FOREWORD

This is the 1952-1953 edition of the Broadcast Band Log comprising all of the stations in North and South America and the West Indies. The North American portion lists all stations in the countries observing the North American Regional Broadcasting Agreement.

This edition includes the times of many stations and in addition the sign-on times of many Daytime stations which remain constant during the entire year. All full-time stations having no times listed will be contacted and included as soon as possible.

We have two sources of information in receiving notification of the stations operating in Mexico: direct and from the FCC. We are using the official Mexican listings throughout. Stations notified by the FCC are listed separately at the end of the Log. When these stations take the air they will be transferred to the proper page and frequency. We are following this procedure to avoid several pages of changes when an official list is received. In the past we have had to make numerous corrections in a supplement to conform to the official list received from Mexico.

All inquiries, comments, corrections, etc. are to be addressed to the editor, 2800 Alden Road, Parkville-14, Maryland. My sincere thanks to all who have written and expressed their comments on past logs. I hope to be able to continue this work for the best interests of everyone.

EXPLANATION OF LISTINGS

Stations are listed according to frequency and power in use at the time this edition is published. Outstanding Construction Permits are listed in parentheses. Where a frequency change is involved, the station is also listed on the proposed frequency with the symbol 'P' to show that a permit for the new facilities is held. The power listed is that in use for Nighttime transmitting (excepting those stations with permits to broadcast Daytime Only). All Power is listed in Watts. Where increased Daytime Power is permitted, this is shown in parentheses and is in Kilowatts.

These permits are listed in this manner to avoid making numerous changes when an official list is received from Mexican authorities. We hope to avoid confusion this way. As a station appears on the air, it will be removed from this list and placed in the Log Proper.

* * * * *

I regret very much the late appearance of this Log, but it could not be helped due to trying to keep it up to date as the many changes appeared. When we split it into two parts it was thought that it could be gotten out much faster. During the past year or so many new stations have made their debut and thus consuming more time in preparing this data. Next year we hope to overcome this difficulty by making four parts of about 30-32 stencils each. In this manner it will not be too monotonous typing all these stencils that are required. It may be a trifle more expensive to send out, but I will have the assurance that it will be out much faster than in the past. Supplements will be sent out when deemed necessary. You will receive at least two and if many more new permits are issued, three will be forthcoming. My thanks for your patience.

This is the final supplement to the 1952-1953 BCB Log. The 1953-54 edition will be started about August 15 and we hope to have Part 1 in the mail by September 1st or before if possible. Those of you who have not yet sent in your subscriptions will find a note at the bottom of this page as a reminder. If no note appears, your subscription has been received and entered. I wish to thank each one of you for past orders for the Logs and hope to be able to improve on each succeeding issue. Your comments and suggestions will be very much appreciated. Again my thanks and best wishes for a pleasant summer.

A REMINDER

As of the present date your subscription to the new 1953-54 BCB Log has not been received. May we ask if you would please send it in now if you wish a copy with payment of \$1.25 or if you wish just drop a note saying you want one and will remit later. This way I will know how many copies to print. Many thanks and we hope to hear from you.
