**WITH THE GEORGIA SATELLITES, THE
HOTTEST AMERICAN ROOTS ROCK
TOUR SINCE PETTY BROKE YEARS AGO!**

Eric Clapton, "August", WB. "It's In The Way" had listener interest piqued well before release, and now 4 weeks later, the soundtrack item has easily chugged into the top ten. Play increases include WBCN, KGB, WDIZ, WZEW, KOME, KZAP, and WGIR, with power play at WQFM, WPLR, KQRS, WMGM, and WIZN, and heavy action at 46 more. Think the world was waiting? EC's cool country-politan approach embodies the best parts of blues, rock, R&B, and country. Now his best album of the 80's will reinforce his status as the professor emeritus of the current roots-rock movement. Start with the Tina Turner duet on "Tearing Us Apart", then "Run" right into "Miss You".

Bob Geldof, "Deep In The Heart Of Nowhere", Atl. More than a few programmers felt obligated to support the single (for obvious reasons), but many told us they were surprised by a) how good it sounded on the air and b) how it improved with age. Equally surprising is the album's remarkable diversity and totally entertaining ambience. This cassette will have major dashboard hang time, and thankfully there's that one in yer face radio rocker you folks have been waiting for, "Love Like A Rocket". And has Mr. Clapton's guitar ever wept more gently than on "August"?

The Kinks, "Think Visual", MCA. It wouldn't be unfair to say "Rock And Roll Cities" primary attraction is the lack of manners. It's down and dirty and that's probably the course correction these original rudeboys needed. The charts certainly say so, what with 61 out of the box and the week's highest #39 debut. But if your rock and roll fantasy is slightly more subdued, you're gonna love that bittersweet bite of the first two tracks on side 1. Ray Davies at his heroic best.

Kate Bush, "Experiment IV", EMI.

"Running Up That Hill" grabbed a healthy roll at album radio, and where the shot was solid the response was there. Since then, millions of your listeners learned to love her voice via the Gabriel connection, further enhancing the cult goddess rep. "Experiment IV" is her strongest rock material to date, with maximum headroom for interpretation. Thinkrock of the first order, with a greatest hits package to back it up. Listen thrice.

Also new this week:

John Eddie, "Pretty Little Rebel", Col.

Good songs about bad girls always seem to get the job done. That's because hound dogs buy a lot of records. This particular piece picked up plenty of play months back, and always kills 'em dead live. John's gonna break sooner than later and we're betting this will be the one to do it.

'Til Tuesday, "Coming Up Close", Epic. It took me a long time to take Aimee Mann seriously. A techno/vidio flash I thought. But TT's latest album sure changed all that. She has emerged as one of rock's brightest new lyricists, with vocal innocence and honesty that drives a song like this straight through your heart. Doesn't it sound like Fleetwood Mac circa "Future Games"? It's be their biggest hit yet.

Roger Daltrey, "Move Better In The Night", Atl. Ever since "No Matter What Shape (Your Stomach's In)" sold more T-Bone's 45's than Alka Seltzer, "commercial appeal" has taken on a whole new meaning. With that in mind, pound a coupla Micks and ponder what the beer spot could do for Mr. Daltrey. A good track made better via prime time play.

Eddie Money, "I Wanna Go Back", Col. There's simply no way Mr. Broken Heart can lose when he sings those "take me back" blues. This guy has the rock romantic lead role down to a T, and his request/retail reviews say its time to call in yet another ladykiller.

Timbuk 3, "Life Is Hard", IRS. Not when you're coming off one of the year's biggest surprise hits, it's not. In fact, this equally funny and topical track should be the week's easiest call. #9 Most Added with 14 stations, with 33 now on board and a nifty #79 debut.

Most Added...

Ann Wilson, "Best Man in the World", Cap.

Nice adds and comments out of the box for Miss Ann. Try "Flawless! If I could just hit one of those notes" from Christina at WPLR. or "Simply great!" from Michael Davis at KFMG. She starts with 53 stations, 11 of which (WLUP, KUPD, KZEW, WHJY, KILO) list it heavy, with 39 mediums and 5 lights. New at #41.

Bruce Hornsby and the Range, "On The Western Skyline", RCA.

The week is waiting to add this track--and 40 jumped right on that new 12". WAPL's Rick Panneck predicts, "Hornsby will undoubtedly be the debut artist of the year" ditto WIOT's Jim Steel, "He far outdistances ANYONE for Rookie of the Year honors" ..from WAAF's Russ Mottla, "Sounds to me like it has all demo appeal as opposed to the upper demo appeal of the first two" ..KFMF's Marty Griffin adds, "My favorite out of the box. I think it should do quite well". Bruce nails down a huge 39 position 75-36 underline, the longest gainer this week.

Peter Gabriel, "Big Time", Geffen.

Well, second biggest, maybe. The new single's 66-35 romp slots in right behind Hornsby's move on the Hard Hundred, thanks to 35 more adds, 5 increases (WLUP, KZOQ, WVVV, WLIR, and KRQU). Still most medium with 19 heavies, two powers and 3 lights. Greg Gilispie comments, "We used it when the album came out, but due to similarities to "Sledgehammer" we held back. The time is right now". Or as WKLS Beth Kepple puts it, "If I don't hear it once before I go to work, I'm a total bitch."

Jason and the Scorchers, "Golden Ball and Chain", EMI.

Ball busters of the world rejoice!! Check Jason's red hot 15-18-17 three week station count. KLOS, KLAQ, KATP, KQDS, WMGM and WRXK increase play, with heavy action at WQFM, WPLR, WBRU, KQRS, WPLR, KATP and CILQ. And didn't we love hearing about top 5 phones at WKLS! KMJX David Allen Ross echoes, "Phonomenal phones right from the beginning" ..chartwise, they've got another great leap forward, 53-37. And as noted by Cindy "people tore the place up" Bailen at KZEW, and KNCN's Bonnie Stacy, the tour with the Satellites is not to be missed.

"COMING UP CLOSE"

CHEAP TRICK "IT'S ONLY LOVE"

TWO NEW
PENGUIN BUSTERS
FROM

Robert Cray, "Smoking Gun", Poly.. Our reporters are duty bound to break this record quickly. The play count climbs to 113 after only three weeks, with heavy play on WBCN, WXRT, WQFM and 8 more and 12 increases moving AND 8 MORE heavies)and 12 increases jamming the track 42-29. WXRK's Greg Mull feels "Smoking Gun" is a sure shot from a guy who's been there for ever but was never taken seriously".. KGON's Inessa York adds, "He's performing wonderfully. Seeing him winning all those blues awards in Memphis just accents the fact that we're onto something good." Our second highest album debut at #26.

Steve Winwood, "Back In The High Life", WB.. Steve's back with another 21 adds. I'm amazed they can find that many not playing it! 34 heavies and 13 increases bring home a 34-21 advance. Probably the most consistent multi format hit producer since Huey Lewis' "Sports".

Van Halen, "Rock and Roll" live, WB..

The A side scores a healthy 83-63 upturn, with "Best of Both Worlds" new on the list at #87. "Best" comes in with 11 adds, while "Rock and Roll" racks up 15 new, 2 increases and 7 heavies: KISS, KNAC, KOZZ, KRIX, WDHA, WKQQ and WPYX.

Billy Joel, "This Is The Time", Col.. The heavy play/increase percentage says to expect high hit profile here. Of 44 now playing, we've got 14 heavies (WDVE, WHCN, WIMZ, WKLS, WCCC, WBAB, KEZO), and 6 powers (WIOQ, WKQQ, WPLR, WWCT CFOX, KRNA). That's Heavy to Power at just under half. Ten adds and 8 ups factor into a 46-39 move. The album reflects 71-51.

Pretenders, "Room Full of Mirrors", WB.. WBCN's Carter Alan tells us the single to be is "Causing quite a stir here. I always wondered why that great Hendrix track never appeared on an album before he died. This is THE hardrock tune on the album".. It's currently also the fastest moving, with a 65-57 underline. Added at 11, upped at KMET and WRXK, with 9 heavies, 35 medium and 5 lights.

Smithereens, "Behind the Wall of Sleep", Enigma.. The Reens pick up 26 adds in the past two weeks, with KEYX, KZOQ, WTKX and WZYC upping. The follow-up is now heavy at KQRS, KRIX, KTYD, WBCN, WHFS, WONE, WQFM and WTOS, with KOZZ and WZEW showing hottest early phones. WAAF's Russ Mottla says, "It's in based on the group's past performance. This great buzzband is still selling well"..Note the 57-47 Underline..

Paul Young, "Some People", Col..

Paul's best ever album radio start continues to climb. WMMR, WLVQ, KLAQ, WIMZ, WIZN and WOUR add this week, for 70 stations to date. CHOM, KAZY and WMGM upped rotation, helping a 40-37 Hard Hundred build. The Lp numbers reflect 54-45. Here's KRNA's Steve Kosbau, "Showing signs of greatness for us. In the past couple of days our phones have been nearly crazy for it"..

Zebra, "Can't Live Without", Atl.. Long Island once again leads the way, with WBAB and WRCN quick to report top 5 phones. The add count hits 44, with new air on WKDF, WRKI, KLBK, KMJX, WKFM and WZZQ. 72-65 on the top 100.

Steve Miller, "I Want To Make The World Turn Around", Capitol.. Here's that big move we've been expecting; 5-1 on the Hard Hundred. What put it there? 141 current play listings, 35 powers, 72 heavies and 31 increases for icing on the cake. Plus, it's #5 most requested. As KGON's Inessa York told us, "Steve is beginning to happen on the phones. What we hear is "Gee, I did'nt like him before. Is the rest of the album that good?" Hey, it's good enough to put two more tracks on the list; "I Wanna Be Loved" debuts at #96, with "Nobody But You" new at #81.

Bruce Springsteen, "Live 1975-85", Col..

When it comes to cornering the market, Ivan Boesky's got nothing on the Boss!! Where do we start? Well, Bruce now has ten tracks on the top one hundred, nine of which moved up (see chart). "War" grinds 9-4, with 15 increases, 25 powers, zillions of heavies and enough top 5 phones to make it #1 requested. "Fire" also had an exceptional week, moving 35-27. It's new on 12, upped at 8, with powerplay at 7 and heavy spins at 28 more. It's new at #4 Most Requested. But wait, there's more. The album gains approximately 25% in overall airplay points for that rare 1-1 underline.

Stevie Ray Vaughan, "Superstition", Epic..

It's live, but the stats show studio plus reaction. The track powers up a 24-22 liner, with 7 adds, 117 already in, 12 increases (including KOME, KSJO, WDIZ, WPYX, WRIF, WRXL and WMGM), 25 heavies and enough top 5 phones to place it #7 in requests. We're talking big numbers for any record. Also note the album merits this week's highest #23 debut.

Europe, "The Final Countdown", Epic

When a record hangs in this long you start to suspect something's up. And when an act many typecast as lower "teen/male/MTV" starts to pick up serious 25+ call letters, it's more than worth a second look. New on KOME, KMBY, KSJO WCCC, KZOQ, WTKZ AND KWQB, with KFMH, KLAQ, WGIR and WHTF increasing. Currently on 35, including KRQR, WMGM, WDHA, WCCC, KOZZ, KLPX, WPYX, WPLR, KGB,, and KDJK. Underlined 89-78. If you're looking for a best bet holiday breakout, this is it.

World Party, "Ship of Fools", Chrysalis..

Those great quotes just keep on coming: From WXRK's Greg Mull, "One listen and you'll be hooked"..Steve Cormier, WIZN, "World Party has upper demo written all over it. The only fools surrounding this ship are the ones not on it"..and from KICT's Phil Thompson, "World Party sounds real good and is continuing to build here"..KYYS, WRDU, WBYR, WPYX and WOUR add, KEYX, WBCN WMGM and WZYC increase, good for a 69-62 underline.

Joan Jett "Roadrunner", Epic..

We asked WAAF's Russ Mottla for an update on "Roadrunner's" hot early phones, and he confirmed, "It's a runaway success, both on the phones and this week at retail, with top 15 response this week. This is a real record and a great song." And as noted by KZEW's Cindy Bailen, "We've got a customized Dallas/Ft. Worth version and its just gonna tear things up once people get into it". New on WMMR..wait a minute--that's WMMR, the world's second toughest add--as well as WLIR, WXXP, WHJY, and WRCN.

Core Commentary:

As was the case with the Adult list, we've expanded the chart to 75 to better alert you to the names and numbers that will rock you right.

Given our druthers, we'd load this sucker up with about fifty KISS/KNAC/KNCN clones. But hellfire, they don't exist. So we did the next best thing and credited those stations we feel move fast and hard enough on straight ahead core rock.

Now the envelope, please: KATP, CILQ, KATT, KBAT, KEZE, KFMG, KGB, KILO, KISS, KLAQ, KLPX, KMET, KMJX, KNAC, KNCN, KOZZ, KRIX, KSQY, KUPD, KWHL, WAAF, WAPL, WAQX, WBAB, WDIZ, WDVE, WEGR, WHJY, WLLZ, WLNZ, WLVQ, WPLR, WQFM, WRCN, WRIF, WRUF, WTPA, WXKE, and WYNF.

Again, please remember that we're not necessarily placing any or all of the above stations in an exclusively 18-24 male appeal position. It's just that based on our analysis of their current playlists, they're clearly behind more high test stuff than the average bear.

If you cross reference the Adult and Core samples, you'll notice that many of our reporters factor only into the overall chart. That's because we judged their appeal and positioning to be largely right down the middle--big songs from big names with little upper or lower fringe material. Lots of pop crossover and minimal experimentation. In fact, we ran a couple of charts out of curiosity, and it so closely paralleled the overall rankings that it didn't really tell us much.

One chart we really are excited about will be called Starmakers. What we've done there is to concentrate on reporters who love to add music early, be they Adult, Core, or otherwise. Stations who play an active role in breaking music and take pride in being first--and being right. The only thing about this chart is it takes a healthy product flow to do its stuff, and honestly, there just are not enough new artists out. For instance, Starmakers has the World Party single at #44, and it's #62 overall. A noticeable difference, yes, but not really mindblowing. Same thing with the Timbuk 3 follow up. #66 Starmaker and #79 overall. We will, though lay the sample base on you, and welcome you thoughts on same. The Starmakers are:

CFNY, CHEZ, CILQ, KATP, KAZY, KBAT, KBCO, KBLE, KESI, KEZO, KFMF, KFMH, KGB, KGRQ, KILO, KKCY, KLPX, KMBY, KNCN, KOZZ, KQWB, KRIX, KRNA, KROQ, KRQR, KRQU, KSQY, KSTM, KTCL, KTCZ, KTYD, KUPD, KVRE, KZEL, KZEW, WAAF, WBAB, WBCN, WBRU, WDHA, WFYV, WIOT, WKDF, WKLC, WLIR, WLLZ, WLNZ, WLUP, WLVQ, WMGM, WMRY, WNEW, WONE, WOUR, WPLR, WQBK, WQFM, WRCN, WRUF, WSHE, WXKE, WXRT, WYNF, and WZEW.

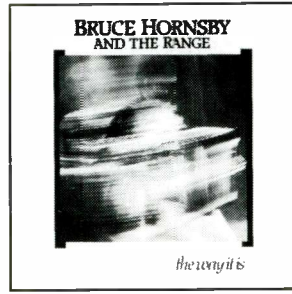

Well, looks like we're about out of space. More next week

ROCK WATCH

A Countdown to Ecstasy
with Oedipus

TO: AOR Program Directors
FROM: OEDIPUS
RE: "ROCK WATCH: A COUNTDOWN TO ECSTASY"

As Program Director of WBCN, Boston, I generally give syndicated shows a cursory listen and reject them. Therefore, when I was approached to host a Countdown show, I insisted that it be of a quality to make me proud to hear it on my station before The United Stations Programming Network offered it to you.

With my excellent team of writers and producers (Tom Sandman, Billy West, Danny McCloskey, Bill Kates) we named the show "ROCK WATCH: A COUNTDOWN TO ECSTASY." We took full responsibility for producing it. "ROCK WATCH: A COUNTDOWN TO ECSTASY" offers you:

- 1) A tight fast paced album track review (Source: **R&R**) with high production values.
- 2) Concise, anecdotal, well researched information on the various songs and artists on the charts.
- 3) Plenty of music. Thirty songs in their entirety, plus songs and exclusive interview material with our feature artist of the week (U2, Van Halen, Mick Jagger) placed throughout the show.
- 4) Delivered on disc for flexibility of broadcast.

Listen and you'll hear the 25 plus hours a week it takes to put "ROCK WATCH" together.

"ROCK WATCH" is available free of charge on a swap/exchange basis to stations in the top 170 Arbitron rated metro markets. There are ten minutes of commercial inventory in each of the three hours. Five minutes per hour for the network, five minutes for you.

UNITED STATIONS PROGRAMMING NETWORK will talk with you soon. If I can assist you with "ROCK WATCH" in any way, let me know. Check it. And enjoy.

Thanks.

Into the future,

Oedipus

TOP 75

First off, I'd like to direct your attention to the song chart directly to the right. What?! It's now 75 slots deep? No problem. As we've said before, the purpose in setting up our sub-format divisions is to better help radio and records (small "r", thank you) zero in on breaking acts that would be much harder to spot in the context of a 150+ station sample base. Frankly, all the action here seems to be in the bottom of the chart, so we've added 25 more.

To get a little more specific, our Adult chart concentrates on stations that continue to demonstrate an above average commitment to distinctly upper demo acts and songs. Again, we've stratified the sample to activate this chart for adult rock, going after stations who're clearly committed to the 25+ listener.

Keeping in mind that we review our sample bi-weekly, here's a look at who currently contributes to this breakout:

CFOX, CHEZ, KAZY, KBCO, KESI, KFOG, KGRQ, KKCY, KTYD, KVRE, KZEL, WDHA, WHCN, WHEB, WIOQ, WIZN, WKFM, WKRR, WLAV, WLUP, WMAD, WNEW, WONE, WOUR, WQBK, WRDU, WSHE, WWTR, WXRT, WZYC.

Also remember, the primary criteria here was the inclusion of more than an average number of upper demo tracks. Obviously, those stations will tend to lead the way on such acts, and that should make this list an easy reference for any station, be they punk polka or all request news, who wants to stay in touch with what 25+ targeted programmers are embracing.

And speaking of trends, let's see what this week's wash has turned up...Hmmm...

Although WB has annointed "Room Full of Mirrors" the single to be, notice the huge 24-12 build on "My Baby". And we're not talking measurements, here folks. That tell us these stations as a whole prefer "Baby", moving "Mirrors" back to #51.. We were pleased to note Graceland's 43-38 advance on the Hard Hundred, as foretold by the ongoing top 15 Adult action (14-13 this week). Everytime I hear this track on WIOQ, it has 'classic' written all over it...Nice to see you folks are leading the way on Cray, as well, with "Smoking Gun" at #23. An obvious across the board programmer pick at this point...As noted in Airplay Analysis, with half of those already in on Billy Joel's new "This Is the Time" listing power to heavy play, you can bet the gap between #30 Adult and #51 overall will quickly close. Here's another interesting disparity: Timbuk 3's "Life is Hard" hits at #46 Adult, #79 overall... The Adult list gives office favorite World Party a noteworthy 70-54 catch up week, with the national number building 69-62. Love seeing another favorite, Don Dixon's "Praying Mantis" moving 74-63 Adult, and a nice launch for the brilliant new 'Til Tuesday single, "Coming Up Close", 76-66--and neither of those two have yet to show on the Hard Hundred. While we're playing favorites, we continue to believe Jason's "Golden Ball" will their biggie, and although the Adult rock numbers show a 25 position 85-60 underline, you're still well behind the #37 overall ranking. Don't get caught behind the 8 ball, y'all.

"Shriekback continues a long line of successful support from WTOS. 'Black Light Trap' has the appeal of the big band sound of the 40's combined with the force of the 80's without missing a beat in between. Upper demos love it and so do I. Phone response is growing daily."

PICK

THE GOLDEN PALOMINOS "BLAST OF SILENCE" (CELLULOID)

Bands come and go and in this case, the name remains the same, but quality music remains constant from this brilliant outfit conceived by Anton Fier. Here's an album you'll make room for, and those who don't just haven't heard it. Syd Straw's delivery in "Diamond" is the track outstanding, and adds at WXRT, KEYX and WRAS mark the first early believers. Don Dixon's primo performance in "Faithless Heart" is blues you can use, and Matthew Sweet scores easy pop points in "Something Becomes Nothing". Check out the line up, and recognize some original members, proving once more that "Silence" is golden. Play it sooner and later.

Followup...

SHRIEKBACK "BIG NIGHT MUSIC" ISLAND

And so it's Big and getting bigger, with heavy rotation at CFNY, KTCL, WXXP, WFNX, WHFS, WGTU, WMOD, WOXY, WUOG and WRAS. Track action includes "Black Light Trap", "Running On The Rocks" and "Gunning For The Buddha", which is ringing phones at WFNX and CHEZ. So far it's smooth sailing with more to climb on board...

WORLD PARTY "PRIVATE REVOLUTION" CHRYSALIS

The album bolts to 8* this issue, as play increases and phones light up at KORX, KRNA, WQBK, WRAS, WBYR, WOUR and more. Don't jump "Ship" yet -- but if you do, follow up with open album play like WXRT, WEQX, WUOG, WMRY and nine more (so far). Let the raves continue.

IGGY POP "BLAH, BLAH, BLAH" A&M

Seems like Iggy's name has become radio reality -- "Cry" met with raves galore and now "Real Wild Child" is next up in this success story. New at 10 stations, and open album heavy mentions at CFNY, KFMH, KLUB, KUSF, WFNX and WOXY put the * on that 5.

ROBYN HITCHCOCK "ELEMENT OF LIGHT" RELATIVITY

Fess up. This is one fun piece of plastic. 20 reporters made the move, and here's the latest. Phones at KORX and WOXY, and Heavy rotation for "Priest" at KORX, WLIR, WNDY, WVVV and WXXP. Robyn is not a one track wonder, so try "Airscape" or "Something" and keep a good thing going.

BOB GELDOLF "THIS IS THE WORLD CALLING" ATLANTIC

I'd say this album's off to a great start, and there's more where this twelve came from, afterall, we don't call 'em Frontrunners for nothin'. Now at 106 reporting stations, and who's not going to dig deeper?

BILLY BRAGG "TALKING WITH THE TAXMAN..." ELEKTRA

Billy's tour forte is what gets 'em between the ears, so don't miss the current one! Seems like "Greetings" gets the first nod at WXXP, KORX, KTCL, WFNX, WLIR, WTOS and KEYX, with 8 more jumping tracks. Go ahead and jump, but just don't skip it. Now at 45*.

UNTIL DECEMBER "UNTIL DECEMBER" 415/COLUMBIA

Tour support has helped this album get the play it deserves. "Heaven" adds 3 more this week at WFNX, WMRY, WHTG, with on going air at WLIR, WHFS, WNDY, KORX, WKWQ and more. Still room to grow in radioland, so don't wait until...

It always amazes me that mainstream artists get pegged as alternative until the mass calls pile on. Everyone should play good material, and I'm glad to see the wattage build each week for Dixon. "Praying Mantis" is now at 27, highlighted by KTYD, KZEL, WKWQ, WMRY, WRDU, WTUE, WVVV, WXRT, KBCO, WEGR, WFNX, WHFS and WRCN. Now at 40*.

STERN RESPONSE

The Federal Communications Commission has given Infinity Broadcasting thirty days to respond to allegations that the content of the Howard Stern morning show is unacceptable.

A letter sent to Infinity and released to the AP Friday (11/14) by the chief of the commission's Mass Media Bureau, James C. McKinney, cited "numerous complaints" and contained transcripts of Howard's show, along with letters from the National Federation of Decency and a single Philadelphia complainant. Howard is simulcast on Infinity's WXRK/NYC and WYSP/Philadelphia.

WXRK GM Tom Chiusano indicated the company would reply. Defending Stern as someone who "does four hours of comedy a day," he noted "Howard's going to continue to do the Howard Stern show." He also felt the transcripts took the morning show out of context.

Once Infinity's reply is received by the Bureau, a review will be held. If the Bureau feels further action is warranted, the case will be kicked up to the FCC commissioners.

McNUTT TO McKDF

Judy McNutt is the new WKDF/Nashville PD, filling the vacancy created by Bill Pugh when he took the WKLS/Atlanta PD gig.

"I looked at fifteen people, then did extensive interviews with eight," said WKDF VP/GM Steve Dickert, "and then shaved it down to three. Judy impressed me with her competitive spirit, people skills, knowledge of music and the music industry, and her enthusiasm."

Judy has some major league stops: KMET, KGB-FM, KBPI, KBCO, and KMYR. Though she will start December 1, McNutt has already been to Nashville for meetings with the staff. And she liked who she met: "It's like I heard a party going on down the hall, and I knocked on the door, and they said, 'Oh, great! C'mon in. We're really excited about what you might contribute to the party.'"

YATES RETURNS TO LA

Two time zones away, Left Coast vet Tom Yates is the new PD at KSLX/LA, replacing interim PD Don Hagen. Yates had humongous numbers as KLOS PD from 1971-1977, did a stint as a consultant, and was PD at KKCY/SF. Welcome back, Tom.

WMAD

In somewhat of a surprise, WMAD/Madison is being sold to previous owner Nancy McMahon for \$1 and assumption of debt.

"WMAD AM & FM have been sold to First Choice Communications Inc., pending FCC approval. The new owner plans no changes," OM Tom Teuber told NOISE. "WMAD FM continues to be the fastest growing station in Madison, and Classic Rock will stay where it belongs, on 92 FM."

ANNOUNCEMENT HELD HOSTAGE- WEEK 6

Phil Quartararo.

Walking the dog: Backstage at Alice Cooper in Detroit are WLLZ's Craig Bender, Promotion Director Michael Isabella, afternoon DJ Bob Bauer, the snake's owner, and Alice's co-star, "Monty" the Python.

MO' ON MOTOWN

For the first time in recent memory, WLLZ/Detroit has edged ahead of competitor WRIF. The latest Arbitrend shows WLLZ #5 12+, with a 5.0 to RIF's 4.8.

WLLZ has bombarded the market with cash give-aways, and big TV designed to call attention to the fact that JJ & The Morning Crew (the old WRIF morning show) had moved to WLLZ.

Down in Derbytown, WQMF, Louisville's October Arbitrend was a Mofo. They're #1 Adults 18-34 and #3 12+.

ADVENTURE IN MOVING

Sandusky Director of Programming and Player Personnel Jeff Sattler has been promoted to VP.

Jeff Pollack has signed WOOJ/Ft. Myers. Rumor has it he may have KAZY, too.

In other Denver news, KBPI morning driver Jeffery Scott is out.

Mark Bretsch is the promotion director at WWCT/Peoria. Laura Townsend is now news director.

Paula Jeffries, who was the Dir. of Op. at Windham Hill, has been named VP at Danny Goldberg's Gold Castle label.

At WBYR/Bufalo, Asst. PD Carolyn Wessel now adds music duties.

Ex-KLOSer Shana is the new midday person at KLSX/LA.

KDJK/Modesto PD Jerry Longden is out. MD Mark Davis is acting PD.

Is PD Beau Phillips going to be KISW/Seattle's new GM?

If so, is Jonah Cummings going to replace him as PD?

Jeff Gonzer, ex-KMET morning man, is doing the same at WIMZ/Knoxville.

SUNRISE SEMESTER WITH MR. McEWEN

In a week where bulimia seemingly dominated TV, there was a story other than Meredith Baxter's scarf-n-barf. Mark McEwen, late of the WNEW-FM/NYC morning show, was tapped to be the weatherman on TV's new CBS Morning Show.

McEwen auditioned last week. Incredibly, he misunderstood a phone message--and thought CBS Records wanted to talk to him. Then he took it to mean WCBS-FM asked him in. When the simple polar-air-mass-ring-that-cash-register truth came to him, he was incredulous.

"I can't talk about this," Mark grinned. "There'll be an official announcement next week."

DKM & AOR

Last week NOISE mentioned the appointment of Mary Catherine Sneed to VP/OP DKM Broadcasting, thus overseeing the programming of sixteen radio stations.

This week, Mary Catherine told us that all three FMs acquired from Group One (KAZY/Denver, WONE-FM/Akron, and WTUE/Dayton) will remain AOR, ending rumors of change to Urban.

Two giants of the industry (and when we say the industry, we mean the business) collide backstage in Philly. Members of Genesis and The Hard Report from l to r: Chester Thompson, Phil Collins, mystery couple, Amy Dahlman, Dawn Hood, could-be-anyone, Bill Hard, Tony Banks, Mike Rutherford and Collie Hard. JOBNAPPER'S TEXTBOOK: GREG GILLISPIE/WDVE

"You probably noticed the recent audio tape shortage. Heavy demand because of Bruce? No, it's directly traceable to the 400-500 audition tapes WDVE/Pittsburgh PD Greg Gillispie had on his desk. What follows is a discussion with him on how not to nuke yourself in a job hunt.

The Tape

- 1) Use a good quality tape (CrO2 at least). I was very, very surprised that the quality of some of the tapes sucked--many from sizable markets--because they were unintelligible. Which leads us to...
- 2) LISTEN TO THE TAPE BEFORE YOU SEND IT. Lots of tapes sounded like 15th-generations dubs, like someone put a handkerchief over the phone to disguise their voice during a ransom demand. Beware of hi-speed cassette dubbers; always dub from your master.
- 3) Re-read #2.
- 4) Make sure your name, address, and phone are on both the tape and tape box.

5) If you have multi-format experience, make sure the first piece on your demo is compatible with the job you're applying for. Please don't make a AOR PD sit through your AC, CHR, and K-Mart PA segments to get to your AOR piece.

6) Don't send your Greatest Hits. Just a straight skimmer off the board. I want to see how you handle yourself in a variety of situations. I want to see how you get out of mistakes and how you perform on average.

Resumes and Cover Letters

7) I've read lately that you shouldn't send printed resumes because you'll look like a professional job hunter. I don't care if it's printed, done on computer, typed, or Xeroxed. This is hard to believe, but I got handwritten resumes.

8) Resumes are statements of history. No long job descriptions. Just the facts, ma'am.

9) This next thing always gets me, but I think I know why people do it: "References available on request." Shit, why not just throw three names on there and save us both a lot of time?

10) When it comes time to supply references, and you are applying for a radio job, there is absolutely no reason in the world to put a record promoter on your resume.

11) Pictures are OK, but not a necessity. But if you're gonna send a picture send a real one and not a Xerox of a picture. They look awful. Oh, one lady was pretty novel; she laid her head on a Xerox machine and pushed the button. I laughed my ass off.

12) If the resume is brief facts, the cover letter is your chance to show your wit. But it's also your chance to sell yourself. Don't forget to. And if you're not witty, don't force it.

13) Unless you're applying to a blind box add, find out who the hell the PD is and address it to that person. No "To Whom It May Concern, Dear Sir/Madame," or the real kiss of death--addressing it to the previous PD.

14) Sign your letter. I can't tell you how many people typed a letter that had "Sincerely yours," and had their name typed, but no signature.

15) Save press clippings and other print or photographic evidence of your career. Arrange it in a nice little montage that you can send along with your T&R, or later, if necessary.

16) God invented jetpacks for a reason. The mail is murder. Send your package in a good envelope. I got a lot of T&Rs that were badly damaged. These people were dead before the race started.

And In The End, The Tape You Make Is Equal To The Job You Take

The key is: When you are applying for a job via the mail, what you send is a representation of yourself. And whatever the PD has in his hand is a direct reflection of what you are, personally and professionally. You want it to look slick, you want it to look good and you want it to get to the point. If you send stuff that's shoddy and haphazard, they'll view you the same way. The package is your chance to sell yourself to a potential employer. The more elaborate and eye-catching it is, the better the chance of getting that return phone call."

STEVE SUTTON

November 21, 1986

Music news compiled by Mike Cooper
Music Now! P.O. Box 4111, Atlanta GA
30302

"I don't believe songwriters and singers are the same people," says the Blasters' PHIL ALVIN in explaining why his album, "Unsung Stories", includes only cover versions. "If you examine the history of music closely, it's very rare that the two come together. There's nothing about doing one that implies you can also do the other; they come from completely different parts of the brain," Alvin says. "When I sing a song, I just let the emotion pour right out of me. When David (Phil's younger brother) writes a song, he takes his time and analyzes each word to make sure it's right." The Lp includes covers of tunes by Bing Crosby and Cab Calloway, with some tracks recorded with Sun Ra & His Arkestra.

STEVE PRIEST, the Australian music video director, is in hot water over a television commercial which has been airing for the past two weeks. The spot, for Twisties, looks more like a heavy metal video than a commercial, and religious types have complained to the Australian Broadcasting Tribunal and the Advertising Standards Council in an attempt to have the ad banned, saying it is "demonic and satanic." They charge it includes images of the occult, sorcery and witchcraft. So far, no television stations have pulled the commercials, but authorities have begun an investigation, which is mandatory when such complaints are received.

JOHN FARNHAM, former lead singer for the LITTLE RIVER BAND, has achieved a rare feat in Australia. He has the #1 single and album at the same time. The single, "You're The Voice", has topped the singles chart for three weeks, while the album "Whispering Jack" just reached the top of the Lp chart. The last time an artist topped both charts simultaneously was in March 1982. The group was Moving Pictures. Even Midnight Oil and INXS haven't managed to top the Lp and singles chart during the same week. Farnham's "Whispering Jack" has already been certified platinum, four weeks after its release, for sales of over 75,000 units.

OMD has just completed a brief tour of Canada, where its new "Pacific Age" album has already outsold "Crush" in the four weeks since it was released.

IGGY POP says he didn't intend for David Bowie to produce his new "Blah Blah Blah" album. "Bowie's whole involvement was by accident this time," Pop explains. "I was adamant I was going to do this with Steve Jones. But I played David 'Cry For Love' and a couple of other songs, 'Fire Girl' and 'Winners And Losers'. He really liked it and wanted in on it. He made a very good offer, so I said, 'Heck, yes!'" Pop adds that "David and I write very well together. Sometimes it's so simple that we go down to the basement and he starts playing and I just start singing. But usually, it starts from a conversation." For example, Pop says "Baby, It Can't Fall" stems from the phrase "it can't fall" which was a phrase Bowie had in his head. "I think he got it from hearing about the band the Fall. And

you know, the Fall took their name from my song, 'We Will Fall', so it's very incestuous."

INXS and JIMMY BARNES are teaming up on a cover version of the Easybeats' "Good Time", being released as a single in Australia. The song will serve as the unofficial theme for the massive "Australian Made" tour which starts next month.

A film starring MICHAEL HUTCHENCE of INXS is scheduled to be released nationally in Australia next month. The film, directed by Richard Lowenstein, has already been promoted in print advertisement, though those ads incorrectly stated that the film starred "Michael Hutchinson of INXS."

"The first time we jammed together was the night John Lennon got killed," says DAN BAIRD of the GEORGIA SATELLITES, a group formed in 1980. "We went down (to play) that night, and it was like there was gasoline on the floor. It was hot. We have our bad nights, but basically it's never cooled off." The Satellites do admit to being influenced by the Rolling Stones. "That stuff is so inborn," Baird says. "Me and my brother used to put on 'Street Fighting Man' at home when Mom was gone to work or something, and we would just sit around and do air guitar until about the second or third verse. Then we'd just start beating each other up."

BERLIN won't be able to record a follow-up to its album, "Count Three And Pray", until the middle of next year, as the band will be touring North America, Australia, New Zealand, Japan and England until that time. "It might be good for the public to have another breather from us," says Terri Nunn. "It's really nice to have an album come out with a No. 2 on it and another good thing is that it helped us pay back for the record, which we'd spent a year and a half making."

TOM SCHOLZ says the other two members of BOSTON deserve a lot of credit in connection with the band's current success. He says singer Brad Delp and drummer Jim Masdea were extremely patient during the six years it took to record "Third Stage". "They were the only two guys who stuck with me through the whole six years," Scholz says. "Neither of them ever said anything during the course of this like 'How much longer is this going to take you'. Because they knew what was going on. They knew they were doing what they could do -- and that I had to do the parts I had to do. They contributed as much as they could contribute," Scholz explains. "Maybe Brad only put in 10 or 15 percent of the hours I put in on this project, but he's far more than 10 or 15 percent of the impact. For some people, Boston is a vocal group, and I would never, never argue that perception of it. But to others, it's a guitar-oriented group with harmony vocals. But the sound of Brad's voice is very important, and more important than that is his ability to get the melodies across."

Two original members have re-formed the NERVOUS EATERS. Steve Cataldo and drummer Jeff Wilkinson are joined by two members of Willie Alexander's band. The group had broken up after releasing "The Nervous Eaters", an album that Cataldo regrets. "We got pretty well cleaned up on that record. It was a big mistake," Cataldo

continued

says. "We compromised ourselves into career suicide." The Nervous Eaters has a new album, "Hot Steel And Acid" out on a small label. It includes a cover version of Bob Dylan's "The Times They Are A-Changin'".

Readers of **GUITAR PLAYER** magazine have voted Steve Morse as the best guitarist of the year. It's the fifth year in a row that Morse, now a member of Kansas, has been given the award.

BOB GELDOF has been given the annual \$100,000 "Third World Prize" for his efforts through Band Aid to relieve famine in Africa. The prize is funded by the Bank of Credit and Commerce International, and is administered by the Third World Foundation.

A recent Wednesday was **NEIL YOUNG DAY** in Wyoming, by proclamation of Governor Ed Herschler. Young, who was celebrating his 41st birthday, was being thanked for his efforts in raising about \$85,000 to help victims of a flood in Cheyenne last year.

KEVIN GODLEY and **LOL CREME** used an endoscope to film the video for "Hip To Be Square" by Huey Lewis & The News. An endoscope is a fiber-optic assisted camera which is used by doctors to look inside the human body.

GREGG ALLMAN has delayed some planned concerts because he has checked into a drug rehabilitation clinic. "Gregg lives music. It's everything to him," says Allman's agent, Paul Smith. "He realized that his ill health was getting in the way of what he enjoys most and that it was time to do something about it. He's doing something to get himself healthy so that he can resume his career."

Former Rolling Stones member **MICK TAYLOR** says he's still "developing" his new band, "since we've only been together a short time." Taylor says he's "cautiously optimistic" about getting a record deal after he finishes a club tour of the U.S. late next month. "When I haven't been doing sessions or touring or doing my own work I've been doing nothing because that is what I do. I want to start making more records and to do more tours," Taylor says.

TOMMY SHAW, who spent part of this summer raising pigs at his farm in Niles, Michigan, is now sending them to friends. The smoked hams, from Shaw's Tranquility Base Farms, carry a label of "Hams Across America".

IAN DURY plays a wandering acrobat in a film called "Paradise Opens With A Skeleton Key". The movie, directed by Vassilis Boudouris, is being filmed in Greece. "I never intended to be an actor," Dury says. "It's still a surprise and a privilege for me to be invited."

NEIL TENNANT of the **PET SHOP BOYS** has written a song about a new Italian fashion craze called "Paninaro". A "paninaro" wears a U.S.-style flight jacket, cowboy boots and a pair of Levi 501 jeans. The track appears as the b-side of "Suburbia". Tennant and Chris Lowe filmed a video for the clip, which is being shown in France but not in England.

SPANDAU BALLET is celebrating six years together this month, though things have come a long way since the band's first single, "Chant No. 1". "We all still live in north London," says Gary Kemp. "We've travelled around the world now and seen lots of things. We've matured and we don't see things as we did six years ago." Kemp says the group's new album, "Through The Barricades", captures a lot of the band's "live feel and raw energy." "People still think we're all just posers and we can't play our instruments. They're not convinced until they see us play live," Kemp adds.

The cover for **DURAN DURAN**'s upcoming "Notorious" album is taken from the video of the tune, and sees the three band members standing by a tree on a hill at the Sheep Meadows in New York's Central Park.

TOM PETTY & THE HEARTBREAKERS has recorded about 30 tunes for its next album, "Let Me Up I've Had Enough", which should be out in early spring. The band is considering a U.S. tour in the summer, and possibly a tour of Europe with Bob Dylan.

After taking some time off, **WAYSTED** is back with a new record and label. The band's new album, "Save Your Prayers", was produced by Simon Hanhart, and was recorded in England. The band recently supported Iron Maiden in Eastern Europe, and will soon be touring Europe with Status Quo.

WHITESNAKE vocalist **DAVID COVERDALE** has recovered from his throat problems and has finished his vocal tracks for the band's follow-up to the "Slide It In" album. Guitarist John Sykes is now laying down his tracks, and Mike Stone will mix the album, which should be out in February. It's tentatively titled "Whitesnake". Drummer Aynsley Dunbar will tour with the band after the Lp's release.

The next album from the **MICHAEL SCHENKER GROUP** will probably be produced by Neil Kernon, who has worked with Hall & Oates and Kansas.

"True Colors" is the name of the first single from **GO WEST**'s next album, "Dancing On The Couch". The Lp should be out early next year.

The British band **KING** has decided to split up. The group had a million-selling hit single with "Love And Pride", but members went separate ways because of disagreement about their musical direction. Lead singer Paul King will record a solo album with Dan Hartman, and the other members of the band are working on their own projects.

Please Note: Monday, November 24th marks the beginning of **THANKSGIVING** week, which means an **EARLY DEADLINE!** Please call in your report on **MONDAY** if possible, otherwise, as early as possible on Tuesday. (609-654-7272) Thanks.

And now, the latest music news LIVE FROM LONDON, courtesy of CFNY and our exclusive reporter, LEE CARTER. Lee can be heard on CFNY's "Sunday Music Magazine" program and on Live From London aired Wednesday evenings.

Undoubtedly, Britain's most successful all-British record company is Richard Branson's VIRGIN label. Begun in 1973, under his modest goal to give his old friend Mike Oldfield a place to release "Tubular Bells", the growth of the company here is legendary. Now Virgin has just tendered up to 50 million shares to the British public in an offer that closed this week.

Having separated off the airline Virgin Atlantic and some other holiday businesses, plus other more risky areas like the pubs and clubs, Virgin has come to the public purely as an entertainment company - offering Virgin Records and some subsidiary labels, Virgin music publishing companies, recording studios, concert merchandise and the record stores. Virgin makes up over 8 percent of the Lp market here and has over 100 artists on its books in one form or another.

But it really is its international operation that is crucial in this flotation. In North America alone, it opened Toronto offices in 1984 and this year unveiled its new American operation in Los Angeles. It is precisely because Virgin is opening up more subsidiaries (as opposed to licensees) that it badly needs large amounts of cash to play with. It wants the capability, for instance, to offer name acts several million up front, to defect them. The most important of all, obviously, is its expansion into the U.S.

Virgin's previous venture into the States was in the late seventies with VIRGIN INTERNATIONAL, which flopped miserably and had to be quickly withdrawn. The flotation here will give Branson the financial muscle he needs to properly compete and all the financial writers here in Britain's newspapers agree on the importance of the U.S. operation.

Virgin's record shops have so far been in the red, but thanks largely to more money being spent on its Oxford Street Megastore it is predicted to be making a healthy profit very shortly. Here, VIRGIN BOOKS is an impressive, extremely high quality, rock book specialist. But it will have to tread even more carefully in the United States, where I understand that the market for rock books has completely collapsed, due to the endless stream of cheap, Madison Avenue cash-ins.

Above all, Virgin is in need of new acts. Culture Club catapulted the company into undreamt wealth, a source it can no longer rely on. Some of the money made will certainly go to the ailing airline, which was bought mostly on Culture Club money and has rapidly turned into a Laker-style liability. In the two years the Toronto office has been opened, it has only made a couple of the most token Canadian signings and now that the other two big British record companies, Stiff and Island, are experiencing acute financial difficulties Virgin must now seize the open market and make good in North America. As a personal observation, I would add that being London-based could be a help rather than a hindrance. Breaking U.S. bands here could be done at a fraction of the cost of tackling the enormous distribution costs in the States.

The already successful package could then be taken back to the United States. It should not be forgotten that the likes of Cyndi Lauper, The Bangles, Madonna and even the rejuvenated Tina

Turner cracked it here and then rode the crest of a wave back across the Atlantic. Virgin needs to earn the kind of respect it has here by not merely being a UK distribution house, over there.

A hot rumour of last week is official news this week. JOHN FOSTER, BRONSKI BEAT's lead singer, has been fired from the outfit, only a year after replacing the band's original lead singer Jimi Somerville (who now fronts The Communards). John Foster is going to pursue a solo career while the Bronskis plans appear hazy. They have suggested to the press that, rather than have a permanent lead singer, they are going to use various guest singers. Why not make life much simpler and just become cartoon characters and rename yourselves The Archies?

It has now been confirmed that DAVID BOWIE IS working on a new Lp, which came as a surprise to many because it was thought we would not be hearing from the thin white one for awhile. It is not clear whether, as rumoured last week, he is working in New York, but it is definitely known that he is recording some of the Lp in Paris, although all other details are totally hush hush.

DURAN DURAN has announced its replacement for Andy Taylor. He's WARREN CUCCURULLO from Los Angeles, who was previously a member of Missing Persons. He will not be given the superstar status of the rest of the band, though. He will not be appearing in group photos or on Lp sleeves, but instead will be a glorified session musician, playing on the albums and going on tour with them.

In other shuffles, KATE O'ROARDON has left THE POGUES. She will be replaced by Darryl Hunt who has worked behind the scenes with the band for the past few years, as well as fronting her own outfit, Pride Of The Cross. Kate left the group once before, last Spring, but this time it's for good.

STEPHEN DUFFY - known at one time as TIN TIN - has left the Virgin subsidiary label 10 Records. He's pursuing another deal.

Are record buyers as gullible as THE PET SHOP BOYS likes to think? The duo, who has already released four cuts off side one of "Please" as singles, is about to release its "new" Lp entitled "DISCO". Track listing: "West End Girls", "Love Comes Quickly", "Opportunities", etc., etc. "All remixed 12-inch classics" trills the press blurb. I, for one, hope this record doesn't start an unfortunate new spate of dreaded remixes. I think we've all had enough of them. Hail, hail to bands like The Smiths, who not only rarely does remixes but actually releases singles that are genuinely new and don't appear anywhere else. Surely The Pet Shoppers (whose live performances consist of standing lifeless with a synthesizer) are simply abusing the dollars spent by record buyers.

ROBERT PLANT has fired his current group because he says he's looking for a more youthful image for his band. Included in the new one will be ex-Killing Joke, ex-Brilliant member YOUTH and BILLY DUFFY of The Cult is also said to be helping out, while still remaining with The Cult. Robert Plant has also categorically dampened any expectations of Led Zeppelin reforming, as they did at Live Aid.

THE HARD REPORT

MUSIC NEWS

The man who once screamed for anarchy in the U.K., the prototype punk JOHN LYDON, this week came on the receiving end of what he once preached. Lydon was furious when illegal punk tenants moved into his disused apartment in the London borough of Fulham. Lydon called in the heavies to remove the punk squatters. A friend revealed: "We all thought it was the ultimate irony, John coming face to face with the anti-establishment and finding the joke on him."

American visitors to these shores and drawing warm praise is LONE JUSTICE, who has packed out halls in the U.K. for two years now and has impressed musicians from Bob Geldof to Feargal Sharkey to The Eurythmics. In last week's otherwise pitiful TV rock show, "The Tube" (lots of posey, out-of-tune art school bands, like the tedious Curiosity Killed The Cat), Lone Justice gave us a timely reminder of good, bluesy, roots rock, as belted out by its brilliant lead singer, Maria McKee.

THROWING MUSES has also been absolutely raved about by the U.K. press. THE COCTEAU TWINS was so impressed with the quirky U.S. band, it chose Throwing Muses to support it on its current U.K. tour.

Another American visitor here who is rapidly achieving the over-forties superstar status accorded to Tina Turner is PATTI LA BELLE who will sell out Hammersmith Odean this week. They're her first British appearances in ten years. IGGY POP has also been doing the rounds to great acclaim.

PINK FLOYD - who has been long presumed no longer in operation, is involved in a High Court case over who can use the name. David Gilmour, Nick Mason and Rick Wright are recording an Lp without Roger Waters, which they plan to release under the name of Pink Floyd. (Almost the opposite, in fact, to what happened on their last Lp "The Final Cut", when Waters made the Lp without Nick Mason and virtually cold-shouldered Gilmour). Waters' case to the High Court is that Pink Floyd cannot possibly exist without him - citing his long list of songwriting and lead vocal credits. It is believed, in fact, that the name Pink Floyd will merely be dissolved and then everyone will go his separate way.

An Indie group, the MACC LADS got on the wrong side of EMI Records this week. The outrageous group has recorded a satirical, somewhat obscene version of The Monkees' theme song, "Hey Hey With The Monkees". EMI, who holds the copyright here is not amused either by the breach of copyright or the song's depravity and it asked that all copies of the record be destroyed. The Macc Lads obliged by trotting over to 20 Manchester Square, the famed headquarters of EMI, and started burning the records individually, directly outside, to the horror of cringing executives. This is not the first time The Macc Lads has been in trouble. Early this year it applied to the Government for a Small Enterprise Scheme Allowance and used the money to record an Lp called "Beer n' Sex n' Chips n' Gravy". The Government was also not amused.

OZZY OSBOURNE cut short his American tour and came home to blighty as fast as his legs could carry him. Talking to the press this week, clutching a comforting cup of tea, Ozzy tells a strange tale of how the sherrif in a town called Tyler in Texas wrote to the bat-eating one, mid-way through his tour, to warn him that if he dared play there as scheduled he would be "lynched"!

GO WEST returns, after a lengthy absence, with its single "True Colours" in a few days. The 12-inch features a - wait for it - "Snake Charmer Mix". BLEEEAH!

CHARTS: "Ask" by THE SMITHS (Rough Trade) continues its grip as the best selling independent label single; and "Brotherhood" by NEW ORDER (Factory) is the number one indie Lp. "Every Breath You Take" THE POLICE's singles compilation Lp is the best selling album in the nation this week.

The new British Top 40 singles is one of the best in ages. Coming in at #38 "Love Is The Slug" by FUZZBOX (Formerly known as We've Got A Fuzzbox And We're Going To Use It). Post-punk mayhem by this delightful all-girl group. They may not really have a clue how to play their instruments, but they bristle with adolescent energy, which is not surprising since they are all under 20 with the youngest member being 16. They smash out mean tunes, behave in a thoroughly silly fashion, wear silly glasses and have possibly the most multi-coloured hair on display in the British music scene. This is a sizzling piece of garage-band minimalism that I fear will not be suitable for many American radio stations. A must for college radio, though, and you may want to check out their excellent previous releases "XX-Sex" and the "Rules And Regulations" Lp. Both are on Vindaloo Records, which is distributed here by WEA.

New at #36 "Sweet Love" by ANITA BAKER.

New at #27 "French Kissing In The USA" by DEBBIE HARRY who is splashed all over the music press and has done tons of phoners to here. She's clearly an articulate woman who's undergone a lot of hassle over the past few years. Good to see her back.

New at #26 "Each Time You Break My Heart" by NICK KAMEN. I described how Nick came to fame last week. Written and produced by MADONNA, it does not sound dissimilar to the gyrating belly-button's own records. Musical criticism is beside the point - British young ladies reckon Nick's a real hunk and are bound to make us chaps suffer for all those Madonna records we bought.

New at #22 "Ghostdancing" by SIMPLE MINDS. Fab. Simple Minds at its absolute finest. It's also the highest new entry.

Climbing 17 positions to #23 "Experiment IV" by KATE BUSH. It got lousy reviews, so Kate must be giggling at all those dumb hacks who wear their Thesaurus's like stone weights around their necks. It's brilliant of course.

Up 13 places to this week's #20 "The Ghost Train" by MADNESS. Far better than the A-side is a wonderful mix on the flip called "Seven Year Itch" featuring all the maddies' finer moments.

Up nine places to #13 "For America" by RED BOX. Lyrically it's a record for the new Democrat-controlled House, but it's not really the lyrics that matter, shrouded in a first-rate tune that incorporates a bit of folk, some African drums, soaring choruses and an excellent hook. Other cuts from its new WEA Lp "The Circle And The Square", apart from its other single "Lean On Me", are less memorable but would be excellent for more atmospheric, late-night play.

Up four places to #11 "Living On A Prayer" by BON JOVI, who is over here to promote the record and performed a first-rate set on TV.

Up 7 places to number 9 "Don't Give Up", the fabulous duet from the god and goddess (sigh) (I think he means PETER GABRIEL and KATE BUSH - Helpful Ed.).

Jim Pemberton, WLLZ, Detroit

The KBC album sounds real good, and now that "It's Not You" is in heavy, we'll add "America". It's reminiscent of the old Airplane early Starship 1980's style...Also added Bruce Hornsby's "Every Little Kiss" since nobody played that here. With the success of "The Way It Is", why not?...I think Steve Miller is back. It took a lot to convince me of that after his last couple of albums, which weren't strong enough to generate any kind of mainstream airplay. The single's doing well from early indications and this week we also added "Nobody, But You"...Kinks' "Rock & Roll City". I've never been a Kinks fan per se, but I like this track. Maybe it's the rawness of it...Increases this week include: Clapton from "The Color Of Money", researching very well....We're starting to see solid research on Toby Redd. It's good to see that happen to a band from Detroit...Robert Cray does sound so good on the air. I was a little skeptical at first, but after listening to it and hearing it on the radio, it's going to do really well...We put Europe on because of MTV generated phone calls. Lots of phones continue.

Inessa York, KGON, Portland

The second best thing about the new Ann Wilson tune is how ravishing she looks on the cover. It's the most attractive she's looked in many a cover. And I like the record, too.. also added Stevie Ray Vaughan's "Superstition" and Billy Idol's "Don't Need A Gun". The Stevie Ray is a natural ---it's da blues. He's the other half of what's happening in American rock and roll right now. And speaking of the blues, the Robert Cray is performing wonderfully, and it's great to see him winning all those blues awards in Memphis. It just accents the fact that we're onto something good. I also have to say the Bruce Hornsby live "The Way it Is" is like "Piano Man Part 2". It's a wonderful couple of minutes where he really gets to show off his stuff. I think it will entice still more fans.. The Georgia Satellites continues to amaze, still holding down the #1 phone position. Steve Miller is beginning to happen on the phones. What we hear is "Gee, I didn't like him before. Is the rest of the album that good?"

Ted Habeck, WMRY, St Louis

Many thanks to Lambo and Ed Clime at A&M, also to Jeff and Marko at Geffen for the interviews with David + David and Peter Case. The show as a killer and having Peter Case performing live on WMRY was too much to ask for. Also thanks to Norrin at MCA for the food and brews at the Broken Homes reception. And now for the music: All but one of my adds are ones I've been sitting on the for past few weeks. I'm so glad I finally have room for Don Dixon. How can I go wrong with a song with the word "Praying" in the title when I'm owned the Catholic Church? Until December. I've been getting requests for 'Heaven', due to the fact they the band has played in town recently, so what the hell? Real Life and the Clapton cut will do good for me, no doubts and yes, we're on the new Kinks 12" and hey, it's the Kinks. How can you go wrong? Finally, WMRY will be one year old on December 27th!! And we could sure use pre-recorded birthday greetings from your artists. Please send to Ted Habeck, WMRY, 9500 W Illinois Rt 15, Belleville, IL, 62223.

Cindy Bailen, KZEW, Dallas

Not a one-listen record for Ann Wilson, but it's the interplay between the verse and chorus that provides the hook that ultimately grows on you. We've got the killer customized Dallas/Ft. Worth version of Joan Jett's "Roadrunner", which is just gonna tear things up once people start getting into it. We've been on the regular version for about two weeks now and this takes it one step further. The original is terrific --- one of the ultimate rock and roll driving songs --- but when it has the landmarks of our city, it really hits the listeners.. Columbia's John Fagot brought Colin Hey by and played us Colin's terrific new album. It goes way past what he did with Men At Work, with at least one completely unforgettable song.. I think the Kinks is going to be really big. We've been just dropping it in here and there for the past several days and "Rock And Roll Cities" should be the next song to get personalized for every song --- in case they left anyone out. We're starting to get requests for more cuts from the Lone Justice album, and it's just beginning to show up in sales. The Robert Cray is also reacting fast.. Finally, I saw the Georgia Satellites/Jason And The Scorchers tour the other night, and was it a killer!! People just tore the place up, and almost the whole audience tried to get backstage. Two really fun bands.

Kelly Cruise, WEGR, Memphis

The annual National Blues Awards were held here over the weekend, and if you haven't heard yet, Robert Cray is red hot!! He walked away with six awards, including Blues Entertainer of the Year. Needless to say, he's going to be an artist we'll all hear more of. PD Howie Castle likes "I Guess I Showed Her" and we're also on "Smoking Gun".. Since we added Robin Trower's "No Time", the phones haven't stopped ringing and the calls are coming from men 25+. Give the song a chance.. This week, we look forward to co-sponsoring a Lone Justice concert at a local club. It should be an easy sell- out.

Russ Mottla, WAAF, Worcester

I love the new Kinks single. "Cities" is a true rocker that makes no pretentions of screaming for CHR crossover status.. Again, Joan Jett's "Roadrunner" is becoming a runaway success, both on the phones and this week at retail as well. First week sales bring the album top 15 response in New England. This is a real record and a great song.. After weeks of airplay on two different tracks and top 5 requests, album sales have kicked in big time on David And David's "Boomtown" Lp. The record looks like it's gonna have legs and more tracks to follow.. Just added Hornsby's "Western Skyline". This terrific record sounds to me like it has all demo appeal as opposed to the upper demo appeal of the first two.. Smithereens "Wall of Sleep" is in based on the group's past performance. It's still selling well in the market and just seems to be one of the great buzzbands.. We also just added the Robert Cray. Call me a medium believer. Have Cray call me a medium believer.. The Georgia Satellites has top 5 phones, and the sales situation looks good in spite of some stock problems. Other retail highlights include the Police album, with CD sales two to one over vinyl.. and one other continuing sales story here is REM, who traditionally does well around here. We don't see it crossing over to the mainstream, but the core is so active that sales and requests continue. Still top 15 here...

Ralph Tortora, WBAB, Long Island

I'm bad, I'm nationwide!! Hopefully, you've all received the Queensryche interview on vinyl this week. Check it out when you get a chance. I'll be spot testing throughout the country over the next couple of weeks. If you fail, no Christmas presents from EMI. In all honesty, I learned a lot about the band doing the interview and hopefully some of that will be passed on when you listen to the record...I hate to have the blues, but I love to hear the blues, especially good blues. If like Albert, B.B. or Freddie King, check out Robert Cray. Vocals smooth as silk and wonderful guitar work, too. (He plays like he sings, but he can smoke, too.) That guy's in the history books already...This Kinks Lp is diverse and fun, too, from the beauty of "Lost And Found" to the dirty blues of "Welcome To Sleazy Town", to the reggae flavored "Video Shop" this could be a big one. Hey, if we all add the obvious smash from "Blah Blah Blah" we can all give Iggy a gold album for Christmas...When the Gabriel album came in months ago, "Big Time" was the first track we added. Now I know why Geffen wanted to wait on this one. Peter surely has hit the big time and this tune will keep him here. Back into current rotation it goes.

David Hall, WKDF, Nashville

We've got a new PD, and her name is Judy McNutt. Yes, that Judy McNutt, formerly of KMET, and I hear she used to work with Bill Hard, too. Everybody tells me she's gonna be great to work with and so far she seems like a good one. We're looking forward to Judy being in place permanently by December first...The Ann Wilson single is great. Everything that made the Heart album a huge success continues to work here. Ann's vocals are tops, Nancy's guitar is great and Ron Nevison turning the knobs makes this one of the most obvious hits I've heard in several weeks.

Pam Brooks, WPDH, Poughkeepsie

I'm glad to see that week after week the bandwagon grows ever longer and stronger for Bruce Hornsby And The Range. WPDH's 150% commitment continues with "The Way It Is" in power and a new add for "The Western Skyline". Now that The Chance club is reopening in Poughkeepsie, I'd like to send out an invite to Bruce and the Boys. Poughkeepsie loves you and your magical debut, so come play our town.. You gotta love this new Kinks. "Rock And Roll Cities" is an energetic testimony to its enduring hold on the world of rock and roll. Hot guitar licks abound and what a story the veteran rockers weave. This proves you don't have to be twenty and swinging an axe around to be a star.. Billy Squier's cranking it out on "Shot 'o Love". He remains one of a few in a class of melodic jammers that deliver strong male and female response with this, the track that should bring this album home. As for staying power, there's lots of great material here. "All We Have To Give" is a beauty that builds to a real gut wrencher and "Powerhouse" is a funkadelic rocker that should get everyone up to get down.. REM's "Superman" is a shot in the arm during a set of corporate and formula rock and roll that can't be beat. This Byrds-flavored piece shows yet another aspect of this band's talented spectrum. Our listeners' calls indicate that they have certainly taken this group to heart and recognize it as one of America's great natural resources. Isn't it about time you heard it, too?

Lex Staley, WFYV, Jacksonville

We've been leaning 25+ recently and we just said fk it, we're gonna rock!! And, after putting in Ratt and Bon Jovi a couple of weeks ago, we're finally gonna deal with Cinderella. We've also added Vinnie Vincent, which has garnered at least as many calls as Bon Jovi. Other great phones include Broken Homes, with a good, slow building trend. Bruce Hornsby's "Western Skyline" is also up and running, and Eddie Money's "We Should Be Sleeping" will be a monster. If you're looking for something a little bit different on the Pretenders album, I suggest "Light Of The Moon". Considering: Brian Spence, Lone Justice (which we can't hold out on much longer), The Kinks, and we'll have to add the Smithereens before long.. My favorites at home have to be World Party, Lone Justice and my new favorite Robert Cray.

Phil Thompson, KICT, Wichita

The Georgia Satellites continues to dominate the phones, with top 5 phones this week for Robert Cray's "Smoking Gun". He's gonna be in Wichita the second week in December and we're all looking forward to it.. Both Timbuk 3 and the Smithereens have great follow-up tracks, if you played their first 12"s. We finally got around to adding Jason And The Scorchers' "Golden Ball Of Chain" this week and it sounds great on the air.. World Party sounds real good and is continuing to build here. It may have taken a while to catch on, but the phones are picking up.. The Rainmakers used to play here a lot, so just about everyone has seen them. I've seen 'em many times and like to think of them as close personal friends. "Downstream" continues to do really well.. Kansas is also looking good. Everyone is happy to hear Walsh back with band.. Great to see all the reps who visited last week. And, Mary Tripodi from Atlantic, it was good to finally meet you. And, finally, Bill and Lee at KMYZ in Tulsa, it was great to hear from you guys. Keep up the fight.

Bonnie Stacy, KNCN, Corpus Christi

Temperatures may have been close to freezing; however, it was anything but cold when Georgia Satellites and Jason took the stage for a semi-outdoor show at Liberty Lunch in Austin. The goose bumps had nothing whatsoever to do with the elements. Thanks to Bebop at EMI for the opportunity to catch them and thanks to JASON and the Scorchers for their always fine hospitality. If you do nothing else with your musical career, see this show! I would rate it up there with most life giving essentials like oxygen, water, etc...And what a nice surprise to have S.W.A.N.'s Ronnie Raphael pay a visit. It's not often that an Indie makes it way down here so thanks for a wonderful evening and the precious metal...Musically, the Kinks are sounding real good these days, yes? If your station rocks at all, you've got to lay the needle on "Tesla", the obvious next big thing. Although I wonder if anyone can knock Bon Jovi out of the ring.

Please Note: Monday, November 24th marks the beginning of THANKSGIVING week, which means an **EARLY DEADLINE!** Please call in your report on **MONDAY** if possible, otherwise, as early as possible on Tuesday. (609-654-7272) Thanks.

Pam Edwards, KGB-FM, San Diego

The momentum of the Wilson sisters keeps pumping as Ann Wilson scores solo with "The Best Man In The World". Her voice and range are phenomenal. The movie is virtually guaranteed to be a box office winner, and Ann should reap some great benefits...Will there be an unreleased B side on every single on the Bruce album? We should be able to nab a song of every holiday if that's the case. "Merry Christmas Baby" is certainly welcome, though. Now we have something to alternate with "Santa Claus Is Coming To Town". And congratulations to Steve Feinstein this week for winning our new music contest. We have now renamed the show "The Vinyl Frontier" by his suggestion. Who did he steal it from?

Mike Marrone, WHTG, Asbury Park

The Price Sulton marks the return of a long lost favorite of mine, DL Byron who co-wrote two of the tracks on the Lp, the better of which is "Shana" and our add is "Something's Gonna Happen" which is a Dwight Twilley sounding tune. Top request of the week? The Chameleons "Tears". Congratulations to Geffen for having the ears to sign this great band. The P-FURS continue at #1 as an import. Speaking of imports, don't miss the new Suzanne Vega 12" "Gypsy" the B Side has two live tracks that are incredible, "Knight Moves" and "Cracking". One other import worth mentioning from Australia, the Screaming Tribesmen, "I Want To Mess With You", a great guitar song. Another record which seems to be getting ignored is the Tommy Keene EP "Run Now" especially the track "I Don't Feel Right...". Finally, the new Julian Cope record "World Shut Your Mouth" has my pick for record of the Year! Don't pass up his great cover version of the 13th Floor Elevators' "I've Got Levitation".

Ellen McKinnon, WEQX, Manchester NH

Last Friday WEQX turned two 2 years old! Thanks this week to Jay At Arista for the KBC compact disc. What a great album that is. It's a real plus to have it on CD. Congratulations to Julie Rader on the birth of her new son and many thanks to Julie, Kenny Laguna, and Joan Jett and the Blackhearts for the wonderful customized version of "Roadrunner". Finally to Toby Mamis, I am no wimp!!! The guys I sent to see Alice (thanks to you) were the two who wanted to go most of anyone in the world.

Duane Sherman, WTOS, Skowhegan

WTOS thanks Til Tuesday and their road management for putting on a great show in Bangor and for being gracious backstage hosts for our contest winners. Amy Mann is a true artist. She told me she picks up her stage presence from Elvis Costello and it really shows. She's very honest with her audience. Smokin' at the Rock Of Maine: Steve Ray Vaughan and Robert Cray. Both super guitarists and in heavy rotation. This week the Communards dance their way into heavy, along with the Kinks who debut out-of-the-box in hot! 'Rock And Roll Cities' is a lot better than some bands who claim they "built their city on rock and roll". The Amnesty Lp is another in a long line of product from politically conscious rockers who refuse to sit down and shut up (and we all thank God for that). The album is a great idea. Time to get ready for this weekend, because, hey hey, it's the Monkees in Portland and in Bangor!! I hope I can meet Davy Jones, so I can ask him what Marcia Brady is REALLY like!!

Bob Linder, WDMA, Dover

WDMA has long been strongly involved with compact discs, yet we've had to put up with less than rugged consumer players. We didn't want to spend five thousand dollars for the professional Sony. Here at last is a fantastic pro player from Technics that's less than \$1200, the model slp 1200. We strongly recommend this unit. It's rugged, has cue control (great for scratch mixes) to within a tenth of a second, even pitch control. When you see it you'll want one for home, too. Technics is going to be sold out of this fast, there's nothing else to compare. As I've said for the Pete Townshend, I'll repeat for the Van Halen live. It is not wise to release a product in only one format. Yes, we're getting a lot of calls from listeners frustrated that they can't buy it on disc or cassette. So, what do they want to know? "When will it be on the radio so I can tape it?" Wouldn't it be better to promote a simultaneous audio/video release? While on my soapbox, let me express my long term disappointment with the quality of audio at a live concert. I realize that's not really a major concern for radio or record companies and I realize there are a few (very few) bands/artists who take great care with their concert audience. However, most bands simply look for the simplest, loudest and most economical system. The kids who go to an arena want to party. They usually know the lyrics anyway, no need to distinguish them in concert. But what happens when these kids reach about 25, when they can hear better quality audio at home, why hassle the crowds and tickets? What I'm saying is, if a band/promoter is looking for older demos, dramatically improved concert sound is a prerequisite. With today's technology even a gymnasium can be made to sound good...From Mike Boyle: Lots of "thank you's" this week. First to Elektra for the Ben Orr and Howard Jones CD's, and also to Arista for the KBC Band CD. The CD version of Europe's album made the difference in giving that an add last week, too. Thanks Jerry Lembo of Columbia for setting up the Paul Young phoner, and thanks to Sue De Benedette of A&M for getting us the Stewart Copeland; that one was very interesting. Stewart is really into his musical role on TV's "Equalizer". We had a visit this week from Henry and Huey of the Outlaws. Thank you Paul Yeskel and Carole Peters for making that visit possible. The new Outlaws album really has depth. I can tell you the older fans love it and I know they are making new fans, too.. As far as adds go this week, the Van Halen live 12" is getting lots of attention. I'm sure the video is real hot. If you've done your homework you already know the background of Price Sulton. For me, the advance cassette gets played over and over, and after "Shotgun Shy" try "No TV, No Phone". Finally, I want to put in a pitch for my favorite from this area, Robert Hazard. He's got a new Lp entitled "Darling" and with a title song you'll like. And I almost forgot to mention how blown away I was after Iggy Pop's New York City show. Thanks to everyone at A&M for one of the best shows of 86.

Please Note: Monday, November 24th marks the beginning of THANKSGIVING week, which means an EARLY DEADLINE! Please call in your report on MONDAY if possible, otherwise, as early as possible on Tuesday. (609-654-7272) Thanks.

THE HARD REPORT

Doug Clifton, KBCO, Boulder

Bruce obviously jumps to the top of our list this week. Response on the phones and in the stores has been incredible! As expected, after opening up the Lp the first week, we selected about 20 cuts to work with. Now "Fire", "The River", and "War" are getting the best responses. Other record labels needn't worry about Bruce taking valuable space in the currents. When we play live Bruce, it's in place of a library cut. Records moving up this week: Ben Orr, Lone Justice, REM, and Steve Miller also on the move. Georgia Satellites, Jason And The Scorchers and the Stabilizers. While on vacation, I picked up a few imports. Susan Vega "Gypsy", Psychedelic Furs "Heartbreak Beat" and Kate Bush "Experiment Four". I also got the Bruce B-side for Christmastime.

Chris Emry, WIYY, Baltimore

With apologies to Lee Abrams and Jeff Pollack, I've come up with the hot new format for the remainder of the 80's and into the 90's...all "B" radio. All B's all the time: Bruce and the other Bruce, Boston, Bon Jovi and Billy Joel...this all-star "B" lineup comprises five of the six top selling Lp's in Baltimore. MCA's band reclamation project continues with its first release from the Kinks. Boston and Kansas have both delivered for the label and it sounds like the Kinks has now made it a triple play. Our latest homegrown Lp hit the airwaves this week...cleverly entitled "98 Rock Album Vol 4 (home tapes). It's easily our best effort to date... if there are any hungry a&r people out there..we would be happy to supply you with a copy.

Steve Cormier, WIZN, Burlington

Bruce mania lives on, but what about all the other quality material? For example, the Eurhythmics "Thorn In My Side" is by far one of the best songs they've ever done. So Daryl Hall's "Foolish Pride" didn't make sense. Try "Let It Out". Daryl and Dave Stewart have put together a real rocker. It's been over ten years since we heard the true Jefferson Airplane sound and the radio continues. KBC's "America" will be this generation's new anthem. World Party's "Ship Of Fools" has upper demo written all over it. The only fools surrounding this ship are the ones not on it. months ago I tipped you on the Stabilizers. Now's the time for Toby Redd. Thanks to all who helped WIZN's third birthday celebration become a huge success.

Steve Becker, WKFM, Syracuse

Recent Steve Winwood show was a killer. We gave out thousands of full-color concert patches as souvenirs to the over 5000 that showed up. Curiously, our competition was nowhere to be seen. Big thank yous for the backstage greetings with Steve Winwood and Level 42 go to Jeff Criden of Warner Bros. and Pat "The Ketchup Man" of Polygram.

Beth Kepple, WKLS, Atlanta

If I don't start the day listening to Peter Gabriel's "Bigtime", I am a total bitch.

Lenny Bloch, WRCN, Long Island

Thanks to Joan Jett and Kenny Laguna for the exclusive Long Island version of "Roadrunner". Leave the radio on! Iggy Pop generated a tight set of rock 'n roll at the Ritz. Thanks to the always charming Sue Debenedette and the A&M crew for a comfortable evening. Baseball gluten Bob Kranes tells me that his unique situation allowed him to attend all 7 games of the World Series. There

RADIO COMMENTS

ought to be a law.. Carnal Clapton this weekend with two club dates in N.Y.C. "God plays The Ritz". It's about time. Everybody else has "uh oh, here comes a no-BRUCE weekend". This one was an easy call. Take a break from the Boss. Everybody and their mother has the record anyway. In closing, this Irish proverb: May you get to heaven a half hour before the devil knows you're dead.

Ron Sorenson, KBLE, Des Moines

It's not as big a jump from Bruce to the blues as you might think, and what with Robert Cray and Stevie Ray it was a blue Tuesday. We jumped on the Cray bandwagon with the last Hightone release and if you're not aboard by the time this one leaves the station, your Amrail pass will be revoked. The Kinks "Rock & Roll Cities" is an OK rocker, but Adult stations will find 3 or 4 lp tracks superior. We like "How Are You", "Lost And Found" and "Working At The Factory" best...

Lin Brehmer, WXRT, Chicago

Judging from the negative critical reaction to the Miles Davis album, this will undoubtedly be his most successful. We're very snotty people when it comes to music in general and jazz in specific, and we like Miles on the radio just fine.. The more I hear the new Tina Turner album, the more I find myself admitting that it's one of the year's best rock and roll records. If someone can tell me why radio is struggling to ignore this recrd, please send me a mailgram. It would be a tragedy if people were passing on this record because they've grown weary of her recent hit songs. Quality outings from major artists would seem to be valuable.. My favorite new record this week comes from the protean Golden Palominos. Sure I have trouble figuring out who the hell is in the band, but the album's best song, "Diamond", showcases Sid Straw and she's the coolest.. Adds this week: Robert Cray, Stevie Ray Vaughan, Golden Palominos, Housemartins, The Kinks, Mighty Lemon Drops, Debbie Harry and live 12"s from Bruce Hornsby and Steve Earle.

Steve Kosbau, KRNA, Cedar Rapids

In the past couple of years, there has been an "AOR is color blind issue". I've always disagreed, thinking that if there was a release that fit the format by a non-white artist, programmers would jump on it willingly, as they do with other great AOR material. Finally, proof positive is on the radio. The new Robert Cray track "Smoking Gun" is HOT! Any mainstream AOR that's not playing it could be cheating itself. Response to it at KRNA has been immediate.. but more important, excellent! Paul Young's "Some People" is showing signs of greatness for us. In the past couple of days, our phones have been nearly crazy for it! Have you checked out World Party's "Ship Of Fools" more than once? DO IT! Around the third time you hear it on the air, in the context of your regular format, you'll love it. I don't remember doing such a complete 180 on a song, but this tune has sold itself to me.

Patty Martin, KMBY, Monterey

Do not, under any circumstances, even think of missing Timbuk 3 when they pass thru your area. They're funny, funky, fresh, and innovative. IRS has a great coup with these two. I hope "Shame On You" is the third single. When you see them, keep your ears peeled for a tune called "Assholes On Parade". One of the best songs I have ever heard.

Harry Reynolds, KOZZ, Reno

I think the Kinks are going to have a big hit with "Rock And Roll Cities". Dave Davies takes center stage this time. The Lp sounds good too...Check out "Lost And Found". I'm glad Capitol pulled another single from Seger's "Like A Rock" because "Miami" was my original fave...Lone Justice is justifiably climbing the charts and Bad Co. was in town the other night. Very accommodating chaps. New front man Brian Howe proved to be very charismatic.

Loris Lane, KFMX, Lubbock

Looks like I'll be dealing with Cold Turkey before Thanksgiving is even here. The Great American Smoke Out is Thursday! I was never a Springsteen fanatic until now. It only took one week and I'm starting to hear rumors of a tour in 1987! We're considering Iron Maiden. It's selling like hot-cakes around here, right along with Boston and Bruce! Europe is selling well here too. We rolled some new Johnny Winter at 2AM Monday and the phones went wild. It's about time we finally got Jason and Robert Cray on the air. I'm in a good mood now.

Rich Flamingo, KLUB, Concord

Just want to say we now have CD players. Regardless of what any radio station says, playing a CD over the air just doesn't do any good, because after you get through processing in the limited FM curve and with the other static problems, any noticeable differences are taken away. BUT SINCE WE'RE CABLE, we don't have those problems. There is a BIG, BIG, sound difference. Like the listeners having their own CD player at home! So, send those CD's where they will do some good.

David Fleischman, Atlantic Records, 212-484-6017

Pardon me while I mount my soapbox.

A few weeks ago we released the "THIS IS THE WORLD CALLING" 12-inch by BOB GELDOLF and, quite frankly, we anticipated all or almost all of the AOR stations to embrace and add the record. Boy were we surprised. Let me say that the reasons we thought the record would be immediately accepted were, first and most important, the record sounded like a "hit" track to all of us. Second was the fact that BOB GELDOLF seemed to be a "valuable programming tool" based on the fact that he has been one of the most visible and written about personalities on the planet over the last couple of years, in association with some of the most benevolent and humanitarian efforts in the history of mankind. We still deeply believe these reasons to be true and valid. Now in your hand is the Lp "DEEP IN THE HEART OF NOWHERE" and without question it is a major effort, quality music, and deserving of considerable attention. My favorite tracks, in addition to "THIS IS THE WORLD CALLING", are SIDE I and SIDE II. The production is impeccable and the supporting cast is stellar. Don't shortchange yourself, your station, your listeners, or this record. P.S. Have a very Happy Thanksgiving!

Glenn Stewart, WHJY, Providence

Here's this week's songs that sound great on the radio: Smithereens, Robert Cray, Eric Clapton, Bad Co., and any Springsteen...

Carter Alan, WBCN Boston

Pretenders "Roomful of Mirrors" is causing quite a stir here. I always wondered why that great Hendrix track never appeared on an album before he died. This is THE hardrock tune on the Pretenders album and it features Martin Chambers on drums with a vicious thump. I miss him in the new band. We made the switch from "My Baby" as soon as rumors developed that it would be a 45 next year.. Gene Loves Jezebel has scored major requests and airplay at WBCN with "Heartache". After seeing them live in Boston on a USA Network broadcast of the CMJ Awards I believe they can go all the way to selling out stadiums in a few years. The band mixes new energy with traditional rock sound and performance traits like Steve Tyler's posing and preening on stage. We've added "Desire" and it's picking up immediate phones...WBCN is proud of local heroes Throwing Muses, who are currently touring Europe on the heels of the 4Ad album release, available through Thirsty Ear, this record has been a big selling import nationwide. Check out "Green". The college stations have been banging this one since the beginning. The band returns to America to be on Oedipus' "Nocturnal Emissions" show on December 12th.

Alison Stewart, WBRU, Providence

Followup hit BRU this week. Til Tuesday takes a wonderful step with "Coming Up Close". I'm sure it will do as well as "What About Love". Her voice is strong and clear and comes across well. Iggy is the hottest thing around. We know that the real "Wild Child" will be a phone buster. It's a debut this week as our Master Blaster. The Kinks prove they are as tough as nails.. The hook in "Rock & Roll Cities" is about as sharp, too. It should be a big week for them. Thanks to Paul Brown from IRS for General Public tickets and it was good to see Bruce MacDonald again.

Jim Steele, WIOT, Toledo

In case you don't know, Keith Masters is the new Program Director while Ann Kelly moves up to OM. Before I dare forget, for the third straight week, I must repeat something I proclaimed a long time ago: Bon Jovi's album "Slippery When Wet" will break every standard set by Def Leppard's "Pyromania". No longer will rhythmic metal albums be measured by those guys from Europe. Instead, it will be measured by that magical Jersey touch. And how 'bout that guy named Bruce? NO, not that Bruce, but Bruce Hornsby. "On The Western Skyline" is a tasty follow-up to "The Way It Is" and the album is destined to be under a lot of Christmas trees this winter -- far and away out-distancing ANYONE for Rookie Of The Year honors. While the production on the 12" of "Every Time I Run" from Detroit's Toby Redd leaves something to be desired, don't just discard the album. The production for this tune is better on the album, so now we have NO EXCUSES but to help this fine band along its merry way to success. The surprise of the week is "Shotgun Shy" from Price Sulton. . . real cool! PS: Thanks in advance to those record reps taking care of us for our 14th Anniversary and to those of you being difficult, remember, you need us just as much as we need you.

Don Berns, CFNY, Toronto

Did somebody say there was no new music from which to choose these days? We spent 6 hours last night listening to new product and it was real hard to pick for the few slots we had open. Therefore I have to say we are quite excited about the new music we DID add this week starting with "Experiment IV" by **Kate Bush** (as previewed first in North America by Lee Carter last Sunday). A strongly worded, tuneful song that will be included on her upcoming compilation album. Next up, is "Through The Barricades", an amazing ballad from **Spandau Ballet**. Although I hesitate to mention these two groups in the same breath, and in fact, I'm not, since the quote I'm about to give you is from Ivar Hamilton, "Barricades" should do for Spandau Ballet what "Careless Whipser" did for **WHAM!** It's exquisite. I don't know what the movie "Something Wild" is all about, but I do know that if it's half as strong as the soundtrack Lp it's going to be a smash. Check out Sister Carol's version of "Wild Thing" and **Fine Young Cannibals**, whose version of the Buzzcocks "Ever Fallen In Love" is already getting strong reaction based on the sneak preview we gave it two weeks ago (Courtesy MCA Canada). A great bunch of folks who never ask us to take records OFF the air like certain others do, right Kim Zayac? Finally we're extremely excited about a group out of Quebec called **Bundock**, who have a 5-song EP out here, with a track called "American Singer" that I predict will be a top 5 hit in Canada and the U.S., if some smart record company picks up the distribution from Anthem Records. Thanks to Hunters & Collectors for stopping by for a live mike interview and congrats to **OMD**, who made it through their concert last week in fine style, despite major throat problems for both Andy and Paul. It's a tribute to this great band that the audience didn't care that their voices were fading fast on stage. The group was so up and tight that everybody had a great time anyway. Good going, guys, you really are troopers in the true sense of the word.

Larry Dunn, WLIR, Long Island

All along I've been saying this may not be the album for AOR from **Gene Loves Jezebel** but the potential is there for great things to come. This past Saturday night proved it. We had a sold-out co-promote at the Ritz as well as a packed in-store at Tower Records last week. If you want to step out now, pick up the new remix of "Desire". If not, remember, we told you so. Screamer Of The Week: **Psychedelic Furs** Import, "Heartbreak Beat". Richard, Tim, and John, have really delivered again this time. '87 will be a big year for the Furs. Thanks to Michael Ashton of Gene Loves Jezebel, Paul Young, Stewart Copeland of the Police and Dave Wakeling of General Public for phoning in live. Low and behold I put on the radio and what did I hear? "Roadrunner", perfect for all of us in NY. I wonder how you guys in Boston feel about this. It just isn't your year.

Bird, WXXP, Pittsburgh

Joan Jett's new single "Roadrunner" is why the Lp is titled "Good Music"! Requests on this surpassed my expectations. If you ever considered playing Joan Jett And the Blackhearts at all, this is the one. Guadalcanal Diary was in town on the 15th -- thanks to Elektra for bringing this band to the airwaves. Double X would also like to thank Frank Zappa and Joey Ramone for calling in, as always our listeners love to here what these guys are up to. PS: Listen to **APB!**

Bill Prescott, KZAP, Sacramento

Play Tesla dammit!! This Sacramento band is out with its Geffen debut, featuring the 12" advance of "Modern Day Cowboy", with my little brother Ralph on lead guitar. Now, Ralphie's had a lot of tough knocks and he could use a break, not to mention some cash. Matter of fact, he still owes me for the **Les Paul**. But all kidding aside, I'm serious about this record. "Modern Day Cowboy" just barely scratches the surface of what I think will be the first gold record. One with my name on it, that is.. Can I please have a **Boston** CD?.. Phones: **Georgia Satellites**, Tesla, "Stairway To Heaven", "Modern Day Cowboy", "Freebird", and Anything by Tesla. Oh, yes, we also added **The Kinks**, **Bruce Hornsby** and **Bon Jovi's** "Wanted Dead or Alive".

John Griffin, WPLR, New Haven

Oh, the talk of fists is in the air. The goosebumps, the magic, the amazement, the wonder. Lepers being healed!! Eyesight restored!! I know of at least one instance of the dead rising, only to find the local record store was sold out of the **Bruce** album. Now that we've all congratulated ourselves for being smart enough to recognize a major album from a major artist, why don't we move on to something else? After all, this five-record set wasn't released in time for Christmas to enrich our lives but to enrich others' pockets. It wasn't the second coming. It was just an easy week to figure out what to add. The real item to be discussed is how to avoid getting those "if I hear another live Springsteen song I'm going to vomit" phone calls.. And who is this rocket scientist that has "Roomful Of Mirrors" as the next **Pretenders** single? There are least four other tunes that are twice as good as that old **Hendrix** dirge. From MD Christina: "And, oh, if I could just hit one of those notes from **Ann Wilson**. Flawless.. Top 5 phones: **Boston**, **Bon Jovi**, **REM**, **Europe** and **Bruce's** "Jersey Girl".

David Anderson, WMAD, Madison

WMAD AM and FM have been sold to First Choice Communications, subject to FCC approval. The new owners plan no major changes. We'll continue to be the fastest growing station in Madison, and the classic rock will stay where it belongs, on 92 FM.. We're looking forward with a lot of anticipation to the **Clapton** album.. On the **Ann Wilson**, forget about the blue hair. The record sounds real good and isn't Jim Everett of the Rams the best man in the world? Great production on the **Billy Joel** record.. **Springsteen** fans take note: It has now become a two-Bruce world. I think "Western Skyline" is another outstanding song, and **Bruce Hornsby** deserves all the accolades. Considering: **Winwood** "Back In The High Life", **Love And Rockets** "All In My Mind", and **Pretenders** "Roomful Of Mirrors".

Please Note: Monday, November 24th marks the beginning of **THANKSGIVING** week, which means an **EARLY DEADLINE!** Please call in your report on **MONDAY** if possible, otherwise, as early as possible on Tuesday. (609-654-7272) Thanks.

Art Boerke, WKWQ, Columbia SC

South Carolina hasn't exactly been known as the bastion of rock radio, if fact, until K 95 ROCK came along in August, Columbia had not had an album rocker in 7 yrs. Well we're here now and according to the latest Birch, the listeners have been waiting for it. We came in 4th males 18-24, and tied for 4th in males 18-34. So why is it that there are still certain MAJOR record companies that have not sent us ONE record since we made that big switch from automated country? Well folks, I won't mention any specifics, but here's your chance to rectify the situation. We need the records as they come out. Please send product to: P O Box 410, Batesburg SC, 29006. I take and make calls from my apt. The phone there is 803-796-8722. Also, any giveaway stuff you can provide is greatly appreciated. Now that I've gotten that out of the way. . .we're crazy about Broken Homes. In my opinion it rivals **Smithereens** for best debut of the year. The **Georgia Satellites** are also HOT!!! You should also check out Ben Orr's "In Circles" as an extra cut. We're getting phones on it. **Brian Spence's** "Hear It From The Heart" is an excellent hard pop tune as well.

Marty Griffin, KFME, Chico

The **Ann Wilson** is a very strong track that should be a top 10 contender. It's really well put together with strong production.. **Bruce Hornsby's** "Western Skyline" was my favorite out of the box, and I'm glad to see they're going to start working that one and think it should do quite well.. We're gonna put **Paul Simon's** "Graceland" in. We waited a long time but after repeated listens it sounds real good.. The **Kinks** "Rock And Roll Cities" is not going to be one of their classics, but for a first track from a new Lp on a new label, I think it's a strong start.. The **Smithereens** "Wall Of Sleep" is a great follow-up track and should do at least as well.. Top 5 calls: **Springsteen** "War", **Steve Miller's** "World", **Don Henley** "Who Owns This Place", **Boston** "Cool The Engines", and the **Georgia Satellites**. Considering: **Timbuk 3** "Life Is Hard".. At home listening: **Robert Cray Band**, **Stevie Ray**, **Eddie Money**, **Huey Lewis** and more **Bruce**. **Paul Young** started off slow, but the calls are now picking up.. **World Party** is another slow builder, but we're sticking with it. And there, also, the calls are picking up.. **Lone Justice** is doing fair. Thought it would be stronger at this point after an out-of-the-box add...**JASON's** "Golden Ball" now getting good phones.

Rick Panneck, WAPL, Appleton

The **Georgia Satellites** moves to Power this week due to top 5 requests and increased sales. A lot of listeners comment on the refreshing rawness of the band.. **Bruce Hornsby** will undoubtedly be the debut artist of the year. "The Way It Is" performed extremely well for us. How could we miss with another track?.. The **Kinks** is one of my favorite bands of all time. **Ray Davies** and company return with a vengeance, and "Rock And Roll Cities" will become an instant classic. The cut has the same kind of message as **Ian Hunter's** "Cleveland Rocks".. My fave album of the week has to be **Robert Cray's** "Strong Persuader". If there is a rock and roll heaven, **Robert Cray** is god!!! Top 5 phones: **Springsteen Live**, **Georgia Satellites**, **Bon Jovi** "Wanted", **Cinderella** "Nobody's Fool", and **Stevie Ray Vaughan** "Superstition".. At home: **Robert Cray**, **World Party** and the **Rainmakers**.

Al Branca, WMGM, Atlantic City

Adds this week: **Ann Wilson** "Best Man In The World". Don't let the 7" scare you. Everyone knows there is no such thing as real 12" in white radio. Bang it hard before your neighbors do across the street. Yo, Capitol--does her cleavage really start at her throat, or is that just some clever air brushing? ..**Joan Jett's** "Roadrunner" is great nighttime cruising music. What really sold me was the fact that she mentions Jersey.. **Bruce Hornsby And The Range**, "On The Western Skyline". A bit more down home than the first two, but they're on fire right now. **Hornsby** is right up there with **David And David** and the **Smithereens** for Best New Acts. How can you argue with success?.. **Van Halen** "Rock And Roll". I saw them do this cover twice. Both times it brought the house down. Anyone else who saw it would love to hear it again. All you need is half a memory, or half an imagination.. **Smithereens** "Wall Of Sleep". This tune sounds instantly familiar. The lp is selling remarkably well, considering the flood of major product. It's not because they're from Jersey, because North Jersey and South Jersey are like two different countries.. **Kinks** "Rock And Roll Cities". New music from these legends is a must for any AOR playlist. Can't wait to hear the rest of the Lp. **Iggy Pop** "Real Wild Child". Although "Cry For Love" was a great song, "Real Wild Child" is a little less serious and should be a bit easier for the masses to digest.. **Beastie Boys** "Fight For The Right To Party". Fun tune that drew instant phones. Also new on **Huey Lewis And The News** "Whole Lotta Lovin" and **Dokken** "Will The Sun Rise?"

Andi Turco, WPYX, Albany

I may be the only one in the country to feel this way, but HOW 'BOUT A NO BRUCE WEEKEND?! (oh well, it was just a thought) We are ready for a **World Party** and it's long overdue. "Ship Of Fools" is one of the best sounding songs to come down the pike and it goes on this week. The **Kinks** gave us a true to form rock and roll record for Christmas. It was really nice not being disappointed by a wimpy commercial record. Instead, the **Kinks** cook. **Georgia Satellites** moves into Power this week after top 5 phones and showing impressive retail as well. Who says AOR does NOT sell records? Finally, by the time you read this, Las Vegas may be a smouldering ruin by the time **PYX 106's** **Mason And Sheehan** get through. We broadcast live from Vegas on the day before the **World Heavyweight Championship** bout between our hometown hero **Mike Tyson** and **Trevor Berbick**. **Mason and Sheehan** along with our sports director/Olympic Gold Medalist **Jeff Blatnick** will be on hand for all the action, both inside and out. It just so happens that both **Mason** and **Mike Tyson** are from the same hometown. Hopefully by presstime, **Mike** will be the new **World Heavyweight Champ** and **Las Vegas** will still be in tact.

Please Note: Monday, November 24th marks the beginning of **THANKSGIVING** week, which means an **EARLY DEADLINE!** Please call in your report on **MONDAY** if possible, otherwise, as early as possible on **Tuesday**. (609-654-7272) Thanks.
