RECORD OF THE WEEK

Judas Priest, "Johnny B. Goode", Atlantic.... Yeah, we know. Judas Priest is on Columbia. Well, they've sure got a lot of nerve giving Atlantic one of their strongest tracks ever. And didn't **Rap** and **Rocky** have their fun torturing Geffen with "Rockin' Pneumonia"? Now turn-about's fair play with this soundtrack title tune and **Flash** and **Danny** are gonna romp. It takes balls for any band to tangle with such a familiar set of riffs, but in this instance the Angel of Arrangements kissed the Priest on the lips--and I think you'll agree that Rob and the Boys inject just the right rhythm and melody changes to really make the song all their own--at least for the 4:36 it's playing. This rendition is sleek, powerful and clearly multi-format, so listen like you mean it. They've got a hit here....

Kingdom Come, "Kingdom Come", Polydor.... First, updating this week's action on "Get It On": How about still stronger request action--with the count now up to 74 Top 5 mentions. Gotta love 22 rotation increases and a 13-11* HH move, too. It's heavy at 52 of 146 currently reporting, a percentage you know will increase momentarily. And how eagerly is the album anticipated? We understand **WRIF** gave away advance retail coupons with Harmony House, and the initial run of 500 went immediately. And my goodness, they're even primed for it in Omaha, as **Joe Blood** reports, "Strong #2 phones here, with the majority of phones wondering when the album will be in the stores. They want more".... So--give the people what they want, starting with "Living Out of Touch" and "Hideaway"....

The Del Lords, "Judas Kiss", Enigma.... Though I would have walked across the street (especially if there was a Bud in it for me), I'll also side with **Russ** in having had only a passing appreciation of this band--until I heard this song. Now, about a hundred listens later, I'm totally convinced they've come across with their career maker. The pieces of this tune fit together just perfectly--from the stinging guitar to the driving, vaguely Eagle-esque rhythm to the intelligent anti-crack lyric to Benatar's background work and hub Neil's studio touches. Simply put, this is as good as rock with a rural accent gets, and easily the leading candidate in my most improved category so far this year....

Robert Plant, "Now And Zen", EsParanza/Atl.... The most explosive album liftoff this year? Easily. With the single riding high at #1, Robert plants an additional five tracks on the Hard Hundred--obviously a lot more than was required for that #1 debut. In order of preference, "Tall Cool One" struts up with 91 adds and the week's highest 28* debut. And as predicted, those signature squeals on the tail end are already ringing those phones to the tune of #12 Most Requested nationally. "Ship Of Fools" looks good with 47 adds and a 50* debut, followed by "Helen of Troy"'s 25 adds and 69* entry, 14 adds for "Dance On My Own" and "The Way I Feel", and a half a dozen reports for "Billy's Revenge" as well. **KBCO's Doug Clifton** asks the inevitable question, "Who needs an imitation when you can have the real thing? Robert has pumped new blood into his sound by putting together a new band, and the fact that Jimmy Page helps out on two tracks is a big plus".... **WWCT's Paul Nelson** agrees, "Well, we have heard all the would-be contenders for the Zeppelin crown and now we have the real thing. Led Zepelin is the past and Robert Plant is the present and future".... As **WMMR's Erin Riley** puts it, "It's great to see that when Robert speaks out against Led Zep soundalikes he has the music to put where his mouth is".... From **KILO's Alan White**, "No holding back on this superb album. 'Tall Cool One' is as close to a mega classic as there ever was".... **Andy Preston, KPOI**, "Robert proves beyond a shadow of a doubt that he's one of the most creative forces today. Critically, commercially and in the opinion of his peers, he will stand proud with 'Now And Zen'".... **Carter Alan** comments, "I'm foaming at the mouth over this record. I was a huge fan of the first three solos but this simply floors me"....

New Play Priorities

George Thorogood, "Born To Be Bad", EMI/Manhattan.... Now here's the kind of road sign it's impossible to miss. George's new 12" should hit your desk this week--but in the meantime we're looking at 18 before the fact adds (including **KSJO**, **KBCO**, **KYYS**, **WCCC**, **WLVQ**, and **KFMG**), and 33 more (including **WNEW**, **WDVE**, **WCMF**, **WRIF**, **WMAD**, **KFMQ**, and **KQRS**) who are already in. This is straight down the middle anthemic Thorogood--and an obvious smart move to follow up the success of "You Talk Too Much". Up 66-60* on the Hard Hundred....

Dweezil Zappa, "My Guitar Wants To Kill Your Mama", Chrysalis.... Although it's natural to want to hate anyone under twenty with Dweezil's media profile, you've got to respect his talent--and you know those early years as Frank's kid were no bed of roses. Talk about an intense Dad. Luckily, great chops have something to do with genetics, and on top of getting the looks in the family, the Dweeze ain't no wheeze in the playing department. And when he leans in to a bonafide closet classic like this ditty from "Weasels Ripped My Flesh" (?), there are just too many reasons not to give it a shot....

Robert Palmer, "Sweet Lies", Island.... The film from which this label's last Palmer track comes is scheduled for May release--but that didn't stop **KSHE** from popping "Sweet Lies" on the Island sampler weeks ago--though that play went unreported. First listen may find you swimming around in the complex and swirling mix--but by the third pass this one will get you, guaranteed. Look for fast simultaneous action on the CHR and AC fronts, too....

Joni Mitchell, "Snakes And Ladders", Geffen.... Every building block of a great Joni Mitchell song is here and sounding better than ever. Or maybe it's just that she's been so long between instant listen radio projects. The guitar, the beautiful interplay with **Don Henley**, and an uncluttered vocal hook that harkens memories of those Court and Spark salad days. Make mine avocado....

MSG, "Follow The Night", Capitol.... Now that we've seen good solid play on two tracks from the album, get ready for this session's strongest power ballad--already up and rolling on the likes of **KISS**, **KMOD**, **KFMG**, **WLZR** and **KSQY**. Schenker fans are notoriously active, and this is the finesse showcase that will drive them nuts, and we definitely prefer Mr. McAuley's voice in this invitingly different register. Beautiful CD too, guys, and a definite collector's item with that logo on both sides....

Nick Lowe, "Lovers Jamboree", Columbia.... Forget the traffic--we're talking a great first week here. The Nick and Dave show notches up 33 total adds, including KPEZ, WXRT, KSHE, WEZX, WHFS, WLAV, WNEW, WXRT, WXXP, KLBj, WRIF, KZAP and **KBCO**, where **Doug Clifton** comments, "The Lowe/Edmunds combo sounds great again. This one jumps out of the radio".... Ditto **WRIK's Mike Scott** and "Ever since 'Switchboard Susan', Nick has been one of my favorite artists and his new one really jumps off the dial".... New at 94*....

3, "Talkin' Bout", Geffen.... So far, the new trio looks terrific in every department but requests--and at the rate play is filling in, I'm sure it won't be long before we're logging in more than the two top 5 mentions we picked up this week. Then again, maybe that's just a function of rotation, with most of the play in the medium-light area. We are happy to report 10 increases, including KATP, KNCN, WONE, WIBA, KSQY and KFMU, as well as a nifty 23-18* airplay gain....

James Taylor, "Never Die Young", Columbia.... We've been talking about the really bullish retail on this record for several weeks now--and we urge you to heed the advice of **WPYX's John Cooper**, who added it out of the box. **John** reports, "James is top 5 sales locally and has advanced to heavy rotation with no negatives, only positives". 8 other reporters hip up with adds this week, including KATT, WHMD, KATP, WCCC, WIZN and WMJY, with KMOD, WBAB, WLAV, WOUR, KBCO and WDHA among those already in....

TAKE TWO

Peter Dinklage, "I Feel Young Today", Island.... Rock radio is notoriously tough on second tracks--and as major fans of Pete's, we're really encouraged by the quick support on this deserving deuce. Note new air on 11, including KJJO, WLAV-FM, WTPA, WEGR, KSQY, WAQX and WTPA, and heavy play on KBCO, WKQQ, WMAD and WXXP. Be motivated by the fact that it's our second longest HH gainer behind Bruce, moving 98-78*, with play on 25 to date....

White Lion, "Tell Me", Atlantic.... Though it will soon be time to power up the double shot here, we would like to point out that "Wait" is still in great shape request wise--with 28 top fivers. KLOL, WKLS, WIXV, KSQY, WZEW, WZZQ and WIMZ upped play, and it's still sitting pretty with 38 heavies. As **KEZO's Joe Blood** puts it, "After being a doubting Thomas early on, lo and behold, White Lion is #1 phones this week and top 15 sales". You'll deal with "Tell Me" in time--and we'd like you to know that WLLZ, WQFM, KJJO, KRZQ and KEZO are just several of our reporters who just couldn't wait. From **KFMX's Jeff Ivan**, "A word to the wise. Get on 'Tell Me' before it goes monster"....

Pat McLaughlin, "Wrong Number", Capitol.... Having seen Pat's blistering set at Jimmy's in New Orleans this past weekend, I'll gladly testify to this tune's pulling power--but you didn't have to be there to get squared away on this project. Here's **WRIF's Bruce McGregor**, "We really like this record in the 'Now for something completely different' category. Don't let the tempo scare you. Three listens to this thing and it's etched in your brain".... **WPYX's John Cooper** agrees, "'Wrong Number' blew me away. It will get immediate play on our Sunday night blues show and full time play isn't far away".... From eyewitness **Pam Edwards**, "Pat is an artist who'll be able to touch a lot of nerves. A cross between Steve Miller and Van Morrison, McLaughlin transmits raw energy and passion and his band was superb. Great to see Ian McLagen playing again".... And we might add, great to see Billy Bremner bending them in such an intimate venue. First week action includes KLOL, WRIF, KATT, KMOD, KZOQ, WDHA, WHTF, WTPA, WHFS, WWTR, KZEW, KATP and KPEZ....

Bryan Ferry, "Kiss And Tell", Reprise.... In our last report we talked about the single scoring Bryan's best ever out of the box start at CHR--and this week he did even better. It's looking more and more like he'll have his first big pop hit--and with this format's unflagging support to date, you'd be nuts not to cash in--especially if you're after upper demos. It's new on WQFM, KLBj, KLPX, WOUR, CHOM, WVVV and WKWQ, and currently heavy on 20, including KBCO, KROQ, KRXQ, WBCN, WLAV, WNEW, WNOR and WRXK with KBCO, KROQ and WNOR all moving up. As **WQFM's Dan Hansen** says, "With Bryan a rock icon, you can't ignore him. The women love him, too. He always adds a little savvy to your playlist".... 49-44*....

Icehouse, "Electric Blue", Chrysalis.... What a week! Try 18 increases, including KYYS, WFYV, WIMZ, KLOS, WRIF, KLAQ, KTYD and WLAV. There's plenty of powerplay there, too--with KYYS, WLUP, WFYV, WNOR, KFMX, KLPX and WHMD topping a list of ten--and 61 more listening heavy play. That's better than half of those now playing in heavy to power rotation. One of the strongest movers inside our top 20, 15-12*....

CHARTSTARS

Jerry Harrison, "Rev It Up, Sire/WB.... This week finds Jerry's latest stronger still in requests and rotations. "Rev It" is up on 20--including KGB, WKDF, KROQ, KILQ, WKQQ, WNOR, WDHA, WOUR and WHTF, with power status at WLUP, WQFM, WPLR, WNOR and WKQQ to name a few--complimenting heavy play at 52. Solid, eh Jackson! New on KISS, KDJK, KGGG, KFMG, KRIX and KATS. Naturally, that cooks up a special kinda Hard Hundred jump, 16-15*--right in the part of the chart where those yards don't come easy....

Joe Satriani, "Satch Boogie", Relativity.... Joe's instrumental breakthrough is still well ahead of the peak based on our research, too. Witness the 7-5 Most Requested momentum--thanks to 26 Top Five reports. We show increased rotation on KJJO, KDJK, WDHA, WAQX, KLBj and WLZR, with a heavy share of air on 14, including KDKB, KFMG, KJJO, KOME, KSJO, KWHL, WPLR and WQFM. Take a look at that 28-26* chart action, and start thinking about some companion play on "Surfing With The Alien", already on KGB, KLOL, KOME, KRZQ and WBCN....

Rick Springfield, "Rock Of Life", RCA.... Rick rocks his way into another underline at 40*--as AOR play paces a torrid Top 40 build. WLWQ, KTYD, WBYP and KDJK are new to the party, with 7 more play-ups, including KJJO, KSQY, WFYV, KFMH, WRUF, WBLM and WZCY. Now heavy at 20, including KBPI, WKQQ, WPLR, WRXK, WTPA and WBLM. A track whose usefulness to you increased with positive plus audience response should be that much more useful to you now that multi-format exposure is a given....

Lita Ford, "Kiss Me Deadly", Dreamland/RCA.... Before we get to Lita's radio stats, be advised that MTV reports the new video is one of their most active since Whitesnake's "Here I Go Again", and it's our considered opinion that's a function of song as well as spandex. After all, check the phone build at radio--with KBPI, WPLR, KATP, KISS, WDHA, WYNF, KQDS, WAQX, KNCN, WSTZ, KACV and WPLR all reporting it Top 5. Airplay wise, it's new at KSQY, WAOR, and WZZQ, with ups from WRIF, KMJX, KNCN, KTYD, WHEB, WXXP, and KFMH. **HJY's Glenn Stewart** comments, "Lita is selling fairly well and is pulling some calls. It's hanging in against the heavyweights, definitely doing better than I expected".... Bulleted at 42*....

Yes, "Final Eyes", Atco.... This project has more moves than a televangelist and this track is firing up for a solid run at the top third of the chart. A six place jump up the Hard Hundred and adds on WLLZ, KEZE, KISW and KYYS show continued strength for the band that practically invented the cinema genre back in the '70s. Increases to Power at KLBJ and Heavy players WDIZ, WMJY, WWRX and WEBN are another indication of the longevity of Atco's Big Generator push. A 38-32* hike on the Hundred and a full court press on the road to rave reviews and we could be writing about this album until the general election....

David Lee Roth, "Damn Good", Warner Bros.... Look at that 9 place streak from 19-10* and get the smoke out of your eyes. With the first blast from Dave's lp beginning to cool, "Damn Good" is picking up where "Paradise" left off. The musical change of pace is finding widespread support and the station count shows 22 increases in play including Power play on the Loop, WFYV and WNOR. New play on quality calls KLOS, WMAD and WLLZ keeps things lively for this track while phones are doing a meltdown at 21 reporters including WOUR, where Tom Starr chimes in, "Roth's 'Damn Good' is generating much greater phone response than 'Paradise' ever did"....

Foreigner, "Can't Wait", Atlantic.... New players WZEW, KMBY, WKLS and WFYV ante up and the pot is getting mighty attractive. Indicators are that high rollers from coast to coast are ready to put it all on the line for this one. Heavy usage by KBPI, KLOL and KQRS line up with Power spins at KAZY and KISS for a winner takes all assault on the HH 44-37*. Top five phones follow airplay on WAAF, WKDF and WKFM and limit-busting increases at KISS, KQWB and KJJO makes this one play like a high end flush....

HARD ACTS TO FOLLOW

So, "Are You Sure", EMI/Manhattan.... Keep an eye on this act. The call letter count and building regard slots them in as the premiere new adult artrockers on the street--and the current play count is bolstered by many reporters who tell us they're actively working on finding room--after Plant digs in, that is. Just look at the new airplay--with KLOS, KLOL, WNEW, KROQ, WMAD and WBAB topping the list of 9. It's currently on 62, with ups from KFMH, KFMU, WDHA and KSQY. More majors on board: WLLZ, WQFM, WBCN, KYYS and KXRX. 61-58* this week--excellent performance overall....

Prophet, "Sound Of A Breaking Heart", Megaforce/Atlantic.... The White Lion success story has distinguished Atlantic in terms of the label's ability to mine that pop metal crossover lode--and Prophet continues to develop along the same lines. They've got a 56* gain this week with adds at WTUE, WTPA, WAPL, WBLM, KBAT and KMBY, with KISS, WDHA, KDJK, KJJO and KMJX upping. Now on 58, including WQFM, KBPI, KSJO, WCMF, WEBN, WNEW, WRIF, KRQR and KRXQ....

Sinead O'Connor, "Mandinka", Chrysalis.... Take a big hint from the 71-57* Billboard jump, folks. You don't turn in 25,000 + five days unless something significant is going on out there in consumerland. Hey man, thinka 'bout it. Plus, there's growing concern regarding this format's oblivious overview regarding the New Alt to Pop crossover pipeline--and "Mandinka" is a textbook case. We should think you'll find this week's WRIF add motivational, along with ups from KROQ and WIZN, and heavy action at WBCN, KROQ, WHFS, WMAD, WNEW and several more. 74-71*....

Underworld, "Underneath The Radar", Sire/WB.... We caught a cool 40 minute set the other night at RCA Studios in NYC--and as per the introduction, they are indeed one band that can do it live as on record. Quality songs, excellent performance. They also did a show for WBCN, with Carter telling us, "This band is a strong live act, and when they come back this year to do a club tour, I'll be in the front row." As for the track, he sez, "That song is an excellent choice, but the rest of the album exhibits the band to be a well rounded songwriting powerhouse, with a lot of soul".... From WRIC's Mike Scott, "They've got a real hook-monster. We're seeing good phones and have moved it up as a result".... New on WXRT, KABL, WEZX and WKXL, with play on 31, including WCCC, WDHA, WXXP, WRAS, WNEW, WHCN, KROQ and WPLR bringing in a 99* debut....

REM, "Finest Worksong", IRS.... Some have called it the best song on the album, others think it's just the tip of the IRSberg. Whatever, REM is welcome on any playlist and the format gets positively younger every time we play them. The increases in play at WKDF, KNCN and WONE help poise the band at a 30* on the Hard Hundred and the Power play on WMJY, WMAD and WAPL lead the way for others to follow. The format's longest developing success story is getting help from KMBY, KSHE and KQRS, who join the party this week. Look for that world premiere of their special mix on our Alternative CD Sampler coming your way soon....

Ace Frehley, "Words Are Not Enough", Megaforce/Atlantic.... This seminal guitar strangler is out on the road and it has helped pique interest in his latest original offering. Crossing over from metal to mainstream with his rhythmic hook filled lead lines and a "we've all been there" vocal and look for this one to hammer 'em after 3pm. New at KILO, WTUE and KDJK this week, where Beaver Brown claims, "This should blow your listeners away. With all the raunch rock out there, this clean shot of the Aceman's axe is a breath of fresh air"....

Pink Floyd, "Sorrow", Columbia.... Another never-say-die project with the thermonuclear legs to cover the distance, the latest Floydian track is still bringing in new calls. Major weight entries WNEW, KQRS and WKDF have thrown their momentum behind "Sorrow" and continued Heavy airplay on WEBN, WFYV and KFMG contribute to a four position improvement on the HH from 45-41*. Big requests for this item at KOZZ and KJOT and a total of 17 new believers and it looks like we've got another format exclusive with banner headline potential....

E*I*E*I*O, "Hey Cecelie", Frontier.... A record that has consistently placed top 5 on our in-house Platter Ladder nails down an add on none other than WRIF this week. Better still, McGregor and Still decided to go because--are you sitting down?--they loved the record!! Pretty wild, huh? What's more, my dinner partner in New Orleans this past weekend, Lorraine Caruso from WNEW, wouldn't shut up about the record--with special praise for the production quality. It does sound great, and we're talking vinyl for another week now. Songwriting? First class stuff from fresh pens. We'll even whack you with a quote, this from KOAS' Mike Gardner, "great roots rock and roll that I know will satisfy many of our listeners".... Easily one of the best middle America debuts of the last six months--and believe you me, we hear them all....

Flesh For Lulu, "Postcards From Paradise", Capitol.... That tour with Gene Loves Jezebel continues to sell out, even in markets where the airplay is iffy. We realize that and 7 bucks will get you into the show--but what is significant is the fact that from a playlist perspective Lulu hits and sticks--witness only one drop at a very early-on station this week. It's heavy at WBCN and WNEW, with new action on KISS (That's right), KSJO, KATT, KFMZ, and WHMD--and when the Catfish comes aboard, it's time to rethink any image hangups you might harbor. One of Hammond, Louisiana's finest tells us, "We can't ignore it. Our phones and MTV proves they're ready for WHMD".... 55-52*....

The James Harman Band, "My Baby's Gone", Rhino.... If we haven't said so yet, James put on a great show in San Francisco a couple of weeks ago, and he's the kind of talent that easily translates to record. Why else would a powerhouse like KQRS have it in Power? They upped it this week, along with KZAP and KQDS. WRCN, WKXL and WAPL add, taking the current count to 37, including KDJK, WFYV, WRXK, KBCO, KJJO, KXRX, WAQX, WCMF, WDHA and WRCN. 80-77*....

Los Lobos, "One Time, One Night", Slash/WB.... We couldn't agree more with WGIR's Karen Small, "The 'La Bamba' soundtrack launched Los Lobos into the eye of the mass public. Now it's time to give their excellent album a push. Let's keep this band's momentum going with songs like this".... From KSQY's Jeff Michaels, "They're hot right now, and, I'm proud to say, one of our most important AOR bands. They have a strong playing style and just because they had a hit with 'La Bamba' doesn't mean they are a CHR band"....

Rushing the top of the chart this week are a trio of bands with their sights set on the rarefied reaches currently dominated by Robert Plant, Aerosmith and Sting. The real momentum builder is **Kingdom Come**, who have popped into the top 10 with a three place jump on the Winners Chart. Interest is near the boilover stage about this project with the album in your hands this week. Adds on KTYD and Power Play at WRXK along with Heavy support and top 5 phones on KTXQ and WPYX certainly help. While speculation about the residual impact of this band is moot, they are definitely here and a force to be reckoned with. **David Lee Roth** has effectively passed the baton from "Paradise" to "Damn Good" in his relentless assault on the charts. Continued Power Play on WNOR and an increase to Power on the Loop points the way with Heavy reporters KATT, KEZO and KPOI rounding things out. When all is said and done "Damn Good" and "Knucklebones" are waiting in the wings for more of the same, so get ready. The biggest move on the top 10 comes from **Henry Lee Summer** who has kicked in with a substantial ten place leap up the chart, more or less equaling his Hard Hundred ranking. Accelerated

play is the key with bigger and better rotations on WEBN, KQRS and WNOR.

Poised for another strong run is **George Harrison**, who has scored a hefty jump for "Cloud 9" from 26-14* on the Winners Chart. Check out those Heavy reports on WMMR, KZAP and KBCO with Power Play on KYYS where top 5 phones are also part of the story. The format's love affair with this album continues to go way beyond the petting stage and this track is in line for some real moves in the weeks to come.

Debuts come hot and heavy this week but the one to watch is undoubtedly **Robert Plant**. Scoring at 21* on its first week out, "Tall Cool One" is the universal choice for follow up emphasis play. Insta-Powers on WEBN and KATT should tell you something, while faster than light phones on KPOI, WPYX and WNEW are getting people crazy from coast to coast and beyond. Format leaders have supported other selections from the album as well, most notably "Ship Of Fools" at 48*, but as the "Play it all" frenzy on this album dies down look for "Tall Cool One" to lead the way. If you aren't playing it, reconsider your strategy.

Another noteworthy move in the middle of the chart is the 35-23* jump by **The Alarm**. "Presence Of Love" has been building across the weeks, especially north of the border, with a stable effort that does credit to those IRS types. Video support is around the corner to keep up the pressure and this has all the earmarks of a great upper demo mainstay in the making. Strong play is reported by KEZO, KLOL, WBCN and WKDF with top phones on KYYS.

The **Springsteen** tour is powering up listener interest across the country and in its wake "All That Heaven Will Allow" gets onto the Winner Chart with a 36* debut. Another chapter from Bruce's interpersonal confession, this track has them getting misty in the first twenty rows. Heavy Play on tastemaker KBCO, KZAP and KATT with active phones not far behind. Folks seem to be starting this one up in Medium for the most part but the pipeline gives "Heaven" big points for projected growth. With the tour a heartbeat away strap down anything that's not stamped "Made In Jersey".

New music is getting its due this week with continuing growth on the **Church** offering "Under The Milky Way". This song is still getting raves from MD's as one of the most satisfying and, more importantly, accessible tracks from the alternative side of things. A nine place move to 38* on the Winners Chart and a seven place differential from the Hard Hundred and the winners are definitely leading the way for the rest of us. Look at all that emphasis play on KQRS, WRXK, WBCN and WNEW and the stellar truth takes hold, this band is for real, don't get left behind.

Defying the pundits who decried his image problems, **Rick Springfield** has crafted a song with just enough edge and production touches to crank volume pots across the dial. True, the action is leaning to the East coast but that will turn around soon. WEZX, KPOI, WNEW and WKDF help motivate a seven place improvement on the chart for "Rock Of Life" with more believers checking in almost hourly.

The new players on the Winners Chart include some tried and true Austin slapback rock from **Will and The Kill**. "Heart Of Steel" shows how Charlie Sexton's little brother does it down south and the results have looked pretty good out of the box. Rotations are tentative to start but the depth of these calls is undeniable. KLOL and KTXQ makes perfect regional sense but we also see support from KQRS, WAAF and KTYD. Airplay should expand with the coming weeks, positioning these guys for an impressive run. **Paul Carrack** has finally come out with the track that many programmers have long singled out as the best on his album. "One Good Reason" has popped onto the Winners Chart at 49* and the reviews point to another success for one of those guys with all the chops needed to go the distance. Heavy Play on WNOR is backed up with support play on WLAV, KZAP and WNEW. Another new name on the chart this week is **So** whose "Are You Sure" gets the nod at KEZO, WEZX, KPOI and KYYS. MTV is flirting with the project and the crossover potential should not be overlooked in situations where a CHR competitor spends time robbing your playlist. The key here, according to the winners, is to get on it and lead the way in your market before the guy across town gets the benefit.

WHY YOU SHOULD PLAY LITA FORD.

BOB BITTENS/WHCN: "Hot phones from both men and women. She rocks hard enough and looks good enough to keep the male rockers happy, but her new melodic stance gives her even wider demographic appeal."

CHARLIE LOGAN/WYNF: "What a smoker! Exploding phones! This is a mass appeal song. We get as many girls calling for this as guys. This is not just a male-oriented song."

BRUCE MCGREGOR/WRIF: "This just kicked in for us—46 to 24 this week! Strong phones and a good sales pattern indicate this is definitely working for us."

DAVE LONDON/WEZX: "She's the female rocker that rock radio needs! Great phones and definite upward sales movement!"

MIKE KELLER/KQDS: "The big surprise was that this is just as much, if not more, of a female record for us. Tons of female phones. That, coupled with the fact that there are no other female rockers out there, makes this a great record for KQDS."

TIM PARKER/KNCN: "She is #1 requests this week, beating Kingdom Come."

NBC CLOSES GROUP DEAL

No sooner had word hit the street that NBC Radio was on the block then we got notice of a group deal that unloads five stations for \$121.5 million. The buyer is Emmis Broadcasting who suddenly becomes the single largest privately owned broadcast chain in the biz. Properties in New York, Chicago, San Francisco and Boston change hands and NBC, the people who helped get radio on the air leave the industry forever. The Emmis group has made big strides since their start up in 1980 with a relatively small amount of capital to this top of the hill success story. Unlike the Noble/EZ Communications deal that went poof earlier this year, the NEC/Emmis transaction gets high marks on the good vibe-ometer. Everyone concerned is looking forward to a painless transition.

CLAPTON CLOSEUP

Look for WW1 to present an in-depth three hour program featuring Eric Clapton the week of March 21. The show, which will include a rare interview, is going to touch down on a rich career that includes music from the Bluesbreakers, Yardbirds to his most current work. Interviews with artists like George Harrison, Mark Knopfler, Jack Bruce and a host of luminaries. The program is entitled "Behind The Mask" and should prove a valuable addition to your Spring ratings push.

ROLLING STONE REVIEW

Congratulations to all of the recipients in the Rolling Stone Radio Station Poll. KSHE/St Louis, WNEW/New York, WMMR/Philadelphia, KROQ/Los Angeles, WBCN/Boston, KQRS/Minneapolis, WDVE/Pittsburgh, WGTR/Miami, WMMS/Cleveland, KISW/Seattle, WLIR/Long Island and KOME/San Jose all were singled out for kudos. Odd to note the assignation of KGB/San Diego as a small market winner. Do you think these guys could check a census once in while or what? In related news Station Of The Year winner KSHE threw the first in a series of free listener appreciation concerts with Peter Himmelman to thank their supporters.

MTV MUSEUM ON WHEELS

Look for the MTV "Museum Of Unnatural History" to hit the road for a 6 month, 25 city tour. The Hard Rock Cafe has donated such priceless rock and roll heirlooms as Carl Perkin's blue suede shoes, Prince's purple jacket and various axes from Keith Richard and Eric Clapton. The "Unnatural" tour will be getting major exposure on MTV and should be a perfect slipstream project for your station when it hits town.

BILLBOARD BOUNCE

Radio Editor Kim Freeman is leaving Billboard. Word has it that Kim will be joining the ranks of record promoters. If our information is straight look for her to surface at Profile in a CHR capacity. No word as yet regarding Kim's replacement at Billboard.

RANDY ROCKS AT DB

DB Records has named Randy Crittenton General Manager for the Atlanta based indie label. Randy has spent time working with the career development of such artists as Don Dixon, Guadalcanal Diary and the Georgia Satellites. Randy told NOISE, "This is a great opportunity for me to do some of the things I really like about the industry. The level of challenge and growth potential here is incredible. This label hasn't released that many records but every one of them has had real impact on the business, all the way back to our first release ten years ago, the Rock Lobster single for the B-52s that really helped focus attention on the Athens music scene." Not bad for a guy who has made a career of being on the scene two beats ahead of everybody else.

DOWN IN MONTEREY

Radio Express is presenting a nine hour, three day program that promises to recreate the pivotal Monterey Pop Festival of 1967. Long considered the most influential cultural event of its time, with a collection of artists never since equaled, the Monterey Pop Festival has been painstakingly re-created for this long form program. Positioned for a June flight, the show will effectively provide the first ever note for note presentation of the concert for radio audiences. Wally Heider was on site with his 8 track equipment and his master tapes have been locked up all these years, until now. Classic rocker or not, this could be one of the biggest broadcast events of the summer.

The most recent "Coats For Kids" campaign at WRCN/Long Island netted a chunk of warm clothing for the needy in their area.

THE RADIO RUMBLE

WNEW/New York is launching a series of AIDS awareness programs through the month of March called "March Against AIDS". A set of daily of news features and Sunday specials will focus on the issue leading up to a two hour broadcast on March 27th.

KAZY/Denver has promoted Laurie Johansen to Programing Assistant. Laurie now handles the odds and ends for Andy Schuon while continuing her Music Research chores as well.

WAAF/Worcester has been on the lookout for a new PD ever since Cynde Slater departed for Arizona rocker KDKB. Word on the street has a potential replacement coming from the ranks of New York state MDs. The discussions have reportedly gotten close to conclusion and nothing would please us more than to see a deserving MD get a shot at an important gig like this. Look for an announcement soon.

Dat old **Mojo Nixon** pictured during a visit to the Hard Report. Left to right, Jeff Luttrell, Jim Trapp, Christine Black, Bill Hard, Mojo, Collie Hard and Amy Dahlman.

Station Of The Year **KSHE/St Louis** poses with Whitey "Mr Flat-Top" Herzog. Pictured are John Ulett, Whitey, Rob Buttery, The Smash and Scott Darst.

WKLC/Charleston PD Brian Krysz called us with some exciting news. Seems like his company has made good on their expansion plans with some meaty acquisitions that are in need of PDs. Candidates must be promotionally savvy and strong on the air. "We just purchased two stations in top 100 markets and are looking for exceptional people to join our organization", Bryan told us. If you're interested rush that T&R along with salary requirements and a photo to Lynn Martin Communications, PO Box 11788, Lexington KY, 40578.

WCMF/Rochester personality Stephanie Miller has skipped over to **WCKG/Chicago** for some morning duty. With a moniker like "Sister Sleaze" you just know it's got to be pretty tasteful upper demo stuff.

KJJO/Minneapolis has nabbed Hal Hoover from crosstown rival KQRS. Hal is joining up for morning drive and Assistant MD chores at the rocker. And the beat goes on.

WZEW/Mobile has a few new names for the staff list these days. The new mid-day guy is Rik Duvall from **WTKX/Pensacola** and new to night time duty is Jerry Benson most recently from **WDIF/Marion**. With a largely reconstituted airstaff, Catt can settle in and get ready for the Spring sweeps.

KMBY/Monterey has seen a number of acts come to town recently. Big news was the Oingo Boingo shows and soldout performances by Pat Travers and Robin Trower. The station has been very successful in bringing more and more acts to the peninsula.

KZRR/Albuquerque MD Hubby Dean announces a change in music hours. From now on you can reach him from Noon to 2pm on Mondays only.

KISW/Seattle has hired yet another morning guy with the signing of **KISS/San Antonio** wake up monster John Lisle. John is getting the kinks out on the late night shift and reports from the market are favorable. In the radio war zone that Seattle has turned into, especially with the last ARB, a morning show makes all the difference. Perhaps **KISW** has finally found the chemistry it needs to take on **KXRX**.

KLSX/Los Angeles Promotion Director Nancy Robbins has departed the station. We hear that she is joining the Larry Bruce Consultancy for more fun than the law allows.

WTUE/Dayton generated great response to their recent one day getaway promo. The morning team teased a trip to the islands and then promoted the fact that discount tickets would be sold, (approximately \$169 per), to listeners interested in making a quick jaunt to the Bahamas. The first shot at this winter relief promotion sold out two, count 'em two, 340 seat airplanes for a day in the Bahamas that turned into one incredible non-stop party. A perfect promo for those weathered folks in the Midwest and East.

WIBA/Madison PD Steve Hoover called to clarify the continuing war of words in that market between his station and the local paper, The Capital Times. Steve tells NOISE that the letters to the public file in question have been kept except for those of a blatantly obscene nature. For the most part those complaints dealt with the changes on the AM not the FM. Can you spell vendetta? "It's to the point of being ridiculous. When we dropped the Lutheran Hour on our AM even that got headline treatment on the front page of their second section. I mean come on guys!" Steve tells us the bad blood goes back a long way and has poisoned the relationship between both the Times WIBA's ownership. The general buzz on the FM changes have been, "far more positive than negative. People seem to realize that we are moving forward again. The dust has virtually settled, except for the Times continuing campaign." Nothing like a good old fashioned Hatfield-McCoy feud to up those subscriptions and keep the little old ladies hopping mad.

KTXQ/Dallas MD Redbeard got the nod as host for the John Cougar Mellencamp broadcast live from the R&R convention in Dallas. The show, being broadcast by WW1, will be part of John's Lonesome Jubilee tour which has been getting raves across the country. Co-hosts for the show include R&R's Harvey Kojan and rock journalist Timothy White. The event is bound to be a high point of the upcoming convention and anticipation is running high that John will have a few surprises for the wall to wall audience of industry heavies.

WPDH/Poughkeepsie morning show madness came to a grinding halt recently when the morning team of Bob Brown and Jeff Curtis got pulled due to bad vibes. PD Jeff Left has been moved into the gap for the time being and Promotions Director John Steffanci joins Jeff for the festivities.

KZLR/Little Rock has brought programming pro David Gariano in as Operations Manager. Former WHTQ Promotion wiz Brad Isroff will join the team as will former WPDH/Poughkeepsie morning maestros Jeff Curtis and Bob Brown. These guys have certainly set some kind of record for quick time changes of career.

Aerosmith thanked the folks at WBCN/Boston for their help with the "Permanent Vacation" album. Pictured with an avalanche of platinum are Ken Shelton, Oedipus, Mark Parenteau, Burt Holman, Karen Durkot, Tony Berardini, Keith Gard and Carter Alan.

MUSIC NEWS!

In other headline music matters, the struggle for #1 on the Airplay chart continues with Midnight Oil holding for the third week, with "Beds Are Burning" not even close to burnout as the cross to AOR intensifies. Take a quick look at the Top 5 Alternative and then glance at the Hard Hundred. You'll see these artists are making major gains at mainstream from the Progressive springboard our station sample offers. Why else do those stations promos say, You Heard It Here First? On to more new music.... Restless Records will offer 3 never released Sex Pistols albums Spring. The first, "Better Live Than Dead" is a live album recorded before Sid Vicious joined the band and Glen Matlock was handling the bass. Look for it on March 25th. "The Swindle Continues" and "The Mini Album" complete the set, but there is no release date at this time. Other projects include a 12" Ep and 3" CD from Wire featuring the new single "Kidney Bingos" and the new album from Blue Aeroplanes titled "Spinning Out Miracles".... Of all the new Sire signings, the label is especially excited about the Wild Swans new single "Young Manhood" out this week. This group from Liverpool has been featured in the John Peel Sessions and also appeared on the "Just Say Yes" CD Sampler. They're now on tour with the Mighty Lemon Drops in England but be sure to watch for their debut American release on March 22nd, "Bringing Home The Ashes". Martini Ranch is another one in the danzwatch category, as this L.A. duet comes at you with "Reach", the first song from their forthcoming debut on Sire Records. Bill Paxton and Andrew Todd have been together for three years and made one of the most brilliant video collaborations for their dance club hit "How Can The Laboring Man Find Time For Self Culture?", which will also be on the Lp. It seems that Bill is also an actor who has appeared in flicks like "Weird Science" and

"Aliens", and Jim Cameron who directed "Terminator" helped the band create a 7:45 video epic that's not to be missed.... If you thought Megadeth was strictly a band for metal fans only, then reconsider their new cover version of "Anarchy In The U.K.", originally done by the above mentioned Pistols. Counter culture certainly crosses all boundaries as demonstrated by this venture. The album, "So Far, So Good, So What?" is one of the most anticipated releases, with out of the box sales figures that would curl yer hair.... New at the Homestead are releases from Phantom Tollbooth on March 18th, and further ahead, the new record from the Cleveland based My Dad Is Dead, and an album from Honor Roll. The new Salem 66 album, "National Disasters National Treasures" is due out on March 4th.... Giant Records (the label inundated with calls regarding the "Salvation" soundtrack) has also released Cabaret Voltaire's "8 Crepuscule Tracks" which is a collection of out of print songs from the band's tender beginnings. You can sample some of the earliest experimentation with electronic, industrial dance music, and these guys were among the true pioneers of their genre. From Anna Domino's "This Time" Lp, Giant announces the 12" release of "Tempting" which was completely re-recorded and mixed by producer Alan Rankine.... Link Records brings the Birdhouse to U.S. shores with the release of "Burnin' Up", a raw assortment of guitars that growl and scorch any ear drum within merciful distance. They don't waste any time in the feedback department, which is why some post-modern industrial type college programmers haven't wasted any time adding this band. Call John Hudson for a copy: 212-334-9556.... For discriminating fans, there are two records from The Fall out now, which makes reporting more difficult, but radio more fun. The first is in: Palace Of Swords Reversed, on Rough Trade (611 Broadway, Ste 536, NYC 10012). It's a collection of rarities, singles and out takes from the band in their various line-ups spanning 1980 through 1983. Originally formed in 1977, the band has released nearly 43 albums and singles since then... the newest single being "Victoria", the first track from the upcoming The Frenz Experiment Lp on Beggars Banquet/RCA out soon. "Victoria" was a Kinks original which leaves one wondering if members of The Fall and The Stranglers have been schmoozing lately - since the Stranglers new version of "All Day And All Of The Night" has arrived on the scene from Epic Records.... The almighty Godfathers begin their U.S. tour on March 16 in Providence, through the northeast and into the midwest in late March.

HEAVY HITTERS

RECORD OF THE WEEK

Candlemass, "Nightfall", Metal Blade.... Metal Blade's prime mover this week is Candlemass' gothic release "Nightfall". Response has been incredible on tracks like "At The Gallow's End", "Bewitched" and "Black Candles". This week they leap 18-7* on the Hard Hitters Chart with everyone jumping on it with nothing but rave reviews about it's power and "presence". It fills the room with it's somber tones and full resounding guitars. Man, if your depressed or not especially happy this stuff can really reek havoc on your emotions. It's the perfect stuff for a rainy night; gives you chills. It's definitely the some of the heaviest stuff on our chart this week, and it looks like it's going to be on the charts for some time to come. Leif Edling's lyrics are haunting and full of mood changes and emotion. They are well expressed by vocalist Messiah Marcolin, and the gregorian sounding bed of music produced by Mats Bjokman, Lars Johannsson, Jan Lindh and Leif on bass. The title "Nightfall" is the perfect summation of the material on this Lp: dark and foreboding. This week they take Record Of The Week honors, so Cheryl V. can rest assured she's done a good job with this one.

Fifth Angel, "Fifth Angel", Epic....

This is the remastered version of the 1986 album "Fifth Angel" originally released on Shrapnel. It features some of the hardest and strongest metal we've heard in quite some time, due in part to the masterful musicianship of such people as Ken Mary (drums), Ted Pilot (vocals), Ed Archer (rhythm guitar), John Macko (bass) and James Byrd (lead guitar), who hail from Seattle, which has spawned such illustrious acts as Heart and Queensryche. The emphasis tracks "Fifth Angel" and "In The Fallout" are especially melodic and progressive. Many of you may be familiar with this record already, but we guarantee the remix and all new packaging and promotion are gonna send this sucker through the roof. The 12" should be hitting your desk as you read this -- Put it on! A listen to the advance assures that this one's gonna sell, with tracks like: "Wings Of Destiny", "Only The Strong Survive" and "Fade To Flames" sure to be instant favorites. There is no excuse for not playing this, no matter how old this material may be, it's all new now. We're sold.

Judas Priest, "Johnny B. Goode", Atlantic....

Yowza! From the soundtrack of the same name, comes some of the smokinest material we've seen this band of metal gypsies produce in quite some time. It's guaranteed to be a multi-format smash all

the way down the line, and you know it's an instant for metal. Let's just say it really ROCKS. Rob Halford delivers some of his more creative vocal work since the Hear N' Aid project. The guitar work is definitely above average and is smooth and consistent in the changes and solos. This takes the song one step further, and gives an over-copied classic a whole new look and sound. It's now been rush-released for your listening pleasure and believe us, it's a pleasure. Even our new intern, who's heavily into Priest appreciates this for it's ripping qualities. If you add anything in the next week, this for sure had better be it or you'll be eatin' your competitor's dust.

Fates Warning, "Silent Cries", Metal Blade....

The long awaited new release from Metal Blade's masters of the progressive metal genre is simply too good to be true. I'm sure that you were all a bit wary of this band after the departure of vocalist John Arch but I think your fears can pretty much be put to rest. The new cut features some astounding vocal work along with the usual Fates Warning flair for dramatic guitar lines and mysterious off-beats. The songwriting and production are also especially sound. The legacy of they're previous work has obviously had some minor impact on our reporters because this one comes in at #1 Most Added this week. The release date of the new album, entitled "No Exit", has recently been pushed back until late March but don't worry, it'll certainly be worth the wait. Early ears on the advance assure that cuts like: "No Exit", "In A Word" and any of the eight parts of "The Ivory Gate Of Dreams" will keep this on the charts for a long run. While you wait for the rest of the album, "Silent Cries" will no doubt hold you over.

Dweezil Zappa, "My Guitar Wants To Kill Your Mama", Chrysalis....

Yes, you read it right... this boy be happenin'. If you are looking for another fun, cruisin' type record - look no further. Yes we were just as surprised as you probably will be. But let's face it Dweezil is a hellacious guitar player with the same zany, wacko sense of humor as dear 'ol dad. This track is exceptionally well produced and well written for that matter. It features Dweez on all guitars and on vocals and the incomparable drumming talents of Steve Smith (ex-Journey, Tony MacAlpine), Bobby Blotzer (Ratt) and Terry Bozzio. Some of you are already on this one, and the rest of you should, seriously now, consider this one for airplay. It rocks. It's funny. It's, for a lack of a better

word - weird. Look for cuts like, "The Coolest Guy In The World", "Bang Your Groove Thang" and "Nasty Bizness" to be killers too. What a wild record. Forget who he is and just listen.

New Renaissance Releases -- Deadly Blessing/Gargoyle....

New Renaissance marks the end of February with the release of two phenomenal Limited Edition Ep's from two great new bands; New Jersey's Deadly Blessing and Oregon's Gargoyle. Deadly Blessing is a five man outfit consisting of Ski (vocals), Tony Kerr (guitar), Nick Mitchell (bass), Wayne Kellie (drums) and Tom Bach (bass). They're exact musical style is not easily identified so they like to be called, "Power Metal", which is a powerful and progressive form of the heaviest metal. Their Ep contains three songs but the best is undoubtedly "Cry Of Medusa". Listen especially to the killer bass lines and try to figure out just how much air Ski can hold in his lungs on that opening scream. Gargoyle is a quartet who were originally featured on the "Metal Massacre VII" compilation. They play a peculiar type of slow, catchy, melodic metal. Check out the killer cuts, "Look Homeward" and "Final Victory". Tim Lachman's vocals are extremely well phrased and the riffs are consistently fine. These are definitely two bands that you don't want to miss.

Roxanne, "Roxanne", Scotti Bros./CBS....

When we got the sample cassette with the three tracks "Cherry Bay", "Nothing To Lose" and the great cover of "Play That Funky Music" we were bopping all over the office, lettin' fly all the comments you'd expect about the similarities between these boys and Aerosmith. BUT, these guys are really great. This talented quartet is: Jamie Brown (lead vocalist/guitar), Joey Infante (bass/vocals), John Butler (guitar/vocals) and Dave Landry (drums). The record was produced by Geoff Workman (Crue, Dokken, Twisted, Journey) and the mix is crisp and clear. This is a strong band with definite musical influences which frequently surface in many tracks on the Lp. They are not quite a "metal" band - more so a hard rock band with some blues and funk thrown in for good measure. A few of our reporters have already latched on to this band's charisma and obvious star quality. They're rumbling below the Hard Hitters, but just barely. Get on it.

ISLAND

THE HARD REPORT MUSIC NEWS

Hello once again. This is Sal "Earl Of Earache" Treppiedi reporting from Control Center in the heart of Queens, New York with this week's metal news. This week, part two of our interview with John McManus of Mama's Boys. We'll also have information on Germany's SPV Records office coming to New York. Right now, let's get to some news.

It is my opinion that the west coast (Phoenix to be exact) will never see a concert like this again for quite some time. It is being dubbed the "Pleasures Of The Flesh Festival". It will feature the coming together of three separate, plus one area favorite making it big. Headlining the show will be **Exodus**. They will be followed by **M.O.D.** who are currently on tour with Exodus. The other bands appearing are **Paul Di'Anno's Battlezone** and **Obsession**, who are on the road together, **Heathen** and **Zoetrope**, also out together and **Sacred Reich**, who are, of course from Phoenix. This monstrous event will take place at Studio West on Monday, February 29th. We'll try to have a review of the show next week.

Here are several line-up changes to take note of. First, Connecticut's **Liege Lord** have found a new vocalist. He is from the Rochester area. **Hallow's Eve** are continuing their search for a new drummer. Rob Clayton, who originally replaced Tym Holton, the band's original drummer, left the band. Reports had **T.J. Scaglione** allegedly auditioning for the band. The report turned out to be false. Scaglione is apparently involved in a project with former Deathrash guitarist **Pat Burns**. Also, **C.O.C.** (Corrosion Of Conformity) are looking for a new vocalist. For those of you who may be interested, contact William "The Clydemaster" Howell at Metal Blade.

Back in the early 80's, there was a booking agency known as **Talent Resource Agency** or **T.R.A.**. This agency became known for taking chances on bands who were on the brink of breaking but simply needed to be exposed outside their home territory. **T.R.A.** became the booking agency for such bands as **Metallica**, **Slayer**, **Voivod**, **Megadeth** and **Nuclear Assault**. When **T.R.A.** began to grow as the bands they were booking began to grow, the void for smaller bands resurfaced. Now, an agency with the same idea as **T.R.A.** has formed in Chicago. That agency is known as **Metal Only Booking** or **M.O.B.**. For those of you who have caught **Heathen** and **Zoetrope**, **M.O.B.**'s Larry Cox is responsible for that. It's great to see that bands like **Heathen**, **Zoetrope**, **At War**, **Blessed Death**, **Primal Scream** and many others who might not get a chance to play in cities across the country are being given a chance to do so. Nice going, daigo plate!

Let's get to part two of our interview with **John McManus** of **Mama's Boys**. In part one of our interview, John spoke about the relapse of leukemia that brother Tommy experienced. Now, John talks about his illness and how that led to former Airrace vocalist **Keith Murrel** joining the band.

JM: Coming toward the end our French tour, my voice had decided to pack it in. That is the reason why we decided to look for a new vocalist. We finished doing 20 concerts back to back which is unheard of. No band does anything like that. Halfway through that tour my voice collapsed. I had a throat specialist on the road with me from Paris and he said that he would try to bring me through the rest of the tour but that I would have to either take a long rest or

HARD ROCK/METAL

get help. He said that I would not be able to continue touring like this. I might have ended up losing my speaking voice. So, when we finished the French tour, we sat down and decided to make some changes. We had to wait for Tommy to get out of the hospital. Then we debated about whether we should get another singer. We thought that we might get someone to help out. But, what happened was that we found **Keith** and he was so good that I decided not to share any of the songs on the record with him. I couldn't come anywhere near **Keith**. He's an excellent singer and, in my opinion, one of the best to ever come out of England. I did all the backing vocals, but with regards to lead vocals, I would rather not. I still sing some of the old material live but that's about it. He has definitely been responsible for the change in the band's direction.

SAL: I understand you tried some other vocalists before settling on **Keith**.

JM: We actually phoned **Dave King** from **Fastway** and he spent some time with us in the studio in Dublin. He did some demos with us but it didn't work out. One of the reasons why it didn't work were not because we didn't get along with each other, but that he couldn't relate to the band. He felt that it was impossible to break into this barrier that myself, **Pat** and **Tommy** had created. He would suggest ideas and if we didn't like them we would look at each other as if to say that we didn't like it. He told us that he could not work that way. Unfortunately, it didn't work out.

Next week we'll talk to **John** about the band's latest album "Growing Up The Hard Way".

It goes without saying that metal CDs are in high demand. **RCA Records** plans to release several CDs that should interest **HR/HM** fans. First, the **Scorpions'** "Virgin Killers" will be released in a remastered version. The label will also put out **Judas Priest's** "Greatest Hits". The package will feature the **Priest's** early material. Also, "The Best Of The **Guess Who**" featuring a long version of the #1 hit "American Woman", which was later covered by **Krokus** on the "Headhunter" Lp.

Germany's SPV Records has opened an office in New York. Although many of you may not recognize **SPV**, you should be familiar with **Steamhammer Records**. **Steamhammer** has brought us bands such as **Sodom** and **Destruction**. **SPV's** hardcore label, **Armageddon Records** will also be coming to America. **SPV** plans on releasing several top thrash bands. First, **Sodom's** "Persecution Mania" along with the "Experts Of Sodomy" mini-Lp, which will be released on clear vinyl. Others to be released are **Satan's** "Into The Future" mini-Lp and "Suspended Sentence" Lp, **Assasin's** "The Upcoming Terror" and **Germany's Steeler's** "Strike Back". The band is looking to sign American acts for worldwide release.

Next week, we'll have part three of our interview with **John McManus** of **Mama's Boys**. We'll also try to have a review for the "Pleasures Of The Flesh Festival" in Phoenix, Arizona. Finally, we hope to have word with **Lips of Anvil** about the band's forthcoming Lp entitled "Pound For Pound". Until next week, this is **Sal "Earl Of Earache" Treppiedi** with absolutely nothing at all to say about **Mr. Death** this week. **MUYA!!!**

-Sal Treppiedi

February 26, 1988

LEATHERWOLF

1987 was a year of remarkable comebacks by some top name bands and '88 looks to be holding just as many in store for us. '87 was also the year of copy cat bands who emulate and imitate the sounds or styles of some of the greatest bands of our time like Aerosmith and Led Zeppelin. It is truly special then, when a band whose music is youthful and original appears on the scene. Yes, there were a few that caught the ears of America in the past months, but one of the brightest stars to appear on the metal horizon last year was Leatherwolf. Their self-titled debut release for Island records had done well on the metal charts and is now experiencing renewed airplay interest. These boys are happy with the success the record is generating and it's evident in the conversation we had with the three members that make up their triple axe attack: Mike Oliveri (guitar, lead vo-

Chris: Michael, let's give some of the people who might not be too familiar with band some background information.

Michael: Sure. Well, me and Geoff, one of the other guitar players went to high school together and Dean and Carey went to a separate high school and our old bass player was kind of in the middle and bouncing back and forth between the two and he kind of introduced the four of us to each other and we just started jamming. We took it from there and played what seemed like millions and millions of backyard parties down here in L.A. and Orange County. We built up a really big following, actually what we did was made a lot of friends before we made fans so when we eventually started playing clubs all our friends were there and we sold out the clubs with no problem.

Chris: Great. You were eventually signed to Enigma for your debut release, and now you've moved to Island. Has there been a big difference with how Island has handled you guys?

Michael: Oh yeah, it's unbelievable. Well, there wasn't any push behind the first record. We recorded the record, they put it out and it was kind of like "well let's see what it does", and you know with no money behind it it's not gonna do much. Island is really behind it and they're trying to get us out there on the road. We're up for a lot of things in the U.S. and we'll be going to Europe in the next few months. It's really good to have a label behind you that knows what they're doing.

Chris: Let's move on to songwriting. Who handles the songwriting in the band.

Michael: We all do; we all get our two cents in. Basically me, Geoff and Carey do the most of it as the guitar players but we all put into it and we don't give any one single person songwriting credit because everyone's own ideas are in each song. Maybe Geoff will come up with a riff and maybe I'll come with a melody line or something and maybe Carey or someone else would have a part that went with that and you know, it just kind

of builds from scratch. We don't really sit down and say, "well let's write a song about this or that." It just happens.

Chris: You recorded this album in the Bahamas. That must have been great, like a working holiday.

Michael: Yeah! That was the awesomist. Island owns a studio down there so they sent us. It was just cheaper for them and cheaper for everybody. It was just amazing. The vibes down there were just unreal. We're gonna go back there and do our next album, probably in October or November of this year.

Chris: I guess I couldn't blame you. Do you prefer the studio work over live performances?

Michael: Umm, yeah I do actually. Live when you sing a line, it's over and it's gone, but when your in the studio you can keep doing it over 'till you get it right. Live has good points as well, you know like the energy and the excitement. It's great both ways.

At this point Geoff and Carey join us.

Chris: Let's talk about Kevin Beamish your producer - how did you hook up with him?

Michael: Island and Tim - our manager, basically hooked us up with him. We were looking for a few producers but we liked what he does with vocals 'cause we'd heard the work he'd done with Y&T and with REO Speedwagon and the way he dealt with their vocals. We wanted a big vocal sound. That's basically what we wanted to accomplish with this record and I think that's exactly what he did.

Carey: He came down to a live show to see us and we talked to him there before we agreed to do anything with him. We got along and the vibes were good so we took it from there.

Chris: So, Island has had a lot of influence on your record and with the band so far.

CONTINUED

Cary: Well, we basically have a lot of the creative say but they just have a lot of the business say. As far as writing music goes they didn't tell us what to write or anything.

Geoff: We picked our producer and it was our choice of what picture was used on the album cover.

Michael: They pretty much gave us the chance to do what we wanted to do with the whole project.

Chris: Who picked "The Calling" to be the first 12" from the album, it's a really strong song?

Michael: That was what we all wanted to do. We thought it was the best song to get out to the public first. Same with "Cry Out" as the second release. With "Bad Moon Rising" we'd played it for years. We weren't gonna put it on the album, but during pre-production we were screwing around with it and Kevin Beamish heard it and he decided to put it on the record.

Chris: How important do you feel videos are in a band like yours' success?

Michael: I think it's very important. The video we did for "The Calling" I think sold us a lot more records just on that alone. People that wouldn't have heard us on the radio watched "Headbanger's Ball" and we're seeing us and went out and bought the record. So, I think it helped us out a lot.

Chris: Did you have a lot of control with the creative input into the video?

Carey: That was mostly Peter Lippan's idea, the producer of the video. He came in and helped with ideas and we pretty much went along with it. We weren't exactly in control but we agreed to everything because we like the idea and the layout.

Geoff: Yeah, with the first video we really can't have too much say, because we'd never done one before. So we just kind of went with the flow. And yeah, we like it.

Chris: Are you going to be doing something for "Cry Out"?

Geoff: Yeah we have something in the works for it.

Michael: We're doing a live video for it in the U.K.

At this point Jeff - The Metal Slave joins in with some questions of his own.

Jeff: What ever happened with Matt Hurich, your old bass player?

Michael: We just kind of had differences in opinion and songwriting and the whole bit and we all just felt that it was better if Matt left. It was a mutual agreement.

Carey: Matt just kind of went through a spiritual, christian state of mind. Hooked up with Stryper but is no longer with them.

Jeff: Do you try to convey any messages through your songs to your listeners?

Michael: Not really, mainly just be you own person and live your life your own way just like "Cry Out" says. "Cry Out" and "The Calling" are kind of basically not about the same thing but they both kind of reveal that same message.

Chris: Well, what kind of things do you think really set you apart from all of the other new bands that are out there?

Michael: We're aggressive and young and I think the triple axe attack mainly. I don't think there are any other bands, or at least not many that have it. Me, Cary and Jeff have been jamming together since school so we're pretty tight. I feel that's the most original aspect of this band. A lot of the southern bands do that but not really any of the new rock bands. We do some pretty cool stuff together and that a pretty exciting part of our set and we seem to get a really great response off that so we try to work that in as much as possible in all the songs. We tend to shove it down your throat.

Jeff: How do you work out who does a lead on a particular song?

Geoff: We flip for it.

Michael: No really, if there's a lead that say Carey wants to really do than he does it. There's no real competition or fighting over who does what lead or anything.

Carey: Or say someone comes up with an idea for a track and well then they might already have a lead worked out for it.

Jeff: One of the first things I noticed about the song "Rise Or Fall" was the first licks that come in after the intro. The tonality is intense it sounded like you had your Marshall on 10.

Carey: That baby was on 11 man. You could hear us a mile down the road.

Michael: We fried so many speakers up there. We had to fly two cabinets in because we blew so many speakers.

Carey: You know what's funny - is that the head we use for all the rhythms, it blew up before we even began recording the album and it was the one amp we wanted to use for them so we had to fix it and we just barely got it done in time. We had someone come in and take it apart and it worked for all the rhythms and then blew up right when we did the solos. We brought about six heads out there and we had to bring in about ten more. (laughs)

Chris: Do you guys have any closing thoughts or band philosophies that you want to say?

Michael: Basically we all just want to keep our heads on straight and hopefully come up with a platinum album. That's our major goal and we'd be quite happy with that.

If you're looking for a metal band that has a powerful and original sound... look no further. Thanks to the guys in Leatherwolf for their time. Thanks also to their manager Tim Heyne and to John Suchak for setting up the interview. You can find Leatherwolf on Island Records and hopefully on tour sometime soon.

The **Nike** company has agreed to stop using the **Beatles'** "Revolution" in its television commercials, but the band's \$15 million lawsuit against the company will continue. The company has decided not to use the tune for a second year, so the last television commercials using the song will air on March 22. Leonard Marks, an attorney for the Beatles, says he's optimistic a settlement will be reached in the action the band filed in New York Supreme Court against the Oregon-based firm. "The Beatles bring this (lawsuit) for two reasons. One is they don't sing jingles or endorse commercial products," Marks says. "The other is a warning to advertisers that if they use Beatles recordings in connection with endorsements, they're going to be sued." Nike paid \$250,000 to Michael Jackson, who owns the publishing rights to the song, and \$250,000 to the Beatles' record label for the use of the song. It was the first time that a Beatles' record had been used in a commercial. "The Beatles are very pleased that Nike is going to take the commercials off the air."

Tom Robinson and **Andy Bell** of **Erasure** joined politicians and over 10,000 demonstrators in Manchester, England, last weekend in one of the largest gay rights marches in Britain. They were protesting a proposed law which would outlaw the promotion of homosexuality by local government councils. Robinson calls the proposal "an open charter for persecution" and says it will lead to gross discrimination. A music festival in the city's center capped off the day's events on Saturday.

John Cougar Mellencamp and his band have rearranged old songs with new instrumentation for their just-started second leg of their U.S. tour. The band has also dropped classic rock songs from the 1960s from its set. "I don't want to go up there and to a TV commercial," Mellencamp says. "It kind of makes me mad that corporate America is taking the songs of my generation and turning them into rotten TV commercials. I'm not for hire. There's something about rock & roll that has a certain type of freedom to it. When you tie it up in corporate business, you take the freedom and the spirit away." Mellencamp says this may be his last concert tour for a while, as he'd like to spend more time raising his two- and six-year-old daughters, as well as getting to know a 17-year-old daughter from his first marriage. He also may try his hand at acting, as he has worked with Pulitzer Prize-winning novelist Larry McMurtry on "Riding The Cage," a film about a country singer. Mellencamp concedes that rock singers generally make "bad actors. It's a whole different agenda," he says. "That is a humbling experience for somebody who is spoiled like I am or Sting is. You become uptight because of that and that's why so many rock guys look stiff on camera."

Yes member **Jon Anderson** has a solo album, "In The City Of The Angels," coming out on March 20th. "It's very different," he says. "I worked with Toto. Lamont Dozier wrote a couple of the songs. I suppose you'd call it more accessible than some other albums. One of the songs I write for this is 'Hold On To Love.'" It will be Anderson's fifth solo album. He's also working on a theatrical musical about the artist Marc Chagall. "I wrote the play three years ago. It should be ready this autumn. We're producing it in France first."

Madness, who split up two years ago, are set for a comeback under the name The Madness. The name change is for legal reasons, but the band includes four members from the original line-up. A new single is due for release in early March, and an album's worth of material has already been recorded. There had been talk they would use the name The Wasp Factory for

the new line-up. Former Madness drummer Woody is now playing with a British band called Voice Of The Beehive.

The Ramones have been nominated in three categories in the 1988 New York Music Awards. The band is in the running for Group Of The Year, Outstanding Rock Band Of The Year and Outstanding Rock Album By A Group. "It's something special to be appreciated in your own hometown," says lead singer Joey Ramone. "New York is the most critical town there is, so it's the ultimate honor, higher than any other." The Ramones won the Outstanding Rock Album By A Group category last year for the "Animal Boy" LP.

Holly Johnson says the verdict of a British lawsuit in his lawsuit against his record company is "a victory for young and struggling artists everywhere." After weeks of arguments in a High Court in London, Johnson was freed of his obligation to ZTT Records. The court heard that when Johnson was with Frankie Goes To Hollywood, the band was so desperate to get a record contract that they signed one that gave ZTT virtually total control over Johnson's finances and recordings. Justice Whitford described this as unreasonable and nonsensical. Johnson is now planning to work on solo material for the record label that financed his court action, MCA Records.

Bob Geldof is co-writing and co-directing a largely autobiographical film about a 19-year-old Dubliner called Joey, who wants to break out of the misery of working in a meat factory to become a star. It's due for release next year.

Drivin' N' Cryin' played a short acoustic set at a gathering in Atlanta to launch their album, "Whisper Tames The Lion," produced by Anton Fier (Golden Palominos). The night before their record release party, the band played a benefit concert for the Our House Day Shelter for Homeless Children in Atlanta.

Singer **John Farnham** has been named the 1987 Australian of the Year. He was given the award by Australia's Prime Minister Robert Hawke, at Kirribilli House in Sydney. Farnham's "Whispering Jack" album, his first solo album since leaving the Little River Band, has sold over 900,000 copies in Australia.

Carole Pope, the former lead singer of Canadian band Rough Trade, says she's been toning down the sexual aspect of her image since Rough Trade broke up two years ago. "I don't think much about direction, except not pursuing the sexual thing as much. But I'm still going to sing about things that are sexual," Pope says. "My ideal would be to be sponsored by a condom company...I've written pages and pages (on the subject of AIDS and related themes) but so far nothing that would work in a song." Pope adds that most of the music out right now is "a real pile of steaming garbage," in her words. "But I do like the new Eurythmics album. I like Annie Lennox' voice. When I listen to her, I ask: 'Do they have our albums?'" Pope last fall appeared in a "co-opera" produced by the Canadian Opera Company and the Shaw Festival. "It was just a really great experience," she says. "I got to work with 20-odd actors, a 20-piece orchestra and a 30-member choir." Pope is also planning to write and produce her own rock opera, and will likely move to Los Angeles before long. "I'm still waiting for a large cheque to arrive so I can make the move," she says. "I don't expect to be there forever, but that's where the people are that I want to write (songs) with."

Glenn Shorrock, original lead singer for the Little River Band, has rejoined the group. "I've always said the lines of communication were open. I just needed something concrete," Shorrock says. It's been almost six years since Shorrock left the band to pursue a solo career, to be replaced by John Farnham. LRB has finished recording its first album with Shorrock back in the group. "We've done six weeks of intensive work down in Melbourne, and the result, I think, is great," he says. "We've certainly taken a different tack to the last three

albums which I wasn't involved with. I felt they traded on the name for a couple of years. I felt they should have called it quits, and formed another band. It's a challenge for me to try to bring it back. My name is still synonymous with the band," Shorrock says. "I think the Little River Band and my name joined together will have people interested." Shorrock has been working in theater in Australia in the past few years, and confesses his reunion with LRB may not be permanent. "One album and one tour a year would be quite enough," he says. It's not as if I'm getting into jail again. They are not going to get my whole life again. I'm still going to maintain my independence. I've always liked theatre work. I'd like to do more theatre, and I've always said I'm open for movie roles. Life is too short to spend on one thing, and that's my philosophy. I haven't missed the recording, but I've missed the fact that I haven't had any products, any songs out there." Shorrock says he's not making the move for money reasons. "I could earn a lot more by myself," he says. He concedes his wife isn't too happy with the decision, because she'd rather spend time at home instead of on the road.

Uriah Heep have negotiated directly with the Soviet Union's state-run record company, Melodiya, for the release of a live album in the U.S.S.R. The band also has negotiations pending in Czechoslovakia and Hungary, even though Uriah Heep is without a label in its native Britain. The group is shopping a demo tape that highlights the group's new members -- vocalist Bernie Shaw and keyboardman Phil Lanzon. Uriah Heep will return to the Soviet Union this year for a four-week tour, preceded by a visit to East Germany. The band may also visit Indonesia, Thailand, Taiwan and Venezuela.

The b-side of the British 12-inch single of **Echo & The Bunnymen's** cover of "People Are Strange" features three live

tracks: the Velvet Underground's "Run Run Run," the Stones' "Paint It Black" and Television's "Friction."

The **Housemartins** are considering releasing a compilation album, or a farewell live LP, but no final decision has been made. Bass player Norman Cook has, however, started working on remixes for James Brown and Eric B.

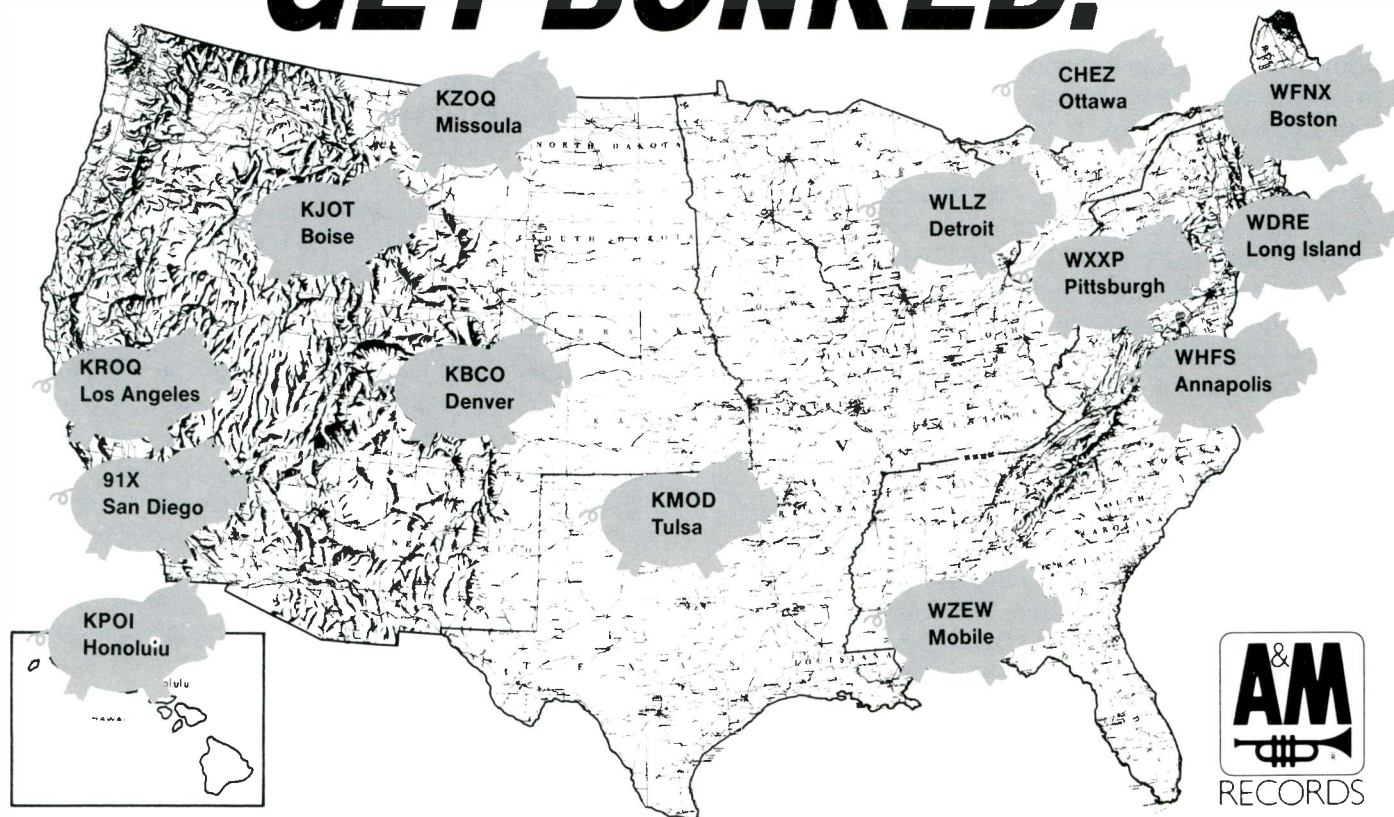

Morrissey's debut single, "Suedehead," features two tracks on the b-side of the 12-inch -- "I Know Very Well How I Got My Name" and "Hairdresser On Fire." Stephen Street produced the tracks and played bass and guitar. Vini Reilly of Durutti Column also helped with the tracks. The picture sleeve for "Suedehead" features a shot of Morrissey taken by Smiths fan Geri Caulfield at a show by the band at the London Palladium. It's the first time Morrissey has been pictured on the sleeve of a record in Britain. Morrissey's solo album, due out in late March, will be called "Viva Hate." Morrissey, by the way, expresses sadness about the breakup of his former band. "The Smiths were almost like a painting," he says. "Every month, you'd add a little bit here and a little bit there...but it wasn't quite complete and it was whipped away. And I find it quite hard to adapt to that."

Former Bauhaus member **Peter Murphy** has released his first single in two years. He'll have an album, "All Night Long," our next month, produced by Simon Rogers (the Fall).

The **Sisters of Mercy** will be the first band to shoot a music video in Jordan. They've traveled there to do a clip for "Dominion."

Megadeth include a cover of the Sex Pistols' "Anarchy In The U.K." on their album "So Far, So Good, So What."

Even though it was a record that gave them their first big success, the **Bangles** aren't particularly fond of "Walk Like An Egyptian," according to **Vicki Peterson**. "It's all a little embarrassing," she says. "It's not even a song that we have much emotional attachment to." She says she's embarrassed when she hears the song played at parties. The Bangles are about to go into the studio to record their third album.

L.A. Guns bass player **Kelly Nickels** is playing with the band at gigs despite a broken knee. In fact, he twisted the same knee on stage in Santa Monica, California, and continued to play offstage while seated in a chair.

Tom Keifer of the band says **Cinderella** has begun recording the follow-up to "Night Songs" in the band's hometown of Philadelphia.

Van Morrison has recorded ten new tracks with the **Chieftains** for an album that has the working title "Irish Heartbeat." The LP includes ten songs, and should be out in the spring.

Curiosity Killed The Cat bass player **Nick Thorpe** is set to marry Lady Antonia Manley, a distant cousin to Princess Diana. The two were childhood sweethearts.

Bryan Ferry is one of the world's best dressers, according to the International Best Dressed Poll, a survey of about 1,000 fashion professionals and journalists.

There's a report that **Siobhan Fahey** has left **Bananarama**, to spend more time with husband Dave Stewart and to launch a solo career. Fahey will be replaced by Jackie O'Sullivan, formerly of the Shilaleah Sisters.

Readers of Rolling Stone have chosen **U2** as the artist of the year, "With Or Without You" as best song, and "The Joshua Tree" as best album. **Bono** was named best male singer by the 23,000 readers, and **Whitney Houston** was named best female singer. **Michael Jackson** was voted the worst dressed, and also won for having the worst album, single, video, album cover and male singer.

It only took two hours for all 34,000 tickets to **Bruce Springsteen's** shows at the Worcester Centrum to sell out. The tickets went only to people who had received wrist bands a week earlier to prevent them from camping out when the three concert dates were announced. Fans waited in line in freezing temperatures for their tickets.

Frank Zappa says he's had good success signing up voters during his concert tours. As many as 400 new voters have been recruited in one night, Zappa says. "For the most part, we've had success and cooperation," he says. "We did encounter some resistance from the League (of Women Voters) in Washington, D.C. They said they didn't want to send volunteers until they knew what my politics are. That surprised me because I didn't know that was a prerequisite for registering people to vote." Zappa says he's not supporting any particular candidate or party. "On stage, I saw 'I don't care what party you register for -- just that you have the right to vote.'" Zappa has also convinced other artists, including Earth, Wind & Fire, to hold voter registration drives. "Everyone ought to exercise their right to vote," Zappa says. On his current tour, Zappa has been playing covers of Led Zeppelin's "Stairway To Heaven" and the Beatles' "I Am The Walrus."

Henry Rollins, formerly of Black Flag, has a new album out with his new band, The Rollins Band. "Life Time" was recorded in England, and is being released on Texas Hotel Records. The Rollins Band will begin a tour of the U.S. in April, and after the tour Rollins will star in a low-budget movie called "No Not One."

Don't expect to see the **Accelerators** on MTV promoting their new album, "The Accelerators" (on Profile Records). "If we don't ever have anything, it will be too soon for me," says lead singer Gerald Duncan. "MTV is the biggest culprit at work in rock & roll today. Kids should not have to think that MTV is what rock & roll is all about. They should go out in the street and live it and feel it, rather than sit in a \$100,000 house and watch it on television."

Michael Jackson may move his collection of animals from Encino, California, because of the complaints of neighbors. Jackson has been looking at houses in an area about 100 miles northwest of Los Angeles, according to a real estate executive. Some of Jackson's neighbors don't like his collection which includes swans, snakes, a giraffe, and a chimpanzee called Bubbles.

The Del Fuegos have played their first show since the departure of guitarist Warren Zanes last summer. It was a benefit concert with nine other Boston bands at the Rat that raised over \$1,700 for the Church of the Covenant Food Cupboard, a soup kitchen for the homeless. The band billed themselves as The Catskill Reptile Institute for the appearance. The new guitarist for the Del Fuegos is Phil Haynan, who used to play in a Boston local band called the Dawgs. "It felt like going back to square one," singer Dan Zanes says of the show. "But it's more raucous this way, and that's what we want."

T-Bone Burnett will be his own opening act when he starts touring next month. He'll open the show with a country band backing him, and finish it with a rock band. Burnett's new album, "The Talking Animals," features vocals from U2's Bono on one track ("Purple Heart.")

Van Halen, the **Scorpions**, **Dokken** and **Metallica** will tour 25 cities together this year, in a series of concerts dubbed the Monsters Of Rock. The tour begins Memorial Day weekend and ends in early August, and will include mostly outdoor venues.

Rick Danko says he hopes original members of the Band will reform, including **Robbie Robertson**. "Why not?" Danko says. "I think it's certainly time, and many people would enjoy it. I've been planning to do another solo record myself, but I'd be quick to drop it if we could do a Band record with Robertson." Danko says he's cut out drinking since the death last year of Paul Butterfield. "Although I was never a guy to drink every day, I would knock a few beers back here and there. But I don't do that anymore. It's much better to be clear. That's the real deal." Danko has been playing some acoustic shows in the northeast.

Rykodisc is releasing the first 80-minute CD, a Mission of Burma release that will surpass the previous record of 74 minutes on one compact disc. "Mission Of Burma" will cost about an extra dollar, and should be in stores in the next couple of weeks.

The dB's are on the road in the U.S. again, after touring Europe earlier this year with what Peter Holsapple calls "probably the best incarnation of the band we've had. It's very powerful, very streamlined. The edge has come into our stuff. Our first couple of records were very sort of pop-oriented, but we've gotten a little more meat-oriented as time has gone by. While we're not Motley Crue, we do rock." The dB's will go back into the studio this summer, recording an album for release in the fall.

Eric Carmen, who has a top five single with "Hungry Eyes," is label shopping. "Dirty Dancing," the album that includes "Hungry Eyes," has gone quadruple platinum in the U.S. and Canada, and has passed the six million mark in worldwide sales. This year is Carmen's 20th as a rock & roller.

Drummer **Steve Wacholz** says **Savatage** called their new album "Hall Of The Mountain King" at the recommendation of their producer. "He heard the music on 'Bugs Bunny,' I think," Wacholz says. The phrase comes from the Peer Gynt Suite of Norwegian composer Edvard Grieg. "Anyway, every school kid has had to listen to 'Peer Gynt' somewhere along the line."

Kenny Aronoff, drummer for John Cougar Mellencamp's band, has released an instructional video called "Laying It Down."

Puerto Rican Governor Hernandez Colon has approved a resolution calling for construction of a park in honor of salsa music. "Salsa is a live representation of our people's culture, a tradition we are all born with and one that has brought international recognition to Puerto Rico," Colon says. A \$500,000 park is scheduled for construction near a housing project on the island.

Ted Nugent has apparently decided to do something about the trend towards vegetarian diets. He's opening a restaurant in Los Angeles called Red Meat.

Bonnie Raitt and **Gene Parsons** are among the musicians who have released a song opposing offshore oil drilling. "Little World" was written, produced and performed by about 80 local musicians from Mendocino County, California. The record also features two children's choirs. It's a protest of offshore oil leasing plans of the U.S. Interior Department which affect almost seven million acres of waters targeted for possible oil exploration and development.

Dionne Warwick plans a benefit concert in Washington, D.C., in June to raise money for AIDS education. **Gladys Knight**, **Stevie Wonder** and **Elton John** will also perform at the Kennedy Center show.

The long-awaited album from **House of Schock**, featuring former Go-Go Gina Schock, is just being released. It was produced by Chas Sandford.

A settlement has reportedly been reached between **Will Sexton**, and his former rhythm section, **Alex Napier** and **Jeff Boaz**. Napier and Boaz had threatened to sue Sexton over the use of the band name "the Kill." The legal dispute had threatened to delay the release of the Will & The Kill album. Sexton will be going on the road with Kill guitarist Bill White and former Ramones drummer Richie Rinehart.

Larry Carlton, **Miles Davis**, **David Sanborn** and **Paul Shaffer** make an appearance as street musicians in "Scrooge," a remake of "A Christmas Carol" starring Bill Murray.

Phoenix band **Flotsam & Jetsam** are recording an album in Los Angeles with producer Bill Motoyer. The band's debut album (for Elektra) is tentatively titled "No Place For Disgrace."

Grandmaster Flash & The Furious Five have recorded a version of Steppenwolf's "Magic Carpet Ride" with John Kay.

Mick Ronson, former Bowie guitarist, has been producing tracks for Funhouse at Prince's Paisley Park Studio near Minneapolis.

Ratt's next album, due out in June, will be produced by Mike Stone. The band has worked with Beau Hill for its last three albums. Ratt are expected to headline a U.S. tour when the album is released.

Jane Siberry says her new album, "The Walking," is "just a fourth attempt to get where I was trying to get on my very first" album. "I feel that this album is much more me than anything. If anything, there's more harmony with the music and the lyrics than ever before. There's so much personality on the record, and warmth and eccentricity," Siberry says. "There's a wider gap between the arrangements and the song structure than the last album, 'Endless Sky.'"

"Electric Blue," from the current **Icehouse** album, "Man Of Colours," was co-written by John Oates. "We met when we were both touring Australia back in 1981, then I saw him again in New York in 1986," Iva Davies says, "He approached me about writing together, and it worked out great. He has been very helpful and supportive, and that is a rare quality in someone who is obviously very well-established."

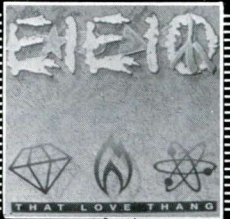

Bob Dylan's next album, "Down In The Groove," will include a cover version of John Hiatt's "The Usual." The track was included on the "Hearts Of Fire" soundtrack. Dylan reportedly has recorded enough material for two albums, and about half of these tracks will appear on "Down In The Groove."

The Rainmakers' "Small Circles" is the first romantic song the band has recorded, according to singer/songwriter Bob Walkenhorst. "It took us awhile to achieve that, to figure out how to do it," Walkenhorst says. "I didn't want to write another isong like 'Ooh, baby' -- that's been done so much. There needs to be a new perspective on it."

Sting plans to release an EP of Spanish-language versions of four songs from the "Nothing But The Sun" LP.

Detroit band **Seduce** will have an album out (on IRS Records) in April, titled "Too Much...Ain't Enough." The LP was produced by Ken Waagner. The trio released an independent album in 1985. The album includes a cover version of T. Rex' "The Slider."

Gary Numan has collaborated with **Bill Sharpe** for another record. This one is called "No More Lies," and Numan concedes "this song's about nothing. There's no theme in it at all." Numan says he's enjoyed working with Sharpe, of the British band Shakatak. "It's fun to work with Bill because all I have to do is write the words and he does all the music," Numan explains. "No More Lies" is in the British charts, three years after the two had a hit with "Change Your Mind."

A guitar from **Lita Ford** has gone on display in New York's Hard Rock Cafe. It's located between instruments belonging to **George Harrison** and **Brian Jones**.

U.D.O. have filmed a video in Poland for "They Want War," the first single from their upcoming album "Animal House." U.D.O. is the band featuring Udo Kirkschneider, formerly of Accept, and Frank Rittel and Peter Szigeti, formerly of Warlock.

George Michael has just begun a worldwide solo tour in Japan, with three shows at the Budokan in Tokyo. He'll be playing overseas until August, when he'll tour the U.S. for several months.

Former April Wine guitarist **Brian Greenway** has firmed up the band which will tour in support of his "Serious Business" album. April Wine colleague **Jerry Mercer** will play drums, and former Offenbach guitarist **John McGale** and ex-Mahogany Rush bass player **Paul Harwood** help round out the group.

Veteran rock performer **Ronnie Hawkins** is working on an autobiography with journalist Peter Goddard. "I sure hope my publishers have good lawyers," Hawkins says, "cause I intend to write it all just like it happened."

It looks as though the sessions recorded by **Bonnie Raitt** with **Prince** at his Minnesota recording studio last April won't be released. Because of conflicting schedules, Raitt and Prince were only able to record three tracks together. "It came out great, but his and my schedules conflicted," Raitt says. "His career priorities got in the way and he ended up doing an extended tour of Europe and I had things I needed to do. I can't wait around." Raitt is currently shopping for a record label. She's also complaining that her former record label (Warner Brothers) hasn't released her older material on CD "when my age group is the one buying all the CD equipment." Actually, "Sweet Forgiveness" and "Give It Up" are both available on compact disc.

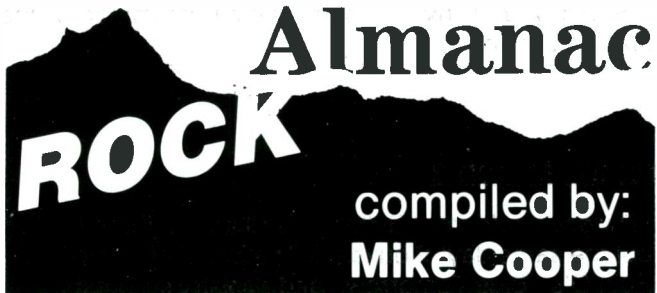

Ladysmith Black Mambazo, the African band that participated in Paul Simon's "Graceland" tour, has finished writing and performing the music score for a "National Geographic Explorer" episode that will air on superstation WTBS-TV on February 28th. Mambazo also recently finished shooting a commercial for 7-Up.

Yoko Ono has donated copies of **John Lennon's** "Imagine" album that she has autographed to a Russian-American prep school in New York. The album covers, in gold frames, and signed "Love, Yoko NYC '88," are being sold for \$100 each to raise money for the St. Sergius High School in New York.

These Immortal Souls, the first British signing of California's SST Records, will begin their first U.S. tour on March 6th. Members of the band include Rowland Howard (former Birthday Party guitarist) and Epic Soundtracks (Red Caryola, Swell Maps).

Robert Palmer is recording a new album in Milan. It will be his first for EMI-Manhattan, and should be out in May.

Rodney Mills is producing the next album from the Gregg Allman Band.

BRIT-PICKS Albums:

"The Lilac Time" (Nine Mile/Cartel)

Marks the return of none other than Stephen "Tin Tin" Duffy who scored transatlantic hits at the height of 80s British invasion music with such danceclub ditties as "Kiss Me". He was also the founder member of Duran Duran but left in their very early days. All of which really has nothing to do with this album which is a complete change of direction - sweet folk reminiscent of Simon and Garfunkel. It works too! Just the shot in the arm we needed and most incredible of all, not a duff track on the whole album! Particularly recommended to alternative radio.

UK MUSIC NEWS

U2 are planning a big Amnesty International concert in Britain later this year, probably at the end of the summer at Wembley Stadium. It's a special year for Amnesty International, a human rights pressure group worldwide, as they celebrate the 40th anniversary of The United Nations declaration of human rights. U2 had wanted to join the next big Amnesty tour of The Peoples Republic of China, The Soviet Union, Africa, South-East Asia and South America, featuring Sting, Peter Gabriel and many others; but unfortunately the band are tied down by recording commitments for their next studio album and work on their concert movie. Paramount Pictures have paid a huge undisclosed sum for the distribution rights to the untitled film, shot during the final stages of the band's recent world tour. Directed by Phil Joanou, the movie, which cost \$5M to make, will be released in the fall, a double soundtrack album being released around the same time. Also likely to come to light is a video shot at the group's Devil Stadium concert in Tempe, Arizona. Further reading can be found in the current issue of "Rolling Stone".

David Sylvian will be making his live debut as a solo artist in March when he begins his "In Praise of Shamen" world tour in Minneapolis on the 23rd. From there he plays Chicago, Toronto, Montreal, Washington DC, Boston, New York, San Diego, San Francisco and then Japan, Germany and Great Britain where he plays 14 dates. They will be his first live appearances in over five years, when he was leading the group Japan. He will be accompanied by a six piece band, Steve Jansen on drums, Richard Barbieri on keyboards, David Torn and Robby Aceto guitars, and Mark Isham trumpets. Sylvian will play a two hour set spanning his four year solo career.

As widely suspected, **The Who** have reformed on a permanent basis, following their reunion performance at The British Record Industry Awards. They are bringing out a new studio album, after reissuing some of their old material, beginning with "My Generation" this week. At the awards, The Who received a special award for their outstanding contribution to British music. It was their first appearance together since "Live Aid".

The Woodentops second album, "Wooden Foot Cops On The Highway" has just been released by Rough Trade. It features 9 tracks produced by lead singer Rolo and Scott Litt. Guest musicians include Bernie Worrel of Parliament and Funkadelic fame. Meanwhile the latest industry gossip in London is that Rough Trade, who with The Smiths were Britain's leading Indie label, are finding life heavy-going since their split and Morrissey's departure for EMI. It has been speculated that they badly need a band in a similar calibre and are betting heavily on The Woodentops.

Kevin Rowland is returning soon with a solo album and single. The former lead singer for Dexys Midnight Runners also promises a totally new musical direction. Rowland has spent most of his time in New York since his last flop album with Dexys, "Don't Stand Me Down", two years ago (when Rowland

also took up an unfortunate stance of being extremely snotty towards any journalist within spitting distance), A single released in April is called "Walk Away", followed by an album in April, "The Wanderer", produced by veteran jazz fusion musician, Deodato. Rowland plays all the instruments on the album.

Jimmy Somerville, **Andy Bell** and "Eastenders" actor **Michael Cashman** were among a host of celebrities who took part in a rally in Manchester, north-west England to oppose Clause 28, a new British Government bill proposing to stop any "promotion" of homosexuality in libraries, drama groups, local councils, schools etc. Over 20,000 people - double the amount who marched in London last month, took part. In addition to those mentioned, "The New Musical Express" found the following speaking out against the bill: The Blow Monkeys, comedian Robbie Coltrane, The Pogues, The Proclaimers, Sinead O'Connor, New Order, Billy Bragg, Hanif Kureishi - author of "My Beautiful Launderette", Bananarama, Pop Will Eat Itself, The Pet Shop Boys, Microdisney, Elvis Costello, The Kane Gang, Holly Joyhnson, former Housemartins Paul Heaton and Norman Cook, Boy George, Marc Almond, Hue and Cry and former Pogue Cait O'Riordan.

"Top O The Pops" has been taken off the air in The United States after only one series. The BBC here in London are trying to put a brave face on the matter and insist that its absence from American screens is not permanent, but it seems unlikely that it will surface again on an American network. CBS bought and networked a series of 26 hourlong programmes, but decided not to purchase another series, because, according to the BBC they felt it should be slotted in an earlier but unavailable slot. The BBC say they are looking at the possibility of cable and pay markets for the American version of "Top of the Pops".

The Waterboys will be making a comeback this summer with an album release, possibly a double, in June and a world tour. The album will be their first since "This Is The Sea" in 1985. Since that time they have lost Karl Wallinger, a founding member who went on to form the hugely successful World Party.

The long awaited **Clash** compilation album comes out next month. It was originally to be called "Revolution Rock" but now "The Story Of The Clash" seems to be the more likely title. The CBS double album will feature all the band's singles plus tracks band members consider to be their best. A twelve inch single just released, features "I Fought The Law", "Police On My Back", "48 Hours" a live version of "1977" and "City of the Dead".

The Bangles were over to London to attend the British Record Industry Awards and to visit the Tower of London where they were nearly ejected for feeding popcorn to the ravens. After admiring the Crown Jewels, Susannah Hoffs is reported to have asked whether they could be hired out for videos!! They also went to The Victoria and Albert Museum and wound up at Kensington Market where they all bought eight pairs of flares each! True!

The Mission, whose "Tower Of Strength" single has just gone topten in Britain, release their second album "Children". It was produced by former Led Zeppelin bassist John Paul Jones and recorded last Fall at London's Manor Studios. Also featured on backing vocals is the lead singer for All About Eve-Julianne. The Mission have just started their tour of The British Isles in Dublin.

Jesus and Mary Chain lead singer **Jim Reid** has been given an absolute discharge by a Toronto court over assault charges when the band played the RPM Club there last year. Reid was charged with assault with a weapon, a microphone stand, after an incident involving two fans at the concert, who were allegedly calling out "boaring!" The charge was reduced to simple assault after the court heard that Reid had sent a personal letter of apology to the two fans, inviting them to meet the band and had donated \$500 to the local Salvation Army. He was discharged. The band are releasing a compilation

album, which will also include unreleased material, next month. More details are expected soon.

The Fall release their long-awaited new album next week, "The Frenz Experiment" featuring the group's Top 20 hit "Victoria". There are a selection of different tracks on different formats of the album. "Mark'll Sink Us" is an extra track to be found on a 7-inch single that comes with initial quantities of the album. There are four extra tracks on the cassette version, and five different extra tracks on the compact disc, including previous singles "Hit The North" and "There's A Ghost In My House". The Fall tour Britain next month.

The Icicle Works release a new four track LP this week. It's the first in a three part series expected over the next three months. Called "Numb" it features "The Kiss Off" as the leading track. In a musical departure, leader Ian McNabb describes it as "a pretty damn funky number". It's backed by their last single "High Time", "Sure Thing" and "The Whipping Boy".

It is strongly rumoured that **Siobhan Fahey** is leaving **Bananarama** to become a full time parent to her baby boy Samuel, by Eurythmics star Dave Stewart. Further to this rumour is that her replacement will be Jackie O'Sullivan, who used to be in the cowpunk band The Shillelagh Sisters. At the moment Bananarama's office in London are denying the split, but it is widely expected that a statement will be made soon.

OMD release their Greatest Hits album on 29th February here in the UK. The album spans their career from 1979 single "Electricity" to their last "Dreaming". Other tracks include; "Messages", "Enola Gay" and "Locomotion". A Best of OMD video will be simultaneously released here.

The man behind the latest massive dance sensation "Beat Dis" by **Bomb The Bass** is 18 year old **Tim Simonon**. He's a part time deejay at London's trendy Wag Club, waits tables part time at a Japanese Restaurant and is taking a studio engineering course. He made "Beat Dis" for just \$350! He certainly thinks that sampling music is here to stay. He told "Record Mirror": "There will be a lot of sampling records sold in 1988. A lot of people sneer at this kind of music but it takes a lot of skill to make it good. You must have a real idea of what people want. It's not really hip-hop or house, it's more like street fusion. It has comparisons with rock and roll because it's a real kids thing and there are loads of guys like me with good ideas but not much cash." A follow-up to "Beat Dis", which has already in itself been dubbed M/A/R/R/S part two, has already been made called "Megablast". The energetic teenager has already begun work on an album which he hopes will include many other young scratchers and samplers. But after that he will call it a day. "I don't really want to make many records as an artist. I'd rather produce other acts." he says.

UK INDUSTRY NEWS

According to the latest figures released by **The British Phonographic Industry (BPI)** the entire UK recorded music market grew by a quarter last year, making over L500M for the first time. The figures appear to be rosy because of rising sales of compact discs, vinyl albums holding their own, while cassette sales have also been rising. Singles dropped by a further 6%. Polygram Records leads the record companies in both album and singles sales for the second year running. Polygram led in the album market over CBS by 2.4% but in the singles the margin over WEA was more narrow, just 0.7%. EMI is claiming to have the first record in the UK with a laser etched image. The 12" version of Richard Marx's "Should've Known Better" carries a picture of the singer, together with the lyrics embossed into the vinyl. EMI say that the technique was developed by their subsidiary in Japan.

WEA International have reported a 20% growth in their music revenues in 1987, compared with the previous year, according to "Music Week". This has been attributed to the labels impressive list of gold and platinum records from acts like Madonna, A-Ha, The Bee Gees, Simply Red, Fleetwood Mac with Canada reporting the greatest number of certifications.

The campaign for a Europe-wide tape levy has been held up by the **European Parliament**. Individual delegates objected to a resolution by Giovanni Papapeitro, MEP, which includes a clause for a levy on blank tapes and hardware. A Green Paper will be issued soon investigating the issue, including the full arguments for the bill from the record industry.

IN BRIEF:

Former Housemartin **Paul Heaton** and **Stan Cullmore** have done their first interview since the band's split, with "The New Musical Express". Among several fascinating revelations, Stan had spent his time from the split until recently retreating in a monastery in Scotland...Fights broke out among some 1500 ticketless fans before a concert by America's **Butthole Surfers** outside the the London club The Mean Fiddler. No-one was seriously injured although some people received nasty bites from police dogs...**Age of Chance's** next single is "Take It"...**Simply Red's** next single is "I Won't Feel Bad"...**Supertramp's** new single is "Free As A Bird"...Act release their new album "Laughter Tears And Rage" on ZTT, their debut album. Act are Claudia Brekken and Thomas Leer...Promising Irish band: **Aslan** release their debut album "Feel No Shame" on EMI soon...**The Men They Couldn't Hang**, who used to kick around with The Pogues in their early days have an album out March 7 "Waiting For Bonaparte"...Northern Ireland's promising folkie, **Andy White**, releases his second album for London Records "Kiss The Big Stone"... Touring around the UK at the moment: **The Proclaimers, The Wedding Present, All About Eve, The Godfathers, Courteney Pine** and **The Mighty Lemon Drops**... Following the warm public response to their Christmas reunion tour, **Stiff Little Fingers** go back on the road in March...American punk revival? This week "**Never Mind The Bollocks, Here's The Sex Pistols**" has finally gone gold in the USA...**Sinead O'Connor** plays her first headlining dates in Britain next month. She supported INXS on their tour here last December... **Everything But The Girl** release their new album "Idlewild" on Blanco Y Negro through WEA, February 29...**Whitney Houston** sold out four nights at Wembley Arena in London and three nights in Birmingham, (in the English midlands) in May, only four hours after the tickets went on sale!...**The London Astoria**, usually host to beer swilling, smoking Jesus and Mary Chain fans never looked so wholesome as when **Debbie Gibson** played there last week to pale-faced spotty English 16 year olds. Or was it that wholesome? Young Debs held out a manicured hand to one spotty youth to join in a balloon bobbing game. Of course it wasn't long until the burly bouncers noticed that the object in question was not so much a balloon as an inflated condom. Oh those teensagers!! Meanwhile "Number One" magazine have just published "Who's best? Tiffany or Debbie?" Goodness gracious me! I simply can't wait to find out!!

BRIT-PICKS Singles:

"Birth, School, Work, Death" by The Godfathers (CBS) It sez here it's a remix, but I can't tell the difference. Fabulous record but the album track is just as good.

"If I Should Fall From The Grace Of God" by The Pogues (Pogue Mahone) One of the few extended twelve inches these days that is actually worth picking up for an extra few minutes of dizzying, reeling, swashbuckling stuff. Terrific.

"Nobody's Twisting Your Arm" by The Wedding Present (Reception) Highly tipped as the Indie darling successors to The Smiths and The Housemartins, having been heard in all the right places (IE: Especially John Peel's show) A hard image for the band to live up to, who like The Fall simply write clever, dry humoured left-field songs. I really like this but it may not stand out enough for many radio stations.

T.J. Martell Foundation for Leukemia and Cancer Research is the charity founded and funded by the music industry. Each year the music industry hosts various functions to raise money for the foundation's research facilities. These functions range from golf tournaments to bowling parties, horse races to black tie dinners. Our goal is to eradicate leukemia, cancer, and AIDS in our lifetime.

This year our branch of the T.J. Martell Foundation would like to gain much needed friends in the radio industry. We have already welcomed several stations to our family, but we would like to see the radio industry become solid backers of this wonderful foundation.

Your help is needed to raise funds. We know your imagination is limitless when it comes to promotions and with that in mind we know you will be able to arrange a fun and exciting charity event! Hosting an event not only promotes your station, but gives you a warm feeling of knowing that you have in some way helped your fellow man by making the world a better place to live.

If you would like to join our family and host your own charity event please call us at the number below for further information. We will be glad to help you and your station create or coordinate your event, if you so desire.

Let's try to make 1988 a banner year for contributions to the T.J. Martell Foundation and have the radio industry take its rightful place within the foundation.

Sincerely,

Jon and Lorraine Scott

Just what the world was begging for -- another damn airplay chart! Seriously, fellow kids, take a moment out of your busy broadcast day and take a look at Bill Hard's latest Chart entry -- the Winners Chart. For years I've been trying to talk someone into printing an airplay chart based on the top stations in the competitive AOR markets across the country. All the other charts include a majority of either competitively irrelevant or incompetent stations. When I'm looking for a song's relative worth nationwide, do I really care what the losers think are vital songs? This is not meant to be an arrogant or major market snob approach toward song selection, but rather a chance to make a choice based on the Winners' best bets. In the end, we all have to decide what songs fit best for what we're doing in our own markets. Why not try to get the best information to help make the right choices? Thanks to Bill for doing the chart; at least he knows that I'm reading it.... And as long as I'm in print, I'd like to say a quick "nice to meet you" to Pam Edwards and Lorraine Caruso.

Erin Riley, WMMR, Philadelphia

Hail, Hail rock and roll! It's great to see that when Robert Plant speaks out against Led Zeppelin soundalikes he has the music to put where his mouth is. "Now And Zen" kicks from beginning to end. The moment we debuted "Tall Cool One" the phones went crazy non-stop, until last Friday when it became The Screamer Of The Week by an overwhelming margin.... Last week's Screamer came as a surprise, even to me. I knew the song sounded great on the air, but I didn't realize how quickly the audience was taking to it. Are you ready? It was "The Walls Came Down" by Glen Burtick. Now I know I go on about this guy, but it's because I've seen him play so many times and I believe he's written many as of yet unrecognized hits. "Walls Came Down" is one of them. A&M, you've got a hot one ready to burn up the charts. Don't let it slide.

Alan White, KILO, Colorado Springs

Special thanks to Michael Williams of MCA/Denver for bringing Ed King of Lynyrd Skynyrd to KILO for an exclusive interview about the life and times of his legendary band and to play a couple of tracks from the forthcoming live album. Some great stories from a man who's seen it all from the Strawberry Alarm Clock to one of the south's premier bands.... No holding back on the superb album from Robert Plant. Our choices from the album invoke the spirit of his former band yet still establish his new songs as a statement of the 80's. "Tall Cool One" is as close to a mega-classic as there ever was. "Helen Of Troy" with its tight as a drum cadence and rapid fire guitar grabs hold and won't let go. "Ship Of Fools" is the other side of the coin; a ballad that shows the maturity and songwriting skill that is without equal. "Now And Zen" is grade A.

John Lassman, KQRS, Minneapolis

Thank you Rolling Stone Magazine and the radio listeners of Minnesota. And since when is Cleveland a bigger market than Minneapolis and St. Louis for that matter?

Carter Alan, WBCN, Boston

We're very excited about this Underworld album and "Underneath The Radar". That song is an excellent choice, but the rest of the album exhibits the band to as a well rounded songwriting powerhouse, with a lot of soul. We did a live broadcast from Newbury Sounds Studios on Oedipus' Nocturnal Emissions program this past Sunday night and the band's performance was flawless and exciting. They're a strong live act, and when they come back this year to do a club tour I'll be in the front row.... In other news: The Tonio K. album is turning on all the jocks at WBCN. "Without Love" is a strong song, which is already generating good phone response.... We like the Big Pig and Robyn Hitchcock albums on A&M. I kind of wondered what a band would sound like without a guitar, but Big Pig's rhythmic sense brings home the bacon without an axe.... And I'm foaming at the mouth over the Robert Plant record. I was a huge fan of the first three solos but "Now And

Zen" floors me. My Favorite track is "_____", but I could easily give you "Helen Of Troy" or "The Way I Feel".

Jim Steel, WIOT, Toledo

Strongest add of the week: Any track on the Plant album, far and away. The one that looks as if it will generate instant response is "Tall Cool One". It's almost like Plant's equivalent of "When We Was Fab" without the direct lyrical reference. I don't know about you but it sends a chill down my spine. The tune itself is so unique, it's almost as if it doesn't need the Zep-pelin overtone, but hey, it's like the cherry on top.... Also re-added Bruce's "One Step", only because "Heaven" is already on the air.... My Five Current Favorites: Noiseworks, Henry Lee Summer, Rick Springfield, and any cuts from Def Leppard and Plant.... Retail movers: Roth continues at #1 the second week out, followed by INXS, Def Leppard, and Sting, and I'm surprised to see White Lion maintaining strong top 5 sales.... Almost Added: John Brannen, for the second week in a row.

Beaver Brown, KDJK, Modesto

It was a long uphill battle, but I finally got Rick Springfield on. "Rock Of Life" got so much positive response that the wall that was Rick's previous image was destroyed. People have forgotten the old Rick and are eager to embrace the new one.... "Words Are Not Enough" should blow your listeners away. With all the raunch rock out there, this clean shot of the Aceman's axe is a breath of fresh air.... Well, it's time to pack up and hit the road -- and leave the wonderful world of radio for that long drive to Hard Acres. Thanks for all the help from my record people and to those I leave behind at KDJK. A great group of people who work as a team, making radio a better place to be. A big tip of the hat goes to Mark Davis. He gave me a shot and I took it, and if he hadn't let me be me, I probably wouldn't have gotten to where I am today. Adios sunny California, hello Jersey Shore. All those miles, all those smiles, I'll miss 'em. See ya!

The Bel Fires are worthy of serious attention!

Andy Preston, KPOI, Honolulu

Robert Plant will prove beyond a shadow of a doubt that he's one of the most creative forces of today. Critically, commercially and in the opinion of his peers, he will stand proud with "Now And Zen". Just sample "Tall Cool One" for a taste of his talent and sense of humor. "Dance On My Own" will be a great single and "Helen Of Troy" will sound fresh even after 20 or 30 listens. Hey Rock, where's my CD? Aloha.

Graham Hatch, Frontier, 609-799-7597

Definition: Silly. Silly is when E*I*E*I*O is your fave record and yet is not on your playlist. All ye fence sitters come down off the hill and get on track with WRIF, WQFM, WLZR, WXRT, CFNY and more. "Hey Cecelie" is gonna work at your station, there is no denying it.... The Pontiac Brothers have a new one called "Johnson". It's a spicy and deep rock record worthy of being hammered on the airwaves. The priority cut "Ain't What I Call Home" is almost an anthem. Give me a call if you don't have a copy of it.

Julianna Raeburn, Nettwerk, 604-687-8649

So I'm hoping that by now you have heard the Tackhead album and are reporting some numbers. I've been hearing some great comments from radio about the Lp, and KCMU charted it less than a week after adding it so let's keep it together. I know this one is a hit, I only wish that all of you could see the band live. I had the pleasure of witnessing their assaut on music as we know it last week and I tell you, it's not very often that I'm that excited by a live show -- I had dreams about it for two nights after! So anyways, keep up the enthusiasm about this one, I think it's going to have a long life. (If you didn't get a copy, give me a call and I'll get it off to you).... Aside from that album, keep your eyes peeled for 2 new Nettwerk videos -- one from SPK for "Breathless" and the other from Single Gun Theory for "Open The Skies". Both were just shot on location in Australia and are really quite attractive.... Until next time, thanks for all the support.

Jay B. Ziskrout, Arista, 213-655-9222

It is really exciting for me to be part of the launching of "Starfish", Arista's debut release from The Church. The stellar raves that I'm hearing on the sound, texture and early reaction to "Under The Milky Way" is beginning to fulfill all of our promises and our expectations. Quite simply, this record seems to be speaking for itself. And major, tight and conservatively formatted stations as well as the more progressive outlets are listening and responding with airplay in a big way!... My sales department is blowing my mind with incredible first week, over the counter activity on the album with Minneapolis/St. Paul, Boston, Colorado Springs, Los Angeles (in fact, the entire West Coast) leading the way. You will be able to count on significant support on the retail side.... Please note: After only one week, "Starfish" is the #4 most played album in-store nationally. If you haven't added this record yet, I would suggest that you read the comments your peers are making, listen to the record again and get down to the business of creating a hit for your radio station and breaking a new artist for our mutual future. Thanks to all who are already with us on this project. And, so you can't say I'm not topical, I will close with the following observation. "This record is so hot even Jimmy Swaggart is once again seriously considering "The Church".

Donna Geisinger, Passport, 818-500-7677

I guess the Gavin Convention took more out of me than I realized since I missed my dialogue last week, but as that great quote goes "She's back"!... The Wild Seeds' tour continues through Florida and last night's show was so good that the attendees were throwing money at the stage! Many thanks to WFIT for sponsoring a great evening of fun! The tour con-

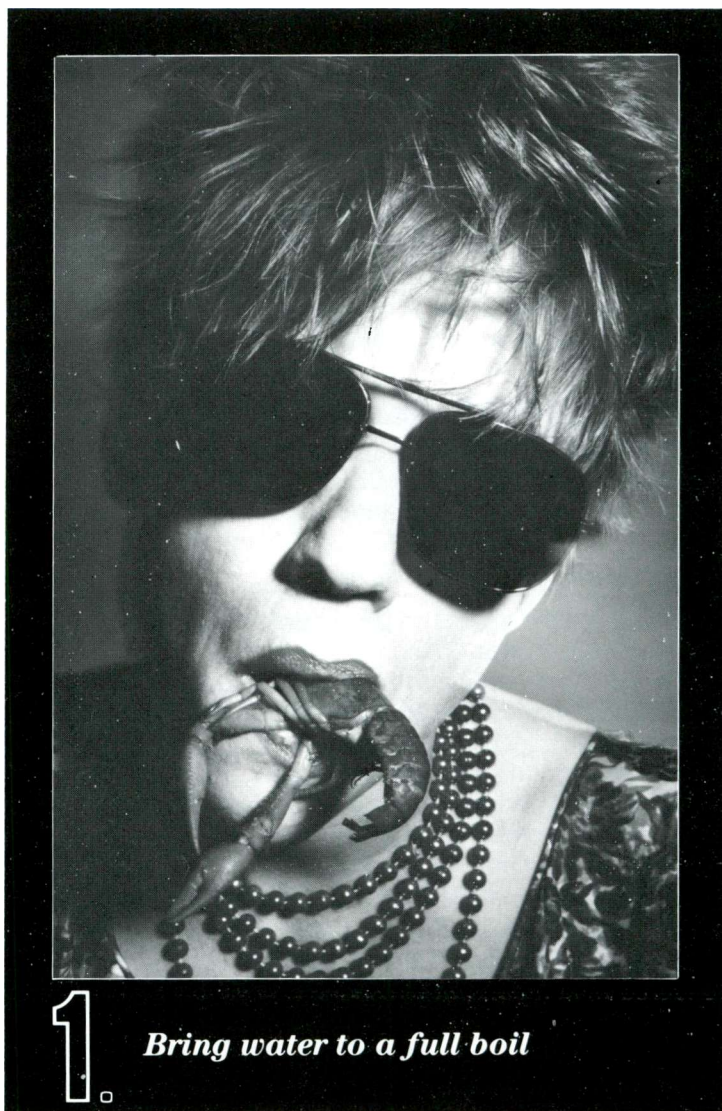

tinues: Feb 27th-New Orleans, Mar 7th-Houston, 12th-Austin, 14th-Greenville, 18th-Baltimore, 19th-Philadelphia, 21st-New York City, and more dates will follow next week for those who are on the edge of their seats! The song may be "I'm Sorry I Can't Rock You All Night Long" but watch out, because the band is going to play all night long!... Don't become a "Wanted Man" by your listeners, remember to play Eric Steel, Passport's intro to great rock 'n' roll in '88!... I'll be seeing everyone at the Radio & Records convention. Don't you feel sorry for the citizens of Dallas? Maybe someone should warn them we are coming.

Megadon, Combat, 718-740-5700

You should be familiar with the new Crumbsuckers album by now. It sneaked upon me after a few spins, and now I've got a "Beast On My Back". Chris Notaros lyrical input has brought the band to a much higher level of maturity.... Tigertailz is another fun record. Underneath all those layers of Max Factor is a pretty rockin' band. They're definitely heavier than most glam bands. "Shoot To Kill" is the one to go with.... I burned myself out last weekend on too many great bands and way too much alcohol. (I might join Gang Green one of these days). Heathen and Zoetrope were unreal both times I witnessed them. The stage presence alone of both bands is enough to make them arena acts. Extra extra special thanks go out to Mike "Hey, Spooge" Farah, a non-industry pal o'mine who let us use his house for pre-show festivities with Zoetrope. This turned into the first semi-annual Real Men Couch Potato party, which included showings of several "Gorgeous Ladies Of Wrestling" matches, beer, a dubbed copy of "Robocop" (GOD!), more beer, pizza, Jack Daniels, Barry Stern's sharp wit, Scott Givens largeness, still more beer, the extra hot sauce demo (hi, Howie!), and lots more beer. I'm still hung over. Thank God Monte Conner stayed home, we all had a good time.

Paul Brown, Virgin, 212-463-0980

Boyoboy, tying in the Jimmy Swaggart situation to Balaam and The Angel's "I Love The Things You Do To Me" would've been too perfect. So perfect, in fact that neither Jeffrey nor myself

February 26, 1988

could bring ourselves to do it. Suffice it to say that the fuse has been lit. In the coming weeks, look for "Shattered Dreams" from a band named Johnny Hates Jazz, a seamless pop/crossover masterpiece.... And also, get ready because Public Image Limited hits the road to open the entire U.S. INXS tour. Get there on time, you're not gonna believe your eyes or your ears. Ask Jeffrey about our little soiree with Mr. and Mrs. Lydon a couple of months back.... Also, David Sylvian hits the road next month, his first tour since 1982. This man will someday be huge. I'm not even agitating for his latest Lp, "Secret Of The Beehive". Go see him in your town as he tours with a band which features Mark Isham.... Finally, if anybody out there is actually reading this, be aware that we have a Ziggy Marley record in the wings. This Lp "Conscious Party" is beautiful (produced by Chris Frantz and Tina Weymouth) and important.... Ooops, almost forgot, speaking of Talking Heads, David Byrne contributed heavily to the score for "The Last Emperor", which looks to be a film which'll be nicely represented come Oscar time.

Bill Evans, KTAO, Taos

For a 12" release by a new act to go right into our heavy rotation; it must be in the groove! "Wrong Number" is the right number for what we're doing and after spending time with the full cassette, I'm convinced Pat McLaughlin is the goods! Go ahead, treat your audience to some tasty music.... Thanks to MCA for a great package of oldies on the "Hairspray" soundtrack.... Gotta go - it's Madison time. Looking good!

Mike Marrone, WHTG, Asbury Park

Treat Her Right makes a big jump to heavy this week thanks to immediate phone response to "I Think She Likes Me". I hope everyone stops comparing not only Treat Her Right but The Wild Seeds to The Georgia Satellites, it doesn't Apply!... The Wild Seeds "I'm Sorry I Can't Rock You All Night Long" is a great song, not just a novelty song. But if you're looking for something from this album that will stick, try the beautiful "If I Were A Storm". This song is so good, it's scary. It would be a shame not to at least listen to it, not to mention play it at your station.... Ryuichi Sakamoto "Risky" has been around for a quite a while. Now that it's out in America, play it! It was co-written and sung by the Iggster and is a song that works both on the radio and in clubs, much the same way as Jerry Harrison's "Rev It Up" even though they don't sound alike.... Sisters Of Mercy "Dominion" moves to power and the "Floodland" album is consistently locked into our top requests and top SALES, a fact that I am delighted to report!... I can't wait to listen to the whole Mighty Lemon Drops album! "Inside Out" borrows a little bit from Echo and the Bunnymen, but who cares, it's great song. When was the last time you heard something completely original!?... World At A Glance stopped by recently for an interview and stayed on the air for about an hour and 15 minutes and we played the debut album. This record is good from beginning to end. You should give it a serious listen since so many have not picked up on "Burning Out". This song sounds like a cross between the Cult, INXS and even The Cure. Give these New York guys a break and listen to their record!... I'm confused as to why record companies are so uptight about stations like ours playing imports before the American record is released. All you have to do to find out why I'm so confused is to take a look down ANY airplay chart and count the number of acts first exposed in this country because of stations like ours playing the import. In my opinion, the only way to stop this practice is to affect a simultaneous release schedule world wide. Until that is accomplished, you'll always have stations playing imports, after all, if our listeners can see the record in a store, we have to play it! 'Nuff said, peace, love and have a nice day. Your pal, Spike.

Adam Langley, WBNY, Buffalo

Sinead O'Connor is doing her first ever U.S. gig right here on the Buffalo State Campus on March 23rd! It seems like the entire world is coming to the show. We look forward to seeing Liz Grove at Chrysalis and Ivar Hamilton and Don Berns from the Spirit In The Sky, CFNY.... For anyone who played Sinead,

check out the new Jane Siberry record, it's just as artistic and accessible.... The Hood is not a fluke, I repeat it's not a fluke. #1 two weeks in a row and it's on NOBODY's chart, I simply cannot understand it. Pick this one up now!... Pop Will Eat Itself is smoking. I can't pick a suggested cut because the whole album is cranking for us.... Mighty Lemon Drops single is good, the B side, "Shine" is good too!

Paul Kriegler, KRCK, Omaha

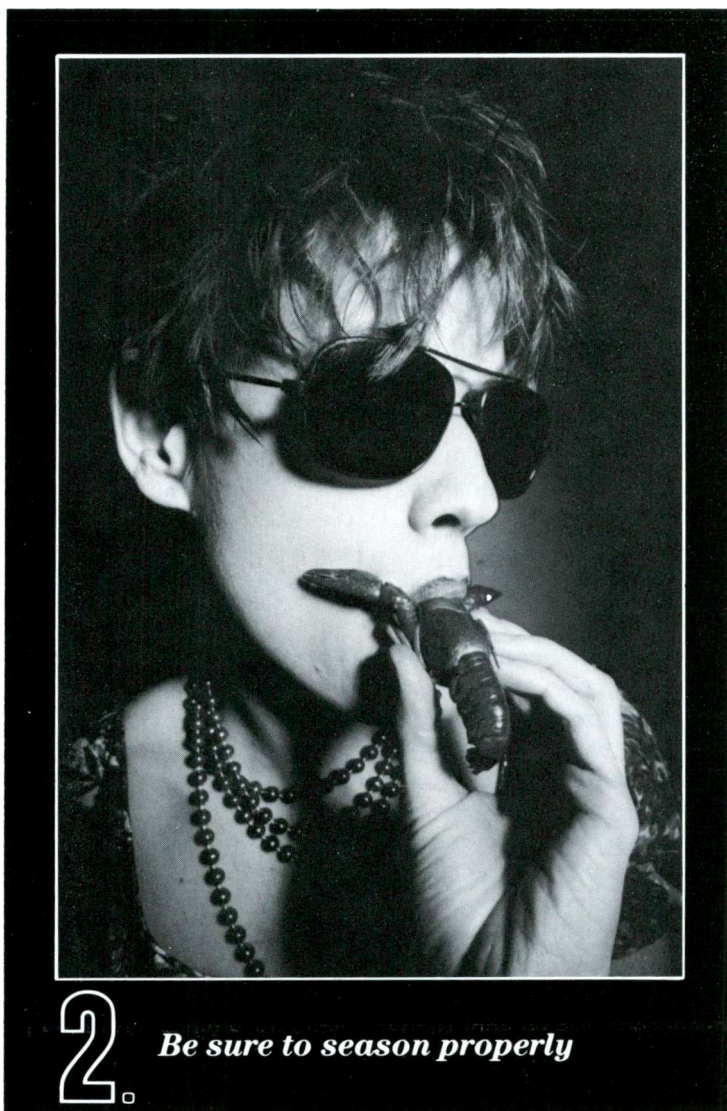

I hope the Mighty Lemon Drops get the real push at AOR! "Inside Out" is one of their best songs ever.... For any station who has ever played the Sex Pistols, give a fair shake to Megadeth's cover version of "Anarchy In The U.K.". The Sex Pistols were an inherently sloppy band both in the studio and live, not to say I don't love 'em. But it's good to hear the song given justice. Listen to it, add it - play it!... Congratulations to Virgin for signing the Durutti Column. Just wait til the album hits stateside! "The Guitar And Other Machines" is a striking album that gets better and better with every listen.... Congrats to two labels who really displayed some class and brains recently, CBS and Arista - for their pre-release job on the Woodentops and The Church. Simply because they both sent pre-release cassettes! Such a simple thing, they have themselves to thank for getting both albums in our Top 10. Other labels take note!

Howard Glassman, WEQX, Manchester VT

If it was 1966, Nick Lowe would be sitting on top of the world. His songs are of the highest pop standards, so catchy even the state worker can sing along. "Lovers Jamboree" continues the fine tradition that Nick has set in the past. And the Dave Edmunds production is aces, maybe, just maybe, it's too good.... Top request this week: Midnight Oil "Beds Are Burning".... Simplicity is wisdom, I love you all.

Jonathan Rosen, KUPD "Virgin Vinyl", Phoenix

First, something of the utmost importance. High praise for Radio Editor Jim Trapp for his honest and direct approach to the critical questions of yesterday, today and tomorrow's AOR format's success or stagnation. Week after week, this subject

Be sure to season properly

February 26, 1988

is covered. Absolutely stimulating and enlightening and should be continued to be addressed with regularity.... On the subject of new music, I fully realize that a full service alternative station might not work in every market. Revenue and ratings are almost imperative immediately. In most cases the long term commitment just isn't there. For the time being, specialty shows will have to carry a very important load so it's with the above acknowledgement.... I'm happy to say I'm back after a three month forced hiatus, with my "Virgin Vinyl" show. I begin six years on March 12th Saturdays from Midnight to 3AM on KUPD, a powerhouse AOR with a very powerful signal to be heard all over Arizona. Please check your mailing list: My address is 318 W. Santa Cruz Drive, Tempe, AZ 85282 (602-967-6278).

Ivar Hamilton, CFNY, Toronto

After ten days in California it's great to be back in five degree weather. (Don't believe a word of it!) What an experience. Thanks to all who showed me around in L.A. and in San Francisco, your hospitality was most memorable.... Now with a mountain of mail on my desk, I'll have a lot of music to catch up on.... Torontonians are ecstatic about the news of David Sylvian finally coming to town, Japan only ever played here once in '79 and with three fifths of the band going on tour, it should be very exciting.... Rumour Department: Bob Rock to produce the next Cult Album?... Confirmed: Erasure covering "River Deep Mountain High" on a forthcoming UK B Side.

Bonnie Simmons, Hightone Records, 415-763-8500

Thanks to those of you who have seen the early morning light, and have already added Joe Louis Walker. If you haven't listened to it yet please try "747", "One Time Around" and "Mama Didn't Raise No Fool", with Steve Berlin helping out. If you're looking for something on the softer side, "The Gift" is working well for some people. Joe begins a three month tour of the U.S. this week with a tour of England in April sandwiched in the middle of it.... Favorite records for me this week included the Missions new one, produced oddly enough by John Paul Jones; The Kane Gang "Don't Look Any Further" and Nick Lowe's "Lovers Jamboree".... My only crusade this week is that you write or call NBC television and ask that they renew "St. Elsewhere". It's one of the best written, best acted, shows around, and waiting for the rock & roll puns they throw in is the high point of my Wednesday evening video taping each week.

Lisa Walker, WPYX, Albany

Armored Saint blitzed into Capital Land for a memorable intimate club concert. John Bush and company captivated the capacity crowd enough to earn them #1 requested honors on Metal Shop this week. It was great spending the afternoon with Gonzo and Dave (thanks to Zach Harmon and Jerry Blair for their help). Armored Saint deserves more acclaim than they get! Don't miss them live, now opening for Ted Nugent. (Personal to Gonzo: Yes, golf next time but beware I shoot a mean 85.)

Very Parental Mom and Dad Scroggs, WWVU, Morgantown

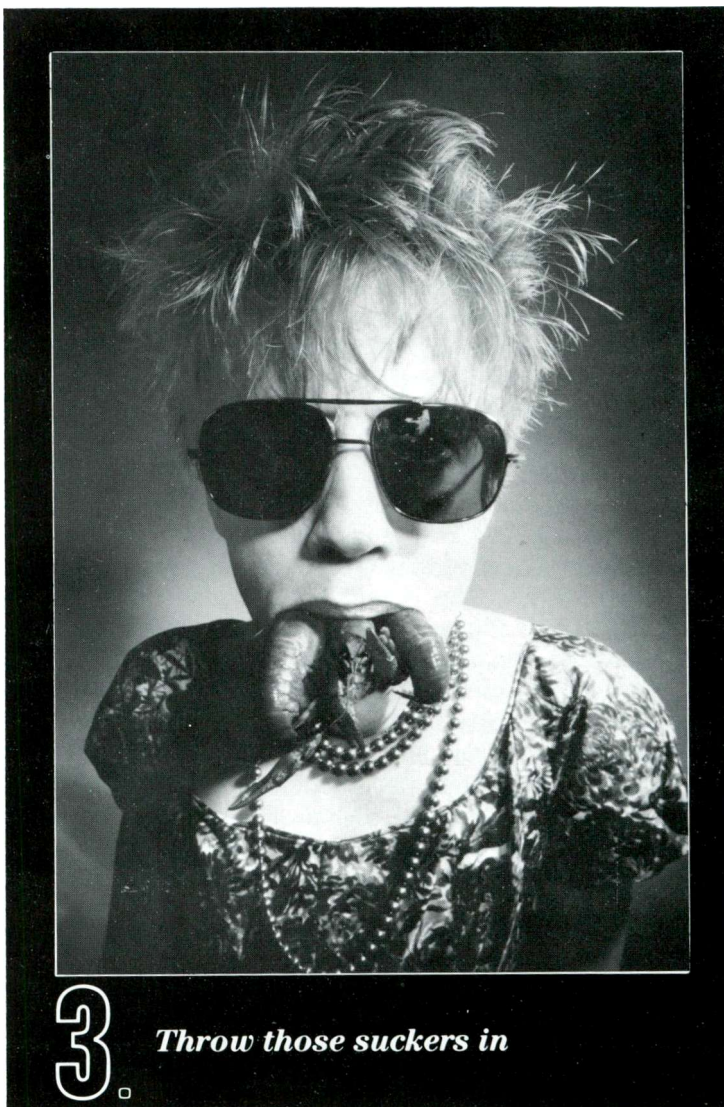

Lately, we've noticed that our son has been behaving in a very unusual manner, and Jennings and I think you're all responsible! It all started when Richard declared he'd only listen to orchestras with "death" in their names. Since then, he insists that we videotape every episode of "Married With Children". He constantly mutters to himself about "getting" someone named Megadon. He carries a doll that looks like a greek waiter; he says it's his "Mr. Death" voodoo doll. I guess we decided he needed professional help when he disrupted my bridge party by painting pentagrams on the dinette set, and screaming "drink blood of every corpse." When we asked him what was troubling him, he just smiled and said he was "Kat-possessed". We've sent Richard away for a while, so he can relax. All we want is our little boy back.

Bill Fischer, WJUL, Lowell

Alas, our righteous innocent metal reporter Sir Bill Fischer (who needs a job in May) has been surrounded by the evil metal programmer/promotions dialogue empire. Spurred on by their vile leader Sir Monte Zuma Conner of the Roadracer empire, this evil cult has fought to destroy the innocence, pride and, least of all, modesty of the "doer of all metal goods", Sir Bill. As we observed in our last episode, the evil Darth Conner used his right hand woman - the evil mistress Clarissa of the Enigma planet, to attack our hero's social life (or lack of one). Along with her subservient evil dialoguer, the very womanly Rich Scroggs, Megadon The Hut, and John (so what if I look like a preppie accountant) Bello, she has attempted to cast a dark shadow on our hero's well being. Stay tuned to future dialogues to see if this contemptible breed of Conner's Cult will stunt the majestic and well loved Sir Bill's attempt to continue to promote great metal and to find his dream queen -- the illustrious Jessica Harley.... Meanwhile back at WJUL, we received the Fates Warning 12", which I must admit is spectacular. If the album is half as good as the single then maybe this band will see the fame they deserve.... Also, in my opinion the new AC/DC album is the best thing they've done since "Back In Black" which for all you trivia buffs, was the first heavy metal album I ever bought.... Finally, as for a suggestion for a new contest, why don't we see who can imitate a Mike Jones dialogue the best.

Jon Johnson, WKNH, Keene

Concerning the Coven Lp, it's really hard to take a band seriously as being "evil" when the lead vocalist pictured on the sleeve is wearing a Mickey Mouse T-shirt. Despite the hype, they are hardly the next Mercyful Fate.... By the way what ever happened to the Angel reunion? Why aren't record companies getting albums up here faster?... The new Megadeth was out for a month before Capitol deemed us worthy of its receipt, and I still haven't heard the Kingdom Come Lp.... I can't wait to hear the Fates Warning Lp.... What's behind the delay of Sabbath's debut release?... And does Agent Steel still have a contract with Combat after the two song debacle?

**3*****Throw those suckers in***

Mike Jones, WGIR, Manchester

There are some sad folks around here because the "Pistols And Daisies" aren't going out with the Diamond One after all. But, I'm sure we'll see them on another tour real soon.... Gotta say "How's it goin' Bud?" to Jess Harley and those cool dudes and dudettes at WKNC.... What a surprise it was to find the new Fates Warning 12" on my desk this week. It kills, it's huge - play it often. New throat Ray Alder is excellent, it's great to have these guys back.... And just to make sure everyone knows -- the Zodiac Mindwarp record rages hard. Later.

Jeff Ivan, KFMX, Lubbock

Our metal show has been expanded due to powerhouse ratings this last week. Birch gave it numbers anywhere from the high 50's to 75. The show is up to four hours now.... It sounds like Krokus' first album for MCA is going to be a winner. Listened to the advance the other day, and it is without a doubt their strongest release to date.... Kingdom Come continues to rule the phones. I can't wait to hear what Robert Plant says about them. By the way, his new record is brilliant, very refreshing.... Take a good long listen to Black Rose, "Shout It Out" has all the hooks that you need for a hit. This one should go AOR soon I imagine.... I'm not too sure why Geffen is redoing "Welcome To The Jungle". I know a lot of stations passed it up the first time, but personally I don't like to rehash songs, so I'm looking deeper into this fantastic album.... A word to the wise: Get on White Lion's "Tell me" before it goes monster.

Janet Getchell, KSLC, McMinnville

Last night I got to see what Monte Conner was always going on about: Paul Di'Anno's Battlezone and Obsession were in concert. I was bowled over - it was a great show. Renee and myself (one of our other metal jocks here) literally lost the shirts off our backs to the Battlezone's bass player who wanted them for his collection. At least the guys were nice enough to give us new T-shirts to wear home.... Sanctuary is incredible.... Can't stand the Lp cover for Eric Steel but people seem to be going for it.... It's nice to see Gargoyle, another band from Portland doing well.

Joe Quirk, WWUH, West Hartford

Hello to all the thrashers nationwide. Here's what's going on demo-wise in this slice of hell. I just got hooked on a band called Kruciform. I ran into these guys outside of Roadracer Records in New York City - these guys kill. Listen to the third track off the four song demo. Great song quality, done with 24 tracks.... Sonic Plague - a great crossover band from southern Connecticut just finished a full length album on Anthrax Records. Watch out for these guys they are gonna be big real soon.... Formacide - a band from Massachusetts has a great sound; a very intelligent sound. It could be the next generation of thrash metal.... Also noteworthy are Skeletal Ambitions, Toxic Waste, Disaster, Atrocity, Prime Evil, and Necrovore. Please contact me at 203-243-4703 with any questions.

Penny Barnes, Rhino, 213-828-1980

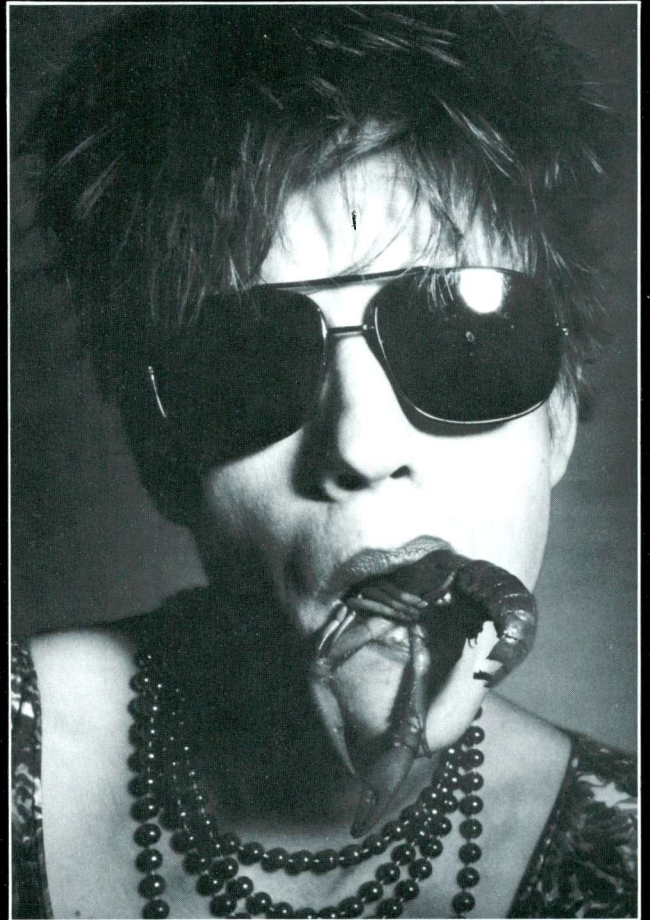

The James Harman Band is really coming in at radio this week. The excitement surrounding this band is incredible. You know the blues is blues, whether it's done 1980's style or not, and James has the patent down. He's been playing nationally for several long, hard years now and this experience has made him a well seasoned vet. Check out "My Baby's Gone" on a CD player near you! Nothin' could be finer.... And what about those freaks? House Of Freaks that is, imagine them gracing the covers of both The L.A. Times Calendar and Music Connection in the same week. The buzz about town, is spreading to national proportions! Not to mention the incredible shows they've been playing all over the country. They are jumping aboard the Paul Carrack tour this week, and this should prove to be some mean, and much needed exposure for them.... I've been checking out the new Guns 'N' Roses stuff, and this band will seemingly be around for many more years to come! Wait 'til you hear.... Also, the LA Guns is pretty damn powerful, and warrants a few long, good listens! Have a great week!

Ross Goza, KNAC, Long Beach

Once again, Aerosmith's "Angel" is the most requested song of the week; and Guns 'N' Roses remains the most requested band!... AC/DC's "Blow Up Your Video" is undoubtedly the finest collection of riffs-that-kill since their "Back In Black" Lp! We like "That's The Way I Wanna Rock And Roll" as the sure-fire follow-up to "Heatseeker".... Dokken's "Back For The Attack" Lp is our 3rd most requested, and "Prisoner" is making big gains!... Watch out for the new Vinnie Vincent Invasion, it's killer!... Ditto for J.P. "Johnny B. Goode".

Cheryl Valentine, Metal Blade, 212-645-6208

I, for one, am extremely ecstatic over the success of Megadeth's new Lp. Does this mean that metal will become a commercially viable source of entertainment? Will commercial stations wake up, smell the coffee and say "Gee, there is an audience for metal out there"? Probably not.... On a lighter note, I am hereby submitting my application to join the AI "My wife is dead" Bundy appreciation society. I realize that since I'm of the female persuasion, this may seem like an unusual request. So be it.... As far as business goes, our Swedish dudes Candlemass are already in the wee teens of the charts, and Dead End (yes, the lyrics are sung in Japanese) has been aired on MJ's Metal Shop and MTV's Headbangers Ball.... Nasty Savage is out again pummeling your face with their brand of thrash, while Viking gallops over the rest of your pathetic bodies with their debut album "Do Or Die".... The first Fates Warning single "Silent Cries" should be at your doorstep by now. Plain and simple - Fates totally rules. Obscenities will be exchanged if our opinion differs.... Also, I'd like to take this opportunity to pick on a few of my buddies, cohorts or just plain acquaintances.... First of all, in the quest to give Derek Simon a truly ethnic identity, we've changed his name. Please refer to him now as Sir Simonsteen. Then again you could take Bill Eikoft's suggestion and call him Derek Simonoff - a true Ruskie if I ever heard one.... To Mr. Scroggs: I know you're short and dumpy; quit giving me the tall dark and handsome story, okay. I'm not going for it.... Monte: Forget the white socks.... Mega: You're great even if you can be picked up on satellite.... Mr. Eikoft: Thanks again for your hospitality.

Rick Panneck, WAPL, Appleton

Top five retail includes: David Lee Roth, White Lion, George Thorogood, Def Leppard and Aerosmith.... Guns 'N' Roses cannot be denied this week. The phones have been lighting up and the retail picture looks great.... The Church is on the verge of crossing over into the mainstream. "Under The Milky Way" is a great sounding record that will go the distance on AOR.... Henry Lee Summer has exploded on the request lines. One listener compared it to "John Cougar Mellencamp with balls".... Joe Satriani is rivaling Eddie Van Halen for "Guitar God" honors.... On the Wisconsin scene, the BoDeans continue to dominate with "Dreams" and E*I*E*I*O is starting to build a solid base.

Clarissa R. Garcia, Enigma, 213-640-6869

The whole idea behind the Monte "Middle Name" contest was to promote the Obsession/Battlezone tour. We were going to follow it up with another contest that would bring Enigma and Shatter together again. But "High 'N' Squeaky" had to screw it up by taking a job at Roadracer (just kidding Monte, we still love ya).... I'm proud to announce another contest to keep you busy -- It's called "For The Love Of Money" after Obsession's song and video. Gail Flug (Crash Management) and I want to know what you would do for one million dollars. The entries must be music related and you'll get bonus points if you mention Obsession or their album/song titles. The most creative, outrageous entries will qualify for tons of prizes to be determined. (I'm working on a collector's item that's not available in the U.S.) The contest is open to anyone and everyone, even former contest winners and their bimbos. Winners will probably be announced at the end of March. Let me know what you would do for the love of money!... Thanks to Phil and Megadon for the recent record service.... And Megadon, it's about time Al told Peg he loved her. It was a very touching, memorable moment in television.

Don Kaye, Noise International, 212-334-9260

Hi, everyone! Kreator continues to thrash ruthlessly throughout the world of metal programming, especially at KCMU, WHUS, WNGZ, WJUL, WNHU, WUCF, WWVU, WOXY, WEOS, WCWP, and new adds at WOUR and KTEC. The band's manager was just in New York this week to work out the logistics for Kreator's U.S. tour, so sit tight and I'll have some dates for you within a few weeks.... I have to say, I'm quite saddened by the intelligence level of certain groups of people in this country of ours. Jimmy Swaggart lives to condemn people for enjoying life, and condemns the music, movies, fashions and entertainment that us "secular" sinners like, then reveals his own hypocrisy and begs forgiveness. And people -- deluded, brainwashed American citizens -- are willing to forgive him! I don't understand.... As a side note, everyone register to vote this year so we can make sure Pat Robertson doesn't get anywhere near office. I know I'm not really discussing music here, but I needed to get this stuff off my chest. Back to the music.... Tankard and Vendetta albums are out, you should have them within two weeks. Tankard's motto is "fight for your right to drink pure beer" so we can all relate to them, and Vendetta are exploring musical territory bordered by Metallica at one end and Destruction at the other. This is still a free country, so enjoy.

Monte Conner, Roadracer, 212-219-0077

Great news from the Roadracer camp: We've recently inked a U.S. distribution deal with MCA! The deal will also include our new music label, Emergo Records (The Neighborhoods, Waxing Poetics and the Fleshtones).... Gang Green's latest party on vinyl, "You Got It", is the first release to go through the MCA distribution. The next batch of Roadracer/MCA goodies is coming your way on April 4th; Toxik - "World Circus" and Znowwhite - "Act Of God". Toxik are a commercial speed metal band boasting the dazzling fret work of Josh Christian, a soon to be guitar god. Toxik advance tapes are going out on Feb. 29th.... Znowwhite has a female singer. The chick rips!... Whiplash are heading over to Europe next month

to tour with German maulers Sodom (Yo, Schnapp!).... King Diamond is headed into the studio very shortly to record the follow-up to last year's incredibly successful "Abigail".... Sorry, I'm not in a very creative mood. But if I was, the following people would be in for a severe ragging: Scroggs, Scroggs' mom (for having him), Megadon, Alf, Scott Givens, Givens' rancid cat and Bill "I wish I was half the man that Jones is" Fischer.... Finally, congrats to a great friend and old Shatter cohort, Jim Pitulski. Jimbo will be heading up retail promotions for the newly formed Mechanic label. Good luck, James!

Pam Edwards, KGB, San Diego

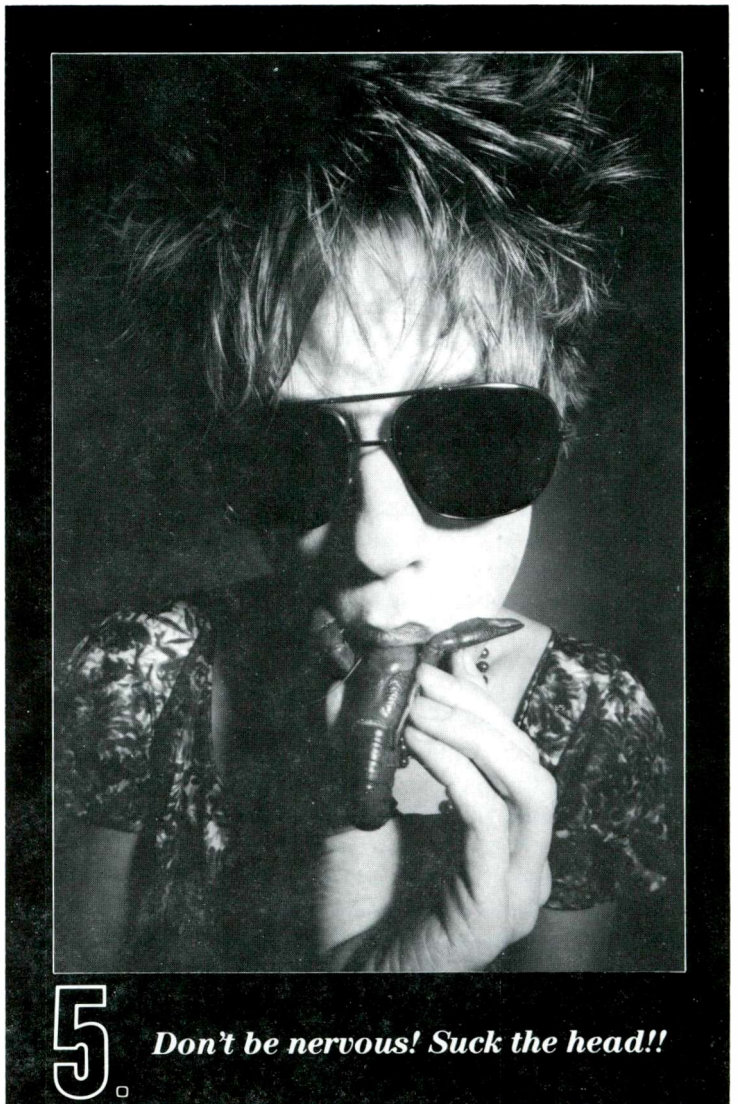

I just finished reading the Musician cover story on Robert Plant and still find him to be one of the most intriguing and fascinating guys around. His new openness is a breath of fresh air. We finally get to see more of the man and less of the myth. Read the article and then go back and listen to "Now And Zen". You'll be able to hear more of what it's all about.... Big thanks to John Fagot, Ray Tusken and Ritch Bloom at Capitol for an incredible weekend in New Orleans. Pat McLaughlin is an artist who'll be able to touch a lot of nerves. A cross between Steve Miller and Van Morrison, McLaughlin transmits raw energy and passion and his band is superb. It was great to see Ian McLagan playing again.

Jeff Michaels, KSQY, Rapid City

Los Lobos is hot right now and, I'm proud to say, one of our most important AOR bands. They have a strong playing style and just because they had a hit with "La Bamba" doesn't mean they are a CHR band.... Robert Plant has a great album on his hands and "Tall Cool One" is my favorite right now. Without a doubt, the man is back and better than ever.... I'm very anxious to play the new Peter Dinklage. The first song did great for us and this one should sound very dynamic on the air.

Brian Jordan, WRUF, Gainesville

After listening to the hot "Now And Zen" Lp, "Tall Cool One" was definitely needed and Robert Plant serves one up in a very classy way, with a slice of Jimmy Page on the side. As ex-

**5*****Don't be nervous! Suck the head!!*****February 26, 1988**

pected, phones are heavy for any new Plant and retail is kicking in nicely.... Paul Carrack's "One Good Reason" is projected to do well and has to be the best cut off the album.... When I heard the Church had a new album, I expected a more progressive band, you know, more noise per square inch, but this band is definitely quality oriented and "Under The Milky Way" is a real surprise and a welcome one at that.... Rick Springfield moves into heavy this week. This has to be one of my favorite tracks this month. Whatever I'm doing when it comes on I have to stop and crank up the volume.

Mike Scott, WRIK, Paducah

Ever since "Switchboard Susan", Nick Lowe has been one of my favorite artists and his new one "Lovers Jamboree" really jumps off the dial.... Guadalcanal Diary's "Get Over It" is a delight to put on the air. It's a better track than "Lips" was and a strong continuation of the "Litany" track last year.... The more you listen to 10,000 Maniacs the more you enjoy that vocal; the audience is beginning to get behind this one.... Underworld has a real hook-monster with "Underneath The Radar". We are seeing good phones and have moved it up this week as a result.... Another rotational improvement this week is the off the cuff "I'm Sorry" by the Wild Seeds. We are reporting top five phones for this track and a move up to medium as a result.

John Cooper, WPYX, Albany

Some very impressive work on the Robert Plant album, "Tall Cool One" is the instant phone burner.... James Taylor is top five sales locally and has advanced to heavy rotation with no negatives, only positives.... I think Toto's "Pamela" will do the same thing. Upper demo AOR's should be all over it.... Treat Her Right's "I Think She Likes Me" is one of the best songs I've heard in a while, just the right mix of blues and rock.... Another record that blew me away this week is Pat McLaughlin's "Wrong Number". It will get immediate play on a Sunday night blues show, full-time play isn't far away.

Doug Clifton, KBCO, Boulder

Who needs an imitation when you can have the real thing? Robert Plant has pumped new blood into his sound by putting together a new band. The fact that Jimmy Page helps out on two tracks is a big plus. When we put "Now And Zen" on the air, we got immediate response and all the calls were very positive. My early favorites are "The Way I Feel", "Ship Of Fools", "Tall Cool One", and "White Clean And Neat". This is a great addition to our playlist.... The Nick Lowe and Dave Edmunds combo sounds great again, "Lovers Jamboree" jumps out on the radio.... We have looked past the Underworld single to try another song on their album. "Glory Glory" is our choice to go on the air at 'BCO.... We changed cuts on George Thorogood replacing "Talk" and "Shake" with "Born" and "Catch".... Our third cut from Jerry Harrison is "Are You Running".... Phone Olympic Awards: Gold--Robbie Robertson, Midnight Oil, 10,000 Maniacs, Robert Plant and Terence Trent D'Arby. Silver--Joni Mitchell, Joe Satriani, Jerry Harrison, Lyle Lovett and Tonio K. Bronze--Paul McCartney, Big Pig and Sinéad O'Connor.... Thanks for your help on promotions, Michael Brannen and Del Williams.

Jon Austin, WXRC, Charlotte

So, Zodiac Mindwarp and 10,000 Maniacs are on the horizon for us here. Of those records I especially like the 10,000 Maniacs, it's a wonderful song.... I'll really go to bat on that Warren Zevon; what a great sounding track.... The staff is just sitting on their hands waiting for the album from Kingdom Come, which I will pick up tonight. We have all been enticed by that lead track and are understandably enthused about this record.... The tip of the retail iceberg shows renewed growth for Joe Cocker in the market.... In less surprising news, AC/DC is doing well and AOR continues to pave the way for Bruce with the CHR's catching up to us this week in anticipation of his tour.

Terry Medert, WQMF, Louisville

WQMF is considering adding a new age program and would be interested in talking to record companies about service regarding that kind of product.

Richard Smith, WIXV, Savannah

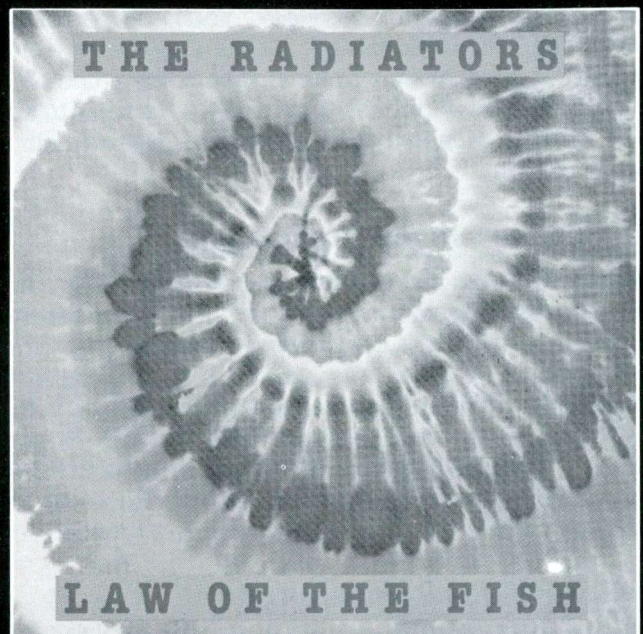

We are seeing building retail for White Lion, which is no surprise, and Henry Lee Summer. The staff is raving about Henry Lee as well, the folks in the studio around here just can't get enough of that record.... I'm real fond of the new one from So and The Church looks like a winner on the horizon.

Dave Kane, WCMF, Rochester

If it hadn't been for the nice people at Capitol Records I never would have gone to New Orleans. So thanks to Rich Bloom, Ray Tusken and John Fagot for making my first trip to the Crescent City a memorable one. The Mardi Gras probably paled in comparison to the fun I had hobnobbing with some of the industry's finest and of course, the showcase with Pat McLaughlin. Capitol seems to have a real talent and the album is about as strong a debut effort as anyone could hope for. Seeing him live really lent some balls to the tunes.... Also got to hear the new Smithereens which is going to be worth waiting for.

David Sadoff, KLOL, Houston

It's been a mad scramble to get caught up from my vacation but I'm hanging in there.... Robert Plant's "Now And Zen" is a favorite around here, you can even sing along with some of the songs. Check out the interview in Musician and find out just how hip Robert is. In the same issue there is an insightful interview with Joe Strummer.... Side one of Jerry Harrison's "Casual Gods" makes for a great runaway album side. We added "Man With A Gun" as our second track.... Included in our adds this week are Pat McLaughlin's "Wrong Number" and "Sweet Child" from Guns 'N' Roses.... Midnight Oil's "Beds Are Burning" went on last week and sounds great on the air.... Alternative record of the week: Tiny Lights on GAIA Records.... That's all for now, I have to get back to my stack of records.

This mini-tour of New Orleans has been brought to you by the next track from the long term success story that is The Radiators.

Epic

Mary London, WRFX, Charlotte

Charlotte's best local bands will be highlighted this weekend as they go on stage Sunday at Park Elevator for the Amnesty International benefit concert.... Afternoon drive guy Mark Kessler went to afternoon WCXR/Washington DC. Our PD Jack Daniels is now on air 3-7pm so please plan your visits accordingly.

Patty Martin, KSJO, San Jose

Listeners are going nuts over the new Plant lp. My immediate faves are "Tall Cool One", "The Way I Feel", "Helen Of Troy", "Ship Of Fools" and "Why". Gee, have I named every title on the Lp yet? I think it's an excellent release.... The other one I'm excited about is 3, of course. I was on the air when the album came in so Ken Anthony grabbed it to mark the best tracks. He came back with every track marked and I agree. I'm particularly glad to see Bob Berry's songwriting credits on so many tracks. I've seen him do "Runaway" and "You Do Or You Don't" a few times with his own San Jose band. In fact, "Runaway" was on his own independently produced album. I particularly like the song "D'est La Vida".... Finally, we are sad to see our promotion genius Bob Jenkins depart KSJO. He's looking to expand his horizons so KSJO is looking for a killer Promotion Director. See our ad for details.

Brian Illes, WKFM, Syracuse

Thanks to Bruce Moser for sending me the Springsteen single of "One Step Up" with "Roulette" on the B-side. Don't ignore this song, it should really be an A-side. With its Jersey rock sound, it's the perfect complement to "All That Heaven Will Allow".... Something new that everybody should be aware of this week is "Heart Of Steel" from Will And The Kill. I've heard the advance cassette of the whole album and it's really very, very good.... The Robert Plant album knocks me off my feet, out of my chair and through my second story window. I love every track on it and I can't wait to see him tour.

Tom Van Sant, WIZN, Burlington

Robert Plant reclaims his rightful place among rock's major artists with "Now And Zen". We had instant reaction to and requests for "Tall Cool One".... And Kingdom Come keeps coming on; #3 most requested this week. You know sometimes I wish Led Zeppelin never existed, but our audience is just lapping it up.... Love that Church tune! Should be an automatic on everybody's "Headphones Only" show.... Personal to Karen at IRS: Take a vacation! (But order our giveaway albums before you leave).

Mike Gardner, KOAS, Kealakekua

The best new album that we have seen in many months is the new Robert Plant album "Now And Zen". It incorporates much of a Led Zeppelin feel to it, but showing the maturity that Robert Plant has come to know. Should be his most popular solo release thus far. It has the guitar feel that was missing in many spots of his previous three solo Lps. Welcome back, Robert!... Another new release that we just received today is E*|*E*|*O featuring some great roots rock and roll that I know will satisfy many of our listeners. Thanks to Graham at Frontier.

Deb Brady, WXXP, Pittsburgh

I'm often asked how alternative music is working in Pittsburgh and when I tell people quite well they're taken aback. It's no surprise to me that people are supportive of this music here. They are in New York, Boston, LA, Chicago and would be in any area provided they were exposed to it. In sales for example, Tiffany, "Dirty Dancing" and George Michael are at the top and Flesh For Lulu, The Godfathers and Sinéad O'Connor keep them company. New Order, The Cure and Depeche Mode are the top requested artists week in and week out and a band like Gene Loves Jezebel premieres in Pittsburgh to 300 people in a small club, then a year later it's nearly 3,000 in a concert hall all without a "hit".... This week The Church's "Under The Milky Way" took Screamer Of The Week.... All in all

I would say alternative new music is working quite well in Pittsburgh.

Kerry Gray, WZEW, Mobile

I don't believe it; we survived Mardi Gras. What a better way to recuperate than an ice pack, a pot of coffee and the new Robert Plant album. I was so happy to see the album arrive that I hugged the mailman. It is no secret that "Tall Cool One" will be a chart topper, but also look for "Ship Of Fools" with its Dire Straits-ish sound. It'll catch the attention of upper demos and women.... When I first heard of Big Pig, I thought it was a new group by Ann Wilson and Meat Loaf, but after setting the ludicrous band title aside I then realized what a great song "Breakaway" is. It's clean, clear and crisp with adorable African chants. You'll think you're watching "The Wild Kingdom", but it sounds great.... With INXS coming to New Orleans next weekend the excitement is building. "Devil Inside" is still pulling top 5 phones and we've just added "New Sensation". We're looking forward to the show.

Harry Reynolds, KOZZ, Reno

We're really impressed with the new Plant album especially "Tall Cool One", which got top five phones for us the first week out.... Also impressive has been Guns 'N' Roses, namely on the telephone. They recently played a date in California that got a lot of phone response for us. We decided there must be a big audience for this band so we've added "Welcome To The Jungle".... Also new this week is Midnight Oil. The vocal reminds me of Johnny Rotten a la PIL but we love it.

Lorraine Rapp, WAQX, Syracuse

The Robert Plant album is fantastic. I have no doubt it will be one of the best Lps released in 1988. With so many bands sounding like Led Zeppelin I'm glad Plant reclaimed his territory by including Led Zeppelin material in his show and releasing a song like "Tall Cool One" with that great surprise ending. Obviously, this record is deep but my early personal favorite is "Ship Of Fools".

Karen A. Small, WGIR, Manchester

"Now And Zen" is going to be Robert Plant's biggest album yet. The whole package gels together nicely. With songs like "Tall Cool One", "Ship Of Fools" and "Billy's Revenge" along with the new production team, this one can't miss. There's also a fun interview with Plant in Musician magazine.... The "La Bamba" soundtrack launched Los Lobos into the eye of the mass public. Now it's time to give their excellent "By The Light Of The Moon" album a push. Let's keep this band's momentum going with songs like "One Time, One Night".... Guns 'N' Roses certainly have an incredible momentum going. Rock 101 has been playing them on our metal whiplash show, but the excitement and sales aren't to be denied. "Welcome To The Jungle" goes into regular rotation.... Right now we're in the midst of Springsteen mania. We're giving away tickets to the first show of his current tour in Worcester and the phones are going absolutely wild.

Alison Stewart, WBRU, Providence

"In My Tribe" has been on my turntable nonstop for the past couple of months. I have complete faith that "Like The Weather" will perform beautifully here at WBRU. It is the best song out there right now. Please support the 10,000 Maniacs.... The Robert Plant Lp is pretty great. I really like all the tracks especially the one with the Led Zeppelin remixes. There's a lot of depth to this Lp.... If you have a new music show try out E*|*E*|*O. It's old-fashioned kind of stuff. I like this band tons - you should listen up.

Scott Laudani, WHEB, Portsmouth

The Church is picking up more followers than Jimmy Swaggart ever had. I believe!... Any basketball player from Indiana will always get played in New England. Henry Lee Summer

heats up the airwaves like Larry Byrd heats up the Boston Garden.

Kelly Cruise, WEGR, Memphis

Ever since the first spin for "Tall Cool One", everyone wants to hear more. Jimmy Page goes all out on this one. The phones haven't stopped.... We added Peter Himmelman's "I Feel Young Today". It's an excellent pre-spring song that makes you want to pull off the T-tops and cruise at ninety.... We finally added The Church "Under The Milky Way". The mesmerizing vocals make the song.... Henry Lee Summer moves to heavy due to excellent calls from both males and females.... The retail buzz on Kingdom Come is incredible. The stores are going crazy with people asking when the album is arriving.

Joe Anthony, KISS, San Antonio

My new music show on Sunday nights, which aired last week for the first time, was highly accepted and is now a very important part of our programming. From our show Sunday nights, we have brought into our mainstream Midnight Oil, The Church and Flesh For Lulu. The "New Age" that blends with the new music also is receiving favorable reaction. We're playing Michael Hedges "Strings Of Steel" and also Windham Hill's "Interior" from the album "Design". Product is the main ingredient to continue this fresh approach. We are looking to expand the show in the near future. Once again we'll be glad to produce a one hour show for any radio station who might be interested in this type of format free of charge. Please contact me if interested. This will help your station as it is helping us. I'm using all of my years of experience to make it a very sound wise show. The vast fruit that's out there for the plucking is immense. This is not only a 1987 passing thing, but music for the future. It is the plasma for AOR.... Long live Roger Lifeset.

Beth Kepple, WKLS, Atlanta

To everyone at the Hard Report who has gotten no comments on the new music in the last month; to all the record reps at all the labels who have asked me to lunch, dinner, concerts and trips in the last month, only to have me cancel; to all the artists and musicians who have put out new product in the last month only to have it collect dust sitting next to my turntable waiting to be listened to; to everyone in the biz who has called me in the last month and is still waiting for that return phone call: I HAVE SINNED AGAINST YOU!!! Now I place one hand on the Arbitron bible, the other hand on a brand new Continental transmitter and my faith in my program director and music computer and I AM HEALED!!! And back to being my normal self.

Bruce McGregor, WRIF, Detroit

The Plant album is easily our strongest add of the week, and as far as we're concerned it's a drop the needle project. The most obvious is "Tall Cool One" with its Zep overtones. We've been having listeners guess what songs the Zep clips are from and rewarding correct answers with Plant albums. We're also on "Ship Of Fools", probably the most obvious hit track on the record, as well as "Dance On My Own" and "Helen Of Troy", which is probably my favorite rocker.... Also new, E*I*E*I*O. After Pat and I heard about four Who powerchords and then got hit with those horns, we decided we love that thang!... A light add for Nick Lowe. This area has always been big on him, with good catalog sales for things like the "Cowboy Outfit" album.... We really like the Pat McLaughlin record in the "now for something completely different" category. Don't let the tempo scare you. Three listens and this thing is etched in your brain.... Sinead O'Connor sales are coming along nicely, some of it from MTV, and we have been using her on The Sonic. With the sales pattern Chrysalis has been telling us about, we'll go for it.... Love that Balaam record. I think it probably took us a few weeks to get to because we had a couple of records of the same texture up ahead, but as we kept listening we agreed it should be on the air regardless.... Lita Ford moves light to medium. We're noticing sales in the market and it cracked our top 20 phones this week.... Also moved the Church from light

to medium. The inquiry calls here have been explosive. Where it's stocked at retail, it's moving 4-5 copies per store.... Tonio K. continues to be a good, strong record for us, with top 20 phones and consistent retail.

Downstairs Dan, WQFM, Milwaukee

Check out this Driving and Crying album. They sound to me like they're going to be the REM of the 90's. This is an impressive debut; they don't come any stronger the first time around.... By all means, this week's strongest add is Robert Plant's "Tall Cool One". It's a runaway with "Heaven Knows" still #1 requested.... We added another John Brannen track "Primitive Emotion" in heavy. "Desolation Angel" continues to do well".... Love those trashy west coast brat bands, and I think the market does too, and considering the response we've gotten on Guns 'N' Roses. I expect LA Guns to do well here.... With Bryan Ferry a rock icon, you can't ignore him, and the women love him, too. He'll always add a little savvy to your playlist.... And the Church is just a terrific neo-psychedelic piece of rock. Can you think of another band that released their first three records on three different labels? Somehow, I think their next one will be on Arista, too.

Ron Garrett, KRXQ, Sacramento

It seems as if Chrysalis Records is gearing up for quite an '88, with new local reps being placed in Los Angeles and San Francisco. This show of commitment was quite evident in San Francisco, when Chrysalis brought in the heavies from Northern California radio to mingle with the heavies from the label's West Coast team. Paul Carrack's show in San Francisco was a great reason to get everyone together. Simply put, everyone was moving one portion of their body or another to the soulful sound. I read the article with Daniel Glass. I saw the Prez Mike Bone having a good time, and just being a good ole boy. I felt the commitment and say to my fellow programmers, that hot on the heels of "Don't Shed A Tear" there are no good reasons not to jump on "One Good Reason". Paul Carrack has made his mark through so many contributions to the world of music that I must add this record to my station now.... Midnight Oil's consciousness is what initially turned me on to these guys back in 1984. They're intelligent and musical. I knew this song would eventually happen, and just needed a little more time to work it in.... Fastest mover of the week: Bryan Ferry. It's now #3 requests, really impressive considering the other top fivers are Satriani, AC/DC, Great White and Robert Plant.... Other new reaction records include LA Guns, causing excitement on our night phones, along with Flesh For Lulu.... Almost Added: Los Lobos, which will probably go next week, and we almost added Tonio K.

Glenn Stewart, WHJY, Providence

Strongest add of the week: Guns 'N' Roses without question. Phones are blasting through the roof and the requests just keep coming in. I think the video has definitely given it a jump start.... Fastest mover: I'd say Great White's "Save Your Love".... Lita Ford is selling fairly well and pulling some calls, and definitely doing better than I expected, hanging in against the heavyweights.... Henry Lee looks to move up to heavy rotation. It sounds good on the air, and I think it may be a hit.

Anthony Alfonsi, WDVE, Pittsburgh

Robert Plant's "Now And Zen" is a record that should be a lot more accessible, based on what I have read about Plant's correcting some past production problems. "Tall Cool One", of course, has its Zeppelinesque overtones, and Plant does an about face on "Dance On My Own". I also like "Ship Of Fools". I'm looking forward to the tour because he missed Pittsburgh last time around due to illness.... The DAT taping we did with Billy Price came off without a hitch. The sound quality is unbelievable. DVE PD Gene Romano says the record companies better make sure they have ink in their pens when they come to sign Billy because when it's all over there's only going to be one winner. Thanks to Billy for coming up to the station and

talking with Herschel, and to Jim Johnson of Cornerstone Management for his excellent help.

Paul Nelson, WWCT, Peoria

Well, we have heard all the would-be contenders for the Zep-pelin crown and now we have the real thing. Led Zeppelin is the past, and Robert Plant is the present and future. "Tall Cool One" gives us the best of both worlds, a bit of digital Zeppelin near the end, and some of the best rock and roll Plant has done since the breakup of the band throughout.

Jack Myers, WEZX, Scranton

The Plant calls came in instantly. He's got such a strong Zep-pelin heritage here that it's almost as if he's never released a solo record before. Everyone is saying it's his best, not to knock the other ones.... Also top 5 phones is the Midnight Oil, and that's surprising considering that our most active calls are coming in middays.... Henry Lee's also a top 5. Good to see new music doing so well with the listeners, especially in a market that can be so fickle.... Dave caught the Underworld live in New York Friday, and he was impressed, so we went with that.... Almost added: Still looking at the Wild Seeds.... And my Five Current Favorites: Tonio K, Jesus and Mary Chain "April Skies", The Church, Midnight Oil and Robert Plant's "Tall Cool One".

Stephen Page, KOME, San Jose

This week I want to give special thanks to Chrysalis, who hosted a great dinner party up in San Francisco, followed by an even better live appearance by Paul Carrack. It was an exceptional show from a terrific band. What a time we had! Many thanks to Jeff Lauffer and to Mr. Bone for signing a great band.... Strongest add of the week: Robert Plant's "Tall Cool One". Actually, it's hard to single out one track because they're all exceptional. I just like the beat on this one. You can dance to it and I give it an 86.... Almost Added: Balaam and the Angel. We'll be going on this one next week. Real strong songs all the way through and very easy to listen to.... New reaction: Zodiac Mindwarp would have to be tops on my list for new phones. It's currently limited to nights, and the requests are going crazy. Such an outrageous song that it kind of hits you from left field, and it really gets you. Plus, the people around here really like that kind of rock and roll.... Henry Lee Summer is very strong, beginning to get male and female across the board phones. Nobody knows who this guy is yet, but the curiosity calls are coming in.... Satriani is still very strong, and we're looking forward to his local shows when he gets off the road with Mick.

Michael Cross, KJJO, Minneapolis

First off, thanks so much to Doro Pesch of Warlock who stopped in for a 30 minute interview on the air. We did five tracks off "Triumph And Agony" and then I ran to First Avenue just in time to introduce them on stage. This band is hot! If you're not playing Warlock, you damn well should be. They put on a great show and the crowd loved them. Also thanks to Joey Balan who brought them by our studio.... Also advance thanks to Lita Ford for stopping by and having dinner with us. And I'll wait to thank Ronnie James Dio, Megadeth, and Savatage after the show Thursday the 25th. Hope to see everyone else in Dallas.

Catfish, WHMD, Hammond

A rock and roll thank-yuh to Alex Miller of Atco and Michael Stevens of Atlantic for our "Just Say Yes" weekend. We gave away 25 "Big Generator" cassettes to qualify winners for a pair of backstage passes to meet Jon Anderson and Alan White.... 10,000 Maniacs' "Like The Weather" is a wonderful way to be adult and alternative.... Speaking of adults, we also went with James Taylor and Toto.... Alas, we can no longer ignore Flesh For Lulu. "Postcards From Paradise" phone requests and MTV support prove they're ready for WHMD. Probably the strongest add of the week.... Check out Elton John's "Take Me To The Pilot". The wiggled one will warm your flute with his live

thang.... Almost Added: Elton John, Will and the Kill.... New reaction records include: Not too many Sinead calls, but local record sales are very strong.... Henry Lee Summer goes to heavy. Seeing a lot of top 40 action here.

Ty Banks, KQWB, Fargo

When I was first told Aerosmith's "Angel" was gonna be huge, I was skeptical. No more! After this year, I'm convinced Aerosmith can do anything they want to. "Angel" is top 5 phones from young girls to speed freak motorheads who call to say it doesn't sound like Aerosmith. The point is, everybody is eating it up.... Kingdom Come has come early. An out of the package smash!

Mike Boyle, WDHA, Dover

Thanks to Ray and Nick at Capitol for a great time in New Orleans at the Pat McLaughlin showcase. Pat is going to cause a real commotion for you.... Really glad we could get Robyn Hitchcock in this week. Here's an artist who is getting results and we're glad we can be there in the beginning.... This week's "office hummin' tune" is Treat Her Right's "I Think She Likes Me". Here's a song with gritty vocals and great guitar. What more do you need?

Tom Starr, WOUR, Utica

No real surprise at the number of people calling to proclaim or denounce Kingdom Come. What is amusing is the number of people doing both in the same call. It is a phenomenon you have never seen before. If Plant is irritated with Whitesnake you can bet he will be stone infuriated with Kingdom Come.... It's a thin line between necromance and necrophelia and you can bet your retainer fee the legal beagles' tails are wagging in anticipation of the musical malpractice suit of the decade. If there's no suit or Kingdom Come wins, you A&R types had better prepare to descend into clone-zone hell. "Now And Zen" comes on like a velvet covered sledgehammer managing to be delicate and devastating all at once. Remarkable that it echoes Zep while remaining absolutely original, it is a crowning achievement. "Helen Of Troy", "Tall Cool One", "Ship Of Fools" and "White, Clean, & Neat" give no ground against anything since, and quite possibly including Zep's, greatest moments.... Warren Zevon's "Reconsider Me" is performing remarkably well on the air and phones.... Roth's "Damn Good" is generating much greater phone response than "Paradise" ever did.... Balaam and the Angel's got the goods and Midnight Oil is winning them over quickly.... Thanks to John McHugh and Chuck Bliziotis of A&M for the premium seats for Sting for our staff and the platinum momento for me.... Here's an idea to add some more excitement to the next Winter Olympics. Full contact speed skating; roller derby on ice.

Joe Blood, KEZO, Omaha

After being a doubting Thomas early on, lo and behold, White Lion is #1 phones this week and top 15 sales. So I guess you could say "it's working"! A definite candidate for heavy next week.... Kingdom Come is #2 phones with a majority of calls wondering when the album will be in the stores. They want more.... Aerosmith's "Angel" is off to a quick start. Good thing we got on it first before the CHR.... Godfathers are starting to get some phones as well as Danny Wilde, and George Thorogood.... Record of the week for us is Balaam and the Angel. It's got it all; a great song with enhanced production.... Alarm's "Presence" is a logical second choice and should solidify the gains made by "Rain In The Summertime".... The 3 record, as bombastic as it is, has such a familiar sound that's it a natural for us this week.

Jon McGann, KFMX, Lubbock

I caught the last Def Leppard show of this part of their American tour. This was one show that really stood out. It was in the round which is a great way to see a show. Thanks to Joe of PolyGram.... Everybody likes to support the music within their own state but sometimes it's hard to do that. This is not the case with Will & The Kill. They're young and they're gonna

make it. Put it on the turntable and give it a spin. It's a good rock and roll track.

Jeffrey Naumann, Virgin, 213-278-1181

It's time to set the record straight on the correct pronunciation of Balaam and the Angel. Just think of the way I talk with my Boston accent and say the word "alarm". Put a "B" in front of it and you'll be saying it right, okay? The stations are pouring in with adds on Balaam everywhere with even the tightest of radio coming in early. "I Love The Things You Do To Me" is an absolute smash; I'll bet my house on it. There's no new band on out there with a better record, either. And Balaam's sound fits everyone from Z-rock to KBCO.... Warren Zevon's "Reconsider Me" seems to be working very well at upper demo stations so if the shoe fits why not put it on?... Oldfield has a top 10 record and it makes me so happy.... My favorite two new albums are Treat Her Right because it reminds of me of Canned Heat, who are my favorite band ever and Big Pig because they have the best name since Blodwyn Pig and their music's real good to boot.... Get ready for the next Virgin Veritable Suckaah. It's the band Johnny Hates Jazz with "Shattered Dreams". You can hear it on the infamous Yeepuhs cassette.

Curt Cartier, KEZE, Spokane

Kingdom Come! Widespread be thy fame. Bring on the album.... The ending of Robert Plant's "Tall Cool One" reminds me of a contest that Dr. Johnny Fever once ran on WKRP in Cincinnati.... Can't deny Guns 'N' Roses "Jungle", again!... Still can't believe more stations aren't taking advantage of a great rock radio record like Savoy Brown, "Just For Kicks".... Spokane's bid is in to be one of the 25 for the monsters of rock tour. 5,000 postcards, petitions, and letters in just over a week. Van Halen, Scorpions, Dokken and Metallica would be the concert event of the decade for the inland Northwest. We continue to rack up the paper and keep our fingers crossed.

Charlie Logan, WYNF, Tampa/St. Pete

Robert Plant, "Tall Cool One". The second most outstanding track on an impeccable album. The Zeppelin influences ignite mental flash-pots. The phones are sizzling. So Atlantic, when's the contest to name all the Zeppelin riffs at the end of the song?... Will & The Kill, "Heart Of Steel". Will Sexton has great rock and roll bloodlines, he also has a fine tune. The guys in Royal Court of China turned me onto Will knowing that I'm a sucker for this type of rock and roll. We'll watch the groundswell.... Balaam, "I Love..." What's all the fuss about the name? A mainstream hook with an alternative edge; this song has the goods.... Paul Carrack's "One Good Reason" is just another great reason to go deeper into a fine album. He could be the Phil Collins of the 90's.... Danny Wilde moves up because this song is phenomenal.

Pam Brooks, WPDH, Poughkeepsie

Stress and tension mount. Whenever that happens you can bet your bottom dollar that this babe gets out of town fast. So I'm Florida bound.... Before I go, I continue to live in hope of getting some more great music on the WPDH airwaves. The Godfathers say it all. Do I feel like this is the story of my life in a nutshell; "Birth, School, Work, Death". Looking forward to enlightening the Hudson Valley to the great sounds of the Godfathers.... About a year ago, my sox were knocked off by Bruce Hornsby and the Range. Henry Lee Summer does the same thing. If he's looking, I'm available and Henry, this little cutie pie is gonna get to you as soon as possible.... God, what talent in this family. Charlie Sexton ripped into my soul and now his brother Will has got my toes tappin'. "Heart Of Steel" has potential to be a solid hit.... One of the most effervescent bands I've ever seen has got to be 10,000 Maniacs. Natalie Merchant is such a lovable, warm person on stage that you just can't help smiling for the hour or so that they perform. So what's the matter here? "Like The Weather" is something I hope for us to be able to deal with soon.... Last but not least, ever since they

came to Poughkeepsie the Bodeans have been in my dreams. More vital vinyl that should grace the airwaves.

Gerry O'Day, CFOX, Vancouver

Somebody's dropping the ball on Joe Satriani. This record is burning up the phones and it's not even in distribution here yet. Wake up, somebody!

David Hall, WKDF, Nashville

George Harrison gets the fourth song from his new album on this week. "Cloud Nine" is so identifiably George right from the first guitar lick, it almost needs no introduction. This one may enjoy the longest run off that album so far.... It took a few more listens than "Rain" did but the Alarm's "Presence" finally hooked me.... Jerry Harrison's "Rev It Up" (which is still one of my favorites on the playlist) moves to heavy this week.... Foreigner's "Can't Wait" is getting Top 5 phones here. This may be the big one that revitalizes that album.... Didn't get it on this week but The Church looks like a sure shot sometime soon. It's just good and good songs can't be denied.

Bryce Crousore, KQDS, Duluth

Lita -- Please?

Louis Heidelmeier, Elektra, 404-344-5080

Those of you watching "Saturday Night Live" this past weekend probably saw the 10,000 Maniacs for the first time. Were you surprised? They're not punk or thrash or metal or a lot of other labels that their name may lead you to believe. "Saturday Night Live" fights for ratings just like your station and they only air once a week. They have a lot of acts to choose from just like your station. Unfortunately, that is where the similarity ends because "Saturday Night Live" is using the Maniacs and most of you aren't. This band is on the verge. Ask your stores.... Y'all should have the new 12" from Guadalcanal Diary called "Get Over It". Most of you told us that this should have followed "Litany" instead of "Lips Of Steel". Those of you who didn't tell us this must not have heard the song, so please give it a listen.... Elektra is reseriving the edit of "This Corrosion" by the Sisters of Mercy. It's at the top of the alternative charts. It is appearing on most of your retail lists and now it is on MTV. We think that it will soon be on your playlist.... Faster Pussycat is opening for David Lee Roth and the Screaming Blue Messiahs are opening for Echo and the Bunnymen. If these shows are hitting your area, you may want to listen to "Babylon" and "Bikini Red", respectively.... Stopped at a newstand the other day, and much to my surprise, Don Dokken's mug was on almost as many magazines as Cher. Quite a statement, if you think about it.

Phillip Hardy, Megaforce, 201-254-6533

Mega-praise is in order to Ron Garrett of KRXQ for being one of the first to have the vision (read: brain) to compare Prophet with Foreigner: "Prophet, tomorrow's Foreigner, today." This being in contrast to the endless comparisons to White Lion, Europe and even Guns 'N' Roses (I shit you not). I don't remember anymore, but when I bought the first Foreigner record ten years ago, was it called a metal record? Yes, I'll admit, it did have that fierce, ugly, and scary device on it called an "electric guitar", just like the Prophet record, but both are laden with keyboards and soaring vocals. I also see that some people are playing material from the Lp on metal shows, which is fine by me -- if the fans will abide it. But also let me tell you that my buddy on KNAC Ross Goza has asked me not to mention the record to him anymore because it's not heavy. I said, "I know, but since the rest of the world says it is I thought maybe we could slip it by you." But no, Ross is too smart as well, not one to mix apples and oranges or heroin and bubblegum. Everyone out there who fears the Prophet record, please sit down and listen to Journey's "Escape" album and then "Cycle Of The Moon" and then tell me which album is heavier.
