Information About *Investing in Radio*[®] *Ownership File*

What's in this book?

Welcome to BIA's *Investing in Radio*[®] *1999 Ownership File*. This is the premiere information guide profiling the Arbitron-rated commercial radio stations by owner. Based on an annual cycle, it is published quarterly after each of The Arbitron Company's ratings periods. The book highlights the **5,976 commercial radio stations** that serve an Arbitron-rated market sorted by their **1,877 owners**. All 268 Arbitron-rated metro markets including Puerto Rico are represented herein.

New in this 1998 Edition

While Arbitron has adjusted the ranking of the markets, there have been no market additions or deletions since the 1998 4th Edition. The information in the above paragraph which is in **bold type** has been revised to reflect changes made to our data since the 1998 4th Edition.

Thanks to subscriber demand and improved technology at BIA, we will now be reprinting the *Ownership File* quarterly after each of The Arbitron Company's ratings periods. To receive an updated copy, call your BIA sales representative at 1-800-331-5086.

Other Radio Publications

This book has a companion publication, *BIA's Investing in Radio*[®] *1999 Market Report*, from which the *Ownership File's* information is extracted and reorganized by owner. The *Market Report* is a market-by-market investment guide providing an in-depth analysis of the financial, economic and demographic health of the individual Arbitron-rated metros

and comprehensively profiles the competing radio stations in that market.

BIA's Radio Yearbook[®], a companion directory of more than 10,000 commercial radio stations, also profiles the industry geographically and provides the user with contact information for the individual radio stations, including their key personnel and owners. It also contains a directory of professional services providers and equipment suppliers to the industry.

BIA's State of the Radio Industry 1999 is our annual comprehensive analysis of the current environment and future for radio station operations. It focuses on the important trends, regulatory factors and technological impacts on the areas of revenues, ownership, transaction values, top radio groups, duopolies, and technology.

Data Provided Electronically (CD ROM, etc.)

All of this data and much, much more is available through BIA's powerful database software, *BIA's MEDIA Access Pro*[™] *Radio Analyzer*. With more than 10,000 commercial radio stations profiled with nearly 700 fields of data for each station, this is the most comprehensive, easy-to-use and accurate source of data available on the radio industry.

For more information on the publications, software and custom research services offered by BIA, call a BIA Research representative at 1-800-331-5086 and/or see the last page of this book for a Price List and Order Form.

Keys and Codes

General

- cp** A "cp" following the Power column indicates that the station has a construction permit to change frequency, power, or its antenna height to upgrade its technical facilities. The station is also authorized to operate at the indicated power or height for testing purposes.
- EBI** Effective Buying Income
- HAAT** Height Above Average Terrain for the transmitter antenna
- LCS** Local Commercial Share - Adjusts for lost listening to non-commercial and out-of-market stations. Calculated by dividing the station share by the sum of shares of all commercial stations in the market.
- LMA** Local Marketing Agreement
- MSA** Metro Survey Area
- Power Ratio** Comparison of revenue share to audience share. Calculated by dividing the station revenue by market revenue; multiplying by 100; then dividing the result by the station's local commercial share (LCS).

Codes for Sales Price

- ac** Combo sale in adjacent market
- al** Station sold for assumption of liabilities
- cp** Sale of construction permit for unbuilt station
- c#** AM/FM combo sale. The combo price is listed with the FM station. The number following the "c" identifies the AM/FM combo involved. The AM and FM station will have the same number following the "c".
- d#** Duopoly sale of two or more stations in the same service, either two FM's or two AM's.
- d** Distress sale
- dn** Donation
- e** Estimated sales price
- g** Group sale. If a combo is involved, a number following the "g" will indicate the combo in that market. The AM and FM station will have the same number following the "g".
- na** No price available
- nc** No cash consideration
- p** Proposed sale
- st** Transfer of stock or partnership interest
- sw** Station swap
- +** Plus additional considerations, (e.g., assumption of debt)

Ownership File Overview

1 Ownership Contact Information

Company Name: This is the common name of the owning entity of the stations profiled. **NOTE:** This may not be the licensee's name.

Primary Contact: Either through survey responses or from FCC documentation, this is the primary contact provided for this owner. Unless instructed otherwise by the profiled company, BIA lists the President, CEO, Managing Partner, Chairman or other top executive position.

Address: The address of the company's headquarters is profiled.

Phone and Fax: We provide the primary contact's phone and fax numbers.

2 Arbitron Market and Rank

Market: The name of the market(s) in which the profiled company's stations are rated. This market is defined by The Arbitron Ratings Company.

Rank: The ranking of the market by size of population based on the U.S. census.

3 Technical Attributes

Call Letters: Listed in order of market rank, these are the licensed call letters of the commercial radio stations licensed to the owner or proposed to be sold to this owner (signified by a "p" after the Sales Price).

Frequency: The frequency from which the station broadcasts on the AM or FM dial.

Power: The power in kilowatts at which the station transmits its signal. A "cp" indicated next to the station's power signifies that a construction permit has been filed for approval with the FCC to change the station's technical operations.

HAAT/Night Power: For FMs the height above average terrain of the station's center of radiation (antenna) with respect to its surrounding terrain in feet is featured in this column. For AM stations, the number listed is the power at which the station is licensed to transmit at night.

4 Station Acquisition Information

Year Std: The year the station first went on the air.

Date Acq: The date (Year Month) the station was acquired by this owner.

Sales Price: Presented in thousands, this is the estimated price paid for the station. To the right of the price you may encounter a code that signifies the type of transaction (see Keys & Codes). **NOTE:** Because the actual sales price of a station or group may vary

from the reported price, caution should be exercised with respect to the use of these data. We have attempted to include the most recent ownership transfer activity from 1981 to a point approximately 2 weeks prior to publication. If a sale was proposed but not approved 2 weeks prior to publication, the owner listed is the proposed purchaser. Due to the complexity of the issue, major group purchase prices are not broken out among the stations purchased.

5 Format

The format is the specific type of programming aired by the station. Format information is based on announcements in trade publications and direct contact with the stations through frequent telephone surveys and annual mail surveys. For a list of formats and the abbreviations used by BIA, see Formats for Radio Stations on the following pages.

6 Estimated Station Revenues

In an effort to improve the quality of this publication, we estimate revenues for the leading stations in most markets. BIA's revenue estimates do not include trade/barter, production or promotion revenues. We utilize direct mail surveys, telemarketing, market contacts and computer modeling to generate these estimates. Despite this effort, we must reiterate that these are **just estimates**. We view these estimates, however, as an important element to the book and encourage station operators and owners to participate in our surveys.

7 Owner's Total Estimated Revenues

This figure is the sum of the Arbitron-rated market stations' revenues estimated by BIA for this owner. Please note that this figure is **just an estimate** and may not include all the radio stations licensed to this owner. Some of the owner's stations may not be rated in a designated Arbitron-rated market (a "non-Metro" station) and, therefore, will not be profiled here. Also, BIA does not estimate revenues for every station in an Arbitron-rated market for various reasons.

8 ARB 12+ Metro Shares

BIA is licensed by The Arbitron Ratings Company to provide its Total Day, Average Quarter Hour (AQH) shares for persons 12 years and older. We profile the last four ratings periods to enable the reader to analyze annual trends in a station's performance. You will notice that Arbitron rates some markets 4 times per year and others only 2 times (Fall and Spring).

Information About *Investing in Radio*® Ownership File

Formats for Radio Stations

The formats listed for stations in the Competitive Overview section of *Investing in Radio*, abbreviated where necessary, are as descriptive as possible given the space available in which to print them. These formats fall into one of the following sixteen major format categories:

Major Format Categories

- Adult Contemporary
- Album Oriented Rock/Classic Rock
- Classical
- Contemporary Hit Radio/Top 40
- Country
- Dark - Not on air
- Easy Listening/Beautiful Music
- Ethnic
- Jazz/New Age
- Kids
- Miscellaneous
- Middle of the Road
- Nostalgia/Big Band
- News/Sports
- Oldies
- Religion
- Rock
- Spanish
- Talk
- Urban

Abbreviations are often used for formats in the Competitive Overview section. These abbreviations may appear by themselves or combined with other format abbreviations. The abbreviations and their expansions are listed in the following table:

Format Abbreviation	Expansion
AC	Adult Contemporary
AOR	Album Oriented Rock
BB	Big Band
Btfl Music	Beautiful Music
Bus News	Business News
CHR	Contemporary Hit Radio
Chrs	Christian
ChrsContemp	Christian Contemporary
Clas or Class	Classical
Clsc Hits	Classic Hits
Clsc Rock	Classic Rock
Cnty or Cntry	Country
Contemp	Contemporary
Easy	Easy Listening
Gospl	Gospel
Info	Information
Ins or Insp	Inspirational
MOR	Middle of the Road
Nostalg	Nostalgia
New or Nws	News
Old or Olds	Oldies
NAC	New Adult Contemporary
R&B	Rhythm & Blues
Relig Music	Religious Music
Rck	Rock
Span	Spanish
Spt or Spts	Sports
Tk or Tik	Talk
Urb or Urbn	Urban

The following table lists all formats as they appear in the Competitive Overview section of *Investing in Radio*® and the major format category to which they belong:

Format	Major Format Category	Format	Major Format Category	Format	Major Format Category	Format	Major Format Category
70's & 80's	Oldies	Chrstrn/Span	Spanish	MOR	Middle of the Road	Rock/Oldies	Rock

BIA Research Products and Services

Investing in Radio® Market Report

Investing in Television® Market Report

These market-by-market reference guides include estimated station and market advertising revenues, growth statistics, demographics information, Arbitron or Nielsen ratings, technical, acquisition and ownership data, and much more.

Investing in Radio® Ownership File

Investing in Television® Ownership File

These reference books scrutinize the activity and performance of broadcasting's major players to include station summary information by owner, acquisition information, ratings and more.

BIA's Radio Yearbook®

BIA's Television Yearbook®

These publications provide a directory of more than 10,000 radio and 1,600 television stations as well as a quick overview of a market's performance and its major players.

BIA's State of the Industry Studies

Go beyond the numbers and statistics and discover what BIA's analysts say about broadcasting's past, present and future.

The BIA Monitor

A weekly newsletter profiling the transactional events impacting the converging communications industries of radio, television, cable TV, wireless communications, and telecommunications.

MEDIA Access Pro™ Database Software

The most powerful and flexible tool available for analyzing radio or television stations, markets, owners and more. Add-on modules are available to create station coverage maps and station ratings performance rankings.

MEDIA Web Search™

The most comprehensive and timely tool available on-line for accessing commercial radio and television station data. The perfect on-line solution to your immediate research needs designed with ease-of-use in mind.

MEDIA by Request™

Our research department can quickly provide the facts you need on stations, systems, markets, owners or coverage maps. Simply give us the informational parameters you require, and we'll prepare your report promptly.

BIA Companies

For over 15 years BIA has been the leading provider of consulting, financial and information services to the broadcast industry and has performed over \$25 billion worth of valuations.

Our broadcast experience is legendary and our commitment to your success is unparalleled. We're much more than a partner, we're part of the team.

Consulting

BIA Consulting is the nation's premier communications consulting firm. We specialize in providing you with superior financial and strategic consulting services including appraisals, valuations, due diligence reviews, business plans, operational consulting and litigation support.

Investment Banking

BIA Capital Corp. is a specialized investment banking firm serving medium-size media and telecommunications clients. We offer expert investment banking assistance to help you raise debt and equity for acquisitions and refinancings.

Research

BIA Research is widely recognized as the broadcasting industry's leading source for information products including software, on-line research analysis, custom research and reference publications. BIA provides the most timely, accurate and comprehensive broadcasting information products available.
