Armed Forces Television Stations

American Forces Information Service, 601 N. Fairfax St., Suite 360, Alexandria, VA 22314-2007. Phone: 703-274-4856. Melvin W. Russell, deputy dir.

Armed Forces Radio & Television Service Broadcast Center, 10888 La Tuna Canyon Rd., Sun Valley, CA 91352. Phone: 818-504-1201. Col. Rick Fuller, commander.

AFRTS operates radio and television outlets & transmits its signal to over 1.3 million Department of Defense personnel serving in more than 125 countries. Through military department broadcast services, AFRTS operates transmitters in more than 20 countries, near major concentrations of U.S. forces overseas as well as in remote areas of Alaska, U.S. trusts, territories and possessions, aboard over 400 Navy ships and as closed-circuit facilities in over 100 isolated locations. Most of the land-based stations are grouped into regional AFRTS networks to serve specified geographical areas, i.e., American Forces Network-Europe in Europe and Far East Network in the Pacific. AFRTS networks and independent stations overseas create their own individual radio and television program schedules from broadcast materials provided by the AFRTS Broadcast Center in Sun Valley, CA and from their own local productions. Some outlets are over-the-air broadcast operations and some are carried on closed-circuit systems of various types. Domestic, Inmarsat and Intelsat satellite service is leased on a 24 hour-a-day basis, providing real-time stateside radio and TV to overseas locations.

Major Broadcast Television Locations: Belgium, Cuba (Guantanamo Bay), Diego Garcia, Germany, Greece, Honduras, Italy, Japan, Republic of Korea, Netherlands, Panama, Philippines, Portugal, Turkey, Kwajalein Atoll & Puerto Rico.

Major Cable Television Locations: Alaska, Antarctica, Australia, Bermuda, Iceland, Japan, New Zealand and Spain.

Television Digest With Consumer Electronics

Television Digest has been keeping leading communications executives informed since 1945 and is published for all those decision-makers—like you—who have a big stake in the ever-changing broadcasting, cable and consumer electronics industries.

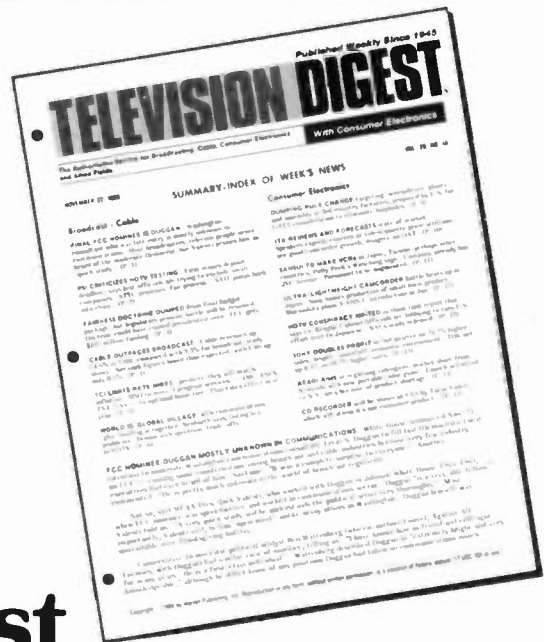

Television Digest goes beyond the scope of any other publication by bringing into sharp focus all the conflicting forces at work—broadcast, cable, home video, MDS, DBS, SMATV and others. It provides experienced, authoritative coverage. The Los Angeles Times recently referred to **Television Digest** as “a publication considered the bible of the TV industry.” Tack Nail, covering broadcasting, and Dave Lachenbruch, covering consumer electronics, are known and respected throughout the entire industry.

And each issue of **TVD** provides thorough coverage of government activities—the FCC, Capitol Hill, the White House. **Television Digest** also gives you the latest news on marketing strategies . . . programming ploys . . . personnel shifts . . . and current standings on the volatile revenue and ratings picture.

Television Digest regularly includes a host of industry surveys and statistics that cannot be found anywhere else. And because conventions, professional meetings and trade shows are of such vital importance to the communications industry, **TVD** provides complete pre- and post-meeting coverage of virtually every major professional meeting and trade show, whether in the U.S. or abroad.

Television Digest gives you the information you need, delivered in a fast-paced style and clear format that always respects your busy schedule. **TVD** is designed to be read quickly . . . to help you spend less time gathering information and more time using what you've found.

For subscription information, call collect: **202-872-9200.**

Cox, radio correspondent (New York); David McNeil, radio correspondent (Washington).

INDEPENDENT TELEVISION COMMISSION—33 Foley St., London, W1P 7LB. Phone: 71 255 3000. Fax: 71 306 7800. Telex: 24345. The Independent Television Commission was created by Parliament under the terms of the Broadcasting Act 1990 to license and regulate non-BBC television services including Ch. 3 (ITV), Ch. 4, public teletext and a range of cable, local delivery and satellite services. They do not include services provided by the BBC or S4C. The ITC replaced the Independent Broadcasting Authority (IBA), responsible for the provision of independent television and radio services and the Cable Authority,

responsible for the provision of cable services. Radio Authority now regulates independent radio services. In October 1991 the ITC awarded 16 new licenses for Ch. 3 (ITV) including a national breakfast-time license. The new Ch. 3 companies will begin their services on Jan. 1, 1993, at which point they, rather than the ITC, will become responsible as broadcasters for their output. Ch. 4, currently a wholly owned subsidiary of the ITC whose airtime is sold by the ITV contractors, will also become a corporation and ITC licensee, responsible for selling its own advertising. The license for the proposed Ch. 5 will be awarded by early 1992 with the aim of a new service being launched in 1994. Licenses for Ch. 3 & Ch. 5 will be awarded by competitive tender to the highest bidder who fulfills certain quality criteria, except in exceptional circumstances when the ITC may award a license to a lower bidder. The ITC will also license a number of other services in the following categories: Domestic satellite services using broadcasting frequencies allocated to the UK; non-domestic satellite services; licensable program services, including those program services delivered to cable systems on videotape; cable and local delivery service operations provided by cable and/or microwave (MVDS); additional services, or any form of telecommunications service that can be provided on the spare capacity of a television signal; public teletext, a text service carried on the spare capacity of Ch. 3 & Ch. 4. ITC staff will regulate all services through license conditions and through its various codes on program content, advertising, sponsorship and technical standards.

Members of the Authority: Sir George Russell, chmn.; Jocelyn Stevens, deputy chmn.; Earl of Dalkeith; Professor John Fulton; Roy Goddard, Eleri Wynne Jones; Pauline Mathias; Lady Margaret Poplewell; Professor James Ring; Prantal Sheth.

ITC Senior Staff: David Glencross, chief exec.; Peter Rogers, deputy chief exec. & dir. of finance; Jon Davey, dir. of cable & satellite; Clare Mulholland, dir. of programs; Frank Willis, dir. of advertising & sponsorship; Don Horn, controller of administration; Sarah Thane, controller of public affairs; Gary Tonge, controller of engineering; Michael Redley, head of licensing; Kenneth W. Blyth, secy.

“...the most
authoritative
source.”

Darrel Cunningham
General Manager
KHBS-TV
Fort Smith, AR

Darrel is one of thousands of engineers, programmers, general managers and financial people who get and regularly use the **Television & Cable Factbook**.

Pictured above (*left*) with news director, Craig Cannon, Darrel told us, “ Since we got our *SKYLINK* satellite news gathering vehicle, we talk to TV stations all over the country.”

Darrel and Craig are two of the most important decision makers in our business because they can say, “*Yes, we’ll buy!*”

KHBS-TV is one of hundreds of stations that use the Factbook. In fact, more than 4.31 different decision-makers and influencers refer to each **Television & Cable Factbook** 10.18 times every month. In other words, 23,705 top-level executives

will see your advertising message more than 241,000 times monthly! Over 63% are in upper-level management, and 30% have mid-level management positions.

Your ad in the **Television & Cable Factbook** costs about the same as those placed in weeklies and monthlies. Yet a single ad will represent your company over and over all year long.

If you want to reach the men and women who can say “*Yes*” to you, plan now to have a space like this in next year’s book while good positions are still available. Contact Gene Edwards, Advertising Director, for our media kit which will have all the details on our rates, availabilities and research. It’s not too soon to be planning for your ad in our next volume!

Allocations by States & Cities: VHF & UHF

As of November 1, 1993

Following table constitutes Part 73, Sec. 73.606 (b), amended, effective March 28, 1966 included in Fifth Report and Memorandum Opinion & Order, adopted Feb. 9, 1966. Asterisks (*) indicate channels are reserved for non-commercial educational use. Plus (+) and minus (-) symbols after channels designate offset carrier positions. Note: ¹ Channels so indicated will not be available for use until further action by FCC.

Assignments Affecting Borders

Channel Allocations for Canada and Mexico

Allocations within 250 miles of Canadian and Mexican Borders are as agreed upon by U.S. and respective countries through exchange of diplomatic notes. Mexico reports VHF within 250 miles, UHF within 200 miles. Plus (+) and Minus (-) symbols designate offset carrier positions of channels. (L) indicates limited allocation under "Working Arrangement" of Canadian-U.S.A. Television Agreement of 1952 as modified.

93%

**of people who use the
Television & Cable Factbook
are upper-level or mid-level managers.**

The rest are clearly on the way up.

It surprised even us. Frankly, while we knew we had the best organized and the most widely used resource in the industry (*Multichannel News* survey), we lacked the specifics to back up our convictions. Then, a blind survey we conducted this past year showed that, on average, 4.31 different people use each **Television & Cable Factbook** more than 10.18 times each month. Put another way, 23,705 different decision-makers and influencers refer to this important tool over 241,000 times monthly! Over 63% are in upper-level management, and some 30% have mid-level management positions. Corporate managers, programmers, engineers, marketers and financial people had the job responsibilities that most often appeared in our study.

It's hard to imagine that an advertising message that will receive nearly 3 million impressions in the course of a year won't be seen by the people you want to sell your products and services. Where else can people get information and the names and numbers they need quickly, accurately, and in one place? Only the **Television & Cable Factbook** has

Grade A and B contour maps of every commercial station in the U.S. And if you think our *Buyer's Guide* isn't the first place they go to find the products they need each day, maybe you'd better ask some of the thousands of subscribers who write or call us each year to make sure their company is listed.

The **Television & Cable Factbook** is the primary source for information about the total industry. A single ad will be seen all year by the men and women who can say "Yes" when you ask them to buy.

If the **Television & Cable Factbook** isn't part of your advertising plan, it should be. Now is the time to be planning for next year's placement in the industry's most respected resource... with less waste circulation than any other publication in television and cable. For a media kit that contains rates, ad sizes, and details on the research we talked about, call or write Gene Edwards, Advertising Director. It's not too early to start planning for next year...while some good positions are still available!

You can count on us. Can we count on you?

Because more than ever before, our message deserves to be heard.

The Army National Guard makes up about one-half of our nation's combat forces. And we need men and women to help keep us strong—ready to protect our community and defend our country. We have been there during natural disasters, in the fight against drugs and in the protection of our environment.

It's a commitment that takes dedication. Guardmembers give at least two weeks a year and two days every month to the Guard—and to you. Could we have a minute of your time?

Run our spots whenever possible. And if you can't spare a minute, we'll settle for :30. Even :20.

To obtain free dubs of Army National Guard PSAs call your nearest Army National Guard State Marketing NCO, or write: National Guard Bureau, Advertising Distribution Center, PO Box 1776, Edgewood, Maryland 21040.

AITCCU-014

CABLE OPERATORS, BROADCASTERS, NEWS DIRECTORS, FACILITY DESIGNERS, TELEPRODUCTION HOUSES AND EVENT VIDEOGRAPHERS ALL AGREE ON ONE THING:

THE VALUE OF PANASONIC S-VHS.

Superior Value. High performance. Sensible price... reasons why all types of video users are finding more and more new uses for Panasonic S-VHS.

Cable system operators, broadcast news directors, facility designers... all have discovered that *S-VHS is the most affordable, half-inch component analog format, offering a full range of VTR systems, including portables, camera-dockables, source players, editors and utility VTRs.* There's an S-VHS model to fit almost every recording, playback and production function... all in a single, easily maintained format.

S-VHS is the system you can afford to build on to meet increased demand or to expand your production house, post facility or station for news, programming or public affairs.

S-VHS. What you need, at the price you want, fully backed by Panasonic. The more you need us, the more we're there for you.
