Marvin) smokes with no visible flame. YOU ARE MY HEROIN is the most disturbing, yet most challenging proclamation he's ever set to music. Whereas his first solo album, SOLD, and this new one both have dealt with his celebrated self-destructive past, the new album is a lot less depressing and still allows us a tabloid peek at someone reconstructing his affairs.
