The Traveling Wilburys, Warner Brothers... Though the single's 14-6* line drive says almost all you need to know about how well that tune's doin', we should point out that gargantuan move comes courtesy of 41 play increases, 22 more adds, and 162 now on board--60 of which already have it heavy. The bottom line? Play it cause you love it--and play it *up* based on multiple format attention. But for cashing in on the new adult supergroup Time chose to headline their new "People" double page spread this week, only rock radio has the whole album to choose from. And what a veritable smorgasbord it is! With Tom Petty's next MCA release a full six months away, you'd be nuts not to emphasize "Last Night" right off the bat--plus you didn't send him a card for his birthday last Friday, Fer Chrissakes. "End Of The Line" is this project's best group effort, with that wonderful "I'm Looking Through You" guitar part; "Not Alone Anymore" is Roy Orbison's most stirring vocal work since "Crying"; "Heading For The Light" ranks with George's best work on "Cloud Nine", (thanks in large part to Jeff Lynne's wonderful harmony vocals), and "Tweeter And The Monkey Man" is Bob Dylan's strongest narrative songwriting since "Blood On The Tracks" gave us "Lily, Rosemary and the Jack of Hearts". It's way too early to call this album the 80's answer to Blind Faith--but if any similar collaboration this decade has started off with this much raw musical promise, we'd like to know who.

Julian Cope, "Charlotte Anne", Island....

Here we have an artist who by now should be a staple of the format. Julian Cope has been the victim of incredibly bad luck and even greater mismanagement to the point that when he first came to the States as leader of The Teardrop Explodes his record company had a poster in their lobby calling them "The Teardrop Experience"! That aside, last year's "World Shut Your Mouth" established Mr. Cope as a force to be reckoned with at AOR. This year's model finds Julian and band leaning to his softer side. "Charlotte Anne" recalls such Teardrop gems as "Tiny Children" and "Suffocate", and incorporates a beautiful woodwind sound into the mix. The song is very Beatlesque musically speaking and the vocal is his finest effort to date. Give this tune a couple of spins and the chorus is guaranteed to stick in your head. All in all, we feel that "Charlotte Anne" is Julian's most accessible track ever. The upper demos are bound to embrace the first taste from "My Nation Underground", and early action is reported from 91X, KROQ, WHFS, WHTG and 7 more.

HARD ACTS TO FOLLOW

Various Artists, "Stay Awake", A&M....

What a wonderful way to celebrate the upcoming Holidays. Finally, Disney music for adults, not to imply that once you reach a certain age you lose your taste for good old Uncle Walt, just that these new interpretations of some startling childhood memories will undoubtedly make you feel like a kid all over again. And what price can be placed on that? As with Hal Willner's previous compilations, the artist pairings are mind blowing. Consider James Taylor with Branford Marsalis, Steve Swallow and the Roaches on "Second Star To The Right", or Ringo and Herb Alpert on, what else, "When You Wish Upon A Star". The main track to concentrate on is Bonnie Raitt and Was Not Was on the song "Baby Mine" from Dumbo. This remarkable song will be released as a single and we think you'll agree it has a legit shot at hit status. As expected, the LP was #1 Most Added on the Alternative side, with the aforementioned Raitt/Was collaboration and the Replacements treatment of "Cruella De Ville" getting the most attention. But there's plenty more. Sinead O'Connor's reading of "Someday My Prince Will Come" and Tom Waits unique rendering of "Heigh Ho" are among the early favorites around here. Dig in and enjoy.

The Pursuit Of Happiness, "I'm An Adult Now", Chrysalis.... Hailing from Toronto, The Pursuit Of Happiness sound very much like their name implies---looking for fun in all the right places. Todd Rundgren has turned in his best production job in years and their whole LP sparkles with Nazz meets the Tubes precision. This first emphasis cut could shape up to be the anthem of the Eighties with a sing-song, sing-along chorus that rivals the Georgia Satellites "Keep Your Hands To Yourself" for instant accessibility. The drums literally explode from the outset and carry you through hook, line and sinker---key on the word "hook". TPOH have crafted a tune that's about as close as you can get to sure fire OTB success, now we can see what Mr. Sutter has been raving about for the last couple of months. If this doesn't clean up in the "Smash or Trash" test at your friendly neighborhood AOR nothing will. Already on KYYS where they couldn't wait for the vinyl and have been hammering this one straight off the cassette.

Mike and the Mechanics, "Nobody's Perfect", Atlantic.... Michael Rutherford's first mechanical effort yielded two top ten singles and went the distance for the gold. This time around the lineup is the same and we see the results following suit as well. "Nobody's Perfect" finds Paul Young taking lead vocal duties and was co-written by Mike and B.A. Robertson. The midi intro is reminiscent of "Changes" from the Trevor Horn produced 90125 album by Yes crossed with "Mama" by Genesis minus the Phil Collins grunts and groans. The tune settles into a nice mid-tempo groove, and we swear there's a Winwood synth line sampled toward the last minute and a half. The women will be dropping like flies as soon as this hits the air. As a matter of fact upper demos of both sexes will react as if they custom ordered this track. Look for very heavy first week add action and don't be surprised to see it cop the top spot on the Most Added.

Record Of The Week Jim Capaldi, "Something So Strong", Island....

The Most Added track of the week goes to this respected veteran writer/percussionist/singer and all around nice guy. Jim pops first week air at 60 including, KBER, KGGO, KILO, KISS, KJJO, KLLO, KQRS, KSHE, KZAM, WAOR, WAPL, WDIZ, WDVE, WEZX, WLAV, WLLZ, WNEW, WRKI and WRXK. Highest Hard Hundred debut honors are racked up also, with a 44* entry. We're aware of the amount of quality upper demo material out there, but if you pass on this you'll be missing one of the best of the bunch. WHJY's Chris Herrmann says, "Jim Capaldi has a wonderful upper demo record. Just enough gloss to go around and the CHR's are bound to hammer it sometime soon".... We think "soon" is the operative word there. This has Top 40 written all over it, and Winwood's involvement can only help. KILO's Alan White continues, "We could add Jim Capaldi on the basis of his Traffic connection alone, yet 'Something So Strong' is plenty strong enough for us"....finally KBPI's Chris Poole, "The Jim Capaldi is a very impressive track and could very well become a signature song for us. Give it another listen if you haven't done so already".... Our Record of The Week couldn't have gone to a more deserving survivor of the rock wars. The talent of Jim Capaldi is about to be thrown into high relief by that long overdue solo success spotlight.

Maxi Priest, "Wild World", Virgin....

No this is not a holy man in desperate need of a diet or the return of Cat Stevens under an assumed name, but a reggae rendition of one Cat's best loved tunes. Already a number one in eight countries, we're sure the States will follow suit. Produced by the always skankin' Sly and Robbie, Maxi Priest picks up new air at WLUP, WNEW, WOXY, KZOQ and three more. With this pleasing slice of texture already on WIZN, KITS, WDET and others, we see a Hard Hundred debut right around the corner. KFMM's Dave Ross explains, "With reggae having a part in daily programming here, the Maxi Priest couldn't be passed up. If you're also targeting those upper demos, 'Wild World' is certainly the obvious choice".... In the true confessions department, WYBB's Lori Nicks, "OK, I'll confess. Based on their name, I thought Maxi Priest was just another Heavy Metal group. So I pop in the CD single and prepare myself for some headbanging, when lo and behold it's a mellow cover of Cat Steven's 'Wild World'. It just goes to show the old adage, you can't judge a book by it's cover, is true". If you've had success with Ziggy or anything on the bluebeat side of the fence you owe it to yourself to check this out.

John returns to the States at the end of November . . .

Produced by Glyn Johns

Annie Lennox & Al Green, "Put A Little Love In Your Heart", A&M.... For his return to the mainstream and his first non secular recording in close to a decade, Al Green has linked up with the considerable vocal talents of one Annie Lennox. The song---Jackie DeShannon's chestnut tearjerker, "Put A Little Love In Your Heart". Can you say exposure? How about including it in the latest Bill Murray box office bonanza, "Scrooged"? Can you say hit? Sure you can. Even Fred Rogers is gonna welcome this baby to his neighborhood, and who could blame him? Production credits go to Annie's partner in crime, Dave Stewart. Already on WNEW, WLUP, KTAO, CHEZ among others and with CHR bound to kick it in overdrive we're looking for major adds from our side in the coming week. Don't be foolish, use it while you can.

Femme Fatale, "Falling In And Out Of Love", MCA.... Lorraine has made quite a splash on the heart throb circuit with her steamy video and gritty vocal approach. Those promotional appearances and a well received Z-ROCK Coast To Coast Concert have all contributed to one of the more successful wins for a fresh femme in a while. This time around, we see a definite CHR crossover possibility. Miss Lewis has all the moves to generate serious reaction on the road and this song will keep the action at radio up to the boiling point. With a vocal attack that screams for airtime, the Femme gang heap on those rough edged riffs that will keep 'em coming back for more. "Waiting For The Big One" has paved the way, but for our money it's this track that will pin Lorraine up to the playlist wall nationwide.

NEW PLAY PRIORITIES

Tracy Chapman, "Baby Can I Hold You", Elektra.... Is there really a need to explain the importance of adding this depth track from the newcomer of the year? Right, we didn't think so. Suffice to say that this is the tune many thought should have been the follow-up to "Fast Car", and even though "Revolution" scored well, we feel this will at least match the initial single in impact. It's nice not to be alone in that surmise as "Baby..." is already at home on KDJK, WKLS, WDHA, WNEW, WRXK and more. Let's face it, this is not a one shot artist cashing in on her insta-fame, but a woman with something to say. And time and again your audience has signified their desire to hear her. We see a definite CHR crossover of major proportions and you'd have to be deaf and dumb not to use it while you can.

Blue Oyster Cult, "In The Presence Of Another World", Columbia.... "Astronomy" was a top-20 AOR hit and a major phone mauler for several weeks running, and on first listen, "In The Presence..." sounds like a cinch to duplicate the success of the lead-off single. BOC is a core band that hasn't forgotten how to appeal to their legion of fans. It's already on at WQFM, where **Downstairs Dan Hansen** comments, "BOC's 'In The Presence Of Another World' would have to be among our strongest adds this week. I think it's even better than 'Astronomy'. Great guitar and a great night time add".... From the opening signature guitar riff right through to the powerful ending, the track is a custom-made rock radio exclusive. Use it to your advantage and get stronger by the day with the exposures that only you can own with this band.

Steve Miller, "Just A Little Bit", Capitol....

The latest style shift in Steve's career has met with considerable success at the format, and with this track we feel he's really pulled the ace out of the deck. "Ya Ya" found a home at well over a hundred reporters and "Just A Little Bit" is without a doubt the hottest thing on this latest slab-o-vinyl. He's ready to hit the road with Ben Sidran's band in tow, hitting every major market in the nation and we anticipate major raves in his wake. If you've jumped off this project, get ready to hop back on board as the tour saturates your area. Steve has enlisted the state of the art equipment used by Pink Floyd, which should come as no surprise to long time fans. After all, he was one of the first to incorporate a Quadrophonic setup way back before steam and he will have even more surprises ready this time around. "Just A Little Bit" rocks with class and that's just what upper demo land is looking for, therefore you should be too.

Peter Cetera, "Best Of Times", Warner Bros....

With "You Never Listen To Me", Peter accomplished the near impossible, he re-established himself at the AOR level. Utilizing David Gilmour's liquid guitar licks helped, but without the right tune even Jimi couldn't have pulled that trick. Now, this follow-up finds Pete back on more familiar turf with both feet planted in a heartfelt piece of crossover magic of epic proportions. That smooth tenor rises to the occasion with his usual ease and one can't help but compare this tune with some of Mr. Winwood's most loved work. From his work at the World Series to that cross format gold that has always been his trademark, Mr. Cetera is ready for more challenges.

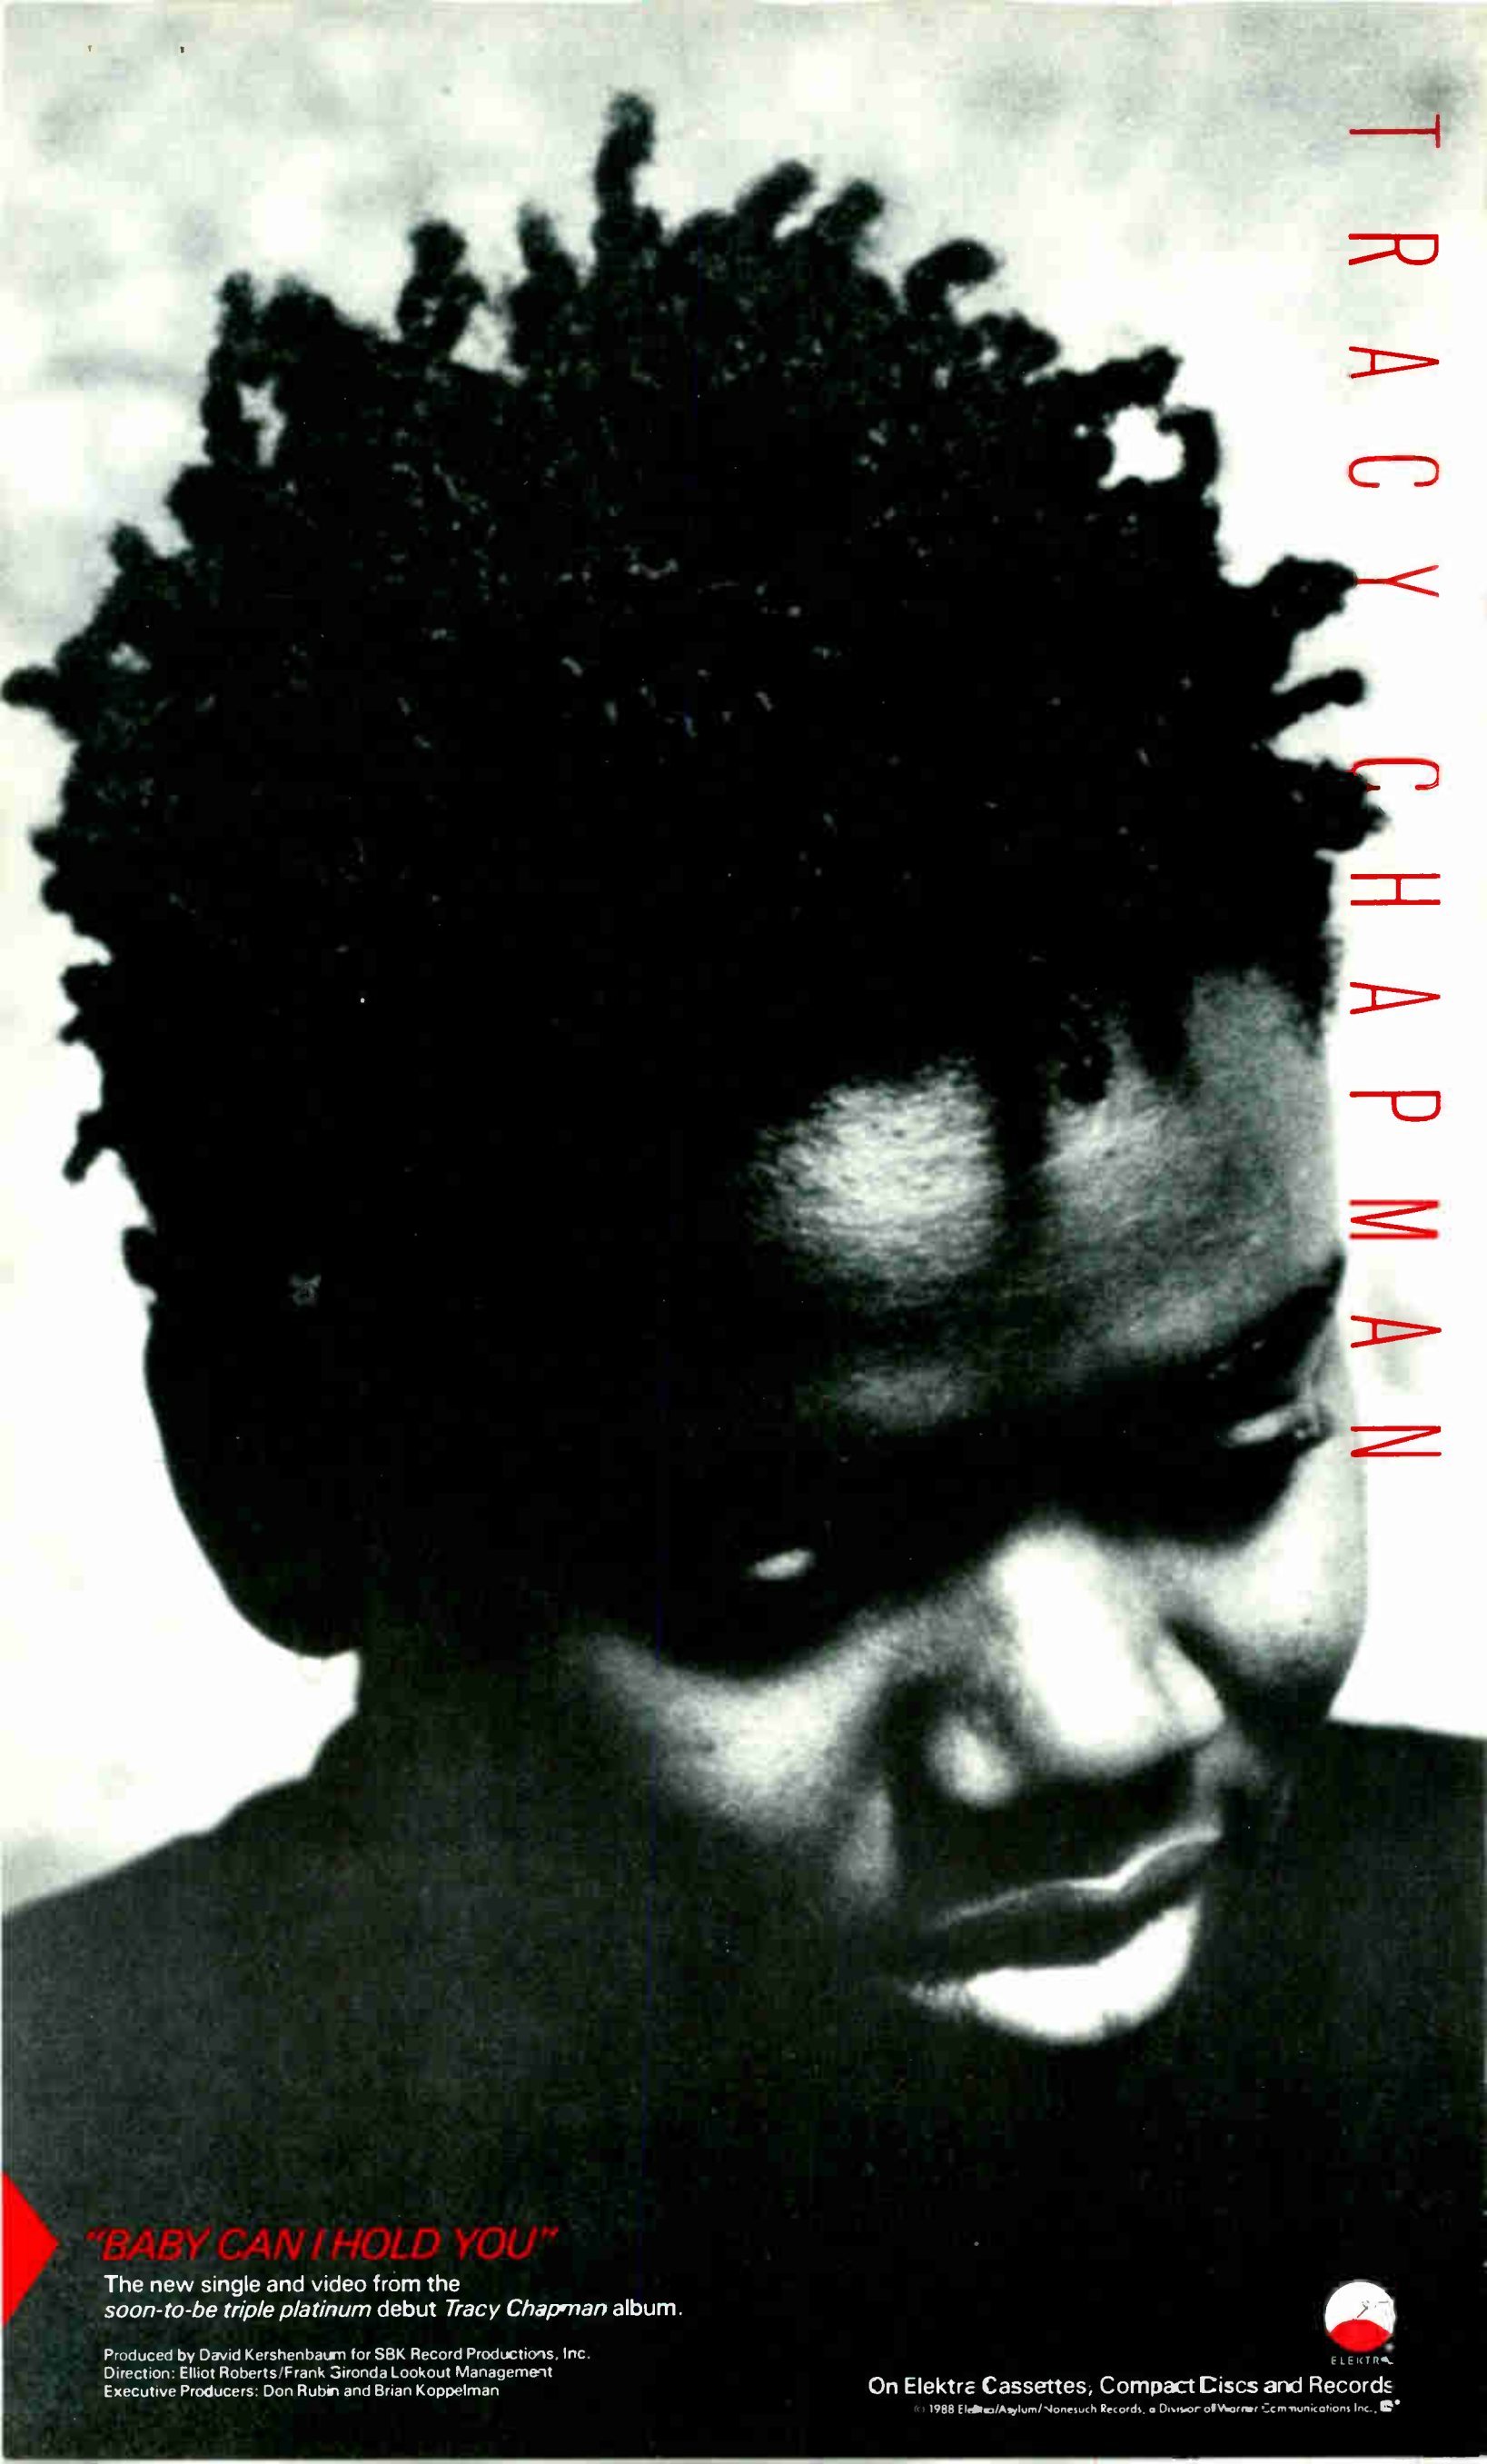

Al Stewart, "License To Steal", Enigma.... This is the song to bring Al Stewart back to the airwaves bigtime. In fact we're a little surprised that this wasn't the first offering from "Last Days Of The Century". This song smokes, it's the hottest thing Al's ever done with a guitar riff that is tailor made for upper-demo AOR with lyrics that are hysterical. It's timely and topical, in fact, recent call-out research reveals that 81% of all adults have contemplated attorneycide at least once in the past year. Play it often on the morning show, and your listeners will be screaming for it on the phones for the remainder of the day. Double-team it with "It's Money That Matters" for an added punch. Already on at WKQZ, KQWB, WFYV, WMJY and WSTZ, with heavy play at KPEZ where **Elise Vander Borcht** notes that "this is the perfect radio song in this day and age".... Here's a lawyer joke to set the track up: What's the difference between a dead skunk and a dead lawyer in the middle of the road? There are skid marks in front of the skunk. (Just another reason that the Hard Report is your full-service trade magazine.)

IMPACT TRACKS

Joan Jett, "Little Liar", Epic.... Joan delivers the second Most Added track here in Hardland with new air at KBER, KKDJ, KOME, KRIX, KRXQ, WAPL, WCCC, WGIR, WIOT, WLVQ, WMMR and DC-101 plus another 25 rockin' reporters. More importantly, the Biggest Mover on the Hundred by a long shot with a major 100-49* increase. It looks like Joan has saved the best track from the LP for now. The "Baby Tush" mix is getting the same oohs and aahs as a newborn's first trip home. Check WGIR's musical mid-wife **Karen A. Small**, "'Little Liar' shows Joan handling some of the strongest vocals of her career. Coming hot on the heels of 'Hate Myself For Loving You', this one will provide her with another hit, as well as show that she is able to deliver a power ballad with the best of them".... **KOME's Stephen Page** concurs, "Joan Jett's 'Little Liar' is quite possibly the best thing she's ever done vocal and production wise. It's totally accessible to all dayparts".... On 56, but don't be shocked when that number doubles next week.

Little Feat, "Long Time Til I Get Over You", Warner Bros....

At their recent New York City show this tune was screamed for by a number of "Featheads" to an even greater degree than some of their standards. And when you survey tastemaker-land, it's obvious to see why. Just call **WKRR**, where **John Amberg** skins this remark back, "The new Little Feat cut has that vintage sound our audience just loves".... or **WRIK's Craig Bradley** who steps out of the bathtub and towels off this statement, "Finally Little Feat's 'Long Time' gets some airplay. In my opinion, it's the best cut on the album".... Da Feats have the fourth Most Added track with CHEZ, KLOL, KOME, KSHE, WCCC, WGIR, WIMZ, WLAV, WLVQ, WYNF and another 15 doin' the tripe face add boogie. The resurrected Feat are anything but cold cold cold, and with 62 already on the latest emphasis track, the 62-43* move on the HH is academic. For all those who haven't caught this red streamliner yet, all we have to say is you be illin' if you ain't willin'.

U2, "Rattle And Hum", Island.... With this monumental release U2 have achieved what only two other musical aggregations have accomplished---they've attached their name to a decade! Think about it, if you try to associate a band with the Sixties, The Beatles are the name you'll most likely come up with. As for the Seventies, Led Zeppelin is the logical answer. With the format's arrival at the autumn of the Eighties, yet another imported fourpiece has established themselves at the apex of AOR airplay... U2. "Desire" holds firm at the top of the HH, and the only question remains; how do we pick from a deck that is so loaded? Rising to the surface of possibilities are "Angel Of Harlem" with 33 new adds, accounting for third Most Added status all by itself. Not to mention a 37-23* move, and over a hundred reporters on board. Also, "When Love Comes To Town" chalked up 22 more adds and finished in the top ten Most Added category as well. Then there's "God Part II" (48-37*/10 adds), "All Along The Watchtower" (72-65*/5 adds), "Helter Skelter" (#81) and "All I Want Is You" (#99). Let's face it, no matter which road you follow, there's a light at the end of the tunnel. We'll leave the final words to WYNY's **Charlie Logan**, "Could U2 get any bigger?... Yes!" and WGTR's **The Colonel**, "Our listeners can't get enough. This is one CD that's going to be around for a while."

Bad Company, "One Night", Atlantic....

Rounding out the Top 5 Most Added category is this venerable bunch of veteran rockers. New air at 23 including, KBER, KEZO, KLB, KZAM, WGIR, WIOT, WLAV, WLVQ, WRIK, WXRC and WHJY. Speaking of WHJY, their very own Dr. Spock of the RPM's, **Chris Herrmann** tries this vocal vulcan death grip, "I've got a really good feeling about this new Bad Company track. 'One Night' looks and sounds like more of the best from these guys".... Hey babe, we agree. Just check the Biggest Move list and you'll see Mick, Simon and the guys resting comfortably at #3 with a 83-56* increase. If their last album misfired, this one is having no such problems. As "No Smoke Without A Fire" smolders at #16 on the HH, the time is right for a move to the perfect follow-up. Join the 45 already in, and we'll make the comeback complete.

Steve Earle, "Copperhead Road", UNI....

If you feel that a certain sameness may have reared its ugly head in the confines of your station's playlist, Steve has the perfect physic. "Copperhead Road" picks up 23 more patients including, CHOM, KKDJ, KLPX, KTXQ, WAOR, WEGR, WLVQ, WPLR, WRKI and WRXL. Not to mention increases from, KDJK, KGB, KILO, WAPL, WCCC, WRIK and another 8. Steve moves effortlessly into the top third of the Hard Hundred with a 47-31* jump this week and we won't rest until it's Top Ten city. **KTXQ's Redbeard** hits it right on the mark, "Steve Earle works because it's different, it works because it's dynamic and it works because it's the real underbelly of a lot of Americana. We haven't always been sushi and BMW's. We've been white lightning and copperhead road"....**WKRR's John Amberg** sums up this office's attitude, "All the new records, as good as they are, pale in comparison to the new Steve Earle LP. This is one of the most significant new releases of 1988". 'Nuff said.

Steve Winwood, "Put On Your Dancin' Shoes", Virgin....

Sixteen more roll with the latest priority from Steve including, KILO, KSQY, WAOR, WDIZ, WLAV, WRKI and WXRC. Increased at KLB, WPLR and more with steady action reported from, KBCO, KISS, KLOS, KZAP, WGIR, WIOT, WLLZ, WLVQ, WRXK and many more. It's party time whenever this blue eyed soul boy hits the air and this current emphasis track is a prime example. **KKZX's Christina Gorton** concurs, "Pass the brewski and cue up 'Put On Your Dancin' Shoes' from Steve Winwood. The man has become an undeniable staple for the format in the Eighties".... On 51 already and in Heavy or higher at KISS, KLB, KLOS, WGIR, WIOT, WPLR, WRXK among others. Moving 68-51* on the Hard Hundred.

Poison, "Every Rose Has It's Thorn", Enigma/Capitol....

New Adds come in this week from, KDJK, KISS, KLAQ, KRXQ, WAOR, WGIR, WLLZ, WONE, WPLR, WZZQ and a lucky thirteen more. These heavy heartbreakers have already rung up triple platinum sales performance and with this obvious cross format smash that looks to be a mere drop in the proverbial big bucks bucket. On three dozen already with early rotational ups from KJJO, KNKN and WCCC, these guys are ready for even more fun and games. **WNPQ's Eric St. John** has a good grip on the big picture, "Poison is headed straight for the top before this single is done with. It's nice to see the boys coming out with a change of tempo".... The slower stuff should bode well for this west coast staple of the exclusive Hard Report Babe-O-Meter. We are looking for at least double the numbers in the coming week to push along that debut at 75* on the Hard Hundred.

House Of Lords, "I Wanna Be Loved", Simmons/RCA....

By now the focus should shift from Mr. Gene's involvement in this debut effort to the apparent surplus of hooks included. The House approach the half century mark in station activity thanks to new air at, KAZY, KJJO, KLOL, KSJO, WAPL, WLLZ, WONE and a half a dozen more. Early increases are in from, KBOY, KRIX, KRXQ and WQFM with Top 5 phones reported at WLZR. Bwana was more than impressed with the showcase in Lost Wages even though he reportedly dropped at least \$31.42 at the tables---give or take a nickel. For further testimonials here's **KSJO's Patty Martin**, "House Of Lords have everything it takes to be a big, big band. All the elements the kids love are here. After so few gigs they already have that arena feel"....also **KBOY's Bob Jeffries**, "House Of Love is power rock and roll. 'I Wanna Be Loved' is a first track phone reactor".... The fourth Biggest Move on the Hard Hundred with a 84-59* jump.

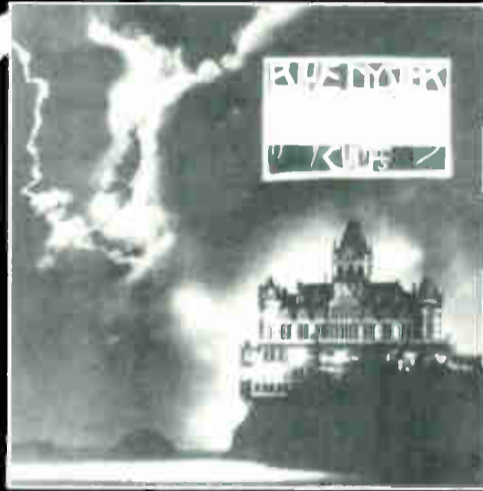

Melissa Etheridge, "Like The Way I Do", Island....

There can be no denying that this lady has struck a chord with the audience by aiming straight for the heart. CFOX, KFMX, KKDJ, KOME, WAOR, WIOT, WRKI and 10 more come in, bringing the station base up to 72. The kudos are coming in loud and clear. **WIOT's Jim Steel**, "We finally got room for "Like The Way I Do" from the best new artist of '88---Melissa Etheridge. Her star continues to shine brightly".... **KQWB's Ty Banks**, "Melissa Etheridge fever is happening. 'Like The Way I Do' is developing into the strongest track yet"....and **KOME's Stephen Page**, "Melissa Etheridge's 'Like The Way I Do' smokes"....51-39* on the Hard Hundred and a more than worthy addition to any playlist.

HIGH SCHOOL
was never like this!

"Girlschool"

The Video Top 3 requests in just
one play! Major rack action! Already
on over 40 album rockers.

The Pretenders, "Windows Of The World", Polydor.... 22 stations go OTB for Chrissie and Company with the action nearly evenly split between "Windows" and its more upbeat B-side "1969". Most everyone agrees that Chrissie's voice just gets smoother with age. **WAQX's Lorraine Rapp** concurs, "Chrissie Hynde's cover of 'Windows Of The World' knocks me out. I think the Pretenders do an incredible job on this song and I can't rave enough about Chrissie's soulful delivery".... **WXRT, KTYD, 91X, KFMG, WEQX, KACV, KQWB, KAFX and KSQY** are all aboard. A heritage artist like the Pretenders can do wonders for your midday hours, but if "Windows" is too calm for even your quietest moments, flip the 12" over and check out "1969". It's the track of choice at **WNEW, KISW, KILO, WBRU, KROQ, WPLR and KKZX** where **Christina Gorton** adds, "The Pretenders hit the air this week. '1969' is our pick from the project and it should deliver positive reaction from our core".... Take advantage of the imminent release of the film and the fact that this is the only "new" cut on a soundtrack loaded with groovy 60's nuggets from Cream, Canned Heat, Blind Faith and the Zombies and get on the bandwagon right away.

Johnny Winter, "Rain", MCA.... Wasn't too long ago that you had to search high and far to find anything remotely resembling blues on AOR playlists, but with Robert Cray paving the way, artists that have struggled for commercial notoriety for years are now cornerstones of a format gone ga-ga for roots rock. The chart reflects a major 54-42* jump as 15 new stations come aboard including **WNEW, KTXQ, WHCN, KZAP, KZEW, KNCN, KZRR and WDIZ** where **Lee Randall** says, "After three listens to Johnny Winter, you have to 'call the law'".... We also heard from the seldom tongue-tied **Erin Riley at WMMR**, "If Johnny Winter wanted to go away for such a long time that's O.K. by me since he came back with such a strong record. 'Rain' shows off his classic style, great guitar playing and very cool voice".... Now on 65 with heavy play at **KQRS, KPEZ, KSJO, WCCC, WBYR, KFMH, WCKW and WIMZ**.

John Mayall, "The Last Time", Island.... Although it may not have been obvious at the time, John's work two decades ago did much to define the parameters of a format that would eventually evolve into Album Oriented Radio. It's a pity that most rock retrospectives dwell on the influences of the British Invasion or burnt-out acid rockers while all but ignoring the contributions made by great blues musicians such as John. Thus it's particularly gratifying to note strong early response to "The Last Time". The two-week total now shows play at 30 stations after adds at **WNEW, KSHE, KEZO, KGON, WBYR, WMFX, WPLR, WRXX and KRQU**. **Phil Maicke** of **KFMH** steps front and center, "The biggest surprise of all is John Mayall. Here's one of the influences returning with an excellent release".... Right behind Phil is **KOAS's Mike Gardner**, "John Mayall's 'Chicago Line' is strong all the way through. It's great to see John on a major label doing his stuff with such a tight sound".... One of the weeks biggest movers with a 20 point 99-79* climb.

Dreams So Real, "Rough Night In Jericho", Arista.... The re-tooled AOR machine at Arista has delivered another winner for the format. The label that finally broke the Church and introduced us to Stealin Horses and Jeff Healey, has made a wise investment in this talented trio from Athens, Georgia. New play on 15 including **WEZX, KZAP, KILO, WFYV and WPLR** brings the cume to nearly 40 stations after only two weeks. The 98-70* run on the Hard Hundred qualifies as the #2 mover of the week, and the considering list is even longer than Gene Simmons' tongue. Radio reaction has been positive: From **KILO's Alan White**, "Dreams So Real are competing with lots of strong records from good new groups, but of the entire bunch, they've got the best straightforward rock and roll feel".... **Beth Kepple** at **WKLS** adds, "Dreams So Real still haunts my musical conscious. It's hard to believe that only three guys can put out so much sound".... The Lp is fast becoming a staff favorite at Hard Headquarters--check out "Bearing Witness" and "Distance" for proof that this major-label debut has the legs to stand among the big boys.

New Frontier, "Under Fire", Mika/Polydor.... Few bands sound this clean and polished on their very first release. "Under Fire" can more than hold its own up against the better established competition. More than 40 stations have found room on their playlists for these California natives with **WKXL and KRIX** the latest believers. **Matt Roberts** at **KRQU** has seen the potential in the band, "New Frontier moves up to heavy this week based on some really good phones. This is a band that deserves far more attention than they have gotten so far".... Expect the 62* chart showing to improve once that positive research starts flowing in. **KAZY, WFBQ, KOME, KEZO, KBER, WCMF, KBPI, KZAP, WLLZ and KRXQ** are among the major market leaders out front early for New Frontier.

Jimmy Barnes, "I'm Still On Your Side", Geffen.... One of the most pleasant surprises of 1988 has to be Jimmy Barnes delivering a record that can stand up to three-deep airplay. Here Jimmy shares songwriting credits with **Jim Vallance** and **Jonathan Cain**, and the result is a track right out of the Seger/Springsteen mold that AOR should embrace with open arms. Jonathan plays keyboards and buddy **Neil Schon** contributes guitar work along with **David Lindley**--it's that Southern California connection that has been the catalyst needed to break Jimmy here in the States. Adds from **KJJO, WTPA, WZZQ, WKLC and WRIK** along with rotation increases at **WDHA, KBOY, WCKO, WMJY and WIMZ** are responsible for a 80-68* Hard Hundred showing. Most of you got good enough mileage out of "Too Much Ain't Enough Love" and "Driving Wheels" to make this third track a prime consideration for airplay on any station USA.

Southside Johnny, "Ain't That Peculiar", Cypress/A & M.... The biggest challenge for any artist is stepping beyond the boundaries of their image into something new and challenging. Some are content to give the public what they want year after year, while other performers try to reach out only to leave their audience behind. On his very first solo album, Southside leaves the Jukes and allows his fans to see him on a more personal level. Even though this first single is a cover of a Marvin Gaye song, it's obvious that Johnny has put his own stamp on the track. It's also obvious that Johnny's voice has never been stronger--**WIZN's Tom Van Sant**, "'Ain't That Peculiar' shows Southside in his prime, still beltin' it out".... As expected, the strong East coast base has already come through with play at **WMMR, WNEW, WDHA, DC-101, WIYY, WBCN and WMJY**. Also represented are **KBCO, KZLR, KTYD, KFMH, KZOQ** and 25 others. Johnny takes an impressive jump on the chart, 89-72*.

Bulletboys, "Smooth Up", Warner Brothers.... You have to admire a band that can put as much energy into a record as **Jim Trapp** devotes to rooting for the Dodgers. (Call Jim, and ask him to sing the Dodger fight song he composed--try not to laugh.) "Smooth Up" captures **WDHA, WIXV and KZAM** to take the station count over 40, and rotation increases from **KKDJ, WAPL, WCKO and KNCN** push the cut 69-60* on the Hard Hundred. We've also had to order a new Babe-O-Meter. **Kip Winger** had just about worn the old one out, but **Bulletboys** front man **Marq Torien** forced us to buy the heavy-duty model. (See pictures of Marq with our own **Chris Black** in this issue--they're the Ken & Barbie of the 90's.) No less of an authority than **Z-Rock's Tracy Barnes** advises all, "Keep both eyes on the **Bulletboys**. We're two tracks deep and both are in power rotation".... Other heritage rockers using the **Bulletboys** to entice those lower demos include **WKLS, KAZY, WYNF, WLZR, KSJO, KGON, WDIZ and KICT**. New hard-rock bands pop up all the time, but it appears that the **Bulletboys** will be among the small percentage to realize commercial success.

Dare, "Abandon", A & M.... Hailing from Manchester, England these five young men have been together as a band for four years, and prior to that, leader **Darren Wharton** spent several years touring with **Thin Lizzy**. First week OTB action shows 12 adds from the likes of **KBER, WLLZ, WLAV, KMOD, KEZO, and WEZX**. **WRIK's Craig Bradley** expects big things from this new project, "I really like 'Abandon'. The song is well put together, and you can almost anticipate a hit just listening to it build up. I fully expect Dare to deliver over the next several weeks".... It's been quite a while since **A & M** has had a band of this genre on their roster, and they've picked a top-quality act. Watch for a Hard Hundred debut next week and expect **J.B. and Co.** to drive it all the way home.

Screaming Tribesmen, "I've Got A Feeling", Rykodisc.... We found it interesting (but not surprising) that this song is now in heavy/power rotation at more than half of the stations where it has airplay after upward moves by 91X and KROQ. It's a fact that this record has performed well and generated tons o' requests from San Diego to Boston. All this track requires is one solid listen to drive the nail solid and deep. They've been selling records, too--witness top 10 retail reports in Washington and Seattle. We keep coming back to this record for the above reasons and also because the "Bones And Flowers" album has helped us maintain our strength through many a deadline night. Dig it out and listen again. The Tribesmen are currently touring the Midwest with UB40, and will soon begin a coast-to-coast headline tour and you know we'll be there in the front row when the show hits Philly-town. The track moves 94-93* with support from KLBj, KISW, WBCN, WRCN, 91X, WFNX, KROQ and several others.

Various Artists, "Guitar Speak", IRS.... This collection of "Music Without Words" arrived to rave radio reviews, and after a week, three tracks are gaining the most attention. Those Texas-types at KTXQ, KLBj, KISS and KNcN jumped right on native son Eric Johnson's "Western Flyer". Steve Howe's virtuoso performance on "Sharp On Attack" finds a home at KLOS, KOME, WGIR and KRXQ. Alvin Lee is the first-week radio leader as "No Limit" gains airplay at KYYS, KISW, WEZx, KMOD, KFMH and WAPL. Recapping the raves: **KOME's Stephen Page**, "Guitar Speak is our strongest add this week. The album is simply incredible".... **Lee Randall at WDIZ**, "The listen of the week is Guitar Speak".... And finally from **Karen A. Small at WGIR**, "As a guitar player, I eagerly awaited the Guitar Speak release, and I was not disappointed. Great guitar playing always deserves a place on album radio".... Guitar greats from the past 20 years abound on this collection, and there's something here for most any taste.

ALBUM PLAY PRIORITIES

Cheap Trick, "Ghost Town", Epic.... On first listen this is the most obvious radio track on the "Lap Of Luxury" album. All the Beatlesque overtones that have marked prime Trick material in the past are here in abundance and the recurring lyrical hook pushes into the foreground and stays there. 26 stations are already on this solid depth cut with KATT, KILO, KLOL, KISW, WNEW, WLLZ, WKLS and WIYY among them. That 83* debut on the Hundred and those long lines at the retail counter indicate a solid contender for comeback of the year status already and the band has shown no signs letting things cool now that they have the heat turned up.

Robert Plant, "The Way I Feel", Atlantic.... This album has elbowed its way onto the most played lists of almost every station across the country. The solid craftsmanship exhibited has projected Robert Plant into a very exclusive league; The Return Of The Rock Superhero. Comebacks are fairly common, but not when they take one of the exalted few and return him to his former dominance as though no time had intervened at all. "He's the only man that really counts. As a solo artist he can't be touched by an entire generation of rock and roll peers", says **KKZx's Christina Gorton**. Heavy airplay on DC-101 and WDVE leads the way for continued support on KILO, WRQK, KSHE, WLZR, WKLS and WLLZ while a host of new play on KEZO, WKDF, KLBj, KZAP, KNAC, KSQY, WZXL and KRZQ underline yet another big point grabber for the that tall curly one.

Jethro Tull, "Overhang", Chrysalis.... Originally recorded back in '81 and left lying in a vault for all these years, this track shows the timeliness of Ian Anderson and his music. When plans for this compilation came out, Ian pulled the original tapes for "Overhang" and remixed them along more modern specs. The result is a traditional Tull composition with all the streamlined effects we have come to expect from latter 80's period production, including a newly recorded vocal. A debut of 78* on the Hard Hundred gets fueled by airplay on KAZY, WRDU, KKZx, WIXV, KMOD and WAPL all of whom have joined the parade this week while consistent airplay on format leaders like WLLZ, KYYS, KSHE, KILO, KOZZ and KEZO indicates more of the same in the weeks to come. When familiarity blends so well with a sense of newness, can mass appeal success be far behind? With the answer to that question being an obvious yes in the case of Jethro Tull, how can anybody deprive their audience of this treat?

Santana, "Black Magic Woman", Columbia.... More than mere fodder for "remember when" libraries coast to coast, this collection of stellar performances by Carlos and his ensemble(s) show a marked sign of becoming one of the most warmly welcomed anthologies of the year. "It's hard to believe that there are so many younger listeners who are unaware of this man's contribution to the scene", according to **Christina Gorton at KKZx** and if the 26 reporting stations currently on this package have anything to say about it, that's a condition that won't last long. Airplay on KBOY, WLvQ, WPyX, WfYV, WQFM, WDIZ, KMOD, WAPL, KSJO, KXFX and KTYD gets a juke from new players KICT, WHEB, KLPX and WGIR to help motivate that 91* debut on the Hard Hundred.

Tommy Conwell, "If We Never Meet Again", Columbia.... There were those among the Blackrock braintrust who thought this should have been Tommy's first single. But in deference to songwriter Jules Shear and his own album release, the plan was shelved in favor of the by now phenomenal "I'm Not Your Man". **WAQx's Lorraine Rapp** calls it, "A winner... a great follow-up to his first single". At **WYNF Charlie Logan** tells us the man is, "Coming on like gangbusters, getting top five phones this week." And **Hubby Dean at KZRR** agrees that Tommy, "Continues to rack up audience support with his debut album." The station roll-call is not lacking either with KGB, WZZQ, KYYS, WDHA, KATT and WCCC all adding their weight to that 96* debut on the HH. We still track continued success at WZZO, WEZx, WRUF, WHCN, WIYY and hometown WMMR for the Rumlbers and that old platinum radar is starting to scream loud and clear.

Bon Jovi, "Born To Be My Baby", Mercury.... Now that "Bad Medicine" has set the tone for Jersey Jon's assault on radio, we look for this change of pace to set the mortar on his Star here at the Hard Walk Of Fame. "People are extremely hot for this album and 'Born To Be My Baby' is the obvious next cut for radio", according to **Eric St John at WNpQ**. 95 other reporters couldn't agree more with their rotations going right where their ears tell them to. KBPI, WZEW, KISW, WMJY, KMOD, KLAQ, KEZE, WEGR and KQDS all sign on this week with rotational increases reported at KNcN, WRQK, WKLS, WXRC and KRXQ among others. That supercharged 31-26* bump on the Hard Hundred gets solid support all around and like **KZEL's Al Scott** sez, "No signs of burnout here and the phones are still hopping for almost everything on the album." In fact, this track is already one of our most requested songs at Hard Acres. How long can New Jersey wait before naming a town after this guy?

.38 Special, "Little Sheba", A&M.... The new musical impetus of this band has been loudly applauded by the format and with good reason. The classic .38 Special hold on female phones is as potent as ever but the addition of Max Carl, "Has added so much to the band. "Little Sheba" is the most fun on the radio right now", according to **WYNF's Charlie Logan** while at **WBLM Robin Mathieu** realizes the Rock and Roll Strategy of the moment calls for an increase in rotations, "We are covering our flanks against CHR with this album... it is going to go far with multiple formats". New play on WLLZ, KILO, WLAV, KRZQ, WIXV, KSJO, WHCN and WDIZ nails down that 87* debut on the charts this week while continued play at KPEZ, WYNF, WCMF, WmFX, WLZR and KMOD adds up to yet another smash from this revitalized group of format regulars.

Michelle Shocked, "If Love Was A Train", Mercury.... Making Jane Fonda's activism look like drying paint, this gal gives new perspective to the "angry young woman" syndrome. She gives a lucid no-frills glimpse into her vulnerable mindset but pay no mind to us, listen to **Lin Brehmer** of **WXRT**, "She's got a great voice; she's charismatic; she's funny; and she's going to be a star. She seemed wise beyond her years. Her humor had the warmth of Will Rogers and the worldliness of Cisco Houston. Michelle Shocked made a deep impression at her Chicago concert." 14 stations jump on, including **KISW**, **KSQY**, **WKXL**, **WMMR**, **WRCN** and **WRQK**, to join the ranks of **KBCO**, **KISS**, **KNCN**, **KYYS**, **WBLM**, **WCKO**, **WLLZ** and **WNEW**. Denoting requests are **KFMH**, **WKRR**, **WMJY**, **WRDU** and **WVVV**. Don't let the current tidalwave of guitar toting female troubadours stop you from adding Michelle. **KZEW's Andre Gardner** says, "Michelle Shocked is a real talent. 'Train' is pure magic on the airwaves and brightens any set that it's in." The Hard Hundred shows a 43-34* move.

Georgia Satellites, "Hippy Hippy Shake", Elektra.... Stripped down of any softening nuances, the Satellites re-emerge as the big gravitational force hits hard with this little ditty. Chalk up 21 adds at **KGB**, **KLPX**, **KMBY**, **KNCN**, **KPEZ**, **KZRR**, **WAOR**, **WAQX**, **WGLF**, **WHEB**, **WKRR**, **WMAD**, **WMMR**, **WONE**, **WPLR**, **WWWV** and **WXP**. Add that along with 14 rotation increases from **KDKB**, **KWHL**, **WBLM**, **WDHA**, **WLWQ**, **WXRC**, and the **HH** says "Bump me" from 33-25*. **CHR's** are already avoiding their usual lagtime, but who can deny the charm of these screaming Southerners? **Robin Mathieu** at **WBLM** reaffirms, "The Georgia Satellites will have a very big hit with 'Hippy Hippy Shake' and we want to get a jump on the competition with this one."

Jeff Healey, "Confidence Man", Arista.... Even sitting down, this guitarist can stun audiences into musical submission. Currently making the rounds of concert halls and video sets, Jeff has been leaving a wake of praise such as this from **Jeff Ivan** at **KFMX**, "Thanks for letting me witness the most dynamic new artist of our times, live. I'm speaking of Jeff Healey. It was the most intense musical experience of my life. If you've never seen him live, don't pass up the chance to do so." He is not lacking in company, 127 other stations, including **KBPI**, **KEZE**, **KLBJ**, **KOMP**, **KSJO**, **WNEW**, **WQFM**, **WRUF** and **WNPQ**, are still picking themselves off the collective floor, and 11 stations tabulate top five phones. In a already crowded chart, he paces surely up 24-18*.

Tom Cochrane and Red Rider, "Big League", RCA.... In other leagues, (aka National and American), the competition is fierce and divides friends, family and co-workers alike. With Red Rider, there is no question about to play or not to play. Just ask these players: **Craig "Canseco" Bradley** of **WRIK**, "Tom Cochrane has one of the better cuts off one of the better albums this year, it moves to heavy with top fifteen requests." **Tim "Hershiser" Brandow** at **WKQZ** says, "The Tom Cochrane and Red Rider track 'Big League' grabs you and won't let go. This is the song that stands out the most for me this week." And from **Mike "Pastaman Lasorda" Ryan** of **WKGR**, "Tom Cochrane has been slowly building audience response and we hope to see it turn the corner sometime soon. I listened to the album over the weekend and it sounds deep from where I sit." The **HH** scores a handy 17-11* move with a future draft pick.

Edie Brickell and the New Bohemians, "What I Am", Geffen.... A possible nomination for Best Phone Technique may be in the works after a conversation sparked this comment from **Matt Roberts** of **KRQU**, "I was jelly for days after I heard Edie Brickell's speaking voice. She gave me a call to talk about the new album and let me tell you, I may never be the same." Matt's gonna save countless dollars from not calling those 976 numbers, glad we could do him the favor. Edie's kahlua vocal cords are liquifying on phone and record store lines everywhere, with 13 adds this week from **KISS**, **KMBY**, **KNCN**, **WAVF**, **WWDC**, **WZXL**. This raises the station count to 89 total, and the **HH** goes 36-32*.

HARD FACTS

Randy Newman, "It's Money That Matters" Reprise.... Randy Newman has come out with a very strong album and 'It's Money That Matters' is a perfect example of the man and his genius for pop that matters." **Robin Mathieu**, **WBLM**.
REPORTING: 170-KBCO, KISW, KLOS, KRQR, KSHE, WLUP
ADDS: 5-KOAS, WCMF, WMFX, WNOR, WXP
INCREASES: 42-KZRR, WAPL, WAQX, WBCN, WLWQ, WZXL
HEAVY/POWER: 122-KFMG, KSJO, KYYS, WAOR, WBLM
PHONES: 14-KDKB, KKDJ, KLBJ, KMOD, WCKW, WZEW
CHART: 4-4*.... While the shaved and tattoo-clad defy the status quo with their confrontational white noise, this introvert stages his protests through the system, instead of against it.

Ivan Neville, "Not Just Another Girl", Polydor.... The undiscerning ear might detect a semblance to Huey Lewis, but a vocal similarity does not a valid comparison make. Ivan's off breaking new ground and melting hearts everywhere fast. Off in the mecca of the Willamette Valley, **KZEL's Al Scott** says, "Ivan Neville tested real well on the new music show and should do good things here in Eugene." Further down the coast near Dodgerland, **KOME's Stephen Page** laments, "Ivan Neville goes to medium. It definitely deserves a higher rotation. We've seen some good response and it's one of the hottest vocal performances of the year." 39-33* is the result of 13 impressive new play from **KNCN**, **KZEL**, **WDVE**, **WPDH** and **WRXL**.

Kansas, "Stand Beside Me", MCA.... This powerful undercurrent of Seventies album rock has returned to stir up a few more ripples. Put on your hipboots and wade in. 15 adds this week from **KFMG**, **KGB**, **KWHL**, **WBLM**, **WCMF** and **WPYX**. **KTXQ's Redbeard** is amazed and observes, "There's a reason why Kansas brought Bob Ezrin in. It's because these guys are serious. I'm getting on top of my desk for the depth of this record." 112 reporting into Hard Central including **KEZE**, **KFMG**, **KISW**, **KMJX**, **KQWB**, **WLAV**, **WLZR**, **WYNF** and **WZBH**, and 16 hefty airplay increases from **KSHE**, **KTXQ**, **KZRR**, **WBCN**, **WCKW**, **WDVE** and **WTPA**. You can't deprive your needy demos of this versatile morsel, which shows no symptoms of stall-dom with a **HH** reading of 27-20*.

Winger, "Madalaine", Atlantic.... Months ago, we recall a demo skittering across the metal desk, and the now immortal phrase, "Hey, what a babe." Now, dozens of writeups and probably hundreds of video viewings later, we are witnessing the effect of the music itself. The first track of a surely long line of singles, the album itself is certain to have the longevity of some types of hair dyes. On top of all this anticipation, **WNPQ's Eric St. John's** compliments seem almost anti-climactic, "Winger continues to get a lot of attention and deservedly so, this is an incredibly strong rocker." **KXFX**, **KZAM**, **WAVF**, **WIOT**, **WPYX**, **WWCK** and **WWWV** report in a total of 7 adds, to juice that station bottom line to 106. The **HH** shows a climb 32-27*. **KBPI**, **KEZE**, **KFMG**, **KGON**, **KISW**, **KOME**, **KRQR**, **WNEW** and **WZZO** make up a small part of stations already on what will certainly be one of the hottest bands of 1989.

Keith Richards, "Take It So Hard", Virgin.... Easy times lay ahead for the rest of this record, number 4 most requested, number 3 in both the **HH** and the album chart with bullets all over the place. Even the video, not always an indicator of radio play, is greeted with increased rotation. **Elise V. Borght** of **KPEZ** waxes, "Love that Keith Richards. Top five phones since day one." Make no mistake, there is no loss of momentum for this monster, considering that there are 172 stations all over this puppy, including **91X**, **KAZY**, **KDJK**, **WAPL**, **WAQX**, **WCCC**, **WDIZ**, **WSHE** and **WWDC**. Gotta love the textured feel to the video, which in light of the artist in question, is no mean feat.

John Hiatt "Slow Turning" A&M.... "John Hiatt continues to do very well around here. It's a catchy tune with all the elements of a hit right up front in the mix." **Hubby Dean**, **KZRR**.

NOISEMAKERS

WFBQ/Indianapolis chieftain **Jim Pemberton** has exited after a five month tenure. Mutual agreement between Jim and Management led to this parting of the ways while we continue to hear talk about future career opportunities on the West coast. With regard to the continuing rumors that Jim is going to join **Pollack Media Group** he told us, "We talked about it and we are continuing those discussions." Look for Jim to keep the pipeline hopping with news in the coming weeks.

WIBA/Madison has chosen **Bob Allen** as their new PD. Bob had previously flirted with a station situated in the armpit of the world prior to securing this prime job in a truly beautiful part of America. Any big changes on the horizon at his new assignment? "Not really, just a little tweaking for the time being." Look for Bob's promotional savvy and rock and roll smarts to help the station in their head to head slamdance with a currently pilotless **WMAD** across town.

KXRX/Seattle has edged ever closer to their impending change at PD. The move has been engineered by **Paul Sullivan** and is designed to get some new juice behind the day to day PD grid at the station. The name most mentioned in our pipeline wouldn't even have to change timezones but he would be making a severe shift North. That would put **KGB PD Ted Edwards** in the fog belt with a vengeance, if the rumors are true. Details remain fuzzy but Ted is the leading candidate for the job by all accounts. With the last book showing **KISW** doing strong stuff under the newly installed Sky-Boy regime and a settled airstaff, it is time to get things hopping around the Puget Sound.

Here we have a rare shot of the Traveling Wilburys not actually in motion. Pictured are WB's **George Gerrity Wilbury**, **Kenny Puvogel Wilbury** and **Clyde Bakkemo** with the Resting Wilburys: **Otis**, **Nelson**, **Charlie T. Jr.** and **Lefty**. Lucky Wilbury was actually traveling at the time of this shot, performing in Philadelphia at the time.

POLLACK PASSES THE HAT

The **Pollack Media Group** is looking for morning talent to man the walls at various major market stations in their stable. Get your best toast and jam aircheck to the boys out West and pack those bags for an extended stay in the bigtime. The Company also called to inform us that **Carol Holt** has been signed on as Director of Operations. A ten year broadcast vet with time spent at ABC/Watermark and Drake/Chenault as well as Radioworks, Carol has Jeff rhapsodizing, "We're delighted to have someone with Carol's multi dimensional background to be a key member of the Pollack team." Speaking of that team, they are still looking for a National MD to replace Rockin' **Rob Lipshutz**. Candidates must be residents of Southern California and should contact the company ASAP.

TVT SIGNS DILLER

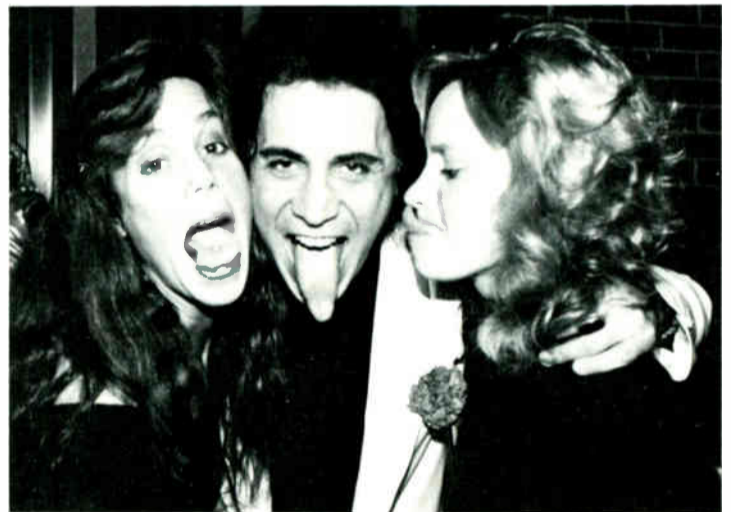

Mark Diller, former Northeast Chrysalis Promo Rep and Atlantic vet, has joined the ranks of **TVT's** radio promo squad with the goal of making the world safe for their new project the **Jack Rubies**. Look for the vinyl to hit your desk in the next week.

HOUSE OF LORDS RECAP

Nothing could have been more fun than getting a host of AOR heavies together in the wastes of Las Vegas for the **House Of Lords** unveiling. The premiere act for **Gene Simmons** own label, **House Of Lords** have crafted an album chock full of core pleasing rock and roll designed to maximize audience reaction all down the line. First there was that breathtaking walk through the neon Las Vegas airport, (the whole world would look this way if Mussolini had won the war), then some of your basic in lobby cluster-chat action, and then the band got on their hind legs and ripped through a tidy set that generated tons of insta-raves from those on hand. The powerful high gloss sound was a bit of a surprise coming from a band that has been together for such a short period of time. Chalk it up to the journeymen involved and their well honed chops. After the set, it was off to the tables where fortunes were made and lost. **Bwana** came back a mere \$25 down but we hear there were some seriously damaged parties who are currently hawking "I Heart Las Vegas" bumperstickers to recoup.

Almost more fun than the law allows. The whole crew in a gang grope with **Gene Simmons**, **Jim McKeon** and **Hugh Surratt**.

Erin Riley, **Gene Simmons** and **Pam Edwards** doing their daily tongue exercises. It's nice that Erin can fold her tongue and wonderful that Pam can touch the tip of her nose but only Gene has enough tongue to sell advertising space on it. Can you say, "This space for rent?"

RELATIVITY REVOLVES

National Alternative Promo Director **Liz Brooks** has left the Relativity to pursue other interests, including work with the English record label **Creation** in their efforts here in the States. Liz can be reached at (212) 353-1960 for further communication. Meanwhile, back at the Relativity Ranch, **Jetson** has been signed to fill Liz's shoes and will be leaving **WOXY** for that trek East and some heavy duty on the Relativity survival course. At the same time they have a new face out West. **Winnie Chen** will be handling the Northwest for Relativity out of San Francisco so get ready radio, your future may never be the same again.

To celebrate the third video from their Cocktail Soundtrack, **Elektra Records** hired some bikini babes to hand deliver the video, "Kokomo" by the **Beach Boys**. Here we see the people most responsible for the state of video programming in America getting chummy with a trio of blondes.

YOU TAKE THE HEIN-WAY

Looks like the **Hein** brother named **William** is on his way to the wild wacky wonderful world of film-making. William has reportedly joined forces with **Joe Regis** to form **Los Pictures Corporation** with plans to produce a series of music related films. First on the drawing board is an opus titled "Citizen Mojo" based on the antics of **Mojo Nixon**. Another film in the pipeline will be built around the story of **Bobby Fuller**. There is no truth however to the rumor that a musical is being written around the day to day traumas of the music biz to be called "Tipsheet". If that vicious rumor was true though, we know who we would want to see cast in key roles. How about **Jack Nicholson** as the Publisher, **Traci Lords** as the Metal Queen, **Robert Carradine** as the Computer Guy and **Morton Downey** as the Editor with the entire **1988 Baltimore Orioles** as the rest of the staff. Special cameo appearance by **Howard Cosell** as the Evil Nemesis.

Save the last dance for me. The right **Reverend Al Green** pictured here in a slow dance with A&M's **Charlie Minor**. The boys are celebrating Al's righteous collaboration with **Annie Lennox** on "Put A Little Love In Your Heart". How many different ways can you spell smash?

CHILDREN OF THE AMERICAS SPECIAL

Graham Nash announced the second annual **Children Of The Americas** radiothon designed to benefit **UNICEF** and **World Hunger Year**. Among the talent bank being called on for this year's event are **Jackson Browne**, **The Fabulous Thunderbirds** and **Crosby Stills and Nash**. The November 12th broadcast will be heard on a projected 125 stations coast to coast. Last year the broadcast generated over \$250,000 in contributions and this year, with the underwriting of the **Xerox** and **Sheraton Corporations**, even more money should be effectively raised.

WORLD SERIES OVERVIEW

Brighter minds have said it before, but the truth shines just as strong no matter the source. The **Dodgers** have done a remarkable job of maximizing one of the weakest pitching staffs and gut shot benches ever seen in post season play. Here in the East even the typically rabid sports press are slowly coming around to the awareness that **Tommy Lasorda** is one hell of a manager. Check this reaction from **WHTG's Rich Robinson**, "The Dodgers are the luckiest team in baseball." Not mere luck Rich, but destiny, (to use Tommy's words), and a scrappy sense of how ordinary men can be made to do the extraordinary. And how about the other than human play of **Kirk "Busted Wheels" Gibson** and **Orel "Blue Bomber" Hershiser**, (the pride of Cherry Hill, by the way)? The ramifications, aside from making me rich, could result in the embarrassment of numerous media types. Out West at **KDJK**, **Beaver Brown** bet one of his co-workers that he would truck down the busiest drag in Modesto in his boxers if the Dodgers win... start stripping Beav. While the **Poorman** has split the environs of **KROQ** to collect on a bet with **Regis Philbin**. If the **Mets** had won the **LCS**, **Regis** would have gotten a shift on **KROQ** to assail the audience with **Perry Como** but luckily a power greater than man saved the **LA Basin** from a fate worse than knitting. So now the **Poorman** gets to go to **New York** to taunt the locals with the glory that is **Dodger Blue**.

A pair of hollow body guitar stranglers resting up. **Tommy Conwell** and **Lonesome George** backstage in Boston after a little onstage jammin'.

PD'S IN THE PADDOCK

Paul Ingles called from his **Albuquerque** office at **Rock Radio Concepts** to inform us that he has multiple **PD** positions at his clients in both small and medium markets. Females are encouraged to apply and should send their **T&R's** to **Paul** at **RRC**, Box 36353, **Albuquerque, NM 87176**.

AMNESTY UPDATES

Some of the **Third World** highlights along the way for the **Amnesty International** crew saw hordes of bats circling in the night sky above their **African** dates and a running battle with **Brazilian** authorities about some of the liberties being exercised onstage by the celebs. **Sting** challenged the **Brazilians** to arrest him after he continued lambasting the country for the wholesale destruction of the **Amazonian** rainforest, an eco-rape of global proportions by all accounts. The government caved in to public pressure and announced their intent to protect the forests on the very next day. Not to be outdone, **Bruce** struck out at limp-wick monkey in a suit types like **Pinochet** with repeated statements berating the **American** government for their support of such repressive regimes. Once in a while a song or two was played and the crowd seemed to enjoy that also.

THE RADIO RUMBLE

KOME/San Jose has made Promotion and Production Director David Wohlman their new APD as things start juggling around those explosive Summer returns. David's five years of work at the station has been integral in their recent history, most of which has been on the up-side. In his new position David will continue working in Production and Promotion while expanding his Programming profile as well.

WFNX/Boston personality Bill Abbate has departed the station for the AMD position at crosstown WBCN. Tom V and Tom Lane are also out the door and shifts have been juggled as a result with Neal Robert doing afternoons, Bruce McDonald holding down 6-9pm and Angela Strachan sliding into the 9-1am shift at the station.

DC-101/Washington has severed their ties with B.D. & A. as things heat up in the market, but we are informed that the station will continue their relationship with Harris Communications. As a Stern-spearheaded WJFK starts to impact the market things should start getting pretty interesting.

KWHL/Anchorage was roundly patted on the back for their excellent work by the Alaska Broadcasters Association recently. The station received six of the twelve Goldies awarded, with the other five going to their AM sister station. Not a bad day at the races for Cyndee and her crew. In other news from the wild wild North, Cyndee will be in Seattle October 26th and 27th to interview finalists for the two prime openings at her station. Needed are an AM Drive sidekick who can contribute lifestyle news and a relatable sense of humor and an evening rocker with the skills to step into a possible APD role. As a native son of our 49th state, let me tell you the chance to live and work in Alaska is an adventure not to be passed up. Interested candidates should call for an appointment with Cyndee at (206) 682-1653.

Z-ROCK launched their first Live Coast-To-Coast Concert Series with a jammed up and jelly tight show from Femme Fatale. MCA promo heavies Randy Hock and Bubba McManners get the blue ribbon for setting up the first taste of what promises to be an important venue for hard rock acts in the future. We are also happy to report that the Z-Boys are now two tracks deep on the Living Colour album. Precious exposure for a band that is so strong they virtually blow away anything around them on the air.

WNGZ/Elmira MD Mike Verity is down the road and that leaves a potential MD slot open for the right candidate. Get your package to PD Tom Height ASAP for consideration.

WLLZ/Detroit raised money for the Leukemia Society with one of those by now infamous Louie Louie Parades. Stroh's Beer was tied into the event with Alex The Dog acting as Grand Marshall for the Parade. Over 3,000 people were involved and the community vibe was top notch throughout.

The Strohmobile on its way to a recycling center.

KMPC/Los Angeles has signed area hombre Jim Ladd for night duty at the station. Jim has been kicking around the basin when not traveling with the Roger Waters ensemble and his well heeled presence should help prop things up at the less than dynamic AOR.

WKDF/Nashville made rock and roll history recently when they buried an automotive time capsule named after morning man Carl P. Mayfield's alter-ego, Cleon. The "Cab-sule" was interned with plans made to raise the monstrosity 103 years in the future. Inside there was a rather eclectic collection of memorabilia including a box on Vanilla Wafers, a longneck bottle of Bud with a nipple on it, some grade school essays and assorted odds and ends.

A solemn moment in the history of Nashville.

WRCN/Long Island issues a challenge to their peers to come up with a funnier add-line than the one currently being used by the guys called Tom & John at (516) 727-1185. There are those of us who simply will not sit through a dry read of adds and drops, especially when they are delivered with the panache of George Bush on Romilar. At least Messrs Calderone and Loscalzo brighten the process with a little wit, which is about my limit on a Tuesday.

WXRC/Charlotte has moved to new studios across town and their UPS and Fed Ex address changes as a result. You can now reach Alan and Jon at 211 2nd Avenue SE, Hickory, NC 28601. The phone numbers and mailing address remain the same as always.

KSJO/San Jose attributes their dramatic increase in the Summer book to the work of Perry Stone in the mornings. The trickle down effect of Perry's slamdunk approach has apparently revitalized the rest of the station in true cause and effect style.

KLCX/Eugene debuts their new look as the "X" with some fresh faces and a stronger than dirt rock approach that should shake things out a bit in that market. PD Steve Becker has some settling in to do but look for a serious morning show talent hunt in the weeks to come.

KLOL/Houston will feature The Georgia Satellites and David Lindley when their Rocktober Music Festival gets going. Look for Jon Butcher, In Tua Nua and Broken Homes to join the line up as those Lone Star rockers raise money for an area foodbank.

KHWK/Amarillo, formerly KATP, has dropped all pretense regarding their live presentation with word that the Transtar Niche-29 format has been signed at the station. Select dayparts will be live with the bird taking up the slack in their new "less is more" programming orbit.

WKFM/Syracuse proving once again it's not the meat it's the size of the meat that matters. Here we see The Fatman keeping Lois Burns from making a complete fool of herself in the parking lot of neighborhood Victoria's Secret.

WNEW/New York continues their Shootout At The Hard Rock Cafe with host Scott Muni. The show is in its fifth year and will include star time with The Smithereens, ZZ Top, Jimmy Page, Joan Jett and Marshall Crenshaw.

KSHE/St. Louis is already gearing up to sponsor Operation Warmth 4 St. Louis, continuing the success of their first three winter campaigns. The project will raise as many coats as possible for the area needy with the object of besting last year, when over 30,000 garments were donated citywide.

WXRT/Chicago MD Lin Brehmer getting in a clutch with Living Colour guitar mastermind Vernon Reid and Epic local Rep Bebop Hobel. Doesn't Vernon look like an alien child that just got caught doing something bad?

WAQX/Syracuse enjoyed some time with Little Feat recently when they hit town on tour. Here we see the crew with various Featsters doing the old smiley smile.

When Bruce Hornsby came to New York the RCA honchos came out in droves. Pictured backstage with Bruce are band manager Tim Neece and RCA's Bob Buziak and Rick Dobbis. These smiles are very real friends.

WPDH/Poughkeepsie sent Bill Palmeri to LA for some live broadcasts as part of their participation in the Soundcheck '88 Competition. Here we see Bill being interviewed by Jon Bon Jovi during the festivities.

Johnny Winter pictured getting happy about his well received album on MCA/Voyager. Left to right are manager Teddy Slati, Denny Somach, Johnny and MCA VP of Rock Promotion Randy Hock. It sure is nice to have Mr. Winter back on the air where he belongs.

CORRECTIONS:

"Hey Buster, it's Cowan.... **C-O-W-A-N!** The normally soft-spoken Hard Report Research Director called me the other day. Evidently, some alien life force had taken control of our printer's brain and caused a shameful typo in last week's story lauding Dave's contribution to the sheet. Obviously, powers beyond this planet were involved because things like that never occur otherwise. Just the same, my apologies to Dave and his entire family right down to the third generation.

PICKS

The Pursuit Of Happiness "Love Junk" (Chrysalis) In a relatively short time, this Canadian quintet drew in big airplay encores on the home turf with impudent overtones and lyrical twists of "I'm An Adult Now", which set the stage for their current debut. Such instant reaction was quite a send off for lead mensch Moe Berg, and all because he jotted down the words after realizing he didn't like young'uns all that much. "Love Junk" is the first major label outing for TPOH and producer Todd Rundgren is written all over the twelve dazzling, melody-laden pop songs. They get maximum mileage from rhythm guitars, and minimize the formula solos that more times than not have become a tired pop trademark. Familiar Todd dynamics are the icing on the cake, and Berg's brainstorming kicks in with ideas that make TPOH sound smashing. Their songs cover a wide spectrum of topics from love to friendship, from love to conflict, from love to discovery, (you get the idea) and the constant midtempo roar of tightly packed guitars and rumbling drums roll it flat-out with undeniable energy. So the next time you find your head bobbin', don't be surprised if it's because of songs like "Hard To Laugh", "When The Sky Comes Falling Down", "She's So Young", "Consciousness Raising As A Social Tool" or the sweet and dirty "Looking For Girls".

"Stay Awake" (A&M) This enchanting compilation combines the fantasy of Disney's most unforgettable masterpieces, superimposed with the voices and creative energy of a modern day cast of musical characters. It's only fitting to preface this one by saying, if you can't find a niche of appeal in this one, please go to jail. Go directly to jail. Do not pass go. Do not collect...(and so on). From Bonnie Raitt's tender touch on "Baby Mine" (Dumbo); to the roughed-up and ready roust by the Replacements in "Cruella DeVille" (101 Dalmations); to Tom Waits eclectic-singed delivery of "Heigh Ho" (Snow White and The Seven Dwarfs), it's clear that art and commerce have met half way and the result is the most awe-inspiring *deja vu* you will ever have.... You could name-drop all day: Suzanne Vega, Buster Poindexter, Sinead O'Connor, Syd Straw, Sun Ra, Ringo Starr, James Taylor and more. Natch it's #1 Most Added with the Alternative Crew, touting adds at KBCO, WHFS, KABL, KTAO, WNCN, WOXY, WRAS, WTSR, WXRT, KCPR, KCMU and more. A close call on the airplay chart, expect this one to land smack dab on the Top 50 next week and ring out 1988 with a surprisingly long rack life.... Have fun storming the castle.

Sonic Youth "Daydream Nation" (Blast First) This is one New York band who has never done anything half way, from the formidable noise outbursts they so freely inflict on live audiences, to the idiosyncratic delight they achieve on record. "Daydream Nation" upholds their aural trademark and does one better by matching raw foundations with a touch of melody, mangling the two together with dubious charm and burning a hole in your brain as per their agenda. They have been lauded by many a critic and it could be said that to play a Sonic Youth album is to experience a new state of mind with every spin. Thurston Moore experiments with new sound barriers as he, Kim Moore and Lee Ranaldo pour out different vocal strains along the vast stretch of your imagination. The double album defies your senses and immediately draws you into "Teen Age Riot", a real eye opener for people who have been on the fence about the band to this point. Other cliff hangers to jump from are "The Sprawl", "Candle", "Rain King" and "Kissability". Enter the "Trilogy" and get even more than you bargained for, after all, Sonic Youth never said they warned you.

Frank Tovey "Civilian" (Mute/Restless) It's a new era for Fad Gadget's Frank Tovey, and he plunges ahead, full force with a downright alright mix of images and songs on "Civilian". He's a studio-sound-effects wiz, quite an accomplished lyricist and a hauntingly fun producer who remains steadfast in his solo endeavors and continues to please international alternative dance legions. His tempting and dramatic pieces run rampant throughout, sometimes making him sound like The Matt Johnson's mutant cousin ("Limelight/Curtains") or Robyn Hitchcock's alter-ego ("Bridge St. Shuffle") but the rest is a true test of his originality and he comes up ahead of his time once again. Tovey was Mute Records' first signing back in 1980, he crashed the Billboard Dance chart in 1984 with "Collapsing New People" and could well revisit the old stomping grounds with songs like "The Brotherhood" and "Ultramarine".

Trotsky Icepick "Baby" (SST) From the Los Angeles camp comes Trotsky Icepick. They're sharp. They will take you by surprise and you will live to tell. Ex-members of various bands like The Last, The Leaving Trains, Downey Mildew and even the Urinals(?) it just goes to show that it doesn't really matter where you came from. The music is here and now. The Icepick sends you reeling with melted, hazy, wandering guitars against a readily familiar pattern of melodies. Although the production lacks the glossy appearance of their contemporaries, the songs reach out and grab you with their own unique persuasion, taking a mighty fine stab at college radio programmers right off the pick. Stand outs include shades of Slade in "Mar Vista Bus Stop", and Stan Ridgway's ghost vocals in "Bury Manilow", along with the swirling "Incident", "Don't Buy It" and "Dante's Flame". I'd like to see 'em on stage. Better yet, I'd like to see the cover art.

Lucinda Williams (Rough Trade) She's a rare commodity these days, a well-traveled, committed country/folk/rock artist who plays her cards as they are dealt.

NEW RELEASES

Big Dipper "Craps" (Homestead) Deeply entrenched in the left wing of Boston's local music scene, Big Dipper treats us to another gutsy guitar fest on their newest album "Craps". And it's no long shot. The songs keep getting better and the band has been testing smoother terrain as well. Slowed down tunes like "Bonnie" and "Semjase" reveal a quieter, more languid presence that should find favor with those anxious to hear them in full range of motion. "Hey Mr. Lincoln" carouses around a churning mix of string work and "A Song To Be Beautiful" leaps up and wins a golden star in my solar system. What are the boys from Boston doing with a retouched photograph of The Vegas Strip on the cover of their album? I guess nobody wants to stay in one place and Big Dipper is no exception. They conjure up another new onslaught of power-pop with the dial-a-talent of Lou Giordano, who cuts the distortion to healthy proportions and finds a bigger sound in their newly tuned instruments. Keep looking up...

And since 1979 she has been playing and recording at her own speed, and constantly dabbling in band projects like the Los Angeles based group, Millions Of Williams and two solo albums to her credit. Lucinda offers a freely delivered, relaxed form of south-western sounds that sneak up and woo your senses with songs like "Passionate Kisses", "Am I Too Blue", "I Just Wanted To See You So Bad" and the grinding wheels of "Changed The Locks". Her latest offering is a heavy bid for your attention with added musicianship by Donald Lindley (Fogerty band), Gurf Morlix (ex-Plimsouls) and John Ciambotti (ex-Clover). Rough Trade Records brings her your way: 611 Broadway, Suite 536, New York, NY 10012.

KCPR also displays their Top Ten albums prominently in two area stores and are reportedly moving "big units"! Thank you, college radio.

CHARTSTARS

Voice Of The Beehive "Let It Bee" (London/Polydor) Out a week and Voice Of The Beehive becomes the biggest chart mover, 36-13* Airplay and debuts in the Top 5 Tracks with "I Say Nothing". Airplay at 33 stations and a solid standing at KROQ, 91X, Live 105, WHFS, WFNX, WDRE, WRAS, KUSF, KDVS, KTYD and more spell out a fantastic showing on the progressive airwaves at this early stage. 30 CHR's added the single this week.... Dir DeVault at WGTU reports, "Voice Of The Beehive moves up to medium this week. We had enough buzz on the import to start the momentum".... WBNY's Gina Galli says "This one really keeps

our listeners interested".... WWV's Butch Lazorchak predicts "This will be a very big hit".... You can get caught up in Blondie and Go Go comparisons till the cows come home, or get the most out of spiky, tongue in cheek lyrics like those in "Beat Of Love" and "I Say Nothing". The bottom line is that Tracy and Melissa are in the running with a new style of girl-pop that leaves a dent where some others only scratched the surface.

The Game Theory "2 Steps From The Middle Ages" (Enigma) Pow! The new Game Theory album hits you right where it counts, and the Game Theory comes off of "Lolita Nation" with all the quirks worked out and a more concise pop focus in their music. "Don't Entertain Me Twice", "Wyoming", "Throwing The Election", "What The Whole World Wants" and my fave "You Drive" make up the supreme core of great songs to choose from. This band is long overdue for their share of success, and as American pop/rock outfits go, they are one of the best.... Patrick Ferrise at WWVU says "We're anticipating their arrival in town and the album's a lot more focused and upbeat sounding".... WFIT's Helen Urriola reports "The record has really taken off in just two weeks. It's already in heavy and I like it a lot more than the last".... And the KCPR crew confirms "It's a fantastic album and Mitch Easter is a production God. We're looking forward to seeing them in New York next week".... Check Top 5 phones at WLRA/Chicago and then Heavy airplay at KRCK, KUNV, WCDB, WHTG, WRAS, WWVU for a total of 19 on, and a 44* Airplay debut this week.

DREAMS SO REAL

Dreams So Real is an Athens-based guitar pop trio comprised of Barry Marler (lead vocals), Trent Allen (bass) and Drew Worsham (drums), a group that crashed the American indie scene with what was considered a new breed of southern rock, destined to overcome its peers. Their musical prophecy was eventually fulfilled by their first Coyote Records, Peter Buck produced Father's House Lp, and now a stunning Arista debut, Rough Night In Jericho. It showcases their lush guitar treatments and heartfelt lyrics on one of the most potent and consistently melodic albums of its kind. Although new to commercial scrutiny, Dreams So Real has what it takes to overcome the competition and win us over with a fresh, new approach to pop as we know it. Barry Marler explains...

Dawn Hood: What's different about Dreams So Real's first album Father's House and the current major label debut, Rough Night In Jericho?

Barry Marler: First of all, I feel much more confident about this album, having spent much more time on the record with more talented people to work with. This album comes a lot closer to capturing what we are about now. Father's House was a bit of a detour because we were still figuring out where the band wanted to go. I've always really liked our first single, "Everywhere Girl" and people even approached us after the first album had come out to praise us for the single. They didn't even know about the album yet. At first the band was more 60's derived and we got a lot of mileage out of it. What we're doing now is more of a logical evolution of that single, and Father's House was more of a detour. It was all experimental, and this record is the truest statement about the band.

Dawn: There seems to be an sound expectation assigned to bands that come out of Athens. In a way, you fit the bill, but are distinct enough to hold your own...

Barry: That's a good point. Obviously, the 60's elements there along with other sounds that carry over from that period. We use the 60's as a jumping off point, but the finished songs are filtered through a modern sensibility. I don't like music that simply changes with the wind of fashion and I don't like anything that just rehashes tried and true formulas. My ideal song is one which rests on the foundation of something classic whether it's rock and roll or jazz or art in general. If it uses as its premise something that is classic and then interprets it in a fresh way, that's describes what we've really tried to do. I'm really happy with the way it turned out. The 60's are important, but as more of a reference point now than before.

Dawn: How do you achieve such a full sound with three players?

Barry: On the album there is guitar over-dubbing (but not a lot). The album sounds basically the way we are live, but we're louder and faster. I look at recording as being if you do something good, there are a lot of challenges you've got to meet. I think that to make music sound as interesting and vital as it is live and by using the studio and modern recording techniques... if you can combine the two aspects like you would the 60's and 80's styles of rock you can enjoy the best of both worlds. We used the studio as a tool only. We agreed ahead of time not to let it run rough-shod over us, to keep in perspective what was proper to use, like only a very small amount of keyboards. The three piece thing evolved over four years of playing together. When I write songs, the guitars and vocals automatically fill in some of gaps that having only one guitar might leave. This is not to say that in the future we won't have an extra person playing for effect.

Dawn: What's your favorite song on the album?

Barry: Probably my favorite is "Love Fall Down"... that track is not the obvious one, but I really like the way it turned out as opposed to the old demos.

Dawn: How has your perception of the band changed since making a major label debut album and how do you reflect on each stage of your career?

Barry: I think that just by getting to this point that we've already done more than so many other musicians out there, but I also know there's a helluva lot of work ahead. We just want to play naturally without calculation, to write songs we feel good about and have as many people as possible become exposed to it. If it makes us a living-that's good. If it makes us rich-that's good too. But that's not the end. The end is to get the music across to as many people who can appreciate it.

Dawn: If you were a musician in another group that sounded nothing like Dreams So Real, what kind of band would it be?

Barry: Probably heavy, heavy rock... I like Jane's Addiction a lot and Metallica also. I like really big guitar sounds, and sometimes think that we did to our kind of music what those bands do to their kind of music. Some treatments that are the same but the approach is different.

RECORD OF THE WEEK

Helloween, "Keeper Of The Seven Keys, Part II", RCA...

With the approach of that holiday unlike all others, when people dress like creatures of the night, scary monsters run wild upon this decadent planet and witches work their wicked magic, a strong and foreboding shadow spreads across our Hard Hitters chart. (Just trying to get into the "spirit" of things folks) Well anyway, in the last four weeks, those German maniacs in Helloween have made dramatic leaps up the chart. Debuting at 35* on the strength of "Save Us", (off the sampler), they next flew up to 16* with the release of the full album, then up to 11* and this week they've stomped their way to 5* and it looks like there's no letting up in sight. For the second week they've hit the Most Requested Metal chart, this week nailing #8, while also picking up new adds at: KOZZ, KSLC, WBCN, WRXK and WLRA. This IS without a doubt their best work to date. Even though their name may seem to have black or satanic connotations, their music is some of the most uplifting and optimistic stuff out right now. This band combines intricate lyrics and melody lines with outstanding musicianship and captivating, power-house vocals courtesy of Michael Kiske. Every song is a keeper (especially "We Got The Right"), but the monsters that are dominating the airwaves include: "I Want Out", "Save Us", "Dr. Stein" and "Rise And Fall". Happy Helloween. (C.B.)

Chosin Few, "Chosin Few", Statue...

Formed in the spring of 1988, this very new southern California rock ensemble hits the scene with their first self-titled release. The band comprises the collective talents of Kenny Santor (guitars), Eddie Larkin (bass), Chris Adams (vox), and newest members Tony Rossi (guitars) and Dave Goode (drums). What's surprising about these guys is the very melodic nature of their music. In all honesty, I really expected a much thrashier style. I guess the name kind of threw me. What I was listening to instead, were songs more in the vein of Chyld and Dokken. In fact the vocals of Adams are very similar in style and delivery to Don's, just in a higher range. No matter, given some time to get their chops in as a group, some development in the songwriting department and some exposure on the air, and these boys could become major contenders in the ever expanding new genre of pop metal. Already in the last couple of weeks, the Chosin Few have been picking up impressive adds and getting air on the likes of: KSLC, WBIM, WHMH, WHVY, WPYX and WRXK. Check out these trax: "Hooters", "March On", "When She's Alone" and "On To You". (C.B.)

Jane's Addiction, "Nothing's Shocking",

WB.... Well it's been about three months since the release of this Lp and we've seen some really interesting response to it on both the metal and alternative fronts. Not only is it currently at #14 on the Hard Alternative chart, but this week it moved up to 18* on Hard Hitters. Though it's not a new thing to have an act criss-crossing those two charts, it is something when both sides embrace and respond to a band and its music the way they have with this one. What makes this record work is the guitar free-for-alls by David Navarro and the spiraling and unique vocals of Perry Farrell, while Eric A. and Stephen Perkins hold down the bottom section with deliberate style and ease. This band takes wierdness to an all new level and in fact makes it very chic to be just off center. If you've done "Ocean Size", (a monster of a tune), then try the new emphasis track "Had A Dad" on for size and if that one doesn't do it for you, there's plenty more to choose from on this album. Just keep in mind, that if you or your audience is getting a little jaded from the deluge of metal for the masses that's already out there, there is an alternative. Jane's Addiction is where it's at. (C.B.)

Wargasm, "Why Play Around?", Profile....

This has been one of the surprise records of the second half of the year. After being pushed back due to problems with their original label seven months ago, the Lp finally saw the light of day in September on Profile. Now the Boston three piece has risen from a debut at 34, to successive moves of 34-22* and 22-16* in the last few weeks. And this week they come in at an impressive #12*. You guys really are into disgusting lyrical content depicting death, war, torture and dismemberment aren't you? Oh well, even the best of us have our little hang-ups. In any case, the albums seven vocal tracks, (there are nine cuts altogether, two of which are instrumentals), are strong examples of what New England's idea of what a power trio should be. The excellent guitar of Rich Spillberg, coupled with the bass/vocals of Bob Mayo and the bashing of Rich's bro Barry, leave little to be desired. Tracks to track include "Humanoid", "Merritt's Girlfriend", "Revenge" and "Le Cou Cou". Once again, these guys create an interesting and unique listening experience it would be criminal to pass by. So don't make me call the cops. (J.L.)

S.A.D.O., "Dirty Fantasy", Noise....

Andre Cook, a German with a French name who knows where his priorities are -- in the bank and in the bed. Chrisby called him "the ultimate schizophrenic", and being that he's a suit and tie guy, (commodities broker), by day that's more than a little fitting. His band S.A.D.O., (I really want to know what that stands for), consisted, (on the Lp), of Jora Poweleit and Andy Malecek on the guitars, Alexander Remde on bass and Cris Kuhlmeier on drums. I'm using the past tense because Cook has the rather peculiar tendency to change band members almost as often as Yankee owner George Steinbrenner changes managers. The lyrics are predominantly about sex and/or money, but usually sex. The first incarnation of the band appeared in Germany in 1976 and signed with Noise ten years later, therefore acquiring quite a European following. Our

reporters have been following the band as well. This week, S.A.D.O. moves up to 23* on the Hard Hitters Chart with play on KTEC, KUNV, WARC, WCWP, WHMH, WHVY, WKNH, WRFL and WRXK while picking up adds on KCSF, KPGA, WEOS and WGIR with top requests on WRXK. Get in on the action and check out "Dirty Charms", "The Door" "Gamblin' Fool" and "Dancin' In The Dark", (no, it's not a Springsteen cover). (J.L.)

METAL FILINGS

-That Wonder Woman of metal **Sue Stillwagon** (Elektra) called to give us the word on the upcoming **Dokken** live Lp. It seems the 17 track, 90 minute long opus is due out on November 11th. Get a copy of the vinyl when it hits cause there are 3 less tracks on the CD. Rokken.

-The one and only **Metallicatz** will be heading out on tour with those heroes o'mine **Queensryche**, commencing November 15th. With Metallica having blown out well over a million units already and the 'Ryche well over 300,000, this is one bill NOT to miss this year. Hope you caught the 'Ryche on their outing with Def Leppard, cause seeing them in the round was just amazing. They raged. This time around, they'll be playing to more their kind of audience, so look for it to be an incredible show. As for the Metallica dudes, if you saw them on the Monsters tour, you know what to expect. They blew everyone away.

-Metal Blade Records has announced a new division which will specialize in releasing soundtracks. It will be known as **Phoenix Records** and will be releasing the soundtracks to two new films: "Beach Balls" and "Maniac Cop".

METAL MUSIC NEWS

Greetings to one and all from Metal Control Center deep in the heart of Queens, New York. This is Sal "Earl Of Earache" Treppiedi with this week's metal news. We've got news from around the world this week, so let's get to it.

Let's begin with some more news on one of metal's dinosaurs. From the Great White North comes more news about the departure of **Rik Emmett** from the band **Triumph** to pursue a solo career. The two remaining members, **Mike Levine** and **Gil Moore** will be continuing on as Triumph. The band is currently searching for a replacement. According to a band spokesman, there is a possibility that Triumph will add two new members. Also, both Triumph and Rik Emmett are now free from **MCA Records**. They will both be pursuing new deals. Finally, throughout their career, Triumph have basically managed themselves. There is uncertainty as to whether they will continue to be self-managed or if they will search for outside management. We'll keep you posted.

Ozzy Osbourne recently entered a London hospital for the treatment of a hernia. According to a spokesperson, Ozzy is expected to be laid up for approximately two to three weeks. Ozzy is expected to begin his tour in November. Apparently, his hospitalization will not affect the start of the tour. Ozzy is scheduled to tour America with special guests **Anthrax**.

Geffen recording artists **Rock City Angels** are currently opening dates on the Jimmy Page tour. No word on what the extent of their support slot will be.

Riot are hard at work on their next album. Following the completion of their tour, the band returned to Texas to begin writing new material and work on demos. Recording is scheduled to commence in November at Greene Street Studios. As usual, the producer will be **Steve Leeb**. Leeb is the one and only producer that Riot has ever worked with. This forthcoming album will mark the first time that the current members (**Mark Reale** - guitar; **Tony Moore** - vocals; **Don VanStavern** - bass; and **Bobby "The Zombie" Jarzombek** - drums) have worked together from start to finish. Expect this album to be released by January or February of 1989.

Manilla Road, from Wichita, Kansas are about to release their debut on David T. Chastain's label, **Leviathan Records**. The album is entitled "Out Of The Abyss". The album was produced by the band with Chastain serving as executive producer. The band will be playing a show in their hometown on October 28th and then will support Chastain in his hometown of Cincinnati.

The **Pretty Maids** are set to begin work on their follow-up to 1987's "Future World". The band has selected Deep Purple

bassist **Roger Glover** to produce their forthcoming album. Look for a spring of 1989 release.

Speaking of **Deep Purple** and **Roger Glover**, they are currently writing new material for their forthcoming album. Meanwhile, Roger Glover and Ian Gillan's new album has hit the airwaves. There are no plans for the two to do any kind of tour. In fact, unless a sudden change of plans should occur, **Gillan/Glover** do not even plan on shooting a video. Either way, it's good to see these two not doing things that can be heard on Deep Purple records. How many of you have heard Glover's solo album "The Mask"? If you don't think it's a masterpiece, you better climb back into your hole.

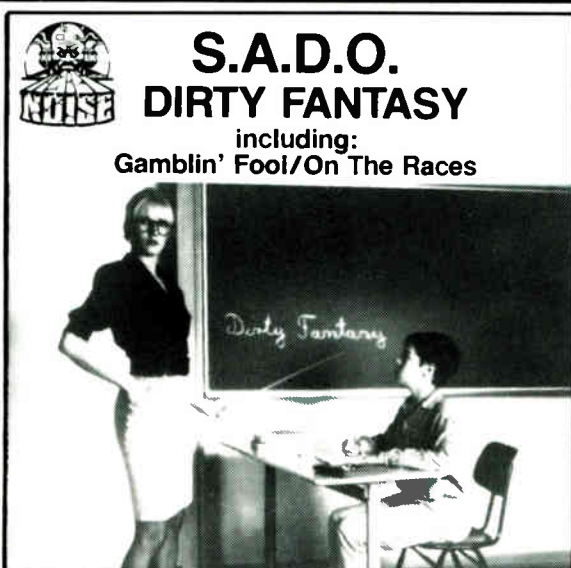

The Earl recently received a call from an infamous black bird from California regarding news on **David Wayne**. First, the former Metal Church vocalist is apparently leaving **Intrinsic**. He joined that band about four months ago after leaving Metal Church. David has apparently been receiving offers from several other recording acts as well as major labels. Two of the acts David has been called by are **Heretic** and **Heathen**. There is a possibility that he may join one of these two bands. Speculation, though, is that David will pursue the solo career he has yearned for since leaving Metal Church. David has currently been working with former Lizzy Borden guitarist **Gene Allen**. It is no known whether Gene Allen will join David on his solo project. By the way, David Wayne is expected to name his band **D.W.I.**. The problem is that they do not know what the "I" will stand for. Do you have any ideas, David and the little black bird would like to know. Send suggestions to The Earl.

That's going to do it for this week. This is Sal "Earl Of Earache" Treppiedi reminding all of you Met fans, that whether or not the Dodgers win the series they did beat the big, bad, mighty Mets. **LET'S GO DODGERS!!!** Until next week, **MUYA!!!!**

U2 seem likely to have the biggest-selling album of the year in Britain with *"Rattle & Hum."* The LP sold 600,000 copies in Britain as advance orders, and one of the largest record stores in London reported selling 1,000 albums and 500 tapes during the first morning it went on sale.

Sting used the the **Amnesty International Human Rights Now!** tour to speak out against the clearing of rain forests for farming. He challenged the Brazilian government to arrest him on stage.

Bass player **Earl Falconer** of **UB40** has finished serving his six-month jail sentence for drunken driving in connection with the accident that killed his brother, Ray, the band's sound engineer. However, he's having to take some time to resume rehearsals. "He couldn't play in prison, so he's working his fingers back," says percussionist **Norman Hassan**.

They Might Be Giants say they have written over 300 songs, but only a few dozen have been released on the duo's two albums. So, the band operates a phone number where people can dial to hear a song by the group. "We're obviously not going to make any money off it," says **John Linnell**. "It's just a neat idea, I think. A lot of people appreciate the fact that it's not record store- or radio station-oriented. It's directly from our house to your house." The number, 718-387-6962, usually includes the newest tunes by the band.

The Bay City Rollers have begun their first tour in seven years. **Eric Faulkner**, the only original band member still in the group, says the band has been touring regularly in Europe in the last few years. The band has had some success with a song called *"Party Hearty,"* which Faulkner described as a "glam-rock anthem sort of thing, a typical Rollers record." He's hoping that the attention in Europe will lead to a record deal for the Rollers. "We've got tapes out everywhere, and (record executives) coming to see us in New York and Los Angeles, so we're hoping for the best. We're not looking for Rollermania again. We just want to get back into the swing of things." During their current tour, the band was given the keys to Bay City, Michigan, during a ceremony at city hall.

Bass player **Jack Bruce** says that **Cream** almost reformed for the just-completed **Human Rights Now!** tour for **Amnesty International**. He says **Ginger Baker** had agreed to reform the group, but **Eric Clapton** had already organized his solo tour, making the reunion impossible.

John Hiatt says his next album will be a live one that includes all new material. He hopes to highlight his backing band, the **Goners**, who appear on his current album *"Slow Turning."* "Already I hear it getting more and more spooky and awful-sounding and scary," Hiatt says. "And we're going with it. I want more of that Delta meets voodoo monkey business. Played live." Former **Eagle Bernie Leadon** almost appeared on the *"Slow Turning"* album, but Hiatt was out voted by the members of the **Goners**. "It turned out they wanted to keep it a four-piece. There's a whole bunch of air that way. As a four-piece we could keep that going constantly, the groove thing they do. I didn't know this until we sat down and talked about it, but they're not so willing to give that little thing up. In fact, it's hard to come by."

Boston band **Scruffy The Cat** have a new member, keyboardist **Burns Stanfield**, who is the brother of the band's bass player, **MacPaul Stanfield**. The band have a new album just out (on Relativity Records), *"The Moons Of Jupiter,"* which was recorded in Memphis and produced by **Jim Dickinson**, who has worked with the **Replacements** and **Sly & Robbie**.

Colin Vearncombe says he calls himself **Black** because he says nobody gets his real name right. "I have so many problems with my surname. Nobody pronounces or spells it right," he says. He says his new album, *"Comedy,"* uses a wide range of instruments. "It is quite deliberate," he says. "There's something about traditional instruments, which is nowhere near as wearing as hearing the same sample coming up again." **Black's** single, *"Wonderful Life,"* sold over a million copies

worldwide last year. **Black** plans to tour early next year, beginning in England in January, and including six weeks of European dates. He'll then play dates in Canada, Japan, Australia and possibly the U.S.

Fishbone will go to Europe and Japan in mid-December, after a series of U.S. dates that extend through early November. The band plans to continue touring the U.S. in the spring. **Fishbone** will appear in the film *"Tapeheads"* this fall, and provided a song for the movie soundtrack.

Blue Rodeo won awards for best group, single of the year (*"Try"*) and video of the year at the **CASBY** (Canadian Artists Selected By You) music awards handed out in Toronto. **Robbie Robertson** also won three awards: album of the year, best male vocalist and with **Daniel Lanois** for engineer/producer of the year. **k.d. lang** won for best female vocalist, and **Andrew Cash** was voted most promising artist. Funk/jazz band the **Stuffle Demons** were voted best independent artist and won for best independent video with *"Out Of My House, Roach."* **INXS** won the award for international album of the year for *"Kick."*

Julian Cope has recruited former **Smiths** drummer **Mike Joyce** to help him tour in support of his new album, *"My Nation Underground."* Joyce has been part of **Sinead O'Connor's** band. Joyce helped write O'Connor's new single, *"Jump In The River,"* which features a rap from performance artist **Karen Finley**.

Burton Cummings wrote the liner notes for a new Canadian greatest hits album from the **Guess Who**. The double album includes 24 songs and the CD includes 31. "Doing the liner notes was a labor of love," Cummings says, adding that there are no plans for a **Guess Who** reunion. He is working on an autobiography, saying "he has fabulous stories to tell." But he's not on very good terms with Burton Cummings. He says the next time he sees Cummings will probably be "in court."

Anthony Crawford, guitarist in **Steve Winwood's** band, says he's working on his debut solo album. Winwood, who has also played with **Neil Young** on two albums and at the **Farm Aid** concerts, will play again with Winwood in Japan in March. "And then, hopefully, at that time, I'll have my own career doing something." He hasn't played on any of Winwood's LPs, "but I think that's in the future plans. And I think being friends with him for the last few months leads me to believe he and I will be friends for a long time." Crawford has been writing songs for some time, and has one, *"Soldier Of Love,"* on the latest **Nitty Gritty Dirt Band** album.

A concert featuring **Rapeman**, the new band of **Steve Albini** of **Big Black**, at a university in Leeds, England, was canceled after women students complained about the group's name. The name **Rapeman** comes from a Japanese soft-porn comic in which a men and women are punished by a rapist.

The Pet Shop Boys' new album, *"Introspection"* includes their own version of *"I'm Not Scared,"* which they wrote for **Eighth Wonder**, and a remix of *"Always On My Mind."* It also includes a new track, *"Left To My Own Devices,"* which was produced by **Trevor Horn** and **Stephen Lipson**.

Stephen Milton Love, the brother of **Mike Love** of the **Beach Boys**, has pleaded no contest in Los Angeles Municipal Court to one count of grand theft. He was charged with embezzling \$900,000 from a trust set up by a court because of a dispute over a land sale. Love managed the **Beach Boys** in the mid-1970s. He's been allowed to remain free without bail until he is sentenced November 16.

Clark Datchler, lead singer for **Johnny Hates Jazz**, has left the group. He's been living in Amsterdam in the Netherlands in recent months, and plans to record a solo album soon. The rest of the group is seeking a singer to replace him.

Prince won two awards at the annual **Minnesota Black Musicians Awards** handed out in Minneapolis. He won in the video category for *"Alphabet St."* and in the national R&B category, along with singer **Alexander O'Neal**. But the big winner this year was a local band called **Moore By Four**, which was named outstanding 1988 artist/local, and shared honors in a jazz category. **Flyte Tyme Productions**, the company of **Jimmy "Jam" Harris** and **Terry Lewis**, was given a special recognition award for producer. Prince, Harris and Lewis were out of town and did not pick up their awards.

UK MUSIC NEWS

U2's *"Rattle And Hum"* has quickly become the highest selling album of the year in Great Britain. In one week alone it shifted 300,000 copies and immediately entered the album chart in the top position. It is the second highest weekly sale of any album in the history of the British music industry (the highest is, inevitably Michael Jackson's *"Bad"*). *"Rattle And Hum"* easily becomes the biggest selling double album in history though; a record which was held by **Frankie Goes To Hollywood**, whose *"Welcome To The Pleasuredome"* sold 250,000 in one week in 1984. *"Rattle And Hum"* is U2's fourth number one album, following *"War"* (1983) *"The Unforgettable Fire"* (1985) and *"The Joshua Tree"* (1987). The group thus equals the Eighties record for number one albums with **The Police**, **Genesis** and **Abba**. A spokesman at London's Virgin Megastore on Oxford Street said: "On Monday we sold 500 albums before 9:30am and we had sold a total of 1000 albums and 600 tapes before lunchtime. We've been filling the shelves every half hour. In the British music press, the album, a mixture of studio and live music to accompany a book and movie, has received unanimous praise. The 22nd October editions of "The New Musical Express", "Melody Maker" and "Sounds" all have feature stories on U2. **Bill Graham**, reviewing the album in "Hot Press", the Irish music paper, calls it U2's most ambitious album yet and an album that "unshakably believes that someone must fight for that vast unclaimed territory of popular culture." But not all of what has been written about the group in their native Ireland has been complimentary. In an opinion piece for the influential "Irish Times", journalist **Fintan O'Toole** asserts that the American mythology in the band's songs is "enormously destructive for the Irish young." The journalist believes that while the group may support noble causes, "the band image is essentially one in the dovetails of Ronald Reagan's America". He feels that U2 are reinforcing the traditional Irish image of the U.S., as "saviour and refuge. Something that has paralyzed us for a very long time, keeping us from taking our lives in our own hands." Responds Edge: "To be honest, when I was growing up, I wasn't listening to **The Chieftans**. I was listening to rock and roll. I was listening to Radio Caroline not the traditional hour on the radio. It's only in the last three or four years I've started to listen to **The Dubliners** or **The Clancy Brothers**. There are plenty of traditionalist groups around; look at **In Tua Nua**." **Keith Donald**, Music Officer for The Arts Council in Dublin vehemently defends U2. "They've pumped a lot of money into Dublin and created jobs in an area of high unemployment." he told "The New Statesman". "The fact that a top of the market rock act has chosen to be based here, has given a lot of the young people hope." Donald believes the band could stem the emigration drain from The Republic of Ireland. The band did also, after all, appear at "Smile Jamaica" the benefit concert and TV extravaganza organized by Island Records chief **Chris Blackwell**, to raise money for the victims of Hurricane Gilbert in Jamaica. Confusion had reigned the previous week as to whether U2 would be appearing and the band only made their decision to do so at the eleventh hour, so as not to disappoint many of the ticket holders. After Radio One split the beans that the group were thinking of playing,

thousands of fans descended on The Dominion Theatre's box office to line up for tickets - two days before they were due to go on sale. An Island spokesman says: "Obviously we contacted U2 to see if they were interested in performing at the show, but they wanted time to think about it because they hadn't performed live in a long time and they weren't exactly sure what they wanted to do. But more importantly they didn't want to headline the concert, so we held off any plans until **Ziggy Marley** had been confirmed as the headline act. Unfortunately Radio One (Britain's national pop and rock radio station) got hold of the news; we don't know exactly how - and started giving out misleading information because U2 were still not confirmed." For the 1000 plus fans lining up at the London theatre, the mood was turning ugly by the time the tickets were going on sale as Island reps were mingling with the fans telling them that U2 had still not been confirmed. At this point U2 agreed to play and performed a 20 minute set on the night, which was broadcast live on British television.

The band have also been responding to their overt criticisms of the author **Albert Goldman**, on the track "God Part II" on the new album, and their alleged crisis of confidence with their own biographer, **Eammon Dunphy**. The Edge claims that Goldman's books are one sided and that a lot of people reading his books will have their appreciation of the music ruined. On Dunphy, The Edge told "The New Musical Express": "It's just the glaring inaccuracies, such as **The Buzzcocks** were a local Dublin band...the book was full of half truths embroidered into phantasmagorical conclusions bearing no relationship to the truth. A certain amount of poetic license I can live with. But when somebody is putting 2 and 2 together and getting 198, this is when I get to thinking that this guy is trying to do something other than portray the facts. And I mean I expected a bit of that, but the point was he didn't check on a lot of stuff. Not because he didn't have the opportunity, but because he was a bit stuck for time at the end. What I do appreciate about Eammon is that he has stared out the Irish begrudgers, because he has made a fortune out of this book and he's rubbing everyone's nose in it. He's going on television telling people how much he's made! I think that's great because somebody had to start doing that. Because in Ireland, like in England, people are scared of success. They don't like to admit it. Everyone's wandering around pretending they're penniless. That's as bad as the ostentatious attitude of L.A. as far as I'm concerned."

Bryan Ferry releases a new single this week; a remixed version of *"Let's Stick Together"*. The "1988" remix is backed with *"Trash"* by **Roxy Music**. The 12 inch contains a previously unreleased mix of *"Let's Stick Together"*, *"Shame Shame, Shame"*, a dance mix of **Roxy Music's** *"Angel Eyes"* and *"Trash"*. The CD additionally includes *"Sign Of The Times"* and *"Casanova"*. The A side of the 7 inch is taken from a forthcoming **Bryan Ferry** greatest hits album, *"The Ultimate Collection"*.

Annie Lennox has teamed up with **Al Green** for the release of an A&M single *"Put A Little Love In Your Heart"*, featured on the soundtrack for the **Bill Murray** movie, *"Scrooged"*. The

song, written by Jackie DeShannon/Randy Myers/Jimmy Holiday was produced by Dave Stewart. The single is backed with "Great Big Piece Of Love" performed by The Spheres Of Celestial Influence, also produced by Stewart.

The Fall release their second album this year "I Am A Curious Oranj". The ten tracks come from the avant-garde ballet of the same name which has been playing here in London at The Sadlers Wells Theatre, performed by Michael Clark and company, with The Fall also onstage for the proceedings. The Fall wrote all the tracks and the album was produced by Ian Broudie and lead singer Mark E. Smith.

The highly controversial concert by a group called Rapeman, passed without major incident at Leeds Polytechnic. At first The Students Union had decided to ban Rapeman from appearing because of their offensive name, but the group warned the union that they would be in breach of contract and would carry out legal action if the union's threat was carried out. Rapeman's Steve Albini said this week: "Not a lot happened. The gig went on, and it wasn't disrupted. There were a small collection of people protesting outside, but as usual the people protesting didn't really understand what they were protesting about. I didn't see any point in talking to the actual picketers - it wouldn't be very illuminating. But I've spoken to plenty of people who object to plenty of people who object to the band's name. We still see no reason for us to change it." But a spokesman for the Leeds Rape Crisis center said this week: "He's a liability. Whatever his reasons, there's no excuse or justification for the name." Despite asking students to stay away and the presence of 100 strong picket; 500 attended the show.

Pop Will Eat Itself have been thrown off the Run's House tour, featuring Public Enemy and Run DMC. The witty grebo band, who incorporate a lot of scratch and rapping methods into their music have faced hostile audiences in London, Dienze (Belgium) and Amsterdam. At last week's concerts at the south London venue of The Brixton Academy PWEI faced a barrage of fireworks and burning balls of newspaper. The black all girl group, The Wee Papa Girl Rappers faced similar abuse. In Amsterdam the group had to leave after only one number when members of the 5000 strong crowd began hurling objects at the group. In Dienze there was a similar reaction and members of the British media were assaulted. On each night, none of the other acts on the bill - Derek B, Public Enemy or Run DMC, made any attempt to admonish the crowd or make any comment about the incidents, according to the NME. After the Dienze show, Pop Will Eat Itself were told that Run DMC were unhappy with the way the band reacted to the crowd's hostility. Their guitarist had mooned the crowd on two occasions before beating a retreat. At the Brixton Academy, the all white band seemed to be the

victims of inverted racism, but in Dienze the crowd was all white; but one fan told a reporter "Their music isn't black enough. It isn't real rap." Said lead singer Craig, "We gave it our best shot." PWEI now go into the studio; to record a new album.

Sting has challenged the Brazilian government to arrest him, for speaking out against the destruction of the Amazon forest and the plight of the nation's Indians. Speaking on the eve of The Amnesty International concert in Sao Paolo, he said: "If they want to arrest me in front of 25,000 Brazilians they can. The lives of indigenous people are increasingly at risk as they try to defend themselves against gold miners and farmers." Sting was adding his voice to world condemnation of the clearing of huge areas of the Amazon forest. Some believe it to be the partial cause of the disruption to the world's weather, while it also causes the slaughter of wildlife.

EMI release the album of previously unreleased material by Syd Barret this week. The album entitled "Opel" features out-takes and left-over material from Barret's two solo albums, "The Madcap Laughs" and "Barret". The selection begins with "Swan Lee" and "Lanky" from Barret's first material after leaving Pink Floyd in 1968 and the material finishes around 1970.

Sandie Shaw releases her new studio LP "Hello Angel" on Rough Trade this week. The album features guest musicians (including Chrissie Hynde on mouth organ!!!) and is produced by Stephen Street. As well as featuring her current single, the Morrissey/Marr composed "Please Help The Cause Against Loneliness" there's also a track especially written for Shaw by The Jesus And Mary Chain; "Cool About You".

INDUSTRY NEWS

Nimbus Records in Britain believe they have come up with the four hour CD. They are currently testing a disc which has double the capacity of existing CDs by being very high density. But even if the four hour disc becomes technically possible, there are doubts that the record industry will relish the idea.

Meanwhile a recent new survey on CD shows that the public's faith in the format was unaffected by April's media scare claiming that the discs deteriorate quickly. Some 49% of British CD owners were aware of the deterioration stories and 38% of people not intending to buy a CD player also noticed the media coverage but 71% of owners said it would make no difference on their outlook of CD and the same applied to 68% of non-intenders, according to "Music Week". The survey also revealed that the typical CD owner was well paid, under 35 and without children and that 77% of them were entirely satisfied with the product.

Upon repeated listening I find myself enthralled with some stuff we're playing. Eddie Money's "Let's Pull Together" is a wonderful love song full of soul and emotion. The Money-Man just keeps on getting better.... Keith Richards "How I Wish" is what we picked to go with second. This song really shows that Keith was/is the heart of the Stones. The chugga chugga guitar dogpaddles through this baby and the crowd went wild.... Could U2 get any bigger? Yes.... .38 Special has shot me dead, I'm floored. Max Carl has added so much to this band. Just when their sound may have been getting stale along comes a savior. "Little Sheba" is the most fun on the radio. Girls wrestling at a Holiday Inn in Jacksonville is my kind of event.... Read my lips, play Kix "Cold Blood". Telephones are so damn hot for it, along with Winger, Hurricane and, of course, Guns 'N Roses.... And Tommy Conwell has come on like gangbusters, getting top five phones this week.... We re-added "Long Time Till I Get Over You" this week. We originally added this track, now it's time again. Certainly the comeback LP of the year.... And finally, Vinnie Vincent has the Halloween thing locked in with "Love Kills" and his buddy Freddy.

Andre Gardner, KZEW, Dallas

The Steve Earle really sounds fantastic in the mix. This is one of those songs that breathes on the air a little more than it does in the office.... Michelle Shocked is a real talent. "If Love Was A Train" is pure magic on the airwaves and brightens any set that it's in.... The audience may not have his name down yet, but they love "Slow Turning" in this neck of the woods. No doubt about it, John Hiatt has more than enough grit to work in this market.... Edie Brickell continues to do quite well here in her backyard.

John Lassman, KQRS, Minneapolis

Thanks to Jimmy Page for the exclusive prime time spotlight interview. We talked rock and roll past, present and future and the listeners loved every minute of it.... Ditto Bad Company, Cinderella, Ian Gillan, .38 Special and all the others.

Hubby Dean, KZRR, Albuquerque

Winger is catching fire all of a sudden. We've been playing "Madalaine" for weeks now and the audience is just starting to kick it in for these guys.... We are getting an immediate reaction to the House Of Lords track. The audience is telling us that they really enjoy this band.... John Hiatt continues to do very well around here. It's a catchy tune with all the elements of a hit right up front in the mix.... Tommy Conwell continues to rack up his audience support with his debut album.... Everybody loves Joe Satriani. The people demand to hear him. It's not just request action, it's a necessity. Everybody loves that man and the people demand to hear him bigtime.

Wendy Steele, WLVQ, Columbus

10-17-88: Sitting down ready to read the trades, and do some quality listening before Tuesday when we decide on our adds. In search of the ultimate compilation CD or cassette that I haven't already listened to, but I can't find one. The trades do a great job of putting these things out, such as the Hard Attack, and I've noticed that some labels seem to be doing more of this, which is great. When I do music calls, I take notes, and later look over them and realize that I need to listen to the next track from so and so, and bands I've never heard of, etc. If they were all on one label compilation, I surely would be more apt to listen to it sooner and more often. Searching for each individual song takes time and we all could use more of that. Maybe up to date compilation releases could be a nice complement to the trade releases, which I feel are very important, they give that overall view of what's hot and happening. How about instead of 3 x loop of a new release--try 3 new releases? Could the above possibly save time and space?... Thanks to Mark Dyba at Relativity for coming to Columbus, hanging out eating and shopping.... This week in town--the Moody Blues and the Smithereens, the latter we are broadcasting live--and finally, it's about time you gave that car away, it's not nice to tease!... Congratulations to the Hard Report on their 100th issue!

Patty Martin, KSJO, San Jose

Fear and loathing in Las Vegas this weekend! It was fun to see everyone as usual and thanks to our "Lordly" hosts, Gene Simmons and the RCA staff. I gambled the big stakes and lost a dollar and five cents--I know it's Gambler's Anonymous for me. House of Lords have everything it takes to be a big, big band, and all the elements the kids love. After so few gigs they already have that arena feel.... Also enjoyed last weeks visit, over dinner, with Tom Cochrane.... Whomever at Atlantic came up with the brilliant idea to sticker a 12" ruler announcing the next single from Frozen Ghost had a stroke of genius. I'd much rather have a drawer full of 12" rulers than an office full of 12" and CD singles.

Anthony Alfonsi, WDVE, Pittsburgh

The more I listen to "Rattle And Hum", the more I love it. "Angel Of Mercy" should be a smash. U2 just keeps getting better and better.... I'd like to thank Don Coddington of Mercury Records for his help with Cinderella and thanks to Mark Firtzges of Atlantic for his help with Kix, and thanks to Steve Whiteman of Kix for giving the station a great plug from the stage of the Syria Mosque.

Dana Steele, KLOL, Houston

Saw a band last night you just have to see live--Rhythm Corps. "A young U2" seemed to be the general reaction. These guys won't stay in small halls much longer. Also Tommy Conwell was in town last night. It was the most energetic show I have ever seen. He has that Springsteen kind of energy.... Special thanks to Joni at Mark Spector's office for the exclusive Pat Benatar

interview Moby did yesterday. I just knew he was going to scare her to death--but in the end she stayed for 30 minutes and had a ball. He and Pat hit it off comparing notes on their toddlers.... I love Jim Capaldi's "Something So Strong". It's one of our strongest adds of the week along with the new Little Feat. I expect a lot of curiosity calls based on Jim's own name recognition, yet the record is good enough to stand on its own.... You can't go wrong with Cheap Trick--and it's so appropriate for Halloween.... Also new: House Of Lords. Nice hair, and we like Greg's clothes. My question is how much mousse is in that band? Hey, that could be a station contest!... Little Feat can do no wrong, and the album continues to do so well down here.... Michelle Shocked also continues to do very well--quite a few curiosity calls. And solid #1 phones for Edie Brickell--even the hardest rockers are calling and asking about her.... Finally, if you need to reach Rick Lambert--he can be reached at 713-622-1080.

Brian Illes, WKFM, Syracuse

They aren't the highest numbers in station history, but they are the most satisfying as we finally beat the competition in just about every daypart and demo.

Chris Poole, KBPI, Denver

The Tom Cochrane goes on this week. It's one of those songs that sounds much better on the air than it does in the studio.... The Jim Capaldi is a very impressive track and could very well become a signature song for us. Give it another listen if you haven't done so already.... Also on deck is the new Dreams So Real, an important new band with a strong first effort on a major label.

The Colonel, WGTR, Miami

I am no longer professionally represented by anyone. Thank you. And now, ratings information: Summer Arbitron, 1988--persons 12+: 97GTR 4.1, WSHE 1.9, WZTA 2.4; Men 18-34: 97GTR 16.5, WSHE 6.1, WZTA 6.5; men 18-24: 97GTR 17.9, WSHE 7.4, WZTA 5.1; Men 25-54 97GTR 7.5, WSHE 2.8, WZTA 4.9.... and now music: Nothing goes better on a warm sunny South Florida day than a cool breeze from the Great White North, and "Big League" from Tom Cochrane and Red Rider is just that. It's great to have these guys back again. I've been a fan since "Lunatic Fringe", and quite frankly, thought that Red Rider had become a "Ghost Rider". Boy am I glad that's not the case.... U2's "Rattle And Hum" is causing serious problems with our phones. Our listeners can't get enough. This is a CD that's going to be around for quite some time.... Personally my faves are Eddie Money and the Traveling Wilburys. "Walk On Water" still blows me away when I hear it on the air. And when Roy Orbison, eh I mean Lefty Wilbury, starts his part on "Handle With Care" well, all is right with the world. I can't wait for the whole CD.... Finally, personal to Slats--congrats on the KDF gig. Glad you made it out alive!!!

Doug Clifton, KBCO, Boulder

As we head into the final stretch of 1988, here's a list of records that are working best at KBCO: U2 has been #1 phones since the single came out, and in its first week in the stores the double album set rocketed to #1. No doubt, this is the biggest of the Christmas releases.... In this year of the female performer, we have 2 more names joining the ranks of Tracy Chapman, Melissa Etheridge and Toni Childs. Edie Brickell and the New Bohemians had been the hottest thing on the phones prior to the release of "Desire" from U2. "What I Am" and "Little Miss S" have been the songs that have worked best. Edie is #2 right behind "Rattle and Hum" in our latest retail report. Michelle Shocked jumped to #5 retail last week, and "Anchorage" continues to do well on the phones. The record is working its way into a heavy rotation. The "Folkways" collection has been a consistent seller since its release. Springsteen and Little Richard are still our consensus tracks.... Hothouse Flowers has been building a retail story since day one. The phones have been a little slow, but if we can get them into town, that might help.... Keith Richards is #4 retail but not much phone response. I'll be interested to see how long Keith can sustain the retail success.... Some personal favorites: Randy Newman and John Hiatt. Both records are chocked full of tasty material that is perfect for KBCO. New music this week includes a new song from Bonnie Raitt on the "Stay Awake" release--it's a little AC-sounding, but anything Bonnie does works for us.... Joe Ely returns with his best work in several years. "Settle For Love" is the first of many songs to be considered.... John Mayall has been away far too long, the single didn't knock us out, but "Cold Blooded Mama" should work.... KBCO will be sending a listener and their guest to Dublin to attend the world-premier of "Rattle And Hum". Thanks to Ellen Darst and Andy Allen for all of their help.

Lorraine Rapp, WAQX, Syracuse

Chrissie Hynde's cover of "Windows Of The World" knocks me out. I think the Pretenders do an incredible job on this song and I can't rave enough about Chrissie's soulful delivery. Unfortunately having said all that it's still a little too light for me to play anywhere but on my office turntable.... Tommy Conwell's "If We Never Meet Again" is a winner. This up-tempo melodic tune is a great follow-up to "I'm Not Your Man", and highlights Tommy's powers as a mass-appeal artist--the harmonies are killer. I saw him perform a few weeks ago and it didn't take long to see that this guy has the goods to go the distance.... Conrats to Mark Chernoff and the staff at WNEW-FM for their great book.... Good to spend time with Joe Ricitelli of Polydor and Pat Rascona of WTG.... My best to Jack Isquith of Epic who's honeymooning in Mexico right now.... Congrats to Michael Prince on his new gig with WTG records.... And finally, please, please, please do not call me about music on Mondays and Tuesdays, the rest of the week is fine, thanks.... From Meg Stevens: Van Halen rocked the Carrier Dome last Saturday night and we were very happy when Sammy took a banner from an enthusiastic fan and

help it up for over 20,000 screaming fans to see. It said, "Van Halen Rocks 95-X". Thanks Sammy. Also thanks to Warner Brothers' Jeff Criden.

Jim Steel, WIOT, Toledo

Yeah, the 17th was my birthday, and it rained harder that night than it did the night of Tommy Conwell. Had a great night, too, I sat in traffic from 10:31 PM to 1:30 AM, missed out on a date, and ended up going home in a great mood. Things got better, though, in fact--a lot better. We finally got room for another track from the best new artist of '88--Melissa Etheridge's "Like The Way I Do". Her star continues to shine brightly.... Rumors can be the death of us all--but I'm real bummed to hear of some of the rumblings in Cleveland.

David Sadoff, KLOL, Houston

Jeff Healey, Tommy Conwell, Rhythm Corps, Pat Benatar, Hothouse Flowers, Ian Hunter and the Grateful Dead in concert. Wow, what a week!

John Amberg, WKRR, Greensboro

A million thank-yous to Carl Groover of Warner Brothers for the Van Halen and Prince concerts. The new Little Feat cut has that vintage sound our audience just loves.... For 1:45 of pure fun, you can't top the Satellites "Hippy Hippy Shake".... U2's "Angel Of Harlem" has a nice Memphis feel to it. However all the above records, as good as they are, pale in comparison to the new Steve Earle Lp "Copperhead Road". The title cut is epic. "Even When I'm Blue" is a classic roots rocker. "Back To the Wall" turns a Mellencamp groove into something John would never dream of. This is one of the most significant new releases of 1988.

Max Volume, KRZQ, Reno

Went to the House Of Lords weekend in Las Vegas. Big Fun. Gene Simmons has his own creative wing of the RCA/BMG stable, and the first signing of this collaboration is House Of Lords, a fiery and inventive band that I'm very impressed with. Their live set left us anxious for more. Gene seems real happy, House Of Lords are a high quality rock and roll band.... You know, three years ago, the only thing that came in from RCA was a Hall and Oates remix. (Three years ago however if you told me that any label would produce hit albums from Lita Ford or Love And Rockets, I'd a been a rolling, I'd a been laughing for days!) But RCA did. RCA took these two "cult" artists and put them on the map--big time! Credit must be given, the RCA/BMG gang are extremely talented, classy professionals. Big thanks, high regards and loads of respect to Jim McKeon and Hugh Surrat.... There's been a lot of talk about hard rock, metal rock these days. I have been programming successful metal for over 7 years. I have had a lot of help from people like Ray Gmeiner at Elektra, Dave Rothstein at Capitol, Kenny Ryback, and a former music director at KMET by the name of Hugh Surrat. I don't know if Hugh wrote the book on programming metal rock, but he wrote a damn good one, one that helped me book after book after book. So I urge you to grab House Of Lords and run with the ball. It's a darn fine piece of work!

Joe Marino, WCCC, Hartford

WCCC, the station that says "Eat It", held a special protest Tuesday, October 18 at a local Burger King. It all started when a listener called morning man "Sebastian" and told him that he got fined for eating in the Burger King parking lot due to a Bloomfield, Connecticut city ordinance forbidding eating in your car! WCCC found this ordinance to be silly, absurd and inane, not to mention ridiculous. Sebastian, his partner Dianne Novak, PD Ted Sellers, PM driver Joe Marino (that's me), and well over a thousand of our listeners decided to break this law by gathering at Burger King and eating in, on and around our cars. The police watched us but didn't bother us at all, and all three of the major television crews from Hartford joined in by covering the story. All in all, a great lunch!

Gregg Mull, WRXK, Ft. Myers

First, I'd like to thank the Lords and Lordlings from RCA Records for the cool weekend in Vegas. The House Of Lords was an interesting restaurant (if I'd just got some of that one tray of appetizers) and the band House Of Lords definitely has the goods. These guys can hit home with the hooks, smooth into the ballad and then rock as hard as you want. If you're not on "I Wanna Be Loved", you should be.... Edie Brickell and the New Bohemians continues to blister the phones.... This bugger is now in it's second week as the #1 ringer and shows no sign of slowing down.... It's great to hear Jim Capaldi again. The last project I remember was kind of tasty but didn't have any of the balls this new one has. I think the women will love it!... Living Colour deserves your immediate attention... Please check out the video to see the emotion of these guys.... Michelle Shocked is a hit... Don't miss this train!

Tom Bass, WPLR, New Haven

First and foremost thanks to David Ross at RCA for letting me in on the House of Lords showcase in Las Vegas this past weekend. I had an incredible time. Also, thanks to Steve Klein at Atlantic who achieved God-like status in my book for his help with our Robert Plant free music weekend.... Circus Of Power is taking off on the phones and we're seeing growth in sales. If you missed, "Call of the Wild", don't worry. There are at least three more tracks on the "East Coast", Guns and Roses album. Beginning next week, adds will not be ready until 4PM on Tuesdays.

Erin Riley, WMMR, Philadelphia

It's nice to read all of the great comments from people who have been seeing Tommy Conwell play on his club tour. I see at least three or four positively glowing reviews of the show each week, so now you all know what I've been talking about for all these years. The new release is going to be, "If We Never

Meet Again" which we've been playing since the release of the album and getting great response to. Check it out and play it heavily. Let's keep Tommy on the road for life.... I must say Keith Richards was looking pretty lively on Saturday Night Live last week. I always knew he'd be a great frontman.... Much fun was had this weekend in the city of sin, Las Vegas. However, I'm not sure I want to see any of the pictures. House Of Lords were excellent and a bunch of great guys. We're getting a good reaction to them on "For Rockers Only"--and Gene Simmons, well, let's just say he's Gene Simmons. Thanks to everyone for a blast: Jim, Randy and Hugh.

Stephen Page, KOME, San Jose

Strongest add this week: It would have to be from the Guitar Speak collection. The album is just simply incredible and it's nice to see all these guys back again. Such a diverse collection of tunes on one Lp is definitely a guitar player's delight.... Also new: Joan Jett's "Little Liar", quite possibly the best thing she's ever done vocal and production-wise, it's totally accessible to all dayparts.... On the subject of women, Melissa's "Like The Way I Do" smokes.... Got a second week add on the Wilburys and we're looking forward to the Lp.... Ivan Neville goes to medium. It definitely deserves a higher rotation. We've seen some good response and it's one of the hottest vocal performances of the year.... John Hiatt goes light to heavy--that was another something we couldn't overlook. John is doing so well, getting such good response, that we wanted to open it up a to all dayparts and share it with the world.... Whoa Jeff Healey! A guitar-player's dream. Solid phone reaction and a rock-solid Lp prompts the move to heavy.... We just added Michelle Shocked last week and already we're starting to get good curiosity calls.

Dan Hansen, WQFM, Milwaukee

This week's strongest add is Cinderella's "Bad Seamstress Blues", another smoker in the vein of "Hangman's Jury". I even like it better.... also new: Joan Jett--it's a great track! She's singing like she's actually got a voice--not yelling. Nice job on that.... also BOC's "In the Presence Of Another World". I think it's stronger than "Astronomy". Great guitar--a good night time add.... Moved Vixen to medium, with that killer hook, it can't miss.... House of Lords also jumps up on the basis of how it sounds. We just think it's gonna happen.... Joe Satriani went to heavy--just a great reaction record--phone calls every time we play it.... Winger's doing alright. That might bust out.

Redbeard, KTXQ, Dallas

I'm getting on top of my desk for the depth in two records in particular: Red Rider and Kansas. The tracks from Tom Cochrane are the title song "Victory Day", "Suns Beat Down" and "Calling America". Top 5 phones here for the single and it's very early.... There's a reason why Kansas brought Bob Ezrin in. It's because these guys are serious. There are 12--count 'em--12 songs on the CD. Do yourself a favor and sit down with the full color insert that divides each song into its own magazine article. Sit down, look at the graphics, follow the concept, and it is so cinematic, so good. Tracks: "One Big Sky", "I Counted On Love", "The Preacher", and "Inside of Me".... We added Steve Earle. It works because it's different, it works because it's dynamic and it works because it's a real underbelly of a lot of Americana. We haven't always been sushi and BMW's. We've been white lightning and "Copperhead Road".

Inessa York, KGON, Portland

Our strongest add is out of left field, can you believe I would call it Survivor? Shock of shock. They've come up with a strong song and it sounds terrific on the air--and that's what you need.... Also new: John Mayall, Ozzy's "Miracle Man" (which is an interesting add for us). He's kind of like the uncle of hard rock. Kids don't need to know from us that his record is out, so they're telling us. It's an important record for that demo.... We welcome Robin Banks as our new overnight guy. He use to work here about three years ago and we're glad to have his marvelous wit back under our roof.

Lee Randall, WDIZ, Orlando

Coming off of a great weekend of concert activity--the Grateful Dead in Tampa prove that again the Dead cult is just that. More than just a show, it's a circus. This year the Deadheads have progressed to tents for all your needs. Including foosball tables. It was a fine set from the bearded wisemen--and some of the fans are still there.... Is Ivan Neville really Huey Lewis under an alias? And can Johnny Winter get rid of that tattoo with a little dermabrasion? If we gave Mike Dukakis a cigarette, would he really be Rod Serling? Seriously we had to get rid of the Bunbury's this week because there was evidence they were on steroids.... Listen of the week: Guitar Speak.... Jim Capaldi, Kansas, and Johnny Winter all get our nod this week. After three listens to Johnny Winter you have to "call the law".

Mike Jones, KISW, Seattle

Much has been made recently about the refusal of some retailers to carry certain records because of controversial album covers. We all know the Guns N' Roses success story. Now Lightning's album with the expletive is out-selling the expletive-deleted version five to one. And the Jane's Addiction phenomenon continues to grow in Seattle: #5 phones this week, top ten sales out of the box. KISW listeners are finding "Nothing's Shocking." So the evidence says controversial covers sell albums. Why then did CBS institute a self-imposed ban on the new Ozzy Osbourne cover before it was even released? Why say no to free publicity? Thorns or no thorns, KISW listeners love him. "Miracle Man" is number one phones this week.

Beth Kepple, WKLS, Atlanta

Number one request this week is Steve Earle's "Copperhead Road"!!! My boyfriend turned me on to "Guitar Town" 2 years ago, and I've been dying to hear him on 96 Rock ever since. I guess the rest of Atlanta concurs....

Dreams So Real still haunts my musical conscience, I got to see them play live Friday night, and they're just as impressive in the the flesh as on vinyl. Hard to believe only three guys can put out so much sound (Thanks for the limo, Linda).

Craig Bradley, WRIK, Paducah

Tom Cochrane has one of the better cuts off one of the better albums this year, it moves to heavy with top fifteen requests.... The Hunters and Collectors also have a good cut that might really break big for them, and everybody should give them a chance.... Finally, the Little Feat song "Long Time Til I Get Over You" gets some airplay, it's the best cut on the album, in my opinion anyway.

Mike Gardner, KOAS, Big Island, HI

U2's "Rattle and Hum" is just what we'd want, from the long awaited double live release. Thanks to Island for the CD.... Another fine Island release, John Mayall, is strong all the way through. I plan to use the whole Lp. It's great to see John on a major doing his stuff with such a tight sound.... Also sounding good is Tom Cochrane, Dreams So Real, Frozen Ghost, Northern Pikes, Dickey Betts with one great album, and Bad Company who sound better than ever.

Dave Ross, KFMU, Steamboat/Vail

U2 continues the success here with our two emphasis tracks, "When Love Comes To Town" and "Angel Of Harlem".... Little Feat's latest "Long Time Til I Get Over You" has been one of my favorite tracks on the Lp. Our audience seems to have a bond with this band as it debuts at #19.... With reggae having a part in daily programming here, the Maxi-Priest couldn't be passed up. If you're also targeting those upper-demos "Wild World" is certainly the obvious choice.... Randy Newman brings in top requests this week followed by U2, Edie Brickell, John Hiatt and Tom Cochrane.... I would like to thank Michael Brannon of Atlantic for the help in putting our Led Zeppelin weekend together. That's it from the world's only wind powered radio station.

Fred McFarlin, WRFX, Charlotte

Thanks to Tracy McPherson of A & M for a great John Hiatt show in Raleigh, it was well worth the trip. Twin Tone's The Woods opened the show, these guys should be bigger than they are.... Favorite new tracks are, Pursuit Of Happiness "I'm An Adult Now" (Chrysalis) and The Toll, "Johnathan Toledo" (Geffen).... Alternatively speaking, Grant Hart, former Husker Du drummer on S.S.T., will surprise HD fans.... Also on my turntable, Henry Keiser on S.S.T., Big Dipper who will be in town this week, and the Human Music compilation, both on Homestead.

Steve McNee, WZXL, Atlantic City

In the thank you department--Rick Salvador of Capitol for the John Lennon Promotion, Joe Rogosa from MCA for the Elton John shoe and George Stone of Warner Brothers for Little Feat.

Tim Brandow, WKQZ, Saginaw

The Tom Cochrane and Red Rider track, "Big League" grabs you and makes you feel real good. This is the song that stands out the most for me this week.... I've heard the Melissa Etheridge a million times and you know what--I still love it!

Kim Jeffries, KRNA, Cedar Rapids

Tonight the sold out Def Leppard/L.A. Guns show with one of our lucky winners taking a limo ride and attending the extravaganza front row. Thanks in advance to L.A. Guns for dropping by the Rock and Roll bunker.... Van Halen and Private Life coming on Halloween including a live backstage broadcast, then AC/DC and Cinderella, (I'd better get front row for that one!).... Hot stuff studio wise as well, for the 5th week in a row Escape Club's "Wild Wild West" is top gun. If you haven't seen the video yet it will blow you away.... "Don't Walk Away" from the new Pat Benatar only took a few weeks to reach top 5 phones.... Those Traveling Wilburys have an obvious hit, can't wait for the full CD.... Our pick for the week--The Dickey Betts Band they'll be rockin' the top with this one, I don't think they could find "Rock Bottom" if they tried. A definite toe-tapper.... I'd like to thank those who have been supporting our gigantic annual KRNA Christmas promotion, we blow out over 1,000 prizes to listeners and Children's hospitals each Christmas, keep those gifts coming!!!

Robin Mathieu, WBLM, Portland

Melissa Etheridge, as an artist and an album, definitely warrants a second track on AOR. She is a very strong talent that we should not miss.... The Georgia Satellites will have a big hit with "Hippy Hippy Shake" and we want to get a jump on the competition with this one.... Randy Newman has come out with a very strong album and "It's Money That Matters" is a perfect example of the man and his genius for pop that matters.... We are covering our flanks against CHR with an increase in rotation for the .38 Special. This album is a going to go far with multiple formats.... Dreams So Real has plenty of good stuff on their album and with those Portland Maine lyric lines you just know we'll have to make use of it sometime soon. I am reminded of the first time I heard the Brandos. "Gettysburg" was a real performer for us and there are some interesting comparisons in this project.

Mike Ryan, WKGR, West Palm Beach

Hothouse Flowers moves into Heavy this week after generating some impressive phones for us the last few weeks.... Tom Cochrane has been slowly building audience response and we hope to see it turn the corner sometime soon. I listened to the album over the weekend and it sounds deep from where I sit.... The Wilburys get a little push this week and we look forward to getting the entire album in our hands.

Mike Willis, WMFX, Columbia

Jim Capaldi goes straight into Power this week. We anticipate big things for this record and want to get our licks in as early as possible.... Eddie Money also moves into Power this week on the strength of his best effort in a long time.

Eric St John, WNPQ, Canton

Midnight Oil goes on this week and we have been waiting for this one to kick in on overdrive. This band has so much to offer the format and this is just one example... This is a big Kansas market and we'll see how their new one performs.... I'm really impressed by the .38 Special. Now that the hook is set, it's in there deep. That is especially true with females who are really into the band this time around.... Tom Cochrane is a real personal fave around here and it's not the only thing you'll be hearing from this very talented guy. With an artist like this it's a matter of investing in his career now so that you can reap the impact of his album down the road.... Our best reaction record right now has got to be the Eddie Money.... Winger continues to get a lot of attention and deservedly so, this is an incredibly strong rocker.... The local clubs are going nuts for "Hippy Hippy Shake". The ladies are especially into this slice of non-stop rockin' fun.... "Born To Be My Baby" is the obvious next cut from Bon Jovi. People are extremely hot for this album.... Poison is headed straight for the top before this single is done with. It's nice to see the boys coming out with a change of tempo.... Look for the Cinderella to hammer big retail points all across the country. This is a huge reaction record.

Matt Roberts, KRQU, Laramie

I was jelly for days after I heard Edie Brickell's speaking voice. She gave me a call to talk about the new album and let me tell you, I may never be the same.... Hottest thing on our playlist this week is the Dreams So Real. Come on AOR, let's get together and make this band happen.... New Frontier moves up to Heavy this week based on some really good phones. This is a band that deserves far more attention than they have gotten so far.

Lori Niks, WYBB, Charleston

We are showing instant top five phones on the Traveling Wilburys this week. These guys are not to be believed.... It's the same name, even though the voices are similar, but not the same style as brother Mark. David Knopfler's "Whispers Of Gethsemane" gets thrown right into our Medium rotation. Good song.... Ok, I'll confess. Based on their band name I thought Maxi Priest was just another Heavy Metal group. So I pop in the CD single and prepare myself for some headbanging when lo and behold, much to my surprise, it's a mellow cover of Cat Stevens' "Wild World". It just goes to show the old adage, you can't judge a book by its cover, is true. "Wild World" debuts on our playlist in Medium rotation.

Christina Gorton, KKZX, Spokane

The Pretenders hit the air this week. "1969" is our choice from their new project and it should deliver some positive reaction from our core.... Pass the brewski and cue up "Dancing Shoes" from Steve Winwood. The man has become an undeniable staple for the format in the 80's.... Gregg Allman gets major phone action for "Slip Away" and we move it up a notch in rotation as a result.... .38 Special moves up this week based upon solid audience response.

Al Scott, KZEL, Eugene

Ivan Neville tested real well on the new music show and should do good things here in Eugene.... People are really up for a new Pretenders track especially "1969".... Gillan and Glover finally gets the nod and it sounds great in the mix. This record has been a personal fave for some time.... The Traveling Wilburys is a very happening project and I can't wait to get the rest of the Lp in my hands.... Top Five Phones first week out for the Georgia Satellites. Not bad for two minutes of blue jean frenzy.... Night Ranger continues to knock back major phones for us. This band is a very bankable group for the market.... It's nice to see that Melissa Etheridge is finally getting her due. This artist should be far more familiar than is currently the case.

Karen A. Small, WGIR, Manchester

Amiee Mann and 'Til Tuesday continually come up with strong songs, and "(Believed You Were) Lucky" is a well-crafted piece of work. This is another one of those bands which should be a lot bigger than they are--they're very tasteful.... As a guitar player, I eagerly awaited the first Guitar Speak release, and was not disappointed. Virtuoso guitar playing always has and always will deserve a place on album radio. This week we'll roll "Steve Howe's "Sharp On Attack".... Joan Jett's "Little Liar" shows Joan handling some of the strongest vocals of her career. Coming hot off the heels of "I Hate Myself For Loving You", this one will provide her with another hit, as well as show that she is able to handle a power ballad with the best of them.

Bob Jefferies, KBOY, Medford

Fear and loathing in Las Vegas, Hunter Thompson said it all, but the angels of mercy in the guise of House Of Lords sparked a solid evening of entertainment and capped a special RCA weekend in Nevada. House of Lords is power rock and roll--"I Wanna Be Loved" produced by Andy Johns and Greg Guffria is a first track phone reactor. Check out "Pleasure Palace" and be sure to screen the video!! Special thanks to Steve Levit, Hugh Surrat and the entire RCA family--Hey, I got back intact with my wallet, car payment and mortgage. I must be doing something right.

Jenni Gipe, WZBH, Georgetown

Guitar Speak is a truly wonderful piece of work.... Welcome to the playlist Southside Johnny. A band doing Peter Frampton's "Baby I Love Your Way" and Lynyrd Skynyrd's "Freebird" combined--what is the world coming to?

Pam Brooks, WPDH, Poughkeepsie

Mere words cannot tell of WPDH's glee as Jon Bon Jovi and Company dropped by the Lake in Woodstock on Thursday and then again at the Chance in Poughkeepsie on Friday to entertain a small but overwhelmed crowd of PDH listeners. Treating us to the best of the previous Lp's and lots of hot stuff from "New Jersey" including my 2 favorites, "Wild Is The Wind" and "Lay Your Hands On Me". These clubs hold anywhere from 200 to 700 people and the idea that a group riding as high as Bon Jovi could stop by various small venues--it was what the spirit of rock and roll is all about. To top it off, the Friday gig at the Chance which featured the Stray Cats had a tremendous jam of old 50's greats done by the Cats and Bon Jovi. Thanks Jon, the Hudson Valley loved it and so did we.... The exciting blast from the past award goes to Jim Capaldi and his great new song "Something So Strong". It makes all the right moves, given his talent and the fine folks backing him up. I was riveted on first listen by a song that just washes over you in a real sexy way. It's a wonderful addition to our list.

Johnny James, WCKO, Jackson

Tuesday Blue is a class act that has excited Jackson...also we are ready to pay the Toll.

Greg Torrington, CHEZ, Ottawa

It's mainly catch-up ball this week with extra tracks added from Michelle Shocked, Crowded House, Little Feat, Colin James, Tom Cochrane, Steve Forbert and Hunters and Collectors. We also added a great new single from Annie Lennox and Al Green who duet on the Jacki deShannon classic "Put A Little Love In Your Heart". It comes from the Soundtrack of "Scrooged". Christmas came early. And last but certainly far from least is Bonnie Tyler's new song, "Hide Your Heart". It's one of those tunes with the impact of a song like "You Give Love A Bad Name". Hey, wait a minute! They were both written by the same guy--Desmond Child--the formula is more than intact.... We've recently had two wonderful live broadcasts here on CHEZ. The first from Hothouse Flowers proved that all the promises made and the pre-hype surrounding the group and their album "People" is all true. They deliver on all fronts. And we also went live to air with John Hiatt and he gave his usual quality performance.... This coming Friday we're pleased to be going live from local club, Barrymore's, with Colin James. This show sold out two weeks in advance and you've got to just know this will be one tremendous concert.

Tom Van Sant, WIZN, Burlington

The Southside Johnny album is a bit of a puzzle. Most of what I hear qualifies as new age music, a far cry from Johnny's glory days. But both "Ain't That Peculiar" and "Little Calcutta" show Southside in his prime, still belting it out.... 'Til Tuesday was an easy add. "Coming Up Close" was a real performer for us from the last album, so there's no doubt "(Believed You Were) Lucky" will be a star. An adult audience appreciates a lush-yet-ballsy tune such as this.... Toni Childs has an arresting and soulful voice, which made "Don't Walk Away" a huge request item for us. "Stop Your Fussin'" should do just as well.... Steve's corner: Go Dodgers!

Ty Banks, KQWB, Fargo

Melissa Etheridge fever is happening. It's an epidemic. "Like The Way I Do" is developing into the strongest track yet.... Also, Midnight Oil's "Dream World" is a success in reality. Please listen to this. Give it a shot.... Fun seeing Jeff Healey on Letterman last week.

Cyndee Maxwell, KWHL, Anchorage

The Alaska Broadcasters Association annual convention was last week and we in programming were treated to a very special guest--Dan O'Day. Dan shared a lot of great information with us and was the highlight of our convention. Proudly we toot our own horn, as we report that of 12 possible awards for excellence in broadcasting, KWHL received six goldies with our sister station taking another five. We are proud of our production team and the excellent work they provide our company.... U2 is number one on the request lines with "Desire" and I think that "Love" and "Angel" will follow in it's footsteps.... I like the baby tush mix of Joanie's "Liar". It seems to come out a little more.

John Riggs, WKLC, Charleston

Alan Sells, our morning guy, is now officially program director. We'd just like to say "Good Luck Big Al".

Jeff Ivan, KFMX, Lubbock

Huge thanks to Ronnie, June, Hilaire and Sean for letting me witness the most dynamic new artist of our times, live. I'm speaking of Jeff Healey. It was the most intense musical experience of my life. If you've never seen him live, don't pass up the chance to do so and if you're not playing him, what have you got, shit for brains? It's going to be so interesting watching him progress over his career. It just boggles the mind what he'll be able to do in the next ten or so years. He's going to rewrite the book.

Elise V. Borgh, KPEZ, Austin

Thanks all you record people for the interest in the Jake Wiseman affair, Tommy Chautas from Columbia met Jake Friday the 14th at the Backroom where Tommy Conwell was rumbling away. And Atlantic seemed interested too. Gee, if this works out, I may jump the fence to the other side of radio: records. (Just kidding)... Radio is heaven right now. I'm so glad "One Night"

is the new Bad Company track, this has been my favorite track all along.... I like the new Rhythm Corps too. "Father's Footsteps" is an excellent second cut to push the "Common Ground" album.... Thanks to Beth Rosengard for the suggestion to go with "License To Steal" from Al Stewart, I see the rest of radio agrees this is the perfect song in this day and age.... Jeff Healey moves up to power finally, and Steve Earle moves up to heavy with "Copperhead Road", a cleanly produced rocking number from Steve. The album will do quite well in Austin.... Love that Keith Richards. Top five phones since day one.... I'd love to be out of the box on the Guitar Speak album, but all I have is the cassette.... I know all you veritable Virgins want "Five Long Years" as the next Colin James cut, but in this blues rocking town of Austin, "Why'd You Lie" just fits so much better.... P.S. to Tim Parker from my alma mater KNCN in Corpus Christie, love that quote on the Traveling Wilburys and your classic picture with hair.

David A. Ross, KMJX, Little Rock

Magic 105 welcomes AC/DC and Cinderella to town October 28th. It's always interesting to watch the weenie rock stations and top 40 suck up to shows like this, when they didn't even play their music. Magic 105 is getting ready for the next big show, one I'm excited about--Robert Plant and Joan Jett November the 10th.... Magic 105 has lined up a killer set of fall promotions, including trips, money, and a few surprises. We're working with Coors Light to send four people to Miami to watch the Razorbacks play the Miami Hurricanes in November.... Also like to thank Ralph Carroll the Polydor dude for the fun visit--good luck to Jeff Blalock in his new gig.... Top 5 phones for Jeff Healey. I think it's partially due to the MTV airplay, along with our play. It's really starting to kick in for us.... Also a lot of phones on U2, and we're so many tracks deep that there's not really any one cut in particular.... Randy Newman goes to heavy. We are starting to see some interest with both call out and the fact that the Knopfler sound is there. It sort of fills the Dire Straits void.... We put John Hiatt back in medium. We went on it early and it just kind of laid there. Now it's doing so well around the country that we deiced to hang on to it for a while, and now were seeing more interest.

J.D., WONE, Akron

WONE is looking for the ultimate Little Feat fan. This contest includes an opportunity to check out Little Feat's final stop on their tour in Miami, plus introduce and meet the band at their Cleveland show. Details?--we've got em. All our listeners have to do is collect the most wearable pair of shoes which will be donated to charity. The person who collects the most shoes wins. Continuing on the promotional scale--Robert Plant rolls into town this week and for one of our listeners we will Plant someone in the front row, plus set them up nicely by planting a cellular car phone in their automobile.... Musically, we continue to have fun with the new U2 Lp. It seems our listeners just can't get enough of Bono and the boys. Just wait until November the 4th.... Dear Carolyne Heldman: the offer still goes for the meat loaf dinner--to John Beaulieu at WTUE, get serious!!

Kelly Cruise, WEGR, Memphis

With a name like Wilburys it's got to be good. And it is. Speaking of George Harrison, we're up there on Cloud 9 too, with our summer ARB.... Special thanks to Lenny for the birthday card, and to Charlie London for being a friend.

Lin Brehmer, WXRT, Chicago

She's got a great voice; she's charismatic; she's funny; and she's going to be a star. She seemed wise beyond her years. Her humor had the warmth of Will Rogers and the worldliness of Cisco Houston. Michelle Shocked made a deep impression at her Chicago concert.... The Hothouse Flowers, all of them, played a short acoustic set live on the air. There's a band with some substance and an enviable future. "I'm Sorry" is the best song on the album.... We'd like to thank Peter Garrett of Midnight Oil for the interview. The number of months we've played that album in current must be close to a record.... We count ourselves among the earliest and more enthusiastic supporters of the Balancing Act. Their version of George Clinton's "Can You Get To That" is wonderful.... They Might Be Giants might be giant someday.... We like their attitude, we like their sound, we love their hats.... The Cocteau Twins title track is our choice from a new record that is doing serious numbers at retail.

John Loscalzo, WRCN, Long Island

Attention programing geniuses, have you ever seen these people in the same place at the same time? Met's pitcher David Cone, veteran teen actor Anthony Michael Hall, Dodger first baseman Mickey Hatcher and seminal character actor Charles Grodin. If you have please contact the WRCN department of genetics and bar tending at 516-727-1185. Thank you and have a nice day.

Andi Turco, WEQX, Manchester

Here's a surprise, Siouxsie and the Banshees beats out Edie Brickell as the most requested artist this week. I'll admit it won't work for everyone but it might work for you. And most of these requests came from women.... The new Julian Cope is a great record. I can't wait to hear the whole thing.... After seeing great results from the first Frozen Ghost track it's only natural to play "Pauper in Paradise"--the hook is more obvious in this one anyway.... I also want to publicly congratulate my airstaff for a job well done. We have quadrupled our numbers in the most recent summer Arbitrons. Great work everyone.

Phil Maicke, KFMH, Davenport

Here at KFMH, a station known for playing alternative rock and roll and rhythm and blues, we are delighted at the R&B slant that a lot of the new music is taking these days. And we are delighted at the way our listeners

are eating it up. Compared to the classic rock/top 40/CHR's battling around us, we are an oasis for the ears. Great new music is alive and well and probably at your consultant's or PD's house or on 99 Plus. Michelle Shocked, Jeff Healey, Johnny Winter, Omar and the Howlers, not to mention U2 are all top 10 phones with folks begging for more.... The biggest surprise of all is John Mayall. Here is one of the influences returning with an excellent release, "Chicago Line". I may be fairly new at this, but maybe the secret is to listen to the music and listen to your audience. You expect them to listen to you.

Jetson, WOXY, Oxford

A lot of things to talk about this week. First of all I will be leaving WOXY to work at Relativity Records. Starting November 1st, I will be doing national alternative album promotion. I've loved working at WOXY. It's a great place to work and Doug Balogh is the best person I've ever worked for and I've learned a lot from him.... WOXY is looking for someone to replace me. They must have M.D. or P.D. experience. I want to thank Doug Balogh for his help and the chance to work here. I also want to thank Rick West at WXKE, who believed in me years ago. I learned a lot from him, too. I'm going to miss working at WOXY, but I'm looking forward to working at Relativity.... A couple of quick notes about music this week. I saw Hothouse Flowers last week and it was one of the best shows I've ever seen. Don't miss them.... We are awaiting the arrival of Harry Dean Stanton and Michael Been at our studios this afternoon to play live on the air. They are playing tonight in Cincinnati... Also this week we've decided to add Living Colour. After seeing them twice in the past month, I'm sold! This band cannot be ignored any longer.

Rich Robinson, WHTG, Asbury Park

The Dodgers are the luckiest Baseball team in the world, it's a shame my old pal Mike is going to have to root for a guy named Dallas.... Musically, Fishbone makes a power move--only in America! Peace, love and go A's!!!

Jody Peterson, WNCS, Montpelier

A very appealing song, that "Charlotte Anne" by Julian Cope. The melody is mesmerizing, the vocals are soothing and the song is catchy.... It's great to hear Richard Thompson cranking it up again. His new Lp is getting positive and immediate reaction here.... We are dumbfounded by the continued listener response to Michelle Shocked. "Anchorage" is running neck and neck with Edie Brickell's "What I Am" on the request line.

Renee Blake, WKXL, Concord

WKXL-FM is pleased to announce that it won a New Hampshire Association of Broadcasters Merit Award for the Promotion: The Music Zone Snow Bank. We clothed 100 area families in the late winter of 1987-1988 with the help of the Salvation Army. The Music Zone wants to thank the many record companies and their representatives who made musical contributions to our Snow Bank effort. We hope to do it again this year and will look for your support. Thanks again!

Bill Evans, KTAO, Taos

Steve Earle rocks more than our station does so we are going to change format.... As for the new material by Los Lobos and Ruben Blades, somewhere in your audience there are some Spanish speaking people. They are both extremely well done records.

Joe Simon, KTCL, Ft. Collins

We are going to give Ice T. a shot this week, with "I'm Your Pusher". We been testing the record for about a week, and so far the response has been great. The rap/groove thing is really happening these days at KTCL. Blood Brothers and Ofra Haza move into medium this week and requests for Moev are really picking up.... By the way: Toots rules!

Patrick Ferrise, WWVU, Morgantown

Living Colour and the Godfathers performed in Morgantown this week, and let me tell you--what a show! Living Colour is one of the best live bands I've ever seen!... As always lots of cool stuff this week, including Grant Hart and Big Dipper's new LP, and lots of thanks to Josh at CBS for the Midnight Oil interview.

Doris Duwe, WTSR, Trenton

We had the pleasure off seeing Siouxsie at Rutgers University on Monday, and the stage set was nothing short of brilliant, the best set up I've ever seen. She had a series of backdrops that came down and the way the lights were adjusted, it looked like a curtain in a theater and you could only see the shadows of the players. As the songs went on, each time they changed the imagery was different. The person who designed it, for some people who weren't die hard fans, you might be bored. So even if you weren't following the music, you still would be entertained by visuals. Budgie, the drummer was in the middle of a staircase that descended down a ramp and it looked like an old pier and it looked really eerie. It was fantastic! She played most of the songs on the new album and as an encore she did "Dear Prudence" and "Cities In Dust". Her album still stands at #1 after three weeks at WTSR.

Tracy Barnes, Z-Rock, Dallas

Without a doubt, the new Z-Rock is the hottest station in the nation! Watch out, 'cause we're coming to your town and are takin no prisoners! As far as the serious, head banging radio crunching music on now from coast to coast: After world premiering the new Metallica, we predicted #1 on the Z-Rock 50, and there it is! Metallica has eight tracks working extremely great (as usual) for us. The new Ozzy is hot, hot, hot--we're on nine tracks with new guitarist Zakk Adams (real name here)--"Miracle Man" debuted three weeks ago at #3.... Keep both eyes on Bulletboys and Winger (or lose one), Z-Rock is the only rocker two tracks deep on both, and both are in Power....

We also go on our second Living Colour track this week.... Mucho thanks (that's San Antonio Spanish) to Randy Hock and Bubba McManners from the mighty MCA for setting up the first in the Z-Rock "Live Coast-to-Coast Concert Series", kicking off this week with Femme Fatale. And kudos to Elektra's Jeff Cook for providing us the goods for a fantastic Metallica trip giveaway. I'll keep ya posted. No whimps, No posers!!!

Cole Gill, KSJS, San Jose

Well King Diamond and crew have once again proved why they deserve the success they are now getting. They put on a real seriously rocking show, two nights in a row last week in the Bay area. But why can't they get booked into some small arena's? They should be playing 2 or 3000 seat arenas instead of small clubs. I found out they can party all night. Lots of fun. Short note to Mega--hey, thanks for the Raven and Forbidden tapes. You don't have to sell me on Forbidden Don, I've known those guys for many years. Their album is gonna leave bodies in their path. Where the blazes is my new Ozzy album? Should I look under my Christmas Tree? After all there are only 62 days until Christmas?

Ras Kut, WUSB, Stoney Brook

What's a good word to describe the upcoming release "Mind Wars" by Holy Terror? Perhaps shredding? Yeah, it shreds no doubt, but there is a lot more to it than that. What Holy Terror has conceived should by no means be described in one word. In this day and age of metal where we find an overflow of droning vocals, stereotyped guitar riffs, lackluster basslines and unconventional drumming, it is quite hard to find a band which can be classified as genuine. "Mind Wars" is genuine! Is imaginative! Holy Terror offers both power and melody in their music, meaning in their lyrics and a train of thought for their listeners. But most of all, Holy Terror has the base of talent and musicianship on which all five members stand. The album ranges from intense ("Judas Reward", "Damned By Judges") to melodic ("Immoral Wasteland", "Christian Resistance"), all the way out to psychedelic ("Mind Wars"). The guitar work is beyond comprehensible. The vocals attain frequencies unsurpassed. Folks, I appeal to you all, give this album more than a brief listen. Holy Terror cuts a new direction for metal. Does anyone care to follow?

Mike Jones, WGIR, Manchester

Big Big thanks to the brothers Spillberg from Wargasm for dropping by Rock 101 this past Sunday evening on Whiplash. Rich and Barry are great people. Their album rules and you should play it at every single opportunity. They're playing at a big festival up here in New Hampshire with Flotsam & Jetsam. It should be a lot of fun. Thanks to Bill at Stratagem for setting it up. More music talk next week.

Lora Porter, KPGA, San Luis Obispo

Let's talk Enigma metal - the wave of the very near future. Think about--Hurricane, Saxon, Death Angel, Montrose and MOTORHEAD all on one label. Did someone say Motorhead? I just got done listening to their upcoming release, "No Sleep At All". I had to pick myself up off the floor after only one track, "Dr. Rock". This album has heavy rotation written all over it. "No Sleep At All" will surely be considered just as classic as Motorhead works like "Ace Of Spades", "Iron Fist" and "No Sleep Til Hammersmith". "No Sleep.." contains excellent new stuff as well as Motorhead favorites like "Ace Of Spades", "Killed By Death" and "Overkill". This is a MUST ADD. A note to other commercial stations--if you think you're too good to return Clarissa's calls, you'll be sorry. Enigma metal is exactly on line with where metal is going. The day is coming, you'll beg to speak to Clarissa.... Keep adding Intrinsic.

"Perilous" Cheryl LeBeau, WHUS, Storrs

Who the hell sent me this Bon Jovi record?!? I said I wasn't playing the sucker. File 13 for this piece of crap. The good stuff which I am playing includes Helloween (I'm a happy little DJ), Death (snort), Wargasm, Mallet-Head. We have a hot new little demo from Avante Garde, if you want a copy, give us a call. See ya, bye.

Dana Galloway, KCSF, San Francisco

First and foremost I want to thank Jeff "The Metal Slave" and Wade "The Love Bunny" for doing the things that they've done. What, you may ask? Hah, I'll never say. I'm just a media prostitute (kisses to Czar, Mikhail and Terrible Ted). Anyway, I would mention something about the Concrete thingamajig, but since everyone else has, why waste the space. But if anyone has like, any really cool stories to tell or pictures to share, let me know. That goes for Metal Marathon as well since I can't be there. So what's going on music wise? I think Jane's Addiction is totally cool and so do all the dudes in the station. So what's the deal here? Confusion and forgetfulness are the words for the day. Until next week dear friends.

Russ Ceccola, WKVU, Villanova

Well, well--now that we're closer to Halloween weekend I hope to see all of you fine folks (I'll even include Monte) at the CMJ convention.... Just saw AC/DC last week with my partner in gore-drenched crime, Caesar. they were as awesome as ever with a slightly shorter set than usual. However, Cinderella was somewhat disappointing even though they really kick ass on vinyl. They're live show has to stop being a one man show--it's bad enough that they turned into a bunch of cowboys. Anyway, I'm looking forward to that incredible show put together by Combat. We get to see Megadon having a raging time in our home town of Philly. What more could I ask for except for maybe an evening alone with Tipper Gore and my baseball bat. I'll see all of you in a week or so with my Halloween blood on hand. Michael Myers, evil pumpkins, Helloween (with that awesome new release), gore, blood and maggots will all rule at this time of the year.

Jeff Naumann, Virgin, 213-278-1181

TORTURE ALERT! If you don't add "Five Long Years" by Colin James, you'll be severely tortured by a Virgin representative. Colin James will be a star, he's delivered a great album and "Five Long Years" will be a hit at both Top 40 and Album Radio. If giants like WMMR and WIYY can come out of the box, don't you think you should take a closer listen? Avoid torture, add Colin James. We are completely committed in breaking this great new artist. Help us, it's in your hands.... Flash! Maxi Priest added at WLUP and WNEW, this one's going to be a monster, get on "Wild World" quick.... You should all have CD's on Keith by now, depth on Keith means big ratings, the tour starts immediately after Thanksgiving, stay tuned for details.

Kenny Wilbury, Warner Brothers, 818-953-3723

"Handle With Care", "Dirty World", "Rattled", "Last Night", "Not Alone Anymore", "Congratulations", "Heading For The Light", "Margarita", "Tweeter And The Monkeyman", "End Of The Line". Ten great songs from 5 great musicians. Nelson, Otis, Lucky, Lefty and Charlie T. Jnr. Wilbury. Enjoy!

Jon Wilbury, Wilbury Awareness Promotion

Be on the lookout for a song called "Last Night" on the new Travelling Wilburys CD. It's an absolute stone knockout, destined to go #1. Mark my words.

Kevin Sutter, Chrysalis, 800-221-8787

Just back from seeing radio in the Southeast and the Midwest and it's great to see everyone optimistic about the format and it's artists. We're optimistic about our new Tull track "Overhang", out for only two weeks and already on over 30 stations. We've also developed a little bit of a Harry Truman mentality being that we are setting a goal of putting a Tull box set under each Christmas tree.... Rock's first lady, Pat Benatar comes with track number three "Let's Stay Together" from her soon to be platinum Lp. Already a monster at KLOS, KISW and a wealth of stations--and just think, we didn't even work radio on this track yet. Boy is that encouraging!... Now for the beef. As you read this you'll be playing the Pursuit Of Happiness "I'm An Adult Now". This song will probably be the best reflection of current events since the Tubes' "White Punks On Dope". Watch this song explode with your actives right away and get into the Lp right now so you're ahead of the game in picking follow-up tracks.... The biggest news is the Waterboys are back! Their first Lp in three years is "Fisherman's Blues" and it will be in your hands on November 14th. No hype, just ultimate music.... You know it's still not too late to be part of our Freddy Kruger Halloween promotion for "Love Kills". Call me!

Jill Maxick, Chrysalis Records, 212-326-2337

"I've got the problems of an adult on my head and my libido..." but I'm handling it fine thank you very much 'cause this week "Love Junk" descends on the masses! The Pursuit of Happiness, or TPOH to all you close friends, make their US debut with this Todd Rundgren-produced LP. "I'm An Adult Now" is sure to be flavour of the month; EVERYBODY who hears it: sings it, remembers it, laughs with it and most of all, relates to it no matter what age they are. I remember thinking it was the coolest song last year when I still lived in Buffalo and listened to CFNY crank it constantly (as a Canadian indie 12"). I've already got firm believers like Jetson at WOXY adding "Adult" OTB and there are plenty more tracks for alternative radio to champion. I have CD's so just call me. TPOH is performing their "Junk" as the Friday night showcase of the CMJ Convention October 28th in New York. Catch 'em if you can! The three year wait is soon to be over--The Waterboys "Fisherman's Blues" is out for November 14th. Hear the title track as cut #1 on the Hard Attack CD of the same date! No, Karl Wallinger is still with World Party who's 2nd Lp is due next year. And yes, the Waterboys album is everything I hoped it would be and more.

Michael Linehan, Reprise, 818-953-3750

What can Big Country promise you that George Bush and Michael Dukakis can't? "Peace In Our Time". It's only a week away.

Mark Gorlick, Uni Records, 818-777-4020

Forget the Dodgers and A's, because it has become apparent that the Fall Classic has got nothing to do with baseball. Steve Earle's "Copperhead Road" has been out just three weeks and it's already sticking to playlists like pine tar on Jay Howell's glove. Major stations, secondary stations, just about every station short of a gas station is having legitimate success with this record. This "Copperhead" is poised and ready, and like the snake, this record will strike.

Jay B. Ziskrout, Arista, 212-830-2178

Now that you've all had a chance to hear "Rough Night In Jericho" from Dreams So Real, You'll no doubt be anxious to see this powerful trio live. The tour kicks off this week with dates in Raleigh (10/22), Winston-Salem (10/23), Baltimore (10/25), New York (10/26-27), Boston (10/28), Washington D.C. (10/29), and will continue through December. Look for their video on MTV.... I hope you all saw Jeff Healey on "Late Night With David Letterman" last Friday. He was a featured player throughout the program and ended the show with a performance of "Confidence Man". It's amazing to see the quantity and quality of media attention Jeff has received in only 5 weeks of release. On the radio front, it's great to hear reports of top-5 requests and early sales. Thanks to all who have been a part of this success story from the beginning.... If you re-listen to "Rain" from Stealin' Horses you will soon recall that this was one of your favorite tracks from the album. It's still the same fantastic song but with the added bonus of a re-mix by Thompson and Barbiero (Guns N' Roses and Cinderella). To top it off, the band is touring, currently on the West coast.... Witness put on a great show last week at New

York's Cat Club. Don't miss them when they come to your town. And, to get ready for their visit, please consider their latest single, "You're Not My Lover".... If you have a jazz or new age show, please make sure you are playing "Silhouette" from Kenny G. As you would expect, this album is selling like the proverbial "hotcake".

Graham Hatch, Frontier, 609-799-7597

My senses are still reeling from the Mallet-Head show at the Paradise in Boston last week. To watch the Stilthen Brothers is simply awe inspiring. Lead singer Morgan Keathing (newly named Morgan from New Hampshire) is becoming the classic frontman. Many thanks to all at WBCN who put it all together, we don't have fun like that in Jersey. If you aren't pounding your Mallet-Head I suggest you do so now. Audience response is the difference between hype and reality, and everyone on it from WBNY to KRSR are getting the calls. "Duel", "Spooned", "Fight"--there isn't a loser track on this record. Play it now, there's just no point in waiting for your audience to call you on it.... If you don't have Frontier/Tower Records compilation "Diamonds at a Discount" in your hands, give me a call. This clever compilation includes "Bad Liquor", off the upcoming third American Music Club Album, and what has become our own Pledge of Allegiance from the Young Fresh Fellows, "I'm An Artist"--a tune that George Bush will spread through classrooms throughout America.

Penny Barnes, Rhino Records, 213-828-1980

Last week was just a little crazy, having been off for a couple of weeks, but now I'm back into the swing of things.... The Sparks are such a great team, it's about time radio started paying attention. We are talking to you, the alternative AOR's about this record this week, and the Sparks are the official hosts of the upcoming 91X Bay Bash and 10K run next week. If you're gonna be down San Diego way, try to make it because they'll be featuring artists like Duran Duran and The Information Society playing live.... Also a hearty congrats this week to my bud Yvonne Olson Sandbloom who scored majorly in the "hot-gig" department as she goes to work doing national NAC for Geffen!! Get 'em Yo!!... Also, check out the guys in House Of Lords. I've got a feeling that this band is gonna be huge. Great music, great licks, great looks!! Yowza.

Lydia Sherwood, Emergo Records, 212-219-0077

Thanks to college radio for supporting the Waxing Poetics, "Manikin Moon". Any CD-equipped stations should give me a call; the bonus CD-track, "Marianne Faithful", was even requested by Island Records! (Hope Marianne liked this tribute cut.) Interested in a Poetics interview and/or station id's? Feel free to give me a call, soon!

Colleen Baxter, SST Records, 213-835-8977

Screaming Trees update: "Invisible Lantern" debuts at #19 on the CMJ chart. In Gavin, a week after being chosen "Record To Watch", the album jumps onto the alternative chart at #31. And in Rockpool, the Trees have the #7 indie album on the charts, putting "Invisible Lantern" on the big chart at a #38 debut. The favorite track right now is "Ivy", although "Walk Through To This Side", "Smokerings", and "Direction Of The Sun" are all getting significant amounts of airplay as well. See them in concert this month with FIREHOSE, and in November with Sonic Youth in Vancouver, Seattle, and Portland...Kudos to Jetson for making WOXY the first 'mersh station to add Grant Hart's "2541". So what are you waiting for?

Steve Knill, Good Music Management, 612-338-4235

"It's always difficult to describe music, especially when a band's sound has no direct parallels. The Chicago Reader describes the music of Trip Shakespeare as "The kind of stuff that if you listen to it long enough would make you stagger outside to stand and stare blankly at the moon". Musician Magazine described the sound as a combination of Jefferson Airplane, Buffalo Springfield and the Talking Heads. If you're in New York on November 1st, stagger down to CBGB's to see what all the fuss is about. Check out "Reception", "Toolmaster" and "Spirit" from the album. Next week, Dugan McNeil's "Eyes Of A Child" from the EP, "Israeltown".

Jerry Rubino, Bar None, 201-339-8291

Mucho thanks to those of you out there already playing They Might Be Giants' new album "Lincoln". "Ana Ng" is going along at a really steady pace, and continues to grow. This week's commercial adds include WRCN, WRSI, WXRT, WHFS, KTYD ("Purple Toupee"). Sorry to WKXL for not mentioning them last week, there you go. Listen up programmers: those of you who have never heard the record or are just tossing them aside as a novelty, slap yourself in the face. Programming a station is supposed to be fun and adventurous. I should know, I've been doing it for 4 years. These guys are serious, unique, smart and damn good. This record can work at your station. Give it a good listen, trust me. Enough low key preaching now. Both They Might Be Giants and Glass Eye are currently in the early stages of their Fall/Winter tour, early reports on both are above expectations. They Might Be Giants are also working on a video for "Ana Ng".... I have two questions. Have you tried the new Dunkin' Donuts cereal, the glazed kind, my cat even likes them.... And, is it true that "It's Your Money I'm After, Baby" by the Wonder Stuff was dedicated to Mike Tyson from Robin Givens? Later.

John Hammond, Rykodisc, 508-744-7678

No matter how you slice it--the Screaming Tribesmen's "I've Got A Feeling" is an uptempo rocker that combines the Australian alternative image with a solid, straight-ahead rock sound working on several key mainstream outlets. Sales: Top 10 sales in Seattle, 1st week out on KISW! Heavy reports all over the West coast, plus Boston, DC, Conn, and Chicago! Requests: Top 10 phones in Boston for 2 weeks on WBCN--and now the song is next week's "Big Mattress" song of the week! Also great phones at KROQ and 91X.

Rotations: Immediate heavies at WBCN and KISW, as well as WRCN, WCKO, KOAS, KLBJ, WFNX, WHTG and others! Breakouts: The tune is top-20 now on every alternative chart, with heavy action at WXRT, WHFS, KSPN, WRSI, KTCL, and WOXY. Tour: Two weeks in the Midwest opening for UB40 begin October 28th, followed by a four week club tour starting in L.A. on November 17th! There's a serious multi-level success story building on this band, and it will work for you! Don't take my word for it--ask anyone who's playing it!

Deborah Klinger, Apache Records, 213-466-9958

Howdy folks! What's happenin'? Besides Hollywood Underground, of course. "Blue Taboo" continues to pull in great reactions wherever it gets exposure! #13 at WCKO--it's only the beginning! Spice up your station! Add some color! Go Blue!!!

Stewart Morales, Torrid Records, 914-664-3885

Hi! I'm Stewart and I'm the new radio promotion dude here at Torrid. I've moved forward from my "motley" past to join the manic metal team at Torrid Records who recently celebrated their third birthday. What's cooking here at Torrid? Why Hades of course, with their second critically acclaimed LP "If At First You Don't Succeed". I urge you to find out what the Hard Report, CMJ and FMQB already agree upon. This is an album to be played and heard. Why? I'll tell you! "If At First You Don't Succeed" features not only some of the most competent metal musicianship, but it is also one of those few albums, in the genre, that touches on a wide range of relevant topics with thought provoking lyrics. Topics like adultery in "I Too Eye", homelessness in "King In Exile" and even prison overcrowding in "In The Mean Time", among many others. So check it out for yourself. Cheers and thanks go to: Matt at WRTN, Charity at Mechanic, Schnapp at unemployment, Jessica at CMJ and Peggy and Lulu at Atlantic. Oh yeah, good luck to my predecessor, Leeza Pawlin at Caroline. See ya!

Chris LaSalle, Profile Records, 212-529-2600

Monte Conner, Roadracer Records, 212-219-0077

Reaction to the advance tapes of Atrophy's "Socialized Hate" and Holy Terror's "Mind Wars" has been excellent, and I'm expecting both LP's to shoot up the charts. Atrophy hail from Arizona, the home of Flotsam and Sacred Reich. "Socialized Hate" combines thoughtful, socio-political lyrics with fierce, mid-paced thrash--all topped off by gruff yet accessible vocals that stamp immediate appeal on each track. My personal faves are, "Preacher, Preacher" and "Killing Machine", though you guys seem to really be lapping up the hilarious "Beer Bong".... Holy Terror needs no introduction. The facts are simple: Keith Deen has a unique, weird voice, the band contains awesome musicians, and Holy Terror sounds like no one else! I call it melodic, high-tech, thinking man's metal, with chilling psychological lyrics. Wait 'til you see the mind-blowing cover artwork. Holy Terror and Atrophy vinyl, along with King Diamond's "The Dark Sides" will be in yer hands by October 31st.... Coming soon, Sodom--"Mortal Way Of Life" (Double Live!!) Yeah, I know what you're thinking: "Those Guys can't play. I won't believe it 'til I hear it". Well, trust me boys and girls--it's Sodom, it's live, it's tight, it's brutal, it's two hours worth of lovable Tom Angel Ripper and company. WOOOARRGH!!!! Also coming soon is a pre-LP 12" single from Realm. The band sounds like a mutant hybrid of Rush and Metallica. Realm's 1:58 cover of "Eleanor Rigby" will mesmerize and thoroughly blow you the hell away. Ladies and Gents--**This Is God!** It's coming soon, from the fine folks at Roadracer.

Cheryl "CMJ Awaits" Valentine, Metal Blade, 212-645-6208

Hey, hey, hey! Get a load of this! Mike Rittberg at WVFS has Banshee in his NUMBER ONE slot and says that it's going to stay there for quite some time. So what's the matter with the rest of ya? They will be signed by a major and here's your chance to break a band. It can't be more simply said. Do something today to help your reputation tomorrow!... Coming to your doorstep soon: Anvil and Dead End. Those of you who have graced your ears with "Blood On The Ice" may have an inkling that this is Anvil's best LP. In my humble opinion, it blows "Metal On Metal" out of the heavenly water. Be sure to crank Dead End's "Shambara". It went to #4 on the Japanese national charts ("Ghost Of Romance" was #14 at its highest) and two tracks are sung entirely in English!... Our next MEGA mailout will be comprised of Sacred Reich's "Surf Niagra", Omen's "Escape To Nowhere", and the soundtrack to the movie, "Black Roses". Get those drool cups R-E-A-D-Y!... Those who it was cool to hang out with in L.A., but they were givens, include: Clarissa Garcia who hung 'til the wee hours with me, Derek Simon--always a pleasure, Chris Black (how are the pictures of Don?), Jem Jem Aswad who I didn't get to hang with enough, Jessica Harley (where's Chris?), and the

infamous Mark LaSpina whose wind I caught briefly (it's a joke, get it?).... Get ready for interviews with Anvil!

John Bello, Hawker Records, 212-219-0077

Well, I'm still alive. I survived the first week of marriage, and believe me, the first week is the toughest. The wedding was a smash. The highlights of the wedding included me (in my smashing attire) falling on the steps of the church while taking my wife with me, and seeing 3/4's of Token Entry in tuxes. What a sight. Well worth the admission. Speaking of token Entry, their LP, "Jaybird" has been getting massive airplay on the hardcore/metal shows as well as on the alternative programs. The cut that's getting the attention is "The Fire". Matt O'Shaughnessy of WRTN tells me "that the requests for "The Fire" have been incredible. We get about 10 requests a show. I'm a bit surprised that metal kids who are into Slayer and Metallica are getting into Token Entry".... The Pagan Babies are setting up a mini-tour starting in late December. Stay tuned for dates. The Pagan's are working on new material for their second LP.... Wrecking Crew has just finished recording their debut LP "Balance Of Terror". It displays their crossover potential and is scheduled for a January release.... NY's hardest, Rest In Pieces is currently in the studio working on their second LP, "Under My Skin". "Under My Skin" is slated for a February release.... Thanks to Snot Givens, Megadong, Steve Martin, Cheryl Valentine, Steev Ricardo and all who wished me their best. P.S. If you're thinking about sending a wedding gift, please no toasters. I think that four is sufficient for now.

Charity Kurz, Mechanic, 212-226-7272

O.K., there is something that has been grating on my soul for months now--Deathrider!! Did you know that the original Deathrider appeared about 3 years ago and now resides somewhere in Brooklyn? Is this new Deathrider a phony? Does he really exist or what? With these sorts of unanswered questions in my mind it's no wonder I am in the state that I am. I want to move to Jackson, Mississippi and learn about turnip greens. They play a lot of Jetboy down there too.... The Voivod/Violence tour starts in November. I hope Bill Fisher and Mike Colucci will take them to McDonald's when they go to Boston.

Megadon, Combat, 718-740-5700

Just when I thought I had fully recovered from Foundations Forum and "Ultimate Revenge 2" (details next week), along comes another CMJ Metal Marathon, and in a new locale, no less. This year, Chrisby, Cheryl Valentine, Dewey McCafferty, Bill Fischer, Jeff Ivan, myself, and a host of others get to cause Panic at the Panel. Should be scary, to say the least...I will hopefully be sending out Raven and Forbidden vinyl this week, probably as you read these words o'wisdom. The buzz on both bands is huge, judging from the response of advance cassettes and listening parties (hey, you! C'mere! have a beer and listen to this!)...good work with Death and Ludichrist. Keep 'em happenin', because Death should be spouting blood all over your area very soon. I'll keep ya posted. Just to torture ya further, you have to wait till January for new Exodus and Dark Angel...Thanks go out to Clarissa and Death Angel for a killer show at L'Amour. A drunken good time was had by all, and it was great to see Mark and the boys in fine form once again. For those attending CMJ, be sure to catch Raven and Jammin' on Thursday night. Call me for more info...and finally, as so many of you keep asking me, yes, I think Circus Of Power are God! Any band with a lyric like "Gotta get back to New York City/Gotta get back to the girls so pretty" has got to be God! Face it, gang, NYC rules!!!

Russell Gerroir, Concrete Marketing, 212-645-1360

What a country! Where else could somebody work (?) promoting Winger, Anthrax and Ozzy Osbourne? Winger, they're still gaining momentum and moving up the charts, a 13 point jump to #63 Billboard Pop Albums, #27 Hard Hundred, Album Network Homer #37, #34 FMQB Hot Trax and top ten on all three major metal charts. In support of their self-titled debut record Kip Winger has already done a promotional tour and now the band is on the road opening for the Scorpions. Look for Winger to stay on the road when the Scorpions tour ends.... Anthrax is reaffirming their place among the metal elite with their latest record "State Of Euphoria", already a 2* performance on Hard Hitters and FMQB Metal Detector and a #30 showing on the Billboard Album Chart. Lest we forget that teaming up with Ozzy Osbourne on tour ain't gonna hurt them either...Ozzy who? well he's back, the Madman, the Wizard of Oz, the **real** Godfather of metal Ozzy Osbourne. He's flying high again with a 55 to 19* jump on the Billboard Album Chart, top ten metal chart showings and top ten requests in the Hard Report are re-re-re-re-reaffirming Ozzy's place in a world all his own. And going on the road with Anthrax ain't gonna hurt him either...Just a subtle reminder, new Quiet Riot November 1.

Clarissa Garcia, Enigma Records, 213-390-9969, X215

YO, INSOMNIACS! "No Sleep At All" by those wild and crazy Motorhead dudes is on its way! Hats off to Randy Kaye and WHMH on their daring programming move. Last I heard, they've got "Road Mutants" by Death Angel in regular night-time rotation. Yo, Tracy Barnes, I've been Z-Rockin' with the number you gave me. Remember, I never coined that phrase and please don't send Mad Max after me. To Mark La Spina: You're right, a condom stand does not a sex shop make. But, did you check out the toys in the back of the store? Or did someone at the counter catch your eye? Oh, enough of this. I'll see all you Motorheadbangers at the CMJ Metal Marathon. Don't forget to wake up bright and early on Saturday so you can check out the 10 a.m. (thank you, Jem) metal radio panel. See ya!
