BROADCASTING STATION REGULATIONS

There are two classes of broadcasting stations, A and B. The regulations governing each, follow:

CLASS A.—"Class A broadcasting station licenses will be issued to stations equipped to use power not exceeding 500 watts in the antenna. When more than one station of this class is licensed in the same city or locality, a division of time will be required if necessary."

CLASS B.—"The power supply must be dependable and non-fluctuating. The minimum required will be 500 watts in the antenna. The system must be so arranged as to cause the generated radio frequency current to vary accurately according to the sound impressed upon the microphone system. Sufficient tubes and other material must be readily available to insure continuity and reliability of the announced schedule of service. The antenna must be so constructed as to prevent swinging. The radio equipment in the studio must be limited to that essential for use in the room. The room shall be so arranged as to avoid sound reverberation and to exclude external and unnecessary noises.

"The programs must be carefully supervised and maintained to insure satisfactory service to the public. The use of mechanically operated musical instruments is prohibited.

"Licenses issued for the use of Class B stations shall specifically provide that any failure to maintain the standards prescribed for such stations may result in the forfeiture of the Class B privilege."

Every effort has been made to prevent errors in this list of stations and it is believed it is absolutely accurate at the time of publication. However, if errors are detected, we should like to know of them.

LONG ISLAND "DX" CHAMPION USES STEVENSON'S

"When I go after DX with my set," writes Laurence Angel, Jr., of Huntington, L. I., "I would not be without a list of broadcasting stations. I have found that STEVENSON'S is the best because it is the most accurate and in addition to listing stations according to their calls, it also gives lists of stations by wave lengths and cities. With STEVENSON'S it is seldom that I get a station I cannot identify."

Mr. Angel has a log of stations which any fan might envy. With a three tuber, he has picked up more than 400 broadcasters, among which are KNX, Los Angeles, KFON, a 100 watter at Long Beach, Calif., KHJ, KPO, KFI, KGO, KGW, KFLB, a 10 watter at Menominee, Mich., and several Canadian and Cuban stations.

TO GET MAXIMUM ENJOYMENT FROM YOUR SET THIS WINTER, YOU SHOULD HAVE STEVENSON'S EACH MONTH. Get your copy on the news stands or use the blank below to send us a yearly subscription.

SHOULD THERE BE A LIMITATION OF BROADCASTING STATIONS?

By THOMAS STEVENSON

Will service to the public be increased by a limitation of the number of broadcasting stations?

This all important question probably will be decided by the Fourth National Radio Conference which Secretary Hoover has called to meet at Washington beginning November 9.

Acceptances of invitations to attend the conference as delegates have already been made by nearly 75 radio editors, 150 representatives of broadcasting stations, and around 75 manufacturers. These men will be called upon to make the decision. Of course, their decision will not be final, but it will affect the policy of the Department of Commerce and have a lot of weight with Congress when legislation is considered.

Judging by letters reaching the writer from fans in all sections of the country, there should not only be a limitation of stations, but some of the stations already in operation should be weeded out.

If a constant frequency were maintained by all stations, the present 10 kilocycles separation probably would be adequate. But a number of stations do not maintain constant frequencies. When they slip one or two kilocycles up or down they generally interfere with the next closest station, and confusion results.

In addition, when two high-power stations are as close together as 30 or 40 kilocycles, it is difficult to get anything in between them.

Doubtless, quite a lot of the dissatisfaction is due to unselective receivers. At the same time, however, the narrow separation between stations quite often is responsible for serious interference.

Inasmuch as practically every wave length available for broadcasting purposes is in use, the separation between stations cannot be increased unless a number of them are compelled to drop out.

Unquestionably the great majority of broadcasting stations are rendering a great public service. On the other hand, there are a number of stations that would not be badly missed if they discontinued operations.

NEW SUPER-POWER STATION NEARING COMPLETION

At Bound Brook, N. J., there is being completed a broadcasting station that will be one of the largest and most powerful of the country. It is the new station of the Radio Corporation of America and will take the place of WJZ on the air.

With possible power of 50,000 watts, it is believed the programs of the station will be available in all parts of the country. The station will also be used for transmitting American programs to foreign countries for rebroadcasting.

Four years ago, WJZ was one of the few broadcasting stations in the East. The original station was opened in Newark, N. J. At that time radio held little interest for the public. WJZ soon became popular, however, and helped spread word of the new science.

The antenna of the new station is a six-wire cage aerial about eighteen inches in diameter. The lead in consists of the same number of wires employed in the antenna and is brought down directly to the transmitting room of the station in a cage smaller than the top portion of the aerial.

The present studios of WJZ and WJY in New York will probably be used for the new Bound Brook station. Land wires probably will connect the studios to the station.

The Bound Brook station marks a new era in the broadcasting field. During the last five years rapid strides have been made in the improvement of apparatus for the transmission of radio entertainment.

During the past few months the general trend of improvement in radio broadcasting has been with the actual power itself. The recent tests conducted by WGY, Schenectady, proved that super-power would not result in blanketing the air, nor would it create a monopoly.

It is believed the new station will be ready for operation sometime in November.

BROADCASTING STATION NOTES

Inter-university communication by radio telegraph is under experimental development by KFGH, Leland Stanford University, California.

KLDS, Independence, Mo., announces that "radio jazz hounds" need not turn to their station this winter for their favorite kind of entertainment. This station has adopted a "no jazz" policy and says it has received thousands of congratulatory letters on it.

WTIC, Hartford, Conn., contemplates entering the daylight broadcasting field and is conducting a series of tests to determine whether it is feasible. The Directors of the station would like to hear from fans regarding the reception of their daylight programs.

George LeRoy Miller, 40, an invalid for fifteen years, fourteen of which he spent in a wheel chair, and for nine years blind, passed to the Great Beyond as the strains of "Safe In The Arms Of Jesus" floated through the radio in a little home in Benton Harbor, Mich. Shortly before the end, Mr. Miller's nurse requested WHT, at Chicago, to have its choir sing his favorite hymn. The station complied.

The transmitter of WRC, "Voice of the Capital," is being reconditioned in preparation for the coming winter.

Inhabitants of the island of Kauai, 15 miles from the spot where Commander John Rodgers and the crew of the PN-9 were found drifting, received their first news of the rescue by radio from KGO, Oakland, 2,300 miles away.

Bert Davis, known to the radio public as "the clown of the air," is the latest staff addition to WBBM's "Nutty Club," a troupe of midnight fun-makers.

(Continued on page 27)

NEW STATIONS LICENSED

Twenty-one new stations were licensed during the past month, while fourteen stations were discontinued. The new stations follow:

KFOB	Burlingame, Calif.	WBAL	Baltimore, Md.
KFOJ	Moberly, Mo.	WGHB	Clearwater, Fla.
KFRU	Columbia, Mo.	WJBG	Charlotte, N. C.
KFXY	Flagstaff, Ariz.	WJBK	Ypsilanti, Mich.
KFYD	Muscatine, Ia.	WJRN	Sycamore, Ill.
KFYF	Oxnard, Calif.	WKBB	Joliet, Ill.
KQP	Portland, Ore.	WMAL	Washington, D. C.
KSO	Clarinda, Iowa.	WMBC	Detroit, Mich.
NAA	Arlington, Va.	WTAG	Worcester, Mass.
WABI	Bangor, Maine.	WWAO	Houghton, Mich.
WAIU	Columbus, Ohio.		

STATIONS DISCONTINUED

KFAN	Moscow, Idaho.	WCTS	Worcester, Mass.
KFRL	Grand Forks, N. D.	WGBG	Thrifton, Va.
KFRU	Bristow, Okla.	WHBB	Stevens Point, Wisc.
KFUC	Virginia, Minn.	WIBD	Joliet, Ill.
KQP	Hood River, Ore.	WIBP	Meridian, Miss.
WABA	Lake Forest, Ill.	WIBT	(Portable).
WCBU	Arnold, Pa.	WTHS	Flint, Mich.

POWER INCREASES

KFXB	10 to 500 watts.	WJR	1,500 to 2,500 watts.
KOB	750 to 1,000 watts.	WOK	1,500 to 5,000 watts.
WBAP	1,000 to 1,500 watts.	WOAI	1,500 to 2,000 watts.
WCX	1,500 to 2,500 watts.	WLS	500 to 5,000 watts.
WGY	3,500 to 5,000 watts.	WSBC	200 to 500 watts.
WHAZ	500 to 1,000 watts.		

CLASS B STATIONS IN THIS LIST ARE DESIGNATED BY BOLD FACE TYPE

BROADCASTING STATION NOTES

(Continued from page 5)

WCAJ, Nebraska Wesleyan University, will attempt to give a daily forecast of radio receiving conditions for the evening during the coming winter. The forecasts will be based on radio tests and audibility measurements in the laboratory of the University.

Uda Waldrop, municipal organist of San Francisco, and one of the best known artists of the west, has been appointed official organist of KPO, San Francisco.

Vane Post, of West Palm Beach, Fla., reports some good distance reception. Mr. Post picked up KFI, Los Angeles, recently and he gets the Middle Western stations easily.

J. Agusty, manager of WKAQ, San Juan, Porto Rico, claims that it is "the only broadcasting station in the world controlled and operated by only one man." WKAQ is on the air twice a week; each Wednesday from 8 p. m. until 10 p. m. and each Thursday from 8:30 p. m. until 10 p. m. (Porto Rican Time which is one hour later than E. S. T.) Mr. Agusty would like to hear from fans who pick up his station.

Church services of the Greater New York Federation of Churches, will begin each Sunday at 2 p. m. instead of 3 p. m. through WEA F in the future.

KPSN, the new 1,000 watter of the Pasadena Star News, will begin broadcasting about the middle of November.

KSAC, Kansas State Agricultural College, is broadcasting a daily rural school program. It consists of opening exercises at 9 o'clock, a music lesson, talks on nature study, travel, lives

of great men, books to read, and current events. The housewives half hour starts at 10 a. m. with a story series and backyard gossip. Household programs, health and child care are also discussed.

The mail at WBBM, Chicago, one day recently contained verified reception reports from Hawaii, Cuba, Mexico, Washington State, Oregon, California, and the Eastern Seaboard.

Laurance Angel, Jr., of Huntington, L. I., reports having picked up McMillan broadcasting on 360 meters one night during October. On the same night he pulled in four Western Coast stations, Calgary and Mexico City.

King football will play the leading role on November broadcast programs. Most of the larger stations will broadcast play by play accounts of many of the more important football games.

Bridge by radio is the latest feature of WSAI, Cincinnati, and associate stations. Beginning October 27, this station will broadcast every Tuesday evening between 9 and 9:30 a bridge hand played by leading experts of the country. As the hand is being broadcast by the experts the plays and bids will be explained in detail so that the listeners-in will be able to play the entire game as broadcast.

One of the caretakers at the summit house on Pike's Peak, Colo., 14,110 feet above sea level, finds radio a great thing.

"It is intensely cold up here tonight," he writes, "plenty of snow on the ground and the wind is blowing a stiff gale. At this time only an occasional tourist drifts up to the peak, hence more time for radio. Programs are remarkably clear."

The U. S. Army Band can be heard from WGY every Thursday night at 8:15.

A large number of stations are planning special programs for Armistice night, November 11.

STATEMENT OF OWNERSHIP AND MANAGEMENT

In accordance with the Act of Congress of August 24, 1912, there follows a statement of the ownership and management of STEVENSON'S BULLETIN OF RADIO BROADCASTING STATIONS.

(1) The name and addresses of the publisher, editor, managing editor and business manager are:

Publisher—National Publishing Co., 1222 H St. N. W., Washington, D. C.

Editor—Thomas Stevenson, 710 14th St. N. W., Washington, D. C.

Managing Editor—None.

Business Manager—W. W. Rapley, 1222 H St. N. W., Washington, D. C.

(2) That the owner is:

National Publishing Company, Washington, D. C.

W. W. Rapley, Washington, D. C.

Thomas Stevenson, Washington, D. C.

(3) That the known bondholders, mortgagees, and other security holders owning 1 per cent or more of total amount of bonds, mortgages, or other securities are: None.

(4) That the two paragraphs next above giving the names of the owners, stockholders and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

(Signed) W. W. RAPLEY,
Business Manager.

Sworn and subscribed before me this 21st day of September, 1925.

JESSIE M. TAYLOR.

(My Commission expires March 20, 1929.)

WHAT CAN YOU TUNE IN WITH YOUR RADIO SET?

Can you start at the low point with it and tune in all the wave lengths up to 549? Try it with the list below which gives the allocation of wave lengths to stations of 500 watts or more. Stations with less than 500 watts power are not included in the list.
