LOU GRAMM

"Ready Or Not"

Lou's new single streaks 16-5 after just 2 weeks, easily our biggest mover! Now watch the title track take the album top 5 just as fast.

EPIC

THE GREGG ALLMAN BAND

"I'm No Angel"

He's no foreigner to top 5 action either. You'll wanna add "Angel" OTB, and think quick depth on "Can't Keep Running".

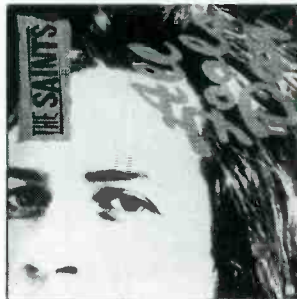

EPIC

BARBUSTERS

"Light Of Day"

Between Joan Jett's belting, Bruce's writing, and Michael J. Fox on lead face, this one's hot enough for a cassette add.

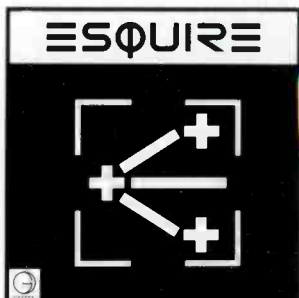

TVT

THE SAINTS

"Just Like Fire Would"

Yeah, right. The TV Tunes people with a rock radio hit? Hey, hear it once, and you'd better smile when you say that.

GEFFEN

ESQUIRE

"Up Down, Turnaround"

The leadoff 12" had us running for the volume control, but the Yes hook here is hard to deny. Vangelis meets Renaissance.

THE HARD REPORT

More On The Picks...

Lou Gramm, "Ready Or Not", Atlantic. How instantly massive is it, you ask? How does the week's #1 point increase grab you? Try 41 play jumps after only a week. Would you believe 11 powers and 61 heavies? You want phones? We tally up 13 top 5 mentions, including WKQQ, WRCN, WWCT, WAOR, WBCN, WONE and KFMX. KQWB's Ty Banks isn't alone when he comments, "I like it better than anything on the last Foreigner album"... With reaction like that, you'd best believe your listeners are ready and willing for more, with the title track the smart call. Find it in the dark.

Barbusters, "Light of Day", Epic.

Be late on "Light" and you are. What could be easier than Joan Jett covering Bruce from the upcoming Michael J. Fox film, especially in light of her recent success with "Roadrunner"? As WEBN's Curt Gary puts it, "We're wearing Joan like a cheap suite, and it's a perfect fit"... And considering how much action the advance cassette picked up, this one really can't miss. It's a formula Midas would envy.

Esquire, "Up Down Turnaround", Geffen.

Could this be the start of a whole new format--"Music Of Your Wife"? The first 12" picks up a #99 debut behind 15 adds, but we suggest you turn your attention to what we think is the album's obvious standout. We've heard comments on "Sunshine" and the Greg Gillispie favorite "To The Rescue", but why not start with the one that most closely resembles Yes's catalogue classics? Give it the singalong test and you'll agree.

ALSO NEW THIS WEEK

New Push tracks:

Paul Simon, "Boy In The Bubble", WB. 25 current reports tells us most of you are basically waiting for the green flag. That special promo CD you'll be receiving this week should serve the purpose. "Graceland" is a musical and social phenomenon of the first order, probably the adult rock classic of the last six months--so act accordingly.

Bob Geldof, "Love Like a Rocket", Atlantic.

You've got to hear it on the radio to appreciate those chunky Clapton riffs and the overall listener appeal a la KROQ's heavy airplay I noticed in LA last week. "The World" was fine holiday stuff, and especially well timed in that regard, but in terms of killer air sound, raw rock and roll attitude and Bob's image and profile, this one's the real deal. You've got a serious airtime investment to date, and one of popular music's most selfless citizens could sure use a little more support on this all important project. It's not as if the song alone doesn't deserve it.

The Cutting Crew, "Died In Your Arms",

Virgin. We first heard it on the by now famous Virgin "Veritable Suckaaaahhhs" sampler, and liked it so much we copped it for ours!! Right after Gregg Allman, no less--cut 2, side 1. You'll flip for the world class vocals and melody, not to mention the 10cc arrangement. Got to be the best positioned pop/rock crossover on the street, one we expect the new label to bring in quickly.

Big Dish, "Slide", WB. This smooth and languid love song has a cool groove that should cross nicely with serious rock/pop/new alternative action--and it also has a one week head start as an import add at WLUP. A ladykiller deluxe.

The Gregg Allman Band, "I'm No Angel", Epic. Here's the double shot album pick after last week's "Angel" accolades, if only to re-emphasize what a comeback coup this represents for Greg. As noted by WIBA's Jack Mitchell, "Gregg just blew me away. 'Angel' is easily the best record of the week"... WEGR's Kelly Cruise concurs, "'Angel' is one hell of a record"... And as fast as this one's gonna fly, let's have a little depth action, adventurers! "Can't Keep Runnin'" is the best new original, with the blues seg at the end of side 2 also pretty cool.

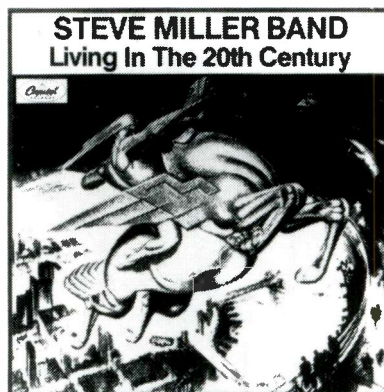

The Saints, "Just Like Fire Would",TVT. It's true. Somehow Steve Gottlieb of TV Tunes fame got his mitts on what has to be a big big winner from Down Under. This acclaimed cult band (well, that's what the bio sez) has come up with one of those rare radio songs that practically promotes itself. We love the early Graham Parker vocal feel, and doesn't it sound like Brinsley backing 'em up? Hear it on the new Hard Cassette Sampler, or the Network mailer. Either way, it's a great song.

Robin Trower, "No Time", Crescendo. 93 stations later it's still building like the hammers 'o hell. Call it impressive plus performance from a little label that could. Robin's up at 7 (WQFM, KBCO, KLOS, KRQR, KSJO), heavy at 16, and top 5 requested at the likes of KOME, WCMF, WGTR, and WHCN. The above translates to a 34-29 Hard Hundred move and 35-30 Lp progress. With active airplay and audience response matched only by major acts and labels, "No Time" has more than earned a piece of your airtime. No Risk at this stage.

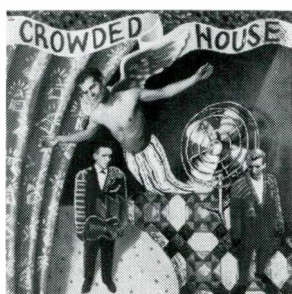

Tapetalk: By now you should have received volume three in our Cassette Sampler series, and although we've made note of things just out (Allman, Saints, Cutting Crew, Stranglers, Tina, Vinnie, and China Crisis), we want to hip you to a few more items you can expect shortly.... Enigma's new band Wednesday Week does a great job of what I you might call neo-California pop on "Missionary". High marks for the electrified acoustic guitar and clean girl-group vocals... also pay special attention to Robyn Hitchcock's "If You Were a Priest". You might have seen the big spread on Robyn in the last Rolling Stone. He will cross to mass appeal, and "Priest" has already gone to #1 New/Alternative. He's an artist you should know about.... If you're in the market for some solid 18-24 male targeted crunch, dial into Atco's new act Reckless and their track "Nitty Gritty". They're obviously big AC/DC admirer, and this is totally believable garage stuff....As a longtime fan of Patty Smyth's voice, I've been hoping she would come up with material to match that first Scandal Lp, and she comes through in spades on her upcoming release. Scam a tape from your Columbia rep and check the first single "Never Enough", the gorgeous "Called to Heaven" and her killer cover of Danny Wilde's "Isn't It Enough". ...You'll have Andy Taylor's "I Might Lie" (MCA) in a week or two and we expect that one to fly on the radio....and we're hoping to talk Bill Bennett out of an advance of the Damned's cover of Love's "Alone Again or". Smashola.

ENIGMA

Sammy Hagar, "Winner Takes It All", Col. And that he is! #1 Most added with 89 stations, and the week's highest #25 debut. It's heavy on 17, medium everywhere else, and a fast top fiver at KOME and WPYX. KEZO's Joe Blood waxes poetic, "The guitar solo in particular leaves a vapor trail across my turntable". WHJY's Glenn Stewart passes the P's, "Pulsating, pounding and priceless. Sammy sounds as good on "Winner" as he does on anything from '5150". Why, here's WMGM's Al Branca, "Sammy does Survivor. Powerful vocal performance".... And then there's WAPL's Brian Taylor, "His vocals have become an AOR staple. That's why it's nice to have some fresh new vinyl to throw into the recipe"..

Psychedelic Furs, "Heartbreak Beat", Col. The smart money says bet big breakthrough this time. The Furs hit the bricks with 22 out of the box, with heavy play at KFMH, KJET, KKBR, KTAO, KUSF, WMOD, WXXP, WNDY and more. From WLAV's Dave Lange, "Psych Furs may have their most accessible record yet"...KRNA's Steve Kosbau calls it "The Most Infectious track of the week". From KBCO's Doug Clifton, "The import has been working for us since last year"... New at #22.

Steve Winwood, The Finer Things, Island/WB. Steve's latest shines through with 25 adds, nine increases, and charts to match: Underlined 50-35 on the Hard Hundred, 29-23 Album Impact. Now current on 80 reporters. WIYY's Chris Emry feels "Winwood should retitle his Lp "The Lp That Won't Go Away" as we go on our fifth track"...WAOR's Karen Simmons echoes "We're pleased to be able to go five cuts deep. We've never been able do do that with Winwood before"...and from WPDH's Pam Brooks, "We've added six of eight tracks and all have found their way into heavy and power rotation."

Stevie Ray Vaughan, "Willie The Wimp", Epic. Nothing be stopping our man Willie now. Stevie's #7 Most added with 16, with KFOG, WBCN, WBYP, WEGR and WOUR fronting 12 Increases. WDVE and WEGR list top 5 phones, too. Up 48-40 tracks, and 37-33 In overall album progress. Now on 83.

Julian Cope, "World Shut Your Mouth", Island. Has Island done an incredible promotion job on this artist or what? And just wait til you hear "Trampoline"! The latest great white Cope pushes the "on" column to 108, with 14 adds and 6 increases, and you know 19 heavies spells serious plus credibility. Double bulleted 43-38 HH, 33-28 album. Top 5 calls include WMAD, KABL, KORX, KQWB, CILQ and WTKX.

Santana, "Veracruz", Columbia. The second half of the label's one two punch pulls in 54 first weekers, with WPLR, KOME, KSJO, KKBR, KFMH, and WMDK the early heavies. KFMG's Michael Davis says, "Santana continues a great tradition. "Veracruz" makes me want to jump on a plane and join the party"...from WEGR's Kellycruz, "It's a 3.5 minute vacation". WWCT's Phil Manicki feels "Carlos sounds as crisp as ever. Add that killer hook and you've got a big smash"... New at #48.

Deep Purple, "Call of the Wild", Polygram. The 80-57 advance cops the Monster Move honors this week, further substantiation of our claim that "Call" kicks "Attitude"'s ass. Ditto the 18-23 dip for the latter as well. WOUR's Tom Starr advises, "Even if you don't have an attitude problem, 'Call Of The Wild' is the tune on the record". It's #6 Most Added with 17, now on 41, upped at KAZY, WBAB, and KTYD.

Starship, "Nothing's Gonna Stop Us Now", RCA. Their second week out offers another 23 adds for 92 to date, 20 of which put it in heavy, six more power. KSHE, WTPA, KRNA, KWHL, KPOI and 4 more increases, with WIMZ and KRQU the first to show top 5 phones. The 38-24 advance bottom lines a healthy crossover profile. Pound it.

Concrete Blonde, "True", IRS One of Our favorite new contenders lays claim to 14 fresh recruits, with KTAO, WVVV, KEYX, KTCL and KVRE upping play. The 46 station count makes for a promising #82 track debut and #47 Lp showing. WHCN's Kim Alexander says, "last week I bragged about playing it non stop at home. This week we put "True" on the radio. The lyrics are such a great pick me up"... WHJY's Glenn Stewart says, "If 'new music' is this year's buzzword, there is no reason to ignore Concrete Blonde. It's a haunting melody that will add texture to any upscale AOR."... and from WPDH's Pam Brooks, "It has the kind of quality about it that makes the tune stay with you'..."

Eric Clapton, "Miss You", Duck/WB. I guess all we can add to the obvious here is the fact that the latest push track is now on just half of our reporting stations. It's got 13 new, 30 heavies, 2 powers, and 8 increases. KDJQ's Ron Garrett says, "Eric must have taken some fun vitamins or something. He certainly is having fun playing his guitar on Miss You". Yo Ron, we couldn't come up with anything better ourselves-- except maybe the 41-30 Hard Hundred jump.

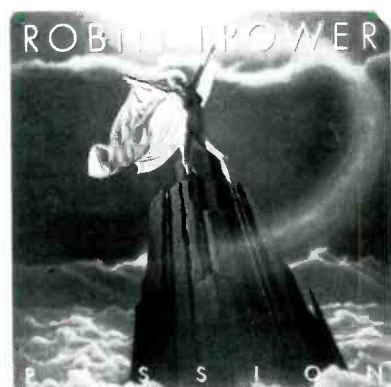

Hard Acts to Follow:

Waysted, "Heaven Tonight", Capitol. Oh Boy, is that Ron Garrett at KDJQ on a roll or what. Quote city. He says, "Don't let the cover fool you. Waysted's 'Heaven' is an Intelligent 18-34 appeal record. It's as safe as REO and hip as UFO". Two weeks out and on 20 stations, new at #92.

HARD REPORT RECORD OF THE WEEK!

GUITAR HEROS NEVER DIE!

GNP/
CRESCENDO
Records, Tapes & CDs

Don Dixon, "Praying Mantis", Enigma. Two? Three months later? And still going strong. Let the numbers do the talking: New on KSJO, KOME, WZEV and WOOJ... Upped at KFOG, WBCN, WRXK, WHMD and KVRE.... and, top 5 requested at WDVE, WDHA, and WQBK where Bobby Welch sez, "It's been our most requested song for the last two months". Or, how about this from WAOR's Karin Simmons, "Don's comical lyrics are working very well with us"... So why's it only on 64?

Vinnie Vincent, "No Substitute", Chrysalis. We've found a surprising number of programmers simply haven't taken the time to listen, so we've made it easy. It's right there when you cruise side 2 of our latest sampler. You'll want to get familiar with add weeks like this: WXRC, WFYV, KICT, KQDS, WWZU and five more, and KLAQ and KDJQ increase. From KQDS Mike Keller, "for crying out loud, it's a tender, crunching ballad. It's early but it's working"... In short, when the fast selling debut Lp, in Chrysalis history offers up a super wide demo power ballad, the wise guy puts it to work. New at #81.

Crowded House, "Don't Dream It's Over", Capitol. Capitol's Ace long term belief and promotion continues to reap major divs. New on 9, upped on WBCN, WWCT, KRIX, KSTM, KJET and 4 more, heavy on 9 and power at 4. WLAV's Dave Lange warns, "I can't believe everyone is blowing this record. Top 40 is going to play it first in 70% of the country and it's a great song"... WQBK's Bob Welch echoes, "We've had a market exclusive but it looks like other AOR's are gonna get beat on this one. Too Bad. It's a great song with great hooks"... Underlined 55-52.

Brighton Rock, "We Came To Rock", Atco. Yeah, we like that WBCN add. Very nice. Also new at WAPL, WOUR, and WIXV. Already on KNCN, KRNA, WTPA, WAQX, WDHA, WHJY, WMGM and KISS, who increased play. 21 adds to date bring it on at #100.

China Crisis, "Arizona Sky", A&M
I'll confess I found the hook to be unbelievably milquetoast even after a couple of passes. And then that crystal clear CD did me in. It's mellow, but it works. New on WLAV, WBCN, WONE, WWZU..increased at KESI, WLIR, CFNY, and KZOQ, and top 5 requested at KBCO. Watch it build.

Hank Williams, Jr. "My Name is Bocephus", WB. .. And you questioned our front page mention last week? Hah!! Check this from WAAF's Russ Mottla, "A completely reactive AOR record. We're already getting phones on the record and it seems to be reacting as fast as anything we've added in the last six months." Also new on KQRS and WKLS, two of the tougher adds on the circuit. And wait til MTV hammers that Van Halen video, folks.

Pseudo Echo, "Living in a Dream", RCA. Now here's a reaction record if we ever heard one. The past four weeks have brought in raves to spare and a 40 station add total, so expect to see those phones fill in shortly. This week WLIR, WDHA, WWZU, KRIX and KSTM up play, with WFYV increasing play. Key calls to date: WAAF, WHJY, WCCC, KZEL, KLPX, WPLR, WNEW, WDHA, KROQ, KNCN, KGB and WLIR. Underlined 86-80.

Colin Hay, "Hold Me", Col. The Loop leads the way with an increase into heavy, with additional ups from KSQY, KSTM and KZOQ. 11 adds takes the total now playing to 72, with CHOM, KTAO, WIOQ and WPLR also heavy. The Track pulls up 56-50, being the Lp in at #41.

Genesis, "Tonight", Atlantic. And who arranged that Michelob commercial into the live Genesis cutaway from Cleveland on the American Music Awards the other night, eh? Judy? Danny? Vince? Come on, fess up. Meanwhile, back on the radio, the record sprints 24-17, with 10 adds, 12 ups, 9 powers, 35 heavies, and 5 top 5 mentions.

Bruce Hornsby, "Mandolin Rain", RCA. 122 now playing and 30 increases is basically all you need to know here. 15 powers and 67 heavies make for a 13-6 HH underline, turning the album around 5-4. Currently top 5 at KYYS, WPYX, KZRR, WLNZ, WZYC and WBYR.

Iggy Pop, "Real Wild Child", A&M. Iggy's ongoing add count climbs to 88, with WIYY, WPYX, WRXL AND WPDH several new notables... Increases at WBCN, KLOS and KGB are further proof that the second track is a minute away from breaking big. Underlined 42-39. Be sure to catch him on the Pretenders tour, too.

Boston, "Can't Cha Say", MCA. You'll probably power 'em all before it's all over. This report has "Cha" climbing 20-15, with 101 to date, 10 increases, 6 powers and 47 heavies. Top 5 phones: WMGM, WRCN, KICT, KRQU, WZZO, WIMZ and WHEB.

REO Speedwagon, "That Ain't Love", Epic. Your basic electric start hit machine blows in with a 19-13 underline and sure-fire top 10 play a given next week. 5 list power, 29 say heavy, and 15 move up in play. Now on 121 reporting stations, with WKLS, KOME and WAOR leading in requests.

Tina Turner, "What You Get Is What you See", Capitol. Now if Eric Clapton can take the time to lug that Strat down to the studio, and crank out that patented liquid riffs (when he'd probably rather be hanging out over at Gerrity's place or playing tennis with Puvogel) the leeeeeeast you guys could do is LISTEN to this 12". Image Schimmagine. This number rocks, as you'll find with one pass. It is not, repeat, not pop glitz. New on 12.

Triumph, "Just One Night", MCA. Wouldn't it be a hoot if a ballad finally put these troopers over the top? More than a few we spoke with this week expressed that sentiment, and you've got to respect this track's made for TV remix--thick as a brick. Already on WHJY, KLPX, KISS, KOME, KGB, KSHE and a dozen more, debut #88.

KBC, "America", Arista. It sure looks poised for paydirt to us. KLOS, WDIZ, WBCN, KLPX, KRIX and KZEL headline the week's 16 increases, and adds at WDVE and KTAO moves the total playing to 119. Note the one position push into the top 10.

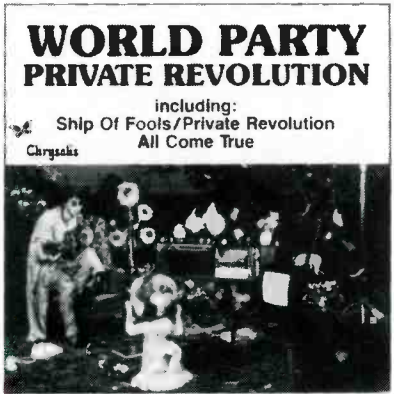

World Party, "Ship of Fools", Chrysalis. Even though we're looking at a 12-8 crusher song move, our printout shows play at only 129 of 181 reporting stations. Get with it!! Everybody should be hot and getting hotter here. Take a hint from 14 powers, 23 increases, and 17--count 'em--17 top 5 mentions. Be a shame if they had a platinum party and you missed the call.

Rob Jungklas, "Make It Mean Something", Manhattan. 91 current reports on the third track from an album out close to how many months? If it's gone this far, it'd be downright cruel not to see it through. The adds continue, with WKLC, WKQQ, KTYD, KEZE and WIBA, as WMGM, KGB, KKDJ, WBCN, WONE and WAQX increase. Underlined 37-33.

Something's happening. . .

KZEW CHANGES

Eight-year KZEW/Dallas vet **John Rody** is out. Originally hired as a newsman and partnered with **John LaBella** (no typo—DeBella says "I get his mail, he gets mine"), Rody had been the morning host at the Zoo since LaBella went to CHR WTIC/Hartford last year.

Dallas radio fixture and honest-to-God attorney **Ken Rundle** is filling in.

PD **Dennis Anderson** tells NOISE, "I've hired him on as a 'staff announcer'. Now just what daypart he winds up in, I don't know. But he's such a great utility player, he's doing mornings."

Anderson is looking for a morning show. "There are six high profile morning shows in this market and everything I read tells me that 'shock' isn't cutting it. I want an adult approach to AOR. I want someone who is in touch with the world, and can keep it topical without the buttons, buzzers and bells."

Anderson notes that most of the syndicated programming on the weekends has been yanked, but **Mike Harrison's** "Rock Connection" has been added. The difference between the station's sound now and a month ago? "It's much more familiar. Nowhere near as broad as it was."

His tower was hit by a military jet ten days ago (KZEW is at 60% power on AC KVIL's stick), and Anderson hopes to be back at full power next week.

New owners Anchor are looking for new digs for KZEW and AM KRQX. "I'm sure it'll be palatial," cracks Dennis. "Like Surf City. Two girls for every boy."

DIGITALIS

According to Reuters, Japanese companies are likely to ship digital audio tape (DAT) players, a rival to CD technology, to the US market for sale in March or April.

First DATSUN. And now, DAT without the SUN.

The record industry is less than crazy about this. Labels see a bootleg nightmare complete with a guy in a hockey mask with a meat cleaver. No dead teenagers in this movie—just lots of 'em knocking out knock-offs.

"Here we go again," says one label VP/Promotion, alluding to past industry efforts to curb the transfer of music without compensation. "This new technology is not going to be a good thing for us."

Cliff Schultz, Natl. Sales Dir. EMI adds, "They've still got the record button on those machines, and everyone'll be able to record CD's to DAT. The problem is everybody's living room is starting to look like a stereo store. Or the Power Station."

Labels fear consumers will use digital tapes and players to pirate CD's. The industry has pushed hard for the insertion of computer chips that would make copying recordings difficult.

BUT WAIT! THERE'S MORE!

Manufacturers seem unlikely to comply with record industry wishes. The capability to record would be one of the DAT's big selling points.

NOW HOW MUCH WOULD YOU PAY?!

CD makers are also worried that digital cassettes will cut into their sales just as they're starting to show a profit. Over 3 million CD players were sold in the US since their introduction in 1983. And according to industry estimates, compact discs bring in more revenue than do album sales.

So what prompts these people to make these machines? SATAN? No, church lady, that's not it.

The need to introduce an attractive new consumer-electronics product to boost a slumping market is

pushing the Japanese to go ahead with marketing despite continued opposition.

"They're being very careful about this, because the feud with software makers is still very much in existence," said **Darrel Whitten**, a Bache Securities analyst.

BARRY-ED ALIVE IN SONG

Sloopy

With the departure of Chicago Elektra guy **Barry Lyons** to LA for the IRS VP/Promo gig, the mob at WXRT came up with this (sung to the tune of "Sloop John B", which they've retitled "Sloop John JD"):

Sung by **Norm Winer** and **Lin Brehmer**

He came in from Buffalo
We thought he was big schmoe
But then he turned into
A Cubbies fan
Drinking all day
Smoking some Js
We feel so broke up
Barry's gone to LA

So holst up the Jack Daniel's
Slap on a pair of sandals
Call for tracking
In every market you know
Buy some new shades
Maybe get laid
We feel so broke up
The doctor's gone to LA

continued

Pro wrestling won't be the same
 Metallica's changing their name
 The future for Timbuk 3
 Was never so bright
 We'll miss his Cats
 Not to mention his hats
 We feel so broke up
 Barry's gone to LA

Chorus

Winer and Brehmer are handled by Jerry Weintraub and booked by Premier. Look for the tour jacket soon.

HARRIS TO WEBN

What times we live in. Oral Roberts may die before the end of March and a musically conservative monolith has hired a guy from a purple hair station to its programming department.

Matthew Harris, PD of Alternative WOXY/Oxford, is the new Program Co-ordinator at Jacor's WEBN/Cincinnati. We can hardly wait for those Dead Brains and Skinny Puppy adds.

And maybe there'll be a Richard Simmons, Jr. one of these days, too.

Matt will be PD Tom Owens' assistant and a general liaison between programming and the rest of the operation.

Harris interviewed seven months ago and just kept after them. Maybe he once worked at McDonald's and read that perseverance rap.

"I've been listening to WEBN since I was in the sixth grade," Harris waxes down memory lane, "and the creative way in which they broadcast was something I always wanted to be a part of. In my travels, no other station seemed to match up."

Harris starts Monday (2/2). John Jesser will be handling the music at WOXY until a PD is named.

KEENE EYE FOR OPPORTUNITY

WOOJ/Ft. Myers Asst. PD Charlie Keene is jumping the fence and is on his way to rival WRXK.

Charlie looked both ways both before crossing the street, indicating that he was under no non-compete as he was at the end of his contract.

"The Beasley folks and I had been talking off and on for months now, and when the opportunity to jump came along, I took it. I'll be doing midday," Keene notes, adding that he'll just jock at WRXK, not be MD or APD.

Keene had been at WOOJ for 3 1/2 years. He is working his notice out on the air and his last day is Feb. 6. WRXK changed from AC to AOR last November under new PD Greg Mull.

ADVENTURE IN MOVING

Big morning opportunities exist at WIOQ/Phila. and KLBJ/Austin. David Dye and Helen Leicht are after someone warm, real and one-to-one. T&R to them at WIOQ, 2 Bala Plaza, Philadelphia, Pa. 19004. In Austin, Clark Ryan is open to just about any idea you have on tape. KLBJ, 910 Brazos, Austin, Tx. 78701.

Brandon Scott moves from WGTR/Miami midday to sales. Get used to those knee pads, buddy.

The new PD at WZYC, Beaufort is JT Stevens from WZZR/Richmond.

Middays at WZZO/Allentown now handled by Kimberly Douglas.

It's been some week. And as we sit here waiting for the National Guard helicopter to drop food to us, we hope those of you who aren't buried alive in drifts will send photos of promotions or your favorite sled dog to us at 4 Trading Post, Medford Lakes, NJ 08055. Lifelike black and white would be nice.

Don't eat the yellow snow.

It's with sorrow we note the passing of Bob Lewis aka Bob A Lou, New York radio personality and voice-over star. Bob's last radio job was in the 70s at WNEW-FM. You heard him on Showtime, Downy, Colgate, IBM, Ford, Certs and many others. He will be missed.

STEVE SUTTON

Rachel Perkoff and Cindy Tollin are living in the lap of luxury these days. Muscial chairs in the Global Satellite studios are Spencer Davis and John Kay. Host Bob Coburn said got short changed.

SINGLE PICKS

BIG DISH "SLIDE" (WB) A surprise of the week—surprisingly mainstream that is. "Slide" is a one-listen close for the mellow-minded. They've brought romance back to rock with song ingredients that make this subtle smash one to grab early.

THE MISSION U.K. "WASTELAND" (POLYGRAM) Just what import oriented programmers knew all along, as evidenced by an early chart showing—one half of the Sisters reformed are well on their way to an Album Radio party. Don't be fooled by the slow start, it breaks out of the grey via Wayne Hussey's moody, intense vocals and the band's shady rhythm tactics.

VENETIANS "SO MUCH FOR LOVE" (CHRYSALIS) The Venetians made a brief appearance in '86 with the "Calling In The Lions" Lp, and the reappearance of this single is well in coming. It's dance appeal is a given, but a guitar-smart hook sounds better the second time around.

PETER HIMMELMAN "11TH CONFESSION" (ISLAND) This track may be the sleeper to wake the masses for Peter's impressive solo project. Those who knew him from Sussman Lawrence, (a band from Minneapolis who released some fine material last year), will find versatility to be his strength—and here's a soft, mid-tempo encounter you'll want to make room for.

Also New....THE CREEPERS "MISERABLE SINNERS" (LAST TIME AROUND) After several listens, I realized that Marc Riley has a strong sense of using music that makes one want to hear more of his teasingly clever songs. You'll find more than one favorite right off, but "Honest Lies" is outstanding for its simple, sad but brilliant theme.... More manic is "Chocolate Box", (dark humor), and "Baby's On Fire" is the buzz track on the Lp—lend an ear. This is truly the rise of Marc Riley, not the Fall.

CHARTSTARS

LOS LOBOS "BY THE LIGHT OF THE MOON" (SLASH/WB) Those Lobos are through the roof and on to higher air-planes with an album that has programmers adding, increasing and praising it all the way to 1* this week. On the HH front, it kicks in a 25-20* on "Shakin'" with album airplay honors moving it to 12* Impact. We've got 143 reports on the single, and it's far from finished building yet....

CONCRETE BLONDE (I.R.S.) Yes, it's "True" that helped the mega-move to 24* this issue. With the total playing number at a healthy 46 stations, you can rest assured that next week's progress will be a repeat performance.... New at CFOX, KKBR, KORX, WHCN, WHJY, WONE, CHEZ, KFMQ, WBCN and more.

PSYCHEDELIC FURS "HEARTBREAK BEAT" (COLUMBIA) Number two status on the tracks chart (first week) is no small feat. It's been working for Doug Clifton, KBCO, "since last year", and we've experienced an early break at radio since the domestic release last week.... Joe Blood, KEZO, feels "This is the one that will break them wide open".... Dave Lange, WLAV, says "This is their most accessible record yet." Dig in the the 10* debut, with 48 adds this week!

STRANGLERS "DREAMTIME" (EPIC)
"They've crossed that line. After three years of success, The Stranglers are superstars here" says John Hayes, KTCL.... "Always The Sun" shows a 34 station count including KJET, KUSF, KSTM, KABL, KEYX, KTAO, KTCL, WFNX, WLUR, WOXY, WRAS, KORX, WMRV and more. Programming prejudice aside, this band is more than worthy for mass audiences. It's time to get it on your list.

JULIAN COPE "WORLD SHUT YOUR MOUTH" (ISLAND) What can you say that 110 adds to date doesn't? Julian's stats pack a punch with #1 track position to boot. As it kicks butt en masse, think back to the first time you heard it. And smile.

HIPSWAY "THE HONEYTHIEF" (COLUMBIA)
30 stations to date are highlighted by KRQU, WLIR, WXXP, KABL, KEYX, KORX, KJET, KTCL, KZEL, WMDK, KBCO, WHFS, WUOG 'n more on this smoker that will warm cold bodies this winter. In this doesn't make 'em dance, they're stiff. Another nice move to 17* this issue.

B.A.D. "NO. 10, UPPING ST" (COLUMBIA)
Moving to 6* this week, we find ongoing play at WLIR, KABL, KEYX, KJET, KFMH, WXXP, WFNX, WMOD, WBCN, WMDK, WTOS, WOXY, KTAO and more on "V Thirteen" (20+ to date).... John Beryeni, WMOD, fesses "It's doing great. The public likes it and it will be in heavy for a while."

THE THE "INFECTED" (EPIC) The steady progress of this Lp is a victory at AOR. Matt Johnson's approach is fresh, unique protest music of the 80's that's relevant to all listeners.... And it's happening at WFNX where Bruce McDonald reports "Increasing retail with #5 Most Requested reports too".... Jonathan Rosen, KEYX, says, "The timing is right for this record. We're getting feedback on it already." "Infected" has spread to 19 playlists including, KVRE, WBCN, KSTM, WTOS, WEQX, WHFS, KJET, CFNY, WXXP, WUOG and WFNX.

CHINA CRISIS "ARIZONA SKY" (A&M) Nine more adds this week push the total to 32 On, including WRAS, KTAO, WXXP, KATP, KRQU, KSTM, WEQX, WFNX, WTOS, KBCO (Requests), WVVV and KTCL. Dave Lange, WLAV says "We were pleased with the last Lp and will ride this one out too".... How 'bout CC on CD?

HUSKER DU "WAREHOUSE: SONGS AND STORIES" (WB) A #32 debut this week is good news thanks to the go ahead from KUSF, WFNX, WVVV, KEYX, WBCN, WHTG, WHFS, WTOS, WMOD, KJET, KORX, WEQX, WUOG, KABL and more. "Could You Be The One" leads on the album for Chartdome, but watch the tracks come in when the listening is done. Mark Krob, WVVV, says, "EVERYONE should listen to this record, no doubt about it".... Tell 'yer neighbor.

THREE O'CLOCK "EVER AFTER" (I.R.S.) The move to 48* is highlighted by play at WOXY, WGTU, WMDK (Increased), WUOG, WHTG, KABL, WHFS, KKBR, WTOS, WRAS, KTCL and more. Early feedback includes good response for "Suzle's On The Ball Now" (remix)....

BOB GELDOF "DEEP IN THE HEART OF..." (ATLANTIC) As the switch to "Love Like A Rocket" kicks in we see airplay at KKBR, KROQ, KVRE, WZZP, KBCO, KFMH, KILO, KOZZ, KTAO, KSJO, WMRV, WBCN, and KORX, where Paul Cannell observes, "'Love Like A Rocket' is performing well for us. It's a great song even with out Bob's name behind it. It stands on its own merit." Now at 15*.

BEASTIE BOYS "LICENSED TO ILL" (DEF JAM/COLUMBIA) The request monsters are here to play and how can you resist? 35 stations are on "Fight" with Top 5 phone mentions from WKLC, WNGZ, KBAT, KZOQ, WHCN, WHJY, WNEW and KJOT. Here's the word from Don Berns, at CFNY, "If you are in any way responsive to your teenage audience, you should give them the 'Right To Party'. You'll find it jams the request lines".... One of the Boys' earlier twelves has resurfaced on import—"Rock Hard". One to score.

SPOONS "BRIDGES OVER BORDERS" (POLYGRAM) Happening—now at 57 stations highlighted by WZZO, KABL, KMET, KTCL, WEQX, WHFS, WBRU, KSTM KEZOOP, WLIR, KEYX, KKBR, KBCO, WFNX, WMOD and others. Best act now before you're left in dancerock dust.... As Alison Stewart, WBRU says, "That new Spoons tune has taken up residence in my head. It's addicting."

Bubbling Under....Peter Himmelman "This Father's Day" (Island).... Rob Jungklas "Closer To The Flame" (Manhattan).... Crowded House (Capitol)

MUSIC NEWS compiled by **MIKE COOPER/MUSIC NOW!**, P.O. Box 4111, Atlanta, GA 30302-4111.

STEVEN VAN ZANDT has presented the President of the African National Congress with a check for \$110,000 in proceeds from the "Sun City" project. The money will be used for ANC social programs, and not for arms, Van Zandt says. A spokeswoman says \$40,000 was presented to the ANC in two checks last year. Artists United Against Apartheid pledged one-third of the profits to the ANC, one-third to groups working for blacks in South Africa, and one-third to U.S. groups working against apartheid.

ROBBIE NEVIL says a song he's written may appear on Michael Jackson's next album.

Seven people were injured at a **DAVID LEE ROTH** show in Augusta, Maine, when a gate fell from the balcony of the Augusta Civic Center. Officials say that someone had removed the gate from its brackets and it fell on the crowd below, striking seven people including a 69-year-old woman who was hospitalized, and a 17-year-old boy who suffered a broken arm.

STEVE WINWOOD is honeymooning "somewhere in the Caribbean" with his new wife, 27-year-old Eugenia Crafton of Nashville. The two were married in a small private ceremony at a New York church. Winwood, by the way, is the first British artist to be nominated for six Grammy awards.

STEVIE WONDER says he won't play in Arizona, until the state recognizes the Martin Luther King, Jr., holiday. Arizona's new governor rescinded the state's holiday. "It's amazing to know that a governor or a group of certain people can come up with a so-called reason why they should fail to acknowledge Dr. Martin Luther King, Jr.," Wonder said in Wilberforce, Ohio. "If we don't crush the negativity now, it will only grow," Wonder adds. "We know that we have to say no."

Nick Lowe is producing a 4-track EP by the Boston band **BARRENCE WHITFIELD & THE SAVAGES**.

DEEP PURPLE are just beginning a world tour in Europe that is expected to take them to the United States in April. The band's new album, "The House Of Blue Light", was produced by bass player Roger Glover.

BONNIE RAITT will release a 15-song compact disc taken from three concerts scheduled for the Austin Opry House this April. The CD should be out in the summer, when Raitt plans a concert tour.

The **MARSHALL TUCKER BAND** is back on the road with four new members from the band's hometown of Spartanburg, South Carolina. "We're starting all over again," says singer Doug Gray, who is continuing the band with sax & flute player Jerry Eubanks. "The other guys realized we were going to have to start playing clubs again, and they couldn't handle it," Gray says. The new members of the band are younger, he adds, "and they all grew up on the Marshall Tucker Band. So you'll hear the resemblance, you'll hear the hot licks. And we can't get away from the country flavor. We're determined to make this band hot again."

HOWARD JONES and his manager are opening a vegetarian restaurant in New York's East Village. Jones put \$150,000 of his own money into the "Nowhere" restaurant, which should be open in late March or early April. Jones, who has been a vegetarian for 14 years, says he's collected recipes from around the world for use at the eating establishment. He says he hopes to open a chain of fast-food vegetarian restaurants in the U.S. with help from the Pretenders' Chrissie Hynde.

FLEETWOOD MAC's long-awaited reunion album has finally been completed. The Lp should be released worldwide in the next couple of months. Mick Fleetwood has said the album has all the ingredients of "Rumors".

CROSBY, STILLS & NASH plan to enter a recording studio in mid-February to record a new album. Graham Nash says he expects Neil Young to play on about half of the album's tracks, and he hopes Young will tour with the group this summer. Crosby, meanwhile, is about to go on a vigorous exercise program, according to road manager Mac Holbert. "He's already lost 20 pounds, and we plan on having him lose 40 to 50 more," Holbert says.

THE CURE have agreed to discourage radio programmers from playing the "Killing An Arab" track from the "Standing On A Beach" album. As part of an agreement with the American-Arab Anti-Discrimination Committee, future copies of the Lp will carry a sticker saying that the song "has absolutely no racist overtones whatsoever."

The February issue of "Spin" magazine reveals that Duran Duran's **NICK RHODES** met his wife at a party in Los Angeles. "I saw this pair of legs sticking out on the couch and wanted to see what was attached to the other end," Rhodes told the magazine. In the same article, **SIMON LE BON** reveals that he met his wife, Jasmine, on a blind date. "We liked each other immediately after finishing a bottle of scotch," LeBon says.

Harper & Row have purchased the rights to a collection of oil paintings and sketches by **RON WOOD**. They'll be published in a "coffee table book" this fall that will also include a 35,000-word autobiography by Wood. Wood is planning a spring tour in connection with his almost completed solo album.

MANDY SMITH, the teenage girl who attracted a great deal of attention in the British press for being the girlfriend of a much older Bill Wyman, has released a solo single called "Just Can't Wait". It's written by the team that has written hits for Mel & Kim, Bananarama and Dead Or Alive.

SADE is denying reports that she's being sued for \$10 million for allegedly stealing the song "Smooth Operator". Bruce Fitzsimmons reportedly claims Sade used a song he wrote eight years ago called "Cold Operator" without asking permission. A spokesman for Sade says the singer hasn't been served with any legal papers.

The **MARCH VIOLETS, FLESH FOR LULU** and **FURNITURE** will appear on the soundtrack to John Hughes' next film, "Some Kind Of Wonderful".

MUSIC NOW! CONTINUED

PHIL ALVIN rejoined the **BLASTERS** for a London concert, following the death of Hollywood Fats due to a heart attack in December.

MARGO BUCHANAN, who has sung backing vocals with Tina Turner, Dire Straits and the Pet Shop Boys, has signed a solo recording deal.

THE STYLE COUNCIL, who have a new album called "The Cost Of Loving" just being released, also have completed a new film called "Jerusalem". "It's a 33-minute almost documentary. It's got a storyline to it and a quite sketchy kind of acting to it. We're just trying to put some of our ideas across in a dramatic sense," Paul Weller says. "It is a lot easier for us doing a film because we had more or less total control over the film, we were involved in editing and the whole presentation.

David Foster is to produce at least one song for former Who lead singer **ROGER DALTRY**.

Albums from **NANA VASCONCELOS** and **COURTNEY PINE** will be the first releases on the new Antilles/New Directions label being introduced by Island Records. Vasconcelos' album was recorded between his tours with Don Cherry and Pat Metheny. Pine has performed with Art Blakey, Elvin Jones and Charlie Watts. Several other album releases are already planned.

GENE LOVES JEZEBEL are in the studio in England working on a new single, but they plan to come to the U.S. and record a new album in May, probably in Los Angeles.

THE SMITHS will soon have a sort of greatest hits album out, called "The World Won't Listen". The Lp includes 16 tracks, including "Panic", "Ask", and "Bigmouth Strikes Again". The album will also include the previously unreleased track, "You Just Haven't Earned It Yet, Baby", which was recorded last fall.

Prices of music videos are continuing to fall to record lows in England. Hour-long music videos are now carrying a list price of \$15, with shorter clip compilations and videos selling for less than \$10. In addition, there are plans to begin releasing video singles, with one or two cuts, for \$7 or so, about the price of a record album in the U.K. It's too early to tell if similar price drops can be expected in the U.S.

STEWART COPELAND is working on an opera for the San Francisco Opera Company.

Robin Millar, most notably Sade's producer, is putting together a new record label which should be in business by the spring. Millar, who heads the Power Plant Studios in Willesden, England, probably will call the label Scarlett Records, "my daughter's name and also an oblique reference to my political leanings." He says he already has two acts "brought to me by producers who felt they were far too good for record companies," but he declines to name them.

"Top Of The Pops" continues to wield a great deal of influence on record sales in England, and recent shows have had massive impact on the charts. Sales of the Genesis single, "Land Of Confusion", and the

album, "Invisible Touch", doubled after the band appeared on the program. And the Pretenders saw sales of their new album increase by 150 percent because of the group's TOTP appearance, bringing the Lp from the 30s in the chart to the top 15. Robbie Nevil, Iggy Pop and Paul Simon are other artists who have benefited recently from the program's Thursday night airing.

A new album from **PATTY SMYTH**, called "Never Enough", is slated for release in late February.

BILLY JOEL has been honored by the Congressional Arts Caucus for "his outstanding contribution to our cultural legacy." Joel received the award at a luncheon in Washington. The caucus is made up of almost 200 Congressional members who support the arts. Congressman Thomas Downey of New York called Joel "a model and inspiration to struggling young musicians."

The brother of **CLARENCE CLEMONS**, sax player for Bruce Springsteen, is also a musician. But, he's not as well known. That's because he's director of the 2nd Marine Division Band at Camp Lejeune, North Carolina. He's a captain in the U.S. Marine Corps, and has been a bandleader since August. "Clarence was so much bigger" in high school, **WILLIAM CLEMONS** says. "He was on the football team, and I was able to excel by playing in the band all the time." William says Clarence taught him how to play, but the two were never competitive.

And now, the latest music news LIVE FROM LONDON, courtesy of CFNY and our exclusive reporter, LEE CARTER. Lee can be heard on CFNY's "Sunday Music Magazine" program and on "Live From London" aired Wednesday evenings.

The British music industry trade, "Music Week", in their lead article this week sees the latest revolution in digital technology as The Compact Disc Video. The CDV will go on sale to the British public in the fall, in order to fully capitalize on the Christmas market. The manufacturing of it is a joint venture between Phillips and Du Pont. "Music Week" project the CDV as having an impact as great as the cassette tape; combining digital sound with Laser-vision quality pictures, which the top brass of the music biz were able to view for themselves at a special private reception in London this week. The two proposed formats of CDV will be Lp and single. The single will be a 5" disc, the same size as the current CD's, containing a video of six minutes and twenty minutes of music. The Lp will be a 12" disc with an album's worth of music with coordinated pictures. Of great significance, according to Maurice Oberstein, Chief Executive of Polygram Leisure U.K., is that the CDV single will retail for less than \$8, which he believes will at last pull in the teen market so far unscathed by the CD boom. But I wonder whether they, or the yuppies who've just invested in standard CD machines, will fork out the moola for new ones; the price of the machines is the only detail significantly missing from the analysis put forward so far.

No CDV's for **THE STYLE COUNCIL** yet, but they have nevertheless decided to release their latest album in a rather curious format, here in the U.K. Instead of the conventional Lp at 33, "The Cost Of Loving" will be released on two 12" at 45! The group

cite improving the quality of the music for this move. "The Cost..." will contain eight tracks, including the current single "It Didn't Matter".

Further details are coming in about International AIDS Day on 1st April. It is now known that the following have pledged their support: Peter Gabriel, Simple Minds, U2, The Pet Shop Boys, Alison Moyet, The Psychedelic Furs, The Communards, Holly Johnson, Paul Weller, The Blow Monkeys, Aswad and Swing Out Sister. However, a pledge of support does not necessarily mean a promise to perform and it also remains to be seen which of these artists will be playing the big Wembley show and which will be involved in the other, smaller concerts up and down the country during the same week.

LEVEL 42 are back. After funking away since 1981, no one was more surprised than they to suddenly become one of the hottest groups from L.A. to Montreal last year. They have a new single out on 2nd February called "Running In The Family" with an Lp to follow in March to coincide with a British tour.

When I interviewed **ANDY PARTRIDGE** of **XTC** for my CFNY Sunday show, he bluntly stated that he was unhappy with producer Todd Rundgren's editorial decisions for their last Lp, "Skylarking". Now the band have basically crammed all the songs that Todd didn't like onto the B-side of their latest 12", "The Meeting Place". The tracks all deal with violence: "Terrorism", "Let's Make A Den", "Find The Fox" and "The Troubles".

The Cult's **BILLY DUFFY** has apparently been auditioning to play on Mick Jagger's next Lp. Billy says, "Not everyone gets the chance to play five songs with Mick Jagger and Jeff Beck." To which, this week's "Melody Maker" quipped, "Frankly, not everyone would want the chance to play five songs with Mick Jagger and Jeff Beck!"

I asked **JULIAN COPE** this week whether he was expecting "World Shut Your Mouth" to pick up as much as it has in North America. "It has a certain crassness which I realize that the Americans could appreciate. My wife, being from New York, said, "Yeah, that's got a kind of bullishness about it that the Americans will like. It's a typical isolationist statement. Even if it's seen from the point of view of a big country perhaps telling everyone to get lost, I see it as telling everyone to get lost from my point of view, as a personal statement, but I can see how these lyrics get drawn up to a world level very easily." Julian also revealed to CFNY listeners and "The Hard Report" that his Lp is now completely recorded after six months and is to be called "Saint Julian". "We spent a lot of time getting it right. During "The Teardrop Explodes", you'd get these businessmen who would come in and do things like release the singles that the group didn't want to. After a while, I overreacted and did things like just leave tours and go home. Now if someone's messing me around, I just tell them and they stop." Cope's about to start his U.K. tour and, indeed, I hope to catch his show later this week. His unique space-hopper microphone technique is in good order (as seen in the "World..." video) and his new band seem super tight, judging by a recent live TV performance.

Also around town, **THE JESUS AND MARY CHAIN** made their return at The National Ballroom with their ever familiar chainsaw sound. They also performed a special session for John Peel's radio show. Little change in evidence with their new songs, although they are in their slower vein, a la "Just Like Honey".

FRANKIE are at the tail-end of their tour and whether Holly's leaving or not is becoming irrelevant as in truth, the group are going through their final death throes creatively. Not that they haven't tried real hard, but the adrenalin that pumped when "Relax" and "Two Tribes" smashed into the U.K. scene is just not there.

The film that **THE POGUES** went down to Spain to shoot is nearing release here. It's the third feature for director Alex Cox ("Repo Man", "Sid And Nancy") and is called "Straight To Hell". It's a spaghetti western spoof, loosely satirizing the classic films of Sergio Leone, which Cox shot in a miraculous three days on a minuscule budget of \$1.5 million. The plot takes place in a fictional town called Bianco and as well as The Pogues features Joe Strummer, Grace Jones, Elvis Costello, Dennis Hopper, Dick Rude, Courtney Love and Sy Richardson. Alex told "Sounds", "It's the story of this horrible town where the townspeople are worse than the outlaws. It's full of lynchings, gratuitous sadism, cannibalism, perversion and all kinds of good stuff!"... Meanwhile, The Pogues are in the process of rehearsing new material, without Cait, of course. Some tracks they've already cut are with their senior Irish idols, the veteran traditional folk group, The Dubliners. The cuts will appear on a forthcoming double Lp. But one of the tracks, "The Irish Rover", will be available as a single in February.

Kirk Brandon has re-formed a new version of his old group, **THE SPEAR OF DESTINY**. They're about to release a single and album and will be touring the U.K. in April. The single, with no release date yet, is called "Stranger In Our Town". The new line-up of Spear Of Destiny is Kirk, the guitarist Stevie B., Steve Barnacle on bass, Pete Barnacle on drums and Volker Jansenn on keyboards. The Lp comes out in April.

The plans for **WEA** in 1987 were outlined at their sales conference this week. Despite the decline of their star boy Howard Jones, **WEA U.K.** had their most successful year in 1986 and hoped to repeat it in 1987 through such acts as Hollywood Beyond, Matt Bianco, Echo And The Bunnymen, Fuzzbox, Nick Kamen and Red Box. In addition, **WEA** have promised to make more CD's available and to perform major marketing campaigns for Simply Red, Nick Kamen and Paul Simon.

IN BRIEF

The **HOUSEMARTINS** are on the brink of visiting North America. Says Norman Cook, "We'll probably be hounded by the moral majority - should be great!"... **SIMON LE BON** impersonates Al Jolson in the new Duran video for "Skin Trade"... Guess who **SHIRLEY** (from Pepsi & Shirley and ex-Wham fame) is talking about, "I remember the first time I took him out he was sweating so much, his T-shirt was completely wet. Luckily we were going down country lanes so there wasn't anything serious to hit. I told him to turn right, indicate and change gear. So he went straight for a bush. We were okay, but he

nearly ran over a horse!" Yes, of course, Shirley was talking about giving driving lessons to Andrew Ridgley.

NEW RELEASES

A band who've been getting a lot of hype here this week are The Christians, purely on the basis of their debut single, "FORGOTTEN TOWN". Their sound reminds me slightly of the L.A. band The Untouchables, but somehow with all the ska sparkle removed. Look out for The Christians on Island Records.... Blowing my mind at the moment is a single by a very promising young band called The Bible with "MAHALIA". Fifteen years ago, one of America's greatest gospel singers, Mahalia Jackson, died. And as further evidence of how deeply even the youngest British bands revere American black music, The Bible have written this absolutely beautiful tribute to her, which if it were not for the fact that it is on the independent Backs label I would otherwise predict a worldwide top ten hit. It will remind one a little in style of Nick Heyward's 1983 hit "WHISTLE DOWN THE WIND", but I think it's a lot more polished and moving than that.... The Smiths new single "SHOPLIFTERS OF THE WORLD UNITE" is now out. It's another slower and moodier song made extra special by Johnny Marr's extraordinary overlaid guitar work that genuinely adds a new dimension to The Smiths' sound. Unlike some of the last Lp's heavier cuts, it also contains a memorable hook that sinks in after a few plays. Unhesitatingly recommended for anyone who is spinning The Smiths at present.

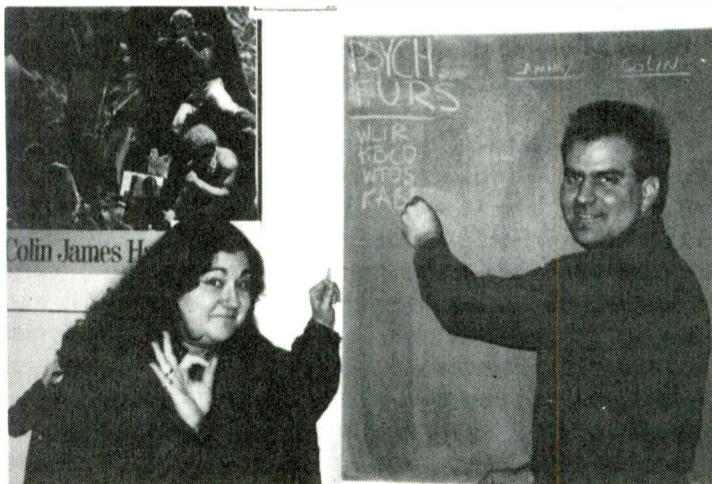

CHARTS

Knocking Europe off the top spot in the Hot Metal charts is the veteran Irish axeman Gary Moore with "OVER THE HILLS AND FAR AWAY". Strong contender in the top ten is Gary's old cohort Phil Lynnot with the memorial single "KINGS CALL" which is such a splendid record, I've been spinning it on my own show for the alternative station CFNY - it is a record that should cross all boundaries.... Also "FACE THE DAY" by Great White comes straight in at 5. "LIVE MAGIC" by Queen has bumped Kate Bush off the top of the CD chart, but Kate continues to reign the home-video and national Lp charts. "THE HOUSE OF BLUE LIGHT" by Deep Purple enters the Lp charts at 10.

TOP 40 SINGLES

New Entries: 40. "LOVE IS FOREVER" by Billy Ocean. 39. "BEHIND THE MASK" by Eric Clapton. 35. "YOU SEXY THING" by Hot Chocolate .

Climbers: Up 8 to 26 The successful soul sound of Vesta Williams with "ONCE BITTEN, TWICE SHY". Up 9 to 24, a pure piece of harmless bubblegum by Taffy, "I LOVE MY RADIO". Up 14 to 23 "IOU" by Freez. Re-released and only half as good. Up 12 to 16 "WALKING DOWN YOUR STREET" The Bangles. Their Lp "DIFFERENT LIGHT" finally entered the top 10 after 30 weeks on the chart. It made a similar breakthrough in the U.S. after 50 weeks on the chart! It's the biggest selling album ever in the U.K. by an American girl group and at 300,000 copies is quite an improvement on their previous Lp "ALL OVER THE PLACE" which peaked at number 86! Up 17 to 15 "DOWN TO EARTH" by Curiosity Killed The Cat. A lot of hype (Andy Warhol directed video, etc.) and precious little experience. This is hooky, satiric and smooth. Up 16 to 14 "THIS WHEEL'S ON FIRE" by Slouxsie And The Banshees. Rapidly emerging as their most commercially successful sound since 1983's "DEAR PRUDENCE", ironically also a cover. Recommended to ALT and CHR. Up 18 to 13 "RAT IN THE KITCHEN" by UB40. Fab! Up 17 to 12 "SOMETHING IN MY HOUSE" by Dead Or Alive. The formula still works well for Mr. Burns. Don't argue with success. Add it! Up 13 to 11 "WASTELAND" by The Mission. As stressed before, their audience here is a perfect crossover of gothic and metal. Saw them perform last week. Magic. Up 18 to 10 "REAL WILD CHILD" by Iggy Pop. Iggy Pop, Julian Cope, the wild and eccentric making a comeback? More of this please. Up 6 to 9 "IT DIDN'T MATTER" The Style Council. The standard Council sound that is obviously keeping their fans happy. After 4 weeks at number one Jackie Wilson is bumped by another dark horse "JACK YOUR BODY" the apparently extremely cool, but to me totally inane, latest funk sound from Steve "Silk" Hurley. Entire Lyric: "Jack your body. Ja-ja-ja-ja-jack your body." More musings next week. Cheerio.

Rad Messick, WDIZ, Orlando

To eliminate confusion and to set the record straight, WDIZ has signed Jeff Pollack Communications to consult the station, along with Burkhart/Abrams/Douglas and Elliot. We're looking to reach all time new high goals in 1987 and are trying to draw upon as many different resources as possible to reach our expectations and dominate the market. WDIZ has been here 16 years and keeps getting better every year. There is no reason why we shouldn't be the #1 station in town. We're pulling out all the stops in '87.

Russ Mottla, WAAF, Worcester

What a great month for new music! Let's start the list with a completely reactive AOR record, **Hank Williams, Jr. with Van Halen, "My Name Is Bocephus"**. We're already getting phones on the record and it seems to be reacting as fast as anything we've added in the last six months.... I also love the **Julian Cope, Pseudo Echo, and folks, Concrete Blonde's "Still In Hollywood"** is the reactive first track from that album.... WAAF is happy to present **Bruce Hornsby And The Range** for a Valentine's Day show at the legendary Orpheum Theater in Boston. They still buy their power from the subway--the sucker runs on DC.

Loris Lane, KFMX, Lubbock

I want to give big thanks to Frank Palombi from Capitol for helping us with the Iron Maiden show. Our backstage winners were ecstatic. Thanks, too, to Bruce Dickenson (better luck next time on the soccer field), Vinnie Vincent and Bobby Rock for dropping by the studio. Maiden puts on an incredible show that leaves you wild eyed and reeling. The special effects themselves are worth the ticket price.... There is a huge buzz on the phones about the new **Sammy Hagar** single.... Meanwhile, I'm still pushing for **Crowded House** and **Concrete Blonde**.

Brian Taylor, WAPL, APPLETON

With Rick on vacation, it's like old home week on the telephone. A pleasant change to again be hearing McGathy's jokes and Danny Buch's hockey sagas.... **Bon Jovi** continues to outdistance anything else on the air right now. After selling out a large concert date in two hours, Bon Jovi fever is running rampant.... Just when you thought MTV was on the skids, it's interesting to note the positive effect that it has had on a couple of new acts, particularly **Europe** and **World Party**. The retail and request numbers show that the added exposure has reinforced my playlist in the market, long before the CHR competition gets the big holler. Let's hope the Hip Clip of the week does the same for **Julian Cope**.... **Sammy Hagar's** vocals have become an AOR staple. That's why it's nice to have some fresh new vinyl to throw into the recipe.... The **Santana** did not strike me as being quite as obvious. However, certainly an artist of this caliber teaming up with another veteran like **Buddy Miles** deserves to be exposed.... Also on the new music front, we're giving a shot to **Brighton Rock**. Following on the heels of success from bands like **Cinderella** and **Bon Jovi**, Brighton Rock has the looks, the raw-edged sound, and, of course, the management to go a long way. Good luck to Steve and the band for a successful career.... And now that it's official, congrats and best of luck to the Good Doctor, Barry Lyons.

Erin Riley, WMMR, Philadelphia

January is always the time for fresh new sounds and there is a lot of them around. I like the **Julian Cope** record more every time I listen to it. It has a great rock and roll attitude.... Another guy with a great rock and roll attitude visited Philadelphia last week, **Iggy Pop**. I think Iggy summed it all up when he left the stage after his encore saying "Thanks for having me. I know I'm strange, but thanks for having me anyway." Iggy put on a killer show opening for the **Pretenders**. He still does some heavy gyrating, but at least now he does it with his clothes on. Truly inspiring.... Another band that's always a fave with me is the **Psychedelic Furs**. They toured through Philadelphia in between the recording and release of this new album, and we were treated to many of the new songs. I distinctly remember "Heartbreak Beat" among my favorites.... For those of you who want to play the **Bruce Willis** record but are at a loss for what to play, I strongly suggest "Jackpot". It's the song he did last night on the American Music Awards. It's got some terrific harp playing, and it's impossible to keep from dancing when you hear it.

Ron Diaz, WYNF, Tampa

The powerful, rhythmic sound of the **Spoons "Bridges Over Borders"** has me testifying. I like the way this song is structured. It builds to a wild frenzied hook, then follows through with great instrumental breaks.... "Shakin Shakin Shakes" sure is fun stuff. Nothing fancy, just sing along and dance your ass off to it. This type of music is happening in a big way and this is another fine example.... The new Stallone flick won't be the one everybody will be talking about at the Cannes Film Festival, but "Winner Takes It All", the soundtrack piece from Messrs. **Hagar and Van Halen**, is all right with me. Sammy on guitar, Eddie on bass, and **Giorgio Moroder** behind the knobs--what the funk is happening here?!!.... With the incredibly huge success of **Bon Jovi**, it's time for another track--"Never Say Goodbye". It's already generating calls. It's a great rock ballad from an album that looks like it's headed for ten mil.... **Gregg Allman's** no angel, but the boy sure can wail. I had a chance to listen to Gregg's new material a few months ago and was left with a very strong impression. And after hearing "Angel" again, I believe my first impression was right. This is quality stuff.

Christina, WPLR, New Haven

Sales on **Robert Cray, Georgia Satellites** and **Europe** have really kicked in.... **Colin Hay** is stealing the phones.... **Bob Geldof** and **Bon Jovi** must think alike. Instead of Tommy and Gina, it's Terry and Julie. "Love Like a Rocket" is a ...gosh...it's a really good song. Have you listened?.... And **Santana's "Veracruz"**? Love it!! Is this cool funk or what? Funny, though, it hasn't started raining.

Steve Becker, WKFM, Syracuse

First of all, love them Giants!! Syracuse went wild because of the connection with Joe Morris, who went to Syracuse University. Let's see if we can repeat for next year. Are we talking dynasty?.... I want to send out some kudos to **Diamond David Lee Roth**, along with **Paul Childs** and **Jeff Criden**, for his excellent promotion and concert. Dave can always have the key to the city in this town.... Musically, **Lou Gramm's "Midnight Blue"** is scorching on the airwaves. The guy may be from the next town over in Rochester, but the way this guy sings we'll consider him a native son, too.

Chris Emry, WIYY, Baltimore

"The Almighty came to me in a visit and said that if we didn't add Iggy Pop this week he would be calling A&M's J.B. Brenner home." Iggy's "Real Wild Child" is open because I was afraid that the home Mr. Big was referring to was Baltimore. We must respect our property values.... Steve Winwood's "Back In The High Life" should be retitled the Lp that wouldn't go away. Here we go with our fifth track.... "It's the Red Rocker meets Rocky". Sammy Hagar's new tune from the Stallone flick.... We're also going with Colin Hay. Honestly, we should have added that one last week. Movie music from Starship and Deep Purple's "Call Of The Wild" round out the list.

Jennifer Gipe, WKLC, Charlottesville

Pat Travers one night this week and Joan Jett later in the week were both FM105 Low Dough Shows. It's always fun to see bands up front and close and both of these have a lot of kick to them.... We cannot wait to take our busload of winners to see Genesis on the FM105 Micholob bus on the first in Lexington. A major good time.... I don't know what took me so long to realize what a great song "Ship Of Fools" is. I'd love to hear it on CD.... Lou Gramm's "Midnight Blue" is peachy keen. I'm looking forward to hearing Lou on ROCKLINE later this month.... Pray the ground hog does what he's supposed to do on the second. It's awful cold here in West Virginia.

Beth Kepple, WKLS, Atlanta

I'm in Pretenders heaven. She's gonna make you see there's nobody else here, no one like Chrissie. She's special and she's got to have some of your attention. Don't be an asshole, give it to her.... I listened to Sammy Hagar five times in a row, even though I had an hour's worth of music and five loads of laundry to do. It was T.F.G..... "Smoking Gun" is just the tip of the Robert Cray iceberg.... Hank Williams, Jr.: Just what is this "Bocephus" deal anyway? Couldn't his daddy pronounce the name "Hank"?

Virgil Thompson, WIXV, Savannah

It sounded like Humble Pie's "I Don't Need No Doctor" the first time I heard it. That's why Stevie Ray Vaughan's "Willie The Wimp" should work very well here.... Just finished a very successful Boston weekend. Thanks to Don Miller and Jack Isquith at Epic and MCA's Michael Steele for the product.... We're Tesla believers. "Modern Day Cowboy" is the most requested tune and that makes it the Welder of The Week on Metal Shop three weeks in a row. Relating the story behind the band's name makes us sound so damn cool.

Bird, WXXP, Pittsburgh

After floating around as an import, the Psychedelic Furs "Heartbreak Beat" is now domestic--PLAY IT!... I've been listening to the new Rave Ups 12" for some time now. I'm convinced these guys have potential. Their first Lp was somehow passed up, so we've added "Positively Lost Me" as well as the new track.... The Kinks single "Lost And Found" is going to be a classic so play it now.... What can I say about the new Joan Jett song? Don't tell my fiancée, but I think I'm in love.... Special thanks to Deb Brady, our afternoon drive time jock for all her help with the music. She's been great.... The Human League will be kicking off their American tour right here in Pittsburgh. We're very excited to see Phil and the girls.

Dave Lange, WLAV, Grand Rapids

Aris is still in shock over Europe. I mean the trip, Harvey! The band's doing pretty good, too, and we do want to add our thanks to everyone at the convention. It was good to see all in such good spirits.... Jampacked couple of weeks with great tunes out there. This week finds an obvious winner with Sammy Hagar.... Another cut from Paul Simon's great comeback album. I feel we're all ignoring this record. C'mon guys! It's been nominated for a Grammy!!.... I'm sure the whole world is changing over to Deep's "Call Of The Wild".... We were on the last China Crisis record and we're very pleased with its sound, so we're going to ride this one out, too.... Psychedelic Furs may have their most accessible record yet with "Heartbreak Beat" and I bet this album has a lot of depth.... I can't believe everyone's blowing this Crowded House record. Top 40 is going to play this record before AOR in 70% of the country and it's a great song.... Robert Cray has been aiming at hot rotation for 3-4 weeks and he finally gets there.... Real good early reaction to the REO single.... And if you've got a jazz show make sure you check out the Passport record.

Cathy Down, WLNZ, Lansing

I've got to hand it to prime time television the last couple of days. They're becoming the great educators of our time. First on Sunday, we had Super Bowl XXI. Now here's a program that you not only got to see a great football game (way to go Giants!) but you got a chance to catch the special commercials made just for the Super Bowl that cost over a million dollars a minute to air. Quality commercials like Clint Eastwood golfing or the brother and sister of the two competing head coaches talking about insurance. But as ridiculous as they may be, they still have the value of entertainment, whatever that is.... Then on Monday, we got the pleasure of seeing the 14th Annual American Music Awards. Now this show, you don't just watch to see who won. You watch to see the latest hairstyles, fashions, dances and catch up on the latest lingo. When I was watching the awards a friend, younger than I, called a guy "Gweebee". Now I know it's hip to be square, but is it hip to be gweebee?... So after watching these two entertaining but very educating shows, I gathered all of the info and it became a personal research tool. Kind of like when you call the record stores weekly to check out what is and what isn't selling. It's a pain in the butt, but the results really do help and you don't live and die by the results any more than you live and die by the phones. Although, how many times in comments do you read a record is getting "great phones"? I guess we would call this info our professional research tool. Take, for instance, Cinderella and Steve Winwood. Our professional research tool shows that both are registering Top 5 in sales and phones. So we be blind, deaf and dumb not to increase the rotation at least for a little while anyways. Then we place the rest of the data in our professional research tool as well as battle it out in our weekly music meeting and when the dust clears out pops the Igsters revival, Hagar, Ben Orr, Santana, The Psychedelic Furs, Deep Purple's latest, much better than "Bad Attitude" I must add, and Nikki Squire's Esquire. The end result is a lesson well learned and A+ for music adds and a shiny gold star for the day.

Doug Clifton, KBCO, Boulder/Denver

Colin Hay's "Hold Me" has moved into power. We'll back up the single with "Can I Hold You". We also like "Looking For Jack" for future use. This Lp washes out any bad taste left from the last **Men At Work** Lp.... The **Psychedelic Furs** "Heartbreak" import has been working for us since last year. Good to finally see the domestic release. How about those imports? I like their beer; I like their music.... Impressed with the new **C.S. Angels** Lp. "Cutting Edge" is the song to start with. After **Lyle Lovett's** performance with **Bonnie Raitt** last week, we received enough feedback from our listeners to give him a shot this week.... Hottest phones **Iggy Pop** and hottest retail **Bruce Hornsby**.

Ron Garrett, KDJQ, Sacramento

I'm stoked! **Carlos Santana** is back and, from the sounds of "Veracruz", more inspired than ever. I love the man. His debut album motivated me to buy a set of congas and timbales. I knew I'd never play guitar like that. "Veracruz" has crossover written all over it. Let's take the lead with our AOR stance. "Veracruz" with its thick bass line laying down the foundation for layer upon layer of superb music. **Buddy "Yes, I've had the blues!" Miles'** silky smooth vocals, sharp guitar licks from Carlos, crisp and deadly accurate. That's got to be **Norton Buffalo** blowing the harmonica and, of course, the Latin percussion trademark of Santana. There's nothing else like it on the radio. It's fresh, baby! This record gets me going. "Veracruz" sets the mood so well I got suntanned listening to it. I had to kick sand out of my shoes. Book some room for this mother, I have the feeling this will be Santana's biggest in years.... Don't let the cover fool you. **Waysted's** "Heaven" is an intelligent 18-34 appeal record. Listen to it. Take a lead and consider this one. It's as safe as **REO** and hip as **UFO**.... Are you sure that's not **Steve Stevens** playing guitar on **Eric Clapton's** "Miss You"? Eric must have taken some fun vitamins or something. He's certainly having fun playing his guitar again. Get fresh, fun seekers.... And remember to return your phone calls. Your poor record reps have a job to do, too, you know.

Dede "Vanna" Whiteside, MTM Records, 615-242-1931

Yowser, while the east coast and south is suffering from the modern yuppies' version of a drug habit "a blizzard", lovely California has 80 degree weather. Thanks a lot to all my former buddies out there who reminded me of the fact this week. My poor little California car is covered in snow and ice, but this place is great. The rock scene in Nashville is not to be believed. A look at the local ratings show **WKDF** with the #1 spot in pursuit of warmer weather.... And towards that effort, **IN Pursuit's** new video "Only For You" was added at **MTV**, **Night Tracks**, and 17 other video outlets. Cassettes are on the way for y'all's cars along with something for your taste buds and **Vodka Martinis**. (Call **Dwight Douglas** for the recipe.) "Only For You", "Thin Line" and "Standing In Your Shadow" are emerging as favorites with AOR. Special thanks to early believers: **WKDF**, **KZEL**, **WONE**, **WEQX**, **KRIX**, **KESI**, **KRZQ**, **KBLE**, **KATP**, **WNCS**, **KRQU**, **WRAS**, **WTOS**, **KLWD**, **KEYX**, **KORX**, and **WNDY**. Be looking for a call from myself or our national associate director, **Scott Borchetta**, soon.... Keep warm out there. Love, Vanna.

Jack Anthony, WKWQ, Columbia

Lots of stuff happening at **K95ROCK**. First of all, they're pouring concrete this week for the new 500 foot "tower of power" which will blow us all over the midlands with a nice, clean, crispy signal. It's been a long wait but well worth the trouble. (Hear that, Mr. D.).... Secondly, that the preliminaries are out. Rumor has it that we did pretty well. (Nay sayers, take note.).... Enough gloating, on to the complaining. Why is it that certain large, herein unnamed, record companies still aren't servicing us? We aren't getting anything from some companies who have substantial current airplay on our station. Geez, I might have to send **Mike Scott**, our evening guy, after you. You wouldn't want that now, would you.... Some noteworthy folks have been good to us: **Linda** at **CBS**, **John** at **Island**, some unknown soul at **Warner Brothers**, thanks!.... The music. **Concrete Blonde** hits the pavement with a vengeance. **Johnette Napolitano** elicits many comparisons. I've heard anywhere from **Chrissie Hynde** to **Cher**. All I know is it's already getting hot phones (my favorite biz expression).... Other new favorites: **Pseudo Echo**, **Shriekback**, **Psychedelic Furs** are great. If these bands don't achieve superstar status in the late 80's, there's no justice.... **Yngwie Malmsteen** gets mixed yet fervent response; lots of requests.... And finally, here's a good spicer for those sagging lights, **Rave Ups**. Both "These Wishes" and "Big River" got good response.... Until next time.

Tom Scheppke, KISS, San Antonio

The Hagar is excellent. Sounds like **Van Halen** meets "Miami Vice". It's mass appeal, but it rocks. It has that "Miami Vice"/**Jan Hammer** sound. **Stubbs** and **Crockett** would be proud.

LUXURIOUS.

Our January thaw this year came in the form of Tesla. Even though it lasted only 4:30 minutes, there is still a smokin' crater downtown where the band opened up for David Lee Roth. If this show is headed your way, get there early. Tesla's songs, which were good before the show, are outstanding now.... "Smoking Gun" has proven such a good song for us, we're backing it up with "Guess".... Even if you don't have an attitude problem, "Call Of The Wild" is the tune on the Purple record.... Lou Gramm's "Midnight Blue" is one of those rare songs.

Pam Brooks, WPDH, Poughkeepsie

Is there no stopping "Back In The High Life"? No way, Steve, you can write the rent check and lay back and smile. We've now added 6 out of 8 tracks on this Lp and all have found their way into heavy and power rotation. Are our listeners bored? Hell, no. Sales and phones are tip top. I've always been a huge fan of Steve's lyrics, music and overall sound so it's especially gratifying for me to see him capturing a whole new and larger audience. Like the man says-- if you wait for it, the finer things keep shining through.... I'm happy to report we, too, are giving the nod to Concrete Blonde and "True" this week. Johnette has a truly refreshing voice and approach, but besides that I just really enjoy this song. I found myself singing along after the first spin. It has the kind of quality about it that makes the tune stay with you. Give it a listen and I'm sure you'll be pleasantly surprised. Maybe even motivated to add it.... Still performing very well for us: Til Tuesday "Coming Up Close", getting strong enough calls to spend five weeks on our Top 12 at 12, the last three of them being in the top 5.... Also gaining strength in both calls and sales is KBC's "America". Buoyed by both the video and our listeners' growing awareness of what is happening around them. "America" is an ode to what is and what should never be. Let's bring this one 'cause it's too timely to let slip by.

Bob Welch, WQBK, Albany

For the past two months, Don Dixon's "Praying Mantis" has been our most requested song. It's nice that people are calling and asking us if we're the station that plays "Praying Mantis". So take heed, don't play it you guys. It's great having a market exclusive.... About the same goes for Crowded House. Looks like AOR's going to get beat on this one. Too bad, it's a great song with great hooks.

Ray Gmeiner, Elektra, 213-205-7433

Breaking new artists! That's what makes this all worthwhile. We are humble yet proud of the job we've done on the GEORGIA SATELLITES and we're not even close to being finished. It's deep and it's Gold! Thank You.... Now it's time to break our first new artist in 1987, THE HOUSEMARTINS. Please give "London 0 Hull 4" a thorough listen and then check this out. Breaking big out of the Northeast, "Happy Hour" by The HOUSEMARTINS is on WBCN, WHJY, WBRU, WAAF, WLIR, WHFS, WHEB & WQBK. Taking a look at those calls will show you mainstream AOR's are adding "Happy Hour" and not just progressive stations. We are deadly serious about this. Believe it!.... Lastly, if Jay Hart and the Midwest Elektra reps can deliver quality calls like WQFM, KQRS & WLVQ on "Tears" by DAVE ADAMS then "Tears" deserves a listen and consideration by all of us. Good job.

David Anderson, WMAD, Madison

Paul Kantner and Marty Balin of KBC said it best: "Can't you feel it, something's in the air." It's the reemergence of AOR radio. The time is right for forward looking PD's and MD's -- who remember AOR's greatness and boldness of the past -- to make their move. You can reclaim all the adult men and a sizable block of the women who have deserted the format and are sick and tired of Lionel Richie, Madonna, and the latest synth pop from England. We are headed in the right direction with Peter Gabriel, Steve Winwood, Paul Simon and Stevie Ray Vaughan. The key is to become a breaker of new bands that have adult appeal, yet are still hip like Robert Cray, Timbuk 3, and Los Lobos. AOR radio should be all over the new Los Lobos album. Believe me, your audience can relate much more to the Creedence-style guitars of Los Lobos than some trendy synthesizer outfit from London who cares more about fashion and their hairstyles than rock and roll.... Thanks to Dave Remeidi of Columbia, Bill Johnson of Epic, Kevin Carroll of MCA for their visits with us last week. Dave and Bill always come to see us every time the Broncos are in the Super Bowl.

Ted Habek, WMRV, St. Louis

If you get the chance to see Gregg Allman, do it! We had 'em last night and after all these years, they still have what it takes to hold a crowd. Between the Dickie Betts band, Gregg's band, and a combination of the two for a third band, the show went 3.5 hours. I have to go now, I have a date with a bottle of Tylenol.

Chris James, WTPA, Harrisburg

Talk about culture shock. We finished moving into an entire new studio, state of the art everything. We finally said goodbye to the mobile home of rock and roll. Our new address: 970 West Tridell Road, Mechanicsburg, PA 17055.... The move comes on the coat-tails of another great rating sweep. Our numbers continue to rise in the Harrisburg metro as well as in the surrounding markets.... Alan Parsons Project is the hottest story. "Standing On Higher Ground" gets the requests now with sales building. Looks to be the hottest Lp since "Turn Of A Friendly Card".... The new Capitol release Waysted proves "Wasted Times" is a priority. It'll put a bite back in your nighttime sound.... Happy Ground Hog Day.

**John Malinowski, WUVA,
Charlottesville**

I've been snowed in. I'm still looking for the Lou Gramm Lp and anything else I've missed.

Phil Manicki, WWCT, Peoria

Vocals were the highlight of last week's adds, while the guitar steals the spotlight this week. Santana leads the way. Carlos sounds as crisp as ever. Add that killer hook and you've got a big smash!.... The production on Sammy's "Winner" complements the variety in the song perfectly.... Finally, that patented blues flavor of Trower's guitar makes "No Time" a hypnotizing masterpiece with all the flavor of a prime piece of meat.

Gene Romano, WZZO, Allentown

WZZO is coming off another very successful book; #1 men 18-34; #1 men 25-29; #1 men 25-54; #1 women 18-34; #1 adults 18-39. We buried the two rockin' CHR's in the market.

Steve McNee, WZXL, Atlantic City

Glad to be here! Looking forward to working with all you music people.... Feel free to give me a call to say hi.

Wendy Steele, WLVQ, Columbus

Still need ID's for our 10th anniversary on Feb 14th and general ID's as well. The ID's should go something like this: "Happy birthday and congratulations to QFM96 for rockin' and rollin' Columbus for 10 years." Or, "This is ___ on QFM96, rockin' and rollin' Columbus".... Now to music. It was add mania this week; a total of 10. I must be honest. A few months ago, I wouldn't have expected World Party to be in heavy. As of this week, it is and sounds great. It definitely conveys a message that leaves you wondering about the world.... Crowded House sounds fresh and, of course, just about anything on the Winwood album fits. This week it's "Finer Things". You know you can't ignore what's happening.... This week into medium Cinderella and Europe. Those cute young boys will get ya every time.

Al Branca, WMGM, Atlantic City

I'd like to commend some of our personnel at MGM. When the blizzard hit this week our OM Tom McNally had the presence of mind to come in early while the roads were still passable. Both Tom and our overnight guy Jim Spector kept the station rockin for 36 hours while the rest of us were snowbound.... An avalanche of great tunes this week. Sammy Hagar "Winner Takes All": Sammy does Survivor; power vocal performance... Santana "Veracruz": My only complaint is that there isn't enough of those legendary Santana licks... Esquire "Moving Together": The instrumentation has Yes written all over it... Psychedelic Furs "Heartbreak Beat": their best track for AOR radio to date.... Broken Homes "Steeltown": good straight ahead rocker with excellent vocals.... Paul Simon "Boy in the Bubble": the LP is still top 10 retail... Also on Dave Edmunds "The Wanderer": Top 5 phones.

Richard Pachter, Promotion in Motion If you have not yet received the IDEOLA CD via A&M please call J.B., Al "King" Cafaro, or myself and we'll see that you get it. It's very fresh sounding stuff.... Julian Cope is almost home.... Get behind the Spoons before it gets behind you.... Pseudo Echo is the genuine article.... Make sure you listen to Wednesday Week, on Enigma, the new home of the hits.... In Pursuit deserves your attention.... I like the Concrete Blonde album.... If you want to hear an American original, put a ear to the Lonnie Mack record.... Congrats to Charlie Keen on the change of venue.... If you're feeling the cold remember, Spring Training is only 6 weeks away!

Michael Davis, KFMG, Albuquerque

The new Santana simply continues the great tradition. "Veracruz" makes us ready to hop a plane and join the party.... Julian Cope and Waysted are a couple of solid projects. Both are fresh sounding.... Special thanks to the great people of New Mexico for their support of Rock 108.

Joe Skare, KFMQ, Lincoln

Hi. I'm Acting MD here at KFMQ, and I look forward to doing rock & roll with you. I'll take calls M 11-2, W 11-1, and Th 11-1. We're 30% CD and would like to be 100%. All it takes is us getting the product. Thanks in advance.

Andy Allen, Island (212-477-7132)

The Julian Cope Ep, "World Shut Your Mouth", was released in mid-November. Since then, the record has been a #1 College/Alternative hit, and last week, the video was selected as MTV's hip clip of the week. This week, Cope is R&R's #1 New Artist Album and an Album Network Homer! Over 20 stations are reporting good/excellent phones and the reorders at the retail level are doubling each week. In late February, we will release a full Cope Lp that contains "World Shut Your Mouth" and "Trampoline" (just out as an import) but none of the other bonus tracks. The single ships to CHR on February 9.... Also released late in '86 and just now making some noise at album radio is Shriekback. "Gunning For The Buddha" is a multi-format, wide demo record that sounds better with each play. The alternative base is there and look for quick reaction at CHR.... Last week Island showcased Peter Himmelman to radio, press and video in New York at the Bottom Line. He was terrific! His band smoked and he impressed all that attended. Listen to "Eleventh Confession". Just out on 12".... "Chasing Shadows" is C.S. Angels first release on Island. "The Cutting Edge" is our lead track. Robert Palmer is the executive producer.... The U2 Lp is entitled "The Joshua Tree" and will ship to retail March 9th. The album was produced by Eno/Landis and mixed, in part, by Steve Lillywhite. The first 12" and single is "With Or Without You" and the tour will begin in Phoenix on April 4th with multiple dates in LA and NY to be announced. In addition to the 11 tracks on the Lp, there are 10 other completed tracks that will be used as B-sides and bonus tracks. Every attempt will be made to ship the CD, Lp and cassette simultaneously. More info will follow.... Thanks for your support.

Lin Brehmer, WXRT, Chicago

Adds this week: P-Furs, Santana, Colin James Hay and Drivin' And Cryin'.... We're expecting the **Psychedelic Furs** to sell a cool million no problem. We're talking about a band that can lay claim to a generational theme with the best of them. Yes, I'm talking about "Pretty In Pink". Whether you were a fan of "Sister Europe" or have never been a fan, new music from the **Furs** should be your top priority.... The **Taj Mahal/Lonnie Brooks** concert is the place to be Friday night in Chicago. Both have hot current records, both will be taped in concert for future broadcast.... **Robert Cray** is our #1 record this week.

David Ross, RCA, 212-930-4518

I'd like to thank everyone for the kind thoughts and words of encouragement with the coming of my promotion from NY local promo to Mgr Album Promotion East. Thanks to Eddie Mascolo, Alan Wolmark and Larry Van Druff for the belief in me to do the job. Our new NY local promo rep will be Steve Stoff.... 1987 is already knocking down the doors with such acts as **Love & Rockets** and **Pseudo Echo** with over 100,000 in Lp sales and over 60 AOR's playing "All". We're on the verge of breaking ANOTHER new artist on our roster. Please give this track your fullest attention. We did it with Bruce, and now we're going to do it with **Love & Rockets**.... **Pseudo Echo** is bursting on the scene with their first RCA 12" release "Living In A Dream". Let's let AOR lead THE way with this track before CHR jumps all over it. In the not too near future, they'll be touring here in America. Give this track and Lp your fullest attention. I'm sure they'll be big.... Other projects include the **Starship** 12" "Nothing Is Gonna". It's a stone cold smash!.... **Toby Redd's** 12" "Looking for You" is gaining momentum, breaking out of Detroit.... Bruce goes Top 10 this week with no end in sight. He's on his way to your town. I'll be on the road with Bruce and I'm looking forward to meeting you all.... If I may be of help to you, I'm in NY at 212-930-4518. I answer my own phone and I do windows. Thanks for all your support. Speak with you next week.

Richard Crowley, Ryco, 818-762-3348

Concrete Blonde are seriously happening! "True" is picking up a multitude of new adds including WBCN, CHEZ, 91X, KBPI and KKBR. If you haven't already added it, don't sit on the fence, jump into the playground! True! This album is made for AOR. Great hard and soft, but never wimpy, songs with Johnette's marvelous vocals. You'll be discovering and making your audience discover a VERY special new band--be proud!

Pam Edwards, KGB, San Diego

The **Hagar** record is already blowing out the phones. Reaction was immediate and continues to be strong.... If you want to really get a good laugh, get a hold of a single by **Bobby Craig** entitled "Have You Got Any Pot, Nancy Reagan?" It's on Palladium Records and their number is 714-497-3720. It's definitely worth your dime.

Larry Dunn, WLIR, Long Island

Oh, those **Beastie Boys**--they're sly, they're crafty, they're funny and they're Gold! Congratulations. "Licensed To Ill"--the only band that has a license for a brain.... Every label seems to have their week. Warners got their hat trick with the **Pretenders**, **Talking Heads**, and **Red Box** with **Los Lobos** to boot. This week CBS gets the hat

trick with the **Furs**, **Dave Edmunds** and **Big Audio Dynamite** "Limbo The Law" as Screamer Of The Week.... Honestly, I'm not a big fan of live albums, but the **Dave Edmunds** is the exception. Let's face it--Dave is a great live performer. This album proves it.... Two of my favorite songs this month are **Shriekback** "Gunning For The Buddha", which I think has a good shot to go CHR and the other fave is the **Ward Bros.** "Cross That Bridge". Not to dwell heavily on the import issue, we've had great success with this as an import 12".... Also to put in a final point, **Hipsway** "The Honeythief" was Screamer Of The Week as an import 12" in April of 1986. Back in April we had a field day with "The Honeythief" and so did the clubs. This song could cross both Urban and CHR.... To **Lin Brehmer**--tying together **Husker Du** with **Mario Cuomo** was a brilliant notion on your part.... Thanks to **Julian Close** of **Red Box** and **Gaza Johnson** of **China Crisis** for phoning in live on the air. Julian phoned in from London and Gaza phoned in live from Scotland. We, of course, phoned this report in live--from beautiful, scenic, downtown Hempstead, New York.

Paul Cannell, KORX, Springfield

Okay, so I let **XTC** get by me, not to mention the **Stranglers**. (I plead innocent on the **Concrete Blonde**, I just got it). Don't make the same mistake and let "Dreams So Real" slip by you. "Maybe I'll Go Today" is in the same class as "World Shut Your Mouth". Try it, your phones will love you for it.... As for **Broken Homes**, we went OTB on "Steeltown Bluestown" months ago and it smoked. Even so, "L.A. Rain" was a 3 to 1 leader in audience response.... The same thing is happening with the **Satellites** "Nights Of Mystery". With "Chains" going now and "Myth Of Love" on deck, looks like nine straight weeks #1 retail thanks to the boys in Georgia.... A lot of early **Pretenders** comparisons, drop in a little **Til Tuesday** and **Joan Jett** for taste, and **Concrete Blonde** is a can't miss combination.... **Blue Yonder**: **Sandy Stewart** is so fine--the record melts in your mouth.... **Ted Habeck**: Ditto on your comments last week!!

Steve Bridges, KFMH, Davenport

Check out the **Psychedelic Furs** "Heartbreak Beat". It's their most accessible track to date and sounds damn good on the air.... "Gunning For The Buddha" from **Shriekback** is also great--a haunting song that is getting good requests here.

Don Berns, CFNY, Toronto

Have you noticed how strong music is for this period of the year? One of the strongest of the strong is **Shriekback**. As Bill says, "Don't be put off by the name." They make great music, and "Gunning For The Buddha" is THE track off "Big Night Music"--their most accessible album to date. Being slightly out of the norm, it's one of those tunes that definitely makes the listener crank up the volume; not just the first time they hear it but every time. The late "Buddha" is a winner.... Along the more traditional rock and roll vein, **Julian Cope's** "World Shut Your Mouth" has everything in it that a hit should have: Great hooks, both vocally and instrumentally, super production and that anthem-like quality that has been at AOR since the beginning. And wait 'til you see the request lines light up on this one!.... Speaking of requests, the **Beastie Boys** top our list this week.

continued

If you are in any way responsive to your teenage audience, you should give them the "Right To Party". You'll find they jam the request lines and, in fact, I've noticed that they pack the dance floor for any Beastie Boys tracks we play for personal appearances. Talk about knowing what your audience wants to hear!... And since we're talking about what your audience wants to hear, those of you who read my comments ought to be committed. Nope, let's try that again... Those of you who read my comments may remember December's flap about our playing the Psychedelic Furs record as an import. But did it work for the radio station, you ask? You bet, I answer. "Heartbreak Beat" is so strong in Toronto that it was one of only two import singles that our audience voted best of '86. Now you can create that same feverish anticipation of the "Midnight To Midnight" Lp by playing "Heartbreak Beat"—a winner in any pop rock format.... Two hot adds this week and great albums for you to check out—"The Circle And The Square" by Redbox—a totally unique sound featuring "Lean On Me" and "For America", two of the hottest requested imports we've played in the last year.... And Scott Goddard's "Eleventy Billion" album on Chameleon Records, which contains some great original rockin' blues songs, plus some super covers including "The Beverly Hillbillies" theme which is guaranteed to create an absolutely huge phone reaction when played.

Michael Prince/Alex Miller, Atco, 212-484-6400

Guitars and vocals have always been the backbone of rock and roll so it's no wonder that a stunning guitar combined with a voice that is both melodic and powerful provides Brighton Rock with the skeletal structure of a musical giant. When you flesh it out with impressive original material a la "We Came To Rock", the giant becomes a monster. And that's what's happening where Brighton Rock is getting airplay—monster phones! The Brighton Rock boys are "Young, Wild And Free". Is there anything else that you need to be?... Julian Cope. We

Jonathan Rosen, KEYX, Phoenix

I noticed something recently. 1987 looks to be the year of subtle "Christian" rock. I'm not talking Stryper, but a quick check of many new releases points out that religious reference in lyrics and song titles is playing a bigger part in rock lyrics. Some examples are Robyn Hitchcock "If You Were A Priest", Hipsway "Ask The Lord", Mission "Sacrilege", and I'm sure I could come up with a lot more.... Think about it.

Michael Gardner, KOAS, Kealahou-Honolulu

We're a brand new, live rock & roll radio station. We really need promo and DJ copies from all labels. CD's, too. Any special music programs would be greatly appreciated. We appreciate the favor... THIS WILL ALL COME BACK TO YOU WHEN YOU VISIT HAWAII. Aloha.

Skip Isley, WWTR, Ocean City

My normal 10-minute drive to work turned into a 1-hour thrill show this morning starring my left arm as my windshield wiper. 16 inches worth of snow here. An unsuspecting town shut down. It's 5:30 p.m. I've been on the air since 9 this morning—and no relief in sight. God! I love this business! Here I am: Lily Tomlin on the phone. School closings. Meeting cancellations. Postponed bowling tournaments. The phone won't let up. It's melting with inquiries. I can barely keep up, and I answer "96Rock" and hear "Hi! This is Heavy Lenny! Can we talk music?" This is the kind of day I've had.

Ellen McKinnon, WEQX, Manchester

Woke up up this morning to record-setting -28 degrees. Thank God for space heaters and hot R&R. Speaking of which, I'm glad to see such great response to Concrete Blonde. It's a smash. EQX is slanting toward blues these days. Lonnie Mack is big and so are his Alligator label mates, Albert Collins and Lonnie Brooks. Add to that Don Dixon, Robert Cray, the Leroi Bros, Dave Edmunds, and Lobos and you got a crankin' sound when you tune into EQX.... Personal to Lin: Howard made me listen to the new Hank Williams, Jr. What do you think of it? We both want to know.

Steve Kosbau, KRNA, Cedar Rapids

The new Sammy is phenomenal! In light of his monstrous recent success with Van Halen, "Winner" should easily prove to be his most accessible effort ever.... With a hand from Slowhand, Tina Turner has yet more credibility as a bona fide rocker. "What You Get Is What You See" is a guaranteed crossover mega-smash.... The most infectious track of the week is the new Psychedelic Furs. Over the course of 3 days and 3 listens, I went from hearing just a decent tune to being crazy about "Heartbreak Beat"! It's a MUST for a rock & roller on the cutting edge like KRNA!.... As if that isn't enough enthusiasm from me, I insist that you listen to the Housemartins "Happy Hour". I think it's sufficient to say that the song is fun, mass appeal, and hot enough to singe the felt on your turntable.

**Kenny Puvogel, Warner Brothers,
818-846-9090**

First off, belated Happy New Year to everybody out there in Radio and Record Land. From George, Dave, Patti and myself, thanks to everyone for making 1986 a record-breaking one in both sales and airplay for Warner Brothers Records.... It was great seeing old friends and making new ones at the Burkhart/Abrams Convention. I had a great time and next year I promise I'll take first prize in the tennis tournament.... Speaking of sports, as I write these comments, they're partying at the Meadowlands right now. It sure feels great to say the Giants are the World Champs!.... Now, into records. We are extremely pleased and excited about the response and acceptance to the **LOS LOBOS 12"** and Lp at radio and retail. This will be the one to put them over the top. Looking for more cuts to play: Try "Is That All There Is", "My Baby's Gone" and "Set Me Free, Rosalee". Please take time to read the Robert Hilburn article from the Calendar section of the Los Angeles Times that we sent to you on Los Lobos.... The **ERIC CLAPTON** record is on fire with both "Tearing Us Apart" and "Miss You" burning up the charts, with "Tearing Us Apart" heading towards #1.... The next 12" from the **PRETENDERS** will be "Tradition Of Love". Remember this Lp has had 2 #1 AOR tracks to date. So please give serious consideration to this new remix.... **STEVE WINWOOD** has another winner with "The Finer Things" at both AOR & CHR radio.... Looking for new records to play: Try the **MIGHTY LEMON DROPS'** "My Biggest Thrill" and **HUSKER DU's** "Could You Be The One".... Looking for a great instrumental to play: You could probably pick any of **DAVID SANBORN's** new songs from his new Lp, "A Change Of Heart". My favorite track is "Tin Tin". David Sanborn stands for class.... We would also like you to take note of 3 new pros on your desk: **DAVID LEE ROTH's** "I'm Easy" (Lp now 2 million), **TALKING HEADS'** "Love For Sale" (Lp now 1 million) and **HANK WILLIAMS, JR.'s** "My Name Is Bocephus". Check out the video.... Last, but certainly not least, we would like to announce the release of **PAUL SIMON's** new 12" + single, "Boy In The Bubble". You will have this on your desks Monday, 2/02. You will also be receiving a CD of the single version and an extended mix on the same day. This Lp is still the #1 seller at Warner Brothers with no signs of slowing down. As you already know, the press covering this Lp has been fantastic and very favorable. The Grammy nominations have everyone at Warner Brothers excited. Get ready and consider

Inessa York, KGON, Portland

We had a lot more fun than is allowed with the **Georgia Satellites** last week. I would like to thank them and the folks at Elektra for paving a clear path to the proceedings. If you have a chance to get lead vocalist **Dan Baird** on the air, go for it! He knows how to give good radio. The Satellites did one of the finest openers I've seen in a coliseum setting when they opened for **Seeger**; not to mention a soldout show, in four hours, of their own the following night. As an opener, they managed their short and great set with passion and vigor including a great version of "Railroad Steel" and two of my favorites, "The Myth Of Love" and (swoon) "Nights Of Mystery". There's more to this band than that cute 'n silly first single.

Steve Cormier, WIZN, Burlington

Deep Purple's Lp was recorded up here--at the playhouse in Stowe, Vt. Everybody up here knows and they get massive phones and sales.... You know a **Psychedelic Furs** song when it comes on, because the guy's voice is so unique. Or as church lady on Saturday Nite Live would say, "Isn't that special?" Has that **Simple Minds** feel to it. The skiing has been the best. I've got to learn one of these days.

Curt Gary, WEBN, Cincinnati

WEBN is wearing **Joan Jett** like a cheap suit. And it's a perfect fit.... Many moons ago, I let **Crescendo** know that "No Time" was **THE ROBIN TROWER** song. WEBN now returns to the dance. WEBN has been behind Trower since 1973, when we had him in a live broadcast from the **Fifth Floor Studios** (hosted by **Steve Sutton**).... **Bon Jovi** sold out 2 shows in one day. Woof!... Uh, how's the snow there?

Kim Alexander, WHCN, Hartford

Greetings from the Arctic Zone. We're rocking here regardless, come snow and more snow!... Last week I bragged about playing **Concrete Blonde** nonstop at home. This week we put "True" on the radio. **Johnette's** got such a great sultry voice, and the lyrics are a such a great pick-me-up. Now sit back and watch this thing take off.... Moves: **REO** medium to heavy cause it's going to be a smash. Ditto **Winwood's** "Finer Things" and **Eric Clapton's** "Tearing Us Apart". It's the next best thing on the album.... Also new this week: **Sammy Hagar** and **Santana** (both automatics).... Looking forward to a week of **Billy Joel** and **Dave Edmunds** in concert.... Keep shoveling!!

Robert Cray and Georgia Satellites continue to be breakout retail items. With Robert Cray moving from #5 to #3 and the Georgia Satellites moving #5 to #4.... **Psychedelic Furs** is a great record and could be the one that breaks this band wide open.... I never thought **Sammy Hagar** would work with **Giorgio Moroder**, but the combination seems to work. The guitar solo in particular leaves a vapor trail across my turntable.... Nice to see **Robin Trower** resurface. "No Time" could be the cut to rejuvenate his career.... **Iggy Pop** "Real Wild Child" is starting to get some phone action along with **Stevie Ray**, **Don Dixon** and the **Spoons**.... **Bon Jovi** is still our #1 retail item for the third consecutive week.... On January 21st, I went to Kansas City to see **Genesis** in concert and it was an absolutely astounding show. Even if **Phil Collins** had bronchitis, he put on a decent effort. I've seen the band six times now, and this was the tightest I've ever seen them play. Thanks to Mary Tripodi and Bob Clark of Atlantic for the hospitality.

Dave Stone, KJOT, Boise

Sammy Hagar's track should be a major hit for him. We went on it right out of the box.... We're the only station in SW Idaho playing **Tesla**. Each week we do a sales composite for outlets in the valley and this week **Tesla** was #2 retail! That was our impact on the record. It's a good feeling to be able to break artists unfamiliar to the audience and to gain that kind of response on a record! "Changes" shows their versatility and we're going with it next.... We've had great phones on "Bad Attitude" from **Deep Purple**.... The **Starship** song is a winner with women.... We were on **Timbuk 3** for weeks before it showed on the charts and went on "Life Is Hard" with good response. We don't mind taking the chance on new music if it hits just right.... We're on "Chains" from the **Georgia Satellites**. The band is becoming popular here and sales are picking up. An overall #6 in our market.... We won't let up on **Robin Trower**, and we're moving to more tracks on the Lp. Our Premier Album show features one track every hour from an Lp that day and "Passion" drew terrific phone response.

Patty Martin, KMBY, Monterey

I like that **Joan Jett/Michael J. Fox** record. It's got **Springsteen** written all over it and they do a good job with it.... The new **Sammy Hagar** is a hit.... One final question: Has **Carlos Santana** been listening to "Sweet Home Chicago"?

David Allen Ross, KMJX, Little Rock

Right off the bat, we didn't get **Sammy Hagar** until after we did the music. We'll probably take care of that next week.... Really like the **Lou Gramm**, **Julian Cope**, and **REO Speedwagon**.... If you're looking for something in a dance rock vein, check out the **Spoons**. They have an **INXS/Fixx** type sound.... We were so early on **Cinderella's** "Shake Me" and "Nobody's Fool" we've already picked another track. We're getting good response to "Nothing For Nothing".

Mike Keller, KQDS, Duluth

The new **Sammy** is a shoe-in.... We added **Vinnie Vincent's** "No Substitute". For crying out loud it's a tender, crunching ballad. It's early but it's working.

Jessie Brice, KZRR, Albuquerque

The fall ARB shows 94ROCK the 25+ leader in town. "You know where the money is." A lot of hard work paid off for us.... Ever heard the phrase "I Bitch, Therefore I Am"? Nazi tactics just won't get a record played. I wish I could always say "Yes". I heard it takes fewer face muscles. However, I must say no sometimes. We are all professionals so let's try to remember that on music days.

Lorraine Rapp, WAQX, Syracuse

Still recuperating from our wild bash with **David Lee Roth** and **Tesla** at the War Memorial. What a great show! **Tesla** stopped by early in the day for an interview with **Simon** followed by a solid performance which was very well received by the sold out crowd, all of whom were wearing free 95X/David Lee Roth concert pins. Nothing could have prepared me for what was to come. The **David Lee Roth** stage setup and light show were incredible but not overdone. The band is AWESOME. (I knew I'd use that word to describe something and this is it!) The jam on **Ladies** night in Buffalo was enough to keep me buzzed for the rest of the week. **David** pranced and danced and was thoroughly entertaining. It was a very exciting show and extremely loud. **David** and the band were on hand to meet the 95X air staff and the only picture taken all night was of me in his arms! Thanks to everyone who made this show such a monster, especially road manager **Patrick Whitley**, promoter **Chuck Chao**, **Jeff Criden** of **WB**, **David Lee Roth** and **Tesla**.

Kevin Vargas, KWHL, Anchorage

Kinks "Lost And Found" is the biggest hit on the Lp.... Re-added **Bon Jovi's** "Wild In The Streets". This time we'll hang with it for the duration. It's a great rock radio track, and it'll continue to get phones and sales.... The **Sammy** "Winner" track is an unbelievable male 18+ tune.... **KWHL** may be in need of a morning man soon if **Cary Carrigan** doesn't thaw out. Taking nobility beyond the call of duty, not to mention modern intelligence, **Cary** took part in the **American Cancer Society** "Polar Bear Jump Off" down **Seward**. Fortunately, there was a heat wave and it was 37 degrees, but that still didn't stop the water from being cold enough to accommodate the seals, otters, and icebergs that joined him in the swim.

Andy Preston, KPOI, Honolulu

All of us here at **KPOI**, Hawaii's 98ROCK are tremendously excited about our first double-digit book in several years. 10.1 12+ is only part of the story. **KPOI** is #1 in Men 18-34 and by an almost 2 to 1 margin. We're #1 Men 25-54 and #2 in Adults 25-54. A job well done by all the staff members. Aloha.

Steve Trella, KDKB, Phoenix

It's nice to hear just a **Sammy** record. **Van Halen** is great, but it's so good to hear solo **Sammy**. If you're an adult AOR, and you listen to **Crowded House**, you'll play it.

Robin Mathieu, WBLM, Lewiston

Finally got a chance to add a couple of holdovers from 1986. **Crowded House** had the best ballad of the year, thought the record was seriously overlooked. This one's gonna break big and we're

continued

glad to give it a shot now.... After good reports as the opening act for **David Lee Roth**, we gave Tesla a spin and got Instant phones. If you're still playing rock and roll, "Modern Day Cowboy" will work for you.... Good early response on **Colin Hay**, **Alan Parsons** and **Rob Jungklas**, though "Boystown" never sold the Jungklas album. Our retail is now getting requests for "Closer To The Flame".... Two local bands we're playing are definitely worth checking out for yourself. The **Kopterz** of Portland, Maine, have released their third piece of vinyl, "Dancing Disorder", on Broken Records. It's their best work to date and could spell success. We're playing "The Fall", a cut with a real REM feel to it. If you want a copy, give me a call.... Another New England band, **The Boyz**, are hot in the clubs here and getting tremendous response with their 60's reminiscent rock. "She Loves Buddah" is a smash here.... Our top 5 phone responses are **Don Dixon** "Praying Mantis", **REO** "That Ain't Love", **Robin Trower** "No Time", **The Boyz**, and **Bon Jovi** "Living On A Prayer".

Mike Boyle, WDHA, Dover

The **Psychedelic Furs**, **Santana**, and **Sammy Hagar**. Is the record company of '87 Columbia? It's been awhile since I've seen so much quality released by one company in a week.... Very glad to see MCA's commitment to **Broken Homes!** "Steeltown" was the track I liked the most from the advance months ago!.... Speaking of commitment, WDHA is on **Toby Redd** again! The second track "Looking For You" should have come first!

Kelly Cruise, WEGR, Memphis

Give **Gregg Allman** a halo. "Angel" is a hell of a record. From the first listen on cassette, I was blown away and I can't wait to watch the record soar.... Obviously, the **Sammy Hagar** is an instant add and the **Santana** is a 3.5 minute vacation (sounds like the **Gap Band** goes rock & roll).... Added the **Esquire**. Its unique sound is a real attention grabber.... Good luck to our FM news director/announcer **Donna Britt**. She's moving back to Arkansas to get hitched.... Thanks a bunch **Gene Dries** of WB and **Ross Grierson** of A&M for an eventful night out. **Iggy** and the **Pretenders** were fantastic.... ATTENTION Record Folks: I'm changing my hours by the phone. Beginning Feb 6., I'll be available 2-5pm on Friday and 11-2pm on Monday.

Karen A. Small, WGIR, Manchester

Fall Birch, Men 18+: 28.1, M18-34 38.5, M25-49 28.2, and A18-34 33.0, A18-29 26.4.... **Iggy's** "Real Wild" sounds like **Bowie**. Besides when you look at the cover of the Lp, he's got that "you better buy this, sucker" look on his face.

Catfish, WHMD, Hammond

World Party ascends to power. It's the SOUND of the record. It's us.... Increasing phones on **Timbuk 3**. It's a great adult record and it's durable.... The phones go so crazy for **Bon Jovi**. The receptionist has been mumbling to herself. We bought her a plant.... **Paul Simon** had been getting requests without playing it, so in it goes. An old lady called and said "Bubble" was "an unqualified smash." And who wouldn't believe someone that old.

Jerry Lachelt, KGRQ, Caspar

The **Los Lobos** is an excellent Lp. It's like **Bruce Hornsby** meets the **Bodeans**. We're talking deeper than the Pacific Ocean on this record.

Glenn Stewart, WHJY, Providence

Pulsating, pounding, and priceless. **Sammy Hagar** sounds as good on "Winner" and anything on "5150". He drives this home like a jackhammer.... With **Crowded House** "Dream", such a subtle tune, I'll admit to being shy on this record 'til I saw CHR action. Now that we're convinced it's going to come thru, we'll pound it. The timing is right for other AORs to do likewise.... If new music is this year's buzzword, there's no excuse to ignore **Concrete Blonde** "True" and **Stranglers** "Sun". These are haunting melodies that add texture to any upscale AOR.

Ken Anthony, KSJO, San Jose

Week after week I read comments in all the trade magazines from PD's and MD's espousing superlative adjectives about any and every piece of music that is released. Granted, there is a considerable amount of sincerity in all this—but be honest with yourself. How much of it is pure hype just to get your name and station's call in print? Hell, I've been guilty of this myself. But since I've taken over as program director, the demands of the job have made it difficult to listen to and express my thoughts about my first love in radio—music. 1986 was a particularly gratifying year musically for AOR. There was a great reemergence of street-level All American rock and roll in albums by **ZZ Top**, **Jason And The Scorchers**, **Georgia Satellites**, **The Bodeans**, and **Smithereens**, to name a few, as well as a renewed spirituality expressed through albums by **Peter Gabriel**, **Steve Winwood**, **Simple Minds**, and **The Call**.... The new album by **Los Lobos**, "By The Light Of The Moon", is a stunning masterpiece which combines both the spirituality and street-level rock that is so popular on AOR radio today. The new album tugs at all the right emotions. You'll dance and sing, laugh and cry, and probably do a lot of thinking, too. I know I did, and that's what prompted me to comment about this album. **David Hedalgo's** beautiful vocals, **T Bone Burnette's** clean production and the songwriting talents of **Hedalgo** and **Perez** make "By The Light Of The Moon" easily one of the best albums of 1987, even in January. And like a fine wine this album should get better with age, becoming a landmark effort for the band and even American music in general. Since music, like art, expresses personal opinions, all my philosophizing here is really adding up to this: I love this new album by **Los Lobos** and that ain't no hype.

Tim Drayer, WHTF, York

We're continuing to generate strong phones for **Tesla** "Modern Day Cowboy" and **Europe** "The Final Countdown".... I'm waiting for the **Gregg Allman** track and album.... The **Sammy Hagar** song is great; he sounds a lot more refined than in earlier days. When you hear that driving bass line in the song, you know it's **Eddie Van Halen**.... The two songs I want to push for next week with the big guy are **Esquire**, and the **Psychedelic Furs**.... Recently, we held an album release party with **Tommy Conwell** with record attendance at the Metron. Tommy puts on a dynamic show and he'll go far. He's got my seal of approval! It's a live show not to be missed. He really participates with the crowd.

Jack Mitchell, WIBA, Madison

I want **Los Lobos** to play my wedding!! I haven't asked her yet, but I want to have the band ready. Nothing like a Spanish polka!.... **Gregg Allman** just blew me away. "Angel" is easily the best record of the week.

“REAL WILD CHILD”

FRONTRUNNERS

EMI

PETER WOLF

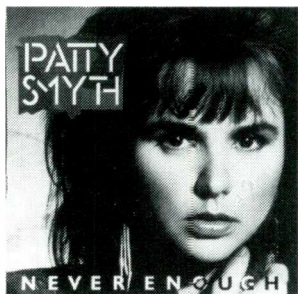

"COME AS YOU ARE"
Take equal parts "Summertime Blues", Freddie Cannon and "Centerfold" and whatz that spell? A smash on the Peter Meter.

ELEKTRA

DOKKEN

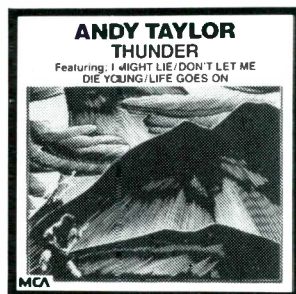

"DREAM WARRIORS"
The masters of mass appeal masccararock go for the quick kill with a huge hook, giant guitars and thick rich production.

COLUMBIA

PATTY SMYTH

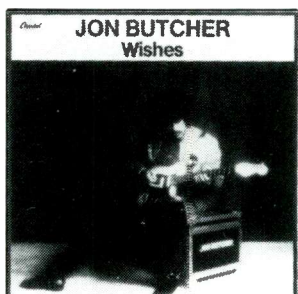

"NEVER ENOUGH"
That one of the very best voices in rock has had to go so long without a song this good is simply scandal-less

MCA

ANDY TAYLOR

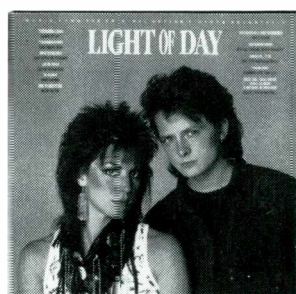

"I MIGHT LIE"
From the delightfully gritty guitars to the killer chorus, this image turn-around deluxe leaves Duran in the dirt.

CAPITOL

JON BUTCHER

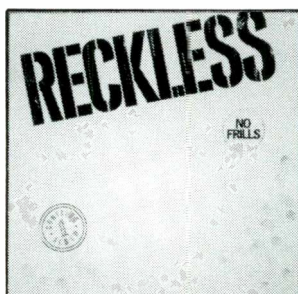

"GOODBYE SAVING GRACE"
Classy atmospheric highlight one of the most interesting new songs on the street — a la David and David and Jimi.

EPIC

"LIGHT OF DAY"

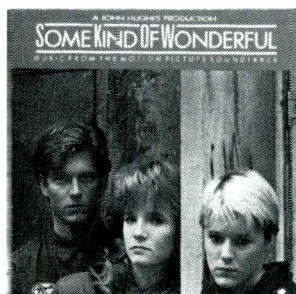

SOUNDTRACK
With Joan about a day away from megastar exposure, you'd best stay on the case. The Birds and Busters can't miss.

ATCO

RECKLESS

"NITTY GRITTY"
And what would any Front Page be without a little hard core crunch, especially when it's a guaranteed one listen wonder.

MCA

FLESH FOR LULU

"I GO CRAZY"
The surprise of the week has hair, teeth, eyeballs and powerchords flying at you from all fun directions...
