# RADIO STATS

OUR RELATIVE CHARTING, AS SEEN BELOW, RESEMBLES BASEBALL'S BATTING AVERAGES. IT ESTABLISHES A RATIO BETWEEN THE IDEAL, (HEAVY AIRPLAY AT EVERY STATION WHICH REPORTED); AND THE WEIGHTED COUNT THAT A RECORDING HAS ACTUALLY EARNED. THIS MATHEMATICAL FORMULA IS APPLIED TO EACH RECORD—FIRST REGIONALLY, THEN NATIONALLY. A DUAL WEIGHTING SYSTEM IS USED TO DERIVE THE COUNT. IT ADJUSTS FOR MARKET SIZE AND FOR HEAVY OR MODERATE AIRPLAY. THESE CHARTS SHOW THE RELATIVE INTENSITY OF RADIO AIRPLAY FOR BOTH NEW AND ESTABLISHED RECORDINGS.

NEWS/PUBLIC AFFAIRS:

Our pick-hit public affairis offering of the week is a report-rap with the legendary Orson Welles, the actor, director, and ex-radio wizard. Welles was in Boston recently - a visit chronicled in *People* - for a rare series of public appearances. I covered that visit, and talked with him. The result is a 30 minute radio-documentary edited with excerpts from "Citizen Kane" and "War of the Worlds." It is available for other stations, although parts of it appeared in *Rock Around the World*, the syndicated radio program. Incidentally, I am doing a critical column on music and politics for the *Rock Around the World* newspaper, and I would be happy to send a copy to anyone who doesn't see it.

Other recent public affairs offerings included our end of the year special -- detailing picks of the best and the worst of '76. (Sample: The best political event was the defeat of Jerry Ford; the worst, the victory of Jimmy Carter.) Other specials included a post-guilty plea prison interview with Susan Saxe and a profile of leading institutions in the Gay community. Interviews of late on our weekly "You Don't Say" program included Jim Veneris, an American who spent twenty years as a factory worker in China; a biographer of Harry Houdini; and William Worthy, author of *The Rape of Our Neighborhoods*.

Farewell to John Scagliotti of our news department who leaves after 4-1/2 yrs. at 'BCN. This creates our first job opening in the longest time.

Happy News Year,  
Danny Schechter

#### COMMENTS:

We welcome Rick Allison, ex-WCCC, ex-WPLR as our production director.

This will be my last report for WHCN; I'll be looking for more appropriate green pastures to graze in. Its been great here and hope the greatness of the station will continue. From here on out Gene Sheehan, P. D., is the man with the plan. I hope to see you in these orange pages soon.

T'was brillig, and the Martin Mull Fan Club did gyre and Gimble through wabe and down the hall.

Love,  
Country Paul

Proceeds are being forwarded to the American Cancer Society. Our new newsperson is Robin Sagon, who comes to us from WOR and WLIR. As soon as she settles into things she will be adding her thoughts and ideas in these pages.

#### COMMENTS:

Lots of live radio helped us celebrate the holidays and welcome in the New Year. In doing so, it seems a good time to tip our collective hat to all the artists, managers and record companies that make live radio a reality on 'LIR-FM every Tuesday night at 8. As we enter our sixth year of Tuesday night radio concerts we say thank you to everyone in the industry. We look forward to your friendship, assistance and concern in 1977.

Our annual WLIR listener poll for 1976 received a tremendous response. No real surprises in the top five: Frampton (winning for the second year in a row), Stevie Wonder, Steve Miller, Wings Over America and Boston. If you'd like a copy of the top 20, send us a stamped, self-addressed envelope.

Pam Merly has joined us on weekends. Pam was formerly with WHCN in Hartford.

We now have an import show, every other Sunday at 8. Titled "Off the Boat," it's hosted by Ray White.

That's it for this time.

- Denis

COMMENTS:

The Beach Boys couldn't have timed their visit better --they brought a touch of surfin' summertime to Phila. and WMMR last week during some of the coldest days we've had. The weekend before their show we had a Beach Boys weekend (lots of Beach Boys tunes all week-end), and gave away 300 Beach Boys kites and frisbees, and had Carl Wilson by the station to hold a drawing for ten pair of tickets to their show, and 10 Faded Glory jeans outfits. Hundreds of people turned out in the cold and snow for two special screenings of "Endless Summer" and the Beach Boys TV special (Brian's copy, no less) at the Walnut Street Theater. Many thanks to Ted Cohen, Ray Milanese and George Stone for their help in making this a resounding success. Special thanks to the Beach Boys, in particular Carl and Brian, for taking the time to stop by for live interviews.

NEWS/PUBLIC AFFAIRS:

WYDD's News & Public

Affairs Dept. has started the New Year off with a bang?! One crisis after another has plagued the Pittsburgh scene and kept our news staff lively... From the explosion at the University of Pittsburgh... to the Cable TV controversy... and the pro and anti-abortion groups... in fact we've had our own little war on the B-1 Bomber with local pacifist groups and Rockwell International at odds.

WYDD's new news show is in the final planning stages... in general... things are looking up for WYDD's community involvement...

Will keep you posted. Stay well and enjoy,

Rhonda L. Gelman  
Public Affairs &  
News Director

COMMENTS:

Interview with Bat McGrath, Diamond REO, and Robbin Thompson. Many thanks to Michael Franks for the advance on the new album Sleeping Gypsy, sounds like another winner.

WYDD is resuming its midnight movies at the Strand Theatre with Janis. Coming up will be "Ladies & Gentlemen, The Rolling Stones" and "Yessongs."

WYDD will be bringing the Earl Scruggs revue to the Tomorrow Club in Youngstown this weekend.

My first reaction to the new Walrus format is good. Looks like it will make Walrus more easily digestible. However I think a further explanation on the Stats might be helpful. I never understood baseball averages either.

That's all for now,

COMMENTS:  
Greetings from Dallas /  
Ft. Worth. The new ARB  
gives us an overall 4.3. . . .  
our nicest book in two years.  
Steve Sutton joins the ZOO  
family. Our new afternoon  
drive host, he comes from  
WE BN, Cincinnati, where he  
spent 5 years doing after-  
noons and evenings.

The blues guitar king of  
the Southwest has passed on.  
Freddie King is fondly re-  
membered at the ZOO. We  
put together a couple of radio  
specials featuring Freddie  
doing taped Zoo concerts,  
including some outrageous  
acoustic stuff. The latest  
issue of the Zoo's Buddy  
magazine is dedicated to him.  
This world has lost a fine  
man.

Looking forward to meet-  
ing a lot of Walrus friends at  
the R&R Convention in Dallas  
mid-February. We'd be hon-  
ored to have your ears on  
the Zoo while you're here.  
We're at 98 FM.

ZOO Specials:

Zoo Tube TV Show  
simulcast. Feature flick was  
Peter Sellers' "A Shot In The  
Dark." We had concert foot-  
age of Linda Ronstadt, Joe  
Walsh and a couple others.  
Charlie Kendall hosted the  
show from multiple locations  
around the city. Mark Chris-  
topher produces ZOO Tube  
for us, and shot film of  
Charlie doing the breaks  
from clubs, street corners,  
and places of interest.

Zoo Concert Whizbangs  
lately include Dave Mason,  
Ted Nugent, Rod Stewart,  
Marshall Tucker, War, Foghat  
Santana, etc.

Peaceful ways,  
Ira Lipson  
Zoologist

#### COMMENTS:

In the next few months we will begin construction on new studios. It has been suggested that we go "Goldfish" so visitors at the station can observe a radio station at work. I would appreciate comments pro and con from stations who have this setup. What are the benefits, what are the negatives, and if you had it to do over would you do it again?

COMMENTS:  
The fall ARB was kind to us. Improving from a 4.7 to 5.7 overall. That makes us the number two rocker, behind top 40 FM Z-93 (7.6 to 8.3), and number five overall behind pop adult WSB, beautiful music WPCH-FM, Z-93, and black AM WAOK. In 18-34 we scored number one in Men, and number two in Adults behind WPCH. In Teens, we came in with a 12.4, second to Z-93's 36.8. The big story of the Atlanta book was the demise of perennial powerhouse WQXI. The top 40 AM dropped from a 6.2 to a 4.8 (9th overall), and the AOR FM dropped from a 5.4 to a 3.3 (12th overall).

COMMENTS:  
After a quiet January  
the concert scene is really  
picking up. It's probably  
just as well that not much  
happened though because  
nobody would have gone any-  
way cause its been the cold-  
est I can ever remember.  
Now that things are warming  
up more people are getting  
out to shows. We are pre-  
senting Emmylou Harris  
and Leo Kottke in what  
should be a great double  
bill.

NEWS & PUBLIC AFFAIRS:  
The belle of the news-room, morning star Jennifer Blome, has left for greener pastures (television). Overnight sensation Patty Sinn will move into the morning slot to do news. The news-room has been visited lately by some extraordinary guests... series of reports done on: UFO's and space travel; an effort to eliminate junk foods from Ohio schools and how crime and nutrition may be related; and a series of reports on the Devil syndrome and exorcism... after which the news director went to confession in the studio... the confession was not taped. 92-5 Newscall, listener service for the oppressed is still in full swing. Latest battles include stereo ripoffs from companies which advertise huge savings, and an effort to change outdated laws on sex in Ohio... in which the author of this report has a vested interest.

The New City Limits Bluegrass Band Lp on Biscuit City has to be one of the best Biscuit City releases to date. Recorded live at Denver's Oxford Hotel, it presents the humor and personality of the band as well as their music which Coloradrians have continually enjoyed.

#### KILO-FM MICHAEL FOX

##### COMMENTS:

KILO... R. L. F.  
Isaac Hayes once wrote "Your good thing is about to end"... and so it came to pass on Friday the 21st day of January 1977 that KILO met her demise. Much as Christ was crucified and the Kennedy's were slaughtered, so was KILO castrated... due to lack of support by most of the record companies even though KILO supported them, and lack of belief by the owners even though KILO believed in them. We were pulled off-the-air Friday with no chance to say goodbye; so let me take this moment to say it from all of us who believe in free radio to all of you who believe in the same. And, in retrospect, welcome to Ted Alvy - one of the early creative geniuses of the original, unexpurgated KPCC of Pasadena, California. He gave 5 great days of radio to Seattle, coming to KILO on Monday and leaving with the rest of us on Friday. We did not sellout - we were sold out. So we take our leave and wish all those involved in real radio better days in this unreal era.

##### COMMENTS:

A very fine new album you should get a hold of is Linda Waterfall's Mary's Garden on the Windham Hill label (Stanford, Calif. 94305 P.O. Box 9388). This is the label that put out the excellent guitar Lp of William Ackerman. The Waterfall album was done in Seattle, features some beautiful songs by Linda, formerly with a group called Entropy Service. So far, Windham Hill Records is 2 for 2!

##### NEWS & PUBLIC AFFAIRS

First of all, Alex the janitor has been given his walking papers for writing this column last time. The major news stories in Seattle are pretty much the same ones where you live... the Carter pardon, a new Governor, sex discrimination, etc. The biggest story is Seattle's worst lack of skiable snow since the great artichoke blight of '06. But the biggest story cooking right now, a tie in to the snow drought thing, is our ongoing investigation into the likelihood that the earth is going through subtle orbital changes that have resulted in (1) a winter drought in Seattle; (2) a freeze in the Midwest; (3) earthquakes everywhere. A KZOK exclusive.

### NEWS/PUBLIC AFFAIRS:

It seems lately we've been getting little warnings of some kind regarding moving oil around, especially by ship.

Seven Liberian registered tanker mishaps plus six more non-Liberian tanker accidents - all dropping their little globs everywhere.

Some folks don't see it that way including Washington's new Governor, Dixie Lee Ray, formerly with the Federal Nuclear Regulatory Commission.

Dixie says, the public has been "vastly misled" about the seriousness of the spills. Says Dixie, "Yes, there have been several tanker incidents. But to say they have been catastrophes, or there has been an ecology disaster... there has been no evidence of that as of yet. I think we can be assured that if that ship that broke up off Nantucket - and what a tragedy of errors that was - if there had been a single dead fish, we would have been treated to a picture on the front page of every newspaper."

There was! That same day. Thank you Dixie, lets keep the news clean.

- Les Friedman

### COMMENTS:

After reading these pages for the past few years I feel like I'm already acquainted with most of you. It's nice to be in good company. KVAN is getting ready for the big move - 24 hour operation and new stereo studios to go along with it (AM stereo is just around the corner, you know). We'll keep you posted when we find out the date.

High to KZEL, too.

- Sleepy John

Believe it or not the Portland area is experiencing a drought. Not enough snow or rain, it might be a rough summer, why doesn't Florida send us some of their snow! I heard it snowed there!

### COMMENTS:

We're very much enjoying the new Walrus layout - until this issue, we can't say we really ever had any idea of what was going on. We thought it was perhaps a remedial typing class exercise... very much appreciate the change.

Y-93 is energetically involved in another book. We're presently conducting a Y-93 People's Poll, with a special playback show and People's Week in the works. If any of our Bay Area friends would like to put some energy into a 7 day blowout, please let us know.

We're also giving away autographed copies of the great new Journey album; staged a David Bowie listening party to save "Grits" Mitchell from a swarm of irate Bowie fans he managed to upset with his one word review of Low. And with the help of Epic Records, we're collecting photographic interpretations of Boston's music for possible inclusion on their next album jacket. If, after the contest is over, you have any need for a folder full of sunset shots, please let us know.

# RETAIL STATS

OUR RELATIVE CHARTING, AS SEEN BELOW, RESEMBLES BASEBALL'S BATTING AVERAGES. IT ESTABLISHES A RATIO BETWEEN THE DEAL (TOP 5 SALES AT EVERY REPORTING RETAILER); AND THE WEIGHTED COUNT THAT A RECORDING HAS ACTUALLY EARNED. THIS MATHEMATICAL FORMULA IS APPLIED TO EACH RECORD—FIRST REGIONALLY, THEN NATIONALLY. A DUAL WEIGHTING SYSTEM IS USED TO DERIVE THE COUNT ON THE HITS. IT ADJUSTS FOR STORE CHAIN SIZE AND REPORTED POSITION IN THE TOP 15. A SINGLE WEIGHTING SYSTEM WHICH ADJUSTS FOR STORE CHAIN SIZE IS APPLIED TO THE BREAKOUT REPORTS. THESE CHARTS SHOW THE RELATIVE INTENSITY OF RETAIL INTEREST FOR BOTH NEW AND ESTABLISHED RECORDINGS.

Re: Price Hikes  
Unfortunately, the record companies are raising their prices on records and tapes instead of improving the sound quality. This misfortune will fall on the consumer and be passed on to the retailer and back to the record companies. It really benefits no one.

# CONCERTIZING

**KDVS/Davis, Calif. - Rob Levitsky**  
**Artist(s):** AL STEWART;  
 JOAN ARMATRADING  
**Place & Date:** Sacramento Civic Center - Jan. 16  
**Type of Place:** Auditorium  
**Ticket Price:** \$7.50  
**Capacity:** 2000  
**Attendance:** 2000  
**Production Values:** Excellent  
**Reviewer's Reaction:** I enjoyed the show tremendously. Armatrading sang well and her band was quite good. Al Stewart was in excellent form, singing his best songs from Year of the Cat and Past, Present, Future. Audience reaction was extremely positive.

**KZSU/Stanford, Calif. - John Jeanes**  
**Artist(s):** AL STEWART  
**Place & Date:** San Jose Civic Auditorium  
**Ticket Price:** \$6.50; \$5.50  
**Capacity:** 5000  
**Attendance:** 4500+  
**Production Values:** Good  
**Reviewer's Reaction:** Rave! Year of the Cat was certified gold this day and Al and the band were, needless to say, "up." This was the first time I've seen Al in a large hall and he and the band made the transition very well. Al took a little more time to explain his songs, since the vocal sound in rooms this size tends to be distorted. The audience obviously knew it got a good show and asked the band back twice. In all the band did a great sampling from Al's three Janus Lps. It is always satisfying to see an artist of Al's stature receive popular acceptance as well.

**MOBY DISC/Van Nuys, Calif. - Mark Ferjulian**  
**Artist(s):** KANSAS  
**Place & Date:** Santa Monica Civic  
**Type of Place:** Auditorium  
**Ticket Price:** \$7.50  
**Capacity:** 3000  
**Attendance:** 3000  
**Production Values:** Excellent  
**Reviewer's Reaction:** This has to be the best progressive band in the U. S. The musicians, material, vocals, production and overall quality is unparalleled. Kerry Livgren is a rock genius.

# CONCERTIZING

WRUC/Schenectady, N. Y. - Randy Meters

**Artist(s):** PATTI SMITH; JOHN CALE  
**Place & Date:** Union College, Memorial Chapel  
**Ticket Price:** \$3.50 - \$5.50  
**Capacity:** 1,100  
**Attendance:** 1,100+

**Production Values:** Good  
**Reviewer's Reaction:** The Patti Smith Group gave the concert-starved crowd the most exciting musical evening since Springsteen played here in '74. Although the band members are not talented instrumentalists, they laid down a gritty enough series of E, A & D chords to form a base on which Patti operates. They brought the crowd to its feet with "The Land of a Thousand Dances" and kept them there through the encore, "Wild Thing." The deafening blast of amps and the screaming crowd elicited a sensuality that sets her apart from other punk-rockers. Her adamance in relinquishing her quest to represent today's youth and "free" the radio (and sell a few albums) makes us see her as a revolutionary.

John Cale, who opened, surprised the crowd with an energetic and exceptionally emotional set.  
 If you like Patti on disc, you must see her in concert.

WVCR/Poughkeepsie, N. Y. - Jon Benjamin

**Artist(s):** TOM RUSH  
**Place & Date:** Last Chance, Poughkeepsie  
 January 20  
**Type of Place:** Club  
**Ticket Price:** \$3.50  
**Capacity:** 300  
**Attendance:** 350  
**Production Values:** Good

**Reviewer's Reaction:** Tom Rush's early show at the Last Chance was pleasant and the audience was enthusiastic. Rush, with a five-piece band, performed a varied sampling of his musical tastes and talents. The band covered him well, providing just the right amount of additional sound for each type of song. Rush also performed several songs without accompaniment, and these proved to be the highlight of his set. They showed his fine humorous quality and his ability to achieve a personal relationship of sorts with the audience.

WCUR/West Chester, Pa. - Jay Miller

**Artist(s):** BEACH BOYS  
**Place & Date:** Spectrum - January 18  
**Type of Place:** Arena  
**Ticket Price:** \$8.00  
**Capacity:** 20,000  
**Attendance:** Sold Out  
**Production Values:** Excellent

**Reviewer's Reaction:** Again, for the umpteenth time, America's most popular group had their fans asking for more. They were joined by, after his long touring absence, Brian Wilson, who added an extra live dimension. The Boys also were accompanied by Charles Lloyd, their TM Guru, on flute, sax and various percussion tools. The show, as always, was amazing, with super sound and a wide variety of hits, old and new plus some from an upcoming album. The Beach Boys have spanned over a dozen years and as witnessed by the young crowd their popularity is still growing.

WMC/Memphis, Tenn. - Clarence James

**Artist(s):** ELVIN BISHOP  
**Place & Date:** Ritz Theater - January 16  
**Type of Place:** Night club/theater hall  
**Ticket Price:** \$6.00  
**Capacity:** 450  
**Attendance:** Sold Out - two shows - total 900 folks  
**Production Values:** Excellent

**Reviewer's Reaction:** The facilities are concert oriented. Only the very best sound equipment and electronics installed. The people were ready for good sound in theater atmosphere.

KOKE/Austin, Texas - Carolyn Allen

**Artist(s):** JOE ELY & BAND  
**Place & Date:** Soap Creek Saloon - January 15  
**Type of Place:** Funky bar and dancehall  
**Ticket Price:** \$3.00  
**Capacity:** 400  
**Attendance:** 400  
**Production Values:** Excellent

**Reviewer's Reaction:** Joe Ely totally blew away one of the largest crowds Soap Creek has ever seen. People were rockin' and rollin' and literally falling on the floor. MCA promo man Barry Pollak and Lost Gonzo Band member, Garry P. Nunn fell underneath their table. KOKE-FM's Candy Kicker became so excited she rolled in the mud while trying to dance to Ely outside Soap Creek!

WCBN/Ann Arbor, Mich. - Michael Kremen

**Artist(s):** TONY BIRD  
**Place & Date:** The Ark - January 23  
**Type of Place:** Folk Club/Coffeehouse  
**Ticket Price:** \$3.00  
**Capacity:** 150  
**Attendance:** 120  
**Production Values:** Good

**Reviewer's Reaction:** Tony Bird is a white African. He was raised in Malawi. This heritage in combination with an intense stage presence and a quirky voice combine to produce a unique performer. Bird is a singer/songwriter who accompanies himself on acoustic guitar. His songs alternately deal with the social and political reality of Southern Africa ("Athlone Incident"); the beauty of the African land ("Song of the Long Grass," "Outeniqua") and personal songs dealing with love where Bird reveals a deep-seated romanticism. He was superbly accompanied by guitarist Arlen Roth (formerly with John Prine's band). Bird must be considered an artist of great promise.

INDEPENDENT RECORDS/Lakewood, Colo. - John Broholm

**Artist(s):** PROCTOR & BERGMAN  
**Place & Date:** Ebbets Field, Denver - January 10  
**Type of Place:** Club  
**Ticket Price:** \$3.00  
**Capacity:** 350  
**Attendance:** 2/3

**Reviewer's Reaction:** This time around Firesign offshoots Proctor & Bergman examined such diverse problems as what to do if your name is Clark Wintergreen and you sell a dozen or so defective computers to the Mt. Afterglow Nuclear Reactor, thus "popping the workers like corn;" and how to go out on the nation's highways with a "car-bine," laying for Mustangs, Pintos, Jaguars, etc. After taking care of Clark Wintergreen's problems, the duo went on for 146 hours of the "Amerikathon" in which they attempt to clear America's national debt, and raise well over 30 or 40 dollars. Two seemingly bottomless wells of material, this duo amazes me more each time I see them.

KASF-FM/Alamosa, Colo. - Michael "T" Dennis

**Artist(s):** KISS; URIAH HEEP  
**Place & Date:** McNichols Arena - January 15  
**Type of Place:** Sports complex  
**Ticket Price:** \$6.50; \$7.50; \$8.25  
**Capacity:** 20,000  
**Attendance:** 17,000+

**Production Values:** Excellent  
**Reviewer's Reaction:** The concert began slowly with Uriah Heep playing mostly older stuff, except for a couple things from their new album. Standouts were "Easy Livin'" and the encore "Sweet Lorraine," but after Uriah left, you knew what this concert was all about. Kiss exploded on the stage here in Denver for the first time ever and the fans were ready for it! The crowd soaked up every minute of it, from the fire breathing to exploding guitars. There's not much one can say about this one, except that Kiss played for about 2 hours and 4 encores. The final tune, "Black Diamond," kept the audience cheering for about 20 minutes, even after Kiss had finally left, and one thing should be noted: Kiss, come back any time!!

KZAM-FM&AM/Seattle/Bellevue, Wash. - Jon Kertzer

**Artist(s):** TAJ MAHAL; JOAN ARMATRADING  
**Place & Date:** Paramount Northwest, Seattle - 1/12  
**Type of Place:** Theatre - concert hall  
**Ticket Price:** \$6.00  
**Capacity:** 3,000  
**Attendance:** 2,300  
**Production Values:** Good

**Reviewer's Reaction:** A great concert! Joan Armatrading almost stole the show with her incredible vocal power and original songs. Her band, including ex-Fairporters and recent addition Albert Lee, was excellent. Taj can always be counted on to be a bit different and this time featured a percussion-dominated Caribbean-styled band, led by Robert Greenridge on steel drums. He did a lot of songs from his new album, and once he got into his groove, was a pure joy!

KZOK/Seattle, Wash. - Lori Holder

**Artist(s):** AL STEWART; WENDY WALDMAN  
**Place & Date:** Pacific Lutheran University - 1/20  
**Type of Place:** Auditorium  
**Ticket Price:** \$5.00  
**Capacity:** 3100  
**Attendance:** 3100  
**Production Values:** Excellent

**Reviewer's Reaction:** Admitting to a bias on both artists (2 of my favorites) I would still say it was great! Wendy was excellent & Al Stewart put on his best show ever in the N. W. Back up musicians & vocalists for both artists were very tight and very professional. Stewart's lead guitarist more than adequate a couple month's ago - was exceptional this time. Both artists' arranging talents shone throughout the production. Obvious why these 2 are favorites in Seattle

Attendance: Packed  
Production Values: Good

Reviewer's Reaction: Original Haze, a local band that includes ex-Moby Grape and H. P. Lovecraft members opened with a solid set that suffered from a poor mix. Dave Mason's set, propelled by the incredible bass guitar of Gerald Johnson, was a treat. Including many of his big tunes, and some new ones the music got the place jumping with everyone in Dave Mason's band cooking along. A great performance turned in, and a great crowd to play for in seaside Santa Cruz.

STREETSIDE RECORDS/St. Louis, Mo. - Tommy Lunt

Artist(s): JOAN ARMATRADING  
Place & Date: Mississippi Nights - January 22  
Type of Place: Rock club  
Ticket Price: \$3. 00  
Capacity: 1500  
Attendance: Packed  
Production Values: Excellent

Reviewer's Reaction: Joan Armatrading, in her first appearance in St. Louis revealed herself to be an artist of rave integrity. Fronting a band of legendary notables, (including the dream-come-true duet of Jerry Donahue & Albert Lee on guitars!) she led the band through a strong, varied set of her best songs from her last two Lp's for A&M Records. A captivating, visual performance that will not soon be shaken by the lucky 1500 that jammed the house.

KBLE/Des Moines, Iowa - Charlie Sparks/Ron Sorenson/ Jim Healey

Artist(s): KISS; URIAH HEEP  
Place & Date: Veterans Memorial Auditorium  
Type of Place: Large garage  
Ticket Price: \$6. 50/\$7. 50 day of show  
Capacity: 11, 246  
Attendance: 14, 500  
Production Values: Poor

Reviewer's Reaction: Sorry to say, Kiss set a new house record at the Big Barn, over 1000 more than The Who in December '75. It was a typical Des Moines bill, loud & flashy & sold out. The concert was the worst. Off the top, although not the loudest, they were much too loud for Vet's which after all was designed for basketball and auto shows, not concerts. Guitars dominated the noise, with bass & drums mixed much too far back. Vocals, although it may have been for the best, were inaudible. As a show, they were not nearly as interesting or as creatively flashy as several other top acts which have played here. Uriah Heep was much more melodic (on a relative scale only) and not quite so loud. More music and less flash, though still not enough. Three possible positive aspects: 1) Lights were very good; 2) From the age of the crowd (& the parents lined up outside) the group made good babysitters; 3) We left early, came back to the station, or went home and listened to some music.

1812 OVERTURE/Milwaukee, Wisq. - Ms. Charli House

Artist(s): BARRY MANILOW  
Place & Date: Milwaukee Auditorium - January 19  
Ticket Price: \$7. 50; \$6. 50; \$5. 50  
Capacity: 6266  
Attendance: Sold out plus over capacity

Reviewer's Reaction: The Barry Manilow show, included Lady Flash which was a positive addition to Manilow. Barry came out on stage, his perfect combination of poise, excitement and music in each step. He made the audience feel the concert was just for each one of them. The man is a beautiful, professional performer in every sense. The stage set up, costumes and band helped to mold a great evening for Milwaukee and Daydream.

WTAO/Murphysboro, Ill. - Jim McCutcheon, P. D.

Artist(s): AZTEC TWO-STEP;  
STEVE GOODMAN  
Place & Date: Shryock Auditorium, So. Ill. U.,  
Carbondale, Ill. - January 21  
Ticket Price: \$4. 50  
Capacity: 1200  
Attendance: 1200  
Production Values: Excellent - Shryock Auditorium provides excellent view & acoustics

Reviewer's Reaction: Aztec Two-Step opened with material from all 3 albums. . tight production along with some great acoustic guitar playing. Steve Goodman started as solo with a few narrative songs. He was then joined by 7 member band including Jethro Burns (of Homer & Jethro) & his son John. Jethro played mandolin, John electric guitar. . to add to an already fine concert. . John Prine came onstage late in the show and did some of his latest material. . a good time was had by all.

WKDD/Akron, Ohio - Joe Seaton

Artist(s): QUEEN; THIN LIZZY  
Place & Date: Richfield Coliseum - January 23  
Type of Place: Indoor sports arena  
Ticket Price: \$7. 50; \$8. 00  
Capacity: 20, 000+  
Attendance: About 16, 000  
Production Values: Very good

Reviewer's Reaction: Thin Lizzy opened to a nearly sold out Queen audience, and when finished with their 50 minute set, proved to this reviewer that their next tour will be in a headlining capacity. Led by every-crouching bassist Phil Lynott, Thin Lizzy performed most of their last 2 albums: Jailbreak & Johnny the Fox. Lynott's vocals seemed more powerful and forceful than on vinyl, and Thin Lizzy's dueling twin guitar leads were fresh and tasteful. Thin Lizzy's a band of the 70's offering hard fresh rock and roll without resorting to worn out power chords. Queen opened in a cloud of smoke and flash powder to "Tie Your Mother Down." All 4 members were dressed in white, creating some nice visual effects. Freddie Mercury is a very effective front man. He pranced, leaped, and strutted in his white leotards while his vocals were just as strong as in the studio. The show was paced well with the rockers interspersed with the ballads, providing a well-balanced show. Queen's show was just over an hour plus 2 encores, and for \$8. 00 a ticket 90 minutes to 2 hours would have been appreciated.

INNER SANCTUM/Austin, Tex.

Artist(s): DOLLY PARTON; WILLIE NELSON  
Place & Date: Waco Convention Center - Jan. 21  
Type of Place: Auditorium  
Ticket Price: \$6. 50  
Capacity: 4000  
Attendance: 4000  
Production Values: Good

Reviewer's Reaction: The crowd was a good mix between cowboys, kids and normal people. They all loved the show, especially Dolly. She really knocked 'em out. She ran through a medley of all her big records. She finally has a really good band, she called them the Gypsy Fever. Then Willie came on. He got a good reception from his fans but it was a Dolly crowd for sure. They unfortunately didn't play together. All in all a fantastic show.

WFMF-FM/Baton Rouge, La. - Michael Moore

Artist(s): LOST GONZO BAND  
Place & Date: Kingfish - January 21  
Type of Place: Club  
Ticket Price: \$4. 00  
Capacity: 800  
Attendance: 800+  
Production Values: Good

Reviewer's Reaction: Good band! They had the place moving, clapping, stomping and yelling for more all night. Glad to see a great group like this finally stepping up front and away from their previous drawback (you know who.)

WQSR/Tampa/St. Pete, Fla. - Steve Huntington

Artist(s): BOB SEGER & SILVER BULLET BAND; PATTI SMITH GROUP  
Place & Date: Curtis Hixon Hall - January 23  
Ticket Price: \$5. 00 advance; \$6. 50 at door  
Capacity: 7000  
Attendance: 6500  
Production Values: Excellent

Reviewer's Reaction: Thirty minutes into her set, Patti Smith spun around awhile and fell off the front of the stage, 7-1/2 feet to the floor. She was treated for head lacerations. All in the name of rock and roll. Bob Seger and his band were absolutely great. He deserves every good thing that happens to him this year.

WGVL-FM/Gainesville, Fla. - Lee Arnold

Artist(s): ELVIN BISHOP GROUP  
Place & Date: Univ. of Florida - January 22  
Type of Place: Large grassy bowl  
Ticket Price: Free  
Capacity: 12-15, 000  
Attendance: 15-18, 000  
Production Values: Good

Reviewer's Reaction: Elvin's equipment truck broke down 200 miles away - last minute scramble for equipment caused a two hour delay. The student government production company at the University of Florida once again proved themselves to be one of the most together concert production companies in the South. They saved the afternoon by getting the show together with this minimum of delay and still came through with good technical production. Almost 20, 000 of the old rowdy Fla. University student body as well as many local Gainesvillians boogied, cussed, drank, and had one hell of a good time at this free concert with the Elvin Bishop Group. The Band was hot - the day was beautiful - and the crowd was ready for more, even at the end. The show had much the feel of a pop festival. It was an event rather than a concert. Everyone had a good time and went home.

# CONCERTIZING

**WBCR/Brooklyn, N. Y. - Lloyd Jassin**  
**Artist(s):** TOM RUSH; BONNIE KOLOC  
**Place & Date:** The Bottom Line - January 22  
**Type of Place:** Club  
**Ticket Price:** \$6.00  
**Attendance:** S. R. O.  
**Production Values:** Good  
**Reviewer's Reaction:** Bonnie Koloc was a delight. She's graced with a beautiful voice and in possession of good material. Loved her version of "Clocks and Spoons." A must see is her very funny, choreographed song about Amelia Earhardt.  
 Tom Rush put on a very good show. Working with a strong band and to a receptive audience. It was a thoroughly enjoyable set. Tom is a master of song and story. An extra added treat was the emergence of David Bromberg on stage for the encore.

**WAAL-FM/Binghamton, N. Y. - Steve Becker**  
**Artist(s):** JETHRO TULL  
**Place & Date:** Radio City Music Hall, N. Y. C. -1/22  
**Type of Place:** Auditorium  
**Ticket Price:** Scaled down from \$10.00  
**Capacity:** 5000  
**Attendance:** Sold out  
**Production Values:** Excellent  
**Reviewer's Reaction:** One of the best concerts I've ever seen. This was the first Tull concert for me and the visual portion of Ian Anderson's antics completes the experience. Mixing favorites with their new material from Songs From the Woods, the group played spirited music with a lull. Thanks, Ian, for making it an enjoyable evening (and to Josh of Chrysalis.)

**WKLS-FM/Atlanta, Ga. - Drew Murray**  
**Artist(s):** BOB SEGER  
**Place & Date:** Omni - January 20  
**Type of Place:** Large hockey arena  
**Ticket Price:** \$7.50 & \$6.50  
**Capacity:** 12,600 (limited seating, stage moved up & no behind the stage sold  
**Attendance:** Sold out  
**Production Values:** Excellent  
**Reviewer's Reaction:** Rick Derringer opened the show, but I missed him finding a place to park. Foghat headlined the show, but everyone was so blown away by Seger that a lot of people left, myself included. Simply, the man is a pro. The show was a good mixture of the Live Bullet and Night Moves albums, with a few old classics thrown in. He tore 'em up.

**WLYX/Memphis, Tenn. - Gene Dries, M.D.**  
**Artist(s):** WILLIE NELSON;  
 COON ELDER BAND  
**Place & Date:** Auditorium North Hall - January 13  
**Ticket Price:** \$5.50; \$6.50  
**Capacity:** 4000  
**Attendance:** S. R. O.  
**Production Values:** Fair to good  
**Reviewer's Reaction:** Willie Nelson now joins the growing list of progressive country performers who have proven that one of the most profitable means of concert promotion in Memphis is progressive country. And that is quite a remarkable feat for a city that has not one radio station that sees fit to service this crowd. Willie was comfortable, loose, and pleasing without anything other than a faithful rendition of his repertoire. Crowd response was tremendous but so was the alcohol consumption in this, the town known as the "Buckle of the Slow Slung Bible Belt." Willie earned his bucks and so did the Coon Elder Band as usual. I'd like to close this concert review turned editorial by stating the problem (not just a local one) and asking for comments and suggestions. Good progressive country music is going down the drain because traditional C&W stations don't know how to or will not program it, rock and roll stations are afraid to add it in because of an inability of personnel to fit it in, and the pop stations in this town won't add any because it appears that they are trying to prolong the disco craze rather than provide the people with the music they want.

**PEACHES RECORDS & TAPES #13/Cleveland, Ohio - Michael Lewis**  
**Artist(s):** QUEEN  
**Place & Date:** Cleveland Coliseum  
**Ticket Price:** \$6.50  
**Capacity:** 20,000  
**Attendance:** Sold out  
**Production Values:** Good  
**Reviewer's Reaction:** Queen gave a sold out crowd a very diversified platform. Performing songs from a hard rock base to some very moving ballads sung by Freddie Mercury and adding their famous theatrics gave a well rounded and well received show. A few boring moments, however, kept the review somewhat mild. A truly unique show.

**RATHER RIPPED/Berkeley, Calif. - Tim Byrd**  
**Artist(s):** KANSAS  
**Place & Date:** Winterland - January 22  
**Type of Place:** Auditorium  
**Ticket Price:** \$5.00 advance; \$6.00 at door  
**Capacity:** 5000+  
**Attendance:** 2500  
**Production Values:** Good  
**Reviewer's Reaction:** Kansas held in their hands an energetic and adoring Winterland crowd with a near magnificent set. They had appeared there twice in the past, both trips as third on the bill. Their performance was about two hours long with two encores, including a nice mixture of their four works. They played with power and punch that kept the onlooker engrossed with excitement. One thing that caught these old humble ears was the incredible fullness and power of the vocals. Solos by Steve Walsh and Robbie Steinhardt were impressive; and when they joined their voices in harmony they were awesome. The only negative feelings I had were the wearisome guitar solo by Kerry Livgren, the tendency of the band to be a little too predictable, and the ringing sensation in one's ears awhile after the performance. However, overall Kansas makes an exciting brand of music, possibly catching the ears of avoid progressive rock enthusiasts and also those of a harder persuasion.

**KALX-FM/Berkeley, Calif. - R. "The Doc" Pelzel**  
**Artist(s):** CALDERA; ROGER GLENN  
**Place & Date:** Keystone Korner - January 15  
**Type of Place:** Nightclub  
**Ticket Price:** \$5.00  
**Capacity:** Approx. 200  
**Attendance:** Approx. 200  
**Production Values:** Good  
**Reviewer's Reaction:** Caldera and Roger Glenn have styles which are very easy to listen to on the same bill, and were fine together for an entertaining evening of progressive jazz. The music of both groups, although not grossly different from other artists' efforts in the same musical area, was always performed with a competence and a state of the art enjoyment. The Los Angeles based Caldera had no trouble relating to their San Francisco audience in what was their first appearance outside the L. A. area. A significant amount of airplay on Bay Area stations had drawn a reasonably enthusiastic crowd, who will be undoubtedly ready for the group's upcoming second l.p. Roger Glenn, a local Bay Area fixture, also had his share of followers. Between his playing flutes, vibes, and several percussion instruments, he would let other band members quite capably carry the musical torch. Guitarist Ray Obiedo and percussionist Bill Summers were both dynamic. Glenn, like Caldera, had been getting reasonable radio coverage, having been on KALX and KRE the week of his shows. Both groups have a sizeable amount of talent, and will hopefully receive the recognition due musicians of their calibre.

# NEW RELEASES

BELOW IS A CATALOGUE OF NEW RELEASES. THEY ARE DIVIDED INTO CATEGORIES DESIGNED TO GIVE YOU AN IDEA OF THEIR RELATIVE MUSICAL WORTH. THESE FIRST IMPRESSIONS ARE NOT MEANT TO RELATE IN ANY WAY TO PAST, PRESENT OR FUTURE SALES, NOR SHOULD THEY BE TAKEN AS THE WORD OF GOD.

## SPECIAL MENTION ALBUMS

(These recordings which, in our opinion, deserve special mention because they come closest to perfecting their musical genre regardless of progressive radio application.)

Airto/PROMISES OF THE SUN/Arista AL 4116 (On his last album and on this one Airto fulfills the artistic promise he only implied on prior records. This album is an adventure in music. Beautiful tunes and involving arrangements fascinate.)

Muddy Waters/HARD AGAIN/Blue Sky PZ 34449 (Muddy Waters, Johnny Winter and James Cotton together create one nasty piece of vinyl. The Lp drives you to a frenzy. Relentless and joyful, you can tell they had a great time making this one.)

## STRONGLY MERITORIOUS

(We feel that these Lp's have an extra edge.)

Ace/NO STRINGS/Anchor ANCL 2020 (Comfort immediately. A lesson in "more with less." The basis is solid material and fantastic presentation lead by the super vocals of Paul Carrack. Nice harmonies clinch it. Ace takes this trick.)

Miles Davis/WATER BABIES/Columbia PC 34396 (A beautifully spacious, free and cordial reunion. Here Miles gathers the clan - Hancock, Williams, Carter, Shorter, Corea, and Holland - in a step back from the electric vanguard. Through Wayne Shorter's writing, Miles reads the book for the Europeans. Tony Williams hasn't played drums like this in years.)

Andy Fairweather Low/BE BOP'N' HOLLA/A&M SP 4602 (Some creatively applied arranging and Andy's one-of-a-kind voice accent the qualities inherent in his songs. Few tunes are even weak. Fairweather or cool, Andy is a fresh, warm breeze.)

Dirk Hamilton/ALIASI/ABC AB 976 (With obvious references to Dylan, Dirk Hamilton carves a refreshing path based on strong writing and arrangements marked by originality. Listen to him, he's sayin' something.)

Osibisa/OJAH AWAKE/Island ILPS 9411 (Such articulate sound and such bright performances are welcomed in a musical world which so often investigates the negative envelope. Their African influence surfaces but, doesn't dominate. Very accessible.)

Spirit/FUTURE GAMES/Mercury SRM 1-1133 (Making it with minimums is a high art. Randy California has developed the ability to suspend sound portraits across a wall using lovely melodies and marvelous images. He creates his own space, he is very conceptual.)

## MERIT PLUS ALBUMS

(All Merit and Merit Plus Albums are recommended for serious progressive radio consideration, recognizing that not all of these recommendations are suitable for all stations. The Merit Plus Albums distinguish themselves with an extra vitality.)

Brian Auger's Oblivion Express/HAPPINESS HEARTACHES Warner Bros. BS 2981 (Lightening up on the sound by using jazzier vocal harmonies and such, Auger finds a comfortable groove. Brian also changes up by using proportionally less organ. A timely shift.)

Jorge Ben/TROPICAL/Island ILPS 9390 (This far more intense approach changes, significantly, the value of Jorge Ben. That he still sings in Portuguese is still a problem. But, the music is an appealingly vibrant Latin. Bravo.)

Bootsy's Rubber Band/AHH...THE NAME IS BOOTSY, BABY!/Warner Bros. BS 2972 (Like Parliament and Funkadelic, Bootsy stretches the space-disco genre to the limit. His music is noisy, irreverent and built for fun. Solid writing is at the obscured foundation.)

Paulinho da Costa/AGORA/Pablo 2310-785 (The marriage of Latin rhythm and jazz is a natural. It makes for lively music almost every time. "Ritmo Number One" strikes at authenticity and is quite stirring.)

Michael Franks/SLEEPING GYPSY/Warner Bros. BS3004 (Claus Ogerman's lushnesses are a bothersome element in Michael's otherwise beautiful album. In this smooth-as-velvet-cloth Lp, a mildly rough-edged counterpoint would have been more appropriate. The orchestration make a cheaper fabric out of a delicate, subtle weaving.)

Gentle Giant/LIVE/Capitol SKBB 11592 (There is an old argument in the rock music world which asserts that too much technical skill is like too much rope, you can hang by it. So, an appreciation of Gentle Giant technically is indisputable. Musically they are strictly a head trip.)

The Dizzy Gillespie Six/DIZZY'S PARTY/Pablo 2310-784 (Interesting and intense rhythms mark this album. Diz transcends generations with the energy transmitted through this music. A tribute to a man who hasn't stood still.)

Tompall Glaser And His Outlaw Band/ABC AB-978 (His voice of rough liquid-velvet puts him in a class by himself, even without the quality songs. Together they make a substantial combination. Tompall transcends boundaries.)

## MERIT PLUS ALBUMS CONTINUED

Al Hudson & The Soul Partners/ESPECIALLY FOR YOU/ABC AB-1001 (In the great rhythm and blues tradition Al Hudson generates excitement. Produced in a style similar to Willie Mitchell's he delivers life's emotions. It is music like this which is the foundation of rock and roll.)

Bobby Hutcherson/THE VIEW FROM THE INSIDE/Blue Note BN-LA 710-G (Athermal. Hutcherson approaches the expectations of his earlier career as he reaches inside himself. The Lp title is the album's best review. Emotional.)

Keith Jarrett/SHADES/ABC Impulse ASD-9322 (This unit works well together. Whether running down a blazingly intense rap like "Diatrabe" or a delicate flower like "Rose Petals" their unity transcends a mere jam. They are interacting on a higher level.)

Martin Mull/I'M EVERYONE I'VE EVER LOVED/ABC AB99 (Martin's album is an object lesson. It does what every good radio station should do every day. It entertains on the way to the music as much as the music itself entertains. An impressive production effort.)

Gerry Niewood & Timepiece/Horizon SP 719 (Choose the energized tunes. Fuel injected acoustic jazz provides some of the most stimulating music of our time. However, sometimes the stimulus ratio drops and the edge is taken off. Here it's operative most of the time.)

Bill Quateman/NIGHT AFTER NIGHT/RCA APL1-2027 (Giant writing strides are taken by Quateman. Bill supports his material soundness with a spunky attack. All of which makes an artist of much higher regard. Now he needs a more defined signature.)

The Red Clay Ramblers/TWISTED LAUREL/Flying Fish FF-030 (Whether original or interpreted material The Red Clay Ramblers display an uncanny manner. They transform mountain music with sly wit and fine presentation.)

Renaissance/NOVELLA/Sire SA 7526 (A class operation. Renaissance stands as the perfect integration of a name, of a sound and of a writing style. Marvelously whole and crafted they rank highly. The gentle alternative.)

Otis Rush/RIGHT PLACE, WRONG TIME/Bullfrog 301 (Blues this good is usually heard on recordings which test your perception. Cleanly preserved and dynamically performed Otis' gift to us all is readily available. Write: Box 635, LaHabra, Calif. 90631.)

James Talley/BLACKJACK CHOIR/Capitol ST 11605 (Talley continually issues quality recordings and gets relatively little respect for the effort. That probably results because his work is so understated, so dignified.)

Transit Express/OPUS PROGRESSIF/Peters International PILPS 9015 (Transit Express is a rare animal, a French band. Playing a stimulated brand of jazz-rock in an instrumental format they show class with a wise use of counterpoint. They score pointedly.)

Rick Wakeman/WHITE ROCK/A&M SP-4614 (Although the title White Rock refers to the slopes, as this is the soundtrack of The Innsbruck Winter Games, it has extra meaning because Wakeman is the essence of white rock and roll. He's totally unfunky. As a soundtrack this music is super, as music this is one of Rick's better albums.)

Roland White/I WASN'T BORN TO ROCK N' ROLL/Ridge Runner RRR 0005 (The last person with a sentiment similar to the one expressed in this Lp's title was Mississippi Fred McDowell. He's now dead. Whatch it, Roland. Meanwhile, Roland White is a mighty picker. His album is stimulating, fun too. Write 3035 Townsend Drive, Ft. Worth, Texas 76110.)

Don Williams/VISIONS/ABC Dot DO-2064 (The absolute purity of Don's songs and of his entire approach deserve respect across all imaginary genre borders. He speaks the truth and music feels comfortable in its gentleness.)

## MERIT ALBUMS

Angel/ON EARTH AS IT IS IN HEAVEN/Casablanca NBLP 7043 (How these guys straddle the fringe fence without falling is a continually miraculous balancing feat. Again, they make a 50/50 Lp. Half is excessive, even childish and half is powerfully mounted, meritorious rock and roll.)

The Babys/Chrysalis CHR 1129 (Dotting the album you'll find some lovely moments, a song here, an arranging idea there. A majority, however, is a crashing power-band of standard quality. Hopefully, the really valuable parts will get a share of the action.)

Bobby Bare/ME AND McDILL/RCA APL1-2179 ("Don't Think You're Too Good For Country Music (Just Because You Can Rock & Roll)" is the message emanating from the whole progressive country stable of artists. Bobby is the real thing, not a manufactured, manipulated musician. His country is down to earthy natural. It's presentation is a bit anemic here.)

George Benson/IN CONCERT - CARNEGIE HALL/CTI CTI 6072 S1 (Benson's live performance includes rhythm intensity and excludes the sweeteners. To that extent his music becomes more vital. It really moves out on "Take Five.")

# NEW RELEASES

BELOW IS A CATALOGUE OF NEW RELEASES. THEY ARE DIVIDED INTO CATEGORIES DESIGNED TO GIVE YOU AN IDEA OF THEIR RELATIVE MUSICAL WORTH. THESE FIRST IMPRESSIONS ARE NOT MEANT TO RELATE IN ANY WAY TO PAST, PRESENT OR FUTURE SALES, NOR SHOULD THEY BE TAKEN AS THE WORD OF GOD.

## MERIT ALBUMS CONTINUED

- Big Wha-Koo/ABC AB-971 (The album is laid out so that the best songs lead off each side. They are followed by the sweetened tracks and things vary after that. A few really good songs blend with solid presentation to jump out of the album.)
- The Stanky Brown Group/IF THE LIGHTS.../Sire SA7529 (Something intangible is missing in an album where few mistakes are made. The missing link is flair, a hook which signifies and distinguishes the Stanky Brown Group. The result is a good but, flat Lp. Listen to "As a Lover, I'm a Loser.")
- Jimmy Buffett/HIGH CUMBERLAND JUBILEE/Barnaby BR 6014 (Jimmy has always been a good artist even in the first stages of his career. This was the second Lp he made for Barnaby and it reveals an almost boyish quality and none of offhand Buffett wit. Distributed through Janus Records.)
- Donald Byrd/CARICATURES/Blue Note BN-LA 633-G (Those tracks which are essentially instrumental are more acceptable than those which are essentially vocals. The former tends to be more vigorously arranged. They deal more in nuance.)
- Cado Belle /Anchor AN 2015 (Cado Belle works like a rock band but, the music comes out with an extra gloss. Maggie Reilly's sound-alike voice is pretty and the songs are O. K. A few electrified guitar solos are reassuring.)
- G. C. Cameron/YOU'RE WHAT'S MISSING IN MY LIFE/Motown M6-580 Sl (Energized play and good songs transform G. C. Cameron from an egotist to an artist. Power is a central issue in Cameron's life, his music like his body, is taut.)
- Valerie Carter/JUST A STONE'S THROW AWAY/Columbia PC 34155 (After knocking around for a long time Valerie Carter moves to the front. She does it with a carefully crafted album. Shining through its glossy finish is a missing sense of individuality. That is the only weakness.)
- Mildred Clark & The Melody-Aires/ABC-Peacock PL59228 (Rousing presentation in the context of a modern rock setting makes this gospel music stand up and shout. Mildred is quite a singer. Fine material is common - place.)
- Country Gazette/OUT TO LUNCH/Flying Fish FF 027 (Previously reviewed as an import under a different title. Consistently pleasing, Country Gazette plays organic songs in a natural musical setting. They don't miss.)
- Derringer/SWEET EVIL/Blue Sky PZ 34470 (Derringer asks for respect for its spunky audacity, not for its musical strength. They earn that kind of regard. Whether you will go home whistling their songs is something else again.)
- Goose Creek Symphony/HEAD FOR THE HILLS/RLO SE111 (Plateaus of energy ranging widely from soft country to turned up electric are integrated well. Goose Creek Symphony has fun and so does the listener. Side two is stronger. Write: 7300 E. Camelback Rd., Scottsdale, Ariz. 85251.)
- Lost Highway Band/TRAVELIN' LIGHT/The Texas Record Co. LP-1003 (Where country pickin' and folk music intersect is where you'll locate the Lost Highway Band. A slight lack of presence detracts some from the overall feeling. Positive.)
- Journey/NEXT/Columbia PC 34311 (Moved by Aynsley Dunbar's pounding. Journey takes another forceful step. Spiced by some Beatlesque vocal harmonies they play the power game. Next.)
- B. B. King/KING SIZE/ABC AB-977 (The slick blues of the current B. B. King contrasts with the past as it attempts to bridge the time warp between then and now. The gains made in modern recording methods balance against a loss of earthiness.)
- Rahsaan Roland Kirk/KIRKATRON/Warner Bros. BS 2982 (Kirk is sometimes shackled by his enormous talent. Because he can do anything, he has tried to do everything. That doesn't always make for good albums. Here he always stays in bounds. This album is straightforward and mellow.)
- Lakeside/ABC AB-999 (Though they are a product of their musical time Lakeside is not a blatant imitation of Sly or Stevie or disco. They sing good songs in a way that is their own. Their mastery of vocal interaction is key. Lots of singers in this band.)
- Pat Martino/JOYOUS LAKE/Warner Bros. BS 2977 (Because he is experimenting with the potentials of an electronic guitar, Pat is making a positive achievement. However, in this recording the technical seems to slightly outweigh the melodic. Martino's recent efforts have thrived on a balance which seems off here.)
- Maze Featuring Beverly/Capitol ST 11607 (Driven by a mellow intensity Maze strikes a responsive chord. They offer little new but, they do command their frontier. A refined, cool R&B formula.)
- Augie Meyers/LIVE AT THE LONGNECK/The Texas Re-Cord Co. LP 1002 (Veteran Augie generates one of the most raucous, barroom records in recent memory. Good songs and a good time. There are some technical problems - the sound is only fair and the tracks aren't well banded. Write: Box 19, Bulverde, Tex. 78163.)

## MERIT ALBUMS CONTINUED

- The Mighty Clouds of Joy/TRUTH IS THE POWER/ABC-986 (Speaking about truth, a couple songs on each side ring true. They only imply the Godly message while they spin a musical universality. As close to the devil's music as HE would allow.)
- Olympic Runners/HOT TO TROT/London PS 678 (Inherent humor makes the Olympic Runners appealing. Made up of Englishmen, long enamored of Black music, the conscious sense of imitation makes even their mundane music enjoyable.)
- Hermeto Pascoal/SLAVES MASS/Warner Bros. BS 2980 (As Flora Purim's notes suggest one must praise Hermeto's musical adventure. Rarely has an album been filled so much with a man trying. However, sometimes the melodies are sacrificed in favor of the momentary exhilaration.)
- Rockicks /INSIDE/RSO RS 1-3012 (More appropriately they should be named Someone Else's Rockicks. They offer nothing new. But, they do recreate a presold sound and they do it well. They also avoid the excesses of their thick rock genre.)
- Rufus Featuring Chaka Khan/ASK RUFUS/ABC AB-975 (With a really weak middle the first side casts doubt on the album. But, the vast majority of side two is strong. A rebounding impression looks behind that soft spot and counts the whole project in the positive ledger.)
- Ray Sawyer /Capitol ST-11591 (This production tries to get everybody. Bottomed with a rock rhythm track, accented with pedal steel and sweetened abundantly it is built to offend everybody. Meanwhile, Ray's dynamic delivery and superfine choice of material gets lost in the shuffle. Mixed feelings.)
- Street Corner Symphony/LITTLE FUNK MACHINE/ABC AB-974 (The standard R&B format of the Street Corner Symphony is enjoyable enough but, never really matches the opening a cappella track. Sonically pure, it displays some great voices and some good songs.)
- Syreeta/ONE TO ONE/Tamla T6-349 Sl (Some unfortunate arranging has a tendency to wash away Syreeta's indelible essence. She overcomes most of the time. A listen to the one Stevie Wonder production immediately shows up the rest as ordinary.)
- Them/THE STORY OF.../London LC 50001 (Not surprisingly Van Morrison was as fine a singer ten years ago as he is today. This re-channeled, re-processed album sounds primitive but, its essential validity makes it valuable.)
- Michal Urbaniak Group/THE BEGINNING/Catalyst CAX-7909 (Half of this two record set was reviewed as an import, the other was imported into the U.S. but, never reached us. There is real value in these recordings because they are part of Urbaniak's European history. They are much freer jazz than the relatively rigid fusion he has played while here.)
- The Volunteers/Arista AL 4103 (Remember Wayne Berry? Well, he's a Volunteer. The band is a blueprint for mainstream rock. An acoustic feeling in an electric setting and smooth harmonies to fill in the gaps. Average songs bring these Volunteers down to earth.)
- Tony Joe White/EYES/20th Century T-523 (Tony Joe is not always believable as a disco artist. He produced some of this Lp with reverse Barry White English. Because it's not overly sweetened, it retains listenability. He is also singing finished songs. Side two gets to be real fine.)

## SATISFACTORY ALBUMS

(Albums of acceptable quality, which, of themselves, require only secondary progressive radio consideration.)

- Beaverteeth/RCA APL 1-2076 (The uneasy feeling starts with the cover. It implies a band not quite ready. Unfortunately, this cover does tell the story. Their second song autobiographically says it all in its title, "Just Another Local Band." Elements are present for something worthwhile but, the pieces remain in disarray. Stick to the outside material.)
- Brainstorm/STORMIN'/Tabu BDL 1-2048 (Stormin' falls apart at too many points to merit much consideration. The group never establishes its sound, drifting from idea to idea. Often the ideas are not fully developed. Moments like the title cut are infrequent. Tabu is distributed by RCA.)
- Lone Star/Columbia PC 34475 (Lower level bombastic rockers. Lone Star, far from emanating a Texas feeling, relies on dynamic arranging to make their songs work. The rule is that no matter what tricks are tried, the song has to be there first. There is no chicken and egg problem in music. There is a writing problem in Lone Star. Further, the hotly recorded album is sonically inferior for technical reasons.)
- The Main Ingredient/MUSIC MAXIMUS/RCA APL1-1558 (The main ingredient is missing. A lavish production is applied to songs which aren't worth the effort. Melodically shallow the tunes possess little attraction beyond the arrangements.)

# NEW RELEASES

BELOW IS A CATALOGUE OF NEW RELEASES. THEY ARE DIVIDED INTO CATEGORIES DESIGNED TO GIVE YOU AN IDEA OF THEIR RELATIVE MUSICAL WORTH. THESE FIRST IMPRESSIONS ARE NOT MEANT TO RELATE IN ANY WAY TO PAST, PRESENT OR FUTURE SALES, NOR SHOULD THEY BE TAKEN AS THE WORD OF GOD.

## SATISFACTORY ALBUMS CONTINUED

- Michael Quatro/GETTIN' READY/Prodigal P6-10016S1 (Putting one's best foot forward must be out of style. Side one, populated by Michael's own writing, is inferior to a side two which lets in outside material. Quatro's move to the song format takes an artistic step back. Tracks one, two and five on the second side.)
- Shotgun/ABC AB-979 (A fantastic remake of "Concrete Jungle" endears Shotgun. It also demonstrates what they are capable of doing when they get a hold of a real song. Most of the rest of their material is cliché ridden repetition. Production power saves them.)
- Michael Wendroff/RECORDED LIVE/Buddah BDS 5687 (This live album reveals Michael Wendroff. The frailty of his voice for one is difficult to take at times. The performance leans toward the raggedy. However, also revealed is that Michael can write and is worth an effort. This representation of him would have been better left in the archives.)

## UNDISTINGUISHED ALBUMS

(In our opinion, below standard Lps except where noted.)

- Keith Herman/GOOD NEWS DAY/Midland International BKL 1-1949 (Half decent songs get mangled in this weak demo. It is not a finished production. In fact, it isn't even a good basis for a finished production. The playing, arrangements, recording quality and mixing are hopelessly amateurish. It's like the old days.)
- Various Artists/EVITA/MCA 2-11003 (The major question is why should their be an opera about Eva Peron? Especially for an audience outside Argentina. To the music: Songs which are narrative (the vast majority of the opera's content) are a bore as are those which have relevance only in the context of the scenario. That so much explanatory material was necessary shows that the subject was not known enough to justify the effort. On the contrary, this opera won't work in Argentina because too much is known of Eva. These simplistic notions of the woman are first grade history there. If you are interested in following along go to the inside back cover of the enclosed booklet for the best guide. The performances and production are good but, not worth the effort. "On This Night of Thousand Stars" is the only real song. "Santa Evita" is pretty.)

## FRINGE ALBUMS

(Good albums which are not progressive, yet hold some interest for progressive audiences.)

- Avalanche/ABC AB-1000 (Avalanche flows with a fresh-faced, unjaded brand of basic rock and roll. Their kiddishness is evidenced in shallow lyric writing. That is countered by buoyant energy. The third track on each side points to their maturity.)
- Count Basie/BASIE JAM #2/Pablo 2310-786 (These jams are cozy little affairs. They move at an easy gate and a kind of dignity that only comes from the venerable. It fills in the background nicely.)
- George Benson/IN FLIGHT/Warner Bros. BSK 2983 (Sonic purity enhances the enjoyment of Benson's Lp. You can view his quality music two different ways. Either it is energized orchestral music or energy moderated by sweetness. We take the latter position.)
- Dave Brubeck Quartet/25th ANNIVERSARY REUNION/A&M SP-714 (Along with The Modern Jazz Quartet, Brubeck's group held up the cultured, sophisticated end of the jazz continuum in the fifties. They were, and are, cool. This live recording recaptures their delicate interplay. Notice that in spite of the high brow approach the music feels good.)
- Jerry Butler/SUITE FOR THE SINGLE GIRL/Motown M6-878S1 (It's completely pop production doesn't negate the quality of the presentation. Recorded beautifully, the worthy tunes are stroked by a drippingly sentimental wand.)
- Rupert Cobbett/A SENSITIVE CAT/Soul Deep DM 763 (The element of restraint in the rhythm section inhibits the whole recording. Cobbett is forced into a very limited lounge-combo sound. Leaving out the credits for sidemen was insensitive. Write: Box 24356, Fort Lauderdale, Fla. 33307.)
- Duke Ellington/THE INTIMATE ELLINGTON/Pablo 2310-787 (This is the kind of recording which fills in history. It's an eclectic brew of out-takes and experiments which we would never have been privy to while Duke was alive. For the collector.)
- First Cousins Jazz Ensemble/FOR THE COS OF JAZZ/Capitol ST-11589 (Like disco-jazz. Repetitive rhythm tracks tend to dominate as the melodies act more like a tropical depression in the background. That relationship of rhythm to melody puts them at the fringes.)
- Ju-Par Universal Orchestra/MOODS & GROOVES/Ju-Par JP6-1000S1 (Sonically superior the Ju-Par Universal Orchestra makes itself immediately appealing. Much of the music has been sprinkled with pop dust but, there is room for the unsqueezed. Try "Chicago Calypso.")

## FRINGE ALBUMS CONTINUED

- Pat Lundy/LOVING YOU - THE FUNKIEST FEELING/Pyramid PY-9004 (Ms. Lundy is a fine singer who is completely overwhelmed by the musical setting in which she finds herself. The album is not the least bit funky in spite of a song by Big Bill Broonzy and one by Oscar Brown, Jr. She could be so much more vital.)
- Phil Medley/AFTER HOURS '77/Pyramid PY 9005 (Where jazz and the middle of the road meet. Phil buries himself in a cascade of strings and huge orchestrations.)
- Harold Melvin & The Blue Notes/REACHING FOR THE WORLD/ABC AB-967 (In a full-fledged MOR production Melvin's dynamism still punches through. There is nothing much usable in this record but, it serves to make the point that Harold Melvin is a powerful performer who could make great records.)
- The Originals/DOWN TO LOVE TOWN/Soul S6-749S1 (Not all that original, The Originals still entertain. They operate in the classic Detroit pop R&B style upon which the Motown heritage is built. It is carried off with aplomb. Comfortable.)
- Joe Pass/VIRTUOSO #2/Pablo 2310-788 (Anything that gets fed into the Joe Pass mixture comes out mellow. His sound is warm but, limited. A very pleasant interlude.)
- Ramones/LEAVE HOME/Sire SA 7528 (The Ramones awaken every twelve year old bone in your body. Their electric bubblegum is filled with the best kind of rock and roll humor. No self respecting adult could approve of them.)
- Smokey Robinson/DEEP IN MY SOUL/Tamla T6-350S1 (Speaking of a touch of class, Smokey is its quintessence. This velvety Lp is too sweet most of the time but, offers several possibilities. Try "Vitamin U" and "In My Corner." A strong pop R&B album all around.)
- Diana Ross/AN EVENING WITH.../Motown M7-877R2 (Capturing an obviously dynamic performance on a record doesn't necessarily translate into a useful radio record. This is a case in point. In most instances, the many songs touched on here are available in finished versions elsewhere. The originals would sound better on the radio.)
- Helen Schneider/Windsong BHL1-2037 (MOR orchestration do everything possible to overwhelm a big voice. Try "Sad Eyes" and "Your Mind Is On Vacation." They have style without the calories.)
- Horace Silver/SILVER 'N VOICES/Blue Note BN-LA708-G (No matter what was done instrumentally the presence of the Ray Coniff type of vocalizing cancels any serious interest. It is all well done enough but, we don't need a man of preeminent melodic ability, such as Horace Silver, feeding us vocal pap.)
- Zoot Sims/HAWTHORNE NIGHTS/Pablo 2310-783 (A hot little big band gathers around Zoot Sims. They play standards with a sassy, aggressive feel. The group is an ideal size. It is able to combine a combo's intimacy while approaching a big band's power. Nice.)
- Paul Smith/THE ART TATUM TOUCH/Outstanding 004 (Paul Smith's playmanship is extraordinary. He limits his appeal for us by using the tired material of the Brill Building. Working as a soloist leaves the impression that he's the best lounge player in history. Write: Box 2111, Huntington Beach, Calif. 92647.)
- Stallion/Casablanca NBLP 7040 (Sounds like a batch of hits. Sacrificed to the sweetening Gods, Stallion gets a conscientiously applied overproduction. Their songs are rather consistently good. Could be a group which finds a broad young audience.)
- Jim Weatherly/PICTURES & RHYMES/ABC AB-982 (Weatherly's folk MOR is still in place but, there are some playables on this issue. Try "Rebel Keeps On Rolling," "Where the Hot Winds Blow" and "Love Is Rocking the Country." They are as real as anything else in their class.)

## SPECIAL PROGRAMMING

(Spoken, poetry - comedy and extraneous musics.)

- Don Cherry/Horizon SP-717 (Don Cherry makes music for an audience devoted to experience, experience as an end result in itself. He delivers without fail. Here he delivers while remaining surprisingly musical. Favored.)
- Alice Coltrane/RADHA-KRSNA NAMA SANKIRTANA/Warner Bros. BS 2986 (You may not buy the religious philosophy but, you have to admit that the Krsna people write hit melodies. The tunes have a universality about them, an eternal beauty which is infectious. The long duet on side two is less enticing.)
- Deep Voices/THE SECOND WHALE RECORD/Capitol ST-11598 (Whether they can follow up their first hit record is in question. Who can tell whether the material is as good? Well, the whale demographic continually grows smaller but, by playing this recording you can get all of them.)
- Daryl Hall & John Oates/PAST TIMES BEHIND/Chelsea CHL 547 (We incorrectly listed this album as a reissue last time. Most of it was never released. It represents a time when Hall & Oates were fishing around to find themselves. It's like listening in on their past privacies. History.)

# NEW RELEASES

BELOW IS A CATALOGUE OF NEW RELEASES. THEY ARE DIVIDED INTO CATEGORIES DESIGNED TO GIVE YOU AN IDEA OF THEIR RELATIVE MUSICAL WORTH. THESE FIRST IMPRESSIONS ARE NOT MEANT TO RELATE IN ANY WAY TO PAST, PRESENT OR FUTURE SALES NOR SHOULD THEY BE TAKEN AS THE WORD OF GOD.

## SPECIAL PROGRAMMING CONTINUED

- Bob Marley & The Wailers/THE BEST OF.../Studio One SO 1106 (To call this the best of is insulting. More accurately it is the roots of. Unusable sound quality obscures some of the musical beginnings of the man who is now a major musical/political force. What he is now justifies the record's release as history, if nothing else.)
- John Mayall/PRIMAL SOLOS/London LC 50003 (Though Peter May's notes are a pretty hard sell the assertions made are not hard to live with. This recording, of poor sonic quality, is a valuable historical link in the British blues scene. John may cringe when he hears it, so may the station engineer, but collectors will find pleasure here just as Mayall himself did while devouring those old 78's. History.)
- Larry McNeely/RHAPSODY FOR BANJO/Flying Fish FF 025 (McNeely generates steam on occasion as he plows through banjo and fiddle tunes alike. The guitar interludes are nicely placed as pace changers. For the banjo devotee.)
- The Claus Ogerman Orchestra/GATE OF DREAMS/Warner Bros. BS 3006 (It's an old concept but, nicely done. Ogerman is an orchestrator, in his pieces he leaves room for a combo feeling. Here he bleeds in and out of jazz runs by celebrated players.)
- Jean Redpath/THE SONGS OF ROBERT BURNS/Philo 1037 (This is a record of special consequence. It puts the exalted poetry of Robert Burns to the traditional melodies for which they were written. Jean Redpath's singing is lovely and the whole production projects an air of delicate care. More to come.)
- Brother Al Stricklin/NOW/The Texas Re-Cord Co. LP1004 (As the original piano player in the Bob Wills' Texas Playboys Band, Al is a living piece of history. His style in this solo Lp is a light Texas honky tonk. He's having so much fun that he guarantees your good time.)
- Various Artist-Soundtrack/FOR COLORED GIRLS.../Buddah BDS 95007-0C (For Colored Girls... is an incredible suite of street poems unified by ghetto language and subculture. The Lp represents the New York Shakespeare Festival performances. A total experience and, wouldn't you know it, difficult to use on the radio.)
- Various Artists-Soundtrack/ROOTS/A&M SP 4626 (For a soundtrack there are some stirring moments. Two tunes on side two are usable - "What Shall I Do?" and "Many Rains Ago." On side one three tunes, clinging together in the middle, recall the African experience. Well done.)
- Edith Wilson with Little Brother Montgomery/HE MAY BE YOUR MAN.../Delmark DS-437 (This album has found the secret of bottling charm. Edith Wilson's bluesy jazz singing comes out of another era to justify the singing that we hear all around us now. Fun.)

(Our imports are provided with the help of Intergalactic Trading Co., Portland, Ore.; Jem Records, P. O. Box 362, South Plainfield, N. J. 07080 - (201) 753-6100.)

Rough Ride/LIVE!/Umbrella UMB DD1 (As a group Rough Ride is as it says, a rough ride. Their songs are fair and their lead singer's bent voice is overdone. The rhythm arranging seemed overdone too and the mix sacrificed the vocals. As to the direct-to-disc recording process which captures the sound, it is simply incredible. It'll even give new life to your old KLH speakers. Award Special Mention to the sound. Satisfactory to the band.)

# CONCEPTS

## Verbal & Non Verbal Communications

Speaking out of both sides of its collective mouth the record industry is out to bite its own rear end.

This issue of Walrus contains reviews of 139 new releases. These are all records released in the last two weeks. Aside from shattering all records for output in a similar period in our eight year history, it also shatters any notion of common sense.

Forget about talking art. Plenty of good music is around. Let's just talk business.

An incessant whining has been heard from the record industry for several years now which decries tightening radio formats. First, it was the offenses of Top 40 radio and now it includes both pop and progressively pop radio. Where can we introduce a new artist?

The crying also notes the tightened venue situation. Fewer concert promoters will take chances on the unproven. There's no place for an artist to work.

Together the tightening radio scene combined with the tightening concert scene means new artists are being choked off. That's the argument.

Why then are we being saturated by infinitely more music than can be absorbed? Especially, in the light of the production costs. It's suicide.

To recoup the expenses the record industry is in the midst of raising prices to the customer again. The price rise is, as they say, to cover the skyrocketing production costs but, those costs are a result of overproduction. Too many albums are being made. At these production prices the industry cannot indulge itself as is. At these retail prices the audience cannot indulge itself either.

It doesn't take a PHD in Economics to see the output must slow down. Remember Life magazine.
