R&R Rocks Cleveland 2005!

We're very excited to announce plans for R&R Convention 2005 in Cleveland, June 23-25, 2005. In 1998 **R&R** resumed our yearly conventions in Los Angeles. Based on feedback from attendees over the years on aspects ranging from sessions, speakers and activities to hotel and city, we felt it was time to converge on a new meeting place in 2005.

What makes this convention so special is the concurrent celebration of the 50th anniversary of rock 'n' roll — the cornerstone of our mutual careers in the industry. This past year has been a long season of change in the business. Similarly, Cleveland is often cited as a model for urban rebirth and has been dubbed "The New American City."

During "R&R Rocks Cleveland" we will enjoy several special events at the Rock and Roll Hall of Fame and Museum. The Renaissance Cleveland Hotel — in the heart of Cleveland's business, shopping and entertainment districts — will be the host hotel, and online registration will open soon with special early-bird rates.

and KMYM/Monroe, LA. Concurrently, WRNS is elevating midday jock **Jeff Hackett** to MD.

R&R/Bullseye: Music Views, Listening Habits

Once again this week R&R Bullseye Research posed this question to Country listeners, making the total sample 855 persons, 25-54. We asked, "With your busier lifestyle these days — more things to do, more places to go etc., — do you find you are listening to Country radio more, less or about the same amount of time as always?" We also asked "Do you think the music you hear on your favorite Country station is better, worse or about the same as it was a year ago?"

Of the total 855-person sample, 35% said they're listening more, 13% answered "less," and 52% tune-in "about the same as always."

In answer to the second question, 47% of the total sample felt the music is better than a year ago, 8% thought it worse, and 45% said "about the same."

For complete breakouts — including men and women, 25-34, 35-44 and 45-54 — check out the R&R Country Callout America by Bullseye research page in the Nov. 5 issue of R&R.

113 Country reporters. Songs ranked by total points for the airplay week of 10/24-10/30. Bullets appear on songs gaining points and/or plays or remaining flat from previous week. If two songs are tied in total points, the song with the larger increase in points is placed first. Songs below No. 1 and down in points and plays for three consecutive weeks are moved to recurrent. Most Added is the total number of new adds officially reported to R&R by each reporting station. Songs unreported as adds do not count toward overall total stations playing a song. Most Increased Points lists the songs with the greatest week-to-week increases in total points. Station Weight = AQH Persons + (Market rank X 10) divided by 4180. Total Audience equals Average Quarter Hour Persons times number of plays (times 100). Each daypart on each station is assigned an AQH number.
