

FOREWORD

This is the 1953-1954 edition of the Broadcast Band Log comprising all of the stations in North and South America and the West Indies. The North American portion lists all stations in the countries observing the North American Regional Broadcasting Agreement.

This edition includes sections listing the Television and Frequency Modulation Stations by Channel. The listing is complete at the time of publication. (Date will appear at the end of each list).

Inasmuch as we have two sources of receiving information on the stations in Cuba and Mexico we are using the official Mexican and Cuban listings in the log by frequency. Other listings will appear at the end of the log. This avoids many numerous changes when an official list is received.

We list the times of stations on the air and at the time of listing, so far as we know, they are correct. However they are subject to change. Stations having no times listed are being constantly contacted for their schedules and when known will be published.

All inquiries, comments, corrections, suggestions, etc. are to be addressed to the editor, 2800 Alden Road, Parkville-Baltimore-14, Md. They will be duly acknowledged and appreciated.

Below are listed the Provinces of Canada and Cuba and the States of Mexico with the abbreviations used throughout the Log.

EXPLANATION OF LISTINGS

Stations are listed according to frequency and power in use at the time this edition is published. Outstanding Construction Permits are listed in parentheses. Where a frequency change is involved, the station is also listed on the proposed frequency with the symbol 'P' to show that a permit for the new facilities is held. The power listed is that in use for Nighttime transmitting (excepting those stations with permits to broadcast Daytime only). All Power is listed in Watts. Where increased Daytime Power is permitted, this is shown in parentheses and is in Kilowatts.

This is a listing of the Frequency Modulation Stations operating or holding construction permits in the United States, Canada, Cuba, and Mexico. The frequencies are in megacycles and channel numbers. The power listed is the Effective Radiated Power in Watts. A listing followed by the symbol (#) denotes the station is under construction.

TV-1

This is a listing of the Television Stations in the United States, Canada, Cuba, and Mexico. As the majority of the stations at the present time hold permits, the stations known to be operating are designated with the symbol (*). Without this symbol, the station is assumed to be under construction. The Power listed is the Video Power in Kilowatts. The stations are listed by Channel Number with the frequency in megacycles. The letters listed (a, b, c, etc.) denote stations Share Time.
