The Smithereens, "Green Thoughts", Enigma/Capitol.... I think we're all in agreement that at this moment the Smithereens have a shot at major stardom--depending on the quality of the new album. They've certainly done everything required for a step up to the next level. The last record sold over 350,000 thanks to serious long term double track depth at AOR; they've performed beautifully on screen and stage and thanks to great personalities and skillful press they're current media darlings as well. Anyone familiar with the band's work--and that of producer Don Dixon--expected them to meet the challenge this opportunity presents, no sweat. But I don't think anyone was really expecting an album with the goods to slipstream them into a whole new league. One weekend with this album and you'll have to welcome the Reens to the heavy hitter division. Though they're not quite to the Foreigner/Mellencamp/Whitesnake level (not that they'd want to be), they've certainly proven they're anybody's equals in terms of great songs and overall quality performance--while maintaining the unique voice and vision that made the band so attractive the first time out. And that was just one album ago, remember? Tracks: "House We Used To Live In", "Drown In My Own Tears", "The World We Know" and "Especially For You". And how about 147 single adds, 25 increases and a 37-22* move after just two weeks?....

Glass Tiger, "I'm Still Searching", EMI/Manhattan.... At the risk of too closely echoing our sentiments re: Honeymoon Suite, ain't it great to see yet another rock and roll relative from North of the Border come blasting back with an advance that also rocks?!! With their tremendous CHR track record and a strong 750K sales base the last time out, they're an act you know you should deal with--and the new single's monster guitars and undeniable hook makes beating your CHR competition to the punch one of the easiest musical decisions you'll make this week. Surprisingly strong album, too....

Prefab Sprout, "The Golden Calf", Epic.... Their 1985 debut has to qualify as one of that year's major critical successes, with none other than Rolling Stone, Newsweek, The Washington Post, The Los Angeles Times, the Village Voice, TV Guide and the Farmer's Almanac piling up year end Top 10 Reader's poll honors. And why shouldn't the critics love this distillation of The Jam, the Police, and the Style Council, with hints of all the Rockpile boys thrown in hither and yon. "The Golden Calf" is a study in the thoroughly modern English mesh sustained vocals with flashy rhythmic guitar, and just enough left hand turns to drive the press, radio, MTV and their fans crazy....

Dancing Hoods, "Baby's Got Rockets", Relativity.... Sadof's right. Whoever is grooming the new talent at Relativity is obviously doing a fine job. First the Brandos, then Joe Satriani, and now--for something completely different, a band named after a defective auto body part. As their name implies, there's a basic dichotomy in the group--I mean, when's the last time you saw Spiv doing a pirouette down on the corner? There's a definite Northeastern/NYC quality to this music, but those ringing up front acoustic guitar textures enliven what might otherwise be a little gritty for middle American tastes. Some of the best original sounding stuff we've heard since the Bodeans first....

Honeymoon Suite, "Love Changes Everything", WB.... When HS first hit the bricks with "New Girl Now", the general perception was that of a rock band that knew how to lean just pop enough to cross over. The second album pushed that image a little closer to the right--to that of a pop outfit that's still acceptable to the AOR audience. As we all know the hipness factor is a key variable in the cross-over currents--and we couldn't be more pleased with the band's return to a much harder rocking, far more guitar based approach this third time out. They make the kind of hooks anyone wants to have on his airwaves, and this time the edge makes it automatic--especially as cranked up on the killer rock radio edit. **WEZX's Dave London's** "Bon Jovi meets Sammy Hagar" comparison rings true on a record perfectly timed to qualify as having the first truly monster hook of spring....

Robert Tepper, "The Unforgiven", Scotti Bros.... Yep, our search for a hot shit pre-release rave led us back to none other than the Nasty one, who you might recall served as head cheerleader for Robert's debut release. The follow up makes it clear that early belief was a lot more than just the buddy system--and please count us in bigtime on "The Unforgiven" too. Gary Myrick's slashing guitar work is a giant ear pleaser in its own right, and the "West Side Story" lyrical overtones will definitely hit any even remotely urban listeners where they live. Tepper's growly vocals are intense and compelling and the "whoa-ph" chorus is impossible not to sing along with. This one's a little out of left field, but for drama-rock, you've got to admit, it's a lot of fun....

Yngwie Malmsteen, "Heaven Tonight", Polydor.... Between Yngwie totaling the XJS and Joe Lynn's so-so solo outing, we're looking at a couple of very talented guys who were basically due a high card somewhere along the line. Yngwie needed a hot vocalist, Joe Lynn needed a player--and they both needed a much better than average song. Well, here it is. As **Redbeard** told us, "I was really pleasantly surprised, and can't believe I'm actually picking a Malmsteen tune. But he and Joe Lynn have a really good one. I'm quite surprised".... From **Jeff Ivan, KFMX**, "This is gonna be the big crossover album. Lots of great songs and Joe sounds very good with this band. This one is platinum bound".... Guaranteed to be Yngwie's biggest radio track to date--and it could well be a recent high water mark for Joe, too....

RECORD OF THE WEEK

Kings of the Sun, "Serpentine", RCA.... 50 first week adds on a new band happens about once a month--and March is no different! And thanks to that new car phone Jim McKeon just had installed, the Nipper's number is up--and the troops are going wild!! **KWLN's Robert Harder** (no relation) says, "One of the finest and fiercest rockers of any of the new music that I've heard in the past month".... **Curt Cartier, KEZE**, "This kicked my butt the first time I heard it so like a good boy I turned the other cheek and played it again".... **Ty Banks, KQWB**, "They do a great job of filling that Georgia Satellites void and they get the nod this week".... **Cyndee Maxwell, KWHL**, "We tested it and it got the most calls of the night and everyone had a favorable comment to make on it. This is a hit record".... **Mike Areford, WFYV**, "It's got a real nice feel to it and I think the audience will respond".... and from **Patty Martin, KSJO**, "I have a sneaking suspicion Kings Of The Sun is going to explode at radio and retail. This one's got the rough edges that rock radio needs"....

HONEYMOON SUITE

"LOVE CHANGES EVERYTHING"

PRODUCED BY TED TEMPLEMAN
AND JEFF HENDRICKSON /

FROM THE NEW
ALBUM RACING AFTER MIDNIGHT

DIRECTION: STEPHEN PRENDERGAST, HEAD OFFICE MANAGEMENT ©1988 WEA MUSIC OF CANADA LTD.

Dokken, "Heaven Sent", Elektra.... In the tradition of the great Dokken ballads a la "Alone Again", the third emphasis selection from the platinum plus album deals out some of Don's best vocal work on this session. Aficionados will argue that those pipes always sound best in a somewhat slower context, especially with that great George Lynch guitar powering things along in the mix. You'll hear more layering, more vocal harmonies and a definite return to the slightly less commercial style that the groups long term fans seem to prefer....

BoDeans, "Pick Up The Pieces", Reprise.... Probably the most noteworthy aspect of this project to date has been the much longer than average hang time of the two previous emphasis cuts--in the face of a format that loves to chew those newer bands up and spit them out. "Only Love" came out late last fall, and it was only a couple of weeks ago that "Dreams" started to show any erosion at all. Now it's time for the album's best real ballad. Having seen these guys a number of times, we'll go on record as saying they're best in an almost folksy acoustic setting--and "Pieces" is perfect for upper demos and females in that regard. Love that Lindsey Buckingham feel, too....

Squeeze, "Footprints", A&M.... The album's close to gold, the band is finishing up the second leg of the American tour--and we definitely feel the dawning of Spring wouldn't be complete without a fun new Squeeze single. Original sounds are hard to come by and now that they're finally coming through on the mass level, think about mid-day play at least....

IMPACT TRACKS

Lynyrd Skynyrd, "Swamp Music", MCA.... "With half our listeners living in the swamp", says WRUF's Brian Jordan, "You just know they're going to love this one".... As a matter of fact, if there's more than 4 mobile homes inside your city limits, you should be wailing this record. Of course, you've got to watch out for tornadoes. It's new on 39 this week, with second week increases in from KGB, WHCN, KRXQ, KSQY, WBAB, WVVV, WDVE and WTPA. The phone count's already up to 7--with WKDF, KMJX, WFYV, WKWQ, WRUF and WEGR amply representing the good ole boy belt. Currently on 110 reporters, with heavy play on 16, including KAZY, KEZE, KISS, KOME, KSJO, KWHL, WDVE, WHJY, WRXK and WZEW--all good for a 47-27* move....

Donald Fagen, "Century's End", WB.... At the rate this record is building, Don could well be on the way to his biggest record since "I.G.Y."--and stats sure look like the late, great 70's: the add count now totals over 120, with 37 heavy reports, 21 increases (KBCO, WDVE, WMAD, WOUR, WDHA, KQDS), and a strong 33-19* Hard Hundred move. KQWB's Ty Banks says, "Fagen moves up to heavy after only one week. I love the man, and it's so good to hear him back on the air".... From Cyndee Maxwell at KWHL, "Steely Dan fans love the new track. It's so recognizable you can't help but like it".... From KZEL's Al Scott, "Fagen makes for good airplay. Instant phones and killer production. It's so crisp, I loved it right off the bat"....

The Adventures, "Broken Land", Elektra.... "Play this or you're an asshole" suggests the usually subtle Bruce McGregor at WRIF. "This record is a fkn smash!!".... Redbeard agrees, saying "This is gonna be a big, big hit".... From WKWQ's Ron Marsh, "It has a great sing-a-long hook and it's refreshing to hear a keyboard that sounds like a piano".... Vern Argo at KZOQ chimes in, "It's going to be a multi-format hit and the phones are excellent. Time to play it before the CHR's wear it out".... KISS's Joe Anthony adds, "Of the new things I've added, the Adventures top the list. I think they're going to be a big band".... KDXR's Mark Zeiger says, "The band is a bit of a stretch for us, but it sounds damn good. 'Broken Land' might possibly be perceived as an out and out pop song, but the Outfield did well for us and there are other examples".... #8 Most Added with 18, as 75 stations to date and ups from KRXQ, KSQY, KZOQ, KFMF and WXRC bring in a 68-50* move....

Rocky Hill, "I Won't Be Your Fool", Virgin.... The fact that Rocky is Dusty's brother invites a ton of comparisons and conjecture--but if you listen a little, Rocky really has a style all his own. Sure, there's a ribbon of ZZ style guitar work threaded through the tune, but the female backup singers and the basic vocal style are much broader and a lot cleaner than you know who. We're assuming that any hombre from the great state is gonna serve up a little more crunch on the full 12 course platter--but for bite on the big demographic spread and for multi-format positioning, this is definitely the card to deal first. Could even do well AC and Country....

The Mighty Lemon Drops, "Inside Out", Reprise.... Of all the bands out there who stand to get hurt by the name game prejudice, the Lemon Drops have to rank at the top of the list. I know it took me a week or two to cycle around to a serious listen--and I was shocked at what a clean and instantly hooky number "Inside Out" is. Shoulda listened to Carter Alan a month ago. Dig it out and I promise you'll be very pleasantly surprised. Currently on WRIF, WLLZ, WXRT, KMOD, KLBK, KROQ, KBCO, WFNX, CFNY and WBCN--and a slew of our Alternative reporters....

The Bears, "Aches And Pains", PMRC/IRS.... The out of the box action here makes it obvious that programmers were anything but bored by the Bears last outing--what with first week air on 13 reporters, including KATP, KICT, KRZQ, KKDJ, KMJX, KRXQ, WHFS, WIOT and WRIF. KRXQ's Ron Garrett calls them "A band whose time has come in the form of the most infectious, upbeat number to come out this year. Adrian Belew is a genius who's found it in his heart to give us something we can play for the consumer world of mass appeal radio".... From KFMU's Dave Ross, "The last Bears album worked great for us, so why should we stop now? Their quirky sound is oh so very catchy, and lyrically they also stand out"....

Deacon Blue, "Dignity", Columbia.... "Dignity" blows in 22 stations deep defying the always treacherous second week blues--as 79 adds to date and ups from WMAD, WBAB, KZOQ, KSQY, WTPA and KACV muscle up a 65-45* move. KTCZ's Jane Fredericksen muses, "If an airplane full of Prefab Sprout crashed into a trainload of Steely Dan, out would tumble a field full of Deacon Blue. This group sends shivers down my spine".... KFMZ's Mike "Nice upper demo potential" Richter, WFYV's Mike "Cool eerie quality" Areford, KTAO's Bill "The thinking person's band of 1988" Evans, and KOME's Stephen "Great album and a great cut" Page were just some of the folks testifying this week....

Foreigner, "I Don't Want To Live Without You", Atlantic.... This ballad sure has Foreigner pulling those females--as per this from KZEL's Al Scott, "Power ballad city to the max and the babes love it".... KRNA's Mark Vos seconds that emotion, "This ballad is driving the women crazy. They can't get enough of it".... From Christina Gorton, KKZX, "Lou's vocals are sounding stronger than ever. It goes into heavy and claims top 5 phones as well".... #7 Most Added with 20, with 69 current reports, 8 ups and 32 heavy reports bringing home this week's second longest 57-36* Hard Hundred gain....

David Lee Roth, "Stand Up", WB.... Though the Most Added has 24 just in for "Stand Up", "Damn Good" is also on the go with a 5-4* gain--complete with 4 play-ups and 68 max mentions. "Stand Up" goes up on WONE, WAPL, WWZU and WRIF, with 21 currently heavy--including KBPI, KRXQ, WLLZ, WMMR, WNEW, WYNF and WRXK....

James Reyne, "Fall Of Rome", Capitol....

One of our very favorite new records starts out of the box at 14--with KYYS, WHCN, WIMZ, WLLZ, WRXK, KMOD, WPDH and WRIF topping that list. **KSQY's Jeff Michaels** comments, "He sounds like Billy Idol should, and 'Fall Of Rome' will be the rise of James Reyne".... **KMOD's John Foster** tells us, "The PD was in the studio listening to something real loud and when he came out the James Reyne was all of a sudden on my music list".... From **WHTF's Dave Powers**, "I was really taken by how quickly I got into the Reyne. This track is a blockbuster that doesn't take more than one listen to hop right on the playlist"....

Joe Satriani, "Surfing With The Alien", Relativity....

He's definitely earned the double shot--and those adds be rolling in. "Surfing" starts new at 14 reporters, including KLPX, KSJO, WBAB, WRCN, KFMQ, KISS, WYNF and **WRIF**, where **Bruce McGregor** told us, "'Satch' did just great for us, and it's just been a long time since there's been good, solid instrumental rock and roll you could play on the radio. And this guy does it to the 9's".... **YNF's Charlie Logan** adds, "Satriani is just so hip. It's like hanging ten or shooting the tube, slashing on a northeastern swell while reading Silver Surfer comics".... **Ron Marsh** at **WKWQ** reports, "After testing 'Surfing' we got such an incredible response that we had to put it in our rotation this week".... From **KOME's Stephen Page**, "Joe is like a major superstar around here and the song's already #3 requested. They're having a hard time keeping the album stocked in the stores".... 89-71* on the Hundred....

TAKE TWO

Kingdom Come, "Living Out Of Touch", Polydor....

Food for thought from **WONE's Mike Michelli**, "Kingdom Come is getting major phones again this week, prompting a 'Living Out Of Touch' add to go with 'Get It On'. I get the feeling the younger audience is embracing this band as we did another similar sounding group almost 20 years ago".... hmmm.... "Living" locks up 10 adds, with **KKDJ** and **KJOT** upping, heavy play on **KISS**, **KNAC**, **KSJO**, **WAPL**, **WPLR**, **KAZY** and **KJOT**. 77-65*....

George Thorogood, "Born To Be Bad", EMI/Manhattan....

More solid performance in all key areas here--with new air on **KGB**, **WKQQ**, **KTXQ**, **KISW** and five more putting this follow up just under the 140 station mark. It's heavy at 51, power at 3 more, and increased at 14, including **WAAF**, **KBCO**, **KFMX**, **KMBY**, **WFYV**, **WIOT** and **WMAD**. Nice request build, too--with **KGON**, **KOME**, **KRNA**, **WAPL**, **WKGR**, **WONE** and **KXRX** among the Top Fivers. Up 15-14*, with Top 10 play a strong probability for next week....

AC/DC, "That's The Way I Like To Rock And Roll", Atlantic....

As well as "Heat Seeker" is performing, we strongly suggest you think about doubling your firepower with the above--in addition to the current single. **WFYV's Mike Areford** explains, "They're big here, so people will like just about anything we play. We'll add 'That's The Way', while 'Heat Seeker' goes to power with play in all dayparts but mornings. Top 10 phones and a real consistent record".... Meanwhile, "Heat Seeker" bags another bullet at 22*, with ups from 11, including **WFYV**, **WAAF**, **WBCN**, **KBER**, **KRQR**, **WMMR**, **WONE**, **WAPL** and **WIXV**. The album reflects at 22*....

HARD ACTS TO FOLLOW...

Treat Her Right, "I Think She Likes Me", RCA....

This fine Boston blues band follows up last week's 14 adds with another 13 this report--as 6 ups (**WHJY**, **WCMF**, **KOZZ**, **WPLR**), 10 heavies and 84 now on board bring in a 54-43* gain. Key calls to date: **WRXK**, **KXRX**, **KMOD**, **WXRT**, **WRIF**, **WPYX**, **WNEW**, **WLLZ**, **WLAV**, **WHCN**, **WDHA**, **WAAF**, **KRXQ**, **KLOL**, **KICT**, **KEZO**, **WPLR**, **WQFM**, **WCMF**, **KQRS** and of course, **WBCN**. Notice the nice geographical spread. Already top 5 at **WMAD**, **WFNX**, **WAAF** and **WBRU**....

Semi-Twang, "Salty Tears", WB....

This has got to be the best start for a loose, kinda rootsy sounding item in quite some time--with **WQFM**, **WLZR**, **WBAB**, **WRCN**, **KSQY**, **WZEW** and **WRIF** all first week adds--and a grand total of 13 new. **WRCN's John Loscalzo** feels, "It's got an accessible sound, kinda like that good southern thing--and new wave punky thing too. Any band with an accordion player can't be all bad".... **RIF's Bruce McGregor** calls it "Another strong add, and not just because I spent time in Milwaukee. I always like that kind of bluesy, boogie stuff".... From **KSQY's Jeff Michaels**, "It's good meat and potatoes rock--and that makes it a natural for us"....

INXS, "New Sensation", Atlantic....

In the easy add department, **KFMQ's Joe Skare** says, "They've always performed well with a good following in the area and we have done well with 'Devil Inside' and 'Need You Tonight'".... From **KJOT's Carl Scheider**, "It just vibrates for 3:38. Besides, we like to beat the CHR's and they're still killing 'Devil Inside'".... and from **WRCN's John Loscalzo**, "Michael Hutchence is the next Jim Morrison, but he's the Morrison you'd want to hang out with".... New on 22, up on 10 (**KTXQ**, **WRCN**, **KWIC**, **WONE**, **WIZN**), Heavy on 29--all factoring into a 45-29* underline....

Paul Carrack, "One Good Reason", Chrysalis....

This week's adds look good--and the ups look even better. The Increase Index offers ups from **WKQQ**, **KFMF**, **KZEL**, **WCCC**, **WHMD**, **WMRY**, **WWCT**, **KZAP** and 9 more, with 11 adds taking the play count to 112. Currently heavy on 27, power on 3--and underlined 29-25*. As **WWRX's Dan McClintock** says, "Don't be left behind by Top 40 on this one--it's going all the way"....

White Lion, "Tell Me", Atlantic....

KSQY's Jeff Michaels takes those words out of our mouths, saying "This good back-up track should continue the roll the band is on and lead them all the way to platinum status".... **Vern Argo** at **KZOQ** takes it a step further with "'Tell Me' is a good follow-up and might even be a bit stronger".... From **KWLN's Robert Harder**, "'Wait' did so well here, we felt like it was time to add the new one".... **KGB**, **WEGR**, **KSQY**, **WIMZ**, **KFMQ**, **KWIC**, **KZOQ**, **WWTR** and **KWLN** add, with **KEZE** and **WKQZ** increasing, and heavy air now at **WLLZ**, **KBPI** and **KNAC**....

Michael Bolton, "Wait On Love", Columbia....

The record is barely out and already on kill/crush call letters like **KSHE**, **WLLZ**, **WRIF**, **WCMF** and **WPLR**. As far as we're concerned it's about the fastest audition out there, and considering virtually every station that played "Dock of The Bay" took it to heavy (if not power) this one should slot instant automatic. If not sooner. As **KZOQ's Vern Argo** says, "The audience knows him by now, he's selling well here and getting good calls. Good follow up"....

Johnny Hates Jazz, "Shattered Dreams", Virgin....

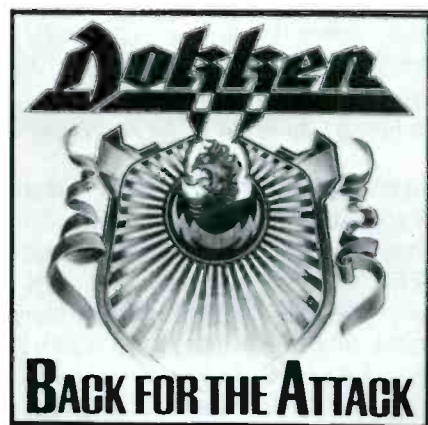

Don't let CHR hurt you with this record--cause the Virgin people have come around the mountain with gangs of Top 40 adds. And though we had minor reservations about the AOR viability at first, you've certainly got to respect the rock roster to date: **WLUP**, **WPLR**, **KRXQ**, **KSHE**, **WCCC**, **WRXK**, **WDHA**, **WMAD** and **WLVQ** to name a few. As **KRNA's Mark Vos** says, "This record works for the format and has smash written all over it. We shouldn't worry about CHR with this track. It has plenty of life in it and can make a serious contribution to AOR".... From **WZEW's Kerry Gray**, "AOR better get motivated and play this record before CHR takes it away"....

Tracy Chapman, "Fast Car", Elektra.... "If you're not playing 'Fast Car' you should hang up your headphones", says **WDHA's Mike Boyle**, "The hook is a killer and it's just asking to be played over and over again".... **KBCO's Doug Clifton** is also impressed, "'Fast Car' sounds like a mix between Joan Armatrading, Grace Jones and Suzanne Vega-if that makes any sense. The lyrics are powerful and her voice hypnotic".... From **Christina** at **WPLR**, "'Fast Car' is simple and powerful and you should play it".... And the OTB call letters match the quality of those comments, folks--with new air on **KBCO, WLLZ, WNEW, KMOD, KZEW, WDHA, WZEW, KROQ** and **WFNX**....

Toto, "Stay Away", Columbia.... **KWHL's Cyndee Maxwell** typifies the reaction we're getting to Toto's startlingly new uptempo approach, "'Shock of the Week' award goes to Toto. This song rocks!!".... From **KJOT's Carl Scheider**, "It's just such a different song for them. Solid mainstream rock throughout and I think people are really gonna get off on it. That new vocalist is a big improvement".... New on **KJOT, KLAQ, WIMZ** and **KWHL**, with **WPLR, KDJK, KILO, KMOD, KRXQ, WEZX, WLLZ, WPYX, KJJO, KSQY** and **WAOR** among the 18 already in....

CHARTSTARS...

Bruce Springsteen, "Roulette", Columbia.... He's playing it on his tour, it's hotter than a night out with **Brigette Nielson**, and something that your **CHR** competition probably won't touch. "Roulette" rolls its way on to 11 more stations this week including **KOME, WQMF, KZAP, WZYC, KRQR** and **KEZO**. It's also this week's biggest mover leaping 24 points on the **Hard Hundred** 87 to 63*. With 12 stations reporting it in **Heavy** or better this flip side to "One Step Up" is perfect for your Bruce starved listeners who are hungering for more, especially if the **Tunnel of Love Express** is chugging its way into your area....

Balaam and the Angel, "I Love The Things You Do To Me", Virgin.... We know what the **Church Lady** would say if she could comment on **Balaam** but **WPDH's Pam Brooks** also thinks its 'Special', "Yes indeed I love the things you do to me. Morning, noon and night, seven days a week, I'm happy to live with this record. It's not as warm as you but it sure is hot!".... 12 stations thought likewise and added it this week bringing the total station count to 143. "Better rotation will tell us if **Balaam** really has the goods", says **Jim Steel** at **WIOT**, "We upped the band to heavy to put it to the test".... 20 more stations also put them up in rotation including **KBPI, WIMZ, KKDJ, WLVQ, WYNF** and **KZAP**. But whoa, hold on test? Look who's got the vivacious **Virgin** in heavy: **KILO, KMBY, WNOR, WXXP, KSJO** and **KRZQ**. With more support on the way we see **Balaam** moving to an even holier land soon; the **Top 10**? This week "Love The Things..." bangs in at 21*....

Judas Priest, "Johnny B. Goode", Atlantic.... The requests keep pouring in and "Johnny" enters the **Top 10** of our most requested list. 13 stations are getting big phones including **KWLN** where **Robert Harder** says, "Everybody is into this record. It's got that crazy combination of a rock and roll classic plus your basic heavy metal appeal".... **KNAC** has got it in **Power** with **KISS, KFMQ, KJJO, KWHL, WWZU** and **WQFM** doling it out in heavy doses. With the movie hitting box offices across the country and the name recognition of **The Priest**, how can you go wrong by not spicing up your nights with "Johnny". Just look at the healthy jump this week of 8 points to 59*. What are you waiting for, a remake of "Kathy's Clown?"....

Great White, "Mistreater", Capitol.... Still waiting for that feeding frenzy of adds to attack this one. With 2 hits already under their belt "Mistreater" seems to be a natural for your playlist. **KBPI, KISS, WRIF, WLLZ** and **KRXQ** have taken the plunge already with 10 more stations jumping in this week including **KATP, KTXQ, WAPL** and **KILO**. With 35 stations on and a healthy 83 to 68* jump on the chart, it may be time for you to take out that promo CD you got and give "Mistreater" another listen. Some parties you can afford to miss, but not this one....

The Del Lords, "Judas Kiss", Enigma.... We're with **WKWQ's Ron Marsh**, "This has an incredible lick for your rockers to get next to and the hook works the very first time. It's very infectious and it moves up this week".... Its also up on **KBCO, KFMU** and **WBAB**, with adds at **WHEB, WRDU, KMBY, WCCC, WVVV** and **WTPA**. 53 adds to date and what do you get? Howz about another nice chart move, 76-64*. Here's mainman **Jim St. John** at **KTYD**, "We educated these people. We said this is a cool record and they believe us. Finally, these guys have a real record".... **WWRX's Dan McClintock** feels "'Judas Kiss' is a track that will work for the format if it's given a shot. It's a meat and potatoes sort of sound that should do well"....

Talking Heads, "(Nothing But) Flowers", Sire/WB.... Raves, Raves, Raves that's what's been coming in for **Talking Heads** and it appears that they know the way in **San Jose**, "I still can't believe how great the **Talking Heads Lp** is," cries **KSJO's Patty Martin**, "They've got that wonderfully warped way of looking at the world that I just can't get enough of".... **KOME's Stephen Page** adds, "Talking Heads moves to heavy, instant curiosity response and sounds good in the daytime".... This week "Flowers" is one step from top 10 in the **Hard Hundred** at 11* with 159 reporters on it, 73 in heavy or getter rotation. **WMMR, WAAF, WMAD** and **WIZN** have pumped it to **Power** with **KATT, KBCO, WBCN, WNEW** and **WPYX** reporting **Heavy**. **KFMH's Phil Maicke** says, "There is so much good stuff on this album, we decided 'Blind' was the most accessible, besides I love the **Horn** section and what a riff!".... "Blind" grabs 4 more adds this week taking its total to 15 with "Mr Jones" and "The Democratic Circus" not far behind....

The Church, "Under The Milky Way", Arista.... **Ty Banks** at **KQWB** starts off this week's story, "Maybe acid is coming back or something but when you thought the phones would be dominated by the **Plant's**, the **Springsteen's** and the **Harrison's** here comes a band like **The Church** who have jumped into the top 5 phone list this week".... 11 more stations are reporting hot phone action for "Milky Way" this week including **WHMD** where **Catfish** says, "If there ever was a perfect song for our station this is it. It's on the cutting edge and the guitar hooks are infectious".... Seems to us no one wants the cure at the moment, 57 report **Heavy** action like **KBCO, KDJK, KISS, KLBK, KOME** and **WKWQ** where **Ron Marsh** exclaims, "It's a beautiful song with terrific ambience on the air, a winner from day one".... 23 stations report increases this week helping the band to leap to 17* on the **Hundred**....

Joe Cocker, "Rivers Rising", Capitol.... Just how infectious is the latest offering from **Joe**? **WRUF's Brian Jordan** explains, "With only one week of airplay 'Rivers Rising' has nabbed top 5 phones, especially with our upper demos".... Sound like a familiar story? **KATT, KZEW, WRCN, WWTR** and **KFMU** are among the 11 new adds this week to help him debut at 86* in the **Hundred**.... **Christina Gorton** at **KKZX** says, "It's one of those songs that reminds me of the old bluesy Cocker stuff and it sounds great"....

Sting, "Englishman In New York", A&M.... "Even though I lean towards hard rock," says **WFYV's Mike Areford**, "I can't get enough of this **Sting** album. Incredible music from a tremendous gentleman".... Reports from the road mirror those comments. Seems that everywhere this **Englishman** plays he leaves audiences blown away. 13 more stations came to the party this week with **KBER, WWTR, KDJK, WFYV, KFMF, WMRY** and **KWLN** tooting their horns with adds. **KBCO, KISS, KTYD, WWDC, WTPA** and **WRXK** lead a pack of 22 stations reporting heavy or better rotations which figures into another healthy leap up **The Hundred** to 37*....

This is the week that **Henry Lee Summer** hits the coveted number 1 spot on both the Hard Hundred and the Winner's Chart simultaneously. Power play at KATT, KISS, WZZO, WPYX and the Loop among many others and a slew of phone activity at KYYS, WFYV, WONE and KICT shows Henry to be as perfectly tailored to the format as the brain trust at Epic first thought. Having gone directly into hyperdrive and around the likes of J. C. Mellencamp, Aerosmith and Robert Plant, Henry Lee has shown the kind of debut blast off that spells platinum in anybody's book.

After a stutter step week last time out, the **Alarm** have found that extra little oomph in their acceleration pack and have managed a nifty 16-12* move up the Winner's Chart. Only one station, KICT, added "Presence Of Love" this week so the story revolves around a new flurry of rotational increases. Ups to Power include WRXK and WAAF and ups to Heavy show KISS, WFYV and WRKI putting the Alarm on their escalator to the stars. The tour is bound to pick up where the last single leaves

off and the rumored involvement with Bob Dylan is guaranteed to fire up renewed interest from the consumer media that will see impact on the retail side. This story is far from over. A five place move for the **Talking Heads** this week has "(Nothing But) Flowers" moving 18-13* with rotational advances on WMMR, KATT, WBCN and KMOD telling the story. This calypso cum armageddon trip back to nature, replete with percolating rhythm structures and some of the best band jamming since their "Remain In Light" days, is a successful introduction to an album that is way deep for the format.

No matter what you think of Michael J. Fox movies you have to thank somebody on the production team for securing **Donald Fagen's** tune "Century's End" for the project. Time away from the public has done nothing to dull Donald's musical and production sensitivity. This song moves along like a night on silk sheets and the pay off is as smooth to the touch as you could ever want. A full head of steam has "Century's End" climbing 26-16* on the Winner's Chart helped along by adds on WWDC, KEZO, KIL0 and KISS and increases to Heavy on KBCO, KPOI, WRKI and CHEZ.

The two big movers from the middle of the chart are still doing very well with the **Smithereens** "Only A Memory" lining up play on KEZO, KGB, KPOI and KZAP. This lead track from an album that is as deep and wide as anything to hit the format this year has garnered a boatload of programmer raves and with good reason. Jersey's native sons move 28-18* this week with a four place differential over its Hard Hundred ranking. The other track that has gotten in high gear is **Balaam And The Angel's** "I Love The Things You Do", a slice of modern rock that makes use of Mach 1 energy and a sense of song structure that works on multiple levels with the audience. New reporters include WWDC, KSHE and KEZE while those who have increased their commitment on the rotation meter; KBCO, KLAQ and KZAP, are reporting positive listener response in direct proportion to their exposure of this platinum grade rocker.

Lynyrd Skynyrd had a huge week with a flood of adds coming in on CFOX, KFMX, KTYD and WIOT among others. The request action has been quick to kick in at WKDF, WEGR, WFYV and KMJX and the overall momentum has upped this little chunk of "Swamp Music" 34-26* on the Winner's Chart. Another impressive gain this week shows **INXS** moving a healthy 41-28* with "New Sensation". This programmer pick from day one is perfectly timed to explode with the tour and put our favorite Aussie funk-dog Pub band right on top all over again. KZAP, WLVQ, KTYD and WKDF have switched over to this track and continued support play on KEZO, KLBJ, WFYV and WNEW points the way for anyone who has yet to find a place for this track.

Our most impressive debut this week is the ethereal ballad "I Don't Want To Live" from **Foreigner** which is signs in at 31*. This track has sufficiently slowed down the other entry from Mick and the boys while a ton of stations begin their conversion to what has to be considered a guaranteed female draw. KEZO, KGON, KISS and KLBJ have added in directly into Heavy and that's just the beginning folks. Nobody with a solid shot at cross demographic appeal can possibly leave this one off their shopping list. Another new boy on the block is **David Lee Roth**, whose full court press on the format has been a real piece of work. This week he has amassed considerable new play support from KYYS, KZAP, KSHE, KICT and KMJX with Heavy airplay on WMMR, WNEW, WONE and WRXK positioning "Stand Up" at 41* on the Winner's Chart. Look for more of the same in the coming weeks. Our final debut this time out is the highly stylistic "Dignity" from **Deacon Blue**. This melodic tapestry has found a home on format leaders WKDF, WRXK, WFYV and WLVQ with programmer's declaring this former import a breath of fresh air. Soaring vocals and clean, crisp playing help elevate this track to a 43* debut.

McGHAN AND THE GRAMMY'S IN GOTHAM

John McGhan brought the experience of New York during Grammy week home to 15 stations from around the country. Highlights this year included WIYY broadcasting Divine's last interview before his fatal heart attack, Little Richard knocking around with Lou Reed on WBCN and Al Lewis, (Grandpa on the Munsters), showing Dana Steele of KLOL how to smoke a cigar. Other celebrities that showed up for the cavalcade of broadcasts from The Palladium included Abbie Hoffman, Tiny Tim, Ray Davies, Michael Bolton, Robert Cray, Joe Satriani and Jerry Harrison. Some other fragments captured by our roving camera are....

The broadcast crews from 15 stations gathered in front of the Palladium for their Grammy week in New York.

Little Richard, Robin "Chubby" Leach and Executive Producer John McGhan getting sartorial for the big show.

Paul Carrack responding in true Ed Levine fashion to one of Howard and Robin's bits about perma-strand hair replacements at a discount for rock stars.

Executive Producer John McGhan, Roxanne Pulitzer and Abbie Hoffman discuss Roxanne and Abbie's new screenplay collaboration, a remake of "Young Man With A Horn".

ATCO ADVANCES MARGO

Long time veteran at ATCO, Margo Knesz, has been promoted after six years as GM to VP/East Coast for the label. As part of the revitalization of the label under President Jerry Greenberg, Margo's promotion is seen as another solid move towards a more emphatic profile for ATCO. Margo had worked with Greenberg at Atlantic back in the 70's and has also performed at the national level for RCA and MCA.

PASSPORT PROMO TEAM RESTRUCTURES

In the face of their impending takeover by Enigma, the Passport promotion department has been realigned. New to the company is Richard Hartman who comes from Big Time Records to handle College/Alternative Promotion for the West Coast. Debbie Gregory will continue to hold down the College/Alternative scene on the East coast. Howard Alston will be responsible for National New Age and Jazz Promotion while Lynda Kady-Wuelfing will handle Jazz on the East coast and all Video Promotion for the label. That powerhouse pair, Vic Lentini and Donna Geisinger continue to work National AOR from the West coast. The label's big push now is the Leslie West project featuring Jack Bruce and liner notes by Howard Stern, for instance, "Actually my fantasy is to see Leslie on Hollywood Squares, and have him crash thru the floor on top of Joan River's head.... He was so big, so confident, the Segovia of Rock. A mean, anti-hero. I loved him." By way of saying thanks the Man-mountain of rock guitarists wrote Motherlode for his bud Howard.

Enigma got together with their latest signing, Al Stewart, to share some Moet and cheer Al's new album, "Last Days Of The Century", which is in its final mixing stage. Seen at the signing are Jim Martone, CEO William Hein, Al Stewart and Enigma President Wesley Hein.

MCA MOVES CONTINUE

With **Randy Hock** getting the National Rock VP stripes at **MCA**, the label has lost no time in naming his replacement. Coming out of Boston to take the Directorship for National Rock Promotion is **Roman Marcinkiewicz**. Roman's first job is to hire his own replacement to handle the regional duties out of Beantown. Then Roman and Randy will put together their assault on rock radio.

David Lee Roth dropped in to have some Evian and sympathy with **WYNF's** morning team of **Ron & Ron**. Pictured in front of the world famous **WYNF** styrofoam cup collection is **Ron "Mr Beach Time" Diaz**, **David Lee** and **Ron Bennington**.

THE RADIO RUMBLE

WHTQ/Orlando has named **Gerry Cagle** as their new PD. Gerry has already hit the hallways in Orlando. Some of his staff shifts include a new Production Director, **Pete Bunch** formerly with **WBYP/Buffalo** and weekend talent **Lisa Mueller** who was most recently with **KLOS/Los Angeles**.

WLIR/Long Island has popped into the news again. We hear wild talk about **IRS** and **State Tax** guys swarming all over the old **WLIR** studios in **Hempstead**, locking up everything in sight in a tax case that could very well spill over into **Elton Spitzer's** takeover bid of **WRCN**. Charging **Phoenix Media** with unlawfully withholding taxes, both **State** and **Fed** officers swooped down on the former **WLIR** facility and seized everything for a potential sale to offset the government's financial claims against the broadcaster.

KATT/Oklahoma City has picked up **Art Mehring** for morning duties at the station. His first rush at the market has been a coordinated campaign to get **Bruce Springsteen** to make a stop at **Oklahoma City** on his current tour. His hi-jinx included the time honored tradition of **Billboard** sitting, petition signing and spelling a huge "Bring Bruce" in canned goods that will then be turned over to the area's needy. Looks like a pretty good start for the Art-man in his new hometown.

KGB/San Diego reports new music hours with **Pam Edwards** hitting the air in a fulltime capacity now. Pam will be taking calls on **Wednesdays** only from **11:00 - 5:30pm**.

WKDF/Nashville is getting pretty damned serious about their **Spring** promotional effort. With a **\$150,000** war chest and a guarantee to give away **20 Toyotas**, look for this little budget stopper to push their **TSL** through the roof.

KXBR/Springfield is looking for a few good voices. Aggressive **AOR** air talents that want to apply should get those **T&R's** to **Bo Jagger** at **KXBR**, **309 N. Jefferson, Suite 222, Springfield, MO 65806**. The company is the latest bear in the **Devine Communications** family and they are looking forward to some serious growth in the near future.

WXLP/Davenport News guy **Anthony Michael Weller** has signed on with **WBNZ/Frankfort** in a similar capacity. Anthony got a big pat on the back from his former employers who got all misty as he stepped aboard that **Continental** **Trailways** coach.

KRZQ/Reno airtalent **Dale "the Defector" Kelly** has been promoted to the **APD** gig at the station. The upstart **AOR** has effectively redesigned the marketplace in short order and Dale's contribution has been integral.

CFNY/Toronto has stepped up their commitment to new **Canadian** music by announcing the appointment of **Liz Janik** to the position of **Director Canadian Music Development**. The post is structured as a filter between artists working on independent labels and **CFNY**. Liz hosts a new music show **Sundays** on **CFNY** and her position sizes up to be almost an **A&R** gig, helping along grassroots bands with encouragement and advice where needed. **CFNY PD Don Berns** told **NOISE**, "To my knowledge there is no comparable position at any other **Canadian** radio station. Once again, **CFNY** leads the way in responding to the vast talent pool of **Canadian** music."

WGIR/Manchester master of metal, **Mike Jones**, has been made a full time announcer at the station. Mike will continue to host his **Whiplash** program on **Sunday** nights.

KRNA/Iowa City is looking for a replacement to take on their **MD** vacancy, an airshift is involved and females are encouraged to apply. The facility is state of the art and the city is a great lifestyle location. Send your **T&R** to **Bo** at **KRNA**, **2105 A.C.T. Circle, Iowa City, IA 52240**.

KLOL/Houston has started piling up the loot for their **Rock and Roll Auction**. So far they have nabbed one of **Tom Scholz's** **Rockman's** and some sneakers with a signature from **Henry Lee Summer**. Any other artists who want to get involved should contact **Kathy Baker** who is organizing the benefit for the station at **(713) 526-6855**. In the meantime **Linda Silk** has rejoined the station for all nights. She was working for sister station **KTRH**. In other staff news, the **Houston** rocker is reported close to a deal with **KEGL/Dallas** morning mouth **Moby**. **Moby** had worked in **Houston** prior to joining the **Eagle** in **Dallas**. Even though **Moby** is under contract it would surprise almost nobody if he is soon headed back home to **Houston**.

A star studded presentation of the single largest donation ever made to the **Special Olympics**. The check was cut by **A&M** against the proceeds raised by their "A Very Special Christmas" release. Pictured are **Jimmy Iovine**, **Jon Bon Jovi**, **Bobby Shriver**, **Eunice Shriver**, **Run D.M.C.**, **Jam Master Jay** and the **Pointer Sisters**.

KWLN/Memphis is rumored to be taking a long look at a change of format. With new ownership on the horizon and some serious market surveying going on, it looks a shift to the top of the pops may be in the works.

George Harrison got together with the **Warner Brothers National Promo Staff** and presented an armload of platinum to thank them for all their hard work. Pictured from left to right are, (back row) Rochelle Staab, Patti Oates, Greg Lee, Stewart Cohen, Sue Emmer, Ed Nuhfer and George Gerrity. (Front row), Dino Barbis, Kenny Puvogel, George Harrison and Carol Hart.

KBPI/Denver has picked up **Doc Tiner** to handle overnights at the station. Doc replaces **Tom Collins** who has moved on to a PD gig at **KKRQ/Cedar Rapids**.

KTCL/Ft Collins has new music hours for their friends in the record biz. You can reach **Joe Simon** Monday, Wednesday and Thursday from 9:00 - 10:30am.

WWDC/Washington is moving to a new facility. Check them out at 8750 Brookville Rd. Washington, DC 20036. They also have a new phone number to report, (301) 567-7100.

KSHE/St Louis got together with **KPLR TV** and put kazoos in the hands of 18,000 hockey fans for a game with the hometown **St Louis Blues** and the **Hartford Whalers**. Just imagine 18,000 kazoos blaring to "Louie Louie", "Heard It Through The Grapevine" and the theme to "The Beverly Hillbillies", all being accompanied by arena organist "Madman" **Ernie Hayes**. Pretty scary stuff. Personally, I think I would rather listen to **Bob Dole** and **Alexander Haig** playing "Sex Machine" on their duelling tubas.

WKLS/Atlanta presided over a matrimonial tour de force when PD **Bill Pugh** and IRS local rep **Linda Dages** got real serious about tying the knot. The pair are off in honeymoon heaven where everyone is slim, tanned and bucks up.

WIXV/Savannah celebrated St Patricks week with five full days of all request radio. The phones lines were burning and the staff have all asked for combat pay before they do it again next year. The station also took to the water to broadcast from their two I-95 Boogie Boats.

WBMW/Washington have tied into the Cherry Blossom Festival in a big way. Their involvement includes a series of free noon time concerts and a Paddleboat Regatta to be held on the Tidal Basin. The Regatta will feature several nubile young potential Miss Cherry Blossom Princesses in a no holds barred competition.

KXRQ/Sacramento has new music hours to report. Call PD **Ron Garrett** Monday from 11:30 - 3:00pm and on Tuesday from 11:00 - 3:00pm. In other station news, **Pam Roberts** steps down from her Programming Assistant chores to concentrate on her airshift.

WBRU/Providence informs us that MD **Allison Stewart** is on her way out to enter a career in the record industry. Allison's replacement is **Ted McEnroe** who will be in place by the time you read this.

WRKI/Danbury threw a beach blanket bingo party to hurry Spring along a little. A grand prize drawing awarded a trip to Bermuda but for the bonehead pictured above nothing but serious brain surgery could possibly help.

CONTEST UPDATE

Congratulations to **KLOL's David Sadof** who fast forwarded the correct response to our "Name The Mystery Band" contest. David gets a CD as will the next nine correct respondents. Don't be left out, do it today.

THE BRYAN AND MARK SHOW OR HOW THEY WIN IN NORFOLK

It's always a delight to find some new talent in the format, especially given the recent glut of grumping about AOR. Even so, it is somewhat rare to find a programming tandem where both sides of the team are as strong as Bryan Jeffries and Mark Bradley at WNOR/Norfolk. These guys are the goods and count on them to keep shaking the trees for years to come with their tag team assault on the format. In our recent interview I sensed that these guys were refreshingly free of any sense of failure and their confidence in the station and staff was contagious. Here are a pair of guys with the joy of our business fully intact and a blueprint for success that will carry them far.

WHERE IS THE DEMOGRAPHIC FUTURE OF THE FORMAT HEADED?

Bryan....What we would like to hold onto is our 18-49 coalition but, realistically, it looks like we will have to be satisfied with the 25-39 core. There is so much specialized programming going on with various hybrids attacking our audience that we will all have to get by with less in that regard.

WHAT HAVE WE LEFT OUT OF THE FORMAT THAT THE AUDIENCE IS LOOKING FOR?

Bryan....What we have left out of the approach is what WNOR is giving them, in a word, personality. Our night girl was just brought back because she was so strong that the audience demanded her return. Entertainment and good personality are critical but we also have to be sure that we streamline our promotions so that they work for the core. So many people have an audience of 18-34 and skew their promotional push to 35-49 year old secretaries. It's important to make those promotions work with the audience being targeted.

WHAT'S THE BEST AOR STATION YOU'VE HEARD AND WHAT WAS SO GOOD ABOUT IT.

Bryan....WFBQ in Indianapolis without a doubt. They have all of the elements you could want on your station, passion for the music, a friendly sense of insanity on the air, a truly dynamic morning show and the right music and promotional profile. Whatever is going on in that town, they own it. They just sound like Indianapolis. Nothing happens in that town that they don't cover. They aren't always all that slick but they are exciting. Even when things go wrong they convey a real sense of excitement.

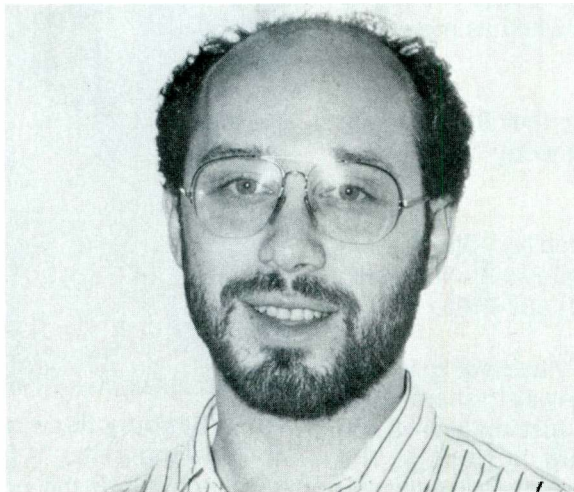

IF THIS WAS A STAFF MEETING HOW WOULD YOU CHARACTERIZE WNOR AT THIS JUNCTURE AND WHAT ARE YOUR IMMEDIATE PRIORITIES?

Bryan.... Right now we are walking into a non stop season of fun and beach oriented activities and we have to reflect that

scene. It's time for us to get caught up in what's going on in our town and make the most of it on the air. During the big summer holidays the population triples and you would have to be dead to not have a good time. We need to bring hat buzz back and put it on the air.

IF YOU HAD A MAGIC WAND WHAT WOULD BE THE FIRST THING YOU WOULD CHANGE ABOUT THE BIZ?

Bryan....Get everybody hungry for their jobs again. Their is way too much complacency in the business. We used to be the bad boys of rock and now we take it all for granted. The more successful we become the sloppier we get. Here at WNOR we have jocks who seek personal appearances every week and I'm not talking about station events but things they do on their own for the exposure it gives them. When your people start griping about having to get out in the community you've got a problem.

Bryan Jeffries... PD WNOR/Norfolk

WHAT'S THE PERFECT RELATIONSHIP BETWEEN CONSULTANT AND PD?

Bryan....Someone who gives the PD just enough rope to hang himself. The PD should be allowed to differ with the consultant and, if proven right in his approach, should be permitted to continue on his own path. But you had better be right because if you're wrong you can forget winning any other arguments down the line.

HOW DO YOU RESPOND TO THE CURRENT FLOOD OF CRITICISM REGARDING THE FORMAT?

Bryan....The doomsayers of the format obviously haven't exhausted all the ways to improve things. They are simply giving up too easily. I mean, if all they can see is failure and floundering then they aren't doing things right. With the right staff you can drop into any market and accomplish almost anything.

The other part of the Norfolk tag-team is MD Mark Bradley who has gotten a lot of notice in his tenure at the station. In talking with Mark it became obvious that here was an astute player with something solid between those ears.

WHAT'S YOUR PHILOSOPHY REGARDING CURRENT TO CORE RATIOS?

Mark.... Personally I'm into a 50/50 mix. I know some stations that only play a 20/80 mix and still sound good, it's just a matter of what the market expects and how well you can present it. The biggest consideration is dayparting. We have a high profile morning show that plays very little music, as a result that music must be the best of the best. When middays hit we remain somewhat conservative and lean on our core but once the older listeners have gone home to their cable we kick it into

FM 99 WNOR

AM 1230

gear by experimenting with depth tracks and more new album product. Positioning is essential so we take a "Currents of Today/Classics of Tomorrow" approach while emphasizing that "Variety is the spice of life." As for the current arguments about the format playing new music, let's face it, the record industry is never going to be satisfied with the number of currents we play until we play 100% currents.

HOW DO YOU RESPOND TO THE CRITICISM THAT THE FORMAT IS EVOLVING INTO ROCK CHR?

Mark.... Some stations have unfortunately taken that approach. As the adults fade off in the late afternoon it is time to get out those new albums and go deep. Play to the audience that is there and when the potential audience is young and eager to buy albums give them something to sink their teeth into. We have to expand beyond the limitations of the 12 incher.

WHAT ONE MESSAGE WOULD YOU LIKE TO NAIL HOME WITH THE RECORD INDUSTRY?

Mark.... Don't be upset if we can't play a song of yours when there is something better for our station that gets released at the same time. They have to trust that we know what's best for our station and stop taking things so personally. They can't win every week, nobody can. I will say this though, the new music coming out right now is some of the best I've had the pleasure of dealing with for some time. The heritage bands that recycled such great albums and these new bands in the first quarter are very exciting to work with.

WHAT IS THE SINGLE MOST DAMAGING TREND IN THE FORMAT RIGHT NOW?

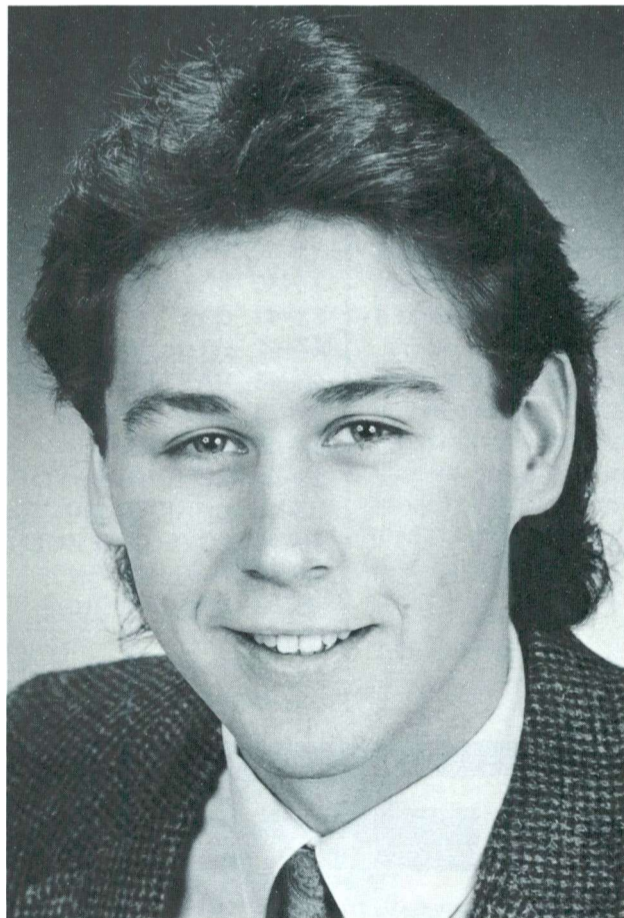

Mark.... People who are reacting to CHR instead of leading their own audience. They get nervous about what the CHR in town is doing and, instead of staying true to their own sound, start playing follow the leader. This effectively hands them your momentum and once you are in the backseat you may find it is tough to get out of that position. AOR should be the market leader, the innovator, let everyone else follow our moves. The problem is that there are too many AOR PD's who don't want to own their market but are content to go home with just "their share".

DEFINE THE PERFECT WORKING RELATIONSHIP BETWEEN PD AND MD.

Mark.... The PD manages everyone in Programming and the MD is his right hand. When the PD has to be somewhere else he can trust his MD to get things done and to serve as a link with the airstaff. Time is essential to the relationship but the key is to be a hard worker and to believe in the station. A PD needs to be a very good people person and as an MD you have to give him every effort possible to make his plan win. When it comes to music meetings, we both listen to the music at the same time and then go over our decisions based upon common consensus. It's important to get a couple points of view on something as important as music so it that way it is sometimes better if the PD and MD have differing perspectives. That way you aren't as likely to miss something that might be important for your station just because your tastes are so similar.

NAME SOME NEW BANDS THAT YOU THINK HAVE A REAL PLACE IN THE FORMAT'S FUTURE?

Mark.... There a lot of roots rock bands that are coming on and some of the synth-pop groups sound pretty good also. Little America is a band that will go far if given a clean shot by the format and their label. The Brando's are like CCR with a rocking 80's feel, they have some great things in store for us. I also like Treat Her Right, a promising group for the future. The audience wants good music, period. They don't have our limitations and biases and it's important to remember that.

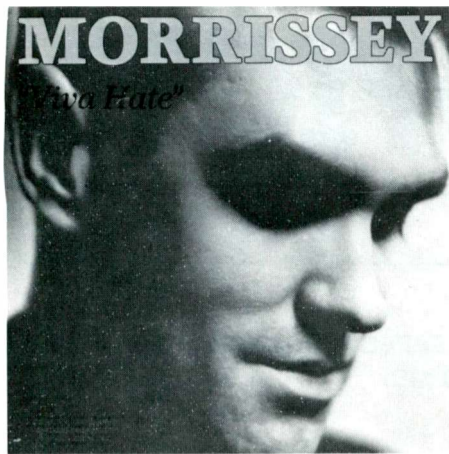

Mark Bradley... MD WNOR/Norfolk

The fate of AOR is tied to guys like Mark and Bryan and, given the critical phase of development that we are going to hit in the next few years, we need

more like them. The standard excuses for letting the format drift; "The audience is shrinking", "There is too much competition", "The music isn't there", "The sun was in my eyes, I got a rock in my shoe", all melt away in the face of determination and talent. The reach of the format is defined by the minds and hearts executing it and for WNOR the future looks good.

**THE
HARD REPORT
PICKS**

Morrissey "Viva Hate" (Reprise)

With the unbridled acceptance of "Suedehead" in the radio community, Morrissey's solo return has been praised even more highly than when he fronted the all encompassing English pop band, The Smiths. The differences in the new album have only served to benefit his new image; the sleek, subtle chord combinations supplied by Durutti Column's Vini Reilly and perfect production by Stephen Street. Although The Smiths left four gold albums behind, it's mind-boggling to realize how many people are still unfamiliar with this pop music misfit turned pop star. "Viva Hate" reveals more of Morrissey's blue side and a slight musical departure from the high singles concentration of old, and emphasizing more of his minstrel quality in "Dial-a-Cliche", "Late Night, Maudlin Street" and "Bengali In Platforms". Of course, there are a healthy share of singles like "Everyday Is Like Sunday", "Alsatian Cousin" and "I Don't Mind If You Forget Me".

The Wild Swans "Bringing Home The Ashes" (Sire)

Upon listening to this band in the early morning daylight, you'll definitely start the day off on a bright note. Liverpool's Wild Swans have released an album to absorb if you have an ear for lush, dramatic string work and a rhythmic hook. It doesn't matter what qualities attract you first, because on all counts they use the crisp dynamics of musical imagery and take political stabs underneath that come at you with full force. "Young Manhood" led the album off with a catchy downbeat, but the rest of the album showcases their true affinity for blending a steel guitar sound with the tender touch of keyboards, and Paul Simpson's vocal brilliance which glows in "Whirlpool Heart", "Archangels", "Mythical Beast" and "Northern England".

KIDNEY BINGOS

NEW RELEASES

Abecedarians "Resin" (Caroline) The Southwest is a virtual rock'n'roll hotbed for bands that twangs and thrash, and even those to chew bubble gum by, but the Abecedarians have transcended those expectations with a haunting style that moves at its own pace. It's gloomy at times, but a glimmer of hope can be found beneath the heavy layers of guitar and drums to keep the sound fresh and even danceable. This might be one band that was once associated with the English doom syndicate, but that only drew in the recognition factor. Songs like "Dinner", "Wild Flowers Grow From The Trash", "Press Escape" and "Laugh At Yourself" do the rest. The CD includes the "Smiling Monarch" single and tracks from their previous "Eureka" album too! Start counting... contact Yvonne Garrett at Caroline (5 Crosby St, NYC 10013) for more information.

CHARTSTARS

The Mission U.K. "Children" (PolyGram)

The #1 Most Added album forges to 23* in the second week, with "Tower Of Strength" being the strongest lead single this band has ever recorded. Now on at 45 Hard Reporting stations, the mainstream connection is strong at this early date with early support from WLAV, KATT, KFMH, KMOD, KRXQ, KFMH, KMOD, KRXQ, KWIC, WBCN, WHTF, WRIF, WTPA and others joining an already strong alternative contingent.... KRCK's Paul Krieger says, "This is such a neatly produced song with a bombastic air sound, and the production is great!"... Mike Marrone at WHTG claims, "They're one of our core artists".... Deb Brady, WXXP says "This may be a two listen song, but the hook is irresistible!". The production by John Paul Jones is starting to sink in, especially with depth tracks like "Beyond The Pale", "Kingdom Come" and "Dream On" beginning to surface.

The Smithereens "Green Thoughts" (Enigma/Capitol)

Not only do they do the best work with Rickenbackers since the Byrds, their strictly American rock approach to the well worn angst of relationships comes out somehow fresh and precise thanks to Don Dixon's production and some of the best, most versatile songwriting to date. Alternative radio will venture as far into this album as possible following the immediate wave of response cause by "Only A

Memory", into "Drown In My Own Tears", "Deep Black", "The World We Know" and "If The Sun Doesn't Shine". They're already an important AOR airplay item at over 137 reporting stations with 36 New this week, so let's highlight some of the early supporters that began with "Especially For You" and even back to "Beauty And Sadness", like WHTG, WFNX, WNEW, KBCO, KCPR, KROQ, WBCN, WDET, WHFS, WXRT and KTCL. As for raves, start in the Radio Comments section and you'll see why we can't fit them all in this column!

The Mighty Lemon Drops "World Without End" (Reprise)

It looks as though the Lemon Drops can expect to find themselves swarmed by hoards of new fans when they return to the U.S. thanks to the perfect pop sounds they've woven together in the new "Inside Out" single, and other perfect pop songs found on the album that enters the Top 5 this week. KBCO's Doug Clifton gives them the "green light" this week, as do 58 more reporters including WFNX, KRCK, WXXP, KBCO, KROQ, WHFS, WLLZ, WXRT, WKXL, WRIF, WFIT, WRAS, KCPR, CFNY, WDET and many more. With 8 new adds, they make the crunch toward #1 among a highly competitive roster this week. CFNY's Ivar Hamilton knows that this is "a sound and an album that will definitely keep fans happy".... Adam Langley from WBNY says, "I kind of miss the edge, but the refined sound of the new album is great!".... Carter Alan from WBCN is in "serious love with the new cut. It's pure pop for now radio folks. Give it a spin. It's guaranteed to put a smile on your face."

Joni Mitchell "Chalk Mark In A Rain Storm" (Geffen)

The first thing to realize about Joni's new album is that it's abso-tively not limited by format boundaries. This is easy listening for all formats and the line up assembled here is a formidable one that includes Peter Gabriel ("My Secret Place"), Ben Orr ("Number One"), Don Henley in "Lakota" and the tender groove of "Snakes And Ladders"; Wendy And Lisa and Thomas Dolby also contribute with Steve Stevens, Billy Idol and Tom Petty. While you're dropping names, drop the needle on this one and hear the colorful montage of styles and see what we mean.... "Joni Mitchell is back and college radio shouldn't be afraid to play this talented legend," says WRAS' Valarie Pittman.... Ivar Hamilton adds, "Joni's album is an absolute masterpiece. This album is every bit as intriguing as when I first heard Robbie Robertson".... "Joni Mitchell's new album should not be ignored by alternative radio. She's always done well here, and as usual she takes chances on 'Chalk Mark In A Rain Storm,'" claims WHTG's Mike Marrone.

The Tracks Chart ranks the Top 20 Songs played by commercial and college reporters

March 25, 1988

The Woodentops "Wooden Foot Cops On The Highway" (Columbia) Completing a two and a half week live string of performances in America, The Woodentops stunned a packed house of 1500 in Manhattan last week with songs the new album which includes at least 4 instant radio tracks on first listen. "Wheels Turning" is now a solid Top 10 airplay item with play from KTCL, WFNX, WVVV, KFMH, KRCK, KABL, KCMU, WBER, WBNY, WDET, WFIT, WHTG, WMDK, WNCS, WXRT and 15 more with heavy rotation abounding.... Bruce Flohr/KCPR notes, "The album is a lot cleaner sounding than the last one with more accessible pop songs to choose from".... Paul Kriegler at KRCK says, "So good that I have this album memorized, especially 'They Can Say What They Want'".... Other quick picks include "Stop This Car", "Maybe It Won't Last" and "You Make Me Feel". Whatever you do, don't short change yourself. See them live and soak up some of that musical energy!

Wire "Kidney Bingos" 12" (Enigma) Whatever you do, please don't call this group a "baby band". Baby bands were directly influenced from the innovative core sound of Wire in the late 70's clean through yesterday! Although they took time off to pursue other projects, the reformed quartet is back and better than ever on the heels of an "Ideal Copy" album that planted the band firmly into new ears for the first time. The hypnotizing shades of pop found in "Kidney Bingos" has programmers wanting more, and a new album is due shortly. For now, a 17* based on 12" airplay is astounding and only a hint of things to come this summer.... New adds at KRCK, KACV, WBER and KTCL match with increases at WHTG, KABL, KUNV, KCMU and steady play at 25 more reporting stations this week. (Watch the Most Requested Chart!).... Mike Thomas at WMDK says, "I was put off by the title but this is a very strong single!".... Matt Potolsky at KDVS adds, "The band still has its arty integrity, unlike a lot of bands who lose their edge with time".... KABL's Mark Miller says, "Our listeners really like this".... KRCK's Paul Kriegler says, "This is brilliant, a song that alternative stations should make their staple."

Christy Moore (Atlantic) As Ireland's folk music mentor, Christy has graced American shores with an album that has defied the boundaries of format expectations and turned more heads than you think. From college to AOR and eventually to Adult AC if they're listening, Christy will make friends as quick as you can say "Biko Drum". Now at 20 Hard stations, his appeal ranges clear across WRAS, WGTU, WBNY, KRCK, KBLE, WXCI, KUSF, KTAO, WNCS, KBCO, KVRE, WHFS, WHTG, WOXY and more.... Josh Rosenthal at WCDB made a rare testimonial 2 issues back, "It's no wonder that Elvis Costello and Bono love Christy Moore so much. Here's a record that's history and literature, and has worked its way into my psyche permanently".... Renee Blake at WKXL says, "Christy Moore writes songs that are anthems, with power and emotion that speaks universally. If anything can rekindle the 60's, he can".... WXCI's Kandi Wilkins, "Added 'Biko Drum' because it fits into our sound spectrum and has beautiful overtones that aren't strictly folk."

Pat McLaughlin (Capitol) On first listen, Pat's diverse musical leanings manifest themselves in a collection of pure rock, bluegrass, pop songs delivered with a whole lotta soul found on this album debut. He's traveled coast to coast, absorbing those influences and written music that measures up, starting with "Wrong Number" which created radio reality for this impressive talent. Now going further, "Linda" and "No Problem" are surfacing first among the same discriminating ears that perked to John Hiatt not too long ago.... Jim Kelly at KATP raves, "The staff fave right now is Pat McLaughlin. I fell in love with 'Wrong Number' instantly, on an album that I will definitely keep myself!".... David Sadof at KLOL says, "He adds a nice blues flavor to the radio station".... Thank KTAO, WMDK, KABL, KBLE, WCDB, WDET, WFIT, WNCS, WRVU, WGTU, WHTG, WKXL, WOXY and six more Hard Alternative stations for Pat's advance to 43* this week.

The Fall "The Frenz Experiment" (Beggars Banquet/RCA) Now established at progressive radio with a sound unlike any other, Mark E. Smith's lyrical wit is what keeps an undying loyalty in tact with words that spin you around and music that finishes each idea with gritty guitar punch. Trends come and go, but there is a solid reason why The Fall defy trends, they create them and this album touts new musical genius with "Frenz", "Carry Bag Man", and "Get A Hotel". When was the last time you heard a better Fall single than "Hit The North Part I"? Although the Kinks cover of "Victoria" is a push track, we all know what will make jocks come back to this record.... It's spinning at 38 stations including WXXP, KTCL, WDRE, WHFS, WHTG, WOXY, CFNY, WNCS, KCPR, KRCK, WFIT, KJET, WBER and praise isn't far behind.... WXCI's Kandi Wilkins says, "They keep expanding, yet stick to their style and are always releasing the best of records".... Mark Miller at KABL notes, "It's a good record, but don't cover the hits!".... Bill Hanson at WHTF says, "This is my favorite Kinks song and I really like the remake."

Terence Trent D'Arby "The Hardline According To..." (Columbia) Since he burst onto the scene in 1987 with a soulful, spiritual debut album, Terence Trent D'Arby has gone on to find himself among movers and shakers in the recording industry and enjoyed much acclaim with #1 debut on the English charts last year followed by quadruple Platinum sales in England (the U.S. release is already Gold and counting). In a Rolling Stone Critics poll he was voted the Best New Male Singer, and he walked away with a BRIT Trophy at this year's annual BPI awards in January. Although "Wishing Well" is the current American single, a special rush release live version of the Stones' "Under My Thumb" has arrived to whet the appetites of those who think he doesn't "rock"! A refueled airplay check sees Terence back up to 35* this week.

Crazy House "Still Looking For Heaven On Earth" (Chrysalis) This English duo stopped in to The Hard Report to talk about their new album which is surprisingly more of a U.S. project other than one in their homeland. Together for eight years, David Luckhurst and Peter Parsons have seen tremendous local support near London, gone the indie route and found favor with an American major. The album was produced by Steve Nye (of Japan and XTC), with excellent guitarwork by Bill Nelson and "Burning Rain" is the first single. David says the song is a challenge to all those sad faces he sees walking down the street, doing something to shock the public into some kind of reaction instead of seeing them wandering around with a blank stare. Early radio support from 18 stations with no drops from WNDY, KABL, WFIT, WHFS, WNCS, KACV, KTAO, WKXL, WDHA, KROQ, KRCK, WZZO, WDRE, WFNX and more has started the buzz, bringing on a 50* Debut. Very open and friendly, the band encourages your correspondence: Write to P.O Box 761, London N# 1NQ, England.

Robyn Hitchcock "Globe Of Frogs"

(A&M) Ask how many programmers who is #1 in their book and Robyn's name will grace your face in an instant. Ditto for alternative radio listeners. Now that Robyn's backing up that #1 "Balloon Man" single with a second sizzler, "Flesh Number One", you can bet that #4 turned upward again this week with a combined 65 reporting stations now on. Top 5 Airplay is where he belongs with the tour now underway and a wealth of radio potential in tracks like "Chinese Bones", "Sleeping With Your Devil Mask" and "Unsettled" to carry him well through 1988. Heavy airplay at 27 Reporting stations includes KITS, KUNV, WFNX, WHFS, WOXY, WRVU, WVVV, WXXP, KJET, KTCL, WDET, WDRE, WFIT, WRAS, WTSR and WXRT and that's only the tip of the iceberg as Robyn Hitchcock enjoys an 11 week stay on the Hard Alternative Chart (10 weeks in the Top 10!).

Check out the new album, "Elaine MacKenzie" and see why so many labels have had their eye on this colorful band from the Midwest.

"Live For Ireland" (MCA) More than an album to featuring on or near St. Patrick's Day, this collective effort from Ireland's premiere recording artists has great importance in its quest to help ease political conditions in a country that has been torn apart economically and religiously since the early 1900's. U2's "Maggie's Farm" holds most of the fascination, but let's not forget other vital performances by Elvis Costello, The Pogues, In Tua Nua, Van Morrison and Christy Moore among others. The corresponding video is just under 1 hour, a visual recount of the "Self Aid" concert that stunned the country in 1986.... The 38-30* move this week results from 3 alternative adds, increases and overall play at 36 Hard Reporting stations including WEQX, WFNX, WHFS, WWRX, WBCN, WXXP, KDVS, KCPR, KTAO, KUSF, WRAS, WXRT and WOXY.

As England's next "band to watch", **The Woodentops** have jolted and jumped to the top of the pack as one of the best new pop bands in their homeland, now turning to the United States with their second domestic album and a rollicking, energetic stage show to back it up. Their music is an intelligent mix of intricate rhythms, acoustic guitars, layered keyboards and diverse percussion, ranging from high speed overdrive to softer danceable beats that treat listeners to a musical rollercoaster of sound. **Rolo McGinty** is the chief singer and lyricist, an artist who brings his pure and inspired music to life with four talented players who translate his thoughts to pure energy. During a brief two and a half week U.S. tour this month, Rolo took time out to talk about the innerworkings of his latest pop masterpiece, "**Wooden Foot Cops On The Highway**", and the brilliant musical quirks that have brought this band to the forefront of a new musical style that is uniquely their own.

Dawn Hood: What was it like in the early days of the band, as you developed one of the most brilliant musical themes now associated with the Woodentops?

Rolo McGinty: The early days were completely wild with no formula, and spontaneity was the main key. All the madness was centered around dance beats and then as time went on we started to evolve the idea of songwriting. We are just starting to get into our third or fourth year and the feeling in the group now is more fresh and lert than it was in the first few months. We've also fallen in love with touring and being in the group now is far more enjoyable.

Dawn: How did it evolve?

Rolo: We were into synched-up sequenced electronic music, primitive high energy, electro-music that probably evolved from Kraftwerk and Suicide and stuff like that. But, we didn't have the money to buy all the equipment that you need to make that sort of music, so we did it all with acoustic instruments, which means that you get more of a human, folksy and melodic sound. That's really the backbone of our sound now, and the songwriting has taken it to different places. It's about using the acoustic guitar as a high hat and the drums being really solid.

Dawn: Although you do create a mechanized sound, the personality of the band is so friendly that the two seem to counteract perfectly.

Rolo: We feel that communication and the joy of performance helps us to uplift people. We could be intensely political and we all have our views, but I actually feel that people already know what we're saying so that seems rather pointless. This is the way we prefer to work, more on a body beat, mental level which usually involves quite a bit of jumping about and smiling - a very energetic live thing.

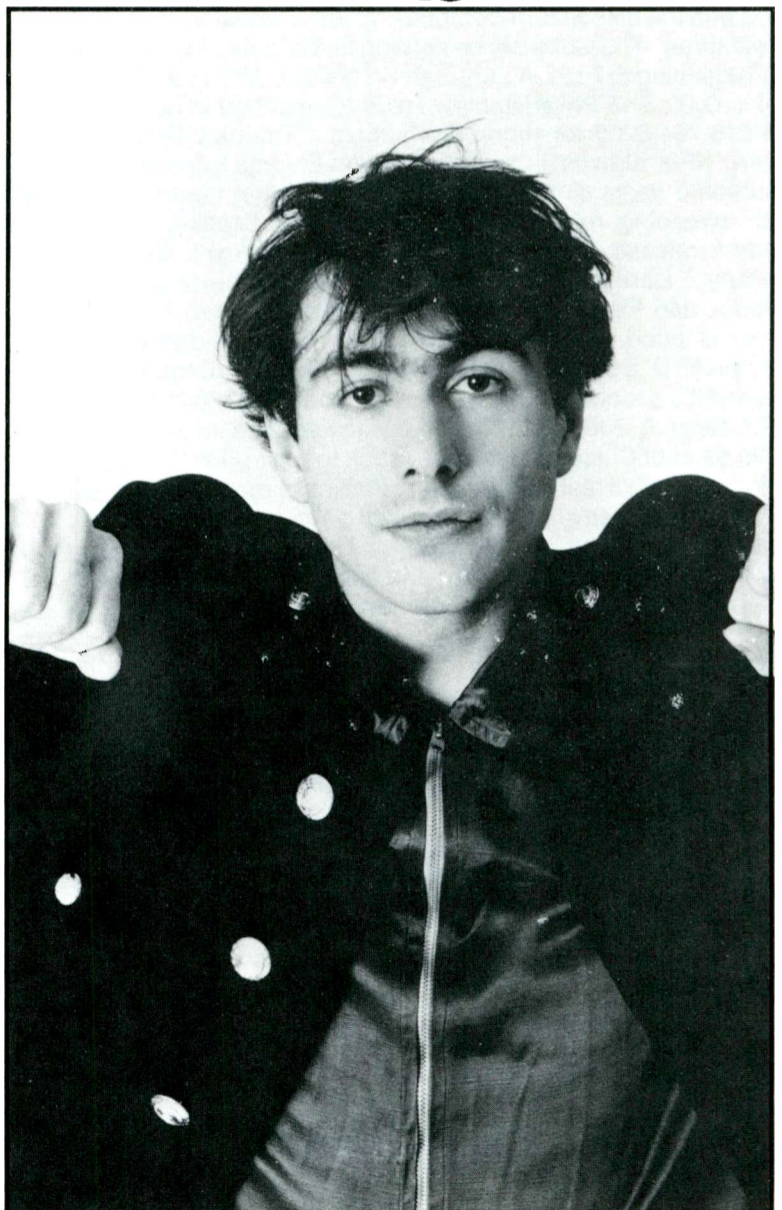

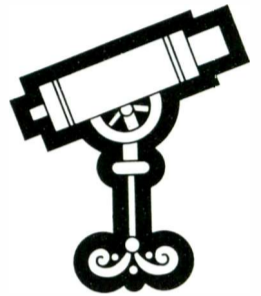

Dawn: For those who have never seen a Woodentops gig, can you fill them in - maybe reveal some of the music you'll be performing on the short tour?

Rolo: We'll be performing a selection of our favorites before the new album and almost all of the songs on "Wooden Foot Cops". When we were in Europe and could afford to do it, we had all kinds of film moving behind us and stuff that goes with our music for instance, songs like "Wheels Turning" which are quite long and like a movie in a sense. We can't afford to take that all around the world unfortunately, and for America it's too expensive. When we play here it's just us and the stage which is nice, too. (Believe me, I'm not complaining). There's just something about making a theatre into your own playground and it's good when we can put on more of a show.

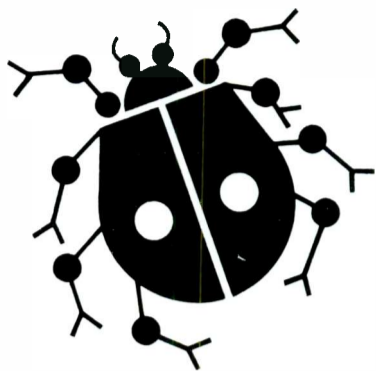

Dawn: Going back to the "Giant" album, what are some of the musical changes that have transpired since?

Continued

THE WOODENTOPS

THE HARD REPORT

Rolo: The "Wooden Foot Cops" album is much more technical and developed ...that's even where the character on the cover comes from.

Dawn: When did the new keyboardist Ann Stephenson join the group?

Rolo: Very recently. We did a concert for Red Wedge in London and she came on and played guest violin. At the time she was playing in the Communards. After the line up change, she said she'd be interested in learning keyboards. I didn't see her for about two months while she learned, but she came back playing!

Dawn: How democratic is the songwriting process?

Rolo: It's not very democratic because I'm the sole songwriter. I think they're all kind of glad that when they do write, they can take their time because they're not under any pressure, which of course, I am. What is democratic is how some of the parts wind up and which songs we're going to do. I love it all or hate it all, so I look to the musicians to tell me which ones they want to play for the next year. Sometimes I wish I wasn't the only writer, but sometimes I'm just the quickest...

Dawn: How did you meet with producer, Scott Litt?

Rolo: I met him because we did a live album together, at the Palace in Los Angeles.

Dawn: What are some of the differences you have noticed in channeling your music to the public in England vs. America?

Rolo: Most of the charts over there are controlled by business manipulation and hype so you can't take them seriously. Like in America, we have 10 year old girls standing on stage wining, and I'm sure it must be dirty old men buying those records.

Dawn: For a band as genuine as The Woodentops, how do you do it? What are the rewards?

Rolo: It's the hardest kind of band to be in... some of the rewards are definitely the people we've had a chance to work with; the audience reaction and participation; (and getting a piano in my house); watching my passport fill up with stickers and remembering nearly all of it and feeling myself becoming more capable of talking to people. I used to be quite strange and I think I probably am still quite strange, but get along with people better. Also, feeling that I understand so much more about the process of making music apart from wanting to go around the world and do something good, there's a lot of things within music that I'd like to learn and I'm picking up on them now.

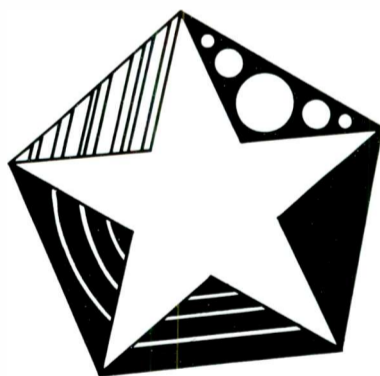

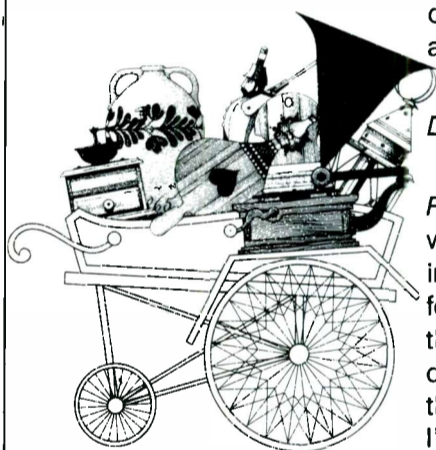

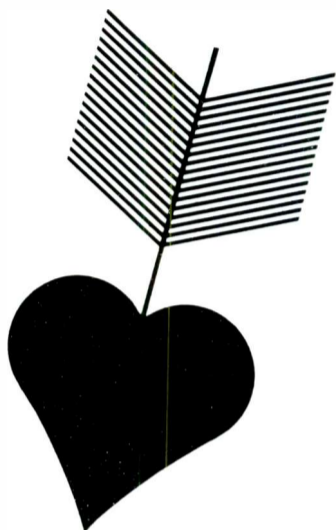

Dawn: "Wheels Turning" seems to have opened the band up to more response from commercial rock oriented radio.

Rolo: I don't really know how it's doing it - I just got here last night. It's a backwards song that started off being a piece of intense dub music. It's literally a mixture of circular rhythms and notes all fitting together, like a mobile in a planetarium. It's a lot of little whirling musical cogs fitting together. The subject matter is more about spiritual growth, about decisions and physical growth and somebody coined it "the kaleidoscope of life" which is a nice way of putting it. It evolved from an exciting dance project and slowly but surely it turned into a song right in front of my fingers! For me, it's one of the most enjoyable songs to have written and I danced to it for two days. The guitar came in later, added at the recording studio where we actually recorded the Lp, and it also had involvement from the bass player in the group,

Frankie. The chorus was one of the first things to come, and I was thinking and the wheels were turning. I remembered when I was going through an intense period of my life and I was in Copenhagen on a rollercoaster and that really got the ball rolling.

Dawn: How about "Wheels Turning" into a video?

Rolo: My only criticism of the video are the cog wheels. We had a joke going about the cog wheels turning up all over the place and when we saw it, they were! There was so much to be involved with that you couldn't do it all. But I think the group looks good in it!

HEAVY HITTERS

RECORD OF THE WEEK

Fifth Angel, "Fifth Angel", Epic....

When a band moves 25-10* on the metal charts while nailing #1 Most Added Metal for the third consecutive week, Record Of The Week is pretty much a given. If you feel just a touch of deja vu when you listen to this album, it's because you may have heard it before and you're going to be hearing a lot more of this band in the future. While we wait for a brand new album from Ken Mary's band of merry men, this record should more than suffice. The raves are comin' in and KFMX's Jeff Ivan feels, "The reworked Fifth Angel album sounds great. It's got all the hooks, riffs, leads and guts that a great rock band needs; Top Five all the way on this one soon," and WOUR's Kevin Kasky says, "Watch out, here comes Fifth Angel! Some great licks here with the ability to let the listener know that it still holds a lot of power." Already on: KNAC, KJJO, KCMU, KFMH, KFMX. KJOT, KQQK, KRSR, KSJS, KTEC, WARC, WBIM, WCDB (#1), WEOS, WGBW, WGIR, WHJY, WHMH, WIXV, WJUL, WKNH, WKVU, WNGZ, WOUR, WPYX, WRFL, WWUH, WWVU, Z-ROCK and more.

Yngwie Malmsteen's Rising Force, "Heaven Tonight", Polydor....

With his near tragic accident and Joe Lynn Turner's rather unsuccessful solo venture now but a memory, Mr. Malmsteen is back in business with his latest guitarist/singer collaboration. This should prove to be his most successful venture to date because he has a natural ability to weave intricate melody lines with his signature neo-classical guitar showcasing and also Turner's Rainbow-esque vocals now allow him access too a whole new sound. "Heaven Tonight" is the first track off the aptly titled new Lp "Odyssey". There is no mistaking the AOR accessibility of this track and it's obvious "hit" quality. Whether or not the man and his new attitude can rise above the "metal only" label that one associates with the name Yngwie, is another matter all together. Luckily metal seems to be having its day and its way on the charts, and in our eyes Rising Force has got all greens for the go-ahead and a succesful album. Z-Rock's Mad Max Hammer says, "The Yngwie Malmsteen and Joe Lynn Turner combination will shoot Yngwie into the forefront of rock and roll. I think the single is a great radio record, everyone should do well with this one." This track is smooth and polished with just the right allowance of guitar pyrotechnics to appease his many guitar disciples. As for the rest of the album, it's loaded with some killer tracks sure to keep the home-fires burnin' for quite some time, like: "Rising Force", "Riot In The Dungeons", "Crystal Ball", "Krackatau" and the beautiful "Dreaming (Tell Me)".

CONTINUED

Black N' Blue, "In Heat", Geffen....

With their follow-up to "Nasty Nasty" the good time party boys that are Black N' Blue are back with a vengeance and their all out rocker, "In Heat". The first track "Live It Up" had a pretty good go round this past week with adds at KJJO, WHJY, WPYX, KNAC and WRCN's metal programs and a host of AOR's, including the likes of KAZY, KRZQ, WLLZ, KFMH, KMOD, KNCN and KSQY. There are a number of tracks that pack a wallop on this record, some of which we feel are more impressive than the "Live It Up" cut. For example "Heat It Up! Burn It Out!", "Suspicious", "Get Wise To The Rise" and "Great Guns Of Fire" are non-stop rockers that crunch in all the right places. While their past releases have had more of a pop sound, this time their songs brandish more of an edge better matched to Jaime St. James' appealingly rough vocals. This band has a very natural sound and style as well as rock star looks that could make them legit up and comers on the scene, and with Gene Simmons at the knobs, they were guaranteed at least a well-produced record, tailor made for the mainstream/metal audience.

Dirty Looks, "Cool From The Wire", Atlantic....

Mad Max said, "Z-Rock was playing Dirty Look's independent release and now the new album 'Cool From The Wire' keeps the momentum going for this band. Look for big things out of Dirty Looks" He was right. This week they debuted at 25* on Hard Hitters and landed the #4 Most Added Metal spot. It's no surprise to us 'cause we picked this one to happen a couple of weeks ago. They combine that party rock style so popular lately with some nitty gritty Bon Scott type vocals, and Max Norman's production skills once again have resulted in some finely crafted tunes. The overall result is airplay on the likes of KBER, WGIR, WHMH, WHUS, WIXV, WKNC, WOUR, WPYX, WRCN, Z-ROCK, KJJO, KNAC and also some AOR's like KRZQ, WCMF, WNGZ, WTPA and WQFM. So far "Can't Take My Eyes Off Of You" has caught the ears of most of our reporters, but other tracks worth taking into consideration include: "Oh Ruby", "Wastin' My Time", "It's Not The Way You Rock", "Get It Right" and "Get Off".

Fates Warning, "No Exit", Metal Blade....

Well, it's finally here, and after the initial shock of finally getting it (if it doesn't kill you), you'll be amused by the discovery that speakers have an annoying tendency of exploding when exposed to the Lp for the first time. The record absolutely smokes! From the first cut to the last "No Exit" comes through with the material to fry the socks from one's feet with the sheer progressive power that is Fates Warning. Hell, the 12" alone was last week's Record Of The Week and it's still holding steady at #8* this week on the Hard Hitters. I can't even begin to imagine what's gonna hit the fan when all of our reporters get a listen to it! Just listening to what WKNH's Jon Johnson has to say is frightening enough. He says, "I've listened to the new Fates Warning a few times now and this is a hell of a cool slab of vinyl that all right-thinking, God-fearing Americans should own". The tracks, "Anarchy Divine" and "Shades Of Heavenly Death" are utterly brilliant themselves but the 21 minute, 25 second eight part masterpiece simply entitled, "The Ivory Gate Of Dreams" is just the icing on the cake. If your speakers don't sizzle, then your phones will from the instant this hits the air.

Dweezil Zappa, "My Guitar Wants To Kill Your Mama", Chrysalis....

Imagine our surprise upon looking down at the Hard Hitters Chart this week and finding a debut for the Dweez! That's right, buddy, you've finally hit the big time! It's been said before, but the boy be truly happenin'. Tracks like "Before I Get Old", "Nasty Bizness", "Her Eyes Don't Follow Me" and the ever popular "Bang Your Groove Thang" only seem to solidify the younger Zappa's standing as a fine guitarist/songwriter. Not only is the music outstanding, but many of the lyrics are not your basic run-of-the-mill "party all the time" type of thing either, and Dweez has obviously been working on his vocals a bit, too. "Before I Get Old" is actually a very relevant social statement about some of the bad things about life in the 80's. Taking that into consideration makes this a fairly well-rounded release from one of music's brightest future stars. It's a given that weirdness/genius is a Zappa forte, and this record delivers enough of that to truly keep this record interesting.

Udo, "Animal House", RCA....

I think it's safe to say that the future's looking good for former Accept singer Udo. With a stunning 23-11* Hard Hitters move and tons of airplay action, it looks as though this guy's pretty much set for life. Tracks like "Go Back To Hell" and "Black Widow" should give some of you an idea of the depth available on this record. While the 12" "They Want War" does set the tone, all of the other tracks can stand equally well on their own and are all strong candidates for follow-up tracks. Stations playing Udo include: KCMU, KFMX, KOZZ, KSLC, WARC, WEOS, WGIR, WKNH, WNGZ, WOUR, WPYX, WRCN, WWUH, WWVU, KJJO, KNAC and Z-Rock. If you haven't had a chance to check this out then be sure not to miss it. Udo's got a unique voice and a great band, and as for those of you who still think that the Accept connection weighs down the credibility of this project - think again.

Destruction, "Release From Agony", Rock Hotel/Profile....

First of all, if you are into really indigestible album covers, then you can be sure that this band will hold your interest until you get a chance to listen to the material therein on the wax. This is an eight song speed-metal feast for the ears recorded by four guys from Germany with no last names. Band members Schmier (bass and lead vocals), Harry (guitars), Olly (drums) and Mike (guitars) show astounding musicianship through a series of complex riffs and rhythms. Check out tracks like "Incriminated", "Survive To Die" and the increasingly haunting "Sign Of Fear" for an experience that you won't soon forget. This week they slide in at #5 Most Added Metal and are rumbling just below the chart and are looking at a debut on Hard Hitters real soon.

Hellion, "Postcards From The Asylum", New Renaissance....

One of heavy metal's premiere female vocalists (Ann Boleyn) has returned to the scene with a four song Ep that is sure to prove that she was right not to give up when things got incredibly rocky for the band. Considering all the line-up and management changes, Hellion has still managed to turn out four solid tracks that are as intense lyrically as they are musically. The cuts featured on this Ep are: "Nevermore!", the long and bizarre "The Evil One", the Judas Priest classic "Exciter" and what could be the best on the Ep - "Run For Your Life". It won't be long before we see this record's impact on the charts. Those already on "Postcards..." include: KCMU, KSLC, KTEC, WCDB, WKNH, WKVU, WWUH, WWVU and Z-ROCK. Cheers to Ann and Co. for sticking it out.

METAL MUSIC NEWS

Good day fellow metalheads. This is Sal "Earl Of Earache" Treppiedi coming to you from Metal Control Center deep in the heart of Queens with this week's metal news. Today we begin the first of our two part interview with Bruce Hausfield and Dave Anderson of Passport recording artists Eric Steel. First, let's get to the news.

Rough Cutt are preparing to go into the studio to begin pre-production for their forthcoming release. This new album will mark several firsts for the band. To begin with, it will mark the debut of Perrimore "Perry" McCarty. Perry was originally with Warrior. He recorded the "Fighting For The Earth" Lp on MCA Records. He replaces Paul Shortino who has since joined Quiet Riot. Second, the album will be the first release by Atlantic Records. Although a spokesperson for the band's management firm, Niji Management, would not confirm, the spokesperson did not deny the rumor. But The Earl has learned that it will be Atlantic Records. Finally, the band will have a new sound. According to unconfirmed reports, Rough Cutt will be going to a more commercial edge. It is The Earl's opinion that with all the crapola that is flooding the stores these days, it is a shame that a band like Rough Cutt was totally overlooked. If you have ever had the privilege of seeing Rough Cutt live then you know what I mean. The Earl wishes Dave "The Blade", Amir, Matt and Perry lots of luck. This is going to be the big one.

Ronnie James Dio just completed eight months of touring the world. Strange as it may seem, he actually was out for that long. Recall that he went over to Europe first before hitting the States sometime in late November. Ronnie and band will now return for several months before beginning to write songs again sometime around August. Word has it that Ronnie intends to do some serious fishing.

Whiplash is already planning a new album. Their third Lp is tentatively entitled "Rape Of The Mind". Some of the song titles scheduled to appear on the record are "Hiroshima", "Pistol-Whipped" and "Swimming In Blood". The band are scheduled to go on a month long tour following their return from Europe. While in Europe, the band will be doing several co-headling dates with Sodom.

Okay, let's get to our feature interview. This week, the first of our two part conversation with **Bruce Hausfield** and **Dave Anderson** of Chicago based **Eric Steel**.

ERIC STEEL

The new album is called "**Infectious**" and it has been climbing the Hard Report metal charts for several weeks. For those of you who are familiar with the album, you should know that there is actually no one in the band named Eric Steel. Therefore, our first question:

HR: What made you name the band Eric Steel?

Bruce: At the time when we were trying to come with a name for the band, and we're going back a few years, Boston had

just come out - along with a slew of other bands that were naming themselves after cities. It was almost like a trend. We wanted to come up with a name that would always arouse questions. We were thinking of calling the band the name of a person like Jethro Tull, for instance. There is no one in that band by that name. Most people think it is Ian Anderson. We were kicking around some ideas one day while we were having a few drinks and we came up with Eric Steel.

HR: Give us a little background on the band.

Dave: They had the band going before I had even joined. I heard a demo of the group and was knocked out by it. I was between bands at the time. So, I got a hold of their demo and brought it home and started working on some tunes. I had them down cold. I tried calling the manager for a month straight trying to get an audition and they weren't taking me too seriously. Finally I got to go down to the rehearsal. I went down, rehearsed with them and was in the band that night. I recorded the first album with Megaforce Records. We kept the same line-up for several years. The same thing happened with Ronnie Stewart. We met Ronnie when he was here in town right after the Joe Perry Project broke up. He was interested in the group. He had heard our first album and had spoken to us and was kinda bugging us to come out and jam. Finally, after he bothered us enough, we let him come down to rehearsal and the first ten seconds into the tune, we knew that we had to kick our old drummer out because Ronnie was such a big improvement. He joined the group and that was it.

Bruce: The band originally evolved from another group called USA. That was around 1978-79. At the time, metal wasn't as popular as it is right now. The only bands that had records out that were heavy were Purple, Priest and some of the other stalwarts. We decided to stop conforming to the time and come up with a real heavy band but still retain that classic, melodic sound. I started it with some of the old guys from USA. We then picked up Mike and added Dave.

Next week, we'll talk more with Bruce and Dave about Eric Steel. Until then, check out "Infectious". The Earl feels that you will be quite impressed by it.

How many of you have ever associated Finland with metal? The Earl has rarely ever heard of metal band's coming out of Finland. I've definitely heard of Finnish cheese. Well, it seems that Mechanic Records will be bringing a taste of Finnish metal to these shores. The band is called **Stone**. The members of Stone are Roope and Jiri (guitar), Pekka on drums and Janne - bassist and vocalist. The band range in age from 18 to 21. Their new album will be released here shortly. It will feature a cover of Europe's "Final Countdown". Look for a summer tour to follow. By the way, the album will distributed by MCA Records.

Well, that is going to do it for this week. Once again, next week, we will have part two of our conversation with Bruce Hausfield and Dave Anderson of Eric Steel. Until then, this is **Sal "Earl Of Earache" Treppiedi** with a thought. If Cheryl Valentine wants to jump out of cakes, Mr. Death would be happy to have her over any time she wants. Until next week, MUYA!!!

**ON YOUR DESK NOW!
KING**

"As forceful in character, and dazzling in its range of vision and command of complex musical landscapes to rank alongside such classic debuts as the first U2 album or the first Level 42 album... the most original debut of the year."

From the New Jersey and tri-state club circuit arises yet another star on the hard rock horizon. Prophet is one of the new breed of east coast bands that are breaking into air-time all across the nation and with good reason. They have a knack of combining good musical sensibility with hooky and memorable lyrics. They are a self-proclaimed "melodic hard rock band", but they have also managed to crossover onto the metal side of life due mainly to the hard driving sound and feel of many of the tracks on their album "Cycle Of The Moon". If one were to predict the future of this band, one would probably have to say that they are headed for a very successful future. Ken Dubman, their guitarist helped us get to know more about "the new band in town"....

Chris: How about we start off by giving our readers some information on how the band Prophet got together and how long you've been together.

Ken: The band got together, I guess it had to be around 1980. Joe and Scott (bass and keyboards) had been playing together a long time before that. I had an add in a local music paper, they called and I eventually joined. From there we've been through about five singers and five drummers through the course of about eight years or so. Finally we settled on the line-up that we had for this record.

Chris: You've been compared to "rock" bands like Foreigner and Kansas. Is that what you've wanted to accomplish - to be put into that category of music as opposed to "metal" where you're also charting?

Ken: Yes, those were definitely our influences.... you know Kansas, a little bit of Journey, a little Deep Purple - those types. The thing is, it bothers us that now we're being classified as a metal band, which is the last thing we wanted. We're a hard, melodic rock band, and have a lot of melody to offer and being lumped into just heavy metal is somewhat of an injustice to us. Because we're not heavy metal - we want people that are into the Foreigner and Kansas type bands to pick up on our stuff.

Chris: Yes, that's what I understand from the label, but you are hitting the metal charts as well. Doing pretty well actually.

Ken: Well yeah, I guess that is inevitable. Bands like Bon Jovi we're lumped into the "metal" label too. I don't feel we're a metal band, but there is no doubt that we're heavy. So.... Whatever the case, we want to make it clear that we're a melodic hard rock band. When you think of heavy metal band, you for sure don't think of Foreigner, ya know?

Chris: How do you handle the writing of your songs then? Do you write specifically towards those AOR audiences or with a common theme?

Ken: Well, it can happen just about anyway... but basically Scott (Metaxas - bass) and I do most of the writing. He does most of the lyrics and I help him out with a line here and there, although I'm starting to get a little better myself. Usually I'll come up with an idea in some of the most mundane situations - like driving somewhere. You know how when your driving your car your mind wanders and you get a lot of ideas, and in the shower or when I'm out riding my bike. As far as starting with a theme, it really can just start with one line, one melody or one riff - you know and it could be about anything. We take it from there.

Chris: So really the other guys in the band don't have a lot of input as far as the songwriting or the development and style of music?

Ken: They didn't on this record, but I have a feeling that the more we play together the more they will. But, you have to keep in mind that this line-up is about as old as the record and our drummer Michael joined about three weeks before we went in to record. The more we play together the more we'll eventually all write together.

Chris: You guys are a New Jersey band, which I of course think is great bein' a Joisey girl myself, but how do you feel about the Jersey band scene? Do you think it's getting easier or harder for young, new bands to break into the bigtime?

Ken: It's good to see that a lot of east coast bands are really starting to make it like White Lion, Burtnick and of course Bon Jovi's phenomenal success, because L.A. bands like Ratt and all those bands seemed to pretty much be dominating the scene for quite a while. But I think maybe in a small respect it's opened some doors for more east coast bands to break out, because when you get more successful bands happening from an area it's easier for others to follow. But, I don't know if it's really all that much easier, you still just have to be a good band to do well.

Chris: Have any of the other members of Prophet ever been on another album or on tour before?

Ken: Yeah actually Russell, our singer was in a band called Surgeon on EMI a couple of years ago. But that was the only instance of any members of Prophet having done that kind of thing before.

Chris: So in essence you're a bar band, and developed the following through that.

Ken: Yes, we are definitely in that category. We've played a lot of bars. Since 1980 through '85 we played everywhere. Sometimes five or six nights a week. It was fun though 'cause back then the drinking age was 19 and there were a million clubs we could play, so every night was like a concert, or a great big party. Now it's a whole new scene and the bands that are out there now are playing for an entirely different audience, and there are less clubs with smaller attendance because of the age change.

Chris: Do you have any tour plans in the works?

Ken: Yeah we're probably going out with Leatherwolf. We're gonna be out with them through April, and then after that we'll try to get a stadium tour. Now that we're having some success with this record we hope it'll happen.

Chris: Have you worked on any videos for this record?

Ken: As a matter of fact that video is sitting over at MTV right now, for "Sound Of A Breaking Heart". We hope to do more. It's done at the Capitol Theater (Passaic, N.J.) on a platform built over the seats in the orchestra and it's all performance. It's cool and it has a good feel about it. Video's reach so many people.

Chris: How was it working with Spencer Proffer and Randy Bishop producing? How did you hook up with them?

Ken: It was great, I mean we had to iron out how we wanted to go about doing things and stuff in the beginning but once that was smoothed out, we got on with it and it was fun. With our first album, our ill-fated first album, we were always scanning the radio hoping hear our stuff, and we'd always hear a song called "Playing To Win" by the Little River Band. It sounded unbelievable and it turned out that he (Spencer Proffer) had done that, so when it came time to do our new stuff we contacted him. He called us back right away and said he would do it.

Chris: Tell us a little more about the "ill-fated" first album?

Ken: Oh boy, it was done for a label called Total Experience, which was an R&B label that wanted to expand into rock. We were the guinea pigs. They had good intentions and all, but as it turned out they didn't know anything about rock records, and it suffered accordingly. (Laughs)

Chris: Where did you get the name Prophet?

Ken: I wish I could give you some deep, insightful reason for that, but actually it was taken off a book's binding that Scott saw some years ago and he thought it would be a cool name for a band. We've gotta come up with a deep meaning though, it's just too boring. Another thing we need to clear up by the way is that we aren't a religious band. People seem to equate religion with the word "prophet". I mean people like Edgar Casey and Nostradamus didn't really have religious ties. So let's clear that up.

Chris: Any last thoughts you want the people to know about or any band philosophies that keep ya goin'?

Ken: Oh, it's too early in the day for deep thought, (laughs) but yes I do have something I'd like to say and that's just to listen to the record before you judge the band and I'm sure we'll see ya when we're around.

You can hear Prophet's latest release "Cycle Of The Moon", on Megaforce/Atlantic Records, and on tour real soon. Thanks to Phil Hardy for everything and special thanks to Kenny Dubman for the great talk.

A major anti-apartheid concert is scheduled for London's Wembley Arena on June 11th. Dire Straits, Whitney Houston and Simple Minds have already agreed to perform, and other acts are expected to follow. **Jim Kerr** and his band Simple Minds are organizing the concert, which will benefit children in South Africa. He says people should unite to secure the release of African National Congress leader Nelson Mandela. "It's not enough just to stand back anymore and go 'tut, tut, tut.' He's been in jail for 25 years now. It's not only a campaign that's in Britain, this has been a worldwide campaign," Kerr says. "Public pressure always makes a difference. We have absolutely nothing to lose." Kerr says Houston will interrupt a tour to play the London date before going to Europe. It will be the first appearance by Dire Straits in some time, Kerr says. "Ourselves, we are in the middle of recording a new album, and to be very honest, it's the very last thing we need. But I'm also show that as the months and weeks approach, there will be bigger names coming in." Kerr says recording of the new Simple Minds has just begun, but he doesn't know when it will be released. "At this point, it sounds pretty highly charged to me," Kerr says.

The Fine Young Cannibals will have an album out this summer, but the one-off single by Two Men, A Trumpet and a Beat-box, "I'm Tired Of Getting Pushed Around," will be released in the U.S. sometime in May.

IRS Records has signed the thrash/speed metal band **Nuclear Assault** from New Jersey.

Timbuk 3 is working on five videos for their album "Eden Alley," which will be released on April 18th. Excerpts of the videos and a planned press kit may be put together for a home video. At the Austin Music Awards, the two members of Timbuk 3 played with other musicians for the first time ever. They played a few songs with local reggae band the Killer Bees and Austin accordionist Ponty Bone.

The Grateful Dead won five Bammie awards at the 11th Bay Area Music Awards in San Francisco. The band won for best album of the year, best guitarist, best bass player and best drummer-percussionist. **Jerry Garcia**, as well as being named best guitarist, was also named Bay Area Musician of the Year. **Neil Young** was named best blues-ethnic artist, **Starship** won for best song, and the **Doobie Brothers** were given a special award for raising \$1 million for charity during their reunion tour last year.

The Doobie Brothers' reunion album will be the first for Capitol Records. "Initially, we were going to do the record at Warners, but there seemed to be a distinct lack of enthusiasm from certain key people over there," says guitarist and vocalist Tom Johnston. "After everything dragged on and on, we just decided to go somewhere else."

Jerry Harrison says one of his favorite tracks on the new Talking Heads "Naked" album is "Ruby Dear," which he described as a "Bo Diddley-type song" recorded with a percussionist from West Africa. "When he arrived in the studio, I couldn't figure out where his instrument was. Then I realized he was wearing it," Harrison says. "He had on these incredible leggings made out of dried bean pods. So he'd dance around the studio and they'd sound like huge shakers."

Surf rockers **Lawndale** is breaking up, after the departure of guitarist Jack Skelley.

Scottish band **Heavy Pettin'** has broken up. Lead singer Hamie says he'll be moving to Los Angeles. "I've got lots of contacts there and I'll put a band together," he says.

The people at **Wang Laboratories** say they're not offended that MTV is making fun of their television ad campaign in a new promo being aired on the video channel. Wang's advertisements feature executives telling colleagues, using highly technical language, how they won over a potential client. MTV's promo features an "executive" pacing back and forth in front of a "boss," telling him how he won over a viewer who couldn't find anything to watch. "I said, 'Look, you've got UHF, you've got VHF, you've got VHS. Spring for the CATV to put on MTV and you can watch U2, INXS and REM.'" The tag line to the 30-second announcement says "The Best New Videos With Just A Splash Of Idiotic Jargon." A spokesman for Wang says the parody is "great."

Bob Dylan's "Hearts On Fire" movie won't make its debut in your local theater. It now looks as if the film will go directly into home video release.

ZZ Top is helping out efforts to raise \$1 million for a Muddy Waters memorial exhibit at the Delta Blues Museum in Clarksdale, Mississippi. The band is lending its name to efforts to honor what the band calls its "spiritual leader."

A group of composers and musicians has complained to Britain's House of Commons that illegal private taping of records is costing them \$120 million a year in lost royalties. They want the government to impose an 18-cent charge on blank cassettes in the Copyright bill now pending in Parliament. The entertainers delivered a music video to Trade Secretary Lord Young. In it, singer Miriam Stockley sings, "You know we tape from the radio, but it's so wrong, that we can't pay the man who writes the song." Composer Roger Greenaway charges the government is "tacitly approving the theft of my intellectual property." It's estimated that in Britain, for every record sold, more than two illegal copies are made. It's estimated that 90 percent of blank cassettes sold in England are used for copying. The composers fear that compact discs will make the problem even worse. The \$12 million a year that the levy would raise would be distributed to songwriters. The levy would legalize home taping while satisfying the composers, the musicians say.

Bruce Hornsby & The Range will have a new album out on May 3rd, called "Scenes From The Southside." Bruce Hornsby and his brother, John, wrote all of the original material for the LP, which is said to deal with Bruce's adolescence in Virginia. Hornsby's album from last year, "The Way It Is," sold over two and a half million copies.

Westworld's "Sonic Boom Boy," which was a top five in England last year, is just being released in the U.S, accompanied by a video directed by Jeff Wanfer who has worked on clips by the Tubes.

Almost two years after it was recorded, Ireland's Self-Aid concert is being released in the U.S. Called "**Live For Ireland**," the album will be followed by an hour-long concert television special, taken from the May 17, 1986 concert where thirty Irish bands performed for 14 hours. Profits from the U.S. release of the album will go to the Self-Aid Trust, which seeks to deal with Ireland's unemployment problem.

Metallica hasn't decided on a title for the album they are currently recording in Los Angeles with producer Mike Clink, who worked on Guns 'N Roses' LP. The album should be out in mid-June.

Dana Strum, drummer for Vinnie Vincent's Invasion, is producing the debut album from Rated X, a Florida band. Strum is also involved in E-Z-O's next album.

Tom Werman is producing Poison's next album.

John Brannen, who is currently on a club tour of the U.S., says his debut album, "Mystery Street," was influenced by his years growing up in South Carolina. "My grandfather and I

would sit on the porch at night and he would tell tales inspired by the pirates and voodoo of our local history. He would also recite passages from Tennyson and Longfellow," Brannen says. It was during those days that Brannen taught himself the guitar. "I have a whole grab-bag of musical influences, Presley, spirituals, calypso...really everything from classical to Muddy Waters." Brannen's band includes Warner Hodges, who had been with Jason & The Scorchers.

Bruce Cockburn will receive a citation from the dean of the Berklee School of Music in Boston, in recognition of his contribution to music as a former student. The presentation will be made at the school's Performing Arts Center between two Cockburn shows.

Iron Maiden's Bruce Dickinson has written a novel, called "Mistaken Identity." "It was written on hotel notepaper," Dickinson says. "And I found the time to finish it when we were on our tour of Japan." He says a London publisher has taken an option on the book.

Judas Priest has completed work on their eleventh album, "Ram It Down."

The Cult is now back to being a three-member group, following the departure of Haggis, who joined the band before their last tour. He's now left the Cult and has formed a new band called the Four Horsemen. "I'm tired of inflated egos and the homo-mentality spreading through English bands," Haggis says. "Now I have a band where the music comes first." Ian Astbury and Billy Duffy note, though, that Haggis was never a permanent member of the Cult, and hadn't appeared on any of their records. Drummer Les Warner has left the group "due to a number of differences, including the band's relocation to Los Angeles." Jamie Stewart will be playing bass as the band gets a new drummer before starting work on a new album in May.

BRIT-PICKS Albums:

"The Story Of The Clash" by The Clash (CBS)

Although the punk of ten years ago is normally credited most to the Sex Pistols, it was The Clash more than any other band who kept the passion and rage alive. The Pistols were barely worth more than one album - "The Swindle" was really Malcolm McLaren sneering that the whole thing had been a con - but The Clash took it all seriously, so much so that they actually disobeyed the punk ethic by putting out a double album, and then a triple! By this time the band was bloating out. But they were one of the original punk bands who experimented, progressed and put out some damn fine tunes in the process. This is an admirable collection spanning many different moods, from the raw, unproduced punk of "Janie Jones" and "White Riot" to reggae experimentation ("Bank Robber") to jumpy, more accessible commercial hits like "Radio Clash" and "Rock The Casbah". It's true that some of it sounds dated - but it's a useful reminder of what we have lost and gained - should sound good on CD.

"Raintown" by Deacon Blue (CBS) (AGAIN!!)

It was ages ago when I recommended this debut album from Glasgow's finest. I had almost begun to lose hope that CBS would ever release this domestically in the States, or that this very gifted group would receive the transatlantic success they deserve. Anyhow, I was delighted to hear that you can now get your paws on this in the U.S. and that so many stations have added it. Thrill to the title track, "Dignity", "This Town" and the new single on this side, "When Will You Make My Telephone Ring?". Rickey Ross is a songwriting talent to reckon with - even if I do suspect him of taking Paddy Macaloon lessons!

UK MUSIC NEWS

U2 Manager **Paul McGuinness** and **The Hothouse Flowers** were two of those honored at The Irish Music Awards, held at Dublin's National Concert Hall in the Irish Republic. The awards were sponsored by the national radio and TV network, RTE and televised throughout the country during prime time. The results were: Best Irish Female Artist, **Mary Black**; Best Irish Male Artist, **Chris deBurgh**; Best Irish Group, **The Hothouse Flowers**; Best Irish New Act, **Cry Before Dawn**; Best International Male Artist, **Michael Jackson**; Best International Female Artist, **Madonna**; Best International New comer, **T'Pau**; Best Traditional Folk Act, **Clannad**; Best Irish MOR/C&W Artist, **Daniel O'Donnell**. U2 and their manager **Paul McGuinness** were given a special award for his outstanding contribution to Irish music. He was presented the award by longtime friend and ally John Sheehan general manager of CBS Eire and Chairman of the Irish IFPI group, which organized the event.

U2 is currently in the studio rehearsing new material that they plan to record in Los Angeles. While in Hollywood they will supervise the finishing touches to "U2 - The Concert Movie", directed by Phil Joanou and produced by the band - as previously reported in "The Hard Report". Apart from this there is also 114 minutes of concert footage shot in Arizona, in the can. The next U2 album is expected to be released around October, and according to sources close to the band it will be a double one half consisting of concert footage, while the second record will be brand new studio material. Lead singer Bono is currently displaying some of his photographs at The Hendricks Art Gallery in Dublin. They are all photos from a trip he took to Ethiopia in 1985 with his wife Alison, when they did some voluntary work for Action Relief. His framed and personally signed photos are on sale for approximately \$2,000 each, with all the money going to charity. U2 also won a staggering 13 categories in the readers' poll for "Rolling Stone" magazine, including Best Band, Best Album, Best Single and Best Singer.

Dire Straits will reform for what has been claimed as their only show this year and appear alongside **Whitney Houston** and **Simple Minds** at Wembley Stadium, June 11th - the 70th birthday of jailed South African activist Nelson Mandela. Whitney Houston will interrupt her world tour to appear, while Simple Minds will break off recording their new album in Scot-

land. In addition **Hugh Masakela**, **Sly and Robbie**, **Miriam Makeba** and **Maxi Priest** have all announced their participation, with many other names expected to swell the ranks within the next few weeks. The concert is being organized by Britain's **Anti Apartheid Movement** with the full support from the family of Nelson Mandela, according to "Sounds". Dire Straits only appearance this year is expected to generate particular interest and television rights are already being sought for the event. Designers Fisher-Park are working on a spectacular stage set - they have previously worked for Tina Turner, Peter Gabriel and George Michael and also built the giant "Wall" set for Pink Floyd. Already the British music press is referring to it as the most newsworthy event since Live Aid in 1985: Rock music has already often focused on the issue of apartheid, with records like "Sun City" in the U.S. and The special AKA's "Free Nelson Mandela" and The SWAPO Singers' "Wind Of Change" in the U.K. More details as I receive them.

Also announcing a major festival in the UK, **Amnesty International** will hold a big show at a stadium at Milton Keynes in the English midlands. Although details of who will actually appear are sketchy at press time the following have "pledged support" for the concert: Robert Plant, Van Morrison, Marillion, Big Country, Julian Cope, Motorhead, The Proclaimers, The Bhundu Boys, Aswad, Curiosity Killed The Cat, Wet Wet Wet, Chris Rea, Go West, Then Jericho, Jimmy Cliff, Howard Jones and Deacon Blue. The concerts have been tentatively scheduled for June 18th and 19th.

Feargal Sharkey releases his second solo album "Wish" on March 28th. Recorded in Los Angeles late last year, the album has ten tracks including the current single "Out Of My System". Other tracks featured include "Please Don't Believe In Me" which was written by Eurythmics Dave Stewart and "More Love". Former Rolling Stones guitarist Keith Richards is among those making a guest appearance on the album.

UK INDUSTRY NEWS

1987 was the best year yet for album sales in Britain with 144.8 million albums sold, a huge 14.5 million more (or 11%) than the previous record set in 1986. Cassettes accounted for 74.4 million sales (51%) compared with 52.2 million LPs (26%) and 18.0 million compact discs (13%). In 1986, only 8.4 million CDs were sold. With album sales up so dramatically and single sales dropping by 6% to 63.4 million, their lowest level since 1974, last year was the first time ever in which album sales were topping singles by a ratio of more than 2 to 1. Nevertheless, Britons still buy more singles per capita than any other nationality in the world and the structure of radio in the UK means that the music business still regard the 7-inch single as their most important promotional tool.

Britain's House Of Lords are considering the legitimacy of producing and marketing twin cassette decks. The hearing in the UK's most powerful court is the culmination of four years of legal battles between the British Phonographic Industry (equivalent of RIAA) representing the interests of record companies and music publishers and the hardware manufacturer Amstrad with the large retail chain Dixons. As you might imagine the BPI regard the twin deck tape machine as all active encouragement to consumers. Dixons deny the allegation insisting that they make the copyright laws very clear to their customers. It is considered an important case: if the outcome is in the BPI's favor, they stand more chance of pushing the long sought copyright restrictions through Parliament here, which would actively restrict such equipment and attempt to introduce a blank tape levy, which has previously failed to be considered by the current Government. If however the case goes Amstrad's way then the whole question could be thrown wide open. The hearing was expected to conclude on Friday 25th March.

The amount that the UK industry earns for Britain in overseas sales cannot be accurately assessed the British House of Commons has been told, according to "Music Week". Responding to a Member of Parliament's question, Trade And Industry Minister Francis Maude said he could not define the earnings from foreign royalties, but he added that last year sales of UK records and tapes overseas were estimated at 264 million pounds.

Britain's television companies are under attack for not providing adequate coverage of the pop and rock music scene, with rock and progressive music being particularly ignored since the axing last year of "The Tube" (Channel Four) and "The Whistle Test" (BBC). Former Tube producer Malcolm Gerrie has accused the people who run British television as being "out of touch" in providing a chart only format. At their sales conference, CBS managing Director Paul Russel warned that the decline of music on television is going to mean artists having to work harder to maintain their profile. Although stations like Music-Box and MTV Europe originate in the UK, satellite and cable TV is only in its infancy in Britain, and such music stations are instead subscribed to heavily from continental Europe, thus leaving regular British TV to fill the gap.

Official announcements have been made by WEA, CBS and A&M supporting the introduction of the three inch CD. Sony is also unveiling its first "portable" player made exclusively for the three inch CD. The unit will be available in stores this June.

CAUGHT IN THE ACT, Sinead O'Connor, Sadlers Wells Theatre, London

I saw Sinead live late last year supporting INXS at the Hammersmith Odeon which for various reasons was a disaster: Bad timing - the first concerts ever for the young nervous performer - Wrong band; British INXS fans at any rate want kick ass rock, not a bald Irish girl singing about Troy - and wrong

venue - Sinead's intimate music sounded characterless and hollow at The Hammersmith Odeon. By contrast Sadlers Wells is an old world theatre, just the right size to accommodate her small army of London fans (she has not had the radio exposure here as she has enjoyed in North America where her "Lion And The Cobra" album became "The Hard Report's" "No 1 alternative album). Looking decidedly happier at this concert, Sinead looked genuinely relieved at receiving the rousing confidence from her first number "Drink Before The War" and then she proceeded to play virtually the whole album. Although she is by no means totally immobile, O'Connor does not move much - she grabs the mic in its stand and sings - she bends her knees a bit, cleverly positions the mike so that it's slightly too high for her and peers out at you with strange, little girl lost, dark blue eyes. A female Peter Gabriel or a Kate Bush she certainly is not and I fear that her North American shows may have been over-hyped. It was a pleasant intimate performance, although I have several criticisms: She seemed to be engaged in a continuous conversation with her soundman, walking over to him between numbers and giving him an average of three to four hand signals per number, which became especially tedious during more sensitive songs (actually the sound was fine and only seemed to produce feedback immediately after she'd given him an instruction). And I was not the only one, judging by the mutterings of those leaving at the end, who was disappointed that she did not perform "Troy" - while she played a truly dreadful song for shock value only called "Ass In Your Face" and "Mandinka" twice! O'Connor has one of the most tremendous female voices on offer at the moment and her skills as an album maker are astonishing. Although her live sound is album perfect she lacks the presence, showmanship and maturity to put on a really great show, but it was an enjoyable show nevertheless for what it was.

BRIT-PICKS Singles:

"I Won't Feel Bad" by Simply Red (WEA)

Neither will the listener, another great sound from the gifted stable of Hucknall and Co. Funky, soulful and addictive, should not be ignored by those stations who've played the band to date.

UK CHART SURVEY

"Days Of No Trust" by **Magnum** has just entered the "Hot Metal" (AOR) charts at number one, while **David Lee Roth's** "Skyscraper" holds the Hot Metal albums, as published by "Sounds". **Erasure** holds both top positions in the indie charts. Their album "Circus" and their single "Ship Of Fools" are both on the Mute label. "Who's Better" by **The Who** enters the rock home video charts at 2; a new compilation of some of their greatest live performances from "See Me Feel Me" at Woodstock to their (ha!) farewell tour in 1982. Entering at 1, the best selling rock video is "If Looks Could Kill" by **Heart**, at last finding success in Great Britain after many years in the wilderness. The re-released "I Fought The Law" by **The Clash** enters the new singles charts at 29. "Can I Play With Madness" by **Iron Maiden** is the highest new entry, entering the top 100 at 4! Some soft reggae lovers rock from **Aswad**, "Don't Turn Around" becomes the surprise new number one single. Aswad is Britain's most consistent and well-loved reggae bands, and although they are capable of much stronger material than this (that could match Black Uhuru and Third World) nobody deserves this success more than this gifted band who has been struggling commercially since their formation in 1976. "Don't Turn Around" was composed by Albert Hammond and Diane Warren, originally for Tina Turner's "Break Every Rule" album, but was considered sub-standard by Ms. Turner's advisors and was only used as the flip side to her "Typical Male" single in September 1986. "Don't Turn Around" is the second British number one composed by Hammond/Warren in a year, following Starship's "Nothing's Gonna Stop Us Now" ten months ago. Plenty of activity in the top five albums this week. Coming straight in at 5 "From Langley Park To Memphis" by **Prefab Sprout**. Up 2 to 4 "Hearsay" by **Alexander O'Neal**. New at 3 "Naked" by **Talking Heads**. Holding at 2 but remaining the best selling CD "The Best of OMD". "Viva Hate", the first solo album by former Smiths singer **Morrissey**, enters the top 100 albums at number one this week! "Viva Hate" easily outsold all rivals, selling 70,000 copies in a week. (Ironically "Naked" features former Smith Johnny Marr guesting on four tracks). The Smiths released seven albums, but made the pole position only once, though they had four number 2s.

March 25, 1988

Pam Edwards, KGB, San Diego

Sting graciously spent a lot of time with us on the air yesterday prior to his show. The conversation ranged from him relating how he was a strict parent to his thoughts on how Jesse Jackson would make a very good president. This is one guy who really seems to have his life and his career completely together. The show was tremendous. Sting's use of video screens was the best I've seen at any show. As Sting himself says, there are a lot of great singers but no one who can sing like Sting. Many thanks to Sting and Bradford Marsalis for the interviews and to Sue DeBenedette at A&M for setting up all up.... We also had a chance to speak with bassist Eddie MacDonald of the Alarm this week. Look for the Alarm and Dylan to hit the concert trail this summer. I can't wait to see the audience mix at those shows.... The Smithereens pare down their songs to the basics and make hits like they did in the 60's. "Only A Memory" is simply a great song.... And finally, we now move into phase two for White Lion. Here's a band that AOR has taken past gold, and the platinum level awaits them with "Tell Me". We think it's going to be a bigger smash than "Wait".

Erin Riley, WMMR, Philadelphia

I guess I have to consider myself a hardcore Cheap Trick fan. Through thick and thin, (and obviously this band's been thru it), I have attended everyone of their shows that came within a hundred mile radius of me. I got pretty psyched when I heard that Tom Peterson had rejoined the band and was anxiously awaiting their album. Needless to say, I am not disappointed. Robin Zander is singing better than ever, the band sounds tight and I hear that famous 12-string bass. All I can say is that I hope they have a year like Aerosmith is having.

Lin Brehmer, WXRT, Chicago

How can a guy who grew up on the east coast, who now lives in the midwest find himself living on west coast time? Don't worry about it, it's my problem.... Spring training report from Chicago. Semi Twang makes the big squad after a couple of years at Double A in Wisconsin. Hits for average. Good power. Will play first base full time.... Pat McLaughlin: Journeyman and fielder. Has always played stellar defense in Southern Leagues. Batting coach, Allen Toussaint expects him to hit .280 - .290.... Joni Mitchell: Veteran starting pitcher has good stuff. Reliable in pressure situations. Devastating change-up.... Morrissey: Slugger with serious emotional problems, reminds us of Richie Allen. Just let him hit and leave him alone. Will deliver 25 homers minimum.... The Mission U.K.: Middle reliever with intimidating presence on the mound. Likes to throw inside. Challenges batters.... Future all-stars: The Bears and the Smithereens. The Bears: Excellent speed. Lead off spot likely. Led the league in doubles and stolen bases last year. Smithereens: Rookie Of The Year in 1987. Plays touch on the road. Heavy lumber will make them contenders for home run crown.

Mike Marrone, WHTG, Asbury Park

The Dancing Hoods did really well here with the last album - we played "Pleasure". "Baby's Got Rockets" is one fine song that we'll go right out of the box on!... ISM's "Nightmare At Noon" is exploding as the #2 Most Requested song for the second week in a row.... "Salty Tears" from Semi Twang goes into light rotation and it looks like producer Mitchell Froom has himself another winner. I have a feeling this will be showing up at a lot of AORs very soon.... Even though so much has been said about the new Morrissey record, I must get my two cents in. Big Steve ousts The Church from the #1 power position after two weeks with #1 requests by a large margin; #1 sales too! Could it be that Morrissey is the next alternative artist to break mainstream and all I can say is that it's about time!... The Mission U.K. moves to power with "Tower Of Strength"! If I were Andy Rooney I'd say, "Doesn't it make you sick when the American label chinces out on an album jacket? (I hate when that happens)". Anyone who has seen the import copy of "Children" will certainly see why Andy could be working himself into a lather.... Wire's "Kidney Bingos" is now in power. It's just so great!... Thank God I'm not too late for Big Dipper's "All Going Out Together". I felt like a real ass for missing this off

of their album, "Heavens" on Homestead Records. This is another one of those tunes that sounds fabulous on the air. Great hook, great song. They must be putting something in the water in Boston these days, the new Athens!... Joni Mitchell's new album should not be ignored by alternative radio. She's always done well here, and as usual she takes chances on her new album, "Chalk Mark In A Rain Storm", with guest appearances by Peter Gabriel, Tom Petty and Billy Idol of all people.... The Gun Club's "Lupita Screams" moves to heavy rotations as we look forward to co-sponsoring the first date of the U.S. tour.... Peace, love and have a nice day, Spike.

Carter Alan, WBCN, Boston

WBCN's 20th Birthday celebration continues. In addition to the lunchtime concerts and broadcasts that I mentioned last week, we've also had some great artists on the air for interviews. Thanks to Mike Peters from the Alarm, Rolo from the Woodentops, John Brannen, the Godfathers, Carl Palmer from 3, the Fabulous Thunderbirds, Greg Kroll, James Taylor, Big Pig, and Barrence Whitfield for their visits or calls.... In new music, the Mission UK is a giant step forward, with John Paul Jones teaching this already veteran band some new tricks.... Ziggy Marley's got his father's pipes and a new Lp that should bring hot reggae sounds back to rock radio.... Also the Church Lp is doing very well at 'BCN, and "Milky Way" is a beautiful cut that's pulling in lots of positive phone action.

Jim Steel, WIOT, Toledo

Better rotation will tell us if Balaam And The Angel really has the goods so we up the band to Heavy to put it to the test.... Bruce Springsteen "One Step" goes into Power because it has a very, very slow burn and the market is getting swept up in the tour excitement just like the rest of the country.... The new Honeymoon Suite is very tasty and should get an add next week.... The Kings Of The Sun should pop next week as well. It has a real great sound that I can't wait to get on the air.

Paul Marzalek, WMAD, Madison

I'd like to thank all the record companies for sending us all those 12" and CD singles. I just sold them all for a nickel a piece and put a down payment on a BMW. Keep 'em coming, gang, I'd like to vacation in England.

Doc Phillips, KPEZ, Austin

Z102 served as the official news and information station for the South By Southwest Music And Media Conference And Music Festival which was a rousing success in Austin March 10-13th. Over 400 bands from across the country participated in the festival performing at over 26 clubs over three nights. Part of our job was to sell the \$10 passes to gain entry to all of the clubs. The passes were sold out by Saturday night. One of the highlight shows featured Boston's Scruffy The Cat, New Orleans Dash Rip Rock, and Austin's own Wild Seeds. Over the weekend spotlight focused on the Austin Music Award show. Another attendance record setter with great performances by Timbuk 3, Killer B's, Darden Smith, True Believers with Ronnie Lane and Richard Lloyd, and a strong set from Austin's musician, producer, male vocalist of the year, Joe Ely. Z102 broadcast from backstage at the awards and all over town during the festival. We also had a great album release party and concert with Will and the Kill. By the way, thanks to MCA's Bubba Wayne and John Procter for the Fender Stratocaster and to Sound Warehouse. We also had one hour "Sound Of Our Town" specials with band of the year, The Reivers and also with Lyle Lovett. Also congratulations to our friends at the Austin Chronicle for putting it all together. In only its second year, the South by Southwest has become an important and valuable musical event. So make plans now to come on down next year.

Catfish, WHMD, Hammond

WARNING, WARNING, WARNING! WHMD accepts music calls 2pm to 5pm Central Time Monday thru Friday. Have you ever been behind a mixing board, executing a format, maintaining a music log, commercial log, operations log, cueing up records and CD's, conducting on-air contests, pulling wire

copy from the AP printer, all the while trying to sound relaxed, entertaining and informative? Working on the air is no cake walk, it's more than enough work for one person to perform at any given time. Music directors who also work on the air, have two jobs to do. Please, don't expect us to do two jobs at once! We cannot take music calls while we are on the air. I have never refused a call while I was on the air, but polite reminders at the end of the calls have fallen upon deaf ears. Some record reps know and only call during hours specified but others only call when I'm on the air, we don't call you during your industry conference calls, so extend to us music directors the same courtesy. Walk a while in my shoes, fair enough?

Joe Anthony, KISS, San Antonio

Priorities are priorities but **everyone should be on a good record and Greenway "In The Danger Zone" fits the bill. In spite of and despite, don't let this one die. It's a winner. Iex Lifeson of Rush on guitars and Aldo Nova on keyboards, good vocal from Bryan Greenway but then don't take my word for it listen to it, make my day.... The Godfathers. (Shame on you, Atlantic, get workin' on this one).**

Ron Garrett, KRXQ, Sacramento

The highlight of my musical week was hearing the new Cheap Trick record "The Flame". Thirty seconds into the track I knew Cheap Trick had an OTB multi-format monster, 93 seconds in I wrote this crusade. **Welcome back boys, your time has come. It's the payback for giving so much and influencing so many. Innovation doesn't always come in obvious forms. Without further hesitation, take a moment to consider The Adventures "Broken Land". Think of the potential for U2's massive audience. To be captivated by this beautiful music and thoughtful lyrics. Yes musical audiences can be shared, just like radio station listeners. Spend a romantic evening on the "Sea Of Love". The feeling is warm, dark, and supernatural.... The song is Mission U.K.'s "Tower Of Strength". The producer is John Paul Jones, the choice is yours. I made mine last week with an add.... The Bears, a band whose time has come in the form of the most infectious, upbeat number to come out this year. Adrian Belew is a genius who found it in his heart to give us something we can play for the consumer world of mass appeal radio. In doing so, his genius stands out more than ever. Want a gold record, jump on this like a kangaroo in heat.... The Kings Of The Sun "Serpentine" can't miss. The power of straight forward rock and roll from down under.... It's great to see Atlantic Records make a commitment to Prophets's "Sound Of A Breaking Heart", the sound of breaking an act.... Speaking of breaking acts, Kings X could be the next biggie for the Megaforce team.... Thank you Joni Mitchell for sharing your beauty with me. I pass the love on everyday.**

Phil Manicki, WWCT, Peoria

Thanks to Mark Wescott at Columbia for the Springsteen show! An acoustic version of "Born To Run", Elvis plus much more was enjoyed by a whole busload of WWCT listeners.

Christina, WPLR, New Haven

Tracey Chapman's "Fast Car" is simple and powerful. You should play it!

Kidd Redd, WKDF, Nashville

WKDF is really excited because we just started our spring promotion. We're giving away \$150,000 in cash and cars, which includes a guarantee to our listeners that we will give away 20 Toyotas.

Mike Michelli, WONE, Akron

Kingdom Come is getting major phones again this week prompting a "Living Out Of Touch" add to go with "Get It On". I get the feeling the younger audience is embracing this band as we did another similar sounding group almost 20 years ago.... Which brings us to Plant's "Tall Cool One". We simply cannot play this track enough. It's definitely what I like to call "A Four Legger".... Moving up this week Icehouse, Smithereens, David Lee Roth "Stand Up", AC/DC, 3, INXS "New Sensation", and Sting's "Englishman".... Tomorrow night

we're bringing in Thorogood and the Destroyers. The word for tomorrow night is survival.... I've gotta go now it's time to inject my lower lip with novacaine.

Mark Zeiger, KDXR, Amarillo

What a weekend! Thanks to the good people of KATT, Oklahoma City and most especially Louis Heidelmeier of Elektra, I was able to see the Georgia Satellites live. I may never be the same again. What a show and what a great bunch of guys! Almost as good as the show was breakfast the next day with Dan Baird, Muaro Magellon, Rick Price, Louis and KATT MD Scott Douglas. It wasn't exactly a rock and roll summit, but at times it felt like it. The concert confirmed what I felt about the Satellites when I first heard their debut Lp. They are one of the true bearers of the rock and roll flame. Anyone who feels that, this being almost the 90's, rock and roll needs to evolve and mutate in the direction of drum machines and synthesizers should go see the Georgia Satellites. They are taking the music given to us by Chuck Berry, Bo Diddley, Buddy Holly and Little Richard and expanding on it, creating music that is fresh and new yet still rocks steady retaining all of the spirit and fire of the original item. Thankfully there are still some bands around that are still doing that. I cannot wait for the new album.... Having said all that check our list and you'll see that we are trying out the Adventures "Broken Land". This was a decision before Louis called me and whisked me and my significant other to rock and roll heaven in OKC. The band is a bit of a stretch for us, but it sounds so damned good. "Broken Land" might possibly be construed as an out and out pop song but the Outfield did well for us and there are other examples. One or two of the staff are grumbling a bit but we're going to chance it and see what happens.

Patty Martin, KSJO, San Jose

I have a sneaking suspicion Kings Of The Sun is going to explode at radio and retail. Their kingdom shouldn't be limited to the sun for long. This one's got the rough edges that rock radio needs.... Speaking of rough edges, we started playing the Smithereens the day it came in and the listeners are responding very positively. We knew it was a smash; it's nice when the listeners recognize that quickly. too.... I still can't believe how great the Talking Heads Lp is, they've got that wonderfully warped way of looking at the world that I just can't get enough of. I'll be spending time with this one for a long time.

Jeff Robinson, WKQZ, Saginaw

It's great being in Saginaw because right down the road is a rockin' little town called Mount Pleasant. They've got this little tiny venue called "The Foolery". Their approach to booking bands is a lot like college radio. For the past two years I've watched the fruition of a band call The Toll from Columbus, Ohio. They have signed with Geffen and the album is due this summer. They're going to have Mick Ronson on guitar. It's great because this place always breaks bands like this. More small clubs should be concerned with the quality of the music rather than the saleability of it. Hence, the top 40 band syndrome. This band has gone from club band to viable album rock contender within two years. Look for it, you'll love it.

Mike Boyle, WDHA, Dover

Here comes a pretty bold statement. If you're not playing Tracy Chapman's "Fast Car", you should hang up your headphones. The hook is killer and it's just asking to be played over and over again.... Be sure to check out "Dancin' Clown" on Joni's new album. This is the track with Billy Idol and it works!... Do yourself a favor if you're on the fence with RCA's Kings Of The Sun, look at the video. It will make you come around 360 degrees.... Looking forward to adding "Fall Of Rome" from James Reyne. I've been singing it since I first heard it.... Thanks this week to David & Pat at Polygram for taking care of business.

Cyndee Maxwell, KWHL, Anchorage

Steely Dan fans love the new Donald Fagen "Century's End". It is so recognizable you can't help but like it.... We tested Kings

Of The Sun "Serpentine" and wow! What a response! It got the most calls of the night and everyone had a favorable comment to make on it. This is a hit record. And look at the video! RCA Federal Expressed it to my house Saturday so I could see what these guys looked like. And I'm happy to report that they are rockers. Kings Of The Sun start out in medium but I'm expecting them to move up sooner than the average track.... The Adventures "Broken Land" is another of my new music favorites who also get a shot in medium to start with.... Last of all, "Shock Of The Week" award goes to Toto (gasp!) for the song "Stay Away". Pretend that it's not Toto and you'll never know the difference. This song rocks.

Curt Cartier, KEZE, Spokane

Five stations in town playing Aerosmith's "Angel". You don't need to be a rocket scientist to see time for a change. "Girl Keeps Coming Apart" continues the "Permanent Vacation" party full steam ahead.... Kings Of The Sun "Serpentine" kicked my butt the first time I heard it, so like a good boy I turned the other cheek and did it again. Great gritty garage groove!... "Salty Tears" is very tasty from Semi-Twang and getting calls from upper demo men already. Watch out, Pat Dinizio's goatee could be the biggest things in bars since the leisure suit.... No worries we're tossing "Only A Memory" into heavy.... Savoy Brown still #3 phones (Top 5 going on two and half months) with "Just For Kicks". Take the same song and band with a different name like, say ZZ Top and you'd have a runaway #1 record.

Valarie Pittman, WRAS, Atlanta

For those who missed out on the last Throwing Muses album, I forgive you, but don't overlook this one. This band is incredible.... Joni Mitchell is back and college radio shouldn't be afraid to play this talented legend.... If Tracy Chapman's debut single is just a sample of the album, this could be the best new album and artist of the year.

Pam Brooks, WPDH, Poughkeepsie

Every so often there's an artist that seems to have lived in my head and voices my private thoughts, someone who captures a point in time and makes my heart skip a beat. So it is with Tracy Chapman and "Fast Car". To say she blows me away is far too simple. Here's to a mood that for me, at least, lifts right off the vinyl.... If it makes my hips sway, it's gotta happen. Well, my butt is bumpin', my knees are knocking and I'm getting down. It's become my new "Ritual". Check it out! Dan Reed Network is every AOR's Prince. We're talking energy and grabber vocals and we're going to have to carve a spot for this mother real soon.... Smithereens are already getting such strong phones and local record outlets are reporting lots of requests, that we've upped "Only A Memory" to medium with visions of more moves to come. Again the power of playing in an area. This band has come through the Hudson Valley quite a few times and their cult has grown and grown. It always helps to expose your listeners to great live music and the Smithereens fit the bill.... Well, finally WPDH can add can add its support to Balaam & The Angel. Yes, indeed "I Love The Things You Do To Me". Morning, noon and night, seven days a week and if you can't, I'm happy to live with this record. It's not as warm as you, but it sure is hot!

Skip Isley, WWTR, Ocean City

By the way, Bud Prager does have a sense of humor!

Jeff Holbrook, WWCK, Flint

We're on a CD search for the new Beatles CD's just recently released on Capitol.

Mike Richter, KFMZ, Columbia

The surprise story for us this week is Paul Carrack. After two weeks, it goes to heavy.... "Damn Good" continues to build along with Henry Lee Summer, So and Johnny Hates Jazz.... This week we go with The Smithereens, Lynyrd Skynyrd and Deacon Blue. "Dignity" has nice upper demo potential, we'll see how it works.... Thanks to Al Carolonza from Warner Bros. for the support on our "Just Like A Pair O' Dice" promotion. It

twas too much fun.... We're still looking for a PD. Can you improve on a 20 share? Call us.

Caesar Ettore/Russ Ceccola, WKVU, Villanova

We were gonna be nice, but then we drank some of that chemically injected German beer (see Tankard's Chemical Invasion for details) and our evil twins emerged ready to hurl insults at so-called "manly" dialoguers.... Let's congratulate Metal Blade Records again. These guys are doing one hell of a job. Great album after great album, like: Nasty Savage, Sacred Reich, Candlemass, Sacrifice and the new Fates Warning advance tape (for those lucky enough to be one of Cheryl Valentine's 12 chosen disciples). What has gotten into this label, we don't know. Could it be the arrival of one Ms. Valentine into the Metal Blade offices, are the phones ringing off the hook just to get a chance to be mentally abused by Cheryl? Let's be realistic.... Called Roadracer the other day, John Bello answered the phone. One must wonder how poor John can work on a daily basis with that inferior loser Monte Conner. It must be pure hell. Anyway, have you heard Roadracer's latest gem Toxik. This band totally rules. How long they will be able to put up with that idiot Monte remains to be seen though. Best of luck to them.... Finally, what is a Rich Scroggs anyways?... Send all hate mail, threats and acts of violence to Megadon at Combat Records.... Until next time, remember your life could be considerably worse - you could be Monte Conner.

John Johnson, WKNH, Keene

Tankard's version of the Gang Green classic "Alcohol" is pretty cool. Kind of weird though hearing it sung with a thick German accent.... I've listened to the new Fates Warning a few times now and this is a hell of a cool slab of vinyl that all right-thinking, god fearing Americans should own.... I'd like to see some U.S. label pick up the "Radio Moscow" Ep which features ex-Diamond Head guitarist Brian Tatler.... An when is the Dan Danzig Lp coming out?

Bill Fischer, WJUL, Lowell

You know, the married life isn't that bad. Unfortunately, Clarissa isn't as subservient as I thought she'd be, but give me time. Anyways for the chores that she won't do such as getting my slippers or fetching the newspapers, I can always get a Montechihuahua to do it instead. For those who don't know, a Montechihuahua is a small balding Jewish dog that can only say in a high and squeaky Staten Island accent "Hey, buddy, who takes care of ya?" Boy, I hope Clarissa won't mind my new pet. I want to thank Rich Scroggs for predicting the bliss that Clarissa and I have achieved although I'm damn glad he didn't show up for the wedding. What would my parents think?... As for business congratulations go to Mike Jones for getting a full time gig in commercial radio hell at WGIR. I'm sure the first of many good things coming your way buddy.... The new Udo and Fifth Angel rule. Fifth Angel is already in my top ten, also the new Destruction album is causing many to sweat bullets already.... Finally, the new Crumbsuckers totally shreds. I personally didn't get into their first album that much, however "B.O.M.B." totally rules. Another fine Combat band.... Speaking of Combat, yo, Megadon, you should publish a book of your greatest adventures in Boston, New York and Philadelphia.... Anyways, I must go with the usual reminder that I'm invading the real world in May and any word on openings in promotions, management, especially tour management - please call.

Mike Gardner, KOAS, Kealakekua

Some good releases lately we're playing heavily: Talking Heads, Del Lords, Drivin' N' Cryin', World At A Glance, Smithereens Live, Connells, Henry Lee Summer, EIEIO, 3 and of course, Robert Plant. They've got meaningful lyrics and good music. Thanks to the artists and the companies.

Dewey McCafferty, WKNC, Raleigh

Major phonage for Judas Priest, Fates Warning and Kingdom Come as usual.... Also hot this week are Prophet's "Cyle Of The Moon", AC/DC's "That's The Way I Wanna Rock And Roll" and some "Funky Music" from Roxanne. Special hello to Mike

Jones, Peggy Donnelly and Cheryl Valentine.... Peggy, thanks for the Smith tix.... P.S. Wrathchild is god.

Mike Jones, WGIR, Manchester

Well, here's something I've been waiting to say, for some time now, I've been promoted to full time announcer here at Rock 101 on the 10P to 2 shift weeknights, effective March 21st. I'll still be hosting Whiplash on Sunday nights, but I'm currently in the midst of moving into my new apartment in Manchester kinda of thang so I'm a little unorganized right now, ie: freaking out, as the reps who have been calling me at the old place can attest to. Please be patient with me about adds and music for the next week or so while I try to find my phone amidst the rubble. If you need to reach me, call 'GIR during business hours and leave a message. Thanks a lot.

Jeff Ivan, KFMX, Lubbock

Saturday night the Whitesnake extravaganza pulled through town and delivered a fantastic show. This was the first sellout in four years and the first pre-show sellout ever in Lubbock. We did two in-stores with Rudy, Adrian and Vivian that over 1,000 kids attended. Tommy Aldrige is the greatest rock drummer around right now. Me and Rudy got to talking about his brother's band's latest release. We are both thrilled with the new Hurricane album. These guys are on their way to the big time. Remember there's no stopping a Hurricane.... The new Yngwie Malmsteen is quite refreshing. This is gonna be the big crossover album. Lots of great songs and Joe sounds very good with this band. This one is platinum bound.... Congrats to Noise for a couple more biggies. The latest from Tankard will bring down the house. Grab a few brews and get ready.... But for me Vendetta steals the show. These guys are gonna go places in a hurry. Jump on both of these and quick.... I must say that I am not crazy about the new Black N' Blue single. It just doesn't do anything for me. I guess I'll have to check out the rest of the album to see what it's got.... The reworked Fifth Angel album sounds great. It's got all the hooks, riffs, leads and guts that a great rock band needs; top five all the way on this one soon.... And finally, earlier in the year I was glad to see a great guitarist like Joe Satriani make it big and now comes another great one: Ronnie Montrose. Whenever I hear the name Montrose, I think legend and this is still true with his latest instrumental album. This is a very easy and tasteful album to listen too and I'm sure it's gonna be a biggy. Bring out more of these type of guitarists please.

Bill Evans, KTAO, Taos

What a great week for music! Not only does Joni Mitchell give us her most playable record ever, but a gem from Scotland shows up in the form of Deacon Blue! Definitely the thinking persons band of 1988 with a special CD only treat called "Kings Of The Western World".... But the record I really want to rave about is the most powerful song so far this year: Reuben Blade's "Calm Before The Storm. With a wailing drone guitar by Lou Reed and english lyrics, it's time for all of American radio to take notice of the man who steals the show in "Milagro".

Mentally Unbalanced Rich Scroggs, WWVU, Morgantown

In case you haven't figured it out, I've escaped from the Tipper Gore Institute For De-metalization, but not before they were able to do irreparable harm to my psyche. You can only listen to Perry Como so many times before your mind begins to slip and you begin to think homicidal thoughts. So I've been passing the time escaping police dragnets by tying up Girl Scouts and making them listen to the new albums from: Destruction, the Crumbsuckers and Blind Illusion. They're all wonderful albums. And the little girls scream and writhe about in such a wonderful manner, I recommend them to all of you.... I'm going to New York this week and I just wanted Monte Conner to know that his days are numbered.... By the way, a big Hard Report defamation league hello to Caesar. It's nice to see such an enterprising young man as yourself verbally abuse everyone who's important in this industry.

Richard Smith, WIXV, Savannah

We are all looking forward to the Aerosmith/White Lion show tonight at the Civic Center. Virgil and myself will both be broadcasting our shows live from backstage. George and everyone at Geffen have been very helpful and congratulations on last week's number one.... We had five days of sheer madness over the St. Patrick's week from which we are all still recovering. It was all-request radio from Wednesday the 16th until Sunday the 20th, and now we all have a few more gray hairs. The festivities went on and on as we broadcast live from our two I-95 Boogie Boats and partied all week.... Kings Of The Sun is an add this week as are the Smithereens. Both are good tracks.... We are also sponsoring the I-95 Savannah Slamma II Pro Street Style Skateboard festival Saturday and I have to skate with these guys. Godwilling, I'll speak to you next week.

Jon McGann, KFMX, Lubbock

It's great when something jumps off the turntable and screams to be put on the air. Such is the case with Kings Of The Sun and "Serpentine". Just a screamin' rock and roll track.

Alison Stewart, WBRU, Providence

10,000 Maniacs are at #1 phones again. This band is about to happen. Try 'em out.... The Talking Heads' album is being received well here. It's nice to hear them return to some more inventive musical ideas.... Hey, listen to Tracy Chapman. She is the best.... Finally, this is my last week here at WBRU. It's been an incredible two years but it's time to move on. I've been really fortunate to work with some amazing people here at 'BRU and the Boston promo community. Special thanks go to: Chuck Bliziotis, Liz Grove, Matt Pollack, Bruce MacDonald, Rick Mackenzie, Cledra White, Rick Winward, Joe Glass and a bunch of others who took an extra minute to get to know me. Hopefully, I'll surface somewhere in the record industry. Stay tuned. My replacement is Ted McEnroe. He'll be available on March 28th.

Mad Max Hammer, Z-Rock Satellite

Z-rock is playing Iron Maiden's "Can I Play With Madness" off an import. It's great. This album will make them even bigger than they already are.... The Yngwie Malmsteen and Joe Lynn Turner combination will shoot Yngwie into the forefront of rock and roll. I think the single is a great radio record, everyone should do well with this one.... Z-Rock was playing Dirty Looks' independent release called "In Your Face" and the new album "Cool From The Wire" keeps the momentum going for this band. Look for big things out of Dirty Looks.... Eric Steel is the sleeper record of the independent labels. The song "Wanted Man" is a definite hit record that everyone should take notice of.... Black N' Blue's "Live It Up" is a great radio song and I think it's time for Black N' Blue to make their mark. I think Gene Simmons did a good job producing them.

Kevin Kasky, WOUR, Utica

Watch out, here comes Fifth Angel! Some great licks here with the ability to let the listener know that it still holds a lot of power. Ardent and Mindwarp are neck and neck at the top of the charts. I even let the Ardent tracks take last week off on the Power Hour and I found out real quick that absence does make the heart grow fonder. Shit, my ears are still ringing from some of those calls.... Big gear-up underway for Helix this weekend, David Lee Roth next weekend with Faster Pussycat, Megadeth and Leatherwolf on the way.... And all the Power Hour sponsored shows. I'll have a big dent in my forehead after this trip that's for sure. On the beach (where I'd love to be). Oh, by the way, I want Kevin Seals' job on Headbanger's Ball, help me out! Later.

Mike Areford, WFYV, Jacksonville

Strongest add of the week: I have a tendency to think it's the Kings Of The Sun and "Serpentine". It's got a real nice feel and I think the audience will respond to it.... Also like AC/DC, "That's The Way". They're big here, so people will like just about anything we play. Meanwhile, "Heatseeker" goes to power with play in all dayparts but mornings. Top 10 phones and a real

consistent record.... Even though I lean toward hard rock, I can't get enough of this Sting album. Incredible music from a tremendous musician.... Deacon Blue has a cool, eerie quality. That's more of an experiment than anything but we do like it.... Moves: Balaam moves light to medium; some good phones. Joanne Dean to medium; #1 novelty phones. Seems to be just a rock and roll anthem for our female listeners, especially at night. Reminds me a lot of "Come On Feel The Noize".... The Church moves to medium, just a great song, and Joe Cocker's "Rivers Rising" is also up to medium.

Carl Scheider, KJOT, Boise

Strongest add of the week: Toto, "Stay Away". It's just got such a different song for them. Solid mainstream rock throughout and I think people are really gonna get off on it. That new vocalist is a big improvement.... Also new: King Of The Sun, Robert Plant "Ship Of Fools". If you want to get that sound that was on "Principle Of Moments" a la "Big Log", this cut is the place to start. Nice way to interest the upper demos in the album, those who thought "Tall Cool One" was a little frantic for those old bones.... We tested the Heads' "Flowers" and when that didn't work we had to find something with more of a rock beat to it and you can't get any more rock anthemic than a Bo Diddley type beat. "Ruby Dear" fits better with our sound. Maybe later we can get back to some of the other stuff.... You can tell the Smithereens listen to old Beatles stuff with the "I Want To Tell You" riff in "Only A Memory". I think that's a good hook. If you're going to rip off somebody, you might as well rip off the best.... Biggest mover of the week: INXS, "New Sensation". It surprised me that we moved into heavy so soon. It just vibrates for 3:58 minutes. Besides, we like to beat the CHR's and they're still killing "Devil Inside".

Charlie Logan, WYNF, Tampa/St. Pete

The Smithereens are now experts at combining strong guitar lines with a great melody. "Only A Memory" it's not, a current it is.... David Lee Roth's "Damn Good" is, well, just that. With the success of "Paradise" and "Stand Up", which we went with second, thank you, "Damn Good" will continue Dave's hitting streak.... Joe Satriani is so hip. It's like hanging ten or shooting the tube/slashing on a gnarly northeastern swell while reading Silver Surfer comic. Egod, I'm in heaven.

Joe Skare, KFMQ, Albuquerque

White Lion's "Tell Me" has had a good run on our Rock Wards program. With the other one top 5 phones for us for weeks following the success of "Wait", it gets the nod this week.... Ditto the Joe Satriani. Sales are good, and we can't keep it off the air.... Strongest add of the week: INXS. They've always performed well with a good following in the area. We've done well with "Devil Inside" and "Need You Tonight".... Almost added: Deacon Blue. I just think it's great, real smooth. We're real close, we just don't have room.... Guns N' Roses continues to far outdistance everything else as far as requests.... I like the Kings Of The Sun.

Redbeard, KTXQ, Dallas

Absolute Screamer: Kings Of The Sun, "Serpentine" is just terrific. Anybody who knows my ear could have predicted that.... Smithereens sounded a little basic on first listen, but I really like it now. I like "House We Used To Live In" even more.... The Adventures, "Broken Land" is gonna be a big, big hit. Wonderful people, too; good guys.... I was really pleasantly surprised (and can't believe) I'm actually picking an Yngwie Malmsteen tune but him and Joe Lynn Turner have a really good tune. I'm quite surprised.... There's something there in terms of the Mission UK's "Tower Of Strength". I have a funny feeling it will sound even better on the radio, and I'll try it out today.... Last but not least, the Glass Tiger "I'm Still Searching" is going to be a big hit for them. Thank god it rocks.... I've always felt that Robin Zander has a top flight voice and I have been disappointed when he screams instead of sings because he sings so well. This new Cheap Trick album gives him a real showcase for his singing talent.

Bruce McGregor, WRIF, Detroit

Strongest add of the week: I'd have to say Kings Of The Sun. I just love that good, butt shaking rock and roll and this one knocked me right out of my chair.... Behind that would be Semi Twang, and not just because I spent time in Milwaukee. I always like that kind of bluesy, boogie stuff. Love that twang.... Also new: Love the Bears. I guess when you go from "Fear Is Never Boring" to "Aches And Pains", it sounds to me like Adrian Belew has been dumped on by a lot of women. At least they wrote good songs about it anyway.... Added Satriani's "Surfing", the next logical cut. "Satch Boogie" did great for us. It's just been a long time since there has been good solid instrumental rock and roll you could play on the radio and this guy does it to the 9's.... Out of the box on the new Michael Bolton. Good power pop.... Flesh For Lulu twists my mind.... This Adventures record is a f**kn smash. Play this or you're an asshole.... Beginning to get serious nibbles on Great White's "Mistreater".... Big phoners on "Cherry Bay" and the Zodiac Mindwarp. At this point, it's close to top 10 phones.... Almost added: the new Bodeans track.

Jack Green, KLPX, Tucson

Strongest add of the week: Skynyrd is great for the format, but the Satriani is my personal favorite. I figure this is the one they should have come with initially, but I think this one will do a hell of a lot better than "Satch", and that did well.... I was skeptical with the Smithereens at the beginning but I spent some time with them and it sounds much better. To me, it sounds much better than the last record.... Midnight Oil is kind of slow but starting to build. I think the initial vocal reaction just takes a couple more weeks.... Joni Mitchell moves to medium. Starting to really come in on the phones and a lot of people are glad to hear her back doing her older type stuff.... The Church also moves up. Definitely starting to pick up, and we're getting quite a few calls on it.

Stephen Page, KOME, San Jose

Coming out of the box this week is "The Flame", the new tune from Cheap Trick. What a great song. Very nice.... Also something that perked up my ears is a new album by Kings Of The Sun. All the songs are terrific, but "Serpentine" really caught my attention. I think these guys are gonna be the big hit for the summertime.... Looking for a record with a little "dignity", might I suggest Deacon Blue. Great album as well as a great cut.... And finally, I'd personally like to thank all the members of Great White for releasing that great compilation of old tunes and standard covers which adds to our library. Sounds fine guys, keep up the good work.... Moves: Joe Sat's "Surfing" moves to heavy. Joe is like a major superstar around here, and the song's already #3 requested. They're having a hard time keeping the album in stock in the record stores.... Guns N' Roses goes to heavy. Great night time phones for this one, beginning to filter down to the daytimes. Good meat, an all around fresh sound for rock and roll.... Talking Heads moves to heavy. Instant curiosity response and sounds good in the daytime.... Added Roxanne's "Cherry Bay". I was digging these guys about a month ago. "Cherry Bay" is just another great piece of kickass rock and roll that works well when the sun goes down.

Doug Clifton, KBCO, Boulder

Congratulations to KILO 94 on their 10th Anniversary. Thanks to Rich Hawk for inviting me to come down and do a shift on the air. It was great being a KILO jock for a day! Special thanks to Kris Koenig for putting up with me during the midday show. It was wonderful seeing everyone and reliving the memories of the early days at KILO. Here's to another 10 years of success.... Two new records that highlight this week's music are Joni Mitchell and Tracy Chapman. Joni has put together a very impressive line up (Peter Gabriel, Don Henley, Ben Orr, Willie Nelson to name a few) on "Chalk Mark In A Rainstorm". "My Secret Place" is an obvious choice for us. "The Tea Leaf Prophecy" is another song that we'll use with "Lakota", "The Beat Of Black Wings" and "Cool Water" possibilities for future play.... Tracy Chapman's "Fast Car" sounds like a mix between Joan Armatrading, Grace Jones and Suzanne Vega, if that makes any sense. The lyrics are powerful and her voice hyp-

notic. I think KBCO will be spending a lot of time with Tracy Chapman in the future.... We featured Christy Moore on St. Patrick's Day and received some very good feedback. This week it's a full time add on "Biko Drum". This is a beautiful Irish folk album. Even if you can't play it, take it home and give a listen.... The Mighty Lemon Drops get the green light this week. "Inside Out" was on the "New Music Express" a couple of weeks back and now we're ready to give it a try on a regular basis.... A re-add this week on Willy DeVille's "Miracle".... Thanks to Geina and Jeffrey at Chrysalis for the Sinead O'Connor albums.... KBCO New Music Express: A Special St. Patrick's Day feature with music from "Live For Ireland" - Sinead O'Connor, The Pogues and Christy Moore.

Jonathan Rosen, Virgin Vinyl, KUPD

It's strange, as I was playing the Wild Swans "Young Manhood" on my show, I envisioned Howie Klein's smile spreading 500 miles long, from L.A. to Phoenix. When I first listened to it, I dismissed it as lint. Ah, but a second and third spin made me aware that "Young Manhood" materialized as a solid pop/rock hit bordering on that precarious fence of to be AOR, or not to be. Before it falls on the CHR side, AOR must make a decision soon. Either way, as Howie's smile broadens across the U.S.A., I'm sure he'll be a happy puppy, but he's gonna look mighty funny, don't you think? Another fresh new artist - no wonder why they call it Sire Records!

Ivar Hamilton, CFNY, Toronto

The Bears attracted well over 1,000 people when they played in Toronto for the first time last year. Now, with the release of "Aches And Pains", they will easily sell out when they return. You have to give them credit for those witty lyrics, too!... Glad to see Deacon Blue has finally been released. "Dignity" was a top request item for us last summer when it was on import. Hopefully, that success will be repeated this spring.... With the success of "Snakes And Ladders", it was no surprise to find that the Joni Mitchell album is an absolute masterpiece. This album is every bit as intriguing as when I first heard Robbie Robertson. It deserves to be massive.... Thanks once again to the Blue Rodeo and Atlantic crew for the show in New York last week. I'm still not fully recovered.

Don Berns, CFNY, Toronto

Many thanks to John Caton, David Merrick, and Blue Rodeo for arranging a trip to the Big Apple for Ivar and myself to see the band perform at The Bottom Line. With the Atlantic staff and a host of radio people in attendance, the group made a most favorable impression; the buzz the next day was quite strong, as it should be for this quality outfit. If you're not playing Blue Rodeo yet, don't miss the boat; they're hot!... Thanks to Marc Nathan, Jackie Tessman and the Atlantic crew for the tickets for INXS and PiL the next night at Radio City Music Hall. What a great venue. What a great show. Both groups were in fine form. (It was interesting to see the audience reaction to PiL; the experiment obviously worked). John Lydon has gone from being rock's angry young man to its clown prince and Michael Hutchence is not only a great singer, but also plays the sex symbol role to the hilt, which thankfully doesn't detract from the great job the rest of the band does.... Finally, to misquote a famous critic: I have seen the past, present and future of soul. It is Terence Trent D'Arby, who more than lived up to the hype at his sold out Toronto gig this week. Bringing to mind the likes of Sam Cooke, Otis Redding, and James Brown, D'Arby's show is far more than his sound on record. In fact, I would say that he has a long way to go on vinyl towards capturing the unbridled and joyous energy he exhibits on stage with a band that's every bit as good as the King Curtis/Memphis Horns aggregations that turned 60's soul into its own art form. He may have a (well deserved) reputation for arrogance, but there's no denying that Terence Trent D'Arby is a hit artist with amazing crossover appeal.

Paul Kriegler, KRCK, Omaha

Wire's "Kidney Bingos" is a brilliant song, one that alternative radio stations must make their staple, one that stands out for the pack.... Throwing Muses album "House Tornado" is dif-

ferent from their earlier music, and Kristin's voice is a trademark by now. My favorite track is "Colder".... The Woodentops move to power this week with three active tracks. It's a really strong album with lots to choose from.... I spent an afternoon listening to the Wild Swans in my car last week and I really like this album! What I heard, I liked on first listen.... Midnight Oil, what more is there to say. It has been a strong performer, sales and request wise. I'm looking forward to seeing them live.... Robyn Hitchcock's "Chinese Bones" is a strong request and still in power.... Morrissey's new album is my favorite album, making FIREHOSE #2. A breathtaking record! "Late Night, Maudlen Street" is just amazing and Vini Reilly's guitar work is so good, more intricate than Marr's.

Brian Jordan, WRUF, Gainesville

Went with King Of The Sun this week, pretty good stuff that is custom made for the format.... We also switched from Pat McLaughlin's "Wrong Number" to "No Problem" and it sounds great.... With only one week of airplay, Joe Cocker has nabbed top five phones, especially with our upper demos in the afternoon daypart.... Another big phone puller is the Lynyrd Skynyrd. With half our listeners living in the swamp you just know they are going to love this one.... The audience is also getting in line for the INXS track "New Sensation", a very strong track with lots of potential for the format.

Dan McClintock, WWRX, Providence

The Del Lords' track will work for the format if it's given a shot. It's a meat and potatoes sort of sound that should do well.... Jerry Harrison is starting to get some phones here and we moved it up to Medium this week as a result.... Paul Carrack's "One Good Reason" also moves up. Don't be left behind by Top 40 on this one, it's going to go all the way.... We are also looking for The Church to advance next week. It's always a crap shoot guessing who is going to successfully cross over but "Under The Milky Way" should do it for these guys.

Ty Banks, KQWB, Fargo

After being on "Heatseeker" for nine weeks, we have turned over to "Go Zone". It goes right into Heavy and gains top five phone status immediately.... The Kings Of The Sun are doing a great job of filling that Georgia Satellites void and they get nod this week.... The audience response for Def Leppard is still strong so we have gone on "Love Bites" this week.... Donald Fagen moves up into Heavy after only one week on the air. I love the man and it's so good to hear him back on the air you can count on us to support it all down the line.... Maybe acid is coming back or something but when you thought the phones would be dominated by the Plants and the Springsteens and the Harrisons, here comes a band like the Church who have jumped onto the Top Five phone list this week.

Ron Marsh, WKWQ, Columbia

After testing Joe Satriani's "Surfing With The Alien", we got such an incredible response that we put it on our rotation this week.... E*I*E*I*O is a very peppy rock and roll tune. This kind of stuff is very good for the format.... The Adventures have an interesting track on their hands with "Broken Land". It has a great sing-a-long hook and it's refreshing to hear a keyboard that sounds like a piano.... The Church moves up this week into Heavy. It's a beautiful song with terrific ambience on the air; a winner from day one.... The Del Lords is very infectious and moves up this week. "Judas Kiss" has an incredible lick for your rockers to get next to and the hook works the very first time.

Mark Vos, KRNA, Cedar Rapids

The Church is a good adult record with plenty of hooks. I really like this one.... Johnny Hates Jazz goes into Power this week. This record works for the format and has smash written all over it. We shouldn't worry about CHR with this track, it has plenty of life in it and can make a serious contribution to AOR.... This Foreigner ballad is driving the women crazy; they can't get enough of it.... We are also showing big phones on the Paul Carrack this week. It's a real format pleaser.

Phil Maicke, KFMH, Davenport

Jenny Morris sounds a lot like INXS with a female vocalist and she is a welcome addition to the mix.... There is so much good stuff on the Talking Heads album but we decided that "Blind" was the most accessible. Besides, I love that horn section, what a riff! We will definitely be with this album for a long time.... The Mission UK is a great track. I even like the eight minute version, this is a real winner from the flood of alternative bands out there.... E*I*E*I*O has nabbed some encouraging phones and their Midwest feel helps push them into a Heavy this week.

Jim Edwards, WZYC, Beaufort

If you have been following REM since their beginning, you have to spend some time with the Connells. Give these guys a listen, they are the new face of Southern rock and roll.... We have gotten lots of phone action for 10,000 Maniacs. Most of the calls are from listeners who just want to say "Thank you" for playing the band. There are a lot of closet Maniacs out there and they are coming out for this song. Sales are off the scale.... The Del Lords have a great toe-tapping Spring song that just begs for you to roll down your window and blast it as loud as you can.... Nick Lowe and Treat Her Right are staff faves right now with Treat Her Right starting to build a story on the request line.

Dave Ross, KFMU, Steamboat/Vail

We've always loved Prefab Sprout around here since we first heard "Appetite". Now they're back with it seems a better production, smooth sounds and, simply put, the perfect all demo song. "Golden Calf" goes in knowing we have found a band that fits perfectly in the middle of everything.... The last Bears album worked great for us, so why should we stop now? The kind of quirky sound of the band is oh-so-very catchy and lyrically, they stand out.... Adrian Belew still knows how to jam, so what more do you need? I'm expecting big things out of these guys.... We are seeing excellent retail on the Joe Satriani, also very good with Treat Her Right, Balaam And The Angel and 10,000 Maniacs.... That's it for now from the world's only wind powered radio station.

Inessa York, KGON, Portland

Raving once again on this page about Portland's newest sensation, The Dan Reed Network. They're heading out shortly to do their stuff and boy, do they do it well. If you are offered an opportunity to put Dan Reed and band on air, go for it. Dan is exuberant, funny and chock full rock instinct. I know you'll enjoy him and the Network. We've really enjoyed working with PolyGram on this special project.... By the way, we do have more talent in this town, yet another band to watch out for is Nero's Rome.... Here's a question, aren't there any ugly men in Australia? We really like James Reyne.

David Sadoff, KLOL, Houston

When you're listening to music this week, be sure to check out "Baby's Got Rockets" from the Dancing Hoods. I don't know how the guys at Relativity do it, but they have another great record on their hands.... The Rock and Roll Auction update continues. New items include an autographed Rockman from Tom Scholz and Henry Lee Summer's autographed tennis shoes. Other items that will be up for auction include an REM tour jacket, the hood from a former KLOL promotional vehicle that has since gone to that big car lot in the sky, plus numerous picture discs, backstage passes and autographed Lps. All contributions are appreciated and should be directed to KLOL's auction director Kathy Baker.... In closing, I noticed that the sticker says, "Over 60 minutes of music, specially priced two record set". Hmm, I guess "Hysteria" could have been a double album, too.

Dave Powers, WHTF, York

I was really taken by how quickly I got into the James Reyne. This track is a blockbuster that doesn't take more than one listen to hop right on the playlist. I could rave about lots of stuff

but James definitely has the number one spot in my headphones this week.

Kelly Cruise, WEGR, Memphis

When I first heard the Def Leppard "Hysteria" album "Love Bites" really grabbed me and it seems to be a favorite with our listeners, too. It's Top Five most requested with 18-24 year olds already.... Memphis is a real Lynyrd Skynyrd town so we went several tracks deep with the Skynyrd tribute tour album.... I'm just sick that Peter Himmelman's "I Feel Young Today" didn't catch on like it should have but there are still plenty of excellent songs on the album.

Al Scott, KZEL, Eugene

Donald Fagen makes for good airplay; instant phones and killer production. It's so crisp, I loved it right off the bat.... The Church has staying power for sure and the folks seem to like it a lot.... Power ballad city to the max Foreigner and the babes love it.... My favorite tune on the list is "Heaven Knows" and Kingdom Come.

Christina Gorton, KKZX, Spokane

Joe Cocker's "Two Rivers" is one of the songs on the album that reminds me of the old bluesy Cocker stuff and it sounds great.... Foreigner was made to sell and boy how. Lou's vocal are founding stronger than ever and it goes up into Heavy and claims Top Five phones as well.... On "Tall Cool One" Robert Plant has finally decided not to ignore his past. It's a great statement rocker that doesn't sell out, the staff just loves it.

Wendy Steele, WLVQ, Columbus

We are busy celebrating as our APD Jo Robinson just got engaged to Keith Pentar who plays in a local band, US Toys, and also manages a CD store in town. Cheers!

Kim Alexander, WHCN, Hartford

Thank you Atlantic for the PERFECT night at INXS. It's the hottest show on the road.... And the world should know Rose McGathy makes the world's best rock and roll chili.

Patti Clarke, KMBY, Monterey

Great, great music is filling the airwaves located at 107.1 FM KMBY. With exceptional music on the turntable at all times, the temptation to play it all has never been this great! Examples? The classy Donald Fagen. Catch opening riffs on The Smithereens, "Only A Memory", The Del Lords "Judas Kiss". Rock and roll is alive and well at 107.1 FM. Mellowing at times for Sting and The Church. Cutting loose with Guns N' Roses and AC/DC. KMBY means all types of rock and roll for the Monterey Bay. Thank you all and KEEP IT COMING!

Jetson, WOXY, Oxford

There's so much great new music out there right now, I'd feel lucky to be PD at one of the few commercial stations in the country that is able to play so much new music. Also, I think it's sad that so much great music doesn't get the airplay it deserves.... Speaking of new music, this week the new Morrissey has our phones lighting up. I've never been a big fan of the Smiths but I feel that "Suedehead" should be a major hit for Morrissey.... E*I*E*I*O moves to heavy this week with "That Love Thang".... Smithereens move to heavy this week.... New Records: Tracy Chapman, "Fast Car" goes into medium; and the Semi-Twang record is something special.

Jane Fredericksen, KTCZ, Minneapolis

If an airplane full of Prefab Sprout crashed into a trainload of Steely Dan, out would tumble a field full of Deacon Blue. This group sends shivers down my spine.... Speaking of Steely Dan, good to hear Donald Fagen again, if only one song.... Joni Mitchell's latest is a polished, mature piece of work that celebrates spiritual self-awareness ("My Secret Place") while condemning the hollow wealth of materialism ("Snakes And Ladders"). Plenty of music here to keep us busy for some time and well worth the wait.... Astonishing phone calls this week on Everything But The Girl's "Apron Strings" from the "She's

Having A Baby" soundtrack.... Also on Joe Satriani, Eliza Gilkyson, 10,000 Maniacs, and Jerry Harrison.

Jeffrey Naumann, Virgin, 213-278-1181

If rock stations the likes of KSHE, WLVQ, WLUP, KRXQ, 91X, WFBQ, among many, many others can play that smash record by Johnny Hates Jazz called "Shattered Dreams", don't you think you can too? A song this good shouldn't be passed on by any format. Enough said.... Rocky Hill's new song "I Won't Be A Fool" is out and should be going on album radio like pigs on corn and could easily be a staple for the format in the very near future. Rocky is one helluva guitar player, too.... Regarding Balaam and the Angel, it's time for everybody to move this sucker into heavy.... Feargal Sharkey's new Lp goes out this week. In addition to the 12" "If This Is Love", you've got to listen to the track "More Love". It features a pretty identifiable guitar player. It's Keith Richards.... To Ward Holmes: Welcome back. We missed you. Pour me another me B&B and fire up that screen.

Donna Geisinger, Passport, 818-500-7677

Only three more days and Leslie West's "Love Is Forever" will leave the warehouse and find its way onto every programmer's playlist! The mountain man is back and with a vengeance. Jack Bruce lends a hand on bass and Twisted Sister's Joe Franco provides the beat for Leslie's new creation.... Eric Steel continues to move upward and you can learn more about them in this week's issue by reading Sal Treppeidi's interview in the Hard Hitters section. "Wanted Man" is not the only tune that rocks. Check out "Rescue Me", "In Cold Blood", and "Somewhere, Sometime" for other winning numbers.... And speaking of winning numbers, the Wild Seeds continue on their Spring '88 tour of the Northeast visiting Toronto at the Silver Dollar on the 28th and 29th, Chicago at the Cubby Bear on April Fool's Day, and Madison the following day at Headliners. If you need more information on this or other details, call me at 818-500-7677, I'll be happy to help.

Jay B. Ziskrout, Arista, 213-655-9222

The tremendous airplay we are getting on "Under The Milky Way" from the CHURCH, though encouraging in its own right, becomes even more exciting when I see that AOR and alternative radio are selling this album in a big way. It's wonderful to see the instantaneous sales success in Minneapolis (top 5) spread throughout the country. Make sure you check your local sales on "Starfish". Expect to see this story crossing over to top 40 as the "A Team" goes for adds on the single today (Monday, March 28th) by the time you read this, a few of your colleagues in New York, Los Angeles and Toronto will have had the opportunity to see the band perform live. Just a sample of things to come as we prepare for a full US tour beginning in May. With chart success, sales activity and phone reaction already apparent on a national basis, what better time than now to add the record (if you haven't already done so) and to move "Under The Milky Way" up into Heavy where it belongs.... From the "I Wish This Band Was On My Label Department" don't wait on The Smithereens. "Only A Memory" is only a memorable, hook-filled track which will kick off "Green Thoughts" in fine fashion. The Smithereens -- they're only the best damn American rock band to come along since The Cruzados.

John Schoenberger, Relativity, 213-212-0974

Airplay still continues to grow for the now stellar Mr. Satriani and his new emphasis track "Surfing With The Alien". In early April, hot on the heels of the Jagger Japan tour, Joe's trio begins again to surf your way. This tour will be quite extensive; well into June, so the chances are good he'll get nearby you. Once you've seen his show, you'll be a hopeless addict.... This week we also begin our efforts on our next priority release by the Dancing Hoods. (See Song Pick.) How 'bout those teaser ads we did? You should have received our special "Picture CD" single of the lead track, "Baby's Got Rockets". This is the perfect record to reach a broad demographic appeal. In fact, the few of you out there who have resisted Joe Satriani to date due to your station sound should react quite favorably to "Rockets". If you haven't listened yet, shame on you.... My heartfelt

welcome to our newest Relativity promo specialist, David Counter, based in Dallas. He is genuinely excited and motivated by the music. As our success grows, so grows our attention given to each and everyone of you!

Jerry "The Doctor" Krause, WOUR, Utica

WOUR recently jumped on the Robert Plant "Now And Zen" success story, and whipped up a very special Plant/Zeppelin weekend including plenty of their songs, interspersed with Robert Plant comments from the just released interview disc, giveaways including Zeppelin catalogs and "Now And Zen" Lps, cassettes, and compact discs. Highlighting the WOUR giveaways were a number of "WOUR Robert Plant Rubber Plants" (the decorative kind, not the protective kind). Actual living plants to spice up winner's homes or work areas. Thanks to Dan McClosky of Atlantic for his "cultivating" assistance with this "plant" promotion.

Megadon, Combat, 718-740-5700

What the hell has happened? A whole week has gone by and no one has abused me in their dialogue? What did I do right? Yeesh.... C'mon, gang, let's have some more support for Crumbsuckers and Tigertailz, okay? The Crumbs' clean cut look shouldn't put you off. One listen to "Bomb" should be enough to convince you how great they are, if not, listen again. It took a few spins for me to get into it, too.... As for Tigertailz, play the record and forget what they look like, if you have a problem with the image. Shut your eyes and clear your mind of all that bleached hair and Max Factor and I'm sure you'll like it. That's how I got into "Young & Crazy".... Blind Illusion's "The Sane Asylum" is on your desk now. Listen to "Bloodshower" and try it on your show. Your audience will eat this up. It's got some tremendous "Bay Area Crunch" riffing. I LOVE IT!... To whom it may concern (and you know who you are): Have you ever heard of mail fraud? It's something you can go to jail for a very long time for. Just a word to the wise.... And be on the lookout for Virus, Agony, Acid Reign and in late April Impellitter.... Meantime, keep spinnin' the aforementioned Big Three and thank your lucky stars you are who you are. Imagine how Monte Conner and Rich Scroggs must feel.

Clarissa Garcia, Enigma, 213-640-9342

Hey, Jeff Ivan/KFMX, Ross Goza and Tom Marshall/KNAC, Mark Snider and Dave Schulps/MJI Metalshop, Dan Fano/WERA, and Brad Martin/WRCN! I'm on to you! You guys checked out the Hurricane advance cassette of "Over The Edge" and told me you liked it. Do you know your hard rock or do you know your hard rock? Brad Martin says he'll take a picture of himself dancing naked to a couple of the tracks and send it to the trades. Consider yourselves warned. Look for Hurricane's "Over The Edge" on your desk (and on your turntable) by mid-April.... And look for Barren Cross at a club/venue near you to promote Atomic Arena. Here are some confirmed dates: 3/29-Duluth, MN; 4/7-Grand Rapids; 4/8-Chicago, IL; 4/9-Defiance, OH; 4/14-Fort Wayne, IN; 4/15-Detroit, MI; 4/16-Indianapolis, IN; 4/18-Flat Rock, MI; 4/19-Flint, MI; 4/21-Williamsport, PA; 4/23-Wenham, MA; 4/29-Pitman, NJ; and 4/30-Pottstown, PA.... Is Mike Jones getting outa hand or what? Mike, if you weren't the radio god that you are, I'd ask that you be barred from submitting dialogue to any trade. C'mon, Mike, "Rifles and Rhudabaggas"? "Magnums and Magnolias"? Get real.... Marriage ain't exactly what it's cracked up to be. Bill thinks he can boss me around like master to servant. But he's learning. Once in a while, I have to remind him what he should do with his slippers and the pots and pans. While Bill was out doing his show on WJUL, my long lost older brother, Jem Aswad, came to stay with us and boy was he pissed. Jem does not approve of my marriage at all! He came home, took a look at my lifestyle, and gave me a very long lecture reminiscent of our childhood days. He raved on and on about how the marriage is a disgrace to the family name (Garcia-Aswad). He kicked Bill's dog in the mouth and now it's a toothless Monte-chihuahua. Whenever Jem is near, the poor creature stays in the corner of the room with its tail between its legs and whimpers. Jem insists on a better life for me and to help me, he's been introducing me to "ap-

appropriate" suitors. But, between you and me, I don't like what he calls "appropriate." So far, they've all been a bunch of stuffy, yuppie art fags who wear cravats, eat caviar, and talk from the side of their mouth like they've just visited a dentist or something. You shoulda been there when Jem introduced me to his stamp of approval friends. They go to bars called Bristol's or Baxter's and utter words like, "certificate of deposit," "money market account," or "Broadcast News." Boy, Jem, you sure have changed. You used to be so cool, too.

Monte Conner, Roadracer, 212-219-0077

Here's the latest from the Roadracer camp: Gang Green are making a studio visit this week to record a cover version of Zeppelin's legendary "Livin' Lovin' Maid!!" This cover, which should prove raging, will appear as the B-side of the "Born To Rock" 12" radio single. Look for it in April and look for the "Born To Rock" video to premiere on MTV's "120 Minutes" and "Headbanger's Ball" on April 2nd and 3rd.... Still getting great feedback over the Toxik "World Circus" advance. This one promises to be huge! The opening track "Heart Attack" will appear on MJJ's Metalshop on April 1st. Perfect timing, since the Lp hits the streets and your desks on April 4th (through MCA).... Thanks to Mark Snider for being a dude. I appreciate everyone's enthusiasm, but please don't report or add the Lp 'til you receive the vinyl. By the way, the cover art is massive.... I'm also getting the thumbs up on Znowwhite's "Act Of God". The Lp that has been described as "Cap'n Crunch without the milk!". It's an accurate description. Wait 'til you see the bizarre artwork.... Finally, King Diamond's latest horror epic, "Them" is out on June 15th. That's just two and a half months away. You'll get a sneak preview on June 1st with a 12" radio and retail single which will be backed by a non-Lp B-side. The master himself will be here in the flesh doing some pre-promotional work during the first week of May. I could go on for pages about all our plans for this record. It will happen in a major way! Yes folks, Roadracer will soon have their first gold record. Cheers.

Cheryl Valentine, Metal Blade, 212-645-6208

In case you're interested (shut up Monte), I didn't get to play that funny on Candlemass. Instead, I took them to LaGuardia and told them it was Newark Airport. We also told them that \$50 bills were really \$5's. Big Macs sure are expensive these days. But hey, Brian Lima made out like a bandit! Seriously though, Leif and Messiah are cool, cool dudes. Heck, they should be on everyone's charts simply because Messiah was proclaimed "Head of the International Manly Man's Club".... As far as the biz goes, the new (and long awaited) Fates Warning Lp "No Exit" and Hallows Eve's "Monument" should be at your doorstep within days. I, personally cannot wait for your feedback and to be adorned with praise for something that I did not do myself. Our Candlemass buddies are still burning up the charts and keeping their Top 10 status deservedly so, while Nasty Savage ride atop the troops as thrash kings with "Abstract Reality". Fates rules - that goes without saying!.... It's time to pick on Megadon for writing such an unhumorous piece of gook in his last dialogue. Does drooling over the G.L.O.W. gals really take that much out of you, Mega? Maybe you should take Monte with you when the gals tour to give him some culture.... To Bill and Clarissa Fischer: Okay, I figured that since we're such good buddies (war heroes?) I'd let you in on my exhibitionistic tendencies. However, since it was not taken as the gesture of devoted affection that it was meant to be, I will refrain from any further slop here. I won't be the first to slag them since they were kind to me last week - but I'll let Monte do it!.... Quick! Hide! I heard that Rich "Have I ever told you how much I hate being on hold?" Scroggs may blunder his way through New York soon. Start digging your trenches now, before it's too late! Remember to take your insecticide in case he slithers onto your welcome mat. Oh No! It's too late!!!

Sal "Earl Of Earache" Treppeidi, Mercenary Records, 212-741-8310

Being that I can't talk about Mercenary Records in my column, I've decided to do a dialogue and update everyone on what is happening at Mercenary. First and foremost, The Goo Goo

Dolls are hot. These guys can't wait to get out on the road with Gang Green. The tour is scheduled to start on April 7th in Boston. Bill Fischer better be there or else Mr. Death will steal his wife. Monte Conner has promised to buy a new toupee if Bill shows up. By the way, the new Goo Goo Dolls record is entitled "Jed". It will feature a cover of the Stones' "Gimme Shelter" and CCR's "Down On The Corner". It will also have a song that was recorded completely backwards.... Primal Scream recently did a few dates in the midwest with At War and Blessed Death. Except for the snow storm, Keith Alexander reports that things went alright. Look for the band to go into the studio shortly. Meanstreak and Attacker albums should be in your hands shortly. Ignore them and feel the wrath of Mr. Death. Play them and Cheryl Valentine will pop out of your next birthday cake. For Attacker this will be their second Lp. They just opened up for Savatage and Fates Warning at L'Amour in Brooklyn and were greeted with a rousing response.... Meanstreak has been doing some serious gigging lately. They have opened up for the likes of Anthrax, Motorhead and Manowar. At a recent gig near their home base base in Westchester County, fans were being turned away. Expect a lot from these five ladies.... Sacred Oath and Powermad will not be far behind. Both these bands should give you a severe case of whiplash.... Now, I understand that Megadon is really George "The Animal" Steele in disguise.... Clarissa, how could you marry Bill Fischer? I thought it was Monte who you were madly in love with. Mr. Death is not going to like this. Who the *&%@* is Rich Scroggs? Sounds like a midget wrestler from the Ladies Wrestling Federation.... I hear Tony Tubbs was hanging out with the "Round Mound of Metal" before he was knocked out by Tyson.... I recently got a demonstration of Doom Dancing from Messiah of Candlemass. Jon Sutherland seems to think it's going to be the next big thing in the States. I suggest that Mr. Death not try this maneuver. His hair might fall out.... Guess that's all for now. Fire away, dialogue war combatants.

Paul Brown, Virgin, 212-463-0980

Just a couple of commercials this week for you all. First, will you look at this Balaam And The Angel? Everybody, everybody loves this record. "I Love The Things You Do To Me" is right where it should be, rotating up nicely and convincing even the most jaded of observers.... Feargal Sharkey. "If This Is Love" drawn from the Lp, "Wish", produced by Danny Kootch. It may not be obvious but this is lovely, intelligent and will touch you if you sit and spend quality time. And the record that is currently setting American radio on fire, "Shattered Dreams" from Johnny Hates Jazz. I think I'm on extremely terra firma in stating that this is a hit and it's for you if you can detect the poppy Genesis feel to this whole project and respond accordingly.... Finally, from a musician whose time has come, Ziggy Marley. It's reggae, oh yea, coupled with the sonic sensibilities that only Chris Frantz and Tina Weymouth could impart. The time is right for this project both in this country and globally, as well. Believe it if you need it or need it if you dare.

Michael Linehan, Reprise, 818-853-3750

Your Reprise rep will be reservicing you with a fresh copy of the entire Bodeans CD this week, and we are going after "Pick Up The Pieces" which is cut #2. This is a track many of you mentioned to us when this project first came out. If you're not familiar with it, please give it a listen. We are going for adds this coming week and WLLZ and WRXR have already hit it. The buzz on this band continues to build. They were featured on MTV's Springbreak coverage this past week, they have two successful album tracks under their belt, they won the Rolling Stone Readers Poll, "Best New American Band", they opened the U2 tour, they've had a ton of video exposure both on their own and with Robbie Robertson. The only thing left for them to do is marry Brigitte Nelson, so please give this track a shot.... The Mighty Lemon Drops continue to expand their mainstream base this week with new adds at KBCO, WLLZ, KMOD, WMAD, WKLC, and WWTR among others. "Inside Out" has a major hook and deserves your consideration today. If you haven't heard it yet, check out the CD single or Album Network Sampler #14.... Morrissey is exploding at retail and alternative

radio and is picking up mainstream play in New York, Chicago, Los Angeles, Honolulu, and several more major markets. This is a very accessible track from an artist who sells nearly gold and is poised to break to a much broader radio audience.... Finally, that light you see in the east is the dawn of power swing.

Michael Schnapp, SPV. 516-783-3040

Achtung! Achtung! (That's "attention, attention" in German.) Hello! Let me explain who we are and what we are going to do. There will be a quiz at the end of this. SPV Records is a West German company that manufactures and distributes a large number of acts and various labels throughout Europe. Germany is the second biggest record market in the world. (Ya learn those things when ya work for the Germans, ya know!) We are a subsidiary company. We will be releasing some of the product (about 120 releases in '88) that has done well in Europe and has done well leaking into the US as imports. Now as domestic releases, those acts can get the attention they deserve.... We have four different specialty labels for lots of different sounding music. Blue Turtle Records will be releasing alternative albums. Our heavy metal bands will be coming out on Steamhammer Records. Disco anybody? We'll be putting out the hits (12" anyway) High Energy Euro Disco on the Westside label. Also, some hardcore on Armageddon Records. Gee, like a supermarket of music. No, but maybe a bodega of music. (A New York Joke.) Seriously, look for our records coming real soon. We're very excited and we hope that we'll excite you, too.... P.S. Here's our introductory contest: Tell me what the initials SPV stand for and you will win something truly memorable. Answers need not be correct but must make me laugh, although correct answers would be a nice concept. (Hint: It's in German.)

Chuck Oliner, Elektra, 609-596-1200

The Adventures continue with "Broken Land". The raves and airplay continue to impress week after week. This song has it all: great melody, great vocals, great call letters, and great comments. So, if you're still sitting on the ledge with The Adventures, go ahead and make that jump. You won't be sorry.... Tracy Chapman's "Fast Car"! Be sure to enter the Elektra Fast Car giveaway! The first station to take Tracy Chapman's "Fast Car" to heavy rotation will win a Ferrari Testarosa. Now that I have your attention I'll admit the Ferrari is only the Matchbox version and not the real thing, but Tracy Chapman's "Fast Car" is the real thing. So listen, enjoy and react.... Question: What record is pulling Top 5 phones at WNEW and WDHA? Answer: 10,000 Maniacs, "Like The Weather". Question: What album has sold over 180,000 units and continues to sell between 5-10,000 copies per week? Answer: 10,000 Maniacs! Question: Who will step out and add 10,000 Maniacs "Like The Weather" next week? Answer: _____!... Dokken's "Heaven Sent" is out this week and the phones are going to explode for this one. If I'm not mistaken, Dokken is going to be on some huge tour this summer but the name of the tour skips my mind at the moment, but don't you forget Dokken's "Heaven Sent" from an album that has sold over 1.5 million albums.... If you're going to see David Lee Roth, make sure you get there early to see Faster Pussycat. 200,000 Lps sold and standing O's every night. The Pussycats are the ones delivering the real rock on this tour.... If you're interested in Social Intercourse and who out there really isn't, contact your local Elektra Smashed Gladys rep for details.

Don Kaye, Noise International, 212-334-9268

Hi, everyone! First order of business is to let you all know about our new phone number. That's not a misprint above, the direct Noise line is now 212-334-9268, so I want to see our four new lines light up like Christmas trees. (I'm not kidding, the phones have green and red LED lights on them). And if I'm not there, you can talk to our new label manager, Steve Bonilla. Steve previously did college radio promotion at Island and alternative marketing at Capitol/EMI/Manhattan, and will be overseeing all aspects of production, marketing and promotion for Noise. We welcome him aboard with great pleasure, and I know you'll find him helpful if you speak to him.... Right now, you all have gotten your Tankard/Vendetta package, and ad-

vance word on both records is quite good, with several adds already happening. Tankard is up to most people's expectations but quite a few are telling me how surprised they were by the Vendetta album. So if you haven't listened to it yet - listen!... It also looks like Voivod are gonna be in town from March 29 until April 1 (well, Snake and Away), so if you wanna talk to the guys for a couple of minutes, give me a call. This is primarily an advance press trip, so I have to warn you that time may be short -- but I don't see why we can't get some ID's in. Call me!

A Musical Commentary by Dyana Kass, Metal Blade Records, 212-645-6208

And now a peek at the new spring line by Metal Blade Records. The big smash on the runway this spring is Fates Warning's "No Exit". It's new, it's fashionable, it's hip, it's hot, it's happening! This baby could accessorize any playlist. Cuts such as the swank "Silent Cries" teamed with that chic song entitled "Anarchy Divine" are all the rage this spring. For those who enjoy a lovely shade of "Blue", check out side two with its stylish masterpiece "Ivory Gate Of Dreams". This posh piece flows into an incredible twenty one minute epic that works well for anyone so ya gotta love it! Take some advice from a person with a fashionable sense, the new trend now is Fates Warning's "No Exit", so don't get caught with your pants down!

Steev Riccardo, Giant, 516-764-6200

As we expected the "Salvation" soundtrack has taken the indie world by storm, in both sales and airplay. Thanks for the help!... Congrats go out to all those indie labels getting major label deals. (Clive, see the number above.) Actually, I was a surprised by a couple of them. Does all this mean that you only have to sell 20,000 copies to get major distribution?... Dag Nasty's "Field Day" hits the streets April 1 (finally!) and we are very proud of it. We did however make the mistake of assigning GR16013 as the catalogue number. NOTHING BUT PROBLEMS MANUFACTURING THIS RECORD! The results make up for the problems. This record really smokes.... Tater Totz is finally coming in April. An all star lineup spearheaded by Jeff and Steve McDonald, Donny Bonnaduce, and many others who can't be mentioned in writing because of contractual agreements with major labels. Call us and we'll be glad to tell you all about it.... Baseball season is coming. Let's go Red Sox!... By the way, will someone tell Craig Marks that the NL East couldn't dress the AL East, never mind compete with them. Later.

Jim McKeon, RCA, 212-930-4309

Better watch out for the Serpentine! A major new band hit the streets this week - The Kings Of The Sun. Over sixty adds out of the box! Wow! Many of you have seen a video which just drips with performance excitement. If you haven't seen it yet, call me now and you'll have it tomorrow. Out of the box at WIYY, KTXQ, WGTR, WSHE, KISS, WLLZ, WRIF, WQFM, KJJO, KDKB, KRXQ, KZAP, KRQR, KSJO, KXRX, etc.... This is the kind of action which proves the strength of album radio to the world. Let's just wrap it up this week. And a big thanks to the first weekers!... Treat Her Right also broke into another dozen markets. And this baby performs. "I Think She Likes Me" moves very quickly into medium and heavy rotations. This one is the sleeper record of the year.... The Love & Rockets tour commences mid April - 3 weeks of dates almost all sold out. Check out "Waiting For The Flood" and "Mirror People '88.".... Almost last but definitely not least - my friend Lita Ford continues to sell strong - 58* Billboard and closing in on 250,000. This is a damn smash! And Lita starts touring herself mid April through mid June.... Just around the corner - "Valley Road" from Bruce Hornsby (whew!) and a killer Graham Parker (with Brinkley Schwarz) - the LP called "Mona Lisa's Sister" - the track called "Start A Fire.".... Out of England comes a brilliant record from the legendary Peter Murphy who was in Bauhaus with the Love & Rockets boys. The first song is "All Night Long" - this guy is the Bowie of the 80's/90's. Finally, personal thanks and love to a couple of magicians I know.
