GEORGIA SATELLITES

#1 MOST ADDED IN R&R THREE WEEKS IN A ROW, TOP FIVE REQUESTS EVERYWHERE, TOP TEN IN R&R, ALBUM NETWORK, FMQB ALBUM REPORT, AND HARD REPORT

Lex Staley, WFYV

"After three weeks of three plays a day, the Satellites have powered to #1 most requested."

Ted Habeck, WMRV

"How 'bout Georgia Satellites... It's Rockpile meets Carl Perkins!"

Robin Mathieu, WBLM

"Georgia Satellites nabs Top 5 phones this week."

Mark Chernoff, WNEW-FM

"Although it was nearly 2 AM on a work night and I was wondering what I was still doing awake, I have to say that I was quite impressed by the Georgia Satellites. Just up from the South, they were kicking some rock 'n' roll ass..."

Ace Paladino, KRIX

"The Georgia Satellites gets our vote for record of the year."

Virgil Thompson, WIXV

"Georgia Satellites are one helluva hot sounding band. They prove that hard rocking, serious, get down blues don't just come out of Delaware and Texas."

Ron Garrett, KDJQ

"And oh yeah, baby, give me more of the Georgia Satellites. These boys know how to rock!"

Alison Stewart, WBRU

"How 'bout them Georgia Satellites? Leave your spurs at the door, this song is crazy, man... His voice is the most memorable thing on vinyl now."

Brian Illes, WKFM

"The Georgia Satellites are a welcome breath of fresh air among all the slickly produced automatics of the past few weeks. With a simple, straight forward approach, they've captured the essence of a great rock song...it's catchy, it rocks, and it makes you want to move your body...all the things your parents warned you rock 'n roll would do to you."

Rob Ellis, WKQQ

"The only reason you're not playing the Georgia Satellites is that you haven't listened to it yet."

Joe Marino, WAQY

"A band that has really impressed me is the Georgia Satellites. If Cougar and Fogerty ever got a band together, this is what they'd sound like."

Norman Hunter, Record Bar

"Georgia Satellites is one of the finest rock 'n' roll albums I've heard in many a moon."

Inessa York, KGON

"No high-tech shenanigans, no macho strutting. It moves, has heart, and is the kind of rock 'n' roll that can hit an audience in the right way."

Pam Brooks, WPDH

"I know my shit from shinola, and we're on to something really big here."

Cindy Bailen, KZEW

"I get a chill down my spine whenever I hear the Georgia Satellites' 'Keep Your Hands To Yourself'."

Bob Allen, KFMQ

"Georgia Satellites have stolen the momentum from Boston to take Top Request honors for the week."

Bruce Springsteen/The E Street Band, "Live/1975-85", Columbia... You had to figure that the world's second most bootlegged artist (after the Grateful Dead) would release the vinyl equivalent of the Empire State Building. We're talking a package so loaded that it dwarfs even the classic live offerings of yesteryear, and renders his boots, broadcasts and various other outtakes virtually obsolete. The selection? How could it miss. The sound quality? Good on the club segment, great on the River tour portion, and all the way to stage right for "Born in the U.S.A.". And even the the early material shines, thanks to some of the best touch-up work on record. It's especially neat to hear Roy Bittan's keyboards and those Miami Steve guitars so loud and clear. In short, it's what we expected from the Cadillac of live rock and roll. Personal high points from one pass through the advance tape: the spoken intro to "Growin' Up", Nils Lofgren's blistering Keith Richards riffs that close down "Born to Run", and the raw emotion and total commercial disregard of "War". And CD service to radio? Undoubtedly the year's classiest move.

Zebra, "3.V", Atlantic... Thanks to 11 adds, the leadoff 12" is sitting pretty on 30 reports in two weeks, and a 92-73 track advance. Action to date includes WYNF, WPYX, WLLZ, WNEW, WBAB, KSJO, KOME, KMOD, KLPX, KISS, AND KILO, with KZOQ and WCCC already back with increases. As noted by WYNF's Ron Diaz, it's a good song that sounds great on the radio. But for our money, the big winner is "You'll Never Know". The build and chorus can't be denied, and it's the one that most effectively capitalizes on the Led Zep overtones that first put this act on the map.

Price-Sultan, "Shotgun Shy", CBS ASSOC... Building a band around a rhythm section is always big work. Melody and texture is what sells a song, and that's the last thing we expected from this outfit. But "Shotgun Shy" shines in terms of arrangement, changes and overall feel. Overdubs from hired guns Steve Stevens and Elliot Easton deliver liquid fills left and right (and one killer break), and the thick Phil Spectorish sound complements the Bowie/Box Tops vocal effect to a T. Top drawer pop in the Twilley tradition.

ALSO NEW THIS WEEK

Don Johnson, "Heartache Away", Epic... Beside the fact that Don is once again joined by an armada of heavy friends (Stevie Ray, Ron Wood, Bonnie Raitt and that good lookin' band) this is one much better than average song. His singing is as loose and comfortable as the track itself, and we daresay it shoulda coulda been the first single. You had to deal with "Heartbeat"; you'll want to play "Heartache".

Peter Gabriel, "Big Time", Geffen... The only legit excuse here would be too much previous in-market play. Most stations only flirted with out of the box exposure since "Big Time" sounded so much like "Sledgehammer", and now that the time's right, make it count. Besides, is there a better segue in/out song on the radio?

New On The Charts...

Stevie Ray Vaughan, "Superstition", Epic... As KEZO's Joe Blood so enthusiastically puts it, "The best contemporary guitarist in these United States of America once again delivers a format exclusive." Interesting comment from WAPL's Brian Taylor, "for the most part we've been avoiding the onslaught of remakes, but I don't think that adding 'Superstition' alters our stand. He's one of the premiere guitarists and this version cooks with his live energy." Rad Messick offers another angle, "He couldn't have picked a better song since Stevie Wonder originally wrote it for Jeff Beck." Double the closest competition for #1 Most Added with 71 (1 Power, 6 Heavy); New at #34.

Eric Clapton, "It's In The Way That You Use It", WB Although Dangerous Don got the big push out of the chute, Eric's catching up quickly. He nails down 35 more adds this report (with WHCN, WKQQ, WONE and KRNA Heavy), as 85 to date (and 12 increases) power it 47-26. More majors already listing heavy play status include KBCO, KFOG, KLOS, KZAP, KZEW, WAAF, WHCN, and WNEW. Henley pulls into the #8 slot, boosting the soundtrack 10-6.

Bruce Hornsby and The Range, "On The Western Skyline", RCA... The new 12" has been delayed a week but we can't stop the presses. And what's the deal with the nine point 98-89 move for "Down The Road Tonight"? "Skyline" has been the programmer pick for triple-play honors for weeks now, and regardless of release schedules, the time's right to slide it in. Already on KFOG, KLOL, KLOS, KZEW and a dozen more.

Great White, "Runaway", Cap

"Face the Day" had a hot little run. Unfortunatley, too many programmers felt the L.A. success story was strictly regional and/or/earthdog. In reality it was one of the year's more adept covers--well chosen and executed. "Runaway" ain't no classic, but it's certainly one of the best Core Crunchers to cross our desk this week.

Bob Geldof, "This Is The World Calling", AtI The Live Aid exposure may have been the foot in the proverbial door, but we wouldn't be at all surprised to see big-time audience response based strictly on musical merit. As WIOT's Jim Steele says, "Sure, he's an important artist because of all the limelight--but the hell with all that. It's a damn good song"...Or, as WKFM's Steve Becker puts it, "You got with it automatically, but record's also good"...Bob certainly has the podium, what with 79 adds in just two weeks. Six have it heavy, including WLAV, KFOG, and WPLR, as KAZY, WHCN, WZEW, WEQX and KZOQ up play. One of the week's stongest chart gainers, 55-39.

The Pretenders, "My Baby", Sire We take notice when any second track grabs 91 stations, but we're even more impressed when 21 of them roll heavy rotation. We found increases at KAZY, WOUR, WTUE and WZEW, with all of the above moving the tune 41-25. "Don't Get Me Wrong" holds #1 for the fourth week, with "Roomful of Mirrors" dipping to #64, and more than a few stations close to "Hymn to Her". The album remains a strong #2.

CHARTSTARS

The Robert Cray Band, "Smokin' Gun", Polygram He's definitely this year's Blues Poster Child at album radio. In the old days you joined the Peace Corps. Now you bust a blues record. It's a whole lot easier and tons more fun. Just goes to show what people can do when, in the words of that immortal Wilbert Harrison, they work together. "Gun" goes on 24 more for #5 Most Added, for a super credible 88. 59 to date. WXRT, KAZY, WTOS and our man Vern Argo at KZOQ up it, good for an 87-60 Hard Hundred advance. As WRCN's Wayne Summers sez, "righteous rock with a soulful twist"...

Steve Winwood, Back in the High Life", WB...The 73-60-43 track trend really says it all. KLOS, WXRT, KILO, WAOR, WZEW and KZOQ show increases, with 20 adds and 15 heavies as further validation. Now on 56.

Smithereens, "Behind the Wall of Sleep", Enigma...Take your cue from the Most Added--there's serious plus interest in "Sleep". New on 15, led by KAZY, KZAP, WPLR, WQFM, WQBK, and KEZO...with KLOS, KBCO and KQDS increasing. 48 recent adds and heavy play at WBCN, KRIX, WHFS and WONE power up one of the Hard Hundred's biggest gains, 80-61. Time to at least split play with "Bood and Roses". Better yet, roll it over.

MORE MOVERS

Billy Joel, "This is the Time", Col...Having watched many a label struggle with follow-ups, I must say the current climate for launching solid second tracks is as healthy as I've ever seen. It certainly makes sense to scoop the top 40's. Or are we just more willing to go with the game plan? Hmmm...At any rate, Billy bags 14 adds, replete with out of the box heavy play action at KKCY, WIOQ, WCCC, WMGM, WQBK and WRCN. New at #77.

Bob Seger, "Miami", Cap...Here's another case in point. 13 adds this week, 46 to date, and all kinds 'o underlines. The Lp returns to the Top Fifty at #42, with the track turning in a 66-54 showing. Currently heaviest at KLBj, WAQX, WPDH, WTPA and WZZO, With KLOS increasing.

Paul Young, "Some People", Col.Paul's put up with a lot of flack from AOR and hung in there. Now it would seem the relatively light release schedule competition and a cleaner, leaner sound has given the old boy his best shot yet. 52 total adds (11 this week) bring the album on at #43, as play increases at WIOQ, WXRT, WTOS, and five more move the single 70-58.

REM, "Superman", IRS. The numbers predict even more success than "Fall On Me" enjoyed. It's heavy on 20, with KAZY, WBRU, KROQ, KOZZ, CHEZ, WHMD, WRCN AND WXXP topping that list, also increased at KBCO, KROQ, WHMD, WNOR, WOUR WRDU and WRXL. Good early requests, too, with KAZY, KFMQ, KNCN, WRDU and WZEW all into top 5 response. 10 adds pushes the total to 92, good for a 35-30 Hard Hundred underline.

Billy Squier, "Shot 'o Love", Capitol..."Love Is The Hero" has to rank as one of the more significant image turnaround tracks of late. And now that it's OK to back Billy once again, here's the real rocker he needs to complete the job. It rips off our second longest 67-46 underline, finishing #6 Most Added with 23. Now on 54, with KISS, KOME, KZEW, WPLR, WDHA And KOZZ leading the heavy reports.

John Lennon, "Rock and Roll People", Capitol...We didn't take it seriously at first either, but the huge 85-63 song move brought us around. The add pace maintains with 16, most of which came in medium, with KWHL, KZEW, WAPL, WPDH and WXRC all heavy. KFMQ, WAPL, and WRCN increase.

Jason and the Scorchers, "Golden Ball and Chain", EMI...

Sure, there were a few tracks ahead on the Most Added. And it wasn't the week's best 93-67 long jump that made Golden Ball our Record of the Week. It's that unmistakable feeling that this will be the one to go the distance. WKDF's David Hall calls it "Their best recorded work yet", and we haven't found anyone who's not nuts for the tune. This is simply American roots rock at its best. Hell, the Long Ryders oughta send these boys a case of Miller. Now on 40 reporters.

Bad Company, "Fame and Fortune", Atl...As I was saying, say hello to more beef on their deuce. It's got 12 adds, 6 ups (KZEW, WEBN, WQFM), and 5 heavies (KISS, WEBN, WQFM, KOZZ, WAQX)...and, oh yeah--a 54-45 track trek.

John Parr, "Blame It On The Radio", Atl...42 adds in just two weeks is certainly close to automatic entre, especially when the list boasts the likes of KOME, KSHE, KSJO, KZAP, WBAB, WDHA, WDVE, WHJY, WLAV, WLLZ, WLWQ, WNEW, and WPLR. He's heavy at KOME, KRNA, KRQU and WPLR, with KFMQ, KRQU, KZOQ and WDHA upping. "Radio" blams out a 68-56 advance, debuting the album at #48.

Lone Justice, "Shelter", Geffen.We noticed a couple of adds on the house fave "I Found Love", and we heard more than a few radio raves on same. It's a hard rocker most of you will play sooner or later, but at this point the single's 100 station foundation holds the focus. It pushes 37-27 with 10 adds, 10 ups (KATT, KAZY, KICT, WDHA, WONE) and Heavy play to burn--KZEW, WIZN, KOZZ, KNCN, KAZY, KATT included. The album debuts at #31.

World Party, "Ship of Fools", Chrysalis. If you're into the single, spend some time with the album. It'll make a Moonie out of you. As KBLJ's Jeff Carroll confesses, "The cassette hasn't left my car in three weeks. Intelligent stuff"...We won't say Karl Wallinger's a budding Dylan, but he's certainly one of the most promising new pens I've heard, with vinyl charisma to burn. New on 5, now on 40, upped at KLBj, WBRU, WHTG and WRCN--all of which factor into an 84-76 build.

OVERVIEW

The Hard Report Adult Chart is derived from a sample base of Album radio stations whose playlists support more than average numbers of upper demo artists. Tempo, crossover history, and general radio regard are the key variables taken into consideration. We remind you that this breakout is strictly a function of artist image and track record, with limited reliance on a particular station's ratings success 25+. That would be too easy.

Adult Analysis: This week, the most noteworthy aspect of the upper demo charts has to be the fairly obvious peak factor on a number of tracks. Before all you record types fire up the old wats line in my direction, let me add that most of the tracks moving south do so to make room for new singles from the same artists. For example: Bruce Hornsby's "Way" dives 5-14, with "Down The Road" just outside the Top Fifty and "Western Skyline" similarly appears slotted for quick adult acceptance....Similarly, Timbuk 3 eases back 9-31 based on burn, and anticipation of "Life Is Hard", already in the mid 70's adult, and approximatly ten positions outside of the Hard Hundred..Also notice that the adult stations are quick to switch Winwood's new "High Life" for "Freedom Overspill". "Life" comes in at #34 (compared to 43 Overall), and "Freedom" dips 7-28 adult, and 10-19 on the Hard Hundred.

Adult attractions: Now a closer look at new music performing especially well upper demo: You can't miss Lone Justice's 22-13 breakout, especially considering the #27 overall ranking and #33 Core Chart position. Gotta be a function of that comfy loping tempo. And how about Clapton's 22 position 42-19 move? It's #26 Core and Overall. As expected Paul Simon is right at home, with "Graceland" mid 20's adult, low 40's nationally...Paul Young has his best shot to date, with a #39 adult debut, as compared to the 70-58 overall move. He's #66 core, so if he performs well enough, the rockers could come to the party pronto-just like they followed on the Simon and Hornsby...And what's going on with Tina? "Back Where You Started" may be the new album radio emphasis track, but this chart has "Overnight Sensation" coming on strong with a #40 debut...We'd call the overall first week reaction to Billy Joel's new "This Is The Time" good at #77, - but "great's" the goods on the #47 adult debut...And to no one's surprise, Eurythmics come in at #42 adult and #70 overall.

OVERVIEW

Ah yes, the Core Chart. Here also the song ranking to the right is derived from reporting stations playlists that show an obvious and distinct commitment to serious rock. We're talking big guitars, big auditoriums, and big male numbers. But as we stated on the previous page, the numbers are incidental to inclusion in our core category. Wring out the reports of those stations not shy about Cinderella, Bon Jovi, Iron Maiden, Zebra, and Great White and that's the Core list..

ANALYSIS Having watched our Core printout for about a month now, we can confidently state that the overall crunch quotient continues to decline, with even the hardest signals relying more on dayparting..

Boston has owned this list since day one, and we wouldn't be surprised to see "We're Ready" unseat the Pretenders next week. The momentum on "Cool the Engines" takes that one 10 points higher to 13 (as compared to #38 adult).. Obviously Mike Levine's phone power, endless appetite and a noticeably improved album are paying big dividends at core stations, as "Tears" makes a muscular 22-14 move (34-31 Overall, #70 adult)...We were suprised to find Cinderella's core number numbers slowing a bit on "Nobody's Fool", but they've been on it for months now. Better get that next track out..True to form, the rockers are a step ahead on Bad Company's "Fame and Fortune", now #39. Ditto Billy Squier's #40 debut for "ShotO'Love", Bon Jovi's "Wanted Dead or Alive" at #20, and the Outlaws "Soldiers of Fortune" at #45.

Followup...

It's eye opening to check the universal acts as well. KBC's "It's Not You" has to qualify as an unmitigated crossover killer, up 6-3 core, 6-4 overall and 11-5 adult.Whoda thunk the rockers would embrace the Hornsby as they have, and his ongoing top 10 status here tells you just how persuasive that success story is. Ditto the Georgia Satellites across the board top 10 action. And did you catch their 9-2 Most Requested move? The Core stations apparently have to be convinced on this new Heads track. "Puzzlin" picks up a 21-18 adult move, with the core holding at #37.

Next week, you can expect to see nice debuts for Robert Cray (we expected it this report), Seeger's "Miami", the Smithereens "Wall of Sleep", Jason's "Golden Ball and Chain", and possibly the Zebra 12".

POLLACK BACK IN BIG APPLE

Consultant Jeff Pollack has landed WNEW-FM. Burkhart-Abrams and Harris Communications are out at Metropolitan's NYC outlet. Jeff was in the station Monday (11/3) to start listening. Metropolitan's WMMR/Philadelphia remains in the Abrams/Harris fold. KMET/LA is still an Abrams station.

LOOSE LIPS

No truth to the rumors that either WBCN's Mark Parenteau or comedian Joe Piscopo will fill the morning vacancy at WNEW-FM. Joe, a broadcast management major in college and self-confessed radio addict, had been mentioned as a possible replacement in a Boston newspaper. Parenteau rumors flew around Beantown, too.

The station continues to talk with prospects.

Meanwhile, Tuesday morning (11/4), John Parr "auditioned" for the WNEW-FM morning gig. Blame it on the radio.

GOLD LABEL

Is Danny Goldberg about to have his Gold Castle Label?

MEASURE OF TASTE

Last Tuesday, Measure 5, the Oregon Marijuana Initiative, went up in smoke. It was a move to allow adult Oregonians to grow pot in their own homes without being on the wrong side of the law. In the heaviest anti-drug climate this nation has ever experienced--yes, in comedy timing is everything--you didn't have to be Carl Sagan to figure out the Measure would be a bust. But not before Oregon radio stations ran plenty of spots for both of the well-organized pro and con factions. If you have a friend in Oregon at a station, you might call; some of these spots are pretty funny.

HUNT ELEKTRA VP

Elektra Director of AOR Promotion Brad Hunt has been named VP/National AOR Promotion. He will report directly to SR VP/Marketing and Promotion Mike Bone. Hunt's promotion is effective immediately.

"This is part of the commitment of Elektra to continue a strong AOR department...with not only my promotion, but the continued existence of a Regional AOR Promo staff," said Hunt. "We've done quite a job, we've got the numbers to prove it, and I look forward to doing it in the the future with Elektra's great new music roster."

LONDON FOG

A special hello to staff of KFOG who are reading this week's HR as they do their morning show from London this week. Denny Somach Productions sets the whole thing up, provides guests, and produces the entire week of shows. And because of the time difference, they get up eight hours later than normal, do afternoons, but call it mornings. That's what we call having life dicked. Tapes of DSP London morning shows were the rave of last winter's Superstars meetings. They sound incredibly unique. Call Kevin Gunn or Sheri Gillis at DSP (215-642-8646) for your free home estimate.

ADVENTURE IN MOVING

WIZN/Burlington is in search of a 6-10 jock unit. T&R to Steve Cormier/PD WIZN, Stevens House, Vergennes, Vt. 05491

WKQQ/Lexington needs a good off-the-wall production director. Contact PD Dave Krusenklaus or MD Rob Ellis at 606-252-6694.

Todd Fowler is out as MD at KOMP/Las Vegas. Ten years: Detroit, Denver, Vegas and seeking PD, MD, and /or airshift. 702-435-7026.

Former KLPX/Tucson DJ Brian Miller is available at 602-293-4308.

BABY OUTBREAK: THREAT OR MENACE?

He worked for one label (A&M) and she worked for another (MCA). And when secret romance blossomed into marriage, it reminded us that some things in our highly predatory work place pale in comparison to love.

So welcome Theodore Francis Cafaro, probably the toughest project Linda Feder ever worked. Congrats, mom. You're a great record promoter and not a bad producer, either. Father Al (wow, that looks way too holy, doesn't it?) is doing well. Nice job, Cookie.

BUT WAIT! THERE'S MORE!!

Our applause to KLPX/Tucson morning man Rick Allen and wife Liz on 9lb. 15oz. Joseph Francis Allen. Now they've got another reason to get up too early.

POWER TRIO

Congrats to the triple promotion recipients at Atlantic: Judy Libow becomes VP/Natl. Singles and LP Promotion, Daddy Buch is Sr. Dir. Natl. Promotion, David Fleischman, whose band honest-to-God used to play for Elvis in a Memphis nightclub, is Dir. of Natl. LP Promotion, and Jackie Tesman becomes Natl. College/Alternative Promotion.

**CLASSIC ON CURRENT: THE FRED
JACOBS INTERVIEW**

Classic Rock Stations are coming up with current lists.

Is this a re-thinking or re-positioning of the format? "I prefer to think of it as more of an evolution--and that's not just trade-stroke stuff," says Classic key man and consultant Fred Jacobs. "We thought that the inclusion of current music on a very carefully selected basis and not played in the same type of rotations they're played in at AOR or CHR stations would really make a lot of sense and would continue to update our audience. The one thing that we don't want to do is force them to go to other stations to hear new stuff. In essence the philosophy here is 'You don't have to leave; we'll expose you to the new stuff. But we're not gonna play the kind of new stuff that we think you're not interested in.' We're dealing with artists that have withstood the test of time. People who still have a lot of credibility today."

KCFX/Kansas City and WYSP/Philadelphia are two examples of Classics that have current lists. And as Fred puts new client stations on the air, these stations now enter the market with current lists. "In Los Angeles (KLSX), which is the newest one of the bunch, the feeling was 'yeah, let's get this stuff on now...there's really no reason to wait.' I think a lot of it is product driven. If there's a lot of this product (Fogerty, Winwood, etc.--your Mt. Rushmores of rock) floating around, then I think we should be playing it. We only deal with artists that have a connection to the format."

Why is Classic Rock the success that it is? "That's a big one. There are a lot of factors, some of which were anticipated and others that were not. A number of AORs had strayed into metal or wave and didn't prominently feature older, catalog music--music that people have very fond memories of: Tunes that they grew up to, listened to in dorm rooms, but couldn't get on album radio. AOR had spread itself thin. It hadn't been true to its origins. I am, frankly, disturbed by a definite audience perception that, to quote Bob Seger, 'today's music ain't got the same soul.' That feeling is out there and anybody who has done focus groups in the past five years knows it."

Really something coming from a guy who consults 91X/San Diego and likes new music, huh?

So now we know Classic Rock was designed to be an alternative. Scary, but Jacobs thinks this might have worked a couple of years earlier: "By the time we got around to doing it, the audience had probably been ready for it for quite some time."

No one was more amazed at 18-24 acceptance of CR than Fred: "Sure, you have that 'my older brother and sister exposed me to it' but subsequent research indicated a bizarre fascination with the late 60s/early 70s period. They feel that they missed a very exciting time. They have a great deal of reverence for what was going on in this country then."

Poor kids. They've been deprived of tear gas.

What is the promotional thrust of a CR station? Or is there one--does this kind of station take care of itself?

"I don't think any format takes care of itself without promotion. The more you do, and the more you're out there pressing the flesh, the better off you are. There has been a misconception that this is a format that just explodes all by itself. That you really don't have to do a lot. There's no question that, initially, the word-of-mouth is so strong, we spread faster than, say, a new AC station. But to sustain the station, we've got to be out there at the same rate of speed as the AOR on the block."

So that means that AORs are your primary target, gold monger?

"The deal is that we decided to go after people who listening to other stations by default," says Fred. Noting that CHRs are vulnerable, he indicates, "Maybe you like to listen to the morning guy, but to sit through Anita Baker six times a day is asking too much. CR was set up to go after audience that was sort of compromising its way through and didn't have a station they could call their own." Oldies station are zeroed in on, too: "In the 60s, you didn't listen to The Kinks back-to-back with The Singing Nun. It wasn't compatible then, and it's not now."

Mr. Soundtrack-of-Your-Life says all of this came to him while he was PD as WRIF/Detroit. "We were playing music that stretched over a long period of time, looking at all the Beatles tunes we played, thinking, 'My God, how does a fifteen-year-old in 1980 relate to this?' And on the other hand we looked at a lot of the newer stuff coming out and couldn't make it fit in well to keep our older audience happy."

That's when the idea started. We felt it was time for album rock to fragment by super-serving some of these older adult listeners who made the initial investment but weren't getting the dividends." Talk about banking on your intuition...

What goes up must come down. Some CRs got banged 12+ in recent books. Fred insists that CR was never intended to be a 12+ format: "No one was more shocked than I that it did as well 12+ as it did. I am not making apologies or excuses. It shouldn't have scored as well it did. Credit is due the people programming the stations. And to a lesser extent, credit goes to some of the other stations in the market who weren't positioned all that well or overreacted when we came in."

Far be it from us to say that borrowing ideas is a way of life in radio, but on a good day you can find five people who will claim they invented the transistor. Fred says he is flattered by imitation.

"This is the kind of business where there are no secrets, where we all rip-off from each other. Besides, who's to say I'm doing this the most perfect way it can be done? I want to hear the other versions of the format, because I'm looking for ideas, too. It isn't a matter of re-inventing the wheel, it is making it more aerodynamic...simply improving it."

And there's gold (and currents) in them thar hills.

STEVE SUTTON

PICK

RICHARD LLOYD "FIELD OF FIRE" (MOVING TARGET/CELLULOID) It's time to expose a diamond in the rough with an album that signifies what conventional rock should be made of--raw emotion and compelling guitarwork. Start with radio-ready "Pleading", or "Backtrack", with a harmonica piece you won't forget to easily. Wanna hear some strings sing? Check out the title track...A triumphant return to vinyl from an ex-Television star.

SINGLE FILE

RAVE UPS "THESE WISHES" (FUN STUFF) Catch a buzz continued from an American band who rocks western style. Flip it and your in for even more smooth pop appeal...

DUMPTRUCK "SECRETS" (BIGTIME) The best thing about 'em is they're not going away...With an Lp as well received as "Positively", it's only appropriate that airtime be maximized on the new 12".

AIRPLAY ANALYSIS

Chartstars

SHRIEKBACK "BIG NIGHT MUSIC" (ISLAND) As the momentum continues this week, airplay is highlighted by CFNY, WHFS, KTCZ, KTCL, WHTG, KEYX, and WXRT. Sure it's dark, but as Lin Brehmer points out, "No one makes 'Big Night Music' happen like Shriekback"...Watch out for the bullet.

DON DIXON "MOST OF THE GIRLS..." (ENIGMA) Newly developing acts have seen a bit more pressure from the heavyweights on our chart this week, due to track pile up on new Lps. Glad to see Dixon stand with 'em...The Lp stays solid with play on "Praying Mantis" at KBCO, KEYX, KORX, KVRE, WFNX, WHFS, WHTG, WMOD and more. Wayne Summers, WRCN, says it's "just what the Doctor ordered for your stale playlist. This is finger snapping, crossover material".

UNTIL DECEMBER "UNTIL DECEMBER" (415/COLUMBIA) Hope you'll keeping increasing rotation on this one. (It will grow on listeners too). With WXXP, KORX, WLIR, KLUB and WRAS first to spin, that 50-43* jump signals a good start.

Chartstars

ROBYN HITCHCOCK "ELEMENT OF LIGHT" (RELATIVITY) When it hit—that was it. To say the response was quick was an understatement. It's tie for the biggest chart move of the week, 46-30*, and nearly doubled in airplay points... WLIR, WFNX, WXXP, KORX, WTOS and more know how to prime that listening audience for Robyn's tour—now underway.

LOVE & ROCKETS "EXPRESS" (BIGTIME) This album stakes the claim for winning album radio's attention and gaining playlist status. The title track gets the nod at CFNY, KEYX, KORX, KROQ, KTCL, WXRT, WXXP, WUOG, WOXY, WMOD and many more...But wait there's more: "All In My Mind" stirs listeners at KAZY, KORX, KVRE and WHFS...Don't stop until you've checked out "American Dream" (right J.R?)

WORLD PARTY "PRIVATE REVOLUTION" (CHRYSALIS) You said it with play at well over 50 stations dominated by album alternative formats, and now the rest begin to kick in. KSTM, KORX, KNCN, KTCL, WHTG, WNDY, WEQX, KLLO, KBCO, WHFS, WGTU, and WIZN are just a few responsible for the jumpstart, so let's break this band. Now at 17*.

BOLSHOI "FRIENDS" (IRS) Album adds have been the rave, with reports from KUSF, KLUB, WRAS, WUOG, WMOD, WGTU, and KEYX...Still strong at the college level, why not try "A Way"? Hear that story at WTOS, KORX, KZEL, WHFS, and WLIR. Catchy.

JASON AND THE SCORCHERS "STILL STANDING" (EMI) It's not the Hard Report Record Of The Week for nothin', and now that the "Golden Ball" is rolling, look for some heavy national action to set in. The Lp bullets 13 positions to 29 this week.

Groundbreakers

LUCY SHOW "MANIA" (BIGTIME) Don't let that move deceive you—deeper action on the majors pushed the roster down slightly, but solid play is heard at KROQ, KTCL, WHFS, KORX, KEYX, WEQX, WXRT, WMOD, WFNX and more...Carter Alan, WBCN, fesses, "It's my favorite personal pick this week."

BILLY BRAGG "TALKING WITH THE TAXMAN..." (ELEKTRA) Last week's debut holds steady on a competitive chart this week thanks to air at CFNY, WEQX, WRAS, WXRT, KTCL, WLIR, and others. "Greetings To The New Brunette" gets the spotlight so far, and Lin Brehmer, WXRT says "Bragg can make a song sound like a sword..." and he's right. Listen and you'll hear why.

CHAMELEONS "STRANGE TIMES" (Geffen) I refuse to give up on this record because I had to go out and buy it—afterall, these are strange times...Dave Cowan, WVVV, says "Phone calls young and old for 'Swamp Thing'. A very intriguing song that more mainstream stations should try." CFNY, KEYX, WBCN, WFNX, WLIR, KCGL, KUSF, WHTG and others keep the Lp in good standing at #23. Next up, "Tears".

MUSIC NEWS

MORRISSEY, the lead singer of **THE SMITHS** was injured this week at their concert in Newport, where several people were arrested in violence that followed. The band's sound engineer also required hospital treatment. The Smiths were about half an hour into their set, when Morrissey began touching hands with fans in the front row. Two of them made a grab for him and the vocalist toppled and fell five feet off the stage in an unbroken fall. Morrissey wanted to valiantly continue with the gig, but his tour manager vetoed him and led him off for first-aid. When the crowd was told that the group was not coming back on, they rioted. Seats were ripped up, the group's equipment was damaged and bottles were thrown, one hitting the sound engineer, badly gashing his head. Morrissey has a simple black eye and a few aches and bruises. Their U.K. tour has already been plagued with minor scuffles.

An Lp, featuring **SIMPLE MINDS**, **HOWARD JONES**, **STING** and others is to be released here in mid-November. Its release is to commemorate the 25th anniversary of **AMNESTY INTERNATIONAL** and is called "Conspiracy and Hope". **SIMPLE MINDS** are also releasing a new remixed version of "Ghostdancing", one of the songs they performed at Live Aid. **JIM KERR**, for whom Amnesty is an important cause, expressed disappointment that the spirit of Live Aid has not continued. "It should have been just the start. We should use our power to a

positive end." One thing that has always been of disappointment to this columnist, is that the big Amnesty show in New Jersey has never been shown on British television. It could be that the organizers felt that Amnesty, being a British based organization and already well known here, didn't need that kind of promotion here, but its absence from our screens has broken a long tradition of getting all important American entertainment events here.

Something else we won't be seeing here is the new **TALKING HEADS** video for the song "Love For Sale". The ITV network here has already declared that they will be unable to play the clip because it contravenes U.K. laws governing television advertising. The video is based around a montage of well known consumer products like Coca-Cola and Kellogg's cereals. The laws here state that any broadcast that is not a commercial and contains an undue element of advertising will not be shown, (laws that do not exist in the States where the video was shot.) An **EMI** spokeswoman agreed this week that no British television station could show the video, and she says that they're hoping to convince the band to make another one. Although this is the first pop video to fall foul of these laws, records themselves have suffered in the past.

In the sixties, **THE KINK'S** "Lola" had to have a line changed from "Coca-Cola" to "cherry-cola" before the BBC would play it. In 1972, **DR. HOOK'S** "On The Cover of The Rolling Stone", constituted advertising in the **BBC'S** eyes and was banned. This was not before a desperate attempt by **WEA** pluggers, who tried to record a last-minute remix of the record, bellowing over the original chorus "On the cover of the Radio Times", the BBC's own publication. The attempt failed, but the hundred or so pressings of this are now worth many hundreds in London's collector-land. Outrageously, **PAUL SIMON'S** "Koda-chrome" suffered a total ban, as it is a trademark of Kodak. (The B-side that played instead, "Take Me To The Mardi-gras", was a top five hit though.) Who says I don't give you trivia?

Rock starts turned out in droves for the opening of the new giant **HMV** Record Store on Europe's biggest shopping street, London's Oxford Street. In attendance for what has been claimed the world's largest record store, were **BILLY IDOL**, **HOWARD JONES**, **BOB GELDOF** and **PAULA YATES**, and the **FRANKIES**. **HMV** (which stands for His Master's Voice) used to have the biggest record store in London, until **VIRGIN** unveiled their colossal Megastore, two years ago, also on Oxford Street, Virgin were also recently challenged in turn by the American-owned **TOWER RECORDS**, who opened up in July, right on the tourist hot spot of Picadilly Circus. Now **HMV**, have bowed to competition, closed their old, increasingly old-fashioned looking store, and opened up this new one. Like Virgin, it has used space-age design, and plenty of floor space. Time will tell whether **HMV** can possibly compete with Virgin's fabulously stocked rock floor, and their extra attractions like a cafe, waxworks museum and the best rock buyers in the business. As for Tower, it is large, but badly designed (very much in the usual style of their American stores) with a mediocre rock-floor. They seem to have not taken into account many of the services the British expect in a record shop (an instore ticket agency, prominent store-plans etc.) but because of their awesome access to American imports they are way ahead on Jazz, films and shows and classical. They also boast outrageous store hours (9-Midnight, 7 days a week, 365 days a year) and because of their location, 50 percent of their customers are tourists in any case, many of them American. For visitors to London though, I would encourage you not to miss The Virgin Megastore. A Canadian friend of mine spent about half his holiday in there...

A get-well-soon to Ian Astbury, lead singer of **THE CULT**. Poor Ian was leaving the incredibly trendy Limelight club when he was bitten by a large dog. (On at The Limelight was a Sige Sige Sputnik party, so this should serve as a warning, or bad omen.) Ian, ever valiant, was determined to be undeterred by his injury, and our favourite brave, gothic soldier flew off the next day to The United States, where he's teaming up with Rick Rubin of **DEF JAM** fame to produce the next Cult Lp.

Good to see **CHINA CRISIS** back with their fab new single "Arizona Skies". Their Lp "What Price Paradise" comes out at the end of November and will be immediately followed by a world tour.

The album took four months to record, during which time the band and crew all agreed to grow beards and not shave them off until the damn thing was finished. They've also made a rather silly video for "Arizona Skies" featuring Garry Daly in a rather corny studio setting, riding a donkey!!! Garry claims it's about time that people recognised the humorous side of the group for a change. It's been 1-1/2 years since "Flaunting The Imperfection", but although it may seem the group have been inactive, nothing could be further from the truth. They've toured all over Europe, especially Spain and Italy and they became the first rock group to play Gibraltar. They've also been sneaking in some secret dates in and around their home city of Liverpool, billing themselves with names like Kirk Douglas and The Longcoats From Hell Ride Again. **CC** are also one of the few successful British bands who not only won't become tax exiles, but still continue to live and work in their native Liverpool, despite the fact it is the poorest city in Western Europe. One reason Garry Daly cites to "Number One" magazine is that: "If anything is going to happen here musically, it's going to happen here in the north. I'm convinced northerners are more positive people."

If you've been scratching your head over the oddity of having one remixed **POLICE** single on an otherwise straight greatest hits Lp, the mystery is solved. According to some well placed sources, even though The Police have some loathing for each other, they were offered a sum they couldn't refuse to cut a final Lp. (In the region of 1-1/2 million). The band decided to write a few new tunes and do some interesting remixes of their old hits—"Don't Stand So Close To Me" the first to be recorded. But soon after, tempers flared up between Sting and Stewart Copeland. It is believed that Stewart read out a less than flattering review (of which there were many) of Sting's movie "The Bride". The eversensitive Sting stormed out, leaving the lone track sitting there and the heart flutters of **A&M** execs. So now you know.

NEWS IN BRIEF: **THE HOUSEMARTINS** and **BILLY BRAGG** are two of the contributors to a forthcoming anti-apartheid Lp "Not Just Mandela"... **THE COCTEAU TWINS** are ready to release their new LP "The Moon and the Melodies" on which they've collaborated with the veteran American pianist, Harold Budd... **THE STRANGLERS** release their ninth Lp next week, "Dreamtime", featuring their hits "Nice In Nice" and the glorious new one "Always The Sun"... It is rumoured that **BRONSKI BEAT** have lost their singer, John Foster. The group are so far denying the story. There are also fresh rumours that not all is happy in the Frankie Goes to Hollywood camp.

NEW RELEASES. I'm now going to be superconfident and predict a number one single—**SPANDAU BALLETS**' latest, "Through the Barricades". It is earmarked for a monster-seller and I suggest you get hold of it, beg, steal or borrow. Spandau have looked as though they were floundering for a long time, after a lengthy legal wrangle with their former record company. Upon their return, they did not exactly light up the charts with "We've Got To Fight For Ourselves". But if you

Continued

thought "True" was their ultimate slushy song, you ain't heard nothing yet. "Through the Barricades" is as almost an ultimate love song as 10cc's "I'm Not In Love"—starting off with a winsome, poetic vocal, accompanied only by a spanish guitar—then finally building up to a mammoth crescendo in classic Spandau style. A su-perb, highly commercial record that will shortly flatten the competition—at least on these shores...An immensely likeable single is the newie by Kate Bush called "Experiment Four". No surprises musically. The usual interesting self-production and overlaying that Kate is so good at. Lyrically it's quite powerful, about scientists getting hold of rock music and using it as an evil propaganda weapon. Although I don't think it's chart material, a thumbs up for **KATE BUSH**...The farewell single by **MADNESS**, "Waiting For The Ghosttrain" is rather, a weak last flagwaving - not good, although they will of course be sadly missed. "51st State" by **NEW MODEL ARMY** is a fairly good, uptempo punky romp, although the lyrical concern of Britain becoming engulfed in American culture, is one that not unsurprisingly, I don't think will have American youth, stopping in the aisles in sympathy.

CHART ACTION: **THE COCTAU TWINS**' "Love's Easy Tears", topples **NEW ORDER'S** "State of The Nation" off the pole position in the Independent Label singles charts..."Walk Like An Egyptian" by **THE BANGLES** has just become Britain's biggest selling 12"...The best-selling video is "Who Wants To Live Forever" by **QUEEN**, ending a long reign by **WHAM** with "Foreign Skies", their tour of China.

In the UK Lp charts: "Give Me The Reason" by **LUTHER VANDROSS** comes straight into the Top 100 at 13, "Get Close" by **THE PRETENDERS**, similarly enters straight in at 12 and "Whiplash Smile" by **BILLY IDOL** comes in at 9. Entering the 100 at 5 "Liverpool" by **FRANKIE GOES TO HOLLYWOOD** (despite a severe mauling by the critics) and straight in at 4 "Between Two Fires", a more ballad-oriented album by **PAUL YOUNG**...Staying at 3 "Silk and Steel" by **FIVE STAR**. Up two to 2 "True Blue" by **MADONNA** and still at number one and enjoying it's seventh week there, "Graceland" by **PAUL SIMON**.

Plenty of new entries in this week's Top 40 singles. 40 - "Another Lover, Another Hole In My Head" by **PRINCE**, 39 "Because I Love You" by **SHAKING STEVENS**, 36 "Breakout" by **SWING OUT SISTER**. Very highly tipped by deejays and pop critics here as bright new talent. To me it's light, listenable funk, but pretty ordinary. 34, "This Is The World Calling" by **BOB GELDOF**. I like this. It's very hard to separate the man and his music, particularly when this has such a global, post-Live-Aid feel to it. I did find the 12" rather wearing, but the ordinary 7" very pleasant. Looking forward to the Lp. 33..."For America" by **RED BOX**.

A fabulous second single by Red Box, whose joyous full, almost childlike choruses delighted the U.K. 11 months ago with "Lean On Me". This incorporates a bit of jig, a bit of reel and an

infectious middle eight. Contrary to their statements (see last week's report) any protest in this record is highly veiled and unrecognisable. Highly recommended. 31 . . . "Don't Give Up" by **PETER GABRIEL** and **KATE BUSH**. Immensely moving and atmospheric. With all the awful duets we've been plagued with over the past couple of years, it's magnificent to hear two great artists get together and maintain their dignity and a high standard of excellence. Culled from Gabriel's "So"...26 "Something Out Of Noth-ing" by **LETITIA DEAN** and **PAUL MEDFORD**. Speaking of awful duets. More British soap opera stars who should know better...16 "Ask" by **THE SMITHS**. More listenable and commercially accessible than any-thing The Smiths have put out to date. Accompanied by almost a proper video which convinces me the Manchester boys are after the Amer-ican market with this one. 14 "Notorious" by **DURAN DURAN**. Considering the traumas the group have undergone a very good single indeed. We keep writing them off and they keep bouncing back. In classic form. But someone should tell them not to steal all their video ideas from Steve Winwood. It's the highest new entry. Climbers: Up thirteen to 27 "Living On A Prayer" by **BON JOVI**. Up four to 25 "Close To You" by **GWEN GUTHRIE**. Up fourteen to 24 "Showing Out" by **MEL AND KIM**. Strut your funky stuff, stuff. Up five to 22, "To Be A Lover" by **BILLY IDOL**. Up twenty-one positions to 15 "You Keep me Hanging On" by **KIM WILDE**. Already the most pop-ular record in Europe's discos, an irresistible, blatantly over-produced remake of the Supremes classic that should get even the most laid-back to move and groove. Like having someone smash a bottle of fizzy pop over your head. (Are you sure about this—Ed) Particularly good for the dancefloor. The highest climber leaps thirty posi-tions to number 7. "You Take My Breath Away" by **BERLIN**. It's their first British hit. Helped enor-mously by being the "love theme" to "that" film. It also bears the unmistakable trademark of Giorgio Moroder, whose midas touch has produced an endless hit list. Most chart analysts confidently predict this to go to number one next week. But still at the top spot is **NICK BERRY'S** "Every Loser Wins". He's a British soap opera star, who also happens to bear a resemblance to George Michael. It's not inconceivable that he may have inter-national success. But as I've already stated, I think it unlikely.

Finally, I hear that Amazulu's **LESLIE BEACH** doesn't like the word grape mentioned at the moment. Dining in a posh Amsterdam eatery, Leslie called the waiter over and complained that the grapes were off. "Madam" said the waiter wearily, "Those are not grapes, they're olives!" Tee-hee. Toodloo 'til next week.

LATE ADDITION: Having just seen an exclusive premiere of **BOB GELDOF'S** new video, for "This Is The World Calling", I feel confident that it will be a huge international success. Although not a complex video, (really just Bob, some dancers and lots of footage of the earth from space, star-filled skies, etc.) it is quite touching and will, I believe, stand up to extended viewing.

THE HARD REPORT

MUSIC NEWS

AIMEE MANN and **JULES SHEAR** joined Elvis Costello on stage during his recent Boston concerts for versions of Shear's "If She Knew What She Wants", and 'Til Tuesday's "What About Love".

CHUCK BROWN AND THE SOUL SEARCHERS won six honors in the Wammies given out by the Washington Area Music Association. Brown and his band won awards for Best Vocalist, Best Artist or Group and Best Entertainer of the Year. Guitarist Bo Diddley was among those inducted into the WAMA Hall of Fame. The Nighthawks won the award for Best Artist or Group in the Blues category.

The **PUBLIC BROADCASTING SYSTEM** will not air the musical documentary on "Sun City", because of its anti-apartheid bias. Little Steven Van Zandt approached PBS about showing the documentary, but PBS rejected it. "There is not a banning of the work," says PBS programming executive Barry Chase. "There are various stages you go through in evaluating these shows. We ask, 'What are the reasons we'll take this?' When you look at a show, you are balancing its entertainment, journalistic and integrity values. It failed on the final two."

CYNDI LAUPER, who has just completed a six-week tour of the Far East, is working on a new video in London.

Rolling Stones drummer **CHARLIE WATTS** is expected to play a handful of dates later this year with a 35-piece orchestra. Former Cream bass player will be part of the group, which is expected to play jazz tunes by Benny Goodman, Lester Young and Charlie Parker--among others.

JERRY GARCIA of the Grateful Dead is up and around, after being in a diabetic coma this summer. He's recently played with the Dead this winter. "He's healthy and came out of it all with all his faculties," says Dead spokesman Dennis McNally. "He's watching his diet and resting more. He was a classic junk food junkie but knows he has to change."

ALEX COX ("Sid & Nancy", "Repo Man") says he has completed a "spaghetti Western" in Spain that should be out by Christmas. The film features Emilio Estevez, Harry Dean Stanton, Joe Strummer, Dennis Hopper, Grace Jones, Elvis Costello, Jim Jarmusch and the Pogues, among others. "It's a story of dust, lust, men without horses, men without wives, men with guns, women without husbands, and sexual tension," Cox says. "Mostly, it's about this group of Anglo-American reprobates who sit around hotels a long time waiting to murder people who never show up. It should be very funny." The film, "Straight To Hell", was filmed in four weeks. Cox also spent some time filming the Nicaraguan tour of the Pogues.

The opening night of **ALICE COOPER'S** "The Nightmare Returns" tour at the Civic Center in Lansing, Michigan, saw him perform 16 songs in 70 minutes, including metal-sounding versions of classics like "Eight-teen," "No More Mr. Nice Guy" and "School's Out". Some of Cooper's old stage gimmicks have returned, including a 17-foot boa constrictor, baby dolls who get speared with a

sword for "Billion Dollar Babies", a mannequin for "Cold Ethyl", and a decapitation for "I Love The Dead". Roadies dressed as ghouls to move equipment during the show, and a leather dancer was featured in "Go To Hell". Cooper was again wrapped in a straight-jacket for "The Ballad Of Dwight Frye". "Teenage Frankenstein", from Cooper's new "Constrictor" album was highlighted by a monster illusion. Cooper's show the following night, at the Joe Louis Arena in Detroit, sold out in only a few hours.

JOHN FOGERTY, GEORGE THOROGOOD & THE DESTROYERS and **STEPHEN STILLS** will perform at the University of Kansas in Lawrence on November 11. The show is sponsored by Youth for Vietnam Veterans, and proceeds will go to scholarships for the children of Vietnam veterans.

The **DOOBIE BROTHERS** has committed to reunite for a show May 24 or 25 at the Los Angeles Coliseum to benefit Vietnam veterans. John McFee says all the members of the band have agreed to play together at the show.

The release date for the new **PSYCHEDELIC FURS** album, "Midnight To Midnight", has been delayed until January, says lead singer Richard Butler. "The release date for the album was originally scheduled for Christmas, but that's impossible because we're on the same label as Michael Jackson and Bruce Springsteen and that would be our competition," Butler says. The first single from the album will be "Heartbreak Hotel", accompanied by a video shot in Los Angeles.

TED NUGENT declined an invitation from the new owners of Muzak to attend a ceremony announcing their takeover. Nugent had offered to buy the service earlier this year for \$10 million so that he could "shelve it for good." Paul Sullivan, vice-president of Yesco Foreground Music, says he invited Nugent to let him know that the new owners are "planning to integrate some contemporary instrumentation into the traditional Muzak format." Nugent declined, saying the service will never be his "cup of arsenic."

MARK KNOPFLER of Dire Straits is said to be doing well after his accident during a celebrity race before the Australian Grand Prix. In fact, Knopfler says he's planning to move to Australia to live there for good. He says it shouldn't interfere with Dire Straits' tour plans.

Gordon Lightfoot, Corey Hart, Honeymoon Suite, Kim Mitchell, Glass Tiger and Luba are among the performers on the **1986 JUNO AWARDS** show which will be broadcast nationally in Canada next Monday. Bryan Adams, Jane Siberry, David Foster and John Oates are among those who will be presenting awards, and Howie Mandel will host the show.

British comedian **MEL SMITH** is trying to find backing for a film called "Roadies", about a rock band touring Russia.

KURTIS BLOW'S next album, "Kingdom Blow", will be out later this month, with contributions from George Clinton, Trouble Funk and Bob Dylan. "Bob and I were recording in New

York about three years ago, I met him in the studio called the Power Station. He needed some background singers for the album he was doing and I lent him Full Force," Blow explains. "When we started this new album, I wanted to do a duet. I asked New Edition, Whitney Houston and Prince, and they all said no. So I asked Bob Dylan and he said 'Let me hear the track.' He loved the track, so we went to the West Coast to record it." Dylan raps four lines introducing the first track on the Lp, "Street Rock". "It took him two takes! The rap he does is actually real hard, too," Blow says, adding that he considers Dylan's "Subterranean Homesick Blues" to be "almost" a rap record.

HOWARD JONES says the idea for "You Know I Love You (Don't You?)" came while he was touring. "You need your friends and people you are close to, to tell you how much they like you and what things they like about you," Jones says. "I think it's really important because if you don't, nobody ever knows." Jones concedes, "This song is supposed to be a half-humorous song." The video for the film was directed by Wayne Isham, and used a process in which photocopies of actual filmed footage is animated and then put back on film. It took about "8 to 10 weeks" and 20 animators to complete the clip. "We wanted to do a real blockbuster video," Jones says. Jones plans to begin touring in February, with dates in North America planned for May or June.

IRON MAIDEN cancelled a British concert because singer Bruce Dickinson was suffering from bronchitis. He was told not to use his voice for three days, or else he would suffer more permanent damage.

While **UNTIL DECEMBER** is touring the U.S. with Gene Loves Jezebel, it is traveling without bass player Bryan Weisberg who was injured in an accident on Highway 5 in California early last month. The band's tour vehicle was totaled in the accident, and Weisberg remains in San Francisco General Hospital with a fractured jaw and assorted minor injuries. He hopes to join the band on tour as soon as possible. Until December has also played a few dates with New Order and Love And Rockets.

RICK RUBIN (Def Jam, Beastie Boys) seems likely to produce the next album from The Cult.

WARREN ZEVON, signed by Virgin Records, is expected to begin recording a new album in the next few months.

FELA KUTI is starting his first full tour of the United States in Washington. The 10-date tour will end November 15 at the Olympic Auditorium in Los Angeles. He'll be accompanied by a 35-member "Egypt 80 Orchestra & Dancers" for the tour. Kuti was arrested in 1984 for currency smuggling just as he was to begin a U.S. tour, and has served 20 months in Nigerian prisons. He was declared a "prisoner of conscience" by Amnesty International.

SHRIEKBACK has been playing one new song on its current tour that's not included on its new "Big Night Music" album. It's a song the band recorded specifically for inclusion on a compilation album which will be out in England in December to benefit an organization called People for the Ethical Treatment of Animals, which is concerned about laboratory treatment of some animals. "It's something I've never particularly felt good about," says Barry Andrews, keyboardist. "When I was quite little, I realized that the lamb we had for Sunday dinner was the same as the little lamb that was jumping up and down in my storybook," says Andrews—a vegetarian. On the subject of the new album: "I think we're more feeling on this record. As the principal songwriter now I have a lot more room to move without Carl (Marsh, guitarist). I've been able to indulge myself, so to speak. The old Shriekback was big, spiny machines. The new one is museums, maudlin and sentimental. I feel as if there has been a sluicing of orifices for Shriekback."

THE WATERBOYS and **WIRE TRAIN** teamed up at Jam Studios in London to record a track that will appear as a b-side on Wire Train's debut single from its upcoming album "Ten Women". The song, written by Wire Train's Kevin Hunter, is called "Compassion". This isn't the first time these two bands have collaborated. The two groups toured the U.K. together this summer. Head Waterboy Mike Scott has invited Wire Train guitarist Jeffrey Trott to play on the next Waterboys album, and Trott regularly joined the Waterboys onstage for the latter's encore of "Purple Rain".

THE THE'S Matt Johnson has issued a statement about the controversy caused by his new single, "Infected". "I've found the last several months both illuminating and disturbing as far as censorship perimeters are concerned," Johnson says. "Having received numerous slapped wrists for everything from lyrics to sleeves to videos and T-shirts, it seems that unless you write merry melodies for the under sixes and over 60's, you've little chance of being allowed to communicate with the Great British public (as far as the BBC's concerned)."

The Cars' **RIC OCASEK** has given a check for \$225,000 to Ultravox's Midge Ure. The money, representing profits from the Cars' "Drive" single in England, was pledged to Band Aid.

Doug Clifton, KBCO, Boulder

Steve Miller has gone back to his roots on "Living In The 20th Century". "Nobody But You" is the only song that is reminiscent of the "Book Of Dreams" / "Fly Like An Eagle" era. Steve has gone back to the late 60's when his sound was almost all blues. "My Baby" and "Nobody" are our choices to follow up the single. I know we'll get much deeper into this record as time goes on. Great comeback, Steve. The fiery vocals of Maria McKee make "I Found Love" an obvious out of the box choice for us. Lone Justice should be automatic everywhere. Records moving up fast: KBC Band, Robert Cray, Bob Geldof, and Shriekback. Thanks to Katie Arnold for her visit to the station with Bob Walkenhorst. The Rainmakers are one of this year's pleasant surprises.

Ron Sorenson, KBLE, Des Moines

No one can homogenize the blues like Steve Miller. I think "Ain't That Lovin' You" could be a hit. The two surprises of the week were Jennifer Warnes and Karen Blake. Warnes' new Lp is the first from Craig Sussman's new Cypress Records, a label I'm looking forward to hearing more from. Jennifer's Lp is a collection of both vintage and current work from Leonard Cohen and includes a guest appearance by Stevie Ray Vaughan. Karen Blake's debut is stylistically similar and most notable for her choice of one of my favorite undiscovered gems, Paul Muggleton's "Come Hell or Waters High". Good to see Doug Ackerman back on the road for Shanachie. Watch out! You, too, may soon be subject to an Akk Attack.

Jonathan Rosen, KEYX, Phoenix

KTP will be the "Luxury Gap" album of '86...The strongest track is "Never Too Late" and the next one has got to be the title track. An overall great package...Robyn Hitchcock gets closer and closer to commercial radio with the strongest effort of his career. The Lennon-esque "Somewhere Apart" should be an immediate add!...On Halloween I played 5 hours of music oriented towards the holiday using music from past and present with lots of drop ins. Anyone who would like a playlist send a self addressed envelope to: J Rosen, KEYX, 218 W Hampton Ave, Mesa AZ 85202.

Joe Blood, KEZO, Omaha

Love the Jason, the entire album's excellent and "Golden" is an excellent track...There are at least 4 other cuts that captured my imagination as well as my ears. Example: "Take Me To"... "Ghost Town"... "Oceans Of Doubt"...and "Good Things Come To Those"...This should be the album to break the Scorchers. Hey, how about that Stevie Ray Vaughan!! The best contemporary guitarist in these United States of America once again delivers a format exclusive...Can't wait to hear the rest of this record. And another smasharoo is the Smithereens' "Behind A Wall Of Sleep"...The Best Lyrics Award for the month of November to the Smithereens. And how 'bout that Pretenders' raveup version of "Room Full Of Mirrors"! I didn't think that Chrissie had it in her...but now I know.

Inessa York, KGON, Portland

Steve Miller: I've listened to this album a couple of times and I can't hear anything on it that I don't like. From the weird phasing in Steve's voice to that great guitar...and especially that Blues side. We are starting out with "Nobody But...". I expect this album to be one of our staples thru the new year.

Phil Thompson, KICT, Wichita

The Georgia Satellites pull #1 phones this week...We're looking to go another cut or two deeper into the album. This type of Southern raw and raunchy guitar Rock 'n Roll seems to be pretty hot 'round these parts which brings me to the Stevie Ray Vaughan...we can't wait for the album. The World Party finally makes it on this week after much persuasion from that Chrysalis gal Geina Horton. It sounds really good on the air. Thanks to Gene Denonovich for the Bruce Springsteen disc... and once again I'm making my plea for CD service. Pleaseand thank you.

Alan White, KILO, Colorado Springs

Got a chance to see Berlin during the first week of their tour here in Colorado Springs at, of all places...the Air Force Academy...which proved to be a great venue because of their association with the Top Gun movie. After a 2-year absence from the road, Berlin is back and rocking very strong. Terri, John and Rob all came to the KILO studios for a wonderful interview after the show. They were most cooperative and energetic. What I'm trying to convey is that if you had any preconceived notions about their image or their abilities as a rock band...guess again. Thanks to Bob Margolis, Geffen Records, for all the arrangements.

Mike Ramsey, KLAQ, El Paso

Muchas gracias to Evening Star Productions, A&M Records and Atlantic Records for our "Instant Replay". Our winners really enjoyed seeing the Bad Company/38 Special show in Dallas and seeing the show again here in El Paso...38 Special is incredible on this tour. If they're coming to your town, don't miss it...and if you're looking for extra tracks on the Bad Company Lp, check out the title cut "Tell It Like It Is" and "Valerie". Stevie Ray Vaughan: Oh, boy, he's a Lone Star for sure...We love that record. Robert Cray is making a hit and "Blame" it on the listeners for all the calls you'll get on John Parr.

Jack Green, KLPX, Tucson

Billy Idol is kicking ass! I'm not a big Idol fan, but I love this new record! Less "wave", more mass appeal. Timbuk 3 and Georgia Satellites are doing really well. What do I like about them? NO SYNTHESIZERS!! Just straight ahead rock 'n roll!! Same for Jason And The Scorchers. I think it's gonna do extremely well.

Rich Flamingo, KLUW, Concord

Attention independent labels and college radio representative types: Please send your alternative stuff! We have a new music show on Sunday nights called "Progressive Trends" and nothing is too weird...send to 2231 D Commerce Ave., Concord, CA 94520. If you want to be on our PT mailing list, give me a call.

Patty Martin, KMBY, Monterey

Am still reelin' from last week's Winwood show. It was just spectacular. And I'm sure glad Halloween only comes once a year. KMBY threw a costume ball to benefit the Monterey film festival and raised over \$3500 in one night. We also had a jock out at the Jaycee's Haunted House every night for two weeks...crankin' the tunes and passin' out treats. Turned out to be the biggest year ever for the Jaycee's Haunted House with hundreds through every night. So now that it's over...I get socked with a nasty cold!

Don Berns, CFNY Toronto

It started with the Moody Blues, then came Paul Simon and now here's Steve Miller, that ole' Space Cowboy himself, breaking all logical rules about what should be played on new music stations by releasing an album of the absolute highest quality. If you had told me a year ago that I would be playing Steve Miller on CFNY (back to back with Sigue Sigue Sputnik), I would have questioned your sanity, but "Living In The 20th Century" is too great an album to ignore, simply because the artist has a so-called AOR image. The obviousness of the single aside, my particular faves are the Jimmy Reed classic, "Ain't That Lovin' You Baby" and the hot, hot, hot, instrumental track "Slinky". Right on Steve--this one's a guaranteed winner...I'm surprised that not more stations are on the World Party record which has to be one of the finer debut efforts this year. If "Ship Of Fools" isn't to your liking check out "All Come True" (a guaranteed top 5 hit if ever released as a single) or "Private Revolution". Whatever you do, don't ignore World Party--it's too classy to get lost in the shuffle of all the major artists who have product out now. Many thanks to Shriekback, Sigue Sigue Sputnik and Howard Jones for stopping by for live mike interviews. Shriekback's new Lp is getting major airplay here, as well it should; Sigue Sigue were absolutely fabulous and funny on the air; it was a major wish of mine to meet with and talk to Howard Jones and I wasn't in the least disappointed. He's as an extraordinary man as is his music. I'd also like to thank Love & Rockets for dropping by for a live mike--I'd like to, but they were so surly and unresponsive, that I can't, which leads to the musical question: Why do record companies schlep unwilling (and tired) artists around to the media? The audience response to this mockery of an interview was extremely negative toward the group which is too bad because their album is doing very well here.

WAYNE SOMMERS, WRCN, LONG ISLAND

With all the talk lately about AOR not being a format that breaks new artists, I thought I'd throw in my two cents worth. I believe it is true that, of late, myopia has set in. For the large part it's the results of a few conservative consultants who account for most of the big reporting stations. A fear of liability has developed where up and coming artists are concerned. Secondly, it's the results of a very narrow definition of exactly what constitutes Album Oriented Rock radio. I personally believe it is time to re-assess our priorities. Instead of handing such bands as Simply Red and The Pet Shop Boys to CHR on a silver platter we should get up enough guts to go with that inner voice which says "Hey this will be a hit". AOR can be a viable format for breaking new artists while retaining its Core and in the process become a much more exciting entity without chasing off listeners. I'm not saying we should start playing Whitney Houston, but let's not be afraid of Howard Jones or Paul Young ...

Al Branca, WMGM, Atlantic City

Had the opportunity to see Bob Seger at the Spectrum last week--great show. The negative? It wasn't long enough. He could've played for 5 hours without getting to all his hits. Special thanks to Rick Salvador for the backstage promotion...Adds: Billy Joel "This Is The Time", this week's easiest record. Instant heavy...Steve Winwood "Back In The High Life". The Lp is still cooking at #5 retail and shows no signs of letting up...Pretenders "My Baby": This one could easily be another Top 40 smash. Great mid-tempo ballad. ...John Parr "Blame It On The Radio": Sorry I didn't have room for it last week. He's a top priority artist who always does well here...Billy Squier "Shot Of Love": Now that's Billy Squier. This one should have been the lead off track...Zebra "Can't Live Without": It's great to hear from these guys again. I've always been impressed with their originality and great production. Steve Ray Vaughan "Superstition": Not many artists can get AOR adds with a Stevie Wonder remake. Great bluesy version and I love those patented guitar licks... Jason And The Scorchers "Golden Ball And Chain": It's as hip as the Del Fuegos' Miller commercial...Also on: Icehouse "Paradise"...Top 5 Phones: Bon Jovi "Give"; Cinderella "Fool"; Boston "Amanda"; Kansas "All"; Billy Idol "Lover".

Carter Alan, WBCN, Boston

Boston and Iggy Pop continue to dominate request action. We're especially looking forward to Iggy's show at the Metro coming up next week. This Lp is his strongest since "New Values"...Just saw REM and the band was brilliant. They've managed to translate their rock and roll show onto the big stage, and make it work. Look at "Superman" to do what no REM track has done before. My personal pick this week is the Lucy Show on Big Time Records.

Dave Stone, KJOT, Boise

Love the Kansas album...They've gone back to the sound that they were known for with incredible orchestration going into acoustic breaks. "Musicatto" and "Taking in the View" segue right together in classic Kansas style...and "Silhouettes" is also very strong. Kansas is an upper demo and at this point...those 30 year olds are into it and we're going to respond. First week on and "Power" is already getting requests. Sales are happening for Billy Idol, Eddie Money and Bad Company. Added the Paul Simon for upper demo appeal...plus it's a great song!

Tom Daniels, WCKG, Chicago..

The Bears should be an interesting game tonite...two quasi-unknown quarterbacks...it'll be a running game...Payton verses Dickerson....I wanna see the Fridge throw the football!!

RADIO REPORTS MONDAY & TUESDAY 10 AM-7PM EST

COMMENTS DEADLINE WEDNESDAY 12 NOON

(609) 654-7272

Fred Leemhuis, KGRQ, Casper

I think it's a crime so many people are overlooking Marti Jones's "Match Game" Lp. We're getting exceptional sales/phones. Scott Evers has been named Music Director at KGRQ...effective now...music calls—Monday and Tuesday 9 AM to 12 Noon Mountain time...for those of you who don't know where Wyoming is.

Paul Cannell, KORX, Springfield

54-40 IS ONE HOT BAND. We had them here for Halloween and they were incredible!...Tonight we've got Lonnie Mack and Lonnie Brooks...Tuesday, Game Theory, then coming up are Bad Company, Ben Vaughan, Jason And The Scorchers and Georgia Satellites...so make your reservations now! We need IDs for everyone and anyone...PS: Gordon Gano's Mercy Seat will be here Monday night. A great cross of gospel and rock and roll.

Jeff Carroll, KLBJ, Austin

We were one of the first to jump out on World Party. Intelligent stuff. I like "Ship", "Hawaiian", "Make It Happen"...the cassette hasn't left my car for 3 weeks. Big phones on Georgia Satellites. Jason's gonna do real well...we're gonna give away 50 fire extinguishers autographed by Jason. Giving away a classic '67 Vette...black, 350, stunning. When you hear the Classic Car tune whenever it's played, call in and qualify for one of ninety-four keys.

Loris Lane, KFMX, Lubbock

Everybody in Lubbock loves Stevie Ray Vaughan. As soon as we gave it a couple of trial spins the phones were incredible...and a few listeners even mentioned they were there when it was recorded in Austin. Lone Justice—God, what a sweet song!! Maria McKee can do anything—from working with Dwight Yoakum to Tom Petty. Added Bon Jovi's "Wanted"...so much more of an adult song...far and away his best upper demo song...Play Increases: David & David's "Cracks" to Heavy...The album will be a classic. Also up is the Steve Miller...not a ton of phones yet, but we really love it... Ric Ocasek's "True To You" moves up... and KBC's "It's Not You" goes up with medium calls. Love the "Praying Mantis" cut from Don Dixon and the Rainmakers' "Downstream".

Jack Emerson, KGGO, Des Moines

The Ben Orr was worth the wait...don't ask me why I waited or I'll be in Atlanta with the rest of the guys...also went with the Rainmakers' "Downstream"...the first song did real well...this is the logical follow-up. Play increases include Eddie Money's "Endless Nights". Right now Kansas's "Power" seems to be doing really well...a Top 5 request item along with Bad Company, John Fogerty, Boston, and probably Steve Miller. Considering: going to work for Kinney Shoes...

BOB LINDER, WDHA, DOVER

Mike Boyle is still recovering from our Halloween party, what a success. Thanx to Valerie Goodma of Warner Bros. and Bobby Shaw of MCA for coming out to help judge the contest...It's a guitar kinda week here at WDHA as far as adds go, Robin Trower is hot, Robert Cray is hotter, and Stevie Ray Vaughan's "Superstition" is the hottest.

Harry Reynolds, KOZZ, Reno

Thanks to the people at Warner Bros., particularly to Gary Briggs and especially Van Halen, for putting on a great show and promotion with us. Special thanks to manager Eddie Leffler for all his help. Van Halen proves they are still the Kings of Hard Rock.

Mark Nicholls, KQWB, Fargo

Although the stabilizer's "One Simple Thing" was not added as a female appeal record, it has turned out to be, much to our pleasure. It sounds great on the air. Real excited about Don Henley's track and the audience is asking about his Lp. Congratulations to Jeff Michaels for becoming a daddy.

Dave Numme, KSJO, San Jose

Maria and Lone Justice sound more mature. They've added new sounds to their country roots. "Shelter" is top 5 phones here. Bon Jovi now spreading 18-24 for us. Stevie Ray Vaughan is just a killer. I love the Lp. And REM...wow! Paul Simon hasn't lost any of his credibility...and he made it onto rock radio.

Jeff Michaels, KSQY, Rapid City

The Black Hills best rock has an immediate opening for a news personality position at our state AOR in the beautiful Black Hills of South Dakota. Send tape and resume to Jack Daniels, PD, Deadwood, SD 57732.

Kevin Vargas, KWHL, Anchorage

Extra cuts from Pretenders and Idol because they're working so well. Big phones and sales on Billy. This could be his "Born In The USA". This Lp's a nice change for him. He's broken with Max Headroom. He's no longer trying to c-c-c-catch the wave. Quiet Riot was an instant for us. We played "Twilight Hotel" for the first of the Lp. It appealed to non-Quiet Riot fans. A lot of people said "Wild" was too loud and too young, yet it worked. For a while we were the only station in America powering it. But we had no choice since the phones and sales were explosive. Clapton moves up this week — no surprise. He's one of the few, true living legends. Thanx to Columbia, Bruce platinum appreciation. Amazing how 3/4 of our gold and platinum are CBS.

Robin Mathieu, WBLM, Portland

Cinderella is finally on the air and pulling top 5 requests. After seeing them open for David Lee Roth, there's no denying that Cinderella ranks among the best rock and roll acts and will follow in the footsteps of Aerosmith, AC/DC and Bon Jovi. My apologies to Polygram for the late add. The whole David Lee Roth show here was a rock and roll experience. A great new band, strong Lp and the ability to perform the cream of the crop from early Van Halen Lp's should keep Roth on top...Smithereens' "Behind The Wall Of Sleep" is the perfect seg as "Blood And Roses" moves down. Sales and phones on their debut Lp are holding up well in the midst of all the superstar product. It's hard to believe Berlin is building so slow nationally. "Like Flames" is a hit here in the Northeast and "Pink And Velvet" shows potential, too. Thanks to Michael Plen and Paul Brown of IRS for the REM promotion and, most of all, for joining us in Boston for the show.

Cindy Bailen, KZEW, Dallas

I would like to talk about recommendations for people with rock and roll hearts...three of them: 1) see True Stories. David Byrne is more than brilliant - he's articulate and original and a heck of a nice guy...2) play Roadrunner. Arguably one of the best rock and roll driving songs ever written. Jonathan Richman doesn't do it anymore, but this is a good read by Joan Jett...3) lock yourself in a room with the live Springsteen album. Don't come out 'til spring...More music: the Steve Miller album is blowing the phones off of the walls...Bruce Hornsby is the number one selling album in Dallas/Fort Worth...this speaks well for higher common denominator programming...The Kansas album is creating a stir. Listeners want to hear more tracks, so this week we added Power...

Brian Taylor, WAPL, Appleton

For the most part, we've been avoiding the onslaught of remakes that have been put out in the last couple of months. I don't think adding Stevie Ray Vaughan's "Superstition" will hurt our stand. Stevie Ray is one of the premiere guitarists in the country. "Superstition" cooks and projects the energy of Stevie live. I can't wait to get my hands on the rest of the album...The new Clapton track has hit written all over it. Eric may have a big come back on this Lp...Increased sales and requests in new tracks from Billy Squier and Billy Idol.

Allison Stewart, WBRU, Providence

Lone Justice had my vote for best new band and their follow up impresses me even more. Maria can hold any group together and the group sound has matured nicely. It makes me look forward to a 3rd, 4th and 5th Lp. Stevie Ray Vaughan has served up a lip smacking flingerlickin' rocker "Superstition" makes me believe, baby. All of us here at BRU are very psyched for our co-promote with Stevie Ray Vaughan on Rock-Vember. Thanks go out to Karen Durkot from Elektra for bringing Benjamin Orr by the station and to Paul Brown from IRS for the REM seats.

Harve Alan, WCCC, Hartford

I thought I was done with the Bangle's album, but then came the buzz on "Walk Like an Egyptian." This record bolts in to heavy rotation...phones have lit up and there's growth in sales. Lennon hits this week as does Clapton, Outlaws, Lone Justice and Billy Joel's latest "This Is the Time." The big sales surprise in Hartford these last two weeks has been B.A.D. Already up to #26 on the album sales chart. With all the talk about conservatism of AOR in 1986, WCCC has been very successful with a broader base approach. I think. I think it is unfair to classify all stations as stale and stogy. Some are, we are not. The latest Birch Monthly: WCCC leads WHCN 11.9 to 5.7 12+..

Rob Ellis, WKQQ, Lexington

COM soundtrack is one of the best I've heard. Clapton is just fantastic. This could be my fave EC cut ever. SRV is breaking the looking glass with cover of "Superstition." This whitebread Motown is nothing but white hot. QQ sponsored a free Ga. Satellites show last week--you've gotta see these guys. No huggy, no kissy, just balls-out, gut-wrenching, sweaty rock n roll...good ears Elektra!

Rad Messick, WDIZ, Orlando

Love the Stevie Ray Vaughn. He couldn't have picked better song, since originally Stevie Wonder wrote the song for Jeff Beck. And Stevie swore he wouldn't ever do it, but somehow his version came out first and went on to be the hit. As cover songs go, Stevie couldn't have chosen a better one...Eric Clapton, speaking of guitars, is using it pretty well. Looking forward to hearing the rest of "August." We went with the Pretenders "My Baby" this week. Good early response to Steve Millier. Better than I've seen since "Jet Airliner"....so we moved it up to a heavy this week. Good phones and good first week store buzz...Bon Jovi continues to buzz the phones. "Wanted Dead Or Alive" moves to #2 calls this week. You can tell this one's on its way to five million...considering: Paul Young, can't wait to hear "War Games"...and Jason and the Scorchers "Golden Ball and Chain."

Kelly Cruise, WEGR, Memphis

The old excuse, "it's a great record but we just don't have room for it" is the honest-to-God truth! We did manage to squeeze in Stevie Ray Vaughan, Steve Winwood, Eric Clapton and Wang Chung "Let's Go." Is it just cause I'm a female with a big romantic streak or is

Elton John "Slow Rivers" off the Leather Jackets album really

an incredible song?? Finally, he sounds like his old self from the Madman days. This weekend, Chicago comes to the Coliseum and we're

giving some listeners champagne and hors d'ouvres. Enjoyed closing down the club on Beale Street with Dave Ross from Chrysalis, and it was a pleasure to meet a former

Memphian, and former Gentry member Larry Walls from CBS. From Howie: Congratulations to Cindy and Al. Hope you had a wonderful wedding.

Glenn Stewart, WHJY, Providence

Hopefully the success of Jason "Golden" will deep six the trend of r & r covers..."Face to Face" has a new commitment from a new label and WHJY's commitment has never been in doubt. It's always a delight to hear new Clapton on the radio. If you don't use it, you'll lose it.

Larry Dunn, WLIR, Long Island

We co-promoted Robyn Hitchcock and The Egyptians at the Ritz this past Saturday night and Robyn besides having a loyal following is very fun live. If you get a chance, check out his new single, "If You Were A Priest." Certainly, if you are a nun you'll find Robyn fun, too. Congrats are in order in the promotions department. All the best to Danny, Judy, Brad and Harvey. All the best also to Bob Kranes and Carter Alan. Is it me or is "Room Full Of Mirrors" the AOR standout from the new Pretenders album? Just to wet your lips (and mine), wait til you hear the new XTC and The The albums! Special thanks to Joan Jett for stopping by live on the air. Also thanks to Nell and Chris of the Pet Shop Boys and Marion Gold of Alphaville for stopping by. Screamer of The Week: The Smiths Import "Ask."

Dave Kane, WCMF, Rochester

Glad to see Lone Justice making it on its own, without the hype that preceded the first one. She has a really pleasant voice.

We're about to give away a brand new T-bird. The car is on display at area malls. Boy, can you tell it's fall?

Lin Brehmer, WXRT, Chicago

If the Byrds were recording in 1986, I figure they've had to cover Billy Bragg. No, this guy ain't the next Bob Dylan. An artist like Bob Dylan attains his unique stature because to a large degree he is incomparable. But this Billy Bragg fellow can make a song sound like a sword. Listen carefully and he'll drain the blood from your face. No, this isn't the prelude to some grand prediction of stardom for Bill. Oh sure, a month or two from now the critics will be suitably impressed, but I can't see commercial radio embracing an artist with messages this unfashionable. Of course, Eric Clapton covers one of his songs and Keith Richards goes on tour with him -- well, I guess anything can happen. Perhaps during your next psychedelic super sixties weekend you might slip "Ideology" on the air. And be surprised at how well it fits in. While Lone Justice's "Shelter" struck me as the multi-format smash, I found "Love" just kicks ass. And I think we all know how pleasant an experience that can be. Isn't T-Bone Burnett's "River Of Love" a pretty song? Yes, it is. That's why I mentioned it.

Rick Strauss, WZZO, Allentown

My life is complete now that I've got the Samantha Foxx calendar. I could make a bundle if I had a bunch of these to sell around the station. Paul Simon is #6 in sales again this week, so we went with "Graceland." I was very skeptical of the 1st track from the album but that worked very well so hopefully the new one will, too. We've only dealt lightly with the SRV in the past but his "Superstition" cover sounds like the perfect record to really establish him here. I finally got to see Bob Seger for the very first time this week..after the show I found myself counting the hits he didn't play, and realized the amazing library of material the man has entertained and inspired us with over the years. Thanks to Rick Salvadore for the first row seats and the opportunity to meet Bob after the show. By the way Bill ...great idea breaking the chart down to Core and Adult rock.

Bob Catania, Island (212-477-7159)

Once in a great while, a new band comes along with a dynamic new sound and energy that forces programmers to rethink their concept of what is right for their audience. Bands like the Talking Heads and U2 define the barriers of what is acceptable to an album radio audience. With the current renaissance of 70's rock making a dramatic impact on playlists everywhere, it is more important now than in the recent past to develop a new, important band for the format. In my mind, that band can be Shriekback. This group has built a huge airplay base at college and alternative radio. Their "Oil And Gold" album was a top 5 alternative record for 8 months and finished the year in the company of REM, Talking Heads, and The Cure. If you can put aside your preconceptions for a minute and truly listen to "Big Night Music" (their new album), you'll find an incredible mix of outstanding tracks to work with. Tracks like "Black Light Trap" and "Running On The Rocks" have the rhythmic feel of the Heads or even Santana at their best. "Gunning For The Buddha" and "Underwaterboys" are flat out pretty songs with great upper-demo appeal. Right now alternative radio is all over this record, but so are WXRT, KBCO, KTCZ, and WHFS and these guys are not modern music intensive, just quality music intensive. Listen and discover an emerging superstar band.

Erin Riley, WMMR, Philadelphia

Let's talk about how much I like people named STEVE. Let's see... there's Steve Miller, Stevie Ray Vaughn, and Steve Sutton! We always play SRV right out of the box because he brings us back to basics. He's the modern root of where it all comes from. Besides, Ted really likes funky stuff. You didn't know that Ted and John Travolta share a suit. And that John works a "hold" button better than Ted. Oh, congrats to Linda Fedder & Al Cafaro on their new version of "Ted." Let's hope this Ted can work a hold button.

Tom Starr, WOUR, Utica

The SRV treatment of "Superstition" should be mandatory listening for any band thinking about recording a cover... this gentleman and ladies is how it's done. If all covers had to be this good, this would be one of the only ones out this year. Steve Miller has his world turning at 33 and a third instead of 45 and it's going to make a world of difference when

listeners are turned on to the depth of this lp. Bob Geldof and Robert Cray are earning early raves. Bon Jovi retail couldn't be better if they were paying people to pick up the lp. Our new facility is reason to celebrate 19.7 Birch gives me the excuse to finally uncork all the bubbly I've had on ice since game 6 of the World Series. Cindi Ballen take heart; spring training is just around the corner...

Ray Graham, WRKI, Danbury

Buzz is getting ready to broadcast his afternoon show live from London Nov.7 & 10. Guests include Bon Jovi, Alan Parsons, Wang Chung and others. We need artist IDs for our upcoming 10th anniversary. Please send them to: Ray Graham, WRKI, Box 95, Danbury, Ct. 06813. We have 2--count 'em--2 CD players that are screaming for CDs!

Bob Walton, WRDU, Raleigh

Doing singles nite at the grocery, break a leg--this one's the first. We're doing an Armchair Quarterback contest: Pick winners, \$106, grand prize is Hawaii. Gives the football widows something to do.

Linda Kirishjian, Columbia, (212-975-1701)

Give me a "B"! Give me an "R"...(YEAH!)...The moment we've all been waiting for is here and it will last I'm sure, forever! Make room and look out!! Are you ready to Fight For The Right To Party? The Beastie Boys are! This song is just one example of how versatile this band is. They are more than street, they are the new style. Do not take them for granted. Fishbone's new video of "When Problems Arise" is now out, directed by Gary Weiss (Saturday Night Live) and choreographed by Toni Basil--a must see! In the hot new track category: Eddie Money "We Should Be Sleeping" and the Woodentops "Give It Time". We saw the Tops in NY last week and their performance reminds me of the first time I saw the Psychedelic Furs, who now perform to sell-out SRO crowds. The Big Red Roll continues with Billy Joel "This Is The Time", "Stabilizers" "One Simple Thing" and Paul Young "Some People". Be on the lookout for Until December, a mover on the Alternative Chart and how 'bout Big Audio Dynamite "C'mon Every Beat Box"? This Mick Jones and Joe Strummer co-production is not to be missed. Eureka! I made the new Bill Hard deadline! It's good to be back.

Kliff Kahuna, WHMD, Hammond Another great track for Eddie Money. Good guitar work in this one. And what more could you say? This could be the album that really breaks Eddie, especially with the success of "Take Me Home" on CHR. Lp sales currently slowing down, but still top 20...new Huey Lewis and the News track is a homerun. Exactly what people want to hear from Huey...Bangles new one is more of a rocker than you might think.

Best calls now for Bruce Hornsby--with the lp sales still top 10 and the singles a top 10 seller too... play increases include: Daryl Hall "Foolish Pride." Daryl's "Dreamtime" was out of this world as far as listener response and "Foolish" is more of the kind of stuff people expect from him. Moved up REM's "Superman." REM has a large, loyal following up here, and not just younger demos either. Surprised to see the cross section of demos at the new Orleans show.

Dave Lange, WLAV, Grand Rapids

I think the audience is clamoring for a live lp by Stevie Ray. His shows outdo the records. Every time he comes to town, he sells out.

John Parr hasn't had a breakthru record yet, but we know it's coming. This could be it. Rick O., Badco and Genesis all getr fresh trax this week. Great first reaction to Geldof. Great reaction to Steve Miller and Robt Cray.

Mike Capps, WIMZ, Knoxville

What a strong song "Rock N Roll People" is! and Clapton is at his usual best...It's got his patented guitar work...it's a very strong song. We're going away \$5000 cash,

but they won't let me near the phone! Giving away a CD player every week day.

Jim Steel, WIOT, Toledo Congratulations to Bill Hard. The Hard sheet is like a fine wine. It gets better as time goes on.

Billboards across the country proclaim Genesis, sold out!! To me, they sure have. How about that new Michelob commercial? Come on, guys...Our fourteenth anniversary is coming up and we need artists IDs asap. Congratulating

us on our remarkable achievements. You can send them to me: Jim Steele, 124 North Summit Street, Suite 400, Toledo, Ohio 43604. A million kudos to Pual Childs

and the management team from Diamond Dave Enterprises for an incredible backstage experience with Dave and the band at the Toledo Sports Arena. How easily the worst turns into the best.

Chris Emry, WIYY, Baltimore

Stevie Ray couldn't let big brother Jimmy Lee and the T Birds

outdo him so he blasted back with a scorching version of the Stevie Wonder classic. It might be a good idea to put your speakers in a bucket of ice in order to prevent meltdown...Follow up Stevie Ray with an add for slowhand Clapton and I'm in guitar nirvana. I'm drooling just thinking about the rest of the Lp...has anyone seen or heard from Elektra's Brad Hunt

since the Red Sox bit the big one?

Steve Cormier, WIZN, Burlington

If you closed your eyes and popped Bad Company's "Fame And Fortune" on the table, you'd swear someone opened a time vault and found a lost Bad Company relic from the 70's. Now this is the TRUE Bad Company sound...David + David continues to draw great phones. For over two months now, they've pulled Top 5 requests--first with "Boomtown" and that trend is

continuing with "Swallowed." Having been an Eric Clapton fan since I was knee high to a grasshopper, I can't tell you how pumped I was after hearing his new release. Hope the album is a killer. If Dirty Harry needs a partner in his next movie, I nominate Robert Cray. Don't play Russian roulette with Mr. Cray's new one. Every barrel of "Smoking Gun" is loaded. It's bound to "make your day"...right Clint?

Steve Becker, WKFM, Syracuse

Stevie Ray Vaughan, Eric Clapton, and Robert Cray all added...I've got a new format--Blues Oriented Rock--BOR!! But, boy, these songs aren't BOR-ing, they'll scorch up your airwaves! John Parr sounds great...especially when it talks 'bout what you're doing. Keep those compact discs coming, folks! I've got two new Technics that cry out for more.

John Berenyi, WMOD, Arlington

First of all, I would like to thank all the smaller independent companies for sending us their latest releases because we do need all the help we can get. But please understand that there are other major labels out there who demand more air time than the smaller ones...and we try our best not to discourage anyone! If there are any majors reading this who aren't supplying us, please call us and we'll give you any info you need pertaining to our format, playlist...etc. P.S...Thanks to Howie Klein at 415/Columbia for remembering me on the Until December Lp!

Duane Sherman, WTOS, Skowhegan

John Beaulieu, WTUE, Dayton

WTUE is about to fire up our "Holiday Aid"...our record of nine local bands to raise money for the hungry. Good to see Stevie Ray Vaughan back to his healthy Blues roots...Looking forward to the new Lone Justice Lp...Heard some advances on a tape... and Maria is unbelievable. Congrats to WTUE alumnus Bill Pugh on his big WKLS move. Saw Georgia Satellites not long ago and they might be the ultimate Jim Beam band.

Donna Foxx, WZEW, Mobile

I like the new SRV, but not as much as old SRV. Halloween we had our all nite guy broadcasting live from a graveyard. We tried to keep attendance sparse, but he drew a crowd. He does stuff like this. Sometimes he sacrifices virgins, too.
