Greatest Show In Virginia

Throughout the length and breadth of Virginia there's nothing to equal Havens & Martin Stations.

Top attraction is WMBG, with its scintillating combination of NBC and local highlights, high on the applause list since 1926.

WTVR is Richmond's only television station. Where but WTVR can tele-viewers turn for visual wonders gathered the world over by NBC-TV.

Nor is FM forgotten. For WCOD serves its enthusiastic audience.

Small wonder that the Havens & Martin trio are the First Stations of Virginia. Small wonder that they're preferred by national advertisers who know Virginia markets.

Like a local escort . . .

Yankee gets you into any market faster!

Yankee home-town stations take you directly into the principal markets of New England. They offer the greatest possible range and flexibility to carry out an aggressive and well integrated campaign aimed at local markets throughout the area.

You have New England's largest regional network — with a widely spread network audience for Yankee and Mutual features. You have direct local impact in

each market through your dealer's own home-town station. No waste "circulation." Mass impression everywhere.

With Yankee's 28 home-town stations you can do an all-out job in New England, or you can cover any group of markets to fit your present distribution, expanding to fit your needs.

Open up a hard-hitting New England sales drive. Reach more people, more effectively with Yankee.

June 5 — Broadcasting

Closed Circuit

NEXT ORDER of major AM business at FCC can well be disposition of hoary clear-channel case. Present thinking, it's understood, contemplates sandwiching clear-channel consideration between consideration of color TV and overall TV allocations this summer and fall.

WHEN Comr. George E. Sterling appears before Senate Interstate & Foreign Commerce Committee, tentatively set for June 14, in connection with his reappointment for new seven-year term, it's likely committee members will query him on (1) status of TV allocations and color; (2) disposition of clear-channel case (see above); (3) his views on McFarland Bill to reorganize FCC.

DESPITE careful scanning of long candidate list, Radio Mfrs. Assn. presidential selection committee believed far from accord on eve of Chicago convention (see early story page 34). If no outstanding candidate appears during convention, selection of occupant for proposed \$50,000 post may be deferred to September.

DANCER - FITZGERALD - SAMPLE, New York, preparing spot announcement campaign for Procter & Gamble's Shasta shampoo to start July 3 in 14 markets.

IS COMBINATION of AM-TV-FM under same ownership in same market a single entity or three separate projects? That question is pending before Jacksonville, Fla., court by virtue of project of City of Jacksonville, licensee of WJAX, to float \$400,000 bond issue for TV. Taxpayers' suit brought by WPDQ Jacksonville contends TV was separate project since separate licenses are required, entailing individual approval. Such testimony was given by George Davis, Washington consulting engineer. Paul F. Godley, consulting engineer for city, contended that TV was part of same project as is FM.

ANOTHER Florida city-owned station—WSUN St. Petersburg—also is experiencing bond activity, having validated \$250,000 bond issue. In this connection, reports again were current, though unsubstantiated, that station might be sold to private operators.

STANDARD form of contract approved by American Assn. of Advertising Agencies and NAB, it has been discovered, violates Virginia statutes, not because of terms but because 8 pt. type is illegal in contracts. Virginia broadcasters, on local business, therefore must print own forms and in 10 pt. type to conform.

CARTER PRODUCTS Inc. (Arrid) through SSC&B, New York, considering sponsorship of another radio show in addition to *Sing It Again* on CBS, or possibly sponsoring radio version on television. Simulcast was made last week of program.

COMPLAINT of CIO asking FCC to issue temporary licenses against transit radio stations. (Continued on page 78)

Upcoming

Bulletins

LIPTON'S ice tea, through Young & Rubicam preparing summer campaign to start June 26 in about 100 markets. Contract is for six weeks.

JOHN G. WILSON DIES; RCA-VICTOR OFFICIAL

JOHN G. WILSON, 50, executive vice president in charge of RCA Victor Division of RCA, died Thursday night at his home in Wynnewood, Pa.

Born in Alma, Ill., on Aug. 17, 1900, Mr. Wilson attended public schools and Northwestern U. In 1927 he joined Montgomery Ward as assistant controller and then was made controller. He remained with Montgomery Ward until 1940 when he left to join Goldblatt Bros. Inc., Chicago, as vice president and controller. In 1943 he became vice president and general manager of United Wallpaper Co.

Mr. Wilson joined RCA in June 1944 as administrator of accounts and finance for RCA Victor. He was elected operating vice president in 1945, and in 1947 was elected vice president and general manager of division. In December 1948, Mr. Wilson was elected executive vice president. He was member of Controllers Institute of America and of Society of Naval Engineers.

Surviving are his wife, Mrs. Hazel L. Wilson; son, Michael, and two daughters, Shirley and Jean.

MUSIC WITH TEST PATTERN FAVORED AT FCC HEARING

INDICATION FCC may be inclined to allow some music background to TV test pattern operation during non-program hours—but on strict non-commercial basis—seen in oral argument Friday on Commission's rules restricting separate operation of TV aural and visual transmitters [TELECASTING, Dec. 12, 1949; Jan. 16].

FCC Chairman Wayne Coy feared telecasters would commercialize music-test pattern operation and shackle TV with "illegitimate" type of programming in competition with strictly aural services. Otherwise, he saw logic in arguments for music with test patterns to aid TV sales and installation, as advanced by (Continued on page 78)

Business Briefly

SWANSDOWN SPOTS ● General Foods (Swansdown cake flour) preparing spot announcement campaign to start in early June for three weeks on 50 stations in 20 markets. Agency, Young & Rubicam, New York.

KELLOGG RENEWAL ● Kellogg Co., Battle Creek, to renew *Mark Trail* on full MBS network starting in autumn. Program had been carried on test basis on about 50 stations. Agency, Kenyon & Eckhardt, New York.

GRUEN SERIES ● Gruen Watch Co., Cincinnati, planning to sponsor *Blind Date* Thurs., 9-9:30 p.m. on ABC-TV. Agency, Stockton, West & Burkhart, Cincinnati.

SPOT TESTS ● Austin Portrait Studios, California and Utah, names Mayers Co., Los Angeles as agency, planning radio and TV test spots in Pacific Coast markets.

CANDY PROJECT ● Barricini Candy, New York, appoints Goad & Tierney, New York, to handle radio spot campaign.

FLORIDA GROUP ELECTS POWELL PRESIDENT

GARLAND POWELL, WRUF Gainesville, elected president of Florida Broadcasters Assn. Friday at opening of two-day meeting at Orlando. He succeeds W. Wright Esch, WMFJ Daytona Beach.

Tom Watson Jr., WSWN Belle Glade, elected first vice president; S. O. Ward, WLAK Lakeland, second vice president; T. S. Gilchrist, WTMC Ocala, secretary-treasurer; Harold P. Danforth, WDBO Orlando, and Doug Silver, WIRW Palm Beach, directors.

Chairman of nominating committee was W. G. McBride, WDBO. Other members were Glenn Marshall, WMBR Jacksonville, and James M. LeGate, WIOD Miami. W. Walter Tyson, WALT Tampa, was chairman of Resolutions Committee.

Frank M. King, WMBR, explained plans for Broadcast Audience Measurement, BMB successor, and urged stations to support project. Dawson Newton, advertising manager of Florida Citrus Commission, explained how commission selects media in allotting \$1.3 million budget, of which radio gets small share. He suggested stations do selling job on commission and Benton & Bowles, its agency.

Col. D. J. Wilkins, of U. S. Army, explained Army's advertising policy. Letter was read from Maurice B. Mitchell, director of Broadcast Advertising Bureau, explaining radio now gets 50-50 break in Army advertising. Grady Norton, head of Florida Hurricane Service, thanked stations for public service during disasters. FCC Commissioner Rosel Hyde spoke Saturday as did Capt. John Cross, State Dept. (see story page 28).

DURKEE'S NEW AGENCY

DURKEE FAMOUS FOODS Division of Glidden Co., Cleveland, names Meldrum & Fewsmith, also Cleveland, as agency.

1. John McNulty, Cleveland, having passed his medical exam and been hired, reports for instructions. He is given general working rules, together with his gate badge and Safety booklet.

2. On his way to the Safety equipment department, he pauses to look at the plant Safety scoreboard. It's a constant reminder for steelworkers to be safe and stay safe.

3. Next, John is fitted with a pair of Safety shoes. Their steel toe caps protect his feet from possible injury.

John McNulty's Training Shows How Steel Plants Became One of the Safest Places to Work

Today the steel industry is one of the four safest major industries in the country. In 40 years the number of employee accidents in steel has been cut by 90 percent.

That seems like a miracle and it is. It has been achieved in two ways. First by installing accident-prevention devices. And second, by constantly reminding workers of safety through training and education.

The minute a man starts, his training in Safety begins. That's the way the steel industry protects its more than 600,000 employees, helps them to be safe and stay safe. Here, John McNulty gets acquainted with ways of Safety in steel.

4. John's foreman shows him how to handle his new job safely and efficiently. Right here he is explaining the electric controls of a conveyor which transports 10-ton coils of steel.

5. Here a supervisor is making a periodic check with calipers on the chains and coil hooks of John's conveyor. Evidence of defects or over-strain means prompt replacement to prevent accidents.

6. Department foremen conduct regular Safety meetings. John joins in a general discussion of what steel workers wear for Safety.

Steel works for EVERYONE

AMERICAN IRON AND STEEL INSTITUTE • 350 FIFTH AVE., NEW YORK 1, N. Y.

In Boston...it takes time to make friends

Boston is Boston...and there's no place quite like it. Take friendship, for example. Boston forms its friendships slowly. But once formed, they last forever. It's true in radio, too.

Most of Boston's radio favorites today are the hometown "real folks" WEEI first introduced many years ago — 20-year veterans like E. B. Rideout, the weatherman; Caroline Cabot and her shopping service; Carl Moore of the rapier wit; or such comparative "newcomers" (all on WEEI at least 10 years) as Uncle Elmer, Ken Ovenden, Charlie Ashley, Mother Parker, Jesse Buffum, Priscilla Fortescue.

They're all on WEEI... because WEEI knows what Boston likes. *No wonder WEEI has the largest share of audience, the highest average ratings and more quarter-hour wins than all other Boston stations combined.*[†]

And today WEEI's bigger audiences are giving sponsors more for their money than ever before.

the station is **WEEI**

Columbia's Friendly Voice in Boston

Agencies

LINDSAY MacHARRIE, for past five years radio and TV production supervisor and producer for Young & Rubicam, joins Calkins & Holden, Carlock, McClinton & Smith, New York, as manager of radio and television production.

ANTHONY C. PIERRO, media director of Geyer, Newell & Ganger, New York, elected a vice president of agency. He has been with firm since June, 1949. Before his association with G, N & G, he was media director of Buchanan Co., and before that was with Gotham Adv. Co. and Paris & Peart Agency.

CHARLES SCHAFER, formerly sales promotion manager for Crosley Distributing Corp., New York, appointed director of public relations and sales promotion for Brisacher, Wheeler & Staff, San Francisco, New York and Los Angeles.

WILBY M. DURHAM, formerly active in Utah radio circles, joins Ross Journey & Assoc., Salt Lake City, as account executive.

ROBERT W. KELLOGG Jr., formerly with Brooke, Smith, French & Dorrance, joins copy staff of Denman & Betteridge Inc., Detroit.

JAMES M. NEVILLE joins public relations department of John LaCerde Agency, Philadelphia.

LaVAUGHN HANSON, formerly with Leo Burnett Co., Los Angeles, joins advertising service section of Young & Rubicam, Hollywood.

ANNABELLE ANDERSON, timebuyer with Maxon Inc., New York, will broadcast in French on subject of radio and television timebuying for Voice of America.

DON McGEE, formerly account executive with Campbell-Mithun, Chicago, joins Mayers Co., Los Angeles, in newly created post of director of marketing and merchandising of new products.

JOHN HALPERN, formerly with Erwin, Wasey & Co., joins Pedlar & Ryan, New York, as assistant radio and television director.

WHITNEY HARTSHORNE, formerly radio and television timebuyer for Erwin, Wasey & Co., Los Angeles, named general media director of agency. He replaces **BUELL M. BROOKS**, who left to join Scripps-Howard Newspapers, San Francisco. **JOHN R. SCHLUTER**, formerly Erwin, Wasey traffic supervisor, will act as agency timebuyer under supervision of Mr. Hartshorne.

L. R. BLOOM, former media director of Geyer, Newell & Ganger, Detroit, joins Kenyon & Eckhardt, Detroit, in same capacity.

JOHN JESSUP, former account executive at KJR Seattle, joins staff of Romig C. Fuller & Co., same city. Firm deals with radio and TV exclusively.

HERBERT S. LENZ, formerly with Young & Rubicam and R. H. Macy, New York, joins Farson, Huff & Northlich, Cincinnati, as senior account executive and director of merchandising.

LOUISE PACKARD, formerly continuity editor and women's director for WLOW Norfolk, Va., joins staff of Henry J. Kaufman & Assoc., Washington, as TV producer.

ROIZEN ADV. INC., Buffalo, N. Y., elected to membership in American Assn. of Adv. Agencies.

BARRY WALL, manager of Viewer Depth Surveys, New York, June 1 joined research staff of Warwick & Legler, New York.

BURTON BROWNE, partner in Burton Browne Adv. Agency, Chicago, awarded honorary Doctor of Science in Business Administration degree by U. of Hollywood.

DAVID VAN de WALKER, office manager of Young & Rubicam Inc., Hollywood, is the father of a girl, born May 21.

WMBD promotion proves vast morning audience

"Ugh, heap many Braves in Peoria" sighed WMBD staff members after more than 8000 Peorians stormed the doors for colorful Indian hats. Occasion was the triumphant return of the Bradley University basketball Braves from the NCAA play-offs at Kansas City.

Four short announcements on early morning shows comprised the only publicity. Long before noon the station was swamped as fans lined up shoulder to shoulder in WMBD's outer lobby.

Striking, if somewhat startling, evidence of WMBD's vast and responsive audience — **PROOF** that people listen to the radio in Peoria . . . and particularly WMBD!

New Business

FEDERAL BLDG. & LOAN Assn., Salt Lake City, names Ross Journey & Assoc., same city, to handle advertising. Extensive use of radio planned.

FOELL PACKING Co., Chicago (Rose Brand canned meat products), appoints Gordon Best Co., same city, to handle its advertising.

A. HOLLANDER Co., Newark, N. J., through Grey Adv., New York, currently sponsoring Wendy Barrie, Thursday, 10:30-45 a.m., on WNBZ (TV) New York, expected to expand show on entire network beginning this summer.

HOWARD D. JOHNSON Co. (restaurants) schedules radio spots to be used locally in cooperation with advertising campaign. N. W. Ayer is agency.

PLAZA STUDIOS (blouses and scarves), New York, appoints Yates, Wertheim & Babcock Inc., same city, to handle its advertising. Television spots will be used. Charles L. Babcock is account executive.

Network Accounts . . .

KRAFT FOODS, Chicago (Parkay Margarine and other products), replaces *The Great Gildersleeve* with *The Falcon* on NBC for 11 weeks starting June 21. Show is aired Wednesday, 7:30 to 8 p.m., CDT. Agency: Needham, Louis & Brorby, Chicago.

EMBASSY CIGARETTES to sponsor *The Web*, mystery series, beginning July 11 on CBS-TV Tues., 9:30-10 p.m., in period vacated for summer by *Suspense*. Agency: Geyer, Newell & Ganger, New York.

MARS Inc., Chicago (Milky Way candy bar), to sponsor five-a-week, five-minute show on 200 ABC stations 5:55-6 p.m. in all time zones starting in September for 52 weeks. Show to follow *Jack Armstrong* and *Sky King*, aired alternate days and to be cut from 30 to 25 minutes. Agency: Leo Burnett, Chicago.

AMERICAN SAFETY RAZOR Corp., Brooklyn, N. Y. (A.S.R. lighters), contracts for 8-8:30 p.m. segment of *The Show Goes On*, over CBS-TV, effective September 28. Agency: McCann-Erickson Inc.

RONSON ART METAL WORKS Co. Inc. (Ronson Lighters) renews sponsorship of *Twenty Questions* for fifth year on MBS, Sat. 8-8:30 p.m. Grey Adv., New York, handles Ronson account.

Feature of the Week

AN HISTORICAL anecdote culled from New England's prodigious backlog walked into WEEI Boston's sales office early in May and signed a contract. Or so it seemed to the station.

For several months, old buildings in a mid-city block owned by The Jordan Marsh Co., department store, have been coming down to make way for new ones. During this bevy of construction, Walter Piper, editor of the "Walter Piper Page" of Jesse H. Buffum's *New England Almanac* (Mon.-Sat. 6:15-6:45 a.m.) joined sidewalk superintendents.

Mr. Piper's eye fixed itself on a large block of granite that had the initials SPG carved upon it. It aroused his curiosity sufficient enough for him to make mention of it in his script. Mr. Buffum picked the item out for special attention on the broadcast and as Mr. Piper contributed further investigative reports, he relayed them to listeners.

The Piper diggings brought forth an historic tale reaching as far back as December 1800. In that

Linking past and present are Messrs. Gardner (1) and Buffum. This is G. Peabody Gardner, lineal descendant of the historic Gardner.

year, Samuel Pickering Gardner—hence the SPG—purchased the land, house, coach-house, farm buildings and pear and apple orchards from Frederick W. Geyer, a Loyalist sympathizer during the

(Continued on page 69)

On All Accounts

“ONE of the important contributions radio has made to Midwest living has been the instantaneous contact isolated farm families have with events throughout the world.”

This view has been expressed by Mrs. Eileen Gould, who, as media director for the Ambro Advertising Agency of Cedar Rapids, Iowa, handles 26 accounts whose more than 100 broadcasts are aimed at this vast market.

With Ambro since 1945, the vivacious young media director's first responsibility is to handle all of the firm's media assignments. However, she has had an opportunity to work in several phases of the agency operation. She also writes some radio copy and has the important job of speeding the work of her 16 associates by controlling the production department's product control board.

In preparing for her position in this wealthy and important market, Eileen worked in radio and television at CBS and WBBM Chicago. A graduate of the Mount Mercy Junior College and Iowa State U., she majored in music and dramatic art. Her first job was with the Northwestern Bell Telephone Co., and she also

earned promotions in the field of retail selling.

Since Eileen joined Ambro in 1945, one advantage of her position has been the opportunity given her for "doubling in brass." Her first job with the agency was that of production clerk. In an agency of Ambro's size at that time, she points out, the position was the same as assistant production manager.

After being with the agency approximately six months, she began handling media director's work, a title finally decided upon about a year ago after the firm's extensive growth.

Of the 26 Ambro accounts, all of which Eileen comes in contact with, some representative ones include American Trust & Savings Bank, C. R. & I. C. Railroad, The Hamilton Co., Interstate Finance Corp., Iowa Electric Co., Iowa Light & Power Co., Kilborn Photo Paper Co., The Pickwick Co., Potosi Brewing Co., WKBB Dubuque, Tallo-Hy Kitchens, Thermogay Co., Vigortone Products Inc.

Busy as she is, Eileen still finds time to devote herself to other interests. First and foremost is daughter Patricia Kaye, a carbon

EILEEN

Listeners Switch To KCBQ

San Diego Audience Chooses CBS Station

An overwhelming number of San Diego radio listeners are switching to KCBQ—CBS in San Diego. Figures released today by the station prove that KCBQ is the only San Diego network station

to show an increase in over-all "share-of-audience" during 1949 with all competing network affiliates taking a nose-dive.

San Diego Now 26th Market

Astute time-buyers are taking particular notice of this fact because of the tremendous importance of the swiftly-growing San Diego market, and the strong KCBQ sales story. They point out that San Diego is now the country's 26th market with a diversified, stable economy and the second highest retail sales index (435) in the U.S. today. This figure is also backed up by the 1950 edition of Consumer Markets, published by Standard Rate & Data.

Hollingbery Is Rep.

Inquiries may be made by contacting the KCBQ Sales Department or through the offices of the Geo. P. Hollingbery Co., station representatives.

It's a Beauty!

**FOR THAT ON-THE-SPOT
NEWS RECORDING**

The New EKOTAPE Pla-mate is a recorder you'll be proud to take out for on-the-spot news recordings. It's a beauty . . . as smart as modern luggage, and acoustically designed too. Fine tone quality. One central control selects tape speed and direction—fast forward, standard forward for recording and playback and fast rewind. Two-hour playing time with 7-inch reel, and one hour with 5-inch reel. It has 3¾" per second tape speed and "twin track."

As a portable tape recorder for supplementary use around the station—see and hear the new Ekotape Pla-mate.

RADIO'S BUSINESS PROSPECTS

Spot, Local Loom Best

[AFA Convention Story, Page 17] RADIO has become a powerful advertising medium but its biggest achievements lie in the future, especially in the field of direct selling, according to J. S. Stolzoff, vice president of Cramer-Krasselt Co., Milwaukee.

Basing his predictions on a scientific poll of advertiser, agency and broadcasting executives, Mr. Stolzoff last Wednesday told the Advertising Federation of America convention in Detroit that "more and more large local advertisers, and regional and national advertisers, are going to use radio on a basis that radio has rarely been used in the past."

Mr. Stolzoff pointed to "a growing group of advertisers who are developing an exciting and successful approach to using radio on a highly profitable basis" and cited results of a survey conducted by Cramer-Krasselt Co. in cooperation with BROADCASTING.

In this magazine's 23d TRENDS survey, station managers and owners predicted increased billings for the radio medium, especially on the national spot and local level [BROADCASTING, May 15].

Revealed for the first time by Mr. Stolzoff are the predictions of advertisers and agencies. They, too, foresee expanded use of the radio medium and Mr. Stolzoff presented their predictions separately and combined with views of broadcast executives.

Radio "Mature"

"Radio has reached its maturity," Mr. Stolzoff concluded. "It is today, more than at any previous time in its history, a powerful, flexible giant medium with a sales power limited only by the ingenuity of the people who use it."

"The biggest radio success stories are still to be written. And they will be written by people who are willing to roll up their sleeves and milk every last drop of power from their radio advertising dollars."

Woven into the analysis of advertiser-agency-broadcaster predictions by this key agency executive are case-history stories based on actual direct-selling achievements.

Recalling radio success stories of the institutional type, particularly large local advertisers and the small and medium-sized national advertiser, Mr. Stolzoff said

large national advertisers have been heavy users of radio as an important part of their promotional plans. He added that there are many dramatic success stories in which small local advertisers have built their advertising programs around radio.

"During 1949 the two largest local daytime radio users in the nation were two midwestern de-

partment stores," Mr. Stolzoff told the AFA. "One of these stores, Schuster's of Milwaukee, used up to 36 hours per week of radio programs on five of the six radio stations in their market. In second place was The Golden Rule, a St. Paul department store, which used up to 22 hours per week of radio during the peak of their 1949 radio promotional plans."

"How successful were these programs?"

"The answer is that both of these stores are continuing their schedules with undiminished force through 1950. Another measure could be in terms of product sales."

Mr. Stolzoff explained how the Rule store decided to sell television sets by using a home demonstration offer in which the prestige and confidence enjoyed by the store would be applied to a nationally advertised receiver.

Low Cost Radio

TV sets were sold in large quantities at a total advertising-to-sales cost of less than 5%, he said, "certainly a dramatic figure measured in terms of normal sales cost on a direct selling program." He said other stores are now investigating plans to set up outside organizations with leads developed by using radio as the "promotional backbone."

"By the end of 1950," he continued, "you will see an increasing number of department store advertisers using radio time in large quantities to secure leads for outside selling crews." He added that stores know there are 50

NAB FEDERATION? Dual Role at FCC Hearing

NAB appeared before the FCC Friday in a new dual capacity—in favor of and at the same time opposed to a proposed new regulation.

On behalf of aural (AM and FM) station membership the association took a flat stand in favor of a proposed FCC policy that would sharply restrict TV programs in which sight and sound are not integrated.

And on behalf of its TV membership NAB opposed any such restriction.

This dual stand raised suggestion that the association was conceding the need for complete reorganization into a federation but William B. Ryan, NAB's general manager, said no such inference was justified.

Mr. Ryan told BROADCASTING the dual role was entirely consistent

with the association's obligation to render full service to all its members. "There is no thought of federating," he said. "We merely are using the NAB organization with maximum flexibility, serving interests within the membership structure."

"I see no need whatever for any federating within the NAB."

Asked if he is studying a reorganization along federation lines, Mr. Ryan said: "No, I'm not studying reorganization. I'm studying organization."

Decision of NAB to appear for TV stations against the FCC's proposed restriction of TV aural operation followed a board poll in which the action was favored on a 4-1 ratio. This poll, it was understood, was not based on the problem of NAB appearances for and

against the FCC proposal but merely on the TV stand.

While NAB's Structure Committee was discharged by the board last February after a series of revamping operations, the idea of a federated association was raised at the Chicago convention in an address to independent stations by Edgar Kobak, consultant. The board itself has taken no action along federation lines.

Vincent Wasilewski, NAB attorney, appeared at FCC's Friday hearing on behalf of the association. He was accompanied by G. Emerson Markham, director of the NAB Television Dept. and Edward L. Sellers, director of the FM Dept.

Chairman Wayne Coy ruled that Messrs. Markham and Sellers could not argue for the record

(Continued on page 39)

Radio's Prospects

(Continued from page 15)

prospects on the outside for every one that comes into the store.

"Every test that we know of, that has been conducted by stores attempting to find what will do the best job of securing valid leads at low cost, have shown radio to be the advertising medium best designed to do this job," Mr. Stolzoff said. He cited an example in Detroit in which a leading midwestern manufacturer will use his first commercial radio time in the near future, tying in with 12 to 15 key dealers in an all-out campaign with radio getting 50% of the budget.

Radio Doubles Results

He told of a pilot test in Milwaukee, with radio as the sole promotional weapon, in which a dealer who had spent \$3,000 in normal advertising was able to get double the results with a \$600 radio campaign—a ratio of 10 to 1 in favor of radio.

Referring to dozens of other campaigns already running or in the planning stage, Mr. Stolzoff said: "The payoff on the radio advertising, quite aside from whatever long-range advertising value there may be, comes within 20 minutes of any given radio broadcast.

"There is no room for these advertisers to wonder whether radio is a good selling medium or not. Each of these advertisers knows immediately how resultful his program has been. Nor can we think of these campaigns as being isolated or being exceptions to the rule. There is every indication that more and more large local advertisers and regional and national advertisers are going to use radio on a basis that radio has rarely been used in the past.

"Radio station operators, advertisers and agencies who have gotten into the field of using radio as a direct selling force, producing immediate leads or immediate sales, have a most optimistic attitude about the direction in which radio is headed.

"That group, and I must con-

Drawn for BROADCASTING by Sid Hix

"Well, you can always listen to the radio."

fess that I am among them, feel that radio, generally, but most certainly daytime radio specifically, can and will move ahead during the next five-year period—move ahead in volume, in sales results and in the number of advertisers.

"To help get the national radio 'feeling,' a survey based on over 280 reports submitted by advertisers, agencies and broadcasters has recently been completed. In fact the final tabulations have been made within the past few days. The broadcasters were surveyed by BROADCASTING, in cooperation with The Cramer-Krasselt Co.

"The advertiser and agency groups received the same questionnaire from the Research Department of the agency. The stations, the advertisers and the agencies surveyed represent a fairly accurate cross-section. They include the very largest and the very smallest stations. They include radio users, radio non-users, large advertisers, small advertisers, big agencies and little agencies, scattered geographically across the country in television markets and in non-television markets.

Where do agencies believe radio's biggest gains will be made?

- Network Programs (3.4%)
- Selective Market Announcements (46.6%)
- Selective Market Programs (36.1%)
- Local Spot Announcements (13.9%)

"The reaction of the agencies seems to bear out the contention that radio is getting more and more to be an aggressive, hard-hitting selling force operating right in the market and tied in closely with the actual sale of the merchandise through such devices as producing active sales leads.

Where do advertisers believe radio's biggest gains will be made?

- Network Programs (0.0%)
- Selective Market Announcements (42.1%)
- Selective Market Programs (36.8%)
- Local Spot Announcements (21.1%)

"The advertisers surveyed indicate the same belief that radio will move ahead in selling market by market. Over 36% predicted the biggest gains in selective market

programs. Another 42% said in selective market announcements and 21% in local spot announcements. None said network.

"While stations feel that the bulk of the increased advertisers will go in on a selective market basis, over 43% see greatest gains in local spot announcements. Identical numbers said selective market programs and selective market announcements, 28.3% [BROADCASTING, May 15].

Average of agency-advertiser-station views of where radio will make its biggest gains:

- Network programs (1.1%)
- Selective Market Announcements (39.0%)
- Selective Market Programs (33.8%)
- Local Spot Announcements (26.1%)

"Averaged together to get the general thinking of the entire radio industry, we see that 98.9% of the persons participating in the survey said that radio will make its biggest gains at the local level. Only 1.1% said at the network level.

More Advertisers Seen

"Another set of questions were asked to find out what advertisers, agencies and stations believe actually is going to happen as far as changes in the number of advertisers who will be using radio.

Agencies say: "More advertisers will be using radio on a local basis." (See illustration, this page.)

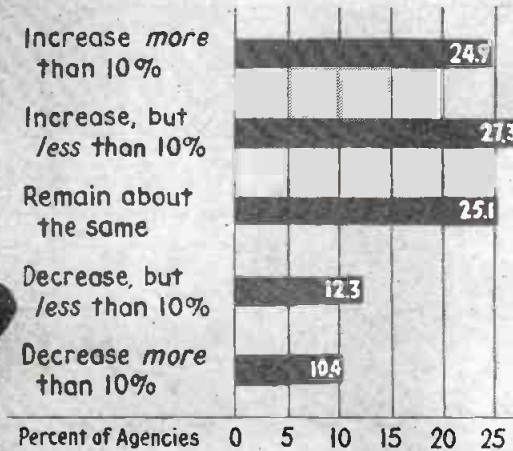

- Increase more than 10% (24.9%)
- Increase, but less than 10% (27.3%)
- Remain about the same (25.1%)
- Decrease, but less than 10% (12.3%)
- Decrease more than 10% (10.4%)

"The agencies generally agreed that more advertisers will be using radio on a local basis.

Advertisers say: "More advertisers will be using radio on a local basis." (See illustration, page 15.)

- Increase more than 10% (23.5%)
 - Increase, but less than 10% (29.4%)
 - Remain about the same (23.5%)
- (Continued on page 77)

Agencies say:
"More Advertisers Will Be Using Radio on a Local Basis."

What Will Be the Trend in Radio Stations' Merchandising of Sponsors' Advertising?

NAB CHALLENGED

Hyde Questions Miller 'Coercion' Charge

IN A SHARP REBUKE for charges raised by NAB President Justin Miller, the chairman of the U. S. NARBA delegation last week challenged NAB's usefulness in international negotiations under its existing policies.

FCC Comr. Rosel H. Hyde, head of the NARBA delegation, wrote Judge Miller that the contributions of NAB representatives in conferences on policy or non-technical matters appeared to be "nullified by the restrictions imposed upon them by your Association."

Accordingly, he wrote, "I personally can see little fruitful purpose to be served in their participation in a delegation to an international conference."

By implication he suggested that his views be considered by the NAB board at its June meeting, since Judge Miller had indicated that its policies on participation in international conferences would be reviewed at that time.

Comr. Hyde's letter was in answer to one sent by Judge Miller to the State Dept.—with a copy to Comr. Hyde—suggesting that there were attempts to "coerce" NAB's representative at the NARBA conferences held in Havana earlier this year. The reply was released in response to queries by BROADCASTING after State Dept. sources confirmed reports that coercion charges had been made.

Quotes Judge Miller

In his letter Comr. Hyde quoted Judge Miller as saying that policy established by the NAB board forbade NAB representatives to "participate in or acquiesce in any of the proposals" made by the U. S. delegation to the Cuban government during the Havana meetings.

"I am forced to speculate as to the usefulness to the U. S. delegation of any representative so limited in power and discretion," Comr. Hyde declared.

He told Judge Miller that he was "shocked by, and take issue with, your unsupported and unsubstantiated statement that 'an effort was made to coerce' your representative into acquiescence with a proposal submitted to the Cuban Government. . . ."

"As Chairman of the U. S. delegation I was intimately acquainted with every phase of the proceeding and I do not recall the use of coercion of any kind whatsoever on any member of the delegation, or on any advisor, or on any observer."

He thought it possible that Judge Miller was referring to a "meeting at which each member of the delegation . . . was polled for his opinion and advice on a proposal then being drafted."

The delegation, he noted, included "executives, attorneys and engineers connected with the various networks, with individual stations,

with industry groups, and with the government."

"Please be advised," the letter continued, "that such polling was done on the assumption that each member of the delegation was a person able to consider matters freely and objectively and able to assist the delegation in the performance of its functions by making available his views on the problems under discussion."

He said he was officially notified that NAB's representative "was precluded from giving such assistance" only after the representative, NAB Engineering Director Neal McNaughten, was called home from the conference.

"I might mention that the NAB withdrawing Mr. McNaughten from the conference at that time did not materially aid the delegation in

drafting difficult and technical engineering positions under consideration," he added.

The letter continued:

You will recall, Judge Miller, that your presence had been specifically requested as a member of the delegation in order that the delegation might have available the views of a responsible representative of the NAB in its consideration of the various problems that were sure to arise.

When the specific invitation to you was acknowledged only by the nomination of Mr. McNaughten, it was assumed that he would be able to fulfill this function. I am aware now that we were mistaken in such an assumption. However, I cannot concede that the mere polling of a member of the delegation for an opinion on a matter under discussion, along with all other members of the delegation, can be construed in any light as "coercion."

Our New New York Quarters

BROADCASTING-TELECASTING has moved its New York Bureau to 488 Madison Avenue, on "Radio Row," opposite CBS and a stone's throw from Radio City.

Phone remains unchanged—PLaza 5-8355.

The new air-conditioned Look Building houses a number of top-flight radio firms and advertising agencies. They include Edward Petry & Co., The Katz Agency, Frederic W. Ziv Co. and World Broadcasting System, The Taylor Co., Fort Industry Co. New York Branch, William H. Weintraub Agency, Joseph Katz Co., Anderson, Davis & Platte Inc., Schwab & Beatty, Minute Maid Corp., and Cowles Magazines Inc., which embraces the Cowles radio properties.

Situated in the new headquarters will be Sol J. Paul, advertising director, who continues to headquarter in New York; Edwin H. James, New York editor, and Bruce Robertson, senior associate editor; Herman Brandschain, assistant to the New York editor, Florence Small, agency editor, and Eleanor Manning, assistant to the advertising director. The new offices are located on the sixth floor. Readers are invited to utilize the facilities of our new quarters.

AFA NAMES PATTERSON At Detroit Meet

(Also see AFA story, page 15)

NEW officers were elected Thursday by Advertising Federation of America, winding up its 46th annual convention at the Statler Hotel, Detroit, with Graham Patterson, publisher of *Farm Journal* and *Pathfinder*, becoming chairman of the board.

Ben R. Donaldson, advertising director of Ford Motor Co., was elected treasurer, and Grace Johnson, ABC continuity acceptance director, becomes secretary.

Re-elected to the board of directors were Fairfax M. Cone, chairman of the executive committee, Foote, Cone & Belding; Leonard Hornbein, director of public relations and advertising, Famous-Barr Co., St. Louis; George S. McMillan, vice president, Bristol-Myers; Robert S. Peare, vice president, General Electric Co.; Ralph

Smith, executive vice president, Duane Jones Co.

New board members elected by AFA were Vernon Brooks, advertising director of Scripps-Howard; Robert Gray, director of advertising and sales promotion, Esso Standard Oil Co.; Henry G. Little, executive vice president, Campbell-Ewald Co., and Wesley I. Nunn, advertising manager, Standard Oil Co. (Indiana).

St. Louis Next

The 1951 AFA convention will be held May 6-9 at the Jefferson Hotel, St. Louis.

Clarence Hatch Jr., executive vice president of D. P. Brother Co., Detroit agency, alerted delegates to TV possibilities. "Color television is nothing short of magnificent," he said, explaining he had been observing RCA color experi-

In the event that the mentioned incident is the alleged effort at "coercion" to which you refer, and, as I know of no other circumstance which could by any interpretation whatsoever be considered as "coercive," it is manifest that you are either grossly mistaken or have been grievously misinformed.

Comr. Hyde quoted Judge Miller as saying that "there comes a point to which our Association is not empowered to proceed as an Association," and that "at that point it is necessary for our representative to refrain from participating in final decisions and from joining in recommendations and proposals."

Hits NAB Stand

The NARBA chairman conceded that "your desire to avoid taking a position under certain circumstances is understandable," but felt that "the NAB has gone far from adopting a neutral stand with respect to NARBA problems. In essence, the NAB has put itself on record as being against any adjustment of the *status quo*."

"Mr. McNaughten," he continued, "was apparently instructed not to agree to any proposal involving such an adjustment, and this instruction, in effect, resulted in his having to disagree with every proposal."

"This, in my opinion, is not only an unrealistic position in the light of the complex problems presented, but a completely inflexible one which, if adopted by a majority of the delegation, would have the effect of foreclosing any adjustments despite possible advantages which might result to the U.S. or of the radio industry as a whole. Moreover, the adoption of such a position would appear to render the

(Continued on page 29)

ments in Washington. "With the advent of color, which is not far off, the impact of television will increase beyond measure."

Mr. Hatch urged AFA members to make the most of the new techniques in TV commercials and praised the visual medium's ability to do a selling job. He sharply criticized stations not doing a proper job of projecting and transmitting filmed spots and programs.

"There is just no uniform standard of quality in the projection of film in television and I certainly wish that we could do something about it," he said. At the same time he complimented network projections but urged all agency and advertiser officials to be "watchfully on your toes." Mr. Hatch suggested timebuyers buy time only on stations doing a good job,

(Continued on page 26)

TRANSIT RIDES HIGH

Wins Two Major Victories

TRANSIT RADIO won two victories last week and then ran into a blast from the CIO.

Victory No. 1—A Federal court dismissed three suits against transit service.

Victory No. 2—The *St. Louis Post-Dispatch*, after finding overwhelming public sentiment for transit in a survey, dropped its battle against the service in St. Louis (see editorial page 32).

The setback took the form of a CIO petition asking FCC to revoke licenses of transit stations and hold a transit hearing.

In U. S. District Court, District of Columbia, Judge Edward A. Tamm ruled transit service is not "inconsistent with the public convenience, comfort and safety."

Judge Tamm acted on three suits filed by Transit Riders Assn.; two Washington attorneys, Franklin S. Pollak and Guy Martin, and a separate appeal by Paul N. Temple. In addition the American Civil Liberties Union had filed a brief supporting suits, and it also took the issue to the FCC last week.

The St. Louis incident was greeted by many transit advocates as a major development in the medium's history. The *Post-Dispatch* (KSD) carried a news story on page 3 of its June 1 issue giving results of a survey conducted on its order by the Bureau of Business & Economic Research, School of Commerce & Finance, St. Louis U.

Editorial Gives Position

In addition, the newspaper carried an editorial explaining that public taste no longer is "nebulous" in the case of transit radio and that since "a great majority of passengers enjoy transit radio . . . the eyes seem to have it." (See text of editorial below.)

The St. Louis U. study, conducted May 1-6, was based on 23,587 interviews, the most elaborate transit survey yet made. The university had been commissioned by the *Post-Dispatch* to conduct a poll of street car and bus riders to determine their opinions on transit radio.

Interviews disclosed that 74.9% of riders favor radio in busses and trolley cars; 15% oppose the service; 10.1% have no opinion.

Broken down racially it was found that 73.6% of white persons favor transit, 16% are opposed, 10.4% have no opinion. Other races: 81.7% in favor, 9.6% opposed, 8.7% no opinion. Interviews covered 19,758 white persons and 3,829 members of other races.

By age groups, results were as follows:

	For	Against	No Opinion
Over 50	54.4%	31%	14.6%
35-49	69.5	17.6	12.9
25-34	83	8.5	8.5
15-24	90.8	4.2	5
Under 15	92.7	3.5	3.8

Interviews were conducted by agents stationed at bus and street car loading points where riders could be identified as such. Hours were 7 a.m.-8 p.m. except that downtown shoppers were included the evening of May 1; riders to a night baseball game May 2; downtown passengers May 6, 10 a.m.-5 p.m.

Battle Against Service

The *Post-Dispatch* and *Star-Times* (KXOK) had conducted a newspaper battle since transit service was started on Aug. 4, 1948, on an experimental basis. KXOK serves vehicles through its FM outlet. At present 700 busses and 300 trolleys in the city carry transit receivers, largest installation in the nation. An early survey had shown that over 90% of persons would not object to transit radio if the majority wanted it.

Text of the *Post-Dispatch* editorial follows:

Public taste is often nebulous. This can no longer be said, however, as to public taste in Transit Radio. A poll conducted for the *Post-Dispatch* among 23,000 bus and street car passengers by the Bureau of Business and Economic Research, School of Commerce and Finance of St. Louis U., indicates beyond doubt that a great majority of passengers enjoy Transit Radio. The vote is 74.9% in favor of Transit Radio, 15% against and 10.1% who have no opinion.

The poll reveals some interesting results. Young people are overwhelmingly for music on the streetcars. Nearly 93% of them favor it. Older people, those 50 years of age and more, are less enthusiastic. 31% of them are opposed. That the objectors really object there can be no doubt. The steady flow of letters to this news-

paper which began some nine months ago and which still continues, is ample proof. A 15% opposition cannot be ignored nor can support by 74.9% be ignored.

The opponents can well appeal their case to the Missouri Public Service Commission charging invasion of privacy.

At this point the eyes seem to have it.

After the District of Columbia court ruling Thursday, Ben Strouse, vice president and general manager of WWDC-FM Washington and Washington Transit Radio, Inc., declared:

"It is our considered opinion that the overwhelming majority of transit riders have been and are in favor of transit radio. Washington Transit Radio Inc. is now completing plans to bring this service to an even larger audience through increased installations in streetcars and busses of the Capital Transit System."

Basis for Dismissal

Attorneys for both Washington TR and the Public Utilities Commission told the court that the cases should be dismissed because the "preponderance of the public" enjoys the service, and pointed out that PUC did not originally "order anyone to do anything" but merely dismissed its own investigation [BROADCASTING, Dec. 26, 1949]. Judge Tamm dismissed the suits on these grounds.

Transit FM opponents, in demanding that the PUC order be rescinded, had contended that the broadcasts violate the "free speech" and "due process of law" clauses of the First and Fifth Amendments to the Constitution.

American Civil Liberties Union brief filed Thursday, was signed by General Counsel Arthur Garfield Hays, Attorney James Lawrence Fly, former FCC Chairman, and others.

Meanwhile, ACLU was joined in its fight against transit FM by the CIO in separate petitions filed with FCC last week.

ACLU called on the Commission to terminate transit radio in Washington and to hold "immediate hearings." The CIO, making the same request, asked FCC to take action along lines previously demanded by Mr. Pollak [BROADCASTING, Feb. 13].

Union Stand

The union told the Commission it should (1) rule that the service is contrary to the "public interest" and violates FCC Rules and Regulations; (2) adopt a policy of revocation of licenses to end it; (3) take no interim action on applications for licenses, renewals and CPs; and (4) designate for public hearing application of Capital Broadcasting Co. for renewal of WWDC-FM's license.

Ogden Joins LeVally

WILLIAM B. OGDEN last week joined LeVally Inc., Chicago agency, as manager of the radio and television department, assisting James G. Cominos, vice president and radio-TV director. Mr. Ogden is former general manager and vice president of WFYC Alma, Mich., and Detroit manager for CBS Radio Sales. Before that, he worked in the recording division at NBC New York.

ABC LEAVES NAB

WOV, WHOM Also Quit

ABC last week resigned from the NAB, the second network to do so in the past fortnight.

The withdrawal of ABC and its five owned-and-operated stations means the loss of around \$25,000 a year in NAB dues, it was said.

CBS had tendered its resignation from the association two weeks ago [BROADCASTING, May 22].

The resignation of ABC and its owned-and-operated stations left the NAB with only two station members in New York, WNBC, owned-and-operated by NBC which has said it has no intention of resigning, and WOR, stockholder station in MBS. The question of continued membership in the NAB is to be taken up by MBS board members at their next meeting in mid-June.

It was learned that two other New York stations, WOV and WHOM, had notified NAB of their resignations a month ago. Officials of both stations emphasized that

their actions were only coincidental and were not taken with the other's knowledge.

WHOM, which withdrew effective May 31, had been paying dues of about \$2,300 a year. WOV, which quit a few weeks earlier, paid dues of about \$5,000.

Neither WOV nor WHOM announced its withdrawal, but executives of both stations confirmed the fact.

Kintner Outlines Stand

In a letter to Justin Miller, NAB president, Robert E. Kintner, ABC president, said the network had decided to quit despite professed reluctance "to take any step which might deal a serious blow to the makeup of the NAB."

"As you know," Mr. Kintner wrote, "ABC has for the past year been reviewing its relationship to the NAB both from the standpoint of values which we might be able to contribute to your organization and with respect to the benefits

which a network at the present time can receive from the NAB.

"ABC's board of directors in the course of a number of meetings on the subject has been most reluctant to take any step which might deal a serious blow to the makeup of the NAB. Still the advisability of network membership in the NAB has been subject to increasing question by ABC.

"In accordance with my previous discussions with you dating back some months I must therefore submit to you the resignation of ABC and its owned-and-operated stations."

ABC stations are WJZ New York, WENR Chicago, WXYZ Detroit, KECA Los Angeles and KGO San Francisco.

Mr. Kintner wrote Judge Miller that in advising of the resignation of ABC "I wish to stress that ABC . . . does not urge other member stations throughout the country to follow our action. I wish you success in the future of the NAB."

RETAIL SALES

32 Areas Command 40% of Total

TWO-FIFTHS of the nation's retail business was done in the 32 largest metropolitan areas in 1948, according to information released last Wednesday by Roy V. Peel, director of the Bureau of the Census.

The combined retail sales of the 32 areas exceeded \$56 billion, an increase of 192% over 1939.

The material was compiled from the individual metropolitan area reports of the Census of Business. Population figures used in the table below are for 1940.

The rate of business growth in the central cities has been exceeded by the rate of growth for the remainder of the metropolitan areas, the report points out. In 27 of the big cities, a combined loss in the number of retail stores between 1939 and 1948 of about 10% was revealed in the findings, while the other five showed small gains.

In contrast, combined rates of increase in the number of stores for the areas surrounding the 32 central cities was reported at 6%. Those central cities which showed gains were Birmingham, Dallas, Houston, Memphis and Washington.

As another aid to business, the Commerce Dept. on May 31 issued a new publication—*Economic Development Atlas—Recent Changes in Regions and States*.

Prepared by the Office of Domestic Commerce, the book is designed to show in graphic and tabular form some of the more significant economic changes that have taken place in the geography of the national economy over recent years. It covers such factors as population, manufacturing, agricultural operations, and total per capita income.

Copies of the *Economic Development Atlas* are available from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., at 75 cents a copy.

SET OUTPUT

NAB Starts Running Total

NEW breakdown of radio set manufacturing statistics of member companies of Radio Mfrs. Assn. was compiled last week by the NAB Research Dept. Using RMA's first-quarter production figures [BROADCASTING, May 1], NAB will carry running totals of AM and FM set output.

NAB's Broadcast Advertising Bureau pointed out that the rapid growth in radio set output comes in response to public demand. No medium with this penetration and continuous growth can be described as "supplanted, declined, outmoded or weakened," BAB said. It added that the production demonstrates AM's continued good health as a communications and advertising medium.

Also from the field offices of the Dept. of Commerce.

Retail trade information for the 32 largest metropolitan areas as compiled from the Census of Business follows:

Metropolitan Area	Stores		Sales (000)		Percent change 1939 to 1948	
	1939	1948	1939	1948	Stores	Sales
Metropolitan Areas with Central Cities of 250,000 inhabitants or more, total	656,499	632,196	\$19,217,581	\$56,132,516	-3.7	+192

FCC Actions

THREE new AM stations, one new FM outlet and improved facilities for two existing AM stations were granted by FCC last week. Three stations were granted transfers of control. Four FM stations were deleted. Details of these and other FCC actions may be found in Actions of the FCC beginning on page 67 and FCC Roundup on page 76.

RESEARCH NEED

Poll AAPOR Members

A POLL is being conducted by American U.'s School of Social Sciences and Public Affairs, Washington, D. C., among a number of American Assn. of Public Opinion Researcher members to determine whether they favor the formation of a professional society of communications researchers.

According to the sponsors, there is a need for a new society to meet annually for presentation of papers and discussions in the fields of content analysis, audience analysis techniques, readability, communication and foreign policy, communication control, etc. Question put to members is whether these needs could best be met by working through the AAPOR or by organizing a new society.

P&G TOP NETWORK USER In March—PIB

PROCTER & GAMBLE CO. was the leading user of radio network time during March, according to data released last week to BROADCASTING by Publishers Information Bureau. Figures show this soap manufacturer as using \$1,324,568 worth of network time, at gross rates, in that month. P&G was the only network advertiser to use more than a million dollars' worth of time in March; Miles Labs, in second place, accounting for only \$764,801 spent for time for its network radio shows. (See Table I for list of top 10 network clients during March.)

Total national network time sales during the month amounted

to \$16,846,810, a drop of 4.8% from the March 1949 total of \$17,705,248. For the first quarter, the 1950 gross of \$49,322,899 fell 4.3% below the 1949 gross of \$51,540,735.

CBS was the only network to show a gain in gross time sales for March 1950 as compared with the same month of last year, rising from \$5,837,746 in March 1949 to \$6,111,302 in March 1950. For the quarter, CBS also showed an increase, grossing \$17,861,483 in the first three months of 1950 as compared with \$17,037,484 for the like period of 1949. (Due to a subsequent correction, the CBS figure for the month and that for the quarter are both slightly higher

than PIB originally reported [BROADCASTING, April 24].

NBC's March gross billings this year were just about the same as in that month a year ago, \$5,847,374 in March 1950; \$5,847,557 in March 1949. For the quarter, NBC

ADV. RESEARCH BUREAU NAMES

Baker Is President

FREDERICK E. BAKER, senior partner of Frederick E. Baker & Assoc., Seattle advertising and public relations agency, has been named president of Advertising Research Bureau Inc., the recently formed organization to measure accurately on a dollar-for-dollar basis radio's effectiveness as an advertising medium in comparison with newspapers [BROADCASTING, May 1, and AT DEADLINE, May 22].

Other officers are Edward Craney, owner of the "XL" stations in Washington, Oregon and Montana, who is vice president; and Rogan Jones, president of KVOS Bellingham and KPQ Wenatchee, who is secretary-treasurer.

Mr. Craney

With present ARBI operations located in the Central Bldg., Seattle, Mr. Baker announced last week that the organization plans soon to establish regional offices in the key markets of the U. S., thereby extending the media-comparison research technique nation-wide.

"I am convinced that we have found a new and sound method of effectively measuring the value of radio as an advertising medium," Mr. Baker told BROADCASTING, adding: "ARBI can be of invaluable service also to television in setting up rate structures. We sincerely believe our method will supersede any previous method of testing. It will give, in an intelligent manner, data on which station time—both radio and TV—may be accurately evaluated."

Findings Outlined

Tabulation of the first 16 pilot tests in nine cities in Washington, Oregon and Montana, according to Mr. Baker, disclosed that:

- Radio developed nearly twice the amount of store traffic than did newspapers, as measured on a dollar-for-dollar basis of advertising funds invested.

- Radio accounted for 54.6% of the dollar volume of sales, as compared to 20.3% attributed to newspapers.

Mr. Baker also cited concrete results of the first test findings:

- (1) One station has increased its monthly billings by 20%;
- (2) another is revising its rate structure;
- (3) one important advertiser who had used newspapers exclusively now splits his annual budget 50-50 between newspapers and radio;
- and (4) another, who previously had allocated only one-sixth of his ad budget to radio, now invests one-half in radio advertising.

In the 16 Pacific Northwest pilot tests, radio advertising resulted in 40.4% of the store traffic, as compared with 21.2% attributed to newspaper advertising, Mr. Baker said. In combination, radio and

newspapers were responsible for 14.3% of the traffic, while the remaining 24.1% gave various other reasons for visiting the stores.

"Our first test was in Bellingham, Wash., followed by subsequent tests in Wenatchee and Spokane, Wash.; Portland, Ore.; Missoula, Helena, Bozeman, Great Falls and Butte, Mont.," said Mr. Baker. "Even before we had completed all of these pilot surveys, we knew we had found what radio for years has sought—an accurate method of measuring effectively radio's value as an advertising medium."

Tests began early this year on a two-survey-per-station basis, with two types of retail stores co-operating. In markets the size of Spokane and Portland, however, it was discovered, according to Mr. Baker, that two tests did not give a complete picture of radio's actual pulling power, so additional surveys were scheduled immediately.

Tests Conducted

"Now we are convinced, after testing various sized markets, that we have found the basic method and format that radio has been seeking for so many years—the true test of its effectiveness in moving merchandise," Mr. Baker asserted. He added that tests have been made in single-station, two, three, four, six and ten-station markets.

"All of these surveys pitted radio's selling power against newspaper advertising on the basis of a dollar-for-dollar advertising investment," he explained. "In every case except one, we found that for the same advertising dollar radio produced more traffic and more dollar-volume sales than did the newspapers. Of even greater importance is the fact that careful use of radio and newspaper in combination produces more traffic and sales for the advertiser's dollar than the use of either radio or newspaper alone."

Although ARBI was not incorporated until recently, the idea was born a year ago when a group of broadcasters, principally from Washington, but including representatives from Oregon and Montana, held a series of meetings in Seattle to discuss audience sur-

veys. Meeting on Sundays, they began to call themselves "The Sunday Broadcasters."

What they sought was an accurate method of measuring radio's pulling power as compared with the other major medium—newspapers. Competition in the Pacific Northwest was stiff; and advertisers seemed unimpressed by estimated audience figures, program popularity polls and radio-homes data.

To an early meeting, the "Sunday Broadcasters" invited Fred Baker, who has long been active in advertising, public relations and allied fields in the Pacific Northwest. [ON ALL ACCOUNTS, August 30, 1948]. At Mr. Baker's suggestion, the group got in touch with Joseph B. Ward, formerly of New York but now operating his own marketing research and engineering firm in Seattle.

Mr. Ward's clients on the Pacific Coast have included the Hearst newspapers, the Carnation Co., and a leading Seattle department store. Before the war, he was employed in the East where he prepared surveys for du Pont, Mohawk Carpet Mills, General Electric Co., Schick dry razors and other leading manufacturers.

Research Format Set

When he heard the problem of the "Sunday Broadcasters," Mr. Ward came up with a research format that looked good to the group, and the first test was okayed for Bellingham. Mr. Baker who was thoroughly sold on the method presented by Mr. Ward, then formed Advertising Research Bureau, Inc., incorporating in the state of Washington. Mr. Ward was retained as chief of research.

As explained by Mr. Ward, the ARBI method does not rely on estimated audiences and projected sales data based on limited sampling, but embraces point-of-sale interviews with actual customers.

Under his personal supervision, interviewers are being trained in preparation for ARBI's national expansion. Because of the emotional stability and objectivity required for the highly specialized work of point-of-sale interviewing, Mr. Ward disclosed that only one out of 10 applicants thus far has been

CHECKING media surveys developed by Joseph B. Ward (r), Seattle industrial and marketing engineer, is Frederick E. Baker, president, Advertising Research Bureau Inc., and senior partner, Frederick E. Baker & Assoc., Seattle advertising agency. Mr. Ward's method makes controlled tests at-point-of-sale to measure relative effectiveness of major advertising media. ARBI plans to make the technique, now used in Pacific Northwest cities, available in other U. S. major markets.

* * *

selected for training.

Each applicant must take a six-week training course, including actual field work under a district supervisor, before he or she may qualify as a skilled interviewer, Mr. Ward explained.

Next step in the expansion of ARBI's operations, as announced by Mr. Baker last week, will be the inauguration of tests in California, Colorado and Utah, to be followed by further coverage eastward.

Menser Joins Stetson U.

CLARENCE L. MENSER, former NBC vice president in charge of programs and more recently owner of WEAT Lake Worth, Fla., has joined the faculty of John B. Stetson U., Deland, Fla., as professor of speech and director of radio. He will supervise the university's newly-acquired WJBS, in addition to teaching. Station is an MBS affiliate. Mr. Menser will also continue to operate his orange groves at Jupiter, Fla.

"Tell me that radio-results story again!"

The story is just this: for low-cost results from advertising, you buy radio. And in Baltimore, you buy W-I-T-H.

No other station in Baltimore provides so *many* listeners at such *low* cost. That means that a *little* bit of money spent on W-I-T-H brings *big* results.

If you'd like to hear the remarkable success stories about W-I-T-H, call in your Headley-Reed man today.

TOM TINSLEY, President • Represented by HEADLEY-REED

ACCEPTING public service awards from the National Safety Council and the Alfred P. Sloan Foundation on behalf of Don Lee is Lewis Allen Weiss (r), network's board chairman. With him are (l to r) Art Baker, narrator on show; Robert McAndrews, secretary, So. Calif. Broadcasters Assn.; Los Angeles Mayor Fletcher Bowron; Earl F. Campbell, a NSC director; Robert Coulson, West Coast representative, Advertising Council.

INTERVIEWING Union Pacific R. R. officials on their visit to Kansas City, Mo., during nation-wide tour is Harold Mack (center), KCMO Kansas City newsman. A. E. Stoddard (l), railroad president, is accompanied by E. Rolland Harriman (r), board chairman.

ALSO accepting a National Safety Council Award is Police Lt. Roland J. Schumacher (r), of St. Louis' traffic education div., from Louis Antoine (l) of area's safety council, on behalf of KXOK that city. Mr. Schumacher conducts KXOK's So It Can't Happen To You.

NATIONAL Safety Council award to KLZ Denver is marked by (l to r) Gen. Mgr. Hugh B. Terry; Brandon Marshall, ex. sec., local NSC; Matt McEniry, KLZ public affairs dir.; Charles O. Voight, pres., NSC Denver chapter.

RICHARD E. O'DEA Jr. pilots speed boat "Miss WOV" named after his father's New York station. Young O'Dea competed in the AU Class of the Albany to New York outboard motor races held May 28.

WCCO Minneapolis staffers are acquainted with the Theo. Hamm Brewing Co. St. Louis plant. L to r are Odd E. Moe, brewery's sales-merchandising mgr., pointing to photo-mural; Carl Ward, sales mgr., Babe LeVoir, sports announcer, Ed Viehman, production mgr. and m.c. of Hamm's Harmony House, all WCCO.

G. A. RICHARDS

May Be Witness If Doctors Okay

G. A. (Dick) RICHARDS, if doctors sanction, may take the witness stand in FCC's new hearing on his news policies, which gets under way today (Monday) in the U. S. Postoffice & Court House Bldg., Los Angeles, with Examiner James D. Cunningham presiding [BROADCASTING, May 15, 22, 29].

Because of ill health, Mr. Richards was not called to the stand during the earlier three weeks of hearing held before the death of Examiner J. Fred Johnson Jr., who presided. Licenses of Mr. Richards' three stations—KMPC Los Angeles, WJR Detroit and WGAR Cleveland—are at stake in the hearing, which involves charges that Mr. Richards ordered news slanted.

FCC General Counsel Benedict P. Cottone feels Mr. Richards' health has sufficiently improved and last Wednesday issued subpoenas for the station owner's appearance and that of Robert O. Reynolds, vice-president and general manager of KMPC.

Whether Mr. Richards would be on the stand today was a question. It was expected his doctors as well as Chief Counsel Hugh Fulton will vigorously oppose the move, fearing the excitement and strain might be fatal to Mr. Richards.

Explains Action

Mr. Cottone, who has taken over personal supervision of FCC's presentation of its case, explained that action in issuing a subpoena to Mr. Richards at this time has been taken after full consideration of assertions made to the Commission during the past several months concerning health of the station owner and his physical ability to appear at a hearing to testify.

"It is neither my wish nor, I am sure, that of the Commission to require Mr. Richards' appearance as a witness if the condition of his health is such that such appearance, as has been asserted by his attorneys and doctors, would endanger him," Mr. Cottone said.

"It appears, however," Mr. Cottone added, "from recent reports in the press concerning business activities of Mr. Richards, that the state of his health may now be such that his appearance to give testimony at the hearing may be safely undertaken without danger of adverse consequences to him."

Mr. Richards' appearance will not be insisted upon at this time, however, if it is established upon the record by Mr. Richards' attorneys, at the opening of hearing on Monday, through competent medical testimony, that his health would be endangered, Mr. Cottone said.

Mr. Cottone reminded that it is entirely appropriate and necessary to require appearance of a principal officer and controlling stockholder of a licensee in Commission proceedings involving the qualifications of the licensee. License renewal applications and a trusteeship plan for the three stations are at stake.

Prehearing conference was held by Examiner Cunningham with

Messrs. Cottone and Fulton Sunday (June 4) on "a number of procedural matters relating to the new hearing."

The *Saturday Evening Post* meanwhile saw in FCC's action against Mr. Richards a proceeding dangerously akin to government censorship.

In an editorial in the May 27 issue entitled "Who Is Competent to Decide Which News is Slanted?", the *Post* observed: "If a Government commission is to inquire into the opinions, prejudices or social connections of radio proprietors, we are nearing the point of no return as far as arbitrary censorship is concerned."

Character Inquiry

The editorial noted that the Commission's inquiry is designed to determine Mr. Richards' "character" and that it is based on complaints filed by three former KMPC employees, following which "James Roosevelt wrote to the Commission suggesting an investigation of all three of Mr. Richards' stations."

The editorial said:

... The notion that failure to appreciate James Roosevelt implies deficiency in "character" would probably not have occurred to the framers of the communications law. Nor would it have occurred to them that discussions or orders behind the scenes in a broadcasting studio or the proprietor's private views about certain politicians would be seriously considered as grounds on which to challenge a man's fitness to operate a radio station—particularly when there seems to have been no complaint of the fairness or impartiality of the actual "programming."

... The Richards case sounds suspiciously like one of those "alarm bells in the night" which free men fail to heed at their peril.

WNOE POWER UP Marks Selling Drive

MOVING to its newly-authorized 1060 kc frequency, WNOE New Orleans June 1 stepped up its power to 50 kw daytime and 5 kw night. Station had been on 1450 kc with 250 w.

In announcing the improved facilities and the installation of latest RCA equipment, the station called attention to its listener loyalty record of the past 25 years; cited WNOE's individual programming, tailored to the area, plus leading Mutual network shows; and stressed the fact that the station was engaged in its greatest promotion drive to date.

WNOE, owned by James A. Noe, is under the direction of James E. Gordon, general manager. National representative is Ra-Tel.

INTERNATIONAL FOOD SHOW IN DES MOINES, A CITY OF 180,000, ATTRACTS 102,511 PEOPLE

The International Food Show was held in Des Moines,
May 21 through 27.

It drew an attendance of 102,511 in a city of 180,000
population.

The Show was held in a new warehouse in an out of
the way location.

This fact alone makes the attendance figure even more
remarkable.

KSO handled the entire radio promotion exclusively.

KSO staff members and personalities provided most of the
entertainment.

Jack Sterling of CBS acted as Master of Ceremonies.

This is a remarkable demonstration of the tremendous
pulling power of **KSO**.

Is it any wonder the trend in Des Moines is to **KSO**?

KSO gained **32.1%**

IN

Hooper ratings in March and April 1950
over same two months in 1949.

HEADLEY-REED, Nat. Rep.

**LOCAL COVERAGE IS
NECESSARY ON
THE PACIFIC COAST, TOO!**

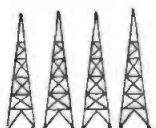

THE LAWS OF NATURE and logic demand *local* radio coverage on the Pacific Coast. Mountain ranges (5,000 to 14,495 feet high), great distances between markets and low ground conductivity place many vital areas on the West Coast outside the limits of long range broadcasting.

Only Don Lee is especially designed for the Pacific Coast. Only Don Lee has a local network station in each of 45 important markets (nearly as many as the three other networks *combined*). Only Don Lee has the flexibility to offer a local network station in the Pacific Coast markets where you have distribution.

Only Don Lee can broadcast your sales message to all the Pacific Coast radio families

LEWIS ALLEN WEISS, *Chairman of the Board* · WILLET H. BROWN, *President* · WARD D. INGRIM, *Vice-President in Charge of Sales*
1313 NORTH VINE STREET, HOLLYWOOD 28, CALIFORNIA · *Represented Nationally by JOHN BLAIR & COMPANY*

Of 45 Major Pacific Coast Cities			
ONLY 10 have stations of all 4 networks 	3 have Don Lee and 2 other network stations 	8 have Don Lee and 1 other network station 	24 have Don Lee and NO other network station 

from a local network station located where they live—where they spend their money. It's the most logical, the most economical coverage you can get on the Pacific Coast. You buy only what you need, and you *get* what you buy every time.

That's why Don Lee regularly broadcasts as many—or more—regionally sponsored programs as the other three networks combined.

CORRECTION: Our copy which appeared in this space on February 6, 1950, included this statement, "It is nearly 100 miles from Seattle to the Canadian border, yet Don Lee is the only network that has a station between these two points." This was an error made by our copywriter. In twenty-four Pacific Coast markets Don Lee has the only network station, but Bellingham is also served by Station KVOS, an ABC affiliate.

The Nation's Greatest Regional Network

AFA Names

(Continued from page 17)

putting economic pressure on guilty ones.

Mr. Cone said advertising must establish its own safeguards against exaggeration and dishonesty in advertising copy. He is AAAA board chairman. "Just as surely as dishonest advertising contaminates honest advertising — blatant, foolish adjectives destroy the worth of goods," he said. "I would like to see the advertising clubs of America set up groups to watch for advertising foolishness, and, when they find it, laugh it out of being."

Charles Luckman, former head of Lever Bros., said retirement and pension of the aged provided business leaders with their greatest peacetime problem.

William F. Hufstader, vice president in charge of distribution, General Motors Corp., told the AFA America could not have reached its present high level of living without intelligent use of advertising and merchandising techniques.

In elections for officers of the Council of Advertising Clubs, Ira E. De Jernett, president of Ira E. De Jernett Adv. Agency, Dallas, was re-elected chairman. Robert P. Anderson, of Norton Co., Worcester, Mass., and Chester W. Ruth, advertising director of Republic Steel Corp., Cleveland, were elected vice chairmen.

Five persons were elected posthumously to the Advertising Hall of Fame: F. W. Ayer, founder of N. W. Ayer & Son, Philadelphia; Stanley Clague, Chicago, a founder of Audit Bureau of Circulations; Benjamin Franklin, Philadelphia; James H. McGraw, founder of McGraw-Hill Publishing Co., and Merle Sidener, chairman of the National Vigilance Committee of the Associated Advertising Clubs.

ATLASS FIRM

Assumes WKOW Management

ATLASS AMUSEMENT CO., new corporation formed by the Atllass family in Chicago, has taken over management and consultation of WKOW Madison, Wis., in a special five-year contract signed with Monona Broadcasting Co., WKOW owner. The station, on 1070 kc, operates with 10 kw day and 5 kw night. Contract was effective June 1. Station switches from MBS to CBS today (see story this page).

Atllass Amusement, incorporated in Illinois early this spring as negotiations were begun with WKOW, is headed by Leslie Atllass Jr., program director of WIND Chicago, who is president. John Carey, commercial manager of WIND, is vice president. Mr. Atllass' uncle, Ralph Atllass, is general manager of WIND and consultant to WMCA New York. Leslie Atllass Sr. is CBS Central Div. vice president.

The management company has recommended hiring a new general manager, and WKOW executives are considering the nomination.

ACHIEVEMENT awards in 10th annual competition sponsored by Advertising Federation of America were presented Friday (June 2) to winning clubs at AFA convention. Maurice B. Mitchell (r), director, Broadcast Advertising Bureau, and other judges sift through entries prior to presentation. L to r: Kerwin H. Fulton, president, Outdoor Advertising Inc.; Harold S. Barnes, director, Bureau of Advertising; P. L. Thomson, president, Audit Bureau of Circulation; Arch Crawford, The National Assn. of Magazine Publishers Inc., and Mr. Mitchell.

WOMAN OF YEAR

Council Cites Bea Adams

BEATRICE ADAMS, executive vice president, Gardner Advertising Co., St. Louis, was cited last

Miss Adams

Thursday as "Advertising Woman of the Year" by Council on Women's Advertising Federation of America's convention in Detroit. She received the award from Mrs. Honor Gregory House, chairman of the awards committee, and president of Gregory House Inc., Cleveland.

Miss Adams is in charge of creative work, copy, art and home economics for Gardner Advertising. The award is given annually to the woman in advertising selected as having contributed the most during her career to the growth and development of advertising. Judges panel included Mrs. Ella B. Myers, 1948 award winner and advertising consultant; Frederic R. Gamble, president American Assn. of Advertising Agencies, and Dr. Kenneth Dameron, professor of business organization, Ohio State U.,

WKOW JOINS CBS

Affiliation Effective Today

WKOW MADISON, Wis., joins CBS as the network's 188th AM affiliate effective today (June 5). The station operates on 10 kw daytime and 5 kw night. WKOW will be a supplementary station in the CBS northwestern group.

One of the first pieces of business will be the 36 half-hours purchased by the William Wrigley Jr. Co., Chicago, on the full CBS network during the summer [BROADCASTING, May 29].

and director of Committee on Consumer Relations.

Presentation was made during a luncheon at which Charles Luckman, former head of Lever Bros., spoke. In 1941, Miss Adams, who joined the Gardner agency in 1935, won the Josephine Snapp Award given by the Women's Advertising Club of Chicago, a forerunner of the "Advertising Woman of the Year" award. She became vice president of Gardner in 1944 and was named executive vice president in 1945 and a member of the board of directors a year later.

WKUL RATE PLAN

Adopts New National Card

LOCAL stations are urged by WKUL Cullman, Ala., to scale down national rates close to their local rates in order to combat some advertiser attempts to scuttle stations' national rate cards.

According to Manager Hudson C. Miller Jr., WKUL has adopted a new national rate policy to permit the national advertiser to buy a group of stations in an area on a concentrated sales effort.

As outlined by WKUL, this policy calls for the addition of 15% to the local rate to allow for sales expense and another 15% for agency commission. "This means that the final national rate is simply the local rate, plus 30%, whereas the national rate formerly was almost 100% increase over the local rate."

Such procedure, the station feels, would serve as the local outlet's answer to pressure from some national advertisers that the smaller station sell time on the basis of its local rates. WKUL said it feels "unless some definite policy is adopted and strictly adhered to, that the national rate structure in time will be completely destroyed for small market stations. . . . To deter in any way or fashion from the rate card is the quickest road towards bankruptcy. . . ."

FREE & PETERS

To Hold Spot Sales Clinic

A NATIONAL spot sales clinic for top management and sales executives of the stations represented by Free & Peters will be held at the Edgewater Beach Hotel, Chicago, tomorrow and Wednesday (June 6-7).

Some 80 station men have accepted the invitation of their station representative organization to attend the two-day meeting, H. Preston Peters, F & P president, said last week.

"The clinic will not be the occasion for any announcement of any new plan of operation by Free & Peters," Mr. Peters explained, "but it will be a real shirtsleeves meeting at which the station executives will conduct panel discussions on sales, programming and promotion."

New Ideas

"Practically every station on our list has developed at least one new and successful idea which the others can adopt with profit and we expect the clinic to be a valuable educational experience for us all, including the F&P staff men as well as those from our stations."

Meetings will be closed and, except for one agency panel, will be conducted by the station men themselves. The two work-day clinic sessions will be topped off with a no-speech dinner on Tuesday.

SUMMER DRIVES

Lotion, Deodorant Spots Set

SEASONAL summer accounts such as suntan lotions and deodorants are starting annual spot announcement campaigns in radio and TV.

Tartan suntan lotion, through J. D. Tarcher & Co., New York, starts its spot campaign in radio on 75 to 100 stations during the month of June for a six to seven week campaign. In addition, the company will use 20-second station breaks in television on about 100 video stations.

Among the deodorants, Colgate-Palmolive - Peet's Veto, through Sherman & Marquette, New York, has placed a heavy spot campaign on about 190 stations throughout the country.

The contract, with varied starting dates in May and June, extends until the end of the year.

Another deodorant, Carter Products' Arrid, which uses a station list of about 100 will add more announcements to each station, thus increasing the weekly frequency of spots. Frequency additions vary in each market. Sullivan, Stauffer, Colwell & Bayles, New York, is the agency.

NARBA STAND

Fla. Group Told U.S. Position

FCC COMR. Rosel H. Hyde, chairman of the U.S. NARBA delegation, reiterated last week that the U.S. is prepared to make reasonable "adjustments" in its NARBA channel rights—but will not accept less than its "fair and equitable share."

He made the statement in a largely off-the-record speech scheduled for delivery Saturday at a meeting of the Florida Assn. of Broadcasters in Orlando.

Capt. John S. Cross, assistant chief of the State Dept.'s telecommunications Staff, buttressed the pledge by telling the Florida group at the same meeting that the State Dept. stands ready to "reject any unreasonable inroads" into the frequencies presently held and needed by the U.S.

Addressing broadcasters in the state most affected by Cuba's currently unresolved channel demands and her present use of channels to which she had no right under the expired NARBA, both Comr. Hyde and Capt. Cross emphasized the importance of reaching a satisfactory agreement on international channel rights.

"But," Comr. Hyde said, "our belief in international agreement and our desire to cooperate toward that end should not be misunderstood as a willingness to accept any kind of agreement merely for the sake of agreement.

"We will not accept any agreement which does not provide a fair and equitable share of the standard broadcast band for the U.S. In other words, unless we can say that an agreement is equitable to all nations concerned and will not impair the overall broadcasting interests of the U.S., we will not accept it."

Position Outlined

Comr. Hyde continued:

It is difficult to be more specific concerning the content of an acceptable agreement. And it does not follow that we are unprepared to make some adjustment in the interests of inter-country cooperation and understanding.

However, there are millions of people in this country who depend on radio as a vital source of news, education and entertainment. And the record is clear and unrefuted that the people of Cuba receive a far more adequate share of radio service than is received by the people in most parts of the U. S.

In our view, it is therefore clear that proposals for extensive adjustment and dislocation of U. S. stations cannot be justified on the basis of a fair and equitable distribution of facilities. The facts just don't support any such contention.

Most of the off-the-record portions of Comr. Hyde's address dealt with the background of U.S.-Cuban efforts to resolve their differences earlier this year and with problems to be faced in the forthcoming resumption of the overall NARBA

conference, now scheduled for Sept. 6.

Capt. Cross, also reviewing the history of NARBA negotiations, assured the FAB delegates that the State Dept. will continue to be guided by the policy of guaranteeing "protection" of this country's overall broadcasting interests.

He said the State Dept. is "well aware of the tremendous stake" the U. S. has in standard band broadcasting and the "serious repercussions" which would result if the American listening public is beset by material interference.

Noting strong advocacy for negotiations based on U. S. area and population and for resort to political and economic sanctions to insure agreements with other NARBA countries, Captain Cross reminded that each signatory nation has complete sovereignty which leaves it free to administer its broadcasting affairs as it sees fit.

The fact that such administration sometimes affects U. S. broadcasting adversely is a matter for "serious protest," he conceded, noting that the State Dept. has, "with considerable success," regis-

tered protests in individual cases as they have arisen.

Captain Cross emphasized that "sovereignty" does not permit the U. S. to impose its will upon the other countries and that such an effort would result in "far-reaching and serious political implications" and "endanger good international relations."

Captain Cross observed that Cuban station assignments, made since expiration of NARBA in March 1949, have resulted in a number of protests from U. S. stations complaining of interference. The interference factor, he added, makes an agreement on standard band broadcasting in the North American region desirable.

U. S. broadcasters as well as the State Dept. and FCC will be seriously confronted with the question of effect on U. S. interests if no international regulations are promulgated and if all countries involved are permitted, "without restraint," to operate their stations on any frequency "with any amount of power they may desire" at any location, he said.

He told FAB members that

SPONSOR pride is built by WIP Philadelphia in instituting awards to 10 year and older sponsors. At initial award ceremony are (l to r) Gordon Gray, WIP vice president; Arthur Lefko, president, Adams Clothes, receiving merit certificate for 15 year sponsorship of C'mon 'n Dance; Benedict Gimbel Jr., WIP president and general manager, and Herman Lefko, vice president, Adams Clothes.

broadcasters will have to consider whether the "best interests" of the U. S. would be served "by refusal to accept any international agreement or whether . . . it would be better to accept an agreement which does not satisfy everyone but is in the best overall interests of the U. S."

PITCH TO RETAILERS NRDGA Hears BAB Tips

BAB last week plumped hard for retailer use of radio, particularly news, transcribed and women's programs, in speeches before the mid-year conference of the National Retail Dry Goods Assn. in Los Angeles.

The speeches were prepared by Maurice B. Mitchell, BAB director, and Meg Zahrt, BAB assistant director, but all were read to the conference by Miss Zahrt. Mr. Mitchell was obliged to cancel his appearance.

Mr. Mitchell's speech, presented Thursday at the conference in the Los Angeles Biltmore Hotel, discussed news and transcribed shows.

Radio, said Mr. Mitchell, "in the short space of 30 years . . . has replaced everything else as the source of news."

News, he said, is "not only radio's most important single service, it is also its most commonly-found program type. It is almost always available for local sponsorship."

Advantages to a sponsor of a news program include:

(1) The sponsor gets the credit for bringing the news into the listener's home.

(2) "You can forget about one big radio program problem when you sponsor news—the problem of keeping your program always interesting, new and entertaining. . . . The news is—just because it is news—always changing, never stale, repetitive, boring."

(3) "People believe news, a fact that adds integrity and believability to your advertising message."

Mr. Mitchell pointed out that the size of the radio news audience has grown since the war; it was 35% bigger in January 1946 than

cerned with women's shows.

Pointing out that such programs directly influence "the buying minds of women," Miss Zahrt gave many reasons why retailers could profitably use women's shows.

Among them were the fact that "your advertising is personally endorsed" by women commentators and that such a program "gets a direct merchandise message across to your listeners."

"It is radio's ability to lend personal recommendation, personal experience, to your advertising story that makes a women's program a powerful medium for bringing women into your store—and once they are in your store their normal tendency is to buy beyond their original intent," Miss Zahrt said.

Durante Cancels

JIMMY DURANTE chose cancellation of his NBC program following the June 30 broadcast rather than make a firm TV commitment price to R. J. Reynolds Tobacco Co. (Camel cigarettes). Having an MGM contract forbidding TV effective one more year, the actor felt he did not desire to tie himself to a deal. William Esty Co., Camel agency, insisted on commitment as an alternative of taking a cut in the package show price in the event Mr. Durante refused TV offer.

NAB Rebuked

(Continued from page 17)

holding of international conferences completely nugatory."

While taking exception to NAB's stand on policy and non-technical matters, Comr. Hyde paid tribute to "the services of representatives of the NAB, such as Mr. McNaughten, . . . in connection with strictly technical consideration."

Comr. Hyde noted that Judge Miller's letter "makes reference to possible further definition of policy by the NAB Board as to the participation that representatives of the NAB should play in international conferences.

"In the light of the desirability of having all points of view afforded genuine representation in a delegation," he continued, "I have no objection to your making known to the Board of Directors my views regarding the highly limited usefulness of your representatives under the existing NAB policies."

Sees 'Misconceptions'

Comr. Hyde also found in Judge Miller's letter indications of "the existence of certain misconceptions on your part with respect to the duties and functions of members of the U.S. delegation to international conferences."

Of a mention made by Judge Miller that Comr. Hyde might "be designated, again, to represent the FCC" at an international conference, the letter said:

For your information, I was appointed chairman of the U. S. delegation to the conference concerning NARBA matters at Montreal and I continued in that capacity in our meetings with the Cubans at Havana. As such, I did not "represent the FCC" as you state, but rather I represented the U. S. and, therefore, not only the FCC and other government departments, but all U. S. interests, including those of the broadcasting industry and the listening public.

For a chairman, or for a delegate, to take any other view or to have a more limited perspective, would not be in accord with the purposes of his office or be consistent with his duties. . . .

Basis for Letter

Judge Miller's letter which inspired Comr. Hyde's reply was one written in response to a State Dept. invitation to send a representative to the Extraordinary Administrative Radio Conference which is scheduled to open at the Hague, Netherlands, Sept. 1.

Although copies of it were not immediately released, it was presumed to refer to NAB's present policies on extent of NAB participation in international conferences, past experiences in this connection, and the prospect of a re-examination of policies at the next NAB board meeting, scheduled June 20-22.

The Hague Conference, envisioned under the 1947 Atlantic City Convention, is being held to approve the new international fre-

quency lists which have been prepared since the Atlantic City conference. These lists involve assignments to stations below 27 mc, but discussion of assignments within the broadcast band is not anticipated since, under the Atlantic City Convention, these would be worked out by special regional agreement, as through NARBA.

The NARBA conference, which broke up last winter over U.S.-Cuban allocations differences which have not yet been resolved, is now slated to resume in Washington on Sept. 6 [BROADCASTING, May 15].

Carnation Milk Adds

CARNATION Milk Co's *Carnation Family Party*, audience participation program now on CBS Pacific Network, will be heard on the entire network facilities beginning Saturday, July 1, 10-10:30 a.m., EDT. Erwin Wasey & Co., Los Angeles, is the agency.

WILLIAM LEMKE

N. D. Congressman Dies

FUNERAL services were held Friday in Fargo, N. D., for Rep. William Lemke (R-N. D.), 71, veteran member of Congress, radio critic, and perennial advocate of legislation to return a portion of the 50 mc band to FM. He succumbed from a heart ailment last Tuesday.

A one-time Union Party candidate for the Presidency in 1936, Rep. Lemke came to Congress in 1933 and had served continuously with the exception of one term (1941-42). He was seeking his ninth term this fall.

A member of the House Public Lands Committee, Rep. Lemke was actively interested in FM radio, as well as Zenith Radio Corp.'s Phonevision. He sponsored legislation in the 79th, 80th and the present Congress designed to restore part of the 50 mc band to FM. The House Interstate & For-

eign Commerce Committee held hearings in April 1948 on a measure to augment FM's present 88-108 mc band with a segment of the 50 mc sector. A similar bill is currently before the group with little hope of passage.

Mr. Lemke was born in Albany, Minn., Aug. 13, 1878. He is survived by his widow, two sons and a daughter.

Radio-TV for Flamingo

RADIO and television as well as other media will be used to promote Flamingo, a new frozen orange juice, scheduled to be launched this month, it was announced in New York last week by Douglas Leigh, creator of Broadway displays and operator of a giant advertising dirigible. The product will be financed, distributed and advertised by Leigh Foods Inc. Radio-TV campaign is slated to begin July 4 in the New York market, first distribution point.

Censorship Gamble

THAT BILL to restrict the interstate transmission of "gambling" information gets better as it goes along.

The first version, written by the Justice Dept., would have prohibited the transmission of virtually any sort of information that could be construed as "assisting" gambling activities, and added a special penalty for radio in the form of a time-lag before the results of horse races could be carried.

FCC couldn't go along with so far-reaching a ban, the policing of which, incidentally, would have been an FCC responsibility. So the Commission came up with its own version, a more direct and fairer approach which would simply have banned the transmission of data on bets, odds, and prices paid in gambling on sports events.

Now the Senate Interstate and Foreign Commerce Committee has approved a compromise [BROADCASTING, May 29; also see story this issue] which seems to cut even the FCC's proposed restrictions at least in half.

The substitute's definition of "gambling information" is more inclusive. But it has the substantial merit of applying only up to the moment when the event starts. After that, the information is, "news." Further, the prohibitions relate only to horse and dog races, not to other sports events.

Let us not be too much carried away by the improvements, however. The odor of censorship still clings. We find it especially hard to understand how information which is legitimate "news" at one moment can be forbidden at another. Censorship exists or it doesn't; it is not a matter of degree.

We do not mean to discredit the work of Sen. E. W. McFarland (D-Ariz.) and his commerce subcommittee which drafted the framework of the substitute bill. We can appreciate their interest in curbing gambling syndicates. But we still think a full-scale investigation is needed first—of the sort which Sen. Estes Kefauver (D-Tenn.) currently is undertaking—and that, in the long run, the answer is in more industrious application of local laws.

Radio should be grateful to Sen. McFarland and his group for their efforts to eliminate the earlier bill's discrimination against broadcasting and its inroads on free speech. It seems to us that they have been as successful on this score as they could be without abandoning this legislative approach altogether.

Which brings us to our point.

EMBATTLED FCC Comr. Robert F. Jones, in his address before the Ohio Assn. of Broadcasters, appears to have opened a new front in the regulatory war. He attacks "multiple interest" operators—those who are in fields other than sound radio per se. If the original radio regulatory body had held this view, there would be no broadcasting art today, because all of the first generation stations were started by "multiple interest" operators who risked their capital. If carried to the extreme, Mr. Jones' precept would lead to a ban on joint ownership of sound and TV facilities and thus torpedo development of the radio arts. Comr. Jones should make it crystal clear that he harbors no such confiscatory notions.

BAB's Birthright

ASK ANY peddler for newspapers, magazines, outdoor or sky-writing about Broadcast Advertising Bureau, and it's 15 to 2 he'll tell you that Mitch's outfit has been a thorn in his side for years.

BAB was just a year old last week. It is probably the only organization in sales history that started full blown. It moved so fast it got buffeted about in its own slipstream.

Maurice B. Mitchell has been the perfect man for the job—one that was thought insuperable. Young, fast and facile, his stamina has amazed those who have observed his super-sonic sales operation. The activity of BAB after one year was recounted in these pages last week.

With a modest budget of about \$200,000, BAB has exerted such influence and stimulated such sales force that the newspaper industry's rival organization, the Bureau of Advertising, already has begun to wince. The Bureau of Advertising, it is well to point out, is blessed with a budget more than five times that of BAB.

It is a dismal but inescapable fact that broadcasters too often have undersold their wares. What BAB has done to correct that condition, from where we sit, is worth every penny subscribers have paid. The question soon will arise whether BAB should cut loose from the NAB's apron strings and shift for itself. Such a separation would appear to be in order if the NAB board decrees a "federation" formation, whereby broadcasters would pay a blanket membership to NAB, but would pay-as-they-use for other services. Such a federation approach seems to be indicated.

Whether it's BAB within or outside the NAB, we wish it many happy returns, which indubitably would be translated into happy returns for broadcasters and telecasters.

Happy Ending

OUT IN ST. LOUIS, where they take their freedoms seriously, a battle has been raging for months over transit radio. The principals have been the *Post-Dispatch* (KSD and KSD-TV), which has been vehemently opposed to radio on street cars and busses, and the *Star-Times* (KXOK and KXOK-FM) which has the Transit Radio franchise.

The going has been as hot and heavy as any in modern journalism. Editorial writers brandished phrases and parried rapier thrusts in the fashion of Mark Hanna and 'Marse' Watterson. Top cartoonists had a field day.

Last Thursday the *Post-Dispatch* announced the results of an extensive and expensive survey by St. Louis U. It showed that 75% of 23,500 passengers polled, favored Transit Radio; 15% were against and 10% had no opinion. Almost all the young people liked it.

Forgetting the invective of the campaign, the *P-D* did that which is in the best journalist tradition. It pointed out that the 15% opposition can appeal its case to the Missouri Public Service Commission, charging "invasion of privacy," a theory that was rejected on the same day by Judge Edward A. Tamm in Washington, who dismissed three suits brought to block WWDC's Transit Radio in the nation's capital. But the *P-D* recognized the will of the people, as expressed in the survey it underwrote.

"At this point," concluded the *P-D* editorial, "the eyes seem to have it."

The cue is there for all others. They should remember that all advertising is designed to be "captive," else it fails its mission. And they should recognize that every new medium has been accommodated.

Our Respects To—

ABEL ALAN SCHECHTER

A. SCHECHTER, whose notable achievements in radio newscasts range from an exclusive description of the scuttling of the *Graf Spee* to an international contest for singing mice, last week was busy reinforcing Mutual's claims that it broadcasts "more news, more often, in more sponsored time than any other network."

Despite the rigors of overseeing the fullest network news schedule in the business and riding herd on such special events as the Indianapolis auto race, Mr. Schechter found the week languid, not to say dull. Without a disaster, war, famine or other cataclysm, the week for Mr. Schechter passed in *ennui*.

The MBS vice president in charge of news, special events and publicity is most at peace when working at a speed just short of disintegration. At moments when the news is only routine, he is morose and restless. At such moments he occasionally is driven to invent occurrences spectacular or bizarre to pique his interest.

Perhaps the most celebrated stunt that Mr. Schechter has conceived in such a moment of tedium was the singing mouse contest he staged while at NBC before the war. It is widely remembered among almost everyone but music lovers.

Mr. Schechter, having noticed a newspaper item reporting that a man had trained a pet mouse to sing, set the entire NBC organization to frantic action. In a matter of days, NBC station network newsmen had ferreted out droves of singing mice. Regional contests of mice talents were held and seven winners competed in the national finals, broadcast, of course, by NBC.

The American winner then was entered in an international competition, a competition involving Canadian and British mice as well as NBC and the British Broadcasting Corp. Among the distinguished judges were the late Walter Damrosch and Deems Taylor.

If it failed to advance musical progress perceptibly, the singing mouse contest did arouse vast public interest. Mr. Schechter today cherishes a page torn from the *Toledo Blade* of the time. A streamer headline across the top announced the singing mouse contest. Down in the middle of the page was a two-column headline reporting that Lily Pons was making her American debut.

Mr. Schechter's record of more sober newscasts is even more impressive than his inventions. One of the most significant exclusives in radio news history was NBC's eyewitness broadcast of the scuttling of the German

RMA CONVENTION

Revamping Plan on Agenda

RADIO MFRS. ASSN., whose members are shooting toward their first billion-dollar radio-TV production year, open the 26th annual convention today (Monday) at the Stevens Hotel, Chicago, with an agenda featuring plans to reorganize the association.

Three-ply reorganization program will be laid before the association by Raymond C. Cosgrove, RMA president, and J. J. Kahn, Standard Transformer Corp., chairman of the Organization & Services Committee.

RMA members have been scanning the reorganization suggestions as drawn up by Chairman Kahn's committee. This committee will meet Tuesday afternoon to draw up final recommendations.

In essence the committee's suggestions include proposed amendment of the by-laws to provide for a fulltime paid president; changing of the name to Radio & Television Mfrs. Assn. and re-vamping of the dues structures to remove inequalities and raise the maximum dues.

Present dues range from \$100 to \$5,000 a year. Under the proposed revision the maximum would be raised to \$10,000 and adjustments made in some of the categories.

Constitutional changes will be submitted to membership vote. If the plan for a paid president is approved, selection of the person to fill the job will be up to the new board along with election of other association officers. The Kahn committee is expected to draw up recommendations for the board at its Tuesday meeting.

Report Set

This committee will make its first report Wednesday, submitting it to the retiring board. Association members will meet by divisions Thursday morning to vote on by-laws changes, with chairmen of each division casting board votes after the Thursday luncheon on the basis of division balloting.

Most of the four-day agenda consists of committee and division sessions covering specialized problems. Membership luncheon and the industry banquet are scheduled Thursday. FCC Chairman Wayne Coy will be the speaker at the dinner. Presiding will be Leslie F. Muter, Muter Co., chairman of the Banquet & Convention Committee.

Since many of RMA's members are keying their production programs around television, interest in Chairman Coy's speech will be high though he has stated his views on color TV and allocations many times during discussions of the Commission's freeze. When the freeze is lifted, the industry expects to attain production heights far beyond the 1949 factory sales of \$875 million and the 1948 figure of \$750 million.

The convention will be the last in which Bond Geddes, RMA ex-

ecutive vice president, general manager and secretary, will participate as an active officer. Mr. Geddes retires Aug. 1 and will serve the association on a consulting basis under a retirement plan based on his 23 years of service.

Should a paid president be named, RMA may elect a chairman of the board as honorary head of the association. It will consider, also, the problem of staffing the Washington headquarters and appointment of a general manager or similar executive will be considered.

The reorganization project developed at RMA's April board meeting in Ste. Adele, Quebec [BROADCASTING, April 24, May 1]. At that time word leaked out that the Kahn committee had interviewed Lt. Gen. Lucius B. Clay in connection with the paid presidency, which carries a proposed \$50,000 annual salary.

Among official reports to be submitted during the four-day meeting will be that of President Cosgrove on the color television discussions. Max F. Balcom, Sylvania

Electric Products, will report as chairman of the RMA Television Committee. Dr. W. R. G. Baker, General Electric Co., will report as chairman of the National Television Systems Committee which has made detailed studies on color, allocations and other phases of TV development.

Request for Funds

Two industry groups will submit requests for promotional funds. The Phonograph Industry Committee plans a drive to exploit products in that field. The Sales Promotion Committee of the Amplifier & Sound Equipment Division is anxious to develop sales in that field, including school and industry equipment as well as home intercommunication equipment.

RMA's program opens today at 10 a.m. with a series of section and committee meetings. Similar schedule is planned Tuesday and as many as nine committees will be meeting simultaneously. Thirteen different groups will meet Wednesday morning and the retiring RMA board will meet Wednes-

day at 2 p.m. with President Cosgrove presiding.

Annual membership meetings of the five RMA divisions will be held Thursday morning followed by the membership luncheon. Presiding at the luncheon will be President Cosgrove and Executive Vice President Geddes. Mr. Cosgrove will give his annual report. Mr. Muter, RMA treasurer, will give the annual financial report followed by the report of Chairman Kahn's reorganization committee.

The new RMA board meets at 3 p.m. Thursday. Fourteen new members, who will be elected during the convention, will take office at that time. The board also will take up the whole reorganization problem, including personnel.

Members of Chairman Kahn's key reorganization committee include Messrs. Muter, Baker and Balcom; G. M. Gardner, Wells-Gardner & Co.; W. J. Barkley, Collins Radio Co.; R. E. Carlson, Tung-Sol Lamp Works; A. D. Plamondon, Indiana Steel Products Co.; A. Liberman, Talk-A-Phone Co.; Benjamin Abrams, Emerson Radio & Phonograph Corp.; Paul V. Galvin, Motorola Inc.; Fred R. Lack, Western Electric Co.; W. A. MacDonald, Hazeltine Electronics Corp.

GAMBLING BILL Compromise Awaits Senate Action

COMPROMISE version of legislation to prohibit broadcasts and telecasts of gambling" information prior to horse races but permitting coverage of the actual event was marking time on the Senate calendar last week following approval of the less stringent measure by the Senate Interstate & Foreign Commerce Committee [BROADCASTING, May 29].

Meanwhile, there was speculation that the bill (S 3358), reported to the Senate May 26, may run afoul of a jurisdictional dispute involving the Senate Judiciary Committee, which originally proposed a sweeping crime probe under Sen. Estes

Kefauver (D-Tenn.). His five-man group is preparing to launch a broader full-dress inquiry.

It was reported that Sen. Pat McCarran (D-Nev.), chairman of the Senate group, may attempt to have the measure referred to his committee for close scrutiny. Sen. McCarran could not be reached for comment Thursday, but had not officially pressed for action on the Senate floor.

He was understood to have objected to the Commerce-reported bill on grounds that it involves criminal statutes and hence penalties would be enforced by the Justice Dept. rather than FCC. An-

other factor reportedly was that Sen. McCarran felt "states' rights" are involved.

In any event, authorities felt there is little likelihood the bill would be taken up this week in view of other pressing Senate business. When the calendar might be called was a matter of speculation.

The bill reported by the Senate Interstate Commerce Committee, following three weeks' of hearings [BROADCASTING, May 8, 1] and study by its communications subcommittee, headed by Sen. Ernest W. McFarland (D-Ariz.), was adopted as a compromise between the Justice Dept. bill and the FCC plan, which would have banned transmission of data on odds, etc. during, after and before a horse race.

Given Specific Definition

It defines gambling information more specifically and would permit transmission of such data during and after horse and dog races on the ground that the information would then constitute "news." Measure specifically encompasses wire services and stations, covering the leasing of communications facilities, and the broadcast of such information. Maximum penalties would be a year's imprisonment and a \$1,000 fine.

Sen. McFarland, in a statement accompanying the subcommittee's recommended bill to the full committee, noted that the Justice Dept. measure (S 3358), would have permitted widespread dissemination of

(Continued on page 77)

PAUSING at entrance to the convention hall at the U. of North Carolina in Chapel Hill, during the May 22-23 meeting of the North Carolina Assn. of Broadcasters [BROADCASTING, May 29], are (l to r): Cecil Hoskins, manager, WWNC Asheville; Jack Younts, manager, WEEB Southern Pines and secretary-treasurer of NCAB; Robert Wallace, manager, WOHS Shelby, NCAB president, and Earle Gluck, manager, WSOC Charlotte and vice president, NCAB.

**Here's What They Say
 About SRDS Consumer Markets**

From the President of a Minneapolis Agency:

"We are putting it to work in preparing at least two recommended schedules."

From a Middle Western National Advertiser (Heating Equipment):

"Very helpful in administration of our current newspaper program."

From the Vice-President of a Radio Network:

"I am enclosing a tabulation from your book which is highly illuminating."

From the Media Director of a Northwestern Agency:

"We found Consumer Markets just the thing in helping plan campaigns."

From the President of a Southern Advertising Agency:

"Have used it to actually close opinions on new sales ventures."

navy's pride, the *Graf Spee*, in Montevideo harbor, in 1940.

Mr. Schechter arranged an exclusive on the event by the simple device of tying up the only radio circuit from Montevideo and hiring every English-speaking person in the city. The principal correspondent on the scene, also hired for the occasion, bought a small lighthouse with a commanding view and from it was able to describe the demise of the German raider when her crew scuttled her in the harbor.

Born in 1907

Abel Alan Schechter was born in Central Falls, R. I., Aug. 10, 1907, attended public schools there and then entered Boston U. He had decided to become a newspaperman. Displaying even then an alarming aptitude for keeping busy, he enrolled as a full-time student in the university's school of journalism, and to avoid the awful prospect of an idle moment, took a full-time job as a reporter on the *Providence Journal*.

He commuted from Providence to Boston, arriving at school for early morning classes and returning to Providence in time to start his daily trick at 6 P.M.

In four years he was graduated not only from Boston U. but also from the *Providence Journal*. He moved to Newark, N. J. and joined the *Newark Star-Eagle* as a reporter.

Within a few months he had what he had wanted all along—a job on

a New York paper, specifically *The World*. Three years later, when *The World* was sold, he joined the Associated Press as night city editor in New York, and a few months later went to International News Service as city editor.

In 1932 he joined NBC as copy editor in the press department. Three years later the press-radio war flared up; press associations denied their services to radio, and Mr. Schechter was assigned to the NBC news department with the somewhat taxing mission of single-handedly covering the news of the entire world.

The task of competing with the giant news gathering resources of press associations and metropolitan newspapers drove the energetic Mr. Schechter to a state of sheer happiness. By keeping up a steady torrent of telephone communications with news sources over the four instruments at his desk and stooping to occasional larceny while riffling through late editions of the press, Mr. Schechter collected such volumes of news that at times he was even ahead of the press.

Press-Radio War Recalled

In his book, *I Live on Air*, published in 1940 by F. A. Stokes Co., Mr. Schechter recalled incidents of this press-radio war.

In 1936 he became NBC director of news and special events. In the next few years, before he went into first the Office of War Information and later the Army, Mr. Schechter kept occupied with the increasing tempo of international news and the approach of war. NBC in that

period scored a number of outstanding news beats under his direction.

In 1941, after Pearl Harbor, Mr. Schechter drew up the first draft of a radio censorship code for the Office of Censorship. A few months later he acted as civilian consultant to the War Dept. Bureau of Public Relations. In the spring of 1942 he took a leave from NBC and joined the OWI as special assistant to Gardner Cowles, then chief of domestic operations.

After serving in that capacity for several months he became a captain in the U. S. Army Air Force as chief of radio public relations. In March 1944 he was assigned to Gen. Douglas MacArthur's command as chief of radio in the GHQ public relations section.

Equips Radio Ship

Upon arriving at Brisbane, Australia, the headquarters of Gen. MacArthur's command, the then Major Schechter was assigned to equip a special ship with voice radio equipment adequate to transmit directly to San Francisco from future beach-heads. What emerged from his labors was the *Apache*, an antique craft that more than made up in electronic knick-knacks what it lacked in nautical architecture. The *Apache* survived two contested landings at Leyte and Luzon as well as numerous bombing raids with never a serious disruption in her radio service.

In June 1945 Mr. Schechter was decorated with the Legion of Merit by Gen. MacArthur for operating the complicated radio communications during the Philippines campaign. He was relieved from the Army as a lieutenant colonel that month and returned to the U. S.

In July 1945 he joined Mutual as vice president in charge of news and special events.

At Mutual he has kept up his usual pace. One of the first newscast exclusives he arranged was a direct report from the Manila courtroom of the Judge reading the verdict in the trial of the Japanese General Yamashita.

He set a precedent, quickly followed by the other leading networks, in selling Mutual's coverage of the 1948 presidential election returns to a sponsor, Curtis Publishing Co.

Mr. Schechter is married to the former Fritzi Breger, whom he wed in 1940. He belongs to the National Press Club, the Dutch Treat Club, The Players and to Sigma Delta Chi.

Harter Heads Ad Club

BOB HARTER, WHO Des Moines, was elected president of the Advertising Club of Des Moines at the organization's annual election meeting May 23 at the Fort Des Moines Hotel. Also elected was John Schweiker, sales and promotion member of WHO, as vice president in charge of publicity.

STERLING TERM

Set for Airing June 14

FCC COMR. George Sterling's re-nomination to the Commission for a full seven-year term, effective July 1, has been slated for consideration by the Senate Interstate & Foreign Commerce Committee at its next regular meeting June 14, Chairman Ed C. Johnson (D-Col.) announced last Monday.

Comr. Sterling will be invited to express his views to the committee, which also plans to act on the nomination of Martin Hutchinson to Federal Trade Commission. Whether the committee will act quickly on Comr. Sterling's re-nomination, sent to Congress May 26 by Mr. Truman [BROADCASTING, May 29], will depend on the tack taken by committee members.

In any event, Senate approval is confidently expected, though Sen. Johnson already has indicated a hearing will be held. It was believed the hearing might consume one day at most. On the other hand, the committee may report favorably on Comr. Sterling after executive session June 14. Committee approval generally is tantamount to Senate confirmation.

Sen. Charles W. Tobey (R-N. H.), leading questioner in Comr. E. M. Webster's confirmation hearing last year, said last week he had not given the Sterling re-nomination much thought. It was believed, however, he would pursue color TV phases. Sen. Johnson already had indicated he may have "some questions to ask" but preferred to await the Commissioner's appearance.

Comr. Sterling is known to have FCC Chairman Wayne Coy's endorsement for reappointment to the post which he assumed Jan. 2, 1948. His present term expires June 30. Additionally, the committee, chief watchdog of FCC, may be expected to weigh Comr. Sterling's engineering background in view of the Commission's study of the highly technical color TV question. He is one of FCC's two engineer-members.

Mr. Hutchinson would succeed the late Erwin Davis for a full seven-year term as member of FTC.

Upcoming

because they are not attorneys and overruled Mr. Wasilewski's request for extra time to present two opposite viewpoints. Mr. Wasilewski summarized the Markham and Sellers prepared statements for the record. The statements themselves were filed with the secretary's office for the information of the Commission.

Mr. Markham noted that 146 of the pending TV applicants hold an NAB AM or FM membership and that all but two of NAB's 37 TV members operate AM or FM or both. TV licenses have gone well beyond FCC's minimum program requirements, he said, in contending FCC should not restrict separate aural and visual broadcast to an experimental or test basis.

In time, he said, integrated use of aural and visual transmissions will completely occupy all assigned frequencies during desirable hours. He argued music is more useful than a single tone as test-pattern background. The FCC interpretation would ban such service.

Mr. Markham favored any use of TV facilities in non-program time which would speed the sale and facilitate the maintenance of TV sets. Several segments of the TV industry benefit from aural entertainment with test patterns, he contended. The transition period for joint AM-FM-TV operators is difficult, he pointed out, and he denied recorded music or AM-FM programs with a test pattern disrupts the radio audience. "Each should fend for itself," he argued.

FCC Not Concerned

FCC was not concerned over FM's effect on AM when it licensed FM stations, he said, and should not be concerned about TV's impact on existing operations. The time is not yet ripe to spell out in detail what is or is not in the best interest of the public or the industry, and any such regulation is premature, he contended.

Mr. Sellers argued in favor of the FCC's proposed restriction, pointing out that one TV channel could accommodate 30 FM broadcast channels. After noting the existing "headache" over AM-FM duplication, he said, "How much bigger headache is 'triplification'."

Mr. Sellers foresaw not only the tendency of TV stations to duplicate AM and FM broadcasts but also the origination of aural broadcasts within a visual signal, contending this would be an improper and uneconomic use of the spectrum space allocated TV. Moreover, he said, it would place broadcasters without TV in unfair competition with operators of TV, AM and FM services.

He said unintegrated service would bring use of TV hours for a non-visual service during hours that might be spent in developing local TV programming. TV is deprived of its greatest asset—sight—in nonintegrated programs, he argued. The single audio tone is highly satisfactory for set servicing, he said.

NIELSEN RATINGS *

IBEW-CBS TALKS

INTERNATIONAL office of the International Brotherhood of Electrical Workers (IBEW) in Washington was still undecided late Thursday as to whether it would recommend acceptance of a new contract offer made by CBS the previous week for broadcast engineers or issue a strike call.

From May 22 through 28, CBS management met with IBEW officials at closed day and night sessions in St. Louis to negotiate terms of a new IBEW-Network contract to replace the one which expired May 26. Final outcome was an offer from CBS for wage increases at all seven stations affected in Boston, St. Louis, Chicago, Minneapolis, San Francisco, Los Angeles and New York. A blanket raise was offered two groups—New York and Los Angeles in one, and Chicago, Boston, St. Louis and Minneapolis in the other.

KCBS San Francisco received separate consideration because it has only 5 kw instead of 50 kw as do other CBS key stations, and also is the newest station under CBS ownership [BROADCASTING, Feb. 21, 1949].

Working Conditions

Although the amount of salary increase was received favorably by union representatives, they rejected terms of working conditions. Main dispute throughout the week was reported to be the union's demand for a single standard of employment throughout the network, with a few allowances for local variances, and network's insistence on conditional terms contingent on offer of the raises. Union claims CBS demands too many concessions in each locality.

IBEW filed official notice for federal mediation with the National Labor Relations Board May 1, giving the required 30-day notice. This expired May 30, leaving the international office free to call a strike if it wishes.

St. Louis was selected as a meeting place after two weeks of preliminary talks because of its central location. Among those attending from CBS were Howard Hausman, chief attorney, Vice President Frank Falknor and Chief En-

Union Undecided On Terms

gineer Henry Grossman. Station men present were Ken Craig, assistant to H. Leslie Atlans, CBS Central Division vice president at WBBM Chicago; Arthur Hull Hayes, vice president and general manager of KCBS San Francisco; Erwin H. Shomo, general manager of KNOX St. Louis, and Harold E. Fellows, general manager of WEEI Boston. IBEW was represented by Lawson Wimberly, chief of the broadcast engineers division of IBEW, and Freeman Hurd of the international office, in addition to men from locals in each of the seven cities affected.

International headquarters called at the meeting.

WKRT SALE

Price Totals \$100,000

WKRT Cortland, N. Y., a 1 kw independent, was sold last week by Cortland Broadcasting Co. Inc. to Radio Cortland Inc., whose principals are Leighton and Robert M. Hope, at a price of \$100,000. The sale is subject to FCC approval.

Gerald Mayer, president and general manager of Cortland Broadcasting Co., reportedly sold the station to devote full time to his law firm, Mayer, Rigby & Ryan, which has offices in Cortland and in Washington, D. C. Mr. Mayer was principal stockholder in the station.

Leighton Hope is a former officer of the National City Bank of San Juan. His brother, Robert, is former general manager of WWWB Jasper, Ala., and has served with WCOS Columbia, S. C., WSFA Montgomery, Ala., and WOR New York. The sale of the station, 1 kw day 500 w night on 920 kc, was handled by Blackburn Hamilton.

FIRST in the QUAD CITIES

In Davenport, Rock Island, Moline and East Moline is the richest concentration of diversified industry between Chicago, Minneapolis, St. Louis and Omaha. The Quad Cities are the trading center for a prosperous two-state agricultural area. Retail sales, total buying and per capita income rate higher than the national average, according to Sales Management.

WOC-AM 5,000 W. 1420 Kc. • WOC-FM 47 Kw. 103.7 Mc.

WOC delivers this rich market to NBC Network, national spot and local advertisers . . . with 70 to 100% BMB penetration in the two-county Quad City area . . . 10 to 100% in adjacent counties.

WOC-TV Channel 5
22.9 Kw. Video • 12.5 Kw. Audio

On the Quad Cities' first TV station NBC Network (non-inter-connected), local and film programs reach over 10,000 Quad Cities' sets . . . hundreds more in a 75 air-mile radius.

was down slightly, grossing \$16,785,941 in the first three months of 1950, compared with \$17,003,602 in the like period of 1949.

ABC and MBS both showed losses for March and the first quarter of 1950 in comparison with a year ago. ABC grossed \$3,447,451 this March; \$4,238,845 in March 1949. For the quarter, ABC grossed \$10,184,501 in 1950; \$12,152,424 in 1949. MBS gross for March 1950 was \$1,410,683; for March 1949 it was \$1,775,790. For the first quarter of 1950, MBS gross was \$4,490,974; for that period of 1949 the MBS gross was \$5,329,172.

TRAFFICKING

Argument Set June 19

ORAL ARGUMENT on FCC's proposed new rules against "trafficking in frequencies" was scheduled by the Commission for June 19.

The proposed regulations, announced early this year, would require automatic forfeiture of the construction permit for any station which is sold before program tests commence [BROADCASTING, Jan. 16].

Only exceptions to the forfeiture requirement would be (1) so-called "pro forma" transfers and assignments which do not affect control, and (2) transfer of an AM (or FM) grant along with an FM (or AM) license by the same owner.

WTUX Petition

WTUX Wilmington, Del., petitioned FCC last week to reopen the record in the investigation of its horse race programming to show that the station has discontinued broadcasting of all racing information. Case is pending final decision after an FCC examiner recommended renewal of license despite finding that while programs questioned were not designed to aid illegal gambling they were "subverted to that end" [BROADCASTING, Dec. 26, 1949; Jan. 2].

Bartlett and BBC

EDITOR, BROADCASTING:

I should like to call your attention to some misstatements in your editorial titled "John's Other Bull" [BROADCASTING, May 8].

The "Study of International Broadcasting" offered by Syracuse U. as a part of its travel study section in University College is not under BBC auspices.

I developed the idea and invited Mr. Slate to help with the tour. I asked for his help. I asked the BBC for permission to visit their studios and talk with their personnel. In my judgment, it is unfortunate for your editorial writer to assume that BBC was doing anything more. . . .

As one who has spent about 20 years objectively observing American radio and who believes in the American system, I am somewhat surprised that one of the leading trade journals would, without inquiry or investigation, make charges that are utterly unfounded. This is not a time to add even one small log to the international fire.

Kenneth G. Bartlett
Director, Radio-TV Center
Syracuse U.

[EDITOR'S NOTE: Pleased to know BBC didn't inspire proposed junket, which we understand now has been "postponed" because of inadequate response. We have always admired Dr. Bartlett and his early recognition of the radio media. We feel, however, that he fell for one on this occasion and that his own correspondence indicated that BBC, even if it hadn't inspired project, certainly was not averse to it. We agree this is no time to add "even one small log to the international fire" but we feel as strongly as ever that Britain should keep its government radio philosophy within its own domains.]

for 200,000 Baseball Fans

Never before have baseball fans of Spartanburg and the Piedmont been treated to such a baseball line-up. WORD-WDXY present a double header every day to Carolina listeners whose chief relaxation is baseball.

'Peaches' Games

As in past seasons (it's a dialing habit) WORD-WDXY broadcast every game played by the Spartanburg Peaches (Tri-State League). It's live play-by-play at home and away, every night.

Major League Ball

Big League baseball comes to Spartanburg every afternoon through the Liberty Broadcasting System and WORD-WDXY, featuring the old Scotchman, Gordon McLendon.

AAW JUNE MEET

Highlights Radio Feature

RADIO viewpoint will be a highlight of the Advertising Assn. of the West annual convention to be held June 25-29 at the Ambassador Hotel in Los Angeles. The convention is expected to be the largest in AAW's history.

Sharing a two-session "Court of Advertising at Work" with other media spokesmen, radio members will take part in a review of case histories of current advertising successes. A total of eight successes will be outlined, four at each session, with each medium represented. Speakers have not yet been selected for presentations. Harold J. Meriless, senior vice president of AAW, will moderate.

Featured speakers at the convention already selected include Don Belding, chairman of the executive committee, Foote, Cone & Belding; Paul G. Hoffman, ECA administrator; Frederic R. Gamble, president, American Assn. of Advertising Agencies; Samuel C. Gale, chairman, Advertising Council, and vice president and advertising manager, General Mills Corp.; Herbert H. Kirschner, AAW president.

Taking part in a television panel, entitled "What, Where, When and How," are these Los Angeles TV station executives: Charles Glett, vice president in charge of Don Lee TV (KTSN); Thomas B. McFadden, manager, KNBH; Klaus Landsberg, vice president, Paramount Television Productions, and manager, KTLA; Richard A. Moore, assistant general manager and director of television operations for ABC Western Division; Haan J. Tyler, manager, KFI-TV; Harrison Dunham, general manager, KTTV; Don Fedderson, general manager, KLAC-AM-FM-TV. Martha Gaston Bigelow, account executive, KFOX Long Beach, Calif., will be moderator.

Another feature of the five day session will be the presentation of the Radio Advertising Award for Vancouver Trophy for the best commercial programs and spot announcements.

Hauser's Luck

IF the luck of Carroll R. Hauser, owner-manager of KHUM Eureka (Calif.), ABC affiliate, holds out, he won't have to worry about where his next vacation is coming from. Recently Mr. Hauser won a week's vacation for two at Los Vegas as second prize in an ABC-Richfield Reporter promotion contest. And last year he and his family enjoyed a Caribbean cruise as first prize in an ABC-General Mills contest. He's now looking forward to next year's vacation.

WALT GAINES, formerly of WCPM Middlesboro, Ky., named station manager of WVMJ Biloxi, Miss.

AMON CARTER, president of WBAP Fort Worth, Tex., and **HAROLD HOUGH**, station's director, served as honorary chairman and publicity committee chairman, respectively, of Colonial National Invitation Golf Tournament in Ft. Worth May 24-28.

JACK PARKER, formerly of KCRG Cedar Rapids, Iowa, appointed director of station operations of Saginaw Broadcasting Corp., operator of WSAM-AM-FM Saginaw, Mich., and **WLEW** Bad Axe, Mich. Mr. Parker was incorrectly identified as director of station operations for KCRG Cedar Rapids, Iowa, in MANAGEMENT, May 29.

WILLIAM R. McANDREW, general manager of WRC-AM-FM and WNBW (TV) Washington, has received award for stations' "outstanding service in the entertainment of hospitalized veterans," from Veterans of Foreign Wars.

HARRY K. RENFRO, executive assistant to general manager of KXOK St. Louis, named member of Missouri Peace Officers Assn.

WDRG Hartford, Conn., has received letter from Paul G. Carney, supervisor of New England census, commending station for its "excellent cooperation" during census.

COOK'S TOUR of the Esskay (meat products) plant in Baltimore gives **Kitty Dierken** (2d l) of WAAM (TV) that city, and **Susan Kent** (3d l), WFBR same city, TV and radio "cooks" respectively, an inside view of **William Schulerberg-T. J. Kurlde Co.**'s operations. Miss Dierken conducts WAAM's **Kitty Dierken Shops for You** for which firm has contracted four participations weekly. Miss Kent succeeds **Martha Ross Temple** as chief cook on Esskay's WFBR program, **It's Fun to Cook**. With them at the plant are **Bob Walsh** (l), radio and television director, and **Henry Erck**, vice president, **Van Sant, Dugdale & Co.**, Baltimore (Esskay's agency).

MRS. AMERICA

Most Contracts Complete

RADIO and TV stations will conduct most of the elimination events in the 1950 Mrs. America contest slated for Sept. 10 at Asbury Park, N. J., according to Mrs. America Inc., sponsor of the event.

Radio franchises purchased direct from Mrs. America Inc. include: **KSJO** San Jose, Calif.; **KVOC** Casper, Wyo.; **KTRM** Beaumont, Tex.; **KCLO** Leavenworth, Kan.; **KLVC** Little Rock, Ark.; **WLAQ** Rome, Ga.; **WEAR** Pensacola, Fla.; and **WLIZ** Bridgeport, Conn. Judging is based one half on contestant's beauty and the other half on home-making talent.

Elimination TV franchises are being handled by **World Video Inc.** which reports the signing of **WCAU-TV** Philadelphia, **WEWS** (TV) Cleveland and **KSL-TV** Salt Lake City. TV stations in New York City reportedly are bidding for Greater New York and New Jersey State eliminations fran-

chises, and other video outlets also are being lined up by **World**. Last year, **WJZ-TV** New York sponsored the Greater New York contests and **ABC-TV** telecast the grand finals from Asbury Park.

Re-elect Alice Mooney

ALICE L. MOONEY of Lawrence Everling Inc. was re-elected president of the Philadelphia Club of Advertising Women at its annual business meeting on May 25 at the Poor Richard Club. Other officers elected were: **Jerrie C. Rosenberg**, Lavensor Bureau, first vice president; **Anne LaMott**, Ford Bros., second vice president; **Gladys Mornan**, S. E. Roberts Inc., treasurer; **Marie Kerrigan**, A. Pomerantz & Co., recording secretary, and **Mary Beidler Whitmore**, Accurate Addressing Co., corresponding secretary.

FARM radio scholarship of \$1,000 offered by **WMT** Cedar Rapids to outstanding student at Iowa State College, Ames, awarded to **M. Leon Kline**.

Workers' Earnings Up

AVERAGE weekly earnings of America's 11.6 million production workers reached a record high of \$56.89 in mid-April, according to preliminary estimates released May 25 by the Dept. of Labor's Bureau of Labor Statistics. Average weekly hours in durable goods industries rose to 40.8 and weekly earnings increased to a record high of \$61.04. The length of the workweek rose generally in the machinery manufacturing industries during April although some reductions were reported in the radio and television industries. Weekly earnings in nondurable goods industries dropped to \$52.24 while weekly hours declined to 38.5 in April, according to the report.

FORT INDUSTRY

Executives Hold Meeting

STATION operations, in both AM and TV, were discussed at the regular semi-annual meeting of executives of The Fort Industry Co., held at Key Largo Anglers' Club, Key Largo, Fla., a fortnight ago. Group convened May 14 at the Indian Creek, Fla., home of George B. Storer, company president, and proceeded to Key Largo.

Business sessions were held each morning of the three day meeting. In addition to operational factors, stations' heads reviewed advertising, sales, promotion and programming problems. Meetings were presided over by Lee B. Wailes, vice president in charge of operations. An annual stockholders meeting re-elected Messrs. Storer, Wailes, J. Harold Ryan, senior vice president and treasurer, and John B. Poole, company counsel, as directors. James E. Bailey, vice president, WAGA-AM-TV Atlanta; Richard E. Jones, vice president, WJBK-AM-TV Detroit, and Allen L. Haid, vice president, WMMN Fairmont, W. Va., were added to the board of directors for the coming year. They replaced E. Y. Flanigan, vice president, WSPD-AM-TV Toledo, Ohio; William E. Rine, vice president, WWVA Wheeling, W. Va., and Stanton P. Kettler, vice president, WGBS Miami, Fla.

Also attending sessions were Glenn G. Boundy, chief engineer, Birmingham, Mich.; G. W. Harker, vice president and national sales director, New York; H. A. Steensen, assistant treasurer and comptroller, Toledo; J. Robert Kerns, vice president, WLOK Lima, Ohio; George B. Storer Jr., managing director, WAGA-TV Atlanta; L. C. McAskill, general manager, Miami Beach *Florida Sun*, and C. M. Dailey, general manager, Coral Gables *Riviera Times*.

SCHOOL PROGRAMS

NBC Offers Recorded Series

NBC, in conjunction with the State of Minnesota's Dept. of Education, will make available to schools throughout the country tape-recordings of public service programs at no charge.

The network's public service program, which will be tape recorded by the Minnesota department are: *University of Chicago Round Table*, *American Forum of the Air*, *Living—1950*, and the UN documentary, *America United*. In order to receive these programs, school officials will have to mail a blank reel of magnetic sound tape to the Minnesota Dept. of Education. Catalogues of all available programs will be sent to audiovisual supervisors and school administrators.

FIRST of 10 \$100 scholarships to Carnegie Institute of Technology established by Pittsburgh Ad Club presented to Charles N. Guttendorf. Scholarship are part of club's education program.

Commercial

WARREN CLARK appointed commercial manager of KGHI Little Rock, Ark., replacing DON CORBET, resigned to enter insurance business. KERMIT RICHARDSON replaces Mr. Clark as salesman for station.

STUART MacHARRIE joins WDOK Cleveland as sales manager. He has

Mr. MacHARRIE

been in New York sales office of WLW Cincinnati for past five years. For two years prior to that he was with WJZ New York and ABC Spot Sales, same city. In his new capacity he will be responsible for both local and national sales.

INDEPENDENT METROPOLITAN

SALES appointed exclusive national representative of Metropolitan Network consisting of: WARL Arlington, Va.; WBCC Bethesda-Chevy Chase, Md.; WFX Falls Church, Va.; WGAY Silver Spring, Md., and WPIK Alexandria, Va.

JACK CAHILL, formerly president of W. F. Coleman Co., publishers' representative, opens Jno. J. Cahill &

Assoc., San Francisco, to specialize in TV station representation. Headquarters are in Russ Bldg. Telephone: Sutter 1-6072.

RUSS McELWEE, formerly on staff of WCRS Greenwood, joins sales staff of WIS Columbia, S. C. BILL BOCHMAN, formerly manager of WCOS and WKIX Columbia, also joins WIS sales staff.

R. L. McQUAGE appointed commercial manager of WOBS Jacksonville, Fla.

WXGI Richmond, Va., appoints Independent Metropolitan Sales as its national representative.

HAL WALLACE, formerly with KSFA Nacogdoches, Tex., and KEEB Jacksonville, Tex., joins sales staff of KNUZ Houston, Tex.

Herbert B. Hauser

HERBERT B. HAUSER, 58, research statistician for Lennen & Mitchell, New York, for the past 13 years, died May 28 of a heart ailment at his home in Jamaica, N. Y. Surviving are his widow, Mary Flynn Hauser, director of co-op sales for MBS; three daughters and two sons.

FISHER RESIGNS

To Leave NBC Post in July

STERLING W. FISHER, manager of public affairs and education for NBC, will resign from the network sometime in July to take charge of the Japanese edition of the *Reader's Digest*.

Mr. Fisher

Mr. Fisher, long active in education and journalism, was Far Eastern editor of the *New York Times* and taught English at Kwansai U. in Japan for eight years. He joined CBS as director of education and radio talks in 1937 and in 1942 went with NBC as assistant to the network's public service counselor.

Mrs. Fisher and their son will accompany Mr. Fisher to Japan.

Canadian Probe

A COMMISSION has been appointed by the Canadian Dept. of Labor, Ottawa, to investigate and report on a number of offenses alleged to have been committed by Press News Ltd., Toronto, and its general manager, Charles B. Edwards. Appointment of the commission was made following application of the American Newspaper Guild, recently appointed bargaining agent for the editorial employees of PN, which supplies news to Canadian radio stations.

NEWS EDITORS

Kent U. Meet Set

SECOND annual Conference for Radio News Editors will be held June 17 at Kent U., Kent, Ohio, under auspices of the university. Agenda for the conference was announced last week by Carleton J. Smyth, of the Kent School of Journalism.

Opening the program will be Arthur C. Stringer, NAB special services director, who will discuss progress of legislation giving radio newsmen right to protect news sources. Robert Rogers, of Akron, will discuss basic newsroom needs and Gene Ragle, program director of WCLT Newark, Ohio, will speak on smaller city coverage. Winding up the morning session will be a talk on larger city coverage by Don Brice, program director of WKBN Youngstown, Ohio.

Luncheon Talk

At the noon luncheon Bill Crooks, WFMJ Youngstown, president of the Ohio Assn. of Radio News Editors, will preside. Speaker will be Don De Groot, WWJ Detroit public affairs director, with the topic, "Public Affairs Programming."

Charles Starrett, radio head of the Red Cross, will speak in the afternoon on disaster coverage. Richard Oberlin, WHAS Louisville, and Floyd Weidman, WEWS (TV) Cleveland, will discuss TV news. A panel, "What News Should Do for Sponsor, Station and Listener," will

feature Verne Nolte, WHIZ Zanesville, Ohio, and Robert Dailey, McCann-Erickson, along with a "critical listener." Evening banquet will be held at the Mayflower Hotel, Akron, with Robert T. Mason, WMRN Marion, Ohio, as toastmaster. Speaker will be Elmer Davis, ABC commentator.

Kent is located 10 miles east of Akron. All sessions except luncheon and dinner will be held on the campus in McGilvrey Hall. Conference director is Charles Day, WGAR Cleveland.

Record Law

LEGISLATION prohibiting importation or transportation of "obscene or lewd" records in interstate commerce, under penalty of violation of the U. S. Code, has been signed into law by President Truman. The bill (S 2811), which Congress approved last month, was strongly endorsed by the Justice Dept. and other law-enforcement agencies, and subjects phonograph records to same restrictions now governing motion picture film, pictures and pamphlets. President Truman signed the measure May 27.

ROBERT (Red) SCHMIDT joins staff of WRFD Worthington, Ohio, as associate farm service director.

WILLIAM G. PORTER, previously newsmen at WPTR Albany, N. Y., joins WTAG-AM-FM Worcester, Mass., as member of news staff. He is graduate of NBC-Northwestern Summer Radio Institute, and formerly was associated with WSNY and WGY Schenectady.

DICK KEPLINGER, Seattle freelancer, starts 6 p.m. *Dinner Time Edition of the News* on KJR Seattle. He continues shows on KXA and KOMO, also Seattle.

STEPHEN FENTRISS, writer for WGN-TV Chicago *Newsreel* and graduate student at Northwestern U., has received annual Harrington Memorial award at Medill School of Journalism for outstanding work in radio and television.

ERNST W. GREUP, director of news and program director of WDUK Durham, N. C., resigns to attend Stanford-NBC Summer Institute. He formerly was associated with WKRT-AM-FM Cortland, N. Y., as assistant manager and news director.

ELMER DAVIS, ABC commentator (Mon. through Fri., 7:15 p.m. EDT), presented Bill of Rights Award of American Veterans Committee for press-radio wing because "during 1949 he saw with clarity and reported with vigor the ever-increasing threats to our fundamental freedoms. . ."

BOB TRUERE, news director for WSCS Charleston, S. C., and Barbara Lerner have announced their marriage.

HARRY CAMPBELL, farm director at WBBM Chicago, is the father of a girl, born May 24.

Taped Evidence

TAPE recording of an actual arrest was played back in a Yreka, Calif., court recently as the defendant sat by and heard himself condemned by his own behavior. Violator was cited by highway patrol for faulty driving and drinking. A KSYC Yreka tape machine, set up to obtain material for a traffic safety broadcast, recorded the incident. Judge W. B. Seymour ordered the transcription played to acquaint the court with events of the case and show the defendant the error of his ways. The recording offered its own confirmation when compared with previous testimony, the judge noted.

NARND SESSION

'Sell' Newsroom—Shelley

RADIO NEWSMEN should tell "much more often and effectively" what product a professional newsroom can offer to "build and hold audiences, win good will, and increase prestige for stations," Jack Shelley, president of the National Assn. of Radio News Directors and WHO Des Moines news manager, told the Nebraska Assn. of Radio News Directors May 27.

He said it is imperative that radio newsmen "sell 'em as well as tell 'em" to meet the challenge of a critical period for the broadcast news profession. Mr. Shelley noted increased media competition heightened by television's growth and felt newsmen can make a "mighty realistic argument that radio news presented and prepared in professional fashion . . . pays off"—a theme he said will be explored at NARND's annual convention in Chicago Nov. 16-18. Mr. Shelley also urged establishment of an NARND research bureau to document effectiveness of radio news compared to other media.

CBS-MGM Settlement

DIFFERENCES over motion picture credit on network programs settled by CBS and MGM, allowing studio's talent to resume on network shows. Discord arose nine weeks ago when CBS offered such credit at conclusion of *Suspense* rather than during program. As a result, Actors Cary Grant and Betsy Drake subsequently were yanked from CBS *Lux Theatre*. The ban was lifted after conferences among Harry Ackerman, CBS vice president; Louis K. Sidney, MGM vice president, and Les Peterson, film studio director of radio.

SAN FRANCISCO Music Assn. presented certificate of merit to NBC and KNBC that city for "their contribution to culture in bringing Arturo Toscanini and NBC Symphony to American listeners since 1937."

WNBH TO BUILD

AM-FM Operations Center

CONSTRUCTION will start soon on a new radio center to house present AM and FM facilities of WNBH and WFMR (FM) New Bedford, Mass., which will allow for future TV expansion, according to Basil Brewer, vice president and treasurer, E. Anthony & Sons Inc., stations owner.

The one-story building, which is located in the center of the city's business section, will be modified and a second story added. Offices and studios will occupy the entire second floor—an area more than double the present space. Facilities will be available for three studios, recording studio, newsroom, music library, lobby and viewing space for visitors. Space adjacent to the building has been purchased for eventual TV facilities.

Exterior of the building, Mr. Brewer said, will be made of white cement stucco, black granite, heavy extruded aluminum and plate glass, and an aluminum canopy overhanging the sidewalk. WNBH took the air in May 1921 and WFMR, its FM affiliate, began operations December 1946. Both stations are managed by James M. Patt.

RIVER BOAT TRIP

KWEI Covers Adventure

COVERAGE of what it claims to be the first boat trip down the wild and tortuous Snake River's Hell's Canyon bordering Idaho and Oregon has been arranged by KWEI Weiser, Idaho, according to Don Jones, program director.

Using a specially designed 31-foot boat, Blaine Stubblefield, former Washington correspondent, along with several Weiser businessmen, reporters and newsreel men, will make the trip. Since radio ception and transmission is impossible in the remote wilderness of the more-than-mile-deep gorge, KWEI is sending a tape recorder to capture the adventure in sound, Mr. Jones said.

As a greeting to the people of Lewiston, terminus of the better than 200-mile trip, Mr. Jones prepared a tape recording to be sent by way of Hell's Canyon.

ROY THOMPSON

W 25 years of radio experience and personal participation in his community's projects and services have made Roy Thompson a household word in industrially-rich Altoona. WRTA, the Roy Thompson Station, will assure you a loyal, buying audience throughout the listening hours.

APPEALS COURT Hears Allentown Case Involving FCC

THE U. S. Court of Appeals for the District of Columbia last week heard attorneys for two rival applicants charge—and FCC counsel deny—that the Commission failed to comply with the court's decision in the case.

Attorneys for both Allentown Broadcasting Co. and Easton Publishing Co., competing for 1230 kc with 250 w for almost five years, contended a court decision issued a year ago meant for FCC to decide their case without holding the further hearing which FCC has since scheduled.

But Max Goldman, FCC assistant general counsel, contended the Commission cannot comply with the court's decision—which sent the case back for further findings on relative needs of Allentown and Easton—without further hearing.

FCC's original decision granted the application of Allentown Broadcasting, which is now operating WHOL under that decision pending outcome of the case. On appeal by Easton, the court held that it could not tell, from FCC's findings, why the Commission had concluded that Allentown's need for an additional radio station was greater than Easton's.

Ownership Changes

Attorney Eliot C. Lovett, representing Easton, said FCC had ordered a further hearing "on the excuse" that there had been changes in the ownerships of the corporate applicants. He said the applicants had attempted to bring the record up to date by submitting a stipulation as to changes which occurred after the original 1946 hearing and were willing to stand on the present record, but that FCC insisted upon an entirely new hearing.

Such a procedure, Mr. Lovett claimed, would make it impossible for FCC ever to issue a final decision in any proceeding, because of changes which inevitably occur.

Chief Judge Harold M. Stephens wondered whether this wasn't "a question of administrative convenience" for FCC and Congress to decide.

Mr. Lovett argued that if FCC can use its procedures to get a re-

affirmance of its original decisions, there would be little point in going to court except to have Commission decisions upheld. Judge Stephens interjected that the court is not a "rubber stamp" and that such an insinuation is not warranted.

Donald C. Beelar, counsel for Allentown Broadcasting, urged the court to direct FCC to make supplemental findings on the relative needs of Allentown and Easton on the basis of the record as it stands, and to submit a full statement to the court.

He pointed out that in its order for a further hearing the Commission listed all six issues of the 1946 hearing plus two others designed to cover the questions raised by the court's decision.

Mr. Goldman claimed the present hearing record would be relied upon by the Commission insofar as it is not affected by changes in circumstances since the first hearing was held.

When he stressed the importance of a further hearing in light

Technical

PAUL SHAFFER, chief engineer and assistant manager of WNOF Norfolk, Va., resigns. **HOWARD SHEETS**, formerly with WFTL and WGOR (FM) Ft. Lauderdale, Fla., succeeds Mr. Shaffer as chief engineer.

BOB JONES, formerly NBC Hollywood page, named television studio engineer. Until Oct. 15 he will act as vacation relief engineer.

HOWARD ELLIOTT, **ROBERT JANNEY**, **WARREN PHELPS** and **RUSSELL RENNAKER** are new broadcast technicians at WGN-TV Chicago.

OSCAR D. SHELLEY, new to radio, joins ABC Hollywood as studio and field engineer.

JOHN CAMPION, transmitter engineer at WDRG Hartford, Conn., and **JEAN CHESLEY**, former secretary for station, have announced their marriage.

FRED CHASSEY, member of engineering staff of WFLN (FM) Philadelphia, is the father of a boy, Fred Jr.

FAIRCHILD RECORDING EQUIPMENT Corp., Whitestone, N. Y., announces control track generator which superimposes high frequency signal on non-synchronous 1/4-inch magnetic tape simultaneously with sound track. When played back, track compensates for tape stretch and shrink, maintaining lip-sync between track and film.

HALLICRAFTERS Co. announces that technique of "printing" electronic circuit instead of using wire is now being applied to television receivers for first time through firm's new "dynamic tuner" which uses photographically "printed" circuit.

of ownership changes, Judge James M. Proctor observed that he didn't see how a change in corporate structure would necessarily mean a change in program policies. He also said that at the time of the original hearing FCC had argued it had sufficient evidence, but now takes the opposite position.

Mr. Goldman replied that the court has held that the findings themselves are "inadequate."

The case was heard by Judges Stephens, Proctor, and Wilbur K. Miller.

Meanwhile FCC, acting in the same case, ruled that "generally" it will not permit "substantial changes" in the corporate organizations of applicants involved in pending cases where a court has overturned FCC's decision and remanded it for further proceedings.

The ruling was handed down May 24 in an opinion which permitted Allentown Broadcasting Co. to amend its application to show minority stock changes which already have taken place but denied a proposed transfer of control.

To grant a transfer of control, FCC said, would be equivalent to permitting substitution of an entirely new applicant.

FCC's opinion drew a dissent from Comr. Robert F. Jones, who felt the action should not be taken because FCC's decision, to which he dissented, is currently before the court.

OPERATION FLOOD

KSJB Documents Disaster

A COMPLETE documentary program on the Jamestown, N. D., flood has been presented by KSJB that city. Called *Operation Flood of 1950* and produced and narrated by Hal Kennedy, the program contains highlights of reports made by the news staff at the height of the flood.

During the overflow, the staff reported hour by hour progress of the water and aired special announcements, requests for help, warnings to residents and Red Cross messages. When the waters receded, the news and special events department edited and spliced reels of recording tape in a week's time. Actual voices of Red Cross officials, disaster workers and interviews taped earlier as well as descriptions of the water's rise were integrated. Only a week after the program was produced, KSJB reports, a second flood hit the city sending the news staff into emergency operation again.

To bring the picture of Jamestown's floods to the fore, KSJB presented a documentary color film of the rampaging waters to President Truman during the Chief Executive's North Dakota visit on his cross-country tour. Film was made by Chief Engineer Robert Ridgeway and processed in Hollywood.

additional information for buyers of time

Says one agency Vice-President: "When I'm considering any (spot) advertising, I always read the listings and advertising in Standard Rate & Data for the markets I'm interested in.

"When I go to client conferences, I take Standard Rate with me. It's not unusual for a client to bring up a question about this or that station. I can always turn to Standard Rate and, if there's a good ad that gives me a clear picture of the facility, I can give the client good answers."

Many other buyers of spot time tell us they find the station Service-Ads in SRDS making their job of deciding which stations easier—Service-Ads like KXYZ's illustrated here.

Every month an average of 150 Service-Ads run in SRDS Radio Section

Note to Station Managers: Are you giving buyers of spot time the sort of facts that help them buy? The "Spot Radio Promotion Handbook" covers this subject in detail. Copies available from us at \$1.

ASCAP HIT

Davis Plans Court Action

PETITION to intervene in the ASCAP consent decree will be filed soon by Kenneth Davis, attorney who has filed monopoly charges against BMI, Mr. Davis told BROADCASTING Thursday.

He said he will file on behalf of an ASCAP independent publisher as well as writers, bring the suit in the U. S. District Court, Southern District of New York. He said he will ask the court to take "movie-owned publishers out of ASCAP" on the ground that "60 to 70% of the take goes to 14 of 300 publishers."

Mr. Davis has asked the Federal Trade Commission to investigate BMI on monopoly charges [BROADCASTING, May 29].

BMI SILENT

Weighs Davis' Charges

EXECUTIVES of Broadcast Music Inc. last week reserved comment on the filing of FCC petition and FTC petitions and threatened suits seeking extinction of BMI [BROADCASTING, May 29].

Although BMI officials were known to be studying the charges of Kenneth Davis, attorney, and considering defensive action, none would comment on developments.

Mr. Davis a fortnight ago petitioned the FCC to issue temporary licenses to stations holding BMI stock and urged the FTC to investigate BMI as a monopoly.

HIFAM RENEWAL

Denied By FCC

EXPERIMENTAL high frequency AM station ("HIFAM") KS2XAP Bloomington, Ind., operated by Sarkes Tarzian, was denied renewal of license by FCC last week.

Given a conditional renewal in mid-April, the outlet was operating on 87.75 mc [TELECASTING, April 24]. FCC then ruled the license would expire June 1 and that the station could not operate when WFBM-TV Indianapolis was telecasting on Channel 6 (82-88 mc).

Mr. Tarzian also operates WTTT and WTTV (TV) Bloomington.

AT OHIO Assn. of Broadcasters convention in Columbus, Charles W. Shugert (3d l) of Shell Oil Co., New York, gives additional details on his "prosperity program for radio"—theme of his convention address [BROADCASTING, May 29]. L to r: E. Y. FEATURED speaker, FCC Comr. Robert F. Jones (3d r), chats with members of the OAB at the Columbus meeting. L to r: Sam Sague, WSRG Cleveland; Carl George, WGAR Cleveland; Vernon A. Nolte, WHIZ Zanesville; Comr. Jones; J. Harold Ryan, v.p. and treasurer, Fort Industry Co., Toledo, and R. W. Ferguson, WTRF Bellaire.

TALENT WAR

First Round Places Marx on NBC

HAVING out-bid CBS for Groucho Marx, NBC is continuing its counter raid for talent. Pressure is being placed on Red Skelton, Edgar Bergen and Dinah Shore for radio and television, plus RCA Victor [BROADCASTING, May 22]. Jimmy Durante, several lesser known names and packages also are on the raiding list.

With \$3 million involved, and under an eight-year exclusive capital gains radio-TV contract, the Groucho Marx-John Guedel package *You Bet Your Life* shifts from CBS to NBC in the fall, starting date and time slot to be arranged with the DeSoto Div. of Chrysler Corp., program's sponsor.

Under a contract negotiated by Joseph H. McConnell, NBC president, packagers are to receive \$2 million for the first five years. Next three years are on an option basis, bringing the total contract cost to \$3 million. Some of the payments are to be spread over a 10-year period as a tax convenience, it was said.

In addition to Mr. Marx as comedian-actor, the contract also calls for services of Mr. Guedel as producer-consultant at stipulated

salaries. Between them, they will derive around \$7,000 weekly under the arrangement. No definite date has been set for Mr. Marx's television start.

Mr. McConnell's formal announcement of the deal termed it "one of a series of planned acquisitions of top talent and programs to augment NBC's outstanding line-up on radio and television."

The contract was consummated after months of negotiations when bids were opened at a meeting in Beverly Hills Hotel on May 27. Top executives from both NBC and CBS personally entered the negotiations.

Aside from William S. Paley, CBS board chairman, representing that network were Frank Stanton, president; James Steward, vice president in charge of program packages, and Harry Ackerman, vice president in charge of Hollywood originating network and TV programs.

With Mr. McConnell were Sidney N. Strotz, Western Division vice president, and Manie Sacks, RCA Victor-NBC talent executive. Gummo Marx, business manager, and George Gruskin, radio and

television executives of William Morris Agency and law firm of Beilensen & Rosenthal, handled negotiations for Messrs. Marx and Guedel.

Currently sponsored on CBS by DeSoto-Plymouth Div. of Chrysler Motors Corp., *You Bet Your Life* was recently renewed for 39 weeks on that network starting in the fall. With the shift in networks following summer hiatus, the sponsor will continue when the show resumes on NBC.

Status of Bob Hope remains unchanged. Although he is reported as "in the bag" by NBC no contract actually has been signed, it is understood. He must first get a release from his current radio commitment, which has three years more to go, from Lever Bros. Meanwhile, the CBS offer still is open.

Roberts Joins SSC&B

W. DONALD ROBERTS, former western sales manager of CBS, will join Sullivan, Stauffer, Colwell & Bayles, New York, as vice president on July 1. Mr. Roberts will be in charge of new business.

'LOBBYING'

House Group Seeks Data

RCA and 165 other American business corporations have been asked to furnish the House Select Committee on Lobbying Activities with itemized accounts of expenditures (since Jan. 1, 1947) designed to "influence policy or public opinion on national issues."

Rep. Frank Buchanan (D-Pa.), chairman of the House group, announced last Thursday he had sent questionnaires to the firms in quest of "reliable information as a guide to use in determining whether the Lobbying Act needs improvement."

The questionnaires, mailed to the president of each company, called for detailed breakdowns on such items as cost of maintaining Washington offices, travel expenses, printed material and advertising "dealing with public issues which might be the subject of federal legislative action," as well as contributions to organizations for attempts to "influence, directly or indirectly," passage or defeat of legislation by Congress.

Others on the Buchanan mailing list included such firms as Coca-Cola Co., Eastman Kodak Co., General Electric Co., International Telephone & Telegraph, Procter & Gamble, Standard Oil Co. (N. J., Calif., Ind.), Swift & Co., Liggett & Myers Tobacco Co., R. J. Reynolds Tobacco Co., Western Electric Co., and Westinghouse Electric Co.

SET RADIATION

CAA Cites FM Interference; TV Potential

By LARRY CHRISTOPHER

EXCESSIVE oscillator radiation in FM and TV sets is snowballing into an orgy of nightmares for both the radio industry and government because of serious interference problems—particularly conflict with vital non-broadcast services such as air navigation aids.

After considerable study, TELECASTING last week learned:

● That Civil Aeronautics Administrator D. W. Rentzel has asked FCC Chairman Wayne Coy for immediate action to curb FM receiver radiation affecting CAA's new multi-million dollar VHF omni-directional radio range system (VOR), being installed to blanket the U.S.

● FCC and CAA engineers, now in daily contact on the problem, agree that while no case of interference by TV receiver radiation to air navigation aids is known to have occurred to date, conflict does exist potentially for several TV channels under certain conditions.

● "Scare talk" rumors currently circulating that TV sets now are hurting airport operations in several major cities were disclaimed by CAA experts on basis of above facts.

● Prompt voluntary action by manufacturers to solve the overall set radiation problem is expected to be solicited by FCC Chairman Coy when he speaks this Tuesday night to the Radio Mfrs. Assn. (see story page 34), according to informed sources last weekend. Mounting radiation interference between TV sets, termed "insidious" a fortnight ago by FCC Chief Engineer Curtis B. Plummer before Canadian Mfrs. Assn. [TELECASTING, May 29], is expected to be stressed also.

● A ruling that offending FM and TV sets violate FCC rules prohibiting excessive unlicensed radiation of radio energy might be invoked as an absolute last measure, one Commission source indicated, but FCC is counting on voluntary action at the manufacturing or local level [TELECASTING, May 22]. Such a ruling would put every TV receiver in the country "off the air," it was explained.

CAA Administrator Rentzel's letter to Chairman Coy was based in part on what FCC calls the "guinea pig" interference case, that of interference to CAA's Lafayette, Ind., VOR station on 113.5 mc

caused by radiation from FM sets tuned to WFMU (FM) Crawfordville, Ind. WFMU operates on Class B Channel 275 (102.9 mc) with effective radiated power of 13 kw.

FCC's engineering department has notified all FM set makers that may have receivers distributed in the area to study the problem, report their findings and indicate what actions will be taken to remedy cases of interference if found. FCC last week said RCA, Zenith and Motorola already have completed checks in Indiana but details were not available on the results.

Flight Check Report

CAA's report said a flight check of the Lafayette VOR station had disclosed "very heavy interference" over an area centering on Crawfordville and having a radius of about six miles. Checks showed, according to CAA, the interference was being caused by "the local oscillators of FM entertainment broadcast receivers whose inter-

mediate frequency is 10.7 mc and whose local oscillator frequency is therefore on or near 113.6 mc."

"Over Crawfordville," the CAA report said, "the desired signal from the Lafayette VOR was measured at approximately 50 uv. With the VOR shut down, interference signal levels up to 80 uv were measured in the band of 113.2 to 113.9 mc."

The report named three types of household FM sets which CAA investigators had checked and claimed were "capable of causing harmful interference to the radio-navigation safety service." These were Montgomery Ward Model 94-HA-1529, RCA Model 8R71 and Bendix Model 95M9U. CAA said this was not a complete list, but merely a list of those examined. The report said more than 500 of the Montgomery Ward sets have been sold in that area.

The investigators' field report, on which CAA's report to FCC was based, stated the WFMU transmitter was checked and no signals in

the 112.6 to 114.5 mc band were present in the output. It said 50 uv/m signals were found on 113.5 mc, however, just outside the transmitter building of the FM station and the source was traced to be one of the above-named Montgomery Ward receivers about a mile away. The field report gave further details of set measurements made in the area.

Possible Interference Areas

CAA's report to the Commission said that from lists of all FM broadcast and VOR stations in the U.S. it had prepared a list of possible localities where interference may be expected to exist. The list identified 42 VOR stations, representing about 10% of the total number of omni-range stations throughout the country. Although spot checks must be made, the report indicated possible interference areas within 50 miles of the VOR station were found in one-quarter of the cases and possible interference (Continued on Telecasting p. 13)

NETWORK BUSINESS

PIB Reports for March

SMOKING MATERIALS—cigarettes, tobaccos and lighters—comprised the most heavily advertised TV network class of product in March, according to figures released last week to TELECASTING by Publishers Information Bureau. Figures cover time purchases of advertisers using the TV networks of ABC, CBS and NBC. DuMont TV Network figures are no longer released to PIB.

Automotive products—Cars, tires and accessories—made up the second largest class of TV users of

time on the three video networks reporting in March. Food and Food Product advertising ranked third; advertising of Radio, TV sets & Musical Instruments was fourth and Toilet Goods advertising fifth among the video network client classes.

The same five product groups, in the same order, led the list for the first quarter of 1950 as well as for the month of March (see Table I for complete list).

Analysis of the March time purchases of individual advertisers on

the three TV networks reporting shows Ford Motor Co. as the leading video network client for the month. R. J. Reynolds Tobacco Co. ranked second, National Dairy Products Co. third, Liggett & Myers Tobacco Co. fourth and RCA fifth. (Top 10 advertisers are listed in Table II.)

Of the three networks, NBC-TV had the largest gross time sales both for the month of March—\$1,177,166—and for the quarter—\$3,197,562. CBS-TV ranked second with gross time sales of \$661,986 in March and \$1,827,941 for the first three months of 1950. ABC-TV was third with \$347,361 in March and \$784,311 for the quarter [BROADCASTING, April 24].

TABLE I
GROSS TV NETWORK BILLINGS BY PRODUCT GROUPS FOR MARCH AND FIRST QUARTER 1950

WFBM-TV

Indianapolis' Only TV Outlet Marks a Year of Progress

STARTING GUN for the greatest sporting event in the automotive world, the Indianapolis Motor Speedway 500 Mile Race, was the signal for the initial telecast of WFBM-TV Indianapolis. At 11 a.m. May 30, 1949, 33 cars were lined up at the speedway, where WFBM-TV had placed three of its new TV cameras in readiness for the first telecast in the history of the classic.

WFBM-TV, which telecast the Memorial Day race again this year, is the only television station in Indianapolis, heart of that thriving midwest market. It is under the able direction of a group of veterans in the broadcasting business, Harry Bitner Jr., general manager; William Kiley, commercial manager; Frank Sharp, program director, and Harold Holland, chief engineer. An active promotion department gives TV sponsors an assist in newspaper advertising, publicity releases and on-the-air promotion.

A great deal of planning and preparation preceded the station's first show. With foresight WFBM Inc., in 1944, instigated a training and construction program to make sure that station personnel would have the know-how to handle TV when it came to Indianapolis. After TV equipment was installed, demonstrations were presented at the Indiana State Fair, the Indianapolis Home Show and for many television distributor and dealer organizations. When the time arrived for commercial telecasting, this pre-training paid dividends.

WFBM-TV's present studio is 22 feet by 30 feet and during the first

year of operation many studio shows have been produced. Three image orthicon cameras are used by the station, each constructed so that it can be utilized as a portable unit for remote pickups. Projection room equipment includes a shadow box and image orthicon pickup, a Projectal and two 16mm projection units with iconoscope film camera.

Assigned channel 6 (82-88 mc), the station operates with 28.2 kw visual power and 18.1 kw aural. The antenna, 468 feet above street level, is actually the highest point in Indiana. A wide "horizon limit" of TV service is thus provided this rich area.

* * *

IN one year of operation the station has jumped from 18 to over 30 hours of telecasting per week, although it is usually dark on Mondays, except when there is a home game of the "Indians" baseball team. The station is a basic affiliate of CBS-TV, with a secondary affiliation with NBC-TV, ABC-TV and the DuMont network. There were nearly 50,000 television sets in the WFBM-TV coverage area on Memorial Day 1950, a notable increase from the estimated 2,500 sets a year ago.

Basic rates for film programs in Class A time (6-11 p.m. Monday through Saturday, 12 noon-11 p.m., Sunday) start at \$220 an hour on a one-time basis. Class A film announcements for one minute or less are \$40 for one time. Studio rates, which apply to all live-talent studio productions, start at \$320 for a one-time, Class A, hour. For one minute or less the Class A, studio

WFBM-TV crew prepare for the 1949 telecasts of the 500 Mile Race at Indianapolis Motor Speedway. (L to r) Paul Roberts; Dick Pittenger, sportscaster; Kelly Robbins, cameraman; Earl Townsend, sportscaster. Camera is atop the paddock across from the pits.

rate is \$56.

First studio show presentation was *Test the Press*, a weekly quiz program featuring a panel of three members of the press, selected by the viewers. Gilbert Forbes, sta-

Mr. BITNER

tion's news editor, is moderator of the show. A chance for the home audience to win a prize is provided by correctly identifying a person shown on a film clip. The prize, a pound of bacon given by Stark & Wetzel Meat Packers, Indianapolis, sponsor of the program, goes to those who mail the first 50 correct answers to the station. One show in November pulled 1,194 cards and letters, the largest mail count to date for a single program on the station.

The Indiana Fur Co., sponsor of the film presentation *Paradise Island*, uses live models to show furs, coats, suits, etc. An effective means of giving the impression of a

* * *

WFBM-TV, with its sister AM operation, will occupy this new building upon its completion by the end of this year.

single unit show was devised by use of a backdrop which matches a predominant background in the film. A switch to the studio is made for the commercial and the models appear to be a part of the film show.

Try It, a program packed with ideas on how to make things, play projects, and hiking and camping suggestions, offers the small fry audience entertainment as well as instruction. It is presented by Herb Sweet, whose syndicated column of the same name appears in 60 newspapers throughout the country.

Outstanding sports event for the Hoosier is the Indiana High School Basketball Tournament. This year 766 teams competed for the title of state champion. Early games and finals are held in the Butler U. fieldhouse, which seats 14,700. Requests for tickets always exceed 250,000. Thanks to WFBM-TV, this year for the first time thousands of Hoosiers were able to see the event. Indicative of the great interest in the games was the sale of 15,000 TV sets in the two months prior to the tourney telecasts. Games were sponsored by RCA Victor distributors and dealers.

* * *

FOLLOWING the 1949 Speedway race, WFBM-TV began telecasting the Indianapolis Indians games sponsored by RCA Victor and Stark & Wetzel Meat Packers. During the first baseball season the cameras were atop the grandstand, but this year they have been moved down to eye level. One of the two cameras used is equipped with a Zoomar lens.

Improvements for telecasting the 500-mile race this year included the use of a new 40-inch lens, the Reflectar. The lens is the invention of Dr. G. F. Back, inventor of the Zoomar lens, and is said to be so powerful that when turned on the pit area, across the track from the camera position, only about one-third of a car can be seen, but in

great detail. A crew of 20 men from WFBM-TV, plus an additional group from the Indiana Bell Telephone Co. to handle the micro-wave relay signal to the transmitter, was required for the telecast.

By January 1, 1951, WFBM Inc. will move to new and larger quarters now under construction. The new buildings will house both the AM and TV units. Two TV studios are included, one to be 30 by 40 feet and the other 40 by 60 feet. On October 1 WFBM-TV will be interconnected by a microwave relay system to bring in the network programs by way of Dayton, Ohio.

TV OVERSOLD

Brooks Tells S. F. Admen

TOM A. BROOKS, vice president and general manager of Hearst Radio Inc., last week told a group of San Francisco advertising executives that television was being over-sold.

"Television is a superior vehicle," Mr. Brooks said, "but it is not a miracle medium."

He foresaw a "definite danger" to both radio and television because of the overemphasis on sales success stories in television. Radio still in many instances "will come up with sales effectiveness that equals television," Mr. Brooks said.

Skillfully operated stations, whether of high or low power, will continue to survive as effective media, he said.

Best Use

It appeared to Mr. Brooks that those advertisers who seemed to have been "getting the most out of television" were those who also used other media. There has been no proof yet, he said, that an advertiser can rely on television alone.

Hearst Radio Inc. is the licensee of both radio and television stations, including WBAL-AM-TV Baltimore, WISN-AM-FM Milwaukee, and is associated with WCAE-AM-FM Pittsburgh.

TV-ELECTRONICS SHOW

Next Fall in N. Y.

PLANS for a National Television and Electronics Exposition to be held Sept. 23-30 in New York's 69th Regiment Armory have been announced by Irving Fromer, director of the exposition. Motorola-N. Y. Inc., distributor for Motorola radio and TV sets, has signed up for large space at the event, Mr. Fromer said.

Basically, the exposition will be a consumers' "TV fair," Mr. Fromer said, where the new TV receivers and associated equipment and accessories will be displayed. In addition to the merchandise exhibits, the exposition will also include a video studio in which daily telecasts will originate and army and navy communications engineers will stage special demonstrations of video devices developed for wartime use.

HITS TV SPORTS BAN

'Star-Telegram' Says SAC Flouts Public

STATUS of gate receipts is not a factor in the question of whether television should be barred from sporting events, according to an editorial blast May 23 by the Fort Worth, Tex., *Star-Telegram*. In reality, the paper claimed, anti-TV action by tax-supported and tax-exempt schools defies the public interest.

The two column barrage by the paper, owner of WBAP-AM-FM-TV Fort Worth, was directed against the Southwest Athletic Conference which announced an anti-telecast policy on May 13. The schools agreed to bar telecasts of Conference football games, unless they were sell-outs or apparent sell-outs, until about 24 hours later. Under the plan, films of games would not be shown until late Sunday night.

Sees No Injury

"We do not believe television would injure gate receipts, but whether it would or not is beside the point," the editorial emphasized. "The point is that the public is entitled to television of football games and what the public is entitled to and wants, it usually gets, in time."

Labeling the Conference action as "short-sighted," the *Star-Telegram* said "actually the real effect of television upon game attendance—not football alone but all principal sports events—already has been investigated rather thoroughly." The results of the Jordan sur-

vey, the paper said, "indicate forcefully that television does not threaten the future of any spectator sport."

Rather than "stand in the way of progress," and putting "amateur athletics on a strictly cold-blooded, commercial basis . . . in utter disregard of the public, whose support has built the colleges and raised their football to its present level," the newspaper called upon the schools to cooperate with TV and devise methods "of getting the greatest possible benefit from it."

BIG TEN

To Set Policy June 20

BIG TEN conference television committee will set TV policies and rules for collegiate basketball, track and football events at a meeting tentatively scheduled for June 20 in Madison, Wis. The three-man committee at that time will also accept or reject an offer of the Ford Dealer Assn., Detroit, for network telecasting of post-game highlights of Big 10 football [BROADCASTING, May 22]. J. Walter Thompson, Chicago, in behalf of the dealers, has sent the offer to Big Ten headquarters in Chicago.

The TV committee includes Douglas R. Mills, athletic director of the U. of Illinois, Ted B. Payseur of Northwestern U. and H. O. Crisler of the U. of Michigan. TV rights and costs for conference were taken up May 25 and 26 in Evanston, Ill., at a Big Ten meeting.

GROUND is broken in Memorial Day ceremonies at the site where WTVR (TV) Richmond will build new TV facilities. Wielding the shovel is Wilbur M. Havens (l), owner of the station, as Harry Jordan, contractor, and James W. Kyle (r), WTVR chief engineer, stand by. WTVR, in its third year of operation, expects to have its modern studios ready for programming in the fall.

SDG Elects Breckner

ROBERT BRECKNER of KTTV (TV) Los Angeles was elected president of the television council of Screen Directors Guild at the annual SDG meeting May 28 in Beverly Hills. Elected to other offices were Seymour Berns of KECA-TV Los Angeles as first vice president; Phillippe De Lacy, KTTV, second vice president; Stuart Phelps, KECA-TV secretary; Malcolm Madden, KTLA-TV Los Angeles, treasurer.

TBA TO EXPAND

Starts Membership Drive

TELEVISION Broadcasters Assn. is launching a nationwide membership drive this week, designed to unite the entire roster of TV broadcasters behind the 10-point program which the TBA board of directors has adopted as TBA's pledge to the industry for 1950.

Announcing the membership campaign today (June 5), TBA President J. R. Poppele pointed out that to accomplish its objectives, which begin with an all-out campaign to end the freeze and include most of the industry's pressing problems, will take the full-hearted support of all TV broadcasters, not just the third of the national total which are now TBA members.

Mr. Poppele noted that many of the present TBA members "were among the first to begin TV operations and are the real pioneers of this truly amazing industry. Whatever TBA has achieved in the past," he declared, "has been for the benefit of all television broadcasters, not just members of the association. The 10-point platform—backed by a pledge of our board of directors—which we have just adopted, is proof enough to all television

broadcasters that we are pointing to 1950 as one of the most important years in our history. This is a job that needs the financial support of every television station in the country; we hope to get that support in our current membership drive."

George B. Storer, president, Fort Industry Co., and Frank M. Russell, NBC vice president, are heading the TBA membership drive, which will include personal calls on all non-member TV stations, Mr. Poppele said. He also revealed that work is under way on a new dues schedule for the organization which will shortly be presented to members as a more equitable way of paying TBA dues.

Sees Need for Action

In its resolution, the TBA board pointed out that the association "concentrating as it does on the interests of television broadcasters" is "cognizant of the pressing need for constructive action to aid the growth and development of television broadcasting." In its awareness "of its responsibilities to the industry" TBA has accordingly

pledged itself to the accomplishment of the following objectives:

1. An end to the "freeze" on the licensing of new television stations as soon as possible to insure the resumption of the licensing process before the end of 1950.

2. The speedy resumption of the FCC hearings with respect to the tariffs covering the interconnection of television stations and the various coaxial cables and radio-relays, looking toward a reduction of rates and increased flexibility of interconnection.

3. The effective aid and assistance by the association to the industry in the negotiation of fair rates for the use of ASCAP music on television programs and in the establishment of scales and working conditions for musicians employed in making film for use in television.

4. Close attention to the responsibilities of the television broadcaster with respect to programming.

5. Strong, intelligent opposition to unwarranted, restrictive regulations, discriminating taxes and ill-considered controls.

6. Completion of the work already started on a recommended form of facilities contract for television broadcasters in cooperation with rep-

(Continued on Telecasting p. 16)

SET SHIPMENTS

RMA Issues New Tabulation

NEW tabulation of television shipments by counties, covering the entire manufacturing industry, was started last week by Radio Mfrs. Assn. The first report provides estimates of TV receiver set sales to dealers for the first quarter of 1950.

The tabulation was worked out by the Industry Statistics Committee of Radio Mfrs. Assn. under Chairman Frank W. Mansfield, Sylvania Electric Products Corp.

Figures are estimates of actual shipments by all manufacturers to dealers in all present TV areas. RMA's own figures are projected on the basis of its members' proportion of entire industry production.

First quarter shipments of 1,556,000, as estimated by RMA, run about 100,000 below the estimated production of more than 1,600,000 TV sets. This is the normal amount by which shipments trail actual factory production.

For the Quarter Ended March 31, 1950

TV SALES POWER

McFadden Reviews NBC Study

SALES effectiveness of television, as shown by a study conducted by Hofstra College and NBC, was reviewed at a Washington luncheon last Wednesday by Robert McFadden, NBC TV research director. Hosts at the luncheon, attended by FCC Chairman Wayne Coy and other Commissioners as well as advertiser and agency officials, were Frank M. Russell, NBC Washington vice president; Edward Madden, assistant to NBC President Joseph H. McConnell, and William R. McAndrew, manager of WRC-AM-FM and WNBW (TV) Washington.

Mr. McFadden used a series of slides to depict results of the Hofstra study, which showed that TV homes buy more TV-advertised brands than non-TV brands [TELECASTING, May 8].

UHF COMMON CARRIERS

Hearings Open

ITS COLOR television hearings finally completed after eight months of sessions, FCC today (Monday) enters a less spectacular phase of its overall TV proceedings—hearings on a proposal to allocate the 470-500 mc section of the UHF television band to common carriers.

The hearings appeared late last week to be destined to proceed on schedule despite television broadcasters' tentative suggestions that they should be postponed. FCC expected them to consume at least the better part of two weeks, as evidenced by its scheduling no further "regular" meetings for other business until June 21-22.

The Commission meanwhile: ● Denied the Chicago City Council's petition for a lifting of the TV freeze [TELECASTING, May 22], declaring that until the issues which precipitated the freeze are resolved its continuance "is the best guarantee against any deterioration in the existing and future television service."

● Refused to extend its color hearing to permit Paramount Television Productions and Chromatic Television Labs to appear

in behalf of the new direct-view tri-color tube which they are jointly developing [TELECASTING, May 29], but left the way open for them to demonstrate it when ready and to file proposed findings in the color case.

The hearing which commences today deals with a proposal of Bell Telephone Labs that the 470-500 mc band—the lower end of the UHF television spectrum—be allocated to multi-channel broadband common carrier radio operation instead of television.

Appearance Order Set

Bell Telephone Labs. spokesmen are slated as the first witnesses. Representatives of other firms will be heard in the following order, according to FCC: U. S. Independent Telephone Assn.; National Mobile Radio System; Mutual Telephone Co.; Philco Corp. and Philco Television Broadcasting Corp.; Television Broadcasters Assn., and Allen B. DuMont Labs.

TBA had entertained ideas of asking for a postponement, on grounds that the common carriers' needs for this space could not be adequately measured against the

needs of telecasters until the UHF allocations proceedings are completed. The association dropped its plan to seek postponement, however, but was still expected to present its point during the hearings.

In rejecting Chicago's bid for a lifting of the VHF freeze, the Commission reiterated that "any crystallization of channel allocation resulting from the authorization and construction of new television stations in Chicago prior to the [allocations] hearing would remove the element of flexibility [in allocations] which is most essential if the Commission is to remain free to adopt an allocation table based on the soundest engineering principles."

FCC rejected the Chicago Council's claims that Chicago is the victim of discrimination since New York and Los Angeles both have seven stations authorized while Chicago has only four. The New York and Los Angeles grants, it was pointed out, were issued 16 to 21 months before the freeze was imposed, whereas some of the Chicago applicants were involved in hearings which could not be completed before the freeze order.

WKZO-TV

*Serving Western Michigan and
Northern Indiana*

IS NOW ON THE AIR!

WKZO-TV, OWNED and operated by Fetzer Broadcasting Company, Kalamazoo, has just made its initial bow to Western Michigan and Northern Indiana . . . playing to some 55,000 existing TV sets, to most of which WKZO-TV presents the clearest picture on the screen.

(A careful check of dealers and distributors showed 61,851 TV sets within 50 miles, 50,909 within 40 miles, as of May 1.)

WKZO-TV is on Channel 3. We pledge ourselves to the same high standards of programming and service that have always been maintained on our two outstanding AM stations, WKZO, Kalamazoo, and WJEF, Grand Rapids. We would welcome an opportunity to send you complete facts.

PHONEVISION

FCC Withholds Action On Chicago Test

ON GROUNDS that Zenith Radio Corp. may have over-promoted its pay-as-you-see development, FCC last week held up action on Zenith's request for an extension of the date on which it was to have started Chicago tests of Phonevision.

The Commission instructed Zenith to file a verified statement on its Phonevision promotion, which FCC feared might "easily" mislead the public into thinking "that Phonevision has been or soon will be adopted by the Commission on a regular basis."

FCC's letter to Zenith asserted that Commr. Eugene F. McDonald Jr., Zenith president, has solicited manufacturers to start building Phonevision decoder outlets into their TV receivers and that advertisements have been run asserting that "Phonevision will soon be here."

This was done, FCC said, despite the Commission's express provision that in connection with the projected Phonevision tests Zenith "shall avoid any action that might create the impression in the mind of any person or persons that Phonevision has been or will be authorized on a regular basis or that the said authorization [for tests] constitutes approval by the Commission of the principle of Phonevision or subscription television."

Claims Letter Not Received

Commr. McDonald meanwhile said that he had not received FCC's letter—which was released by the Commission in Washington on Wednesday—and that he knew nothing about it "except what I have read in the papers."

FCC's letter was in response to Zenith's request that the beginning of the FCC-approved 90-day period for Phonevision tests—which already has expired—be extended from Feb. 8 to Oct. 1. The request was filed April 13.

Meanwhile, Zenith said more than 50,000 requests had been received from Chicago residents seeking to have Phonevision installed in their homes for the test period. A charge of \$1 per program is contemplated during the tests [TELECASTING, Feb. 13].

FCC's letter said it felt that "a serious question is raised as to whether your actions have been consistent with the conditions imposed on your special temporary authorization." It asserted:

... By a letter dated Feb. 10, 1950, Commr. E. F. McDonald, president of your organization, wrote to all RMA manufacturers and to Admiral Corp. and Teletone, the major manufacturers who are not RMA members, encouraging these manufacturers to install Phonevision decoder outlets in receivers manufactured by them by offering them a "contingent credit against future royalties."

The letter stated that when Zenith issues licenses in the future for Phonevision decoder units, it plans to charge royalties of 50¢ for each decoder unit. However, for every set built and sold in 1950, 1951, and 1952 containing decoder outlets, a contingent credit of 25¢ would be set up to

be applied against such future royalty charges. . . .

In order for the manufacturers to take advantage of this offer, however, the "design and connections" of the outlets incorporated into their sets "must conform to necessary standards" imposed by Zenith.

But, FCC said, the order granting permission for the tests made clear that "before a system of Phonevision or subscription television could be authorized on a regular basis, various issues of a serious nature must be determined in a public hearing."

"At such a hearing," FCC said, "the Commission should have the widest possible flexibility in determining the issues in such a proceeding and in promulgating standards for such a system. Your actions, on the contrary, tend to destroy that flexibility by encouraging the mass production of receivers containing Phonevision decoder outlets built in accordance with your present standards."

The letter continued:

Thus, if in the future such a hearing were held on this matter, a great number of sets might already be in the hands of the public and on the market, all containing decoder outlets built to your standards. Furthermore, in the short time since your organization was granted special temporary authorization to conduct the Phonevision tests, various advertisements concerning Zenith television receivers have appeared containing such statements as "Phonevision will soon be here" and "Phonevision exclusive with Zenith."

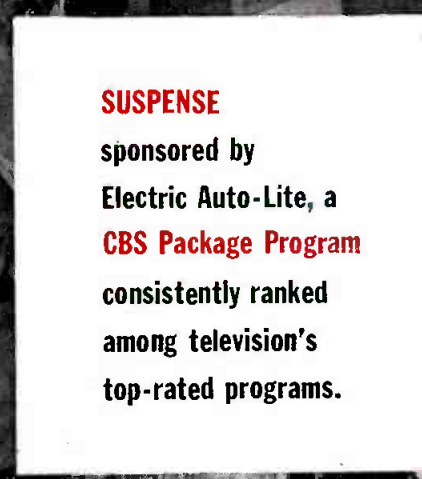

The Commission is of the opinion that the public might be confused as to the true significance of the Phonevision decoder outlets and might easily be misled into believing that Phonevision has been or will soon be adopted by the Commission on a regular basis. . . .

THAT \$ LOOK

WHAM-TV Eyes Anniversary

WHAM-TV Rochester, N. Y. is eyeing its first anniversary next Sunday (June 11) with the pleasant "headache" of being unable to open up program and spot availabilities for clients still waiting to buy WHAM-TV time—and the prospect of a general rate increase slated to take effect July 1.

Rochester's first and only TV outlet, which began operation June 11, 1949, with 11 clients and about 1,200 sets in the area, will boost its Class A hourly rates from \$200 to \$300. At present the station reports it is 90% "sold out" and serves 73 clients in an area boasting over 44,000 set installations. WHAM-TV is a sister outlet of WHAM-AM and WHFM (FM), owned and operated by Stromberg-Carlson Co., with William Fay as manager.

Set Radiation

(Continued from Telecasting p. 8)
ence areas within 100 miles of the VOR station in one-half of the cases.

Spokesmen for CAA last week said that some 300 of the new VOR stations are in operation in the 112-118 mc band. More than 400 are eventually to form a grid pattern across the nation and by 1954 are to have completely replaced the LF four-directional range which has been operating in the 200-400 kc band for about "a generation" and subject to static and other limitations. Unlike the LF range which pilots can fly by "ear" in only four directions, the new VOR range gives dial readings so pilots can fly accurately by "eye" in any direction they choose.

The VOR stations will each contain a distance measuring unit (DME), operating in the 1000-mc area on radar principles, by which pilots can obtain a precise "fix" on their location also. Aural transmissions will be conducted on the VOR sideband so pilots will have frequent weather reports and other data.

CAA related a few scheduled airlines are using VOR stations officially on portions of several routes. Many private flyers and some non-scheduled lines are using the new range extensively and CAA has had numerous queries on the interference problem from this group. CAA said many believe the VOR stations or their own equipment causes the trouble.

Interference Now Localized

Mr. Rentzel, in his initial correspondence with Chairman Coy in early April, stated the "serious radio interference problem" which the CAA and FCC staffs have been discussing "involves a large percentage of the many FM entertainment broadcast receivers already in the hands of the general public." He said that although the problem presently is geographically confined to certain areas, "the service effect is international in scope since the navigational aids involved are the agreed world standard."

In reply, Chairman Coy assured the CAA Administrator FCC "will give its full and active cooperation in this matter to the end that a satisfactory conclusion may be reached."

He said for interim relief "the best solution lies in continuing the coordinated work of the staff whereby the data concerning the stations and the ranges now in operation, new installations which are scheduled, and other factors bearing upon the known details of the problem may be available for use in order to determine what immediate action may be necessary" prior to completion of the extensive overall FCC-industry proceeding on the problems of interference arising from operation of incidental radiation devices.

The long term solution to the VOR interference problem hinges on outcome of this overall proceeding, Chairman Coy indicated. He noted preliminary reports already had been completed by two industry groups, Committee C-63.1 of the American Standards Assn. and Committee R-15 of RMA. The steering committee is headed by E. W. Allen, chief of FCC's Technical Information Division. Further meeting of this group is set June 6.

"Nearly all manufacturers of radio receivers have expressed a

Te-Ve

Drawn for TELECASTING by John Zeigler

"By the way, Dear, when is your mother going home."

willingness to cooperate with these committees and the Commission in solving these troublesome interference problems," Chairman Coy wrote.

In a subsequent letter, however, Mr. Rentzel indicated he hoped "positive action can be taken" in the VOR interference problem "in the immediate future. . . . The urgency . . . is so great that I do not believe it should await the long range overall study of incidental radiation devices in which CAA has been actively participating for over a year."

Television receiver radiation "theoretically" could cause interference to one portion of the CAA's instrument landing system (ILS) used by all scheduled airlines and some non-scheduled lines at 90 of the country's major airports, CAA experts explained. ILS equipment consists of two transmitters. One is the glide-path transmitter which sends a horizontal signal in the 330-mc band fanning out from the end of the runway at about a three-degree angle for some 10 miles. The other, called the "localizer," emits a vertical signal in the 108-112 mc band which intersects the glide-path beam to give the pilot the exact course for hitting the runway.

ILS Problems Cited

The ILS localizer could be interfered with by radiation from a TV set tuned to Channel 6 (82-88 mc), it was explained, if the set's intermediate frequency were in the generally used 21-27 mc area and it was close enough to the airport. CAA experts believe there is not too great an opportunity for such interference to occur since the ILS operation is close range and high intensity. Normal pickup point is about six miles from the runway.

It was pointed out, however, that the ILS localizer is a very primary part of the landing operation and the vertical signal is highly critical. In view of this some observers have indicated that even one isolated case of interference might lead to disastrous

consequences should a plane happen to be riding the ILS at the time.

FCC engineers further explained last week that should TV set makers begin using the newly proposed intermediate frequencies in the 41 to 45 mc area, additional possibility of ILS localizer interference would occur from sets tuned to Channels 2 (54-60 mc) and 3 (60-66 mc).

Some cases of interference to ILS operation in the past have been recorded involving second harmonic radiation by TV broadcast transmitters, but in each case this problem was adjusted promptly by the broadcaster as soon as it was discovered, both CAA and FCC officials stated last week.

CAA admitted part of the trouble also was caused by the use of poorly-shielded war surplus equipment on some planes, which also has been replaced generally.

CAA officials said no interference from broadcast sources has even been known to occur to the 75-mc fan marker navigational aids, sandwiched between TV Channels 4 (66-72 mc) and 5 (78-82 mc).

FILM SYNDICATE

Newspaper TV Outlets Plan

MANAGERS and other top executives from 38 newspaper owned and operated television stations are scheduled to meet in Hollywood June 12-13 to lay final working plans for a proposed television film program syndication setup.

Called by Norman Chandler, president of KTTV Inc., the meeting will be held at KTTV (TV) Los Angeles headquarters.

Invited to the Hollywood meeting are: Charles Thierlot, KRON-TV San Francisco; K. H. Berkeley, WMAL-TV Washington; J. Gorman Walsh, WDAL-TV Wilmington, Del.; George B. Storer Jr., WAGA-TV Atlanta; Frank P. Schreiber, WGN-TV Chicago; Victor J. Sholis, WHAS-TV Louisville, Ky.; Robert D. Swezey, WDSU-TV New Orleans; E. K. Jett, WMAR-TV Baltimore; Richard E. Jones, WJBK-TV and Harry Bannister, WWJ-TV, both Detroit; F. Van Konynenburg, WTCN-TV Minneapolis; Dean Fitzer, WDAF-TV Kansas City, Mo.; George M. Burbach, KSD-TV St. Louis; George S. Johnson, KOB-TV Albuquerque, N. Mex.; C. Robert Thompson, WBEN-TV Buffalo; J. Bennett Larson, WPIX (TV) New York; Harry C. Wilder, WSYR-TV and Paul Adanti, WHEN-TV, both Syracuse.

Complete, modern data on the practical and theoretical aspects of TV engineering

PRACTICAL TELEVISION ENGINEERING

By Scott Helt

Research Division Allen B. DuMont Laboratories—Instructor, Columbia University
700 pages, 6x9, 385 illus., \$7.50

Here, just off the press, is the first book since the war which covers the entire field of Television from the viewpoint of a practical engineer actually employed in the field. Written by one of the industry's pioneers, it provides a sound knowledge of both theory and actual working practice, particularly as related to Television manufacturing and broadcasting.

AN UP-TO-THE MINUTE GUIDE

Starting with the fundamentals of video transmission, PRACTICAL TELEVISION ENGINEERING progresses logically and understandably through every phase of its subject. Far from being a rehash of old and often outmoded material, it brings you up-to-the-minute details of the latest developments, trends, problems, data and engineering know how.

COMPLETE - MODERN - AUTHENTIC

Complete coverage of the following subjects makes PRACTICAL TELEVISION ENGINEERING invaluable for all who are associated in any way with TV research, development, sales engineering, broadcasting, study or instruction:

Fundamentals of Picture Transmission
Cathode-Ray Tubes
Cathode-Ray Oscillographs
Electron Tubes for Image Pickup
Synchronizing Generators—Timing, Shaping and Deflection Circuits
The Video Amplifier and Cathode Follower
Voltage-regulated Power Supplies
Television Receivers
Television Camera Chains
Television Transmitters
Television Broadcasting Techniques

ALTHOUGH television is credited with being superior to either radio or newspapers for presenting news, a majority of TV stations do not have a single staff member devoted exclusively to video news production and the majority of news programs are unsponsored.

These facts are brought out in a report just released covering "News on Television" by Ralph A. Renick, news editor of WTVJ (TV) Miami. The report was supervised by Sydney W. Head, chairman, Radio and Television Dept., U. of Miami, and was carried out under terms of a fellowship of the Kaltenborn Foundation.

Information is based on replies from 71 of the 98 television stations operating on Jan. 9, 1950.

At 75% of the stations replying to the survey, not one staff member was devoted exclusively to television news production. In most cases this job was done by AM news personnel or TV announcers.

The high cost of production was reported by Mr. Renick as "the one problem the newsmen believe must be lowered before TV news can seriously compete with radio news or newspapers."

The slowness with which motion pictures of news events are delivered to non-interconnected stations and to stations doing their own newsreel makeup was cited as the second most important condition the stations believe must be corrected before TV news can come

into its own.

Other aspects that need immediate improvement, according to station operators, are more complete coverage of events by film, more visual material for use in studio shows and capable newscasters who can effectively present news and sustain viewer interest.

"There is no solution to these problems which has the newsmen's unanimous approval," Mr. Renick's report points out, since problems differ at each station. "Network interconnected outlets can depend to an extent upon the network news shows to present national and international news and can concentrate their own efforts in airing local news. Non-interconnected stations have the double duty of providing not only local material but national and international news as well. The local coverage problem is emphasized by this survey. Seventy-four percent of the stations reported that local coverage was the type most lacking in their news programs. Only the largest interconnected stations reported national or international news as being the type most lacking."

Program Types Analyzed

No single format for news presentation received unanimous approval of the stations covered. Following brief outlines of several types of news shows now being presented on various stations, Mr. Renick reported: "The experiences cited

by the majority of the stations indicate that if an outlet has a top-notch personality adjusted to the visual medium who can give news in a pleasant ad lib style, the program will be acceptable to the viewers. The news report can be supplemented with maps, still photos and other visual devices. It is frequently emphasized that one personality must be associated with a news show rather than a series of staff announcers who read the news before the camera as one of their many duties."

Motion Pictures Used

Motion pictures were reported as the chief source of pictorialization used by stations. In the main these were supplied by syndicated picture services although some stations reported using their own cameramen and the work of freelance operators.

The chief source of still photos was reported to be affiliated newspapers and station cameramen.

The high cost of motion picture developing equipment has kept 95% of the stations covered from doing their own work. Facilities for processing still pictures were reported by 20% of the stations.

Since wire services can not provide adequate local news coverage, 47% of the stations covered have their own local reporters and 40% used reporters from affiliated newspapers to gather local news.

For a television news show to be profitable to a station, Mr. Renick reports that the high cost of pro-

duction must be absorbed by the sponsor along with the cost of station time. "Forty-eight percent of the stations reported that they were not showing a profit on their news productions. Sixteen percent were breaking even and only 36% were showing a profit."

Automobile dealers were found to be the leading sponsors of TV news programs throughout the country, based on an analysis of 81 shows. Next in order were appliance dealers, banks and beer companies.

"The majority of news programs, however, were unsponsored," according to the report, "and the majority of stations felt news programs were not as salable as other types of locally produced programs."

Despite the feeling that a news narrator before the camera was too much like AM radio in character for use on TV, 89% of the stations covered reported they use that format. "Over half of the stations reported use of motion pictures, interviews, still photos and a multiscope or similar device to present the news. Fifty percent of the narrators read the news from copy in hand. Next in popularity were reliance on memory and occasionally glancing at copy (44%); and the mounting of copy near the camera (24%). Only 18% reported having newsmen who ad lib the entire show. . . ."

Basic Formats Covered

Information on six basic types of television news programs was presented, including a brief format and information on its effectiveness, cost and commercial value.

In summing up the report, Mr. Renick said: "Television is able to present news stories in a fashion superior to either radio or newspaper. . . . Undoubtedly production costs will be brought down, film coverage of events will be transmitted almost instantaneously to all sections of the country and successful new formats will be devised. Those developments are for the future. Today TV stations need to take stock of their own news operations. The viewer wants to know what is going on in the world, the nation and the community. The station must provide that information."

in the
**Miami Valley's
No. 1 Market**
when you use
WHIO-TV
"Dayton's *FIRST*
Television Station"

• Come in, Mr. National Advertiser, the selling's fine in Dayton and the Miami Valley when you use WHIO-TV. Here's all the proof you need!

69 Local advertisers use WHIO-TV each week. We're televising 166 spot announcements and 32 programs for them each week.

WHIO-TV's local production staff is producing those 32 local programs . . . shows that are making sales and bringing in new customers for their sponsors.

These local programs run the gamut from musical and variety shows to sports, quiz, news, women's programs and kiddies' shows.

WHIO-TV delivers the biggest TV audience in this area to you. All ratings show this. And with over 65,000 sets in the area, it's a big market for you. Viewers prefer WHIO-TV's local shows and top CBS, ABC and DuMont programs. Consistent merchandising promotion on the local level is a plus factor in your favor.

families who answered a query on the effect of television on children's eyes, 291 said they felt TV had no effect.

Mr. Barlow also reported that children in television homes are better behaved—because they might miss their favorite shows if bad—there is a sharp drop in movie going and also a reduction in the demand for baby sitters; housework is finished earlier to free the evening for TV viewing, and the TV set saved money that would be spent for outside entertainment. The possibility of television being used to supplement school work was foreseen by an "overwhelming majority" of the families which expressed an opinion on the subject, the report pointed out.

New Rate Card For WBTV (TV) Charlotte

RATE CARD No. 3, effective July 1, was announced last week by WBTV (TV) Charlotte, N. C.

The new one-time rate for a Class A hour (Mon.-Fri., 6-11 p.m., Sat. and Sun., 12 noon-11 p.m.) becomes \$225. Five minutes of Class A time on a one-time basis will be \$67.50. Announcements (slide or film only) of one minute or less in Class A time start at \$45.

Class B time (all other periods) is set at \$135 for an hour on a one-time basis. For five minutes the charge will be \$40.50. One-time announcements in Class B time become \$27.

The station is owned by Jefferson Standard Broadcasting Co. and is represented nationally by Radio Sales, Radio & TV Representative, CBS.

MUSIC PACTS

Made Pending Agreement

PENDING completion of an industry-wide arrangement for the employment of union musicians in the production of filmed programs for TV use, a few picture producers have made individual deals with the American Federation of Musicians. Gene Autry, cowboy star of radio and the movies, is reported to have made one of the musical picture deals, presumably for use on CBS, which carries all of Mr. Autry's radio shows. Another contract for TV films was made by Snader Telescriptions Corp., West Coast producer.

AFM spokesmen have declined to discuss these contracts but they are understood to call for scale of \$39.90 for a three-hour session per musician, leader getting the customary double fee. This rate of pay is comparable to the scale paid to musicians for work on phonograph records.

The TV film arrangement also calls for the payment of royalties into the union's unemployment fund. For 15-minute and half-hour video film programs the royalty is set at 5% of the evening time charges of each station telecasting the films. For a series of 3½ minute musical shorts, the royalty rate is 5% of the gross income of the film.

The terms set by the union for allowing its members to make films for use of television also are said to include the stipulation that there shall be no dubbing of music from other films or records, all music used in these films being recorded by live musicians employed in the making of these pictures.

The general terms of these agreements are understood not to be acceptable to the industry committee headed by Ernest de la Ossa, NBC personnel director, which includes both TV broadcasters and film producers as members. This group has drafted its own set of conditions covering the employment of AFM members on films for TV use and will attempt to get together with an AFM committee as soon as possible.

TBA to Expand

(Continued from Telecasting p. 5)

representatives of advertising agency and advertiser organizations.

7. Curbing the practice of commercializing television awards.

8. A pledge of assistance by the association to various groups in their efforts to standardize advertising practices with respect to the repair and maintenance of television receivers.

9. Assistance by the association to the Radio Mfrs. Assn., Institute of Radio Engineers, Society of Motion Picture & Television Engineers, American Standards Assn., and representatives of other industry organizations toward standardization of equipment to provide maximum flexibility for the broadcaster in his choice of equipment, reduced operating costs and increased efficiency.

10. Continuation and progressive enlargement of the services rendered by TBA to its membership, advertising agencies, advertisers and governmental bodies through the dissemination of accurate information and statistical data on the growth and expansion of Television broadcasting.

TBA directors who unanimously adopted the 10-point platform and pledged their efforts to its accomplishment include, in addition to Messrs. Storer, Russell and Poppele: Allen B. DuMont, head of the DuMont TV Network; Lawrence W. Lowman, CBS vice president; Richard A. Borel, head of WBNS-TV Columbus, Ohio; Joseph A. MacDonald, ABC vice president and general attorney; Ernest B. Loveman, vice president, Philco Broadcasting Corp.; Paul Rabbourn, president, Paramount Television Productions.

TBA also announced that an eight-page brochure, pointing up the achievements of the organization during its six-year history, will be mailed this week to all TV stations. One section of the booklet will list chronologically a year-by-year, month-by-month account of TBA's efforts to promote the growth of television during this period, which encompasses the transition of television from a laboratory curiosity to a full-fledged national industry.

NAVY Certificate of Award for "outstanding service rendered to the Navy" has been given to WAAM (TV) Baltimore.

TV ONLY JOB HOPE

TELEVISION offers the "only hope" for finding jobs for union musicians to make up for the loss in their employment at radio stations since the passage of the Taft-Hartley and Lea acts, James C. Petrillo, president of the American Federation of Musicians, states in his annual report to the AFM membership. Report will be presented officially today (Monday) to the delegates attending the AFM's 53rd annual convention, June 5-9, in Houston.

"However," the AFM president continues, "There's a big question as to what television is going to mean to the musicians. I again am speaking to you frankly and can give you no encouragement for any employment of musicians in television in the very near future. I cannot give you that assurance because I would only be guessing and this is too serious a matter in which to be guessing."

"I have dealt with many complex matters since I have been a labor leader but the television situation is the most complex that I have yet had to deal with. No one knows what it is going to do to the musicians, or for the musicians. For a period of two years I have been talking to the different employers on the question of making film for television. I am satisfied that eventually all television programs will be made on film just as moving pictures are made today.

Wide Disagreement Cited

"The disagreement among the employers themselves as to what television is going to do is unbelievable. They have so many different ideas and predictions that most of them contradict each other, and after listening to them for a couple of years, I find myself a little confused as to who has the right ideas and predictions. I do not believe they were all telling me the truth. But when you really pin them all down, the answer is the same—they just don't know."

"However, we do know one thing, and that is that television is here to stay."

Radio is not the "only field in which musicians have suffered employment losses," Mr. Petrillo points out. Noting that the drop off in business at cafes, taverns, ballrooms, theatres and other places of amusement has forced many bands to disband and that "conditions in the motion picture industry in Hollywood are so bad that most of the independent producers have gone out of business," he declares: "There is no question that the entertainment business has not been as bad in the United States and Canada since the depression of 1929."

"I am satisfied that more people are staying home today because of television," Mr. Petrillo states. He adds that the 20% amusement tax also has "damaged our business to a great extent."

Mr. Petrillo's report includes a

summary of a survey of the employment of musicians by broadcasting stations in the U. S. and Canada during 1948 which showed:

Grand total of all radio broadcasting employment in the U. S. and Canada.

Staff employment in the U. S.: \$13,416,274.26.

Staff employment in Canada: \$803,661.75.

Network commercial employment in the U. S.: \$7,177,246.19.

Local commercial employment in the U. S.: \$98,079.72.

Local commercial employment in Canada: \$492,478.09.

Local commercial employment in Hawaii: \$1,305.00.

Total: \$22,889,045.01.

"A more exact picture of commercial broadcasting employment can be had," the report explains, "if it is understood that the 4,803 musicians (employed on commercial programs on the four national U. S. networks during 1948) conducted by at least 192 leaders,

Film Report

WEEKLY sports newsreel, *Top Views in Sports*, produced by All-American News Inc. for United Artists-TV release, purchased by Van Dyck Cigar Co. Company will sponsor program over WENR-TV Chicago. Total No. of man appearances (leaders)	4,967
Total No. of hours employment	9,581
Total earned by leaders and men	\$2,199,949.47
Royalties paid to Federation	\$ 61,752.19

NOTE: These earnings are based on flat union scale and do not include royalty payments paid directly to leaders.

The report of the union's auditors shows that for the fiscal year ended April 30, 1950, the recording and transcription fund received \$4,620.49 from recording and transcription companies.

MOVIE-TV FIRM Trio Productions Formed

RADIO and motion picture experience is being combined by the newly formed Trio Motion Picture Productions Inc., with temporary quarters at the Hal Roach Studios in Hollywood, it was announced last week. Firm plans to produce dramatic TV shows on motion picture film using movie technique.

The new company has been formed by Carl Wester, of Carl Wester & Co., radio advertising firm, Canoga Park, Calif., along with Jack Hively, movie director-producer, and Axel Gruenberg, radio and motion picture director-writer. Mr. Wester has been in the advertising business for the past four years as head of Carl Wester & Co. and during the last four months was vice president and director of KPHO-TV Phoenix. He sold his interest in the latter project when a merger of AM and TV facilities took place.

Chamber TV Report

REPORT of the inter-relationship between sports and television, compiled by a subcommittee of the Los Angeles Chamber of Commerce Television Committee, will be presented at the TV Committee's regular meeting today (June 5) in the Chamber of Commerce Bldg., Los Angeles.

"Pat n' Johnny"

PROVE

A

POINT

When it comes to commercial results, WXYZ-TV's "Pat 'n' Johnny" show has proved little short of amazing, ringing up new records for dozens of alert television advertisers. For example, one sold \$21,000 worth of merchandise after just eight announcements. Another increased his sales from 30,000 units weekly to 165,000 after two weeks on the show.

Yes, sir—"Pat 'n' Johnny" have not only opened the eyes of the Detroit TV audience but their purses as well. In the nation's fourth market, they've *proved* that daytime TV can be profitable—and they can make it profitable for YOU.

OWNERSHIP CASES

FCC Sets Hearings for 3

ISSUES in license renewal hearing of WJVA South Bend, Ind., were reported by FCC last week as involving the question whether station ownership has been transferred without Commission approval. Hearing on renewal bid was designated fortnight ago.

Extending the WJVA license on a temporary basis until Sept. 1, the Commission stated it wished to determine who present stockholders are in St. Joseph Valley Broadcasting Co., station licensee, and when and from whom they obtained their holdings. FCC also indicated it wished to investigate whether all details have been properly reported to the Commission. WJVA is assigned 250 w daytime only on 1580 kc.

Meanwhile, FCC also reported it had designated for hearing the applications of two stations seeking changes in facilities in order to investigate their respective ownership situations. These are WMMB Melbourne, Fla., and WRIO Rio Piedras, P. R.

WMMB, licensed to Melbourne Broadcasting Corp., requests change from 250 w daytime on 1050 kc to 250 w day, 100 w night on 1270 kc. FCC set the application for hearing beginning Sept. 6 and indicated it wished to determine if certain alleged stock transfers were properly reported.

WRIO, licensed to The Master Broadcasting Corp., seeks switch from 1 kw day, 500 w night on 1140 kc to 1 kw fulltime on 1320 kc. The bid is set for hearing Oct. 26, FCC said, to obtain full information "as to a certain contract or agreement" between WRIO and Rafael Quinones Vidal dated in February and any other agreements which might exist. FCC indicated it wished to determine if control has been transferred with approval.

ACTIONS OF THE FCC

MAY 26 to JUNE 1

CP-construction permit	ant.-antenna	cond.-conditional
DA-directional antenna	D-day	LS-local sunset
ERP-effective radiated power	N-night	mod.-modification
STL-studio-transmitter link	aur.-aural	trans.-transmitter
synch. amp.-synchronous amplifier	vis.-visual	unl.-unlimited hours
STA-special temporary authorization	CG-conditional grant	

Grants authorizing new stations, changes in facilities, and transfers appear at the end of this department, accompanied by a roundup of new station and transfer applications.

May 29 Decisions . . .

ACTION ON MOTIONS

By Commissioner Walker

The Houston Post Co., Houston, Tex.—Granted dismissal without prejudice of application for TV construction permit.

FCC General Counsel—Granted extension to June 22 to file exceptions to initial decision issued in proceeding upon application for assignment of CP WACA Camden, S. C. and for license.

WSB Atlanta, Ga.—Dismissed as moot petition for reconsideration of Commission's action granting application. WNCA Aiken, S. C.

IRONTON CASE

FCC Questions Trafficking

COMPARATIVE hearing designated on the new station applications of Coston-Tompkins Broadcasting Co., David W. Jeffries, and Glacus G. Merrill, all Ironton, Ohio, heretofore confined to engineering issues, was modified by FCC last week to include a new issue relating to a question of potential trafficking in frequencies.

The Commission, setting the proceeding for hearing beginning Oct. 11, stated it wished to "determine the purposes of the individual partners of Coston-Tompkins Broadcasting Co. in the prosecution of its . . . application and to obtain full information concerning the efforts of one or both of the said partners to dispose of his or their interest in the said application." Partners in the applicant are James Goodrich Coston and Julian Lanier Tompkins.

Earlier in the year it had been reported postcards were circulated, bearing Mr. Coston's name, which stated it was expected the permit for Ironton would soon be issued and it was offered on a first-come first-serve basis for \$1,750 [BROADCASTING, March 20]. Coston-Tompkins seeks 100 w fulltime on 1230 kc. Mr. Jeffries seeks the same assignment while Mr. Merrill seeks 250 w fulltime on 1230 kc.

License for CP
KVCI Chico, Calif.—License for CP to cover changes in existing FM station. WPTF-FM Raleigh, N. C.—License to cover CP new FM station.

Modification of CP
WGST-FM Atlanta, Ga.—Mod. CP new FM station for extension of completion date.

TENDERED FOR FILING

AM—1450 kc
WCLI Corning, N. Y.—Mod. CP AM station to change from 1540 kc 250 w D. to 1450 kc 250 w unl.

AM APPLICATION DISMISSED
Butler, Ala.—J. G. Stelzenmuller Jr. DISMISSED May 24 application for new station on 740 kc 1 kw D.

TV APPLICATIONS RETURNED
WCPO-TV Cincinnati, Ohio — RETURNED application for mod. CP for extension of completion date. Unnecessary.
Lancaster, Pa.—Peoples Bcstg. Co. RETURNED application for new TV station. Non-compliant with Rules.

RMA COMMITTEE

Handles Wage Problem

RADIO MFRS. ASSN. named an overall committee last Monday to handle minimum wage negotiations with the Dept. of Labor. First meeting will be held June 7.

Committee members are Robert C. Sprague Jr., Sprague Electric Co., chairman; Harold W. Butler, Philco Corp.; Harry Houston, Allen B. DuMont Labs.; Robert D. Langdon or Frank E. Highton, General Electric Co.; F. L. McClure, RCA Victor Division; Hyman L. Mohel, Aerovox Corp.; William J. Nolan, Sprague Electric Co.; James G. Parks, Erie Resistor Corp.; Ray L. Triplett, Triplett Electrical Instrument Co.; L. E. Woods, Raytheon Mfg. Co.

ABA Headquarters

STATE headquarters office for the Alabama Broadcasters Assn. was established at the U. of Alabama Thursday, with the university's extension division furnishing office space, equipment and other facilities and services to the broadcasting group. ABA will have the services of LeRoy Bannerman, scriptwriter for the university's radio broadcasting services, one day a week. Bert Bank, ABA president and general manager of WTBC Tuscaloosa, described the arrangement as "the greatest step radio in Alabama has taken in many years," and said the office will work toward development "of the most outstanding system of broadcasting of any state."

FAVORABLE reactions reportedly received by KVRH Salida, Col., following broadcast from narrow gauge train excursion to Monarch and Villa Grove in Rocky Mountain area. When members of Rocky Mountain Railroad Club conducted tour, Frank Allen, KVRH program director, manned mobile unit to give on-the-spot coverage and interviews with participants, including travelers from throughout U. S. and England. According to Mr. Allen and railroad officials, it was first time radio broadcast had ever emanated from narrow gauge train.

'Chimpantics'

SHOW with no rehearsal or script problems given try on WENR-TV Chicago by Gail Compton of Louis G. Cowan Inc., Chicago. Program, seen June 3 at 4 p.m. was made up entirely of "monkey business," with two chimpanzees set loose in room containing mirrors, bananas, jack-in-the-boxes and one lone cameraman. Show may become feature on WENR-TV, with different situations set up in room each week.

Parade Coverage

SPOKANE's lilac festival parade, which drew over 150,000 people, was occasion for live mobile coverage of double-barreled nature by KHQ Spokane, which set up a FM transmitter-and-wagon unit for under \$100 by using surplus war materials. Station originally had planned to enter float in parade as promotion gimmick but decided on mobile unit as double-barreled venture that paid off in both program and promotion value. Announcers Bob Swartz and Birney Blair gave human interest touches and variety to broadcast by using roving microphone to pick up sounds of bands, comments of handleaders, marchers, etc. For stunts

Programs

announcers dropped mike down tuba, interviewed hidden man who drove float and interviewed Indian chief. KHQ had arranged with police department to roam through parade, while marchers were briefed to split and circle unit when approaching. Sixty-five bands representing schools and civic groups were in parade. Plans were arranged by KHQ President Dick Dunning.

WNLK Public Message

EMPHASIZING plight of alcoholics and effort to cure unfortunate, WNLK Norwalk, Conn., instituted on June 1 series of weekly broadcasts in which members of Alcoholics Anonymous will tell their stories to public. Broadcasts are under direction of Rev. Carrie Wilbur Wood and are aired Thursday, 9-9:30 p.m.

Side Show Series

WEEKLY variety show consisting of clowns, jugglers, ballet, light opera and slapstick comedy, and built around sideshow theme, is being offered by WOIC (TV) Washington as new series, Wednesday, 7-7:30 p.m. Titled *The Little Top*, program stars Brooke Johns as barker and Tommy Johnson as pianist. Mr. Johns is oldtime performer of vaudeville entertainment world and appeared during '20's with famous Ziegfeld Follies. Show is produced by James McMurry.

Shut-In's Day

NETWORKS and stations cooperating with Shut-In's Day Assn., Philadelphia, to annually publicize first Sunday of June as National and International Shut-in's Day. Yesterday (June 4) was set aside for occasion to which stations contributed time. Endorsement of program received from such broadcasters as KMYR KPOF Denver, KPFA KYOU Greeley, NBC and others who were slated to air announcements and news commemorating the day.

WWJ-TV 'First'

FOR reportedly first time on public television, general audience was enabled to watch an operation when WWJ-TV Detroit presented *Operation Hospital* direct from Detroit's Harper Hospital. Producer was Walter Koste and writer-narrator Douglas Wright. Script was checked by officials and gave authentic view of operation from its start until patient was wheeled out of operating room. Documentary show was WWJ-TV's contribution to Greater Detroit Hospital Fund drive.

On U. S. Policy

TACKLING question to which everybody would like answer—"Is War Inevitable?"—WMAL Washington starts series of thrice-weekly programs headlining outstanding government and political leaders. Program is heard Monday, Tuesday and Wednesday at 9:45 p.m. Opinion on present U. S. policies will be asked of notables by Bryson Rash, White House correspondent of ABC and special events director, WMAL. Sens. Estes Kefauver (D-Tenn.), member of Senate Armed Services Committee; Margaret Chase Smith (R-Me.), American delegate to UNESCO, and Leverett Saltonstall (R-Mass.), another Armed Services Committee member, were first week's speakers.

Opera in Oklahoma

FIRST glance for many Oklahoma TV viewers behind curtain of opera company was given by WKY-TV Oklahoma City. Station's cameras went "behind-the-scenes" at production of "Carmen" given by Metropolitan Opera Co. in Oklahoma City. Dan Williams, announcer for station, interviewed stage hands and others who had part in production.

Package Shows

NEW-TYPE five-minute package programs being produced for stations by Decker Advertising, Canton, Ohio. *Men of Merit*, designed as public and employ relations show for industry, features story of honor employe of sponsor's company, stressing worker's loyalty and dependability and gains company has made through free enterprise. Background made up of outstanding news and sports events. Other show, *Mercury Magic*, is contest series based on participants' guess of 9 a.m. temperature, plus their pet "gripe." Contestants obtain entry blanks from sponsor's store week prior to broadcasts. Winner receives prize of sponsor's product with grand prize for best average for a month. Programs could be adapted for longer broadcast.

Adelphi College Workshop

STUDENTS at Adelphi College's summer radio and television workshop in New York to produce plays selected from England, France, Germany and Canada, as part of workshop's "International Radio Festival." Workshop, called Center of Creative Arts, will be held from July 5 to Aug. 15. Plays, directed by Flora Rheta Schreiber, radio, TV and theatre arts writer, will be broadcast over national stations. Also offered by Center is Television Idea Development Seminar in which best ideas for TV shows will be marketed by Charles Harrell, TV executive producer.

Family Life Series

SERIES of transcribed radio shows dealing with family life started by WSVS-AM-FM Crewe, Va., in cooperation with Commonwealth of Virginia Dept. of Mental Hygiene and Hospitals and local Jr. Chamber of Commerce. Ten week series, prepared by National

Mental Health Foundation and narrated by Actor Eddie Albert, treats problems in everyday family life. Program heard Friday 6:45 p.m.

Merchandise Demonstration

MODERN methods of slashing materials handling costs were shown public recently by Chuck Truman on *Manhattan Spotlight* show over DuMont TV Network. Invited audience of several hundred industrial and financial leaders formed live audience before which fleet of trucks demonstrated lifting, carrying and stacking of materials in warehouses by pushing buttons. Specific device pointed up on show was Automatic Transportation Co.'s transporter '101' electric truck, secret before show went on air. Program was staged in Sunnyside Garden, New York.

Visit With the Bishop

NEW series, entitled *A Visit With Bishop Wright*, inaugurated over WAAB Worcester, Mass. Show is aired Saturday, 7-7:15 p.m., and features John J. Wright, Bishop of Worcester, in informal conversation from study of his home. Series was originated by Jack Morrissey, program director, and station claims it is first regularly scheduled radio series by any Catholic bishop in country.

Traffic Information

COOPERATION of police departments of District of Columbia, Maryland and Virginia enables WWDC Washington to air essential traffic information about conditions of highways leading into District and surrounding areas. Weekend reports are given at 6:45 p.m. on Friday and Sunday for summer months. Time also has been cleared for airing of important bulletins which may come up between regularly scheduled shows. Programs are supervised by Denis Sartain, news editor, whose staff maintains continuous communication with traffic bureau of Washington and police departments.

Loyalty Discussed

STUDY of loyalty investigations and their implications in this country is subject of *Clear and Present Danger*, special documentary broadcast by ABC tonight (Monday) for one hour on 277 stations. Produced by public affairs department in New York, program was written by Joel Sayre. ABC last week mailed deckle-edged mat paper invitations to industry to hear show. One-fold leaflet featured line drawing of Statue of Liberty.

REPORT on his coverage of Battle of Iwo Jima on ABC's *Gentlemen of the Press* show by Gene Rider, chief engineer of WQAM Miami, has been included in permanent file of Marine Corps Archives.

'VOICE' RECORDINGS

Import Duty Relief Seen

LEGISLATION that would exempt State Dept. Voice of America recordings from duties imposed under the 1930 Tariff Act has been approved by the Senate Finance Committee for consideration by the Senate. A companion bill is pending before the House Ways & Means Committee [BROADCASTING, May 15].

The Senate version (S 3545), sponsored by Sen. Walter F. George (D-Ga.), would effect such an exemption on the grounds that foreign-transcribed recordings are "becoming increasingly valuable" as regular shortwave broadcasts. Bill was introduced at the request of State Dept., while Treasury Dept., U. S. Tariff Commission and the Budget Bureau voiced no objections. The House bill (HR 8514), introduced by Robert L. Doughton (D-N. C.), chairman of the House Ways & Means Committee, is expected to be taken up once the current tax revision study is completed.

Feature of Week

(Continued from page 12)

War of Independence. Mr. Geyer had left Boston during the Revolution to return after the war and sell his property. When the Hovey building (department store purchased several years ago by Jordan Marsh) was erected, the initials were carved on a cap stone over one of the doors as a Gardner memorial.

As the years passed, the sentiment surrounding the incident also faded. It was for Messrs. Piper and Buffum to revive its meaning and to look for ways to preserve this bit of New Englandiana. In their search, they found a lineal descendant—G. Peabody Gardner, vice president and trustee of Gardner Museum on Boston's Fenway. The capstone was offered to the museum keeper but is was learned that the trusteeship prohibited either an addition or subtraction.

They were referred then to the keeper's cousins, Mr. and Mrs. Francis Lowell Gardner of Concord, Mass., who are in the same degree of relationship to SPG. The Concord family accepted custodianship of the stone, linking past with present. The ceremony of transfer was recorded at WEEI for broadcast May 21.

But the story was not over for the station. An early morning Buffum fan, Richard Edwards, vice president of Jordan Marsh and director of the store's advertising, had followed the search for the stone's home. He decided that the *New England Almanac* was the proper radio program for a 10-minute institutional type message every day at 6:35 a.m.

WEEI believes that with the signing of the "Jordan Marsh Observer," it has one of the earliest scheduled institutional programs in radio. And that's making modern history.

'LULU' AWARDS

Radio-TV Get Mentions

FOR the second consecutive year "Lulu" awards for highest achievements of women in advertising were omitted for radio or television categories. Awards were presented by Los Angeles Advertising Women Inc. in cooperation with Advertising Assn. of the West. As was the case last year, no entries in these categories succeeded in fulfilling all necessary requirements of the judges for the highest awards.

Three honorable mentions, however, were presented in these classifications: For radio program series, to Shirley Thomas, vice president of Commodore Productions, Hollywood; television commercials, Isabel Beasley of Wade

THIS is the new studio of KBMN Bozeman, Mont., which was scheduled to go on the air May 22. Building design and engineering were done by G. Norman Pennell, manager, who said equipment was furnished by Graybar and is mostly Western Electric throughout. Owned and operated by Penn Engineering Co., KBMN operates with 250 w on 1230 kc.

Adv., Los Angeles; television program, Betty Mears, KTLA (TV) Hollywood producer.

WNCA PETITION

FCC Asked to Dismiss Permit

WNCA Aiken, S. C., which was denied authority for program tests by FCC a fortnight ago, has petitioned the Commission to dismiss its bid for a license and indicated it is surrendering its construction permit. Owner is Aiken-Augusta Broadcasting Co.

The CP, issued in March 1949 for 1 kw daytime on 1300 kc, was granted modification by the Commission last June to specify 740 kc. FCC gave no reason for denying the program tests. The Commission, however, has designated for hearing a protest by WSB Atlanta on interference grounds and WNCA has been made a party. The hearing has been continued to June 12.

1950 MARKET BOOK

radio's most
authoritative
fact book now in production

There is no single volume so completely designed for the radio buyer. The '50 Marketbook features the copyrighted "Spot Rate Finder," which in minutes figures the entire cost of spot campaigns. It includes every needed 1950 market-fact for fall placements. 16,500 circulation guaranteed.

LOCAL ANNOUNCER

Authors Explain Function

TRAINING THE LOCAL ANNOUNCER. By S. B. Gould and S. A. Dimond. New York: Longmans, Green & Co. Inc. 201 pp. \$2.50.

AUTHORED by two Boston U. school of public relations teachers, *Training the Local Announcer* was written with the thought that most persons entering the radio field begin in the small, local station. In 12 chapters, rounded out with excerpts from various radio scripts showing style and everyday problems of the local announcer, the book lays stress on how the announcer fits into the daily operation of the station.

With emphasis on the practical side of announcing, the authors not only discuss announcers' duties and techniques but also include reference to dramatic narration, special events, news, interviews, various feature-type programs and production. Appendices are made up of a radio terms list and announcer's audition material.

New Tangier Outlet

POWERFUL new Voice of America radio station at Tangier, North Africa, now under construction by the Navy Bureau of Yards and Docks, will be completed by Oct. 1, the Defense Dept. revealed in a statement prepared for release yesterday (Sunday). Its function will be to receive programs broadcast on high frequency originating in the U. S. and rebroadcast them on high frequency to various areas of Europe and the Near East.

Production

FRED HAHL, formerly program director of WLOG Logan, W. Va., and before that with WTOL Toledo, Ohio, appointed production manager of WCKY Cincinnati.

DICK COVEY appointed program director of KRNT Des Moines, Iowa, succeeding **CHARLES MILLER**, resigned. Mr. Covey was Mr. Miller's assistant and head of continuity department of station until January 1950 when he joined KJFJ Webster City, Iowa. He had been with KRNT for eight years. Mr. Miller's future plans have not been announced.

AIMS SESSIONS

Set for Miami June 28-30

CONVENTION of the Assn. of Independent Metropolitan Stations will be held in Miami, Fla., June 28-30 with WMIE as host station, Steve Cisler, WKYW Louisville and AIMS secretary, has announced. Business sessions will consist of roundtables on operating problems, program ideas, sales methods and promotion plans, with each topic to be moderated by a different station manager.

Simultaneously, Mr. Cisler announced that the following stations have joined AIMS: KYA San Francisco; KSON San Diego; WJXN Jackson, Miss.; KCBC Des Moines, Iowa. AIMS' membership presently numbers 34 stations from Honolulu to Miami. Membership is by invitation and is limited to one leading independent in a metropolitan area of 100,000 or more population.

PLANE CRASH

WCBI Is Early on Scene

WHEN a Navy P-80 "Shooting Star" jet airplane crashed near Columbus, Miss., it took less than 10 minutes for WCBI to send its portable equipment to the scene, tape record a description of the crashed plane and interview eye witnesses and Army officials.

General Manager Bob McRaney said the station, also representing the Mid South Network, was on the scene, in a rural area, ahead of ambulances from Columbus. Minutes later the tape recorded broadcast was fed to the Mid South Network's stations and the following evening a portion of the tape was used on the *Mutual Newsreel* over the full facilities of MBS.

Mike duties were handled by Mr. McRaney who also supervised the pickup. Incorporated into the taped broadcast were interviews with Capt. James Ward, former Air Force jet pilot and head of the Columbus recruiting office; members of the Mississippi State Highway Patrol, and residents of the area. The pilot was killed instantly in the crash.

Available!

The Happy Kitchen, one of the Midwest's oldest and best liked women's programs, is conducted by Nancy Goode.

This 9:15 a.m. week-day feature has been on the air for almost 15 years. The program is deftly handled by Nancy Goode, homemaker, mother and active clubwoman. Her recipes, food and household hints are of great interest to KMBC-KFRM listeners. Her April mail averaged more than 250 letters a week!

Fleischmann's Yeast and K. C. Power & Light are current sponsors, but additional participations are now available!

Contact us, or any Free & Peters "Colonel" for details!

COMPETENT DEPENDABLE EXPERIENCED

That's the solid reputation earned by a creative young man presently a network producer-director, but able to handle wider, more challenging responsibilities and anxious to do so. He's now directing an award-winning radio drama, has an active finger in the television production pie. Background includes an excellent writing record and familiarity with the advertising business as a whole. A strong addition to any organization, he'd be a highly valuable assistant to an agency radio-television chief. Present and past employers will back up these claims. Now in Chicago, he prefers moving east, but will stay in Chicago for a sufficiently demanding spot. Personal interview can be arranged in New York or Chicago within two weeks. Box 346F, BROADCASTING.

For Sale

Equipment, etc.

179 foot self-supporting non-insulated Blaw-Knox tower, all new bolts, perfect condition, disassembled ready for immediate shipment. \$1,250.00. Phillips & Son, 124 E. Lachappelle Street, San Antonio 4, Texas. Telephone Fannin 4616.

BACKS BOXING WWCA's Tourney Succeeds

WWCA Gary, Ind., is convinced that a station can promote an amateur boxing tournament as effectively as the local paper. When the Gary newspaper and three local amateur clubs could not see eye to eye in sharing gate receipts of the scheduled 20th annual Golden Gloves Tournament in Gary this year, the station decided it was time to lend a public hand.

With the tournament only a few weeks off, WWCA offered radio time to both sides. The newspaper refused, but coaches and fighters jumped at the opportunity to enter the ring of public opinion. Several days before the tourney was to open, the clubs withdrew their fighters and the tournament was cancelled.

Two months later, WWCA formed a non-profit group with members made up of Dee O. Coe, WWCA general manager and Jim Fitzgerald, account executive; Tony Zale, former middleweight champion and a Catholic Youth Organization boxing instructor; Father Laurence Grothouse, of CYO; officials from the three clubs, and businessmen, to promote the Calument Boxing Championship Tournament. With the avenue of newspaper advertising closed to it, the association promoted by radio spot, placard, and ticket canvassing. Result, reports WWCA, which broadcast the entire two nights (May 9-10) of 38 bouts, was a take of \$2,732 giving a net profit of \$1,500. Each of the clubs received \$250 with the remainder banked by the association which plans "a bigger and better tournament" next year. WWCA netted \$500 from sponsorship of broadcasts, nothing from the actual tournament.

Eastern Major Market Station—\$125,000.00

A well established independent facility with a consistent record of sound development and fine profits. Here is a well operated property that has been meeting TV competition for years and its sales and profits are better than ever. Price of \$125,000.00 is an unusually low ratio to earnings. Financing arranged.

SIMUL-PULSE

Network, Non-Network Listening Compared

IN NEW YORK during the daytime hours, women represent a larger proportion of the audience of network stations than they do of the independent stations—79.3% against 69.2%. Housewives (most but not all of the feminine daytime audience) make up 69% of the network audience but only 55% of the audience of the non-network stations. These facts were revealed May 23 by Robert Hoffman, research director of WOR New York.

Speaking at a radio-television luncheon meeting of American Marketing Assn. at New York's Hotel Shelton, Mr. Hoffman also reported that a greater proportion of the listeners to independent stations are in the lower income brackets than network station listeners—33.1% daytime and 29.3% evening for the non-network stations compared with 26.8% daytime and 24.8% evening for the network outlets.

Network station listeners are mostly over 35 years old, independent station listeners mostly under 35, the daytime percentages being 66.3% for the network stations, and 45.2% for the independents, with the nighttime pattern about the same, he said. In the early evening hours, 69.4% of the network station listeners are married persons, against 55.5% of married listeners to independent stations.

Source of those statistics, Mr. Hoffman said, were two surveys made in the 16-county Metropolitan New York area last November (covering 46,000 homes) and last February (covering 45,000 homes), using a new rating technique, the Simul-Pulse. This method uses house-to-house personal coincidental interviews, the respondents being questioned about the programs on the air at the time of the interviews, which were made between 9 a.m. and 8 p.m. on a Monday-Friday basis.

The interviews were made in homes without telephones as well as those with them and included information about age, sex, income and marital status of the residents as well as about whether a radio or TV set was in use, who

was listening or viewing and to what program and whether more than one set was in use in the household at the time of the interview.

Explaining that the Simul-Pulse surveys were originated by WOR in cooperation with The Pulse Inc., because "we think this is the way to get the answers that time salesmen and timebuyers need and can use," Mr. Hoffman added: "We hope others will join us in making future surveys of this type."

These answers are especially important at this time of high interest in comparative radio-TV audiences, Mr. Hoffman pointed out, noting that "while ratings are basic, they can't be used alone. We've been so busy counting noses we've overlooked listeners as people," he added.

He reported that daytime differences between Simul-Pulse and other ratings are greater than those found at night; from 9 a.m. to 6 p.m. the Hooper was 14.1, Pulse 24.1 and Simul-Pulse 21.5 in November. For the 6-8 p.m. period, Hooper showed 30.1, Pulse 32.2 and Simul-Pulse 30.0. (Hooper data represent an average of Oct.-Nov. and Nov.-Dec. reports, he said.)

Hooper credited television with 34.6% of the audience, Mr. Hoffman said, compared with 16.9% given TV by Pulse and 17.5% by Simul-Pulse. "This type of material leads us to believe that Hooper ratings sell radio short," he stated, adding:

"We have no desire to underestimate TV. We feel that in the future its share of audience will be more than 50% at night. But we don't know when. Neither do we want to undermine the rating services."

O'DANIEL PLANS

Not Eyeing Governorship

FORMER Sen. W. Lee O'Daniel, who used radio for his political rise in Texas, ended the guessing about his possible intentions in the coming gubernatorial race in the state [CLOSED CIRCUIT, April 24] by announcing in a May 28 broadcast that he was not running. Instead, he said, he was setting up an insurance company, to be called the W. Lee O'Daniel Life Insurance Co.

However, he announced plans for a regular radio program on which he would hold forth "to save our Constitutional form of government in Washington from Socialism and Communism." Details of the broadcasts planned were not given. He spoke from his Fort Worth home over WBAP-820 Fort Worth and a number of other stations from the Lone Star Chain.

ROBERT T. CONNER appointed plant manager of Elizabethtown, Ky., plant of Muzak Corp. He formerly was associated with Decca records, and has been in the industry for 32 years.

ASSOCIATED PROGRAM SERVICE sending special program feature built around National Tennis Week (June 24-July 1) to its subscriber stations. Show reviews origin, history and little-known facts about game. Special merchandising material, publicity releases and suggestions for sponsoring tennis match in community accompany program.

Equipment

H. WARD ZIMMER elected executive vice president of Sylvania Electric Products Inc., New York. He has been vice president in charge of operations for past 2½ years. He joined company in 1919.

Mr. Zimmer

GEORGE E. BURENS, manufacturing manager of General Electric Co.'s affiliated manufacturing companies department, named acting general manager of Locke Inc., G-E affiliate in Baltimore. R. G. BELLEZZA, president of Locke, will devote full-time to utilities and industrial marketing activities. CLARENCE H. LINDER, formerly assistant to general manager of General Electric's apparatus department, appointed manager of engineering and acting manager of manufacturing of company's affiliated manufacturing companies department.

JAMES S. KNOWLSON, board chairman and president of Stewart-Warner Corp., re-elected to that post with all other incumbent officers. Cash dividend of 25 cents per share on \$5 par

copy of her mother, who is the office mascot.

In addition Eileen has kept very active in local talent groups ever since she graduated from Iowa State. She played lead for three years with one group and in the last two years she has added radio work, taking part in short drama skits etc.

Modestly enough, Eileen says that her part in radio has been comparatively small "but probably as enthusiastic as someone in a bigger market. Fortunately here in Cedar Rapids we have one of the finest radio stations in the country, WMT. Their network operation is an inspiration to anyone in this field."

Allied Arts

value common stock declared payable July 8 to holders of record June 16.

GLENN E. WEBSTER, former NBC operations supervisor and sales engineer at Collins Radio Co., appointed distribution manager of Scott Radio Labs., Chicago. He organized his own engineering firm in 1948, selling radios, television sets and appliances, after working as sales engineer for Turner Microphone Co.

WILLIAM HUMPHREY DOHERTY, director of electronic and TV research for Bell Telephone Labs., New York, to be awarded honorary degree of Doctor of Science June 7, by Catholic U. of American, Washington.

Rule Amended

RELAXATION of Sec. 1.313 of FCC's rules relating to the installation and removal of broadcast and non-broadcast transmitters was effected by the Commission last week. The rule was amended to provide that application no longer must be made 60 days prior to the date such equipment is to be removed. The requirement for 60 day prior filing of application to install new transmitting apparatus continues.

Miss Elaine Brown
Dancer-Fitzgerald-Sample
New York City

Dear Elaine:

Folks like you is lookin' fer fast towns, aint'cha? Well, yuh can't afford ter overlook Charleston, West Virginia, th' home town wuv WCHS! An item come through on th' AP ticker t'other day comparin' West Virginia business in 1948 with that in 1939, an' y'know what, Elaine! Retail sales in 1948 was more'n one and a quarter billion dollars — more'n three times what they was in 1939! An' wholesale dealin's was nearly four times what they was before th' war! Now that sure is a big increase, an' it jest means one thin', Elaine.

It means the folks livin' within th' reach wuv WCHS is makin' an' spendin' money! An' don't fergit th' WCHS' 5000 watts on 580 makes it th' best salesman fer yuh in this big, expandin' market! Jest tho't I'd let yuh know sosen yuh kin git yore share uv this new business fer yer clients. It shore pays ter use WCHS!

Yrs.
Algy

HENRY GREENFIELD, Mg. Director N.Y. 19

"PERSONALITY promotion" built around the use of caricatures keynoted KDAL Duluth's booth presentation at city's annual Home Show. Theme at booth was slogan, "Duluth's Brightest Stars Shine on KDAL." Over 18,000 visitors watched nationally famous caricaturist, Lenn Redman, in action each afternoon and evening during five-day show. Projector made it possible for crowd out front to view each sketch on large screen in booth. Promotion was carried out by large back-lighted displays of 12 staff personalities done by Mr. Redman. Air personalities worked booth in shifts, and over 6,000 listening guides carrying slogan and displaying photos were handed out at show.

Summer Service News

NEWS modeled in summer clothing offered listeners by WBAL Baltimore. Scheduled to run until Labor Day, broadcasts of one to three minutes long keep residents and non-residents posted on summer activities in Maryland with accent on beach conditions, fishing facilities, traffic problems, weather forecasts, etc. Promotion plan, to stimulate home, auto and portable radio listening, is topped with quarter-hour show, *Summer in Maryland*, Wednesday, 7:30-7:45 p.m., saluting cities, towns and resort areas. All news summaries incorporated into local programs during day.

WFAA-TV Debut Hailed

TWENTY-SIX page supplement of *The Dallas Sunday Morning News* May 21 devoted to start of programming by its TV station, WFAA-TV [TELECASTING, May 29]. Station supplemented KBTV (TV) which was acquired by *News* on March 17. WFAA, AM facility, was tied in with promotion and features. TV section also carried liberal supply of dealer advertisements.

Kansas City Story

POSTCARD promoting "the dynamic story of Kansas City" in the June 1 *Hallmark Playhouse* on CBS mailed by KMBC that city, with suggestion, "Maybe some of your friends would like to listen, too, and hear what's really going on in Kansas City."

Progressive Window

WINDOW display in Boston tied in the place of radio in 50 years of city's progress. Made by WCOP-AM-FM that city, display was composed of pictures of radio 25 years ago. Early WJZ New York transmitter, first studios of KDKA Pittsburgh, first mass produced home receivers and pictures of early control rooms were among those displayed. On other side of window were pictures of WCOP's modern studios and master control

Promotion

room as well as network and WCOP performers.

Official Change

TO publicize moving of *The Ruggles* to new address and to new program time, KECA-TV Los Angeles promotion department sent official government post office change of address cards to television editors and columnists. Lewis Food Co., Los Angeles, sponsors family-type show which stars Charles Ruggles.

Show Move

CAST of *Sunday Down South* show, sponsored by Lion Oil Co., Eldorado, Ark., over WSM Nashville and 25 station Southern network, was recently flown by sponsor to Hot Springs for Arkansas District Rotary Convention. Two DC-3 planes were chartered for "lift" which involved moving some 47 performers, engineers and production men.

Eyes on WFMY

SURREALISTIC drawing of eye enclosing cameraman draws attention to WFMY-TV Greensboro, N. C.'s latest promotional effort. Brochure is titled, "Keep Your Eye on WFMY," and is printed in Kelly green over white. Eight-page booklet includes pictures and information on set sales, TV's advertising impact, types of programs carried and cross-section of advertisers now effectively using station.

Awards to Youth

THREE YOUTHS who have contributed to their communities, and thus helped fight "stigma of juvenile delinquency," were honored May 22 at Popsicle Youth Awards banquet in Chicago's Blackstone Hotel. Chicago event, duplicated in other cities, was sponsored by WLS that city, which broadcast dinner events and presentation of the awards for half-hour following day. Among special guests were Gov. Adlai Stevenson, Mayor Martin Kennelly and James E. Edwards, president of Prairie Farmer-WLS.

Trade Reprint

SHOCKING pink reprint of advertisement which appeared in BROADCASTING, May 29, sent to trade by WBT Char-

lotte, N. C. Bulletin is 42 inches long with drawings of men dressed in suits with WBT written on collars performing services for delighted public. Caption across top proclaims, "WBT delivers a bigger share of audience than any other Hooperated 50,000-watt station in the nation . . . try WBT FOR SIZE!"

Election Success

IMPRESSIVE measure of sponsor pull in election broadcast May 28 over WJHP Jacksonville, Fla., given Duval Motor Co. (Ford dealer) by unusual station request. When final returns were being aired ahead of schedule, Reggie Martin, WJHP general manager, thought up idea of asking listeners to telephone for specific precinct returns in which they were interested. As result, station's switchboard was swamped with calls for an hour.

KSD-TV Explains Why

ADVERTISEMENT placed in St. Louis *Post-Dispatch* by KSD-TV St. Louis explains to viewers reason for kinescoping many of its network programs. According to station, time conflicts arise because KSD endeavors to bring as many programs as possible from the four major TV networks—NBC-TV, CBS-TV, ABC-TV and DuMont—and necessarily some programs are sent over cable at same time. Ad illustrates conflicts by mentioning specific programs and when they are scheduled.

KFH Ark Valley Boys

DESIGNED for counter display and direct mail, two-color folder sent to prospective advertisers and booking agents by KFH Wichita, features the KFH Ark Valley Boys. First fold, die cut around tops of figures, shows band picture. Second fold carries photo of Leader Speedy Fogel with inside fold showing shots of band and Austin Sisters, girl duet who accompany band.

KRNT Baseball Day

BASEBALL Day in Des Moines found KRNT that city parading float downtown with Sports Director Al Couppee announcing afternoon game time and Don Bell, disc jockey, at turntables. Tickets for "Complimentary Radio Box Seat" distributed with station's game broadcast schedule printed on back. At week's luncheon meeting of Des Moines Advertising Club, a ticket, bag of peanuts and Coke were arranged at each plate by station. Station announcements, newspaper ads and placards rounded off promotion.

Rolling Bandwagon

NEW, brightly-painted bandwagon, resembling circus wagon, made its debut at 1950 Tulsa Home Show. Wagon belongs to KTUL Tulsa, and was laden with tape recorders and entertainers while roving aisles of Home Show, visiting booths of more than 100 exhibitors.

Brochure on Adams

BROCHURE with three-minute, seven-inch, 78 rpm record being prepared by KMOX St. Louis to promote Lee Adams of *Housewives Protective League* program. It will contain complete historical breakdown and some testimonials accrued over five years

program has been aired locally. Such facts as Mr. Adams' mail pull—over 100,000 letters a year—and number and type of sponsors will be emphasized, KMOX says. Five hundred brochures being prepared.

Personnel

R. DAVID KIMBLE joins WBBM (CBS) Chicago as sales promotion manager June 12 after working on NBC Central Division promotion staff for three years. He now is promotion manager of WIND Chicago.

MARION ANNEBERG, formerly with MBS New York, joins WDSU-AM-TV New Orleans, as promotion director.

WILLIAM G. WILSON joins public relations staff at WGN Chicago after working at Brown & Bigelow and as publicity director of Redpath Bureau.

SHEY KAPLAN, promotion director for WNOR Norfolk, Va., resigns. Future plans have not been announced.

ORR'S STETSON

Looks Good on K&E's Mills

ROBERT W. ORR Assoc., New York, recently sent to advertisers a miniature Stetson hat, complete with hatbox, along with a card from Bob Orr, president, reading "things are happening in this agency that are just too good to keep under our Stetson. We're putting you on our mailing list to tell you all about them."

The promotion piece backfired slightly, however, when Mr. Orr began to receive phone calls congratulating him upon his new ac-

Orr's Stetson hat, hatbox and card.

count—Stetson hats. The latter account is handled by Kenyon & Eckhardt, New York.

To amend for any hurt feelings Mr. Orr then sent Dwight Mills, president of K&E, a brand new Stetson hat.

Promotes Hoover Report

THE ADVERTISING Council will conduct a national campaign to promote the Hoover Commission's report. J. Walter Thompson, New York, has volunteered to contribute time and talent to prepare material to be used in the campaign.

HENRY L. CROWLEY Co., West Orange, N. J., has developed "Croloy Radio Rod" coil serving as antenna system, both improving reception and saving space, according to firm.

Applicants desire to change from partnership to corporation for more efficient operation. Each partner will receive 50 sh. capital stock, par value \$100. This is equal to each partner's contribution to partnership. KFTV is assigned 250 w fulltime on 1490 kc. Filed June 1.

B-H Moves Office

BLACKBURN-HAMILTON Co.'s Chicago office last week was moved from 333 N. Michigan Ave. to 360 N. Michigan Ave. Office is under direction of Harold R. Murphy, who opened the branch last August and who is in charge of 11 states. Room number is 1102.

Radio's Prospects

(Continued from page 16)

Decrease, but less than 10% (17.7%)

Decrease more than 10% (5.9%)

"Advertisers agreed that more of their numbers will be using radio on a local basis. And the figures are very close to the figures for agencies.

Stations say: "More advertisers will be using radio on a local basis."

Increase more than 10% (56.9%)

Increase, but less than 10% (25.6%)

Remain about the same (11.6%)

Decrease, but less than 10% (4.7%)

Decrease, more than 10% (1.2%)

"Over 56% of the stations said that the number of advertisers using radio on a local basis will increase by more than 10% [BROADCASTING, May 15].

What will be the trend in radio stations' merchandising of sponsors' advertising? (See illustration, page 16.)

	More	Same	Less
Agencies	54%	25%	21%
Advertisers	51.5	36.2	12.3
Stations	56.8	36.9	6.3

What Will Be The Trend in Department Store Advertising?

	More	Same	Less
Agencies	45.7%	17.4%	36.9%
Advertisers	37.6	32.8	29.6
Stations	63.4	26.3	10.3

"The largest potential classification of local advertisers is department stores, which have vastly increased use of radio in several markets. They are the exception, rather than the rule.

"When asked what the trend would be in department store radio advertising, agencies, advertisers and stations all agreed that the trend was towards the use of more, rather than less, radio."

What will be the trend in automotive dealers' radio advertising?

	More	Same	Less
Agencies	41.3%	23.9%	34.8%
Advertisers	44.8	34.5	20.7
Stations	75.6	20.4	4

"Among the advertisers, and incidentally they included two Detroit automotive company ad managers, 44.8% anticipated an increase as against just over 20% that thought there would be a decrease."

What will be the trend in appliance dealers' radio advertising?

	More	Same	Less
Agencies	36.9%	30.4%	32.7%
Advertisers	41.3	24.2	34.5
Stations	67.4	27.4	5.2

"Appliance dealers, in the post-war area, have moved way up to become a leading classification of local radio user. This is particularly true in television markets where the selling of television sets

by home demonstration has called for the purchase of big blocks of time. There is a rather general agreement that this group will not only continue to use radio, but will actually increase in number."

What will be the trend in food store radio advertising?

	More	Same	Less
Agencies	47.8%	23.9%	28.3%
Advertisers	48.3	27.6	24.1
Stations	54	39.7	6.3

"And so it is becoming more and more apparent that advertisers, agencies and stations feel that the local level of radio is going to show substantial increases in the number of advertisers using the medium."

Gambling Bill

(Continued from page 34)

gambling data by newspapers while placing certain restrictions on radio as a medium.

The substitute bill, he explained, works "no hardship on any legitimate newspaper or radio station which may continue to broadcast or publish most of the facts relating to a horse race that they are permitted to do today."

The "distinction," he felt, "is that specialized scratch sheets or radio stations . . . catering to betters or bookies cannot broadcast or publish certain specific information before the race starts." It would not apply to newspapers in states where racing is legal.

Other Sports

With respect to other sports events he stated:

The evidence before the committee indicated clearly that large scale betting takes place throughout the country on many other sporting events and contests, notably baseball. The original bill presented would have classed news relating to such events as prohibited information. The committee felt that to attempt to write a penal statute against such types of news would be not only impractical, but of serious legal validity as well as inviting large scale violations of Federal law. However, we do believe that we should make every attempt to aid local enforcement officers in coping with the betting problem by requiring the fullest public information on all suppliers and users of such information. Therefore, the bill requires communications common carriers to file with the Federal Communications Commission current lists of all lessees of circuits used for the dissemination of all sports news, including horse racing news, and the filing of the names and addresses of all persons who buy such information.

With respect to radio broadcasts, Sen. McFarland said that "all of us felt that one of the serious flaws in the (Justice Dept.) bill was that it discriminated against radio stations, by requiring an hour's delay in the broadcasting of, or the reporting of a horse race.

"We have avoided that discrimination . . . by merely prohibiting the broadcasting or television of certain information immediately prior to a race. That prohibited information has been defined as gambling information, and according to all of the evidence, is not

information which the ordinary listener is interested in. This, in no way, prevents the broadcasting of the progress of a race."

A proposal that special horse race events, such as the Kentucky Derby and others, be exempt from restrictions covering time prior to races was recommended by the subcommittee but dropped by the full committee. The McFarland group had urged that stations and networks be permitted to broadcast two such events a year from each track and be guided in their selection by the "public interest" clause in the Communications Act.

Portions of the new bill as reported to the Senate:

(b) "Gambling information" is information pertaining to any horse or dog racing event or contest and (1) means bets or wagers, the scratches, jockey changes, weights, probable winners, betting odds, or changes in the betting odds, in such event or contest, and (2) is transmitted prior to the transmission of a truthful an-

nouncement that such event or contest has actually started.

(c) "Transmission or reception in interstate or foreign commerce" means transmission or reception directly or indirectly from or to any place in any State to or from any place outside such State, including a ship at sea or in the air. . . .

Sec. 3. (a) It shall be unlawful for any person to lease, furnish, or maintain any communication facility, other than a radio broadcasting facility, if such facility is used to transmit or receive gambling information in interstate or foreign commerce.

(b) It shall be unlawful for any person, by means of a communication facility, other than a radio broadcasting facility, to transmit or receive gambling information in interstate or foreign commerce.

(c) No person shall broadcast any gambling information by means of any radio station for which a license is required by any law of the United States, and no person operating any such station shall knowingly permit the broadcasting of any gambling information. . . .

FOREIGN LANGUAGE PROGRAMS

Regularly Scheduled on 384 U.S. Stations NAB Finds

PROGRAMS are broadcast by 384 U. S. stations in 33 foreign tongues, according to a survey completed last week by Dr. Kenneth H. Baker, NAB research director. The 384 stations were among 1,779 AM and FM stations replying to a questionnaire covering the week of March 19-25.

Dr. Baker explained the list may be incomplete since it's composed only of stations reporting foreign language broadcasting in the survey. The list does not include foreign language lessons broadcast by stations.

Amount of weekly time devoted by stations to foreign tongue programs ranged from one to over 25 hours a week. NAB's study shows the approximate amount of time devoted to such programs as well as days of the week. Results of the study are being mailed to agencies as well as the State Dept., United Nations and transcription producers.

Languages covered in regularly

broadcast programs follow: Albanian, Arabic, Armenian, Bohemian, Chinese, Croatian, Czech, Danish, Finnish, French, Gaelic, German, Greek, Hungarian, Italian, Irish, Japanese, Jewish, Lithuanian, Norwegian, Polish, Portuguese, Rumanian, Russian, Serbian, Slovak, Slovenian, Spanish, Swedish, Syrian, Ukrainian, Yiddish, Yugoslav.

RADIO INCREASE

Seen Among TV Set Owners

RADIO listening is on the increase in homes equipped with TV receiver sets. So declared Dr. Sydney Roslow, director of Pulse Inc., New York radio-television audience research organization, at the Hollywood Ad Club on May 29.

Even when video's top shows are being telecast, radio continues to command a vast audience, he assured the advertisers and agency executives.

NBC-TV RAISES RATES FOR 39 AFFILIATES

NBC has announced rate increases for 39 of its TV affiliates—26 interconnected and 13 non-interconnected stations—effective July 1, with customary rate protection through Dec. 31.

List of changes follows:

Interconnected Stations

WBAL-TV Baltimore, \$550 to \$750; WBZ-TV Boston, \$750 to \$950; WBEN-TV Buffalo, \$325 to \$600; WNBQ Chicago, \$1,000 to \$1,200; WLWT Cincinnati, \$350 to \$550; WNBK Cleveland, \$600 to \$775; WLWC Columbus, \$200 to \$375; WLWD Dayton, \$200 to \$375; WLAV-TV Grand Rapids, \$200 to \$250; WGAL-TV Lancaster, \$200 to \$300; WMCT Memphis, \$200 to \$300; WTMJ-TV Milwaukee, \$450 to \$600; WNHC-TV New Haven, \$400 to \$500; WNET New York, \$2,000 to \$2,200; WPTZ Philadelphia, \$1,000 to \$1,200; WJAR-TV Providence, \$250 to \$300; WTVR Richmond, \$250 to \$300; WHAM-TV Rochester, \$200 to \$300; KSD-TV St. Louis, \$425 to \$650; WRGB Schenectady, \$325 to \$500; WSYR-TV Syracuse, \$200 to \$300; WSPD-TV Toledo, \$300 to \$400; WBNW Washington, \$500 to \$575; WDEL-TV Wilmington, \$200 to \$300; WWJ-TV Detroit, \$600 to \$800; WJAC-TV Johnson, \$150 to \$225.

Non-Interconnected Stations

WSB-TV Atlanta, \$250 to \$325; WBTW Charlotte, \$175 to \$225; WFAA-TV Dallas, \$250 to \$375; WBAP-TV Fort Worth, \$250 to \$375; WFMY-TV Greensboro, \$150 to \$200; KLEE-TV Houston, \$200 to \$300; KSTP-TV St. Paul, \$325 to \$500; WDSU-TV New Orleans, \$200 to \$250; WKY-TV Oklahoma City, \$200 to \$275; WOW-TV Omaha, \$200 to \$250; KDYL-TV Salt Lake City, \$150 to \$200; KRON-TV San Francisco, \$350 to \$450; KOTV Tulsa, \$200 to \$250.

TWO GRANTS AFFIRMED

FCC REFUSED Friday to upset its decisions authorizing (a) Texas Star Broadcasting Co. to build new Dallas station on 740 kc with 10 kw day and 5 kw night, and (b) Beer & Koehl to construct 250-w outlet on 1340 kc at Ashland, Ohio [BROADCASTING, Feb. 6]. Action came in denials of reconsideration petitions filed in 740 kc case by KTRH Houston, which lost its bid to modify daytime directional on that frequency, and KSEO Durant, Okla., which claimed some interference would be caused to its 750 kc operation; and in 1340 kc case by Mount Vernon (Ohio) Broadcasting Co., unsuccessful rival of Beer & Koehl.

WU BASEBALL DEADLINE

FCC Friday set July 5 as deadline for Western Union to comply with its order to eliminate "discrimination" found in \$2-per-game extra charge for stations using WU baseball-sports service in networks [BROADCASTING, May 22]. Deadline had been omitted from original FCC order. WU has indicated it will drop extra charge but permit networking to continue.

WWSW APPOINTS BLAIR

JOHN BLAIR & Co., Chicago, has been named national sales representative for WWSW Pittsburgh, 5 kw independent, effective June 19. O. M. Schloss Jr. is general manager.

JOINS GRAY & ROGERS

CHARLES W. YEAGER, formerly of Abner J. Gelula & Assoc., Philadelphia, has joined Gray & Rogers, Philadelphia agency, as associate media director.

BULLIS DIRECTS UN FETE

HARRY A. BULLIS, of Minneapolis, chairman of board of General Mills, appointed national chairman of United Nations Week to direct organization of observance from Oct. 16 to 24. Event will climax with United Nations Day Oct. 24.

Music With Test Pattern

(Continued from page 4)

virtually all participants. (Also see story page 15.)

Thad H. Brown Jr., counsel for Television Broadcasters Assn., said FCC proposal limited flexibility in operation, cited high costs and need to build set circulation. Comr. Robert F. Jones suggested telecasters have licenses for fulltime operation and if they can't afford proper operation they may be wrong licensees. Mr. Brown said commercialization was not mentioned in FCC's notice in case and hence TBA board hadn't acted on that matter. He doubted TBA members feel any advertisers but set and service firms would sponsor TV test patterns in lieu of AM or FM programs.

Dwight Rorer, Fort Industry Co. attorney, saw no logic to forbidding all test pattern sponsors but didn't know where to draw line. He said test pattern itself was advertisement and cited TV economic situation. Chairman Coy suggested station income should relate to proper use of facility.

Joseph A. McDonald, ABC vice president and general attorney, suggested music or other material should be allowed for time equal to half regular program period for day and that oral news limit of 15 minutes should be enlarged to one hour daily. Eliot C. Lovett, attorney for KTTV (TV) Los Angeles, urged some music operation be allowed before regular programs begin to facilitate tune-in adjustment and warm-up. In explanation he said first show is hard to sell.

Bernard Koteen, representing WKRC-TV Cincinnati, said WKRC-TV is willing to agree to unintegrated programming on non-commercial basis. He was questioned closely on assertion that in some instances costs of substituting integrated programming for test patterns would be enough to make stations think it better to go off air.

Paul A. Porter, former FCC chairman, suggested on behalf of Paramount Television Productions that telecasters be permitted to play background music with test patterns, stills or commercial announcements, on condition that for each hour of such programming they carry "a certain percentage" of live or film programming. When he suggested ratio might be 15 minutes of regular programming for each hour of unintegrated operation, Chairman Coy observed that that would be "getting the cart before the horse in the real sense."

WIBK DENIED PETITION

WIBK Knoxville, Tenn., denied reconsideration Friday of FCC's decision refusing issuance of license to cover its permit and Commission gave station 30 days to wind up affairs [BROADCASTING, Aug. 15, 1949]. FCC said its findings and conclusions that principal owner, Rev. J. Harold Smith, was not qualified to be a licensee "are fully justified and required by the evidence of the record." WIBK reported it will appeal ruling to U. S. Supreme Court if necessary. FCC considered moot bid to transfer Rev. and Mrs. Smith's interests to James T. Cox Jr. and C. L. Schenck.

SAVINGS ASSN. BUYING

FIRST FEDERAL SAVINGS ASSN., Lincoln, Neb., has bought World Broadcasting System's *Forward America* series on seven stations and contemplates expansion to others, through Ayres Adv. Inc., Lincoln.

tions on ground of possible misuse for political broadcasting (see page 18), is causing some amusement. Only purchaser of "political" spots on TR, certain stations report, has been CIO itself—and to build regular audience for recent nationwide address of CIO President Phil Murray.

TELEVISION Film Industry Committee planning to ask AFM President James C. Petrillo for meeting on rates immediately following windup of AFM national convention; will ask for specific rate covering overall use of musical films (both theater and telecast), with 50% of that rate as fee for TV use only.

BLOCK DRUG Co., through Cecil & Presbrey, New York, adding stations in scattered markets for its Polident tooth powder.

DICTAGRAPH Corp. (hearing aid) currently running TV spot campaign in New York, considering national radio spot campaign through its new agency, Maxwell Sackheim, New York.

McDONALD REPLIES

COMMDR. EUGENE F. McDONALD, president, Zenith Radio Corp., following FCC action in withholding approval of time extension for Phonevision tests (see story page 54), Friday stated in letter to FCC that Zenith's letter to manufacturers was "marked confidential and not intended for publication." Purpose of letter, he said, was to suggest to manufacturers that decoder outlets be included in TV sets now so that if and when FCC approves Phonevision, public would be able to have necessary decoding unit installed at "great saving." He further told Commission if it [FCC] "feels that it is not in the public interest for us to continue to suggest to our competitors that they help protect the public . . . we will on your request withdraw that offer" and make no further suggestions to manufacturers. Regarding newspaper ads which asserted "Phonevision will soon be here," Commdr. McDonald said: "Zenith has never published or approved any advertisements containing this language."

POWERHOUSE INCREASE

WALTER H. JOHNSON Co. (Powerhouse candy bars), sponsor of *Captain Video*, Monday, 7-7:30 p.m. on DuMont TV Network since January, doubles its appropriation on network. Beginning June 6 company will sponsor show on two nights, Tuesday and Thursday (in same time) and add four stations, bringing total number of stations carrying show to 11. Franklin Bruck, New York, is agency.

LOBBY GROUP ATTACKED

RESOLUTION to ban activities of House Select Lobbying Committee threatened Friday by Rep. E. E. Cox (D-Ga.) in statement attacking "outrageous and scandalous assumption of power" by group for requesting itemized expenditures from RCA and 166 other business firms. Rep. Frank Buchanan (D-Pa.), committee chairman, refused to rescind request (early story page 46).

RECORD FIRMS INDICTED

FOUR MAJOR wholesale record distributors, including Decca Distributing Corp., New York and Philadelphia, and Capitol Records Distributing Corp., Hollywood and Philadelphia, indicted Friday by Federal Grand Jury in Philadelphia. Indictment based on charges of conspiracy to fix prices.

The **KMBC-KFRM** Team Wins Again!

The Spring 1950 Kansas City Primary Trade Area Survey—a coincidental survey of over 80,000 telephone interviews in one week by Conlan — just off the press — shows The Team even further ahead of its nearest competitor than a year ago! It is one of the most comprehensive listener studies ever made — and one of the most revealing.

Together with the Fall 1949 Kansas City Primary Trade Area Survey—an aided recall survey made through 2,122 personal interviews at the 1949 Missouri State Fair, Kansas State Fair and the Kansas City American Royal—it provides irrefutable proof of The Team's outstanding leadership. Yes, *current proof*, not moth-ball evidence.

Daytime half-millivolt contours shown in black.

THE TEAM AGAIN WINS FIRST!

Spring 1950 Kansas City Primary Trade Area Radio Survey, just completed, shows KMBC-KFRM far ahead of all other broadcasters trying to serve this area.

The **KMBC-KFRM** Team with Coverage Equivalent to More than **50,000 WATTS POWER!**

Yes, The Team covers an area far greater than KMBC alone, at its present location, could cover with 50,000 watts with the best directional antenna system that could be designed. With half-millivolt daytime contours tailored by Jansky & Bailey, America's foremost radio engineers, to enable The Team to effectively cover Kansas City's vast trade territory (a rectangle—not a circle), The Team offers America's most economical radio coverage.

Contact KMBC-KFRM, or any Free & Peters "Colonel" for complete substantiating evidence.

The **KMBC-KFRM Team**

6TH OLDEST CBS AFFILIATE — PROGRAMMED BY KMBC

radio stations everywhere

but only one...

Basic NBC Affiliate

Sure, WSM has power . . . a clear channel and 50,000 husky watts of power . . . enough power to put the WSM signal out where the whole Central South can hear it. To this power, WSM adds the second important ingredient, people . . . a talent staff large enough, versatile enough, *good enough* to pipe out sixteen network shows weekly in addition to regular station business. That's what makes the Central South listen when WSM broadcasts. *That's what makes the Central South buy what WSM sells.* Want case histories? Contact Irving Waugh or any Petry Man.
