# THE FOLIO DIAL

## IF YOU GENERALLY JUST "TURN THE RADIO ON AND LEAVE IT"...

Use "FM Guide" to select your station. You see what's on *now* and *what's coming* for several hours ahead on any station you select. Use "FM Guide" to check what you're listening to.

## IF YOU REGULARLY TUNE TO ONE FAVORITE STATION...

Use "FM Guide" just as you would an individual station program guide. It's complete from sign-on to sign-off, and your station appears in the same place on the page for each day.

## IF YOU ARE A SELECTIVE LISTENER...

Scan across the "dial", from left to right at any time level (6:00 P.M. is the prominent band across the page), you'll see *all the programs then in progress*, and approximately where you'll find them on your own radio dial.

### WELCOME, WKCR-FM!

STARTING WITH THE NOVEMBER ISSUE THE FOLIO DIAL WILL LEAD OFF WITH STEREO STATION WKCR, 89.9 ON YOUR FM DIAL. WKCR IS OPERATED BY COLUMBIA UNIVERSITY AND ORIGINALLY APPEARED IN THE STANDARD PAGES. IN RECENT YEARS IT HAS OFFERED AN INCREASING DIVERSITY OF MUSICAL PROGRAMS, DISCUSSION, LECTURES, AND FOREIGN-LANGUAGE FEATURES, AND MANY OF OUR READERS HAVE WRITTEN IN TO REQUEST MORE DETAILED INFORMATION ABOUT THEM. WE ARE HAPPY TO COMPLY, AND TO WELCOME WKCR TO THE FOLIO DIAL.

## READER REACTION Continued

I would like to learn how *other* hi-fi enthusiasts have coped with these problems. My own solution has been to *keep myself informed* as best as possible by reading trade magazines, attending hi-fi shows, browsing through audio-showrooms *with no real intention of buying in view of the sad experiences cited herein* . . . and then when I know what I want and am ready to buy I do *go to a reliable department store* that has a very good selection, reasonable prices if not cut-throat prices, fairly knowledgeable clerks with no special axes to grind and offering *return privileges* (far more important than service facilities) which the usual hi-fi specialty store cannot equal, or will not equal unless strongly fought with.

The Specialty Hi-Fi Dealer, reading this letter, might well argue that it is customers like myself who have "made him the way he is" . . . there will always be at least two sides to every story . . . I just thought you might like to hear "the side of the story" which was not covered in your otherwise very informative article.

### THE DEMISE OF 2 D. J'S

Two days ago I sat down to write a letter answering Arthur Randall, who feels that commercial stations try too hard to avoid controversy (October issue). I was going to point out that at least one station, to my knowledge, was responsible for airing a number of records on subjects ranging from drug free love to the Viet Nam war, and that this station has the largest listening audience in the New York area. I meant, of course, WOR-FM. I guess that letter isn't necessary anymore. Murray the K. and Roskoe, the two pioneering disc-jockeys, are gone. Nobody knows why—certainly it wasn't because their listeners didn't like things the way they were. Now WOR has hired a "consultant" to revise the format, and maybe Mr. Randall was right. I can only add my voice to his—please, offend me a little.

Myra Allbright  
New York, N. Y.

WOR-FM has lost a fan. Me. The main reason why I listened to WOR-FM was Murray the K and Roskoe. They both played some real groovy music and not the shlock pop that is heard on many other stations. Due to their initiative, a number of recordings were given the hearing they deserved.

Anthony Larsen  
Jamaica, N. Y.

See Bill Wollheim's comments on Murray the K and WOR-FM in this month's *Pop Consensus*.—ED.

### CAGE IN STEREO

I must take exception to a grossly mistaken comment by Mr. Arthur Randall, writing in the October issue. He states "John Cage in stereo . . . would really be thrilling. Except that a stereo station has yet to play any of Cage's music or acknowledge that there are other contemporary composers besides Aaron Copland."

If Mr. Randall, and other listeners interested in contemporary music, would tune to WKCR-FM, they would find more contemporary music than even WBAI plays, most of it in stereo. We feature taped concerts, in stereo of the Group for Contemporary Music (WBAI's tapes are made from *our* mike setup) and the Columbia Composers Group. We broadcast the nation's only regular program of electronic and avant-garde music, Sounds of Our Age, every Sunday at 2:00 (including a great deal of Cage in stereo). Our daily programming offers contemporary works by Boulez, Carter (we aired the master tape of the Carter *Piano Concerto*, in stereo, last month), Stockhausen, Ives, Webern, and even more electronic music. And we play very little Copland.

In the October issue itself, WKCR-FM lists works by Hovhanness, Berg, Ives, Kurt Weill, Britten, Rochberg, John Cage(!), Carter, and the more well-known composers such as Stravinsky, Bartok, and Honegger. And we pride ourselves on broadcasting many of the rarer works by these composers, not just the one or two warhorses which their names tend to conjure up. We broadcast many more contemporary works than what we merely list, too.

I hope listeners in the New York area will take the opportunity to hear some of WKCR's stereo programming, taped concerts, and special contemporary music programs, and compare them with any other radio station's broadcasts. We also broadcast more folk music than WBAI (also in stereo).

### BURNING

Letters to the editor columns are among my favorite, so I read "Reader Reaction" with much interest. The June issue started to get to me; The July issue had me burning; The letter by Mr. Carl Anel (Something For the Kids #2) in the August issue almost pacified until I read another letter. Therefore, with your permission, I address the following letter writers and their followers:

To Mr. John B. Sientz of South Orange, N.J. (Aug. FM Guide): My station has the varied program schedule which you asked for. For 20 years WSOU-FM has been located in *South Orange, New Jersey!!!*

To Mrs. Sarah Bookbinder, (June, FM Guide): For at least the past six years my station has presented a half hour children's show once a day, five days

a week from October through May. Among our programs this past year when the time slot was 5:05 in the afternoon was a reading of Winnie the Pooh.

To Mr. Jed Dickson, (June FM Guide): I am glad to hear of your interest in radio drama. This past year on Children's Carousel, which I mentioned to Mrs. Bookbinder, we presented radio drama for children twice a week. Also on Saturdays our Seton Spectacular program plays, including a WSOU production for radio of William Shakespeare's *The Taming of the Shrew*.

To Mr. Hank Robbins of the N. Y. Audio Society (May, FM Guide): WSOU presents every Wednesday night at 9 P.M. a full and complete opera.

I hope that this letter will cause all of the FM Guide readers to check more closely the program listings of *all* FM stations and not just those with the big names. In this way you may find already on FM the program you want to hear.

### PRAECURRERE

As a college student who enjoys today's contemporary music more than ever now, I'd like to say how much I and most of my friends enjoy two of the FM stations now on—WOR-FM and WCBS-FM. I especially like WOR-FM.

Most of my friends and I have switched over to WOR-FM from the AM rock stations for two simple reasons: We no longer could tolerate all the commercials and screaming, plus the fact that WOR-FM doesn't stick to just the Top 20 or 40 hits. Stations like this seem to be the newest trend in FM and who knows, AM stations may catch on to the idea as a result of their success.

But I particularly wanted to write to point out that WOR-FM's programming idea, either rock 'n' roll on FM or their particular blend was first started in New York almost 5 years ago. It was originated by a young disc jockey by the name of Don Fass on Muzak's WBFM. Most recently, he has been on WHBI-FM and during his show, the phone lines were never empty. Unfortunately, he suddenly faded from view. One of the most charming, exciting, and knowledgeable of contemporary music disc jockeys, a lot of us miss him and hope he's back on New York FM very soon.

Cathy Dougherty  
Brooklyn, N. Y.

Am I the only one, or has anyone else noticed the tremendous similarity between WOR-FM's one year old format and WFUV's three year old *Campus Caravan*? Contemporary music handled with intelligence, wit and a seriousness of purpose is not so very new to the FM band. I've been listening to it on 90.7 from noon 'til two on Saturday since 1964! It was a pleasant surprise to see 98.7 take the hint. Pete Fornatale is an uncanny original: WOR-FM is an excellent facsimile. College Radio strikes again!

# WOR & MURRAY

## the

### an Editorial

WOR-FM has been one of the great success stories of FM broadcasting. With Murray the K in the lead, it has become the number one FM station in New York. To me, Murray the K has always seemed like a nice square who was failing miserably at trying to be hip. Square that he is, though, he did set the tone of the station with his wide-ranging programming. It was Murray who played the 17-minute Bob Dylan cuts, who played the selections from albums instead of just an unending series of 45 rpm singles. It was Murray who first played the Bee Gees' *New York Mining Disaster*. It was WOR that gave valuable exposure to albums by groups like the Cream, the Doors, the Jimi Hendrix Experience. And WOR was the first rock station to play Janis Ian's controversial *Society's Child*.

WOR's policies resulted in a large, faithful audience which expected it to play the good records first. Record com-

panies spend up to \$1000 per week in advertising on WOR to reach this audience. Everybody was happy. And, of course, it couldn't last.

Feeling that the disc jockeys were "irresponsible," General Manager Bob Smith brought in Bill Drake as a program consultant. Drake is a believer in playing the hits—not in experimentation. Under the new regime, the jockeys have no say in making up the play list. And the list has been cut by a third, down to about 80 records. And Murray the K has been fired. Smith claims that he was putting himself "above the station and its interests." What the station's "interests" are supposed to be, I don't know. I can't imagine that they were served by firing Murray. Certainly the audience's interest is not being served. Murray the K is not my idea of a groovy person, but WOR is going to be an awfully ungroovy place without him. ■

##### APPLICATION TO SERVICES OTHER THAN BROADCASTING

The system has important applications to various types of emergency communication services. Since the transmission of intelligible speech requires a much smaller range of frequencies than the full musical range—in fact a range of perhaps only 250 to 3,500 cycles—a smaller deviation of the transmitted frequency may be employed. It has been found practicable to make use of a total bandwidth of 40 kilocycles in police service, and several installations are now operating effectively.

The largest project at the present time is that undertaken by the Connecticut State Police, who have in operation nine fixed stations and approximately 200 mobile stations equipped for two-way operation. The fixed stations are located on hill tops and have 250 watts power output. The car transmitters have approximately 25 watts power output. Thirty-mile communication between the cars and the fixed stations and five- to ten-mile communication between cars is easily obtained. This system was designed by Professor Daniel E. Noble (A'32) of the University of Connecticut. (See figures 13 and 14.)

The next largest project to be undertaken is in the city of Chicago, where some 200 mobile 25-watt car units are being installed. Numerous other projects for police services and for emergency-service use by power companies are being made, and it is doubtful if many new installations employing amplitude modulation will be made in the future. It is, of course, needless to say that there are many important military uses. In fact, in practically

all ultrahigh-frequency applications where weight or portability is not too great a factor, the frequency-modulation system has found increasing use. The one important field where progress has been inexplicably slow has been television, where its advantages, particularly on the sound channel, could be effectively utilized. A limited use has been made in the relaying of the television sight channel.

##### CONCLUSION

Five years ago the writer said<sup>1</sup> that "the conclusion is inescapable that it is technically possible to furnish a broadcast service over the primary areas of stations of the present-day broadcast system which is very greatly superior to that now rendered by these stations." With the cost of transmitting equipment for the new system already below the cost of the equipment of the standard broadcast type (for the same power output) and with the cost of broadcast receivers approaching levels that will permit large-scale production and distribution, the conclusion is likewise inescapable that within the next five years the existing broadcast system will be largely superseded. ■
