He Comes From Outer Space

CURIOSLY ENOUGH, HE'S LANDED IN AN AD ABOUT COPYRIGHT LAW.

The miniature alien you see above is the proud possession of Allee Willis, vintage toy enthusiast. So if you're a broadcaster, why should you want to read about an individual like Allee Willis, let alone her tin collectibles? Because Allee is a major supplier of content to your business: she's a songwriter.

At BMI, our job is to manage the songwriter relationship for you.

Every year, we license billions of public performances of musical works from songwriters, composers and publishers. Operating on a non-profit-making basis, we distribute the fees we receive from broadcasters as royalties to Allee and hundreds of thousands like her. Tasks that would otherwise have to be performed by you.

Now, we have no doubt you'd enjoy doing business with someone as creative as Allee. The question is: do you really have the time to do business with 300,000 different Allees?

Managing the songwriter relationship.™ **BMI**®

Foreword

Radio has displayed one lucky characteristic since it spilled out of the bassinet around 1920 – it's always morphed to reflect constantly-changing tastes and consumer desires. It had to – or it wouldn't have survived the onslaught of television after World War II or the growth of the Internet in recent years.

The new technological challenges are things like satellite radio, cable radio, Internet radio, PDAs and cellphones, and MP3 players the size of a candy bar. But more than 9 out of 10 Americans still count on radio to be as reliable as the water from the kitchen faucet and the electricity that turns on the living room lamp. And over-the-air radio's still free.

Sure, radio is taking some lumps in a time-stressed era where there's an explosion of alternatives. But we'd argue that it's taken less erosion than, say, broadcast TV or daily newspapers.

Inside this 12th Edition of the M Street Directory you'll find –

- _ Comprehensive information on more than 14,000 U.S. and Canadian radio stations, both commercial and non-commercial.
- _ Freshly-updated formats, researched by M Street Publications.
- _ An alphabetical listing of stations grouped by market – not just the 280 or so Arbitron-defined markets, but every natural market that makes sense to us. That's why you'll see market sizes by both Arbitron rank and M Street rank.
- _ Updated format statistics, including breakouts by format, AM vs. FM, commercial vs. non-commercial, and large vs. small markets – generated by researchers for M Street Publications. That's a continuation of M Street's responsibility to track and report radio's changes, as we've done since 1984.

Our thanks to our advertisers, who make it possible to bring you the Directory at an affordable price. They help us pay the bills to do the work behind this Directory.

Feel free to contact us with your ideas, questions or corrections – 800-248-4242, or through www.MStreet.net. Our website features news, station information, and the complete list of M Street products (including custom database work).

And mostly — thanks for relying on M Street Publications. We'll try to keep earning your trust with valuable products like this 12th Edition Directory, the M Street Journal website and fax, and the daily Inside Radio.

The M Street Database Format Codes

As the broadcast industry itself evolves, so do radio station formats. Classifications and definitions are amended from time to time to reflect current trends. Here is the current set of format classifications.

AAA	Adult Alternative An eclectic playlist based on rock music but with some other forms of music such as blues, folk and jazz included. The target audience is generally from ages 25 to 54.	CWT	Traditional Country The Traditional Country station aims for a sound that reflects country music before it was made contemporary" through the addition of drums and non-stringed instruments in the 70's. Traditional Country stations play music that's in current release that has this "traditional" sound along with older music with a "traditional" sound.
ACW	AC & Country Just what it says. A near 50/50 blend of music from the two formats.	DNC	Rhythmic-CHR A contemporary hit radio station that focuses on rhythmic music.
ADC	Adult Contemporary An adult oriented pop/rock station. The Adult Contemporary station will play many of the same records as are currently heard on mainstream CHR stations or were part of mainstream CHR in the 80's and 90's but will leave out those that are at the extremes of rock, rhythmic and rap. The target audience runs from 25 to 54 and may skew	EIT	80's Hits A blend of rock and pop music of the late 70's through early 90's with an emphasis on rock and a total absence of any of the dance music that was part of pop music in this period.
AMR	Americana A blending of the rock music played on the AAA station with country and folk music.	ETH	Ethnic Programs primarily in languages other than English and/or directed to groups of specific national origin. These stations often utilize block programming in which programs in one language or of one national group target are followed by programs of a different language or national group target.
BGS	Black Gospel Gospel music and spirituals of the type heard in predominantly black churches. The format may also include teaching and ministry programs of varying lengths programmed throughout the broadcast day.	EZY	Easy Listening This format is distinguished by the programming of "lush" orchestral arrangements of standards and popular songs. Recordings of vocal performances of standards and soft sounding pop tunes may also be included in the programming.
BIZ	Business News An all-news or news-talk station focusing on business and financial issues. This can be in the form of news blocks that cover current events in the business world and/or talk shows that dispense financial advice.	FLK	Folk A station whose playlist focuses on Folk music. Some traditional sounding country music and softer rock music may also be included in the programming.
BLG	Bluegrass A station whose playlist focuses on Bluegrass music. Some traditional sounding country music may be included in the programming as well.	FNA	Format Not Available This applies to a station that is involved in program stunting as part of a change to new format.
BLU	Blues A station whose playlist focuses on Blues music. Some older rhythm & blues or soul music may also be included.	FRM	Farm A station that focuses on providing agricultural or agri-business news and information. This could be accomplished through news-blocks, talk shows or information that's interspersed with the airplay of country music.
CCN	Contemporary Christian A station that sounds very much like an ADC-adult contemporary, CHR-contemporary hit radio or HAC-hot adult contemporary station with the significant difference that the records played are all of a religious rather than secular nature. This format includes sub-genres such as Christian rock and Christian dance. The format may also include teaching and ministry programs of varying lengths programmed throughout the broadcast day.	GOS	Gospel Music Traditional gospel music and spirituals. The code may also be used as a "catch all" for a station that mixes both black gospel and southern gospel. The format may also include teaching and ministry programs of varying lengths programmed throughout the broadcast day.
CHR	CHR A format that focuses on current popular music, often encompassing a variety of styles from rock through dance, that appears on the mainstream music charts in music industry trade publications such as Billboard and Radio & Records.	HAC	Hot AC Adult CHR might be another way of looking at this format. The Hot Adult Contemporary station plays much of the same music as the CHR station but avoids music that appeals only to the younger CHR listeners.
CLA	Classical Airplay of orchestral music, chamber music, opera and other forms of non-contemporary vocal music.	INF	Surveillance/ Weather/Traffic These are fully licensed radio stations that provide programming that is more commonly associated with Traveler's Information Service (TIS) radio stations. Their programming consists solely of one or more types of information with no other entertainment programming
CLR	Classic Rock Mainstream rock of the 60's, 70's and 80's with little or no current rock music included.	JAZ	Jazz A station that programs music either traditional jazz or smooth jazz or some blend of the two.
CLX	Classic Hits A blend of rock and pop music of the late 60's through early 80's with an emphasis on rock and a total absence of any of the dance music that was part of pop music in this period.	KID	Pre-Teen Although we call this Pre-teen this station can appeal to children ages six through 16. The format is generally manifest as a very young skewing CHR station with high energy disc jockeys, call-ins and a large proportion of novelty records.
CPN	cp-new Assigned to a new station that has been authorized to build its transmitting facility but has never been on the air.	MAC	Modern AC Somewhat analogous to the Hot Adult Contemporary stations in that they take the music that is part of a younger skewing format and make it attractive to an older audience. The Modern AC station takes the current modern rock music at the core of Modern Rock stations and blends it with older modern rock music.
CTY	Country A station playing a variety of country music styles. Although this station will play music currently listed in music industry trade publication charts in Billboard and Radio & Records, usic, the amount of older country music played on the station may vary greatly between 25% and 75% of the playlist.	MOD	Modern Rock A contemporary hit radio station that focuses on modern rock music.
CWO	Classic Country This station plays no country music that's currently on the country charts in music industry trade publications. Exactly how old the music played on the Classic Country station is can vary. Some stations could reach back to the 30's while others might play only selections from the 70's and on.	NTK	News/Talk A talk station with a heavy news and information orientation. The News/Talk station has a news block in one or more dayparts.

Estimates of audience share labeled Arbitron are Copyright 2003, The Arbitron Company. Estimates may not be quoted or reproduced without prior written permission of The Arbitron Company.

The M Street Radio Directory contains estimates of average-quarter-hour-audience size and market audience share from surveys taken by the above ratings companies. The figures we show are taken from the latest survey published before our deadlines. The particular survey used in each market is shown in **The M Street RADIO MARKETS** section, but not in the individual station listings. Ratings are not shown for stations that did not meet minimum reporting requirements or for stations that show up with ratings in markets outside of their primary market area.

The term "ratings" is used to describe the audience figures published in the M Street Radio Directory. However, "audience share" and "audience estimate" are more accurate terms. The published numbers express the size of a station's audience in a theoretical "average-quarter-hour" (AQH) between 6:00am and 12:00 midnight in two ways: 1) As a percentage of all radio listeners twelve years old or older (12+) and 2) as a number of persons 12+ listening.

These figures highlight some relative strengths and weaknesses of the stations competing in a market but tell only a small portion of the story of competition in a market.

These 12+ Monday-Sunday 6:00am to 12:00 midnight AQH estimates are not the only audience data that ratings firms provide. Far more specific estimates that report the size of a station's AQH audience at different times of the day and detail how radio listening differs by age and gender are available directly from the ratings firms. Also available are cumulative audience estimates which report how many people listen to a radio station over time periods longer than a quarter-hour. These more specific figures are not included because of their volume and because the ratings firms would have little to sell if they were published. For more information contact the ratings company directly.
