Peter Wolf, "Come As You Are", EMI. We sure think it's the most obvious add this week. Pete's been out of circulation for 18 months, and it's nice to hear a return to the sound that really made J. Geils such a crowd pleaser. Love the keyboards, the double entendres and the cold close.

Patty Smyth, "Never Enough", Columbia. Has another new female voice this good surfaced since "Goodbye To You" charmed the world?? And although she's done well since then, this one's the ticket to take her back to the top. A tip of the sheet to Rick Chertoff and the Hoots for their help on this magnificent version of Baby Grand's best song.

Light of Day Soundtrack, Epic. How many Joan Jett songs have you played? Five? Eight? Aside from the one big single, AOR has been her mainstay for about ten years. So, with major media darling status right around the bend, why give up your seat on the rocket now? Hype the hell out of this package and make that airplay investment pay. New Thunderbirds is can't miss and smart programmers will at least back the single with "Tonight".

Flesh for Lulu, "I Go Crazy", MCA. This left of center soundtrack collection is a welcome departure from the standard "round up a bunch of big names" approach to movie music, and we actually think Flesh For Lulu may have a legit radio hit. You'll certainly be able to relate to the chrous and the buzzing, throbbing, distortion trip of an arrangement is the perfect counterpoint to those Lou Reedesque vocals. Lots of energy, too.

Dokken, "Dream Warrior", Elektra. Don sure makes it look easy. There's nothing in this record you haven't heard before, but between the cosmic (psychedelic?) production and rather bizarre pacing the guy's got you after about 15 seconds. You know just how he's doing it but you're powerless to resist. The huge automatic sales base should make "Dream Warriorr just that.

Andy Taylor, "I Might Lie", MCA. Only Flock of Seagulls have a tougher image overhaul than Duran Duran (at rock radio) but damn if Mr. Taylor hasn't turned the tables in just over 5 minutes. The Marshalls are set on 11, there's nothiing prissy or frothy about the arrangement, and when he dials up the solo, there's no doubt the man's a player. Multi format without a doubt.

Jon Butcher, "Goodbye Saving Grace", Capitol. Having seen Jon live a number of times, I'll tell you this man is a much better guitar player than his records reveal. This one's really the first to give it equal billing with those trademark sultry vocals. The song's a standout, and we fully expect it to take his unique approach to a whole new level of acceptance.

Reckless, "Nitty Gritty", Atco. Sure, that basic AC/DC feel is there, but where have we heard that vocalist before? This guy sounds like someone we know and love--but WHO? Noddy Holder? No... Steve Marriot? Hey, you tell us cause it's driving us crazy. And the track's plenty interesting on it's own, with plenty of moxie to make the crosso to pop. Fast phones for sure.

ALSO NEW THIS WEEK

Eddie and the Tide, "Weak In The Presence Of Beauty", Atco. The tide enlists noted Popmeister Keith Olson for a straight on assault at the hit single their rock resume demands. We rate it safe but soulful, a la Huey Lewis meets Eddie Money.

Farrenheit, "Fool In Love", WB. Spend a little time with the 12" and/or volume four of our sampler series, and you will (underlined) be singing along. Between the heartmelting vocals and beautiful guitar fills, you won't hear a fresher, cleaner pop adult single this week.

Chris Isaak, "You Owe Me Some Kind Of Love", WB. Chris's last album "Silvertone" and accompanying club mini tour had critics raving, and now here's something to get you crazy. The whole roots movement continues to gain momentum and as such this new tune is particularly well timed. Chris sounds particularly Orbisonesque here, and James Wilsey has to be one of the cleanest axemen on the circuit. Too classy for the radio? No way!!

Glass Tiger, "I Will Be There", Manhattan. Now here's an unusual twist. Due to contractual stipulations, Bryan Adams isn't on the 12" mix of the track most of album radio preferred all along. Between MTV and Pop/rock play, Glass Tiger have more than made a name for themselves, and you'd be smart to take advantage of the rocker on the record, and the Adams tie in. That's easy. Ignore the 12"--play it from the CD.

Wednesday Week, "Missionary", Enigma. As per the blo, this is NOT an all girl band. However, vocalists Kristi Callan and Heidi Rodewald do dominate the sound on "Missionary", and that's fine with us. We maintain there's a dearth of female rock on the radio and Don Dixon's studio touches and the driving, modern arrangement should make this a prime candidate for your consideration. Very Now.

Frozen Ghost, "What I See", Atlantic. As a major Flxx (and even Rupert Hine) fan, I found Frozen Ghosts sound similarities at once likeable. Not because they sound like Cy and Co., but because "What I See" is as good as most of what I've been hearing lately. The layered vocals should sound great on the air, and the "Na Na Na" chorus also works nicely.

Timbuk 3, "Hairstyles and Attitudes", IRS. Although it's poppler, we believe "Hairstyles" is clearly the son of "Shades" and could easily pick up where hit one left off. It's funny and it moves along at a nice clip.

Billy Idol, "Sweet 16", Chrysalis. We really expected "16" to garner a lot more play. I know it has remained our in-house favorite all along. Take your cue from the 97-79 move on the Hard Hundred.

The Saints, "Just Like Fire Would", TVT. We couldn't close out the week without one more quick word for our favorite new leftfielder. If you go for early Jagger, Van Morrison and or Graham Parker you will love this record. Find it.

"GOODBYE SAVING GRACE"

The Premiere Single From the New Album

"WISHES"

It'll Redecorate Your Interior.

Produced By Spencer Proffer & Jon Butcher For 

Cutting Crew, "I Just Died In Your Arms", Virgin. The New Crew at Virgin makes their presence felt the first week out---with a dramatic #1 Most Added finish and comments that indicate the support is sincere. WMMR's Erin Riley says, "From the sound of this song, they've got it all".... KFMG's Tom Marshall hears "A haunting hook that sounds better with each listen".... From WRXK's Greg Mull, "My fave of the week. Could be a multi format record".... and from KBLE's Ron Sorenson, "I got the same musical rush on the first listen as I felt on first hearing Spandau's "True" or "Who Can It Be Now" from Men At Work." New on 63, with the week's highest #51 debut.

Lou Gramm, "Ready or Not", Atlantic. Say Hello to the #1 single and album! "Midnight Blue" holds the top slot by again dominating the Increase Index with 37, with 89 heavies, 44 powers and 40 top 5 request mentions. The album powers 5-1 thanks to "Ready or Not"'s huge 77-46 advance, the longest gain on the Hard Hundred this week. It picks up increasees at KLOL, KSJO, WQBK and WRXL, with 54 adds to date and 12 heavies. "Heartache" should debut next week, because, as KGON's Inessa York says, "You can't find a track that couldn't be a hit on this album"....

Gregg Allman, "I'm No Angel", Epic. Consider this one closed. 17 adds takes the three week total to 146, 58 of which have it heavy, with our second highest 37 increasees moving "Angel" 19-9, bringing the Lp in at #13. And the phones keep pace--with 27 top 5 mentions and a #4 Most Requested showing. WOUR's Tom Starr says, "Three months ago I was worried about Gregg's chances for a legit comeback, but this is a real zinger". As are any and all airplay indicators, bub...

Esquire, "To the Rescue", Geffen.

"Moving Together" looks to be stalling a bit--with only 5 adds, 4 increasees and 37 stations to date, but "To The Rescue" appears to be doing just that with 14 adds (WMMR, KICT, KILO, KLPX, WLAV) and a #99 debut. As KGB's Pam Edwards says, "The Esquire record is fabulous. Her voice is quite unique, falling somewhere between male and female. Everyone who hears this record is intrigued"....

The Kinks, "Lost and Found", MCA. Moving nicely, Ray and the Boys notch up a 56-47 track advance. We've got 63 to date, with 13 adds, 7 ups (including KBCO, KFMQ, KQWB, WTPA and KZAP), and 15 heavies.

Jason and the Scorchers, "Shotgun Blues", EMI. Now, I LOVE "Golden Ball and Chain", and was hoping you folks would walk that sucker right to the top. I like "Shotgun Blues", but I loved hearing KAZY's Tim Jeffreys tell me the track tested close to 95% positive. Factor in Dave Hamilton's success at KQRS, and that should tell you the people want to hear More Jason More Often. Meanwhile, "Shotgun" gains a #94 Hard Hundred foothold, with new air on WNEW, WXRK, KISS and a dozen more. Safe city--and tons of fun.

Santana, "Veracruz", Columbia

Oh Boy!! They've got themselves another hit. 117 stations can't be wrong, especially when 14 of 'em sese fit to up it (KRQR, WEGR, WMAD, KLOS, WIMZ, WLLZ and KRIX), and 15 already list heavy. It's underlined 35-24, and as Kelly Cruise knows, "It's a wonderful mid-winter break"

Paul Simon, "The Boy In The Bubble", WB. I'll confess. It really took getting my hands on the CD to roll "Graceland" up to heavy rotation at my house. But now that I'm there, I'd like a little company. And, it looks like I'm not alone. The new 12" comes through with our fourth longest 60-40 advance, with 34 adds, and 90 now playing, although only 9 list heavy or better rotation at this stage--with 7 increasees. WLIR's Larry Dunn comments, "Pretty amazing that WLIR added a Paul Simon record. Even more amazing is the Steve Thompson remix of "Boy In The Bubble". It's great and only goes to show what a great record 'Graceland' is."... Underlined 46-35 on the album chart.

Deep Purple, "Call Of The Wild", Polygram. It's not often you misfire on that all important first track and manage to turn it around unscathed. That's definitely the case here. If anything we're already seeing faster growth than "Bad Attitude" ever exhibited. "Call" orders up 10 increasees, 21 more adds and 11 heavies to push 41-28, and that momentum turns the Lp numbers around 17-15.

Bon Jovi, "Let It Rock", Mercury. "Living On A Prayer" keeps that Most Requested stranglehold, although the overall play is cooling down significantly. "Let It Rock" is slotting in nicely, with 15 adds, and a 94-66 gain, the second biggest move this week. It's already heavy at 6, including KISS, WPLR, WRCN, and KFMG. There's also healthy action on "Never Say Goodbye", with 9 adds, 5 heavies, and a #74 debut.

Psychedelic Furs, "Heartbreak Beat", Columbia. The key breakthrough criteria continues to develop: KBCO, KTCL, WBRU, WMGM, KTYD, CHEZ and 5 more up it, 14 more add it, and we're already looking at 21 heavies. Solid early requests, too, with top five status at KTYD, KRNA, WBRU, WFNX, WXXP, and four more. 91 adds to date make for a 59-44 Hard Hundred move. From KRNA's Steve Kosbau, "The new P-Furs is performing in a noteworthy manner. "Heartbreak Beat" is the kind of superpleaser that will keep us winning."

Concrete Blonde, "True", IRS

I think "True" is one of the best songs out. You've read raves from Redbeard, Lin Brehmer, Ted Edwards, Kim Alexander, and half a dozen more. But you want to hear the best comment on this act I've seen so far. Try KJOT's Dave Stone, "I added it even though everybody at the station hates it; the receptionist, bookkeeper--everybody. We tested it and even our listeners hated it. But Dave the Radio Slave has a gut feeling about his song and I'm going to add it because I'm the Boss". Yo, Dave we applaud trusting your instincts, write if you get work. In all seriousness, fck 'em all. They're wrong about a great record. Why, here's another big load of hot stats: It's new on 12, upped at 6, now on 74, and underlined 65-53. Good God, it might even be time to push the button on "Dancing on the Edge", already pulling giant 25+ male calls at WMAD.

Los Lobos, "Shakin Shakin Shakes", Slash/WB. What does it take to slam dunk top 10 track status? 26 play increasees, 6 powers, 63 heavies, and 156 stations on the case. And with numbers like that, would somebody please cut loose with a little focussed play on our favorite "One Time, One Night", which more than one critic has called the best track on the record, far and away.

PATTY SMYTH

NEVER ENOUGH

Colin James Hay, "Hold Me", Columbia. The hook didn't hit most on first listen, but the on air validation is coming through nicely. As WOUR's Tom Starr says, "This is a song we've come 180 degrees on. On first listen it sounded like Jimmy Buffett on safari, but it does have an undeniable hook and a very endearing lyric." This report found 11 play increases, including WDVE, KMOD, KRQR, WHMD and KLBj. Colin's new on 5, now on 84, with heaviest play at KRQR, KBCO, WLUP, WPLR, WIOQ, WTPA, KLBj, KRIX, and CHOM.

REO Speedwagon, "That Ain't Love", Epic. Our next report will show a nice pickup on "Screams and Whispers", but in the meantime the single continues to stretch out. It's got 131 total stations, with 18 now power and 63 heavies. It's one of our biggest point gainers, with 26 increases, and a 10-5 Hard Hundred Advance.

Robin Trower, "No Time", Crescendo. Still one of our most bullish performers, and as KLOL's Dayna Steele says, "Any AOR can't go wrong with Robin Trower. He is another really strong image artist. The new add board boasts KLOL, KGON, WIYY, WPYX, WRDU and several more, with KISS, WHCN, WRIF, KLAQ, WDVE, and WRKI among this week's 16 increases. The Lp gains 27-24, fueled by "No Time"'s 24-21 move.

Bob Geldof, "Love Like a Rocket", Atlantic. One song we'd love to see break busts loose with a 100-80 advance this week, with one of the meatiest add turnouts to date: WMMR, DC101, WMAD, KROQ, WQBK and several more. Play ups include WPLR, WIZN, and WIMZ.

Stevie Ray Vaughan, "Willie The Wimp", Epic. For a record that many programmers doubted a month ago, this mofo's on fire--and it's still got tons of headroom. Check out the 34-25 Hard Hundred action. 10 adds, 12 increases and 107 current stations put it there.

China Crisis, "Arizona Skies", A&M
One of our favorite upper demo tracks pulls in with a 98-91 underline, five deep in rotation jumps--CFNY, KWIC, KKBR, WWZU and WHTG. Added at WHEB, WUVA and WDHA, where Mike Boyle confesses, "I dragged my heels on this and I don't know why. The video may have changed my mind on this one. Check it out". Key calls include WBCN, KLPX, KTCL, KFOG, KFMH, KBCO, and WLAV-FM, where Dave Lange reports "Definitely better calls than I expected".

Pseudo Echo, "Living in a Dream", RCA. The Nipper's baby band to watch rolls up another active chart week. "Dream" pushes 74-63 with 5 adds, 58 to date, and ups from WAAF, WPLR, KWIC and four more. As noted in comments from Redbeard and Mark Miller--both board certified for finding Big Singles--this thing will fly huge on CHR once the edit hits, so use the exclusive while you can.

Little America, "Walk On Fire", Geffen. The loping pace may take a bit of getting used to, but it's the way they like it in Denver. Again to KAZY's Tim Jeffreys, who put it through the paces with a 92% positive audience response. Prettty good. We came up with a total of 11 OTB adds, including KILo, WQFM, WNEW, KISS, and KRIX. Here's more: Tom Schepke, KISS, "The most exciting thing I've heard this week. It has an 80's vision, but with a rock sound. Can't fail." ..Even the Very Curt Gary likes it, saying "If my ears don't fool me, these guys have listened to a Twilley album or two. Sounds like real potential here".

Waysted, "Heaven Tonight", Capitol. I can't believe the number of people commenting on how much they love the band but hate the name. Jeez. Tell 'em it's the Stranglers for Chrissake. Here's Ron Garrett, KDjQ, "This is as safe a record as you're going to find. Strong enough for your 18-24 men, yet sensitive enough to seduce your women. When a record that covers this many bases comes along, jump on it." New on 5, now on 34, upped at WDHA, WTPA, and KWIC. Underlined 79-71.

Hank Williams, "My Name Is Bocephus", WB. We told you this one was for real, and so do these call letters: KFOG, KICT, WCMF, WHjY, and WCKG. You can find more than a few big name rockers that couldn't pull that much beef. Ongoing play at KQRS, KDKB, KICT, WAAF, WKLS (who upped), WQFM, WMAD, and half a dozen more debut it at #96.

Poison, "Talk Dirty To Me", Capitol. They may not fit in your particular format parameters, but there is definitely something shaking here you ought to know about. The video is pulling megaMTV calls, the Ratt tour is ready to kick up again, and the kids definitely want to hear more. Here's KISS' Tom Schepke: "The Poison record is burning up and MTV is kicking in too. We've been on it for a month, and the kids are eating it up." From WWZU's Mark Williams, "There is absolutely no reason for any rock station not to be playing 'Talk Dirty'. What a record! Take a hip band, fix them up with a powerful video, put them in heavy night time rotation and you've got a top phoner. Poison puts the bite back in rock radio."

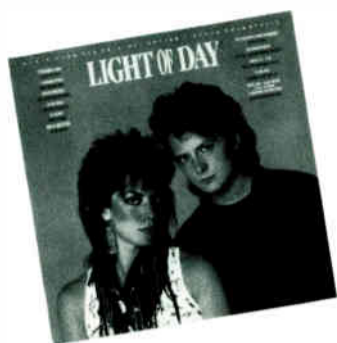

Hipsway, "The Honeythief", Columbia.
I loved hearing WIOT's Jim Steel talk about missing the Outfield and getting tortured by his Columbia rep. Don't you hate it when that happens? Welllll, keep an eye on this one, cause they're building a nice little case. How about that #88 debut, complete with new air on WIOQ, WIOT, WPLR, WWCT, KATP and WCCC. Airplay is already 41 deep, with 5 heavies and 1 power. Watch it.

In Pursuit, "Only For You", MTM.
KUPD tops the new action for this report, with WKDF, KZEL, KRIX, and WDHA the best in so far. The video appears to be affecting a listener ripple, and we'll certainly vouch for this track's hook recall. A week later and you can still flash it on the screen.

Tapetalk: Volume 4 of our Hard Cassette Sampler Series is out and on the loose!! We can't get it out of our dashboard, and hope you'll fit it equally magnetic... Here's the run order:

Side A: Peter Wolf "Come As You Are". Sure, EMI got you the vinyl. But how many people have a turntable in their car? Special thanks to John Hey and Ken Benson for the advance... Chris Isaak, "You Owe Me Some Kind of Love", WB. Another deluxe driving song... From Martee Lebow, "Love's a Liar", Atlantic. Live with this excellent ballad. Kim Carnes meets Bob Seger... Killing Joke, "Sanity", Virgin. This will be Virgin's follow-up to Cutting Crew. Very Eurohooky, and a great bet to cross new/alternative to mainstream... Tommy Conwell and the Young Rumbler, "I'm Not Your Man", Antenna. At this point it's regional, but you can expect a major deal shortly. He's managed by Steve (Hooters) Mountain, and this track's a mother. Call Redbeard for a second opinion.

Side 2: Check out Farrenheit's ballad "Fool in Love" number we front paged this week. Crossorama. Jon Butcher's "Goodbye Saving Grace" on Capitol already has people like KDJQ's Ron Garrett promising and we think you'll concur... The Damned with a mainstream AOR hit? This cover of the Love classic could do it. Got a problem with their name? Say It's Waysted... Next up, In Pursuit's "Only For You" on MTM. Listen once and you'll be able to sing it a week later... Finally another Front Page item this week, Atlantic's Frozen Ghost. Listen and get Fixxated.

THE KMET STORY

After nineteen years on the Hollywood Freeway, KMET has come to the end of the road.

The Last Supper. KMET DJs l to r: Randy Thomas, Jack Snyder, Rick Lewls, David Perry, Cynthla Fox, Jlm Ladd, and up front, Pat "Paraquat" Kelly. Rick Scarry Is AWOL. Look at the antenna on that fish! Bet he can get the Mexican statlons. In Cleveland.

They fired everybody on Friday (2/6). All of the air people. Some week, huh? Donahue in Moscow, Oprah in Forsyth, and Paraquat in the unemployment line.

Yup. Pat Kelly was the last one on. The last two tunes were "Beautiful Loser" and "It's Only Rock & Roll".

KMET--the station that grew out of KPPC, in the basement of that church in LA, will draw its last breath Saturday (2/14) at noon. Already filed for new calls KTWW ("the wave"--uh huh, we expect the new format to be new music. That fits right in with positioning statements of "94.7% new music" aired during the past two months), no human voice is heard--save recorded "countdown" tracks mentioning "dun dun dun dun...FIVE DAYS...dun dun dun dun. Dun dun dun FOUR DAYS..."

Dun dun dun dun.

No, a shark isn't approaching. Dun dun dun dun.

"Apparently, it didn't take a brain surgeon to see that KROQ's got a 3+ and that Core AOR's have 1's and 2's," said an informed source. "The feeling is the hole is to play new music. It's not a format that would work everywhere, but in LA..." Informed source goes on, "It's gotta do better than a 1.6."

It is obvious that PD Frank Cody and GM Howard Bloom felt the station had too much history and not enough future. And so, The Change. The Wave. All future and no history.

That night, six of the eight LA TV stations covered the story. The staff, uh, ex-staff, couldn't go anywhere without the press following them. Archival KLOS let all of them on the air.

"We put them on because the human aspect of this was missing," notes KLOS acting PD Kurt Kelly.

PEOPLE magazine got involved. The DJs showed up on the air at KLSX Monday. (Humanity aside, it's just good programming. Remember when Walter Cronkite quit? ABC and NBC went out of their way doing lengthy "tributes" to him. They really wanted to call attention to the fact that their prime competitor was no longer on the air.)

KMET was one of the first--in a business where

being first can be everything. And it was one of the biggest. When a nineteen-year franchise goes away, emotions run high. And everyone has an opinion. We tried to talk to all players, but our calls to KMET management went unanswered. Here then, are the thoughts of involved parties. Past and present.

KMET DJs on the air at KLOS on Black Friday. L to r: Kurt Kelly, KLOS, Jim Ladd, Geno Mitchellini, KLOS, Joe Benson, KLOS, Paraquat Kelly, David Perry, Randy Thomas, Jack Snyder, and Cynthla Fox. Rick Scarry is still AWOL.

THE AIRSTAFF

Jim Ladd, KMET nighttime DJ, who had just come back to the MET from KLOS after sitting out a 90 day non-compete. He had been on for three weeks: "It was pretty strange. It was 'I'm back home! I'm back home! I'm fired?' The emotions are extraordinary here. We have been together every waking moment since it happened. We had an Irish wake on Saturday that was covered by CBS. Today, we just did Mid-Morning LA on Channel 9. We've been on KLOS and KLSX. Everyone's in very good spirits. I'm trying to dwell on the good times.

They told us individually in a hotel room. The Sheraton Premiere in Universal City. When they called, well, by this time, we knew what was going on. Into the room. Howard and Frank. It was short.

We're proud of what we did. We're not freaking out or panicking."

David Perry, KMET afternoon driver, eight years at the station: "When I was fired, [GM] Howard Bloom told me nobody cared. That it was over and they were just now getting around to burying it. I guess I believed him, too... but when I got home the LA TIMES was on one phone, the HERALD-EXAMINER was on the other, KLOS called us to come say goodbye and explain to our listeners. And when we got down there, Channels 2, 4, 7, and 11 were all down there. The next day the Irish wake was at Pat Kelly's house, and the TIMES was there, PEOPLE magazine, and Channel 2 were there. It was after that I said, 'You know [laughing], somebody still cares.' We've been thrust into a media maelstrom. None of us went out and called anybody.

All of us were shocked, but then again, all of us weren't. Through all those program directors (six in the last three years), we couldn't understand why the station was doing what it was doing.

It's hard to think that will never be a KMET again. The one thing that people have to remember is that KMET wasn't just a set of call letters and a frequency, it was a group of people. But the fact that the name is gonna be gone is the sad part.

True

an early clue to the new direction.

Redbeard, KTXQ, Dallas: "I like the attitude and stance that Johnette takes. The lyrics printed for the song 'True' are must reading for anyone who claims to still be in rock and roll. Curiosity calls already" . . .

Lin Brehmer, WXRT, Chicago: "I have serene confidence about Concrete Blonde. 'True' and 'Dancing on the Edge' are the kinds of songs that I don't have to wrestle with, that I don't have to reconsider, that I don't have to listen to for a third time. These are songs that will make a band happen. Hand me that cigar."

Ted Edwards, KGB-FM, San Diego: "Boy, this is a quality record. It was cool the first couple of times and then Bang!! It really hit me on the third listen. Great hook."

TIMBUK 3**

There has been anger, but this is not something we dwell on. We talk about old times--good things, funny things. We say, 'You know what? We can do something better now.'

I was fired poolside. Welcome to the Hotel California. Frank Cody called me up about ten a.m., and he said, 'David Perry? Frank Cody here.' I said 'looks like it's over, doesn't it, Frank?' Frank goes, 'Howard and I would like to talk to you. Can you meet us poolside at the Sheraton Premiere? [Laughter]. So I went in my Don Johnson best. My 'can-see-out-can't-nobody-see-in' LINE 1 shades.

And I went down there and said 'if you guys are gonna fire me at the Sheraton Premiere poolside, you gotta buy me a drink.' We chatted for about forty minutes, they gave me a check, I gave them my keys and I went home."

Rick Lewis, KMET 6-10p DJ, three years with the station: "They brought me back in November of last year. That's why this was such a big surprise. When they brought me back they told me alot of things about the direction of the station. Everything seemed really positive. We thought there might some minor adjustments, but certainly nothing that we wouldn't be a part of.

They told us that they had been out of the station for the last four or five weeks, working on a promotional package so big it had to be done outside the offices.

And I think that might have been the plan at first.

But then, the book came back. I think they said 'whoa.' Then they hired some company to research the feasibility of keeping KMET together. Within a couple of weeks, they came to the conclusion that they had to pull the plug on it. All this happened quickly. Two weeks maybe.

I can't go my entire career getting fired like this over and over again for no reason. This was the second time I've been fired at KMET in one year.

But I feel fortunate to have worked at a place as incredible as KMET. It was a magical place, the kind other stations can't compare to. It's a really sick thought, but I would probably go back there."

Rick Scarry, co-morning host: "I came back to KMET from RKO last July. And the thing that comes to mind how we let KHJ die with dignity. We brought back Real Don Steele, Robert W. Morgan, everybody. All the KMET people, our biggest gripe is that they threw us out with the trash.

Looking back, well, the signs were there. You get those strange feelings. Nobody in the building will look at you anymore. No eye contact. Nobody was in the station. We hadn't seen Frank Cody for weeks. He left a memo that he was on a research project outside the station. They stopped bothering us--boy, that's the big danger signal, right there! Memos and verbal communication ceased.

You get that feeling that something is dreadfully wrong.

The morning that it happened (and we knew something was going to happen), Cynthia Fox called Pat and me about 7:45 a.m. and said that she had been asked to come to the Sheraton to meet with Howard and Frank, we knew we were dead meat. No two ways about it. We picked out some last songs and tried to enjoy ourselves as much as we could.

The minute I walked out of the booth, Howard's secretary told me 'Howard and Frank want to see you at the Sheraton Premiere' and I just thought 'at least that's close to my house.'

I walked into the room, and Howard Bloom was on the bed with his hands behind his head. Cody answered the door, asked me to sit down. Howard started this speech about 'how the cancer was just too deep; we had to cut it out.'

I said 'Howard, I didn't even know you were sick!' I didn't realize for second that they were into one of their management metaphor deals.

Like in yesterday's TIMES. Frank's ketchup speech in Patrick Goldstein's column:

'It wasn't just the bad ratings that killed KMET, it was an experiment involving a ketchup bottle. According to KMET program director Frank Cody, who fired the station's entire staff on Friday as the first step in a complete overhaul, he'd spent months researching ways to revitalize the station. Cody was telling the press last month the station needed to move in a new direction, away from formula radio.

"We made every attempt possible to save KMET," said Frank. "You just don't give up recognizable call letters that easily. We kept wondering 'do we really have to change the call letters?' Finally, I pulled out a bottle of Heinz ketchup, and filled it with French's mustard. Everyone looked at the the bottle of ketchup with the mustard in it and realized that listeners just wouldn't accept the same station with completely new music. The whole thing had to go."

Anyway, the amazing thing about getting fired up in that room was that Howard Bloom, laid on the bed the entire time, never made an effort to get up to even shake my hand or say goodbye.

As I look back on my days at KMET, I think: Hold the ketchup, hold the mustard."

Cynthia Fox, midday, ten years at the MET: "If somebody wrote this whole thing as a movie script and submitted it, they'd be told 'no way.'"

Sam Bellamy, KMET PD 1975-83, (all-time ratings high of 6.9 12+): "Whooya. I'd like to be as candid as possible. I feel very badly for the people over there. It's not as big a shock to me as it is to them, because they were involved in it on a day-to-day basis, but I was on the other side of the radio [Sam is pursuing a new career in a law firm. That's right. LA Law.] and I could hear it deteriorate over the past three years. It was inevitable.

Back when I was PD, the company's leadership was willing to invest time and dedicate itself to results in the long term. Apparently, that attitude no longer exists. It's all instant gratification. There was no plugging in a plan and letting it work. In the past

three years, the audience never knew what it was going to hear when it dialed up 94.7. Every PD got a book-and-a-half and then the station was yanked away from them. I'm not certain "the Wave" is the right thing. I think a new attitude and dedication are.

The talent that was let go Friday, well, anyone would be lucky to have that kind of talent in their market, let alone on one station."

Mike Harrison, WSPR/Springfield co-owner/operator and ten-year METvet and former KMET PD: "First of all, those of us who have had the opportunity to be part of a long story in radio should consider ourselves ahead of the game.

[How would the Godfather of KMET, the late B. Mitchell Reed feel about this?]

He'd look upon it with wisdom. He'd say 'lucky it went that long.' KMET was difficult station to keep going. It didn't have its own level of buoyancy. It took work to keep it afloat. Which made its longevity even more amazing.

I'm sad.

On another level, I'm relieved. This story now goes into the history books and we don't have to suffer with it anymore.

But it didn't have to come to this."

George Harris, consultant and KMET PD 1985: "I don't think the Mighty MET will ever be dead."

WKDF PD Judy McNutt (Prog. Asst. KMET 1986): "In a way I'm shocked, but in a way, I saw it coming. I did tell the people there when I left, that I didn't think it would be happening before too long. Though it's hard to pinpoint any one thing, years ago when KROQ came on, everybody poo-pooed it and that was a mistake. Then LA radio became so fractionalized, that stations stopped playing good songs and started playing halrcuts. It was all downhill from there. LA radio suffers from the 'too hip' syndrome. Too hip to participate, too hip to get out on the street, too hip to find out what's really going on."

KCFX PD Denton Marr (native Los Angelino and KLOS PD, 1971): "It was inevitable. They had fallen on hideous times. I mean, who ever thought that WMMS would go CHR? KSRR? WPLJ? If we can learn anything from this, it's that 'never' is a long time."

TONY BERARDINI KROQ GM

Tony Berardini VP/GM of Infinity's WBCN/Boston has been named to the same position at the company's recent acquisition, KROQ/LA. In other words, he'll manage BOTH.

run radio station with extremely qualified and experienced department heads which makes this move possible. KROQ will benefit from the managerial experience Tony brings has gathered for his years of running WBCN. Infinity Broadcasting looks forward to both WBCN and KROQ continuing to grow under Tony Berardini's leadership."

Berardini is the All-American success story. Hired into WBCN as MD from KTIM/San Rafael in 1978, he rose through the ranks to become GM. Under his direction market dominating Arbitrons and million dollar months have become commonplace.

His start date is, uh, well, he's already there...

DANIEL COME FORTH

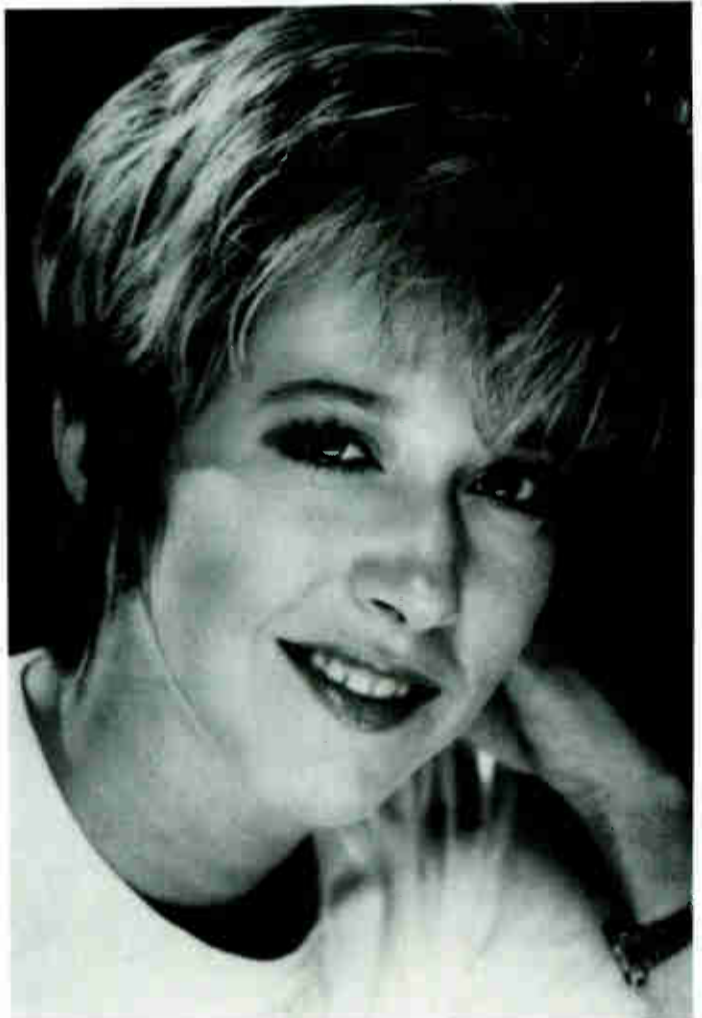

Though he resigned only last month, Daniel Glass is back at Chrysalis. He returns to his old post of VP/Promotion.

"We are really excited about Daniel's positive decision to continue as a key executive at Chrysalis," said Chairman Chris Wright and President Jack Craigo. "We believe that the Charly Prevost/Daniel Glass marketing and promotion team will set new achievement levels for our artists' career growth."

All of this never happened.

STEELETOWN BLUES

Five-year KLOL/Houston vet Dayna Steele has been upped from MD to Assistant PD.

"I feel like I've been at KLOL forever," says the Woman of Steele. She is extremely quick to add, "BUT THAT'S A GREAT FEELING!"

At the same time, afternoon driver Harvey "Dr. K" Kojan is named MD. Both will take calls. And the two will trade shifts (he to midday, she to afternoons).

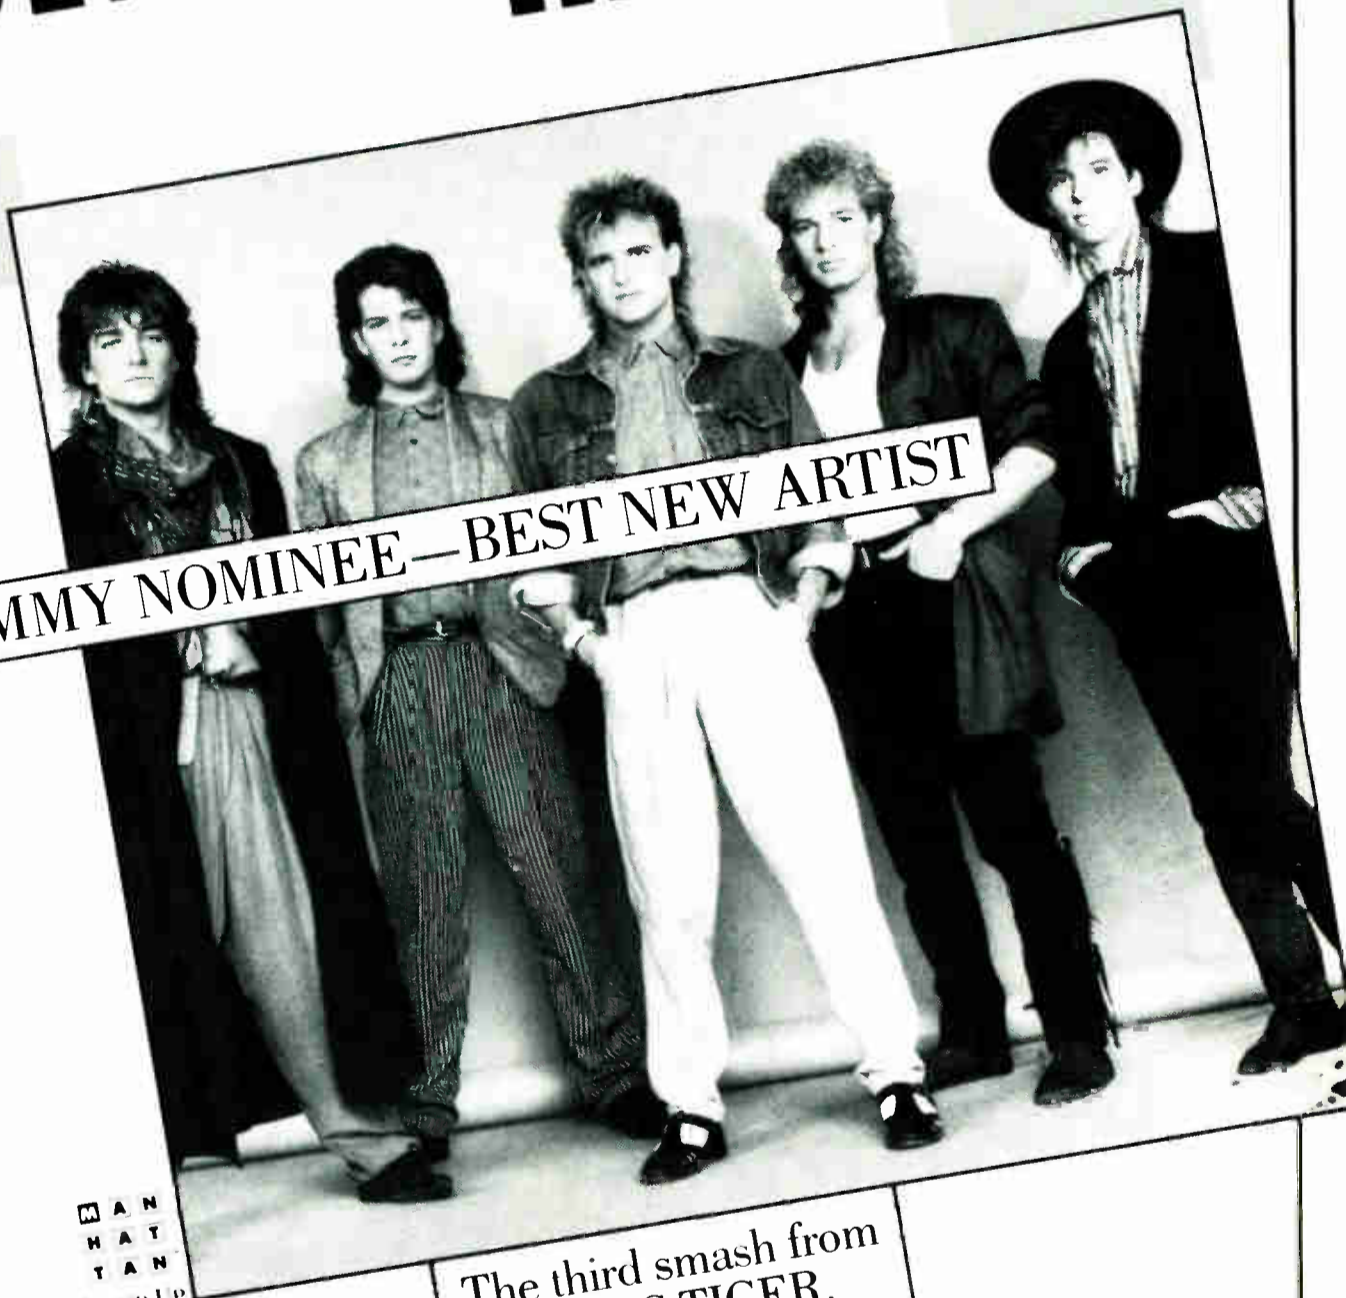

Steele is the rarest of things: A native Texan in a town made possible by Arabs. Before coming to KLOL, she was a music assistant and part of the morning show at the old 97 Rock (KSRR).

LUCZAK TO WCKG

And the hirings just keep on coming at WCKG/Chicago. The jock du week is longtime WEBN/Cincinnati afternoon driver, Michael Luczak.

Welcome to Radio Bliss

"Now that I've done my undergraduate work here in Cincinnati, taking eight years—in true college fashion—to do it, I'm on my way to Chicago for graduate school," quips Luczak.

He sure has the right last name to work in that town.

"What did Mama Luczak know about her little boy's gift of gab?" adds Michael. "I'm goin' up there because I think (PD Tim) Kelly knows what the hell he's doing."

Luczak started in radio while in college at the University of Dayton's commercial AOR, WVUD. He was a part of the crew that produced WKLS PD Bill Pugh and EMI VP Tony Smith.

"I'm sad about leaving WEBN," says Luczak, lowering his voice to near-inaudibility. "So many good people are here. And have come through here."

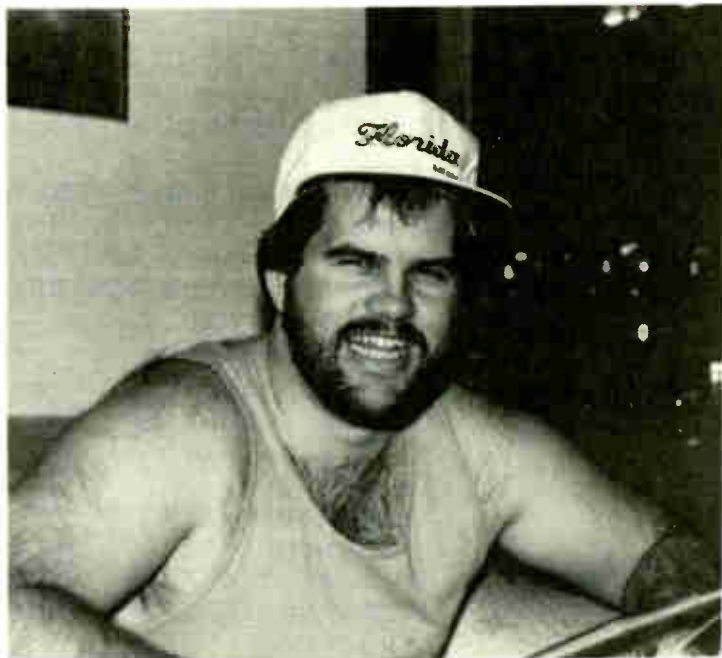

Ooblah di, ooblah da, life goes on.

Luczak's last day at WEBN is the 27th. PD Tom Owens will decide on a replacement next week.

T. LEX

Chris Jones has stepped down as PD at WFYV/Jacksonville, citing his heavy workload as both morning man and program director. The hours would kill a tractor.

Acting PD Lex Staley is already singing the praises of the job: "This gig keeps me off the golf course and that's no good. My handicap has skyrocketed."

Asked about his approach to programming, Lex says, "Have your people call my people. We'll do double digits, babe."

WFNX

WFNX/Boston scored a major upset over the established competition when voters in the BOSTON GLOBE calendar section Ninth Annual Reader's Poll selected WFNX as their favorite Pop/Rock station and favorite FM station.

And if you've ever been polled, you know just how painful it can be.

PD Michael Bright admits, "We've always been very excited by what we're doing here, and it's a real pleasure to know the public is excited as well."

ADVENTURE IN MOVING

Congrats to Elektra AOR guy Jay Hart and wife on the biggest add he's ever called in: 6 lb. 14 oz. Lauren Alexandra.

Perry Stone, from WZOU/Boston, to WQFM/Milwaukee probably for mornings.

Ex-WYSP morning man and syndication producer Sean McKay to WIOQ for part time. Welcome back, podner.

MD Rusty Kimball is out at KZEL/Eugene. New MD is Bill St. James.

New/Alternative KORX/Springfield, Mo. has gone Core according to PD—until—recently, Paul Cannell. Paul, who had two years at the station, can be reached (along with production director Ann Nichols) at 417-883-9748.

New Programs will be releasing their first syndicated show for play the week of Feb. 23. Call 212-219-8144 or write them at 122 Washington Pl., NYC 10014.

WZYC/Beaufort is looking for a morning show. Call PD JT Stevens at 919-728-2019 apes 10 a.m.

Tom Irwin, late nighter at WFNX/Boston, and wife Pam had boy! Christian Dean on 2/3/87. Congratulations, folks.

WOOJ/ Ft. Myers morning guy Ken Brower is now MD, too. Production Director Gene Himmons goes to midday. Middayer Steve Avery goes to afternoons.

KEYX/Phoenix PD Johnny D. has nominated for a Gavin in the Alternative category. By the way, Dawn, Amy and Bill (who have not been nominated for a Gavin) will see you in San Francisco the weekend of the 21st.

WGTR/Miami welcomes Patty Murray to midday from WKDF/Nashville.

KRQU/Laramie GM Ken Keating exits, and GSM John Macki moves up to GM.

Dear Programmer,

For the past couple of years we at CBS have been discussing the viability of reducing the number of our promotional twelve-inch releases. At one time the twelve-inch played an integral part of our long range promotion and marketing plans and also served as a guide to help radio. However, we feel over the past few years this vehicle has suffered from massive over use. In talking to a lot of radio friends the majority concur.

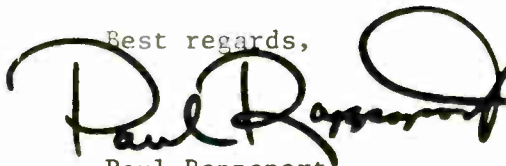

In our desire to be sensitive to this issue the Columbia, Epic/Portrait/CBS Associated Labels will be moving towards eliminating a good part of our twelve-inch releases.

We do feel the necessity to provide you with some promotional twelve-inches in advance, especially in the case of album releases with early singles attached because we know you appreciate the twelve-inch format for your station. This might also apply to some of our new artists whose identities are not yet established at the radio level. However, we will be moving away from the automatic twelve-inch release theory and will rarely be releasing promotional twelve-inches of subsequent priority tracks after an album's release.

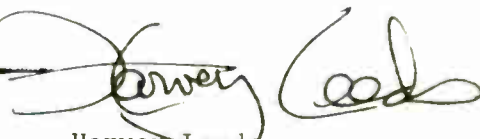

Over the coming months we will be trying some new ways in which to work more closely with you to keep you informed of our singles release schedule and to develop further album tracks. One of these ways will be to reservice you with fresh album copies bearing a sticker indicating the new single choice and it's release date. In order for this policy to be effective we ask that you be sensitive to new track choices and not expect an automatic twelve-inch as the so called "proof" of our commitment. We also look forward to your feedback on any additional tracks you might already be exposing. One of album radio's greatest strengths is it's inherent ability to lead the way in discovering and breaking new tracks.

Over the past couple of months the twelve-inch issue has been a hot topic of discussion. We strongly believe in album radio and we have been listening to your comments. We hope that this effort will help ease the vinyl crunch and will benefit the format, the artists and the record company.

Best regards,

Out Now...

LOVE TRACTOR "PARTY TRAIN" 12"(BIGTIME) A new twelve to note from the Lp "This Ain't No Outer Spaceship", new at 49* this week. You'll warm up to the "Edge-y" guitar break--now at KEYX, KKBR, WHTG, WRAS, WMRV, WMOD, KJET and more.

"SOME KIND OF WONDERFUL" Soundtrack (MCA) For openers, we've got 11 new stations on Flesh For Lulu "I Go Crazy"--easily their most accessible track to date, and a perfect intro for more action on Furniture's "Brilliant Mind". Tune in to an Lp that will hopefully set the precedent for more of its kind. Here you'll find a collection of tracks from some of the strongest trendsetters--get curious

TORCH SONG "EXHIBIT A" (I.R.S.) Here's a band who continue the synth-approach ala New Order in fine style. Laurie Mayer's airy vocals sweep over the dance beat like a warm breeze, so fire up "Torch Song" and you'll know why Brix covered it in Adult Net recently.

WOODENTOPS "LOVE TRAIN (LIVE)" (COLUMBIA) Anyone who's had the pleasure of seeing them live will delight in this first track from the forthcoming EP. A live version of it will jump-start the phones, and when you get a hold of "Good Thing", or "Get It On", you could be ringing out the year.... For those die-hard early fans, the Woodentops acclaimed "WELL, WELL, WELL" Lp is now available on CD! (It sounds mighty fine). Contact John Rosenfelder at Upside Records.

LOZ NETTO "WALKING IN THE DARK" 12" (ATLANTIC) It's time to renew interest in his debut Lp, with a surefire reminder that Loz Netto's innovations cannot go unnoticed. Rhythm is the key here and he's sharpened this dance-fusion piece so fine.

THIN WHITE ROPE "MOONHEAD" (FRONTIER) When you re-spin this Lp, realize why "Not Your Fault" could be the track that makes this dynamic release a considerable priority. I hear mainstream implications beneath their wavering, yet formidable song style. Scratch the surface, and join early AOR believers like KABL, KEYX, WUOG and WGTU.

AIRPLAY ANALYSIS: Chartstars

STRANGLERS "DREAMTIME" (EPIC) Let's take time out to power a track that came up from the depths of a new release schedule that tried to bury it. "Always The Sun" is catered to the airwaves, and sharp ears and foresight told us that. Now at 2* with steadfast play over 40 including KROQ, KRQR, WMRV, WBCN, KTAO, WRAS, WTOS, WXXP, WVVV, KBCO, and KKBR.

PSYCHEDELIC FURS "HEARTBREAK BEAT" (COLUMBIA) It's almost #1 and the album is just about to hit! How about 92 AORs on with many more to come--bank on it. 14 new stations add the single this week, with Heavy play highlights at CHEZ, WLIR, KABL, KJET, KFMH, KROQ, KRQU, KTCL, KUSF, WNDY, KTAO and more.... Even though you'll have the Lp on faster than one could say "Angel's Don't Cry", be sure to absorb "Shadow In My Heart".

C.S. ANGELS "CHASING SHADOWS"
(ISLAND) Even though it's a gentle album, 'Chasing Shadows' has the hook in you with "The Cutting Edge" at KVRE, WEQX, WHFS, WNDY, WXXP, KRIX, KSTM, WVVV, WMDK, WRAS and over 30 more! Bruce McDonald, WFNX, shares ome on his more unique experiences at the station, "Each individual jock approached me (unsolicited) and asked when the Lp would be moved to Heavy rotation."

CHINA CRISIS "WHAT PRICE PARADISE"
(A&M) It's no secret that A&M has a sleeper in "Arizona Sky", as the Lp advances 16*-7* this week. 50 stations now spin the album/CD including KFMH, WEQX, WGTU, KFMU, WRAS, WOXY, WMDK, CFNY, KSTM KEYX, KBCO, KJET, WFNX, WBCN, WTOS and WHFS. Pure upper demo material.

CONCRETE BLONDE (I.R.S.) Reaction will allow the "True" grit of this one to shine. You won't resist, and if you do, you haven't listened. For weeks now, programmers have raved about Johnette's vocals from Hynde to heaven and back again. 12 new believers increase the tally to 77 on "True" and request mentions can be found at WEQX, WMRY and WTOS.

LOS LOBOS "BY THE LIGHT OF THE MOON"
(SLASH/WB) Our 1* entry for week #3 shows no signs of weakening--only the wear and tear your putting on that vinyl. "Shakin, Shakin, Shakes" is still Track and moves into the Top 10 on the Hard Hundred. Through the roof nationwide, as the Lp gains 8* status. Airplay percentage for this section is 100%!

MISSION U.K. "GOD'S OWN MEDICINE"
(POLYGRAM) It arrived on the chart with a vengeance and as it steams 27-14 this week, WMOD, KATP, CHEZ, KSTM WMGM, WRAS and KFMH report new action for "Wasteland". Duane Sherman, WTOS, adds, "It's a strong debut album, with a combination of many musical styles and anyone with progressive sense will pick up on it."

SHOXSIE AND THE BANSHEES "WHEELS ON FIRE" (GEFFEN) On fire is the word, as Sioux bullets to #29 second week. Sioux sparkles even on remakes and her voice is as deep and clear as ever. An album full of covers will do her no wrong.... Duane Sherman, WTOS, says "She's back in action and the phones are starting to ring already." And Ellen McKinnon, WEQX says, "They always have a place on our playlist." 10 new adds this week include WXXP, KABL, KTAP, WMDK, WMRY, KSTM, WBCN, WTOS and WVVV for 26 to date.

MIGHTY LEMON DROPS "HAPPY HEAD"
(SIRE) You must know about the tour--It's evident by the move to 28* this week. "My Biggest Thrill" is now at KEYX, WHTG, WRAS, WXXP, KTCL, WKWQ and WLIR with action on the Lp continuing at KABL, WXRT, WTOS, WEQX, KUSF, CFNY, WUOG and more.

HUSKER DU "WAREHOUSE: SONGS AND STORIES" (WB) Another tour de force, and the timing is perfect. The fan base is out there waiting, and the Lp is being pounded at the college level, with AOR support growing more than ever. "Could You Be The One" is in spin at KQRS, WMOD, WNDY, KFMH, WFNX, WTOS, WVVV, WBCN, KJET, WHFS, KUSF, WUOG, CFNY and more. See 'em on the road now.... They are a live priority.

HIPSWAY (COLUMBIA) With "The Honeythief" a regular radio commodity at this stage, would it be too early to say, jump on "Ask The Lord"! This ala a tip from Jonathan Rosen, KEYX?

Toss it in.... 13 new adds this week reaches a 46 total including WUVA, KVRE, KROQ, KTAO, WMRY, WNDY, WEQX, KOXY, KABL, WUOG, KJET, KRQU and WLIR.

THE SAINTS "JUST LIKE FIRE WOULD"
(TVT) This time around, the Saints are huge contenders to crack any conservative list with the new single. An extensive discography has seen them evolve into a mainstream force to be reckoned with, so I reckon you better check out new action at WHTG, WMOD, KFMH, KJET, KKBR, KRQU, KTCL, WDHA, KEYX, WGTU, WOXY, WTOS and more for a 23 station count early in the game. They've got the conviction, and quality sound that won't go unnoticed. New at 35*.

SMITHEREENS "ESPECIALLY FOR YOU"
(ENIGMA) "In A Lonely Place" (with Suzanne Vega) is the new single that quickly re-enters them back on the chart at 44* this week. It's new at 17 including KVRE, KTAO, WVVV, KSTM, WTOS, WUVA, WHEB, WMAD, KKBR and WFNX. Just goes to show what a consensus track can do...more to come.

Follow Up...

PETER HIMMELMAN "THIS FATHER'S DAY"
(ISLAND) "11th Confession" rose up from this debut quickly, when programmers realized his talent in a listen. Loris Lane, KFMX, says "I can't get this record out of my mind!".... and Terry Hamilton, WNDY, was intercepted at reporting time: "I picked up the phone to make my Hard Report and who was on the other end? Peter Himmelman, who thanked me for playing the record. If you haven't yet picked up on it, the please do. Spin it again and again!".... New at KATP, KRQU, KBCO, KEYX and WBRU.

XTC "SKYLARKING/DEAR GOD" (GEFFEN) One of this year's more brilliant efforts has not let up on airplay, with a new non Lp 12" to boot.... WRAS' Jennifer Grossberndt reports, "It's in the top 5 requests and sales are terrific. I love the whole album, especially 'Super Girl'".... Holding firm at #9 this week with solid airtime at KRNA, KROQ, WGTU, WNDY, KZEL, WMOD, WMRY, CFNY, KUSF, WEQX, WUOD, KSTM, WBCN and more. Super.

BOB GELDOLF "DEEP IN THE HEART..."
(ATLANTIC) "Love Like a Rocket" is taking off with 10 more adds and play at KROQ, KTAP, KVRE, WXXP, KABL, KBCO, KEYX, KFMH, KFMY, KJET, KKBR, KRQU, WBCN, WNDY, KSTM and many more. You don't sit in the top 10 for nothing.... Now at 80* Hard Hundred.

Bubbling Under... The Damned "Anything" (MCA)... Wednesday Week (Enigma)... Andy White "Rave On" (MCA)... "Some Kind Of Wonderful" (MCA)... Ward Bros. (A&M)

The much ballyhooed Australian Made tour not only lost money for promoters, but it also saw one of the musicians collapse onstage at the final show. One of the MODELS' horn players who had been loaned to MENTAL AS ANYTHING suffered a coronary arrest, and is currently hospitalized in serious but stable condition. INXS, JIMMY BARNES, the MODELS, DIVINYLS, SAINTS, I'M TALKING, THE TRIFFIDS and MENTAL AS ANYTHING participated in the \$3.5 million tour. Only 20,000 attended the final show in Sydney, short of promoters' expectations. The poor attendance and one postponed show led to a loss of up to \$1 million for the tour's backers. INXS and Jimmy Barnes agreed to take lower fees for their performances when the losses became evident. Plans for a film of the tour have run into problems, and plans for a double live album and CD have been scrapped.

BOB GELDOLF is among the candidates for this year's Nobel Peace Prize, according to the Nobel committee.

THE FABULOUS THUNDERBIRDS will appear in the spring on an edition of "Austin City Limits". The show was recorded just before the end of 1986, which has seen things "just starting to get good" for lead guitarist Jimmie Vaughn. "I always thought things would have to get better," he says, "cause they couldn't get too much worse." Before the band was signed to its current record label, the band had put its tour bus up as collateral to pay for the production of a record, and the band was playing non-stop to pay its bills. "People want to know if having a hit record has gone to our heads," Vaughan adds. "And I tell them the truth, we haven't had enough time to even think about it."

Pink Floyd's ROGER WATERS is working on a solo album with ANDY FAIRWEATHER-LOW and other musicians he has worked with in the past.

U2's U.S. tour is slated to begin on April 4 in Phoenix, Arizona.

Director Taylor Hackford is interviewing BRUCE SPRINGSTEEN, BOB DYLAN, KEITH RICHARDS, THE EVERLY BROTHERS, LITTLE RICHARD and BO DIDDLEY for his "Hail Hail Rock & Roll" movie.

DON EVERLY of the Everly Brothers has checked out of Vanderbilt University Hospital in Nashville. He had been hospitalized for almost a week, but Everly's family asked that no information be given out on his condition or treatment.

The leader of the Britain's Rainbow Alliance is proposing that CLIVE JACKSON, lead singer for Doctor & The Medics, be the party's candidate in an upcoming election in the London suburb of Greenwich. However, the band has been on tour in Italy and their manager, Andrew King, says that if the election takes place in late February or early March Jackson might not be back in time. If he's not, the party's leader is prepared to ask JOOLS HOLLAND, Squeeze's keyboards player, to run for the post. Holland says he is considering the idea. "I

have an intimate knowledge of the people of this borough," he says. "And I do love elections on the television -- they're my favorite viewing. I have my own swingometer on the wall at home."

DICKEY BETTS, formerly of the Allman Brothers Band, says he's negotiating a recording contract with Gregg Allman's record label. But that doesn't mean there will be a permanent reunion of the Allman Brothers. "I don't think that we will ever lay down everything we're doing and re-group the Allman Brothers Band," Betts says. "But I do think that there's definitely a chance of doing an album sometime down the road, although it's not planned right now." Betts, who wrote a top ten country hit with Mickey Gilley last year, has been working on solo material with producer John Boylan. "It's very Dickey Betts-sounding material," he says. "Very guitar-oriented, very mainstream rock and roll with a blues energy to it." Betts, who appeared on Don Johnson's album, says he declined Johnson's overtures about appearing on Miami Vice. "I'd like to do it sometime, but I want to wait until I've got an album out. If I'm going to do it, I want to help my music with it instead of just going on there and not being able to gain any momentum from it."

According to Adweek magazine, the faster the tempo of background music in a restaurant, the faster customers complete their meal. A survey conducted by Fairfield University in Connecticut found that the average customer takes 3.3 bites per minute when no music is played, 3.8 bites per minute when slow music is played, and 4.4 bites per minute when fast music is played.

The Deafness Research Foundation in New York says it is asking the federal government for "stringent" regulation of noise levels at entertainment events. "It is imperative that a federal law be passed that would neutralize or temper the noise level prevalent in the entertainment industry," says Dr. Beverly Armstrong, of Charlotte, North Carolina, the director of the foundation. Armstrong says that rock concerts in her area "are often followed by a flood of patients to my office. They complain of ringing in their ears, and some are aware of hearing loss. People must be made aware that any noise loud enough to cause ringing in the ears is loud enough to cause hearing loss if the exposure is prolonged."

BON JOVI have recorded some tracks with CHER for her next album.

PAUL SIMON's name has been removed from the list of names compiled by the United Nations of artists who have broken the U.N.'s cultural boycott of South Africa. "Mr. Simon sent us a letter promising he would not play in South Africa," says Amer Aram, senior political adviser for the U.N.'s Special Committee Against Apartheid. Simon had been cited for going to South Africa in 1985 and recording some of the songs for the "Graceland" album.

LITTLE RICHARD is suing two songwriters who contend that they wrote "It's A Matter Of Time (Great Gosh A'Mighty)", which was featured in the film "Down And Out In Beverly Hills". Richard says he and BILLY PRESTON wrote and copywrote the song in 1985. However, SYLVIA SMITH and JOHN SCHULLER claim the song is derivative of one they earlier wrote with Preston, and Preston complains their claim is preventing him from getting any

royalties for the tune. He's asking a Los Angeles court to declare he and Preston as authors of the song.

BRIAN WILSON is working on a solo album. "He's not leaving the Beach Boys, but this is his thing now," says a publicist. Wilson has completed two songs for the Lp.

THE DEL FUEGOS' next album, which will be out in mid-March, will include backing vocals from **TOM PETTY**, and guitar work from **JAMES BURTON**, who has played with Elvis Presley and Elvis Costello.

Since the end of R.E.M.'s Pageantry Tour, **PETER BUCK**, **MIKE MILLS** and **BILL PERRY** have spent a month in Los Angeles as session players on **WARREN ZEVON's** forthcoming album. R.E.M.'s next album will be released in October.

HEAVEN 17's next album will be called "Pleasure Two". We actually recorded enough material for a double album, all but two songs, and we just didn't have time to finish these last two songs so we couldn't get the double album together," says Glenn Gregory. "So what we did was to put all the kind of fast fancy stuff on this album ("Pleasure One"). We're going to record the next album and get it finished hopefully to come out in the summer." Gregory says "Pleasure Two" will be "more slow" and show "a little more weird side to Heaven 17." The band is considering a tour, but nothing definite is set.

GEORGE MICHAEL is rumored to be planning his live solo debut for the International AIDS Day Concert in London April 1. Other stars expected to appear include **WOMACK & WOMACK**, **THE BLOW MONKEYS** and **THE COMMUNARDS**. All the proceeds from the show will be donated to AIDS charities in the U.K. and in Africa. Michael currently tops the British singles chart with his duet with **ARETHA FRANKLIN**, "I Knew You Were Waiting For Me".

One of London's biggest tourist attractions is Madame Tussaud's wax museum, and its visitors have just given **DAVID BOWIE** an unusual accolade. He's been voted favorite waxwork in the exhibition, ahead of Bob Geldof who came in second, Michael Jackson and Britain's royal family.

BOB GELDOP has been offered the leading role in what will be his third movie, "Marriage Of Convenience".

BANANARAMA have been approached by a Hollywood producer to make a feature film based on their own lives.

Island Records has signed **ZIGGY MARLEY**, the 18-year-old son of Bob Marley, as a solo artist. **BUNNY WAILER** has also been signed.

TORCH SONG's new album, "Exhibit A", includes some previously unreleased tracks, as well as some of the band's better known tunes such as "Don't Look Now". Included on the Lp is a version of Steve Winwood's "Can't Find My Way Home".

THE ART OF NOISE's "Reworks" is being released on Chrysalis Records' mid-price line. The album includes the Max Headroom version of "Paranoia" and live tracks recorded last year.

MARTEE LEBOW says it was a childhood neighbor that gave her the impetus to begin songwriting. Growing up in Binghamton, New York, her mother learned that their next door neighbor's son was a record producer from New York City. "I used to write poetry and stuff and just play make-up music, but I never really had written a song," LeBow says. "So my mother tells me, 'Her son's coming to town next week...You better write some songs by then.' And in a week, I wrote seven songs. It wasn't hard, it was easy for me," she says. "Then I got so into it, I just kept doing it." LeBow readily admits being a fan of rockers like John Cougar Mellencamp, Tom Petty, Bryan Adams, and Steve Winwood, though she cites Aretha Franklin as a longtime influence. "That kind of music is what I like," she says, adding that she's been a particular fan of Bruce Springsteen since his early days. "He made a big impact on me," she says, adding that because Springsteen's so popular these days, "it's not as much fun being so into him." LeBow, who was featured in Coca-Cola's "Have A Coke And A Smile" radio advertising campaign, downplays her film and commercial work as "a few jingles here and there." LeBow wrote five of the top ten tracks on her new "Love's A Liar" album, composing them first on piano. But the self-taught musician says she's pleased her new album, recorded at the Power Station, is more guitar-oriented

than last year's "Crimes Of The Heart" EP. "Robbie Buchanan produced it, and he's a keyboardist. So it was a bit keyboard-heavy for me, and this time around we used my band, and we went in with a great producer, John Jansen, spent time with the band, worked everything out and got it to sound right." While her band is featured on "Love's A Liar", you might be able to catch LeBow singing a capella at a New York Rangers' hockey game at Madison Square Garden. It seems the hometown team wins every time she plays.

GLASS TIGER will record a new album in August for release by the end of the year.

PETER GABRIEL was named the Best British Male Artist in the 1987 British Record Industry Awards Show in London Monday night. Ironically, Kate Bush, who duets with Gabriel on "Don't Give Up", was the one to present Gabriel with the award. Gabriel also won the award for Best Pop Video for "Sledgehammer". "I think it's a good experience for a man in his mid-life crisis," Gabriel said of the awards. "I'm enjoying it while it's here." Ray Davies of the Kinks presented the award for Best Female Artist to **KATE BUSH**, who is just beginning to work on a new album. "It's lovely that all those young people did vote for me," Bush conceded, revealing that she's just started to work on a new album. **FIVE STAR** was named the Best British Group in the awards show. Rob Dickins, chairman of the British Phonographic Industry, presented the award of Outstanding Contribution to British Music to **ERIC CLAPTON**, citing his contributions for over two decades. "It took me completely by surprise," Clapton says of the award. The Best International Solo Artist award was given to **PAUL SIMON** by Debbie Harry, who flew to the U.K. especially for the awards show. **THE BANGLES** were named Best International Group. **THE HOUSEMARTINS** won the award for Best British Newcomer and "Top Gun" was named Best Film Soundtrack. "West End Girls" from the **PET SHOP BOYS** was named Best British Single.

And now, the latest music news LIVE FROM LONDON, courtesy of CFNY and our exclusive reporter, LEE CARTER. Lee can be heard on CFNY's "Sunday Music Magazine" program and on "Live From London" aired Wednesday evenings.

The British Record Industry Awards were held on the 9th of February at the Grovenor House Hotel, in the heart of London. The ceremony was hosted by Jonathan King, the presenter of the show that brings American music to the British public on "Entertainment U.S.A.". **MARK KNOPFLER** collected the first award, presented by Robert Plant, for the Best Lp, which was "Brothers In Arms" by **DIRE STRAITS**. The Best Producer award was given by the legendary George Martin. However, the winner, **DAVE STEWART**, wasn't there and sent a video message from the Carriibbean. **THE HOUSEMARTINS** were also not present to collect their prizes for Best Newcomer, the only awards picked by the public rather than the industry. The Top Of The Pops award for the Best Video went to **PETER GABRIEL** for "Sledgehammer". It was presented to him by one of the Top Of The Pops hosts, Gary Davis. In one of the only comments of the evening approaching witticism, Gabriel said sarcastically that now he had something that would take a prized place amongst his garden gnomes. The Best International Solo Artist was **PAUL SIMON**, which was presented to him by Debbie Harry. Best International Group, presented by Luther Vandross, went to **THE BANGLES**. They were all there and looked genuinely thrilled. They gushed into the microphones about how they were deeply influenced by British music. The Best Soundtrack went Top Gun and an honorary award went to **ERIC CLAPTON**. Presented to them by Kim Wilde and Jaki Graham, the Best Group went to **FIVE STAR**, the family soul singers from Rumford, who sound uncannily like the Jackson Five. But despite their derivative material they have notched up impressive gold sales in this country. The Best In Female Artist was **KATE BUSH**, given to her by Kinks man Ray Davis. Kate remained onstage to present the award for Best Male Artist which was, as it happened, her old friend **PETER GABRIEL**, who made the second witticism of the evening pondering that maybe if he put the awards together they might breed. The Best Single went to "West End Girls" by the **PET SHOP BOYS** awarded by Boy George, in one of his first public appearances in a long time. The 1-1/2 hour ceremony was punctuated by performances from Spandau Ballet, Whitney Houston, Level 42, Curiosity Killed The Cat and Simply Red. Later, on the news, all who were interviewed from the music biz who attended were agreed that new blood in music was desperately needed. The BRI awards will be seen throughout the world, due to an agreement between the BBC and Network 10, who for the second year have the responsibility of packaging the ceremony. Last year's drew impressive ratings in the States and Canada. 10 will also start importing "Top Of The Pops" for a special American edition. It's a pity TOTP has seen better years.

A dark shadow has been cast over the plans for One World. One of the event's big patrons is the Archbishop of Canterbury and his special Middle East envoy, Mr. Terry Waite, at press time was still missing, presumed kidnapped, and the organizers of One World are holding back on all details until Mr.

Waite's safe return. However, they continue to assure the British media that the worldwide concert will be going ahead as planned on the 11th of July, with the British contribution running from dawn until dusk at Wembley. No names have been confirmed yet, but a spokesman told "Melody Maker" this week "hundreds of bands have been approached."

British tours aren't what they used to be. Artists who would be obvious box office sellers on one side of the Atlantic find themselves fairly demoralized on the other. From America, for instance, **TIMBUK 3**, one of the Stateside's latest faves, have been playing tiny clubs here. But it seems to have paid off because their new single "I Gotta Wear Shades" is one of the surprise new entries in this week's Top 40.

The **THOMPSON TWINS**, two years ago, discovered a shift of mood amongst British concert goers when then supposedly one of the world's biggest fans, they had to cancel their tour when it was discovered that the venues were going to be less than half full. Now the Thompson Twins, these days tax exiles of these shores, are going to attempt another tour as soon as they unleash a new Lp on us. Better luck to them this time.

IN BRIEF

The **STRANGLERS'** next single is a remake of "Shaking Like A Leaf" from the "Dreamtime" Lp. The 12" features the previously unavailable "Hitman" and a live version of "Was It You" recorded in concert in 1986, in Spain. Thomas Dolby and a TV actor, Timothy Spall, team up as screaming Lord Byron for a single called "The Devil Is An Englishman". It comes from the latest Ken Russell movie "Gothic".

It's finally been revealed to us **THE HOUSEMARTINS** are not who they say they are. Their working-class image from Hull was shaken this week, as it was revealed that all members but **PAUL LEEKON** are working under pseudonyms and come from jolly big houses, in middle-class towns. **NORMAN**'s real name is Quinton.

NEW RELEASES

"Sweet Sweet Pie" is the second single from indie chart fave **POP WILL EAT ITSELF** (chapter 22). Frenetic and crazed, but contains a perfectly discernible melody and is by no means arduous listening. Those who got behind "Move Me" by **THE WOODENTOPS** should like this. "The Right Thing", the new 45 by **SIMPLY RED**, is the funkier, most soulful yet, both infuriating and delighting critics. Sounds like the classic days of Stevie Wonder to me - thumbs up. "A Trick Of The Night" is off the new single by **BANANARAMA**.

Finally, here's a good joke from this week's NME. Scientists at Nottingham University recently conducted an experiment to see if dogs imitate their owners. They locked three dogs in a room with 10 dog biscuits. One dog belonging to an architect, one to a mathematician and one to an A&R man. The builder's dog built his biscuits into an impressive model of the Notre Dame Cathedral. The mathematician's dog used his biscuits to illustrate 17 unnoticed flaws in Einstein's Theory of Relativity. The A&R man's dog rounded up his biscuits, snorted them, screwed the other two dogs and went home early.

Pam Edwards, KGB, San Diego

The **Esquire** record is fabulous, fabulous. Her voice is quite unique falling somewhere between male and female. Everyone who hears the record is intrigued. All of side 1 is superb, including the first cut "To The Rescue".... **Waysted** offers up a melodic hit!! If you can't get past the name of the band, "Heaven Tonight" is a great cut.... We welcome Virgin with an add on the **Cutting Crew**. It's a new sound that makes the grade. This add also gives me peace of mind. Naumann and Plen on my warpath (or my dance card for that matter) conjure up nightmares.... Thanks to **Maria McKee** for a great interviews and an even better show. She's mesmerizing.... Only the shadow knows what will be **KMET's** fate, but nevertheless, it's a sad death. As the **Mighty Met** sputters its last breath, it's time to mourn another once powerful AOR lost.

Tom Starr, WOUR, Utica

Don't get stuck in the popcorn line while the rest of the radio world cashes in on the box office bonanza of "Light Of Day". We've always admired **Joan Jett's** determination to stand her ground and go for the thrills instead of the frills. The song says it all.... **Colin Hay's** "Hold Me" is a song we've come 180 degrees on, and hey, we didn't even go to lunch with him. On first listen, it sounded like **Jimmy Buffett** on safari, but it does have an undeniable hook and a very endearing lyric.... Between **Billy Cristal's** cast of characters hosting the event and the most credible crop of nominees ever, I'm actually looking forward to the **Grammy's**.... Adding new tracks from **Winwood** and **Paul Simon** in anticipation.... **Dennis Connors** got a second crack at the **America's Cup** and brought it home. We'd love to see the format go for the gusto and do the same for **Billy and the Beaters**. "I Can Take Care Of Myself" seemed like such a perfect signature song. We hope it went unnoticed just because **Alpha's** service was spotty. Add this song and you'll be playing a trump card against **CHR**.... Three months ago I'd have thought **Gregg Allman's** chances for a legit comeback were on a par with **Millard Filmore's** in the next election. "I'm No Angel" is a real zinger. Congrats to **Gregg, Caplan** and **Epic** for believing.... We've had to hire a crossing guard to protect a couple of our staffers who insist on genuflecting in front of the **Springsteen** platinum **Jay Miggins** dropped off the other day.

Inessa York, KGON, Portland

A couple of mainstream albums I think are really good this week—that includes **Gregg Allman**. You may not find an AOR runner up to the title track, but don't think there aren't at least 8 other songs on here that will be contenders of a different kind. This is such a jazzy rock album. A real good adult/female album.... Next up: **Lou Gramm**. I can't find any track on there that couldn't be a hit.... And the other one I'm really pleased with is **REO Speedwagon**. Real solid songs here. No surprises but they really have put together some good songs.... And now for my favorite non mainstream album, that would be the **Jazz Butcher Conspiracy**. Why didn't someone tell me about this album. I had to discover it for myself. The next thing you know I'll have to pay for my own dinner.

Ron Garrett, KDJQ, Sacramento

Nothing is so contagious as enthusiasm. It moves stones, it charms brutes. Enthusiasm is the genius of sincerity and truth accomplishes no victories without it.

Glenn Stewart, WHJY, Providence

We'd like to publicly thank the thousands of listeners who voted for **WHJY** in the **ROLLING STONE** Reader's Poll. It's quite an honor to be considered one of the top 15 stations in the country and, of course, we strive to live up to the standard. We'd also like to thank **RS** magazine for changing their methodology and opening up the voting so that many legendary radio stations have an opportunity to achieve recognition.... From **P.D. Ken Carson**: I would like to offer to **RS** my professional expertise in market analysis (i.e. the difference between a medium and a small market).

Jessie Brice, KZRR, Albuquerque

Added the **Barbusters**. I am not a personal fan of **Joan Jett** but I think the song is wonderful. A nice uptempo number we need.... We added **Paul Simon**, which is a must. More great upper demo material. This guy is selling like gangbusters and you can't not add this record if you're going for upper demos.... Other adds include: **Cutting Crew**. Amazing. I thought it was going to be a little too fringe for us but it turned out to be our ideal record.... Also new: Another track from **Lou Gramm** "Time".... Moves: **Crowded House** from medium to heavy. It's getting top 5 phones and it's performing wonderfully.

Wendy Steele, WLVQ, Columbus

Can't wait for our 10 year anniversary party on the 18th. The **Georgia Satellites** will play at our local "Agora", the **Newport**. People are buzzin' about it. We'll all be in tuxes, but not at work the next day!!! Ar,Ar,Ar! We're now on "Battleship Chans" along with "Railroad".... We switched to "Ready Or Not" from "Heartache" on **Lou Gramm**.... **Paul Simon** is happenin'.... By the time this is in print, **David Lee Roth** will have hit **Columbus** and **Lee Randall** will have debuted his spandex outfit. That's gross!

Al Branca, WMGM, Atlantic City

Great music this week starting with the **Cutting Crew** "I Just Died In Your Arms". This track is like a European sports car, sleek but simple with clean lines but fast in the way it grows on you. Great debut from both group and label.... **C.S. Angels'** "Cutting Edge" is an '80's version of "Riders On The Storm".... **Bon Jovi's** "Let It Rock". Those guys are like Jell-O. There's always room for more.... **Hipsway's** "Honeythief" should be a big crossover.... Also on the **Pretenders** "Tradition Of Love" and **Mission U.K.**.... Top phones on **Bon Jovi** "Living On A Prayer", **Sammy Hagar** "Winner Takes It All", **Starship** "Nothing", and **Cinderella** "Nobody's Fool".

Doug Clifton, KBCO, Boulder

The **Gregg Allman**, **Colin Hay**, and **Los Lobos** records are the three best new albums so far this year. We're looking forward to new **U2**, **David Bowie**, and **Little Steven** records soon.... Back for a second chance this week are **Don Dixon**, **Peter Himmelman**, **The Housemartins**, and **Steve Earle**.... I'm very glad to see **MCA** going back for the **Steve Earle** record. "Someday" is the perfect smalltown USA anthem.... **Billy Vera** has risen to new heights with the success of "At This Moment". He's top 5 requests and top 10 retail here. If "At This Moment" is a little lightweight for you, then try "Corner Of The Night".... First week out and **The Venetians** topped our requests.

Lin Brehmer, WXRT, Chicago

With some of our favorite champions of new music resurrecting the sounds and artists of a bygone era, we're looking to March for some great new music promotions. THE FREE BIRD FLIGHT; In connection with the reunion concert of Lynyrd Skynyrd, we'll fly two listeners anywhere in the U.S. to see them. Gas not included.... The DRUM of SIGHS Dream Session: One contest winner will play drums in an actual session backing up James Dewar on vocals and Randy Hansen on guitar. And that's only the beginning wait til the new Asia record gets here. Or is it here already?.... Adds this week include: The Saints. For all the whining I do about bringing back bands from the 70's, these guys are the grand exception. Peter Himmelman, China Crisis, Flesh for Lulu, Heaven 17, Mission UK, Siouxsie and the Banshees, and Gregg Allman.... There's a lot of loose talk about John Hughes becoming the A&R director of a major label. The "Some Kind Of Wonderful" soundtrack is some kind of soundtrack and the Flesh For Lulu track will knock you out.... We're considering five cuts from the new Psychedelic Furs. "Torture" is the track with which I hope to permanently injure some monitors.... I'm beginning to think that I have a solution to the problem of getting a genuinely good song like the Stranglers "Always The Sun" on the radio. Let's tell everyone it's not the Stranglers, it's T REX with Marc Bolan. No wait, he's dead. How about it's Jim Morrison and The Doors. No, no, previously unreleased. No, that's what I'm talking about, it's from the 60's. It's from the 60's.... Congratulations to Tom Irwin at WFNX and to Pam who did all the work.... Also congrats to Dr. K at KLOL. Believe me, this guy taught Ted Utz everything he knows.

Dayna Steele, KLOL, Houston

Lots of adds this week, thanks in part to a new category. It's definitely light rotation but it's not a non-existent category. I guess some stations would refer to it as a test category. For instance, this week's list includes Concrete Blonde, Broken Homes (who I saw a couple of months ago). Their lead singer had more stage presence and charisma than anybody I've seen in a long time, kind of like watching a young Mick Jagger. Those pants were tight!!.... Big Dish is catchy. I like it and think it has a chance.... Also new, the Psychedelic Furs. I'd like to see them break open a bit more in the AOR arena.... In that regard, any AOR station can't go wrong with Robin Trower. He's another really strong image artist. That and the Joan Jett are my two favorite adds this week.... I'd like to give a big thank you to RCA, although I can't remember any names. I was in Washington, DC Thursday night, serving the Democratic National Convention Selection Committee barbecue and Lone Star beer and Blue Bell ice cream. I ran into Bruce Hornsby and The Range and all of his RCA reps and they just made my night. Even ran into Charlie Minor. It was good to see everybody and special thanks for the hospitality.

Jim Trapp, KZEL, Eugene

Changes at KZEL: Rusty Kimball exits to pursue outside consultancy.... Long time Northwest AOR talent John "Nippy" Napier joins the morning show with Debi Starr. And the new music director is Bill St. James formerly with KINK-FM and KQFM, Portland. He is also the 6-10pm announcer. Music calls accepted Monday and Wednesday 12-3pm. Bill is also the host of "Step Ahead", KZEL's two hour new music show Sunday nights from 8 until 10. He earnestly craves your best new product.

Erin Riley, WMMR, Philadelphia

Hell of a debut for Virgin Records, huh? What more could you ask from the Cutting Crew. From the sounds of this one song, it sounds like they've got it all. I hope they all sound this good.... We had a couple of great shows come through town this week. Thursday night Dave Edmunds was here and a rocking good time was had by all. As a matter of fact I nearly turned myself inside out from dancing. Thanks to Herb, Steve and Burt and, of course, Dave for the interview the following day.... Saturday night brought us the return of Bruce Hornsby and The Range. A very entertaining show. What I didn't expect to see was a guy playing an accordion and telling jokes. No, it wasn't the opening act, it was Mr. Hornsby himself and it got a great reaction from the crowd.... We added another track from Steve Miller which we like better, "Living In The 20th Century".

Greg Torrington, CHEZ, Ottawa

After a late '86 release, 8 Seconds' Lp has now found its second wind. Although not strictly a CHR band, it appears that CHR might be out-scooping AOR again with the song "Kiss You" now bulletted for the third week in Billboard. Don't overlook this band. The Lp "Almacantar" is very deep for AOR and is charted on virtually every Canadian radio station with solid sell-through and retail. Be sure to see them soon with Wang Chung.... And on another note, CHEZ is celebrating our 10th anniversary on March 25th and we're looking for celebrity well wishes. Just for the record we pronounce our station CHEZ as "SHAY" (like Shea Stadium). Please say "Chez 1-0-6." Send it to me at CHEZ, Suite 509, 126 York St., Ottawa, Ont, Canada K1N5T5.

Dale Miller, KATP, Amarillo

Wow! Where are all these great sounds coming from? Another great week for us. Check out Little America. This record is going to explode.... Also red hot are Mission UK, Peter Himmelman, Woodentops and the Leroi Bros. from Austin.... Special thanks to Bubba Wayne from MCA for taking me to meet Alice Cooper. Thanks to Alice for being just like I knew he would be. REAL. See ya next week - same KAT time, same KAT Channel.

Brew Michaels, KEZE, Spokane

Gregg Allman's "I'm No Angel" is a great comeback record in the style of Joe Cocker's "Shelter Me". Gutsy, passionate and aimed at the those upper demos who still remember. We move it into hot this week.

Joe Skare, KFMQ, Lincoln

REO Speedwagon's "That Ain't Love" continues to be Top 5 on the phones so we've added two new tracks: "New Way To Love" and "Variety Tonight". These guys have been around a long time but still sound as good, or better than, ever.... Jason And The Scorchers score again with a killer follow-up to "Golden Ball And Chain", "Shotgun Blues".... My favorite new song of 1987, with honorable mention to Gregg Allman, is Lou Gramm's "Midnight Blue". We're featuring his "Ready Or Not" Lp this week and we've added the title track.... Speaking of Gregg Allman, "I'm No Angel" is #1 phones this week.... Jason And The Scorchers and The Fabulous Thunderbirds played a great show in Lincoln Sunday night. Our thanks to all involved and special thanks to Jason Ringenberg and T-Birds' Jimmy Vaughan and Fran Christina for stopping by the studios.... I'm off for the slice and dice treatment this Friday. Major knee surgery, so I'm out of commission for a week or so. Send money!

Wow! A rare picture of Diamond Dave with a girl! Wonder how this ever happened! WAQX MD/midday jock Lorraine Rapp backstage in Syracuse.

Jerry LaChelt, KGRQ, Casper

Rob Jungklas' "Make" is an invigorating piece of rock with great lyrics.... The Psychedelic Furs fits. It has the right sounds.... We are considering the Concrete Blonde for next week.

Dave Stone, KJOT, Boise

I added the Concrete Blonde even though everybody at the station hates it. The receptionist, bookkeeper -- everybody. We tested it and even our listeners hated it. But Dave The Radio Slave has a gut feeling about this song, and I'm going to add it because I'm the boss. That's why they pay me these minimal bucks -- because I make decisions. I really believe that once they start hearing this song on a regular basis, they'll like it. I liked it right out of the box.

Jeff Carrol, KLB, Austin

The Eric Clapton album is loaded with super solid tunes. And if you miss "Miss You", your ears and hands are real slow.... Eddie Money used to surprise me with his hit-filled albums. Now we almost expect it and he still delivers.... Not even Virgin can say no to the Cutting Crew. It's very fresh and today sounding.... The musicians of Esquire combined with Trevor Horn make a musically interesting debut album. "To The Rescue" is an intriguing song that is sure to ring the phones.

Jack Green, KLPX, Tucson

There is a big buzz this week in the new Esquire Lp. I haven't seen the staff this excited about a new band in a long time. If you haven't gone on this yet, do it now before your competition does. It's a hit!.... REO Speedwagon has, in my estimation, proven that they're on the road to rock and roll recovery. Let's face it, the last few albums from these guys have been lackluster, but this new one is chock full of old-time REO! For a little change, try "Variety Tonight" and "Over The Edge". Welcome back, guys.... I don't want to forget Little America. "Walk On Fire" is a terrific tune. If you haven't heard it yet, give it a listen. Your audience will thank you.

Alan White, KILO, Colorado Springs

Let's talk about "To The Rescue" from Esquire. It's the cut we're going for because it will fill the gap until we get a new YES release.... We fully endorse Lou Gramm's new album "Ready Or Not" and hear lots of potential hits.... Going on a lot of secondary tracks: Tesla's going through the roof and we respond with "Little Suzie", as is Robert Cray which is Top 5 retail here in our market.... We're real close to the Concrete Blonde. It's just a question of room.

Lorraine Rapp, WAQX, Syracuse

Once again 95X is #1 in Syracuse 12+, according to the latest Birch. Our excitement is compounded by anticipation of Rock Auc '87. Thank to all those who contributed thus far. The auction benefits the Central NY Food Bank (established by Bruce Springsteen when he played the Carrierdome in 1985). There is still time for your artist or group to be represented. Express all last-minute donations to: WAQX/Rock Auc, 401 W. Kirkpatrick St., Syracuse, NY 13204.... Nice to see the three musketeers of record promo recently: Jerry Blair of Chrysalis, Jay Miggins of Col. and the beautiful man who eats fishroe and yellowtail for dessert, Dave Bouchard of Epic.

Ron Nenni, KOME, San Jose

Larry Miles takes on Music Director duties as Assistant Program Director at KOME. Larry has been an integral part of the programming department for the past three years and I'm fully confident in his abilities.

Mike Boyle, WDHA, Dover

Thanks this week to Columbla Records and Jerry Lembo for bringing out **Colin James Hay!** We had a nice visit and, as promised, we did not bring up The America's Cup victory to Colln.... It probably was a bad time of the year last year to try to generate some excitement over a new band; there was a glut! So now, we're glad to re-add **The Venetians** on Chrysalis. "So Much For Love" deserves your time. Spend time with the rest of the album, too. You'll find other tunes you'll like as well, if not better! I dragged my heels a little on **China Crisis**. I don't know why! It's on now and I know it will perform well! The video may have changed my mind on this one. Check it out.... **Patty Smyth** has always done well here. "Never Enough" had to be an automatic.... When MTM released their 4-song Ep last year, I was a B-I-G fan of **In Pursuit**. This year with the release of an entire album, I'm an even bigger fan. Keep believing, Dede and company. You've got something here.... Have you heard this **Saints** record yet? "Just Like Fire Would" hit me right away! Can't remember the last time the hype lived up to the end result.

Curt Gary, WEBN, Cincinnati

Look for a **Little America** on WEBN next week. If my ears don't fool me, these guys have listened to a **Twilley** album or two. Sounds like real potential here.... Upon second listen, **REO** is a predictable but well crafted record. Their best in some time.... The obvious **Foreigner** connections are blowing **Lou Gramm** out the door.... Even though the concert is a month away, **Bon Jovi** mania has taken over Cincinnati.... I'm kicking myself in the pants for missing **Hank Jr.** in Dayton.... Good luck to **Michael Luczak** who is leaving our little family for the Windy City.

Kelly Cruise, WEGR, Memphis

I'll have to agree with **Jim Sellers**. The new **Benjamin Orr** solo Lp could be one of the best albums of '87. I finally got to listen to it all the way through and it has a mesmerizing quality. Much like the first **Cars** Lp.... We're moving up the **Crowded House** as fast as we can before **CHR** grabs it up. It's such a killer song.... Ditto for **Santana's** "Veracruz" — a wonderful mid-winter break.... The **Cutting Crew** is an add out of the box and we're now three cuts deep into **Robert Cray's** Lp.... Since we lost our female morning sidekick, our morning jock, **Tommy Smith**, has been taking live auditions for a replacement over the air. The response has been so great, we're taking live auditions at a local club Thursday night where some talented person will win a job!

Robin Mathieu, WBLM, Lewiston

Virgin debuts with a hit. **Cutting Crew** is our pick of the week and an out-of-the-box add. Thanks to **Enigma** for the **Smithereens** CD. "Especially For You" is continuing to blow out of the stores as quick as they can stock it.... By the way, **Don Dixon** consistently pulls Top 5 phones. Why wait any longer to add it?

Jim Steele, WIOT, Toledo

For the record, yes we have signed on with **Jeff Pollack** but no, we have not dropped **Jon Sinton** and no, we have not dropped **B/A/D/E**. We have an allstar staff and we want the allstar coaches. Remember **Bobby Knight** wasn't the only coach on the bench at the Olympics.... The **ROCKLINE** meter reader registered a ten last night with **Lou Gramm** which sparked us to adding "Ready Or Not", the first of at least four airworthy tracks.... The hippest thing to hit our airwaves this week was **Hipsway**. Deal with it

now or watch it blow up in your face. This band is the **Outfield** of 1987.... I don't want to sound picky 'cause I know CD service is not what it should be, but why are most CD's made with the single version instead of the Lp versions? Just wondering!

Chris Emry, WIYY, Baltimore

The wind chill factor may be below zero, but I'm soaking up the warmth of Mexican sunshine with **Santana's** musical trip to "Veracruz". This song has got it all: **Carlos's** classic guitar riffs, **Santana's** trademark percussion, blues harmonica, even a little techno funk topped off with the return of **Buddy Miles**. It's a great combination.... I now consider myself one of the converted: **Robin Trower** is not a fluke.... 18-34 males and 18-24 females love "The Final Countdown". It's one of our strongest songs on call out. The end result: **Europe** to heavy!

Steve Becker, WKFM, Syracuse

We recently did an excellent tie-in with **NBC Entertainment**. We took some listeners down to NYC for a tour of the NBC studios and a chance to see a live taping of the #1 TV show, **The Cosby Show**. Many thanks to **Patti LeMon** and **Pam Newman** of **NBC** for all the help in this promotion.

Alison Stewart, WBRU, Providence

Psychedelic Furs boom into heavy this week, followed by **Gregg Allman**. Both are former **Master Blasters** and have been eliciting good phones.... Adds this week include **Peter Himmelman**. This is a singer, songwriter, artist who is definitely an original. If you're not quite sure about it being rock and roll and you're hesitating on a new artist, remember two words: **Bruce Hornsby**. **Cutting Crew** puts **Virgin** on the map. This song has a fine Euro sound and it's quality to boot.

POWERFUL.

Michael Prince and Alex Miller, Atco, 212-484-6400 It's time to get Reckless. Time to get down to the "Nitty Gritty". Check out the Front Page picks, listen to the track "Nitty Gritty" and you'll see why programmers are playing Reckless out of the box. It's produced by Mark Mendoza and J.J. French.... Eddie & The Tide, one of the Bay Area's most important and respected rock bands, is back with "Weak In The Presence Of Beauty". Last year, Eddie & The Tide's debut yielded the well remembered track "One In A Million". This year's first release has us going weak in the presence of beauty thanks to the lush production by Keith Olsen. Eddie & The Tide's forthcoming Lp is entitled "Looking For Adventure".... "We Came To Rock" is the rally cry for Brighton Rock. "We Came To Rock" is powerful anthem rock and isn't there room on your list for one of these. Phone reaction from stations playing Brighton Rock has been strong. At KDXR, Jeff Turley says, "The minute we played Brighton Rock, the phones went off the wall.".... Please don't overlook Idle Eyes' 12 "Love's Imperfection". The A side edit is a tasty piece of power pop.... If you have a metal program, Man O War's "Blow Your Speakers" is true metal. Digitally recorded, don't overlook Man O War's core following.... Is it true that two of the best programmers in Florida are on the move? Ron Diaz to Shangri-la and Michael DeFonzo to Hawaii? Or was that China?.... Since you did. thanks for reading.

Jeff "Needle Me, Needle Me" Cook, Elektra, 404-344-5080 Hi, there again, radio rockers! Do you know what an Elektra rep likes more than anything? It's airplay! Yes, sweet airplay. Why there's never enough to satisfy that CRAVING we have, you might even say we're vinyl JUNKIES. We need that airplay FIX and personally I don't care how much you NEEDLE me. Go ahead, I don't mind, NEEDLE me, NEEDLE me. And here's a list of records you can do it with. The Georgia Satellites "Battleship Chains". This second track is now Top 15 at AOR while at Top 40 "Keep Your Hands To Yourself" is headed for #1. With sales on the album at almost 800,000, we'll accept no excuses from album radio on "Battleship Chains". It's in the GROOVE so go ahead NEEDLE me.... Ben Orr's "Too Hot To Stop" is just that. This track is now top 20 and requests are heating up. If you're not playing it, it's time to put the arm down on it!.... Coming this week: Get ready for Dokken's "Dream Warriors" from "Nightmare On Elm Street". Believe it or not, Dokken's "Under Lock & Key" was Elektra's #1 best selling record last year at the RCA Record Club. Dokken is massive with your audience. Save a SLOT. The Housemartins "Happy Hour" is working and more stations every week are coming to the party. Give it some SPINS and watch what happens.... Whoops, I almost forgot there's one more late add. One Lauren Alexandria Hart. Congratulations to the happy parents Jay and Mary Ellen.

Ron Sorenson, KBLE, Des Moines

I am truly impressed with Gregg Allman's album. "I'm No Angel" is first class from song selection through performance and production values. Certain to top our chart.... We played Billy & The Beaters seven years ago when Alpha first released these records, but what the heck? Both Billy & Rhino deserve the shot, so we'll move the Beaters from lunar eclipse recurrent back to full time status.... Cutting Crew's "I Just Died" will absolutely be a bigtime record. I got the same musical rush I felt upon first hearing Spandau's "True" or "Who Can It Be" from Men At Work. GIVE ME MORE!!!

Ivar Hamilton, CFNY, Toronto

For those of you who read this space a couple of weeks ago, Julian Cope's extended remix of "Trampoline" is definitely worth considering if you felt the original version didn't cook enough. The second version certainly does and is a worthy followup to "World Shut Your Mouth".... Last week CFNY premiered exclusively "The Cost Of Loving" from the Style Council album of the same name. This should be the Council's biggest to date. Now, if they would only tour North America.... The Housemartins continue to be a top 3 request item, we are now 6 cuts deep. If you can get the CD, it contains 17 tracks.... Significant airplay action this week comes from the Mighty Lemon Drops, Camper Van Beethoven, the CS Angels ("Cutting Edge"), The Smiths ("Shoplifters") and local act, Pursuit Of Happiness. Pursuit Of Happiness is, without a doubt, the biggest buzz band Toronto has seen in years. Last week's showcase had A&R personnel from every major label on both sides of the border in attendance. WEA has picked up the current fave single "I'm Adult Now" for immediate re-release distribution. For service contact WEA Canada at 416-291-2515.... New acts to watch for with religious sounding names: The Christians' "Forgotten Town" on Island UK, and finally The Bible "Mahalia" available on UK indie.

Tom Marshall, KFMQ, Albuquerque

Little America has got what it takes to emerge as a major band of '87. Their music is built on the legacy of great American bands of the 60's and 70's. It's honest; it's from the heart. I had the opportunity to see them live about a year ago and they showed me that not only are they committed, they also enjoy sharing. If you believe in developing new artists, and were there early for Bryan Adams or Huey, then give these guys a shot.... Rock 108 also gives the nod to Cutting Crew's "Died". A haunting hook that sounds better with each listen.... Thanks for recent visits from Dick Merkle of A&M and Michael Brannen of Atlantic. Always good to see our Denver friends.... For the hoop fans, we're sending winners to LA for Valentines weekend to catch the Lakers and Celtics at the Forum. It's a preview of the championship.

John Rosenfelder, Upside/Logarhythm, 212-925-9609 Just a note of thanks to those stations chubby enough to play **Fats Comet** especially **WFNX**, who supported **Fats Comet** and **Che** from the beginning, and new supporters **KROQ** and **WLIR**. If you haven't heard **Che**, please give me a call. It's a new sound and it's happening.... Coming up next from **Upside/Blueside**, the comeback of **Charles Brown**, "One More For The Road". It features the single "I Cried Last Night". On your desk this week!.... California, here we come. It shouldn't be too Hard to have a good time.

Mike Marrone, WHTG, Asbury Park

We haven't received any ID's from anybody. Please don't forget them! "This is _____ and you're listening to **FM106.3**, your rock alternative... Up to Power rotation this week goes a record I almost missed, **Broken Homes** "Steeltown". A great song and I feel like a jerk for not playing it earlier.... Don't let the same thing happen to you with the new **Julian Cope** single, "Trampoline". It wouldn't surprise me at all if some brain surgeon at **PolyGram** realized they have two **Julian Cope** albums that were never released in this country that are great and put together a compilation now that he's a famous pop star. It would be a welcome addition to our library since both our copies are worn out. I think I'll have to move to the **Ritz** at the end of February. Within three days, appearing there will be the aforementioned, **Mr. Cope**, **Camper Van Beethoven**, **The Mighty Lemon Drops** and **The Chameleons**. (I may not survive that week.).... New and noteworthy: **Little America's** "Walk On Fire" (and irresistible hook); **Wednesday Week** "Missionary"; the **Andy White** album; **Flesh For Lulu's** "I Go Crazy" (it's about time they had an American release); and try the **Dream Syndicate** "Drinking Problem" from the B side of their new single, it's tremendous for a Friday.... One final note, the **Cutting Crew** "I Just Died..." is finally out in this country. That was our #1 Power track in September. This song will be a huge hit. So play it!.... Also **Los Lobos**, "Set Me Free" is just tearing up the phones. I think it blows the single away!... "Don't Dream It's Over" is the song that will not go away. Every week since September, it has been our #1 Most Requested song! Of course, we'll probably hear on one of those other FM stations, who finally added it last week, how it's an exclusive! This kinda shit really pisses me off. But have nice day anyway.

Rick Panneck, WAPL, Appleton

We've been seeing extremely good sales on the **Alan Parsons** album--especially on compact disc. I'm curious to see whether this will hold up over the next few weeks.... **Joan Jett** and **Michael J. Fox** return bigtime with "Light Of Day". Maybe this will start a trend--I'm waiting for **John Travolta** to team up with **Iggy Pop**. Could **Sly Stallone** and **Peter Gabriel** be far behind?.... Our request sheets have seen an increase in **Ratt's** "Dance" track. Obviously, this is from **MTV** airplay, and with a platinum sales base, we're re-adding the track.... And finally after weeks of inflicting torture, mutilation and all around abuse on **Brian**, **Concrete Blonde** comes through.

Bruce McDonald, WFNX, Boston

Random notes from the Under-ground: For a couple of weeks the **Beastie Boys** have had the unusual distinction of being the Most Requested, the most hated, and the fastest selling record on our playlist. Our staff is evenly divided on the subject. I can't remember when we've had a record that caused such reaction among audience and staff alike.... **Lin Brehmer** hit the nail right on the head last week with his comments on **Matt Johnson** (The The). We've had consistent Top 10 phones on "Infected" since its release and the Lp is selling like crazy here in Boston. It also happens to be our #1 record this week.... We've managed to come full circle on the **Housemartins** by re-adding "Happy Hour", a track we started playing in August. After six months of playing the **Housemartins** every day, it's very rewarding to see the rest of the Northeast catching on to the most overlooked Lp debut of last year.... **WFNX** was recently voted the #1 Rock/Pop station and the #1 FM station by the readers of the **Boston Globe**. We were also voted the #1 commercial station by the readers of **Boston Rock**. Challenge your listeners!

Loris Lane, KFMX, Lubbock

Wes wants me to hit y'all up for artist ID's! The basic line is "This is _____ of _____ and you're rockin' with **FMX**".... Or "This is _____ of _____ and you're listening to real rock **FMX**".... Get creative if you feel like it. Our address is **KFMX, 5613 Villa Dr. Lubbock, TX 79452**.... I can't get that **Peter Himmelman** song out of my mind! Check out "11th Confession".

I'm extremely impressed with the "Some Kind Of Wonderful" soundtrack. I thought "Something Wild" was an incredible soundtrack for '86 and although one out of every ten probably stinks, I think that this album offers some of the most exciting new music for 1987! Furniture is incredible—check out "Brilliant Mind". From Jesus and Mary Chain to The March Violets, this one will be hard to top, musically. Most programmers will go crazy for "Over The Top", but those with sense will realize what a great soundtrack this is.... **Thin White Rope** have gone from wimp to wonderful! Check out "Not Your Fault" and the title track "Moonhead"..... I don't know why I'm surprised by this but I really like **Andy White**, "Rave On". It's so infectious and the lyrical out put is so fast that the political overtones are not as strong as anticipated.... I'm pleasantly surprised with the **Wednesday Week 12** and the album for that matter.... I haven't given up on the **Feelies** yet—listen to "Slipping Into Something", especially for AOR's leaning towards 70's sounds.... Another killer Lp is the **Stranglers**. The second track at KEY 100 is "Big In America" and "Nice In Nice" is also terrific.... I'll be playing the **Damned** a lot! They finally made it click without **Captain Sensible**, and "Anything" is solid!.... Record Industry, watch out! **Faith No More** is now on a label with major distribution and mark my words, the remix version of "We Care A Lot" could be a real sleeper. Look for it soon on **Slash Records**.... Thanks to Michael Schnapp for having Jimmy from **Murphy's Law** call in live on Sunday, February 8th. Jimmy was a good interview and I'd like to say that if you think the **Beastie Boys** are "young, white and snotty" check **Murphy's Law** on **Profile Records**. Yeah Yeah. Incidentally, the green record comes packaged in a real New York pizza box!.... We're looking forward to co-presenting the **Human League** and **APB** at the Mesa Amphitheater, March 1st (the first outdoor show this year).... And finally, band name of the week: **Psychotic Turnbuckles** from Australia.

Duane Sherman, WTOS, Skowhegan

It was an amazing week for releases and I really had to do some soul searching! A fine new album from **The Damned**—the boys look healthy, wealthy and wise. Watch for the cuts "Psychomania" and "Gigolo" to be AOR tracks.... Congratulations to **Virgin Records** on their first rock release, the **Cutting Crew**. It looks like there's a big future in store for this cherry of a label.... **Siouxsie And The Banshees** are back in action again, and the phones are starting to ring already. I wonder if Dylan heard this song and what he thinks of it.... **Wednesday Week** on **Enigma**. Sending a pre-release cassette really hard to put me in the mood to add this record.... And please don't overlook this new live version of "Love Train" from the **Woodentops**. THIS my friends, is what AOR radio is all about in 1987.... I'm also excited about this new **Athens** "Inside Out" compilation. A chance to hear **R.E.M.** doing the **Everly Brothers** classic "All I Have To Do Is Dream"! The idea of this record is to show you that there's more to Athens than **R.E.M.** You'll hear great bands like **Pylon**, **Love Tractor**, **Kilkenny Cats** and **Dreams So Real**.... And this week for the first time ever—**WTOS** is giving **Hank Williams Jr.** some airplay. If we can do it for **Dwight Yoakam**, we can do it for Hank.... And don't overlook **Flesh For Lulu** from "Some Kind Of Wonderful".

Terry Hamilton, WNDY, Crawfordsville

I picked up the phone to make my report, and who was on the line but **Peter Himmelman**. He wanted to thank me for playing his Lp "This Father's Day". "The Joke's On You" is his favorite cut, and we're playing that also. If you haven't yet picked it up, then please do it and spin it again and again. Then move right on to regular rotation!... Top 5 Phones: **Georgia Satellites** "Battleship Chains"; **Beastie Boys** "Fight"; **Don Dixon** "Praying Mantis"; **Kate Bush** "Experiment IV"; and **Mighty Lemon Drops** "Other Side Of You".... **Housemartins** Update: We wish we had the import but we're still on "Anxious", "Deep" and "Freedom" with good rotation -- the staff is crazy about 'em.

Mike Corcione, Relativity, 718-995-9200 Ok, gang, we're so close with **Robyn Hitchcock**, I can taste it. What it tastes like, you'll have to find out for yourself though. **WMRY**, **WZEW**, **WTCS**, **WQZK**, **KLPI**, **WPGU**, **KZAM**, **KDEY**, **KVNM**, and **KABN** have added **Robyn** and the taste tests are coming in positive. Call me if you need Lp's, cassettes or CD's.... Also, watch out for "Les Miserables"!

Dede "Kitty" Whiteside, MTM, 615-242-1931

The Hard Report sampler this week features "Only For You". It sounds great, give it an ear. **Golden Kitty Awards** this week most certainly go to **KUPD**, **KZAP**, **WDHA**, **KTCZ** and **WBGK** for their golden ears and support for **In Pursuit**. We're very excited at **MTM** especially due to the listeners' response from stations that added "Only For You" in the last two weeks. The video is also cooking in fact, due again to early positive listener phones. **Hit Videos USA** is programming **In Pursuit's** clip in power rotation which is every four hours. The last band they did this with was a new group with very little radio exposure at the time called **Europe**. Also thanks to **MTV**, **Night Tracks**, and **Top 40 Videos** for their super national support.... Hope you all had a Happy Valentine's Day. Play that was "Only For You". MEOW.

Jeff Naumann, Virgin, 213-278-1181

Virgin Records is now officially on the map with our first release. The **Cutting Crew** is blowing onto radio with #1 Most Added everywhere. Thank you, album radio for your early support. You'll have the full **Cutting Crew** Lp on February 19th & 20th, and what a killer Lp it is.... You'll also be receiving the first US release of the **Killing Joke**. Please listen to the track "Sanity" from one of the many sampler cassettes you should all have by now. **Killing Joke** is already well known in College and Alternative radio from Lp's available as imports. **Killing Joke** has given us an Lp which is their most commercial to date and it fits into the mainstream of any album radio station.... Last but not least, for all you alternative minded stations, look for **Heaven 17**. The track "Contenders" is a cooker.... Other **Virgin** releases that will be coming are: **The Other Ones**, **Balaan And The Angel**, and a veritable smoker from **Gary Moore**. So be prepared for more amazing music from **Virgin**.

Richard Crowley, RYCO Promotions, 818-756-2348

A big thank you to **WXXP** for adding the **Rave-Ups'** cuts straight into heavy.... Special message to **Bird**, "True"! **Concrete Blonde!!!!** If you haven't already, please take a good listen to the lyrics. Your audience can and will identify. This is a very special song worthy of special considerations....R.I.P. **KMET**.

Tom Schepcke, KISS, San Antonio

Cinderella's "Somebody Save Me" is sure to be a hot one.... Vinnie Vincent came to town for the first time and put on an excellent show in San Antonio. I was so impressed with the show and attitude that I'm going back on "Bad Attitude". Also "Back On The Streets" is a HOT track. Watch it.... Love the new **Patty Smyth** single and am waiting for the Lp.... **The Poison** record is burning up and MTV is kicking it in too. We've been on it for a month and the kids are eatin' it up.... We were on "Too Hot" from **Ben Orr** and if you're looking for another track, try "In Circles"...**Little America** is HOT. The most exciting thing I've heard this week. It has 80's vision, but with a rock sound. Can't fall. You can't describe it, but you can't get enough either.

Kevin Vargas, KWHL, Anchorage

The Anchorage market is a lot more complex and competitive than when KWHL signed on back in the fall of '82. Through four years the Whale has won through consistency and by being a mood function service for our audience's lifestyle. On behalf of the entire staff, a special shout out and thanks to our fearless leader **Carter B. Bradley** and consultant **Al Peterson** for guiding KWHL to a fantastic Arbitron and phenomenal Birch. Pod power is alive and well at this rock and roll radio station.

Larry Dunn, WLIR, Long Island

Our #1 record in rotation this week is **XTC**, "Dear God". Not too bad for a non Lp B side. (It was Screamer back in January).... One of my favorite new songs this month is "I Go Crazy" from **Flesh For Lulu**. This is, by far, their best single to date. One of the more exciting pop songs to come along since the **Romantics** "What I Like About You".... We're having great success with the **Housemartins** track **NOT** on the current Lp. "Caravan Of Love" is only available as an import and is commanding excellent prices. Pretty amazing that WLIR added a **Paul Simon** record. Even more amazing is the **Steve Thompson** remix of "Boy In The Bubble". It's great and only shows what a tremendous record "Graceland" is.... Screamer Of The Week: **The Smiths'** import, "Shop-lifters Of The World Unite".

David Anderson, WMAD, Madison

New music hours are Mondays and Fridays, 11A til 2P Central.... We have a new part timer and his name is **Eric Schill** and he comes from **KSQY** in Rapid City. He arrived with a bag of hockey pucks and one change of underwear... I'd like to thank **Tom Teuber** for reminding me about two important holidays coming up this week. Monday is **Lincoln's** birthday and Wednesday, **Cybill Shepard** turns 37!!

Greg Mull, WXRK, Ft Myers

I'm wondering why MTV doesn't play the **Concrete Blonde** "True" video. They play "Still In Hollywood" instead. "True" feels great. Her voice is seductive.... **Cutting Crew** is my fave of the week. Could be a multi-format record.... **Crowded House** is one of the hottest records to hit our format in a while.

Robin Mutchler, WZYC, Beaufort

Lately, my local reps have sounded like they were promoting me on eating utensils instead of bands, but what the heck. I needed a break so I took out **The Spoons** and the **Big Dish** and discovered a tasty new musical snack. You owe it to yourself to do the same. Bon appetit.

Wayne Summers, WRCN, Long Island

CD or not CD. I'm not convinced that the average person listening on a car stereo notices or cares about the difference. It's an image appreciated more by us than our listeners. Do you really believe someone will change stations because one plays more CDs than the other? I don't. I say let's just give them the most quality entertainment we can and concentrate more on the entertainment factor. Something is lost when a rock station's main image thrust is "Hey, we're all CD". Big deal! Make me laugh or make me angry. Make me say "That's cool." I would be willing to bet that there are many examples of stations which dominate markets and play no CDs. I just think the whole thing is overblown so go ahead and play your CDs while I give them the luxury mega-mix 12" and let's see who wins

Patti Martin KMBY, Monterey

The first annual Monterey Film Festival was last weekend. The only film that had a standing-room-only crowd was the one KMBY was involved with. It was the 20th anniversary screening of **Mamas & Papas'** **John Phillips'** and **Michelle Phillips'** "Don't Wear Some Flowers In Your Hair". We jammed in the theater and then again at the party afterwards. Also, **Jesse Colin Young** and the **Greg Kihn** band played. We had over 700 people at the fairgrounds for the bash.... Musicwise, been listening to the **Red 7** advance cassette. I liked them a year ago when I saw them live and the music on this cassette sounds very strong. Pay attention to this band.

Ellen McKinnon, WEQX, Manchester, VT

WEQX added five things that I think are really outstanding. We love the Lp by The Damned and added four cuts, as well as "In Dulce Decorum" which we have been playing. The soundtrack to "Some Kind Of Wonderful" is in with four strong tracks (check out Lick The Tins and Flesh For Lulu and an actually hummable tune from Jesus And Mary Chain)... Cutting Crew and Wednesday Week are both going to be huge and there is no question why.... And, finally, Siouxsie And The Banshees!!! They can always count on a place in our playlist.... When you read this, I'll be on vacation. Our comments next week will be contributed by Howard Glassman. Prepare to meet a stat in the making.

Kim Alexander, WHCN, Hartford

It's been six weeks on the job and I'm frustrated. There's so much good new music out there, it's too bad we have to introduce it to listeners in little trickles to have it properly absorbed. I hope to soon find space for the Psychedelic Furs, Paul Simon, and so many others.... At home I love the Golden Palominos, Martee Lebow and Peter Himmelman.... Back in the real world, the hook of the month award goes to the Cutting Crew. Our listeners will love it.... Check out the Lou Gramm Lp. We're going with "Ready Or Not".... Can't wait for Genesis this weekend.... I hate to pat myself on the back, but I KNEW Crowded House was going to be big. This week we put our money where our mouth is and move it to heavy.

Catfish, WHMD, Hammond

Thank you for the increased CD service.... Please check out Concrete Blonde and Psychedelic Furs. The Furs is a very sympathetic track.... Hipsway is a dance track we're not afraid of. It brightens up our station's sound.... Smithereens' "In A Lonely Place" sounds like a cross between Elvis Costello and Sade. It replaces "Behind The Wall Of Sleep" and now Catfish is in a lonely place.... Considering In Pursuit and The Housemartins.... The Barbusters is testing very well and is a definite add next week. Keep on truckin'!

Virgil Thompson, WIXV, Savannah

We're getting very close to the weekend of March 14th and our 1-year anniversary as "nothing but rock and roll 1-95". We need and want ID's. Please call us at 912-897-1529, day or night, operators standing by. We want to hear from anybody and everybody and if you call you WILL be remembered.... Gregg Allman's "I'm No Angel" is making the old Allman Brothers fans light up the phones. We're talking people in their late 30's to their mid 40's who are requesting this song. The single goes to power with other cuts to soon follow.... The first few listens didn't throw me, but each time I hear Concrete Blonde's "True" I wish it was much longer than its 2:58.... And, finally, it's very satisfying to see a project like Robin Trower's "No Time" go so far. The phones were there from the start and now it's selling quite well. I'm glad this one didn't slip away just because it wasn't on a major label. And all you label people, remember those ID's, call, call, call!

Dave Fortney, WRUF, Gainesville

Okay, Joe, I admit I wasn't happy with Gregg Allman, but I finally heard the whole Lp. "Angel" has grown on me and the remake of "Cross To Bear" is a knockout. Another one we can't say enough about is Lou Gramm. "Ready Or Not" sounds great and

"Midnight Blue" is ringing our phones. By the way, thanks to Danny Buch for "Midnight Blue" crayons. The walls haven't been the same since...and, boy, is Mom angry at me for doing the TV screen.... We've been on Robin Trower now for two months. I love the tune and so, apparently, does everyone else.... Dave Tezak of Capitol gets credit for saying "Crowded House" to me. Big. And I'm not dreamin'. Happy Valentine's Day.

Jack Anthony, WKWQ, Columbia

Countdown to 90 airtime on the new tower: two weeks. They're stacking steel this week. The STL is in the mail. Just in time for Wednesday Week.... Okay, so Don Dixon is the pop producer of the '80s. Another slam dunk for Don, although I think the Bangles' comparison has been unfair.... I must say I'm glad to see so many new acts gaining widespread acceptance. Now maybe AOR can move into that long, sorely needed forward direction. Even as late as last summer, the charts were cluttered with warhorses of rock & roll's past. Sure there was some good stuff in there, but there was a lot of drive to match. Granted Classic has some shelf life. It's nice to know that bravery is no longer considered unsafe. The future has arrived.

"I lost my license, now I don't drive." But he does do morning drive, campers. Joe Walsh was the guest DJ on KISW/Seattle's wake up show from Parker's Nightclub. Standing l to r: DJ Jan Williams, Ol Blue Eyes, DJ Tami Hagar [and you thought it was 'Sammy'], Music asst. and co-host Mike Jones, GM Beau Phillips, and Rick the Bass Player. Kneeling: Alliter Dean Carlson, AE Chris Ackerman.

Ted Habeck, WMRV, St. Louis

Once again, WMRV brings St. Louis tomorrow's rock stars today at yesterday's prices! Concrete Blonde is coming in to do a show for us for only \$5. We're also bringing yesterday's rockers back. The original Vanilla Fudge and Rare Earth will be in town soon for a WMRV show.... I'm sorry to hear of the death of KMET in Los Angeles. There was some serious air talent there and most of them will land on their feet. That station holds a lot of fond memories for me. Love ya. Let's have lunch.

Pam Brooks, WPDH, Poughkeepsie

Funk is king! Santana it's not exactly, but "Veracruz" and "Freedom" are hot. I'm cranky and irritable and it's not even that time of month. However, my spirits are considerably brightened by this song and I didn't even like it the first time I heard it. But I'm a sucker for a great bass line so I've been won over. True to form, the phones are hot and "Veracruz" debuts at #11 on our Top 12 at 12.... I've got the shakes so I have to go curl up with LOS LOBOS to warm up by the light of the moon.

Aris Hampers, WLAV, Grand Rapids

Hats off to Virgin Records for releasing Cutting Crew's "Died In Your Arms". I heard it on Import last fall and thought it was a smash. I kept waiting and wondering who would finally put it out. It's my favorite record so far this year.... Also tested five Lps on my new music review over the weekend, played three cuts from each (as usual) and the phones were strongest on the Ward Bros. and Blue Yonder.... And to those of you who didn't believe in KBC's "America", just for the record, it's still #1 phone requests.

Cathy Down, WLNZ, Lansing

Hooray for Hollywood! Can you believe that Hollywood is 100 years old? A century of glitz, glamour, stars and sizzling scandals makes you wonder if the future can carry on such a legacy. But if you take a look at the premieres this week, it might just change your doubts. Paul Simon's latest gets into a serious story line, much the same way that Travolta was in the TV movie, "Boy In The Bubble".... The first attempt from the Cutting Crew "I Just Died In Your Arms" definitely won't end up on the cutting room floor, and should kick off Virgin's U.S. debut in sparkling style.... Bon Jovi provides yet another happy ending with "Never Say Goodbye". The Laser critics give all three the highest rating of 4 stars and a place on the Laser playlist (much like the Oscars, but better).... Meanwhile, the Hollywood Walk of Fame may have to add a few new star blocks if the phones keep burning at the rate they are for Don Dixon, Deep Purple, Los Lobos, Georgia Satellites and Stevie Ray's "Willie The Wimp". With these box office smashes and premieres ahead from Peter Wolf, Def Leppard, Steely Dan, Bowie, Fleetwood Mac and U2, looks like Hollywood will be around to celebrate its bicentennial birthday!

Christina, WPLR, Hartford

Radio people are so positive about the Cutting Crew's "Died In Your Arms" that ignoring it would have been silly. So now that we've all added the record, can we see what they look like?.... No one's "Hip" can "sway" as fast as this little ditty does. Tune into your neighboring CHR station and hear how good the "Honeythief" sounds. Then kick yourself for not adding it sooner and playing it more times than they do.... Excellent early reaction to the Gregg Allman, Los Lobos, Colin Hay, Joan Jett and top sales on Robert Cray, Eric Clapton, Europe and Deep Purple.... We have a lot of fun with Bruce's "Respect Yourself". The Lp is a top 10 seller and with 80% HBO viewer saturation in this market, we're going to hit coming "Right Up". (It was featured all through the special). Go on, have some fun.

Mark Williams, WWZU, Williamsport

There's absolutely no reason for any rock & roll radio station not to be playing Poison or Brighton Rock. Poison's "Talk Dirty To Me" - what a record. Take a hip band, fix them up with a powerful video, put them in heavy nighttime rotation and you've got a top phoner. Poison puts the bite back in rock radio.... Brighton Rock's "We Came To Rock" is getting great response here. It's got the hook of a good rock anthem, but moreover it's not just another kid chant song. Two fine musicians and vocals make this track stand apart from all the others. Check the Lp for other strong tracks, especially the ballad. Thanks to Pat Milanese and RCA.

Bob Welch, WQBK, Albany

Congrats to Michael Plen and his fellow Virgins. The Cutting Crew was the easiest add we made this week.... Gregg moves up to heavy. Tied for #1 requests after 1 week of airplay.... Crowded House requests are starting to kick in along with sales. So that one moves up to heavy also.... Getting real good responses to the Housemartins.... A projection next week is "Always The Sun" by the Stranglers.

Keith Taylor, WQMF, Louisville

Greetings from the Derby City. Everything is just hunky dory. Getting ready to do the most outrageous contest with our 7-12 midnighter Tony Kurre so come on up and eat a bucket full of worms.... "Somewhere In A Lonely Place" is a fantastic upper demo track.... Siouxsie And The Banshees sounds real good with "Wheel Of Fire" and still can't get enough of the Cutting Crew's "Died In Your Arms". Sounds like the CHR's will pick up on this one pretty quick. And if I don't see you in the future, I'll see you in the pasture.

Bird, WXXP, Pittsburgh

With all the great product that's out now, decisions are becoming difficult. However, we're happy to report that the Paul Simon record and/or CD is working well in our progressive format. Congratulations to Paul from a new fan (that's me).... Special thanks to Fred Schneider of the B-52's and Joey Ramone of the World Famous Ramones for phoning in to the stations. By the way, after touring parts of South America, the Ramones get ready to take Pittsburgh in Mid-February.

EXCITING.
