AMERICAN RADIO '76 by JAMES DUNCAN

(NOW AVAILABLE FOR INSPECTION AND FOR SALE)

SUITE 1721

* Based upon Apr/May ARB.

MORE INFORMATION ON OTHER SIDE

AMERICAN RADIO 76 is divided into two main sections. Section 1 contains a detailed analysis of all 161 Arbitron radio markets based on the April/May reports.

Section 2 features many tables, rankings and breakdowns based on the individual market ratings. Among the listings and breakdowns are:

1. The 500 leading radio stations (1/4 HR, TSA, 12+, Total Week)
2. The 500 leading radio stations (Cume, TSA, 12+, Total Week)
3. The 250 leading FM stations (1/4 HR, TSA, 12+, Total Week)
4. The 250 leading FM stations (Cume, TSA, 12+, Total Week)
5. The 100 leading stations with Teens, 18-34, 18-49, and 35-64
6. The 100 leading stations during AM drive
7. The 50 leading stations - 12+ Metro shares
8. The 50 leading FM stations - 12+ Metro shares
9. FM stations which lead their markets in either:
 - A. 12 + Metro
 - B. 12 + TSA
 - C. 12 + Cume
 - D. 18 + Metro
 - E. 12 + ADI
 - F. 12 + ADI Cume
10. The 25 worst and 25 best FM markets (Metro) based on % of market listening to FM
11. The 25 worst and 25 best FM markets (TSA) based on % listening to FM
12. The nation's best and worst radio markets, based on 12 + Average Person Ratings (Total Week)
13. Breakdown of formats:
 - A. Of the leading stations of all markets
 1. Numerically (number of stations using each format)
 2. Percentage (the number and percentage of listeners nationwide listening to a particular format)
 - B. The same information as A except for AM stations only.
 - C. The same information as A except for FM stations only.
14. FM Share
 - A. Nationally - 12 + Metro
 - B. Nationally - 12 + TSA
 - C. Nationally - 18 + Metro (1975 - 37.264%)
 - D. Nationally - 18 + TSA (1975 - 37.216%)
 - E. Top 50 ADI'S - 12 +

AND MUCH, MUCH MORE!

LIMITATIONS ON USE OF REPORT

This report which contains data and estimates proprietary to Arbitron is provided to Arbitron clients pursuant to the terms of written contracts between Arbitron and such clients. Clients are permitted to quote reasonable amounts of data and estimates from this report but only on condition that Arbitron is identified as the source.

Users of this report are referred to the current policies of the federal government relating to the use of audience estimates. Neither this report nor any of its contents may be used in any manner by non-clients of Arbitron without written permission from Arbitron.

EDITOR'S NOTE: This report should be treated as if it was an Arbitron Market Report. If you have purchased the ARB report for your market then you may also quote the figures in this report for that market. If you have not bought the ARB report then you may not quote any of their figures. Thank you for your cooperation.

INTRODUCTION

This report is designed to give observers of the radio industry a handy reference guide to the state of that industry as of the Spring of 1976. In one quick glance the reader can judge each market surveyed by Arbitron. He/She can see which formats are successful, the range of spot prices, and receive an idea of how well FM radio performs. Financial data is also available.

On the national level there is also a wealth of information. Fortune magazine publishes a list of the 500 leading businesses in the nation so I reasoned, why not have a list of the nation's 500 most popular radio stations, There are many other tables and rankings on the national level which should prove to be of great interest.

I don't think there has ever been a research piece like this one. Perhaps the people at Arbitron have never allowed such extensive use of their data. To them I owe a great deal of thanks. In particular I thank Bill McClenaghan who gave me permission to go ahead on this project. Without his consideration and help this entire project would have remained a dream.

I am certain that there are mistakes to be found in this report. In an effort to make this report as timely as possible I couldn't always double check my calculations and figures. Also I did not use a computer so I had to do everything with a hand calculator. I apologize in advance for any errors you might find. If you will give me a call or drop me a line informing me of any mistakes I will compose a correction sheet which will then be mailed to every person who purchased this book.

I would also appreciate any comments, suggestions or criticisms you might like to make. It would help me if I should decide to work on such a project again next summer. Give me a call or write me at any time:

JAMES DUNCAN
GILMORE ADVERTISING
200 MICHIGAN BUILDING
KALAMAZOO, MI 49006

Finally I would like to thank some of the people who helped me. Steve Trivers and Bill Wertz of WQLR/Kala Music made many helpful suggestions as well as inspiring me to do this project in the first place. Dave West at Bonneville helped me learn the syndicators and their stations around the country. Pete Repins of Gilmore Advertising helped a broadcast person learn the unknown world of print. Pat Frawley and Fred Bekker of XEROX helped me arrange the printing of this report. Also thanks to Jack Stephens of Gilmore Advertising for putting up with an employee who was sometimes with his own project during working hours.

And a big thanks to my wife, Jan, who gave up much of her summer. She typed this entire project in thirty days. To her and my daughter Erica this report is dedicated.

DEFINITIONS, CLARIFICATIONS AND COMMENTS

These pages primarily apply to Section II but I am putting it here because it may help explain some of the thinking that went into that section.

Below I will take an Individual Market Report from Section II and explain it portion by portion. As an example I will see Columbus, Ohio.

Radio Market #33
ADI #32
Revenue Rank #26
Income Rank #14

The radio market and ADI are Arbitron's designation. Of the 161 markets which ARB surveys Columbus ranks number 33. ADI'S are listed only if there is an ADI section. Revenue rank and income rank are based on the FCC financial reports for 1974 which are the latest figures available. The combined use of these figures can give you an idea as to the profitability of the market. A caution: at income rank #122 the markets begin losing money and this will distort any comparison.

APR 14.9
Broadcast Revenue: \$8,200,669
Broadcast Income : \$ 2,048,411

Again the financial figures are from 1974. The APR is the Average Person Rating based on 12+, $\frac{1}{4}$ HR AVG, Mon-Sun, 6 AM-Mid. This figure can indicate the amount of radio listening in the market as a whole. The mean for all markets is 15.4 so Columbus is somewhat below the average.

12+ METRO ($\frac{1}{2}$ /SHARE)

1. WTVN 154/12.1
2. WNCI-FM 151/11.8

This section, and all those across the page, is quite simple. All calculations are based on the total broadcast week (Mon-Sun, 6 AM-Mid). The age and survey area are shown at the top. If the station is simulcasting then this symbol (+) will appear next to the call letters in the 12+ METRO section only (it was an afterthought).

Defining a simulcast operation presented a problem. I solved the problem quite simply (and arbitrarily) by ruling that if the majority of listening was on FM then it was an FM station and the same if the majority of listening was on the AM. Sorry, but I couldn't figure out a better way to do it. In calculating FM shares I broke the stations down into the actual number listening to AM and FM.

The number of stations listed depended on the size of the market. For markets 1-10 there are 15 stations; 11-30 there are 12 stations listed; 31-161 were allowed to have 10 stations listed (some of them didn't have that many stations show up in the book).

12+ FM SHARE (METRO): 46.05% (530 of 1151)

These figures show how well FM radio is doing in a particular market (at least as far as listenership levels are concerned). To calculate these figures I simply added up the Mon-Sun, 6 AM-Mid quarter hour numbers of all listed radio stations and divided it into the total for the FM figures. Of course there are people listening to stations that don't qualify for a listing in the book but this is a small percentage.

DEMOGRAPHIC RANKINGS PLUS AM DRIVE

TEENS

18-34

18-49

35-64

AM DRIVE

The first four columns are based on Mon-Sun, 6 AM-Mid, $\frac{1}{4}$ HR AVG. The number of stations listed depends on the market size.

1-10 7 stations

11-50 5 stations

51-100 4 stations

101-161 3 stations

The teens, 18-34, 18-49, and 35-64 columns are based on METRO. AM DRIVE (6 AM-10 PM) is based on the TSA. I based AM DRIVE on TSA because these are usually the biggest numbers a radio station has and I wanted those numbers included in this book.

FM STATIONS

WTVN-FM, 96.3, 26 KW @ 570, BTFL MUS (Bonneville), \$21.50, Taft

DEFINITION: WTVN-FM has a frequency of 96.3 and broadcasts with an effective power of 26,000 watts from an antenna which is 570 feet above the average surrounding terrain. It programs beautiful music which is provided by a syndicator (Bonneville) An average spot would cost the advertiser \$21.50 and its owner is Taft Broadcasting, a group owner.

Most of my information for this section and the AM section came from Broadcasting Yearbook or the SRDS. I am only as good as these sources. All the information is as of April 1, 1976. Certainly there have been many changes in all categories since then. However, I wanted the information to reflect conditions during the April-May survey period.

Only group owners are listed in the station capsules. The spot rate may give many of you a good laugh but, again, I call them like I see them. The rate is based, if possible, on a Total Audience Plan with equal distribution throughout the dayparts. The rate is further determined using an 18 or 20 spot schedule for one week.

One of my biggest disappointments in this project was not being able to list every station which uses a syndicator. Only two syndicators (Bonnevillie and Kalamusic) sent me a complete list of their subscribers, both the winners and the losers. Others sent me their list of heroes but kept the bums a secret. Some syndicators wouldn't even divulge their heroes. It is unfortunate that there is such a high degree of paranoia in the syndication business but I guess that is the nature of the beast. It's a tough business!

The AM station capsules are the same as the FM except that the power figures are not given.

If the ADI is reported the top 15 stations are listed. Again, the figures are based on Mon-Sun, 12+, 6 AM-Mid.

SECTION I

NATIONAL RANKINGS

Note: All figures are in hundreds unless otherwise noted.

AMERICA'S 500 MOST LISTENED TO RADIO STATIONS*

1. WABC	New York	2523	41. KGO	San Francisco	619

15.40 - Average Person Rating in 1976 for all rated markets +

15.74 - Average Person Rating in 1975 for all rated markets +

*Based upon the 12+ Average Person Rating, Mon-Sun, 6AM-MID, Metro

+Computed by finding the mean of all APR's for all rated markets.

NATIONAL FM SHARES*

ADI - 12+ - 42.01% - 6,853,400 of 16,312,900 are listening to FM.
(1975 figures: 38.91% - 6,229,800 of 16,009,800)

METRO - 12+ - 40.886% - 6,882,900 of 16,834,200
(1975 figures: NA)

18+ - 39.822% - 5,918,800 of 14,863,000
(1975 figures: 37.264% - 5,560,500 of 14,922,000)

TSA+ - 12+ - 41.348% - 9,105,800 of 22,022,300
(1975 figures: NA)

18+ - 40.629% - 7,862,700 of 19,352,400
(1975 figures: 37.216% - 7,273,300 of 19,543,200)

*Based on TSA, ADI and Metro, 12+ or 18+, 6 AM-Mid, Mon-Sun,
 $\frac{1}{4}$ HR AVG

+TSA figures are certainly the least accurate measurement be-
cause of overlapping TSA's and other factors.

AMERICA'S BEST AND WORST FM MARKETS (METRO)*

<u>THE BEST</u>		<u>THE WORST</u>	
1. West Palm Beach	62.83	1. McAllen-Brownsville	13.25
2. Melbourne-Titus-Cocoa	62.22	2. Medford	14.82

*The Metro Cume figure is used because the TSA includes Miami. The Metro Cume better reflects the Ft. Lauderdale stations.

**Again, the Metro figure is used because of Miami influence.
