THE ARBITRON GUIDE
TO THE BEASTS OF THE
RATINGS JUNGLE

THE UNLISTED LEAPING LIZARDS

ONE OF A SERIES

THE ARBITRON COMPANY

GD a research service of
CONTROL DATA CORPORATION

DESCRIPTION: Those households whose phone numbers can not be obtained using phone directories. Includes those households that choose to have their phone number unlisted and those that have recently moved or changed numbers since the directory was published.

In some markets these households can account for up to 50% of all working numbers.

HABITS: Generally younger, more mobile and includes both upper and lower income households. Can also include a number of minorities.

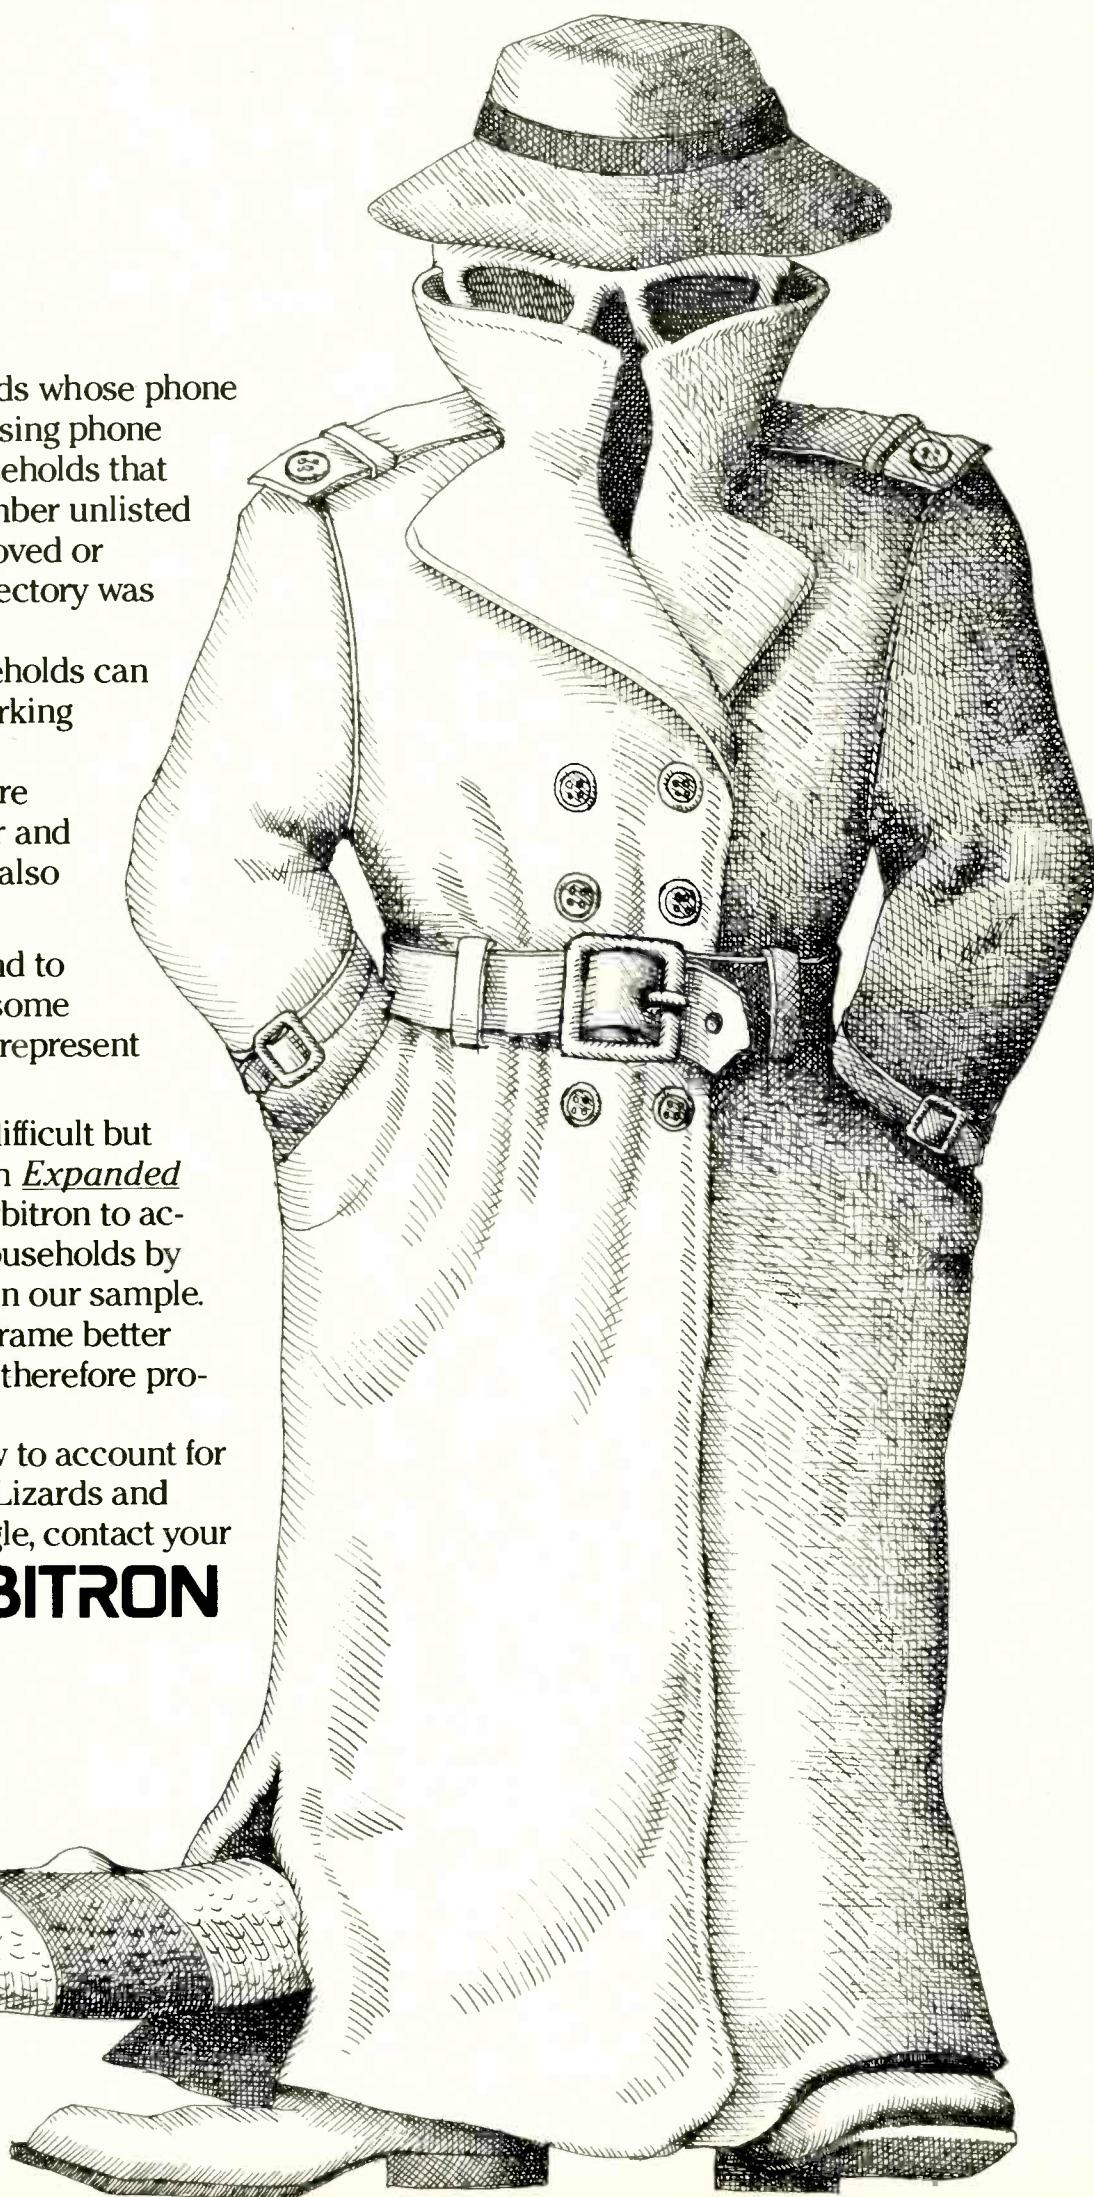

CAUTIONS: Unless a way is found to account for these households, some survey estimates may not truly represent the marketplace.

HOW TO CAPTURE: Extremely difficult but fortunately is possible. Use of an *Expanded Sample Frame (ESF)* allows Arbitron to account for the effects of these households by including unlisted households in our sample.

Thus an Expanded Sample Frame better represents the population. And therefore produces better estimates.

For more information on how to account for the effects of Unlisted Leaping Lizards and other beasts in the ratings jungle, contact your Arbitron representative.

How record companies can save money (and eliminate headaches) with Document Express.

Introducing the first air courier outfit that understands the special needs of the recording industry.

Document Express.

Document Express people went out and talked to people like you—people at some of America's top record companies. Then we designed our air courier service to fit *your* needs.

For example:

1. We show up for pick-ups at your convenience. With most small-package delivery systems, you're at the mercy of the "4 P.M. Pick-up." If the layouts aren't ready—or the stats are on the way—or the plan isn't typed, *tough*. At Document Express we pick-up when *you're* ready. In most cases, we'll still be able to deliver anywhere in the U.S. by 9 A.M. Even if we pick up your shipment at *midnight*.

2. We deliver your package when you want it delivered. 9 A.M. Or 11 P.M. Or anytime you say. Guaranteed.

3. You only pay for what you get. Some courier services charge premium prices for non-premium deliveries. We don't. If your package doesn't have to be delivered at 9

A.M. you can save your money (or your *client's money*) by using our less costly "Next Day" service.

4. We call you to tell you when your package was delivered. No more nail-biting. Within minutes of delivery, you'll know it.

5. We eliminate billing headaches. Our computerized invoice *details* your shipments so your billing department can sort out shipments on a *client-by-client* basis. You'll know what was shipped. To whom. When it was picked up. When it was received. And of course, how much it cost.

6. We can deliver everything from a contract to a demo tape to a cover layout. We can get it anywhere in the U.S. The next day. Anywhere in the world within two days. We can deliver to a customer. A studio. An artist's home. Day or night.

Document Express is ready to go to work for you *now*. Call toll-free 800-528-1372 to arrange a pick-up. Or ask our service representative to send you a brochure that tells more about Document Express service.

new on the charts

DO THESE PEOPLE KNOW SOMETHING YOU DON'T KNOW?

THOM BELL — *Producer & Publisher* — **Thom Bell Prod., Mighty Three Music** — "New On The Charts" is used by all our professional staff as a handy, up-to-date directory of the artist, label and producer. With producers changing so often and on occasion when you find several producers on one album, **New On The Charts** eliminates much of the time and guesswork involved."

ARTHUR BRAUN — *General Manager* — **Dick James Music** — "... like having a research department in our organization ... a built-in assistant for every professional manager. The special features of the publication alone, are worth the price of a subscription."

ARNY GRANAT & JERRY MICKELSON — **Jam Productions** — "Time is so precious in the concert promotion business that a cross-reference ... is invaluable to us ... it's a great way to find information on an act, whether currently touring or not ... a quick guide to what's happening in our industry."

JOHN DAVID KALODNER — *West Coast A&R Director* — **Atlantic Records** — "One of the most useful tools in A&R work to come on the scene in recent years."

DAVE KREBS — **Leber-Krebs Inc.** (Manager of Aerosmith, Ted Nugent & others) — "An invaluable asset ... saves us much time and effort."

JULES KURZ — *Attorney* — "A reference source that is valuable worldwide."

ALLAN PEPPER — *Co-owner of The Bottom Line Cabaret Theatre* — "An excellent service that someone should have provided years ago."

LENNIE PETZE — *Vice President of A&R* — **Epic Records** — **New On The Charts** is a valuable tool that is used daily by our entire A&R staff. We always find the information accurate and up-to-date."

BOB RINGE — **William Morris Booking Agency** — "Keep the info coming ... love your publication."

LLOYD M. SEGAL — *President* — **Lloyd Segal Mgmt./Regency Records** — "... has been indispensable to my staff for the latest information on new signings, song index, producer index and subpublishing availabilities. I have especially enjoyed your 'Who's Who in A&R' and 'Independent Producer of the Month' features. Keep up the good work!"

DAN WRIGHT — *Manager* — **Kipahulu Music** (David Gates Catalog) — "... a necessity in the music business ... the reference list of producers and managers alone gives me the names I need to know — and where to reach them."

MICHAEL ZAGER - SUSAN MCKUSKER - JERRY LOVE — **Love-Zager Productions** — "Definitely an essential part of our organization. From the production end ... it's a place to reach the major publishers. For publishing ... it's a great place to find out who's using the studio time we need so badly and, of course, who needs material ..."

(Continued on page 97)

IF YOU'RE NOT SELLING THE SCOTCH[®] RECORD CARE SYSTEM, YOU'RE SELLING THE SECOND BEST.

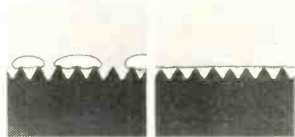

HERE'S WHY:

We've got the *only* system that cleans, anti-stats and reduces stylus friction—all in one easy step. All in one good-looking, highly engineered component.

The Scotch Record Care System combines new Sound Life™ fluid with a unique dispensing applicator. To use, simply depress the supply container and Sound Life fluid is fed automatically to the pad. That's all there is to it. It's quick, easy and simple. No guesswork about how much fluid you need or how to apply it correctly. Just place the applicator on the turntable spindle, revolve it and the record is cleaned.

Deep-cleans grooves.

Scotch Sound Life fluid has super wetting action. It safely penetrates grooves to remove micro-dust and fingerprints. It actually leaves the record cleaner than when it was brand new!

Discwasher D3[®] solution (left) beads up on the grooves. Sound Life™ with super wetting action (right) deep-cleans grooves.

Wipes out static.

Once the record is clean, it's generally the electrostatic charge that gets it dirty again. An anti-static gun is just a temporary fix. But the same

This side was cleaned with Discwasher D3[®]. Styrofoam beads are attracted to remaining static charge.

This side was cleaned with new Scotch Sound Life™ fluid. It's clean and static-free!

application of Sound Life that cleans the record also reduces the static charge to near zero. And it won't return no matter how often the record is played!

Reduces stylus drag.

Stylus friction is reduced up to 15% with our system. That means less wear, improved record life and better stereo performance.

Our product advantages are your selling advantages.

Once your customers see and hear the difference Scotch Record Care System can

make, they're going to want it. And we're going to make it very easy for you to sell it with: Full-color consumer advertising to build awareness and demand.

A powerful in-store demonstration kit that lets customers see for themselves how much better our product works.

A point-of-sale display plus other promotion pieces to help increase your sales.

Dramatic new packaging that communicates the superior quality of this new product.

A competitive price which includes an excellent profit for you.

For more information call your local Scotch representative or write 3M Magnetic A/V Products Division, 3M Center, Bldg. 223-5N, St. Paul, MN 55101.

SCOTCH[®] RECORD CARE SYSTEM. THE TRUTH COMES OUT.

TWO WAYS TO EXPRESS YOURSELF

MUSIC EXPRESS LIMOUSINE SERVICE

The someone special express.

An executive fleet at your service. A wide range of comfort features for the total feeling of luxury.

MUSIC EXPRESS MESSENGER SERVICE

The something special express.

Taking anything important, anywhere it has to be. Punctually and perfectly.

24 Hours A Day / Every Day Of The Year / As Close As Your Nearest Phone / (213) 845-1502

**MUSIC
EXPRESS**
845-1502

Because there's more to transportation than just getting there.

(Cont. on page 80)

Our success starts here.

At April-Blackwood, we've made a habit of converting great songs into classic hits.

Our search for songwriting talent goes on 24 hours a day. Once we've found it, we assist our writers in a variety of ways—from promotion to print to day-to-day song-plugging. We develop them as prospective recording artists. And we work closely with record companies to maximize the exposure of our shared artists and their songs.

There's an awful lot that has to be done in order to move a tune from a lead sheet to the Top-10. And at April-Blackwood, we think we do it better than anybody else.

We create sound packages...

For those of you who may not be familiar with what we do, we have been designing ads, album covers, labels, catalogs, tape graphics, etc. for over 20 years. We also set the type, do color separations, do the printing, make the jackets. Part of the reason we are still around and growing is that our clients know they can count on us — we're honest, tell it like it is and de-

liver a commendable job, usually on time. Since most of our work (layout, art, typography, camera, printing, etc.) is done internally by our own people and our own equipment we can maintain control of all work and at the same time be very competitive.

Lee-Myles Associates, Inc.

160 East 56th Street, N.Y., N.Y. 10022 Tel: 758-3232
Cable: LEE MYLES • Plant: 645 West 44 Street
Serving the graphic needs of the record industry since 1952.

Small run and/or low budget: see our full color "Instant Album Covers" free catalog available.

RCA RECORDS AND PUBLISHING INTERNATIONAL

In this business it's not only who you know, it's where you know them. RCA Records/Publishing International is a global network of professionals strategically placed in major markets: people following through on every detail, and working together so all you have to do is pick up the phone to be in touch with 47 offices worldwide.

So don't think of us as just a corporation; think of us as people doing everything humanly possible for your international success.

A Global Network of People, Not Just Offices.

The State of the Japanese Market

■ According to the report conducted by the Japanese Phonograph Record Association, record & tape production in Japan in 1979 (January to December) was 262,600 million yen, a 7 percent increase over the previous year. Record production alone totaled 198,800,000 copies or a 1 percent gain over the previous year, with a total value of 171,400 million yen which remained stable from the previous year. Tape production totaled 61,310,000 units which means a big increase over the previous year, with a total value of 91,200,000 million yen, 24 percent more than the previous year.

The increase of 7 percent, the total record & tape production in value was an achievement considering the sluggish situation of the general economy caused by the second oil crisis plus infla-

tion. The rise in the percentage, however, was largely due to the increase in the tape production since record production itself has been seesawing recently. In 1978, the ratio of records to tapes production was 70 to 30. The ratio became 65 to 35 in 1979 as in the following figure. The production figures of this year are the result of the establishment of two new companies formed this year.

Singles

In 1979 the production of singles (17 cm 45 rpm) was 106,300,000 copies, or an increase of 8 percent from the previous year. Computed into yen, it means 43,800 yen, a rise of 9 percent from the year before. Singles production fluctuated greatly between 1974 and 1977, but in 1978 it managed to achieve highest figure Japan ever had. Since

then, this increase in production has been continuing. The production of Japanese singles showed a 7 percent climb in volume and was up 8 percent in value over the previous year. Foreign singles also showed an increase of 12 percent in volume and were up 13 percent in value over the previous year.

The ratio of singles production to total record production was 53.5 percent in volume and was 25.5 percent in value, showing the greatest increase in the past 5 years. As in 1978, the production of 17 cm 33 rpm remained at a low 1 percent increase in value of the total record production.

25 cm Products

The production of 25 cm is extremely limited each year. The ratio of this size to the total record production was only 0.1 percent, both in volume and in

value. Production of foreign records of this size has ceased completely since 1973.

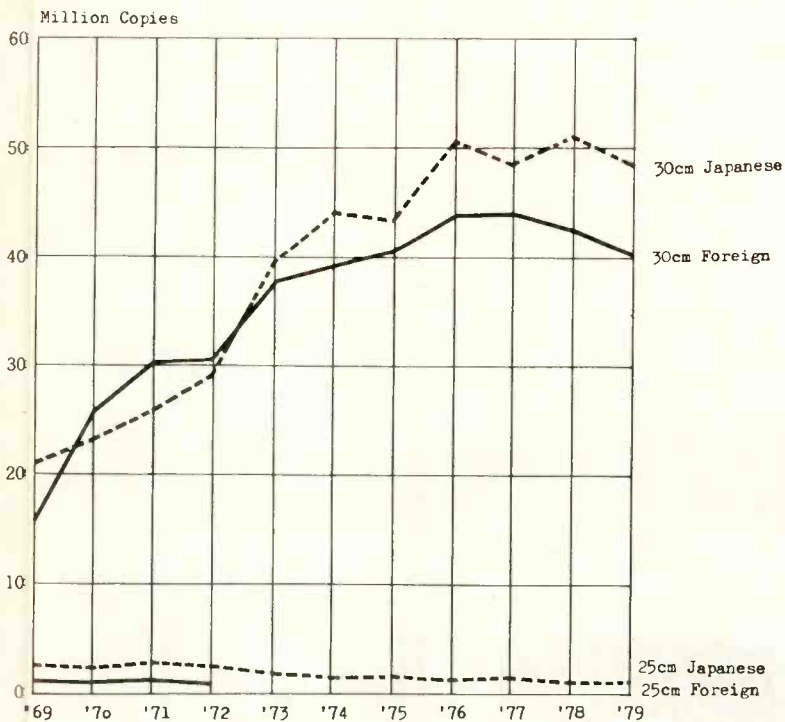

LPs

In 1979, 88,400,000 LPs (30 cm records) were produced, or a 5 percent drop from the previous year. In value it was 125,900 million yen which means a 3 percent decrease from 1978. The drop in volume of production in 1979 exceeded that of 1977 which had recorded the first and the worst figure until this year. In terms of value it is the first time since the beginning of the production of 30 cm LPs that the drop was seen.

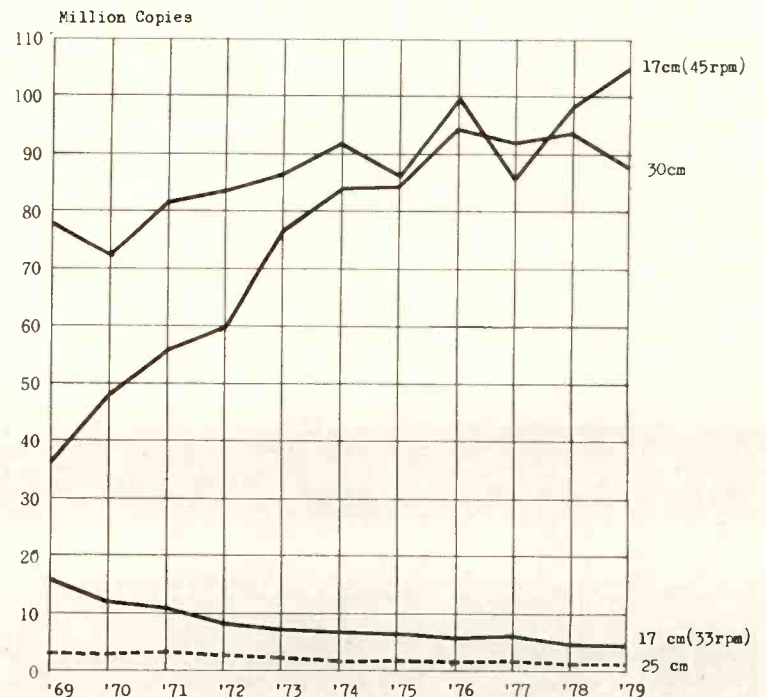

The ratio of 30 cm records to total record production was 44.1 percent in volume (Japanese 24.1 percent/foreign 20.1 percent) and 73.5 percent in value (Japanese 40.7 percent/foreign 32.1 percent).

JVC

Japanese Market (Continued from page 126)

percent). It has been falling for 2 consecutive years, 1978 and 1979, both in value and in volume, compared to the 1977 figures. In 1979 the production of Japanese tapes (cartridge & tape), both in volume and in value, exceeded those of the Japanese 30 cm LPs.

Japanese and Foreign

Japanese record production has been on the increase for two consecutive years, 1978 and 1979, yet, on the other hand, foreign record production has steadily dropped during the same period. A comparison of Japanese and foreign record production in value was 63 percent to 37 percent in 1979 which showed that Japanese records have gained an advantage over their competitor since 1978 which was 62 percent to 38 percent.

The number of records re-

leased in 1979 was 15,591 copies, 3 percent more than the previous year. 6,347 units of music-tapes were produced, 15 percent more than the previous year.

Tape Production

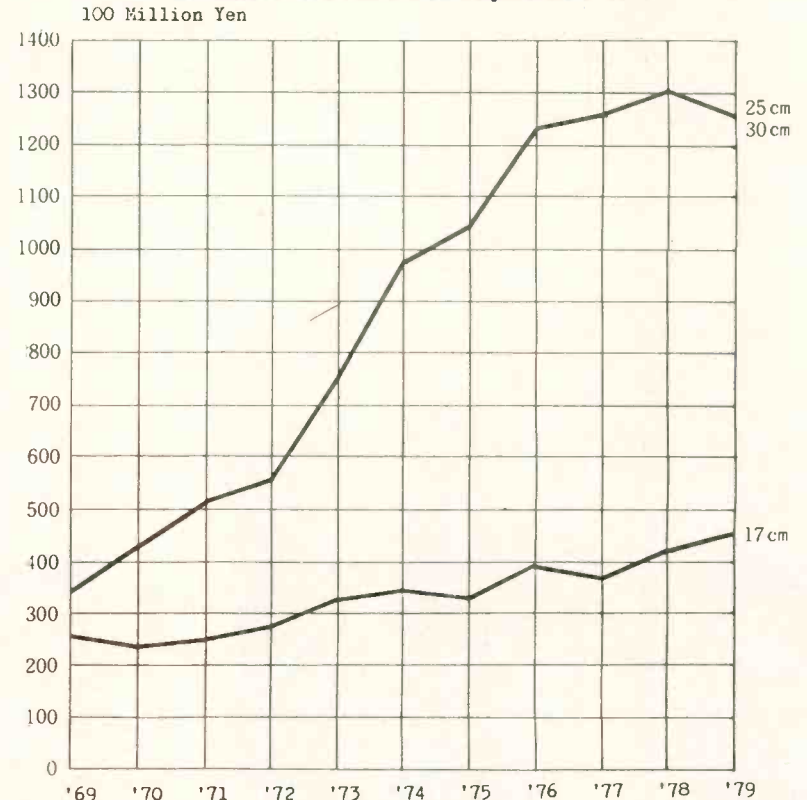

A total of 61,310 units of music-tapes were produced in 1979. This figure represents an increase of 32 percent more than the previous year. This was worth 91,200 million yen, or 24 percent more than that of the previous year.

In 1973 the production of pre-recorded 8-track tapes fell drastically and since then sharp decreases had been recorded. This drop was basically due to the re-

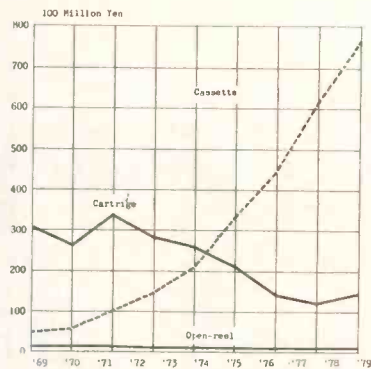

percussions which resulted from the 1973 Arab oil embargo, which severely limited the number of hours consumers spent in their automobiles. However, since 1978, reversal is seen, and the production of 8-track tapes

increased after a 5-year slump. The "Karaoke boom" helped the revival of the production of 8-track tapes. (Karaoke means the song tapes minus vocals. People enjoy singing along with the pop-

ular soundtracks without vocals). The production of 8-track tapes in 1979 was 15,090,000 units, or a 29 percent jump over the previous year and was 14,200 million yen in value, 17 percent more than that of the previous year.

A change of life style for the Japanese people has brought about another innovation in the field of music tapes. The replace-

ment of 8-track deck, an optional equipment for the past several years, to cassette tape which is easier to handle as well as smaller in size, to fit the increasing popular compact cars. Other reasons have also contributed to the switch, creating much more demand for cassette tapes. The production of cassette tapes in 1979 reached 46,220,000 units,

showing a 33 percent increase, 77,000 million yen in value, a 25 percent up increase over the previous year. Cassette tapes accounted for 75 percent in volume and 85 percent in value of the total tape production.

The total number of records exported in 1979 reached 1,113 million yen, or 6 percent more than the previous year. The main

importers of Japanese music in 1979 included America (494 million yen), West Germany (210 million yen) and Hong Kong (76.3 million yen).

In the past, foreign record imports decreased 6 percent in volume, but compared with the previous year, they managed to up 2 percent in value in 1975. In 1976 (Continued on page 135)

Japan's super soul group
Jap's Gap's (Leader, Hiro-Tsunoda)
Wake up the soulful music in your heart.

Junko Yagami
Japanese Top female singer-cum-song writer.

Japanese Market

(Continued from page 134)

they also showed a 12 percent decrease in volume and a 7 percent decrease in value. However, in 1977, this downhill trend reversed itself and imports started to show an 18 percent increase in volume and a 24 percent increase in value. In 1978, they also showed a 22 percent increase and a 14 percent increase in value. And in 1979, imports increased 20 percent in volume

with 5,800,000 copies and 28 percent in value with 5,329 million yen.

Foreign Labels

As of July 1, 1979, foreign labels released here in Japan increased a total of 235. This increase allows the Japanese music fans to enjoy the records of most foreign labels throughout the world. However, the recent increase of foreign record im-

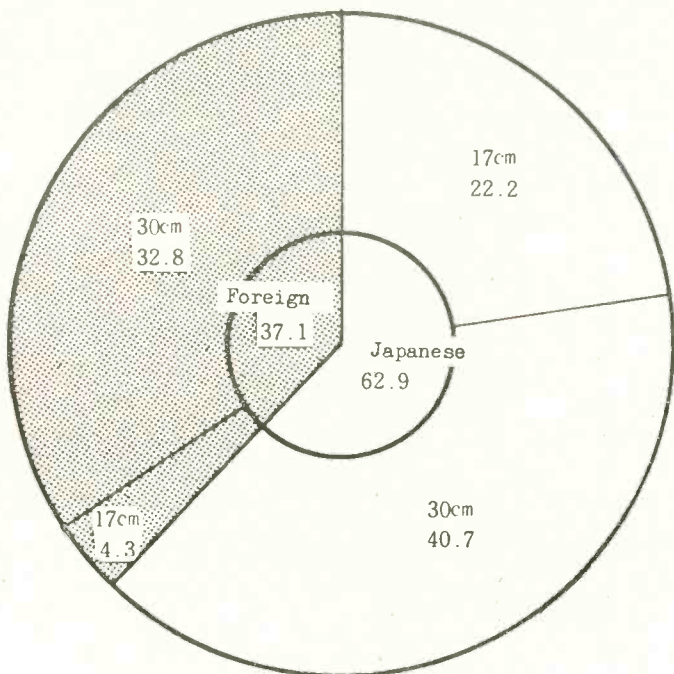

ports has given rise to a number of problems such as steep competition between imports and Japanese record manufactures. These problems were the recent increase of foreign record imports, the doldrums of the foreign record market, problems with labels, etc.

Three hundred and ninety-one new recording artists made their debuts between January and December in 1979. This shows an increase of 74 artists against the previous year, 1978, which was the worst record in the past 10 years.

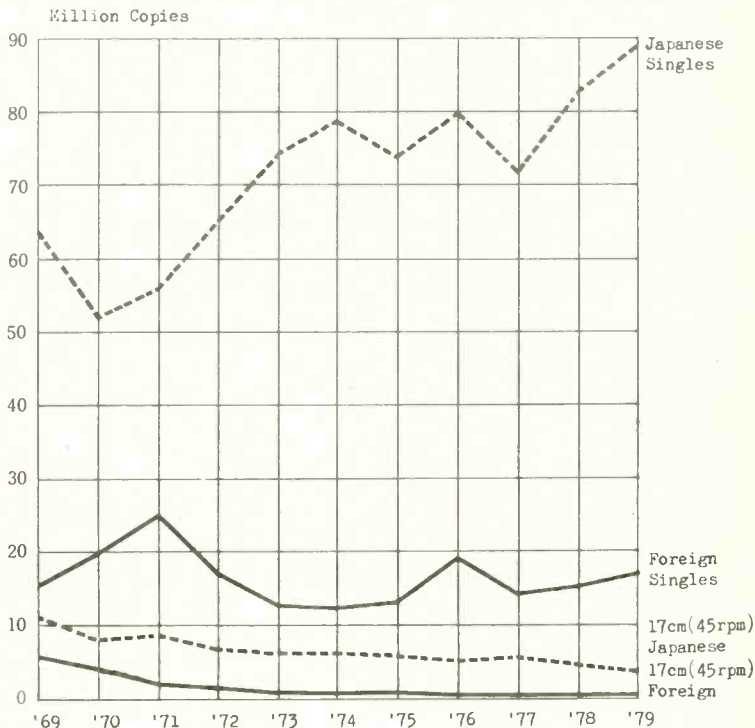

Recorders/Ownership of Stereos and Tapes

56.5 percent of the total Japanese families own a stereo set, while 60.5 percent possess a tape recorder. These figures, 19,970,000 stereos and 21,390,000 tape recorders, indicate the wide-use of these machines. It has been pointed out that the widespread use of home recordings increases private recordings from radios or records, which, in turn, have resulted in the poor sales of commercially recorded music.
