- Patrol PA System
- IC Big Voice

EICO Makes It Possible

Uncompromising engineering—for value does it!
You save up to 50% with Eico Kits and Wired Equipment.

Cortina Stereo

Engineering excellence, 100% capability, striking esthetics, the industry's only **TOTAL PERFORMANCE STEREO** at lowest cost.

A Silicon Solid-State 70-Watt Stereo Amplifier for \$99.95 kit, \$139.95 wired, including cabinet. Cortina 3070.

A Solid-State FM Stereo Tuner for \$39.95 kit, \$139.95 wired, including cabinet. Cortina 3200.

A 70-Watt Solid-State FM Stereo Receiver for \$169.95 kit, \$259.95 wired, including cabinet. Cortina 3570.

Eicocraft

The newest excitement in kits.

100% solid-state and professional. Fun to build and use. Expandable, interconnectable. Great as "jifty" projects and as introductions to electronics. No technical experience needed. Finest parts, pre-drilled etched printed circuit boards, step-by-step instructions.

Electronic Siren \$4.95, Burglar Alarm \$6.95, Fire Alarm \$6.95, Intercom \$3.95, Audio Power Amplifier \$4.95, Metronome \$3.95, Tremolo \$8.95, Light Flasher \$3.95, Electronic "Mystifier" \$4.95, Photo Cell Nite Lite \$4.95, Power Supply \$7.95, Code Oscillator \$2.50, FM Wireless Mike \$9.95, AM Wireless Mike \$9.95, Electronic VOX \$7.95, FM Radio \$9.95, AM Radio \$7.95, Electronic Bongos \$7.95.

Citizen's Band

Two years ahead! Model 7923 All Solid-State 23-Channel 5W Transceiver. 4 exclusives: dual-crystal lattice filter for razor-sharp selectivity; efficient up-converter frequency synthesizer for advanced stability; precision series-mode fundamental crystals; Small: only 3"H, 8"W, 8 1/4"D. \$189.95 wired only. The best buy in tube-type CB—"Sentinel-Pro" 23-channel dual conversion 5W Transceiver \$169.95 wired only.

EICO Trans/Match (Model 715) is a professional test set designed for complete checking of ham and CB equipment. Kit \$39.95; Wired \$59.95.

Truvohm

Professional Portable Multimeters by EICO. The industry's greatest V-O-M values. Designed, made to Eico's high standards of professionalism. Each complete with batteries & test leads. Backed 100% by famous EICO warranty.

Model 100A4, 100,000 Ω /V, \$34.95.
Model 30A4, 30,000 Ω /V, \$19.95.
Model 30A3, 30,000 Ω /V, \$15.95.
Model 20A3, 20,000 Ω /V, \$12.95.
Model 4A3, 4,000 Ω /V, \$9.95.
Model 1A1, 1,000 Ω /V, \$5.95.

Automotive

EICO 888—Car/Boat Engine Analyzer. For all 6V/12V systems; 4, 6, 8-cyl. engines.

Now you can keep your car or boat engine in tip-top shape with this solid-state, portable, self-powered universal engine analyzer. Completely tests your total ignition/electrical system.

Complete with a Tune-up & Trouble-shooting Manual. Model 888; \$49.95 kit, \$69.95 wired.

Model 232 Peak-to-Peak VTVM. A must for color or B&W TV and industrial use. 7 non-skip ranges on all 4 functions. With exclusive Uni-Probe.® \$34.95 kit, \$49.95 wired.

Test Equipment

100 best buys to choose from.

"The Professionals"
—laboratory precision at lowest cost.

Model 460 Wideband Direct-Coupled 5" Oscilloscope. DC-4.5mc for color and B&W TV service and lab use. Push-pull DC vertical amp., bal. or unbal. input. Automatic sync limiter and amp. \$109.95 kit, \$149.95 wired.

WHITE'S RADIO LOG

Volume 50, No. 1

An up-to-date Broadcasting Directory of North American AM, FM and TV Stations, including a Special Section on World-Wide Shortwave Stations

In this issue of *White's Radio Log* we have included the following listings: U.S. AM Stations by Frequency, Canadian AM Stations by Frequency, U.S. Television Stations by States, Canadian Television Stations by Cities, and World-Wide Shortwave Stations.

In Our Next Issue, Oct.-Nov., 1968, the *Log* will contain the following listings: U.S. AM Stations by Location, U.S. FM Stations by States, Canadian AM Stations by Location, Canadian FM Stations by Location, and an expanded Shortwave Section. The shortwave listings are always completely revised in each issue of *Log* to insure 100 percent up-to-date and accurate information.

In the December, 1968 issue of RADIO-TV EXPERIMENTER, the *Log* will contain the

following listings: U.S. AM Stations by Call Letters, U.S. FM Stations by Call Letters, Canadian AM Stations by Call Letters, Canadian FM Stations by Call Letters, and an expanded World-Wide Shortwave Section.

Therefore, in any three consecutive 1968 issues of RADIO-TV EXPERIMENTER magazine, you will have a complete cross-reference listings of *White's Radio Log* that is always up-to-date. The three consecutive issues are a complete volume of *White's Radio Log* that offers up to the minute listings that are not to be found in any other magazine or book. If you are a broadcast band DXer, FM station logger, like to photograph distant TV test patterns, or tune the shortwave bands, you will find the new *White's Radio Log* format an unbeatable reference.

QUICK REFERENCE INDEX

U.S. AM Stations by Frequency	90
Canadian AM Stations by Frequency	100
U.S. Television Stations by States	102
Canadian Television Stations by Cities	104
World-Wide Shortwave Stations	105

WHITE'S RADIO LOG

U.S. AM Stations by Frequency

U. S. stations listed alphabetically by states within groups. Abbreviations: kHz, frequency in kilocycles; W.P., power in watts; d, operates daytime only; n, operates nighttime only. Wave length is given in meters. Listing indicates stations on the air up to April 1, 1968.

kHz	Wave Length	W.P.	kHz	Wave Length	W.P.	kHz	Wave Length	W.P.	kHz	Wave Length	W.P.

Canadian AM Stations by Frequency

Canadian stations listed alphabetically by call letters within groups. Abbreviations: kHz, frequency in kilocycles; W.P., power in watts; d, operates daytime only; n, operates nighttime only. Wave length is given in meters. Listing indicates stations on the air up to April 1, 1968.

kHz	Wave Length	W.P.	kHz	Wave Length	W.P.	kHz	Wave Length	W.P.

WHITE'S RADIO LOG

the Pacific. How many ground stations and aircraft can you log in a 30 minute period?

4. Not to forget those of you who prefer ship travel to the airliners, here are some hints on listening to ships on the high seas communicating with shore stations. For instance, if you listen on 12355 kHz tonight you might be treated to some of the major passenger liners contacting ports throughout the world. How many can you log in 1-hour?

5. Tune to 9555 kHz. Do you hear the BBC's *West African Relay Station* in Monrovia, Liberia? You do? Good, take 5 points off your score because the station just ceased operation. If you *didn't* hear it, give yourself a 5 point bonus for being honest—a rare quality in many areas of the DX reporting hobby.

6. Get this one while it's still on the air! It's *The Voice of The Arctic*, a bootleg 100-watt broadcaster which transmits programs to the Eskimos in their own language on the Ham-band frequency of 3750 kHz. The owner, a colorful fellow by the name of Dutchman Joe Sanders, is trying to get the station licensed by the Canadian D.O.T. Schedule isn't regular, so check the channel from time to time.

7. Martinique is a beautiful island which isn't too often reported by listeners. Of late,

it has been heard and you might try to cash in on this. Look for the *French Telecommunications Service*, in Fort de France, on 17575 kHz at 1215 and 1800 GMT.

8. Do you wait for Kuwait? If so, wait no longer, this tiny Persian Gulf country is being heard on 4967 kHz from 0400 to 0600 GMT.

9. The Swiss Red Cross is going to run some radio tests from their seldom-heard transmitter. The tests will run from now until the end of November (only 2 or 3 days per month) and are on 7210 kHz at 0600, 1130, 1700, and 2300 GMT. If you hear the tests, send a report to them at 7 Avenue de la Paix, Geneva, Switzerland. You'll get a QSL if your report is complete and correct.

10. Listen in on the latest charges, counter-charges, peace talks, peace-talk condemnation, etc., etc. from North Vietnam's one and only Radio Hanoi, also called *The Voice of Vietnam*. In English at 1000, 1300, 1530, and 2300 GMT on 7210, 9760, 9840, 11760, and 11840 kHz. If you have a good sense of humor you'll enjoy their rantings.

Here's how to score. 10 points for numbers 1, 2, 6, 7, 8, 9, 10. Numbers 3 and 4 get one point per logging. Number 5, as indicated.

Since this month we had a few real toughies thrown in we'll go easy on the ratings, but you should make a showing of *at least* 30 points without any trouble. From 31 to 50, very good! From 51 to 60, excellent. From 61 to 80—you're a *super* shortwaver! Above 80—who are you trying to kid?

Ham Traffic

Continued from page 78

which expires while he's on overseas military duty, he may apply to have it renewed when he returns to the U.S. Formerly, Novice tickets were not renewable. This exception to the rule is a worthwhile one.

Radio Shorthand. In a previous column, some radio operating procedure signs ("pro-signs") for use on CW were introduced as an aid to efficient operating. Here are some more you can put to use. AR (sent with the letters run together, like this: *didahdidahdit*) has two uses. It can mean *go ahead* when you have called another station, but haven't actually made two-way contact yet. For example, if I called WA2CQL, I would send WA2CQL DE W7DOS AR on my first call. After he acknowledged my call, I would no longer use AR when telling him to go ahead, but would use the normal K each time I stood by for him.

The other common meaning for AR (again with the letters run together into one Morse character) is to serve as a warning to the station you're working that you are preparing to stop transmitting and will listen for him. In this case, you send AR *before* actually sending the calls. You still use the regular K after signing the calls.

For example, after concluding one transmission in a series making up a QSO, I would send AR WA2CQL DE W7DQS K. The AR serves to tell WA2CQL that it'll be his turn to transmit in a jiffy, so he'd better push aside his coffee cup and reach for the transmitter key.

SK (again sent with the letters run together: *didididahdidah*) means *this is my final transmission, but I will stand by for your final*. Good operating practice calls for

this to be sent *before* signing the calls, again to give the other chap a warning as to what's on your mind.

For example, when I run out of things to say to WA2CQL, I would send SK WA2CQL DE W7DQS K. He would then say what was on his mind, send a 73 (I hope!) and sign out, concluding the QSO. I might send a snappy GE meaning *good evening*, or GN meaning *good night* and the QSO would be ended.

KN (with the letters run together: *dahdidahdahdit*) is a *go ahead* to the specific station you called, with the additional request that no one try to break in. This one is not used very often (there really isn't much need for it), but once in a while it comes in handy. Anyone trying to break into a QSO after hearing KN sent is a double-headed, droop-eared, diddle-brained lid. Agreed?

AS (with the letters run together: *didahdididit*) means simply *wait*. You use it anytime you need to stop sending for a few seconds, but want the other op to sit quietly until you resume. You can use it any time you need to look up something in a book, pick up a pencil that rolled under the desk, put out the cat, or hush up the kids. As a matter of courtesy, try not to make the other fellow wait too long.

The pro-sign C means simply *yes* and N means *no*. They're very useful because they're short, and there's no chance of a mistake if they are sent clearly. Even so, many hams ramble on and on to say what a simple *dahdidahdit* or *dahdit* would do.

Pro-signs can speed up CW operating tremendously by taking care of all routine business with snappy abbreviations and allowing more time for the real meat of your transmissions. Use 'em often—and accurately!—and you'll soon rank among the pros on the ham bands. ■

Hear That Star?

Continued from page 60

"No need," said Gerard. "I have one crew running a complete recheck of all equipment while Pitts and his boys play anagrams with your new theory of versified astronomy. Besides, if I went down there Pitts might start asking questions, and then what would I say?"

Pitts came in, tight-lipped and plainly annoyed, clutching a scrap of notebook paper in his right hand. He looked like he thought the sky was falling.

"We have two complete words, and the rest is falling into place quite rapidly," he told Gerard. "But I'm afraid the staff is a little upset."

Paul looked quickly at Gerard, then jerked the sheet from the young man's hand; and he and Gerard read it together. It said, "Twinkle, twinkle . . ." ■
