

FOREWORD

This is the new edition of the Broadcast Band Log of stations in the United States, Canada, Cuba, Puerto Rico, the West Indies, Alaska, and Hawaii. It lists all stations in these countries under the North American Regional Broadcasting Agreement.

The new features in this edition are first the times on the air of many stations in EASTERN STANDARD TIME. Secondly each frequency that has a large number of stations is on a separate page. This resulted in typing about 32 more stencils than the previous log. I am hoping this method of presenting the log will give ample room for the addition of new stations.

Times on the air have been compiled over a period of about two years and in cases may or may not be right. There are many stations yet to fill in times and it is hoped that subscribers may be able to supply this data. In the communities observing Daylight Saving Time during the summer, and this is important, if you send in during the period the time on the air- send it in Daylight Time as these stations will observe the same hours in Eastern Standard Time. Do not convert the DST to EST as when this time ends the time on the air for the station will be one hour out of the way. It is better to send in times during the DX season when the regular Standard Times are observed. If the schedules of Daytime Stations are sent, it must cover the period for the entire year- January to December.

As soon as official information is received on South and Central American stations this log will be typed and printed. As advised in the last letter it is of no use typing information that is two years old. As soon as received the log will be mailed.

If any errors are noted, please advise the editor in order they may be corrected in a supplement.

Address all inquiries regarding subscriptions, comments, and corrections to the editor, 2800 ALDEN ROAD, PARKVILLE- 14, MARYLAND.

IMPORTANT NOTE: Please if you change your address notify me at the above address so your log will not go astray or be returned to me. Returning the log involves additional expense on my part in receiving it and then again re-mailing it. This likewise applies to supplements.

A card is enclosed with this issue of the log. May I ask if you would please sign and return it to me when this log is received. Due to the large number of pages, I would like to know if delivery has been made.

EXPLANATION OF LISTINGS

Stations are listed according to frequency and power in use at the time this edition is published. Outstanding Construction Permits are listed in parentheses. Where a frequency change is involved, the station is also listed on the proposed frequency with the symbol 'P' to show that a permit for new facilities is held. The power listed is that in use for Nighttime transmitting (excepting those stations with permits to broadcast Daytime Only). Where increased power is permitted during the Daytime hours, this is shown in parentheses. All Power is listed in Watts, except in cases of increased power which is listed in Kilowatts.

As much as I dislike to think of it, this will probably be the last BCB Log that will be priced at \$1.00. The past several months has seen the cost of materials increase by as much as 25%. This means that in the future paper, stencils, ink, etc. will cost more to buy. I am investigating new methods for publication of this Log and if at all possible will hold it at \$1.00. If stencils have to be used for future issues then the prices of the Log will have to be increased. Separate pages for each frequency mean more paper and stencils to be used. Look for the price of future Logs to be between \$1.25 and \$1.50. depending on material costs around August 1. More supplements will follow to keep the current log up to date.

This is the second supplement to the BCB Log issued Sept. 1950. This covers the period up to and including June 26, 1951. Make the changes and additions and the Log will be complete.

At this writing, a South and Central American Log was being typed. About half way through the stencils information was received that will involve making numerous changes. So this has been abandoned and I will definitely say the South and Central American stations will be included with the next edition of the BCB Log. For quick reference they will be at the foot of each page by frequencies. Likewise during the past six months, times of many U. S. and Canadian stations have been revised. So the next edition which will appear in September will be quite complete as far as possible.

Subscription price will remain at \$1.00 per copy. This is possible due to the paper remaining at the same price. A card is enclosed for your convenience in sending in your remittance. Please try to have all subscriptions in by the 20th August. Based on the number of overseas subscribers, the same number of copies will be run off and reserved for them due to late mail deliveries. So please send in your subscription as soon as possible. It will be most appreciated.
