AFRTS operates radio and television outlets & transmits its signal to over 700,000 Department of Defense personnel serving in more than 140 countries. AFRTS networks and independent stations overseas create their own individual radio and television program schedules from broadcast materials provided by the AFRTS Broadcast Center at March AFB, CA and from their own local productions. Domestic, Inmarsat and Intelsat satellite service is leased on a 24 hour-a-day basis, providing real-time stateside radio and TV to overseas locations.

INDEPENDENT TELEVISION COMMISSION—33 Foley St., London, W1P 7LB. Phone: 71 255 3000. Fax: 71 306 7800. Telex: 24345. The Independent Television Commission was created by Parliament under the terms of the Broadcasting Act 1990 to license and regulate non-BBC television services including Ch. 3 (ITV), Ch. 4, the proposed Ch. 5, public teletext and a range of cable, local delivery and satellite services. They do not include services provided by the BBC or S4C. The ITC replaced the Independent Broadcasting Authority (IBA), responsible for the provision of independent television and radio services and the Cable Authority, responsible for the provision of cable services. Radio Authority now regulates independent radio services. In October 1991 the ITC awarded 16 new licenses for Ch. 3 (ITV) including a national break-fast-time license. The new Ch. 3 companies began their services on Jan. 1, 1993, at which point they, rather than the ITC, became responsible as broadcasters for their output. Ch. 4, at the time a wholly owned subsidiary of the ITC whose airtime was sold by the ITV contractors, has become a corporation and ITC licensee, responsible for selling its own advertising. The licenses for Ch. 5 were awarded by competitive tender to the highest bidder who met certain quality criteria, except in exceptional circumstances when the ITC awarded a license to a lower bidder. The ITC will also license a number of other services in the following categories: Domestic satellite services using broadcasting frequencies allocated to the UK; non-domestic satellite services; licensable program services, including those program services delivered to cable systems on videotape; cable and local delivery service operations provided by cable and/or

Assignments Affecting Borders

Channel Allocations for Canada and Mexico

Allocations within 250 miles of Canadian and Mexican Borders are as agreed upon by U.S. and respective countries through exchange of diplomatic notes. Mexico reports VHF within 250 miles, UHF within 200 miles. Plus (+) and Minus (-) symbols designate offset carrier positions of channels. (L) indicates limited allocation under "Working Arrangement" of Canadian-U.S.A. Television Agreement of 1952 as modified.

WITHDRAWN

DO NOT CIRCULATE

HELP SPOT RUN.

Only you can help spread the message about the Army National Guard. Because when you run an Army Guard NCSA/PSA spot, you're telling people in your area about ways they can benefit by serving their country while living in your community.

Guard members are citizens like you. Teachers, accountants, students — who serve part-time, but are ready to help all the time. In return, they get money for college, skills training and much more.

The Guard looks out for America. In your

community, we're helping to stem the flow of illegal drugs. In times of disaster, you'll find us sandbagging flood waters, putting out fires, or rebuilding after hurricanes.

We offer your community peace of mind and help when it's needed. All we ask is a little of your time.

If you are already playing our NCSAs/PSAs, thanks. If you need our latest spot, just give us a call.

Spot's coat is the result of electronic wizardry, not breeding. 96-265-A
