THE NEWSWEEKLY OF RADIO AND TV

You wouldn't harness an elephant to a lawnmower, would you?

You don't need 50,000 watts—or 10,000 or even 5000—to cover the compact Baltimore market!

W-I-T-H will do the job for you—without waste! Network stations overlap areas covered by their own affiliates . . . their effective coverage is limited to just about the area W-I-T-H itself covers.

NIelsen SHOWS W-I-T-H IN LEAD!

In Baltimore City and Baltimore County W-I-T-H leads every other radio and television station—network or independent—in weekly daytime circulation.

Let your Forjoe man give you all the facts in this amazing Nielsen Coverage Service Survey.

IN BALTIMORE

TOM TINSLEY, PRESIDENT

REPRESENTED BY FORJOE & CO.

FORD MOTOR COMPANY DOES A COMPLETE JOB...

SO DO HAVENS AND MARTIN, Inc. STATIONS...

WMBG
WCOD
WTVR

The Ford Dealers of America are observing Ford's 50th Anniversary with a well-chosen slogan, "Fifty years forward on the American road." Back of it is a study in American private enterprise. From one man's dream of a "horseless carriage" has grown an organization so far flung it has a Ford Dealer in almost every hamlet in the U.S. This kind of growth can come only from inventive genius, hard work and dedicated service all along the way.

These same qualities serve well in the broadcasting field too. Through them have come the South's only complete broadcasting institution—WTVR, WMBG and WCOD. Pioneers in AM, FM and TV, Havens & Martin, Inc. Stations have built large and loyal audiences in the rich areas around Richmond. Advertisers know the value of telling their story via these First Stations of Virginia.

PROCTER & GAMBLE, Cincinnati, which spent 71% of its overall budget in radio and TV during 1951-52 season, slated to spend 73% for '53-54 in those media, with increase expected to go into spot TV. No. 1 broadcast advertiser, P & G had budget of \$56 million last year. Three and one-half million went into spot TV, 20 million into network TV, 2½ million into spot radio and 14 million into network radio. In 1953-54 budget radio appropriation expected to go down slightly but both network TV and spot TV will increase.

★ ★ ★

NEW PROBLEM confronting national representatives is how far they can logically go in aligning new television stations for national spot representation and still do an effective job. Whereas in radio most lists run from about 25 to just under 50 non-competing stations, in TV it's thought that the maximum might be around 35. That's because coverage areas in TV generally are larger than in radio (except for clear channels).

★ ★ ★

DOMINANCE of radio-TV pointed up in "secret" study which one company made of 12 competitors in detergent and shortening fields. It shows: 35% of 1952 overall advertising budgets of these 12 advertisers was spent in television, 29% in radio, 22% in newspapers, 10% in magazines, and 4% in other media.

★ ★ ★

PRIMARY inter-connected affiliation agreement reached by CBS-TV with WCAN-TV Milwaukee, effective Sept. 15 [CLOSED CIRCUIT, Aug. 24], is only one in that category so far signed. Interim arrangements, however, have been made with other stations both uhf and vhf where regular radio affiliates have not yet received their TV authorizations.

★ ★ ★

IN RE CBS-TV affiliation policy, Herbert V. Akerberg, station relations vice president for CBS-TV, has this stock response to inquiries: "This is the basis on which we furnish program service to television stations other than our regular affiliates in various markets: If our regular affiliate is unable to carry (either live or on a delayed basis) a particular sponsored program and the advertiser requests an alternate station in that market for that program, then if we are able to make satisfactory arrangements with such alternate station for the broadcasting of that program, we will furnish the program to that station."

★ ★ ★

DORMANT, BUT not dead, is status of issue before FCC on what to do about specialized FM services (functional music, storecasting, transitcasting, etc.) in "beep" class. Pending for many months, plan originally was to hold hearing to determine whether these constitute broadcasting or some other kind of service. But majority feels situation is apparently adjusting itself.

SOURCE of tip to FM stations that there's real chance for revenue in use of FM channels for multiplexing was FCC Comr. George E. Sterling, who's an engineering expert. Comr. Sterling told NARTB's FM Committee at closed luncheon that multiplexing offers rich source of channels for music service and spectrum-starved taxi-utility-industrial (mobile) communications.

★ ★ ★

BECAUSE George B. Storer, president of Storer Broadcasting Co., has been active trader reports persist that he's negotiating when he isn't. Fact that Storer Co. now holds five television and seven radio properties precludes addition of stations in either category without sale of an existing holding. It was ascertained that Mr. Storer last week had conferred with ownership of WATV (TV) Newark but that it was purely preliminary and that nothing approaching definite understanding had been reached.

★ ★ ★

RECORD attendance of NBC Radio Affiliates expected at session scheduled Sept. 17 in Chicago at which Brig. Gen. David Sarnoff will expound on NBC's network future. Secretary-Treasurer Harold Essex (WSJS Winston-Salem) reports 80 commitments as of last week, with likely attendance of 125. Eight-man executive committee of affiliates group meets tomorrow (Tuesday) with NBC brass for preview.

★ ★ ★

FCC THIS week expected to take its first fling at selecting "hardship cities" under its new TV processing procedure. It will set for prompt hearing—irrespective of where they may fall on A and B lists—those cities where longest delays have been encountered and greatest need exists. Also to be considered would be those "strike application" suspects in effort to flush out those who do not seriously intend to prosecute their cases.

★ ★ ★

VITAPIX about to announce signing for 26 features with name stars to be made in Europe for TV by Princess Pictures (Burt Balaban, president). Vitapix board met last weekend in Washington to formalize transaction. Primarily station owned, Vitapix outbid NBC and ABC for features, it's understood. Mr. Balaban is son of Barney Balaban, Paramount Pictures president.

★ ★ ★

WHATEVER happened to Eugene H. Merrill, Utah Democrat who served on FCC on interim basis from Oct. 14, 1952, to last April 15 when John C. Doerfer assumed office? It now develops he is executive officer of Infrastructure Committee of NATO in Paris and is believed to be in line for its chairmanship. Committee is one of NATO logistics groups. Mr. Merrill came to FCC from Defense Production Authority and prior to that had served as communications coordinator with U. S. High Commissioner to Germany.

Announces

JOHN BLAIR & COMPANY

as National Representative

EFFECTIVE OCT. 1

KFH WICHITA, KANSAS... CBS for 25 Years... 5000 Watts 1330 KC.

On October 1, KFH, Wichita, Kansas, joins the list of radio stations nationally represented by John Blair & Company.

KFH, noted for 31 years for its fine public service record, is every advertiser's assurance of dominant penetration of the rich Wichita market, where sales response is matched by high purchasing power.

KFH is a strong selling force because its local area programming is smart, personalized and sales minded. As "The Radio Voice of the Wichita Eagle," KFH is able to offer the finest news coverage and sports services in the area. Coupling its CBS affiliation and outstanding local programs, KFH has for years maintained a leading position, with more audience than the next two stations combined.

If you need a top selling job, you need a station that's been tops for thirty-one years. Call your John Blair man!

Mutual Goes Ahead With Plan, Target Date Oct. 1

"FAR MORE than a majority" of Mutual's "pay" affiliates have signified acceptance of network's new affiliation contract plan, now scheduled to go into effect Oct. 1 (see earlier story page 70), MBS officials said Friday afternoon. "Pay" stations are only ones whose approval is needed.

While not revealing exact figures, officials said all key-market as well as most other affiliates had indicated they would sign contract amendments which were to go into mails to stations Friday. Of those who still had not accepted, it was felt many had held back pending FCC clearance of contract form or to learn attitude of others, and would now sign up. Any who refuse to sign will continue under old type of operations until expiration of affiliation contract, spokesmen said.

In closed circuit call announcing new plan would become effective Oct. 1, Station Relations Vice President E. M. (Pete) Johnson outlined changes in affiliation contract form as cleared by FCC. "None of these changes in any way alters the basic concept of our proposal," he asserted.

Among changes, which included specification that "reasonable notice" be given affiliates on program changes, was insertion saying that MBS will not permit "schedule B" programs—those provided free by Mutual for local or national spot sale—to be sponsored "by any of the following products and services: Hard liquors, hygienic products of the intimate type, harmful drugs, funeral parlors, morticians, fortune-telling, firearms, fireworks, lotteries, gambling." This replaced provision calling for specific Mutual approval of local sponsor.

Mr. Johnson also noted that, within average five hours per day of network "option" time, stations may sell local announcements in certain MBS programs "when there are no Mutual commercial messages," and that list of such availabilities will be provided to stations by Oct. 1. But all such locally sold commercials in Mutual time "must be immediately removable for network use."

NARTB Plans Agendas For District Meetings

ANNUAL NARTB series of 17 district meetings to feature two-day agendas based on roundtable discussions and management forums [CLOSED CIRCUIT, Aug. 10], with schedule to open at Benjamin Franklin Hotel, Seattle. Richard M. Brown, KPOJ Portland, Ore., director of NARTB District 17 (Ore., Wash., Alaska), will formally open series at 9:30 a.m. Sept. 14.

First day agendas, subject to wishes of district directors, include address by NARTB President Harold E. Fellows; report on profitable station operation study by Robert K. Richards, NARTB administrative vice president, at first group of meetings, and by Ralph W. Hardy, vice president, at second series. Vice President Richard P. Doherty will discuss personnel and labor topics.

Lunch session on first day will be followed

BIGGEST WEEK

MORE than million dollars' worth of radio-TV business signed up in five-day period by NBC Spot Sales for NBC o&o stations and other outlets it represents, Thomas B. McFadden, director, announced Friday. Sales were made in five days which ended Friday. "This is the biggest week in terms of sales since the first of the year and we envision even bigger weeks within the next month," Mr. McFadden said.

by government relations review after which delegates will enter wide-open roundtable discussion of station problems.

Second day opens with small market TV clinic occupying most of morning. Lunch will be followed by business meeting. W. D. (Dub) Rogers, KDUB-TV Lubbock, Tex., will conduct TV clinics at Districts 15, 16 and 17; Vernon A. Nolte, WHIZ-TV Zanesville, Ohio, Districts 10, 11, 14; James H. Moore, WSLSTV Roanoke, Va., Districts 7, 8, 9. Conductors not yet selected for rest of series.

NARTB survey listed following favorite topics for roundtables—payment of salesmen, principles of profitable operation, sales practices, size of staff, lottery laws, developing and controlling personalities, double billing, cost control and budgets, collections, and results of upcoming NARTB news survey.

Messrs. Fellows and Doherty will attend all 17 meetings. Station Relations Dept. will be represented by William K. Treynor, manager, or field men.

NARTB Meeting Site Picked

SITE of NARTB District 8 (Ind., Mich.) meeting scheduled Sept. 30-Oct. 1 will be Columbia Club, Indianapolis, NARTB President Harold E. Fellows announced Friday. Stanley R. Pratt, WSOO Sault Ste. Marie, Mich., will preside as district director.

UPCOMING

Sept. 1-3: International Sight & Sound Exposition & Audio Fair, Palmer House, Chicago.

Sept. 5-7: West Virginia Broadcasters Assn. Convention, Greenbrier, White Sulphur Springs.

Sept. 8: Comments due on FCC Notice of Proposed Rule Making for NTSC Color TV Standards.

Sept. 11-12: NARTB TV Code Review Board Meeting, NARTB Headquarters, Washington.

Sept. 14-15 NARTB Dist. 17 Meeting, Benjamin Franklin Hotel, Seattle.

Sept. 16-17: NARTB Dist. 15 Meeting, Mark Hopkins Hotel, San Francisco.

Sept. 17-18: NARTB Dist. 16 Meeting, Statler Hotel, Los Angeles.

For other Upcomings, see page 96

• BUSINESS BRIEFLY

RADIO TIME BUYS • At least two healthy network radio time buys in making Friday. Carnation Milk, through Erwin, Wasey & Co., N. Y., has optioned Mon.-Fri. quarter-hour daytime strip on NBC Radio and is expected to sign this week. (NBC also negotiating with another major advertiser for another quarter-hour strip.) CBS Radio meanwhile expected to sign General Foods this week for sponsorship of *Gunsmoke* (Sat., 8-8:25 p.m.) for its dry cereal, through Foote, Cone & Belding, N. Y., and of *Sanka Salutes* (Sat., 8:25-30 p.m.) for its Sanka coffee, through Young & Rubicam, N. Y.

SEELY TO NAME AGENCY • Seely Mattress will name Weiss & Geller, N. Y. and Chicago, as its advertising agency. Firm's account formerly was handled by Olian Adv., St. Louis and Chicago. Seely will sponsor *Come Back* on ABC-TV, Fridays, 9:30-10 p.m., starting early fall.

TRUSHAY DRIVE • Bristol-Myers, N. Y. (Trushay), through Young & Rubicam, N. Y., preparing radio spot campaign to start Oct. 1 in 25 radio markets.

CAVALIER CAMPAIGN • Cavalier Cigarettes, through William Esty, N. Y., expected to start radio spot announcement campaign in number of markets around Oct. 1.

MAGAZINE TV SPOTS • Pines Publications, N. Y., preparing spot TV campaign to start after Labor Day promoting first issue of *True Stories* magazine. Key cities will be used.

AGENCY NAMED • J. H. Whitney & Co., N. Y., names Kastor, Farrell, Chesley & Clifford, to handle advertising for community antenna television projects.

McCANN TO BATES • Frank McCann, time-buyer, Young & Rubicam, N. Y., expected shortly to join Ted Bates Inc., N. Y., in same capacity.

NATIONAL REALIGNS • National Bohemian Beer, Baltimore, through Kenyon & Eckhardt, N. Y., realigning its television schedule and adding several markets for sponsorship of half-hour wrestling matches.

Great Western Network Formed by Nine Stations

NEW hookup of nine NBC stations in Utah, Idaho and Montana formed with KDYL Salt Lake City as key station. Guaranteed time plan set up, with stations using NBC lines. Representative to be named soon.

Announcement of network made jointly by E. B. Craney, owner of XL Montana stations (KXLF Butte, KXLJ Helena, KXLQ Bozeman, KXLK Great Falls, KXLI Missoula); Henry H. Fletcher, manager of KSEI Pocatello, Idaho; Florence M. Gardner, manager of KTFI Twin Falls, Idaho; Walter E. Wagstaff, manager of KIDO Boise, Idaho, and G. Bennett Larson, president and general manager of KDYL.

W. W. Daynes, formerly of Intermountain Network, named sales manager, and Alvin G. Pack, KDYL, will be director of program operations.

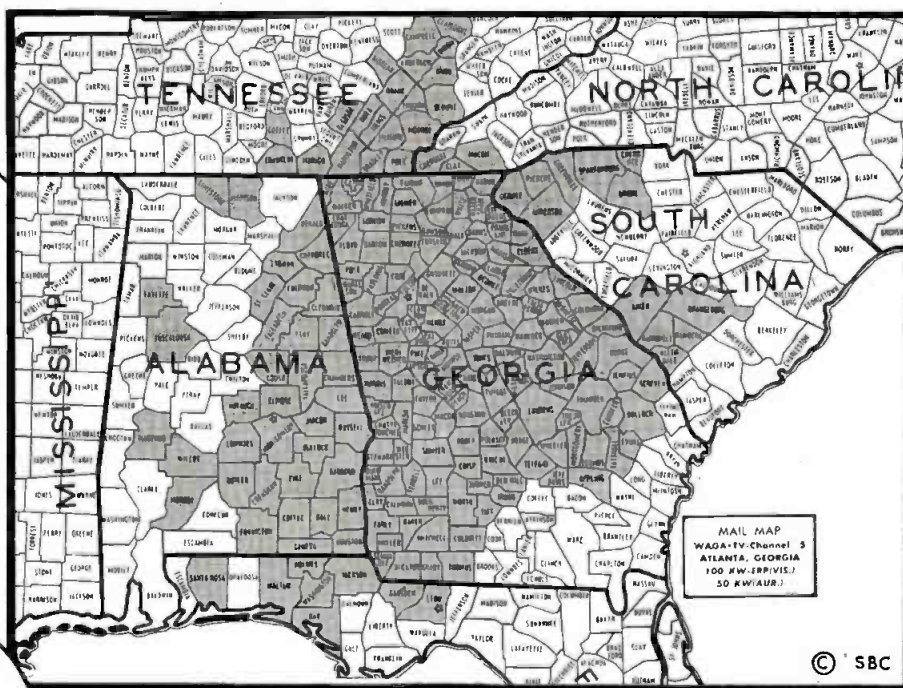

LOOK what happened

when WAGA-TV went to 100,000 watts!

We asked our viewers to let us know how well they were receiving our new 100,000-watt power. Old fringes melted away like cotton candy. Letters poured in from Oxford, Maine, to Chipley, Florida—and the farthest from Minot, North Dakota.

They all said we get you *loud, steady, and clear*. The map below shows where most of the letters came from—216 counties in five states.

We're not claiming this is the coverage you get when you buy WAGA-TV. But there is this one thing for sure: *within an 80-mile radius of Atlanta, you get solid coverage with no ands, ifs, or buts about it* when you buy WAGA-TV, the CBS-TV station in Atlanta on Channel 5.

TOPS IN ATLANTA*

11 out of the top 16 once-a-week shows.

13% more viewers week days and nights than station "B" — 128% more than station "C" (Monday thru Friday — 9 a.m. — 11 p.m.)

More quarter-hour firsts than either other station (Sunday thru Saturday. — 9 a.m. — 11 p.m.)

RCA-NBC Color Investment \$40 Million by Year's End

BY END of year RCA-NBC will have invested \$25 million in color TV research and development and another \$15 million will be added to establish color TV commercially, Sylvester L. Weaver, vice chairman of NBC Board, said in report prepared for delivery following NBC's color transmission yesterday (Sunday) of *Kukla, Fran & Ollie* production of *St. George and the Dragon* [B•T, Aug. 24].

Report covered what NBC has done to get ready for color and what it plans in immediate future looking toward eventual FCC approval of RCA compatible color telecasting standards.

Highlights of report: NBC is preparing its program production schedule for color; will start series of experimental "color premieres" on Sept. 28, designed to give such premiere to each show at rate of one or two per week (pending FCC approval of standards, commercial programs will be given dress rehearsal in color but will be telecast in black-and-white); has put more than 90% of its operating personnel through color indoctrination course; is holding color clinics for advertisers and agencies; is getting Warner Bros. sound stage in Brooklyn, recently acquired by NBC, ready for color to augment facilities at Colonial Theatre, its current color studio; has retained Richard Day, six-time Motion Picture Academy award winner, as color consultant to network.

NBC plans to colorcast Tournament of Roses Parade preceding Rose Bowl football game on New Year's Day; already has received signed color agreements, including agreements to order color equipment, from 55 NBC affiliates; has converted 300-seat Bijou Theatre in New York for projection of colorcasts on movie-size screen and will use it to demonstrate color to public as well as trade.

Special showing of NBC color program to mass audience is slated Sept. 21-22, with half-hour show to be piped from Colonial Theatre in New York to annual convention of Assn. of National Advertisers in Chicago (show will include sample commercials in color). Additionally, opera broadcast in color is set for October.

Mr. Weaver estimated first color sets of 14-inch picture size will cost \$800 to \$1,000, noted that "quantity production" of color sets cannot be achieved "for many months after FCC approval," and said "there is no reason why anybody should hesitate" to buy black-and-white set now or in futures, in view of compatibility of proposed color system.

He said NBC has established color producing unit to speed color conversion of its black-and-white TV schedule. Within six months, he continued, network plans to be originating some major shows in color from Hollywood and Chicago as well as New York, and soon thereafter from other points. One color TV mobile unit is near completion and others are on order, to permit colorcasting of special events "ranging from football games to the New Orleans Mardi Gras," his report asserted.

NBC has broadcast several regular sustaining shows in color in last few months, but yesterday's was first to be publicly announced as such.

LEGION AWARDS

THREE programs on ABC radio, two on NBC-TV and one on CBS-TV were announced Friday as winners of 1953 "Mike" awards of American Legion Auxiliary, based on nation-wide poll of almost million auxiliary members. Winners in patriotic dramatic category were *Mr. President* (ABC) in radio and *Cavalcade of America* (NBC) in television. Among variety shows, winners were *Breakfast Club* (ABC) in radio and *Arthur Godfrey and His Friends* (CBS-TV) in television. Honored as "most wholesome children's programs" were *Lone Ranger* (ABC) in radio and *Ding Dong School* (NBC) in television.

Four Sales Executives Added by NBC Radio Network

EXPANSION of NBC Radio network sales Dept. through addition of four sales executives, bringing department total to 12, announced Friday by Frederic L. Horton, radio network sales director. New appointees: John Birge, former J. Walter Thompson Co. account executive on NBC, RCA Victor Records, and RCA institutional advertising, who has had 26 years in advertising and sales; James H. Fuller, Young & Rubicam account executive, formerly with *McCalls* for seven years; John Doscher, formerly on ABC sales staff, and Jack H. Mann, formerly of local sales staff of NBC-owned WNBT (TV) N. Y.

WGBI-TV Petition

WGBI-TV Scranton, Pa., petitioned FCC Friday to dismiss application for assignment of permit from Scranton Bcstrs. Inc. (WGBI) to MCL Corp., one-third owned each by Scranton Bcstrs., Meco Realty Co. and Edward and Elizabeth Lynett, owners of Scranton *Times* (WQAN). Applicants said since FCC requires hearing on possible lessening of competition between WGBI and WQAN despite contentions of parties to contrary, parties feel further prosecution of transfer "is not justified, nor would it serve any good purpose."

3-Year License Supported

SUPPORT of FCC's three-year license plan for TV stations was filed with Commission by WTOP-TV Washington and WMBR-TV Jacksonville, Fla. Additional new supporters are KLZ-TV Denver and Storer Broadcasting Co., multiple-TV station operator. Comments on plan, announced in July [B•T, July 27], are due at FCC Tuesday.

Applications Dismissed

TWO TV applications dismissed Friday. South Texas TV Co. gave up vhf Ch. 13 bid at Houston as three principals take stock in Houston Area TV Co. Four other Ch. 13 bids still pend. U. of Miami, Oxford, Ohio, dropped educational application for reserved uhf Ch. 14 pending acquisition of sufficient TV funds.

PEOPLE

JAMES W. ANDREWS, formerly sales and assistant general manager for SOS Co., appointed sales-advertising manager for Kool-Aid, division of Perkins Products Co., General Foods subsidiary.

ARTHUR F. VINSON elected vice president of General Electric Co. in charge of manufacturing and general manager of manufacturing services division. He succeeds **NICHOLAS M. DU CHEMIN**, who assumes special assignments for president, Ralph J. Cordiner.

EDWARD LAMB, licensee of WICU (TV) Erie and WMAC-TV Massillon, Ohio, appointed member of Democratic National Committee's advisory committee.

JAMES P. HENSLEY, account executive with KNX Los Angeles-Columbia Pacific Radio Network sales department, named account executive in CBS Radio Spot Sales office in San Francisco. He joined CBS-owned KNX in 1952.

TED JOSEPH, account executive, Foote, Cone & Belding International Div., named vice president of agency. He will be in charge of Watchmaker of Switzerland account's U. S. advertising campaigns and will act as coordinator of all advertising activities of Swiss Federation of Watch Manufacturers handled out of agency's N. Y. office.

DAN THOMPSON, radio-TV director, National Safety Council, commissioned Kentucky Colonel on staff of Lawrence W. Wetherby, Governor of Kentucky. He was honored for "life-saving efforts since 1942 as director of radio and TV" for council.

FRANK RUBEL, formerly executive officer of Wometco Theatres (licensee of WTVJ [TV] Miami), appointed general manager of Cedar Rapids Television Co., permittee for vhf Ch. 9.

JAMES T. MURPHY appointed division manager of TV-radio for Philco Corp.'s newly reopened Washington, D. C., sales office.

PHILIP KATZEC, Ruthrauff & Ryan, Hollywood, to BBDO, Hollywood, in radio-TV department.

THEODORE H. COOK JR., who formerly worked on development of color TV receivers and studio equipment at RCA Labs, appointed senior electronic engineer for CBS-Columbia, TV set manufacturing subsidiary of CBS.

Protest KSTL Power Boost

THREE stations filed protests of power increase to KSTL St. Louis, 1 kw daytimer on 690 kc authorized to boost to 10 kw daytime directional. Alleging interference and asking hearing are WMPs Memphis, Tenn. (680 kc, 10 kw day, 5 kw night); KGGF Coffeyville, Kan. (690 kc, 10 kw day, 5 kw night, DA-DN); and WVOK Birmingham, Ala. (690 kc, 50 kw day, directional).

18 ABC Co-Op Programs

EIGHTEEN co-op programs, representing "record total" of 20 hours 10 minutes of cooperative radio programming per week, being made available to ABC Radio's 363 affiliated stations in new fall schedule, network is announcing today (Monday).

RCA Shipments

RCA Victor announced Friday shipment of one 25 kw and two 10 kw vhf transmitters. WCIA (TV) Champaign, Ill., vhf Ch. 3, will get 25 kw unit; KCB-D-TV Lubbock, Tex., vhf Ch. 11, and KTSM-TV El Paso, Tex., vhf Ch. 9, will get 10 kw units.

man
of
many facets!

Versatile as a one-man band, Joe Reichman combines his talents as showman, pianist, recording star and personality to produce one of the most sparkling radio shows on the air.

● Emceed by anyone but Joe the Showman, the Reichman shows would be little more than slick disc jockery. "Pagliacci of the Piano" Reichman's music, effervescent personality, his inimitable wit and limitless store of recollections born of many years as a big name band leader blend a potent entertainment potion that charms his audiences.

● The Reichman manifold personality charms his guests as well. To the many headline stars who appear on Reichman's shows, doing a show with Joe is a delightful busman's holiday.

● The Reichman touch accrues to commercials. Response throughout the big WFAA-dominated Southwest keeps sponsors, too, under the Reichman spell. You'll want to ask a Petry man about availabilities.

5. BIGGER AUDIENCE LEAD

6. COST PER 1,000

7. HOURLY RATINGS

8. PROGRAM TYPES

9. NIGHTLY ADVANTAGE

10.

'S NO. 1 NETWORK-

NBC-TV programs rate highest five nights a week

At night, when viewing is at a peak, NBC consistently delivers the largest audiences in television.

In five out of the seven nights of the week during NBC network option time, NBC shows reach the largest audience average. And on each of the five nights NBC has the highest rated show.*

Here is NBC's score:

Nights	Highest Rated Show
Sunday	Colgate Comedy Hour
Tuesday	Star Theatre
Thursday	Dragnet
Friday	Gillette Cavalcade of Sports
Saturday	All Star Revue

NBC's audience strength is maintained throughout most nights of the week, rather than concentrated on one or two nights. Advertisers recognize NBC's great nightly advantage: their advertising investment on NBC is greater than on any other network. Proof once again that **NBC is America's No. 1 Network.**

Next week . . . further proof.

NBC's Audience Advantage is to Your Advantage . . . Use It.

PERRY COMO SHOW

Network: CBS-TV
 Time: Mon., Wed. & Fri., 7:45-8:00 p.m.
 EDT
 Star: Perry Como
 Producer: Lee Coley
 Director: Ib Melchior
 Announcer: Dick Stark
 Musical Arrangements: Mitchell Ayres
 Orchestra
 Sponsor: Liggett & Myers Tobacco Co.
 Agency: Cunningham & Walsh

DESPITE continuing high temperatures which no doubt will sustain the summer mood for the next few weeks, evidence of fall is beginning to be seen through the eye of the TV camera. The traditional hiatus season is nearing its end, a comforting thought for those who have watched as many hackneyed panel, quiz and replacement drama shows as they care to witness for at least the next full calendar year.

Generally speaking, quality programming and production during the last few months apparently have been vacationing too. Occasional replacement programs showed signs of professional handling.

Such a program was *TV Top Tunes*, the Helen O'Connel-Bob Eberly offering which replaced the *Perry Como Show* thrice weekly on CBS-TV. In format it was much like its predecessor and came off as well because it too was in capable hands. Both Miss O'Connel and Mr. Eberly are still the zestful, talented singers they were when they made collectors' items out of such records as "Green Eyes" and "Tangerine." They have provided some refreshing moments for Como fans in his absence and undoubtedly departed the air with many of their own when he returned with his own show last Monday.

The Como company, leading the parade of entertainers due to return to TV in the next month or two, was in fine form for the first show of the new season. Mr. Como, whose songs highlight each telecast, knows his way around a TV setting as well as he does around current musical hits. He has successfully combined his natural, effortless song style with a poise and self-assurance before the cameras not always found among his contemporaries.

Featured on the Como show are the Fontaine Sisters. The performers on the *Perry Como Show* are well supported by pleasant orchestration and show up to their best advantage thanks to a director who stages his production in attractive sets and treats performers like people rather than props.

STRIKE IT RICH

Network: CBS-TV
 Sponsor: Colgate-Palmolive-Peet
 Time: Mon. through Fri., 11:30 a.m.-12 noon EDT and Wed., 9:00-9:30 p.m. EDT
 Packaged by Walt Framer Productions
 Producer: Walt Framer
 Associate Producer: Joe Gottlieb
 Director: Paul Alter
 Technical Supervisor: Mitchell Johnson
 Announcer: Ralph Paul
 Star: Warren Hull

FOR several years *Strike It Rich* has been thriving on misfortune. Six times a week it parades the ill, the impoverished and the woe-begone before the camera and rewards them with charities in exchange for their last ounce of self-esteem.

The fact that the program commands an audience of commercially significant size is both a criticism of the morbidity that afflicts too many people and of the network and sponsor that pander to it. *Strike It Rich* exists only because it engages in that most depressing

Talk about
stimulants

If your sales in Columbus are beginning to "freeze", WLW-C has the stimulant you need.

It's more than television time, talent and programs.

WLW-C sparks your advertising with a necessary plus—exclusive client service. Yes, WLW-C provides 20 distinct merchandising, promotion and publicity services that exploit your sales message in the field.

And in Columbus—heart of the rich, midwestern market—only WLW-C provides this important sales stimulant!

of all ways to make a buck—exploitation of human suffering.

Strike It Rich is a quiz show. Prerequisite to getting a crack at the jackpot is a personal tragedy of some sort.

People whose problems are sufficiently calamitous to justify their appearance on the show are interviewed by Warren Hull, an m.c. who can keep right on smiling through the tears. They tell their sad stories, answer a few questions and walk off with money, courtesy of Colgate-Palmolive-Peet and any sympathetic viewers who care to make a donation.

The Aug. 26 telecast gave a fair cross-section of the unhappy predicaments on which *Strike It Rich* feeds. There was the tearful mother in desperate need of funds to keep her 11-year old daughter, a cerebral palsy victim, in a special school. In case her plight, which also included an errant husband and a little boy she couldn't take care of, didn't move the most stoic

observer, pictures of her daughter were flashed on the screen. A penniless veteran, just released from the hospital was on hand to strike it rich so that he might join his son, now in the Army stationed in a western state. The train ticket could be purchased for \$63, he said. Mr Hull in a wild moment of generosity handed over \$125.

To accommodate those persons too feeble or impoverished to make it to the studio, a "Helping Hand" gimmick has been devised by the idea men on the series. On each program, a different celebrity answers questions for a needy case who wishes to strike it rich *in absentia*.

The program is a classic example of pseudo-humanitarianism without excuse or merit. Whatever good it may claim to accomplish is thoroughly negated by the manner in which it is brought about. If cash is really burning this big a hole in the Colgate-Palmolive-Peet pocket, a less ostentatious way of distributing it certainly can be found.

Real Public Service

EDITOR:

Over and over again children are being killed by abandoned iceboxes in spite of [warning] news stories, and I believe state laws here and there. . . . The deaths of 11 youngsters in two days in three widely separated states are almost incredible.

Radio and television stations, especially in towns and small cities, are probably the *only* media that could make instant and insistent announcements, urging that discarded iceboxes be searched the minute reports of missing children are received.

And who knows but what such warnings might not only save individual lives, but educate the discarders of these frightful menaces too.

Frank Silvernail
Head Timebuyer
BBDO, New York

Post-War Radio Production

EDITOR:

Will you grant us permission to reproduce in its entirety page 39 of the Aug. 17 edition of B•T? We, of course, will give B•T full credits. It's a potent answer to some of the know-it-alls who say . . . "Who listens to the radio anymore." We'll be happy to present them with your facts.

Robert R. Whitely
Promotion Director
KPOJ-AM-FM Portland, Ore.

[EDITOR'S NOTE: Permission granted. The page contained a B•T analysis of post-war radio set production, showing that more than 110 million sets have been made since World War II.]

EDITOR:

For over five years I have faithfully read your publication from cover to cover every week. This week [Aug. 17] I received my biggest disappointment after reading your front page story on post-war radio production. It told about home radios, clock radios, portable radios, auto radios, television, radios—radios in 48 states, but not one single word on FM radios that would help us. Have a heart. When you write a story, how about all of the story, including figures for FM production, too. I'm sure you can afford one more paragraph saying how many FM sets were built. How about it?

Ray Torian
Manager
KNOB (FM) Long Beach,
Calif.

[EDITOR'S NOTE. There are no accurate figures available anywhere showing the number of FM-only receivers or the number of FM tuners. The B•T article was designed to show the number of aural radio receivers turned out since World War II. Had figures been available on FM-only sets and tuners, they would have been added to the 110 million postwar sets. The 110-million figure included AM and/or FM receivers plus TV sets containing tuners for the FM band. B•T has regularly published monthly and annual Radio-Electronics-TV Mfrs. Assn. data showing number of radio and TV sets ever since collection of such data was started, but RETMA has no figures on total postwar FM production. John H. Smith Jr., director of the NARTB FM Dept., says best estimates place AM circulation at around nine million sets.]

Ready To Scream

EDITOR:

. . . For the past year we have been working with the distributors trying to arrive at a plan for getting accurate figures on conversions to uhf and breaking set sales down into the number equipped to receive the uhf stations which will be operating in Milwaukee, and another figure for those limited to vhf. We have come to the conclusion that it will never be possible to get an accurate figure representing sets

West Virginia's Leading Advertising Medium

capable of tuning in the uhf stations, as converters do not go through the regular distributor's hands. Many dealers buy converters direct from the converter manufacturers. While the distributors might be able to break down their sales into vhf only and vhf-uhf combination sales, this would not result in a true figure because many of the vhf only sets leave the distributor and probably wind up in the owner's home equipped with the necessary strip or converter.

I am writing to you because there will be three uhf stations operating here within the next several months and I am anxious to get your thinking as to what kind of figures you are going to use in the uhf column in your monthly figures. Most certainly if they are going to be dependent upon the guesses of the operators of the stations they are not going to represent a true picture. That has been evident in the vhf figures in a number of instances around the country. . . .

We, for one, having listened to the claims that around here in Milwaukee are going to scream our heads off to anyone just taking the other fellow's guess. We are going to scream because we have spent a year investigating the problem of securing accurate figures.

Walter J. Damm,
Vice President and General
Manager
WTMJ-AM-TV Milwaukee

[EDITOR'S NOTE: As has been its practice in all TV cities, B-T's Telestatus will use uhf figures submitted in sworn affidavits by uhf stations in Milwaukee. The use of affidavits generally discourages wild guessing.]

Offer Stands

EDITOR:

I notice on page 106 of your Aug. 10 issue, under the heading "Education," an article with the headline, "Stations Assist Educational TV Groups." Mention is made herein of a number of stations offering assistance, but I find that the offer officially made to the Mayor's Committee for Educational Television of North Carolina by WSOC offering land and tower facilities was not included. This offer was made some time ago and is still standing and has been officially acknowledged.

E. J. Gluck
President-General Manager
WSOC Charlotte

Satellites

EDITOR:

I have read with a great deal of interest your story in [the Aug. 24] issue of BROADCASTING • TELECASTING covering Representative Bush's speech in the House on the Sylvania satellite proposal. I think your story covers the issue quite well.

In its report to the FCC, WSM Inc. pointed out the fact that the booster system is only one of several systems which might be used in spreading television to the small towns. Each of the systems has limitations as well as merit. The WSM-TV booster system is not considered competitive with the Sylvania booster system and for that reason I cannot understand the attitude taken by Representative Bush. Apparently he has felt it necessary to make gratuitous remarks concerning WSM's experiments.

We are of the opinion that it is high time that the Commission hold a general hearing on the subject of boosters and satellite stations and we believe that this hearing, if held, will show that there is need for several types. The WSM-TV booster remains the cheapest system from the point of view of the viewer since it is not necessary for him to install an expensive antenna, buy service from a cable, or purchase

a uhf adapter. He simply turns his standard vhf to our Channel 4 and up comes the picture . . .

John H. DeWitt Jr.
President
WSM-AM-TV Nashville

Editorial Comment

EDITOR:

My attention has been called to a so-called editorial appearing in [the July 27] issue of your esteemed journal, entitled "Roll Call of the Broadcast-Baiters." In this snarl, you briefly seek to hold up to contempt the active members of an organization, (NAFBRAT), who are sufficiently public spirited to spend many weekly hours in systematically observing and commenting upon what our television broadcasters see fit to feed out for the adult and children audiences, by day and by night.

Any self-respecting person who will thus deliberately punish herself by watching hour after hour, day by day, the television programs that are persistently contaminating our pure ether, in the interest of their eventual betterment for the sakes of our children, is deserving of a martyr's commendation—not sneering ridicule.

The tone and import of your editorial, sir, are wholly unworthy of your esteemed publication.

Lee de Forest
Los Angeles

Helping Hand

EDITOR:

I want to take this opportunity to thank you for the extremely valuable material you made available to the students attending the Stanford-NBC Radio Television Institute. We have had many fine comments from those receiving the information.

Again, we certainly appreciate your wonderful cooperation. It helped to make this year's institute one of our best.

George Greaves
General Manager
KNBC-AM-FM San Francisco

Archaic Word

EDITOR:

Please permit me to commend the progressive-thinking of Mr. Earle Fletcher of KXOL Fort Worth, Texas, for "firing" his "announcers" and "re-hiring" them as "air salesmen," as reported on page 88 in your Aug. 24 issue.

The term "announcer" no longer applies to modern radio's real, professional salesmen. Their duties demand more mental gymnastics and much more actual work than the term "announcer" implies.

Here's hoping many other station managers become equally enlightened.

Frank Lokey
WRDW Augusta, Ga.

52 Stations in Ithaca

EDITOR:

After reading "The Rhombic Record" and "Yag's Bag" [OPEN MIKE, July 20, Aug. 10] I couldn't resist sending in my record. Using a 10-element Yagi cut to Ch. 6 on a Tenna-Rotor, I have logged 52 stations over a two-year period. This includes three calls from Havana, Cuba. I have logged stations from three countries and 20 states. I would be glad to hear from anybody who can equal or surpass my record.

Robert B. Cooper
Ithaca, N. Y.

our respects

to COL. JOSEPH HARVEY LONG

EIGHTEEN years before Guglielmo Marconi flashed the first wireless message across the English Channel in 1899, an 18-year-old printer left Wheeling, W. Va., and the *Sunday Leader*, for Erie, Pa., where he sought employment with the *Erie Dispatch*.

In his pocket was a letter of recommendation given to him by a friend. A sentence read: "He needs no overseer, but may be trusted to do his work as well without."

Col. Joseph Harvey Long, who in 1953 treasures this letter among others, got the job.

A week ago Sunday (Aug. 23), WSAZ-AM-TV Huntington, W. Va., held open house for the stations' new \$500,000 radio-television home at 201 Ninth St.

The printer and his letter and the modernized radio-TV building are events in the career of Col. Long, who celebrated his 90th birthday last May. They mark the beginning and the flowering of an energy and foresightedness nurtured in the newspaper publishing-broadcasting businesses.

Col. Long bought the *Huntington Herald* in 1893, sold it later and purchased *The Advertiser* in the same city. His Huntington Publishing Co. owns radio and television properties. WSAZ made its debut Oct. 16, 1923, and WSAZ-TV arrived in the Tri-State area Oct. 14, 1949. The TV outlet has the distinction of being the only operating station in the state. Col. Long is president of WSAZ Inc., the radio-TV subsidiary of the publishing firm.

Col. Long has roots in the rustic, barefoot tradition of the people who pioneered the U. S. He was born on May 21, 1863, the son of Edward Christian Long and Sarah Roebuck Long, both descendants of immigrants from the German Palatinate in Colonial times. They lived at a village near Lebanon, Pa.

When Col. Long was in his teens, his family moved to Pittsburgh. At this point, young Joseph Long was engaged in printing visiting cards with a toy press and meager equipment.

His first opportunity in the printing trade was with the *Leader*, followed by the *Dispatch*. In 1855 he began his step up by taking charge of the mechanical departments of the *Wheeling Register*. In 1891, he and Herschel C. Ogden founded the *Wheeling News*.

Two years later, Col. Long, with typical foresight, saw new opportunity in a growing town—Huntington—and in 1893 made his first purchase of a newspaper plant.

At WSAZ Inc., executives and staff take pride in pointing to the stations' activities in community affairs. This falls into the pattern begun many years ago by Col. Long in the personal endeavors, civic, industrial and political interests which he maintains today.

His civic record is impressive. He was a Huntington postmaster 1916-21; a member of a state commission that in 1924 studied and proposed reforms in the state's tax laws; for more than 10 years he was chairman of a good roads committee of the Chamber of Commerce; in 1936 he was elected president of the chamber and was re-elected for four more terms; he was active in building the city's flood wall; in raising bond issues for school improvements, and in the growth of Marshall College in Huntington. He also is former vice president-director

of the Huntington Symphony Assn.

Col. Long busied himself in the campaign of Franklin D. Roosevelt in 1932 and was elected a delegate to the Democratic National Convention. In 1952 he supported Eisenhower.

In the news field, Col. Long has been a member of the AP since 1895 and was elected president of the West Virginia Publishers' Assn. in 1950. He is known as the "daddy" of the United High School Press.

Col. Long is a director of the First Huntington National Bank, a director of the Ohio Valley Bus Co. and influential in still other business and civic groups.

His wife, the former Cora Thompson, died in 1944. Two sons, Walker Long, who is secretary, and Edward H. Long, treasurer, are officers of WSAZ Inc. Lawrence H. (Bud) Rogers, vice president and general manager of the stations, is a grandson-in-law.

The WSAZ stations serve a four-market area—Huntington, Charleston, Ironton (Ohio), and Ashland (Ky.). Papers published are the morning and afternoon *Herald-Dispatch* and *Advertiser*.

At 90, Col. Long took an active part and interest in the construction of the station's new home, a remodeled old warehouse with latest and the most complete equipment. Col. Long's past experience with mechanical devices has been stretched to the field of electronics. And now that he has nursed along the radio-TV building he is looking ahead to construction of a new plant for his newspapers.

WSAZ Inc.'s new center is a showpiece in the Mountain State. The stations occupy two floors with the third to be used for storage. A 3,000 sq. ft. studio for TV (can be used also for AM) can handle autos or small trucks. There are two AM studios; control rooms; film and news rooms, and many other features in addition to a whole floor devoted to administrative offices and engineering developments.

Throughout the building's renovation, Col. Long was active in taking responsibility for construction and equipment installation.

Along this inspirational planning path set by the top executive, WSAZ-AM-TV's operations have moved with practical and profitable success. WSAZ-AM is on 930 kc with 5 kw daytime and 1 kw directional at night. WSAZ-TV last year completed a \$300,000 switch from Ch. 5 to Ch. 3 with a power increase from 16.8 to 84 kw. Last May, it ordered a "super height" antenna with a mast 1,000 feet and an antenna 102 feet—in all, 62 feet taller than New York's Chrysler Bldg.

For the future, WSAZ-TV has become a member of the NBC Color TV Network and has ordered compatible color TV equipment.

5,000 Daily Round Trips — Non-Stop RADIO

The 5,000th consecutive broadcast of THE 400 HOUR was heard this week, marking another milestone in Chicago radio. And, of course, it was heard on Station WMAQ, Chicago's pioneer radio station which has been creating and developing broadcasting techniques and establishing industry records for more than 30 years.

THE 400 HOUR, sponsored continuously on Station WMAQ by the Chicago and North Western Railway for almost 17 years, is a Chicago institution. Its presentation, Mondays through Fridays, of the finest in classical and semi-classical music has made it a breakfast-time listening habit for millions of Chicagoans and Middle Westerners. Interspersed with Brahms and Beethoven is pleasant chatter by Pat Gallicchio about time, weather, public service—and the C&NW.

Every broadcast in this long association is another example of how Station WMAQ continuously offers its advertisers a loyal, responsive audience.

on all accounts

JEANNE SULLIVAN, timebuyer for Wyatt & Schuebel, agency consultant, New York, is a successful career woman whose business career has been nurtured by one of the most successful woman careerists in the business, Reggie Schuebel.

The duo met at the Duane Jones Agency where Miss Sullivan was secretary to Miss Schuebel in the agency's radio-TV department. The two compiled an impressive record of timebuying accomplishment, which was culminated for Miss Sullivan when she was made a timebuyer, in 1946.

Independent Success

In that capacity she established an independent record of success, purchasing time for such accounts as Manhattan Soap, Bab-O, Whitehall Pharmacal, Mennen, Tetley and Grove Labs.

In 1951, Miss Schuebel departed the agency to set up her present firm, and when the timebuying functions there expanded, demanding the addition of a top-flight executive in that department, Miss Schuebel summoned her erstwhile colleague to head that phase of the operation.

The Duane Jones agency was reluctant to have Miss Sullivan leave and offered to match the salary. A Jones executive was astonished to discover that Miss Sullivan did not know what the salary would be and, as it turned out, didn't discover the amount until she received her first check from Wyatt & Schuebel.

Her Accounts

As timebuyer for Wyatt & Schuebel she currently services such accounts as Fanny Farmer Candy, the CIO and the Lutheran-Synod Church. Over the past two years she has also handled All, a detergent; Helbros Watches; Proctor Electric Appliances; Peters Shoes; Red Goose Shoes and Pleasant Valley Wine.

Born in New York, she attended the Washington School for Secretaries there. She is the daughter of a career woman, too. Her mother is a buyer for children's wear and currently manages a specialty shop on 57th Street.

Miss Sullivan, a petite, five-foot-two bachelor girl, is an ardent and talented bridge player. Her favorite subject is mathematics. She is a bowling fan, too, and often scores in the plus-200 category.

B•T's FORECAST: FALL RADIO NETWORK SALES TO REPEAT '52

Spot radio business is due to surge 10% ahead of last year's total, B•T's fifth annual survey reports. All the networks express confidence both in their positions and in the status of radio as a whole. NBC is the only network to show a drop from 1952 billings.

RADIO network time sales this fall will just about equal those for the fall of last year, according to B•T's fifth annual survey of network commercial hours sold as of Aug. 15, as compared with business signed by that date of the previous year and with the time volume actually broadcast the previous October.

Radio's spot business this fall will probably exceed last fall's total by about 10%, according to estimates made by leading station representative firms. These predictions of increased spot business for fall are strongly supported by reports of scores of new and extended spot campaigns published in recent issues of B•T, which indicate that the station representatives were being conservative in limiting their estimates of the overall increase to 10%.

Network business, as summarized in table this page, shows the total number of hours sold by all four radio networks for this fall very slightly (2.3%) below the total sold in August 1952. ABC's total is virtually the same as last year; CBS is slightly ahead (5%); MBS is twice that much ahead percentagewise (10.9%); NBC alone is down (17.8%) in comparison with last year.

NBC's failure to match last year's time sales occurs during daytime hours, the figures reveal, and is largely due to three daytime quarter-hour periods as yet unsold and to the three hours a week purchased last year by Tide Water Associated Oil Co. to broadcast West Coast football games. The open daytime strips may be due to watchful waiting on the part of advertisers who do not want to sign up for more NBC daytime periods until they can see what the network's fall program schedule looks like after the general overhauling now in progress has been completed [B•T, Aug. 17].

Considerations in Analyzing

Another point in the breakdown that calls for explanation is the report of the nighttime business on Mutual last fall, with 6 hours, 37½ minutes shown as sold in August but only 4 hours, 43 minutes broadcast in October. Fact is that several news programs, listed in August for evening broadcast, went on the air before 6 p.m. and so are listed as daytime programs in the table.

While the network-hour comparison here employed is valid in affording a preview of what sponsored programs are going to be on the radio networks this fall and a comparison of this year's and last year's time sales, it would be impossible to use the commercial hours-and-minutes data as any indication of dollar sales volume. A network of 20 stations (minimum

number used in the B•T tabulation, which deleted all smaller network hookups) cannot be compared dollarwise with one of 100 stations or more.

To keep the time figures comparable for an average October week, all one-time or short-series programs have been omitted from the tables. The World Series broadcasts on Mutual, under Gillette sponsorship, which would have added some 15 hours to that network's daytime total, are one example. Last fall's political broadcasts, which contributed \$890,117 to the gross time sales total of the four networks in October 1952, a Presidential campaign year, also were omitted as being outside the normal network business orbit for non-campaign years.

Another safeguard made against distortion in the commercial time figures was the division of time in cases of multiple sponsorship, so that a single broadcast does not receive multiple time credit just because it has more than one sponsor. To take the Edward R. Murrow newscasts on CBS Radio as an example, we find four sponsors for this five-a-week 15-minute series: Theodore Hamm Brewing Co. and Standard Oil Co. of Indiana sponsoring the original

broadcast on different CBS hookups; Hudson Dealers and Edison Chemical dividing the West Coast repeat not on a geographical but on a time basis, Hudson sponsoring three and Edison two Murrow broadcasts a week. The table therefore divides the hour-and-15-minutes-a-week total for the Murrow newscasts three ways—25 minutes for Hamm, 25 for Standard Oil and 25 for the Pacific Coast, which is further divided into two parts, two-thirds or 15 minutes for Hudson and one third or 10 minutes for Edison. Alternate sponsorships are handled similarly, explaining the half-minutes (12½, 37½, etc.) appearing in the table beginning on page 28.

Checking the number of sponsored-program entries for 1952 and 1953 in this table reveals that of 276 units listed for last October, 145 will be on the air again this fall without change of either sponsor or program.

There are 92 new listings for this year, not quite replacing the 131 entries on last year's list which are missing this year. The difference, however, is more probably due to comparing October 1952 with August 1953 than to any real falling off in the number of network commercials.

Bright Horizons Envisioned

Certainly, there is no pessimism to be found in statements made to B•T by the sales heads of the networks. All agree that the slump in sales during the last few years is ended and that once again network radio is on the upgrade, reasserting its place in the lives of the American public and the advertising budgets of the nation's manufacturers.

Charles T. Ayres, vice president in charge of the ABC radio network, said:

"Radio isn't old and tired as some in the industry would have you believe. It is a substantial and continually growing advertising medium. It is as much a part of our everyday living as is the habit of consuming three square meals a day.

"It may be the simple fact that radio has become such an accepted part of our daily living—such a habit—that has caused it to be taken for granted. Under such conditions, it is axiomatic that such things as radio's mass coverage, the great number of advertisers who find radio a successful local and national medium are also taken for granted as rather common-place, ordinary facts.

"This line of reasoning, I am sure, is the one which misled the prophets of doom who gathered several years ago for the funeral of radio. For all I know, they are still waiting. And they'll have a long wait because every statistic of radio set manufacturing shows an increase and in these days where a dollar has a lot of work to do, the consumer is not buying radio sets at this rate merely because he has 'cheap' money to spend. Neither is the advertiser.

"It's much like a new baby coming into the home—this case between radio and television. Television is the new youngster, radio the older brother. Who gets the attention? The young-

RADIO spot clinic for Colgate-Palmolive-Peet and Sherman & Marquette, New York agency, was held by Station Representatives Assn. In attendance were (l to r, standing): Reg Rollinson, director of advertiser relations, SRA; George Laboda, radio-TV director for CPP; George McCoy, CPP, and Ed Fitzsimmons, Weed & Co. Seated: Jan Gilbert and John Crandall, media director, Sherman & Marquette.

ster. Who is still bringing in a handsome living? Radio.

"The fact that it has come to full stature may mean that it isn't quite as exciting as its infant brother—television. But full stature means it has acquired unto itself a way of life—and a good portion of its way of life lies in the continuing good faith that advertisers show in radio.

"Many of these astute national advertisers will again be a part of the national radio scene this fall on the ABC radio network and many of them have been ABC radio network clients for a good number of years. These are the bed-rock accounts on which radio grew to full maturity.

"The ABC radio network has never been lacking in quality advertisers of its daytime programs and, again this year, the morning lineup of ABC radio network programming is almost completely sold-out, with every likelihood that the SRO sign for the Monday through Friday daytime morning periods will be an accomplished fact by early fall.

"The recent Anheuser-Busch sponsorship of the new Bill Stern program across the board for 52 weeks is probably one of the largest radio sales to be made by any network this year and is significant in the fact that it marks this advertiser's first entry into network advertising.

"The fall radio scene here at ABC presents a healthy and sound outlook—refuting any claims by the prophets of doom that it is faltering."

John Karol, CBS Radio vice president in charge of network sales, stated:

"In writing about the autumn sales outlook for the CBS Radio network, the increasing amount of time sold leads me to the inevitable

clique about facing the future with confidence.

"The volume of summer business is higher this year than last. Total hours sold for July 1953 exceeded the previous July by 8%; this August topped last August by 11%. Since summer time sales are, traditionally and actually, the indicator of autumn volume, we know that we will see an even greater use of CBS Radio time by advertisers in the coming season.

"The increase in our summer business is especially significant when noted against this fact: Gross billing for the CBS Radio network for 1952 was \$59,500,000—the largest in the field by far. And 1953 so far is running about 8% ahead of last year and 30% ahead of our nearest rival.

'Renewed Faith'

"Just as important to us as these figures is the attitude of advertisers and agencies toward our medium. It is, I believe, one of renewed faith in radio's strength. It is a confidence soundly based on the continuing public interest in radio—as shown by both its purchase of sets and its use of these sets.

"We believe that many advertisers will feel that they must use more of America's biggest and most efficient medium.

"From these facts comes our confidence."

Adolf N. Hult, vice president in charge of sales for MBS, summed up that network's picture this way:

"The up-trend in Mutual's billings still continues unabated with a 10% gain in gross billings for the first seven months of 1953 over last year (\$12,833,249 vs. \$11,594,724 in '52).

"This year Mutual has very nearly eliminated the usual summer slump in billing. A substantial part of this summertime revenue has been

accounted for by numerous sales in Mutual's Multi-Message plan and the popularity of Mutual's Pin-Point plan.

"Based on present commitments for the fall months the network expects to finish its final quarter and the entire year of 1953 with a most satisfactory increase."

Frederic L. Horton, NBC director of radio network sales, said:

"Published PIB figures for January through June 1953 show NBC Radio network gross billings one-half million dollars ahead of last year. We expect a continuance of this trend.

"Orders have recently been received from the American Dairy Assn. for Bob Hope, from International Harvester for an evening Monday through Friday news strip, and from the Florida Citrus Commission for three day-time quarter hours weekly. These, plus evidence of increased interest in network radio on the part of many leading advertisers provide substance for the prediction that the coming season will bring increased sales volume for the NBC Radio network.

"The establishing of separate radio network sales and program departments dedicated to the specific job of selling network radio time and programs insures the success of NBC network radio. Important changes in our program structure will be announced shortly.

"The NBC Radio network will be an even more attractive advertising buy in all budget classifications."

Outlook for spot radio business is assayed by T. F. Flanagan, managing director, Station Representatives Assn., as follows:

"Spot radio will, as usual, show an increase for 1953 to add another year to its 17-year record of straight growth. This is assured by the fall orders now mostly in the hands of the station representatives.

'Best of Year'

"The fall season is, of course, as with most media, the best of the year. In spot radio it is best, not only because of the Christmas buying and the starting of new campaigns, but spot radio historically carries the brunt of the mass selling of the cold remedies, and their sister relief products.

"This fall will see several new things in spot radio—the 'enzyme' era in toothpastes, the changing pattern of the cigarette industry with emphasis on kings and filter-tips, the lengthening season of the soft drink business, the national coverage of several products after small test beginnings.

"The business is not all from Madison Avenue. Chicago is forwarding large orders to stations. One out-of-town agency in a smaller market now has three campaigns running respectively on 105, 195 and 156 stations.

"Naturally, the pattern of spot business is not the same on all radio stations. Many factors influence the ups and downs. But on some stations national spot gains are more than healthy and, overall, this fall and this year, national spot business will be well ahead."

10 FIRMS BUSTLE IN RADIO-TV, BUY BOTH SPOT AND NETWORK

General Mills paces the purchasing by expanding coverage on 'Lone Ranger.' Other firms involved in buys are Packard Cars, Wildroot, Flako, Lysol, Ehler's Coffee, Mogen David Wine, Welch's Wine Division and National Homes Corp.

TEN national advertisers, paced by General Mills, figured last week in a range of action that included new time purchases and expansions, spot and network, radio and television.

General Mills in a surprise maneuver is expanding its coverage on *Lone Ranger*; Packard Cars is planning to extend its radio spots; Wildroot is increasing its spot radio outlay; Flako products, Lysol, and Ehler's Coffee are placing radio and TV campaigns; Mogen David Wine has purchased two DuMont TV shows; Welch's Wine Division is switching programs on DuMont; National Homes Corp. is buying three five-minute periods on Mutual, and Warner-Hudnut is "looking."

General Mills, through Dancer-Fitzgerald-Sample, New York, will expand its present sponsorship of the *Lone Ranger* on CBS-TV on Saturday to 30 more markets beginning in September. This expansion adds to continued sponsorship of the same program on ABC-TV on Thursday.

Flako Products Corp. (pie crust) will launch a schedule of radio-TV women's show participations and spots in mid-September to run through the end of November. Thirty television and 10 radio markets will be represented in the campaign, placed by Charles Hoyt Co., New York.

Packard Expands Schedule

Packard Cars, which placed a week-long radio campaign in 30 markets starting Aug. 28, through Maxon Inc., New York, expects to expand the schedule for another two weeks in the same markets.

Wildroot Co. (Wildroot cream oil) is increasing its radio spot schedule in a number of markets through BBDO, New York.

Lehn & Fink (Lysol), through Lennen & Newell, expects to break into a radio-TV spot campaign using participation and news shows. Details of the prospective schedule have not been revealed.

Warner-Hudnut, which failed to renew its *Edgar Bergen Show* on CBS Radio, through Kenyon & Eckhardt is contemplating television but has not yet decided whether it will be a film series placed regionally or a network show. Radio, too, is being considered. Plans are not expected until the end of September. The firm is just concluding participations on 32 women's TV shows this week.

Mogen David Wine Corp. has allocated a \$2 million advertising budget for this season. The television portion will include sponsorship of two DuMont TV Network shows, *A Dollar a Second*, effective Sept. 20, and *Fight of the Week*, starting Sept. 21. Weiss & Geller, New York, is the agency.

Ehler's Coffee, through Dowd, Redfield & Johnstone, New York, is placing a television campaign said to approach a quarter of a million dollars in cost in four markets: New York, Philadelphia, Schenectady and New Haven, effective Sept. 15. Coffee company will use minute and chain break announcements and quarter-hour shows.

Welch's Wine Division of Quality Importers Inc. will sponsor *On Your Way* on DuMont, effective Sept. 9, (Wed., 9:30-10 p.m.), replacing its summer program, *The Dotty Mack*

Show. Contract for the new audience participation program extends through the spring of 1954 and was placed through Monroe Green-thal Co., New York.

National Homes Corp. (prefabricated homes) has signed to sponsor Gabriel Heater thrice weekly, (Mon., Wed., Fri., 8:45-55 a.m.) on Mutual. Applegate Advertising, Muncie, Ind., is the Agency.

STANDARD OIL SETS HEAVY GRID SLATE

STANDARD Oil Co. of Indiana Wednesday announced plans for comprehensive radio and television coverage of professional and college football games this fall, with a tab running into the million-dollar category.

The schedule calls for:

(1) Telecasts of home Chicago Bears and Cardinals pro football contests over nine mid-western ABC-TV stations on a co-sponsorship basis starting Sept. 27.

(2) Radio broadcasts of all Bears' games over a special 19-station midwest network headed by WGN Chicago.

(3) Radio coverage of all games of five universities on as many stations.

(4) A TV broadcast of films of previous Sunday games of the Bears—*Bears Quarterback Club*—on WGN-TV Chicago.

Wesley I. Nunn, Standard advertising manager, said the schedule calls for radio-TV broadcasts of 65 midwestern games under company sponsorship.

On the TV side, Standard will sponsor one-half of each of 12 Bears and Cards contests, with ABC-TV offering the other half for co-op sponsorship. The games will be blacked out in the Chicago area. Ford dealers reportedly are interested in taking the games in some mar-

Sales Up—So's TV Time

AS sales go, so goes its advertising budget—that's the pattern being followed by Mogen David Wine Corp., which has announced a \$2 million campaign for fall and winter involving two network TV programs.

As part of its extensive promotion plans, the firm starts in September *A Dollar a Second* and *Fight of the Week* on the DuMont TV Network. Mogen David, a TV pioneer, reported its sales have established a new record high. Agency is Weiss & Geller, Chicago.

Television shows will be buttressed with large space newspaper ads for holiday occasions, and billboards, posters and bulletins.

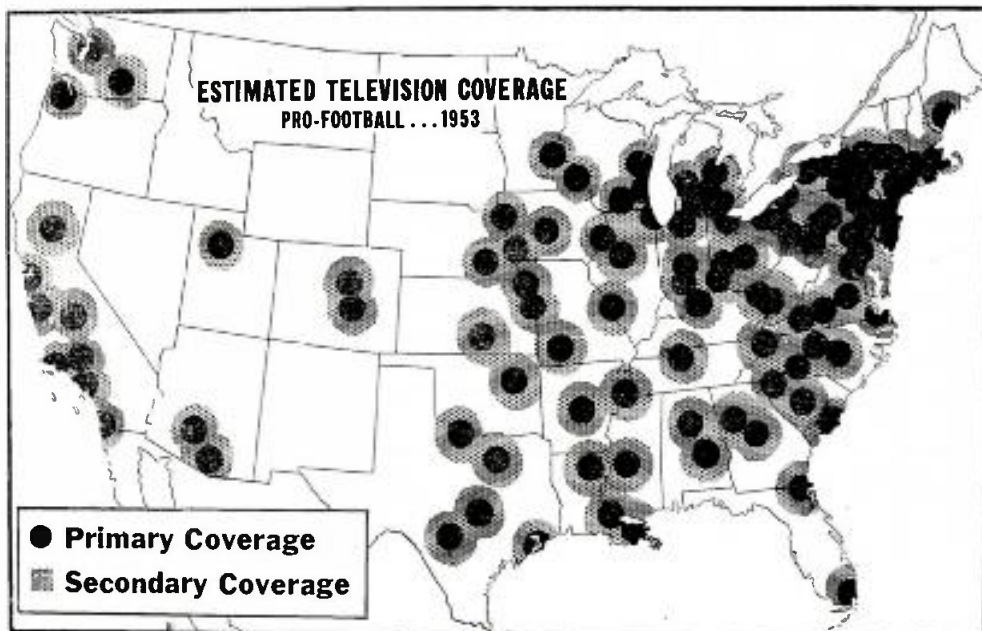

kets. Harold (Red) Grange will handle commentary. The stations are:

WFBM-TV Indianapolis; KCMO-TV Kansas City; WMIN-TV Minneapolis-St. Paul; WHBF-TV Rock Island, Ill.; KSD-TV St. Louis; KBTW (TV) Denver; WEEK-TV Peoria, Ill.; WSBT-TV South Bend, Ind.; WOOD-TV Grand Rapids, Mich.

On the Bears' radio slate, Mr. Nunn explained that Standard will pay the Bears management fee rights and line charges, with individual stations invited to solicit local participating sponsors for pre-, mid- and post-game spots. Standard retains a veto over type of sponsors signed. Jack Brickhouse, WGN-AM-TV sportscaster, handles play-by-play. Stations:

WGN; KASI Ames, Iowa; KCRG Cedar Rapids; KIOA Des Moines; WGIL Galesburg, Ill.; KXIC Iowa City; KFSB Joplin, Mo.; KOKX Keokuk; WASK Lafayette, Ind.; KWPC Muscatine, Iowa; WSIV Pekin, Ill.; WGEN Quincy, Ill.; KRES St. Joseph, Mo.; KISD Sioux Falls, S. D.; WJVA Mishawaka, Ind.; WMAY Springfield, Ill.; WTHI Terre Haute, Ind.; WKID Urbana, Ill.; WDC Decatur, Ill.

Standard also will sponsor 10 games of the U. of Colorado on KOA Denver; 10 U. of Nebraska games on KFAB Omaha; nine U. of Iowa contests on WHO Des Moines; nine U. of Wisconsin games on WTMJ Milwaukee, and nine U. of Wichita games on KWBB Wichita. Agency is McCann-Erickson Inc., Chicago.

PROFESSIONAL football contests this fall will get the nationwide coverage indicated on this map under sponsorship of Westinghouse Electric Corp. The manufacturing concern has set up a network of approximately 87 stations to carry the National Football League games. This is the first time in history that the professional end of the sport has had regular scheduled coverage over the U. S. Westinghouse anticipates typical-weekend TV audience at 35 million.

All this...and Heaven too!

• WDSU-TV, New Orleans, reaches new horizons with its increase to 100,000 watts video — the maximum power allowed Channel 6.

ADVERTISERS, INDUSTRY SEE RENEWAL OF 'LOCAL VS. NATIONAL' RATE ISSUE

Policy of national advertisers 'farming out' their spot budgets to dealers for time purchases at local rates draws fire from representatives surveyed by B•T. Dispute comes to the fore again with Chicago Chevrolet Dealers' purchase of campaigns there.

RADIO and television are facing a renewed assault on their industry rate structure because more and more large national advertisers are, in effect, farming out their spot budgets to dealers and distributors for time purchases at local card rates.

This is the consensus of a number of mid-west radio-TV station representatives checked by B•T last week on a relatively little publicized aspect of "rate-cutting."

While the practice is not a new one, either in its concept or application, representatives were unanimous in their belief that the twin broadcast media face a fight reminiscent of that waged against the nation's newspapers some years ago.

The station representatives described the situation as "serious" and at least one suggested the practice might well be pursued through the Station Representatives Assn. Many feel it will hurt spot business (programs and announcements) at the local level, but acknowledge, too, that stations themselves should clean house.

All of them conceded that the practice, which is growing by leaps and bounds, is just another phase of rate-cutting and that, if unchecked, would have an adverse effect on the industry's national rate structure.

Evidence of growing concern among station representatives first manifested itself in Chicago last July with the report that some automobile manufacturers and breweries have ordered national campaigns, then urged their dealers to by-pass representatives and agencies and place business directly with stations. [CLOSED CIRCUIT, July 13].

Want Redefinitions

One conclusion drawn by most representatives is that the terms "national" and "local" should be redefined at the agency and station level. Most common suggestion was that the terms "general" and "retail" should be applied.

When should the national rate apply? Some representatives think it depends a lot on the technique of national distribution employed by manufacturers.

The growth of the practice was attributed by one midwest representative firm to the increasing number of dealer associations connected with name-brand manufacturers. Another is the emergence of associations representing certain product groups.

The issue is academic in some instances, it's acknowledged, because many stations, especially major network outlets in large cities, maintain a single rate for both national and local. But stations in smaller markets are offering local rates to national advertisers as a strictly competitive measure and, in some cases, out of "ignorance," B•T was told.

The whole issue emerged again last week with the announcement of a 26-week campaign by the Chicago Metropolitan Dealers Chevrolet Club (Chevrolet Dealers Assn.). The campaign calls for 50 spots per week on four Chicago radio outlets and 21 spots weekly on the four local TV stations, as well as broadcasts of college football games this fall.

The organization represents some 93 dealers

within a 50-mile radius of Chicago. The account was placed through Campbell-Ewald Co. as a local campaign to boost the sales of new and used cars. A similar national advertising car for the same purpose reportedly was under consideration at the agency's Detroit office.

J. J. Hartigan, media director of the agency, which represents numerous Chevrolet dealer groups throughout the country, described the Chicago drive as a "local campaign." The agency's Chicago office, which handles the local campaign, also characterized it as a local drive for all media, although ostensibly the purpose of both the local and contemplated national programs is the same. The major radio outlets signed for the spot drive maintain a single national-local rate card, thus rendering the issue academic in those cases.

Commissions Deprived

But station representatives contacted by B•T claim that, in some instances, both agency and representative firms are deprived of their commissions when dealers or distributors go directly to the stations—sometimes even after the agency draws up a national campaign. Stations naturally offer competitive rates on spot (either programs or announcements).

One representative told how a certain cereal manufacturer operated in one case. Dealers obtained local rates and sent the bill to the manufacturer who, in turn, passed it on to the agency which then added its 15% commission.

Another example cited was that of a large petroleum company whose dealers insisted on the local rate for radio spots, despite the fact that the firm enjoys national distribution. Another factor mentioned by representatives is the coverage area claimed by some stations taking such business, with the signal bounding over beyond local retail territory.

Dealers, without prompting from manufacturers, are approaching stations for local rates, fully aware they can buy perhaps 50% more spots dollarwise, than if the money were allocated through agencies at the factory budget level, one representative told B•T.

Another phase of the assault on spot radio, another representative told B•T, involves associations or organizations of institutional nature. These advertisers turn out volumes of publicity and buy network shows. Then they circularize home economists with recipes to be used on homemakers' shows rather than buy spot participations.

The train of thought among station representatives contacted by B•T in the Midwest on the practice of some manufacturers having their dealers buy spots at local rates seemed to be:

Manufacturers themselves are at least sympathetic to if not active on behalf of such a practice by dealers. Agencies and representatives aren't particularly happy about it. And the first line of defense is still the radio station itself—competition or not.

Henry Schachte Leaves Borden To Join Sherman & Marquette

HENRY SCHACHTE, director of advertising, Borden Co., New York, will join Sherman & Marquette, New York, as vice president and account supervisor, effective in early September.

Mr. Schachte

Mr. Schachte was named Borden's director of advertising in January 1952. Prior to that he was national advertising manager of the firm. Before joining Borden's in 1947, he was with Young & Rubicam as account executive on the Borden account.

Two years before that he was with General Electric Co. in Schenectady for seven years, first as an industrial advertising copywriter and later as head of public relations advertising.

Hat Firm To Use TV For Fall Showing

LARGE screen television in color will be employed by Frank H. Lee Co., hat manufacturers of Danbury, Conn., to pre-show its 1954 spring line to dealers and other men's fashion authorities in New York on Sept. 30. The closed-circuit telecast will be handled by Theatre Network Television Inc.

TNT President Nathan L. Halpern said the preview, to be witnessed by an expected 500 persons at New York's Hotel Plaza, will "launch the regular use of large-screen color television by TNT for business and commercial organizations. We expect that this method will develop into an important use of television as a business communications system."

Ratner to McCann-Erickson

VICTOR RATNER of Theatre Network Television Inc., formerly

Mr. Ratner

vice president of Macy's department store, New York, and before that with CBS, on Sept. 7 joins McCann-Erickson, New York, in the creative department as a copy group head. Mr. Ratner will be engaged primarily in printed advertising, it has been announced.

RCA Sells Football Series

JAMESVILLE Zone Chevrolet Dealers Assn. is sponsoring *Touchdown Tips*, RCA's quarter-hour syndicated football radio series, on 35 stations in Wisconsin and Illinois, via the Wisconsin Network, RCA Recorded Program Services announced Thursday. The 13-week contract was arranged by George Frechette, managing director of the Wisconsin Network.

Milwaukee is switching to WCAN-TV

The line forms to the left for Channel 25. And, all over town, Milwaukeeans by the thousands are flocking to get in line . . . for they want to see WCAN-TV.

In person and on the phone, Milwaukee is making arrangements to have its TV sets ready for WCAN-TV. New sets are being bought, old sets adapted, ALL FOR CHANNEL 25.

Skeptical? So were we until we got in line with Milwaukee. From the ever reliable party line*, we learned that 16 percent of the people called already have adapted their TV sets for Channel 25. What's more, an additional 46.1 percent said they will be ready for WCAN-TV within 3 months. **This means, in round numbers, that nearly 70,000 TV sets are ready NOW, and 192,000 more will be ready for Channel 25 within 3 months.**

So, get in line with Milwaukee by lining up with WCAN-TV.

*An impartial telephone survey supervised by Dr. A. A. Suppan, Director of Extension program Wisconsin State College.

Ellis T. Gash Dies

FUNERAL services were held in Chicago Thursday for Ellis T. Gash, 52, vice president of Burnet-Kuhn Advertising Co., who died of a heart attack last Tuesday. A veteran of the advertising field for over 25 years, Mr. Gash once operated his own agency before joining Burnet-Kuhn. He is survived by his wife, Katherine, and a daughter.

NEW BUSINESS

Gillette Co. signs to sponsor Friday evening boxing bouts over ABC radio for 10th straight year, starting Sept. 4 for 39 weeks, Fri., 10 p.m. to conclusion. Agency: Maxon Inc., N. Y.

Sunkist Growers Inc., L. A., (Valencia oranges), starts concentrated national spot announcement campaign in 52 TV and 12 radio markets, for two weeks from week of Sept. 6. Agency: Foote, Cone & Belding Inc., L. A.

Procter & Gamble, Cincinnati (Lilt), was to start spot radio and TV campaign yesterday (Sun.) in six markets for an indefinite period, using both daytime and evening. Agency is Biow Co., N. Y.

Hamilton Watch Co., Lancaster Pa., will sponsor half-hour *Jewelry Showcase* program on DuMont's owned-and-operated stations, WABD (TV) New York; WDTV (TV) Pittsburgh and WTTG (TV) Washington, starting next month, for a total of 21 telecasts. **Pacific Coast Borax Co., N. Y.**, will sponsor half-hour *Death Valley Days* on same stations, starting next month, for total of 13 telecasts. Agencies are BBDO (Hamilton) and McCann-Erickson (Pacific Coast Borax).

Hills Bros., S. F. (coffee), renews *Woman's News Desk* on 45 Columbia Pacific Radio Network stations, Mon. through Fri., 3-3:05 p.m. PST, for 52 weeks from Sept. 21. Agency: N. W. Ayer & Son.

Block Drugs, through Cecil & Presbrey, N. Y., will replace *Crosley* as co-sponsor of *Harry Salter's Name That Tune* on NBC-TV Mon., 8-8:30 p.m., effective Sept. 7.

Cat's Paw Rubber Co., Baltimore, signs for alternate-week 10 minutes of NBC-TV's *Your Show of Shows*, Sat., 9-10:30 p.m.

North American Van Lines Inc., L. A., adds 26 CBS Radio Arizona and Mountain stations and two in Alaska to 18 station CPRN lineup carrying *CBS Radio News Room, Sunday Desk*, Sun., 5:30-6 p.m. PDT. Agency: Joseph Castor & Assoc., that city.

AGENCY APPOINTMENTS

Sayres Crest Co., Seattle, appoints West-Marquis Inc., Seattle, to handle nationwide advertising campaign for two new products: Fabri-Kit, build-it-yourself package of furniture parts, and sets of wrought-iron legs to be sold by lumber yards. **Stuart Nicholson** is account executive. Radio and TV will be used.

Raymond's Inc., Boston department store, appoints Ingalls-Miniter Co., Boston, to handle advertising. **W. J. Haughey**, vice president, and **Glen C. Livezey**, assistant to president, are associate account executives.

Heidelberg Brewing Co., Tacoma, Wash. (Heidelberg Beer and Columbia Ale), appoints Hofer, Dieterich & Brown Inc., S. F., as advertising agency for firm's California activities. **James A. Brown** is account executive.

PULSE UTILIZES NEW TECHNIQUE TO FIND UHF AUDIENCE FOR WHUM-TV

Pilot study for the Reading, Pa., outlet is designed to avoid most of the pitfalls which can be encountered in getting accurate figures for a uhf audience.

PULSE Inc., audience measurement organization, today (Monday) is issuing a report on a pilot survey made for WHUM-TV Reading (uhf Ch. 61), utilizing a new survey technique of physical receiver checks plus interviews that Pulse believes will provide generally satisfactory information about uhf station audiences.

Operators of uhf TV stations have been frustrated by the difficulties they have encountered in obtaining reliable information about their audiences. First, the highly competitive attitude of the various manufacturers of receivers and converters prevents the ready release of figures regarding the sale and installation of all-wave TV sets or converters which would provide the station with potential audience figures.

Converted Set Problem

Next problem, in areas that have vhf TV service already in operation, arises from the fact that most of the audience for uhf programs will come from converted vhf sets. These receivers have dials calibrated from 2 to 13, the vhf channels, one or more of them used in receiving programs from vhf stations. In converting the receiver for uhf reception as well, the serviceman can bring the uhf in at any point of the dial not used for vhf reception.

This means that a uhf station operating on Ch. 61, for example, will be tuned in by one family at Ch. 2 on its receiver dial, while the family next door may get the same programs on Ch. 7 and the family down the street on Ch. 13. An interviewer collecting program audience statistics who accepts reported channel numbers as indication of listening will, under these conditions, wind up with a batch of very confusing and utterly useless information, at least so far as the uhf audience is concerned.

Well aware of these problems since his station went on the air early this year, Humboldt J. Greig, president and general manager of WHUM-AM-TV, asked Pulse to devise a solution and employed that research organization to conduct a pilot survey within WHUM-TV's coverage area, including some 760,000 homes, to validate its method and to provide the station with (1) an estimate of the number of TV receivers in the area capable of receiving Ch. 61, (2) the position on the dial on which Ch. 61 was received, and (3) share of audience figures for the principal stations serving the area.

The Pulse report stated that:

"Interviewers found WHUM-TV not only on Ch. 61 but on nine different dial positions throughout the area. Many uhf stations are received on vhf converted sets with the usual channel numbers 2-13. This emphasizes the need for the personal interview in the home in order to determine absolutely which stations the set can deliver. The presence of uhf plus community antenna systems in this area necessitate this procedure."

The pilot study discovered that 100,550 homes could receive WHUM-TV programs at the time of the survey, a total that Pulse projected to 110,600 TV homes as of Sept. 1. Adding the portion of the station's area not covered in the first survey, Pulse calculates that the station has overall coverage of 127,350 homes able to receive its programs.

Godfrey's Return Propels 'Friends' to Top ARB Spot

RETURN of Arthur Godfrey to his Wednesday evening *Godfrey and Friends*, zoomed that show to the top of American Research Bureau ratings for the week of Aug. 1-7. Reaching over 34 million viewers, the TV show earned the best rating in its history. During the high-viewing winter months, *Godfrey and Friends* reached about 32 million individuals and the last week in June, with Mr. Godfrey away, the show counted only 24 million.

ARB Director James W. Seiler also announced that effective immediately ARB will begin TV audience coverage reports in 35 individual markets and by March of next year will expand its service to include 60 cities. ARB will continue to report national TV audience figures twice each month.

The ARB ratings for Aug. 1-7:

Program and Network	Viewers
1 Godfrey and Friends (CBS)	34,280,000
2 Racket Squad (CBS)	31,590,000
3 Toast of the Town (CBS)	29,340,000
4 Dragnet (NBC)	27,960,000
5 Best of Groucho (NBC)	26,290,000
6 Talent Scouts (CBS)	24,920,000
7 Television Playhouse (NBC)	24,620,000
8 What's My Line? (CBS)	23,120,000
9 Robert Montgomery Presents (NBC)	19,810,000
10 Burns and Allen (CBS)	19,250,000

Program and Network	Rating
1 Godfrey and Friends (CBS)	48.9
2 Dragnet (NBC)	48.6
3 Racket Squad (CBS)	48.2
	45.0
5 What's My Line? (CBS)	41.0
6 Best of Groucho (NBC)	40.1
7 Toast of the Town (CBS)	38.6
8 Mr. and Mrs. North (CBS)	37.5
9 Television Playhouse (NBC)	35.7
10 Burns and Allen (CBS)	31.5

'Dragnet,' 'Howdy-Doody' Top July 6-12 Telepulse

NBC-TV's *Dragnet* led the list of weekly television programs in the Multi-Market Telepulse for July 6-12 while its *Howdy Doody* was first among multi-weekly shows, according to ratings released last week by the Pulse Inc. The ratings:

TOP FIFTEEN ONCE-A-WEEK SHOWS		
	Program Average Rating	
	July	June
1 Dragnet (NBC)	33.5	41.2
2 Racket Squad (CBS)	32.1	
3 Best of Groucho (NBC)	30.4	41.7
4 Godfrey and His Friends (CBS)	29.3	34.7

YOU MIGHT GET A 175-POUND WOLF*—

**BUT...
YOU WON'T GET MUCH
IN WESTERN MICHIGAN!
WITHOUT THE
FETZER STATIONS**

WKZO-TV (80,000 WATTS VIDEO—40,000 WATTS AUDIO)

WKZO-TV, Channel 3, is the Official Basic CBS Television Outlet for Kalamazoo-Grand Rapids. WKZO-TV effectively serves more than 300,000 television homes in 27 Western Michigan and Northern Indiana counties—a far larger *television* market than is available in and around such “big” cities as Miami, New Orleans or Houston. New Videodex, Nielsen and Pulse reports prove that WKZO-TV is far ahead of the next Western Michigan TV station. One example: The April, 1953 Pulse shows that WKZO-TV gets far more than *twice* as many *morning* viewers (138.5% more) as Station “B”—108.0% more *afternoon and evening* viewers!

**A wolf weighing slightly over 175 pounds was killed on Seventy Mile River in Alaska.*

WKZO-WJEF RADIO

WKZO, Kalamazoo, and WJEF, Grand Rapids, give you maximum radio coverage of Western Michigan, at minimum cost.

The March, 1953 Nielsen Report credits WKZO-WJEF with a 12-county audience of 130,530 nighttime homes—151,050 daytime homes. In Kalamazoo and Grand Rapids, alone, February, 1953 Pulse figures show that WKZO-WJEF get 41% of the morning audience, 41% of the afternoon, and 40% of the nighttime, while the next-best two-station combination gets only 24%, 20% and 29%. *Yet WKZO-WJEF cost 12.2% less than this same “competitive” combination!*

Write direct or ask your Avery-Knodel man for *all* the Fetzer facts.

TELESTATUS®

Weekly TV Set Summary—Aug. 31, 1953—TELECASTING SURVEY

Editor's Note: Set estimates appearing here are obtained from stations, which report regularly on special, sworn affidavits. Totals for stations in each city represent sets claimed within total coverage areas of stations listed there. Coverage areas may embrace cities other than those where stations are listed, and no attempt is made here to define geographical limitations of station coverage or to identify cities within signal reach of stations that cover more than one city. Stations are listed in cities where they are licensed. Where coverage areas of stations in different cities overlap, set counts may be partially duplicated. If set estimates differ among stations in same city, separate figures are shown for each. Total U. S. sets in use, however, is unduplicated estimate.

TRENDEX QUESTIONS 'WHO TURNS IT ON?'

EXPANSION of the Trendex "TV Program Popularity Report" to include an "Index of TV Program Selection"—showing who turned the program on—was announced by Trendex last week.

The firm said pilot studies based on the question, "Who in your home selected this program?", had been compared with existing audience composition breakdowns, and that "in many cases the differences are startling."

For example, it was pointed out, in the case of a situation comedy sponsored by a cigarette manufacturer the audience had been found to be 27% men, 43% women and 30% children. But, Trendex continued, the new "Index of TV Program Selection" showed 12% of those who selected the show were men, 24% were women, and 52% were children, with a 4% having indicated the selection was unanimous while 8% said they had been watching the preceding program and left the set on.

"In addition to the many effectively planned commercial programs on the air now," Trendex concluded, "it is apparent from the above that some cases do exist where the advertiser is not even coming close to his potential buyer."

"The new index is offered to Trendex subscribers not as a conclusion in itself, but as another tool to eliminate 'blue sky' buying or selling of programs, and to aid in sound, carefully planned programming by the networks and their clients."

'Norths,' 'People Are Funny' Top July 19-25 Nielsen AM

MIDSUMMER radio network ratings were led by *Mr. and Mrs. North* and *People Are Funny*, according to National Nielsen Ratings for the Week of July 19-25. Complete ratings show:

USE OF RADIO, TV CO-OPS FAVORED BY MAJORITY, ANA STUDY FINDS

Total of 40 out of 72 advertisers studied make free provision for radio and 24 for TV, ANA study reveals. Percentagewise this represents 55.6% in radio and 33.3% in TV. ANA comparisons shown place newspapers first, radio second and TV fourth in co-op advertising. Popular '50-50' concept unsubstantiated.

A TOTAL of 40 advertisers out of 72 studied make free provision for use of radio in co-operative advertising, and 24 in the case of television, according to a special study issued fortnight ago by the Assn. of National Advertisers [B•T, Aug. 24].

These totals represent 55.6% in the case of radio and 33.3% in the case of TV.

In addition to these, the study showed that "with specific approval" the use of radio in co-op advertising was permissible in the case of three advertisers and the use of TV in the case of two. On the other hand, the use of radio as a form of co-op advertising was not allowed by three advertisers, and use of television was banned by one.

By comparison, it was shown that the use of newspapers was allowed freely by 66, or 91.7%, of the advertisers under study. With its 40, radio was second, while television with 24 was just behind third-place outdoor advertising with 25 (34.7%).

The popular concept of cooperative advertising as involving a 50-50 sharing of costs was not wholly substantiated in the ANA study, since dealer reimbursement was found to vary from 25% to 100% or more.

Nor was there uniformity in definition of "cooperative advertising" as practiced by the various groups.

Of the 40 advertisers who permitted the use of radio freely, nine allowed spot announcements only; of the 24 making provision for use of TV, eight allowed spot announcements only.

Among the advertisers who permitted the use of radio in co-op advertising without specific approval, four were in the drug and cosmetics class; eight were in the grocery, foods, candy, soaps and cleaners field; three were textiles and apparels type advertisers; four were "miscellaneous," covering silver, mattresses, paint, etc.; six were automotive, tires, gas and oils adver-

tisers; 10 were "large appliance" dealers, and five were radio-TV advertisers.

Similarly, use of TV without specific approval was indicated by three drugs-cosmetics type advertisers; one in the grocery class; three in the textiles-apparels category; three of the "miscellaneous" group; none of the automotive groupings; nine in the large appliance category, and five radio-TV advertisers.

The study was prepared by the ANA's Co-operative Advertising Steering Committee and is for the use of ANA members only.

NETWORK GROSS GAINS IN JULY

PIB's July figures of more than \$28 million surpass the radio and TV networks' totals for the same month in 1952.

GROSS time sales of the nationwide radio and TV networks during July totaled \$28,177,768, a gain of 17.3% above the July 1952 gross of \$24,016,059, according to figures on advertising expenditures for broadcast network time compiled by Publishers Information Bureau.

For the January-July period, 1953 gross time sales for the radio and TV networks total \$215,244,777, up 9.8% from the 1952 gross of \$196,122,923.

Radio network time sales for July topped those for the same month of last year by 7.1%, but for the seven-month period lagged 0.1% behind the 1952 gross. TV networks' sales for July were 26.4% ahead of July 1952; for January-July exceeded the 1952 gross by 16.0%. PIB's network-by-network tabulation follows:

ARF READIES RATING STUDY-1

The study, developed by ARF working committee No. 1, is due by mid or late October.

THE FIRST part of the Advertising Research Foundation's study of radio and TV rating methods tentatively is slated for mid or late October, ARF authorities said last week.

First of three scheduled parts, Book I will cover "What is wanted in audience size measurements; a delineation of the potentials of 10 different rating methods; a discussion of sampling size and sampling error in radio ratings and related topics," Fred Manchec, BBDO, retiring chairman of the ARF projects development committee, said in a report summarizing current activities.

This part, Mr. Manchec's report explained, represents that which "the ARF can carry on without special financing." (BAB has allocated \$15,000 toward the estimated \$25,000 project, provided the necessary remaining funds are obtained. Mr. Manchec said, "We hope to get the balance soon.")

The report, which accompanied the August newsletter of ARF President Edgar Kobak, pointed out that the rating methods committee's activities have been expanded, with three working committees totaling 20 members in addition to the 14-man main committee.

Working committee No. 1 is preparing Book I.

Committee No. 2 "plans to examine, by means of field and office observations, the work of the various rating services while their field work and tabulations are actually being done," the report said. "The purpose is to determine if the conduct of the work conforms to the standards established by the various practitioners."

Working committee No. 3 "proposes to analyze the ratings issued by the various services to determine, if possible, reasons for differences in ratings produced by the various methods as now practiced."

Mr. Manchec, retiring as ARF projects development committee chairman after serving since the committee was organized in March 1942, is succeeded in that post by Charles A. Pooler, Benton & Bowles. Mr. Manchec has been named projects progress advisor.

RKO RADIO MAY RELEASE BACKLOG OF FILM VALUED AT \$20 MILLION

The report is that RKO Radio Pictures Inc. is interested in selling a backlog of films—none over eight years old—to a group of Chicago businessmen.

SPECULATION that RKO Radio Pictures Inc. may yet release a backlog of films to television was revived in Chicago last week.

It was reported—but could not be confirmed—that RKO Board Chairman Howard Hughes was receptive to an offer from a group of Chicago businessmen for a library of unused films, which could in turn be sold to TV broadcasters.

The report was that Mr. Hughes, West Coast industrialist and producer, was expected in Chicago last week to open negotiations for the sale of the films.

A similar report was current in the fall of 1952 when a syndicate headed by Ralph Stolkin, Chicago industrialist, bought controlling interest in RKO Radio Pictures. Such a possibility was subsequently quashed, however, pending further study by the RKO board. Mr. Stolkin and his associates then resigned and returned the stock to Mr. Hughes early this year.

The latest report is that a group of Chicagoans, including one or two prominent hotel executives, are interested in buying up the RKO backlog and that they planned to meet

Mr. Hughes in Chicago Thursday.

One of the executives, it was learned, is Sam Leeds, who reportedly is identified with a group of Chicago hotels, including the Morrison, Midland and Hamilton. Mr. Leeds intimated such a conference was planned, but declined to comment on any aspect of the TV film plans. Mr. Hughes could not be reached late last week. Nor could the identity of his associates be learned.

The RKO film backlog is said to be worth about \$20 million. It was understood that none of the films, which the Chicago group reportedly would sell to interested TV broadcasters, are more than eight years old.

Meanwhile there was no further word on a similar report that Mr. Stolkin is negotiating for purchase of Columbia Pictures Inc., whose subsidiary, Screen Gems, produces TV film [CLOSED CIRCUIT, Aug. 17]. Mr. Stolkin also has been unavailable for comment.

Academy Film Announces 3-D Baseball Production

ACADEMY Film Productions, Chicago, has announced the production of what it claims is the first three-dimensional motion picture of major league baseball in action—with a system it previously used to produce what it claims is the first television film commercial in 3-D.

The 3-D films were shot during the Milwaukee Braves-Chicago Cubs game in Chicago Aug. 15—in full color on 16mm film. Academy utilizes a one-camera, one-film, one-projector Bolex Stereo system—the same used to turn out TV film commercials in 3-D. The production was announced by Bernard Howard, Academy president.

Court Accepts 'Hoppy' Film Bid

SECOND offer of \$5,000 by Hopalong Cassidy Inc. for some 200,000 feet of old Western film from the Harry (Pop) Sherman estate was accepted in Los Angeles Superior Court Monday, after Arlynne Sherman, daughter of the late producer, failed to show up with a bid topping that.

The stock footage had originally been sold to Hopalong Cassidy Inc. on June 22 for that same amount. However, the deal was ordered vacated when Miss Sherman and her sister, Theodora, protested they hadn't been given proper notice of the sale and claimed intention to bid on the property themselves [B•T, Aug. 17]. They informed the court that the film library might be worth as much as \$1 million.

ACE Bid by TV Film Editors

AMERICAN Cinema Editors board of directors has mapped new rules for admitting TV film editors into the organization. Most editors exclusively in TV have not been able to meet ACE initiation requirements. The organization's membership also is being polled by letter to approve the proposal.

Film Sales

Canada Dry Ginger Ale Inc. contracts for 52-week *Annie Oakley* TV film series starring Gail Davis. Agency is J. M. Mathes Inc. with CBS Television Film Sales acting as sales agent for producer, Annie Oakley Productions Inc. Fifty stations in leading markets have been set for the series, it was reported, with negotiations underway to add 20-30 markets. Production starts today (Monday), with a Jan. 1 TV debut slated.

Estimated cost per film is \$27,000. Production unit will use facilities of Flying A Productions, which produces the *Gene Autry Show* and *Death Valley Days*. Mitchell J. Hamillburg is president of the Annie Oakley company. Armand Schaefer, partner in the company, is executive producer. Colbert Clark is producer.

Canada Dry will promote the TV show with an extensive merchandising campaign with schedules being drawn for various media.

Sales of the *Badge 714* TV film show in six additional markets, bringing its total to 40, was announced last week by John B. Cron, national sales manager of the NBC Film Division. Other new sales reported by Mr. Cron included *Douglas Fairbanks Presents* in four markets, making a total of 93; *Hopalong Cassidy* and *Dangerous Assignment* in three, making a total of 125 each; *Captured* in three, *Life of Riley* in four, and *The Visitor* in two.

Sales of *All American Game of the Week* TV film series to six additional stations; its nine-series Station Starter Plan library to seven more, and *Front Page Detective* and *Public Prosecutor* to one each were announced Thursday by Consolidated Television Sales, film distribution firm.

Unity Films, New York, has signed a \$60,000 contract with WITV (TV) Fort Lauderdale, Fla., for 700 first-run feature movies. Initial telecast is scheduled in November, with series to cover one year.

Production

Revue Productions, North Hollywood, has started "The Humming Bird" for CBS-TV *Revlon Mirror Theatre* half-hour series. Film, based on a story by Cornell Woolrich, marks the video debut of radio-screen star Agnes Moorehead and features Tom Drake. Felix Felst is director. A romantic drama, "Heads or Tails," goes before the cameras shortly with Rodney Amateau directing. Stars are Joanne Dru, John Ireland and Mary Sinclair.

Volcano Productions, Hollywood, has been signed by NBC-TV to film the first program in a new series starring Mickey Rooney. Production starts shortly at Eagle-Lion Studios with Richard Quine directing from a script, co-authored with Blake Edwards.

Film People

Martin Eisenberg, motion picture finance expert, has been named production controller of Guild Films Inc., TV film producer and distributor, Guild Films President Reub Kaufman announced last week. He said the appointment was in line with rapid expansion by the company, which, he noted, has budgeted \$2.5 million for television film production during the coming year.

Richard Dinsmore, formerly part owner of Sound Recordings, San Francisco transcription firm, joins Screen Gems Inc., Hollywood, as West Coast sales manager. He at one time conducted his own orchestra on NBC.

AFM TO MONITOR STATIONS' FILMS

Union to check on possible violations of 5% gross fee plan. Negotiations continue on background music problem.

POLICING system has been set up by the American Federation of Musicians to check television for old motion pictures for which the union has not been paid its 5% of gross under the AFM's music performance and trust fund agreement.

Union members in every TV community have been assigned to do the checking, according to Phil Fischer, AFM International studio representative.

Meanwhile, TV film packagers and producers are continuing their negotiation with AFM President James C. Petrillo for a new flat rate royalty formula covering background music on filmed video shows [B•T, July 6]. Several proposals have been made, but as far as can be learned, none are acceptable to the AFM.

In substituting a flat fee for the present 5% of gross, Hollywood packagers and producers declare not only will a new deal alleviate a hardship on them, but it will result in added employment for musicians. Many packagers and producers, it was pointed out, continue to work around the present percentage formula by using vocal groups and background effects.

Los Angeles musicians, in frequent complaints, claim that the trust fund setup as it now operates discourages filming of video shows with live music. This contention has been backed up repeatedly by Los Angeles Local 47 officers.

NARTB RADIO COMMITTEE ACTIONS SPELL STATION-NETWORK SOLIDARITY

Association's AM and FM units meet to review their problems. Both point to increases in radio set production and sales, and launch efforts to increase business. AM group urges network representation on committees.

STATION and network cooperation in the job of expanding radio as an advertising medium appeared last week as a favored industry policy, pointing toward an end to the arms-length attitude that developed two years ago with a young epidemic of radio rate-cutting.

Moves in the direction of joint action, as against intra-industry battling, were taken as two NARTB standing committees—AM and FM—reviewed their problems at Washington meetings and then decided what to do about them.

'Indispensable Medium'

The AM Committee worked on plans to increase sales and develop new local, spot and national advertising business. This committee, pointing to recent increases in radio set production and sales [B•T, Aug. 17, 10], emphasized radio's low-cost advantages as well as its position as "the indispensable medium."

The FM Committee scanned recent developments in the medium, noted its circulation of nine million FM sets and tuners, and laid plans to increase the revenues of stations (see separate

FM story, adjacent page).

Chief sales weapon considered by the AM Committee was a long-range study of radio management problems released in final form last week. Originally proposed by the AM Committee, the study is titled "The Principles of Profitable Operation." It provides case histories of successful radio stations in five typical markets [B•T, May 4].

In essence the study points out, on the basis of detailed analyses in the field, that radio in the TV era "must realize its own strength as an advertising medium as compared with newspapers and magazines, and even, in many ways, its strength as compared with television; go to work and sell and resell itself at local, spot and national advertising levels."

The NARTB AM committee was given first-hand accounts of the studies by Richard M. Allerton, NARTB manager of research, who supervised the project. Field work was done by Stewart, Dougall & Assoc., New York management consultant.

First signs that peace and solidarity were emerging as industry policy appeared when the

AM Committee, of which G. Richard Shafto, WIS Columbia, S. C., is chairman, unanimously adopted a resolution urging the NARTB Radio Board to appoint a representative of each radio network holding NARTB membership to serve on the committee and on other radio committees.

Then, after reviewing the newly published Allerton market study, the AM group urged that NARTB President Harold E. Fellows order further management studies. These are to be based on topics that elicit most interest during the NARTB district meetings starting Sept. 14 at Seattle.

AM Committee Impressed

AM committeemen were impressed by the Allerton study after going over the document's findings, which had been summarized at the NARTB Los Angeles convention in the spring. The survey project was designed to show facts about American radio from an operational and financial viewpoint, and in turn to find what factors contribute to the business success of stations.

The main report has a collective analysis of case histories obtained in five typical markets, two with TV and three radio-only, covering a total of 20 AM stations. An appendix gives case histories of two 250 w stations, one in a small and one in a medium market. Each is a network affiliate. The separate studies show detailed operating practices and policies.

In the body of the report are case histories showing operations in the areas of programming, sales, personnel, public service and financial practices.

The report points out there is "no magic formula for profitable radio station operation." Instead, it adds, "the highly profitable operations over a long period of time have reached this degree of success by reason of management know-how, and constant application of this know-how to the operation of the station. Careful analysis of the report demonstrates beyond question that for the successful and profitable operation of radio stations the first and prime ingredient is management know-how in the radio station operating area."

Challenge Offered

This challenge is offered in the conclusions of the report:

"Successful management has demonstrated that there must be a continuing drive for new accounts and new business, regardless of whether you are in a radio-only market or in a radio-television market. In a television market your very existence is dependent upon your development of new radio advertisers—your drive is not primarily against television, but must be for radio against all other media and for the advertising business of the retailing or service trade which perhaps has never used advertising to any degree."

The AM Committee members paid a warm tribute to radio network officials in recommending that networks be admitted to the committee's membership if they belong to NARTB. (NBC and MBS are association radio members; NBC, CBS, DuMont and ABC are TV members.)

In adopting the resolution, this observation was made: "Radio's position as the most effective low-cost advertising medium in the United States has been established; this position has been unshaken by the introduction during recent years of new methods of advertising; the continuing strength of radio—demand for it by the public and use of it by advertisers—has induced organizational measure at both the network and

station level directed toward emphasizing that worth."

This statement was issued by the AM group after its Tuesday-Wednesday meeting:

Over the last two days, this committee has engaged in intensive discussion of radio management problems and the current economic status of the radio industry.

The committee has reviewed various government and industry reports concerning radio. It has noted reports on the increase in receiver production, amounting to 34% during the first 32 weeks of 1953 over the same period in 1952, reflecting the continuing and growing public interest in the medium.

Review Progress

The committee also has reviewed the industry's internal progress in solving its own problems during the last two years. It feels that the period of readjustment which followed naturally the introduction of television broadcasting on a wide scale basis is well advanced, and commends particularly the recent action of the networks in re-emphasizing the power of the medium through their reorganizational efforts which place proper emphasis on the nation's most effective low-cost nation-wide advertising medium. Supporting this enthusiasm for radio's selling force has been the activity of sales firms in the industry and of advertisers, many of them new advertisers, who are employing radio.

Current studies confirm that radio is an indispensable medium, important to advertisers because it is important to people. All of these factors demonstrate the confidence which has been placed in it not only by the public but by those broadcasters and networks and allied arts engaged in it professionally.

Besides Chairman Shafto, members of the AM Committee who attended the session were J. J. Bernard, KOMA Oklahoma City; Grover C. Cobb, KVGB Great Bend, Kan.; William C. Grove, KFBC Cheyenne; James L. Howe, WCTC New Brunswick, N. J.; Lester W. Lindow, WFDF Flint, Mich.; William D. Pabst, KFRC San Francisco, and F. C. Sowell, WLAC Nashville. Paul W. Morency, WTIC Hartford, was excused.

NARTB FM UNIT INITIATES STUDY

MEANS of increasing revenues of FM stations as the medium solidifies its industry position will be studied by NARTB under a mandate handed down Thursday by the NARTB FM Committee, meeting in Washington. The meeting followed a Tuesday-Wednesday session of the AM Committee (see story adjacent page).

The FM group authorized a thorough study of the costs of FM operation and ways of bringing in additional revenues through special services. Ben Strouse, WWDC-FM Washington, presided.

Stations Are 'Sold'

FM stations around the nation are more sold than ever on FM as a medium, Mr. Strouse told B•T after the meeting. He cited types of specialized aural services emphasized by FM stations, including sports, extension of limited AM coverage (particularly in the South), and special services such as storecasting and good-music programming.

Mr. Strouse and John H. Smith Jr., manager of the NARTB FM Dept., were instructed to work with Radio-Electronics-TV Mfrs. Assn. to see that manufacturers take advantage of new patents and production techniques as a

means of cutting the cost of FM receivers without cutting quality.

Prose Walker, NARTB Engineering Dept. manager, is conducting a study of methods of rebuilding FM transmitter tubes. This offers a way of cutting station operating costs, it was explained.

The committee went on record as expressing the belief many broadcasters who surrender their FM licenses are not fully acquainted with ways of bringing extra revenues from their FM transmitters, nor are they aware of the low cost of operating these transmitters.

Endorsement was given the joint NARTB-RETMA FM set promotion campaigns. Nine of these campaigns have been conducted in various areas.

Possibilities of multiplexing FM with other program services, besides facsimile will be in-

vestigated by NARTB. These can include at least one music service as well as four or five voice services on side bands.

FCC Comr. George E. Sterling was a guest of the committee at luncheon. He discussed problems of FM stations informally.

Taking part in the meeting on behalf of NARTB were President Harold E. Fellows; Robert K. Richards, administrative vice president; Messrs. Smith and Walker, C. E. Arney Jr., secretary-treasurer. They also participated in the AM sessions earlier in the week.

Attending the FM Committee meeting were Mr. Strouse, Walter J. Brown, WDXY (FM) Spartanburg; Carl George, WGAR-FM Cleveland; Richard Field Lewis, WREL (FM) Winchester, Va.; Edward A. Wheeler, WEAW (FM) Evanston, Ill.; Robert E. Williams, WFML (FM) Washington, Ind.; Michael R. Hanna, WHCU-FM Ithaca, N. Y., was excused.

NARTB staff officials and members of the organization's AM Committee met in Washington last week. On hand for the sessions were (l to r): Seated, F. C. Sowell, WLAC Nashville, Tenn.; Harold E. Fellows, NARTB president; G. Richard Shafto, WIS Columbia, S. C., chairman of the AM Committee; James L. Howe, WCTC New Brunswick, N. J.; standing, C. E. Arney Jr., NARTB secretary-treasurer; Grover C. Cobb, KYGB Great Bend, Kan.; J. J. Bernard, KOMA Oklahoma City; William C. Grove, KFBC Cheyenne, Wyo.; William D. Pabst, KFRC San Francisco; Lester W. Lindow, WFDF Flint, Mich., and Richard M. Allerton, NARTB manager of research.

WAAM (TV) PILOTS AFA'S TV AD DRIVE

The Baltimore station and the Advertising Federation of America announce plans to conduct campaign to heighten public awareness of advertising's value to the national economy. Techniques developed could be used on other stations and on networks.

WAAM (TV) Baltimore and the Advertising Federation of America will co-operate on a pilot television campaign to increase the public awareness of advertising's value to the national economy.

Announcement was made jointly Thursday by Ken Carter, general manager of WAAM, and Elon G. Borton, president and general manager of AFA.

The station has offered time, facilities and personnel to the AFA's "continuing drive promoting public understanding of advertising," according to WAAM.

Under the plan, Baltimore is to be used as a test market for television techniques, which will be designed for future national use on networks and local stations. WAAM's director of public service and promotion, Joel Chase-

man, met last week with Mr. Borton, his assistant, Jim Proud, and with Ralph Smith, vice president of Sullivan, Stauffer, Colwell & Bayles and chairman of the AFA committee involved, to work out plans.

Mr. Carter said a campaign "which shows the public the great values of advertising helps everyone." He said WAAM had volunteered on the project because "we believe in our business . . . and have a tradition (at WAAM) of giving as we receive." Mr. Carter asserted that agency, advertiser and station people and particularly the public should benefit.

Mr. Borton said AFA was appreciative of WAAM's offer to serve as a pilot in helping the organization "develop and test methods of explaining to the public on television." He said he thought that together, AFA and the station, "can devise some effective presentations which can then be used on other stations and networks."

According to the plan as conceived last week, Mr. Carter, Mr. Chaseman, Armand Grant, director of sales; Herbert B. Cahan, program manager, and Barry Mansfield, art director, will head up the station's campaign in Baltimore.

WAAM said they will adapt AFA copy lines and research material to TV usage including spot announcements, program inserts, display material, and programs for use on other stations.

BAB MERGES UNITS, FORMS PLAN STAFF

Donald Thornburgh of WCAU heads Plans Committee, the result of combining the Promotion and Research divisions.

MERGER of BAB's Promotion and Research Committees into a single, integrated Plans Committee to help the bureau's management in mapping its promotion and sales efforts for radio is being announced today (Monday) by President William B. Ryan.

Donald W. Thornburgh of WCAU Philadelphia, who served for almost two years as head of the Promotion Committee and also is a member of the BAB board, will be chairman of the Plans Committee, which consists of 16 station executives, four from the networks and two from station representation organizations.

First meeting of the new group is scheduled for the week of Sept. 21, when BAB's sales and promotion operations for the second half of the BAB fiscal year will be mapped.

On the agenda, spokesmen said, are such projects as expansion of radio promotion via radio; establishment of sales committees of BAB members in major cities to put additional pressures on national advertisers' sales organizations; progress of BAB's drive in the department store field, spearheaded by the recently launched 35-city test of radio's effectiveness by stores in the \$20 million-and-up class; plans for a series of advertiser-agency clinics in major cities, and further development of the current advertising campaign.

Announcing the new committee's formation, Mr. Ryan commended the work of Robert Dunville, Crosley Broadcasting Corp., who headed the Research Committee for two years, and other members of the BAB board who are retiring from the committee.

"The Plans Committee," Mr. Ryan said, "represents every type of radio station, all four networks, and the station representatives. It will develop BAB's overall plan in concert with the management for increasing local, network, and national spot business.

"Integration of the research and promotion planning and BAB's vastly expanded national-level selling into one group was dictated by our approach that everything we do should result in a sale at the national or local level. In the Plans Committee we will develop an idea through the research promotion stages into the actual sales plan."

Members of the committee will be:

Station executives: Edward Breen, KVFD Fort Dodge, Iowa; Al Cadwell, KOAT Albuquerque; Charles H. Crutchfield, WBT Charlotte; George J. Higgins, KMBC Kansas City; Howard Lane, KOIN Portland, Ore.; Winslow Leighton, WSNY Schenectady; Henry Johnson, WAPI Birmingham; Robert J. McAndrews, KBIG Avalon, Calif.; William A. McGuiness, WGN Chicago; Arden X. Pangborn, WOAI San Antonio; Daniel C. Park, WIRE Indianapolis; F. C. Sowell, WLAC Nashville; Ben Strouse, WWDC Washington; Owen F. Uridge, WQAM Miami; Walter E. Wagstaff, KIDO Boise, Idaho; Ralph N. Weil, WOV New York.

Network officials: George Bristol, CBS Radio; Oliver Treyz, ABC; James Tyler, Mutual, and a representative, to be named, of NBC.

Station representative presidents: Eugene Katz, The Katz Agency; Robert Meeker, Robert Meeker Assoc.

Mr. Thornburgh

A "COPY" of their product—a personal-sized radio—is carried along by BAB radio salesmen Charles E. Maxwell and John L. Moore (r) when they call on clients—in this case Lorraine Crooks, timebuyer, and Frank Silvernail, manager of BBDO's timebuying department. "If we were from a magazine we'd sure have a copy of our book in our hands," the salesmen affirm, "but we're here to talk about radio, so . . ." BAB reports "the gimmick serves as a perfect lead-in to discussions of extra sets and radio's ability to reach everyone, everywhere, at any time."

ABA Convention Sees FCBA Pre-Hearing Demonstration

FCBA and FCC's mock pre-hearing conference demonstration, staged for the first time in Washington in June [B*T, July 6], was presented before a general session of the American Bar Assn. convention in Boston last week. The skit was given for the lawyers under the title "Can Pre-trial Techniques Save Time and Money and Improve Justice in Administrative Hearings?"

Cast for the demonstration, which involves three competitive television applications for a single television assignment, included Henry G. Fischer of Fischer, Willis & Panzer, Washington; Benito Gaguine, FCC hearing examiner; Frederick W. Ford, chief of the Broadcast Bureau's Hearing Division; Robert J. Rawson, an attorney with the Hearing Division, and William C. Koplovitz of Dempsey & Koplovitz, Washington.

A panel discussion held after the demonstration included the cast and FCC Chairman Rosel Hyde, Judge E. Barrett, Prettyman of the U. S. Court of Appeals for D. C., and J. D. Bond, FCC examiner. Comr. John C. Doerfer also was in Boston for the ABA meet.

All Scripps-Howard in NARTB

SCRIPPS-HOWARD radio and TV station group is enrolled 100% in NARTB television membership, NARTB President Harold E. Fellows announced last week. The three TV stations—WCPO-TV Cincinnati, WEWS-TV Cleveland and WMCT (TV) Memphis—also are subscribers to the NARTB Television Code. Radio stations are WCPO-AM-FM Cincinnati; WMC and WMCF (FM) Memphis and WNOX Knoxville.

SCBA ILLUSTRATES RADIO'S GROWTH

GROWTH of the Southern California radio market is vividly shown by facts and figures in a presentation compiled by the Southern California Broadcasters Assn. and previewed at Los Angeles Advertising Club meeting Tuesday by Norman Nelson, SCBA managing director. It will be shown to advertising and agency executives in New York and other key cities shortly.

"Southern California radio reaches more people, more often, at less cost than any other medium in the area—or at any other time in the history of radio," Mr. Nelson commented. He quoted figures showing 7,186,206 radio sets are listed to 5,899,217 hours a day in the area. Sales of new radio sets exceeded TV set sales by 25.8% in first six months of 1953, he pointed out.

Speaking of TV's effect on radio advertising, Mr. Nelson said, "Los Angeles' seven TV stations have created new advertising dollars. Since 1948, radio revenue has increased steadily. There is no such thing as a 'TV home.' Instead, it becomes a radio-TV home."

Following the presentation, an SCBA panel consisting of Mr. Nelson; Stanley Spero, account executive, KMPC Hollywood (moderator); Calvin Smith, president, KFAC Los Angeles; Robert McAndrews, commercial manager, KBIG Avalon; Terry Mann, sales manager, KHJ Los Angeles, and Morton Sibley, sales manager, KFWB Hollywood, answered audience questions on the figures and Southern California broadcasting in general.

Clipp to Head C of C Advertising Committee

ROPER W. CLIPP, general manager of WFIL-AM-TV Philadelphia, has been appointed chairman to the U. S. Chamber of Commerce Committee on Advertising for 1953-54. He also is a member of the Chamber's board.

Membership of the Advertising Committee includes representatives of agencies, advertisers, media and universities. The group works with trade associations in forming the chamber's policy in the advertising field and seeks better public understanding of advertising as well as improvement of standards and techniques.

The committee membership, besides Chairman Clipp, includes Lloyd E. Partain, Curtis Publishing Co., vice chairman; L. T. Alexander, Du Pont; J. S. Bartlett, Potomac Electric Power Co.; A. H. Caperton, Dr. Pepper Co.; James T. Chirung, James Thomas Chirung Co.; Harry Deines, Westinghouse Electric Corp.; L. J. Dillon, Outdoor Advertising Inc.; Ben R. Donalson, Ford Motor Co.; Harold E. Fellows, NARTB; Frederic R. Gamble, AAAA; Francis W. Hatch, BBDO; C. J. Hibbard, Pet Milk Co.; E. J. Kahler, Stour Falls (S. D.) Daily Argus-Leader; C. B. Larrabee, Printers' Ink; Ernest R. Laws, Philadelphia Electric Co.; Robert T. Mason, WMRN Marion, Ohio; C. E. McKittrick, Chicago Tribune; Charles H. Sandage, U. of Illinois; Everett Smith, MacFadden Publications; William C. Sproull, Burroughs Corp.; Philip M. Talbot, Woodward & Lothrop; Leonard W. Trester, General Outdoor Adv. Co.; Wilbur VanSant, VanSant, Dugdale & Co.; F. A. Watts, Humble Oil & Refining Co.; John Pattison Williams, WING Dayton.

Mr. Clipp

Where's the fire?

The fire, Mr. Advertiser, is in Pittsburgh... where KDKA is doing one of the hottest sales jobs in the nation!

In fact, KDKA is helping set sales records for advertisers whose products or services are often considered hard to sell on radio.

Take **incinerators**, for example. Writes J. L. Neiman of Public Relations Research Service, agency for Hollinator incinerators: "The combination of the Johnny Boyer Sports Show and the Janet Ross programs outpulled and outsold all other radio stations combined."

Take **airline travel**. Writes Tom E. Marcinko of North American Airlines: "We are pleased to report that we have gotten excellent results from our one-minute spots on the various KDKA programs we are using."

Take **savings and loan service**. Writes J. E. Connelly, agent for Pittsburgh's Second Federal: "The first eight spot announcements on the Musical Clock brought in \$40,000 in deposits. In proportion to expenditures, KDKA outpulls other stations ten to one."

Why not set a hotter fire under **your** sales activity in the three-state Pittsburgh market? KDKA is the station that can do it for you. For suggestions, check KDKA or Free & Peters.

NARTB's Dist. 16 Meet

MEETING OF NARTB District 16 (So. Calif., Ariz., Nev.), originally scheduled for Sept. 18-19 at the Statler Hotel, Los Angeles, has been moved forward a day to Sept. 17-18, according to Albert D. Johnson, KOY Phoenix, District 16 director.

Proposal for a change because of observance of Yom Kippur, Jewish Holyday, starting at sundown Sept. 18, originated among district members (CLOSED CIRCUIT, Aug. 17). District 15 (No. Calif., Nev., T. H.) will meet Sept. 16-17 in San Francisco, bringing a one-day overlap. William D. Pabst, KFRC San Francisco, District 15 director, agreed to the change.

BAB Releases Third Series Of 'Sell Radio' Announcements

THIRD series of spot announcements in its campaign to "sell radio via radio" has been released by BAB, which, as was the case with its series last fall and last spring, is making the kit available to BAB non-members as well as members.

Consisting of five one-minute and fifteen 20-second announcements, the series stresses facts on the continuing growth of radio and its ability to reach everyone, as in the following:

"Radio is getting bigger every minute! Every three seconds, someone, somewhere, buys a radio set. Last year, Americans bought 11 million radios—two radios for every television set . . . Three radios for every refrigerator. Year after year, Americans buy more radios—by a two to one margin—than any other home appliance."

More Accept SRA ID Plan

REPORTING some 61 additional TV stations had indicated acceptance, Station Representative Assn. last week said that a total of 223 television outlets have subscribed to the SRA Shared ID Standard. This embraces 10 seconds of the station's identification and the top right-hand quarter of the screen and has resulted, a spokesman said, in "a large volume of time sales."

New AFA Districts To Form

ORGANIZATION of five new districts of the Adv. Federation of America will be started this fall, Elon G. Borton, president and general manager, announced last week. He said AFA has been promised the cooperation of all its 107 clubs in the project, which will boost the number of districts to 11. Jim Proud, assistant to the president, will be in charge of organizational activities.

NJBA Sets Nov. 9-10 Meet

FALL meeting of the New Jersey Broadcasters' Assn. has been set for Nov. 9-10 at the Hildebrecht Hotel, Trenton, it was announced last week by Paul Alger, NJBA president.

OKLAHOMA CITY NEWSPAPERS BAR FREE RADIO-TV PROGRAM LOGS

'Oklahoman' and 'Times,' themselves affiliated with WKY-AM-TV there, cast out free program logs, say stations must pay for the space. Public reaction to the policy change is termed 'fantastic' by KOMA.

RADIO and television logs of Oklahoma City stations will be published only on a paid advertising basis in the *Daily Oklahoman-Oklahoma City Times*, under a policy announced by the newspapers, with which WKY-AM-TV there are affiliated.

The policy brought "fantastic" public reaction, according to KOMA Oklahoma City, which said it had received 1,100 telephone calls within a week.

First announcement of the action was made in the *Daily Oklahoman*, as follows:

"Notice to the Public: Several months ago the *Daily Oklahoman* and *Oklahoma City Times* established the publication of the radio and television logs of its affiliates, WKY and WKY-TV on a paid advertising basis. Beginning today (Aug. 16) it will be the policy to carry all radio and television logs as paid advertising."

Thus far, according to KOMA, "the newspaper has made no direct move to even discuss the situation with any of the radio stations, owners or managers."

KOMA's position is that publication of the WKY-AM-TV logs by the newspapers "is a matter of simple bookkeeping on the newspaper's part as there is no actual cash involved in the transaction."

According to KOMA, "the remaining network affiliate stations (KOMA, KTOK and KOCY) have been unable to enter into any contract agreement with the newspaper. As a matter of fact, their advertising representative contacted the stations after the logs had been removed and stated that only the open national rate would be allowed.

"The rate, by the way, is 75 cents per line or \$10.50 per column inch. They will not even allow a contract rate made available to the theatre interests and various entertainment promotions."

WKY radio has placed a 10 column-inch paid advertising log, KOMA pointed out, add-

ing, "At the rates we have been offered, this ad would cost us \$105 on a combination morning and evening basis. Taking into consideration there are 52 single issues on Sunday throughout the year, the remaining 313 days with a single log each day would cost us \$34,885. The 52 remaining days, mainly Sundays at 65 cents per line using the same 10 column-inch ad, would cost \$5,632 or a combined total of \$40,517 for radio logs to appear for our station."

The only other newspaper in the city, the *Oklahoma City Advertiser*, a weekly, agreed to publish all radio and TV logs.

In an editorial titled "Monopoly Rides Again," the *Advertiser* called the new policy "monopoly . . . in the raw." It added, "The truth is that many have come to rely more on the radio than the newspaper for both news and opinion; on spot news the swiftest machinery—even the *Oklahoman's* new million-and-a-half dollar press—cannot compete with radio; and busy, harried people depend on a favorite commentator for interpretation of the day's events."

The *Advertiser* said the policy "can hardly be based upon the amount of space required since the programs have appeared for years." It posed this question: "Is the explanation actually in new television competition in the offing?"

The *Oklahoman* Aug. 21 carried a statement on its radio page titled "Radio Stations Are Commercial Enterprises, Too." Conceding there might be news value in program listings, the newspaper said, "We sincerely believe that the responsibility to the radio listeners for providing this service lies with the radio stations involved and not with this newspaper. Radio stations are commercial institutions. They, like other ethical enterprises which are operated for profit, should pay for those facilities which

MIDDLETON TAKES B•T CHICAGO POST

WARREN W. MIDDLETON, sales promotion manager of WLS Chicago, becomes Midwest Sales Manager of BROADCASTING • TELECASTING magazine, with headquarters at the publication's Chicago office, effective Sept. 7, it was announced last week.

He succeeds William H. Shaw, who was appointed general manager of KHMO Hannibal, Mo., earlier this month. KHMO was purchased recently from the Hannibal *Courier-Post* by Mr. and Mrs. James Bolling. Mr. Shaw succeeds Wayne Cribb at KHMO.

Mr. Middleton, 31, an Air Force veteran, has been in the broadcasting field the past eight years. At WLS he supervised promotion and advertising activities for three and a half years. Before his appointment at WLS, Mr. Middleton was sales promotion manager of KMOX St. Louis. He has held other sales posts with WLS, the station with which he started in November 1945, and with KTUC Tuscon.

Mr. Middleton was born in Chicago, had his schooling in the city's suburbs of Berwin and

Mr. Middleton

Mr. Shaw

Oak Park and was graduated from Cornell College at Mt. Vernon, Iowa. His wife is the former Shirley Schroeder. They have two children. His home is in Park Forest, Ill.

Also announced was the appointment of Barbara Koler, formerly with H-R Representatives, station representative firm, to B•T's Chicago office as editorial assistant and secretary. She is a graduate of Northwestern U.

"Big Mo" Towers over St. Louis

Rising more than 600 feet into the air on one of the highest plots of ground in the city, the KSTM-TV antenna is all set to transmit the very best in television entertainment to a market which has heretofore been a one station captive.

In a few short days, "Big Mo," with its 275,000 watts power, will be beaming ABC and CBS network shows and refreshing, entertaining local programs to a variety-hungry television audience.

KSTM-TV . . . even in pre-air days . . . is popular with St. Louisians. The first day of telecasting will make it a favorite. To cover the St. Louis area effectively, get aboard "Big Mo" . . . now.

AFFILIATED WITH AMERICAN BROADCASTING COMPANY AND RADIO STATION KSTL

they employ to promote their services, and such facilities include program advertising.

"The advertising columns of this newspaper are available for the unrestricted use of any radio station in Oklahoma City or elsewhere, at prevailing commercial rates, for the purpose of increasing or maintaining their listening audience, or to develop new sponsors, or for any other proper purpose."

The Aug. 21 edition of the *Times* carried two letters to the editor in which the new policy was criticized. "I always considered that the radio programs were one of the things I paid for when I bought the paper, and I can't see why the people who supply this information which I and many other people want should pay for it," wrote Alice M. Brues, a reader.

Another reader, Neil Tuohy, wrote that he was "shocked" and added, "I believe you are negligent in your duty, as the only daily newspaper, to supply this important information as a public service."

NEW AM transmitter for KPHO Phoenix, a Collins 21E model, was put into operation last Thursday by (l to r) George McClanathan, director of engineering for KPHO-AM-TV; Bob Martin, KPHO manager, and Dick Rawls, general manager of the Meredith stations. They examine a wire from FCC which gives go-ahead for the transmitter. Cost of transmitter and other equipment amounted to more than \$40,000.

WNBC-WNBT (TV) Billings Ahead of 1952 Figures

RADIO and TV business totals are running substantially ahead of 1952's record figures for NBC's WNBC and WNBT (TV) New York, and station executives are mapping new departures to keep the totals going up.

Outlining plans for the immediate future, station manager Ernest de la Ossa noted last week that WNBC's sales volume for the first seven months—January through July—was approximately 14% above that for the comparable period of 1952, which was the highest in the history of the station, and predicted that the full year's figures would be 20% ahead of those for last year. On the television side, he said seven-month totals for WNBT (TV) are about 28% ahead of those for 1952, with substantial selling periods yet to come.

To boost these improvements even higher, Mr. de la Ossa and his colleagues have several innovations in store. One is the "Three P's" program of operations, involving the programming, press-and-publicity, and promotion departments of the stations. Under this battle-plan the Three-P's departments work together to devise a campaign "package" to support the offerings of the sales department.

UHF's ON AIR FORGE AHEAD OF VHF's IN POST-THAW TV STATION STARTS

Uhf station debuts for fifth straight week outscore vhf starts. Latest bows are taken by uhfs, one each in Portland, Me., and Tyler, Tex., and one vhf in Abilene, Tex. Total post-thaw score: 58 uhf, 54 vhf.

FOR THE FIFTH straight week, uhf has taken the lead in station debuts.

With two more uhf stations going on the air yesterday (Sunday) and today, the number of post-thaw uhf outlets is beginning to take a significant lead over the number of post-thaw vhf stations.

During the past week only one vhf station was to begin regularly scheduled commercial programming. In the previous week only one vhf station started a commercial schedule, while another vhf station went off the air [B•T, Aug. 24]. The week before that, three uhf stations went on the air while only one vhf started [B•T, Aug. 17], and four weeks ago not one vhf began commercial programming, but a uhf station did [B•T, Aug. 10].

Today the majority of post-thaw stations on the air commercially are uhf stations. The score: 58 uhf, 54 vhf.

The two uhf stations which were to go on the air yesterday and today are the first TV outlets in their cities:

WPMT (TV) Portland, Me., uhf Ch. 53, affiliated with all four networks.

KETX (TV) Tyler, Tex., uhf Ch. 19, affiliated with all four networks.

The solo vhf also is the first in its market:

KRBC-TV Abilene, Tex., vhf Ch. 9.

Tomorrow, 16 stations expect to begin programming (see list of all those planning a start within 30 days at end of this story). Of this number, 10 are uhf and only six vhf.

Here are late reports on construction:

'First in Maine'

WPMT (TV) Portland, which began test pattern transmissions Aug. 28, was to have begun programming at 6 p.m. yesterday with CBS-TV's *Toast of the Town*. Frank S. Hoy, president and general manager, said it would be "the first live network telecast in Maine." The station is transmitting with an RCA 1 kw transmitter.

KETX (TV) Tyler, Tex., which is to begin today, reported last week it began testing Aug. 24. Affiliated with all four networks, the station is operating with an effective radiated power of 2.1 kw visual.

KRBC-TV Abilene, Tex., which was to have begun commercial telecasting on vhf Ch. 9 last night, is represented by John E. Pearson TV Inc.

Two share-time stations are planning their joint debut tomorrow (Tuesday).

WTCN-TV Minneapolis and WMIN-TV St. Paul, which will share vhf Ch. 11, reported last week they will begin with effective radiated power of 70 kw visual, which will be boosted to 316 kw as soon as more equipment is received. The stations are ABC-TV affiliates.

Another station which plans commercial operation for tomorrow is WNOK-TV Columbia, S. C., uhf Ch. 67.

The second station to receive a DuMont 5 kw transmitter with a Klystron tube, WNOK-TV will have an effective radiated power of 93.5 kw visual. Because of favorable terrain, H. Moody McElveen Jr., general manager, said he expects that the Columbia station's coverage will "equal or surpass" coverage demonstrated by WGLV (TV) Easton [B•T, Aug. 17]. Mr.

McElveen said more than 30 orders for commercial time have been received.

WTVH-TV Peoria, Ill., uhf Ch. 19, put its test pattern on the air Aug. 20, Hugh R. Norman, president, said last week. WTVH-TV also plans to begin programming tomorrow.

Joe L. Smith Jr., president of WKNA-TV Charleston, W. Va., last week took John T. Copenhaver, mayor of Charleston, on a tour of the uhf Ch. 49 station. WKNA-TV expects to start early in September with ERP of 22.5 kw visual.

A Sept. 7 opening is planned by WBES-TV Buffalo, N. Y., uhf Ch. 59. The station is building a tower atop a building in downtown Buffalo and will use an RCA transmitter.

Walter Rothschild, secretary-treasurer of the Lee Broadcasting Co. and general manager of KHQA-TV Hannibal, Mo., and WTAD Quincy, Ill., said Thursday that KHQA-TV started its test pattern at 7:30 a.m. Aug. 27, with regular programming operations planned in about two weeks. KHQA-TV is operating with interim power of 36.3 kw visual ERP, using a 12-bay antenna 96 feet above average terrain, he said. The station is affiliated with CBS-TV and DuMont and is represented by Weed Television. Mr. Rothschild claimed that KHQA-TV was the first TV station on the air in the Tri-City area.

Joe Bonansinga, general manager of WGEM-TV Quincy, Ill., told B•T the new vhf Ch. 10 station started equipment tests Thursday, Aug. 27, at 11:47 p.m. CST. Program tests will follow shortly.

KHQA-TV and WGEM-TV in neighboring cities, were shipped 5 kw DuMont transmitters on the same truck last month [AT DEADLINE, July 27], and crews raced to see which station could get on air first.

WGEM-TV is affiliated with NBC-TV and ABC-TV networks and is represented by the Walker Representation Co. The radio affiliate is WGEM-AM-FM. Stations' licensee is the Quincy Broadcasting Co., owned by the *Quincy Herald Whig*. T. C. Oakley is president.

An intensive uhf promotion campaign is going into its fourth month in Chambersburg,

PREPARING to tune in for first test patterns of share-time TV grantees KSBW-TV Salinas and KMBY-TV Monterey (Calif.), are (l to r) Salinas Broadcasting Corp. partners John Cohan, president-general manager, William Oates, commercial manager, and Lewis Terven. KSBW-TV is to start programming Sept. 11.

PHILCO HAS IT!

A REVOLUTIONARY NEW FILM PROGRAMMING SYSTEM

This new Philco TV Film Scanner will put realism and life into your film programs . . . It will build audience acceptance surpassing anything you have ever experienced with conventional film projection systems. Developed by Philco, this unique Film Scanner is a complete, yet inexpensive program source for both film and slides. It is quiet, compact and easy-to-operate. New design principles employing continuous film motion and flying-spot scanning techniques result in superb film reproduction and greatest reliability. Film motion is continuous and smooth . . . resulting in greater film life and utmost dependability. Moreover, this Philco Film Scanner is adaptable to any color system or any TV standard.

CHECK THESE PHILCO FEATURES:

- Operates at any Film Speed . . . Can Project Stationary Frames.
- Cold Illumination Source—No Film Burning.
- Smooth Film Movement . . . Reduces Film Wear.
- Distortionless Optical Compensation for Film Shrinkage.
- Automatic Film Registration and Extreme Picture Steadiness.
- Shading Adjustments Eliminated by Flying-Spot Scanner.

Philco 35 mm Film Scanner.

PHILCO CORPORATION

GOVERNMENT & INDUSTRIAL DIVISION • PHILADELPHIA 44, PA.

Pa., where WCHA-TV has been sending out weekly progress reports since June 18, closed circuit TV demonstrations in dealers' showrooms and a "bow tie" slogan contest, designed to stimulate purchases of converters and uhf antennas. John S. Booth, president of WCHA-TV, said that with a Sept. 15 commencement planned, the final phases of the promotion now are underway. Test pattern operations are to begin tomorrow.

In another market, Reading, Pa., WEEU-TV, a uhf station already on the air, believes it has found the answer to the "selling uhf" problem.

Thomas E. Martin, general manager of WEEU-TV, uhf Ch. 33, said that uhf outlets should "concentrate on the primary market area — engineering-wise—and program-wise. It's a local market," he pointed out, therefore, "give it the local touch."

On Aug. 20, WEEU-TV began telecasting with ERP of 170 kw visual—a substantial increase over its previous power of 1.4 kw.

With the increased power, the number of vhf receivers in the coverage area is more than 500,000, Mr. Martin estimated. He believed about 15,000 receivers were capable of receiving uhf, and to get the rest to convert, the station will accent what he describes as "localized engineering" and "localized programming."

Localized engineering involves building the station so it will cover a radius of about 55 miles with a strong signal, instead of trying to cover a wider area with a weaker signal, he said.

WICS-TV Begins

WICS-TV Springfield, Ill., which begins commercial operation on uhf Ch. 20 about Oct. 1, will be affiliated with all four TV networks, Milton D. Friedland, station manager, announced last week. Plans also were revealed for interconnection facilities permitting live programming.

Work on the new uhf outlet's transmitter and studio facilities is rapidly nearing completion, he reported. Interconnection is planned with the networks by a microwave relay from Chicago through Peoria into Springfield by Oct. 1.

Live interconnection will eliminate the need for kinescopes on a delay basis, Mr. Friedland noted. He added that WICS-TV will produce its own local live shows and use film made especially for TV. Adam J. Young Jr. is national representative.

The total number of commercially operating TV stations in the U. S. and territories is 220. KUHT (TV) Houston and KETH (TV) Los Angeles, both noncommercial educational stations, raise the total-on-air number to 222. KUHT is vhf and KETH is uhf.

Commercial vhf outlets number 162, of which 54 are post-thaw stations. Commercial uhf stations total 58, all post-thaw. Total commercial post-thaw (vhf and uhf) number 112.

• Here are the grantees which contemplate starting within the next 30 days. The information is provided by the station executives, the national representatives and the networks.

DODGER TV HASSLE GOES INTO COURT

On behalf of its WABD, DuMont TV Network asks a temporary injunction against the IBEW local.

DuMONT TV Network went into court late last week in an effort to get the Brooklyn Dodgers baseball games, formerly handled by still-struck WOR-TV New York, on the air over DuMont's WABD (TV) there.

Network counsel asked the State Supreme Court Thursday for a temporary injunction to keep Local 1212 of the International Brotherhood of Electrical Workers (AFL) from interfering with WABD's scheduled telecasts of the games.

The court's hearing Thursday afternoon, before Justice Samuel DeFalco, was devoted to arguments over the validity of service of the papers on the union, and another session Friday afternoon was slated to consider the same subject. But DuMont officials appeared confident that the whole issue would be solved satisfactorily in time for WABD to carry the games Saturday night and Sunday, as well as for the rest of the season.

WOR-TV Had Carried Games

Until Local 1212's strike against WOR-AM-TV started on Aug. 18, WOR-TV had carried the Dodgers games under sponsorship of Schaeffer Beer and American Tobacco Co., through BBDO. When remote broadcasts were ruled out because of the strike, arrangements were made for WABC-TV New York to carry the broadcasts under the same sponsorship. But IBEW electricians at the ball park refused to turn on the power for WABC-TV engineers, who are members of NABET [B* T, Aug. 24], and the sponsors then signed with DuMont for the baseball coverage.

Then DuMont engineers, members of International Alliance of Theatrical Stage Employees (AFL), encountered an IBEW picket line when they appeared at the ball park, and DuMont officials, after advising their engineers to respect the picket line, instituted suit against the IBEW local.

Chris Witting, DuMont's managing director, said his company's position was that IBEW's dispute is not with DuMont or WABD, but with WOR; that WABD has a firm order from

WDSU-TV New Orleans goes to 100 kw maximum power on Ch. 6 as engineer John Dickenson throws the switch. Edgar B. Stern Jr. (c), president of WDSU Broadcasting Corp., and Lindsey Riddle, station's chief engineer, are witnesses to the power boost ceremony.

the sponsors for telecasts of the remaining Dodgers games, and that accordingly WABD is entitled to carry the games without interference from IBEW.

Meanwhile the strike at WOR-AM-TV continued, as did one that broke out Aug. 16 at WEVD New York.

WEVD was still off the air last week while negotiations continued over demands of engineers—also members of IBEW Local 1212—for higher pay.

At WOR-AM-TV, with negotiations also continuing over the key question of expansion or limitation of the duties of engineering staffs, the radio outlet was reported functioning normally with the use of supervisory employes, and the TV operation was said to be back to normal except for remotes.

Active TV Thieves

TWO recent thefts of telecasting gear over the same weekend have the Hollywood police and executives of ABC-TV and KLAC-TV wondering if there is an unlicensed competitor operating behind the scenes. ABC-TV is minus a registered \$8,500 RCA field camera, which in itself is useless without an additional \$8,000 worth of equipment. KLAC-TV is missing equipment totalling \$3,000 from the station relay point in Glendale.

RESULTS THAT COUNT—

A local agency told WGN-TV: "The leads developed from a single announcement on your program were better than four times any other television show that we have utilized."

A national advertiser said: Out of five markets used in this promotion, WGN-TV delivered 40% of the returns.

If you want RESULTS in Chicago, whether you're large or small, make WGN-TV your best television buy.

The Chicago Tribune Television Station

SURVEY SHOWS UHF AT 4.4% IN NORFOLK

Joint study was made Aug. 15 for NBC and WTAR-TV to show conversion of vhf TV homes to enable uhf reception as WVEC-TV readies for Sept. 19 commencement.

RESULTS of a special TV survey conducted in the Norfolk metropolitan area show uhf conversion totaling 4.4% of television homes during the week of Aug. 15. The survey was conducted by American Research Bureau, jointly retained by WTAR-TV Norfolk and NBC, whose network service moves to the new uhf station, WVEC-TV Hampton-Norfolk, effective Sept. 19.

The study is first of a monthly series designed to show extent of uhf installations in the Norfolk area. Next study will be conducted Sept. 10-16, just before WVEC-TV starts program service.

WVEC-TV has been transmitting a test pattern since Aug. 15 and plans to start program service Sept. 19. It is operating on uhf Ch. 15.

The survey results are based on completed telephone interviews with 2,380 homes, of which 1,354 were in the Norfolk-Portsmouth metropolitan area and 1,026 in Hampton-Warwick-Newport News. Results were weighted at 75% Norfolk and 25% Hampton-Warwick-Newport News.

TV saturation in the combined area was found to be 79.6%, or 140,176 TV homes, using 176,100 total homes as a base. Uhf saturation was 4.4% of all TV homes, or 6,167 homes.

In the Norfolk-Portsmouth area, TV saturation was 79.6% or 106,664 homes, with 4% or 4,266 homes having uhf.

In the Hampton-Warwick-Newport News area, TV saturation was 79.4% of all homes, or 33,427 homes, of which 5.5% or 1,838 homes were equipped with uhf.

As to channels viewed most, Ch. 4 (WTAR-TV) was listed by 98.7%, others by 0.2% and 1.1% did not answer. Answering the channel-being-received question, 99.5% listed Ch. 4 (WTAR-TV). Others included Hampton, Richmond, Washington and Baltimore.

Thomas P. Chisman, president and manager of WVEC-TV, told B•T: "I'm very well pleased with the figures at this stage. The study was made before we had been on the air a week, and then only with a test pattern.

'No Problem'

"We anticipate no problem in attaining coverage, believing that good program service will supply the answer."

Mr. Chisman said conversions were now proceeding at the rate of 1,000 a day and estimated present coverage at 13,000.

NBC started intensive uhf promotion in the Norfolk area in mid-July.

Campbell Arnoux, president and manager of WTAR-TV, told B•T: "We are not at all surprised at the small number of new sets and conversions despite the unprecedented publicity and sales campaign in all media and the large number of special crews sent down from Camden to assist in conversions. The results are just what we expected."

Mr. Arnoux said his original estimate of 15,000 to 18,000 uhf homes in the area when NBC goes to WVEC-TV Sept. 19 still stands, recalling that NBC had predicted 50,000 installations by that time. He added that the ARB survey did not ask if uhf homes had outside antennas.

INSPECTING KOMO-TV Seattle transmitter equipment as it arrives from RCA are (l to r) F. J. Bratt, chief engineer; W. W. Warren, vice president and general manager, and O. W. Fisher, president of Fisher's Blend Station Inc. KOMO-TV announced it would be on the air Dec. 11 on Ch. 4 with 100 kw as the NBC-TV affiliate for Seattle and Western Washington.

WBKB (TV) To Boost ERP

WBKB (TV) Chicago, American Broadcasting-United Paramount outlet on vhf Ch. 7, plans to increase its power about 300%—from the present 28.3 kw visual to 114 kw—effective Sept. 18, the ABC Central Division announced last week. Power boost is expected to boost station's coverage of the Fox River Valley area comprising Aurora, Elgin, Waukegan and East Gary. WBKB hopes to reach maximum 316 kw FCC late next year, with installation of a 50 kw transmitter and new antenna. New power will mean radius increase in Grade A coverage from 25 to 34 miles and in Grade B from 43 to 51 miles.

WSAP to NBC as WAVY

WSAP Portsmouth, Va., on Sept. 19 will be under a new call, WAVY, when it switches its network affiliation from MBS to NBC. Station, with 5 kw on 1350 kc, is licensed to Portsmouth Radio Corp.

WOWO Breaks Ground for New 50 kw Transmitter

GREATEST significance of WOWO Fort Wayne, Ind., ground breaking ceremony Aug. 20 for the station's modern transmitter building to house a new 50 kw transmitter is "our faith in radio, demonstrated in a project such as this," Carl W. Vandagriff, station manager, said.

Mr. Vandagriff said the station also recognized that the new transmitter would extend its service "to many more listeners over a greater area." Cost is estimated at about \$250,000.

The new power plant, which has a completion target date of next October, is 12 miles southwest of Fort Wayne. After the brief ceremony, construction was started on tower foundations which will anchor three, 420-ft. directional antennas. Actual start on the building will follow. The building will house in addition to the transmitter, a diesel generator emergency power supply and an auxiliary studio.

WOWO is owned by Westinghouse Radio Stations Inc. which operates four other radio stations in major markets. Westinghouse noted that when the WOWO transmitter is completed, all five WRS stations will be operating on maximum power. Other stations are WBZ Boston, KDKA Pittsburgh, KYW Philadelphia and KEX Portland, Ore.

Lincoln Dellar Sells KDB To F. B. Bauer for \$75,000

SALE of KDB Santa Barbara, Calif., by Lincoln Dellar for \$75,000 to F. Robert Bauer, former New York agency executive, was announced last week. The transfer is subject to FCC approval.

Mr. Bauer, prior to moving to Santa Barbara, was the New York manager of the radio-TV department of Cunningham & Walsh Inc. Previously, he had been chief timebuyer for Dancer-Fitzgerald-Sample, New York.

Mr. Dellar owns and operates KXOA Sacramento and KXOC Chico, Calif. He also is contestant for vhf Ch. 3 at Sacramento. The KDB sale was negotiated by Blackburn-Hamilton Co.

CALL LETTERS of WMGM New York are given by Pat Brady (wife of Sy Weintraub, vice president of Motion Pictures for Television). She is one of six "Miss Rheingold" contest finalists on the station. Giving her pointers on station break reading are (l to r) William L. Dye, advertising manager, Liebmann Breweries Inc.; Robert Weenolsen, Rheingold account executive in charge of radio-TV, Foote, Cone & Belding; Arthur Tolchin, sales manager, and Raymond Katz, program director, both WMGM. The finalist asks WMGM listeners to vote for her in Rheingold stores and taverns, and if selected, she will be starred in the company's 1954 advertising campaign.

17 Television Outlets Get Transmitting Equipment

SEVENTEEN television stations were shipped new transmitting equipment by RCA Victor, General Electric and the Allen B. DuMont Labs Inc. last week.

RCA shipped 1 kw uhf transmitters to WOKY-TV Milwaukee, Wis., uhf Ch. 19; WLBR-TV Lebanon, Pa., uhf Ch. 15; WARD-TV Johnstown, Pa., uhf Ch. 56, and to Capital City TV Co., Sacramento, Calif., uhf Ch. 40.

A 25 kw vhf transmitter was sent by RCA to WSLV-TV Roanoke, Va., which has been operating with a 2 kw RCA transmitter since last December.

GE shipped three 100 w uhf transmitters. They went to KBMT (TV) Beaumont, Tex., uhf Ch. 31; WCOS-TV Meridian, Miss., uhf Ch. 30, and to WPFA (TV) Pensacola, Fla., uhf Ch. 15.

GE's 12 kw uhf transmitters were shipped to WEEU-TV Reading, Pa., uhf Ch. 33; WILK-TV Wilkes-Barre, Pa., uhf Ch. 34; WKLO-TV Louisville, Ky., uhf Ch. 21, and to WIFE (TV) Dayton, Ohio, uhf Ch. 22.

One GE 1 kw amplifier was shipped to WLOK-TV Lima, Ohio, uhf Ch. 73.

Vhf equipment included 5 kw transmitters sent to KATV (TV) Pine Bluff, Ark., vhf Ch. 7; WSJS-TV Winston-Salem, vhf Ch. 12; WSVL-TV Harrisonburg, Va., vhf Ch. 3, and to KOIN-TV Portland, Ore., vhf Ch. 6.

Ready to ship is a 5 kw transmitter for KDRO-TV Sedalia, Mo., vhf Ch. 6.

GE also sent a 20 kw vhf amplifier to WCPO-TV Cincinnati and a 30 kw vhf amplifier to WJBK-TV Detroit. Both are pre-freeze stations.

DuMont announced that it had shipped its second 5 kw uhf transmitter and complete associated station equipment to uhf Ch. 67 WNOK-TV Columbia, S. C. (see story page 56).

WOR Participation Plan Has Giveaway, Merchandising

A COMBINATION radio and television program with a telephone giveaway feature and merchandising tie-ins was offered for participating sponsorship last week by WOR-AM-TV New York, which described the package as "an auxiliary sales force" for advertisers and said it would start Oct. 12.

The plan offers advertisers up to 84 time segments a week—42 on each of the stations—plus participation in a weekly half-hour simulcast. There will be six one-minute segments daily on WOR and six on WOR-TV. On the first and fourth of these each day, eight non-competitive grocery products will be featured as "brands of the day," officials said, while on the second, third, fifth and sixth only seven products will be featured, with one sponsor purposely omitted.

Immediately after these "prize segments" the station will make telephone calls to families selected from a list of those who register by letter or postcard. Among those called, the first family that correctly identifies the missing sponsor will receive a \$25 cash award. Thus, it was explained, there will be fifty-six \$25-winners a week, and these fifty-six will qualify as contestants for the weekly grand prize of a \$3,000 mink coat, to be awarded on the weekly half-hour simulcast.

The program, called *Spot the Sponsor*, is being offered under contracts for from one- to seven-day participations. For seven-day participations (84 segments and the simulcast) the cost is \$2,590; for one day, \$430. Spokesmen explained last week that the presentation was just being completed and that no advertisers had yet signed.

WBS TAILORS TO SPOT BUYING

THIS YEAR's business volume of World Broadcasting System, radio transcription library and program service, is expected to exceed last year's record total by 30 to 35%. General Manager Pierre Weis said last week in announcing that World will start immediately to accelerate its policy toward "programs that invite spot buying."

He said the policy move was in anticipation of an "even more marked trend" toward local programming and local spot sales in radio. As indication of what he considered the changing character of local radio selling, he cited local sales of World's recent *You Win* telephone quiz, which he said had accounted for more than \$3 million in billings for World subscribers.

Trend To Local

"It is becoming more and more apparent," Mr. Weis said, "that the trend in radio toward local programming and local selling is increasing all the time. Even the radio networks have recognized this by bringing local stations more into the program picture as sources of talent and material."

"Because World business is local business, we will continue to stay ahead of this trend by emphasizing more and more merchandising programs designed for local spot business and local sales from this point on."

Spivak, Rountree Dividing Radio-TV Package Shows

LAWRENCE C. SPIVAK and Martha Rountree were in negotiations last week looking toward a shifting of interests in their radio-TV package shows. Mr. Spivak was expected to buy Miss Rountree's share of *Meet The Press* and *Big Issue*, with Miss Rountree keeping *Nation's Press Conference*.

Miss Rountree is understood to be joining her husband Oliver M. Presbrey, in a newly-formed firm which will produce and package *Leave It to The Girls*, soon to return to ABC-TV, and *Washington Exclusive* as well as *Nation's Press Conference*.

Mr. Spivak told B•T, that negotiations have been going on for quite awhile and may not be completed immediately.

INDUSTRY AWAITS SEPT. 8 DEADLINE AS ACTIVITY CONTINUES ON COLOR TV

Emerson President Abrams states that firm will produce color sets at 25% above present prices within 18 months of FCC approval. RCA and GE sell their first color gear.

AS the industry watched to see what the FCC-fixed, Sept. 8 deadline for comments on color TV brings forth, activity on that subject continued last week.

• Emerson Radio & Phonograph Co. pledged that within 18 months after the FCC approved the NTSC compatible color standards it would bring out a color TV set at 25% above the price of present black-and-white sets.

• Hoffman Radio Corp.'s President H. Leslie Hoffman said it would take two years following the FCC's approval of compatible color standards before the industry could begin to mass produce tri-color tubes.

• Both RCA and GE sold their first color TV equipment to stations; the former to WWJ-TV Detroit and the latter to KVTU (TV) Sioux City, Iowa.

• An NTSC committee drafted, at the request of the FCC, a revision of the present black and white rules and standards so as to permit the broadcasting of color signals.

Emerson's Pledge

Emerson's pledge was contained in a letter to FCC Chairman Rosel H. Hyde and other members of the FCC from Emerson President Benjamin Abrams. In urging that the Commission approve the NTSC standards for compatible color TV, Mr. Abrams said that Emerson "aims to produce color television receivers at prices approximately 25% above present-day black-and-white receivers" within 18 months after FCC approval.

Mr. Abrams also pledged that "concurrently we will use every effort in line with our long established policy and reputation as the leading expert in space-saving radio and television receivers to evolve the most compact color television receivers."

The Emerson executive's statement on color prices followed reassertion of his belief that "television cannot be a complete success, nor rise to its full maturity, unless not only black-and-white receivers but also color receivers are

available at prices within the reach of the average consumer."

"Color will become significant to the receiver manufacturer when 21-in. color sets are produced to retail at \$500, and that is some years off." The estimate was made by Mr. Hoffman at a Washington news conference last week.

Mr. Hoffman, who declared himself wholeheartedly in favor of the NTSC standards, said that even after the FCC approves compatible color, there still will be a technical problem—tri-color tubes. He foresaw a two-year period following the FCC's authorization before there will be color tubes developed and in production that are stable, capable of being mass produced and within the price range of present monochrome kinescopes.

If the FCC approves compatible color standards Jan. 1, 1954, Mr. Hoffman said, he expects to have a color receiver in his line by April or May—but at a price of \$800 to \$1,000. He expects no great rush of color receivers or programs immediately following FCC approval.

Edgar J. Love, general engineering manager of WWJ-TV, reported that the *Detroit News* station had purchased monitoring equipment to enable engineers and program personnel to study NBC colorcasts.

Places Order

Robert R. Tichner, Cowles Broadcasting Co. vice president and general manager of KVTU Sioux City, Iowa, reported that the station had placed an order with GE for all equipment necessary to telecast network color programs. Equipment is expected to be delivered during the first quarter of 1954.

The NTSC committee, which submitted a draft of revised rules and standards to the FCC, incorporating the compatible color specifications proposed by the industry for adoption by the Commission, was comprised of David B. Smith, Philco research vice president; E. W. Engstrom, RCA Labs. vice president, and Austin Bailey, Hazeltine executive.

Since the industry's proposal for compatible color authorization contains present black-and-white specifications, brand new color specifications and revised monochrome standards, it was felt that an NTSC group could do a better job of integrating them into the official rules than if the Commission staff attempted to do so.

Although the Commission has already been shown the draft, it will be officially submitted to the Commission in NTSC and other manufacturers' comments due Sept. 8.

The Commission was also in receipt last week of a letter from Harry R. Lubcke, Los Angeles consulting engineer and one-time television chief of the Don Lee Network, favoring the NTSC standards for compatible color television.

Color tubes will cost six times that of present black and white ones initially, Dr. Willard Geer, director, U. of Southern California Physics Labs., estimated last week.

FCC was also urged by Admiral Corp. to approve NTSC system "in the public interest." Admiral noted that its engineering and research departments have been devoting practically all their efforts in the last three years to the field of color television.

FCC GRANTS FOUR CPS FOR VHF

Columbus, Ga., Manchester, N. H., and Sweetwater, Tex., get authorizations as Commission also makes final its proposed grant at Jackson, Miss.

DESPITE protests of an Alabama state legislator and the mayor pro-tem of Phenix City, Ala., against the local news policy of the Columbus, Ga., *Ledger-Enquirer*, FCC last week granted vhf Ch. 4 at Columbus to Columbus Broadcasting Co. Grantee is a new firm representing a merger of the earlier competitive TV applications of J. W. Woodruff's WRBL Columbus and the *Ledger-Enquirer*. Phenix City and Columbus are adjacent.

Ch. 4 is the only vhf facility available at Columbus. WDAK-TV earlier was authorized on uhf Ch. 28 and plans an Oct. 1 starting date.

The Columbus grant was conditioned upon the *Ledger-Enquirer* interests giving up WGBA-AM-FM there.

In other TV actions, the Commission granted vhf Ch. 12 at Sweetwater, Tex., to Texas Telecasting Inc., permittee of KDUB-TV Lubbock, Tex., and authorized vhf Ch. 9 at Manchester, N. H., to The Radio Voice of New Hampshire Inc., licensee of WMUR there.

WMUR buys the physical assets of WFEA there, its Ch. 9 competitor, for \$175,000. WMUR hopes to re-sell WFEA. If unsuccessful, WFEA would be deleted.

FCC also announced an order to make final the hearing examiner's initial decision for grant of vhf Ch. 3 at Jackson, Miss., to Lamar Life Broadcasting Co., licensee of WJDX there. The grant was made possible by the withdrawal of the competitive application of Delta Sales Corp. [B•T, Aug. 24].

Hennock Dissents

Comr. Frieda B. Hennock, although not participating in the non-hearing TV grants, dissented from a Commission decision to send letters to the protestants in the Columbus Ch. 4 case. The letters explained FCC's policy to handle promptly applications rendered free for action through merger or amendment.

The Commission letters, sent to Alabama State Rep. J. W. Brassell (Russell County) and Phenix City Mayor Pro-Tem Elmer E. Reese, said the protestants have until Sept. 10 to file verified statements for Commission consideration pursuant to Sec. 1.726(c) of the Commission rules. Comr. Hennock, however, felt the complaints should have been considered before the Ch. 4 grant was issued.

Grants Detailed

Details of the new station grants follow:

Columbus, Ga.—Columbus Bcstg. Co. Inc. granted vhf Ch. 4; effective radiated power 26.9 kw visual and 14.5 kw aural; antenna height above average terrain 360 ft. Grantee is 51% owned by R. W. Page Corp., operator of WGBA and publisher of the *"Ledger-Herald,"* and 49% by J. W. Woodruff Sr. and son. Latter operate WRBL. Grant is conditioned upon disposition of WGBA.

Jackson, Miss. — Lamar Life Bcstg. Co. (WJDX). Final decision to grant vhf Ch. 3; ERP 100 kw visual and 50 kw aural; antenna height above average terrain 591 ft.

Manchester, N. H.—The Voice of New Hampshire Inc. (WMUR) granted vhf Ch. 9; ERP 148 kw visual and 89.1 kw aural; antenna height above average terrain 1,020 ft.

Sweetwater, Tex. — Texas Telecasting Inc. granted vhf Ch. 12; ERP 2.95 kw visual and 1.48

kw aural; antenna height above average terrain 340 ft.

W. D. (Dub) Rogers Jr., head of Texas Telecasting, which received the Sweetwater Ch. 12 grant, said no target date has been established for the new station. Since KDUB-TV Lubbock is affiliated with CBS, Mr. Rogers said it was presumed the new station likewise would affiliate with that network. Similarly, Avery-Knodel is expected to be national representative. DuMont equipment will be used.

Both protests to the Columbus Ch. 4 action consisted of telegrams to Comr. Hennock. Phenix City Mayor Pro-Tem Reese said:

The city commission of Phenix City, Ala., urgently requests that you delay action for one

week on granting construction permit to Columbus Bcstg. Co. Inc. Many citizens of the city of Phenix City, Ala., wish to appear before FCC and protest the granting to the *"Ledger-Enquirer"* newspaper of Ch. 4.

Granting such construction permit to the *"Ledger-Enquirer"* newspaper would further their monopoly on news distribution in this area. *"Ledger-Enquirer"* has unjustly and maliciously slanted, changed, omitted, overplayed and underplayed news concerning Phenix City for many years in ruthless effort to oppress industry, trade and commerce already in Phenix City as well as to prejudice and grossly mislead prospective new industry.

All news of merger of application of WRBL and *"Ledger-Enquirer"*-controlled WGBA to acquire Ch. 4 has been purposefully withheld from citizens and government of city of Phenix City.

City of Phenix City represents one-fourth population in Columbus-Phenix City municipal area. In case of any questions in reference to this protest, please phone me collect at 87878 Phenix City.

TV PRIORITY LIST GOES INTO EFFECT

Commission's official release corresponds to list in B•T Aug. 24. Comr. Hennock dissents on term 'operating station.'

REVISED temporary processing procedure for the handling of contested television applications went into effect at FCC last Monday as the Commission issued its official city priority list.

The amended priority list, including Group A for cities without local operating stations and Group B for cities having one or more operating outlets, is as published in B•T Aug. 24, page 44. FCC will revise it each 60 days.

Includes Applicants

B•T's version of the list, however, also contains the pending mutually-exclusive applications for each of the priority cities and the operating stations therein. FCC's official list gives only the priority number, the city, its 1950 census population and the number of operating stations.

The designation of cases for hearing does not necessarily follow the priority list, an FCC spokesman explained, since some cases require more time to prepare than others. This is due to the time lag when FCC must send second or third supplemental McFarland letters to applicants for additional data.

Comr. Frieda B. Hennock dissented from the majority in the issuance of the priority list, contending the Commission without prior public notice altered its definition of "operating station" to mean a station actually programming on the air instead of an outlet holding a special temporary authorization allowing such operation.

Here are several corrections to the priority list published in B•T Aug. 24:

GROUP A

City priority No. 12, Durham, N. C., vhf Ch. 11 contestants WDNC and WTK should not be listed as having received McFarland letters.

GROUP B

City priority No. 5, Seattle, Wash., vhf Ch. 7 contestants KXA and KVI also should include contestant KIRO.

City priority No. 7, Norfolk-Portsmouth-Newport News, Va., vhf Ch. 10 contestants WGH Newport News, WCAV, Chesapeake Services Inc., WNOR and WSAP also should include contestant Beachview Bestg. Corp.

City priority No. 32, San Antonio, Tex., vhf Ch. 12 contestants KONO and KTSA should include Bexar County TV Corp. instead of KABC. Bexar is identified with former owners of KABC, now sold to Storer Broadcasting Co., operator of KEYL (TV) there.

City priority No. 41, Atlanta, Ga., operating stations WAGA-TV and WSB-TV also should include WLWA (TV).

Text of Comr. Hennock's dissent follows:

At the time the Commission issued its original report and order in this proceeding on July 17, 1953 (FCC 53-889), I dissented from that action for reasons set forth in my dissenting opinion of that date (FCC Public Notice 93339).

I objected particularly because the Commission did not engage in proposed rule-making for this revision of its processing procedure but instead adopted this basic change by a report and order effective 30 days after official publication of its action.

Today, without any notice whatsoever, the Commission departs from the terms of this very report and order. This is a processing revision without prior announcement or intimation to the public and is entirely unwarranted.

The Commission stated only 30 days ago that the term "operating television station" shall mean "a television broadcast station for which the Commission has issued . . . an STA for regular commercial operation. . . ." Today, an examination of the table will make clear that the Commission has interpreted this definition in a way to flatly contradict the plain meaning of the words. This interpretation makes the criterion for an "operating television station" under this provision not the *issuance* of an STA for regular commercial operation, as the report and order prescribes, but rather *actual program operation*. Even more serious is the fact that this change has been adopted, and is reflected in the lists promulgated today, without any prior notice to the public.

I also particularly objected to the provision contained in the report and order which set forth explicitly that, in spite of the elaborately worked out system it established for determining priorities, the Commission might process applications and designate them for hearing "without regard to the priorities." I pointed out the inconsistency involved in the adoption of explicit processing procedures simultaneously with an announcement that the Commission might act "without regard to" them.

In the public notice issued today the Commission makes it clear that the insertion of this provision was not merely a matter of form. The public notice states, in the second sentence from the end, that the designation of applications for hearing will follow the order of priority set forth in the rules, "except as otherwise determined by the Commission."

I am further disturbed because of what I believe to be a failure on the part of the Commission to recognize the implications of this new procedure for hearings on television applications with respect to the uhf. In any procedure designed to set up the order in which hearings on television applications will be held, I believe that there can and should be particular provision designed to give further impetus to the development of uhf. As the Commission has noted in its past decisions, a very large portion of stations in this country will ultimately have to be uhf stations if we are to develop an effective nationwide competitive television system. I find no recognition of this vital point in the new procedure being adopted by the Commission today.

Interim TV Plan

PUTTING to practical test the interim television corporation plan proposed earlier this year for competitive TV applicants by Paul R. Bartlett, president-manager and 60% stockholder in KFRE Fresno, Calif. [B•T, March 2], the three vhf Ch. 12 contestants at Shreveport, La., last week submitted to FCC a joint application for operation on Ch. 12 pending outcome of the comparative hearing on their individual applications. The applicants are KRMD, Shreveport TV Co. and Southland TV Co. They have formed Interim TV Corp. (details page 97) in which each holds one-third interest and will share in construction and operation of the proposed "interim" station. The winning applicant in the Ch. 12 hearing, now pending initial decision before Examiner Fanny N. Litvin, would buy out the others.

FUNDS SLASH HITS USIA OPERATIONS

Information agency will release about two thousand people. Voice programming also is reduced.

ADMINISTRATION economy, heightened by appropriation cutbacks, has hit the U. S. Information Agency, which operates the Voice of America.

Announced last week were the following cutbacks:

- In personnel—Separation notices are going to 1,300 foreign citizens and 300 Americans overseas and to about 470 employees in New York and Washington. Some 500 unfilled jobs will be abolished. Total reduction is from 8,200 to 6,200 people in USIA. Some 200 persons with the Voice in New York will be let go.

- In VOA programming—Programs transmitted daily overseas will be reduced from the 45 languages of several months ago to 34. Voice suffers a cutback in operating funds from \$22.4 million to \$16.6 million in its fiscal 1954 operation which began two months ago.

The agency's director, Theodore C. Streibert (former MBS board chairman), said, however, that despite the reductions required by Congress slicing some \$30 million from the 1953 fiscal \$105 million, he was "confident that we can develop an effective, hard-hitting program with the funds now available."

Funds problem was among the top matters Mr. Streibert had to give his attention to upon taking office the first of this month. [CLOSED CIRCUIT, Aug. 10].

On Voice, Mr. Streibert said broadcasts "will hammer away at the uncertainties, the doubts and suspicious behind the Iron and Bamboo Curtains," while playing up "significant developments in the Kremlin's power struggle." Also to be included in programs aired to Soviet satellites will be religious programs.

The VOA head now is Leonard F. Erikson, formerly vice president and director at McCann-Erickson Inc., New York advertising agency.

Other media divisions were cut proportionately. The press, library and motion picture sections are the other top branches. VOA gets much more than the other media services. Reductions: Press, from \$7.7 million to \$4.3 million; library, from \$4.2 million to \$3.2 million; motion picture, from \$7.1 million to \$3 million.

WACH (TV) SUPPORTS PAY-SEE TV PLEA

ANOTHER TV grantee joined the quartet of uhf TV stations asking the Commission to establish subscription TV [B•T, Aug. 10] when WACH (TV) Newport News, Va., submitted a petition last week requesting that the Commission hold rule-making proceedings at an early date looking to the authorization of pay-TV.

WACH, sister station to WHYU (AM) in Newport News, only two weeks ago wired Sens. Edwin C. Johnson (D-Colo.), Harry F. Byrd (D-Va.) and William F. Knowland (R-Calif.) asking for a Congressional investigation of network affiliation policies, particularly with regard to vhf and uhf stations [B•T, Aug. 24].

In its petition on subscription TV, WACH said it believed pay-as-you-look TV would be a "valuable adjunct to television stations' program service by enabling stations to make available to their audiences programs that otherwise could not be broadcast by the station, either because of operating economics or because of restrictions placed on the program by the party in control of the program material."

Subscription TV will better enable a non-network television station to compete with network affiliates and network programs, WACH said. WACH received a grant for uhf Ch. 33 in February 1953.

At the same time, a leading West Coast TV

receiver manufacturer, H. Leslie Hoffman, termed subscription TV "socialistic." "It is not an American approach," he declared. He coupled subscription television with the European concept of broadcasting where listeners and viewers pay a yearly tax for their receivers.

Early last year, Zenith Radio Corp.—which had been in the forefront of subscription TV advocacy—filed a petition with the FCC asking that its "Phonevision" system be authorized for commercial use. No action has been taken.

Early in August, four uhf grantees asked the Commission to take early action. They were WDHN (TV) New Brunswick, N. J.; WIP-TV Philadelphia; WELI-TV New Haven, and Stamford-Norwalk (Conn.) Television Co.

Senate Radio-TV Gallery Remodeling Bids Received

CONTRACTS will be let soon for the \$33,000 remodeling of the Senate Radio-Television Gallery [B•T, Aug. 3].

The Senate last month okayed funds for the facelifting which will provide the gallery with a 20 x 15 ft. TV studio to handle live telecasts. The studio can be subdivided by acoustical doors to permit simultaneous filming of shows. A radio studio also can be subdivided. The entire project is reapportionment of current space for more efficient utilization.

Architect of the Capitol David Lynn is handling the contract and subcontract letting. Bids have been submitted.

The radio studio, it was explained, will permit forum discussions to be held there, and if more space is needed, the TV studio could be used for radio purposes.

AM Grant in Guam

FIRST commercial radio station for the island of Guam was granted by FCC last week. Permit for the new AM station on 610 kc with 1 kw fulltime went to Radio Guam, headed by Harry M. Engel Jr., president of KVEN Ventura, Calif.

SIX HEARINGS SET UNDER OLD PRIORITY

SIX TV hearing cases were scheduled by FCC last week to begin in Washington on Sept. 25.

Processing of the applications involved had begun before the revised priority list was issued by the Commission last Monday (see separate story). Comr. Robert T. Bartley dissented, stating, "I would immediately institute the new priorities for determining the date of hearing."

Slated to commence Sept. 25 for hearing in Washington are the following:

Roanoke, Va.—Vhf Ch. 7 Contestants: Times-World Corp. (WDBJ) and Radio Roanoke Inc. (WROV). Latter earlier suspended uhf Ch. 27 operation in favor of seeking vhf facility.

Philadelphia—Uhf Ch. 17. Contestants: Southern Jersey Bestg. Co. (WKDN Camden, N. J.) and Patrick Joseph Stanton (WJMJ).

Philadelphia—Uhf Ch. 23. Contestants: Daily News TV Co. (WIBG) and Lou Poller.

Detroit—Uhf Ch. 50. Contestants: Booth Radio & TV Stations Inc. (WJLB) and Woodward Bestg. Co.

Detroit—Uhf Ch. 62. Contestants: Royal Oak Bestg. Co. (WEXL Royal Oak, Mich.), Ferndale, Mich.; Knight Newspapers Inc., and UAW-CIO Bestg. Corp. of Mich.

Baltimore—Uhf Ch. 18. Contestants: The Baltimore Radio Show Inc. (WFBR) and Chesapeake TV Bestg. Inc.

General Manager Available

This is to announce the availability of Walter M. Windsor for employment in a managerial capacity in a radio-television operation that demands a man of thorough experience, creative ability, aggressive leadership, absolute integrity and complete loyalty.

Mr. Windsor has managed our station, WGBA-WGBA-FM in Columbus, Ga., for the past five years. He has been responsible for tremendous progress and achievement during that time.

He was scheduled to become general manager of both radio and television if and when our TV application was granted. In this connection he handled most of the details of our application and preparation for hearing. He acquired, as our representative, much valuable training and indoctrination in TV operation and management.

Due to a merger of our interest with the competing TV applicant, Mr. Windsor cannot be offered a position in the newly organized company commensurate with his ability and standing. We are happy to recommend him to anyone needing a completely competent manager for either radio or TV, or both. He can be reached in care of our station through me personally.

J. H. Chapman
President
Radio Station WGBA
Columbus, Ga.
Phone 3-3603

FCC QUESTIONS WIND TRANSFER

Atlas family ownership in WIND-AM-TV still is substantial, the Commission finds, and tells the stations via McFarland letter that 'necessity of hearing' is indicated.

BECAUSE of the Atlas family's continued substantial ownership interest in WIND-AM-TV Chicago after proposed transfer from Johnson-Kennedy Radio Corp. to WIND Inc. [B•T, April 27], FCC last week advised the stations by McFarland letter that the transfer application "indicates necessity of a hearing."

When WIND-TV was authorized on uhf Ch. 20, FCC conditioned the grant upon the withdrawal of H. Leslie Atlas from ownership interest since he also has "interest" in WBBM-AM-TV Chicago, the CBS owned-and-operated outlet. Mr. Atlas is vice president of the CBS Central Division and general manager of WBBM-AM-TV.

Although Mr. Atlas holds no stock in WIND Inc., the transferee, other members of his family hold a total of 40.7%, the Commission noted. His brother, Ralph Atlas, is president of WIND Inc. and WIND manager. Ralph Atlas holds 11.1% in WIND Inc.

FCC indicated it is concerned whether the realignment of WIND ownership might result in restriction of competition between WBBM and WIND radio and TV operations.

The application seeks Commission approval to transfer 100% control of Johnson-Kennedy to the new firm, WIND Inc. H. Leslie Atlas withdraws and receives consideration of \$564,495 while Philip K. Wrigley gives up his interest and receives \$1,126,566. A third principal stockholder, the *Chicago Daily News*, sells its share for \$1,126,566 but purchases 27.7% holding in WIND Inc. for \$12,500.

The total consideration of \$2.9 million is to be paid out of current assets and future revenues, the application showed. That H. Leslie Atlas would be a creditor for some \$400,000 also drew FCC attention in the issuance of the McFarland letter.

Mr. Wrigley is withdrawing in order to provide for his heirs, four of whom hold stock in WIND Inc. Messrs. Wrigley and H. Leslie Atlas bought into WIND in late 1938.

KXEL Anti-Trust Suit Recessed Until Sept. 23

TRIAL in anti-trust suit brought by KWWL against KXEL, both Waterloo, Iowa, was recessed Thursday until Sept. 23 at the request of both parties. This move followed the resumption of the proceedings before U. S. District Court Judge Henry N. Graven, in KWWL's suit against KXEL for \$500,000 damages Tuesday.

Also last Thursday KXEL dismissed its counter suit against KWWL for \$150,000. This was filed after the KWWL suit had been brought into court.

Both suits stemmed from competing applications for Waterloo's single vhf Ch. 7. KWWL charged that KXEL management had inspired a boycott of its AM station in a move to force it to withdraw its application. KXEL, in its counter suit, made much the same charges against KWWL.

During last week's sessions, 19 out of 90 KWWL witnesses were on the stand. They were mostly television dealers and servicemen.

Addition of Ch. 12 For Duluth-Superior Asked

ADDITION of vhf Ch. 12 to Duluth-Superior, potential solution to vhf Chs. 3 and 6 hearings there, was proposed by FCC last week upon the petition of WEBC Duluth, contestant for Ch. 3 at Superior. With the addition of Ch. 12, there would be three vhf channels available for the three remaining contestants.

WEBC's application is mutually exclusive with that of KDAL Duluth. Sole survivor in the Ch. 6 case is WDSM Superior. Ch. 6 contestant Lakehead Telecasters has petitioned for dismissal. WREX Duluth, part owner of Lakehead Telecasters, has been merged with WDSM, and WREX was deleted.

The addition of Ch. 12 to Duluth-Superior would require deletion of the facility from Brainerd, Minn., and Iron River, Mich. Uhf Ch. 37 would be substituted at Brainerd and uhf Ch. 33 at Iron River. Comments on the proposal are due Sept. 30. FCC dismissed WEBC's alternative request for the allocation of vhf Ch. 10 to Duluth-Superior [B•T, July 27].

In another allocation action based upon the petition of Carl Bloomquist, licensee of WEVE Eveleth, Minn., FCC instituted a rule-making proceeding looking toward deletion of vhf Ch. 10 from Hibbing, Minn., and Hancock, Mich., in order to assign the facility to Virginia, Minn., and Larium, Mich.

Mr. Bloomquist, who suggests vhf Ch. 13 might be switched from Calumet, Mich., to Hancock as substitute for removal of Ch. 10, proposes to file for a station on Ch. 10 at Virginia, the central city of the iron ore area known as the Mesabi Range. Comments are due Sept. 30.

FCC DENIES WVEZ BID FOR VHF CH. 8

FIRST effort of a commercial television applicant to remove the educational reservation on a TV channel was turned down by FCC last week as the Commission denied the petition of WVEZ New Orleans respecting vhf Ch. 8 there. WVEZ had contended the educational facility goes unsought while it is ready to build a commercial station if it could use Ch. 8.

FCC noted the "substantial progress made by the Greater New Orleans Educational Television Foundation in its efforts to establish an educational station on Ch. 8," even though no bid is on file, "and the survey and study now being made by the Special Legislative Television Committee for submission to the 1954 Louisiana state legislative session."

In its memorandum opinion and order in the WVEZ case, the Commission recalled that "in both the Third Notice and the Sixth Report, we stressed the need for noncommercial educational TV stations. We held that because educational institutions require more time than commercial interests to prepare for television, a reservation of channels is necessary to insure that such stations actually come into existence.

"While we state that such a reservation should not be for an excessively long period and should be surveyed from time to time, it should be emphasized that no limit whatever was placed on the duration of the assignment of channels reserved for noncommercial educational use."

FCC concluded that "in view of the policy underlying the reservation, we do not believe, in the absence of compelling circumstances, which are not present in this case, that the instant request for the deletion of the educational reservation should be granted."

Two kinds of electricity...

Do you know the difference?

They seem very much alike. They do the same things. They are produced in the same ways.

One is the electricity the federal government produces and distributes. The other is the electricity you get from your business-managed electric company.

There are big differences between them—differences that directly or indirectly affect you and your family. Here's what they boil down to...

Company Electricity

- Its rates are strictly regulated by people chosen to represent you.
- It is available to everyone in the company area without discrimination.
- It pays taxes (about 23c out of every dollar you pay for electric service).
- It plays a key role in America's free enterprise system.

Tax-paying, business-managed electric companies can provide the electric power America needs. Isn't it extravagant for the federal government to spend your tax money to provide it?

The answer to that question is important to you. That's why these facts are presented to you by AMERICA'S ELECTRIC LIGHT AND POWER COMPANIES.*

Government Electricity

- Its rates are exempt from normal regulation.
- It goes first to certain favored groups.
- It pays little or no taxes.
- It is a step toward a government monopoly—and socialism.

*Names on request from this magazine

WHOL Operation Assured Until Court Acts on Appeal

CONTINUANCE of WHOL Allentown, Pa., on 1230 kc (with 250 w) until its appeal against the FCC is determined was ordered by the U. S. Court of Appeals in Washington, D. C., last week after argument on the case Aug. 24 [B•T, Aug. 24]. In line with the court order FCC Thursday extended the termination date of WHOL to the end of the month coming after a final court decision.

WHOL originally was granted 1230 kc in Allentown in 1947 after a hearing with the *Easton (Pa.) Express*, which owns WEEX (FM) in that city. The Easton applicant appealed the FCC's decision and in 1949, the Court remanded the case to the FCC to determine whether Easton or Allentown needed another station. The FCC reopened the case in 1950, and early in July of this year, the Commission made final the grant to the Easton newspaper. WHOL immediately appealed that decision to the court. This is the case awaiting determination.

The Commission had told WHOL it had until Aug. 31 to close down in order for the *Easton Express* station to go on the air.

FCC Approves WARC Sale

SALE of WARC Rochester, N. Y., by S. W. Townsend and associates for \$105,000 to Star Broadcasting Co. was approved by FCC last week. Star is licensee of WGVA Geneva, N. Y., and grantee of uhf Ch. 15 at Rochester. WARC gave up its competitive Ch. 15 application upon condition that the station be purchased by Star [B•T, June 15].

CBS RADIO WHEELS INTO DRIVE TO PROMOTE RADIO AND NETWORK

Promotion is double-barreled, for radio as a medium and CBS Radio in particular. Sessions are Tuesday and Wednesday. Featured will be top network officials, among them, President Adrian Murphy and Charles Oppenheim of CBS Radio's promotion and advertising department.

A DOUBLE-BARRELED promotion plan—promoting radio in general and CBS Radio programs specifically—will be detailed by CBS Radio officials this week to an expected 125-150 affiliated stations' promotion managers and other executives at a two-day clinic in New York.

The sessions will be held Tuesday and Wednesday at the Hotel Pierre and will include addresses by top network officials, headed by CBS Radio President Adrian Murphy. Charles Oppenheim, administrative manager of sales promotion and advertising, who announced the plans for the meetings [B•T, Aug. 24] will be a key figure in the sessions.

Cover Entire Season

Where previous clinics of this nature have dealt only with promotion for the fall season's programs, Mr. Oppenheim noted, this session will cover the entire 1953-54 season, extending far beyond the promotion planned for programs beginning or returning to the air this fall.

Opening day speakers, in addition to President Murphy and Mr. Oppenheim, include John Karol, network sales vice president; Lester Gottlieb, program vice president; W. Eldon Hazard, network sales manager; George Bristol, sales promotion and advertising director; George Crandall, press information director, and Irvin Fein, director of public relations, Hollywood.

Panel Session

The first-day meeting also will feature a question-and-answer panel on programming in which participants will be Stuart Novins, director of public affairs; Wells Church, director of news broadcasts; Dr. George Crothers, director of religious broadcasts, and John Derr, director of sports.

Tuesday's luncheon entertainment will be presented by Joan Edwards, CBS' WCBS New York personality, and Lyn Duddy, who together wrote the new CBS Radio campaign jingles, and stars of CBS Radio daytime serials.

The Tuesday afternoon meeting includes a panel discussion of publicity and promotion, featuring Messrs. Crandall and Fein; Harper Carrairie, director of research; Louis Dorfman, associate director of sales promotion and advertising; Tom Means, director of CBS-owned station promotion service; Joseph Tole, production manager, sales promotion and advertising dept.; Murry Salberg, program promotion manager; Sid Garfield, director of exploitation, and Harry Feeney, trade news editor.

Special Seminars

Special seminars on specific station promotion subjects will occupy the group on Wednesday.

Clinic sessions similar to those scheduled for New York will be held at the Palace Hotel in San Francisco on Sept. 10 for 35 CBS Radio stations on the West Coast. Speakers will include Messrs. Karol, Bristol and Oppenheim, plus William Shaw, general manager of KNX Los Angeles and the Columbia Pacific Radio Network; E. W. Buckalew, assistant general manager and sales manager; Arthur Hull Hayes, vice president in charge of the San Francisco office, and Mr. Fein.

Registration: CBS Radio Clinic

PROMOTION managers and other station executives registered for CBS Radio's 1953-54 program promotion clinic, being held tomorrow (Tuesday) and Wednesday at the Hotel Pierre in New York [B•T, Aug. 24], included the following:

Doc Williams, WADC Akron; James F. Chambers, WHOL Allentown, Pa.; Fred Weber, WFPG Atlantic City; L. Waters Milbourne and Robert M. Richmond, WCAO Baltimore; John Turner, WNBK Binghamton, N. Y.; Lionel Baxter, Jimmy Chenoweth, Henry Johnston, WAPI Birmingham; Fred Lounsbury, Roswell McPherson, WGR Buffalo; Frank Reardon, KBOW Butte; Leo F. Cole, WMT Cedar Rapids; Nelson Benton, WBT Charlotte; Julius Glass, WGAR Cleveland; James D. Russell, KVOR Colorado Springs; C. Wallace Martin, WMSC Columbia, S. C.; Margie Ruddock and Jim Yerian, WBNS Columbus, Ohio; Mal Campbell and Karl F. Steinmann, WCUM

Townsend CBS-TV News Head, Skedgell Named at CBS Radio

APPOINTMENT of Dallas S. Townsend Jr. as manager of the CBS Television news dept. and naming of Robert Skedgell to succeed him as director of special events for CBS Radio were announced by the networks last week, effective today (Monday).

Mr. Townsend takes over the duties formerly handled by Fritz Littlejohn, managing editor of CBS-TV news, who is moving to ABC as head of television news and special events [B•T, Aug. 3]. Mr. Skedgell has been weekend editor for CBS Radio news.

CBS AFFILIATES NAME 9 DIRECTORS

NINE of 12 members of the new autonomous CBS Radio Affiliates Committee were formally elected last Tuesday, taking over the functions formerly performed by the CBS Affiliates Advisory Board and the CBS Business Standards Committee.

Kenyon Brown, chairman of the Business Standards Committee, formed two years ago to resist network rate adjustments, announced the results of the mail balloting, which closed last Tuesday, coincident with the dissolution of the predecessor committees. Balloting was handled by William E. Griess, C.P.A., Cincinnati.

The nine directors were elected by affiliates in an equal number of geographical districts, with this group to meet within the next two or three weeks at the call of Acting Chairman Brown to select three directors-at-large. The board of 12 will then select its own permanent chairman, secretary and treasurer.

Elected to the new board, in addition to Mr.

Brown (District 8) were Arnold F. Schoen Jr., WPRO Providence, District 1; I. R. Lounsberry, WGR Buffalo (former chairman of CAAB), District 2; C. T. Lucy, WRVA Richmond, District 3; Charles H. Crutchfield, WBT Charlotte, District 4; W. H. Summerville, WWL New Orleans, District 5; Hulbert Taft Jr., WKRC Cincinnati, District 6; Hugh B. Terry, KLZ Denver, District 7; Saul Haas, KIRO Seattle, District 9.

After the district directors meet to select three directors-at-large, it is expected a meeting will be arranged with management of CBS Radio to discuss network-affiliate policy matters. The new committee was created by the affiliates as a group entirely divorced from network influence, whereas previous advisory committees functioned in conjunction with the network. It is being financed entirely by affiliates and will function with complete autonomy, Mr. Brown pointed out.

WDLP Now With NBC

WDLP Panama City, Fla., on Aug. 13 became affiliated with NBC. Owned by John H. Perry Assoc., WDLP uses 1 kw on 590 kc.

MBS AFFILIATION PLAN BEGINS OCT. 1

Following FCC's approval of Mutual's new plan to pay stations in 'top-quality' programs rather than cash, MBS Station Relations Vice President Pete Johnson announced that the plan would go into effect Oct. 1. The number of MBS affiliates who approved the proposal was not revealed.

MUTUAL will put its revolutionary new affiliation plan into effect Oct. 1, E. M. (Pete) Johnson, station relations vice president, told the affiliates in a conference call early Friday afternoon.

He did not indicate how many affiliates had approved the departure in affiliate-network relationships [B•T, July 6, et seq.], but it was obvious from the decision that Mutual feels it has enough acceptances to go ahead with the plan on schedule.

The announcement came one day after FCC had cleared the new Mutual affiliation contract form as revised to conform to FCC suggestions.

Mr. Johnson told the stations that Mutual was sending out contract amendments Friday embodying changes approved by the commission, and he urged affiliates to sign them and return them at once.

Under the new type of operation, the amount of time "optioned" by Mutual from its affiliates will be cut from nine hours a day to an average of five. The stations agree to clear the five hours and to accept no pay for network commercial programs in these periods. Instead of money, the stations will get from Mutual a total of 14 hours of free programs per week

for local or national spot sale. If Mutual should sell any time outside the "option" periods, net receipts from such sales would be turned over to the stations except for a 15% "selling commission" which Mutual would retain.

Mutual President and Board Chairman Thomas F. O'Neil has characterized the plan as a "revolutionary" one that could mark the "biggest turning point" in the history of the network and the stations, and could change "the whole future" of the stations' local profits as well as the future of radio itself.

FCC's approval of the proposed contract came Thursday afternoon when MBS revised a provision to give affiliates the right to accept or reject new programs or sponsors. This followed several weeks of conferences between MBS attorneys and FCC executives.

Iowa, Maryland Turndowns

Meanwhile, MBS affiliates in Iowa unanimously turned down the proposed new contract in a meeting at Des Moines Aug. 26, according to Ben Sanders (KICD Spencer), chairman of the Mutual Affiliate Committee, Iowa Broadcasters Assn.

Rebuff was on terms of principle and the charge that the new contract was in reality a form of "time seizure," Mr. Sanders said.

A permanent MBS affiliate committee was formed and will act as a consulting unit in further negotiations between the 13 Iowa outlets and MBS.

Stations represented at the meeting were: KROS Clinton, KSTT Davenport, KDEC Decorah, KIOA Des Moines, KVFD Fort Dodge, KFJB Marshalltown, KRIB Mason City, KBIZ Ottumwa, KFNF Shenandoah, KTRI Sioux City, KICD Spencer, KWWL Waterloo, and WDBQ Dubuque.

Previously, the Maryland Mutual affiliates had voted against approval of the Mutual plan [AT DEADLINE, July 27].

Early in August, a majority of North Carolina affiliates reportedly agreed to the new contract [B•T, Aug. 17].

In his talk Aug. 21 to Mutual managers over a conference telephone call, Mr. O'Neil urged that a new concept of radio networking was necessary.

After referring to his interest in the successful operation of Mutual affiliates, which is reflected in the success of the network, Mr. O'Neil continued:

However, something has happened nowadays with radio, which was not the case in the past. Let's use the horrible word. The horrible word is television. Television is now competing for the advertisers' money in such a way that it makes us take a second look at radio. And this second look gives us this particular pause.

How feasible, economically, is the operation of four radio networks? We've made quite a study of this. We find that on the basis of past operation, four networks operated as they have been in the "classical" style, are not economically feasible. This might sound like a rather drastic statement. . . .

Mr. O'Neil then mentioned meetings with members of the Mutual Affiliates Advisory Committee at Cope Code and Virginia Beach. He emphasized that the MBS plan stemmed from MBS officials' attitude as Mutual affiliates (Mr. O'Neil's General Teleradio owns WOR-AM-FM-TV New York and the Don Lee and Yankee Network divisions in California and New England). He also revealed that the total amount of business done by WOR, Don Lee and Yankee operations "is actually in excess of the amount of billing that we do on Mutual."

Although the MBS plan cannot be expected to be favored by all 500-odd Mutual affiliates, Mr. O'Neil urged that all consider the benefits of network affiliation. "Without national networks with their program adjacencies, stations would have little national spot business anyway," he said.

Mr. O'Neil concluded his talk with the following: "The things we have asked of you in our new contract amendment are simply those things we feel are necessary to strengthen you and strengthen us. I believe your self-interest and ours are parallel, and I hope I have been able to convince you."

CBS-TV Signs Uhf WCAN-TV As Affiliate in Milwaukee

CBS-TV last week signed WCAN-TV Milwaukee, a uhf station on Ch. 25, as a primary interconnected affiliate, making Milwaukee a competitive network market [CLOSED CIRCUIT, Aug. 24].

In the past WTMJ-TV, only television station operating in Milwaukee, has been affiliated with all four networks.

WCAN-TV's affiliation with CBS-TV is effective Sept. 15.

The station is owned by Midwest Broadcasting Co., licensee of WCAN. Lou Poller is president and general manager.

WBNS has more than top ratings . . .

INTERESTED LISTENERS, TOO!

For a community where listening to WBNS is a habit, WBNS has an amazing hold on the attention of listeners, too. Day-after-day, mail proves our audiences are following every word; gift and premium offers draw floods of replies; our disc jockeys get tongue weary reading

off dedications . . . this all adds up to listener loyalty . . . with more folks listening to WBNS Radio than any other station. And this CBS outlet carries the 20 top-rated programs consistently. They'll really listen to your sales message on WBNS.

CBS for CENTRAL OHIO

ABC RADIO PLANS NIGHTTIME SERIALS

SERIALIZED nighttime programming will be launched by ABC radio Oct. 5 as part of its new fall-winter schedule, with two quarter-hour dramas in the 8:30-9 p.m. segment Monday through Friday, it was announced last week.

The shows are *Hollywood Romance*, described as "dramatic saga of a young actor starting out on his Hollywood career," which will be heard at 8:30-45 p.m., and *Mike Malloy*, a detective serial which is scheduled at 8:45-9 p.m. Officials said both serials "will feature complete dramas in five episodes, offering listeners continued diversified and exciting entertainment for the entire week."

ABC authorities said it would be "the first time in radio history" that serialized nighttime programming has been offered. But others pointed out *Amos 'n' Andy* and *Vic and Sade*, among others, had had long runs in evening time.

Two-Fold Advantage

Raymond Diaz, national program director for the ABC radio network, said "the advantage of the new serialized dramatic programs is two-fold in that, where the different nightly episodes are linked by a continuing situation, the storylines have been so designed that each episode will offer the one-time listener a complete story in itself, thereby offering entertainment to suit preferences of the entire audience."

Speaking of ABC radio's total fall schedule, Mr. Diaz said "an increased use of name personalities also will be in evidence," with "stars of stage, screen and radio . . . spotlighted on programs of their own as well as making guest appearances on dramatic and variety programs."

Among the new shows will be that of George Jessel, noted entertainer signed by ABC radio-TV. He will launch his weekly, hour-long *George Jessel Salutes* program Oct. 14 (Wed., 9-10 p.m.), entertaining a national organization each week and appearing in his traditional role as toastmaster.

WILS-TV Signs With ABC

WILS-TV Lansing, Mich., has signed a secondary affiliation agreement with ABC-TV. The station, owned by Lansing Broadcasting Co., is assigned uhf Ch. 54. It went on the air with a test pattern Aug. 12 and is slated to begin commercial operations about Sept. 20. It also is affiliated with the DuMont TV Network.

3 Leave CBS-TV Story Dept.

ARTHUR HEINEMANN, head of the story dept. of CBS-TV; Janet Wood, assistant story editor, and Beatrice Galland, assistant to Miss Wood, resigned effective last Friday. Mr. Heinemann had been with CBS for the past five and a half years. Miss Wood had been with the network for three and a half years as has Miss Galand.

DuMont Signs WFAM-TV

WFAM-TV Lafayette, Ind., signed last week as a DuMont TV Network affiliate. The station, on uhf Ch. 59, has been on the air since June 15. Headed by O. E. Richardson as president, WFAM-TV is represented nationally by William G. Rambeau Co.

ACS, CBS Plan Closed-Circuit Colorcasts Beginning Oct. 21

Thirty weekly hour-long telecasts linking medical centers in six or more cities are planned in this milestone of networking and public service.

IN WHAT it called "the most advanced and ambitious professional education program ever undertaken," the American Cancer Society in cooperation with CBS will launch on Oct. 21 a series of 30 weekly one-hour color TV closed circuit telecasts linking medical centers in six or more cities.

The series, being announced by ACS today (Monday), is designed to acquaint members of the medical profession with latest methods of detecting and diagnosing cancer, and uses, at each reception point, 4- by 6-ft. screens each capable of accommodating 500 viewers.

The program will be presented from 5 to 6 p.m. by prominent cancer specialists and will be beamed at the outset to medical centers in New York, Boston, Philadelphia, Pittsburgh, Detroit, and Toledo. ACS said the county medical society in each city is cooperating in the project, with committees of physicians assisting in arrangements, and that additional cities will be added to the closed circuit network after initial trials.

The Cancer Society has allocated \$250,000 for the first year's operation of the project. CBS as co-sponsor is underwriting the rest of the expense—which spokesmen declined to esti-

mate—and is providing transmission of the programs to each city without charge.

The plan was proposed a year ago by Dr. Peter C. Goldmark, director of the CBS Labs Division and developer of the CBS color TV system. The large screen to be used in the project also was developed by CBS. Most of these programs will be presented "live," but some films will be used for background, ACS said.

Dr. Charles S. Cameron, medical and scientific director of ACS, said that "in this project we have received the enthusiastic cooperation of county medical societies," and that physicians watching the programs "will be given a better view of most proceedings than the demonstrating doctor himself has."

Kinescopes will be made for later showing to medical societies beyond the telecast areas.

Mefford R. Runyon, executive vice president of ACS, said the first year's programs will be telecast from specially constructed studios in New York's Memorial Cancer Center and the Francis Delafield Hospital attached to the Columbia Presbyterian Medical Center.

NBC in Chicago Adds Three

APPOINTMENT of three new account executives to the radio and TV network sales staffs of NBC in Chicago was announced Thursday by Edward Hitz, Central Division network sales manager. Eric C. Lambart, Chicago sales representative for *American Magazine* for the past seven years, was assigned to the radio sales staff, while Angus Robinson, formerly of Walter O'Keefe Enterprises in Hollywood, and Cy Wagner, ABC-TV salesman since 1950, were assigned to the NBC-TV sales staff.

Ultimate Goal of DuMont Labs Is 1000 Kw Uhf Transmitter

TO BUILD a uhf transmitter that will deliver 1,000,000 w effective radiated power—that is the goal which Allen B. DuMont Labs is setting for itself, as disclosed in an announcement being released today (Monday).

Dr. Thomas T. Goldsmith Jr., DuMont research director, was quoted as telling the 75 men who developed and perfected the company's first 5-kw uhf transmitter:

"We're now going far up the scale. We're going to hit the FCC ceiling of one million watts effective radiated power. Dr. DuMont and I are proud of what you turned out. Now our sights are on super-powered TV transmitters which will give uhf equal importance to that of its elder, vhf."

Dr. Goldsmith pointed out that the DuMont Research Div. had worked closely with Eitel-McCullough (Eimac), which builds the 5 kw klystron tube and said further cooperative research and development on the higher-powered klystron are planned.

DuMont said the 5-kw klystron-powered transmitter installed at WGLV-TV Easton, Pa., uhf station with 100 kw ERP, delivered a picture in New York, 71 miles distant, that was as clear as the signal of a New York station [B*T, Aug. 17].

Rockwell Gets Patent

U. S. PATENT on a high-power tube development has been received by R. J. Rockwell, vice president for engineering, Crosley Broadcasting Corp. It's expected that the development will cut down on production rejections of high-power equipment. Patent, according to Crosley, covers "special electronic circuitry" developed during the firm's operation of the Voice of America transmitters at Bethany, Ohio. Mr. Rockwell has 22 other patents in the broadcast engineering field.

Midget Tape Recorder Announced by MEI

SMALL TAPE recorder designed for spot announcements has been developed by Michigan Electronics Inc., Chicago. Named the "Message Repeater," the machine features ability to repeat the same message without rewinding.

The Message Repeater, about the size of a box camera, can be plugged into any transmitter. Its developers point out that small stations have used it successfully for stand-by recorded announcements. It is offered on a rental or direct purchase basis.

TV Boosts Hi-Fi—Johnson

TV's popularity has helped educate listeners to a greater appreciation of sound values provided by high fidelity equipment, W. C. Johnson, Admiral vice president in charge of sales, asserted last week.

Mr. Johnson noted that some 25 million TV receivers use FM in sound transmission and claimed viewers get a more realistic reproduction of sound than do radio listeners. Admiral last week announced the development of a 20-tube high fidelity AM-FM radio-phonograph combination, with deliveries scheduled in September.

TV Catches Thieves

NOW THEY'RE catching thieves by television. RCA has reported that RCA industrial TV equipment was used to give police an eye-witness view of theft from stockroom of an RCA television service branch in Hollywood. When inventories showed some \$38,000 worth of equipment missing, an industrial TV camera was installed in stockroom rafters and focused on the loading platform. For two weeks, RCA said, police watched a viewing screen in a room some distance away, saw a clerk and truck driver spirit-ing tubes off during lunch hour, and then nabbed them.

Pacific Mercury TV Plans \$1 Million Expansion Program

CONSTRUCTION on the first unit of its new \$1 million plant on a recently acquired 40-acre tract has been started by Pacific Mercury Television Manufacturing Corp., Van Nuys, Calif., at Hayvenhurst Ave. and Chase St.

The one-story air-conditioned building will cover 122,000 square feet. It will be used for executive offices, research, engineering and production departments, as well as TV receiver assembly lines. Cabinet construction will continue at the company's present factory, 6001 Van Nuys Blvd., until completion of additional structures, to be erected during 1954 at the new location.

Accelerates Building

Increase of the TV manufacturing company's gross from \$6 million in 1951 to \$15 million last year has accelerated the building program, according to President Joe Benaron. An eventual working force of 2,000 employes is planned, he said.

AT&T Links Two Outlets

LINKING of KEDD (TV) Wichita, Kan., and WETV (TV) Macon, Ga., to the Bell Telephone System's nationwide television network facilities was announced by AT&T's Long Lines Dept. last week. AT&T said network programs now are available to 154 stations in 103 U. S. cities simultaneously with their origination.

LABOR DEPT. RULES IN INDUSTRY FAVOR

New decision, announced last week by Dept. of Labor, will save stations large amounts. In future, announcers and performers will not be paid for out-of-stretch programs if they get a fee for their work.

FEES may be paid by radio and TV stations in lieu of overtime for out-of-stretch work by announcers and performers under a ruling announced last week by William R. McComb, Administrator of the Wage & Hour & Public Contracts Divisions, Dept. of Labor.

The ruling removes a policy that discriminated against the industry. It climaxes a long battle by Richard P. Doherty, NARTB employe-employer relations vice president, and is expected to save stations large sums.

In essence, the ruling means that overtime need not be paid for out-of-stretch programs if an announcer gets a fee for the work. Only requirement is that the fee must at least equal the time-and-a-half wages for the assignment.

Conferences over a period of years bore results as Mr. Doherty acquainted federal officials with industry practices. Employe unions have recognized the fee practice, and these payments traditionally exceed the required overtime fee.

Back Wages Paid

Some stations have been forced to pay substantial sums in back wages to employes because they were detected in violations. Federal inspectors had detected such violations in California and New York.

Mr. Doherty said the regulation comes "as welcome news to the radio and television industry." He added that NARTB has contended for years the government interpretation was unsound and based on "legalistic thinking." He pointed to the fact that typical fees "have exceeded statutory overtime several times over."

There still is no obligation to pay fees or other special payments for out-of-stretch work by announcers or any other employes, according to Mr. Doherty. A station is privileged to pay at the statutory time-and-one-half rate. He said there is no obligation to pay statutory overtime unless the total workweek exceeds 40 hours. Daily overtime beyond regular daily work stretch is a matter of station practice or union contract.

Text of the Wage-Hour Administrator's ruling follows:

"Amend Part 550 by adding a proviso at the end of 550.1 to read: 'Provided, however, That where services described in paragraph (a) of this section are performed on a program falling outside of the regular workday or workweek as established and scheduled in good faith in accordance with the provisions of the applicable employment agreement; the Administrator will not regard the act as requiring additional compensation as a result of the time worked on the program if the parties agree in advance of such program that a special payment made therefor shall include any increased statutory compensation attributable to the additional worktime thereon and if such special payment, when made, is actually sufficient in amount to include the statutory straight-time and overtime compensation (computed without regard to talent fees) for the additional time worked in the workweek resulting from the performer's service on such program.'"

Factory-fresh

SEALED

for your protection

Now you can be sure the RCA-5820 Image Orthicon you buy for replacement use is new, unused and untouched by human hands since it left the factory. Each RCA-5820 is sealed in its own tamper-proof, transparent container.

The unbroken seal is visible assurance that you are the first to take the factory-fresh 5820 from its container.

Customer protection like this is a typical example of RCA's never-ending effort to provide TV and broadcast stations with the most dependable tubes the industry can offer.

See your local RCA Tube Distributor for fast service on factory-fresh Image Orthicons . . . and all types of RCA Tubes.

NABET Announces Fellowships For U of Ill. and Iowa State

SUCCESSFUL candidates for the educational TV study sessions to be conducted at the U. of Illinois and Iowa State College in August and September were announced last week by Graydon Ausmus, president of the National Assn. of Educational Broadcasters, and Harry J. Skornia, NAEB executive director.

The Illinois session, on educational TV production, was to start at Urbana last Friday and continue through Sept. 18. It is under the direction of Rudy Bretz of Croton-on-Hudson, N. Y., and Prof. Edward Stasheff, U. of Michigan, with Prof. Richard Rider, director of TV for the U. of Illinois, as coordinator. The Iowa Seminar, on station management, was to start yesterday (Sunday) at Ames and continue through Sept. 5. Prof. Richard B. Hull, manager of Iowa State College's WOI-AM-TV, and Merritt Ludwig, assistant manager, are in charge. Study sessions were made possible by grants from Fund for Adult Education.

Successful candidates for NAEB fellowships for the Illinois workshop were listed as follows:

Gale R. Adkins, acting director of radio-TV, U. of Texas; J. Larry Beauchamp, program director, Purdue U.; William K. Cumming, producer-director, Michigan State College; Marguerite Fleming, manager, St. Louis Board of Education's KSLH; John H. Glade, producer, Purdue U.; William Gulley, Consolidated U. of North Carolina's WUNC Chapel Hill; Warren A. Kraetzer, director of New York U. Office of Radio-TV; Marie Scanlon, radio-TV supervisor, Newark Board of Education; Karl F. Schmidt, program manager, U. of Wisconsin's WHA Madison; Hazen J. Shumacher Jr., production supervisor, U. of Michigan; Herbert Seltz, head of TV production, Indiana U.; Francis P. Tobolski, assistant to radio-TV supervisor, Illinois Institute of Technology; Evelyn Walker, radio-TV coordinator for Birmingham (Ala.) public schools; Walter Whitaker, program and production director, U. of Alabama; Wolfgang Kuhn, radio-TV committee chairman, U. of Illinois School of Music.

Successful candidates for NAEB fellowships at the Iowa seminar are:

R. Edwin Browne, radio-TV director, U. of Kansas; William G. Harley, program director, Wisconsin State Broadcast Service, U. of Wisconsin; John D. Henderson, educational supervisor, Purdue's WBAA Lafayette, Ind.; Mrs. Kathleen Lardie, manager, Detroit public schools' WDTR; Carl Menzer, director, State U. of Iowa's WSUI and KSUI Iowa City; Paul Rickard, radio-TV director, Wayne U.; S. Donald Robertson, director, U. of North Dakota's KFJM Grand Forks; Elmer Sulzer, director of Indiana Radio and TV Service, Indiana U.; Mrs. Elaine Tucker, program director, Classen High School's KOKH (FM) Oklahoma City; Kenneth D. Wright, director of broadcasting services, U. of Tennessee.

Educators Must Mix Fare For Success in TV—Sener

"EDUCATIONAL television must offer a little of the corned beef and cabbage, and a little of the caviar, if it is going to be successful."

This recipe was offered by William Sener, manager of KUSC Los Angeles, at the Educational Television Institute sponsored by KING-TV Seattle Aug. 17-22.

One of nine educational TV specialists who served on the faculty of the institute, Mr. Sener told nearly 300 delegates:

"There is undoubtedly a wide group of persons which commercial television is not reaching. Therefore, we (educational TV) have a great potential which as yet in many ways has remained untapped."

The series of sessions was pointed toward more effective use of educational time on commercial channels, as well as the development of programs for the reserved noncommercial Ch. 9 in Seattle.

In the opening sessions, the audience heard some of the basic requirements and problems of telecasting from King Broadcasting Co. officials.

INTERNATIONAL

CBC ANNOUNCES RATE CARD NO. 4

CBFT Montreal rates jump.
Time classifications and regional discounts have been set up for all stations.

WITH SIX TV stations listed, Canadian Broadcasting Corp. has announced its fourth TV network rate card effective Sept. 1. Rates for CBFT (TV) Montreal have been increased from \$375 to \$490 an hour because of increased number of sets in the area. Rates for CBLT (TV) Toronto remain at \$750 an hour, CBOT (TV) Ottawa \$150 an hour, CBUT (TV) Vancouver \$160 an hour, and for independently-owned TV stations CKSO-TV Sudbury, \$120 an hour, and CFPL-TV London, \$160 an hour.

Three time classifications have been established and frequency and regional discounts set up now that there are two time zones available, Eastern and Pacific. Class A time is from 6-11 p.m. daily, Class B time from 1-6 p.m. Saturday and Sunday, 5-6 p.m. Monday through Friday, and class C time is all other time.

Class B time is 75% of gross rates, Class C time is 60% of gross rates. Hour breakdown rates are 80% of hourly rate for 45 minutes, 60% for 30 minutes, 50% for 20 minutes, 40% for 15 minutes, 35% for 10 minutes and 30% for five minutes. Frequency discounts start at 2½% for 13-25 occasions, go to 10% for 52 or more occasions. Regional discounts are 4% per region.

Interconnection for microwave relays are from Buffalo-Toronto-Ottawa-Montreal circuit, at \$280 per hour for complete circuit, \$120 between Buffalo and Toronto, \$160 between Toronto-Ottawa-Montreal. The new rate card also includes charges for film and studio commercials, kinescope recordings and film editing.

CBC Seeks Toronto Rink

TO ACCOMMODATE television audience shows, the Canadian Broadcasting Corp.'s national program department is negotiating with the city of Toronto, for the purchase of the Strathcona roller skating rink at Christie St., Toronto. CBC officials plan to turn the rink into a TV studio for network shows originating on CBLT Toronto. Auditorium would have space for audiences of 400 people.

TELEQUIPMENT NEWS

Published by the General Electric Company, Electronics Park, Syracuse, N. Y.

SCRANTON'S FIRST TV STATION NOW UP TO "FULL POWER"

WGBI-TV on Air June 7; 215,500 Watts ERP Goal Reached

WGBI-TV, Scranton, Pa., an affiliate of CBS, that telecast its initial hour-long dedication program at 4 P. M., Sunday, June 7, over UHF Channel 22, has announced it has reached the 215,500 ERP power goal it aimed at. Appearing on that first program—in addition to entertainers—were mayors of four cities, officials of the station and other representatives of religious, civic, and industrial organizations.

Costs to Date near Half-Million Mark

George D. Coleman, General Manager of WGBI-TV, estimates the heavy cost of building and equipping studios and transmitting facilities in the neighborhood of \$500,000. Complete General Electric equipment including a giant 12 KW transmitter and two six-foot Klystron tubes each are on hand to provide the terrific power essential for serving Northeastern Pennsylvania.

Antenna is Atop Mountain

Transmitter and antenna are located on West Mountain, literally

"up in the clouds" at 2350 feet above sea level. From this position WGBI-TV will be able to send a powerful signal—operating at 215,500 watts—over a wide area of Northeastern Pennsylvania.

WGBI-TV Offers Tri-State Coverage

WGBI-TV plans to serve an area with a 1952 population estimated at 1,403,950 and in which 1951 retail sales exceeded \$1,299,947,000. Their TV signal is expected to reach all or part of 16 counties in Pennsylvania, 3 in New York State and 2 in New Jersey. 100% coverage for 10 of the 16 Pa. counties and 20 to 90% for the balance is the current aim of station management. Checks to de-

Copyright by Haastrom Company, Inc., Map Makers, N. Y.

termine television service outside the primary area cannot be made until the new outlet is on the air for a longer period of time.

Kenneth Cooke, Chief Engineer, (photo left) stands alongside a Klystron tube used to amplify the WGBI-TV signal to peak power before it is beamed from a G-E 12 KW transmitter (photo right).

Antenna's On-Time Arrival Fills in Final Vital Line

George D. Coleman

General Manager George D. Coleman says April 23, 1953, was a red letter day in the TV history of WGBI. On that day the 50-foot TV antenna for the transmitting tower on the West Mountain was delivered by General Electric. That delivery was important because it filled in the final vital link which allowed WGBI-TV to begin telecasts on UHF Channel 22 on June 7 as planned.

The antenna was hauled to Scranton from Schenectady, N. Y., by a huge tractor-trailer and had to be "snaked" up the steep, narrow and curve-laden dirt road to the transmitter site with special care.

It arrived only a day after other vital transmitting installations came from General Electric. Immediately after the antenna was left at the transmitter, WGBI-TV's Chief Engineer Kenneth Cooke contacted a New Jersey firm for the job of erecting the antenna.

Station Boasts "Most Modern Equipment"

Kenneth Cooke

Programs that originate in the newly constructed WGBI-TV studios will be produced "under the most ideal conditions and with the most modern equipment" according to Kenneth Cooke, Chief Engineer. Film cameras, projectors, consoles and a host of other allied equipment incorporate up-to-the-minute General Electric design features . . . the last word in equipment development.

Studio Plan Based on Scale Model

Under the direction of Mr. Cooke, the WGBI-TV engineering staff built an exact scale model of the contemplated TV studio installations. That model was accurate in every detail—even chairs and audio boom units were included. This unique device proved invaluable for expediting actual equipment installation.

A radio-television success story:

SPECIAL SIMULCAST AIDS CAR SALES

NEW life has been infused into the sagging used car business in San Diego County as a result of a two-hour *Carnival of Cars* program presented as a public service by KFMB-AM-TV San Diego on radio and television.

Forty-nine cars, at special low prices, were entered in the sales show which was telecast and broadcast from a parking lot adjacent to the KFMB building. Forty members of the Motor Car Dealers Assn. of San Diego and nine members of the Assn. of Used Automobile Dealers participated. Two cameras alternated in televising the cars, while the complete announcing staffs from both TV and radio worked with the dealers in presenting the parade of cars.

Among the many sales reported from the show was that of a car shown by the San Diego Motors. Co.—sold in 15 minutes after it was returned to the sales lot.

One prospect telephoned during the show with an offer to buy the car shown by the Robert D. Maxwell Co. if it would be delivered to his home east of Alpine, about 45 miles from San Diego. It was delivered and a check in full payment given to the salesman.

William A. Smith, executive secretary of the Motor Car Dealers Assn., asserted, "I feel that the carnival, which was splendidly programmed and managed, will have a decidedly favorable effect on used car sales."

William Reed, manager of the J. R. Townsend Co., which sold

five cars after the show, reported, "We had one of the best plays on our lot of any Saturday night this year."

Frank Harris, manager of Davies Motors, commented: "It was a wonderful production. We had several calls by phone and in person as a direct result, and the best Saturday afternoon and evening business in a long time."

Palmer Hughes Jr., owner of the British Motor Sales Co., reported that "The show created a lot of interest and stirred up quite a bit of action among consumers."

A. M. Sanders, manager of El Cortez Pontiac, commented that "It was a terrific job of public relations and obtained the desired results in stimulating the used car business."

Howard L. Chernoff, general manager of KFMB-AM-TV, said, "When television was started in San Diego, new and used car dealers jumped in and advertised with us when we had a tough time selling others on the productiveness of the medium. We were glad to reciprocate with this show as a means of helping them out of a difficult market condition."

The show was given advance promotion on radio and television during the preceding week, stressing the theme, "Now is the time to buy a used car." The station spent about \$2,000 on the show, absorbing all the charges for time, talent and labor. Messages also were broadcast explaining why the car dealers' associations are observing Sunday closings and appealing for consumer cooperation in buying during the week.

DO POWER BOOSTS MEAN

The correspondence below is, of course, fictitious, but chances are that similar inter-office memos have been exchanged among real-life agency executives in the post-freeze confusion of claims regarding station powers. In TV, station power is not measured as it is in radio. Frequency and antenna height can be as important as

wattage. In this article B•T hopes to help advertisers and agencies understand the significance of high and low powers, high and low antennas, and high and low positions in the television broadcast bands. The theory is that J. Beldingfoote Rubihardt is not alone in his bewilderment about the technicalities of television transmission.

To: A. L. Timebuyer

Now that WOF-TV has gone to 100 kw, guess we better change that Malted Milk Inc. schedule to use WOF-TV in place of WZZZ-TV in Metropolis. Please follow thru.

15 PERCENT INC.

Aug. 5, 1953

A. L. Timebuyer
Vice President

To: J. B. R.

Following your Aug. 1 memo, we changed Malted Milk schedule to use WOF-TV instead of WZZZ-TV for Metropolis. Not without some fireworks. Joe Manager of WZZZ-TV blew up when told the news. Said fact he had only 26.3 kw of power and WOF-TV 100 kw had no bearing on coverage. In television, he said, power is related to antenna height and frequency. His antenna is 1,500 ft. high, he said, while WOF-TV's is only 750 ft. Claimed he was still getting more coverage than WOF-TV. Don't understand the technicalities, but through 20 years of radio Malted Milk has always gone for high power and I'm sure that's what they'll want in TV.

15 PERCENT INC.

Aug. 7, 1953

J. B. R.

To: A. L. T.

Joe Manager (WZZZ-TV Metropolis) sent me the attached explaining more fully

correlation between TV station powers, antenna heights, frequencies, etc. Give it the double 0 and come in to see me. Think maybe he's got something.

WZZZ-TV

METROPOLIS, U. S. A.

Aug. 5, 1953

My dear Mr. Rubihardt:

I have just been notified that you are switching the Malted Milk account to WOF-TV because it has just raised its power to 100 kw. I gather this is due to your assumption that because we are still operating with 26.3 kw we cover less than the 100 kw station.

This is a great mistake. Although power meant something in radio—although never to the extent you advertising men assumed it did—it does not have the same bearing in television. When the Federal Communications Commission allocated channels to various cities, it based its allocation table on the premise that all TV stations in the same market would cover about the same area. In order to accomplish this it related power to antenna height to wavelengths. Where towers were higher than the maximum, it ruled that those stations would have to reduce power. Where towers were at the maximum, or lower, the FCC permitted maximum powers.

For example, WOF-TV is on Ch. 5 and operates from a 750 ft. antenna. Under the most recent standards for television, it could and did go to 100 kw maximum.

WZZZ-TV, on the other hand, operates on Ch. 2 from a 1,500 ft. antenna. The highest we can go is 26.3 kw.

But, even with that comparatively low power, we get considerably more coverage than our competition. In fact, we could match WOF-TV in coverage by using only

14.5 kw. That's the truth. Ask any engineer.

I trust you'll reconsider your decision to replace WZZZ-TV with WOF-TV in the Malted Milk schedule. I am sure when you consider your purposes, you'll find that WZZZ-TV is still the better buy for coverage. In view of our 15 years association on this account—in radio and TV—I am sure you will give this matter your sympathetic attention.

Yours very truly,

J. L. Manager

Executive Vice President

15 PERCENT INC.

Aug. 9, 1953

A. L. T.

To: J. B. R.

Well, after we discussed this WOF-TV and WZZZ-TV matter, I checked with some of our network friends and discovered Joe Manager was right. The Washington government agency that handles these things won't let any station in Metropolis use more than 100 kw if they're on Channels 2-6 and they have an antenna height not over 1,000 ft. If they have an antenna height over 1,000 ft., the G-boys make them reduce their powers to equalize coverage. Another instance of government interference with free enterprise, J. B. Wonder if Ike has gotten around to that, yet? Well, anyway, if one went to maximum power and the other didn't, why then of course we'd use the one with highest power. Guess we'll have to check antenna heights as well as powers on future schedules. In view of our long use of WZZZ, I've rescheduled that station for the Malted Milk account.

BIGGER TV COVERAGE?

15 PERCENT INC.

Aug. 10, 1953

J. B. R.

To: A. L. T.

Hope you haven't told Joe Manager he's back on the Malted Milk schedule. Frank Stationrep just called to tell me WIII-TV is due to boost its power to 316 kw in Metropolis next week. Better look into this. If true, use 'em.

15 PERCENT INC.

Aug. 10, 1953

A. L. T.

To: J. B. R.

Look, J. B. I just told Joe Manager he's back on the Malted Milk schedule, and I'd hate to have to untell him. It's tough enough that I had to cancel WOF-TV. Boy, there is a fighter. He claimed he added 55,312 people to his service area with his power boost. Before we change this again, suppose I check what this WIII-TV boost means.

15 PERCENT INC.

Aug. 11, 1953

A. L. T.

To: J. B. R.

You're right about WIII-TV. It's going to 316 kw—but on Channel 13. As I get it, stations on Channels 7 to 13 can go to a maximum power of 316 kw because they are higher in the radio spectrum than the stations on Channels 2 thru 6. Seems it takes more power on Channels 7-13 to cover same distance as stations on Channels 2-6. In other words, everything else being equal, 100 kw on the low band is equal to 316 kw on the high band. All of this is based on 1,000 ft. antennas in Metropolis. That is 1,000 ft. *above average terrain*. I even discovered what that means—they take measurements from two to 10 miles out from the transmitter site and average them out. If the station has a tower higher than 1,000 ft., the Washington G-Men make him reduce his power so he'll be equal to the other stations in the city.

Haven't told Joe Manager yet and in view of the above information think we ought to continue WZZZ-TV on the Malted Milk list.

15 PERCENT INC.

Aug. 13, 1953

J. B. R.

To: A. L. T.

Reg Anam of WOF-TV called this morn-

ing re Malted Milk schedule. Very heated about losing account back to WZZZ-TV. But he quieted down when I riposted with power - antenna height - frequency relationships and FCC allocation table. Muttered he added 25% to his potential audience. Think we've got the situation clarified now. Instruct all your people to match power to antenna height before signing stations for our accounts. Keep this quiet; believe we're only agency on street with this knowledge. Can be used to advantage. Save our clients plenty bucks if other agencies go for higher powered TV stations without understanding what we know.

CACACAPON TELECASTING CO.

A NEW TV STATION FOR METROPOLIS! COMING DEC. 25!

A Christman Present for Metropolis
Ch. 421,000,000 watts

Watch For Further Announcements

A. L. What's this? One million watts? Thought 316 kw was highest station could go. Ought to be terrific. Very thing for Malted Milk.

J. B. R.

15 PERCENT INC.

Aug. 17, 1953

A. L. T.

To: J. B. R.

Re that Cacacapon station in Metropolis. It's true. Station is authorized 1,000,000 watts. Seems to be some question whether that amount of power will be available in near future. My friends tell me ultra high frequency stations are allowed a maximum of 1,000 kw with 2,000 ft. antennas in Metropolis. Seems Government lads in Washington permitted that hunk of power in order to equalize coverage with very high frequency stations (Channels 2 to 13). That's general idea, anyway. Can't understand those bureaucrats. One megawatt. Who ever heard of such a thing. Anyway, am checking further into this and will report as soon as I get more info.

15 PERCENT INC.

Aug. 18, 1953

A. L. Timebuyer

Vice President

To: President

More dope on that million watt station under construction in Metropolis.

Frankly, J. B., this going to be a little

technical. Had to visit with a network friend, two station reps and a consulting engineer (who was up here from Washington on another matter).

You'll remember that when the FCC put out its table of allocations for TV stations in 1952 its basic policy was that all stations in the same area covered about the same radius. Well, when those government engineers let the Channel 2-6 stations go to 100 kw, they figured that it would take about three times that power to enable Channel 7-13 stations to cover same area. Therefore the 316 kw for the high vhf band. These G-scientists also figured that the uhf stations (Channels 14-83) would need three times the Channel 7-13 power to do the same job. So, they gave them 1,000 kw.

I also discovered that those Government men had divided the country into two zones: Stations in Zone I—the northeast and north central regions—were limited to 1,000 ft. antennas in the vhf and to 2,000 ft. antennas in the uhf. Stations in the rest of the country (Zone II) were limited to 2,000 ft. antennas.

Don't forget now, if a station goes over the permissible antenna height, he's got to cut back on power. That's supposed to equalize his coverage with the guy who has an antenna less than the maximum and who can raise his power to the maximum. Sort of explains the WOF-TV and WZZZ-TV situation, doesn't it?

Am checking to find out how much power this Metropolis uhf station is going to begin operating with. Understand there's no such thing yet as 1,000 kw in uhf. Will be, maybe, in a few years. Will get back to you pronto when I get the dope.

PROBLEM: How to select the best facilities in buying time on a television station.

DISCUSSION:

1. If advertisers wish to reach the largest possible television audience in a particular market, they must (a) try to get the station with the largest coverage and/or (b) buy or provide a program which will have the widest audience. This paper will deal with subparagraph (a); the matter of program content is not within the purview of this study.

2. There are four principal factors in determining the best coverage of a TV station. They are (a) power, (b) antenna height, (c) frequency, and (d) antenna site. Each is related to the others and one is not more important than the other.

3. *Power.* Power in television means that a signal transmitted from the station's antenna will be received in such intensity that the average TV receiver will function properly. Under the FCC's present standards, stations using Channels 2 to 6 may go no higher than 100 kw, those using Channels 7 to 13 may go to a maximum of 316 kw, and uhf stations (Channels 14-83) may go no higher than 1,000 kw. This is based on the technical principle that the high vhf stations need three times the power of the low vhf outlets to do the same coverage job and that the uhf stations need three times the power of high-band vhf stations to do the same coverage job—all other things being equal. Theoretical analysis and tests up to this time have shown that this 3:1 power factor is a fair assumption. As more and more vhf and uhf stations get on the air, the exactitude of this principle will be clarified.

4. *Antenna height.* Generally speaking, television signals act like light beams. Therefore, the higher the transmitting source, the farther it will be seen. But because the FCC must take into account other stations in other cities, it limits antenna heights in this wise: In Zone I (the crowded north-east and north central regions)—1,000 ft. for vhf stations and 2,000 ft. for uhf stations. In Zone II and Zone III (the remainder of the country)—2,000 ft. for all stations. This is always antenna height above average terrain.

5. *Frequency.* The higher in the radio spectrum, the more radio waves act like light. In the vhf frequencies, TV signals carry out beyond the horizon, actually bending around the earth's curvature to some

degree. In uhf, the TV transmissions act more nearly like light; they go straight off at the horizon. In fact, uhf signals will not get down behind mountains or other obstructions. This is known as shadowing.

This variation in radio wave propagation is the reason for the differences in power maxima authorized by the FCC for vhf low band, vhf high band and uhf stations. It is interesting to note that this variation also applies to AM radio—although most buyers of radio time have relied almost solely on power factors in choosing stations. It is an engineering truism that 500 watts on 500 kc is the equivalent in coverage of 50 kw on 1600 kc.

6. *Antenna site.* Normally, the ideal would be for all TV stations in one area to transmit signals from the same point. This is what has occurred in New York (Empire State Bldg.), in Los Angeles (Mt. Wilson) and in some other markets. Practically, there are in most communities different antenna sites for individual stations. The antenna site will have a definite bearing on antenna height (which in turn affects power) and on radio wave propagation. As to the latter, if a city is in a valley, and a station transmits from the roof of a building in the city, it will not reach out as far as the signals of a station whose antenna is located on a mountainside. In the first instance, the surrounding mountains will act as buffer to the TV signals. In the other case, the high-sited station's signals will not only spray down into the city, but also across the mountain tops to outlying areas.

7. In its endeavor to equalize all stations in the same market, the FCC drew up charts which relate all these factors to one another. The Commission's premise was a very strong signal in what is known as a station's Grade A service area (which includes the market's principal city) and a weaker but still adequate signal in its Grade B coverage area. This was based on known characteristics of existing TV receivers. Undoubtedly, if a viewer has a highly sensitive receiver—or has gone to the expense of putting up a tall receiving antenna (so it is in line-of-sight with the transmitter)—he will pull in a signal sufficiently high in intensity to operate his receiver. It should be pointed out that this is not any of the station's doing; it results from the viewer's action.

8. There is another consideration that must be kept in view. When the FCC allocated channels throughout the U. S., it provided for the following separations between stations on the same channel: For vhf, Zone I, 170 miles; Zone II, 190 miles and Zone III (Gulf Coast), 220 miles. For uhf, Zone I, 155 miles; Zone II, 175 miles and Zone III, 205 miles. Because antenna heights on vhf were limited in Zone I it is possible to put stations closer together. The reason for the wider spacing in Zone III stems from the fact that freakish propagation (from the troposphere and E layer) causes signals on the Gulf Coast to extend farther.

9. A word about uhf. Unfortunately, there is not at present any uhf transmitter capable of generating 1,000 kw effective radiated power (the power that comes out of the transmitting antenna). At the mo-

ment the highest powers being radiated in uhf are in the order of 200 kw. Since uhf needs power to gain distance, uhf stations are thus constrained in coverage to distances of 30 to 40 miles. Vhf stations can go out as much as 70 miles easily—and up to 100 miles or more under optimum conditions. Just how long this lack of uhf power will continue is unknown, but there seems little doubt that in the not too distant future there will be transmitters of such magnitude available.

It is an accepted fact that uhf waves travel in straight lines, and this, too, becomes a problem because of shadow areas in the station's coverage (see Paragraph 5 above). This difficulty can be overcome by sitting the station's antenna properly so it "looks down" into such valleys or bowls. There is a school of engineering thought which believes that increased uhf power will fill in shadow areas. The practical answer to this situation will be known when transmitters sufficient to put out 1,000 kw are developed.

10. Note should be taken that in line with the FCC's reasoning regarding equalization of coverage, stations with antenna towers above the maxima in each zone must compensate by reducing power. This means, therefore, that it is possible for two stations to be covering the same area, with one having a power much in excess of the other. The difference will be due to the fact that the station with the lower power obviously has an antenna taller than the station with the high power.

11. One other factor must be taken into account. That is interference. It is likely for two stations to be covering the same market with compensated power and antenna heights and still have one station serving a much greater area than the other. This is due to the interference from a co-channel or adjacent channel station which cuts into one of the station's service areas. The only way this can be overcome would be for viewers in the affected areas to put up directional receiving antennas which would screen out the offending undesired signals.

N.B. For a time, during the next few years, there will be significant differences among stations in the same market. An engineering approach to the question of which is the best buy in each market is requisite for the benefit of your clients.

(*) The 100 per cent base includes stations that did not respond to the specified question.

HOW TO READ THIS TABLE:

In the first column, the entry of 93% for trade calls indicates that 93% of the 138 stations reporting at least one merchandising service will make some calls on the trade. The entry of 84%, immediately after the first entry, shows that 84% of the 138 stations will solicit and/or place displays.

In the second column, the first entry, 37%, indicates that of all stations which report they solicit and/or place displays, 37% require minimum purchase of time.

In the third column, the first entry, 76%, means that 76% of the stations which report

they solicit and/or place displays make this service available to both network and local advertisers (the word "local" designates all non-network advertisers, national and regional spot clients as well as purely local advertisers). The remaining 24% are those stations which make the service available to either local advertisers only, network advertisers only or did not specify which type of advertiser is eligible to receive the service.

In the last column, the first entry, 9%, means that 9% of the stations that report they solicit and/or place displays will charge the advertisers for this service.

FOUR-FIFTHS of the nation's TV stations offer some type of merchandising or promotional service to their advertisers, according to a nation-wide survey conducted by Kenyon & Eckhardt—the first such study ever to be made of this field.

Full results of the survey are published in the new 1953 TELECASTING YEARBOOK-MARKETBOOK, now in the mail to subscribers. They are summarized in this article.

Stations offering any merchandising or promotional service to advertisers normally offer a variety of such services in support of their clients' telecast, the survey reveals. Of all TV stations offering one or more types of merchandising, 94% reported sending out mailings to the trade, 93% make trade calls, 92% provide on-the-air support, 91% give some other advertising support and 81% provide other kinds of service.

Idea that a survey of station merchandising services would be appropriate at this time, when advertisers and agencies are taking an increasing interest in ways of obtaining the maximum effectiveness of their advertising, whether on the air or in print, was proposed by Hal Davis, Kenyon & Eckhardt vice president and director of promotion.

After publication arrangements had been made with B•T, the questionnaire for TV stations was prepared by the agency's research department, under the supervision of G. Maxwell Ule, vice president and director of research. His staff also tabulated the station's replies and prepared the summary table which accompanies this article.

Mr. Ule defined the objectives of the survey as three-fold:

1. To acquaint buyers of TV time with the merchandising and promotional services that each station will supply.

2. To acquaint sellers of TV time with what other stations are providing by way of merchandising and promotion.

3. To summarize for the benefit of all concerned the extent to which stations are supplying merchandising and promotional services.

Questionnaires were mailed on May 15, 1953, to all TV stations then on the air or scheduled to begin operations by the first of June, a total of about 175. Follow-up letters and questionnaires went out a month later. In all, Mr. Ule said, the response was

(Continued on Page 84)

AIDS ARE AVAILABLE

from tv networks

ALL MAJOR television networks are firm believers in the power of merchandising but execution of the promotional services they throw behind their clients' campaigns shows considerable variance.

Information supplied B•T by the four video networks explains the policies governing their merchandising services and lists some of the specific services. The material was assembled in connection with the extensive survey of TV station merchandising conducted by Kenyon & Eckhardt.

According to the network statements to B•T, ABC-TV takes the position that the basic source of merchandising must be the local station. CBS Television concentrates on program promotion on the ground that anything it does to build audiences for CBS Television programs makes a better advertising medium of the network.

DuMont Television Network builds its program and sales promotion services around a comprehensive kit that is sent to all stations carrying a program. Each kit is tailor-made for the program. It contains material promoting the particular series and includes instructions and suggestions. NBC-TV has been intensively active in the merchandising field since Jan. 1, 1952, when it deliberately set out to build "the finest merchandising service possible."

CBS Television and DuMont describe their merchandising policies and services in terms of television programs. NBC and ABC descriptions cover both television and radio though they naturally provide different kinds of services for the two electronic media.

Inherent in most TV merchandising, as in the case of radio, is extensive use of the network's own facilities for promotion of programs.

Following are statements of merchandising and promotion services as supplied to B•T by the networks in connection with the Kenyon & Eckhardt survey:

ABC ABC recognizes the importance of merchandising radio and television programs to the audience and to local distributors and dealers selling the advertisers' products. ABC recognizes, too, that the primary source of such merchandising and promotion must of necessity be the local station—for it is in the local community that listening or viewing habits are developed. It is there, too, that the purpose of the advertiser's program is

In the first study of its kind, Kenyon & Eckhardt has surveyed all operating television stations to find out how much merchandising they provide. The results of that survey are summarized on the opposite page. As a companion piece, a report on TV network merchandising services begins on this page.

As B•T has pointed out before, the quantity of merchandising that stations and networks should supply is a matter of controversy in which B•T has taken no part, except to adhere to its position that merchandising should not be used as a rate-cutting device.

However controversial, the merchandising question will not go away if it is ignored. B•T is publishing the summary here and the full tabulation of the K&E survey in the *Telecasting Yearbook-Marketbook*, now in the mails, as a service to its readers.

fulfilled—the purchase of the product or service advertised.

To make the local station's merchandising job easier, ABC supplies the stations with promotion and publicity "tools"—audience promotion kits containing newspaper ad mats, program announcement copy (and slides for TV), photographs, picture mats, publicity releases, suggested letters to dealers and mats for dealer postcards.

The extent to which stations use the material supplied and the additional merchandising services they render are, ABC believes, matters to be decided entirely by the station, since they depend on the facilities available, the size of the staff and the budget.

As a network, ABC's "merchandising" function is to build audience for its radio and television programs. The ABC Publicity Department devotes its entire facilities to this end, through its daily news report and direct teletype service to newspaper radio and TV editors and columnists; feature story material for newspapers, national magazines and trade publications; its national radio and TV photo service, and exploitation of talent through personal appearances, special tie-ins

with non-competing merchandising events, and other means.

Program promotion announcements on network sustaining programs are regularly scheduled. ABC owned stations in New York, Chicago, Detroit, Los Angeles and San Francisco schedule similar on-the-air promotion locally and advertise network programs in local newspapers. Local merchandising activity is at the stations' discretion.

CBS-TV THE best form of "merchandising" is program promotion—and CBS Television practices it with the viewpoint that it is the most valuable service that can be offered our advertisers. It is also a subject in which we have a strong self-interest—for whatever we do to build audiences for our sponsors' programs makes a better advertising medium of our network.

To carry out this policy, CBS Television concentrates on trying to make its program promotion the most effective in network television. It deliberately excludes itself from merchandising activity as defined in the

MERCHANDISING SERVICES OF TV STATIONS

"extremely high" with approximately 85% of all TV stations cooperating in the project.

Mr. Ule listed as among the survey's more significant findings the following points:

1. Of all TV stations approached in the survey 80% (138 stations) reported some merchandising or promotional services. The remaining 20% either had no such services or did not return their questionnaires.

2. Of these 138 stations supplying some merchandising and promotion, 93% do some trade calls, which include soliciting and placing of display and store checks and soliciting tie-in advertising; 94% offer trade mailing, including letters, post cards, broadsides and merchandising bulletins; 9% support clients advertising by use of newspaper tune-in ads, lobby windows, billboards and car cards; 92% have some on-the-air support, such as demonstrations, give away prizes, product mentions and tune-in announcements.

3. Of the same 138 stations, 78% will help a client representative in local problems in distribution and 41% have a special merchandising plan whereby certain outlets will give preferred space to display material.

"It should be noted," Mr. Ule said, "that measurements of merchandising and promotional activities of TV stations, like other television measurements, cannot be considered static. This is especially true for new stations.

"Responses from many of the stations that went on the air in May and June mentioned that they were just getting started in developing an active merchandising department—which would explain why some of their answers were incomplete. There was even some comment from the older stations indicating a possible expansion of services should a move in this direction be suggested from the findings of our study."

The accompanying table (on page 82) presents a detailed summary of the findings for all TV stations reporting.

MERCHANDISING SERVICES OF TV NETWORKS

(Kenyon & Eckhardt) questionnaire—having observed that such practices all too often hinder, rather than help, the elaborate merchandising plans which advertisers themselves initiate to solve their own special problems among distributors and retailers.

CBS Television has good reason to believe that our policy works for the best interests of the advertisers. During the past season CBS Television has had the highest average nighttime rating among all networks, more of the top 10 nighttime shows than any other network, and all of the top five daytime shows.

While it took good programs to win this record, programs didn't do it alone. Effective and extensive program promotion helped make it possible.

The center of our promotion effort has

been and continues to be on-the-air activity. With 23 million families spending an average of almost five hours a day watching television, no other medium can possibly match the number of impressions we can make by promoting our shows through our network facilities. And so, all network system identification announcements and all available announcements on sustaining network shows are devoted to the promotion of specific programs. We use slides with specially prepared copy that tells about the very next broadcast of each show . . . who's on and what's going to happen. We also use the most logical and the most dramatic technique for promoting programs and personalities: Film trailers in which CBS Television stars tell about their own programs in their own words.

At the same time, we do not neglect other media. Effective use of newspaper and magazine space occasionally supplements our on-the-air activity.

Moreover, each network promotion campaign is buttressed with local campaigns by CBS Television stations throughout the country. For every CBS Television program a station carries, it receives a complete program promotion kit. These kits—the most comprehensive in the industry—include:

- 20-second 16mm film trailers
- 2" x 2" glass slides
- 3 mats of one-column ad
- 2 mats of two-column ad
- 1 mat of three-column ad
- Program notes
- Live announcements (one-minute, 20 seconds, station breaks, home-maker)
- Copy for displays
- Matte-finish photos for on-the-air use
- Feature story
- News story
- Biography of star
- Exploitation ideas
- Glossy photo with caption

All this material is supplemented by as many as 10 new film trailers for each show during the course of a season, as well as a new slide for each show every six weeks and timely announcement copy every week.

This intensive kind of program promotion adds up to the kind of "merchandising" that really counts in network television advertising—hard merchandising of the programs themselves, so that the advertisers can get the largest possible return on their investment.

DU MONT The DuMont Television Network's program promotion and sales promotion centers around a comprehensive kit sent to the promotion managers of all stations carrying a specific show. The kit is divided into three sections—promotion, publicity and showmanship.

In the promotion section are letters to the station promotion managers, apprising them of the program's premiere and requesting that they do everything within their power to promote it locally. Also enclosed are suggested spot announcements; two slides; two different kinds and sizes of mats and proofs for audience advertising; suggested

copy for the station's own use in making mats.

Contained in the kit's publicity section are photographs of all participants on the program, biographies, a format story, plus feature stories.

In the showmanship section are exploitation, display and merchandising suggestions, plus a suggested letter to local retailers and wholesalers, which tells them how they can promote the program to the advantage of the sponsor's product.

All sections of this kit are kept up to date with new photographs, stories, etc.

Aside from the kit, DuMont sends each station's promotion manager a report for clients on his local activities with dealers. This is filled out, returned to the network, and then sent to the advertiser.

The network also supplies direct mail—to the client's specifications and on DuMont letterheads—to dealers and distributors, announcing the debut of a program promoting one of their products. From time to time, the network also sends them a newsletter on the program.

Two of the network's promotion services are performed on a weekly basis—the sending of publicity releases on each show to the manager of the station carrying it, and on-the-air announcements emanating from the network's key station, WABD (TV) New York.

DuMont will create a supply of display material at the client's request, with the network absorbing the cost of the art work, and the advertiser paying for the printing.

NBC-TV On Jan. 1, 1952, NBC embarked on a program of building the finest merchandising service possible.

Of all advertising media, only a network has the means at hand to build a truly effective merchandising service—for the very simple reason that no medium could afford to establish local operations in all the key markets. A network, and only a network, can possibly provide these facilities because it is represented in these markets by its affiliates.

So, on this precept NBC merchandising was born. The country was divided into twelve merchandising districts, and a supervisor assigned to each, experienced men with wide backgrounds in merchandising and sales. These are all men who are qualified merchandising consultants. It is they who contact the trade, train advertiser salesmen in the techniques of present-day merchandising and make demonstration calls. They are the men who contact key retailers and wholesalers in the interests of advertisers, and they are the men who work with our affiliated stations, developing the stations' cooperation at the local level, and most important, they secure the factual evidence of performance which is so vital for our reports to sponsors. With the interest of regional and divisional managers in their company's advertising and the media used growing at a rapid pace, these men constantly call on leading advertisers' branch offices with new and informative material concerning radio and television.

They have covered more than one million miles and made more than 30,000 personal

calls on retailers, wholesalers, and affiliates in the interests of NBC advertisers.

Across the country these merchandising supervisors have carried out the merchandising plans developed in New York in cooperation with, and at the special request of, NBC network advertisers and their agencies—custom-tailored plans for each sponsor—merchandising specifically geared to fit the individual advertiser's problems and needs.

These supervisors have bolstered NBC advertisers' selling efforts with local merchandising wherever they have gone. They have reached top management—men who would not ordinarily be contacted by the sponsor's salesmen and have secured their help in putting over the campaigns.

They have arranged special promotions, better shelf position, storewide sales, end displays, tie-in advertising, and helped sponsors with problem accounts.

However, all of these jobs, while important, only constitute a part of the merchandising district supervisors' responsibilities. Their most vital and important work has been the development of merchandising cooperation on the part of NBC affiliate stations in the interest of network sponsors.

As part of the program developed for affiliates, monthly mailing pieces for both the food and drug fields were made available—pieces which, by mass production, offered the stations better mailings than they could produce at a reasonable price.

NBC also developed a portfolio of merchandising aids especially designed for station use at point of sale—colorful pieces, every one imprinted with the affiliates' call letters or channel number.

Another service of the NBC merchandising department is the *merchandising memo* sent to every station on the network every month. The memo reports the latest merchandising trends and tells the affiliates how they can interpret this information to their own advantage.

It has taken months of patient work, explanation and confidence-building to establish this merchandising network. As time passed and the stations began to understand the benefits and operating procedures of merchandising, more and more joined in these merchandising activities.

So, today, NBC offers a national, integrated service, which includes merchandising cooperation from 182 NBC Radio network affiliates and 65 NBC Television outlets and practically 100% of the affiliates, who have not yet adopted merchandising, have definite plans under way.

Obviously the amount and types of merchandising services that the affiliates render a network advertiser vary with the market the station services and the extent to which they have developed their merchandising activities. The picture is clearly painted by the general manager of an important NBC station, who said, "Only now are we beginning to appreciate fully the value of merchandising and the place it must have in broadcasting."

As a matter of fact, the list of advertisers who have been served by the NBC merchandising team is far too long to permit giving detailed case histories.

But the roster of firms who have endorsed

and used NBC merchandising reads like a Social Register of American business—great advertisers like Scott Paper, Armour, Colgate, Prudential, Philip Morris, and others—a total of 83 to date—for each an individually planned and executed merchandising program.

New means and devices are constantly being explored to enhance the value of NBC merchandising to their sponsors.

NBC has always recognized fully that one of the most valuable assets that can be enjoyed by any advertising medium is a recognition of that medium's selling effectiveness in moving goods at the retail level. Many times in today's "battle of the brands," when advertising plans are being made, the retailer's voice is heard.

Witness the giant food industry—the largest source of advertising revenue. In less than 25 years the number of food stores has decreased from 600,000 to fewer than 500,000 while the population has grown over 20%.

True, the average store is larger but remember the old corner grocery store carried fewer than 800 items while the modern supermarket of today handles more than 3,000. Operating in the most keenly competitive field on the smallest of gross margins, the food store operators are continually seeking profit "cushions": hence, the dollar sign that is found today on displays and other promotional cooperation.

With store design changes limiting more and more the available special display space, such as end positions and the square footage required for mass floor displays, advertisers must increasingly probe the possibilities of added shelf facings, the effectiveness of shelf markers, shopping cart displays and other devices. This does not mean that the day of the feature display has passed or that they are unobtainable, but simply that with fewer stores, more items and less display

space, the "battle of the brands" for features in the food business, as in all other fields, grows tougher and tougher.

NBC fully recognizes that the feature display, well-policed, provides the most effective dramatization of product movement at the point of sale and is constantly working with its sponsors to obtain this kind of cooperation.

When an advertiser is using the facilities of the NBC network, the services of the NBC merchandising department are available without charge. These services include:

- 1) Merchandising the entire campaign. (This means all the media being used, not just NBC.)
- 2) Work with advertiser's sales personnel to indoctrinate them in the best methods of merchandising the company's advertising for their product at the point of sale.
- 3) Do the same with advertiser's wholesalers, jobbers, distributors and their salesmen.
- 4) Consult with advertisers on the preparation of special presentations (prepared at cost) for advertiser's sales meetings, wholesaler or distributor meetings. Attend these meetings to put on special presentations if advertiser so wishes.
- 5) Examine and make recommendations to advertisers covering new developments in merchandising practices and procedures.
- 6) Give the advertiser specific help with "problem" accounts.
- 7) Conduct, when desired by the advertiser, such special survey functions as spot checks, attitude surveys, and local market tests.
- 8) Develop and inaugurate special store-wide merchandising promotions in the food, drug and department store fields.
- 9) Coordinate and implement the merchandising plan with NBC affiliated stations to deliver the greatest possible local impact.
- 10) Supply point-of-sale material at cost.

PROGRAMS & PROMOTION

TV VERSUS NEWSPAPERS

SPECIAL study has been conducted by two ex-newspapermen, now in the TV business, on "How San Antonio Newspapers Measure Up to WOAI-TV." Edward V. Cheviot, commercial manager, and Mort Grossman, promotion manager of the San Antonio station, point out by a series of facts and figures that: On a cost-per-thousand basis, WOAI-TV delivers more people per dollar than any San Antonio newspaper; WOAI-TV provides more audience than any San Antonio newspaper, and that a half-hour on WOAI-TV costs less than a 1,200-line ad in one of the city's daily papers. The study also makes several points in regard to the quality of advertisement in the two media: Through TV the advertiser is indirectly in the home; the TV ad doesn't have to compete with other ads and features on the same page, and through TV there is the greater combined impact of sight, sound and action.

TELEVISION NECKTIE

DARK blue neckties decorated with a splash of gold in which the station's channel number, 54, is centered have been sent out by WILS-AM-TV Lansing, Mich. Enclosed in the package is an attractive calling card from W. A. Pomeroy, general manager.

ROTO SECTION FEATURE

TWELVE pages of the roto section of the *Pittsburgh Press* were devoted to the workings of WENS (TV) Pittsburgh on Aug. 23. Copy revealed how the station has been built and by whom and pointed up the names of stars who will be appearing on the new outlet. Also included in question-answer form was a section on "What Uhf Means to You."

WTVP DATA IN PRINT

SPECIAL TV section devoted to WTVP (TV) Decatur, Ill., appeared in the *Decatur Sunday Herald & Review* Aug. 16, the outlet's first full commercial on-the-air day. The 16-page layout featured pictures of executives and station personnel, background data on the new uhf station's staff and several behind-the-scenes photographs to give the reader an idea of how TV shows are produced.

CONTINENTAL PROMOTION PLANS

CONTINENTAL BAKING Co., N. Y., will promote the opening of its new radio show, *Make Up Your Mind* (CBS Radio, Mon.-Fri., 11:30-45 a.m. with newspaper insertions of two-color

Keystone explains to interested parties:

**WHAT'S A WATT...
OR...WHO'S LISTENING?**

How Many Jack Rabbits, Prairie Dogs and Hoot Owls Own Radios?

Webster says a WATT is "a practical unit of electrical power" . . . but in Radio time selling it is too frequently a hook on which to hang a rate card.

What do you want from a WATT in your radio time buying? Adequate coverage of your market of course. How many WATTS do you need? Sometimes 50,000 . . . sometimes five hundred and sometimes a nice neat 250 WATTER will put your message right on the bull's eye.

Our big story to advertisers and their agencies is

simply this: Why try to knock off chipmunks with a howitzer? Look to KBS for saturation of specific markets. No need to pay for an overdose of wattage which goes spilling out into unpopulated areas that can't pay off in sales. KEYSTONE plunks down wattage in adequate doses where it does the most good. The Jack Rabbits, the Prairie Dogs and the Hoot Owls are too busy barking, burping and hooting to tune in their radios and confidentially, some rumors have it that *their* homes are not yet wired for sound.

● WRITE, WIRE OR PHONE FOR COMPLETE MARKET INFORMATION AND RATES

seven-column and black-and-white ads. A 1,000 line follow-up ad will appear a week later. In the ads, details of the show dominate the mention of the sponsored products, Wonder Bread and Hostess Cup Cakes. Lee Mack Marshall, advertising director, meanwhile, noted that the company had been a sponsor on radio for 965 consecutive weeks, or 18½ years.

SERVICEMEN MEET AT WILS

TV SERVICEMEN'S meeting was held recently by WILS-TV Lansing, Mich. and the Carsen Distributing Co., Saginaw, which handles the RCA line. Station relates that 60 persons were invited to the session. In all, 82 service people attended. At the end of the meeting the first test pattern transmitted over Ch. 54 was brought in for those in attendance to see.

PORTLAND STUDY

SALES presentation titled "A Study of Advertising Media in Portland," has recently been published by KEX Portland. Production of the study was supervised by Charles L. Burrow, station promotion manager. Text outlines radio and newspaper circulation in three segments of the station's market and the effectiveness of the respective media in reaching each area. Copies may be obtained from KEX or its national representative, Free & Peters.

'Coffee Break' Promotion

NEW SERIES of sales promotion pieces designed primarily for station salesmen and representatives is being sent out by WHO Des Moines to stimulate radio sales. Each piece prepared under the direction of John Schweiker, station's sales promotion manager, deals with a different radio success story as it has developed on WHO. Promotion, in informal letter format, uses an attractive "coffee break" letterhead.

'STAGE STRUCK'

AN HOUR-LONG weekly program reporting on, and giving highlight scenes and music of, current Broadway shows will be launched by CBS Radio on Oct. 2 in cooperation with the League of New York Theatres (Fri., 8:30-9:30 p.m.). Stars of the various musicals and dramas being presented are slated to appear on the series, entitled *Stage Struck*. Commentator Mike Wallace will be host and theatrical reporter. Slated for the first broadcast are Lilo of "Can-Can," Rosalind Russell of "Wonderful Town," Basil Rathbone, Edna Wallace Hopper, and Shirley Booth.

PUMPKIN CONTEST

WPEO PEORIA was slated to open its third annual Pumpkin Contest yesterday (Sunday), offering a Youngstown kitchen as first prize for the person making the most accurate estimate of the number of pounds of pumpkins to be grown on a specified 20-acre patch. Other awards, which last year numbered 186 for a combined value of \$1,200, are slated to bring this year's prize pool to more than \$4,000 in value, according to General Manager John R. Livingston. The contest will run for six weeks and will be promoted on WPEO's farm service programs. Last year the contest attracted more than 9,000 entrants.

RTNDA AWARDS CLOSE SEPT. 15

Winners in three radio-TV news classifications to be announced Oct. 28 at annual convention.

EXTENSION of deadline to Sept. 15 for entries in the annual radio and television news awards of the Radio-Television News Director Assn., has been announced by Tom Eaton, WTIC Hartford, Conn., president of RTNDA.

All nomination and entry material must be postmarked by midnight of that day and sent to Baskett Mosse, chairman of RTNDA's awards committee, at the Medill School of Journalism, Northwestern U., Evanston, Ill. Formal news awards entry blanks, obtainable from Mr. Mosse, must be used.

Winners will be announced at the RTNDA annual convention banquet Oct. 28 in the Sheraton Park Hotel, Washington, D. C.

Mr. Eaton said that judges will be announced soon. He further explained that the judges will use as a yardstick the facilities available to each competing station, thus equalizing chances for those outlets with less staff, facilities and money for news gathering purposes.

The awards proper consist of gold trophies presented by Medill. When a station wins a trophy three years in succession, that trophy becomes that station's property. In addition, there are Distinguished Achievement certificates for winners and those receiving special citations.

The three awards classifications are:

(1) Outstanding Radio News Operations—the

radio station judged as providing the most complete and enterprising general news service of the year in the community it serves.

(2) Outstanding Television News Operation—the television station selected as providing the most complete audio-visual news service in the community and having contributed most to the general progress of television news.

(3) Outstanding Special Events or News Features Broadcast—the radio or television station which, in the opinion of the judges, did the best and most complete job or displayed the most enterprise and courage in reporting one news story or feature during the year. This classification include the broadcast of a special series, an election, a major flood, an editorial campaign, a commentary or an exclusive story. A station is permitted to enter as many as two special broadcasts.

CHECK for \$250 goes to Henry Broderick Jr. (r), chief engineer of WDRC-AM-FM Hartford, as first place winner in the International Sound Recording Contest sponsored by Audio Devices Inc. [B•T, Aug. 24]. Bryce Haynes, Audio Devices vice president, presents the award.

Bonds Award to Shea

HAMILTON SHEA, general manager of WTAM and WNBK (TV) Cleveland, has been presented with a special public service award from the U. S. Treasury Dept. for the contributions of the stations to the Government's bond drives.

French Medal to CKAC

CKAC MONTREAL has been awarded medal of merit by French Academy of Paris for its help in "propagating the French language in Canada."

WEEI Boston General Manager Harvey Struthers (l) and Production Manager Arthur C. King (c) accept the annual safety award of the National Safety Council from Rudolph F. King, Massachusetts registrar of motor vehicles, for the station's contribution to public safety.

NEW GRANTEEES' COMMENCEMENT TARGET DATES

TISKET-A-TASKET
A green and yellow basket—
I wrote a letter to my friend
and on my way I lost it—
I lost it—

The great Kansas City primary trade area served by The KMBC-KFRM Team is just one huge green and yellow basket. A MARKET basket—filled to overflowing with the green and yellow of things growing and ripening to be exchanged for "long green" currency and for "gold" coins.

You can enjoy the harvest in the Heart of America—the year around! Write a letter, wire or phone to your friend KMBC-KFRM, Kansas City, or your friendly Free & Peters colonel. The letter won't get lost. It'll pay a BIG profit because the folks in the Kansas City primary area are buying the things they hear about on the radio station they listen to most...

the KMBC KFRM Team
CBS RADIO FOR THE HEART OF AMERICA

OTHER ACTIONS

TV Allocation—Fayetteville, W. Va., vhf Ch. 4; Wilmington, N. C., vhf Ch. 3. FCC proposed rule making on petition of Robert R. Thomas Jr., Oak Hill, W. Va., of July 21 to assign vhf Ch. 4 to Fayetteville and amend the offset carrier requirement on this channel reserved for educational use at Chapel Hill, N. C., to plus; and on petition Fayette Assoc. Wilmington, N. C., of Aug. 6 to assign vhf Ch. 3 minus to Wilmington. In this connection, the notice of proposed rule making adopted July 8 involving petition of Daily Telegraph Printing Co., Bluefield, W. Va., (to assign vhf Ch. 8 to Bluefield by substituting vhf Ch. 4 for vhf Ch. 6 in Beckley and move the Zone 1 line to include all of W. Va.) and petition of High Point Enterprise Inc., High Point, N. C. (to assign vhf Ch. 8 to High Point by substituting vhf Ch. 4 for vhf Ch. 6 at Beckley, W. V., and vhf Ch.

3 for vhf Ch. 6 at Wilmington, and move Zone 1 line to include all of W. Va.) is amended to include the Thomas and Fayette petitions. These four petitions are mutually exclusive. Comments on the above proposal may be filed on or before Sept. 23. Action Aug. 19; announced Aug. 20.

TV Allocation—Montgomery, Ala. FCC proposed rule making on petition of Charles A. Casmus Jr., Montgomery, Ala., of Aug. 3, to assign either (a) vhf Ch. 8 to Montgomery by changing assignment to West Point, Miss. from vhf Ch. 8 to vhf Ch. 4, or (b) vhf Ch. 3 to Montgomery by changing the assignment to Pensacola, Fla., from vhf Ch. 3 to vhf Ch. 2. Comments on the above proposal may be filed on or before Sept. 23. Action Aug. 19; announced Aug. 20.

WKNK Muskegon, Mich—N-K Bcstg. Co. FCC ordered Nicholas William Kuris and Gladys Kuris d/b as N-K Bcstg. Co. to show cause why an order of revocation of station license should not be issued for violation of Communications Act and Commission rules by permitting WKNK to be operated by unlicensed and unqualified operators, failure to light antenna tower and maintain beacon light and other violations. FCC ordered parties to inform the Commission, within 10 days after receipt of order, of appearance at hearing in Washington on Sept. 24, in order to determine whether revocation order should be issued. Action Aug. 20; announced Aug. 21.

TV Allocation—Carthage, N. Y., vhf Ch. 7. FCC on its own motion proposed rule making to add vhf Ch. 7 minus to Carthage, N. Y., and amend offset carrier requirements on this channel in Calais, Me., to minus. Comments on the above proposal may be filed on or before Sept. 23. Action Aug. 19; announced Aug. 20.

Notice is given of hearing conference on Sept. 4, 1953, in proceeding re applications of Independence Bcstg. Co. and Delaware Bcstg. Co., for new TV stations on Ch. 83 in Wilmington, Del. (Dockets 10632; 10633) (Action 8/12).

By Hearing Examiner Fanney N. Litvin
Stark Telecasting Corp., Canton, Ohio—Granted petition for leave to amend its TV application so as to make certain minor changes in rated power capacity of proposed trans., transmission line loss and ant. gain.

By Commissioner E. M. Webster
KALM Alton, Mo., Robert Neathery—Dismissed as moot application of KALM for additional time to complete construction of a new standard broadcast station at Alton, Mo. (Docket 10596; BMP-6092).

August 21 Decisions

BY COMMISSION EN BANC

Satellite Operation

KPFA (FM) Berkeley, Calif., Pacific Foundation—Was advised by letter: "The Commission, this day, has considered your request, submitted June 24, 1953, for special temporary authority for operation of a satellite FM broadcast transmitter in Berkeley, California, duplicating on another channel the programs transmitted by KPFA for

the benefit of a portion of the KPFA audience presently unable to receive a satisfactory signal due to multipath reception problems.

"Special temporary authority may be granted for the operation of a station for a limited period of time. Your request does not indicate that the contemplated operation of the satellite transmitter is to be of a temporary nature; rather, it appears that no other means appear feasible to solve the multipath distortion problems and that operation of the satellite transmitter may be of a permanent nature. The Commission therefore has denied your request for special temporary authority for operation of the satellite transmitter. However, as indicated below it may be possible for your organization to acquire an authorization to operate the desired facilities on a permanent basis.

"Although your organization is authorized to operate in the commercial portion of the FM band, it may be possible for your organization to qualify as a noncommercial educational organization and as such to operate stations in the noncommercial educational FM broadcast band. On such a basis it may be possible for the Commission to find that operation by your organization of one noncommercial educational station and one commercial station (the existing facility) would not conflict with the rules. Also it might be possible for the Commission to find that your organization could operate not one but two non-commercial educational FM stations without being in conflict with existing rules.

"In the event that you may not qualify as a noncommercial educational organization you can petition the Commission to institute a rule making proceeding designed to amend the Commission's FM Multiple Ownership Rules (Section 3.240) in such a manner as to permit your organization to operate in the manner described in your petition."

August 21 Applications

ACCEPTED FOR FILING

License to Cover CP

WBKY (FM) Beattyville, Ky., U. of Kentucky—License to cover CP (BRED-225) which authorized changes in licensed station (BLED-91).

The Fall Resurgence

AS THE lead story in this week's issue shows, radio is experiencing a very healthy resurgence. Especially in spot business, which means far more net money to stations than they get from network sales, the fall prospects are the brightest ever.

Station representatives predict that spot volume will be up 10% this year over last. Though spot statistics are hard to come by, a check of individual stations confirms the representatives' optimism.

Of the four national radio networks, three have more fall business sold now than they had last year at this time. The fall schedules of ABC, CBS Radio and MBS promise to be appreciably fuller. NBC's sales, though lagging behind those at this time a year ago, are not to be interpreted as bearishly as the raw figures would indicate. Revamping of the NBC daytime structure has doubtlessly caused some advertisers to wait before signing on that network.

Television is far more extensive now that it was a year ago. There is nothing but encouragement to be derived from the fact that as television expands, so also does radio advertising.

The Human Side

A TRAGIC number of children have been suffocated recently when trapped inside abandoned iceboxes while at play. It is possible that some of those deaths could have been avoided if searches of discarded iceboxes had been started as soon as the children were missed.

Frank Silvernail, head timebuyer at BBDO, has proposed a way. As his letter in "Open Mike" this issue suggests, radio and television could be put to work arousing the community to action.

As Mr. Silvernail explains, radio and TV are the only media capable of spreading an immediate alarm. We hope that stations will follow his suggestion. They can establish cooperative arrangements with their local police departments to broadcast reports of missing children and describe the localities to be searched. To repeat Mr. Silvernail's words: "And who knows but what such warnings might not only save individual lives but educate the discards of these frightful menaces too."

Significant Appointments

TWO APPOINTMENTS of significance were made during the last fortnight as the GOP machine moved again on the communications front. FCC has a new general counsel, and the White House a new top telecommunications policy advisor. Both appointments seem meritorious.

Named general counsel is Warren E. Baker, former executive assistant to Chairman Oswald Ryan of the Civil Aeronautics Board. He has had considerable experience in administrative law. He is an Indiana Republican, 39, and was selected because of qualifications.

The new White House aide is well known in radio. William A. Porter succeeds Haraden Pratt, who held the title of Advisor to the President under Mr. Truman. Mr. Porter has been in communications practice in Washington for more than two decades. He is a former president of the Federal Communications Bar Assn. He accepts the call as Assistant Director for Telecommunications of the Office of Defense Mobilization at a considerable sacrifice.

The FCC general counselship isn't as important now as it was before FCC was separated into bureaus a couple of years ago. The Broadcast Bureau has become the top unit in influence. But a good general counsel can help FCC over many a hump and increase the importance of his office. There will be changes soon in the Broadcast Bureau too, because it has become the neopolitical unit.

The Porter assignment sounds as though it were far removed from the broadcast sphere. It isn't. It is a policy post of importance, since Mr. Porter becomes the coordinator of the executive branch on all allocations of radio frequencies to government agencies and maintenance of security in communications during a national emergency. Mr. Pratt had handled his assignments well. He maintained balance between demands of the military, for example, and those of industry, in allocation of portions of the spectrum.

Mr. Porter knows broadcast service and communications. There are problems ahead in the allocation of spectrum space—notably in television and related fields. Allocations as between needed public frequencies as against military demands haven't always been equitable. With one of Mr. Porter's experience on the coordinating scene, the danger of mis-allocating is minimized.

'... Gone About As Fur As They Can Go'

IN ONE of America's leading markets, Oklahoma City, the jointly-owned dailies—the *Oklahoman* and the *Times*—have suddenly adopted a policy of charging radio and television stations for carrying program logs.

Other newspapers in other communities have done the same, but the situation in Oklahoma City has unique features that deserve inspection.

The Oklahoma Publishing Co., which owns both papers, also owns WKY, a well-established and important radio station, and WKY-TV, the only television outlet in the city. According to an official announcement, the newspapers have been charging these stations straight advertising rates for the space occupied by their logs for "several months." On Aug. 16 the papers applied that practice to all radio and TV schedules.

WKY has been using two-column ads five inches deep for its logs, and WKY-TV has been using somewhat larger space. Other radio stations in the market have been using no space at all since Aug. 16 for the simple reason that the papers have priced it prohibitively. The size ad used by WKY would cost \$40,517 per year at combination rate in the morning and evening papers, daily and Sunday.

It would cost that much because the *Oklahoman* and the *Times* have classified radio logs as national advertising which pays a premium rate that has no discounts for frequency of insertions. The going daily rate is \$10.50 per inch.

Perhaps it is true that WKY and WKY-TV have been paying these prices to the newspapers owned by their parent company, but even so the transaction keeps the money in the same family. A similar advantage does not exist for the other radio stations now in the area and for the new TV outlets there that are due soon to go on the air.

The contention that radio and television constitute "commercial enterprises" and therefore should pay for their listings, doesn't hold water. Baseball, and wrestling and boxing, also are commercial enterprises that spend little or no money in the newspapers for display lineage. Are they deprived of space in news columns because they are "commercial"?

The obvious answer is that program listings draw greater readership than do these other events. The public demands them.

One Oklahoma City station, KOMA, counted more than 1,000 telephone calls protesting the newspapers' action within a week after it was announced. Certainly the papers have been similarly swamped with objections.

We suspect that the Oklahoma City newspapers will eventually find it advisable to revert to their former policy of running program logs as a reader service. Radio and television set advertising, plus the spotlight program advertising, more than offset the cost of printing the daily logs. This without regard to the subscriber demand.

That has been the experience of other newspapers in other cities. The return to normalcy usually follows within a month to six weeks.
