DENMARK

by Kai Roger Ottesen

Scandinavian media power-houses **Egmont Gruppen** and **Kinnevik** have called off their planned radio joint venture in Denmark because of financial differences in merging their properties.

In August, the two companies and **The Voice** co-owner **Otto Reedtz-Thott** agreed to form **Radio Holding**, which would have been the holding company for Kinnevik's 50%-owned EHR stations **The Voice** in Copenhagen and **Odense** and **Egmont's Hot ACE/EHR Radio** (continues on page 20)

Better Radio Advertising Days Ahead, Says IP

EUROPE

by Emmanuel Legrand

After a depressed 1992, especially in southern Europe (France, Spain, Italy and Portugal), radio advertising expenditures in some of Europe's largest markets are forecast to increase 4.4% in 1994, nearly twice the 2.3% expected for all media, according to European ad sales house **Information & Publicité (IP)**.

Leading the pack this year is Holland, which is expected to show a 9.3% increase in ad billings to Dfl 180 million (app. US\$94 million). Spain is the

worst, which is forecast to drop 10.2% to Pta26 billion (app. US\$185 million).

IP Group marketing director **Claude Matricon**, who presented his yearly advertising forecast,

notes that "in a period of economic recession, companies tend to favour communication outlets that can combine powerful and quick effects" such as direct mar-

Belgium Prepares To Regionalise Its Chart

BELGIUM

by Marc Maes

Belgium is on the verge of solving its fragmented chart system as **IFPI** prepares to launch a new regionalised chart based on in-store monitoring.

The current chart system in Belgium, based on shipment figures from the record industry to retailers, has always been under fire from various quarters of the media for the fact that it doesn't take into account the differences between the Flemish and French speaking markets.

This is often an obstacle to the charts being aired on TV or radio,

as broadcasting channels target specific language groups with different purchase behaviour. The discrepancy in sales between Flemish and French artists is a large disincentive for broadcasters—five titles out of 20 were French language in the chart for the second week in December.

According to Belgian IFPI honorary chairman and consultant **Charles Licoppe**, a first major change, which has been agreed upon by IFPI members, is the introduction of a new sales survey system in which some 75-80 selected retailers are being asked to join a computerised bar code system, similar to the one used in

NOS Frontman De Jong Calls Dutch Public Monopoly History

HOLLAND

by Marlene Edmunds

The outgoing chairman of the Dutch public broadcasting system the NOS has told Holland's publishers they need to depoliticise themselves quickly or they will not survive in the country's new commercial marketplace.

Max de Jong, as the driving force behind a massive restructure of the public system, has been the target of both praise and derision from the country's largest broadcasters, most of whom have been

backed by political and special interest groups for some 40 years.

De Jong's call for broadcasters to divorce themselves from their political "roots" is nothing short of revolutionary in Holland, says NOS head of communications and international relations **Juliane Straatman**. Currently, says Straatman, each broadcaster must report back on all programming decisions to a parent organisation, often a political party.

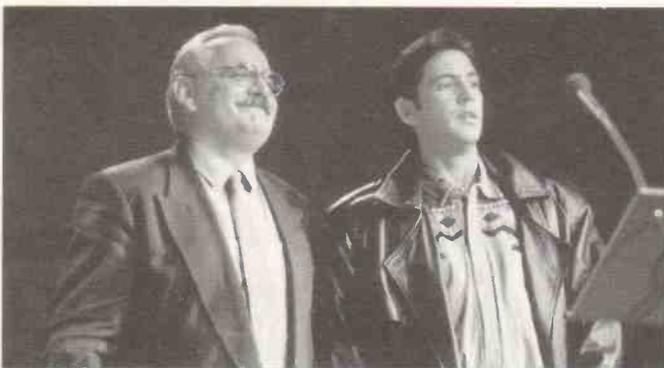

Such a process is cumbersome and doesn't make good business sense, says De Jong. Unless it is

changed rapidly, he warns, the public stations could lose market share irretrievably to the private sector.

The change De Jong wants is directly at cross purposes with a draft measure now being debated in parliament which could give 10-year concessions to the broadcasters' parent organisations.

De Jong also called for sweeping changes in management at individual broadcasters, blasting the monopoly of the Dutch public broadcasters as "history" and charging that the leadership that came out of that system couldn't possibly understand the new commercial marketplace.

The fiery chairman has set a two-year limit on completing the restructure of the public broadcasters, a plan that calls for the dismissal of up to one third of the system's 3,000 employees. Although his resignation is effective at year end, De Jong's recommendations are expected to be carried out.

PREMIOS ONDAS AWARDS — In issue 49 M&M printed the name of the wrong radio station in the headline of an article about the yearly Premios Ondas ceremony in Spain. It was the 40th anniversary of the Premios Ondas, organised by PRISA. This audio-visual holding company controls, among others, Cadena SER Radio. Pictured here is Francisco Herrera (l), director of Spanish music network Cadena Dial, who received the radio award from Spanish singer Manolo Tena.

Faze FM Replaces Sunset Radio

UNITED KINGDOM

by Jeff Clark-Meads

Manchester is to have new dance music and easy listening outlets and Central Scotland will get a largely ethnic station under new ILR licences awarded by the UK Radio Authority.

Failed Manchester FM station **Sunset Radio** will be replaced in the new year by **Faze FM**, which will broadcast dance music. On the AM waveband relinquished by the BBC's Manchester station, **GMR, Fortune** will base its programming on easy listening.

The Authority received a total

of 17 applications for the Manchester services. The licences cover the majority of the greater Manchester area and some neighbouring districts. The AM service will reach an adult population of around 1.8 million, while the FM service will go out to around 2 million.

In Scotland, **Central Scotland Radio**, co-owned by ITV companies **Grampian Television** and **Border Television**, will be a mainly news/talk station with its music content based on ethnic Scottish tastes. It will reach 2.3 million people in the Glasgow and Edinburgh regions.

New Features In M&M

The first issue of the new year includes a few new features and columns. Due to popular demand, M&M has re-instigated the A/Z indexes to its Eurocharts. M&M chart editor **Mark Sperwer** will be hosting a new column called "Breakin' & Entering," highlighting the major new entries and moves in the Eurocharts (see page 10). In addition, M&M's weekly feature "Music Marketplace"—as included on the "New Releases" page—has been expanded to a half page and will be edited by **Raúl Cairo**. The section also includes personal picks by radio programmers, called "DJ's Delite." Consequently, with the move of "Music Marketplace", "New Releases" has been expanded to include more singles and albums reviews. **MB**

The album, out on EMI/Odeon is a compilation of songs taken from a live performance in a church in Burgos in 1973 and has already earned a gold disc.

Grönemeyer Chosen As First CD-ROM Artist In Germany

GERMANY
by Miranda Watson

EMI/Electrola Germany recording artist **Herbert Grönemeyer** has become the first German pop artist to be released on the multimedia format CD-ROM. **Peter Gabriel** has been pioneering CD-ROM in the UK, becoming one of the first artists to release a CD-ROM record called *Real World Explora*, and now more artists are realizing the creative potential of this new computer technology.

A multi-media CD-ROM is similar to an audio CD player, but can normally only be played through a computer. Grönemeyer's CD-ROM is a mixed-mode version which can be played on an audio CD player and on a computer with a CD-ROM disc drive. While a CD player will allow the consumer to listen to the three audio tracks *Chaos*,

Land Unter and *Fisch Im Netz*, the computer provides a new dimension on the screen. The user can select and view photos, graphics and whole videos on the screen using the computer mouse.

Comments director of A&R at EMI/Electrola **Stephan Trapp**, "We believe that a development which is going to expand so rapidly requires our attention, especially since it is based on our primary sound carrier, the CD. The fact that we own the mechanical reproduction rights makes this all the more important.

"We have a very positive attitude towards this new medium, and we envisage further projects in this direction in co-operation with the Düsseldorf-based production company **Troubadour Soft**." Trapp says Grönemeyer's CD-ROM will be integrated into his current marketing campaign.

Hahne Joins Delta Radio; Rock ACE Format Planned

GERMANY
Steve Wonsiewicz

Adam Hahne, currently GM/PD at NRJ's east German network **Energy Saxony** will be leaving the EHR web to take over as PD at Schleswig-Holstein statewide private AOR **Delta Radio**. Hahne, who was with Energy Saxony since June and oversaw its launch on June 21, will begin with Delta Radio in mid-December.

Delta Radio currently has about 80,000 listeners per hour,

and Hahne's goal is to double that to 150,000. He also plans to reformat the station soon, making it a rock-based ACE. Delta Radio is managed by Radio Hamburg owner **Frank Otto**, who is the station's largest shareholder with 35%.

Comments Hahne, "I had a good time at Energy Saxony and it was a great experience working as GM and PD for the past half year. From an advertising standpoint, the station is doing extremely well, and it will continue to do

very well because of the people who are working there.

"However, I was involved too much in the day-to-day operations as GM for my taste, and that didn't leave me enough time to devote to programming.

"There's space for a rock-based ACE station in Hamburg. The nearest competition you have is mainstream ACE **Radio Hamburg**. I'm really looking forward to working with Frank, who made a big success of **OK Radio** in Hamburg."

Turmoil Surrounds Privatisation Rescue Plan For Pubcaster RAI

ITALY
by Mark Dezzani

Staff at Italian pubcaster **RAI** will not receive their Christmas bonus until January due to a disagreement between the RAI's governors and the government's treasury ministry over plans to recapitalise the nearly bankrupt state broadcaster.

A last minute rescue plan including partial privatisation proposals was agreed after creditor banks blocked further loans and an unscheduled general meeting of RAI board members to initiate liquidation procedures was convened. The rescue plan

came too late to save staff bonus payments before Christmas, and includes measures to reduce the RAI's estimated deficit of L560 billion (app. US\$330 million) for 1993. Among the highlights of the negotiations:

- Creditor banks will transform some of their loans into shares in the corporation.
- Shares will be sold to the general public with the state retaining a controlling stake and the power to appoint governors.
- Payments made by the RAI to the state for frequency concessions will be reduced 75% to L40 billion annually.
- The licence fee will increase in

line with inflation, just over 4% for this year.

● Budget cuts of L300 billion will be implemented over a two-year period.

RAI journalists reacted by declaring a three-day strike for the week December 6-10. A union spokesperson criticised the privation plans and called for reforms of the RAI to be accelerated. "RAI journalists reject three surreptitious attempts to privatise a public service broadcaster," he says. "So far the reforms have been too timid, faster change will save money sooner."

Catalan Radio 4 Staff Fear RNE Decision To Add More News

SPAIN
by Francesca Plowright

Moves to change format at pubcaster **RNE's** full-service Catalan channel **Radio 4** have caused mixed reactions among staff at the station, who fear that Radio 4 is suffering from centralised policy decisions at RNE.

The station, which is adding more news to its culture/light music/sports formula and introducing news bulletins every 15 minutes, is in danger of being "condemned to being a residual service without any real content," according to **Josep Adell**, president of the company committee at RNE, who feels that the directors of RNE are concerned only with the pubcaster's Madrid headquarters.

Radio 4, Spain's first Catalan broadcasting outlet, was created just after the demise of **General Franco** and celebrates its 17th anniversary this month. The changes at the station, which will

be announced in full in April, will coincide with the re-formatting of **Radio 5**. Until recently a commercial network, Radio 5 will

be turned into a commercial-free 24-hour rolling news/talk network.

'93 EHR: The Year In Pictures

by Steve Wonsiewicz

Welcome back from the Holidays! To help you ease back into the normal schedule after too much food and drink, and to help you plan for '94, here's a glimpse of what some of Europe's leading stations did promotion-wise during last year. Much success in '94!

UNPLUGGED IN SPAIN — Def Leppard dropped by the studios of Spanish EHR powerhouse Los 40 Principales on January 21 for an unplugged set. Pounding the skins is drummer Rick Allen.

CHEEKY PROMO — DJs from Dutch pubcaster Veronica showed their best side for one of the station's promotions. Pictured (l-r) are: Gijs Staverman, Rob Stenders, Edwin Evers and Jeroen van Inkel.

SUPPORT YOUR LOCAL ARTISTS — Italian pop star Zucchero Sugar Fornaciari snuggles up with Italian EHR network Radio Dimensione Suono DJ Rosaria Renna. Zucchero visited the station early in the year to talk about his last album "Miserere."

RAP AGAINST RACISM — As part of Hamburg's annual "Alster Entertainments," German EHR station OK Radio/Hamburg staged a live "European Dance Pool" music show, presenting international newcomer bands over the weekend and featuring DJs Christian Blunk, Sascha Oliver Martin and Andreas Heineke. The first day of the show under the motto "German Hip Hop Against Racism" featured upcoming acts Absolute Beginner, Die Reimbanditen and (pictured onstage) Easy Business.

WET AND UNPLUGGED — Each year Belgian EHR web Studio Brussel takes to the road for a water sports day promotion, which reaches over 15,000 people in Flanders. The station, which teams with aquatic sports organisation Bloso and presents the show live from 12.00-20.00, tours in a special bus and visits several water sports facilities. Several artists perform unplugged during the day, among them Clouseau, Soulsister and the Radios. Pictured (l-r) are lead presenter Paul de Wyngaert and artist Tom Wolf.

HEAVY METAL LESSONS — This summer a lucky listener to Hot ACE/EHR Radio Uptown/Copenhagen received a private lesson from Denmark native and Metallica drummer Lars Ulrich. To win the lesson, listeners had to call in a drum on anything—over the phone. The promotion managed to get on primetime national TV.

LOOK AT THOSE LEGS — Berlin private EHR station 104.6 RTL ran a "Battle Of The Sexes" competition on its "Arno und die Morgencrew" morning show for the last three months. When the women won, PD/morning show host Arno Müller had to keep his end of the bargain by parading down the Kurfürstendamm in stockings and suspenders.

NO MOUNTAIN HIGH ENOUGH — To help Nestle promote the new name of their candy bar Lion (from Big Cat), EHR Radio 1/Oslo decided to climb Kilimanjaro and have the world's first radio broadcast from the top (two times a day for a week).

FILL IT UP — On September 8-18, French regional EHR web offered a free tank of gas to selected drivers in Orleans who had the station's sticker in their car windows. When Vibration's jingle was aired, fortunate motorists behind the station's van won the gas. The promotion was sponsored by Leclerc supermarkets.

SUPPORTING THE TROOPS — Belgian EHR Radio Contact supported the country's paratroopers in Somalia this year, creating a small station called Radio Hope in the city of Kismayd. The station broadcasted 24 hours a day, 12 in French and 12 in Flemish.

PUMPKIN PROMO — In the top photo, EHR Energy Berlin's morning staff show off the pumpkins that ended up causing morning duo Holger Richter and Martin Wehrmann to do a little public service work. In a Halloween monster outfit giveaway promotion, the two lost a bet with the station's Ina Tenz, who believed that someone would bring in a pumpkin bigger than the duo's head. Richter and Wehrmann ended up working as gas station attendants for a day, with tips going to a children's charity. Pictured in the second photo are (l-r): Richter, Tenz and Wehrmann.

SINGLES

THE ADAM & EVE PROJECT

Awah, I Want Extra Ecstasy - Hansa D/EHR

PAUL BENNETT

Forevermore - Unity/Ariola ACE
 PRODUCER: Christian De Walden/Ralf Stemann/Paul Bennett
 Australia's Bennett is a brave balladeer who's not afraid of walking on Demis Roussos' beaten path of kitsch of astronomic proportions. What more could the ACE format ask for?

DARYL BRAITHWAITE

Barren Ground - Columbia ACE/EHR
 PRODUCER: Simon Hussey
 After a few false starts on European grounds before, this Bruce Hornsby-written M.O.R. song could be the right one to bring the Australian mega star under the attention up here.

KATE BUSH

Moments Of Pleasure - EMI ACE/EHR/A
 PRODUCER: Kate Bush
 For most singers a ballad is just a slow song, but for Bush it seems like it has to be an emotional confrontation which classic composers would like to be credited for.

CLOUSEAU

Worship - EMI ACE/EHR
 PRODUCER: Kris Wauters/Derek Nakamoto
 In Belgium the girls worship the ground lead singer Koen Wauters walks on; with this monumental ballad he'll get the whole European female demographic behind him.

EL ULTIMO DE LA FILA

Lapiz Y Tinta - Perro/EMI ACE/EHR

FUGEES (TRANZLATOR CREW)

Boof Baf - Ruff House D/A/EHR

KIRSTY MACCOLL

Angel - ZTT EHR/ACE

 The holidays season will last a little longer with this folk song in a Christmas atmosphere. Traditional instruments and the modern rhythm track are living in perfect harmony.

NEW ORDER

Spooky - London A/D/EHR

 With the same electronic pop and producer the Pet Shop Boys generate traffic jams to record shops and gigantic radio hits. New

Order was there first; don't they deserve better treatment?

ROB 'N' RAZ

In Command - Golden Silver Fish D/EHR
 PRODUCER: Rob 'N' Raz
 The club hoppers celebrate their first Swedish number 1 hit with a "Culture Haddaway Project" type of bleeping pop dance stomper according to the proven male rap/female chorus formula.

DIANA ROSS

Your Love - EMI ACE/EHR
 PRODUCER: Nick Martinelli
 Every winter "Lady Di" offers us a ballad that matches the season best. With this song all the conditions are fulfilled to let it snow.

ROZALLA

I Love Music - Epic D/EHR/ACE
 PRODUCER: Jellybean/StoneBridge
 On this song off the *Carlito's Way* soundtrack the Zimbabwean dance prima donna is more like a disco queen from the '70s suffering badly from Saturday night fever.

SLADE II

Hold On To Love - Emergency! R/EHR/ACE
 PRODUCER: Dave Hill/Len Tuckey
 Look at wot they've dun! Exit frontman Noddy Holder, and in comes Steve Whalley, who's as different from his predecessor as it could be and so is this type of power ballad. "That's probably exactly what they wanted," says BRTN Radio 2 - West Flanders/Kortrijk producer Peter De Groot. "Admittedly, at first I didn't know what to do with it either. But the Slade of 20 years ago shouldn't be the norm for programmers today."

SPIN DOCTORS

What Time Is It? - Epic R/EHR/D
 PRODUCER: Peter Denenberg
 Synchronise watches! It's high time to tear down the house with the most funky track of the *Pocket Full Of Kryptonite* album. The live version clocks in at 1:30 minutes extra time.

TONY TONI TONÉ

Anniversary - Wing EHR/ACE/J
 PRODUCER: Tony Toni Toné
 Stevie Wonder means as much to the Tonies as to Jamiroqui. Inattentive lovers will learn to care from this hard to forget delicate ballad. It's a classic soul track for Radio FFN/Isernhagen (Germany) programmer Tom Petersen. "This band is a favourite of the music people. The *Sons Of Soul* album sure is the critics' choice. We continue our support as given for the first single *If I Had No Loot*."

ALBUMS

BRENDAN CROKER & THE SERIOUS OFFENDERS

Made In Europe - Emergency! R/A/ACE/EHR
 PRODUCER: Brendan Croker & The Serious Offenders
 After a double-dose divorce—from his band the **Five O'Clock Shadows** and his deal with **Silvertone**—Brendan hits back hard with two albums in only one year. The first one was a live recording, but this here is something completely new, although the word "new" always is a loosely defined term for the Englishman. *Sittin' On Ready* is more like the twin brother of Chuck Berry's *Sweet Little Sixteen*. The roots rocker has a gift to write about uncommon subjects like *The Ultimate Wave*, parodying the second coming of the lord. Out of the **Smiths** song *Heaven Knows I'm Miserable Now* he has made a less woeful country tearjerker.

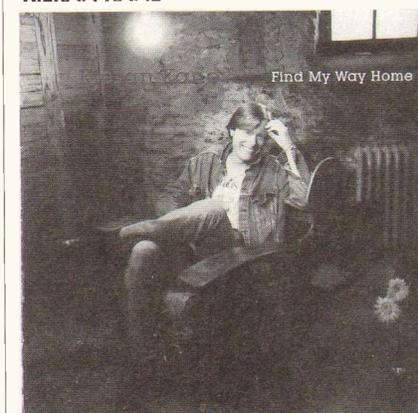

INDIGO

Make Our Day - Mercury EHR/ACE/D
 PRODUCER: Peter De Wijn
 Remember these Dutch gals from their *Dim The Light And Put On Some Barry White* single of two years ago? Exorbitant long song titles have become their trademark since then. *Everyday Is The First Day Of Your Life*—here included too—has been the first clear indicator of a new direction of the duo. They're now standing with one leg in '70s soul, and with the other one in the origin of soul, gospel. The bulk of the songs on this sparkling debut CD is baptised in the same sacred water too (*Give Love A Try*). Take a dive in this fountain of love and devotion, *Head Over Heals* if we may suggest.

PAUL K & THE WEATHERMAN

Stolens Gems - SilenZ R/A/C
 PRODUCER: Paul K/Ed Wapper
 Four or five albums of constant quality in only two years? We've lost count with Mr. K. And there he goes again, the workaholic among the singer/songwriters. This mini album is only meant to be an appetizer for things to come, because his next album *The Garden Of Forking Paths* is out in two weeks time. Meanwhile, album rock programmers should treat their listeners on the title track of this extended EP or the "de-souled" but heartfelt **Smokey Robinson** cover *The Words From My Heart Get Caught Up In My Throat*.

KIERAN KANE

Find My Way Home - Atlantic C/ACE/EHR
 PRODUCER: Harry Stinson/Kieran Kane
 The namesake of the **O'Kanes** country duo has embarked on a solo career. The album

he comes up with now is only comparable to Darden Smith's selftitled major label debut out of 1989. This man embodies *both* words which make the often-used jargon singer/songwriter. With a nightingale voice he sings his self-penned songs (*Greener Pastures!!!*), all evidence of composure extraordinaire. With the right film backing it, the track *Return To Me* could grow into *Wicked Game* proportions. Knowing that ex-**Rockpile** guitarist **Billy Bremner** is the mean picker in the background, it will surely find its home on radio.

R. KELLY

12 Play - Tvdash/Jive D/EHR/ACE
 PRODUCER: R. Kelly
 The swingbeat genre has still not really broken in Europe. Is it too rhythmical and not melodic enough? Maybe the king of the genre has got that vibe needed to win our hearts too. As befits as a thorough-bred womanizer, all the songs go out to the ladies. Listen to the great macho lingo on the piano ballad *Summer Bunnies*, and you know what kind of "brotha" Kelly is. When he uses the word "freaky," you can bet he gets physical again. The ultra-slow *Sex Me* and the pulsator *Freak That Body* are perfect tunes for Radio Erotica.

MELODIE MC

Northland Wonderland - Virgin D/EHR
 PRODUCER: Statikk/Tom Droid
 The *Northland Wonderland* of the album title is of course Sweden, the motherland of many Euro dance artists. Melodie MC's act is based on sequencers, buzzing synths, pop melodies and raps by the master of ceremony himself, assisted by female backing singers. "Move your ass permanently" is the bottom line of his rhymes. The hits *I Wanna dance* and *Dum Da Dum* give a good idea of this happy go lucky dance album.

SPAGNA

Matter Of Time - Epic EHR/D/ACE
 PRODUCER: L. Pignagnoli/T. Spagna/J. Vanston
 The Italian disco star of the '80s returns with a remarkably mature production. Her voice—always her biggest asset—has developed that much that she can walk unblushingly between Stevie Nicks and Cher. *Why Me* is the first single of an album that certainly has the potential to spawn the hits that will put her back on the map. The sexy Barry White-inspired *You'll Be Mine* should seduce even the most headstrong programmers.

JODY WATLEY

Intimacy - MCA D/EHR/ACE
 PRODUCER: Various
 You get what the title promises, a set of intimate songs with a great midnight love touch to them. *Workin' On A Groove* is a song based on "a groove called love," enhanced with a Stevie Wonder-like harmonica, played by **Tommy Morgan**. Only Marvin Gaye could make such sincere lovers' albums, and with this late great soul singer she shares the social conscience reflected by her lyrics. *When A Man Loves A Woman* carries out the message of the reality of Aids, which "he won't bring home to you by some other love he's made." Otherwise the message is nothing but "let's get it on" on pumping swingbeat rhythms.

Singles and albums featured in New Releases are listed alphabetically. Each record is recommended for format or programme suitability. Abbreviations used include: EHR, ACE, R (Rock), D (Dance), C (Country), J (Jazz), EZ (Easy Listening), NAC (New Adult Contemporary), A (Alternative), W (World) and M (Metal). Valensia's Progressive Rock Is Far From An Anachronism

Freddie Mercury is not dead; not only is he alive and kicking in the charts, two talented Dutchmen are keeping his musical heritage alive from the heyday of progressive rock. Polydor's Robby Valentine was first, and now Phonogram's Valensia is bringing this musical style back into the spotlight. Both young heirs have albums and singles out at virtually the same time, and the latter's single Gaia is the talk of the lowlands lately.

HOLLAND

by Robbert Tilli

After being made powerplay at national public station **Radio 3/Hilversum**, the single reached the number two spot in the Dutch chart in no time, only stopped by heavyweight **Meat Loaf**—a fair defeat, since he is basically doing a similar thing in a multi-layered production.

The international potential of the single and the self-titled debut album is undeniable. **Radio Regenbogen/Mannheim** was the first German station to report the song

to M&M. Says music director **Martin Schwebel**, "We immediately put it in A rotation, which is very uncommon for a newcomer in Germany. I think it's a very interesting combination of **Queen** and **Kate Bush**. It's very different from all his contemporaries, yet fits our format very well."

Phonogram Holland head of national/A&R **Herman Van Der Zwan** has met no problems in getting international releases for Valensia. "We avoided the usual verbal hype of constantly telling everyone how good we think Valensia is. A rather

reserved introduction is far more preferable. Our affiliates were informed about the prosperous developments on a weekly basis by faxes containing the cold facts. And there was a lot to tell, from the initial powerplay to the fact that the CD was chosen album of the week by chart compiler **Mega Top 50**. Also, it is not often that we issue a limited edition one-track digi-pack version of a single, which serves as an indicator of our belief in the project too."

The single's artwork also featured the first picture ever seen of the artist, which sort of demystified all the media tales about the "recluse wizard" to normal proportions. The fact remains that he is a unique talent, and his cacophony of '70s sounds is a welcome counterpart to the dance dominance—far from an anachronism, more like a future international star.

Clawfinger Fights Racism With Angry Funk Metal

SWEDEN

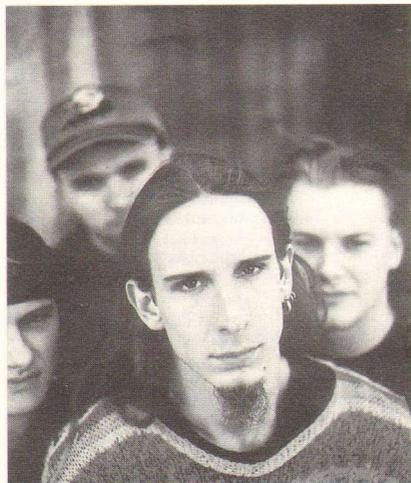

by Robbert Tilli

If you have a message for the people, then you'd better say it loud. Politically correct Swedish/Norwegian funk metal band **Clawfinger** truly clenches its fists to get the anti-racist message across. Like British

domestic market, which is a lot for a debut album without a big hit or a big producer. We wanted to emulate the same kind of activity abroad, and Germany with its very similar market was an obvious first choice. Also, in geographical terms, it's of course our closest neighbour outside of Scandinavia. When our German colleagues at Warner saw the band at the Roskilde festival in Denmark last summer, they were sold on the spot.

"With this kind of music it's important to get media exposure. We carefully started campaigning on a grass root level with special retailers and fanzines. The German edition of hard rock magazine *Metal Hammer* made it album of the month September. After 10,000 units sold, we sped up the campaign and suggested retail chain **WOM** to nominate it album of the month for October, which it did. That saw the sales taken into the next level." The road has been the ensuing vital tool in Wachtmeister's marketing plan. "We were very privileged by the fact that ICM's **John Jackson** secured them support slots on European tours by **Alice In Chains** and **Anthrax**. They'll hit the European road again around April."

alternative funk combo the **Pop Group** in the early '80s, this bunch really sounds angry. The fierce single *Nigger* is a strong plea against the use of that derogatory term by both whites and blacks. Special anti-racist stickers further spread the message, best responded to so far by Germany and the UK—both countries where it is a red-hot topic.

In Germany no less than 60,000 copies of the *Deaf Dumb Blind* album have been sold so far. Clarifies **Warner Music Sweden** product director **Mattias Wachtmeister**, "We went international after having reached the 15,000-copy mark on the

La Unión Wants To Reach Europe Without U-Turn

SPAIN

by Robbert Tilli

For most Spanish bands, Europe always comes last in international exploitation

people English is the most 'logical' language for La Unión's type of music. Depending on the reactions on the second single *Oracion*, ["Prayer"] we'll record the whole album in English."

schedules. Mostly after a gigantic detour along South America, there is a half-hearted emphasis on the European territories. Apparently **Mecano** and **Héroes Del Silencio** are the exceptions to that rule.

Warner Music Spain international exploitation manager **Yann Barbot** doesn't want to take the usual U-turn overseas for pop rock band **La Unión's** seventh album *Psychofunkster Au Lait*. "At the moment it's summer holiday time in Latin America anyway, so we looked at Europe straight away. We offered an English version of the single *Hermana Tierra* ["Sister Earth"] to our affiliates. Having learned from our experiences in the past, we knew that original Spanish-language product from this band never worked on European ground; that's why we opted for a translation this time. That seemed right to us for this more or less in '70s rock-rooted album. Other than in the case of the 'Héroes,' for most

The first single is a riff-heavy rocker, whereas the second is a bluesy ballad, along with the album track *Shaman*. Several of the other tracks are spiced with funky guitar licks. *Africa* sounds quite familiar with a chord progression and vocal line not unlike **Rare Earth's** *Get Ready*. The overall sound is far more rocky than on previous albums, probably due to the fact that the **Cult's** *Les Warner* is hitting the drums. Those who after all want to remember La Unión as a pop outfit should check out *Lolita*, which comes closest to the old days.

 PRODUCER: Gronge
 Cabaret superimposed on heavily electronic post industrial noise? Apparently it's not only possible, but the result turns out to be quite charming. Breakin' & Entering

Hoping you had a Merry Christmas and wishing you all an excellent New Year, it is my pleasure to welcome you to the first-ever issue of *Breakin' N' Entering*, M&M's commentary on its **Eurocharts Hot 100 Singles** and **European Top 100 Albums** charts.

As can be expected from the first chart in the new year, many of the artists of 1993's fourth quarter dominate. In the singles listings, this means that the "Maastricht" movement is taking effect with a strongly positioned continental dance scene. Germany played a major part in this process with acts such as **Haddaway** (Coconut/BMG) and **Culture Beat** (Dance Pool/Sony). With **Ace Of Base** (Mega/Metronome) and Belgian/Dutch act **2 Unlimited** (Byte) already setting the pace as early as '92, Euro-dance seems ready to take on the world.

The highest entry in the Eurochart is the new **Take That** single, *Babe*, entering at number 6 and marking the teen act's fourth top 10 single in the Eurocharts. Their most successful single to date has been *Pray* that peaked at number 7, followed by *Why Can't I Wake Up With You?* (8) and **Barry Manilow's** *Could It Be Magic* (9).

Chaka Demus & Pliers'

cover of *Twist And Shout* is second highest entry (18) and the duo's third Eurochart hit single after the success of *She Don't Let Nobody* (peak: 22) and *Tease Me* (14).

The new year has also brought us two records with religious leanings. First of all, German **Michael Cretu's** **Enigma** project (Virgin) is returning to the albums chart (at 63) and while his previous seven million-selling *MCMXC a.D.* featured ambient Gregorian dance, the new album *The Cross Of Changes* moves into new religious territory with Hindu, Buddhist and Muslim soundscapes.

Truly Gregorian, however, and this week's highest new entry in the European albums chart, are the Spanish monks from the "Monasterio Benedictino De Santo Domingo De Silos." Their album of ancient Gregorian "hits" went straight in at number 1 in the general Spanish sales chart, the first domestic classical album to do so. This entry surpasses the major '93 releases from **The Beatles**, **Frank Sinatra** and **Gloria Estefan**. In view of the past ambient-house excesses in the European club scene, they could have their lawyers working nights on copyright infringements...

OFF THE RECORD

BAAS SELLS SHARES?: M&M hears that Dutch CNR/Indisc MD Cees Baas has sold his company shares back to **Arcade Entertainment Holdings** (AEH), the group that bought CNR on December 31 1992 and merged it with its Indisc label. Now reporting directly to AEH president **Herman Heinsbroek**, former GM **Léon ten Hengel** is said to be promoted to CNR/Indisc MD.

MOOIJ MOVES TO PARIS: We've also heard that Dutch **Stemra MD Ronald Mooij** is leaving for a high-placed (and well paid) job in Paris.

Eternal

(continued from page 1)

excited programmers across Europe and with a follow-up, *Save Your Love*, and an album *Always And Forever*, both making gradual impact, this all-female four-piece has a platform for development on both sides of the Atlantic.

Eternal have achieved their success in a teen-based musical area that is already crowded, and have had to compete for attention with fully-established acts such as **En Vogue**. However, EMI's VP of international marketing, **John Briley**, argues, "I think Eternal are a lot more pop crossover than somebody like En Vogue. People should remember that the girls in Eternal are all under 21 and they still get excited about hot chocolate. They really want to work and have already worked so hard. As far as they are concerned, they realise we haven't really broken them yet so they are doing everything we have asked them to do."

However, for a band that "has not really broken," Eternal have made some promising inroads on European radio. In week 47, *Stay* peaked at number 20 in M&M's **EHR Top 40** with 62 stations under its belt. Apart from the UK, the Dutch, Swedish, Belgian and Danish radio markets proved to be the most receptive; currently the track stands at number 24 in the **Channel Crossover** chart, reported by 46 stations on the Continent.

Some of the reasons for that success are outlined by **Mike Childs**, senior producer at **Capital FM/London**. He says, "We picked up on *Stay* because it's an exciting new track from a brand new act and it fitted in with our criteria of playing exciting, new sounds."

It helped Eternal's cause that they had performed at one of Capital's road shows during the summer

and, according to Briley, the live aspect is one of the band's greatest assets.

"They went out on a showcase tour with **Dina Carroll** and we began to find that the venues were three-quarters full for Eternal, which is an amazing thing for a support act, he says. "People just fall in love with them because they are real performers who can sing and move."

Eternal will spend the next three months working in Europe with radio and TV performances. The campaign to break the band in the US will not start in earnest until a showcase performance at the NARM retail convention in August, although there will be brief visits in the spring.

Much of the campaign will be on a personal level. There will be, for instance, calls to both radio and club DJs who have assisted the success of *Stay* and subsequent singles. Eternal will also be heard across the Continent doing ident packages for a number of radio stations.

Eternal's manager **Oliver Smallman** is full of praise for the contribution Briley and EMI are making to the band's success.

"When we first got involved with them, we were looking for an act that could cut it live. That's the main difference between Eternal and some of the other people in the field—they sell on sex and we sell on talent."

Smallman's company, **First Avenue**, also manages **Dina Carroll** and it was his search for an opening act on her tour that led to his involvement with Eternal.

However, once he had them on the books, he also had the act to perform a song he had bought some years earlier. "Stay was such a cracking song that we had to have it but we never had the act for it until Eternal."

Radio Advertising

(continued from page 1)

keting, promotion and public relations.

However, IP Group director of radio **Alain Neuville** comments, "Radio is perfectly adapted to a period of crisis because it is a very flexible medium which allows advertisers to react promptly to market changes." It also "favours the leading stations," he says, "as advertisers want to be reassured in their investments."

Here's a look at each market:

●Germany: after two tough years in the eastern part of the country, which had an effect on the overall performances of the economy, the forecast looks reasonable this year, with total ad billings expected to grow 3.9%. The main growth will be witnessed in radio.

●Belgium: this country has been hit hard by the downturn in the French economy. Nevertheless, even if the media business faced a global recession, '92's spectacular

boom in radio has continued in '93, but at a lesser level. Radio's market share is growing and '94 should confirm the strength of the medium. The Flemish audio-visual market could be shaken by the softening of regulations on private stations.

●Spain: the country was hit hard by the recession last year and ad expenditures have plunged. An improvement of the ad climate in '94 is still possible but remains uncertain. Apart from TV, which will regain positive growth, the recession seems likely to affect all media.

●France: two bad years have hurt the economy, and overall ad expenditures have dropped 5%, though radio fared better than average. "The recession seems likely to end in '94, but will not be the end of all problems. Radio will follow the same trend as in '93, though with slower growth."

●Italy: the recession could end this year depending on the political situation. Except for radio,

which will remain stable, all media will drop, even TV. The situation for ad spend should continue to deteriorate in '94, but radio will not be affected.

●Holland: the economic situation is closely linked to the German market, and '94 should see the first effects of recovery. Holland has been marked by a deep change in the range of radio programmes offered, from public radio—split among five national networks and 22 regional stations—to private stations with the allocation of some 10 licences, which will benefit the medium.

●United Kingdom: it seems this country came out of recession in '93 and '94 will confirm the trend. However, the improvement has not yet been translated into a major increase in ad spend.

●Switzerland: the economy stabilised last year, and '94 should see an improvement. TV and radio were the only two media forms to grow in '93. For '94 all media should enjoy a return to growth.

Kinnevik Venture

(continued from page 1)

Uptown/Copenhagen (M&M, August 28). Sales houses **Radio Booking** and **Skandinavisk Radioreklame**, which book ads for 42 stations in Denmark, were also a part of the package. Under the deal Kinnevik and Egmont would have each owned 40% of the venture, while Reedtz-Thott would have owned the rest.

Kinnevik will reportedly also pull out of its deal to buy half of **The Voice**, and is looking for other potential partners to work with. In

a comment to *Radiofaxen*, a news service from the Danish organization for commercial radio stations, **KOMM, Ole Nørgaard**, a lawyer at Kinnevik said, "We have finished one chapter and have not started a new one. It's very early to announce what will happen with Kinnevik's radio operations in Denmark. I'm sure, though, that **The Voice** is a closed chapter. We have not researched the market in detail, because everything is so new."

Ole E. Andersen, Radio Holding board member and vice president of Egmont's film subsidiary

Nordisk Film, tells M&M, "Kinnevik and Reedtz-Thott could not agree on circumstances within **Frontpage A/S** [a company formerly owned by Reedtz-Thott which operates **The Voice's** production units] and, therefore, the company could not be established. It has to do with money, something I can't go more into detail on."

If completed, Radio Holding would have had a turnover of around Dkr50 million (app. US\$7 million) and controlled around 35% of Denmark's US\$19 million radio advertising market.

Astorri Quits

(continued from page 1)

Suarci. Astorri, who was unavailable for comment, built **RTL 102.5 Hit Radio** into one of Italy's top five private networks on the American model of all-hit **Hot ACE** with polished presentation and station sound. Astorri also pioneered the single frequency concept and bought up the rights to the 102.5MHz frequency nationwide. It is rumoured that Astorri is negotiating with rivals Milan-based **EHR net 105 Network** to join the station at an executive level. Astorri has resigned before, but returned from Milan-based **EHR net Radio DeeJay** to **RTL Hit Radio** within a year. No replacement has been appointed, although ex-105 **Network** programme director **Alex Peroni**, who is presently a marketing director with **RTI Records**, confirmed that he had been approached. Pending the appointment of a new MD **RTL 102.5 Hit Radio** is being managed by Astorri's right hand man **Luca Viscardi** and head of music **Grant Benson**. Viscardi said he doesn't foresee any major changes in station direction. "We will be continuing with our successful all-hit radio format, but we will be making some stylistic adjustments with a view to including more creative input from the presenters."

Belgian Charts

(continued from page 1)

the UK. Two survey companies—**Nielsen** and **Dimarso Gallup**—are in the running for the assignment.

The second stage is the regionalisation of the chart, says **Licoppe**, a move which the Belgian media has been calling for for a long time, especially radio. The charts will be split up according to language territory, and there are plans to start a regional **Top 40** short format list, a regional **Top 75** album list, and a regional local product list. A 'Tip-parade' has also been discussed, but the formula has yet to be determined.

The new system will be supervised by a foundation which will include **IFPI**, authors rights association **SABAM** and probably the **Belgian Video Federation** as founding members, with representatives from the media, artists, and trade present in the executive body.

Licoppe adds that there are also plans to have the chart printed on some 50,000 leaflets, like in Holland. "The retailer's cooperation is essential here, however, as we plan to distribute the charts on a subscription basis. If the whole idea succeeds, Belgium would be among the leading countries in chart compilation, together with the UK, Denmark and France."

Comments **PolyGram MD**

Bert Cloeckert, "I think a regional sales chart will put certain artists like the very successful TV characters **Gerd & Samson** in their right place in their region. They have been topping the national album sales charts for months based on sales in Flanders."

French language **EHR/Rock** pubcaster **Radio 21** is the only station airing the current **IFPI** charts. Head of programming **Christine Goor** says she somewhat "regrets the divorce" of the two language groups, but admits that Flemish titles are mostly deleted in the countdown show. Bands like **Soul-sister** and **Clouseau** will now be able to measure their following in the south of Belgium.

Flemish pubcaster **BRTN's** **BRT Top 30** is by far the most popular programme in Flanders (around one million listeners per week). The chart is based on sales results from up to 100 stores in the region. Comments **BRTN Radio 2** producer **Johan van Achte**, "What we do right now is already a regional Flemish chart. It is not yet clear how much we will tie in with **IFPI's** new chart."

At the 25-store **Free Record Shop** Belgium, GM **Lou Boon** is enthusiastic about the plans. "I think it's only normal that Belgium should have two separate charts. We at **Free Record Shop** will supply information both on Flanders and the French Community."

A Hot Season

The EHR chart this week is based on seasonal playlist reports collected by M&M in the week leading up to Christmas. Despite the usually conservative nature of radio during such periods, there is enough variety in the chart with five new records entering.

The highest is **M-People's** *Don't Look Any Further*, a cover of a **Dennis Edwards** song from 1984 that peaked at number 45 in the UK chart (and was also covered by the **Kane Gang** in 1988). Entering at number 20 and scoring the biggest number of new additions this week (20), the song gets its best EHR airplay in the UK (80% penetration), followed by Norway, Denmark and Germany. M-People's melodic blend of soul-infused dance pop has gone down well on EHR this year, following hits like *Moving On Up* and *One Night In Heaven*, peaking at number 8 and 18, respectively.

Second-highest entry for **Gabrielle**, with her latest soul ballad *I Wish*, the follow-up to the UK number one *Dreams*. Apart from the UK, *I Wish* is scoring particularly well in Italy and Denmark.

EHR programmers also welcome the return of **Enigma** whose *The Return Of Innocence* is scoring big in the GSA territories, Spain and Italy. Enigma's biggest to date on EHR was *Sadness Part 1* that peaked at number 2 at the beginning of 1991.

The record accumulating the highest points increase is **Pet Shop Boys' I Wouldn't Normally Do This Kind Of Thing**, the second-highest new addition (17) and making fast impact in the UK, Holland and Italy.

Meanwhile, **Haddaway's I Miss You** is making a big leap from 28 to 19. It is the third single from the Trinidad-born, German-based singer, that follows last year's EHR smashes *What Is Life* (peaking at number 6, issue 25) and *Life* (number 4, issue 43). With two EHR top 10 singles, Haddaway has proven to be mainland Europe's most radio-friendly artist. Although scoring well in the **Eurocharts Hot 100 Singles**, acts like **2 Unlimited** and **Culture Beat** have never enjoyed a similar popularity on EHR as Haddaway while **Ace Of Base** only collected one EHR top 10 hit with *All That She Wants*.

Apart from a good reception in Germany, *I Miss You* is collecting good playlist reports from EHR stations in the UK, Denmark, Belgium and Italy.

The EHR Top 40 chart is based on a weighted-scoring system. Songs score points by achieving airplay at M&M's EHR reporting stations, that target 12-34 year-old listeners with contemporary music fulltime or during specific dayparts. Songs in "A" rotation airplay receive more points than those in "B" rotation or more limited airplay exposure. Stations are weighted by market size and by the number of hours per week committed to the format. © BPI Communications BV

For all artists appearing on this chart, the Region Of Signing is North America.

German dance act **Culture Beat** score their third hit in **Border Breakers** and all three are featured in this week's chart: the worldwide smash *Mr. Vain* (still at number 24), *Got To Get It* (3) and the new single *Anything*, entering at number 20. *Anything* gets its best airplay outside the Central region in Italy (addition to the "A" list on three platinum stations) and, to a lesser extent, Belgium.

In the footsteps of *Slave To The Music* (and not "Rhythm" as we stated in our frontpage article in issue 50!), Dutch duo **Twenty 4 Seven** continue to score cross-regional impact with *Is It Love*. The song is reported by 11 stations outside the region of signing, Benelux, and especially Denmark and Sweden are the most receptive markets.

Although the **Border Breakers** chart is not as lively as the **EHR Top 40**, one great advantage is its potential to detect cross-regional airplay at a very early stage. In other words, artists may appear on this chart with a low number of total reporting stations, and they may even fall off the chart the week following, but for international managers, the chart can be of help in registering the first signs of crossborder airplay. One artist who is scoring modest impact outside his region of signing, but whose airplay levels can be a measure of future success, is Italian singer **Marco Masini** (**Dischi Ricordi**). His *Vaffanculo* (yes, "Fuck You", that is) is embraced by Madrid-based stations **Cadena 40 Principales**, **Onda Cera Musica** and **Cadena Dial**. According to our Italian stringer **Mark Dezzani**, *Vaffanculo* has a go at "nagging parents, power tripping record company bosses and critical journalists." You've been warned! **Machgiel Bakker**

The **Regional Crossover** charts track the cross-regional movement of product. The **Border Breakers** chart ranks the 25 most successful **Continental European** records making airplay impact outside their region of signing (airplay achieved in the original region is excluded from the calculations).

The second chart, **Channel Crossovers**, registers the airplay penetration of UK-signed artists in mainland Europe, while the third **Top 25**, the **Atlantic Crossover** chart, ranks the most successful North American artists according to regional airplay impact in Europe.

All three charts are non-format specific. "Region Of Origin" is not necessarily an indication of where the artist comes from but, more significantly, where he/she is signed. An increasing number of national artists are signed to "foreign" labels and M&M wants to acknowledge the crossover impact of such deals.

For each record, "Crossover Regions" are listed in order of first-time airplay appearance.
