THE DOMINANT VOICE OF THE TRI-STATE MARKET

CHARLES TOWN,
West Virginia

WXVA — the most powerful AM station in the region — and its sister station **WZFM** — serve a rapidly-expanding market area of more than 4,300 square miles, centered in Charles Town, county seat of Jefferson County — just 58 miles west of the nation's capital.

CHARLES TOWN has two world-famous race courses which operate ten months annually — bringing hundreds of thousands of sports fans to the area.

TYPICAL INDUSTRIES in this wealthy market include: Fairchild-Hiller, Mack Trucks, DuPont de Nemours, Corning Glass, General Electric, 3M, Musselman's Foods, Capital Records, American Optical, Crown Cork & Seal — and Aerojet General. These well-known industries employ 300 to 4,000 each

WXVA/WZFM programs contemporary middle-of-the-road music sprinkled with pop "oldies" and selected non-frantic Current Top 40 hits. — it's the successful sound, the Sound of the Seventies! Each announcer works skillfully to provide an adult, interesting and compelling atmosphere!

WXVA/WZFM are very strong in local and regional news, sports — and special events. Hard-hitting "Action Central News" makes extensive use of local actualities woven into crisp, professional production packages!

Numerous features, farm reports, stock market reports, fire calls, community bulletin board, audience participation contests — and special interest features are only some of the reasons why your business should be show-cased on the northern Shenandoah Valley's most dominant two-some — **WXVA/WZFM**!

WGGO'S brand-new programming is designed to reach the spending-est people in the Southern Tier area. That's a pretty good reason why your sales message should be on it.

Radio sells. It sells for the largest advertisers in the country. And it can sell for you.

But radio can't sell if people don't listen. So we're going all out to make sure modern adults - the ones with the adult buying power - listen to radio station WGGO.

First of all, we've thrown out our old music format and replaced it with a brand-new one. And while we were at it, we got a new music library too. So now we have lots of music. Nice music. Not so square that it won't move and not so round that it'll drive you up the wall. Just the kind of music modern adults like to listen to.

We've also got a bunch of sharp guys we call personalities. They're pretty smooth talkers and they'll deliver your sales message in a way that will make people listen.

Randy LeBlanc, Jack Ronan, and Don Patrick bring you the right music for the right time of day. And they don't bend your ear too much. Eric Brian lets listeners speak their mind in his popular program "Party Line". Eric Brian also brings you the local and county news. And since WGGO is an ABC affiliate, you also get the ABC Network News. Even the mayor and the police and fire chiefs get into the act with periodic reports of great interest to the community. For good measure we throw in ski and road reports - and the weather.

Finally, just to make sure people are listening, we keep running contests to encourage audience participation. We really give things away. Prizes like radios, records, gold jewelry and, of course, good old cash.

Let WGGO sell for you Call Jack J. Kessler today. He's our general manager (and a very nice guy besides). Jack will gladly answer your questions. And he'll tell you how WGGO can sell for you. His number is 945-1515.

Address: 680 Broad Street, Salamanca, N. Y. 14779

Jack J. Kessler, Vice President & General Manager

Your message goes a long way on WGGO

FACTS CONCERNING WGN

WGN has been an integral part of the Chicagoland community from the days of the cat's whisker crystal set, through frequency modulation (FM) broadcasting, experimental facsimile transmission, and since 1948, television.

WGN came into existence on June 1, 1924, when the Tribune Company acquired station WDAP and changed the call letters to WGN, standing for its newspaper's slogan: "World's Greatest Newspaper".

The Tribune Company has always invested in the future of broadcasting. In 1950 a multi-million dollar WGN studio building, equipped with the finest technical facilities for both radio and television, was completed on Michigan Avenue, adjacent to Tribune Tower.

Further evidence of the Tribune Company's interest in the future of broadcasting is shown by the fact that in January, 1961, WGN, Inc., operating the Tribune Company's radio and television stations, moved into its new Mid-America Broadcast Center.

The building is located on 13 acres at 2501 Bradley Place on Chicago's north side. It is a modern radio and television plant, which houses all offices and technical facilities for the origination of its programs.

In 1966 WGN, Inc., the parent company of broadcasting properties in Chicago, Duluth, Denver, and Houghton (Michigan), became WGN Continental Broadcasting Company. At that time, further plans of expansion were already in preparation.

WGN Radio's 50,000-watt 1A clear channel transmitting equipment is located on a 100-acre plot north of Roselle, Illinois, 22 Miles from the WGN Continental Broadcast Center.
